

City of Aurora, Colorado

2017 Comprehensive Annual Financial Report

For the Year Ended December 31, 2017

Prepared by the Controller's Office

Aurora, Colorado

The city of Aurora is located on the eastern slope of the Rocky Mountains and lies in the six county Denver/Aurora metropolitan area (the metro area). The metro area is the economic center of the State of Colorado (the State). Aurora is the third largest city in the State, with an estimated population in 2017 of 364,328, approximately 13% of the metro area's population.

June 12, 2018

To the Honorable Mayor, City Council, and Citizens of the City of Aurora, Colorado:

We submit, for your information and review, the Comprehensive Annual Financial Report (CAFR) of the City of Aurora, Colorado (the city), for the year ended December 31, 2017.

This report consists of management's representations concerning the finances of the city. Consequently, management assumes responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed information is reported in a manner designed to present fairly the financial position and activities of the various funds of the city. The city has included all disclosures necessary to enable the reader to gain an understanding of the city's financial activities.

The City Charter requires an annual audit by independent auditors selected by the City Council. The goal of the independent audit is to provide reasonable assurance that the financial statements of the city for the fiscal year ended December 31, 2017, are free of material misstatement. The independent auditors, BKD, LLP, concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the city's financial statements for the fiscal year ended December 31, 2017 are fairly presented in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). The Independent Auditor's Report on the city's financial statements is included in the Financial Section of this CAFR.

The independent auditor of the financial statements of the city is required to complete the federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The results of the single audit are available in the city's separately issued Single Audit Report.

U.S. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The city's MD&A can be found immediately following the report of the independent auditors.

GOVERNMENTAL STRUCTURE

Aurora is located on the eastern slope of the Rocky Mountains and lies in the ten county Denver-Aurora-Lakewood metropolitan statistical area. The metropolitan area is the economic center of the State of Colorado. Aurora is the third largest city in Colorado with an estimated population in 2017 of 364,328. This is approximately 13 percent of the metropolitan area population. The city covers 164-square miles in Adams, Arapahoe and Douglas Counties. With 65 square miles of developed land and 99 square miles of undeveloped land (including 24 square miles of parks and open space), the city has room to grow. The city provides general government services including police, fire and emergency medical services, public works, water and wastewater service, parks and recreation facilities, libraries and golf courses.

The city utilizes the Council-Manager form of government, adopted in 1954. In 1961, Aurora became a Home Rule city by adopting its own charter. In 1993, the City Charter was amended to provide for a full-time Mayor, beginning January 1, 1996. The duties of the Mayor and the Council-Manager form of government were not changed. The eleven members of the City Council (including the Mayor, who is elected specifically to that position) are chosen biennially for staggered four-year terms in non-partisan elections. The City Manager is responsible for the administration of city operations and for carrying

out policy as set by the City Council. The City Manager serves at the pleasure of the Council. Also serving at the pleasure of the Council are three other appointees: the City Attorney, the Presiding Judge, and the Court Administrator. Each of these appointees is responsible for the administration of his or her respective operation, although the City Manager has overall responsibility for general management functions such as financial operations and personnel rules and regulations.

FINANCIAL CONDITION

The city has historically managed through economic cycles and is recognized as financially strong by independent bond rating agencies. City leaders manage a budget where revenues equal, if not exceed, expenditures. The city maintains a reserve for unanticipated major emergencies, but does not anticipate using these funds for the 2018 budget year. Aurora's citizens have been supportive of the city's efforts; they have approved bond issues for infrastructure and two ballot questions that have changed the City's Charter to exempt city fees and its main revenue source, sales and use tax, from state constitutional "Taxpayer Bill of Rights" (TABOR) revenue limits. The city also maintains internal and budget controls to ensure adequate oversight of city assets and expenditures.

As expected, 2017 proved to be a year of continued economic growth, translating into moderate revenue growth for the city. For 2017, General Fund revenue, net of transfers, increased 3.8% on a budgetary basis (2.0% per GAAP basis), above the growth experienced in 2016 as the state continued to experience economic expansion after the recession. The combination of sales and use tax is the most significant source of revenue, generating 66.6% of the total General Fund GAAP revenue, net of transfers, but is also the most susceptible to economic changes. Property tax represents an important secondary general revenue source that is typically less impacted than sales and use tax by changing economic conditions. Property tax collections were 9.5% of the total General Fund budgetary and 9.3% of GAAP revenues, net of transfers in 2017. Modest revenue growth is expected in 2018 with property tax collections maintaining positive growth, combined with increases in sales and use tax.

The city anticipates facing budget challenges in the future as expenses (at current service levels) are projected to grow faster than revenues. In light of these challenges, the city continues to examine options that increase revenues and those that decrease expenditures. The city expects to continue to adjust revenues and/or expenditures to maintain a balanced budget.

GROWTH AND DEVELOPMENT

The local economy continues to benefit from the state's strong economic performance and continued growth in population. As the economy matures, the city is anticipating modest General Fund operating revenue growth (not including building materials use tax, which typically is used for capital purposes) for 2018 and the long-range forecast. The level of development within the city impacts not only the growth of operating revenues, but revenues used for capital purposes including tap fees for new water and sewer connections. While 2017 was another year of moderate increases in operating revenues, primarily due to sales tax, in the long term the city is planning for continued modest growth rates.

With its business-friendly environment, available land and strong infrastructure, the city continues to attract housing and retail development. Major commercial and residential projects, including several Transit Oriented Developments, are currently under construction across the city with anticipated completion dates beginning in 2018. Current projects include The Point at Nine Mile, the Aurora Metro Center Station, Parkside at City Center, The Forum ~ Fitzsimons, Stapleton Aurora, housing at Stanley, Argenta, and Iliff Station. In addition, master plans are beginning to be approved for the area around the Gaylord Rockies Resort and Conference Center with the first project, Painted Prairie (56th and Picadilly Street) expected to begin construction in late 2018. These projects encompass a diverse range of development including single-family homes, townhomes, retail, rental units, hotel, senior living facility as well as parks and open space.

Another major development project in the planning stages is Aerotropolis, a 21,000-acre airport-anchored community for planned residential, retail, and industry space located just south of Denver International Airport. A regional transportation authority has been formed to raise funding necessary for the project's roads and infrastructure. The site includes the 2,900-acre Aurora Highlands master

planned community of homes, parks, offices, and shopping districts. The Aerotropolis project, which could rival the Denver Technological Center and downtown Denver's central business district, is expected to break ground soon although buildout is decades away.

To help ensure that development does not put undue burdens on the city, before any annexation or development is considered, landowners must agree to build or arrange construction of the required infrastructure. These up-front commitments routinely include the construction of water and sewer lines, roads, bridges, and drainage improvements. In many new developments, infrastructure is funded and constructed by special districts, which are local taxing entities formed by the landowners with the approval of the city. Landowners also must dedicate to the city groundwater rights they own, donate parcels for fire stations and schools, and preserve land for parks and open space.

As with almost all other Colorado cities, sales tax is the city's main revenue source. Aurora's retail is well positioned to capture retail sales as the city has a number of regional retail centers, including some on the city's borders. The city maintains a development related retail specialist position to help support and enhance the retail environment.

Colorado voters legalized marijuana in 2013 and on November 4, 2014, Aurora citizens passed a 2.0% sales tax, with the rate being allowed to increase or decrease as long as it does not exceed 10%, on retail marijuana products sold in Aurora and a 5.0% excise tax on bulk, wholesale marijuana. In 2017, the City Council approved an increase in the marijuana sales tax rate from 2.0% to 4.0% to support homeless programs. City Council has approved a maximum of 24 store licenses with 4 in each City Council Ward. As of December 31, 2017, 21 stores, 16 cultivations, 16 marijuana-infused product manufacturers, and one testing facility are open and operating within the city. In 2017 Aurora received \$6.5 million in marijuana tax revenue and projected revenues for 2018 are \$9.3 million. Revenues received from marijuana sales are funding construction of a new recreation facility, transportation improvements and programs to help address homelessness issues.

Aurora continues to make substantial investments in its water system to help meet the needs of a growing city. The Prairie Waters reuse system provides additional potable capacity, acting as the cornerstone of a water supply plan that will help meet Aurora's needs for decades. Prairie Waters also generates revenue by providing the backbone for the Water Infrastructure and Supply Efficiency (WISE) Partnership, a regional water supply project with Denver Water and 10 water systems in the south metro area. Aurora Water continues to seek innovative solutions to meet future demand, such as a substantial water purchase in Park County which also provides environmental benefits to the area, Wild Horse Reservoir, a large storage project expected to come online in the next decade, and an aquifer storage and recovery system being pilot tested to allow better management of our existing resources. Aurora Water continues to be nationally recognized, having won the US Water Prize and the Platinum Award for Utility Excellence. Aurora is the only water utility that has three water treatment facilities awarded the Phase IV "Excellence in Water Treatment" designation

The city is committed to providing its citizens high quality parks and recreation options by continuing to make investment in those areas. The renovated Moorhead Recreation Center added a large, 3-court gym, community rooms, teaching kitchen, indoor aquatic center featuring an indoor/outdoor water slide, enhanced fitness amenities and new locker rooms; the Center reopened in 2017. In addition, after an extensive public input process, the city is moving forward on the Aurora Central Recreation Center, located at Tower Road and East Vassar Place. Construction of the new approximately 55,000-square foot building began in 2017 and will be completed winter of 2018/spring of 2019. The Center will feature an aquatics area, gym, elevated walking/jogging track and fitness area along with a teaching kitchen, party rooms, and multi-purpose rooms.

Aurora has a number of key factors that position it well for future economic growth:

Military Facilities. Buckley Air Force Base, the city's largest employer and home to the 460th Air Base Wing and the Colorado Air National Guard, is an Air Force Space Command base that employs over 12,000 active duty, National Guard, civilian and contractor personnel. Another 6,000 employees – a third of Colorado's aerospace jobs – support Buckley's mission at over 20 aerospace companies including Raytheon, Boeing, Northrop Grumman and Lockheed Martin. Buckley Air Force Base

provides support for a wide variety of military and satellite-related activities including maintaining air operations, space-based missile warning capabilities, space surveillance operations, and space communications operations. Buckley Air Force Base serves more than 92,000 active duty, National Guard, Reserve and retired personnel throughout the Front Range community and provides nearly \$1 billion annual economic impact.

Transportation, Infrastructure and Light Rail. Aurora's proximity to Denver International Airport (DIA) and its strong transportation and mobility base provided by I-70, I-225 and E-470 facilitate population growth, and residential and commercial construction activity. A number of transportation projects help fuel this growth including the Regional Transportation District's (RTD) \$7.4 billion FasTracks program. FasTracks has brought to Aurora the University of Colorado A Line, a 22.8-mile commuter transit corridor between Denver Union Station and DIA, and the R line, a 10.5-mile light rail line running virtually the length of I-225 with ten stops in the city, including the Peoria Station junction with the University of Colorado A Line. The University of Colorado A Line opened April 2016 and the R line opened February 2017.

Anschutz Medical Campus and Fitzsimons Innovation Campus. Located on the 578-acre site of the former Fitzsimons Army Medical Center, the Anschutz Medical Campus and the Fitzsimons Innovation Campus are dedicated to bioscience, biotechnology, healthcare, medical education and advanced research – making it the largest academic health center in the Rocky Mountain region and one of the largest in the country. The Anschutz Medical Campus includes education facilities for physicians and other health professionals, and the University of Colorado Hospital and Children's Hospital Colorado, the primary adult and pediatric hospital partners of the University of Colorado School of Medicine. In addition, the state-of-the-art Rocky Mountain Regional Veteran's Administration Medical Center is currently under construction on the campus and is anticipated to open in late 2018. Fitzsimons Innovation Campus, recognized internationally for its medical research, offers opportunities to research and development companies from small start-ups to established industry leaders. While not expected to directly provide major new revenue to the city budget due to its tax exempt and incentivized development, the campus is a major economic engine for the city and surrounding area. With over 21,000 employees on the campus (anticipated to increase to 42,000 jobs at build-out), the impact to the state's economy is over \$5.4 billion annually.

Urban Renewal. The Aurora City Council and the Aurora Urban Renewal Authority (AURA) Board of Directors have common membership and actively work with the development community to eliminate blight and stimulate development and investment in the city's 15 urban renewal areas (URAs). Additionally, AURA's efforts are guided by the goals and objectives identified in the urban renewal plan adopted for each URA. Urban renewal and associated tax increment financing (TIF) areas have been major factors in important developments within each of the city's urban renewal areas. Examples of these efforts include activity within the Fitzsimons Boundary Area II, the Gaylord Rockies Conference Center, the Westerly Creek Village and the Nine Mile Station Urban Renewal Areas.

To stimulate future development in the area south of Colfax Avenue across from the Anschutz Medical Campus, the City Council created the Fitzsimons Boundary Area II Urban Renewal Area. On this site, the city and Corporex Colorado, LLC constructed a 242-room Hyatt hotel, the 30,000-square foot Hyatt Aurora-Denver Conference Center and a 506-space parking structure. The hotel is privately owned and the city owns the conference center and parking structure. AURA financed the conference center and parking structure through a bank loan, which will be paid back with tax increment proceeds. AURA has also negotiated with a private developer, Catalina Development Co., for a 397-unit, upscale midrise residential mixed use project with first floor retail/commercial space at the corner of East Colfax Avenue and Potomac Street called The Forum ~ Fitzsimons. This project, to be completed mid-2018, will be the city's first true transit oriented development.

The \$824 million Gaylord Rockies Resort and Conference Center, which broke ground late 2015, will enhance the economic vitality of the city by adding \$273.3 million to Colorado's economy and over 450,000 new visitors to the metro area annually. The much anticipated hotel and conference center near DIA will cover 1.9 million square feet and will have over 1,500 hotel rooms and more than 406,000 square feet of meeting and convention space on 85 acres. The resort will include a year-round indoor/outdoor Rocky Mountain waterpark experience for hotel guests. The project will bring over

10,000 construction jobs to Aurora and over 2,500 permanent jobs once open. When it opens in late 2018, the Gaylord will be the largest hotel in Colorado. As of December 31, 2017 over 633,000 room nights have been reserved through the year 2028 with 85 percent new to Colorado.

The Westerly Creek Village Urban Renewal Area is a recipient of an Environmental Protection Agency Brownfields Area-Wide Planning Pilot Program grant. The city initiated a community visioning process to create a noteworthy place to live, shop and dine and features Stapleton Aurora, a master planned residential community, and the Stanley Marketplace. The Stanley Marketplace, which opened in 2016 at 25th and Dallas streets, is a food-centric community-inspired 100,000 square foot marketplace in the former 22-acre Stanley Aviation campus. Once build out is completed, the project will feature 50 independently owned retail tenants ranging from bars and breweries to restaurants and shops. *Bon Appetit* named Annette, one of the restaurants within the Stanley Marketplace, one of the 50 finalists for American's Best New Restaurants 2017.

The City Council created the Nine Mile Station Urban Renewal Area to stimulate the redevelopment of the 21.5-acre site formerly known as Regatta Plaza. Demolition work began in 2016 and, upon completion, the multi-phased mixed use transit-oriented development, known now as The Point at Nine Mile Station, will feature more than 500 units of residential, 100,000 square feet of retail space and up to 250,000 square feet of commercial space.

OTHER INFORMATION

Awards – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the city for its comprehensive annual financial report for the year ended December 31, 2016. The Certificate of Achievement is a prestigious national award, which recognizes conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for one year. The city has received the certificate for thirty-one consecutive years. We believe that our current comprehensive annual financial report continues to meet the requirements of the Certificate of Achievement program and we are submitting it to the GFOA.

Acknowledgments – The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the staff of the Finance Department and of other city departmental staff who contributed information in the report. Finally, we wish to thank the Mayor and City Council for their continued support.

Respectfully submitted,

Jason Batchelor
Interim City Manager

Terri Velasquez
Finance Director

Aurora's Vision Statement

Aurora will be the best city in Colorado and an innovative leader in the region by:

- Creating great neighborhoods
- Emphasizing public safety and quality services
- Encouraging a high-quality and high-wage economic environment
- Supporting recreational, cultural, educational and community activities for our citizens

Christopher P. Morill

Executive Director/CEO

About the Certificate of Achievement for Excellence in Financial Reporting

For over a century, the Government Finance Officers Association of the United States and Canada (GFOA) has been dedicated to enhancing the professional management of governments for the public benefit. The GFOA's Certificate of Achievement for Excellence in Financial Reporting Program has been promoting the preparation of high quality financial reports since 1945. More than 4,200 governments of all levels (state and local), types (general-purpose and special-purpose), and sizes were awarded the Certificate of Achievement for fiscal years ended in 2016. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for one year.

The City of Aurora has received the Certificate for the last thirty-one consecutive years, including this most recent year, 2016 and for forty-one years in total, currently the highest number of certificates for any governmental entity in the State of Colorado. We believe that this, our 2017 comprehensive annual financial report continues to meet the requirements of the Certificate of Achievement Program and are submitting it to the GFOA for its consideration.

City of Aurora, Colorado

2017 COMPREHENSIVE ANNUAL
FINANCIAL REPORT

FINANCIAL SECTION

Page intentionally left blank

Independent Auditor's Report

Honorable Mayor and Members of City Council
City of Aurora, Colorado
Aurora, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Aurora, Colorado (the City), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Havana Business Improvement District (BID), the discretely presented component unit of the City. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for BID, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Honorable Mayor and Members of City Council
City of Aurora, Colorado

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension and other postemployment benefits information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund statements and schedules, local highway finance report, introductory, statistical, and other schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules and the local highway finance report (supplementary information) is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Honorable Mayor and Members of City Council
City of Aurora, Colorado

The introductory, statistical, and other schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

BKD, LLP

Denver, Colorado
June 12, 2018

Management of the city of Aurora, Colorado (the city) offers readers of the city's financial statements this overview and analysis of the basic financial statements of the city as of and for the year ended December 31, 2017. Readers should consider the information presented in this discussion and analysis in conjunction with additional information furnished in our letter of transmittal, which can be found on pages i-v of this report, and the city's financial statements, which begin on page 1.

Financial Highlights

Financial highlights are presented in this discussion and analysis to help with the assessment of the city's financial activities.

- The city's assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources at the end of 2017 by \$4.8 billion (*net position*). Of this amount, \$347.4 million, or 7.2%, was unrestricted and may be used to meet the city's ongoing obligations.
- Citywide net position increased \$244.5 million in 2017.
- At December 31, 2017, the city's governmental funds reported combined ending fund balances of \$303.9 million, an increase of \$65.5 million from the prior year. Approximately 54.0% of the fund balance is not restricted and is available for spending at the government's discretion. The fund balance, exclusive of restricted fund balance, is classified as follows: \$46.8 million committed, \$94.8 million assigned and \$22.5 million unassigned.
- The city's General Fund total revenues were over budget \$13.8 million and total expenditures were under budget by \$2.4 million during 2017.
- Capital improvement and capital outlay activity increased \$172.0 million during 2017.
- The city's total bonded and certificate of participation debt increased \$47.3 million during the year.

Overview of the Basic Financial Statements

The basic financial statements consist of a) citywide financial statements, b) fund financial statements and c) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Citywide Financial Statements - The citywide financial statements are designed to provide readers with a broad longer-term overview of the city's finances. While these statements assist in evaluating finances of the city in its entirety, city council and investors refer to the fund financial statements to make spending and borrowing decisions as the availability of resources is controlled at the fund level. The citywide statements use the accrual basis of accounting, which is similar to the accounting used by most private-sector businesses. Certain interfund activities, including interfund balances, transfers, and internal billings, are eliminated in the aggregation of data for the citywide statements. The citywide statements include not only the city itself, but also legally separate component units, entities for which the city is financially accountable. Accordingly, the citywide statements are divided into two groups, the "primary government" and "component units" (discretely presented). The primary government includes all activities of the city (including blended component units) except fiduciary funds. Fiduciary funds are not included in these statements because resources of these funds are not available to support city programs.

Activities of the primary government are aggregated into two activity types: governmental and business-type.

Governmental Activities reflect the basic services of the city including: judicial, police, fire, public safety communications, public works (streets), culture and recreation (parks, libraries, recreation services), economic development, community services and general government (administration and other activities). Governmental activities are primarily supported by taxes. Activities of the internal service funds are included in the governmental activities as services provided by these funds predominantly benefit governmental activities.

Business-type Activities include functions that are intended to recover all or a significant portion of their costs through user fees and charges. Business-type activities of the city include water, wastewater and golf course operations.

The citywide financial statements consist of a statement of net position and a statement of activities. These statements can be found on pages 1 through 3 of this report.

The *Statement of Net Position* presents information about the city's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases

or decreases in net position may serve as a useful indicator of whether the financial position of the city is improving or deteriorating.

The *Statement of Activities* provides information showing how the city's net position changed during the year. The statement of activities is in a format that presents expenses, revenues and net revenues by "function", a broad grouping of services provided to citizens. The format of this statement shows the extent to which a function is self-financing through user fees and other function-related revenues or if it is supported through taxes and other general revenues of the city.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that are segregated by external and internally adopted laws and agreements for specific activities or objectives. The city uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the city can be divided into three categories: governmental, proprietary and fiduciary.

Governmental funds account for essentially the same functions reported as governmental activities in the citywide financial statements. Unlike the citywide statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as balances of resources available at year-end. The governmental fund financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the city's programs. Because the fund financial statements do not encompass the long-term focus of the citywide statements, additional information is provided that reconciles the governmental fund financial statements to the citywide statements and explains the differences between them. The city has two major governmental funds: the General Fund and City Capital Projects Fund. The governmental fund financial statements can be found on pages 5 through 8 of this report.

The city maintains two types of *proprietary funds*: enterprise and internal service. Enterprise funds report the same functions as presented in the business-type activities on the citywide statements. The city has two major proprietary funds: the Water Fund and the Wastewater Fund. The Golf Fund is not a major fund but is presented in a separate column because it is the only nonmajor proprietary fund. Internal service funds are an accounting mechanism used to accumulate and allocate costs internally among the city's various functions. The city uses internal service funds to account for fleet maintenance and risk management. Because these services predominantly benefit government rather than business-type functions, they have been included within governmental activities in the citywide financial statements. The proprietary fund financial statements can be found on pages 10 through 15 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the city. Fiduciary funds are not reflected in the citywide financial statements because the resources of these funds are not available to support city programs. The fiduciary fund financial statements can be found on pages 17 and 18 of this report.

The *notes to the basic financial statements* provide additional information that is essential to a full understanding of the data provided in the citywide and the fund financial statements. The notes to the basic financial statements begin on page 19 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* highlighting various information for the city's defined benefit pension plans, funding progress for other postemployment benefits and a comparison of the General Fund's original and final budget to actual budgetary revenue and expenditures. Required supplementary information begins on page 85 of this report.

Citywide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the city, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$4.8 billion at the close of the fiscal year as shown in Chart 1.

The largest portion of the city's net position, \$4.4 billion reflects its investment in capital assets less the outstanding portion of the debt that was issued to acquire or construct those assets. The city uses these capital assets to provide services to citizens; consequently, these amounts are not available for future spending. Although the city's investment in its capital assets is reported net of related debt, it should be noted that the

resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Chart 1

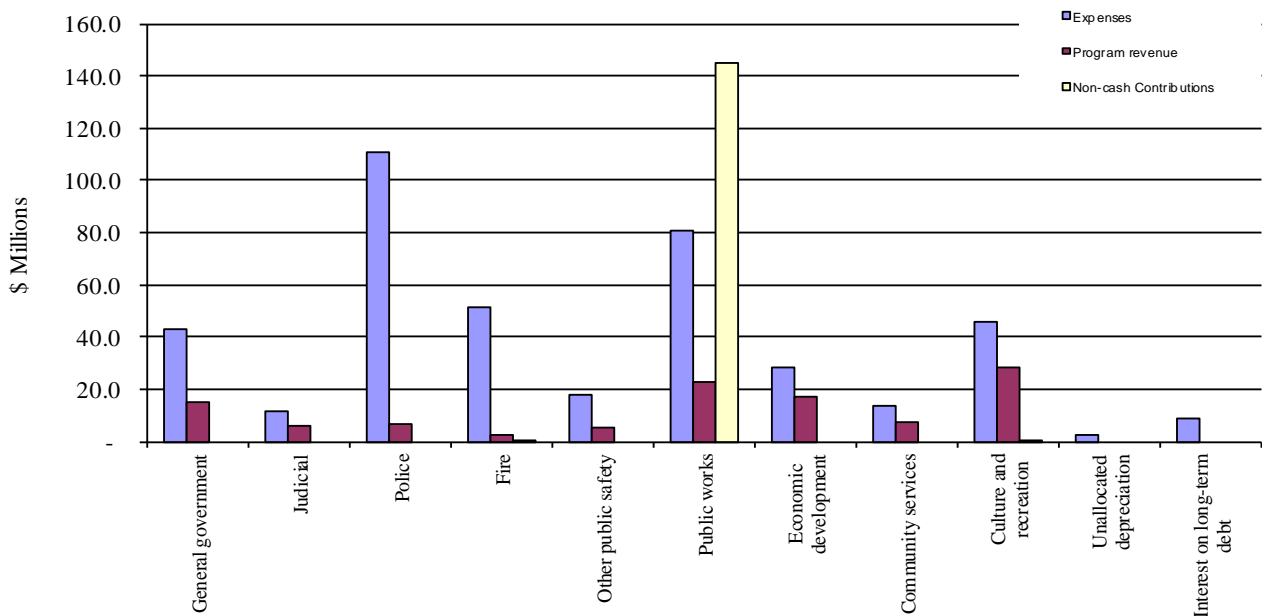

As shown in Chart 1, total restricted net position at the end of 2017 was \$87.0 million. This amount represents net resources where use is constrained by external requirements dictating how the funds are to be used. Restrictions result from grant requirements, legislation, agreements, or other requirements of the specific revenue source. The remaining net position of \$347.4 million is unrestricted. While there were no outside restrictions on these funds, city policies and budget plans limit the use of these amounts. Policy and budget plan limitations include: council policy reserve, enhanced development review program, commitment of surcharges to fund certain public safety programs, payment of long-term liabilities, and project-length appropriations.

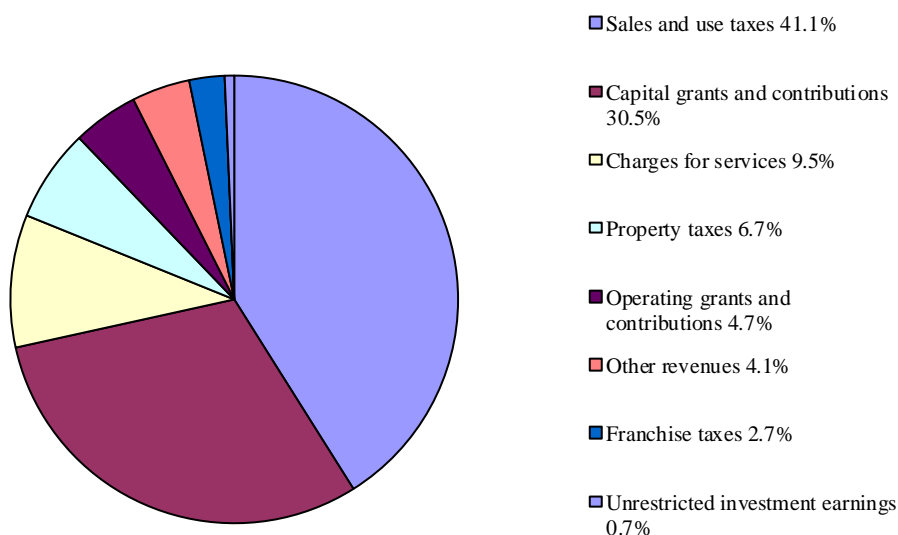

Governmental activities net position increased \$160.9 million. Contributing to the increase in total net position is the increase in net investment in capital assets of \$144.3 million that is primarily a result of increases in capital assets and unspent debt proceeds at year-end (included in current and other assets) offset by an increase in noncurrent liabilities due to debt issuances to fund a portion of the projects undertaken. The increase in capital assets of \$154.0 million included the addition of developer contributed roads due to continued development in the city, as well as construction either completed or in progress including the renovation of the Moorhead Recreation Center, the construction of the new Aurora Central Recreation Center and Fire Station 15, and other parks and open space improvements as well as road related projects.

Business-type activities net position increased \$83.7 million. Noncurrent liabilities decreased \$8.2 million as a result of principal payments on the Wastewater Fund's 2016 revenue refunding bonds as well as a decrease in the net pension liability in 2017 as required by Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment to GASB Statement No. 27* (GASB 68). Current and other assets increased \$66.6 million due to strong operating performance and building of reserves for upcoming projects. Capital assets increased \$18.0 million resulting from water rights and land purchases, water and sewer contributed mains and construction either completed or in progress for various water and sewer improvement projects including the Wemlinger and Griswold water purification facilities, the Alameda Avenue storm drainage improvements, the Baranmor ditch improvement project and other water and sewer improvement projects including the construction of new reservoirs. These increases were partially offset by accumulated depreciation. The net investment in capital assets increase corresponds to the increase in capital assets and the portion of the decrease in noncurrent liabilities related to its debt.

Chart 2**Expenses Financed through Program Revenues – Governmental Activities****Chart 3**

Revenues by Source – Governmental Activities**Chart 4**

Refer to Chart 2 for changes in net position. Charts 3 and 4 graphically illustrate information concerning governmental activities revenues and expenses while Charts 5 and 6 graphically illustrate information concerning business-type activities revenues and expenses.

Governmental activities changes in net position

Total revenues increased \$34.5 million or 6.4%. Capital grants and contributions increased \$10.1 million primarily due to an increase in developer contributions in the form of donated roads. Charges for services increased \$7.5 million primarily due to the recognition of collectible loans from federal funds to assist in renovation of housing and businesses. Sales and use tax increased \$6.7 million due to the continued moderate growth in the economy. Property tax increased \$2.2 million as development continued in the city. Other taxes increased \$4.0 million due to increased collections from tax audits. Unrestricted investment earnings increased \$2.3 million due to improved market performance of investments in 2017. Revenues in other areas were impacted similarly.

Total governmental activities expenses increased \$12.7 million or 3.2%. General government increased \$13.0 million. The primary drivers behind this increase were expenses incurred to support development across the city, new software subscriptions to enhance city operations and a loss related to the disposal of replaced E-911 equipment.

Business-type activities changes in net position

Total revenues for business-type activities decreased \$23.0 million or 8.0%. Capital grants and contributions decreased \$27.3 million largely due to a change in the recording process for contributed mains. In 2016, the process of capitalizing mains changed from a one year lag time to capitalizing mains in the year of contribution. 2016 capital grants and contributions included contributed mains for both 2015 and 2016 while 2017 only included contributed mains for 2017. This decrease was partially offset by an increase in charges for services of \$5.0 million due to increased water and wastewater usage during the year.

Total business-type activities expenses increased \$4.8 million or 2.7%. Wastewater operating expenses increased \$5.7 million primarily due to an increase in sewage treatment and disposal costs. This increase was partially offset by minimal decreases in both the Water and Golf Funds.

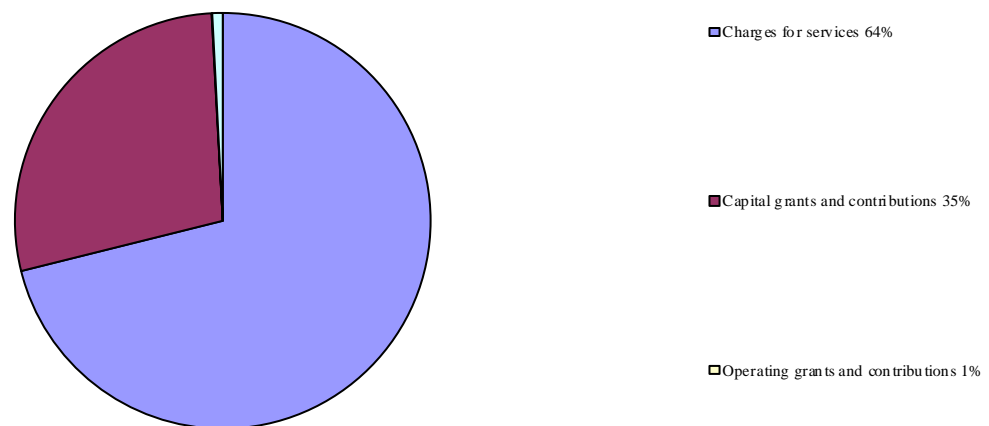

Chart 6

Financial Analysis of the Government's Funds**General Fund**

The General Fund is the main operating fund of the city. At the end of 2017, total fund balance for the General Fund was \$102.3 million. This amount includes: \$3.4 million restricted fund balance comprised primarily of the \$2.1 million moral obligation pledge on a Aurora Urban Renewal Authority revenue note's debt service reserve fund; \$33.6 million committed fund balance comprised mainly of the \$27.7 million 10% policy reserve; \$42.9 million assigned fund balance comprised primarily of \$26.2 million assigned to payment of long-term liabilities; and \$22.4 million for the unassigned fund balance operating reserve.

All of the unassigned General Fund balance is maintained as the "unassigned fund balance Operating Reserve". The Operating Reserve has a minimum target policy range of 1% to 3% of annual budgetary revenues and is intended to be spendable in limited circumstances as determined appropriate and necessary by City Council. City policy provides for restoring the Operating Reserve to those levels as quickly as feasible. The General Fund unassigned fund balance Operating Reserve was \$22.4 million at December 31, 2017 and \$20.1 million at December 31, 2016. The Operating Reserve is 6.8% of 2017 annual budgetary revenues or \$12.5 million above the 3% minimum target range specified by Council. Total General Fund funds available was 18.2% of total General Fund budgetary revenues in 2017, compared to 17.2% in 2016.

It is the city's policy to hold a minimum 10% of the General Fund's adjusted budgetary operating expenditures for the year in the General Fund committed reserves. General Fund adjusted budgetary operating expenditures, for purposes of calculating this 10% Policy Reserve, exclude capital and development related expenditures and expenditures related to funding two police officers per 1,000 citizens, which are funded with voter approved sales and use taxes. At the end of 2017, the 10% Policy Reserve balance meets the minimum 10% policy. The total of the General Fund's 10% Policy Reserve balance committed to reserves and the "Taxpayer Bill of Rights" (TABOR) Reserve balance restricted for emergencies was 10.3% of the General Fund's 2017 adjusted budgetary operating expenditures.

The TABOR Reserve is restricted for emergencies for fund balance purposes. This balance accounts for the emergency reserve required by TABOR, a State constitutional amendment (Note 20). TABOR specifies that local governments are permitted to use reserve funds for emergencies with the requirement that the reserve funds be restored to 3% of fiscal year spending in the following fiscal year. The city management believes it is in compliance with the provisions of the TABOR amendment at December 31, 2017.

General Fund Budgetary Highlights

General Fund revenues for 2017 were greater than budget by \$13.8 million primarily due to growth in sales and use tax revenue resulting from the continued moderate growth in the economy. Other tax revenues were impacted similarly.

For 2017, General Fund revenue, net of transfers, increased 3.8% on a budgetary basis (2.0% per GAAP basis), above the growth experienced in 2016. The combination of sales and use tax is the most significant source of revenue, generating 66.6% of the total General Fund GAAP revenue, net of transfers. Property tax represents an important secondary general revenue source. Property tax collections were 9.5% of the total General Fund budgetary and 9.3% of GAAP revenues, net of transfers, in 2017.

General Fund expenditures were \$2.4 million under budget. Ending 2017 funds available were \$22.4 million higher than original budget and \$16.2 million higher than the final budget. The city expects to maintain its financial condition through continued control over the growth of city expenditures and through evaluation of options for enhancing revenues.

A review of actual expenditures compared to appropriations, as well as original budgets compared to final budgets, yielded no significant increases or decreases with one exception. The original budget for non-departmental was \$52,980,413 while the final budget increased to \$61,159,333; actual expenditures were \$61,122,454. The increase in budget was mainly attributable to supplemental appropriations for incentive agreement related payments, street light study and an additional transfer to the Capital Projects Fund to account for capital-related revenue received in 2017 over the original budget amount.

Capital Assets and Debt Administration

Capital Assets

The city's capital assets for its governmental and business-type activities as of December 31, 2017 were valued at \$5.1 billion (net of accumulated depreciation) and include: land and water rights, buildings and improvements, infrastructure, machinery and equipment and construction in progress. The city uses these assets to provide services to its citizens. Additional information on the city's capital assets can be found in the notes to the basic financial statements (Note 7).

Chart 7

Major capital asset activity for the year ended December 31, 2017 included the following:

Governmental Activities Capital Assets

- Land and water rights increased primarily as a result of the value of the land under 2017 developer contributed roads of \$12.1 million and commercial easements valued at \$3.7 million. Additional land purchases and easements contributed to the remainder of the increase.
- Buildings and improvements decreased \$5.9 million primarily as a result of current year additions to accumulated depreciation of \$6.9 million. This decrease was partially offset by the current year transfer from construction in progress of \$1.0 million for the Fitzsimons Gym renovation.
- Infrastructure increased as a result of numerous projects and improvements undertaken across the city. The most significant items included the addition of \$125.9 million for developer contributed roads, \$2.7 million for a pedestrian bridge and \$26.9 million of completed projects transferred from construction in progress. These projects included \$17.7 million for street overlays, \$3.0 million for the E-911 system upgrades and \$1.3 million for traffic signals. Other parks and open space improvements, as well as road and alley paving projects, totaling \$4.9 million were also completed in 2017. This increase was partially offset by the current year additions to accumulated depreciation of \$42.5 million.
- Machinery and equipment increased \$8.6 million mainly from the transfer from construction in progress of \$13.5 million that primarily included equipment associated with the E-911 upgrade. An additional \$5.2 million in additions, including a pumper engine and aerial ladder for \$1.5 million, occurred across the city and \$2.8 million in transfers occurred between the General Fund and the Wastewater Fund for street sweepers. This increase was partially offset by the current year additions to accumulated depreciation of \$10.0 million. The remaining decrease occurred as a result of the citywide inventory and the disposal of obsolete assets.
- Construction in progress increased due to \$63.1 million in capital project costs incurred in 2017 including \$17.7 million for street overlays, \$6.2 for the Moorhead Recreation Center renovation, \$5.8 million for the Central Recreation Center, \$5.4 million for Fire Station 15 and 16, \$5.1 million for the Police District 2 renovation, \$3.3 million for light rail station improvements, \$1.3 million for traffic signals and \$1.2 million for the median pilot program. In addition, other parks and open space projects, as well as other projects across the city, totaling \$17.1 million also incurred project costs in 2017. The increase was partially offset by completed projects of \$41.4 million that were transferred to other capital asset categories including machinery and equipment, buildings and infrastructure in 2017.

Business-type Activities Capital Assets

- The purchase of \$1.3 million in Union Ditch water rights accounted for half of the land and water rights increases in 2017. The remainder of the increase was due to the additions to Wild Horse Reservoir, Cherry Creek spillway easements and New Brantner water rights as well as other smaller water projects.

- The buildings and improvements decreased as a result of additions to accumulated depreciation of \$12.7 million and the disposal of \$0.9 million in assets including \$0.7 million related to the Abilene Lift Station.
- Infrastructure increased mainly due to transfers from construction in progress for various projects including \$13.9 million for the Baranmor Ditch improvement project, \$9.0 million for Alameda storm crossing improvements, \$3.2 million for Otero Pipeline project, \$2.8 million for interceptor rehabilitation project, \$2.6 million for raw water rehabilitation, \$1.5 million for lift station force main rehabilitation, and \$1.5 million for various other water and sewer improvements. Also, water and sewer mains valued at \$28.2 million were contributed from developers. Infrastructure decreased \$24.0 million through additions to accumulated depreciation.
- Machinery and equipment decreased \$7.9 million as a result of additions to accumulated depreciation of \$7.1 million and transfers/disposals of \$4.0 million, including \$2.8 million in transfers occurred between the Wastewater Fund and the General Fund for street sweepers. The decrease was partially offset by additions of \$3.2 million mainly consisting of heavy equipment and vehicles.

Debt Administration

At the end of 2017, the city had total bonded debt of \$466.7 million and \$173.1 million in certificates of participation (COPs). COPs are issued for particular projects and are repaid from lease payments made by the city for use of the acquired property. Aurora Capital Leasing Corporation (ACLC), a blended component unit, issues the COPs. Outstanding debt by activity at December 31, 2017, and 2016 was as follows:

Comparative Schedule of Outstanding Debt December 31, 2017 and 2016 (in thousands)

	Primary Government								
	Governmental Activities			Business-type Activities			Citywide Totals		
	2017	2016	Change	2017	2016	Change	2017	2016	Change

Chart 8

Citywide net bonded and COP debt increased \$47.3 million during 2017. New debt issuances included: \$0.6 million of general obligation bonds for the Cobblewood street project, \$28.9 million for the 2017 Certificates of Participation (COPs) for the Central Recreation Center and \$27.7 million for the 2017B COPs for three fire stations. These increases were partially offset by scheduled principal payments of \$3.2 million in bonded debt payments and \$6.7 million in COP payments.

The city's most recent debt ratings for revenue bonds were AA+ by both Standard & Poor's and Fitch Ratings for the Series 2016A First Lien Water Improvement Revenue Refunding Bonds. Prior to the refunding, and during their normal surveillance, the city's Wastewater Fund's 2006 revenue bonds were upgraded to AAA by Fitch Ratings in July, 2016. The most recent debt ratings for Certificates of Participation were Aa2 by Moody's Investors Service, AA by Standard & Poor's and AA- by Fitch Ratings.

The City Charter imposes a limit upon general obligation debt (other than debt issued for water purposes) of 3% of the assessed value of property subject to city general property tax. Additional information on the city's legal debt margin can be found in the Statistical Section of this report, Exhibit A-16, and additional information on the city's debt can be found in the notes to the basic financial statements (Note 8).

Economic Factors and Rate Increases

- For 2017, the average annual local unemployment rate for Denver-Aurora-Lakewood was at 2.6%. This rate compares favorably to the state's average unemployment rate of 2.8% and the national unemployment rate of 4.4%.
- Overall the number of new residential, multi-family and commercial permits issued for the city in 2017 increased 21.0% over last year.
- Water, wastewater, and storm drain user rates will increase 0.0%, 4.0% and 3.0%, respectively, in 2018 to fund operating expenses and system improvement needs.

Requests for Information

This financial report is designed to provide a general overview of the city's finances. Questions concerning the information provided in this report or other financial information should be addressed to the Controller's Office, City of Aurora, Colorado, 15151 East Alameda Parkway, Suite 5700, Aurora, Colorado 80012-1555 or telephone 303-739-7800.

Basic Financial Statements

GOVERNMENTAL FUNDS

Major governmental funds include the General Fund and any governmental fund that comprises 10% or more of total governmental fund classification (assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenditures) and at least 5% of the governmental and enterprise fund totals for the same classification. The General Fund and the City Capital Projects Fund are considered to be the only major governmental funds.

MAJOR GOVERNMENTAL FUNDS

General Fund

The General Fund accounts for taxes and other resources traditionally associated with government and the operations of the city that are financed from these resources.

City Capital Projects Fund

The City Capital Projects Fund accounts for financial resources used for the construction and acquisition of major capital projects such as streets, parks, lightrail, information systems, and city facilities. Funding sources include General Fund transfers and participation revenues from outside sources.

Nonmajor governmental funds

Nonmajor governmental funds are comprised of all nonmajor special revenue funds, debt service funds and capital projects funds.

CITY OF AURORA, COLORADO

GOVERNMENTAL FUNDS

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE CITYWIDE STATEMENT OF NET POSITION

DECEMBER 31, 2017

Amounts reported for governmental activities in the statement of net position (see page 1) are different because:

Total fund balance - governmental funds (see page 5)	\$	303,877,809
The Fanfare interfund loan between the AURA Debt Service Fund and the Water Fund is eliminated. As this loan crosses between governmental activities and business-type activities at citywide, this amount is recorded on the internal balances line.		
AURA Debt Service Fund - liability		(4,000,000)
Water Fund - asset		4,000,000
The internal balances due to the governmental activities from the business-type activities result from the allocation of the cumulative internal service fund loss.		1,956,785
The Regatta Plaza interfund loan between the General Fund and the AURA Debt Service Fund is eliminated.		
General Fund - asset		21,500,000
AURA Debt Service Fund - liability		(21,500,000)
The net pension asset is not available to pay current period expenditures and, therefore, is not recorded in the funds. (see Note 13)		3,876,142
The interest rate cap asset is not available to pay current period expenditures and, therefore, is not recorded in the funds. (see Note 6)		7,359
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds. Less \$400,050 internal service fund capital assets.		2,907,448,713
Deferred outflow of resources is amortized over future periods and is not recorded in the funds. (see Note 9)		53,806,545
Pollution remediation obligation is not due and payable with current expendable financial resources and, therefore, is not recorded in the funds. (see Note 19)		(95,083)
Accounts payable are adjusted for interest payable on bonds, which is not paid in the current period and, therefore, not recorded in the funds.		(1,091,621)
Deferred inflow of resources from tax audit receivables, notes receivable, and special assessments have been recognized as revenue at citywide. (see Note 9)		9,563,940
Deferred inflow of resources related to pensions and interest rate cap is amortized over future periods and is not recorded in the funds. (see Note 9)		(6,661,482)
Noncurrent liabilities including bonds, certificates of participation, accrued compensated absences, and the net pension liability are not due and payable in the current period and therefore, are not recorded in the funds. (see Note 8)		
Due within year -		
Due within one year on citywide statement of net position	23,444,004	
Internal service fund current portion long-term liabilities	(6,200,031)	
Funded portion of accrued compensated absences reclassified from accounts payable in the funds to short term debt at citywide.	<u>(826,696)</u>	(16,417,277)
Due beyond one year -		
Due beyond one year on citywide statement of net position	369,790,392	
Internal service fund due beyond one year	<u>(6,333,281)</u>	(363,457,111)
Internal service funds are used by the city to accumulate and allocate fleet management and risk management costs to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the citywide statement of net position as they predominately benefit governmental activities.		5,355,743
Net position of governmental activities (see page 1)	\$	<u><u>2,898,170,462</u></u>
See notes to the basic financial statements.

CITY OF AURORA, COLORADO

GOVERNMENTAL FUNDS

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES TO THE CITYWIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2017**

Amounts reported for governmental activities in the statement of activities (see page 2 and 3) are different because:

Net change in fund balances - total governmental funds (see page 7)	\$ 65,532,350
Sales and use tax audit revenue is recorded at citywide since the receivable amount is known, however it does not provide current financial resources and, therefore, is reported as revenue in the funds when collected.	
Amounts recognized citywide in the current year were less than amounts collected in the current year.	(123,332)
Charges for services generated internally are eliminated at citywide.	
Charges for services - revenue	(6,681,624)
Charges for services - expenditures	6,681,624
The change in special assessment revenue, a decrease of \$206,837, and notes receivable, an increase of \$7,010,839, recognized as deferred inflow of resources in the funds, is recognized as revenue at citywide.	6,804,002
The change in fines and forfeitures revenue, loan repayments and other revenue, recognized as deferred inflow of resources in the funds, is recognized as revenue at citywide.	76,630
Street infrastructure donated by developers and easement infrastructure are recorded as revenue at citywide, however they are not a current financial source and, therefore, not recorded in the funds.	142,541,815
Donated capital assets are recorded as revenue at citywide, however they are not a current financial source and, therefore, not recorded in the funds.	2,903,002
Certain expenses in the citywide statement of activities do not require the use of current financial resources and, therefore, are not recorded in the funds.	
Change in OPEB obligation (see Note 8)	231,421
Change in accrued compensated absences, less internal service funds	(997,253)
Change in aid to agencies	(52,066)
Change in technical services	46,256
Pension expense is recognized in the fund statements based on employer contributions and in the citywide statement of activities on changes in certain pension deferrals and other pension-related items excluding employer contributions.	(3,781,747)
Debt service payments consume current financial resources and are included as expenditures in the funds. At citywide the payments are recorded as a reduction to long-term liabilities. The accrual adjustment for debt service interest and the amortization of debt discounts, premiums and loss on refunding are made at citywide only.	
Repayment of principal	10,955,626
Accrued interest	(401,454)
Amortization of premium and discount	851,922
Amortization of loss on refunding	(526,697)
Capital outlay is reported in the funds as expenditures but are capitalized at citywide. Depreciation does not require the use of current financial resources and, therefore, is not reported in the funds.	
Capital outlay (see Note 7 less roads and easements, donated capital assets and internal service funds)	68,396,553
Depreciation (see Note 7 less internal service funds depreciation)	(59,403,545)
Capital asset transfers from enterprise funds (\$3,721,851) and to internal service funds (\$19,618)	3,702,233
Proceeds from capital leases and notes payable are recorded in the funds but have no affect on net position.	(72,190,364)
Disposal of capital assets proceeds are recorded in the funds while the gain from the disposal is recorded at citywide and includes the write-off of the carrying value of the related capital asset.	(4,156,533)
Internal service funds are used by the city to accumulate and allocate fleet management and risk management costs to individual funds. The change in net position of the internal service funds are included in governmental activities in the citywide statement of net position as they predominately benefit governmental activities.	
Governmental - type	312,208
Business - type	136,404
Increase in net position of governmental activities (see page 3)	<u>\$ 160,857,431</u>

See notes to the basic financial statements.

Basic Financial Statements

PROPRIETARY FUNDS

Major proprietary funds are enterprise funds that comprise 10% or more of total enterprise fund classification (assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenses) and at least 5% of the combined governmental and enterprise fund total for the same classification.

Enterprise funds account for operations that are financed and operated in a manner similar to private business where costs are predominantly supported by user charges or where management has decided periodic determination of revenues, expenses, and/or change in net position is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The Water Fund and the Wastewater Fund are major proprietary funds.

MAJOR PROPRIETARY FUNDS

Water Fund

The Water Fund accounts for the acquisition of water and water rights and for the operation and maintenance of the water plants and distribution systems.

Wastewater Fund

The Wastewater Fund accounts for the systems and operations used in treating and disposing of wastewater from sanitary wastewater and storm drain activities.

NONMAJOR PROPRIETARY FUND

Golf Fund

The Golf Fund accounts for the operation and maintenance of city owned or operated golf courses.

CITY OF AURORA, COLORADO

PROPRIETARY FUNDS

**RECONCILIATION OF THE PROPRIETARY FUNDS STATEMENT OF NET POSITION TO THE CITYWIDE
STATEMENT OF NET POSITION
DECEMBER 31, 2017**

Amounts reported for business-type activities in the statement of net position (see page 1) are different because:

Total net position - proprietary funds (see page 10)	\$ 1,925,864,180
--	------------------

The current and long-term portions of the Murphy Creek interfund loan between the Wastewater Fund and the Golf Fund are eliminated.

Wastewater Fund - asset	(3,634,000)
Golf Fund - liability	3,634,000

The Fanfare interfund loan between the AURA Debt Service Fund and the Water Fund is eliminated. As this loan crosses between governmental activities and business-type activities at citywide, this amount is recorded on the internal balances line.

AURA Debt Service Fund - liability	4,000,000
Water Fund - asset	(4,000,000)

The internal balances due to the governmental activities from the business-type activities result from the allocation of the cumulative internal service fund loss.	(1,956,785)
---	-------------

Net position of business-type activities (see page 1)	<u><u>\$ 1,923,907,395</u></u>
---	--------------------------------

See notes to the basic financial statements.

Basic Financial Statements

FIDUCIARY FUNDS

Fiduciary funds are used to report assets held for others in a trustee or agency capacity. Fiduciary funds are not available to support city programs and are therefore not included in the citywide financial statements.

Pension Trust Funds

Pension trust funds account for the activities and accumulation of resources to pay retirement benefits for employees, elected officials and council appointees. The pension trust funds are comprised of the General Employees' Retirement Plan Fund (GERP) and the Elected Officials' and Executive Personnel Defined Benefit Plan Fund (EOEP).

Agency Funds

Agency Funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds. The agency fund is comprised of the Payroll Clearing Fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The City of Aurora (the city) is a home-rule local government governed by an elected eleven-member council. These financial statements include the city and its component units. A component unit is a legally separate organization for which the city is considered financially accountable or whose exclusion would make the city's financial statements misleading or incomplete. Blended component units, although legally separate, are in substance, part of the city's operations. Therefore, data from these organizations are included with data of the primary government. Discrete presentation refers to presenting financial data of the component unit in a column separate from that of the primary government.

1. Discretely Presented Component Unit

Havana Business Improvement District (Havana BID) – The Havana BID was organized by the City Council on July 21, 2007 for the purpose of enhancing the economic vitality of the Havana Street corridor. It is a quasi-municipal corporation and political subdivision of the State of Colorado with all powers and responsibilities granted to business improvement districts by Title 31, Article 25, Part 12 of the Colorado Revised Statutes. The City Council appointed all the initial members of the Havana BID Board of Directors, which are not substantially the same as the City Council and the BID does not primarily benefit the city government. The city is able to impose its will on the BID as its operating plan and budget are approved by City Council. The Havana BID is a discretely presented component unit of the city. An election was held in November 2007 authorizing the Havana BID to levy property taxes. Separately issued, audited financial statements are available by contacting the Havana BID at 337 Oswego Street, Aurora, Colorado 80010 or telephone (303) 360-7505. Additional information is available online at www.onhavanastreet.com.

2. Blended Component Units

Aurora Capital Leasing Corporation (ACLC) – ACLC was organized as a not-for-profit corporation in 1993 to finance capital assets of the city. ACLC is a component unit because the City Council appoints the governing board and ACLC is fiscally dependent upon the city. ACLC is a blended component unit because it provides services solely to the city. ACLC financial statements consist of a debt service fund and a capital projects fund. Capital assets and long-term debt for ACLC are included in the citywide statement of net position. There are no separately issued financial statements for ACLC.

Aurora Urban Renewal Authority (AURA) – AURA was formed by action of the City Council in 1981, pursuant to Part 1 of Article 25, Title 31, of the Colorado Revised Statutes. AURA has various expressed powers including the power to: undertake urban renewal projects, mortgage, sell or dispose of property, borrow money, accept grants, and issue tax-increment and other forms of securities. From time to time, the City Council has determined the existence of blighted conditions in the city and designated Urban Renewal Areas. AURA is a component unit because its exclusion would make the city's financial statements misleading. AURA is a blended component unit because AURA's governing body is the same as the City Council and it provides specific financial benefits solely to the city. AURA financial statements consist of a general fund, a debt service fund, and a capital projects fund. The AURA general fund is presented in these financial statements as a special revenue fund. Noncurrent debt and noncurrent assets of AURA are included in the citywide statement of net position. There are no separately issued financial statements for AURA.

The General Improvement Districts (GIDs) – Three separate fence GIDs, a sewer line GID, a conference center GID, and a street GID have been created by action of registered voters in their respective neighborhoods to construct masonry fences and sewer line and street improvements financed by the issuance of general obligation bonds (repaid with property taxes assessed on their respective neighborhoods). The conference center GID currently has no debt outstanding. Each GID is a blended component unit because its governing body is the same as the City Council and it provides financial benefits solely to the city. The general fund for each GID is reported in the financial statements as a separate special revenue fund. The noncurrent debt of each respective GID is included in the citywide statement of net position. There are no separately issued financial statements for any of the GIDs. The six GIDs are as follows:

Cherry Creek Fence General Improvement District (GID) – Cherry Creek Fence GID was formed by action of registered voters of the Cherry Creek Racquet Club neighborhood in 2007.

Meadow Hills Fence General Improvement District (GID) – Meadow Hills Fence GID was formed by action of registered voters of the Meadow Hills neighborhood in 2008.

Peoria Park Fence General Improvement District (GID) – Peoria Park Fence GID was formed by action of registered voters of the Peoria Park neighborhood in 2008.

Pier Point 7 Sewer General Improvement District (GID) – Pier Point 7 Sewer GID was formed by action of registered voters of the Pier Point 7 neighborhood in 2009.

Aurora Conference Center General Improvement District (GID) – Aurora Conference Center GID was formed by action of registered voters in 2011.

Cobblewood Street General Improvement District (GID) – Cobblewood Street GID was formed by action of registered voters of the Cobblewood neighborhood in 2016.

3. Fiduciary Component Units

General Employees' Retirement Plan (GERP) – GERP was created to provide retirement benefits to career service and executive personnel. It has a separate, independent board that administers the plan. Three of the seven board members are appointed by City Council. GERP is a component unit because it is funded by contributions from the city and city employees, thus the city is considered to have a financial burden because it is legally obligated, or has otherwise assumed the obligation, to make such contributions, and its exclusion would make the city's financial statements misleading. GERP is included in this report as a pension trust fund in the fiduciary fund statements. GERP is not included in the citywide statements because its assets are not available to finance city programs. Separately issued, audited financial statements are available online at www.auroragerp.qwestoffice.net or by contacting GERP at 12100 East Iliff Avenue, Suite 108, Aurora, Colorado 80014 or telephone (303) 368-9160.

Elected Officials' and Executive Personnel Defined Benefit Plan (EOEP) –EOEP was created in 2001 to provide retirement benefits to elected officials and executive personnel. As required by city code, a city executive serves as plan trustee and plan administrator. EOEP is a component unit because it is funded solely by contributions from the city, thus the city is considered to have a financial burden because it is legally obligated, or has otherwise assumed the obligation, to make such contributions, and because its exclusion would make the city's financial statements misleading. EOEP is included in this report as a pension trust fund in the fiduciary fund statements. EOEP is not included in the citywide statements because its assets are not available to finance city programs. There are no separately issued financial statements for EOEP.

4. Joint Venture

Aurora-Colorado Springs Joint Water Authority (ACSJWA) – ACSJWA was formed in 1983, by contract, between the city and the city of Colorado Springs, Colorado, for the purpose of developing water resources, systems, or facilities in whole or in part for the benefit of the two cities. The council of each city appoints three directors to the board. The ACSJWA must obtain approval from both cities before proceeding with any new project. Prior approval is not required for operating and maintenance expenses related to a previously approved project. To date, the cities have approved one project, the construction and operation of a pipeline to transport raw water. Construction was financed through revenue bonds. The city has a 1/3 participation share and Colorado Springs has a 2/3 participation share in the project.

The city's share of the ACSJWA is accounted for in the Water Fund using the equity method. The Water Fund is a major proprietary fund and business-type activity. Separately issued, audited financial statements for ACSJWA are available at Colorado Springs Utilities, P.O. Box 1103, Mail Code 0929, Colorado Springs, Colorado 80947-0929 or telephone (719) 668-8550.

B. Citywide and Fund Financial Statements

The financial statements of the city are prepared in accordance with accounting principles applicable to governments, which are generally accepted in the United States of America (U.S. GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing U.S. governmental accounting and financial reporting principles.

The citywide financial statements (i.e., the statement of net position and the statement of activities) provide financial information about the city as a whole (the primary government and its component unit). Governmental activities, which

are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from a legally separate component unit for which the government is financially accountable.

The *statement of activities* demonstrates the extent to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges for services; 2) program-specific operating grants and contributions; and 3) program-specific capital grants and contributions. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from citywide reporting as the assets are not available to finance city operations.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The citywide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund, internal service fund, and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. The city considers revenues, other than grants, to be measurable and available if collected within two months after year-end. Grants are considered measurable and available if 1) they are collected within one year after year-end and 2) all eligibility requirements, including incurring allowable costs, have been met. Property taxes are recognized as revenue in the year for which they are levied (the year subsequent to the levy year), and are reported as a receivable and deferred inflow of resources in the year levied, as an enforceable legal claim occurs at this time. Revenues susceptible to accrual under the modified accrual basis include fines, surcharges, intergovernmental, grants, interest and the following taxes: property, sales, use, lodgers, occupational privilege, franchise, and specific ownership tax. All other revenues are considered measurable and available only when cash is received. Expenditures are recorded when the related liability is incurred, with the exception of principal and interest on long-term debt and compensated absences, which are recognized when matured.

When both restricted and unrestricted resources are available for use, spending is determined on a case by case basis but it is generally the city's intent to use restricted resources first, then unrestricted resources as needed.

The city reports the following major governmental funds:

The *General Fund* accounts for taxes and other resources traditionally associated with government and the operations of the city that are financed from those resources.

The *City Capital Projects Fund* accounts for financial resources used for general government infrastructure and facilities, including streets, information systems, and transportation.

The city reports the following major proprietary funds:

The *Water Fund* accounts for the acquisition of water and water rights and for the operation and maintenance of reservoirs, wells, water treatment plants and distribution systems.

The *Wastewater Fund* accounts for the systems and operations used in treating and disposing of wastewater from sanitary wastewater and storm drain services.

Additionally, the city reports the following nonmajor funds:

Special Revenue Funds account for revenues that are restricted or committed for a specific purpose. They also include the general fund of blended component units. The city has eighteen active special revenue funds at December 31, 2017: Gifts and Grants, Development Review, Marijuana Tax Revenue, Community Development, Enhanced E-911, Conservation Trust, Parks Development, Open Space, Recreation Services, Cultural Services, Parking and Mobility, Cherry Creek Fence GID, Meadow Hills Fence GID, Peoria Park Fence GID, Pier Point 7 Sewer GID, Aurora Conference Center GID, Cobblewood Street GID and AURA General Fund.

Debt Service Funds account for the accumulation of resources and payments of principal, interest and fees related to special assessments, revenue bonds and certificates of participation except those accounted for in proprietary funds. The city has three debt service funds: Special Improvement District (SID) Debt Service (includes the 1-10 Dam East Fence special improvement district), AURA Debt Service and ACLC Debt Service.

The *Capital Projects Funds* account for resources allocated for the acquisition or construction of capital projects except those financed by special revenue or proprietary funds. The city has two nonmajor capital projects funds: the AURA Capital Projects Fund and ACLC Capital Projects Fund.

The *Golf Fund* accounts for the operations and maintenance of city owned or operated golf courses. The Golf Fund is a nonmajor proprietary fund.

Internal Service Funds are used to account for resources calculated on a cost recovery basis and provided by other city funds for centralized acquisition of supplies and services. The city has two internal service funds: Fleet Management and Risk Management.

Pension Trust Funds account for the accumulation of resources and the payment of retirement benefits to qualified employees. The city has two pension trust funds: the city of Aurora General Employees' Retirement Plan (GERP) and the city of Aurora Elected Officials' and Executive Personnel Defined Benefit Plan (EOEP).

The city has one *agency fund*. The Payroll Clearing Fund accounts for the consolidation of payroll liabilities (taxes, pensions, insurance etc.) after the related payroll expenditures are recorded into the appropriate funds.

Program revenues are those that are derived directly from the program itself. Program revenues are divided into three groups: charges for services, program-specific operating grants and contributions, and program-specific capital grants and contributions. Charges for services are exchange or exchange-like transactions including: fees, licenses, permits, and special assessments. Program-specific grants and contributions include revenues arising from mandatory and voluntary nonexchange transactions with other governments, private organizations or individuals where monies are required by the grantor/contributor to be used for a particular program or activity. Program-specific grants and contributions that are required to be used to purchase or construct capital assets are shown in the capital grants and contributions column. All other program-specific grants and contributions are shown as operating revenues. Water and Wastewater capital grants and contributions include tap and annexation fees, which are required to be used for the construction of water and wastewater capital assets.

General Revenues include: all taxes levied by the city regardless of their purpose; unrestricted investment income; and multi-purpose or non-specific grants and contributions.

The proprietary fund statement of revenues, expenses and changes in net position separately presents revenues and expenses that are directly related to the service provided by the fund as "operating." Operating revenues are primarily charges for services (exchange or exchange-like transactions for water, wastewater and golf services). Golf operating revenues also include sales of merchandise. Operating revenues for internal service funds are charges for services provided to other funds and departments. All other revenues in the proprietary funds are reported as nonoperating. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, claims losses, and depreciation on capital assets. All other expenses are reported as nonoperating.

D. Deferred Inflows and Outflows of Resources

A deferred inflow of resources is an acquisition of net position by the city that is applicable to a future reporting period and a deferred outflow of resources is a consumption of net position by the city that is applicable to a future reporting period. Both deferred inflows and outflows are reported in the statement of net position but are not recognized in the financial statements as revenues, expenses, or reductions of liabilities or increases in assets until the period(s) to which they relate.

In accordance with GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, and GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, the financial statements of the city include both deferred outflows of resources and deferred inflows of resources. The citywide statements include deferred outflows of resources representing the deferred loss on refunding recorded in the business-type activities column for the Water Fund and in the governmental activities column at citywide related to the ACLC Debt Service Fund, as well as items relating to the city's pension obligations in both the business-type and governmental activities columns. The citywide statements include deferred inflows of resources representing the deferred gain on refunding

recorded in the business-type activities column of the Wastewater Fund and items relating to the city's pension obligations in both the business-type and governmental activities columns. Property taxes are recorded in the governmental activities column and are recorded as a deferred inflow of resources when levied in the fund statements. The fund statements include unavailable fund resources that have not met modified accrual revenue recognition criteria. Unavailable fund resources include: special assessment receivables, tax audit receivables and notes receivables that are unavailable in the fund statements but are recognized as revenue in the citywide statements.

E. Cash and Investments

The city pools its cash and investments. All temporary cash surpluses are invested. Earnings on pooled investments are allocated among the funds based on an average daily balance of the individual fund's equity in pooled monies. The amounts shown as "cash and cash equivalents" and "investments" in the citywide and proprietary funds statement of net position and the governmental funds balance sheet include both unrestricted equity in the city's pool and unrestricted amounts held in non-pooled accounts. Restricted assets include cash and investments required to be used for specific purposes and may contain pooled and non-pooled amounts. Cash and cash equivalents are carried at fair value and include petty cash, demand deposits and highly liquid investments (readily convertible to known amounts of cash) with maturities of three months or less from purchase date. Investments are stated at fair value based upon quoted market prices in brokerage service reports except for non-negotiable certificates of deposit which are stated at cost and investments in local government investment pools which are measured at the net asset value per share. In regards to pension plan investments, see Note 2 for additional information.

F. Interfund Transactions

During the course of operations, transactions occur between individual funds for goods provided or services rendered. Receivables and payables related to these transactions are reported as due from other funds and due to other funds, respectively, in the fund statements. Interfund loans or advances, which are made to provide internal financing, are reported as interfund loans in the fund statements.

In the process of aggregating data for the citywide statement of net position, amounts reported in the funds as interfund receivables and payables are eliminated. The residual amounts due between governmental and business-type activities are shown on a single line as internal balances. Interfund amounts (if any) due between the primary government and a fiduciary fund are shown on the citywide statement as receivable or payable of the fiduciary fund rather than internal balances.

Interfund activities include: transfers, internal billings, and transactions with internal service funds. For fund statement presentation, transfers are shown as "transfers in" and "transfers out." Internal billings, including transactions with internal service funds, are shown as revenues and expenses/expenditures in the respective funds. As a general rule, these revenues/transfers in and expenditures/expenses/transfers out have been eliminated in the aggregation of data for the citywide statement of activities. Exceptions to this rule are charges between the city's water function and various other functions of the city. Elimination of these charges would distort the direct costs and program revenues reported in the various functions concerned.

G. Inventories

Inventories are stated at the lower of cost determined using the first-in, first-out basis or market. The cost of inventories in the proprietary fund statements and citywide statements are recorded as an expense when consumed rather than when purchased. Restricted inventories included in the governmental fund statements and citywide statements represent housing purchased, rehabilitated and resold under the Neighborhood Stabilization Program grant for \$151,529.

H. Asset Acquired for Resale

Asset acquired for resale reflects properties acquired by the city for the express purpose of resale. Since these assets are intended to be converted to cash rather than used in daily operations, they are reported in governmental fund statements as a financial asset valued at the lesser of cost or net realizable value. The properties are blighted and intended to be sold for economic redevelopment purposes per state redevelopment statutes. The properties are valued at \$22,334,828.

I. Capital Assets

The criteria used for capitalizing assets include assets with an estimated useful life of more than one year and an acquisition cost meeting the threshold level on a per unit basis. Capital assets are stated at actual cost for purchased and constructed assets, estimated historical cost for older assets for which actual cost was not determinable, and estimated acquisition value at the time of receipt for donated or contributed items. Street infrastructure recorded from 1973 through 2002 is stated at discounted replacement cost. Expenditures incurred during the construction phase are recorded as construction in progress. These amounts are transferred from construction in progress to the appropriate classification (water rights, buildings and improvements, or infrastructure) upon completion of the project. Land, machinery, and equipment are normally recorded upon receipt. Land includes intangible water rights and easements. Machinery and equipment includes both internally developed and externally acquired computer software. Salvage value is not material and is therefore not computed. Accordingly, assets are completely depreciated if retained for their total estimated useful life. Straight-line depreciation is used in all cases over the following estimated useful lives. Threshold levels are approved by City Council; the most recent increases became effective as of fiscal year 2013 and are as follows:

Estimated Useful Lives Assigned by Individual Items

Description	Estimated Useful Life (Years)	Threshold Levels
Land and water rights	N/A	\$ 50,000
Buildings and improvements	40-50	50,000
Infrastructure		
Street overlay and improvements	10	250,000
Other utility improvements	20-65	250,000
Mains and conduits	65-95	250,000
Reservoirs/park improvements/roads	99	250,000
Machinery and equipment	3-20	5,000
Assets purchased with federal funds	Varies by category	5,000

Assets recorded under capital lease agreements are amortized over either the term of the lease or the estimated useful life of the asset, whichever period is shorter. Amortization expense for capital leases is included in the depreciation line item on the financial statements.

Capital assets purchased by governmental funds are not included as assets in the governmental fund but as expenditures. These expenditures are reclassified on the reconciliation of governmental funds balance sheet to the citywide statement of net position. Interest incurred during construction is not capitalized. Estimated costs for streets constructed by developers and contributed to the city are reported as program revenue for the public works function in the citywide statement of activities and as additions to infrastructure in the citywide statement of net position.

Capital assets purchased by proprietary funds are included on the fund's statement of net position as well as in the business-type activities column of the citywide financial statements. Developers who construct water and wastewater lines for subdivisions are required to furnish cost figures to the city for contributed lines. If cost figures are not provided, the city estimates the value of the donated asset. Such costs are recorded as capital assets and capital contribution revenues when accepted by the city. Interest cost is capitalized during construction of business-type activities' assets in accordance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

J. Accounts Payable

Amounts reported as accounts payable on the statement of net position include:

	Governmental Activities	Business-type Activities
Vendors	\$ 13,377,513	\$ 16,950,215
Salaries and Benefits	4,689,813	718,083
Total	\$ 18,067,326	\$ 17,668,298

K. Unearned Revenues (Liabilities)

Unearned revenues reflect amounts that have been received before the city has a legal claim to the funds. In subsequent periods, when revenue recognition criteria are met, or when the city has a legal claim to the resources, the unearned revenue is removed from the statements of net position or governmental funds balance sheet and revenue is recognized.

L. Noncurrent Liabilities

Noncurrent liabilities include: bonds, notes, certificates of participation, capital leases, claims payable, earned but not used compensated absences, net pension liability and postemployment benefits. For governmental funds, the liability is recorded when payment is due, or when resources have been accumulated in the debt service fund for payment early in the following year. Proceeds from issuance of debt are reported in the governmental funds as "other financing sources" and payments of principal on debt are shown as expenditures. For the citywide statements, governmental debt issuances are shown as noncurrent liabilities and principal payments are shown as decreases in noncurrent liabilities. Amounts due within the next twelve months are reported as "due within one year" with the remaining amount being reported as "due beyond one year." For the proprietary and pension trust funds, long-term liabilities are accounted for in the applicable fund. Additionally, proprietary fund long-term liabilities are accounted for in the business-type activities column of the citywide financial statements.

M. Bond Premiums and Discounts

In governmental funds, bond premiums and discounts are reported as other financing sources/uses. For the citywide and the proprietary fund statements, bond premiums and discounts are capitalized and amortized over the term of the bonds using the straight-line method. Bond premiums and discounts are presented as a reduction of the face amount of bonds payable.

N. Compensated Absences

City policy allows employees to accumulate earned but not used annual leave up to maximum hours as indicated in the table below. Annual leave hours for Fire Civil Service 24-hour shift in excess of the maximum accrual permitted are forfeited on January 1 of the subsequent year. Annual leave hours for all other employees in excess of the maximum accrual permitted are forfeited on February 28 of the subsequent year. Accrued annual leave is payable to the extent earned.

Employees	Maximum Hours
Police and Career Service	260
Fire Civil Service 8-hour shift	256
Fire Civil Service 24-hour shift	360

Generally, Career Service employees may convert sick leave hours accumulated in excess of established minimums annually in March to either annual leave hours or cash payments at a rate of one hour's pay (in annual leave or cash) for every two hours of sick leave up to the established maximum payment hours. In lieu of, or in combination with, cash payment, Career Service employees may elect to increase their annual leave balances by up to forty hours per year in exchange for twice the amount of accrued sick leave. Police and Fire Civil Service may only convert sick leave hours to cash at a rate of one hour's pay for every two hours of sick leave.

Employees	Minimum Accrual Hours	Maximum Payment Hours
Council Appointees	520	120
Police and Career Service	720	100
Fire Civil Service 8-hour shift	684	120
Fire Civil Service 24-hour shift	960	120

The city records a liability for accrued compensated absences and related payroll taxes. The "vesting method" per GASB Statement No. 16, *Accounting for Compensated Absences*, is followed to estimate the sick leave liability upon termination. Only the portion of compensated absences that is due is reported as a liability in a governmental fund while the entire liability is reflected in the citywide statement of net position as noncurrent liabilities. The liability for compensated absences for employees whose work primarily benefits a proprietary fund is recorded in the respective fund. The portion of amounts anticipated to be paid (in lieu of used) over the next twelve months are reported as "current portion of long-term liabilities" in the proprietary fund statements and as "due within one year" in the business-type activities on the citywide statement of net position.

O. Defined Benefit Pension Plans

The city participates in two single employer defined benefit pension plans, two agent multiple-employer defined benefit plans and two cost-sharing multiple employer defined benefit pension plans.

For the purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the city of Aurora General Employees' Retirement Plan (GERP), the city of Aurora Elected Officials' and Executive Personnel Defined Benefit Plan (EOEP) and the Fire and Police Pension Association of Colorado (FPPA) Plans, including Old Hire-Fire, Old Hire-Police, Statewide Defined Benefit and Statewide Hybrid, and additions to/deductions from each Plan's fiduciary net position have been determined on the same basis as they are reported by each of the Plans. For this purpose, benefit payments (including refunds on employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GERP is recognized in both governmental activities and business-type activities as employee participation for GERP is citywide. The allocations are based on full-time career salary expenditure/expense for the year for employees that participate in GERP. The remaining Plans are recognized in governmental activities only as they have minimal or no employee participation from business-type activities.

Each Plan has an annual or bi-annual actuarial valuation that is either considered in establishing funding policies or determines the annual required contribution. The contribution rates or annual required contributions are intended to be sufficient to amortize each Plan's unfunded actuarial accrued liability over a specified period as identified by each Plan.

P. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These assumptions affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenditures and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Q. Fund Balances and Net Position

Fund balances reflect assets plus deferred outflows of resources minus liabilities plus deferred inflows of resources and are shown only in the governmental fund statements. Fund balance is divided into four classifications; restricted, committed, assigned and unassigned. Fund balance is reported as restricted when constraints placed on the use are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. Additionally, assets that are required by outside sources to be used for a specific purpose are shown on the balance sheet as "restricted assets." Fund balance is reported as committed when constraints are imposed by formal action (ordinance or resolution) of the City Council, the city's highest level of decision making authority. Council ordinances and resolutions require the same level of council action to add or remove a constraint. Both are equally binding for their respective purposes and are mutually exclusive, not interchangeable with one another. Fund balance is reported as assigned when the intent of the city is to use it for a specific purpose.

The Financial Policies and Guidelines, as approved by City Council, authorize the assignment of fund balances by informal action of City Council (no ordinance or resolution) or by the City Manager or the Finance Director as long as City Council has been advised of the assignment through either the budget process or some other process. Positive unassigned fund balance is the residual and may only be reported in the General Fund. Negative unassigned fund balance may be reported in any governmental fund other than the General Fund when expenditures incurred for specific purposes exceed amounts restricted, committed or assigned to those purposes.

Net position is assets plus deferred outflows of resources minus liabilities plus deferred inflows of resources and is shown in the citywide, proprietary and fiduciary fund financial statements and is reported in three classifications. Net investment in capital assets reflects capital assets (net of accumulated depreciation) reduced by the outstanding amount of debt, which was issued to acquire or construct the capital assets. Restricted net position report amounts legally segregated for a specific future use. Remaining net position is reported as unrestricted.

R. Budgets

On or before September 1 of each year, a proposed budget is provided by the City Manager to the City Council for review. The City Council holds public hearings and may add to, subtract from, or change the proposed appropriations and associated revenues and reserves. The City Council is required to adopt the budget for the upcoming year by November 30, but typically does so before every November election.

Budgets are legally adopted for all funds except the Payroll Clearing Agency Fund, which is not subject to the budgetary requirements of the Colorado Revised Statutes (C.R.S.). Budgets for the component units: ACLC, AURA, the GIDs, GERP, EOEP, and Havana BID may be subject to the budgetary requirements of the C.R.S. but are not required to be and are not legally adopted by the city, although the city may approve a component unit's budget.

The city adopts both annual operating appropriations and project-length appropriations each year. Operating costs are controlled at the fund and department level for the General Fund and at the fund level for all other funds. Expenditures may not exceed appropriations at those levels. Annual operating appropriations lapse at year-end except for amounts that are encumbered (reserves for encumbrances are commitments on purchase orders that remain open at year-end).

The city adopts all capital projects on a project-length budget. Project-length (continuing appropriations) budgets do not lapse until the project for which the appropriation was made is completed or abandoned. Project expenditures are controlled at the fund, department and project levels. Expenditures may not exceed appropriations at any of those levels.

The following funds have both project-length continuing appropriations and annual operational budgets: City Capital Projects, Water, Wastewater, Golf, Gifts and Grants, Marijuana Tax Revenue, Enhanced E-911, Conservation Trust, Parks Development, Open Space and Recreation Services. The Community Development Fund only adopts project-length budgets.

Since expenditures may not legally exceed budgeted appropriations, appropriation amendments are approved as necessary. Budget amendments require City Council approval by ordinance. The final budget does not always include budget reductions in expenditures or changes in revenues for amounts approved subsequent to the original budget when legal compliance is already demonstrated.

The Aurora Conference Center GID Fund's expenditures of \$461 exceeded appropriations of \$429, the Pier Point 7 Sewer GID Fund's expenditures of \$202,130 exceeded appropriations of \$199,750, and the Cobblewood Street GID Fund's expenditures of \$648,072 exceeded appropriations of \$326,734. It is the city's policy not to approve supplemental appropriations for these funds as no legal budget is adopted. Each GID has sufficient funds available or sufficient revenues to cover the overspending. While this may be a violation of state statute, the overspending is not considered to be material.

Budget transfers within a department may be made with administrative approval if the transfer is within the same fund. Transfers between departments within the General Fund require City Council approval by ordinance or resolution. Transfers between funds require City Council approval by ordinance.

Basis of Budgeting

The city budgets on a "funds available" basis (budgetary basis). Budgetary basis revenues and other financing sources are considered increases in funds available, and budgetary basis expenditures and other financing uses are considered uses of funds available. In general, funds available are defined as current assets minus current liabilities. However, certain items that are considered current for GAAP accounting are considered long-term for the city budget. Some examples of these in proprietary funds include the current portion of accrued compensated absences and the current portion of long-term debt.

The city's budget disclosure presents funds available net of restrictions and commitments. While the restrictions and commitments are available to appropriate, funds available after restrictions and commitments represent funds that may be used for general purposes.

The "funds available" basis differs from the U.S. GAAP Basis of Accounting as follows:

1. Governmental Funds

- a) Encumbrances are treated as expenditures in the year they are encumbered, not when the expenditure occurs.
- b) Grants are considered revenue when awarded, not when earned.
- c) Sales, use and lodgers taxes are considered revenue when received rather than when earned.
- d) Project-length (continuing appropriation) budgets are considered reductions of funds available when appropriated, not when expenditures occur.
- e) Purchases of inventory are considered expenditures when purchased, not when sold or used.
- f) Overspending of project length (continuing appropriation) budgets is considered to reduce funds available.

- g) Close-out of unspent project-length (continuing appropriation) budgets is considered to increase funds available.
- h) Proceeds from capital leases and related capital expenditures are not budgeted.
- i) The value received on the trade-in of capital assets and the related capital expenditures are not budgeted.
- j) Changes in investment income due to recording investments at fair value are not budgeted.
- k) January sick leave buyout is expensed for GAAP but not for budget until the subsequent year.
- l) Transactions related to asset forfeitures are not budgeted.

2. Proprietary Funds

- a) Capital outlay is budgeted as an expenditure in the year purchased.
- b) Depreciation is not budgeted.
- c) Interest capitalized during construction is budgeted as interest expense.
- d) Proceeds from the issuance of debt are considered revenues instead of an increase in liabilities.
- e) Principal payments are shown as expenditures rather than reductions of the liability.
- f) Encumbrances are treated as expenditures in the year they are encumbered, not when the expense occurs.
- g) Grants are considered revenue when awarded, not when earned.
- h) Receipts of long-term receivables are considered revenues, not reductions of the receivable.
- i) Proceeds from the sale of assets are recognized as revenue; however, the related gain or loss is not.
- j) Purchases of inventory are considered expenditures when purchased, not when sold or used.
- k) Gains or losses on refunding of debt are considered to increase or decrease the funds available in the year in which they occur and are not capitalized and amortized over the life of the bonds.
- l) January sick leave buyout is expensed for GAAP but not for budget until the subsequent year.
- m) Accrued compensated absences are not considered expenditures until paid.
- n) Interest earned on escrowed cash and investments is not considered revenue for budget purposes.
- o) The gain or loss on the equity in the joint venture is not budgeted, however payments to the joint venture, if any, are budgeted as expenditures.
- p) Project-length (continuing appropriation) budgets are considered reductions of funds available when appropriated, not when expenditures occur.
- q) Overspending of project length budgets is considered to reduce funds available.
- r) Close-out of unspent project length budgets is considered to increase funds available.
- s) Proceeds from capital leases and related capital expenditures are not budgeted.
- t) The value received on the trade-in of capital assets and the related capital expenditures are not budgeted.
- u) Changes in investment income due to recording investments at fair value are not budgeted.

2. CASH AND INVESTMENTS

Cash and investments as of December 31, 2017 are classified in the accompanying financial statements as follows:

Cash and Investments	Governmental Activities	Business-type Activities	Fiduciary Funds	Component Unit	Total
Cash and cash equivalents	\$ 7,562,447	\$ 7,000,456	\$ 3,098,480	\$ 203,354	\$ 17,864,737
Investments	134,531,928	263,509,324	-	-	398,041,252
Restricted cash and cash equivalents	16,855,938	374,750	10,715,214	-	27,945,902
Restricted investments	129,237,600	9,131,879	471,482,254	-	609,851,733
Total	\$ 288,187,913	\$ 280,016,409	\$ 485,295,948	\$ 203,354	\$ 1,053,703,624

As a home rule city, the city is allowed by state statute to invest public funds as permitted by charter or ordinance of the city. The city, by resolution, has established an investment policy that does not include the pension funds. All non-pension Plan investments are governed by this policy except for bond proceeds, which are invested in accordance with state statute, terms of the bond indenture or to meet bond insurer requirements. In addition, the Public Deposit Protection Act (PDPA) requires that all deposits exceeding the amount insured by the FDIC be collateralized to 102% of the deposit. The city maintains all cash deposits in PDPA eligible financial institutions. The city will seek to maintain an investment portfolio which is diversified by maturity, type of security, corporate industry and, except for U.S. government obligations, by issuer. The objectives of the city's investment program, in order of their priority, are:

- *Safety* of principal is the primary objective of city investment activities and is the single most important factor in determining investment decisions.

- *Liquidity* - The investment portfolio will retain sufficient liquidity to meet all reasonably anticipated operating cash needs.
- *Financial Management Goals* - The timing and form of investment purchases and sales will be managed in a manner consistent with the city's financial management goals.
- *Yield* - After the objectives of safety, liquidity and financial management goals are met, the investment portfolio will be managed with the objective of attaining a market rate of return throughout interest rate cycles.

Primary Government Investments

The city held the following investments at December 31, 2017:

Investment	Pooled Investments	Non-pooled Investments	Total Primary Government
PDPA Money Market Fund*	\$ 15,201	\$ 8,322,646	\$ 8,337,847
LGIP Money Market Fund*	20,059,754	1,539,572	21,599,326
Certificates of Deposit	-	2,141,309	2,141,309
Commercial Paper	5,989,821	1,397,933	7,387,754
U.S. Treasury Notes	110,720,927	21,384,651	132,105,578
U.S. Agency Notes	92,135,717	4,020,605	96,156,322
Municipal Bonds	68,466,337	-	68,466,337
Corporate Notes	133,609,866	12,385,534	145,995,400
Foreign Corporate Notes - USD	62,289,874	12,874,378	75,164,252
GID Revenue Bonds-CIC Dist #4	8,993,779	-	8,993,779
Total	\$ 502,281,276	\$ 64,066,628	\$ 566,347,904

*Money Market Funds are considered cash equivalents for financial statement presentation.

Reconciliation to the statement of net position:

Reconciliation to the statement of net position:	
Investments in governmental and business type activities	\$ 534,269,422
Cash and cash equivalents	
Money market funds	29,937,173
Pooled and other cash not included above	1,856,418
Certificates of deposit (investment for financial reporting purposes but not for risk evaluation)	2,141,309
Total cash and cash equivalents and investments	\$ 568,204,322
Total Governmental Type Activities	\$ 288,187,913
Total Business Type Activities	280,016,409
Total	\$ 568,204,322

Primary Government Allowable Investments

Local Government Investment Pools – The city may utilize local government investment pools (LGIPs) which provide attractive yields, low credit risk, and a high degree of liquidity. The city is invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST or Trust) Prime Fund. COLOTRUST is a local government investment pool with a stable net asset value measured at fair value per share. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00, although not guaranteed. Investment objectives and strategies focus on safety, liquidity, transparency, and competitive yields through investment in a diversified portfolio of short-term marketable securities. The Trust may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities and certain obligations of U.S. government agencies. The Trust does not have any limitations or restrictions on participant withdrawals. The city may invest up to 10% of its portfolio in a LGIP to a maximum amount per the investment policy, not to exceed 50% of the portfolio when combined with money market funds.

Money Market Funds – Must be registered under the Investment Company Act of 1940 that: 1) are "no-load" (no commission or fee shall be charged on purchases or sales of shares); 2) have a constant net asset value of \$1.00

per share; 3) limit assets of the fund to those authorized by state statute; 4) have a maximum stated maturity and weighted average maturity in accordance with Rule 2a-7 of the Investment Company Act of 1940; and 5) have a rating of AAAm or the equivalent by one or more nationally recognized statistical rating organization. The city may invest up to 10% of its portfolio in each such fund to a maximum amount per the investment policy, not to exceed 50% of the portfolio when combined with LGIPs.

U.S. Agency Notes – Investments may not exceed 75% of the total par value of the city's portfolio. Maturities may be no more than seven years.

U.S. Treasury Notes – Maturities may be no more than seven years.

Commercial Paper – Commercial paper issued by domestic corporations must be rated at least A-1 or the equivalent at the time of purchase by at least two nationally recognized statistical rating organizations (NRSROs). If the commercial paper issuer has senior debt outstanding, it must be rated at least A or the equivalent at the time of purchase by all rating organizations that rate the issuer. The aggregate investment in corporate debt, commercial paper, and bankers acceptances shall not exceed 50% of the city's investment portfolio. No more than 3% of the city's investment portfolio may be invested in the obligations of any one issuer.

Corporate Notes – Investments other than commercial paper, issued by domestic corporations, maximums:

Rating	Maximum Percentage	Maximum Maturity (Years)
AAA or AA	30%	5
A1 or A+	10%	2

Municipal Bonds – Investment maximums:

Rating	Maximum Percentage	Maximum Maturity (Years)
AAA or AA	30%	5
A1 or A+	10%	2

Securities of a General Improvement District – These securities may be purchased only upon recommendation by the Finance Director, approval by the City Manager and a resolution adopted by City Council that the investment is: 1) financially appropriate, including liquidity provisions; 2) consistent with the financial management goals of the city, including, but not limited to, managing variable rate risk; and 3) not made for the purpose of discharging such securities. On December 30, 2015, the city purchased \$9,000,000 of senior taxable special revenue bonds from the Colorado International Center Metropolitan District No. 4 (the District) in relation to the Gaylord Project. The bonds will be used to construct infrastructure for access to the District, including the Gaylord. Future development within the District will allow for property tax receipts which will provide debt service for the bonds. This is a long term investment; however, should the net present value savings of any newly issued refunding debt of the District ever exceed 3%, the District is required to issue new debt to pay off these bonds.

Domestic Corporate Bonds and Foreign Securities – Domestic corporate bonds must be issued by a corporation or bank organized and operating within the United States. Foreign sovereign, foreign political subdivision and foreign corporate securities issued in foreign markets and under foreign law must be denominated in U.S. dollars. Specific nations whose debt may be purchased shall be approved by council resolution. Currently, the only approved foreign countries are Canada and Australia. Diversification requirements may not exceed the following; 15% of obligations issued in any one authorized foreign country, 30% investment in foreign securities, 30% invested in domestic corporate bonds, or 50% combination in both, foreign and domestic. Securities must be rated by at least two Nationally Recognized Statistical Ratings Organizations (NRSROs). Those with a rating of AA- or the equivalent may be purchased with a maximum maturity of 5 years and up to 10% may be purchased in securities rated A+ or the equivalent with a maximum maturity of 2 years. The aggregate investment in corporate obligations shall not exceed 50% of the portfolio.

Fiduciary Funds Allowable Investments

GERP – GERP contracts with investment managers to manage all of the Plan's investments. Each investment portfolio is managed in accordance with investment guidelines as stated in the Plan's investment policy adopted July 17, 2014. These guidelines are specific to two strategies (core and core plus) within the fixed income asset class.

The *core* portfolio will include the following:

- Debt instruments issued by the U.S. Government, its agencies and instrumentalities.
- Debt instruments that have been issued by domestic entities rated BBB- or Baa3 or above by Standard & Poor's rating service or Moody's Investors Service, respectively.
- Dollar denominated debt of comparable quality issued by non-domestic entities in the United States, including securities issued under U.S. Securities and Exchange Commission rule 144(A); and mortgage backed and asset backed securities of investment grade quality.
- For purposes of diversification, the exposure to any single issuer, other than securities issued by the U.S. Treasury or a Government Sponsored Enterprise, shall not exceed 5% of the fair value of the portfolio. Exposure to any single issue or mortgage pool issued by a Government Sponsored Enterprise shall not exceed 5% of the fair value of the portfolio.
- Securities that derive their returns from factors other than interest rates are not permitted in the fixed income portfolio. Examples of such securities are structured notes whose returns are tied to currencies or commodity prices.

The *core plus* portfolio will follow the above guidelines with the following exceptions:

- While the overall portfolio credit quality will be maintained at investment grade, up to 25 percent of the portfolio at market value may be invested in securities rated below investment grade. Split rated securities will be governed by the lower designation.
- Up to 20 percent of the portfolio at market value may be invested in securities issued by foreign issuers and denominated in foreign currencies.
- The manager has received authorization to use options, forwards and futures to hedge currency exposure.
- For investment in a commingled fund, the manager is authorized full discretion to use derivative instruments, consistent with fund prospectus.

EOEP – The plan contracts with investment managers to manage all of the plan's investments. Assets are diversified and are intended to match, as closely as possible, the investment style, allocation and performance of GERP. Based on GERP's long-term performance, its relatively conservative investment practices, and the cost effective nature of this practice, the EOEP trustee, the city's Director of Finance, has determined that it is appropriate for EOEP to mirror GERP's investment strategy and that GERP's investment managers should be utilized to the extent practical.

Investment Risk Review

Investments are subject to many different types of risk including, but not limited to, credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk. Credit risk is the risk of default on a debt that may arise from a borrower failing to make required payments. Concentration of credit risk is the risk of loss attributable to the magnitude of the city's investment in a single issuer. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the city would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment or deposit. The city has no custodial credit or foreign currency risk except for the fiduciary fund investments, which have foreign currency risk. City policy gives guidance for investment activity to limit risks, as outlined in the following discussion.

Primary Government Investment Risk

Credit risk – Credit ratings are a proxy for credit risk. Ratings on the primary government investments are as follows:

Moody's Rating	Money Market	Commercial Paper	Certificates of Deposit	U.S. Agency Notes	U.S. Treasury Notes	Municipal Bonds	Corporate Notes	Foreign Securities U.S. Dollars	GID Revenue Bonds - CIC District #4
Aaa	\$ -	\$ -	\$ -	\$ 96,156,322	\$ 132,105,578	\$ 13,583,985	\$ 13,083,636	\$ -	\$ -
Aa1	-	-	-	-	-	35,793,566	15,845,957	-	-
Aa2	-	-	-	-	-	9,156,086	49,844,113	2,912,631	-
Aa3	-	-	-	-	-	9,932,700	37,674,816	40,924,108	-
A1	-	-	-	-	-	-	24,551,733	31,327,513	-
A2	-	-	-	-	-	-	4,995,145	-	-
P-1	-	7,387,754	-	-	-	-	-	-	-
Aaam	29,937,173	-	-	-	-	-	-	-	-
NR	-	-	2,141,309	-	-	-	-	-	8,993,779
Total	\$ 29,937,173	\$ 7,387,754	\$ 2,141,309	\$ 96,156,322	\$ 132,105,578	\$ 68,466,337	\$ 145,995,400	\$ 75,164,252	\$ 8,993,779

Concentration of credit risk – Concentration risk as defined by the Governmental Accounting Standards Board is any investment that represents 5% or more of the total investments to any one issuer. The city's pooled fund investments are in compliance with city policy which limits unsecured investments with any single issuer other than the federal government to no more than 3% of its pooled investments at the time securities are purchased to the total portfolio, excluding bond proceeds.

Interest rate risk – As a means of limiting its exposure to interest rate risk, it is the city's policy to invest in a manner that securities can normally be held to maturity, or close to maturity, and to limit the types and maturities of permitted securities. The city manages its exposure by limiting the weighted average maturities of the portfolio to less than 3 years, unless the investments are funded by specifically identified sources such as bond proceeds. Non-pooled investments are invested in accordance with state statute; terms of a bond indenture or to meet bond insurer requirements and may have a weighted average maturity exceeding 2 years.

Investment	Pooled Investments	Weighted Average Maturity (Years)	Non-pooled Investments	Weighted Average Maturity (Years)
Money Market Funds*	\$ 20,074,955	—	\$ 9,862,218	—
Certificates of Deposit	-	—	2,141,309	1.14
Commercial Paper	5,989,821	0.10	1,397,933	0.09
U.S. Treasury Notes	110,720,927	1.34	21,384,651	0.44
U.S. Agency Notes	92,135,717	1.71	4,020,605	0.95
Municipal Bonds	68,466,337	1.73	-	—
Corporate Notes	133,609,866	1.62	12,385,534	0.69
Foreign Corporates - USD	62,289,874	1.05	12,874,378	0.77
CIC District #4	8,993,779	12.93	-	—
Total	\$ 502,281,276		\$ 64,066,628	

*Money market funds are considered cash equivalents for financial statement presentation.

GERP Investment Risk

Credit risk – GERP held fixed income investments with respective qualitative ratings, excluding those which are not considered to have credit risk, as follows:

Moody's Rating	Asset or Mortgage Backed, Corporate and Municipal Bonds	Bond Fund
Aaa	\$ 7,992,575	\$ -
Aa1 to Aa3	6,754,752	53,191,817
A1 to A3	15,654,508	-
Baa1 to Baa3	11,734,648	-
Total	\$ 42,136,483	\$ 53,191,817

Concentration of credit risk – For the fixed income investment manager, the Plan's investment policy states that for purposes of diversification, the exposure to any single issuer, other than securities guaranteed by the U.S. Treasury, may not exceed 5% of the market value of the portfolio. For the domestic equity investment manager, the Plan's investment policy states that the market value of any single security holding should be limited to a weight of 5% of the portfolio, or 150% of the security's weight in the benchmark, whichever is higher. There is no formal policy for concentration of credit risk for the international equity and real estate investment managers. At December 31, 2017, the Plan did not have investments in any one organization representing 5% or more of the Plan's assets other than the following indexed and commingled Funds:

Investment	Value	% of Investments
Blackrock Equity Index Fund A	\$ 97,078,500	20.5%
Western Asset US Core Plus	53,191,818	11.2%
Dodge & Cox International Stock Fund	37,460,998	7.9%
American EuroPacific Growth	25,598,008	5.4%

Interest rate risk – Interest rate risk exposure is dictated by each investment manager's agreement. Each portfolio is managed in accordance with investment guidelines as stated in the Plan's investment policy adopted on July 17, 2014. These guidelines are specific to two strategies (core and core plus) within the fixed income asset class.

- The *core* fixed income portfolio is to maintain duration within plus or minus 25 percent of the duration of the Barclays Capital Government Credit Index.
- The *core plus* portfolio is to maintain duration within plus or minus 25 percent of the duration of the Barclays Capital Aggregate Index.

Colorado Revised Statutes limit investment maturities to five years or less unless formally approved by the Board of Trustees. The Board of Trustees for the Plan has formally adopted an investment policy that allows investment maturities greater than five years.

The GERP had the following investments and maturities at December 31, 2017:

Investment	Fair Value	Investment Maturities (in years)				
		Undetermined	Less than 1	1-5	6-10	>10
Short Term Cash Investments*	\$ 10,495,569	\$ 10,495,569	\$ -	\$ -	\$ -	\$ -
U.S. Treasury Securities	7,040,053	-	-	-	602,795	6,437,258
Corporate Securities	29,871,096	-	1,806,374	12,728,981	10,760,973	4,574,768
Municipal Bonds	4,853,254	-	-	-	495,492	4,357,762
Asset Backed Securities	2,820,952	-	-	2,246,447	447,226	127,279
Government Mortgage Backed	3,883,358	-	-	-	2,526,800	1,356,558
Collateralized Mortgage Obligation	707,823	-	-	470,641	-	237,182
Corporate Bond Fund	53,191,817	53,191,817	-	-	-	-
Equity Securities	219,960,626	219,960,626	-	-	-	-
Real Estate Funds	45,585,572	45,585,572	-	-	-	-
Alternative Investments	96,588,892	96,588,892	-	-	-	-
Total	\$ 474,999,012	\$ 425,822,476	\$ 1,806,374	\$ 15,446,069	\$ 14,833,286	\$ 17,090,807

*Short Term Cash Investments are considered cash equivalents for financial statement presentation.

Foreign currency risk – The Plan's foreign currency risk exposure resides within investments in international equity mutual funds and one private equity limited partnership. The Plan has no formal policy regarding foreign currency risk. The Plan has delegated responsibility for currency management to its international equity managers. The Plan's exposure to foreign currency risk as of December 31, 2017 is disclosed by investment type below:

	Fund Valued In	Current Exposure	Value
International equity mutual funds	U.S. dollars	Various currencies worldwide	\$ 80,134,358
HarbourVest International Private Equity Partners VI	Euros	Euros, U.S. dollar, British pound, Swiss franc, Swedish krona, Japanese yen, Australian dollar	4,571,369
			<u>\$ 84,705,727</u>

EOEP Investment Risk

Credit risk – exposure is dictated by each manager's agreement with the Plan or in the fund's prospectus. The plan invests in Government and Corporate Bond Funds that hold rated securities in the following rating ranges:

Moody's Rating	Corporate Bond Funds
A1 to A3	1,778,094
Total	\$ 1,778,094

Concentration of credit risk – The Plan does not have a formal policy regarding the concentration of credit risk. At December 31, 2017, the Plan did not have investments in any one organization representing 5% or more of the Plan's total investments in one issuer other than the following indexed and commingled funds:

Investment	Value	% of Investments
iShares Core S&P 500 ETF	\$ 2,066,112	29.4%
Western Asset Core Plus Bond Fund	891,222	12.7%
Westcore Plus Bond Fund	886,871	12.6%
Heitman America Real Estate Trust	588,587	8.4%
Dodge & Cox International Stock Fund	531,221	7.6%
iShares Core S&P Small-Cap ETF	503,106	7.2%
American Funds EuroPacific Growth	450,467	6.4%

Interest rate risk – Colorado Revised Statutes limit investment maturities to five years or less unless formally approved by the trustee(s). The EOEP trustee has determined that it is appropriate for the Plan to follow the investment guidelines developed by GERP. Those guidelines allow investment maturities greater than five years.

Investments	Fair Value	Average Maturity (Years)
Money Market Funds*	\$ 47,537	0.08
Corporate Bond Funds	1,778,094	10.51
Equity Securities	3,873,320	—
Real Estate Funds	1,079,680	—
Alternative Investments	247,717	—
Total	\$ 7,026,348	

*Money Market Funds are considered cash equivalents for financial statement presentation.

Investment Valuation - Fair Value Recurring Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value. Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available,

securities are classified within Level 3 of the hierarchy. Level 3 prices utilize significant unobservable inputs, such as option-adjusted discounted cash flow valuation models.

As a practical expedient, a government can use the Net Asset Value (NAV) per share for investments in a nongovernmental entity that does not have a readily determinable fair value. The NAV is not permitted for valuation if it is probable the government will sell the investment at a different price. Investments measured at NAV would be excluded from the fair value hierarchy (Level 1, 2 or 3). The valuation method for investments, including those measured at the NAV per share (or its equivalent), is presented below.

Primary Government Fair Value Reporting

Fair value pricing – The city's pooled, non-restricted investments are held with the custodian bank, Wells Fargo Securities (WFS). Pricing at WFS is provided by Interactive Data Pricing and Reference Data, Inc. (IDC). IDC uses market closing price when available. However, evaluators may use additional standard inputs which may influence pricing. The city's interest rate swap agreement fair value is estimated using forward-looking interest rate curves and discounted cash flows that are observable or can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy. The CIC District #4 Revenue Bonds were analyzed by an independent valuation provider to determine the fair value of this investment using Level 3 inputs. In addition, the city has investments in COLOTRUST of \$21,599,326 at December 31, 2017. COLOTRUST does not have a readily determinable fair value and thus is measured at net asset value per share, which is designed to approximate fair value. Lastly, the city's holdings in non-negotiable certificates of deposit, \$2,141,309, and PDPA money market accounts, \$8,337,847, are exempt from fair value reporting.

Current year fair value measurement – The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2017:

Investments and other assets by fair value level	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Commercial Paper	\$ 7,387,754	\$ -	\$ 7,387,754	\$ -

Total investments and other assets by fair value level	\$ 534,276,781	\$ 132,105,578	\$ 393,177,424	\$ 8,993,779
Investment measured at net asset value (NAV)	21,599,326			
Total investments and other assets measured at fair value	\$ 555,876,107			

Fiduciary Funds Fair Value Reporting

Fair value pricing – The plan's securities are in the custody of and controlled by Northern Trust Corporation, the master custodian. Short-term investments are carried at cost, which approximates fair value. Securities and funds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate funds not actively traded on national or international exchanges are valued based upon appraisals of the real estate underlying the investment. Additionally, for alternative investments where no readily ascertainable fair value exists, the general partner of the partnerships, in consultation with investment advisors, determines the fair value.

GERP current year fair value measurement – The following table presents the fair value measurements of GERP investments at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2017:

Investments by fair value level	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Short-Term Cash Investments	\$ 10,495,569	\$ 10,495,569	\$ -	\$ -
Asset Backed Securities	2,820,952	-	2,820,952	-

3. RECEIVABLES

A. Taxes

1. Property Tax

Property tax is levied on December 15 and attaches as a lien on property the following January 1. The tax is payable in full by April 30 or in two equal installments due February 28 and June 15. Each county bills and collects property tax for all taxing entities within the county. Property tax collected by Arapahoe, Adams and Douglas counties for the city are remitted in the subsequent month. Property tax is reported as a receivable and as deferred inflow of resources when levied in both the funds and for citywide reporting. Revenue is recognized when collected in the following year. Collection begins on January 1 of the year following the levy. Total property tax receivable in the General Fund at December 31, 2017 is \$37,113,230. Based upon experience, approximately one percent of outstanding receivables is recorded as an allowance and is deducted from the deferred inflow of resources and the receivable for reporting purposes. The allowance at December 31, 2017 is \$329,327.

Restricted property tax receivables recorded in the General Improvement Districts (GIDs) represent tax levies collected to specifically repay general obligation bonds and interest. Restricted property tax receivables recorded in the Aurora Urban Renewal Authority (AURA) Debt Service Fund represent tax levies collected pursuant to C.R.S. 31-25 and must be spent on urban renewal within the tax increment district. Total restricted property tax receivables net of allowance at December 31, 2017, for the GIDs, AURA General and AURA Debt Service are \$469,192, \$7,903,000 and \$735,000, respectively.

2. Sales, Use and Lodgers Taxes

Sales, use and lodgers taxes are recognized as revenue when earned. Sales tax collected and use tax incurred are due to the city by the 20th day of the following month. Total General Fund sales, use and lodgers tax receivable at December 31, 2017 is \$25,564,362. Total sales and excise tax receivable in the Marijuana Tax Revenue Fund is \$676,457.

3. Franchise Taxes

Franchise taxes such as telephone, cable television, gas and electric, due to the city but not received at year-end, are recorded as receivables. Total franchise tax receivable in the General Fund at December 31, 2017 is \$2,478,202.

4. Tax Audits

Amounts calculated as owed during sales and use tax compliance audits are recorded as receivables and deferred inflow of resources in the General Fund. Tax audit revenue is recognized in subsequent periods when payment is received. For citywide reporting, revenue is recognized when earned. Total sales and use tax audits receivable at December 31, 2017 is \$103,227.

B. Accounts**1. City Services**

Amounts billed for court fines, weed cutting, trash removal, demolition, tree trimming and removal, vacant property fees, liens for uncollected city service receivables, overtime inspection fees, recreation registrations and reimbursement for property damages are recorded as receivables and the revenue is recognized when services have been performed. Total accounts receivable for city services at December 31, 2017 is \$1,076,141 for governmental activities and \$565,265 for business-type activities.

Restricted accounts receivable primarily represent amounts collected by the county, state or other governments for specific grant-related expenses incurred by the city.

2. Utility Billings

Utility charges, which include water and wastewater usage and storm drainage fees, are billed monthly and are due and payable within 25 days from the billing date. Total billed utility charges at December 31, 2017 are \$10,694,748. Earned but unbilled utility charges at December 31, 2017 is \$5,595,463. Billed and unbilled charges are recorded as revenue when earned. Estimates of uncollectible utility charges, based upon a percentage of aged outstanding receivables, are established in allowance accounts which are deducted from utility receivables for reporting purposes. Total allowance at December 31, 2017 is \$7,689.

C. Interest

Interest receivable includes interest earned but not received on investments and notes receivable.

D. Due from Other Governments

Due from other governments consists of county road and bridge tax, state highway users tax, lottery proceeds, specific ownership tax, and cigarette tax, which the city has earned but not yet received. These amounts are collected by the other government and remitted to the city within the first two months of the following year. Due from other governments also includes federal and state grants which are collected within one year after year-end.

E. Other

Other receivables include E-911 surcharges, Public, Educational, and Governmental (PEG) access fees, special improvement district assessments, conference center working capital advances, and special district deposits for drainage and flood control improvements.

F. Notes

Notes receivable are supported by contracts, which outline the repayment of borrowed funds.

1. Economic Development

The city has a participation interest in revolving loans made to various commercial and industrial enterprises. These loans are incentives for the relocation or expansion of these enterprises within the boundaries of the city. There are a total of five loans: three Brownfields loans and two economic development loans. Brownfields loans, with total portfolio balances outstanding of \$1,471,450, have a 2% interest rate and are interest only for a four year term with principal and interest due on the outstanding principal for the next six years and the remaining balance due at that point. Maturity dates range from 2018 to 2030. Brownfields loans are expected to be collected and are therefore reflected in the city's financial statements. The economic development loans, with total portfolio balances outstanding of \$53,453, have interest rates ranging from 4% to 5.5% and maturity dates ranging from 2018 to 2025 with real and business property as collateral. Economic development loans are not expected to be collected and therefore are not reflected in the city's financial statements.

2. Community Services

In 2007, the city advanced \$90,000 to the Colfax Marathon Partnership, Inc. to assist with the costs associated with the organizing, planning, advertising and producing of the marathon. The balance outstanding at December 31, 2017 is \$65,143.

To assist in the redevelopment of low-income areas, the city makes loans from federal funds to assist in the renovation of housing and businesses. There are a total of 919 loans with various maturity dates and interest rates. The balance as of December 31, 2017 is \$16,634,984. The amount expected to be collected, \$7,010,839, represents the net present value of payments for the prior 7 years and is reflected in the city's financial statements. The remaining balance of \$9,624,145 is an allowance.

G. Component Unit - Havana BID

Property owners within the boundaries of the Havana Business Improvement District (BID) have been assessed \$404,410 in property taxes for 2017 to be collected in 2018. Havana BID also had tax-related receivables due from the County Treasurer of \$2,809 as of December 31, 2017.

4. RESTRICTED, COMMITTED, ASSIGNED AND UNASSIGNED FUND BALANCES AND RESTRICTED NET POSITION**Order of Spending**

Fund balances are classified as restricted, committed, assigned or unassigned. When expenditures are incurred that use funds from more than one classification, the city will generally determine the order which the funds are used on a case-by-case basis, taking into account any application requirements of grant agreements, contracts, business circumstances, or other constraints. If no other constraints exist, the order of spending of resources will be restricted, committed, assigned and, lastly, unassigned.

Restricted for Culture, Recreation, and Open Space

City Capital Projects Fund: \$2,912,880 from a capital impact fee for open space development. *Conservation Trust Fund*: \$3,785,305 lottery proceeds share back to be used for park and open space development. *Parks Development Fund*: \$8,622,343 developer contributions required to be used for the creation of city parks. *Open Space Fund*: \$11,967,930 share back of sales and use tax the citizens in Arapahoe and Adams counties approved for parks and open space construction and maintenance in their respective counties. *Cultural Services Fund*: \$79,082 for the SCFD grant. *ACLC Capital Projects*: \$28,375,903 unspent capital lease and debt proceeds for the Moorhead Recreation Center renovation are restricted at the fund level but are included in net investment in capital assets at citywide.

Restricted for Debt Related

Amounts held for debt service payments and required reserves include, *General Fund*: \$2,143,773 for a debt service reserve, including interest, for which the city has pledged a moral obligation relating to an AURA revenue note, *SID Debt Service Fund*: \$27,223, *AURA Debt Service Fund*: \$2,051,268, and *ACLC Debt Service Fund*: \$7,835,155. Debt related restrictions are at the fund level only and are not restricted at citywide.

Restricted for Development

Amounts restricted for employee development per retirement plan agreements in the *General Fund* are \$112,507. Amounts restricted for future development projects in urban renewal areas per Colorado Revised Statutes include *AURA General Fund* for \$15,097,570.

Restricted for Gifts and Grants

City Capital Projects Fund: \$1,146,214 for capital improvement program grants. *Gifts and Grants Fund*: \$1,171,441 of which \$151,529 is for home inventory purchased under the neighborhood stabilization program (NSP). An additional \$8,482,289 is restricted at citywide for loans from federal funds to assist in the renovation of housing and businesses (\$7,010,839) and Brownfields loans (\$1,471,450) that are reported at the fund level as deferred inflow of resources and not as restricted. *Community Development Fund*: \$2,571,950 for earned program income on community development loans.

Restricted for Public Improvement

General Fund: \$179,092 restricted for fence maintenance and repair per voter approval. *City Capital Projects Fund*: \$7,916,991 from capital impact fees for transportation development and \$1,160,471 as settlement of a judgment against another jurisdiction for noise violations at Denver International Airport to be used to acquire land and make improvements in the airport vicinity in an effort to mitigate noise in the surrounding communities. *Water Fund*: \$374,750 is an escrow and deposit restricted for the Prairie Waters Project "owner controlled insurance program". *Wastewater Fund*: \$3,700,759 is held in trust by the Urban Drainage and Flood Control District to fund construction of storm drain infrastructure in the city. *Peoria Park Fence GID*: \$72,857, *Meadow Hills Fence GID*: \$58,447, and *Cherry Creek Fence GID*: \$70,126 required by agreement for the purpose of maintaining neighborhood masonry fences. *Aurora Conference Center GID*: \$492 required by agreement for construction of a conference center. *Cobblewood Street GID*: \$58,754 required by agreement for the purpose of funding street improvements. *Pier Point 7 Sewer GID*: \$128,492 required by agreement for the purpose of maintaining sewer line improvements. *ACLC Capital Projects Fund*: \$370 unspent note proceeds restricted for purchase of public works equipment at the fund level but are included in net investment in capital assets at citywide.

Restricted for Emergencies

General Fund: \$928,276 for the TABOR State constitutional amendment 3% emergency reserve to be used in rare circumstances resulting from major nonrecurring and not predictable emergencies. Examples of a major emergency may include a tornado requiring extensive additional city operational or capital costs, or a protracted health, civilian or military crisis requiring extensive operational or capital costs. The funds are not to be used to adjust for revenue variances due to the normal variance in the economy. The TABOR reserve amount is adjusted annually in accordance with State constitutional requirements. *City Capital Projects Fund:* \$2,208,026 from capital impact fees for public safety infrastructure. *Gifts and Grants Fund:* \$1,288,393 of seizure funds from state and federal courts forfeiture actions is used to support activities of the Aurora Police Department. *E-911 Fund:* \$9,059,594 received from a phone surcharge is required by State law to fund E-911 infrastructure development, operations and maintenance. *ACLC Capital Projects Fund:* \$25,029,027 for unspent proceeds related to fire stations, \$3,565,095 for unspent proceeds related to the District 2 Police Department Headquarters and \$196,707 for unspent debt proceeds relating to E-911 system improvements and equipment are restricted at the fund level but are included in net investment in capital assets at citywide.

Restricted for Pension Benefits

The net pension asset of \$3,876,142 is restricted at citywide. It is not restricted in the funds as it does not represent a current financial resource.

Committed to Culture, Recreation and Open Space

General Fund: per city code \$2,613,467 from fee revenues is committed for the community trees program to fund tree planting in the city. Per city code \$220,807 is committed for various visitor promotion programs. Per city code, \$506,898 is committed for public, educational and governmental television programming. *Cultural Services Fund:* per city code \$1,058,963 generated from the capital project budget is committed to fund the Art in Public Places program.

Committed to Capital Improvement

Capital City Projects Fund: per section 3.04 of the Dam East Fence SID note ordinance, \$33,579 is committed for debt service reserve.

Committed to Development

Development Review Fund: by city resolution \$12,141,749 is committed for the Enhanced Development Review program. *Parking and Mobility Fund:* by City Ordinance, \$2,521 is committed for operating, management and maintenance of the City's Parking and Mobility Program.

Committed to Emergencies

General Fund: \$2,545,557, per city code court surcharges are committed to fund the DARE, teen court, victim witness and youth programs; traffic fines are committed to fund the photo red light program.

Committed to Reserves

General Fund: \$27,692,910, financial policies and guidelines adopted by City Council through resolution commit the 10% Policy Reserve. This reserve is to be used only in extremely rare circumstances resulting from major emergencies that are not recurring by nature and, in general, are not predictable. Examples of a major emergency may include a tornado requiring extensive additional city operational or capital costs, or a protracted health, civilian or military crisis requiring extensive operational or capital costs. The funds are not intended to be used to adjust for revenue variances due to the normal variance in the economy. The 10% Policy Reserve is adjusted annually to an amount no less than 10% of adjusted budgetary operating expenditures of the General Fund.

Assigned to Capital Improvement

City Capital Projects Fund: \$43,863,073 of residual equity is assigned to fund city capital improvements and virtually all has been appropriated to specific projects.

Assigned to Culture, Recreation and Open Space

General Fund: \$13,054 residual fund balance is assigned to Culture and Recreation through the budget process. *Recreation Fund:* \$1,317,518 residual fund balance is assigned to Culture and Recreation through the budget process. *Cultural Services:* \$65,046 residual fund balance is assigned to Culture and Recreation through the budget process.

Assigned to Debt Service

ACLC Debt Service Fund: \$2,178,759 is assigned through the budget process to fund future debt payments.

Assigned to Development

General Fund: \$3,366,710 is assigned to fund economic development; \$8,400,000 is assigned to development at Regatta Plaza. *Marijuana Tax Revenue Fund:* by City Ordinance, \$4,475,936 is assigned through sales tax and excise tax on marijuana for public purposes as determined appropriate and authorized by City Council.

Assigned to Encumbrance

General Fund: \$4,860,211 is assigned to pay commitments on open purchase orders.

Assigned to Long-term Liabilities

General Fund: \$26,240,818 is assigned by management, with Council review, to pay long-term liabilities.

Unassigned Fund Balance Operating Reserve (minimum fund balance policy)

General Fund: As outlined in the city's Financial Policies and Guidelines and adopted by resolution, the General Fund has a minimum target fund balance of 1% to 3% of annual General Fund budgetary revenues. This reserve is intended to be usable in limited circumstances for one-time use where Council determines such use is appropriate and necessary. Uses may include paying for unexpected revenue shortfalls, unexpected expenses, and offsetting potential budget cuts. This reserve also assists in meeting financial bond rating agency total reserve requirements.

5. JOINT VENTURE

The Aurora – Colorado Springs Joint Water Authority (ACSJWA) was formed between the city of Aurora and the city of Colorado Springs. ACSJWA is reported in the Water Fund using the equity interest method. ACSJWA charges both cities transmission service fees to pay expenses incurred in the operation and maintenance of the project. The investment on January 1, 2017 was \$2,379,317, plus the city's share of the change in net position of (\$30,073) results in an ending investment on December 31, 2017 of \$2,349,244.

6. OTHER ASSET - INTEREST RATE CAP

As of December 31, 2017, the AURA has one derivative instrument outstanding, an interest rate cap purchased in connection with the loan payable from the AURA to NBH Capital Finance for the purpose of financing a public conference center and parking facility. Parties to the derivative agreement are AURA (fixed note payer) and Royal Bank of Canada (floating rate payer or counterparty). The interest rate on the bank note is fixed until November 30, 2017 at which time the rate becomes variable. On December 1, 2017, the interest rate was set at 3.04618%. This interest rate will remain fixed for one year and will be reset on December 1, 2018. The interest rate cap is a cash flow hedge derivative. The objective of the rate cap is to protect against possible substantial future increases in interest rates which could adversely affect the coverage afforded by pledged revenues for the loan debt service requirements and limit projected revenue available for expenditure on public purposes.

Below is a summary of the terms of the interest rate cap:

Notional Amount	Settlement Date	Effective Date	Maturity Date	Terms	Fair Value	Change in Fair Value
\$25,000,000	9.1.2015	12.1.2017	12.1.2024	70% of sum of 1-year USD-LIBOR-BBA plus 2.40% exceeding strike rate	\$7,359	\$2,675

The interest rate cap satisfies the criteria for effectiveness using the dollar offset method. The interest rate cap has a positive fair value at December 31, 2017, and it is recorded as other asset in the governmental activities column on the Citywide statement of net position. The changes in fair value are recorded as a deferred inflow of resources on the Citywide statement of net position. As exchange-traded instruments that have a directly quotable price are not available for over-the-counter derivatives identical to this transaction, the interest rate cap is required to be valued using Level 2 inputs. A pricing service measured the fair value of the interest rate cap using internally developed models that used readily observable market parameters that are actively quoted and can be validated using external sources as their inputs.

Under the terms of the cap agreement, the cap provider will make floating payments to AURA on any floating rate payment dates when 70% of the sum of USD-LIBOR-BBA with a designated maturity of 12 months plus 2.40% exceeds the predetermined strike rates. In exchange for receiving any floating amount payments from the cap provider, the AURA made a one-time fixed payment to the cap provider in an amount of \$195,000 on the trade date September 1, 2015. The AURA has policies in place to evaluate the credit worthiness of a swap counterparty to determine if the counterparty should be required to post collateral for the occurrence of certain events or provide certain credit enhancements prior to executing the agreement. The AURA, in consultation with its Qualified Independent Representative, determined this agreement does not require additional collateral be posted by the counterparty in the event AURA becomes exposed to credit risk. All transactions are in U.S. dollars.

Hedging Derivative Net Cash Flow - As interest rates have remained low and there is no indication of significant interest rate increase, management believes the effect on cash flows related to the interest rate cap are de minimis based on rates as of December 31, 2017.

Risks

Credit Risk. The fair value represents the AURA's credit exposure to the counterparty as of December 31, 2017. Should the counterparty to this transaction fail to perform according to the terms of the cap agreement, the AURA has a maximum possible loss equivalent to the cap's fair value at that date. The credit ratings of the counterparty are: Moody's A1; Standard & Poor's AA-; Fitch AA.

Interest Rate Risk. The interest rate is capped at predetermined strike rates.

Basis Risk. Basis risk arises from the mismatch between the rate received under the cap and the rate paid on the loan. In this transaction the cap payment calculation is matched with the interest calculation of variable rate on the loan. There is no basis risk.

Termination Risk. The AURA or its counterparties may terminate the derivative if the other party fails to perform under the terms of the agreement. Additionally, AURA has the option to terminate the cap agreement at any time, at the then-current market value of the cap agreement. The cap provider shall not have the right to optionally terminate the cap agreement.

Rollover Risk. The AURA is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the debt. When the rate cap terminates, the AURA will be re-exposed to the risks being hedged by the cap.

7. CAPITAL ASSETS

Governmental Activities - Capital asset activity for the year ended December 31, 2017, is shown below.

	January 1	Additions	Disposals	Transfers	December 31
Capital assets not depreciated

8. NONCURRENT LIABILITIES

A. General Obligation Bonds

The city has issued governmental general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds pledge the full faith and credit of the city. The General Improvement Districts pledge the full faith and credit of the properties within the district.

Governmental Activities - The General Improvement Districts have five outstanding issuances of general obligation bonds. Amounts originally issued and amounts outstanding at December 31, 2017, respectively, were: 2009 Cherry Creek Fence \$700,000 and \$500,000; 2010 Meadow Hills Fence \$520,000 and \$380,000; 2010 Peoria Park Fence \$375,000 and \$292,000; 2011 Pier Point Sewer \$2,600,000 and \$2,045,000; and 2017 Cobblewood Street Improvement \$650,000 and \$365,000.

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending December 31	<u>Governmental Activities</u> 3.27-5.45%		
	Principal	Interest	Total
2018	\$ 192,000	\$ 164,025	\$ 356,025
2019	205,000	153,890	358,890
2020	212,000	144,546	356,546
2021	223,000	134,896	357,896
2022	235,000	124,722	359,722
2023-2027	1,316,000	455,300	1,771,300
2028-2032	1,199,000	134,205	1,333,205
Total	\$ 3,582,000	\$ 1,311,584	\$ 4,893,584

B. Revenue Bonds

Business-type Activities – Water Fund has one outstanding issuance of revenue bonds. Amounts originally issued and amounts outstanding at December 31, 2017, respectively, were: 2016 First Lien Water Refunding \$437,025,000 and \$437,025,000.

Wastewater Fund has one outstanding issuance of revenue bonds. Amounts originally issued and amounts outstanding at December 31, 2017, respectively, were: 2016 First Lien Sewer Refunding \$28,900,000 and \$26,105,000.

Annual debt service requirements to maturity for revenue bonds are as follows:

Year Ending December 31	<u>Business-Type Activities</u> 1.50-5.00%		
	Principal	Interest	Total
2018	\$ 2,725,000	\$ 19,343,288	\$ 22,068,288
2019	2,765,000	19,300,778	22,065,778
2020	5,160,000	19,370,144	24,530,144
2021	7,710,000	19,291,058	27,001,058
2022	10,460,000	19,003,770	29,463,770
2023-2027	68,870,000	87,668,522	156,538,522
2028-2032	69,245,000	74,752,500	143,997,500
2033-2037	86,010,000	57,992,000	144,002,000
2038-2042	107,035,000	36,966,800	144,001,800
2043-2046	103,150,000	12,047,750	115,197,750
Total	\$ 463,130,000	\$ 365,736,610	\$ 828,866,610

C. Certificates of Participation

Governmental Activities - Certificates of Participation (COPs) are issued by Aurora Capital Leasing Corporation (ACLC) and represent participation in a capital lease financing. The COPs are payable from the city's lease payments to ACLC, which are assigned to the trustee for the COPs debt service. There are five outstanding COPs issues. Amounts originally issued and amounts outstanding at December 31, 2017, respectively were: 2009A refunding series (2005 Public Improvement and 2008 refunding) \$84,160,000 and \$76,730,000; 2014 Public Safety and Sports Park \$21,775,000 and \$17,025,000; 2015 Public Safety Training Facility \$24,340,000 and \$23,070,000; 2017 Central Recreation Center \$28,865,000 and \$28,645,000; and 2017 Three Fire Stations and Equipment \$27,675,000 and \$27,675,000.

Annual debt service requirements to maturity for COPs are as follows:

Year Ending December 31	<u>Governmental Activities</u> 2.00-5.00%		
	Principal	Interest	Total
2018	\$ 8,270,000	\$ 7,881,644	\$ 16,151,644
2019	8,585,000	7,566,044	16,151,044
2020	8,950,000	7,201,569	16,151,569
2021	9,380,000	6,778,794	16,158,794
2022	9,830,000	6,328,094	16,158,094
2023-2027	47,465,000	24,500,643	71,965,643
2028-2032	45,850,000	12,515,369	58,365,369
2033-2037	21,995,000	5,464,131	27,459,131
2038-2042	12,820,000	1,655,562	14,475,562
Total	\$173,145,000	\$ 79,891,850	\$ 253,036,850

D. Notes Payable

Governmental Activities – The city has one Special Improvement District Revenue Note for expenditures made by the city to construct certain masonry fences in the district payable from special assessments levied on the neighborhoods. Amounts originally issued and amounts outstanding at December 31, 2017, respectively were: Dam East Neighborhood \$1,230,000 and \$470,000.

The Aurora Urban Renewal Authority (AURA) issued \$27,750,000 NBH Capital Finance note for the purpose of financing the construction of a public conference center and a parking facility in the Fitzsimons Urban Renewal Area (URA) and will be repaid by tax increment revenues of the URA. AURA has fully drawn on this note as of December 31, 2016. Repayment of the principal amount will begin on December 1, 2019 and matures on December 1, 2024. Interest payments on the note are due quarterly beginning June 1, 2015 at the rate of 2.40% per annum through November 30, 2017. On December 1, 2017 and annually thereafter, the rate of interest on the outstanding principal

balance of the note shall be reset to a rate equal to the 12-month LIBOR rate in effect as of such date, which was 1.95169%, plus 2.40%, times a tax-exempt factor of 0.70. The maximum interest rate is set at 12% per annum. The amount outstanding on the note at December 31, 2017 is \$27,750,000. As required by the AURA and the Public Finance and Redevelopment Agreement (PFRA), the city has a moral obligation pledge on this revenue note's debt service reserve fund in the amount of \$2,120,000. The moral obligation does not constitute a pledge of the city's full faith and credit as security for the note, but rather, it is merely a declaration of the city's present intent to consider appropriating funds to replenish the debt service reserve fund under the terms and conditions set forth in the agreement.

Business-type Activities – Water Fund has one outstanding notes payable. Amounts originally issued and amounts outstanding at December 31, 2017, respectively were: 2004 Water Rights Notes \$8,280,091 and \$176,883.

Annual debt service requirements to maturity for notes payable are as follows:

Year Ending December 31	<u>Governmental Activities</u> 2.73-3.15488% **			<u>Business-Type Activities</u> 5.00%			
	Principal	Interest	Total	Principal	Interest	Total	
2018	\$ 10,000	\$ 869,819	\$ 879,819	\$ -	\$ -	\$ -	*
2019	445,000	898,985	1,343,985	176,883	8,844	185,727	
2020	655,000	886,639	1,541,639	-	-	-	
2021	725,000	863,156	1,588,156	-	-	-	
2022	1,200,000	839,868	2,039,868	-	-	-	
2023-2027	25,185,000	1,520,395	26,705,395	-	-	-	
Total	\$ 28,220,000	\$ 5,878,862	\$ 34,098,862	\$ 176,883	\$ 8,844	\$ 185,727	

*A principal and interest payment of \$176,883 and \$17,688, respectively, was made on the 2004 water rights note payable on December 29, 2017 due January 1, 2018.

**12-month LIBOR rate at December 29, 2017 per Wall Street Journal is 2.10697%.

E. Capitalized Leases

Governmental Activities - The city has entered into leases for eight fire apparatus, various breathing apparatus, nine construction equipment, seventeen transportation equipment and three buildings and improvements. All leases are funded from the General Fund. The leases have been capitalized for financial statement purposes. Upon final payment, the equipment and site leased will transfer to the city's ownership. The gross amount of the machinery and equipment acquired, and the cost of buildings and improvements under each lease are \$4,612,344, \$1,617,875, \$1,962,410, \$3,217,877 and \$18,133,369, respectively. Accumulated amortization on these leases is \$3,341,082 as of December 31, 2017. Specific assets are pledged under the capital leases.

The Series 2017A capital lease (\$10,095,000) included the advance refunding of the remaining principal amount of \$3,050,000 of the Series 2015 capital lease. The refunding resulted in an increase of \$93,388 in total principal and interest to be incurred from the prior debt service (\$3,349,478) to the refunded debt service (\$3,442,866). The refunding had an economic loss (net present value savings) of \$77,553 and a deferred loss on refunding of \$20,392. The project was funded in phases to decrease the total financing costs of the project. Phase I, the Series 2015, represented the land and building purchase. Phase II, the Series 2017A, represented the refunding of Phase I, plus design and construction costs to retrofit the building.

Annual debt service requirements to maturity for capital leases are as follows:

Year Ending December 31	<u>Governmental Activities</u> 1.208-2.65%		
	Principal	Interest	Total
2018	\$ 3,954,176	\$ 522,780	\$ 4,476,956
2019	3,787,471	434,460	4,221,931
2020	2,884,555	372,507	3,257,062
2021	2,918,459	322,467	3,240,926
2022	2,952,714	271,680	3,224,394
2023-2027	5,562,181	797,005	6,359,186
2028-2032	3,830,000	279,178	4,109,178
Total	\$ 25,889,556	\$ 3,000,077	\$ 28,889,633

F. Pledged Revenue

Governmental Activities - The city has pledged any special assessments levied and collected on the respective neighborhood to repay \$470,000 current principal outstanding, in Special Improvement District Revenue Note issued in 2012. Proceeds from the note provided for the construction of one masonry fence. The note is payable solely from special assessments levied and collected on the respective neighborhood and is payable through 2022.

- *Dam East Neighborhood* - Annual principal and interest payments on the note are expected to require approximately 100.0% of net revenues as the city is expected to pay out all of the special assessments collected. The total principal and interest remaining to be paid on the note is \$531,084. Principal and interest paid for the current year and total special assessments levied and collected on the neighborhood were \$145,414 and \$134,597, respectively.

The AURA has pledged incremental increases in property, sales tax, lodger tax, and use tax on construction materials, as well as net revenues from the operation of the conference center and parking facility, to the payment of the NBH Capital Finance note. Annual principal and interest payments on the note are expected to require 100% of pledged revenues based on the NBH Capital Finance Debt Service Amortization Schedule. Total amount drawn on the note is \$27,750,000 as of December 31, 2017. Total interest paid for the current year and total pledged revenues collected were \$675,250 and \$954,163, respectively. Based on the terms of the agreement when in any fiscal year the actual debt service requirements of the debt are less than the amount assumed for such fiscal year in the base case bond amortization, the difference shall be remitted to AURA to be used for debt service payments and working capital in the operations of the conference center and parking facility.

Business-type Activities - The city has pledged future water system revenues, net of specified operating expenses, to repay \$437,025,000 principal currently outstanding, in water system refunding revenue bonds issued in 2016 and \$176,883, principal currently outstanding, in utility enterprise water resources revenue notes issued in 2004. Proceeds from the bonds provided financing for the acquisition of water rights, the acquisition and construction of water facilities and additions and improvements to the water system, including funding the Prairie Waters Project. The bonds are payable solely from water system net revenues and are payable through 2046. Proceeds from the notes provided for the acquisition of certain water rights. The notes are payable solely from water system revenues and are payable through 2019. Annual principal and interest payments on the bonds and notes are expected to require approximately 18.46% of net revenues. The total principal and interest remaining to be paid on the bonds and notes is \$800,869,027. Principal and interest paid for the current year and total water system net revenues were \$18,341,619 and \$99,381,265, respectively.

The city has pledged future wastewater system revenues, net of specified operating expenses, to repay \$26,105,000 principal currently outstanding, in wastewater system revenue bonds issued in 2016. Proceeds from the refunding bonds provided financing for the acquisition and construction of additions and improvements to the wastewater utility system. The bonds are payable solely from wastewater system net revenues and are payable through 2026. Annual principal and interest payments on the bonds are expected to require approximately 15.5% of net revenues. The total principal and interest remaining to be paid on the bonds is \$28,183,310. Principal and interest paid for the current year and total system net revenues were \$3,129,373 and \$20,142,975, respectively.

G. Accrued Compensated Absences

Accrued compensated absences recorded in governmental activities are generally paid from the General Fund. Amounts outstanding at December 31, 2017 are \$29,890,361 for governmental activities and \$4,786,813 for business-type activities.

H. Legal Debt Limit

The city's legal debt limit is 3% of the assessed valuation of taxable property. After certain deductions allowed by law, the legal debt margin as of December 31, 2017 is \$129,389,531. In 1992, Colorado voters approved an amendment to the state constitution (TABOR), which requires multiple-fiscal year debt and certain other financial obligations to be authorized by voters, regardless of whether or not the city is at its legal debt margin. Voter approval of additional debt typically includes a provision exempting the new debt from the debt margin. Consequently, the computation of the city's legal debt margin has little real significance.

I. Changes in Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2017, was as follows:

Governmental Activities	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Bonds Payable:					
General obligation bonds	\$ 3,386,000	\$ 650,000	\$ (454,000)	\$ 3,582,000	\$ 192,000
Certificates of participation	123,285,000	56,540,000	(6,680,000)	173,145,000	8,270,000
Less adjustments:					
Unamortized premium	7,709,309	6,755,756	(851,922)	13,613,143	-
Total bonds and COPs	134,380,309	63,945,756	(7,985,922)	190,340,143	8,462,000
Notes payable	28,455,000	-	(235,000)	28,220,000	10,000
Capitalized leases	21,211,182	11,315,000	(6,636,626)	25,889,556	3,954,176
Accrued compensated absences	28,990,083	930,288	(30,010)	29,890,361	4,880,667
Accrued claims payable	11,245,374	7,556,295	(6,760,839)	12,040,830	6,137,161
Net OPEB obligation	5,078,438	-	(231,421)	4,847,017	-
Net pension liability	102,955,045	102,006,489	(102,955,045)	102,006,489	-
Total Governmental Activities	\$ 332,315,431	\$ 185,753,828	\$ (124,834,863)	\$ 393,234,396	\$ 23,444,004

Business-type Activities	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Bonds Payable:					
Revenue bonds	\$ 465,925,000	\$ -	\$ (2,795,000)	\$ 463,130,000	\$ 2,725,000
Less adjustments:					
Unamortized premium	79,810,325	-	(2,697,793)	77,112,532	-
Total bonds and COPs	545,735,325	-	(5,492,793)	540,242,532	2,725,000
Notes payable	353,766	-	(176,883)	176,883	-
Accrued compensated absences	4,656,192	432,223	(301,602)	4,786,813	742,625
Net OPEB obligation	981,456	-	(53,987)	927,469	-
Net pension liability	8,954,049	6,386,892	(8,954,049)	6,386,892	-
Total Business-type Activities	\$ 560,680,788	\$ 6,819,115	\$ (14,979,314)	\$ 552,520,589	\$ 3,467,625

9. DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

The components of deferred outflows of resources and deferred inflows of resources reported in the government-wide financial statements as of December 31, 2017, are as follows:

	Primary Government		
	Governmental Activities	Business-Type Activities	Total
Deferred Outflows of Resources			
Pensions	\$ 46,959,234	\$ 6,370,426	\$ 53,329,660
Loss on refunding	6,847,311	11,474,171	18,321,482
Total Deferred Outflows of Resources	\$ 53,806,545	\$ 17,844,597	\$ 71,651,142
Deferred Inflows of Resources			
Pensions	\$ 6,654,123	\$ 2,221,942	\$ 8,876,065
Interest rate cap	7,359	-	7,359
Property taxes	45,891,095	-	45,891,095
Gain on refunding	-	408,219	408,219
Total Deferred Inflows of Resources	\$ 52,552,577	\$ 2,630,161	\$ 55,182,738

Under the modified accrual basis of accounting, revenues and other fund financial resources are recognized in the period in which they become both measurable and available. Assets recorded in the fund financial statements for which the revenues are not available are reported as a deferred inflow of resources. In addition, property tax receivables are reported as a deferred inflow of resources when levied in the fund statements. Deferred inflows of resources are comprised of property tax and unavailable fund resources. Unavailable fund resources include: special assessment receivables, tax audit receivables and notes receivables that are unavailable in the fund statements but are recognized as revenue in the citywide statements.

The components of the deferred inflows of resources reported in the fund statements as of December 31, 2017, are as follows:

	General Fund	Non-Major Governmental Funds	Total	Component Unit
Deferred Inflows of Resources				
Property tax	\$ 36,783,904	\$ 9,107,191	\$ 45,891,095	\$ 404,410
Unavailable fund resources	626,980	8,936,960	9,563,940	-
Total Deferred Inflows of Resources	\$ 37,410,884	\$ 18,044,151	\$ 55,455,035	\$ 404,410

10. INTERFUND TRANSACTIONS

The balance between the General Fund and the Nonmajor Governmental Funds results from a loan to the AURA Debt Service Fund to temporarily fund the purchase and improvements of the Regatta Plaza Property until external financing is obtained. The balance between the Water Fund and Nonmajor Governmental Funds is an interfund loan for purchase and development of land. The balance between the Wastewater Fund and the Nonmajor Business-type Funds results from the interfund loan between the Wastewater Fund and the Golf Fund for the construction of the Murphy Creek Golf Course. The balance between the Nonmajor Governmental Funds and the General Fund results from a year-end due to/due from between the AURA Debt Service Fund and the General Fund.

Interfund Payable				
Interfund Receivable	General Fund	Nonmajor Governmental Funds	Nonmajor Business-type Funds	Totals
General Fund	\$ -	\$ 21,500,000	\$ -	\$ 21,500,000
Water Fund	-	4,000,000	-	4,000,000
Wastewater Fund	-	-	3,634,000	3,634,000
Nonmajor Governmental Funds	375,000	-	-	375,000
Total	\$ 375,000	\$ 25,500,000	\$ 3,634,000	\$ 29,509,000

Transfers are used to move revenues from the fund in which the city budget requires collection to the fund required to expend the monies, and to move unrestricted revenues collected in the General Fund to finance various activities accounted for in other funds.

Interfund Transfers Out						
Interfund Transfers In	General Fund	Capital Projects Fund	Wastewater Fund	Nonmajor Governmental Funds	Nonmajor Business-type Funds	Total
General Fund	\$ -	\$ -	\$ -	\$ 1,975,511	\$ -	\$ 1,975,511
Capital Projects Fund	33,425,571	-	100,000	2,806,932	200,000	36,532,503
Nonmajor Governmental Funds	21,733,196	4,548,995	-	6,913,866	-	33,196,057
Nonmajor Business-type Funds	-	-	-	150,000	-	150,000
Total	\$ 55,158,767	\$ 4,548,995	\$ 100,000	\$ 11,846,309	\$ 200,000	\$ 71,854,071

Transfers between Capital Projects and Nonmajor Business-type Funds	\$ (200,000)
Transfers between Capital Projects and Wastewater Fund	(100,000)
Transfers between Governmental Funds and Nonmajor Business-type Funds	150,000
Total transfers between Governmental-type Activities and Business-type Activities	(150,000)
Capital asset transfers:	
From Business-type Activities to Governmental-type Activities, including Internal Service Funds	(3,702,233)
Elimination of Internal Service Funds	(19,618)
Net capital asset transfers, excluding Internal Service Funds	(3,721,851)
Total transfers between Governmental-type Activities and Business-type Activities	<u>\$ (3,871,851)</u>

11. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

A. Continuing Appropriations

The city stipulates that appropriations for capital projects do not lapse until the purpose for which the appropriation was made has been accomplished or abandoned. Additionally, any project is deemed abandoned if three years have elapsed without expenditure or encumbrance to the project. As of December 31, 2017, the city had various unspent appropriations for the acquisition and construction of projects which totaled \$241,867,451.

B. Encumbrances

Encumbrance commitments in the General Fund total \$4,860,211 and in the nonmajor governmental funds in the aggregate total \$3,248,576. The nonmajor governmental funds aggregate includes \$1,954,922 for the nonmajor governmental funds with legally adopted budgets and \$1,293,654 for AURA and ACLC which do not have legally adopted budgets.

C. Job Related Tax Abatement Agreements

The city enters into job related tax abatement agreements with local businesses to encourage retail and mixed use development, and commercial expansion within its borders. The abatement program is approved by City Council via ordinance and the agreements with individual businesses are approved via resolution. The businesses agree to meet employment requirements as specified in the agreement in order to receive continued payment until maximum

employment levels and time requirement are reached. If the business fails to meet agreed upon obligations, the city may impose sanctions including terminating the agreement, reimbursement of taxes rebated with interest, and imposition of liens upon real and personal property. Total potential future abatement is \$17,845,386 and abatements paid or waived to date is \$651,749. No abatements were paid during year 2017 as businesses either did not meet the employment and time requirements or did not submit a rebate request. As part of the agreements, the city may offer one or more of the following incentives:

- Rebate of use tax related to construction materials;
- Rebate of use tax reported or sales tax paid on the purchase of equipment for a period of time;
- Rebate of sales tax collected from customers for a period of time;
- Rebate of personal property tax collected for a period of time.

D. Tax Increment Financing

At December 31, 2017, the Aurora Urban Renewal Authority had retail, commercial and residential agreements with Cornerstar, Fitzsimons Village, the Colorado Science and Technology Park, Gardens on Havana, Aurora Convention Center Hotel, Stanley JV LLC, and Forest City Stapleton. Total potential future funding obligation is \$132,711,210 and paid to date is \$29,481,027. Two of the agreements do not have a potential future funding obligation and paid to date amount is \$12,460,351.

E. Tax Incentive Agreements

The city enters into tax incentive agreements to encourage retail and mixed use development, commercial expansion and public infrastructure within its borders. At December 31, 2017, the city had development incentive agreements with the developers of Town Center at Aurora, Pacific Ocean Marketplace Aurora, Serenity Ridge Marketplace and AfrikMall. Total potential allocable revenue is \$30,606,122 and paid to date is \$2,081,964.

12. DEFERRED COMPENSATION PLANS

The city offers employees the opportunity to voluntarily participate in one of three deferred compensation plans. The City of Aurora 457 Deferred Compensation Plan, administered by Nationwide Retirement Solutions, is open to all employees. The International City Management Association Retirement Corporation (ICMA-RC) administers a plan open to executive staff. The Fire and Police Pension Association (FPPA) offers an additional 457 plan through Fidelity for Police and Fire civil service employees.

In addition, as a condition of membership of the transfer plan component of the Fire Statewide Defined Benefit Pension Plan, annual contributions are also made to a 457 Deferred Compensation Plan administered by Nationwide Retirement Solutions. Under this plan, Nationwide Life Insurance Company provides benefits through a deferred variable annuity contract for the exclusive benefit of plan participants and their beneficiaries. In 2017, members of the transfer plan and the city each contributed 0.5% (\$67,720).

All four plans are created in accordance with Internal Revenue Code Section 457. The plans allow employees to defer a portion of their salary until future years. The deferred amounts are not available to the employees until termination, retirement, death or unforeseeable emergency. The amounts in the deferred compensation plans are held in third party trusts for the exclusive benefit of the city's employees and beneficiaries. The trustee of the City of Aurora 457 plan administered through Nationwide is Nationwide Trust Company FSB. The trustee of the plan administered through ICMA-RC is Vantage Trust Company LLC. The FPPA Board is trustee of the FPPA Fidelity plan. The trustees are responsible for evaluating the ongoing appropriateness of investment options and ensuring the plans operate in compliance with the plan documents, and other applicable rules and guidelines. The trustees are obliged to act as a reasonable and prudent person would act in a similar situation.

13. PENSION PLANS

The city of Aurora provides the following plans:

Defined Benefit Plans:

- General Employees' Retirement Plan (GERP)
- Elected Officials' and Executive Personnel Defined Benefit Plan (EOEP)
- Fire Pension Plan (Old Hire-Fire)
- Police Pension Plan (Old Hire-Police)
- Fire Statewide Defined Benefit Pension Plan (SWDB)

Fire Statewide Hybrid Pension Plan (SWH)
 Defined Contribution Plans:
 Police Money Purchase Pension Plan (New Hire-Police)
 Fire Money Purchase Pension Plan
 Executive Retirement Plan – Money Purchase Pension Plan (ERP)

A. Defined Benefit Plans

The following provides a summary of the net pension liability, net pension asset, deferred outflows of resources, deferred inflows of resources and pension expense for each of the defined benefit plans as of and for the year ended December 31, 2017 (measured as of December 31, 2016):

	Net Pension Liability	Net Pension Asset	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense (Reduction)
Single Employer Plans					
GERP	\$ 24,867,645	\$ -	\$ 24,445,016	\$ 8,475,793	\$ 10,326,075
EOEP	-	545,193	346,895	7,103	228,638
Agent Multiple Employer Plans					
Old Hire-Fire	36,838,758	-	7,177,781	-	3,928,882
Old Hire-Police	44,975,464	-	8,695,629	-	4,757,600
Cost Sharing Multiple Employer Plans					
SWDB	1,711,514	-	9,503,614	325,892	2,627,392
SWH	-	3,330,949	3,160,725	67,277	(480,446)
	<u>\$ 108,393,381</u>	<u>\$ 3,876,142</u>	<u>\$ 53,329,660</u>	<u>\$ 8,876,065</u>	<u>\$ 21,388,141</u>

The net pension liability, net pension asset, deferred outflows of resources, deferred inflows of resources and pension expense are reported in the governmental activities except for the proportion of GERP associated with business-type activities. Based on the proportion of the pension contributions for the year, the net pension liability for business-type activities is \$6,386,892, the deferred outflows of resources is \$6,370,426, the deferred inflows of resources is \$2,221,942 and pension expense is \$2,635,981.

The net pension liability or asset is the difference between the total pension liability and the fiduciary net position as of the measurement date. If the fiduciary net position exceeds the total pension liability as of the measurement date, there is a net pension asset.

Deferred outflows of resources and deferred inflows of resources related to pensions are the amounts that are required to be deferred and recognized in subsequent periods. These amounts refer to items that are not yet recognized in the net pension liability/asset or pension expense and include:

- Differences between expected and actual experience
- Changes of pension assumptions
- Differences between projected and actual earnings on pension plan investments
- Changes in pension proportionate share
- City contributions made subsequent to the measurement date through the fiscal year end

Deferred outflows of resources and deferred inflows of resources will be recognized as follows:

- Differences in plan experience, changes of assumptions and changes in proportionate share will be amortized over the remaining service lives of current and former employees, and retirees.
- Differences between projected and actual investment earnings will be amortized over a five-year period.
- Contributions made subsequent to the measurement date will be recognized as a reduction (increase) of the net pension liability (asset) in the subsequent year.

1. General Employees' Retirement Plan

General Information about the Pension Plan

Plan Description. The city of Aurora General Employees' Retirement Plan (GERP) is a contributory single-employer defined benefit pension plan covering all full-time and part-time city employees except police officers,

firefighters, elected officials, contingent employees and executives who have elected to participate in the Executive Retirement Plan. The plan is maintained for the exclusive benefit of the employees of the city and their beneficiaries. Employee contributions are required as a condition of employment and are matched equally by the city. GERP has a separate, independent board that administers the plan with three of the seven board members appointed by City Council. Separately issued audited financial statements are available online at www.auroragerp.qwestoffice.net or by contacting GERP at 12100 E. Iliff Avenue, Suite 108, Aurora, Colorado 80014 or telephone (303) 368-9160.

Plan Membership. As of the measurement date, 858 retirees and others were receiving benefits with 1,650 active plan members. There were 248 former employees that were deferred vested and entitled to receive benefits in the future.

Benefits Provided. The plan provides retirement benefits, as well as death, disability and supplemental benefits. Chapter 102, Article V of the City Code assigns the authority to establish and amend benefit provisions to City Council.

Normal Retirement - Normal retirement age is 65 for participants in the plan prior to January 1, 2012 (Tier 1) and 67 for participants who first joined the plan after December 31, 2011 (Tier 2). Normal retirement benefits are the greater of 1.75% of final average monthly compensation, multiplied by years of credited service, including fractional years, or the annuitized value of contribution refunds. Final average monthly compensation is the average pay an employee received (excluding overtime and non-regular remuneration) during his/her highest paid 36 consecutive months with the city within the employee's last 10 years of employment. Optional forms of benefit are available in lieu of the single life annuity, in order to provide survivorship benefits.

Tier 1 participants automatically receive annual cost of living adjustments linked to the Consumer Price Index, and limited to 5% per year. Tier 2 participants may be granted cost of living adjustments at the discretion of the Board, at a rate not to exceed the rate of increase given to Tier 1 participants.

A supplemental benefit is provided to all retirees who have five or more years of credited service and is prorated for service of less than 20 years. Periodic cost of living adjustments to the supplemental benefit may be approved by the plan's Board of Trustees and are limited to 5% per year.

Early Retirement - If termination occurs before normal retirement age, participants who are age 50 or older with at least ten years of credited service may elect to begin receiving early retirement benefits. Reductions for early retirement will be applied to the normal retirement benefit if the sum of a participant's years of age and credited service is less than 80 (the Rule of 80). The reduction for Tier 1 participants is 2% for each year a participant is short of attaining the sooner of normal retirement age or the Rule of 80, plus an additional 4% for each year the participant is below age 55. For Tier 2 participants, the reduction is 6% for each year a participant is short of attaining the sooner of normal retirement age or the Rule of 80.

Deferred Vested Benefits - Participants with at least five years of credited service who terminate before normal retirement age may leave their contribution accumulation with the plan and opt to receive an early or normal retirement benefit at a later date.

Disability Retirement Benefits - Participants who meet the eligibility requirements for the city's long-term disability insurance program continue to earn credited service during the period of time they collect disability insurance benefits. Once insurance payments have ended, the plan's disability retirement benefit is calculated in the same manner as the normal retirement benefit, using the higher of the average highest paid 36 consecutive months of compensation or the monthly rate of compensation at the time of disability. Early retirement reductions may apply if benefits begin before normal retirement age.

Death Benefits - The beneficiary of a deceased active employee or deferred vested participant may be eligible to receive a contribution refund or a monthly pension benefit, depending on the age and credited service the participant had earned. At retirement, a participant may designate a joint annuitant to receive pension benefits upon his/her death. The plan also pays a one-time lump sum death benefit of \$6,250 to the beneficiary designated by the retiree. This payment is separate from, and in addition to, any other benefits received.

Contributions. City Code establishes contribution requirements for the employees and the employer. Actuarial studies are considered in establishing funding policies. However, contributions are not actuarially determined.

Employee contributions are required as a condition of employment at 7.00% for 2017 and are matched dollar for dollar by the city. Plan administrative costs are financed using contributions and earnings of the plan.

Employee and employer contributions are recognized as revenues when due, pursuant to formal commitments, as well as statutory or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Employer contributions recognized by the plan for the year ended December 31, 2017 were \$7,321,152.

Net Pension Liability

At December 31, 2017, the city reported a liability of \$24,867,645 for the plan. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2016. The liability was rolled forward from January 1, 2016 to December 31, 2016 using standard actuarial methods.

Actuarial Assumptions. The January 1, 2016 actuarial valuation, based on the most recent experience study completed in 2013, used the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age normal
Amortization method	Level percent of projected payroll - open
Remaining amortization period	30 years
Asset valuation method	3-year smoothed market; 20% corridor
Actuarial assumptions:	
Investment rate of return	7.75%
Projected salary increases	3.25% to 6.00%, including inflation
Cost of living increases	Tier 1: Base benefit 3.25% Tier 2: Base benefit 0.00% Supplemental benefit 0.00%
Inflation	3.25%
Retirement age	Experience based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2009-2013.
Mortality	RP-2000 Combined Healthy Mortality Table

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return were adopted by the plan's trustees after considering input from the plan's investment consultant(s) and actuary(s). For each major asset class that is included in the pension plan's target asset allocation as of January 1, 2016, these best estimates are summarized in the following table:

Asset Allocation		
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Fixed Income	25.00%	2.23%
Domestic Equity	29.00%	5.98%
International Equity	16.00%	5.35%
Private Equity	10.00%	6.00%
Real Estate	10.00%	3.87%
Alternative Investments	10.00%	5.08%
Total	100.00%	

Discount Rate. A discount rate of 7.75% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 7.75%. The projection of cash flows used to determine this discount rate assumed that plan member contributions and city contributions will be made at the current scheduled contribution rates. Based on these assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability.

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a)-(b)
Balances at 1/1/2017	\$ 437,164,483	\$ 402,516,572	\$ 34,647,911
Changes for the year:			
Service Cost	10,397,915	-	10,397,915
Interest	33,149,005	-	33,149,005
Difference Between Expected and Actual Experience	(9,448,945)	-	(9,448,945)
Employer Contributions	-	6,703,676	(6,703,676)
Employee Contributions	-	6,709,396	(6,709,396)
Net Investment Income	-	31,024,129	(31,024,129)
Benefit Payments, including refunds	(21,163,587)	(21,163,587)	-
Administrative Expense	-	(558,960)	558,960
Net Changes	12,934,388	22,714,654	(9,780,266)
Balances at 12/31/2017	\$ 450,098,871	\$ 425,231,226	\$ 24,867,645

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the city's net pension liability (asset), calculated using a discount rate of 7.75%, as well as what the city's net pension liability (asset) would be if it were calculated using a discount rate that is one percent lower or one percent higher:

**Sensitivity of Net Pension Liability (Asset)
to the Discount Rate Assumption**

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's net pension liability (asset)	\$ 78,616,851	\$ 24,867,645	\$(20,252,784)

Pension Plan Fiduciary Net Position. Detailed information about the plan's net fiduciary net position is available in GERP's comprehensive annual financial report available online at www.auroragerp.qwestoffice.net or by contacting GERP at 12100 E. Iliff Avenue, Suite 108, Aurora, Colorado 80014 or telephone (303) 368-9160.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended December 31, 2017, the city recognized pension expense of \$10,326,075. At December 31, 2017, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 8,412,922
Net difference between projected and actual earnings on pension plan investments	17,060,993	-
Changes in proportion due to allocation change between fund types	62,871	62,871
City contributions subsequent to the measurement date	7,321,152	-
Total	<u>\$ 24,445,016</u>	<u>\$ 8,475,793</u>

\$7,321,152 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows (Inflows) of Resources
2018	\$ 3,808,641
2019	3,808,641
2020	3,716,045
2021	(1,826,260)
2022	(858,996)
Total	<u>\$ 8,648,071</u>

2. Elected Officials' and Executive Personnel Defined Benefit Plan (EOEP)

Plan Description

Plan Description. The city has a non-contributory single-employer defined benefit pension plan that became effective January 1, 2001. Chapter 102, Article VIII of the City Code, which establishes the plan, does not include a provision for a board of directors, but, instead, names the city's Director of Finance as trustee and plan administrator. The plan provides base and supplemental retirement benefits to members of the City Council and a standard retirement benefit to executive personnel who are also members of the Executive Retirement Plan (ERP). The authority to establish and amend benefit provisions is assigned to City Council. The city has entered into a service agreement with the city of Aurora General Employees' Retirement Plan (GERP) to provide administrative services for the plan. No stand-alone financial report is issued for EOEP.

Plan Membership. The mayor of the city and all elected city council members are covered under this plan as elected officials. Individuals performing services as executive employees for the city on or after January 1, 2000, are eligible to participate in this plan as executive personnel if they participate in the city's Executive Retirement Plan.

Benefits Provided. EOEP provides basic retirement, supplemental retirement and death benefits. Elected official plan members and executive employee plan members are eligible for retirement based on the following period of service:

Service Type	Period of Service	Normal Retirement Age
Elected Official	Covered employment ended on or before December 31, 2000	Later of age 60 or completion of 6 years of service
	Covered employment ended on or after January 1, 2001	If first elected prior to November 5, 2013, then the later of age 56 or completion of 6 years of service
		If first elected on or after November 5, 2013, then the later of age 62 or the completion of 6 years of service
Executive	Covered employment ended between January 1, 2000 and December 31, 2000	Later of age 55 or completion of 3 years of service
	Covered employment ended on or after January 1, 2001	If first entered covered employment on or before November 5, 2013, then the later of age 50 or completion of 3 years of service
		If first entered covered employment after November 5, 2013, then the later of age 62 or completion of 3 years of service

There are no basic retirement benefits for executive employees; they are eligible for benefits from the Executive Retirement Plan. The basic retirement benefits for elected officials per year of service is adjusted annually for increases in the CPI, not to exceed 5% per year. For members in covered employment on or after November 11, 1999, the monthly basic benefit payable for 2017 is \$76.88 per year of service. The basic benefit for members who terminated employment before November 11, 1999 is based on a reduced schedule. For officials who begin a new term on or after November 5, 2013, total years of service is limited to the greater of 12 years or total service earned before November 5, 2013, except an additional 8 years may be earned for service as mayor.

Supplemental retirement benefits for elected officials and standard benefits for executive employees are adjusted annually by the same cost-of-living adjustment determined by the Board of Trustees of GERP applicable to the supplemental benefit provided under that plan, not to exceed 5% per year. The monthly supplemental benefit payable for 2017 is \$244.44. Only elected officials who were in covered employment on or after November 11, 1999 are eligible to receive the supplemental benefit. The maximum standard benefit for executive employees who left service before December 31, 2000 is \$176.00 and \$244.44 for those leaving after 2000. The standard benefit for executive employees is prorated for service less than 6 years.

Death benefits are 100% of the participant's normal, late or deferred retirement benefits for a participant with service on or after January 1, 2000. For participants who terminated prior to January 1, 2000, the death benefit is 50% of the participant's normal, late or deferred retirement benefits.

Contributions. There are no contributions from participants of the plan. The contribution requirements of the city are established and may be amended by City Council. The city is required to contribute at an actuarially determined amount. Administrative costs are financed using contributions and earnings of the plan. Employer contributions are recognized as revenues when due, pursuant to formal commitments and/or statutory or contractual requirements. For the year ended December 31, 2017, the city's average contribution rate was 1.89% of annual covered payroll. Employer contributions recognized by the plan for the year ended December 31, 2017 were \$84,159.

Governmental Accounting Standards Board Statement No. 67 *Financial Reporting for Pension Plans - an amendment of GASB Statement No. 25* (GASB 67) establishes the requirements for governmental pension plan financial statement reporting, including pension plan financial statements included as a pension trust fund of a government. Accordingly, GASB 67 applies to the city's reporting of EOEP's statement of fiduciary net position, statement of changes in fiduciary net position, certain notes to the financial statements and certain required supplementary information (RSI). GASB 68 sets forth the pension reporting requirements for the city in the statement of net position, statement of activities, certain notes to the financial statements and certain RSI. As no stand-alone financial report is issued for EOEP, all required disclosures for both GASB 67 and GASB 68 are contained in this note.

Because different measurement dates are used for GASB 67 and GASB 68, GASB 68 disclosures will correspond to the city's basic financial statements, except for the fiduciary funds statements reported under GASB 67.

Plan Membership. Current membership in the plan is as follows:

Retirees and beneficiaries	48
Inactive, nonretired members	6
Active members	34
	<u>88</u>

Investments

Investment Policy. At December 31, 2017, the plan's securities are in the custody of and controlled by Northern Trust Corporation, the master custodian. The plan contracts with investment managers to manage all of the plan's investments. Assets are diversified and are intended to match, as closely as possible, the investment style, allocation and performance of GERP. Based on GERP's long-term performance, its relatively conservative investment practices, and the cost effective nature of this practice, the EOEP trustee, the city's Director of Finance, has determined that it is appropriate for EOEP to mirror GERP's investment strategy and that GERP's investment managers should be utilized to the extent practical.

Plan investments are reported at fair value. Short-term investments are carried at cost, which approximates fair value. Securities and funds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate funds, not actively traded on a national or international exchange, are valued based upon periodic appraisals of the real estate underlying the investment units held by the plan. Alternative investments represent investments in funds composed of master limited partnerships which invest in securities traded in public markets and, therefore, have readily determined market values.

The plan includes, in the statement of changes in fiduciary net position, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation and depreciation on those investments. Purchases and sales are recorded on the trade date. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the plan's trustee after considering input from the plan's actuary. The estimates for each major asset class that is included in the plan's target asset allocation as of January 1, 2017 were as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Fixed Income	29%	0.75%
Domestic Equity	35%	4.60%
International Equity	18%	4.50%
Real Estate	12%	3.50%
Alternative Investments	6%	4.35%
Total	100%	

Investment Concentrations. Investment concentrations, as defined by the Governmental Accounting Standards Board, is any investment in any one organization (other than those issued or explicitly guaranteed by the U.S. government) that represents 5% or more of EOEP's fiduciary net position. EOEP held the following investments at December 31, 2017, that meet this criteria:

Investment	Value	% of Investments
iShares Core S&P 500 ETF	\$2,066,112	29.4%
Western Asset Core Plus Bond Fund	891,222	12.7%
Westcore Plus Bond Fund	886,871	12.6%
Heitman America Real Estate Trust	588,587	8.4%
Dodge & Cox International Stock Fund	531,221	7.6%
iShares Core S&P Small-Cap ETF	503,106	7.2%
American Funds EuroPacific Growth	450,467	6.4%

Investment Rate of Return. For the year ended, December 31, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 14.51%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Asset

The components of the net pension asset of the city at December 31, 2017, were as follows:

Total pension liability	\$ 5,455,394
EOEP fiduciary net position	(7,046,808)
City's net pension liability (asset)	<u>\$ (1,591,414)</u>
EOEP fiduciary net position as a percentage of the total pension liability	129.17%

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of January 1, 2017, rolled forward to December 31, 2017, using standard actuarial methods. The actuarial assumptions and other inputs used were:

Actuarial cost method	Entry age normal
Amortization method	Level dollar - open
Remaining amortization period	15 years (only surplus over 110% funding is amortized)
Asset valuation method	3-year smoothing
Actuarial assumptions:	
Investment rate of return	7.25% net of investment expenses
Inflation	2.75%
Cost of living adjustments	2.75% on Base 0.00% on Supplemental
Expenses	\$21,500 per annum
Retirement age	Elected Officials: after 3 terms (or age 56, if later); immediate if age 75 or older Executive Personnel: graded rates by age from 50 to 65
Mortality	Pre-retirement: RP-2000 Non-Annuitant Mortality Table Post-retirement (healthy): RP-2000 Combined Healthy Mortality Tables projected to 2020 using Scale BB; males set forward 1 year, females with 85% multiplier

Changes in Assumptions. As of the 2017 actuarial valuation, the investment rate of return changed from 7.50% gross of expenses to 7.25% net of investment expenses, inflation decreased from 3.25% to 2.75%. Expenses changed from 0.75% of market value of assets for all expenses to \$21,500 per annum and the basic cost-of-living adjustment decreased from 3.25% to 2.75%.

Changes in Benefit Terms. The base benefit for an Elected Official was increased from \$74.26 per year of service to \$76.88 per year of service.

Actuarial assumptions and methods are set by the Board of Trustees, based upon recommendations made by EOEP's actuary. The assumptions and methods generally follow those used by the city of Aurora General Employee's Retirement Plan (GERP). These assumptions are internally consistent and reasonably based on the actual and expected experience of the plan.

Discount Rate. The discount rate used to measure the total pension liability as of December 31, 2017, was 7.25%. Based on the projection of cash flows, EOEP's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on EOEP investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Asset to Changes in the Discount Rate. The following presents the sensitivity of the net pension asset to changes in the discount rate. The table presents the city's net pension asset if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate:

**Sensitivity of Net Pension Asset
to the Discount Rate Assumption**

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
City's net pension asset	\$ (1,035,737)	\$ (1,591,414)	\$ (2,063,726)

GASB 68 Disclosures

Plan Membership. Membership of the plan, as of the measurement date, was as follows:

Retirees and beneficiaries	44
Inactive, nonretired members	8
Active members	35
	<u>87</u>

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return were adopted by the plan's trustee after considering input from the plan's actuary. The estimates for each major asset class that is included in the plan's target asset allocation as of January 1, 2016 were as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equity - large cap	28%	5.93%
U.S. equity - small/mid cap	7%	6.63%
International equity	18%	5.35%
Fixed income	29%	2.18%
Private real estate	9%	3.43%
Global real estate investment trust	3%	5.65%
Master limited partnerships	6%	5.65%
Total	<u>100%</u>	

Net Pension Asset

At December 31, 2017, the city reported an asset of \$545,193 for the plan. The net pension asset was measured as of December 31, 2016, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2015, rolled forward to December 31, 2016 using standard actuarial methods.

Actuarial Assumptions. The January 1, 2015 actuarial valuation, based on the most recent experience study completed in 2013 for GERP as no separate study is performed for EOEP, used the following assumptions and other inputs:

Actuarial cost method	Entry age normal
Amortization method	Level dollar - open
Remaining amortization period	15 years
Asset valuation method	3-year smoothing
Actuarial assumptions:	
Investment rate of return	7.50%
Inflation	3.25%
Cost of living adjustments	3.25% on Base 0.00% on Supplemental
Expenses (as a percent of actuarial value of assets)	0.75%
Retirement age	Elected Officials: after 3 terms (or age 56, if later; immediate if age 75 or older) Executive Personnel: graded rates by age from 50 to 65
Mortality	Pre-retirement: RP-2000 Non-Annuitant Mortality Table Post-retirement (healthy): RP-2000 Combined Healthy Mortality Tables project to 2020 using Scale BB; males set forward 1 year, females with 85% multiplier

Changes in Assumptions. As of the 2015 actuarial valuation, the investment rate of return decreased from 7.75% to 7.50% and the basic cost-of-living adjustment decreased from 3.50% to 3.25%.

Changes in Benefit Terms. The age requirement for normal retirement eligibility was increased to age 62 for members who entered the plan after November 5, 2013 and the service credit used in the calculation of the normal retirement benefit for elected officials was also limited. The effect of this benefit change was first seen in the January 1, 2015 actuarial valuation.

Discount Rate. The discount rate used to measure the total pension liability as of December 31, 2016, was 7.50%. Based on the projection of cash flows, EOEP's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on EOEP investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Asset.

Balances at 12/31/2017	\$ 5,790,673	\$ 6,335,866	\$ (545,193)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the sensitivity of the city's net pension liability (asset) to changes in the discount rate. The table presents the city's net pension liability (asset) if it were calculated using a discount rate that is 1-percentage point lower (6.50%) or 1-percentage point higher (8.50%) than the current rate:

**Sensitivity of Net Pension Liability (Asset)
to the Discount Rate Assumption**

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's net pension liability (asset)	\$ 55,550	\$ (545,193)	\$ (1,051,910)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended December 31, 2017, the city recognized pension expense of \$228,638. At December 31, 2017, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 7,103
Net difference between projected and actual earnings on pension plan investments	262,736	-
City contributions subsequent to the measurement date	84,159	-
Total	\$ 346,895	\$ 7,103

\$84,159 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as an addition to the net pension asset in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows (Inflows) of Resources
2018	\$ 87,444
2019	94,548
2020	87,717
2021	(14,076)
Total	\$ 255,633

3. Fire and Police Pension Plans – Old Hire

Old Hire Plan Description – Fire and Police

Plan Description. The Old Hire Plans are closed, non-contributory agent multiple-employer defined benefit plans covering all full-time police officers or fire fighters hired before April 8, 1978 and provide normal, delayed, vested or deferred retirement benefits to plan participants. The Old Hire Plans are a part of the statewide multiple agent employer public employee retirement system and are administered by the Fire and Police Pension Association of Colorado (FPPA). The FPPA follows the Colorado Revised Statutes for plan contribution requirements and benefits. Both plans are included in the FPPA's annual separately issued audited financial statements. This report is available online at www.fppaco.org by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Old Hire Fire

Benefits Provided. The plan provides normal, delayed, vested, disability and severance retirements including death benefits.

Normal Retirement – For those firefighters who were initially hired by the city prior to January 1, 1976, the normal retirement requirement is 20 years of credited service and attainment of age 50. For those firefighters hired subsequent to January 1, 1976, the requirement is 25 years of credited service and attainment of age 50. Each firefighter shall be eligible to receive a service retirement monthly pension equal to one-half of the current (rank escalation) highest monthly base salary paid for the rank held by such former member at the time of termination of employment with the department thereafter, so long as the member is in retirement, plus one-half of the annual longevity pay and longevity credit earned by the member prior to January 1, 2005. Such monthly pension shall be paid regardless of income or earnings which the retiree receives from any other source. Separate provisions for normal retirement survivor benefits for spouses and children are included in the plan documents.

Delayed Retirement – Generally, any member who has met the eligibility requirement as defined in the plan documents will be eligible for a delayed retirement benefit for each full year of additional active service up to ten years of additional service. This benefit shall be an additional two percent of the current (rank escalation) highest monthly base salary paid for the rank held by such former member at the time of termination of employment with the department for each additional full year of active service plus the annual longevity pay and longevity credit earned by the member prior to January 1, 2005. For each additional full year of active service, the rank escalator benefit and longevity pay and longevity credit shall be increased by two percent. The delayed retirement benefit shall be available to members retiring on or after January 1, 1986. In no case shall the accumulation of additional active service through the delayed retirement benefit program result in a service retirement monthly pension in excess of 70 percent of the current (rank escalation) highest monthly base salary, plus longevity pay and longevity credit, paid for the rank held by such former member at the time of termination of employment with the department. For retirements occurring after May 1, 1991, the additional percent shall be four percent up to six years of additional service for a maximum of 74 percent of the current (rank escalation) highest monthly base salary, plus longevity pay and longevity credit, paid for the rank held by such former member at the time of termination of employment with the department. This modification effective on May 1, 1991, shall not be applicable to anyone who has retired prior to such date. Commencing with retirements occurring on or after January 1, 1993, the

delayed retirement benefit shall be calculated on a pro rata basis using full months of additional service. Separate provisions for delayed retirement survivor benefits for spouses and children are included in the plan documents.

Vested Retirement – Any plan member who shall leave the service of the city prior to becoming eligible to receive a pension for any reason, the member having accumulated less than five years of credited service at the time of termination, shall be entitled to receive a refund of the member's total contribution to the fund, without interest, theretofore made to the fund. If the member has accumulated five or more years of credited service at the time of termination, the member may elect to receive deferred monthly pension benefits, payable at such time as the member would have been eligible to receive pension benefits for longevity of service and age (normal retirement), if employment had not been terminated. Members electing to receive vested monthly pension benefits must make a written application to the board within 60 days after termination. Absent such application, it shall be presumed that the terminated member has elected to have his or her contribution refunded. Receipt of funds pursuant to this provision shall be conditioned upon the signing of a statement to be filed with the city evidencing such an election and acknowledging that the member has no further rights to any other benefits provided for by either the city or the retirement fund. Such vested pension benefit shall be a sum of money equal to the number of years of credited service or fractional portion thereof, multiplied by two percent and the product thereof multiplied by the current (rank escalation) highest monthly base salary paid for that rank or grade held by such former member at the time of termination of employment plus the proportional annual longevity pay and longevity credit earned by the member prior to January 1, 2005; provided, however, that such vested pension benefit sum shall in no event exceed 40 percent of the current (rank escalation) highest monthly base salary, plus longevity pay and longevity credit, paid for the rank held by such former member at the time of termination of employment with the department. Separate provisions for vested retirement survivor benefits for spouses and children, as well as vested interest death benefits, are included in the plan documents.

Severance Benefit - Effective September 30, 1989, any member who shall leave the service of the city through other than a disability, after meeting the 20-year service requirement, regardless of age, shall be entitled to receive a monthly benefit equal to 49 percent of the current (rank escalation) highest monthly base salary paid for the rank held by such former member at the time of termination of employment with the department plus 49 percent of the annual longevity pay and longevity credit earned by the member prior to January 1, 2005. This benefit is to commence upon leaving active duty and is in lieu of any other retirement benefits as described in this article. Such monthly pension shall be paid regardless of income or earnings which the retirant receives from any other source. Separate provisions for survivor benefits for spouses and children are included in the plan documents.

Plan Membership. As of the measurement date, membership in the plan was as follows:

Retirees and beneficiaries	134
Inactive, nonretired members	0
Active members	0
	<u>134</u>

Contributions. The city is required to contribute at an actuarially determined rate. Modification of the Old Hire Plans is regulated by state law and by FPPA Rules and Regulations as authorized by state law. Changes to contribution requirements require an affirmative vote of 65% of active members and City Council ordinance. Employer contributions recognized by the plan for the year ended December 31, 2017 were \$3,184,594.

Net Pension Liability

At December 31, 2017, the city reported a liability of \$36,838,758 for the plan. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2016. The liability was rolled forward from January 1, 2016 to December 31, 2016 using standard actuarial methods.

Actuarial Assumptions. The January 1, 2016 actuarial valuation, based on the most recent experience study completed in 2015, used the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age normal
Amortization method	Level dollar - open
Remaining amortization period	20 years
Asset valuation method	5-year smoothed fair value
Actuarial assumptions:	
Investment rate of return	7.50%
Inflation	2.50%
Salary increases	N/A
Retirement age	Any remaining actives are assumed to retire immediately
Mortality	Post-retirement: For ages less than 55, RP-2014 Mortality Tables for Blue Collar Employees. For ages 65 and older, RP-2014 Mortality Tables for Blue Collar Healthy Annuitants. For ages 55 through 64, a blend of the previous tables. All tables are projected with Scale BB. Disabled (pre-1980): RP-2014 Disabled Generational Mortality Table generationally projected with Scale BB with a minimum 3% rate for males and 2% rate for females.

Changes in Assumptions. The FPPA's Board of Directors, based upon the actuary's analysis and recommendations resulting from a regularly scheduled experience study in 2015, revised the following assumptions effective in the 2016 valuations: the inflation assumption was reduced from 3.0% to 2.5%, an explicit charge for administrative expenses was added in the actuarial contribution calculation and the mortality tables and associated projection scales were updated to reflect increased longevity.

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2016, are summarized in the following table:

Asset Allocation		
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	36.00%	6.75%
Equity Long/Short	10.00%	4.85%
Illiquid Alternatives	23.00%	8.25%
Fixed Income	15.00%	0.50%
Absolute Return	10.00%	4.05%
Managed Futures	4.00%	3.00%
Cash	2.00%	0.00% *
Total	100.00%	

* While expected inflation exceeds the expected rate of return for cash, a 0.00% real rate of return is utilized.

Discount Rate. A discount rate of 7.50% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 7.50%. The projection of cash flows used to determine this discount rate assumed that all actuarially determined contributions will be made and that the plan's fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability.

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a)-(b)
Balances at 1/1/2017	<u>\$ 108,887,994</u>	<u>\$ 74,090,539</u>	<u>\$ 34,797,455</u>
Changes for the year:			
Interest	7,862,946	-	7,862,946
Employer Contributions	-	2,182,774	(2,182,774)
Net Investment Income	-	3,772,216	(3,772,216)
Benefit Payments	(8,246,516)	(8,246,516)	-
Administrative Expense	-	(133,347)	133,347
Net Changes	<u>(383,570)</u>	<u>(2,424,873)</u>	<u>2,041,303</u>
Balances at 12/31/2017	<u>\$ 108,504,424</u>	<u>\$ 71,665,666</u>	<u>\$ 36,838,758</u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the city's net pension liability, calculated using a discount rate of 7.50%, as well as what the city's net pension liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

Sensitivity of Net Pension Liability to the Discount Rate Assumption

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's net pension liability	\$ 47,452,952	\$ 36,838,758	\$ 27,758,910

Pension Plan Fiduciary Net Position. Detailed information about the plan's net fiduciary net position is available in FPPA's comprehensive annual financial report available online at www.fppaco.org or by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Pension Expense and Deferred Outflows of Resources Related to Pensions. For the year ended December 31, 2017, the city recognized pension expense of \$3,928,882. At December 31, 2017, the city reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 3,993,187
City contributions subsequent to the measurement date	3,184,594
Total	<u>\$ 7,177,781</u>

\$3,184,594 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows (Inflows) of Resources
2018	\$ 1,261,190
2019	1,261,190
2020	1,159,530
2021	311,277
Total	<u>\$ 3,993,187</u>

Old Hire Police

Benefits Provided. The plan provides normal, delayed, vested, disability and severance retirements including death benefits.

Normal Retirement – Any member of the police department other than a new hire police officer, as defined in section 101.27 of the FPPA rules and regulations, who has met the eligibility requirement for normal retirement, e.g., 20 years of credited service regardless of age, shall be eligible to receive a service retirement monthly pension equal to 40 percent of the current (rank escalation) highest salary paid for that rank or grade held at the time of retirement. Members retiring for the first time after May 1, 1991, shall receive 45 percent instead.

Delayed Retirement –

Members retiring prior to *May 1, 1991*. In addition to normal retirement benefits, any member who elects to remain on active service past 20 years shall receive two percent for each year of service calculated fractionally in accordance with section 102-246 to a maximum of 30 years and 60 percent of the highest current salary paid for that rank or grade held at the time of retirement. Thereafter and so long as the member is in retirement there shall be added to the amount of pension, as stated above, a rank escalator. This rank escalator shall consist of multiplying the percentage, which may include additional increases of two percent up to 60 percent, by any increase in the highest current salary earned for the retiree's grade or rank and by one-half of any longevity pay granted or paid to the rank or grade last occupied by the retirant immediately prior to retirement.

Members retiring after *May 1, 1991*. For members who receive delayed retirement benefits for the first time after *May 1, 1991*, the following apply: Any member who reaches 20 years of service prior to *January 1, 1990*, shall receive two percent per year from the member's 20th year of service until *January 1, 1990*; subsequent to *January 1, 1990*, members shall receive four percent per year to a maximum of 74 percent, regardless of years of service. Any member who reaches 20 years of service after *January 1, 1990*, shall receive four percent per year for each year over 20 years to a maximum of 74 percent, regardless of years of service. These percentages shall be subject to the same qualifying language regarding fractional and rank escalation calculation methodology.

Vested Retirement – If the member has accumulated five or more years of credited service with the city at the time of termination, the member may elect to receive deferred monthly pension benefits, payable at such time as he or she would have been eligible to receive pension benefits for longevity of service (normal retirement) had employment not been terminated. Such vested pension benefit shall be a sum of money equal to the total number of years of credited service or fractional portion thereof, multiplied by two percent and the product thereof multiplied by the monthly salary paid for that rank or grade held by such former member at the time of his or her termination of employment, plus one-half the applicable longevity credit. Anyone who receives a vested benefit for the first time after May 1, 1991, other than those receiving a disability from FPPA as of May 1, 1991, shall receive a multiplier of 2.25 instead of two. The rank escalator benefit is applicable to vested pension benefits for members who started receiving the vested

Death Benefits –

Death and survivor benefits for active members. The extent and amount of death and survivor benefits are dependent upon the work status of the member. If the member dies during active or temporary disability status before eligibility for normal or delayed pension benefits, the death and survivor benefits are to be determined by the retirement association in accordance with state law. If an active member is eligible for a normal pension benefit and the member dies, the pension benefit for the survivor shall be determined in accordance with the provisions of this article which govern benefits payable to the survivor of retirees receiving normal or delayed pension benefits. If a member is retired from active service, the death and survivor benefits are determined by the plan.

Death of a member who retired prior to May 1, 1991. When any retirant or member eligible to retire shall die and leave an alternate payee, spouse, dependent mother or father, or child or children under the age of 18 years surviving, such beneficiaries shall receive monthly payments as authorized by the board, of an amount equal to one-fourth of the current (rank escalation) highest monthly salary paid that rank or grade plus longevity which such deceased retirant or deceased member held, multiplied by a fraction with the numerator being the total years of active service, up to a maximum of 30, and the denominator being 20 regardless of whether retirant worked more than 20 years; however, in no case shall the numerator be less than 20.

Death of member who retired after May 1, 1991. When any retirant or member eligible to retire shall die and leave an alternate payee, spouse, dependent mother or father, or child or children under the age of 18 years, or child or children under the age of 24 years, if a full-time student as defined by the IRS code, surviving, such beneficiaries shall receive a monthly payment, as authorized by the board, of an amount equal to 75 percent or 100 percent if the surviving spouse has a child under 18 years, or under 24 years, if a full-time student as defined by the IRS code of the benefit, which includes rank escalation, paid the deceased.

Plan Membership. As of the measurement date, membership in the plan was as follows:

Retirees and beneficiaries	146
Inactive, nonretired members	0
Active members	1
	<u>147</u>

Contributions. The city is required to contribute at an actuarially determined rate. Modification of the Old Hire Plans is regulated by state law and by FPPA Rules and Regulations as authorized by state law. Changes to contribution requirements require an affirmative vote of 65% of active members and City Council ordinance. Employer contributions recognized by the plan for the year ended December 31, 2017 were \$3,906,280.

Net Pension Liability

At December 31, 2017, the city reported a liability of \$44,975,464 for the plan. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2016. The liability was rolled forward from January 1, 2016 to December 31, 2016 using standard actuarial methods.

Actuarial Assumptions. The January 1, 2016 actuarial valuation, based on the most recent experience study completed in 2015, used the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age normal
Amortization method	Level dollar - open
Remaining amortization period	20 years
Asset valuation method	5-year smoothed fair value
Actuarial assumptions:	
Investment rate of return	7.50%
Inflation	2.50%
Salary increases	N/A
Retirement age	Any remaining actives are assumed to retire immediately
Mortality	Post-retirement: For ages less than 55, RP-2014 Mortality Tables for Blue Collar Employees. For ages 65 and older, RP-2014 Mortality Tables for Blue Collar Healthy Annuitants. For ages 55 through 64, a blend of the previous tables. All tables are projected with Scale BB. Disabled (pre-1980): RP-2014 Disabled Generational Mortality Table generationally projected with Scale BB with a minimum 3% rate for males and 2% rate for females.

Changes in Assumptions. The FPPA's Board of Directors, based upon the actuary's analysis and recommendations resulting from a regularly scheduled experience study in 2015, revised the following assumptions effective in the 2016 valuations: the inflation assumption was reduced from 3.0% to 2.5%, an explicit charge for administrative expenses was added in the actuarial contribution calculation and the mortality tables and associated projection scales were updated to reflect increased longevity.

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2016, are summarized in the following table:

Asset Allocation		
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	36.00%	6.75%
Equity Long/Short	10.00%	4.85%
Illiquid Alternatives	23.00%	8.25%
Fixed Income	15.00%	0.50%
Absolute Return	10.00%	4.05%
Managed Futures	4.00%	3.00%
Cash	2.00%	0.00% *
Total	100.00%	

* While expected inflation exceeds the expected rate of return for cash, a 0.00% real rate of return is utilized.

Discount Rate. A discount rate of 7.50% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 7.50%. The projection of cash flows used

to determine this discount rate assumed that all actuarial contributions will be made and that the plan's fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability.

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balances at 1/1/2017	<u>\$ 131,482,930</u>	<u>\$ 89,019,202</u>	<u>\$ 42,463,728</u>
Changes for the year:			
Interest	9,526,278	-	9,526,278
Difference Between Expected and Actual Experience	-	-	-
Assumption Changes	-	-	-
Employer Contributions	-	2,612,565	(2,612,565)
Net Investment Income	-	4,554,153	(4,554,153)
Benefit Payments	(9,096,225)	(9,096,225)	-
Administrative Expense	-	(152,176)	152,176
Net Changes	<u>430,053</u>	<u>(2,081,683)</u>	<u>2,511,736</u>
Balances at 12/31/2017	<u><u>\$ 131,912,983</u></u>	<u><u>\$ 86,937,519</u></u>	<u><u>\$ 44,975,464</u></u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the city's net pension liability, calculated using a discount rate of 7.50%, as well as what the city's net pension liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

**Sensitivity of Net Pension Liability
to the Discount Rate Assumption**

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's net pension liability	\$ 59,146,836	\$ 44,975,464	\$ 33,017,976

Pension Plan Fiduciary Net Position. Detailed information about the plan's net fiduciary net position is available in FPPA's comprehensive annual financial report available online at www.fppaco.org or by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Pension Expense and Deferred Outflows of Resources Related to Pensions. For the year ended December 31, 2017, the city recognized pension expense of \$4,757,600. At December 31, 2017, the city reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 4,789,349
City contributions subsequent to the measurement date	3,906,280
Total	<u>\$ 8,695,629</u>

\$3,906,280 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows (Inflows) of Resources
2018	\$ 1,511,241
2019	1,511,239
2020	1,391,279
2021	375,590
Total	<u>\$ 4,789,349</u>

4. Statewide Defined Benefit Plan – Fire New Hire Pension Plan

Plan Description

Plan Description. The Fire Statewide Defined Benefit Plan (SWDB) is a cost-sharing multiple-employer defined benefit pension plan administered by the Fire and Police Pension Association of Colorado (FPPA). The plan provides retirement and death benefits to firefighters hired on or after April 8, 1978. In addition to the initial transfer plan implemented at that time, an updated plan was instituted in 2011 for firefighters hired on or after October 1, 2011. State statute assigns authority to establish and amend benefit provisions to the FPPA. This plan is included in the FPPA's annual separately issued audited financial statements. This report is available online at www.fppaco.org by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Benefits Provided. A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. The annual normal retirement benefit is 2 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. Benefits paid to retired members are evaluated and may be re-determined every October 1st. The amount of any increase is based on the FPPA Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index.

A member is eligible for an early retirement at age 50 or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

Contributions. The city is required to contribute at a statutorily determined rate. The FPPA Board sets contribution rates at a level that enables all benefits to be fully funded at the retirement date of all members. Contribution rates

for the SWDB plan are set by state statute. Employer contribution rates can only be amended by state statute while member contribution rates can be amended by state statute or election of the membership and City Council ordinance. Currently, 154 city firefighters are active members of the transfer plan and 15 are inactive, nonretired members of the transfer plan. In 2017, members of the transfer plan contributed and the city contributed 11.5% (\$1,557,448) and 10.0% (\$1,354,567), respectively. Contribution rates for members of the transfer plan will increase 0.5% annually through 2022 for a total combined member and employer contribution rate of 24.0% in 2022. In 2011, an updated plan was instituted for firefighters hired on or after October 1, 2011. Currently, 163 city firefighters are members of this plan. In 2017, plan members and the city contributed 9.5% (\$842,359) and 8.0% (\$709,794), respectively. Member contribution rates for this plan are scheduled to increase 0.5% annually through 2022 to a total of 12.0% of base salary. Employer contributions are scheduled to remain at 8.0% resulting in a combined contribution rate of 20.0% in 2022.

Net Pension Liability

At December 31, 2017, the city reported a liability of \$1,711,514 for its proportionate share of the net pension liability for the plan. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2017, which was unchanged from December 31, 2016. The city's portion of the net pension liability was based on the city's contributions to the SWDB plan for the calendar year 2016 relative to the total contributions of participating employers to the plan.

At December 31, 2016, the city's proportion was 4.74%, a decrease from its proportion of 4.80% measured as of December 31, 2015.

Actuarial Assumptions. The January 1, 2017 actuarial valuation, based on the most recent experience study completed in 2015, used the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age normal
Amortization method	Level percent of payroll - open
Remaining amortization period	30 years
Actuarial assumptions:	
Long term investment rate of return*	7.50%
Projected salary increases*	4.00%-14.00%
Cost of living adjustments	0.00%
* Includes inflation at	2.50%
Mortality	The RP-2014 Mortality Tables for Blue Collar Employees, projected with Scale BB, 55 percent multiplier for off-duty mortality is used in the valuation for off-duty mortality of active members. On-duty related mortality is assumed to be 0.00020 per year for all members. The RP-2014 Mortality Table for Blue Collar Employees, projected with Scale BB, is used in the projection of post-retirement benefits for members under age 55. For post-retirement members aged 65 and older, the RP-2014 Mortality Tables for Blue Collar Healthy Annuitants, projected with Scale BB, are used. For post-retirement members ages 55 through 64, a blend of the previous tables is used,

Changes in Assumptions. No changes to assumptions occurred since the prior valuation.

Changes in Benefit Terms. No changes to benefit provisions occurred since the prior valuation.

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected

future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2016, are summarized in the following table:

Asset Allocation		
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	36.00%	9.25%
Equity Long/Short	10.00%	7.35%
Illiquid Alternatives	23.00%	10.75%
Fixed Income	15.00%	4.10%
Absolute Return	10.00%	6.55%
Managed Futures	4.00%	5.50%
Cash	2.00%	0.00% *
Total	100.00%	

* While expected inflation exceeds the expected rate of return for cash, a 0.00% real rate of return is utilized.

Discount Rate. A discount rate of 7.50% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 7.50%. The projection of cash flows used to determine this discount rate assumed contributions from participating employers will be made based on statutorily required rates and that the plan's fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate. The following presents the city's proportionate share of the net pension liability (asset), calculated using a discount rate of 7.50%, as well as what the city's proportionate share of the plan's net pension liability (asset) would be if it were calculated using a discount rate that is one percent lower or one percent higher:

Sensitivity of Net Pension Liability (Asset) to the Discount Rate Assumption			
	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's net pension liability (asset)	\$ 14,562,240	\$ 1,711,514	\$ (8,961,646)

Pension Plan Fiduciary Net Position. Detailed information about the plan's net fiduciary net position is available in FPPA's comprehensive annual financial report available online at www.fppaco.org or by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended December 31, 2017, the city recognized pension expense of \$2,627,392. At December 31, 2017, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 4,619,744	\$ -
Differences between expected and actual experience	1,528,180	87,046
Changes of assumptions	1,169,106	-
Changes in proportion	122,223	238,846
City contributions subsequent to the measurement date	2,064,361	-
Total	\$ 9,503,614	\$ 325,892

\$2,064,361 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows (Inflows) of Resources
2018	\$ 1,749,168
2019	1,749,168
2020	1,643,800
2021	660,398
2022	295,697
Thereafter	1,015,130
Total	\$ 7,113,361

5. Statewide Hybrid Plan – Fire New Hire Pension Plan

Plan Description

Plan Description. The Statewide Hybrid Fire Pension Plan (SWH) is a cost-sharing multiple-employer defined benefit pension plan administered by the Fire and Police Pension Association of Colorado (FPPA). This plan contains a defined benefit component and a money purchase component. State statute assigns authority to establish and amend benefit provision to the FPPA. This plan is included in the FPPA's annual separately issued audited financial statements. This report is available online at www.fppaco.org by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Benefits Provided. A member is eligible for a normal retirement pension at any time after age 55 if the member has at least 25 years of service. The annual normal pension of the defined benefit component is 1.5 percent of the average of the member's highest three years' base salary for each year of credited service. Benefits paid to retired members of the defined benefit component are evaluated and may be re-determined annually on October 1st. The amount of any increase is based on the FPPA Board's discretion and can range from 0 to 3 percent.

A member is eligible for an early retirement at age 50 or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee

may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution from the defined benefit component. Alternatively, a member with at least five years of accredited service may leave contributions with the defined benefit component of the plan and remain eligible for a retirement pension at age 55 equal to 1.5 percent of the average of the member's highest three years' base salary for each year of credited service.

Contributions. The city is required to contribute at a statutorily determined rate. The FPPA Board sets contribution rates at a level that enables all benefits to be fully funded at the retirement date of all members. Contribution rates for the SWH plan are set by each individual employer; however, the rate for both employer and members must be at least 8 percent of the member's base salary. Currently, 39 city firefighters are members of this plan. In 2017, plan members and the city each contributed 10.5%, \$331,548. The percentage split is recalculated each year.

Net Pension Asset

At December 31, 2017, the city reported an asset of \$3,330,949 for its proportionate share of the net pension asset for the plan. The net pension asset was measured as of December 31, 2016, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2017, which was unchanged from December 31, 2016. The city's portion of the net pension asset was based on the city's contributions to the SWH plan for the calendar year 2016 relative to the total contributions of participating employers to the plan.

At December 31, 2016, the city's proportion was 30.60%, a decrease from its proportion of 32.20% measured as of December 31, 2015.

Actuarial Assumptions. The January 1, 2017 actuarial valuation, based on the most recent experience study completed in 2015, used the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age normal
Amortization method	Level percent of payroll - open
Remaining amortization period	30 years
Actuarial assumptions:	
Long term investment rate of return*	7.50%
Projected salary increases*	4.00%-14.00%
Cost of living adjustments	0.00%
* Includes inflation at	2.50%
Mortality	The RP-2014 Mortality Tables for Blue Collar Employees, projected with Scale BB, 55 percent multiplier for off-duty mortality is used in the valuation for off-duty mortality of active members. On-duty related mortality is assumed to be 0.00020 per year for all members. The RP-2014 Mortality Table for Blue Collar Employees, projected with Scale BB, is used in the projection of post-retirement benefits for members under age 55. For post-retirement members aged 65 and older, the RP-2014 Mortality Tables for Blue Collar Healthy Annuitants, projected with Scale BB, are used. For post-retirement members ages 55 through 64, a blend of the previous tables is used,

Changes in Assumptions. No changes to assumptions occurred since the prior valuation.

Changes in Benefit Terms. No changes to benefit provisions occurred since the prior valuation.

Long-Term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2016, are summarized in the following table:

Asset Allocation		
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	36.00%	9.25%
Equity Long/Short	10.00%	7.35%
Illiquid Alternatives	23.00%	10.75%
Fixed Income	15.00%	4.10%
Absolute Return	10.00%	6.55%
Managed Futures	4.00%	5.50%
Cash	2.00%	0.00% *
Total	100.00%	

* While expected inflation exceeds the expected rate of return for cash, a 0.00% real rate of return is utilized.

Discount Rate. A discount rate of 7.50% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 7.50%. The projection of cash flows used to determine this discount rate assumed that contributions from participating employers will be made based on statutorily required rates and that the plan's fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate. The following presents the city's proportionate share of the net pension asset, calculated using a discount rate of 7.50%, as well as what the city's proportionate share of the plan's net pension asset would be if it were calculated using a discount rate that is one percent lower or one percent higher:

Sensitivity of Net Pension Asset to the Discount Rate Assumption			
	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's net pension asset	\$ (1,771,275)	\$ (3,330,949)	\$ (4,632,115)

Pension Plan Fiduciary Net Position. Detailed information about the plan's net fiduciary net position is available in FPPA's comprehensive annual financial report available online at www.fppaco.org or by contacting the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado 80111-2721 or telephone (303) 770-3772.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended December 31, 2017, the city recognized a reduction to pension expense of \$480,446. At December 31, 2017, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 738,898	\$ -
Differences between expected and actual experience	1,714,585	-
Changes of assumptions	147,772	-
Changes in proportion	227,922	67,277
City contributions subsequent to the measurement date	331,548	-
Total	<u>\$ 3,160,725</u>	<u>\$ 67,277</u>

\$331,548 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as an addition to the net pension asset in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows (Inflows) of Resources
2018	\$ 534,491
2019	534,490
2020	520,414
2021	362,714
2022	303,303
Thereafter	506,488
Total	<u>\$ 2,761,900</u>

B. Defined Contribution Plans

1. Police Money Purchase Pension Plan – New Hire

The Police New Hire Plan is an open defined contribution money purchase plan established by agreement to provide retirement benefits for full time police hired on or after April 8, 1978. The plan is administered by a board established by the agreement. Plan provisions and contribution requirements are amended by an affirmative vote of 65% of the members as well as a City Council resolution. Normal retirement age is 50. The member is 100% vested at 5 years of service and 0% vested until that time. At December 31, 2017, there were 761 plan members. Plan members and the city are both required to contribute 10.5%. In 2017, plan members and the city each contributed \$6,136,970.

2. Fire Money Purchase Pension Plan

The Fire Money Purchase Pension Plan is a closed defined contribution money purchase plan established by City Ordinance to provide retirement benefits for city firefighters hired on or after April 8, 1978 and is administered by the Fire and Police Pension Association of Colorado. Plan provisions and contribution requirements are established and may be amended by City Council. Normal retirement age is 50. All members are fully vested. At December 31, 2017, there were 14 plan members. Plan members and the city are both required to contribute 10.5%. In 2017, plan members and the city each contributed \$123,322.

3. Executive Retirement Plan (ERP)

ERP is an open defined contribution money purchase plan established by City Ordinance to provide retirement benefits for city executive personnel and is administered by ICMA-RC. Plan provisions and contribution requirements are established and may be amended by City Council. Normal retirement age is age 50 for plan members hired before November 5, 2013, and age 62 for plan members hired on or after November 5, 2013. Members vest at 33 1/3% each year and are fully vested at 3 years. At December 31, 2017, there were 28 plan members. In 2017, plan members and the city both contributed 10.0% or \$403,240.

14. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description. In addition to pension benefits, the city acts in a single-employer capacity in providing medical benefits to eligible retirees and their qualifying dependents through the city's group health insurance plan. Based on city practice, eligible retirees are allowed to participate in the health benefit program up to Medicare age. Employees are eligible for benefits based on the following period of service:

Employee Type	Date of Hire	Criteria
General Employees	All hire dates	Minimum age of 50 with completion of 10 years of service
Civil Service - Police	Before April 8, 1978	Completion of 19.5 years of service
	On or after April 8, 1978	Age 50 and completion of 19.5 years of service
Civil Service - Fire	Before April 8, 1978	Completion of 19.5 years of service
	On or after April 8, 1978	Age 50 and completion of 19.5 years of service
Executive Personnel	Before November 5, 2013	Age 50 with completion of 3 years of service
	On or after November 5, 2013	Age 62 with completion of 3 years of service
Elected Officials	Before November 5, 2013	Age 56 with completion of 6 years of service
	On or after November 5, 2013	Age 62 with completion of 6 years of service

Currently, there are 2,651 active employees covered under the city's health insurance plan. Of these, 487 are fully eligible for the plan. In addition, there are 347 retired employees who are receiving medical coverage under this program. No stand-alone financial report is issued for the OPEB plan and it is not included in the report of GERP.

Funding Policy. Retirees pay 100% of the blended premium cost of their participation for health insurance coverage. Since current and retired employees participate in the same group plan, the city in effect is providing an "implicit subsidy" for the retirees in the plan. The required contribution will be annual premiums based on projected pay-as-you-go financing requirements. This expense is the net expected cost of providing retiree benefits including all expected claims and related expenses offset by retiree contributions. The pay-as-you-go expense for the year ended December 31, 2017 is \$2,112,460.

Summary of the Net OPEB obligation at the end of 2017 by Business-type and Governmental activities:

Fund	Amount
Water Fund	\$ 581,023
Wastewater Fund	274,657
Golf Fund	71,789
Total Business-type activities	927,469
Total Governmental activities	4,847,017
Total net OPEB obligation - December 31	\$ 5,774,486

Annual OPEB Cost and Net OPEB Obligation. The city's annual OPEB cost and net OPEB obligations for OPEB is as follows:

Annual required contribution (ARC)	\$ 1,818,895
Interest on net OPEB obligation	208,460
Adjustment to ARC	(200,303)
Annual OPEB cost	1,827,052
Contributions made	(2,112,460)
Increase (decrease) in OPEB obligation	(285,408)
OPEB - beginning of year	6,059,894
OPEB - end of year	<u>\$ 5,774,486</u>

Net OPEB obligation is recorded as a long-term liability on the citywide statement of net position. Net OPEB obligation recorded in governmental activities is generally paid from the General Fund. Water, Wastewater and Golf Funds report a proportionate share of the net OPEB obligation as a long-term liability in business-type activities and is generally paid from their respective funds.

Funded Status and Funding Progress. The city's funded status for OPEB for the year ended December 31, 2017 can be seen below. The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percent of Covered Payroll (b-a)/(c)
1/1/17	\$ -	\$ 21,787,239	\$21,787,239	0.00%	\$218,570,633	9.97%

Three Year Trend Information

Year Ended	Annual OPEB Cost	Percentage Contributed	Net OPEB Obligation
12/31/2015	\$ 1,862,842	103.27%	\$ 6,160,344
12/31/2016	1,941,401	105.17%	6,059,894
12/31/2017	1,827,052	115.62%	5,774,486

Actuarial Methods and Assumptions. The following chart shows the actuarial methods and assumptions used for OPEB. Actuarial valuations of an on-going plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

Actuarial valuation date	1/1/2017
Actuarial cost method	Entry age normal
Amortization method	Level percent - open
Remaining amortization period	30 years
Asset valuation method	N/A
Actuarial assumptions:	
Investment rate of return	3.44%
Payroll growth rate	N/A
Projected salary increases	3.50%
Inflation	2.50%
Health care cost trend	7.00% to 4.50%, grading down by 0.5% annually
Mortality	RP-2014 Generational Mortality Table projected using Scale MP-16, applied on a gender-specific basis

15. OPERATING LEASES

The city has entered into various leases for buildings, office and storage space, and equipment. All leases are cancelable and must be reappropriated annually. Total costs for such leases were \$1,241,936 for the year ended December 31, 2017. The future minimum lease payments for these leases are as follows:

Year Ending December 31	Amount
2018	\$ 829,592
2019	791,608
2020	709,631
2021	322,612
Total	\$ 2,653,443

16. RISK MANAGEMENT

The city is exposed to various risks and losses related to torts, theft, damage or destruction of assets, errors and omissions, natural disasters, property damage, worker's compensation, auto liability, and unemployment. In addition, the city is party to various pending or potential lawsuits, under which it may be required to pay certain amounts upon final disposition of these matters.

The city retains risk up to the levels where it has been determined that commercial insurance is more cost beneficial. The insurance companies promise payments of claims in excess of stated deductibles, with variable limits depending upon the specific line of coverage. For payment to be made by the insurance company the claim must fall under the insuring agreements and coverage, the insured must meet the insurer's conditions, and certain claims are excluded under certain conditions. The Colorado Governmental Immunity Act establishes limits for claims made against governmental entities for injuries which lie in tort or could lie in tort. These limits are \$350,000 per person up to a maximum of \$990,000 for any one event for all claimants as of July 1, 2013. These stated limitations do not apply to federal claims. There were no significant reductions in insurance coverage from the prior year. There have been no claim settlements in excess of insurance coverage in the last three years.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Amounts estimated to be paid on known cases are reported as case reserves. Case reserves are estimated through in-house methods and do include incremental claims adjustment expenses.

Total self-insurance reserves are actuarially determined and include estimated costs for incurred but not reported claims (IBNR). The total liability has been recorded using the discounted method with an expected 1.00% interest return over the life of the liabilities. The city reports the current and noncurrent portions of the accrued claims liability and related claim settlements and judgments within the Risk Management Fund. Management believes any resulting judgments would not exceed insurance coverage by a material amount.

**Summary of the Accrued Claims Liability
December 31, 2017**

Self-Insured Program	Case Reserves	IBNR	Total	Discounted
Worker's compensation	\$ 2,888,034	\$ 4,872,090	\$ 7,760,124	\$ 7,319,687
Multi-line liability	1,214,007	3,701,841	4,915,848	4,721,143
Total	\$ 4,102,041	\$ 8,573,931	\$ 12,675,972	\$ 12,040,830

Reconciliation of Claims Payable

Year	Balance January 1	Current Year Accrued Claims	Claim Payments	Recoveries	Balance December 31
2016	\$ 11,293,501	\$ 6,397,665	\$ (6,828,188)	\$ 382,396	\$ 11,245,374
2017	11,245,374	6,738,837	(6,760,839)	817,458	12,040,830

Effective January 1, 2016, the city established a self-funded dental insurance program for employees who choose to participate in the Delta Dental program. The city utilizes a third party provider to administer the plan. Premiums are paid by the city and each covered employee/retiree and are held in the city's Payroll Clearing Fund as a reserve to pay future claims. Dental claims are limited to \$1,500 per year per individual. Self-insurance liabilities are actuarially determined and include estimated costs for incurred but not reported claims (IBNR). As of December 31, 2017, the amount held in the Payroll Clearing Fund of \$472,100 for future self-funded dental claims exceeded the calculated IBNR of \$67,637. Management believes the current amount of reserves is adequate.

17. CONTINGENT LIABILITIES

The city is a party to various lawsuits, which may require expenditures of funds upon decision of the courts or in connection with out-of-court settlements. The City Attorney's Office reports several possible contingent liabilities based on damages alleged in various cases. However, it is the opinion of the city attorney that the city's liability in these cases will be far less than the amounts demanded and/or will be covered by insurance. Accordingly, management of the city considers the amount of liabilities established in the Risk Management Fund to be sufficient to cover any liabilities that may result from the eventual outcome of these matters.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the city expects such amounts, if any, to be immaterial.

Proceeds of refunded debt were placed in irrevocable refunding escrow accounts. The funds deposited in these accounts are invested in U.S. Treasury obligations that, together with interest earned thereon, are expected to provide amounts sufficient to pay all principal and interest on the following debt issues as they become due. Should these

funds be insufficient to pay the maturing bonds and interest, the city would be liable for the deficiency. The likelihood of the earnings and principal maturities of the U.S. Treasury obligations not being sufficient to pay the refunded bond issues is remote. Accordingly, the escrow accounts and the refunded bonds are not included in the city's financial statements. Escrowed debt outstanding at December 31, 2017 is as follows:

Issue Description	Date of Issue	Series	December 31, 2017
First-Lien Water Refunding			
Revenue Bonds Series 2008A	4/15/2008	2008A	\$ 39,995,000
Total			\$ 39,995,000

18. CONDUIT DEBT OBLIGATIONS

From time to time, the city has issued revenue bonds to provide financial assistance to private sector and non-profit entities for the acquisition and construction of industrial, commercial and residential properties deemed to be in the public interest. The bonds are payable solely from payments received on the underlying funding source. The city is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2017, there were three series of revenue bonds outstanding which pertain to the Hospital Revenue Bonds payable from operating revenues. The total aggregate principal amount payable was \$212,180,000.

19. POLLUTION REMEDIATION

The Highway 30 Landfill Facility operated as a municipal landfill by the city from 1969 to 1975 when it was closed. Because of potential issues related to groundwater contamination and methane gas generation, annual site monitoring is performed. In late 2015, monitoring indicated that methane was above state standards at the property border. As a result, the Colorado Department of Public Health and Environment issued a compliance advisory in 2016 which requires the city to implement tasks to determine the extent, if any, of any contamination and identify remediation alternatives if contamination is determined. The city entered into a contract, including change orders, for \$153,542 to undertake an initial investigation into the site.

At this stage of the process, it is not possible to estimate costs beyond the initial contract; therefore, a liability for \$95,083, which represents the balance of the contract at December 31, 2017, has been accrued at year-end in the city-wide financial statements. There are no estimated recoveries anticipated to reduce this liability.

20. TAXPAYER BILL OF RIGHTS (TABOR)

In November 1992, Colorado voters approved a State constitutional amendment, TABOR, the general purpose of which is to restrain government growth (as measured by revenues and expenditures) without a vote of the local citizens. The key mechanisms for restraining growth without a vote are: 1) the prohibition of revenue and expenditure growth other than for inflation and a component for new construction growth, 2) the prohibition of new taxes or higher tax rates, 3) the prohibition of new debt, and 4) the refunding of any revenues collected in excess of the revenue limitations. In 2017, property tax revenue and general revenue collections were below the limits imposed by the TABOR Amendment.

TABOR further requires emergency reserves of at least 3% of fiscal year revenue as defined by TABOR (excluding bonded debt service). The city maintains the required reserves in the General Fund. TABOR specifies that local governments are permitted to use reserve funds for "emergencies" with the requirement that the reserve funds be restored to 3% of fiscal year spending in the following fiscal year. In accordance with TABOR, the city maintains an emergency reserve of 3% of the fiscal year spending by designating a combination of available cash and real property owned by the city in lieu of cash in the amount of \$10,219,813. Cash of \$928,276 is restricted for emergencies in the

General Fund at December 31, 2017, and the real property is recorded in net investment in capital assets on the citywide statement of net position. The city's management believes the city is in compliance with the provisions of TABOR at December 31, 2017.

21. SUBSEQUENT EVENTS

On April 16, 2018, Aurora Urban Renewal Authority (AURA) entered into a \$4,000,000 short-term promissory note receivable with MHK Nine Mile, LLC, for site preparation at the Point at Nine Mile Station.

Actuarial valuations done every odd-numbered year on 1/1/20XX. The contribution rates have a one-year lag, so the actuarial valuation as of January 1, 2015 determine the contribution amounts for 2016 and 2017.

Information above is presented as of the city's most recent fiscal year-end.

∞ Notes to Schedule

Valuation date: January 1, 2015

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry age normal

Amortization method Level dollar - open

For the 2009 actuarial valuation only, the level dollar - closed amortization method was used.

Remaining amortization period 15 years

Decreased from 30 years to 15 years as of the 2011 actuarial valuation.

Asset valuation method 3-year smoothing

Changed from the market valuation to 3-year smoothing as of the 2009 actuarial valuation.

Investment rate of return 7.50%

Decreased from 7.75% to 7.50% as of the 2015 actuarial valuation. Decreased from 8.00% to 7.75% as of the 2009 actuarial valuation.

Expenses (as a percent of actuarial value of assets)

0.75%

Decreased from 1.00% to 0.75% as of the 2009 actuarial valuation.

Cost-of-living adjustments 3.25% on Basic, 0% on Supplemental

Basic decreased from 3.50% to 3.25% as of the 2015 actuarial valuation and from 3.75% to 3.50% as of the 2009 actuarial valuation.

Supplemental decreased from 5.0% to 0% as of the 2011 actuarial valuation.

Mortality RP-2000 Healthy Mortality Table

Benefit changes effective for 2015: The age requirement for normal retirement eligibility was increased to age 62 for members who entered the plan after November 5, 2013 and the service credit used in the calculation of the normal retirement benefit for elected officials was also limited.

(concluded)

1. COST SHARING MULTIPLE EMPLOYER PLANS

Changes in actuarial assumptions:

FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions at least every five years.

FPPA – Statewide Defined Benefit Plan and Statewide Hybrid Plan

Changes in actuarial assumptions effective for 2016: The inflation assumption was reduced from 3.0% to 2.5% while the real return on investments was increased to 5.0% from 4.5% for an overall nominal investment return of 7.5% which is unchanged from the prior year. In addition, an explicit charge for administrative expenses was added in the actuarial contribution calculation, the base mortality tables were revised with the explicit assumption for increasing longevity in the future to reflect current mortality studies and the expected incidence of total disability was increased.

Changes in actuarial assumptions effective for 2014: The married assumption for active members was increased from 80% to 85% to reflect the passage of the Colorado Civil Union Act.

Benefit changes:

FPPA – Statewide Defined Benefit Plan

Benefit changes effective for 2015: A 0.61% benefit adjustment was granted to all retirees and beneficiaries of the plan who retired on or before October 1, 2014.

FPPA – Statewide Hybrid Plan

Benefit changes effective for 2015: A 3.00% benefit adjustment was granted to all retirees and beneficiaries of the plan who retired on or before October 1, 2014.

2. GENERAL FUND BUDGETARY INFORMATION

The city adopts annual operating appropriations each year. Operating costs are controlled at the fund and department level for the General Fund. Expenditures may not exceed appropriations at those levels. Annual operating appropriations lapse at year-end except for amounts that are encumbered (encumbrances are commitments on purchase orders that remain open at year-end) while annual project-length budgets are carried forward. Since expenditures may not legally exceed budgeted appropriations, appropriation amendments require City Council approval by ordinance. Budget transfers within a department may be made with administrative approval. Transfers between departments require City Council approval by resolution or ordinance.

The city budgets on a "funds available" basis. Budgetary basis revenues and other financing sources are considered increases in funds available and budgetary basis expenditures and other financing uses are considered uses of funds available. In general, funds available are defined as current assets minus current liabilities. The city's budget disclosure presents funds available, which are available for general purposes. Budgets for the General Fund are reported on the same basis as described above, except as follows:

- a) Assets not available for appropriation, debt service reserves for which the city has pledged a moral obligation, are not considered to be available funds.
- b) Sales, use and lodgers taxes are considered revenue when received rather than when earned.
- c) Encumbrances are treated as expenditures in the year they are encumbered, not when the expenditure occurs.
- d) Changes in investment income due to recording investments at fair value are not budgeted.
- e) Adjustment for fund perspective difference results from the Designated Revenue Fund being budgeted as a special revenue fund but it does not qualify as a special revenue fund under GAAP and is, thus, reported as part of the General Fund.

Combining and Individual Fund Statements and Schedules

SPECIAL REVENUE FUNDS

Special revenue funds account for revenues from specific sources that are required legally or by management decision to be used for particular activities other than debt service or capital projects. General funds of blended component units are also considered Special Revenue Funds.

Gifts and Grants Fund

The Gifts and Grants Fund accounts for various gifts and grants where the size or length of time of the funding source does not warrant establishing a separate fund.

Development Review Fund

The Development Review Fund accounts for revenues from development related fees for various plan reviews, inspections/permits and similar services. Expenditures are made to cover the costs of the development review process and to fund organizations that promote economic growth and development within the city.

Marijuana Tax Revenue Fund

The Marijuana Tax Revenue Fund accounts for marijuana-related sales and excise tax. Monies are set aside for Council's determination of use as identified during the annual budget process.

Community Development Fund

The Community Development Fund accounts for revenues and expenditures from grants and other monies received from the United States Department of Housing and Urban Development.

Enhanced E-911 Fund

The Enhanced E-911 Fund accounts for revenues derived from special telephone surcharges. Monies are used to purchase and maintain enhanced E-911 equipment and related activities.

Conservation Trust Fund

The Conservation Trust Fund accounts for lottery proceeds that are received from the State of Colorado. These monies are used for the development and renovation of qualifying parks and recreation facilities and infrastructure.

Non-Major Governmental Funds

Parks Development Fund

The Parks Development Fund accounts for annexation fees and payments from developers that are required to be used for the creation of city parks.

Open Space Fund

The Open Space Fund accounts for dedicated use tax revenues received from both Arapahoe County and Adams County that are required to be used for parks construction and maintenance and the acquisition of open space within that portion of the city of Aurora located in each of the respective counties.

Recreation Services Fund

The Recreation Services Fund accounts for recreational services provided to citizens. Funding for these services are from user fees and General Fund transfers.

Cultural Services Fund

The Cultural Services Fund accounts for revenues from fees, donations, grant funds from the Scientific and Cultural Facilities District (SCFD) and other grantors, proceeds from the Art in Public Places (AIPP) ordinance and General Fund transfers. Expenditures are made to provide cultural-related services to citizens.

Parking and Mobility Fund

The Parking and Mobility Fund accounts for revenues derived from parking on the RTD "R" line. These monies are used for parking management, safe parking environments, and to support transit oriented developments.

Peoria Park Fence General Improvement District (GID)

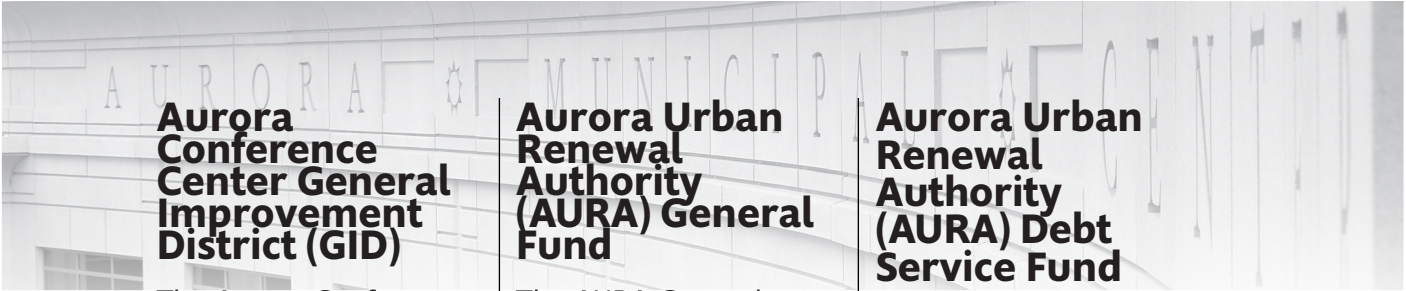

The Peoria Park Fence GID, a blended component unit, accounts for debt service and repairs and maintenance related to the masonry fence constructed in this neighborhood. Funding is from property tax assessed on the related properties.

Meadow Hills Fence General Improvement District (GID)

The Meadow Hills Fence GID, a blended component unit, accounts for debt service and repairs and maintenance related to the masonry fence constructed in this neighborhood. Funding is from property tax assessed on the related properties.

Cherry Creek Fence General Improvement District (GID)

The Cherry Creek Fence GID, a blended component unit, accounts for debt service and repairs and maintenance related to the masonry fence constructed in this neighborhood. Funding is from property tax assessed on the related properties.

Aurora Conference Center General Improvement District (GID)

The Aurora Conference Center GID, a blended component unit, accounts for the incentives for a conference center and related improvements. Funding is from property tax assessed on the related properties.

Pier Point 7 Sewer General Improvement District (GID)

The Pier Point 7 Sewer GID, a blended component unit, accounts for debt service and construction and installation of essential sanitary sewer system improvements within the District. Funding is from property tax assessed on the related properties.

Cobblewood Street General Improvement District (GID)

The Cobblewood Street GID, a blended component unit, accounts for debt service and street improvements in this neighborhood. Funding is from property tax assessed on the related properties.

Aurora Urban Renewal Authority (AURA) General Fund

The AURA General Fund, a blended component unit, accounts for activities related to urban renewal areas that have no debt outstanding. Funding is from tax revenues pledged to redevelopment and fees for services.

DEBT SERVICE FUNDS

Debt service funds account for the accumulation of resources to pay principal, interest and agency fees on governmental long-term debt.

Special Improvement District (SID) Debt Service Fund

The Special Improvement District Debt Service Fund accounts for debt service related to special improvements. Funding is from special assessments on the related properties.

Aurora Urban Renewal Authority (AURA) Debt Service Fund

The city created AURA to redevelop and support areas within the city that are considered blighted. This fund accounts for the payment of principal, interest, and agency fees for the AURA tax increment revenue bonds. Monies in excess of those needed for the repayment of the revenue bonds may be used to pay other obligations of AURA.

Aurora Capital Leasing Corporation (ACLC) Debt Service Fund

ACLC, a blended component unit, is a non-profit corporation established to finance the construction of city facilities, public safety vehicles, public works equipment, and communications systems. This fund accounts for the principal and interest payments on certificates of participation issued by ACLC. Revenues are from lease payments (transfers) from the General Fund.

CAPITAL PROJECTS FUNDS

Capital projects funds account for financial resources used for the construction and acquisition of major capital projects.

Aurora Urban Renewal Authority (AURA) Capital Projects Fund

AURA Capital Projects fund accounts for the construction of a conference center and parking structure. Funding for these projects is provided by proceeds from external financing.

Aurora Capital Leasing Corporation (ACLC) Capital Projects Fund

The ACLC Capital Projects Fund accounts for financial resources used by ACLC for the construction of city facilities, public safety vehicles, public works equipment, and communications systems. Funding for these projects is provided by proceeds of certificates of participation issued by ACLC and general revenues of the city.

Combining and Individual Fund Statements and Schedules

INTERNAL SERVICE FUNDS

Internal Service Funds account for centralized acquisition of supplies and services. Revenues are from user charges to funds and departments, which are calculated on a cost-reimbursement basis.

Fleet Management Fund

The Fleet Management Fund accounts for centralized maintenance of city owned vehicles. Operations are funded by charges to user departments.

Risk Management Fund

The Risk Management Fund accounts for centralized costs of risk retention, risk administration and excess insurance coverage for claims and judgments made against the city. Revenues are from charges to departments.

The Designated Revenue Fund does not meet the criteria for classification as a special revenue fund in accordance with GAAP and is included as part of the General Fund for GAAP basis financial reporting. Because a budget is legally adopted for this fund, a separate schedule of sources, uses and changes in funds available budget and actual (non-GAAP budgetary basis) is included for full disclosure.

(a) Beginning in 2010, accumulations for construction are shown as Public Improvements, and include expenditures for roads and bridges.

(b) Emergencies restricted equity represents seizure funds. Fluctuation in this account is expected. Beginning in 2010 restricted for E-911 Equipment and Services were combined into Emergencies.

(c) Increase in 2008 to 2010, in 2013 to 2014 and in 2015 to 2017 represents accumulation of Park Development revenues for future construction.

(d) Urban renewal activity reflects the spend down of funds dedicated to the Fletcher Plaza Enhancement Area. In 2010 new reporting requirements combined Agreements and Urban Renewal with other activities. Increase in Development in 2011 to 2013, 2015 to 2017 represent Urban Renewal Area revenues restricted for future development of those areas.

(e) In 2009, an increase in grant funded activities and receipt of ARRA stimulus grants. In 2017, an increase due to the recognition of collectible loans from federal funds to assist housing and business renovation.

(f) Represents accumulation and spend down of amounts set aside for storm drain projects.

(g) Represents operation and maintenance reserve on Wastewater 1999 CWR&PDA revenue bonds. In 2012, the debt outstanding on these revenue bonds was paid off.

(h) Represents the net pension asset resulting from the implementation of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment to GASB Statement No. 27*, in 2015. Decreases in 2016 and 2017 due to the actuarially determined valuation of the net pension asset for the measurement period ended December 31, 2015 for 2016 and December 31, 2016 for 2017.

Notes:

- (a) Decreases in 2010 to 2012 resulted from budget reductions in salaries and supplies. In 2015, expenditures increased due to the Smoky Hill/E-470 bridge widening project. In 2017, expenditures increased to support development across the city and new software subscriptions to enhance city operations.
- (b) 2015 and 2016 increase is due to mandated staffing and equipment needs for police. In 2016, the primary driver of the increase was the recognition of pension expense as required by GASB 68.
- (c) 2010 increases were from work on the Colfax/I-225 project. 2012 increase resulted from one year of depreciation on roads. 2015 increase was due to increase in snow removal and a change in indirect cost allocation.
- (d) 2015 and 2016 increase is due to development activity in the urban renewal areas around the city.
- (e) 2013, 2016 and 2017 increase is the result of increase spending on multiple neighborhood park projects. 2016 includes increased utilization of the newly expanded Sports Park and the addition of Ward IV computer lab and median pilot program.
- (f) Increases reflect expansion of the water system in 2008. Decrease in 2009 is the result of a decrease in water usage and storage due to conservation, wet weather and cooler temperatures and budget reductions. 2012 increase resulted from lower interest expense capitalization as the Prairie Waters Project was essentially complete.
- (g) Increases reflect an increase in sewage treatment and disposal expense and an increase in sewer personnel costs. 2013 increase includes loss on early extinguishment of debt.
- (h) Increase in 2015 represents a developer fee for the Smoky Hill/E470 bridge widening project. Increase in 2017 reflect recognition of collectible loans from federal funds.
- (i) Fluctuations correspond to changes in development activity.
- (j) 2009 increase is the result of additional ARRA grant funding. 2014 decrease pertains to the completion of several significant parks, recreation and open space projects including the Aurora Animal Shelter outdoor kennel area in 2013.
- (k) Fluctuation primarily represents fluctuation in developer contributed streets from year to year.
- (l) 2010 increase is due to an increase in water tiered rates. 2012 represents an increase in customer usage due to a warmer and dryer summer. 2013 decrease due to wet spring and fall floods. 2014 increase due to development and connection fees received from Roxborough Water and Sanitation District for which project was completed in the same year. 2016 increase due to water usage and raw water sales.
- (m) Increases are attributable to new rate schedule and volume increases.
- (n) The 2009 and 2010 reductions are primarily from a decrease in developer contributions. There is a one-time reimbursement from governmental activities for Pier Point sewer line in 2011. Several significant projects such as the Westerly Creek bridge and channel improvement project were completed in 2015 with no similar projects undertaken in 2016 and 2017.
- (o) Amounts represent developer tap fee revenue and developer contributed water and sewer mains. 2008 and later decrease reflects reduced development activity. 2012, 2015 and 2016 saw an increased development activity with a new loan receivable in 2012 from East Cherry Creek Valley Water and Sanitation District. 2016 increase due to a change in the recording process for contributed mains - 2016 included contributed mains for both 2015 and 2016 while 2017 only included contributed mains for 2017.

Notes:

- (a) Excluding TABOR and Policy Reserve funds for years 2007-2009.
 (b) In 2010, reporting of fund balances was changed to meet new reporting requirements. For the most part, changes represent removal of purpose of the fund restrictions.
 (c) In 2010, TABOR and Policy Reserve fund balances were transferred to the General Fund to meet new reporting requirements.

Notes: Data obtained from Certifications of Valuation provided by Adams, Arapahoe and Douglas counties. Colorado statutes provide procedures for the valuation of property for assessment purposes. The "Assessment/Levy Year" is the calendar year in which the property value is assessed. It is also the year in which the associated tax is levied. The tax revenue for a "Collection/Budget Year" is based on the assessment and tax levy made in the prior year. Tax revenue collections occur in the budget year.

The County Assessor bases the assessed values on property values as of June 30 of the year prior to the assessment year. Thus the assessed values for the taxes associated with budget year 2018 are based on the 2017 assessment, which itself is based on property values as of June 30, 2016.

The assessed valuation percentage is established each year and was as follows: Residential: 2008 through 2014 - 7.96%, 2015 through 2017 - 8.24% and 2017 through 2018 - 7.20%.

All other classes of property were assessed at 29% of estimated actual value.

Differences in the percentage change between actual value and assessed value relate to the change in the mix of residential to other property from year to year. Additionally, exempt property is represented in actual value but not in assessed value.

- (a) Includes both real and some business personal property.
- (b) Does not include tax increment financing district incremental assessed valuation of: \$1,662,950 - 2008; \$7,341,510 - 2009; \$4,553,030 - 2010; \$8,453,960 - 2011; \$10,009,240 - 2012; \$8,910,730 - 2013; \$8,264,580 - 2014; \$10,280,820 - 2015; \$10,258,070 - 2016 and \$29,967,707 - 2017 Adams; \$3,625,080 - 2009; \$10,156,782 - 2010; \$16,694,359 - 2011; \$22,063,692 - 2012; \$20,975,154 - 2013; \$24,997,667 - 2014; \$30,745,586 - 2015, \$39,155,586 - 2016 and \$45,379,741 - 2017 Arapahoe. Arapahoe County had no TIF activity reported for the 2008 levy year. For the 2009 levy year, Arapahoe County reported new TIF assessments related to the Havana Gardens project.
- (c) Does not include General Improvement District (GID) assessed value of: 2010 - \$7,059,720; 2011 - \$10,911,020; 2012 - \$10,997,420; 2013 - \$10,212,781; 2014 - \$10,157,993, 2015 - \$13,949,563, 2016 - \$13,952,766 and 2017 - \$19,734,816.
- (d) Includes a temporary mill levy rate reduction of 0.036 mills in the 2015 levy year to refund excess property tax revenue collection in 2015. The excess property tax revenue resulted from Series 2010 Bonds being paid in full during 2015.

Notes: Data obtained from Certifications of Valuation provided by Adams and Arapahoe Counties. Colorado statutes provide procedures for the valuation of property for assessment purposes. The "Assessment/Levy Year" is the calendar year in which the property value is assessed. It is also the year in which the associated tax is levied. The tax revenue for a "Collection/Budget Year" is based on the assessment and tax levy made in the prior year. Tax revenue collections occur in the budget year.

The County Assessor bases the assessed values on property values as of June 30 of the year prior to the assessment year. Thus the assessed values for the taxes associated with budget year 2018 are based on the 2017 assessment, which itself is based on property values as of June 30, 2016.

- (a) Includes a temporary mill levy rate reduction of 0.036 mills in the 2015 levy year to refund excess property tax revenue collection in 2015. The excess property tax revenue was a result of Series 2010 Bonds being paid in full in 2015.
- (b) The Adams and Arapahoe County Assessor's Offices report that property owners within these counties' boundaries may be subject to a variety of different mill levies depending on the property's location. This schedule presents mill levies for counties and school districts only and may not represent the total tax rate for each property.

Source: Data obtained from Certifications of Valuations provided by Adams, Arapahoe and Douglas counties. The Total Assessed Value in assessment year 2017 is \$4,312,984,354 and 2008 was \$3,122,103,880. This total does not include the tax increment financing district assessed valuation for 2017 of \$75,346,811 or 2008 of \$1,662,950. It also does not include General Improvement District (GID) assessed value for 2017 of \$19,734,816. Collections for GIDs are reported beginning in 2010.

Notes: Data obtained from Certifications of Valuation provided by Adams and Arapahoe counties. Colorado statutes provide procedures for the valuation of property for assessment purposes. The "Assessment/Levy Year" is the calendar year in which the property value is assessed. It is also the year in which the associated tax is levied. The tax revenue for a "Collection/Budget Year" is based on the assessment and tax levy made in the prior year. Tax revenue collections occur in the budget year. Component units of the city are included only if they are blended in the city's annual financial report.

The County Assessor bases the assessed values on property values as of June 30 of the year prior to the assessment year. Thus, the assessed values for the taxes associated with budget year 2017 are based on the 2016 assessment, which itself is based on property values as of June 30, 2015.

- (a) Property taxes are assessed by Adams, Arapahoe and Douglas counties and remitted to the city after collection.
- (b) Delinquent tax collections are netted with refunds of appealed assessments. Positive numbers reflect more delinquent tax collections than refunds for the year. Negative numbers reflect refunds of appealed assessments in excess of delinquent collections for the year.
- (c) Tax levies collected pursuant to C.R.S. 31-25 through the Aurora Urban Renewal Authority (AURA), a blended component unit of the city.
- (d) Collections for General Improvement Districts are reported beginning in 2010.

Notes: Schedule includes all city debt including tax increment bonds/notes and General Improvement Districts general obligation bonds. Details regarding the city's outstanding debt can be found in the notes to the financial statements.

(a) A tax increment revenue note was executed in 2014 with additional draws in 2015 and fully completed draws in 2016.

(b) See Exhibit A-18 (Demographic and Economic) for personal income (based on labor force) totals.

(c) The population for 2011 through 2012 and 2014 was provided by Clarion Associates. For 2008 through 2009, 2013, 2015 through 2017, the population was provided by the city's Planning Department. The 2010 population is from the April 2010 federal census population count.

2017	364,328	4,312,984,354	-	-	-	-	-	-	-

Notes:

- (a) The population count for 2011 through 2012, and 2014, was provided by Clarion Associates. For 2008 through 2009, 2013, 2015 through 2017, the population count was provided by the city's Planning Department. The 2010 population count is from the April 2010 federal census population count.
- (b) Does not include tax increment financing district incremental assessed valuation of: \$1,662,950 - 2008; \$7,341,510 - 2009; \$4,553,030 - 2010; \$8,453,960 - 2011; \$10,009,240 - 2012; \$8,910,730 - 2013; \$8,264,580 - 2014; \$10,280,820 - 2015; \$10,258,070 - 2016 and \$29,967,070 - 2017 Adams; \$3,625,080 - 2009; \$10,156,782 - 2010; \$16,694,359 - 2011; \$22,063,692 - 2012; \$20,975,154 - 2013; \$24,997,667 - 2014; \$30,745,586 - 2015; \$39,155,586 - 2016 and \$45,379,741 - 2017 Arapahoe. Arapahoe County had no TIF activity reported for the 2008 levy year. For 2009 levy year, Arapahoe County reported new TIF assessments related to the Havana Gardens project. Does not include General Improvement Districts (GIDs) assessed value of: 2010 - \$7,059,720; 2011 - \$10,911,020; 2012 - \$10,997,420; 2013 - \$10,212,781; 2014 - \$10,157,993; 2015 - \$13,949,563; 2016 - \$13,952,766 and 2017 - \$19,734,816. Data obtained from Certifications of Valuation provided by Adams, Arapahoe and Douglas counties.
- (c) Does not include GIDs outstanding debt of: 2009 - \$700,000; 2010 - \$1,550,000; 2011 - \$4,105,000; 2012 - \$3,974,000; 2013 - \$3,838,000; 2014 - \$3,696,000; 2015 - \$3,549,000; 2016 - \$3,386,000 and 2017 - \$3,582,000.
- (d) Gross general obligation bonded debt includes general obligation bonds supported by General Fund revenues and by Water Fund revenues. In 2015, all general obligation bonded debt have been fully paid.
- (e) Beginning in 2011, the City Debt Service Funds Available is used in lieu of the City Debt Service Fund Balance. This is to tie the amount to what is used in Exhibit A-16, Legal Debt Margin Information. In 2015, since all general obligation bonds have been paid, the residual amount was transferred to the General Fund.

Exhibit A-15

**CITY OF AURORA, COLORADO
DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT
DECEMBER 31, 2017**

Jurisdiction	Obligations Outstanding	Estimated Percentage Applicable (c)	Estimated Share of Overlapping Debt
<i>Direct:</i>			
City of Aurora (a)	\$ 230,836,556	100.00%	<u>\$ 230,836,556</u>
<i>Overlapping:</i>			
<i>Debt repaid with property taxes</i>	<u>General Obligation</u>		
Adams-Arapahoe School District 28J			
General obligation bonds (b)	\$ 458,515,000	100.00%	458,515,000
Cherry Creek School District			
General obligation bonds (b)	641,890,000	38.36%	246,229,004
Arapahoe County			
General obligation bonds (b)	135,385,000	32.89%	<u>44,528,127</u>
Total overlapping debt:			<u>749,272,131</u>
Total Direct and Overlapping Debt			<u><u>\$ 980,108,687</u></u>

- Notes: This schedule demonstrates the city's ability to repay and issue long term debt based on the entire debt burden borne by its residences and businesses. Although more than 235 taxing entities overlap the city in whole or part, very few affect the majority of citizens. Therefore, this schedule excludes debt for overlapping districts that do not impact the debt
- (a) Includes all governmental activities debt of the city of Aurora, such as general obligation bonds, certificates of participation, special assessments and capital leases, net of unamortized premium.
- (b) General obligation debt outstanding is the net of general obligation debt less any monies reserved for the retiring of these general obligation bonds, such as sinking funds or debt service reserve funds.
- (c) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Total net debt applicable to the limit as a percentage of debt limit	1.8%	1.3%	0.7%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%

(a) The General Improvement District bonds are exempt from the debt limit.

(b) Revenue bonds and other forms of debt paid from revenues generated are exempt from the debt limit.

(c) Article X, Section 20(4)(b) of the Colorado Constitution requires the city to receive voter approval in advance for the creation of any multiple fiscal year direct or indirect debt or other financial obligation, regardless of whether or not the city is at its legal debt margin. Typically, voter approval of additional debt includes a provision exempting the new debt from the debt margin. Consequently, the computation of the city's legal debt margin has little real significance.

Enterprises, as defined in Article X, Section 20(2)(d) of the Colorado Constitution, are not required to receive voter approval. An "enterprise" is a city-owned business authorized to issue its own revenue bonds and receiving under 10% of annual revenues in grants from all Colorado state and local governments combined.

Note: Includes long-term debt payable from Water revenues, including General Obligation Bonds, Revenue Bonds, and Water Notes Payable. Debt service requirements represent annual amounts as opposed to the maximum annual amount. Therefore, coverage ratios on this schedule will not match ratios in the Debt Continuing Disclosure section.

- (a) Includes charges for services, intergovernmental revenue and miscellaneous revenues as well as components of capital contributions (tap fees and IGA revenues), investment earnings (interest income) and gain (loss) on disposal of capital assets (proceeds-sales of fixed assets). Excludes fair value adjustment and annexation fees.
- (b) Includes operating expenses such as personal services, supplies and other services and charges. Excludes depreciation expense.
- (c) Includes the city's portion of the Colorado Water Resources and Power Development Authority's (CWRPDA) Drinking Water Bonds Series 1999A and 2005D and the City's First Lien Water Improvement Revenue Bonds Series 2016, 2008, 2007 and 2003A. In 2010, the CWRPDA Drinking Water Bonds Series 1999A was paid off and in 2011, the 2003A 1st Lien Water Improvement Revenue Bonds were defeased. In 2012, 2014 and 2015, the 2005D CWRPDA Bonds were defeased in the amounts of \$41,780,000, \$23,955,000 and \$29,655,000, respectively. In 2016, First Lien Revenue Bonds were issued, fully refunding the 2007 and 2008 Revenue Bonds. Principal amounts of the 2007 and 2008 Bonds defeased in 2016 were \$421,495,000 and 39,995,000, respectively. The legal covenant for debt service coverage for these obligations is 1.20 except for the CWRPDA Water Bonds which is 1.10.
- (d) Includes (c) above and for 2007, Second Lien Water Improvement Revenue Bonds Series 2004A. The legal covenant through 2009 for debt service coverage is 1.05. In 2008, the 2004A issue was refunded with the 2008A 1st lien issue. In 2007, a note with the Colorado Water Conservation Board was entered into and takes a second lien parity with existing obligations. In 2016, the CWCB note was paid off with proceeds from the Series 2016 Revenue Bonds in the amount of \$69,085,617.
- (e) Includes (d) above and all Water Rights Notes Payable. The legal covenant for debt service coverage is 1.05.
- (f) Includes (e) above and General Obligation Water Bonds which are payable from revenues of the system but are not secured by the Net Pledged Revenues. In 2011, the General Obligation Water Bonds were paid off. The legal covenant for debt service coverage is 1.00.
- (g) Net Revenue Available for Debt Service divided by Total Debt Service Requirements for "c", "d", "e" and "f", respectively.
- (h) A principal and interest payment of \$176,883 and \$35,377, respectively, was made on the 2004 water rights note payable on December 31, 2015 due January 1, 2016. Also on December 30, 2016, a principal and interest payment of \$176,883 and \$26,532, respectively, was made, due January 1, 2017 and on December 29, 2017, a principal and interest payment of \$176,883 and \$17,688.30, respectively, due January 1, 2018.

Notes: Includes long-term debt payable from Sewer revenues, including revenue bonds.

- (a) Includes charges for services, intergovernmental revenue and miscellaneous revenues as well as components of capital contributions (tap fees and IGA revenues), investment earnings (interest income) and gain (loss) on disposal of capital assets (proceeds-sales of fixed assets). Excludes fair value adjustment and annexation fees.
- (b) Includes operating expenses such as personal services, supplies and other services and charges. Excludes depreciation expense.
- (c) The Debt Service Requirements consist of the First Lien Sewer Improvement Revenue Bonds, Series 2016, Series 2006, and the Colorado Water Resources and Power Development Authority's (CWRPDA) Clean Water Revenue Bonds, Series 1999A. In 2012, the CWRPDA Clean Water Revenue Bonds, Series 1999A was paid off. In 2013, the 2006 1st Lien Sewer Improvement Revenue Bonds were defeased in the amount of \$18,795,000. In 2016, First Lien Wastewater Revenue bonds were issued, fully refunding the 2006 Bonds in the amount of \$32,295,000.
- (d) Net Revenue Available for Debt Service divided by Total Debt Service Requirements. The legal covenant for debt service coverage is 1.20 for the Series 2016 and Series 2006 and 1.10 for the CWRPDA Series 1999A.

2017	8,650,563	7,424,094	1,226,469	-	-	-	n/a	275,000	100,983	375,983	3.26

Notes: Includes long-term debt payable from Golf revenues, including revenue bonds and long-term interfund payables. Debt service requirements represent annual amounts as opposed to the maximum annual amount. Therefore, coverage's ratios on this schedule will not match ratios in the Debt Continuing Disclosure section.

- (a) The Senior Debt Service Requirement consists of the 1995 Golf Revenue Bonds and, beginning in 2004, the 2004 Golf Revenue Note which was fully paid in 2009. In 2005, the 1995 Golf Revenue Bonds were replaced by the 2005 Golf Revenue Refunding Bonds which were fully paid in 2015. The Subordinate Debt Service Requirement is the 1994 Interfund Loan Payable to the Wastewater Fund which was refinanced in 2008 and was restructured in 2012 and in 2017.
- (b) Includes operating revenues, investment income, miscellaneous non-operating revenues and golf lot premium fees. Excludes fair value adjustment.
- (c) Includes operating expenses such as personal services, supplies, other services and charges and the principal and interest on the golf cart leases. Excludes depreciation expense.
- (d) Net Revenue Available for Debt Service divided by Total Senior Debt Service Requirements. The legal covenant for debt service coverage is 1.35.
- (e) Net Revenue Available for Debt Service less Total Senior Debt Service Requirements, divided by Total Subordinate Debt Service Requirements. The legal covenant for debt service coverage is 1.00. In 2011 and 2010, the ratio dropped below 1.00, as a result, a consultant was hired in accordance with the bond covenants to provide recommendations to bring the ratio to 1.00.

Data was provided by the city of Aurora Office of Budget and Financial Planning.

- Notes:
- (a) Starting in 2011, Human Resources became Internal Services and is reported under General Management.
 - (b) In 2010, approximately 67 Recreation positions were moved from the Library and Cultural Services department to the Parks, Recreation and Open Space department, and another 6 to other city departments. Also, the 2008 recession and resulting budget reductions required four libraries to be closed in 2010 with a corresponding decrease in full time employees (approximately 44 from Library and Cultural Services and 21, mostly Forestry, from Parks, Recreation, and Open Space).
 - (c) In 2010, some Community Services positions were moved to Public Works.
 - (d) In 2010, Facilities Management operations (part of General Management) was moved to Public Works function.
 - (e) In addition to the positions that moved into Public Works from General Management and Community Services, approximately 30 positions were cut from the Public Works function in the 2010 budget.
 - (f) Prior to 2011, Communications was reported as part of General Management.

Tons of asphalt for patching & overlay (a)	189,594	211,193	146,331	127,917	116,898	83,406	120,379	125,204	111,332	104,052
Square yards of street repair & overlay (a)	1,330,824	1,591,986	2,114,175	1,925,685	1,386,148	1,536,279	1,456,695	1,285,547	1,762,248	1,672,888
Culture and Recreation: Data provided by COA Parks, Recreation, and Open Space, and Library and Cultural Services Departments										
Number of Playgrounds	80	82	84	87	88	88	88	88	88	88
Number of Golf Courses	7	7	7	7	7	6	6	6	6	5
Number of Swimming Pools	10	7	7	7	7	9	9	9	9	9
Parks - Number of Acres (b)	10,069	10,689	10,677	10,660	12,272	12,272	10,125	10,222	10,336	10,270
Number of Libraries (e)	7	7	3	4	4	4	4	4	6	6
Number of Computer Centers (e)	-	-	-	-	2	4	4	4	3	3
Water: Data provided by COA Aurora Water Department										
Number of Water Taps (c)	76,655	76,707	78,423	79,006	79,723	80,567	81,382	82,309	83,725	85,487
Miles of water mains constructed (d)	19	7	12	4	5	2	25	13	16	22
Wastewater: Data provided by COA Aurora Water Department										
Number of Sanitary Sewer Taps (c)	85,177	85,645	86,268	86,850	87,659	88,470	89,313	90,366	91,686	93,398
Miles of Sanitary Sewer constructed (d)	8	2	3	3	1	2	11	14	20	8

- (a) These totals include the following: reconstructive patching, in-place patching, slurry seal, chip seal and reconstructive planning. All work performed through the Capital Projects Fund by contract. In 2010, Public Works efforts were focused on street repair and overlay vs. patching and overlay. Beginning 2012, the numbers have decreased mainly due to increased labor and material price with decreased budgeted amount including a shift of funding to pavement preservation or surface treatment. In 2014, the increase is mainly due to increased street overlay and surface treatment project requirements.
- (b) Includes parks, golf courses and open space. In 2008, the Parks, Recreation, and Open Space Department (PROS) used more refined and updated information from their GIS data system. In 2012, new queries were developed and the total includes facility grounds, medians and streetscapes that were completed during the year, also included was the acquisition of open space and trail corridor related to the Triple Creek Greenway Corridor project. The 2014 acreage uses similar method as in year 2011.
- (c) Total includes paid water and irrigation connections. 2013 through 2015 are restated since number of meters was used instead of number of connections.
- (d) Total includes newly constructed mains during the period. Water mains and sewer lines decreased in 2009 due to decreased development activity which is also true in 2011 and 2013 for water mains and in 2012 for sewer lines. As a result of the improving economy, there was an increase in water mains and sewer lines constructed in 2014.
- (e) Due to ongoing declining General Fund budgets, four libraries were closed in 2010. The Mission Viejo Library was reopened in 2011 but on a limited service hours. In 2012, eight operating hours were added at Tallyn's Reach, Martin Luther King and Central Libraries with an opening of two computer centers at the city's Moorhead and Beck Recreation Centers. In 2013, two additional computer centers were opened at Kmart Aurora and at the former Hoffman Heights Library building. In 2016, the Moorhead PC center was temporarily closed due to the renovation of the recreation center and the computer center at Kmart was closed.

LOCAL HIGHWAY FINANCE REPORT
FOR THE YEAR ENDED DECEMBER 31, 2017**

LOCAL HIGHWAY FINANCE REPORT		City or County: City of Aurora, Colorado
		YEAR ENDING : December 2017
This Information From The Records Of (example - City of _ or County of City of Aurora, Colorado)	Prepared By: Phone:	Kim Beck 303-739-7773

I. DISPOSITION OF HIGHWAY-USER REVENUES AVAILABLE FOR LOCAL GOVERNMENT EXPENDITURE

ITEM	A. Local Motor-Fuel Taxes	B. Local Motor-Vehicle Taxes	C. Receipts from State Highway-User Taxes	D. Receipts from Federal Highway Administration
1. Total receipts available				
2. Minus amount used for collection expenses				
3. Minus amount used for nonhighway purposes				
4. Minus amount used for mass transit				
5. Remainder used for highway purposes				

II. RECEIPTS FOR ROAD AND STREET PURPOSES

ITEM	AMOUNT
A. Receipts from local sources:	
1. Local highway-user taxes	
a. Motor Fuel (from Item I.A.5.)	
b. Motor Vehicle (from Item I.B.5.)	
c. Total (a.+b.)	
2. General fund appropriations	
3. Other local imposts (from page 2)	28,134,332
4. Miscellaneous local receipts (from page 2)	11,706,427
5. Transfers from toll facilities	
6. Proceeds of sale of bonds and notes:	
a. Bonds - Original Issues	
b. Bonds - Refunding Issues	0
c. Notes	
d. Total (a. + b. + c.)	0
7. Total (1 through 6)	39,840,759
B. Private Contributions	
C. Receipts from State government (from page 2)	10,572,071
D. Receipts from Federal Government (from page 2)	3,770,732
E. Total receipts (A.7 + B + C + D)	54,183,562

III. DISBURSEMENTS FOR ROAD AND STREET PURPOSES

ITEM	AMOUNT
A. Local highway disbursements:	
1. Capital outlay (from page 2)	13,674,787
2. Maintenance:	21,699,314
3. Road and street services:	
a. Traffic control operations	2,660,137
b. Snow and ice removal	1,669,387
c. Other	5,316,307
d. Total (a. through c.)	9,645,831
4. General administration & miscellaneous	733,241
5. Highway law enforcement and safety	8,220,151
6. Total (1 through 5)	53,973,324
B. Debt service on local obligations:	
1. Bonds:	
a. Interest	0
b. Redemption	0
c. Total (a. + b.)	0
2. Notes:	
a. Interest	
b. Redemption	
c. Total (a. + b.)	0
3. Total (1.c + 2.c)	0
C. Payments to State for highways	210,238
D. Payments to toll facilities	
E. Total disbursements (A.6 + B.3 + C + D)	54,183,562

IV. LOCAL HIGHWAY DEBT STATUS

(Show all entries at par)

	Opening Debt	Amount Issued	Redemptions	Closing Debt
A. Bonds (Total)	0	0	0	0
1. Bonds (Refunding Portion)		0	0	
B. Notes (Total)				0

V. LOCAL ROAD AND STREET FUND BALANCE

	A. Beginning Balance	B. Total Receipts	C. Total Disbursements	D. Ending Balance	E. Reconciliation
		54,183,562	54,183,562		0

(a) Includes tap, main extension, front footage fees. Does not include annexation fees. Total is net of any reimbursement of previously paid tap fees.

(b) Includes investment income, insurance recoveries and other non-operating revenue. Excludes fair value and interest on urban drainage.

(c) From 2012 to 2014, first lien maximum annual debt service would have occurred in 2033 and included the city's portion of 2005D (CWR&PDA) and the city's First Lien Water Improvement Revenue Bonds Series 2007A and 2008A. In 2015, the 2005D bonds were fully defeased and as a result, maximum annual debt service decreased and would occur in 2032. In 2016, the Series 2007A and 2008A bonds were defeased with proceeds from the Series 2016 First Lien Revenue Bonds. As of 2016, maximum annual debt service will occur in 2025. Annual first lien debt service is approximately \$28.8 million for the years 2023 through 2046.

(d) Includes 2007 CWCB note and other water rights notes payable. From 2012 to 2014, maximum annual debt service would have occurred in 2033. In 2015, the 2005D bonds were fully defeased and as a result, maximum annual debt service decreased and would occur in 2032. In 2016, the CWCB note was paid in full with proceeds from the Series 2016 First Lien Revenue Bonds.

SEWER SYSTEM STATISTICS
FOR THE YEARS ENDED DECEMBER 31:**

Sanitary Sewer Usage and Revenues by Classification

Classification	Percent of Consumption	Percent of Revenue
Business	22%	21%
Residential	78%	79%
Totals	100%	100%

Customers by Class

Classification	2013	2014	2015	2016 (a)	2017
Residential (1-4 units)	73,229	74,205	75,039	76,136	77,524
Multi-Family (5+ units)	2,416	2,432	2,468	2,502	2,535
Commercial	2,889	2,935	2,935	2,974	3,040
Total	78,534	79,572	80,442	81,612	83,099

(a) Prior to 2016, all sewer only accounts were added to the Residential customer class. In 2016, these accounts were allocated between Residential, Multi-Family or Commercial customer class accordingly.

Ten Largest Customers of the Sanitary Sewer System

Customer	Billed Revenues
Buckley Air Force Base	\$ 681,141
University of Colorado Denver	575,125
Niagara Accounts	448,241
Heather Gardens HOA	298,646
Aurora Public Schools	207,902
Westdale Asset Management	170,398
Cherry Creek Schools	146,071
11850 West Maple, LP	142,919
Landings at Buckley	139,887
Children's Hospital Colorado	139,506
Total	\$ 2,949,836

These ten customers accounted for 8% of the total billed sanitary sewer sales in 2017.

Sanitary Sewer Monthly Service Charge by Tap Size (b)

Tap Size	2013	2014	2015	2016	2017
5/8" and 3/4"	\$ 3.39	\$ 3.52	\$ 3.66	\$ 3.81	\$ 3.81
1" & 1 1/4"	8.05	8.36	8.69	9.53	9.53
1 1/2"	16.93	17.57	18.27	19.05	19.05
2"	27.06	28.09	29.21	30.48	30.48
3"	59.27	61.52	63.98	66.68	66.68

(a) Commercial sanitary sewer fees for meters 6 inch and greater are determined on an individual basis.

Sanitary Sewer Connection Fee Revenues

	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>
Sanitary Sewer Tap Fees	\$ 2,566,584	\$ 3,593,025	\$ 4,180,531	\$ 5,184,196	\$ 5,162,741

Storm Drain Rates and Charges

The city imposes storm drainage fees upon the owners of property served by the System's storm sewer facilities. In addition, developers are charged a \$2,903 per acre storm drainage development fee at the time of subdivision platting. The storm drainage fee is \$10.16 per month for single family detached and individually metered single family attached dwellings. The storm drainage fee is \$10.16 per month for the first multifamily unit and master metered single family attached dwellings plus \$8.00 per month for each additional multifamily unit. For commercial and industrial building, the storm drainage fee is \$10.16 per month for the first 2,500 square feet of gross floor space plus \$8.00 for each additional 2,500 square feet of gross floor space or portion thereof.
