Aurora will be the best city in Colorado and an innovative leader in the region by:

**Creating great
neighborhoods**

**Encouraging a high-quality
and high-wage economic
environment**

**Emphasizing public
safety and quality
services**

**Supporting recreational, cultural,
educational and community
activities for our citizens**

Introduction to the City of Aurora 2023 Adopted Budget

This 2023 Adopted Budget for the City of Aurora is the product of a well-established cooperative process carried out by city staff with the guidance and direction of City Council. The purpose of this document is to provide both summary-level and detailed information on the 2023 budget as adopted by City Council this past fall. The figures and narratives published in this document also provide the originally adopted 2022 budget by City Council and an updated status of the 2022 projection at the time the 2023 budget was adopted. There are inevitably final changes that occur each year, after the budget is adopted, which are not reflected in the totals reported here. Such changes will be documented in the 2024 budget.

In keeping with best practices adopted by the city and reflected in criteria published by the Government Finance Officers Association, this budget is intended to serve as:

- A policy document that highlights the key issues that shape the budget and outlines the financial and other policies that guide the city’s operating plans;
- A financial plan that describes and summarizes relevant information related to: revenues, expenditures, debt service, and funds available for all city funds;
- An operations guide that provides useful information on the nature, purpose, and accomplishments of the city’s various organizational units; and
- A communications device that summarizes and illustrates key information related to: the city’s people, resources, planning processes, and budget outlook.

In order to fulfill these purposes, the budget is divided into several sections. The City Manager’s *Budget Message* and *Executive Summary* provide information that describes the contours of the city’s budget and the issues that shaped its development. The *Strategic Plan* section discusses status and process for Aurora’s Strategic Plan, including vision, mission, values, outcomes, and strategic priorities. The *Profile of Aurora* provides information on Aurora’s economic, demographic and community outlook along with specific information on the city’s organizational structure. The *2023 General Fund Revenue Overview* provides a detailed description of the city’s revenue outlook for 2023 and beyond for the General Fund. The *Long-Range General Fund Financial Outlook* identifies expected revenues and expenditures for all general government functions through 2027. The *Fund Summaries* provide tables and narratives that explain major changes in funds available for all city funds. The *Department Budgets* section provides information on departmental operating appropriations, staffing and programs. The *Capital Improvement Program* section describes the city’s five-year capital improvement program for all funds. A set of appendices is included with additional information on the city’s budget.

In order to make this document more easily accessible to all, the following FAQ has been added to allow the reader to jump in and learn without needing to interact with the whole document:

- **If I want to get an overall view of important topics to Aurora, but don't need all that detail, where do I go?**
 - Sure, start with the Budget Message (Section A). It is a high-level view of what is important, written in the voice of Jim Twombly, our City Manager. After that, read the Executive Summary (Section B). It has some great summaries about Aurora's budget. The Strategic Plan discussed in Section C. The rest of the book is detail.
- **If I want to learn more about how the city budgets, including a general timeline and how citizens can get involved?**
 - Appendix 13: Budget Process and Calendar (page J-95) has information on that. There is also a Public Input section that is in the 2023 Proposed Book (found here: https://www.auroragov.org/city_hall/city_finances__budget/city_budget)
- **What if I want to learn more about the City of Aurora, such as demographics?**
 - Go to the Profile of Aurora (Section D).
- **What if I want to dig deep into where the General Fund gets its money?**
 - The General Fund Revenue Section (Section E) will do the trick.
- **What does the future of the General Fund look like from a budget perspective?**
 - The Financial Outlook (Section F) shows revenue and expenditure projections through 2026.
- **I'm interested in the city's capital program. Where do I go?**
 - Great! The Capital Improvement Program (CIP) can be found in Section I.
- **What revenues and expenditures are associated with marijuana?**
 - Good question! The Marijuana Tax Revenue Fund Summary is on page F-28. Additional detail is found in Appendix 5, starting on page J-43.
- **I'm a policy nut! I can't get enough! Do you have financial policies?**
 - Well sure! Appendix 14 starting on page J-101 has our financial policies.
- **Where can I get more information about the Police budget?**
 - The Police Department pages start on page H-172.
- **What does the debt of Aurora look like?**
 - The Debt section can be found in Appendix 10, page J-73

We hope that all who make use of this adopted budget document find it helpful and easy to use.

City of Aurora, Colorado

**2023 Operating and Capital
Improvement Budget**

BUDGET MESSAGE

MEMORANDUM

City of Aurora

Worth Discovering • auroragov.org

TO: Mayor Coffman and Members of the City Council

FROM: Jim Twombly, City Manager

DATE: January 31, 2023

SUBJECT: 2023 Adopted Budget

I am pleased to transmit to you the City of Aurora Adopted Budget for 2023. This budget message provides a brief overview of the approach used to develop the budget.

The 2023 Adopted Budget continues the City of Aurora's strong recovery from the impacts of COVID-19, but with a more muted revenue projection than seen in recent years. The 2023 budget is balanced, and 2024 is balanced to within 0.4 percent, with much of the variance being one-time in nature. Despite these positive outcomes, the city still has some financial challenges ahead as reflected by projected revenue shortfalls in the out-years.

The 2023 Adopted Budget is balanced for all funds and provides a sound financial plan to provide funding for the best possible municipal services. While strong revenue growth allowed the city to address a variety of critical items, the number of competing priorities provides challenges. The 2023 Adopted Budget lays the groundwork for addressing many of the issues. The 2023 Adopted Budget includes a total of \$1.1 billion in appropriations for all funds. This is \$164.9 million more than the 2022 Original Budget of \$983.3 million, with \$70.4 million coming from increased operating spending and \$94.5 million coming from increased capital spending. Most of the operating increase is in the General Fund, which is increasing \$49.2 million. The majority of the capital increase is accounted for in the Water Fund with an increase of \$52.8 million.

Table 1. All Funds 2022-2023 Growth

	2022 Original	2023 Adopted	Dollar Change	Percent Change
Operating (all funds)	\$ 745,448,440	\$ 815,850,541	\$ 70,402,101	9.4%
Capital (all funds)	237,882,389	332,426,601	94,544,212	39.7%
Total (all funds)	\$ 983,330,829	\$ 1,148,277,142	\$ 164,946,313	16.8%

Table 2. Operating Budget General Fund/Other Funds 2022-2023 Growth

	2022 Original	2023 Adopted	Dollar Change	Percent Change
General Fund	\$ 426,148,586	\$ 475,388,207	\$ 49,239,621	11.6%
Others Funds	319,299,854	340,462,334	21,162,480	6.6%
Operating total (all funds)	\$ 745,448,440	\$ 815,850,541	\$ 70,402,101	9.4%

The 2023 Adopted Budget for the General Fund is \$475.4 million, which is \$49.2 million (11.6 percent) more than the 2022 Original Budget of \$426.1 million. A significant portion of this variance is based on the following changes:

- \$24.9 million is required for personal services related adjustments, \$20.7 million for salary and health/dental related adjustments with a \$2.2 million set-aside for a compensation sustainability fund and \$2.0 million for the final year of Police pension seed funds;
- \$20.1 million is required for other adjustments, including the Capital Projects Fund transfer adjustment, subsidy transfer adjustments, increases in allocated charges from the Risk and Fleet funds, utility increases, and department-specific contractual-related increases;
- A net \$8.1 million is required for ongoing amendments primarily associated with public safety, and the addition of 38.5 FTE in the General Fund;
- \$5.5 million is required for one-time amendments across several departments; and
- A decrease of \$9.3 million is included as base budget adjustments, primarily to remove 2022 one-time appropriations.

Attachment 8 in the Executive Summary and the Department Budgets sections have additional detail on each amendment.

Based on the strong revenue growth the city has experienced recently, staff felt it was important to minimize future shortfalls in addition to funding critical requirements. The 2023 budget is completely balanced, and 2024 is balanced to within \$2.2 million. This equates to 0.4 percent of the General Fund. It should be noted that projections for future years include annual pay and benefit increases, as well as annual funding for additional public safety needs in each year of the five-year plan.

ECONOMIC FACTORS AND CITY REVENUES

The City of Aurora General Fund revenue estimates for the 2023 budget process were developed by the Business Research Division (BRD) of the Leeds School of Business at the University of Colorado Boulder in collaboration with the Office of Budget and Financial Planning (OBFP). Forecasts of national indicators from Moody's Analytics serve as the fundamental drivers to the revenue estimates. BRD chose to forecast revenue based on three economic scenarios created by Moody's, including a baseline, optimistic, and pessimistic scenario. These different forecasts provide sensitivity analysis around more favorable and unfavorable economic conditions.

Looking forward, there are concerns about inflation and the associated federal efforts to address inflation using monetary policy, which has the potential to cause an economic recession. Furthermore, worker shortages, supply chain disruptions, COVID-19 variants, and the war in

Ukraine all have the potential to create additional inflationary pressures. Given these concerns, city management decided to use a modified version of the BRD baseline forecast called the adjusted baseline scenario. Adjustments include using a more conservative forecast of auto use tax collections, slightly moderating the levels of growth in sales and capital-related use tax collections, and reflecting the impact of the Taxpayer's Bill of Rights (TABOR) on property tax revenues.

National Gross Domestic Product (GDP) grew by an impressive 5.7 percent in 2021. This strong economic recovery also saw growth in employment, income, and consumption. Consumer demand remained extraordinarily strong in 2021 and into early 2022. A combination of strong consumer demand and supply shortages caused the United States to record the highest inflation in nearly four decades. Over recent months, the Federal Reserve has been aggressively raising interest rates in an attempt to slow inflation. Most economists are now lowering their projections for economic growth in 2022, with a growing concern that a recession in the near term is increasingly possible. Under the adjusted baseline scenario, GDP growth is projected to slow to 2.3 percent in 2022 and 1.4 percent in 2023. Increasing consumption and growth in prices will continue to drive growth in sales, use, and property tax collections in 2022 and 2023 even when overall economic growth is slowing. From 2024 through 2027, GDP growth will average 2.7 percent.

Through a combination of econometric modeling, historical trends, current knowledge, and an assessment of expected trends and events that will affect future revenues, the Budget Office, staff has prepared a revised 2022 projection that is \$42.8 million (10.2 percent) higher than the 2022 Original Budget. Per city ordinance, capital-related use tax revenue is transferred to the Capital Projects Fund and is therefore not available to fund General Fund operations. After making this transfer, General Fund operating revenues are projected to be \$37.1 million (9.9 percent) above the 2022 Original Budget. Inflation, rising interest rates, and various supply-side issues are projected to cause slower economic growth going into 2023. Under the baseline scenario used to develop the 2023 Adopted Budget, GDP growth in 2023 is a modest 1.4 percent, the unemployment rate rises slightly, and growth in national retail sales slows to 2.9 percent in 2023. Consequently, General Fund sources are projected to grow by 2.8 percent or \$13.0 million in 2023. Revenue projections will be discussed in more detail in the General Fund Revenues section.

The Executive Summary section of this budget document includes a high-level look at the city's economic outlook and revenue projections. The General Fund Revenues Overview provides more detail.

SPECIFIC ISSUES AFFECTING THE 2023 ADOPTED BUDGET

Plans for Employee Retention, Engagement, Recruitment

Much like other municipalities and the private sector, Aurora has been adversely impacted by significant employee turnover. Recent projections show annual turnover of city staff exceeding 18 percent in 2022, much higher than previous years. Few departments are immune to this reality. As an example, turnover in Housing and Community Services is projected to hit 44 percent by year end. Abatements and animal care services are also being adversely affected. Human Resources, which saw 14 percent turnover in 2021, is projected to hit 45 percent by year-end. This is exacerbated by employees facing rising costs of goods, services, housing and energy, compelling them to seek employment at a higher wage.

To combat this, the city will be implementing an equitable, multi-pronged plan which balances both one-time and ongoing strategies to retain and attract talent. The plan consists of improving business processes, enhancing city culture and employee engagement, and monetary incentives. One-time monetary strategies include recognizing and rewarding employees that have demonstrated excellence in their work and service to the city and community through/with high-performance bonuses, an inflation stipend, an earlier start for the 2023 raise, and implementing a strategic compensation program which includes signing and referral bonuses, sick leave payouts, and offering free Recreation Center memberships. Ongoing monetary strategies include a greater pay increase than originally projected and setting aside an additional amount of compensation market adjustment funds for targeted job classifications.

Public Safety Investments

Public Safety is an important component of city services. The criticality of public safety is reflected in the annual budget as public safety comprises the majority of the General Fund budget. The vast majority of the 2023 ongoing amendments are related to Public Safety, including:

- Police – A net 4.0 FTE Police Officers funded for ¼ of the year, 15.0 FTE Police Officers are included in the 2024 proforma;
- Police – A net 13.0 FTE civilian positions, including Community Services Representatives, Crime Scene Investigators, and Property Technicians, for a total of 19.0 FTE to address traffic and cold burglary investigations;
- Fire - 4.0 FTE Firefighters for 24-hour logistics, equipment, and fleet support. A 17.0 FTE fire company and truck are included in the 2024 proforma;
- Parks, Recreation and Open Space – appropriation added in several funds for Park Rangers for daytime patrol in parks, as well as funds for nighttime patrol of parks;
- Court system - appropriation added for a weekend court, to account for a new state issued mandate requiring municipal courts to hold a bond hearing within 48 hours for a person jailed;
- Housing and Community Services - an additional Aurora Mobile Response Team (AMRT);
- Information Technology - an updated Axon body worn camera contract which has been executed in 2022; and
- The equivalent of 15.0 FTE public safety personnel are added in each year of the proforma 2025-2027.

City Inflation and Its Effect on Water Rates and Fees

Inflationary pressures are affecting city budgets in fairly dramatic ways. Strategies that prioritize employee retention, engagement, and recruitment ideas are money well spent, but limit the city's capacity to fund new services. Fleet-related costs, risk charge backs, and utility costs are all increasing significantly. One example is the 70 percent increase in fuel prices, up an estimated \$2.1 million versus the 2022 Original Budget. In addition, nearly every city contracted service has increased to cover inflation, which has increased budgets. Due to this inflation, 2023 amendments beyond public safety and mandates are minimized.

Inflation has hit Water and Wastewater services as well. Costs of many critical commodities required to provide water services have increased significantly. For example, chemical and utility cost increases of 50-100 percent have been the rule rather than the exception. For 2023, sewer rates need to increase 5.0 percent and stormwater rates need to increase 3.5 percent (consistent with prior forecasts). Water rates were originally proposed to increase by 5.0 percent, but after further consideration, the increase has been changed to 4.0 percent. To minimize the needed rate increase, two FTE requests were removed and the subsidization for credit card payments will be eliminated starting July 1, 2023. Eliminating the credit card subsidization will remove almost \$2.0 million in ongoing costs from the Water operating budget (roughly \$460,000 in the prior year budgets plus the additional of \$1.4 million that had been proposed as an addition to the 2023 budget as an ongoing expense). Water is planning a robust communication effort through June 2023 to educate customers on the costs associated with credit card payments along with the lower costs associated with numerous other payment options. Beginning July 1, 2023, following the communication effort, customers choosing to pay with credit cards will be responsible for payment of the associated fees.

Even with the 4 percent water, 5 percent sewer, and 3.5 percent stormwater increases, the monthly average bill for Aurora residents will rank in the bottom third of area providers.

Water connection fees also need to increase. Adjustments will vary by type of development, dependent upon how much water is “consumed” as compared to the potential amount of water able to be recaptured and reused through the Prairie Waters system. Developments with more outdoor irrigation (consumable demands) will see larger water connection fee increases while indoor “recoverable” uses will see smaller increases, or in some cases, decreases in water connection fees. The water connection fee adjustments are designed to produce approximately an 11.0 percent increase in revenue. Sewer connection fees need to increase 6.4 percent and stormwater connection fees do not require an increase in 2023.

Costs associated with providing water service that affect rates and fees are anticipated to continue increasing in future years. All the “easy” water supplies have been acquired and remaining acquisitions required to support future growth will be further away, more complicated, and more expensive, resulting in significant cost impacts on water connection fees. New “unfunded mandates” continue to drive higher costs associated with federal and state regulations; the new Lead and Copper rule, changes to the Waters of the United States regulations, and polyfluoroalkyl substances (PFAS) health-based guidance levels are driving higher costs of permitting, treatment, and operations, which adversely impact water rates. Higher materials, chemical, utility, and fuel costs are also impacting rates and fees.

Water Conservation

With the increased costs of providing water service, water conservation will become more and more critical. From future sustainability and system resiliency perspectives, the wise use of arguably our most precious limited resource is vital. Additionally, from an affordability perspective, water conservation will become more important in keeping water rates and fees manageable. Aurora was one of the first water systems to adopt a volumetrically based water connection fee structure, which allows connectors to keep their water connection fees lower by applying strong water conservation practices within their developments. Aurora also has a volumetric tiered (inverted block) rate structure that affords customers the opportunity to manage their monthly water bills by implementing strong water conservation practices.

Aurora has long been a leader in water conservation and water re-use. Council just approved a new water conservation/non-functional turf ordinance to continue this leadership. The new ordinance establishes a strong ethic of water efficient landscapes for future growth within Aurora. In addition to the forward-looking, newly adopted, water conservation ordinance, Council challenged staff to create plans and/or programs to help our existing community become more water efficient with outdoor landscapes. As a result, Water is working on enhancements to the 2023 water-wise landscape rebates using a \$300,000 budget. Parks, Recreation and Open Space (PROS) started converting non-functional turf a few years ago (including a current project adjacent to the Central Library) and has money programmed to continue these efforts within their projected 5-year budget. In 2023, the PROS budget includes \$1.3 million for water conservation projects focused on turf conversion and irrigation system related replacements. These funds may also be used as matching funds to leverage related water conservation grants. Water and PROS staff are also working collaboratively to create a 10-year plan targeting outdoor water efficiencies including non-functional turf conversions.

Homelessness

The 2023 budget contains resources dedicated to addressing homelessness in Aurora. In the short term, camp abatement and sheltering are current costs that will continue in 2023. The budget contains \$250,000 to abate property. There is funding for a dedicated FTE to post, attend, and generally assist in administering the abatement process. Additionally, approximately \$400,000 is included for camp abatement outreach efforts. For longer term budget items focused on homelessness, approximately \$1.5 million is committed to the purchase and operation of 30 additional pallet shelters at the existing Salvation Army and Restoration Christian Ministry locations. Given limited shelter/housing options, the city will focus on a new facility to replace the

existing Day Resource Center with a site devoted to a navigation/day area, emergency shelter, and transitional housing. This facility will be complemented by future projects, including the state operated Ridgeview facility, Mile High Behavioral Healthcare Montview Emergency Family Shelter, the Aurora Mental Health Safety Net campus, and additional permanent supportive housing from the Aurora Housing Authority.

Development Review

In 2022, the city has undertaken a concerted effort to improve the development review process and respond to current demands. In the Development Review Fund, several amendments are included to support departments in the face of an extremely high continuous workload. The most significant is the activation of 8.0 FTE in 2022 to support workload and organizational capacity, a move approved by the Planning and Economic Development Committee in July 2022. The FTE will be fully budgeted in 2023.

Another amendment is the addition of 1.0 FTE Engineering Supervisor added as part of a reorganization in Public Works. The reorganization will result in enhanced service delivery in the organization with the goal of delivering quality, on-time, and customer-focused services. Third-party contractors for development review will continue to augment city FTE.

Transportation

Roadway maintenance continues to be a priority for the city. This year, the Public Works Department shifted the city's pavement management strategy to an objective pavement condition approach focused on maintaining a sufficient Pavement Condition Index (PCI). The approved target PCI for the city is 73. In order to meet the target PCI, a \$35 million Certificate of Participation (COP) financing was approved in 2022. The COP financing will be focused on paving prioritized neighborhood streets in the worst condition. As a result, the city's network PCI is projected to increase from 69 to 74. The current transportation spending plan will be sufficient to keep the PCI at the target level through the five-year plan. In addition, a new Transportation Maintenance Fund (TMF) was created in order to create transparency for the city's annual transportation maintenance investments.

The 2023 budget also includes investments in multimodal transportation capital projects such as the Colfax Bus Rapid Transit (BRT) project. The five-year plan also includes \$22.5 million in matching funds to leverage state and federal transportation grant funding including Denver Regional Council of Governments (DRCOG) Transportation Improvement Program (TIP) funding.

LONGER TERM OUTLOOK

Despite strong revenue growth in 2023, and being close to balanced in 2024, the outlook for the General Fund from 2025 to 2027 shows a revenue shortfall in each year. To address this, staff will continue to identify efficiencies and bring forth revenue-raising ideas. The city's soon to be adopted strategic plan will be key moving forward. These initiatives should allow the city to measure the success of key programs and to monitor finances at a programmatic level.

ACKNOWLEDGMENTS

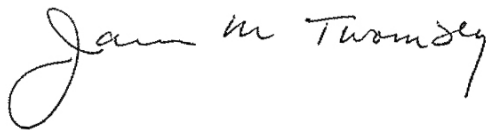

I would like to thank the citizens of Aurora for their participation and input in the budget process. The city benefited from thousands of volunteer hours provided by citizens in a variety of functions during the year. In addition, Council and staff received invaluable input from citizens as they participated in budget town hall meetings in the spring and ward meetings throughout the year.

I would like to thank the Citizens' Advisory Budget Committee, the Citizens' Water Advisory Committee, and the Citizens' Advisory Committee on Housing and Community Development for their respective recommendations to City Council. Their work has provided valuable citizen review and insight regarding department operations and budgeting.

I would like to thank the Deputy City Managers, Department Directors, City Council Appointees, and Commission Appointees for their cooperative approach and valuable assistance in developing this budget. I also wish to thank the Office of Budget and Financial Planning staff and all Department Budget Coordinators for their conscientious work and attention to detail associated with the development of this budget and management of the city's finances.

Finally, I want to especially express my appreciation to the Mayor and City Council for their work in developing progressive goals and a visionary policy framework within which these budget plans and recommendations could be formulated. The cooperative process undertaken by Council and city staff has been especially important for ensuring that the budget remains balanced while maintaining essential city services and an extraordinary quality of life for the citizens of Aurora.

Respectfully submitted,

A handwritten signature in cursive script that reads "Jim Twombly". The signature is written in black ink and is positioned above the printed name and title.

Jim Twombly
City Manager

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

EXECUTIVE SUMMARY

2023 Adopted Budget Executive Summary

The Executive Summary provides an overview of the 2023 Adopted Budget and the various factors that have influenced its creation. The intent is to help the reader more easily understand the city's 2023 spending plan and the major factors that have influenced that plan. This summary gives a high-level overview of the City Council's goals and performance measurements, the economic factors affecting the budget, an overview of revenue and expenditures in various funds, a series of summary tables, and other related information.

This Executive Summary also serves as a companion to the City Manager's Budget Message by providing in-depth information relating to various items discussed in the message.

FACTORS INFLUENCING 2023 ADOPTED BUDGET

A number of factors have contributed to the formulation of the 2023 Adopted Budget. The following section of the Executive Summary discusses in detail the impact of the national and local economies in guiding the development of the budget.

Economy

National

National Gross Domestic Product (GDP) decreased by a total of 3.4 percent in 2020, the first full-year decline since 2009 and the largest annual decline since 1946. However, in a strong economic recovery, real GDP reached new peak levels in 2021. Consensus forecasts from March 2022, averaging the forecasts from 24 entities, project U.S. real GDP growth of 3.3 percent in 2022 and 2.4 percent in 2023. The adjusted baseline scenario used in the 2023 Adopted Budget assumes that U.S. real GDP will increase by 2.3 percent in 2022 and will slow to 1.4 percent growth in 2023. Under the University of Colorado Boulder Business Research Division (BRD) pessimistic forecast, real GDP growth would increase by 0.9 percent in 2022 before falling 0.4 percent in 2023.

The recovery from the COVID-induced recession has been notable for strong growth in GDP, employment, income, and consumption. In the first quarter of 2022, consumer spending increased by 3.1 percent. Detailed results saw demand decrease for non-durable goods such as food and gasoline, while spending for services (a sector that saw large decreases in demand during the early stages of the COVID-19 pandemic) increased by 4.8 percent. A combination of strong consumer demand and supply shortages caused the United States to record the highest level of inflation in nearly four decades. Over recent months, the Federal Reserve has been aggressively raising interest rates in an attempt to slow inflation. As a result, there is now growing concern that a recession in the near term is increasingly possible. For 2022, retail trade is projected to increase between 4.5 percent (in the BRD pessimistic scenario) and 8.0 percent (in the BRD optimistic scenario). As the economy slows going into 2023, retail trade under the BRD baseline scenario will grow by 2.9 percent. In the pessimistic scenario, retail trade would decline by 1.1 percent.

The national unemployment rate reached 14.4 percent in April 2020 and generally declined in the second half of 2020 and throughout 2021. Despite inflation and some of the other economic concerns, the labor market has remained strong in the first half of 2022. As of May 2022, the unemployment rate in the United States stood at 3.3 percent. The baseline scenario assumes that employment will grow by 1.6 percent in 2022 and 1.2 percent in 2023. However, it is worth noting that under the pessimistic scenario, in 2023 the United States would enter a mild recession and U.S. employment would decrease by 1.6 percent.

Colorado and Aurora

Prior to the pandemic-induced recession, Colorado enjoyed more than a decade of strong economic growth that generally outpaced most other states in the nation across a number of key economic indicators such as employment, personal income, and GDP growth. The pandemic-induced recession had an immediate impact on commerce locally, with Aurora's year-over-year sales tax collections falling 12.6 percent in May 2020. Thanks in part to an unprecedented level of federal stimulus and pent-up consumer demand from the economic shutdown, an economic recovery began in the second half of 2020. At the close of a challenging year in 2020, the City of Aurora's sales tax growth rate interestingly exceeded the State of Colorado sales tax growth rate and outperformed many jurisdictions within Colorado's metropolitan areas. However, by the end of 2021, a BRD analysis of sales tax collections in the 30 largest tax jurisdictions in Colorado found that Aurora's sales tax revenue growth from 2019 to 2021 exceeded only one-third of the jurisdictions and lagged in the remaining two-thirds.

Employment in Colorado was significantly impacted by the COVID-19 pandemic. Notably, Colorado unemployment was generally higher than that of the United States in 2021. One of the factors behind this trend appears to be the higher relative proportion of jobs in Colorado that are in service-related industries. Unfortunately, service-related businesses were hit harder in the early months of the COVID-19 pandemic due to lockdowns and general uncertainty surrounding the virus. Travel and tourism were especially impacted within the leisure and hospitality service sector. However, in the first half of 2022, service-related industries experienced stronger consumer demand. Various travel and tourism related metrics, such as the number of passengers flying into Denver International Airport, showed strong growth compared to 2021. Given these trends, as of April 2022, Colorado was one of only fourteen states to have completely recovered all of the jobs it lost during the COVID-19 pandemic. As of May 2022, the unemployment rate in both the State of Colorado and the Metro Denver area stood at a low 3.0 percent.

In June 2022, the Leeds Business Confidence Index, a local measure of business expectations, recorded the fifth lowest score in the 20-year history of the index. Looking ahead to the third quarter of 2022, all six of the components were negative, with the national economy registering the lowest score at 27.7 points (a score of 50.0 is neutral). Panelists listed inflation, interest rates, and supply chain issues as their primary concerns.

The City of Aurora's cautious growth revenue forecast for the 2023 budget was developed by the Business Research Division of the Leeds School of Business at the University of Colorado Boulder together with the Office of Budget and Financial Planning. Forecasts of national indicators from Moody's Analytics serve as the fundamental drivers to the revenue estimates. There may be more

downside risk than potential upside to the baseline forecast. The Federal Reserve is expected to enact a series of interest rate increases in an attempt to bring inflation under control. These increases have the potential to cause an economic recession. Additionally, worker shortages, supply chain disruptions, COVID-19 variants, and war in the Ukraine all have the potential to worsen the supply of goods and services, create additional inflationary pressures, and diminish economic growth. Nevertheless, consumer demand remains relatively strong and unemployment in the United States, Colorado, and Metro Denver continues to decline. Some sectors, like travel and tourism, continued to show strong growth in early 2022 compared to the same period in 2021. Other service industries, including restaurants, bars, and movie theaters, are also seeing strong recoveries in 2022. Coming out of the first two years of the COVID-19 pandemic, there still appears to be growing consumer demand, even if that growth is starting to slow. As such, if inflation and supply-side challenges can be quickly brought under control, there is the potential to exceed economic expectations.

BUDGET OVERVIEW – ALL FUNDS

The city's budgeted funds include the General Fund, Capital Projects Fund, Water and Wastewater funds, Recreation and Golf Courses funds, Development Review Fund, and various other internal service, special revenue, and debt service funds. Appropriations for these funds provide for operating, debt service, and capital costs. The city uses different funds to control and manage money intended for a particular purpose, demonstrate compliance with finance-related legal requirements, and aid financial management by segregating transactions related to certain city functions or activities. Attachments 1 through 3 beginning on page B-15 summarize appropriations and past (actual) spending for the city's funds.

The 2023 Adopted Budget includes a total of \$1.1 billion in appropriations for all funds. This is \$164.9 million more than the 2022 Original Budget of \$983.3 million, with \$70.4 million coming from increased operating spending and \$94.5 million coming from increased capital spending. Most of the operating increase is in the General Fund, which increases \$49.2 million. The majority of the capital increase is accounted for in the Water Fund with an increase of \$52.8 million.

Personal services (salary and benefits) accounts for \$37.8 million of the increase in operating costs. This increase includes civil pay and benefit increases in accordance with the Police and Fire collective bargaining agreements. In 2023, career service pay and benefit increases maintain financial parity with the Police and Fire collective bargaining contracts with a 5.0 percent wage increase and a smaller increase in the

Figure 1. 2023 Total Appropriations by Fund

city's contribution for health and dental insurance due to favorable renewal rates. A net 65.0 FTE were added to the budget, including 2022 Spring Supplemental amendments. Most are in the General Fund, which is increasing by 47.5 FTE, the majority of which are in public safety.

Figure 1 illustrates the distribution of total appropriations in 2023. The General Fund accounts for approximately 41 percent of total appropriations, while another 29 percent of the 2023 budget is dedicated to capital projects in several funds. Operating costs for Aurora Water (both the Water and Wastewater funds) make up 17 percent of the city's total budget. The remaining 13 percent is for operations of all other city funds.

GENERAL FUND SUMMARY

The General Fund is the primary source of funding for most city operations, including public safety, transportation, parks, libraries and other services. In addition, annual transfers from the General Fund to the Capital Projects Fund pay for many of the city's infrastructure projects. Table 1 provides a summary of the most significant adjustments in the 2023 General Fund budget.

Table 1. 2023 Expenditure and Budget Summary - General Fund

Sources	Amount	Comment
Revenue and Transfers	\$473,569,262	Moderate growth in sales and use tax collections are anticipated in 2023.
Total Sources	\$473,569,262	Total 2023 Adopted Sources
2022 Original Budget	\$426,148,586	The 2022 Original Budget is the starting point for the 2023 Adopted Budget.
Base Budget Adjustments	(9,347,301)	Amount includes \$10.4 million in reductions to remove 2022 one-time appropriation, \$1.0 million Spring Supplemental.
Cost Drivers	44,980,240	\$24.9 million in personal services adjustments, including \$22.9 million in salary, salary-related and health/dental adjustments and \$2.0 million in for the second year of Police pension seed funding; \$20.1 million in other adjustments, including the Capital Projects Fund transfer adjustment, subsidy transfer adjustments, Risk and Fleet fund charges, utility increases, and department-specific contractual increases.
Proposed Amendments	13,504,580	\$8.8 million ongoing amendments primarily associated with the addition of 44.5 FTE across all departments, but primarily in public safety. Also includes \$4.7 million one-time amendments across several departments, with the largest being a \$3.0 million City Council set aside. Additional details can be found in the department pages.
City Council October 8 Budget Workshop Amendments	102,102	A net \$102,100 added, with one-time adds of \$764,900 (primarily transfer to Capital Projects Fund) nearly totally offset by \$662,800 of ongoing reductions (primarily elimination of 6.0 FTE). More information on the Council amendments can be found in Appendix 1 and in the department pages.
Total Uses	\$475,388,207	Total 2023 Adopted General Fund Budget

General Fund Revenue

Figure 2 illustrates the sources of revenue within the General Fund. Sales tax revenue remains the backbone of Aurora's General Fund, accounting for 57 percent of total revenue. Use tax is a companion tax to sales tax and is associated with purchases of commodities and equipment. Over two-thirds of all General Fund revenue is dependent on purchases when use tax revenues (e.g. building materials use tax, automobile use tax and equipment use tax) are included.

Figure 2. 2023 General Fund Sources

Table 2 provides a summary of General Fund sources of revenue and the anticipated growth in key categories.

General Fund revenue in 2023, excluding transfers, is estimated to grow at a rate of 2.7 percent or \$12.5 million over the 2022 year-end projection. The major component of revenue growth in 2023 is a \$7.9 million increase in sales tax collections. Property tax revenues are projected to increase by \$3.6 million, which reflects allowable growth in Aurora's property tax revenue limitation under the Taxpayer's Bill of Rights (TABOR). Capital-related use tax is expected to increase \$1.4 million. Audit revenue, a component of all other operating revenue, is experiencing its highest year

Table 2. Summary of Key General Fund Revenue Sources

Sources of Funds	2021 Actual	2022 Projection	2023 Adopted	2021-2022 Change	2022-2023 Change
General Sales Tax	\$ 245,602,264	\$ 263,229,402	\$ 271,173,019	7.2%	3.0%
Property Tax	40,887,181	46,161,109	49,745,107	12.9%	7.8%
Capital-Related Use Tax	35,644,615	33,502,888	34,920,187	(6.0%)	4.2%
Auto Use Tax	28,336,062	27,120,445	27,120,445	(4.3%)	0.0%
Franchise Fees/Taxes	15,654,893	17,381,079	16,251,309	11.0%	(6.5%)
Highway Users Fees/Taxes	12,136,145	11,837,703	12,890,630	(2.5%)	8.9%
Lodger's Tax	6,790,737	7,982,459	8,273,021	17.5%	3.6%
All Other Operating Revenue	49,129,198	53,304,879	52,610,628	8.5%	(1.3%)
General Fund Revenue	\$ 434,181,094	\$ 460,519,964	\$ 472,984,346	6.1%	2.7%
Transfers In from Other Funds	2,834,550	-	584,916	(100.0%)	0.0%
Total General Fund Sources (including transfers in)	\$ 437,015,643	\$ 460,519,964	\$ 473,569,262	5.4%	2.8%
Transfer Out of Capital-Related Revenue	48,422,101	47,519,402	49,262,540	(1.9%)	3.7%
General Fund Operating Revenue (excludes capital transfer)	\$ 388,593,542	\$ 413,000,562	\$ 424,306,722	6.3%	2.7%

ever, but is expected to drop to more historical levels in 2023. Other revenue streams are remaining relatively stable. For General Fund operating revenue, the projected 2.7 percent increase in 2023 represents the weakest growth in recent history.

The revenue section starting on page E-1 provides more detail on the Revenue Outlook.

General Fund Appropriations

For 2023, General Fund total appropriations, including transfers, is \$475.4 million, an 11.6 percent increase from the 2022 Original Budget of \$426.1 million. The majority of the increase is due to pay increases and the inclusion of a net 47.5 FTE across all departments, including 9.0 FTE added in the 2022 Spring Supplemental and 38.5 added as part of the 2023 Adopted Budget. Public Safety related departments make up the largest share of the General Fund budget, reflecting the high city priority for maintaining public safety, as Figure 3 illustrates.

Figure 3. General Fund Appropriations

Attachments 5 and 8 provide additional detail regarding General Fund expenditures and amendments.

STAFFING – ALL FUNDS

The 2023 Adopted Budget includes an additional 65.0 FTE versus the 2022 Original Budget, with 55.5 FTE added as part of the 2023 budget process and another 9.5 FTE added in the 2022 Spring Supplemental. Table 3 breaks out all net position changes by fund for 2023.

Table 3. 2023 FTE Adds by Fund

Fund	2022 Original FTE Count	2022 Supp Adj	2023 Adds / Reductions	2023 Transfers and Technical	Net Change	2023 Adopted FTE Count
Comm Development	18.50	-	-	-	-	18.50
Conservation Trust	14.22	-	-	-	-	14.22

Totals	3,368.50	9.50	55.50	-	65.00	3,433.50

Table 4 provides departmental detail on the staffing changes in the General Fund. Attachment 9 to this Executive Summary gives an overview of four years of staffing by fund. Attachment 10 is a detailed list of all positions added with the 2023 amendments to the budget.

Table 4. 2023 FTE Staffing Net Change - General Fund

Department	2022 Supplemental Adjustments	Adds / Reductions	2022 - 2023 Net Change
Aurora Water	4.00	3.00	7.00
Aurora911	-	-	-
City Attorney	-	1.00	1.00
Communications	(4.00)	1.00	(3.00)
Court Administration	-	1.00	1.00
Finance	1.00	3.00	4.00
Fire	-	4.00	4.00
General Management	-	(5.00)	(5.00)
Housing and Community Services	0.50	3.00	3.50
Human Resources	2.00	3.00	5.00
Information Technology	1.00	-	1.00
Judicial	-	0.50	0.50
Library and Cultural Services	1.50	-	1.50
Non-Departmental	-	3.00	3.00
Parks, Recreation and Open Space	-	-	-
Planning and Development Services	-	1.00	1.00
Police	2.00	17.00	19.00
Public Works	1.00	3.00	4.00
Totals	9.00	38.50	47.50

The General Fund increases by a net 47.5 FTE. This is a result of the addition of 38.5 new FTE as part of the 2023 budget and a net 9.0 FTE added as part of the 2022 Spring Supplemental.

Table 5 shows the details of the staffing level by fund over time. The total General Fund FTE count is 313.5 greater than 2003, but the ratio of civil service to career service has changed considerably. Police Civil Service has grown 28.6 percent (165.9 FTE) and Fire Civil Service has grown 47.1 percent (142.5 FTE) while Career Service FTE has remained flat increasing only 0.4 percent (5.1 FTE). The majority of the Fire Civil Service increase has been in the past five years while Police Civil Service increases have been more consistent. A portion of the career service decrease is explained by the movement of 63.0 FTE dispatchers to the E-911 Fund in 2015. Excluding that adjustment, career service FTE would have grown 5.8 percent.

The growth in other funds has been mixed. In the Water and Wastewater funds, FTE counts are up 74.4 percent (212.0 FTE) for the same period, with most of the growth occurring between 2003 and 2007. The dispatcher move noted caused the large spike in the E-911 Fund. The increase in the Development Review Fund has been fairly recent, due to extremely high workload. Increases in the Open Space Fund and the Designated Revenues Fund are the primary drivers in the increase in all other FTE. See Attachment 9 for a four-year summary of staffing by fund.

Table 5. FTE and FTE Changes, 2003-2022 (All Funds)

Category/Fund	FTE Count					FTE Change 2003-2023	
	2003	2007	2011	2015	2023	Count	%
General Fund							
Police, Civil Service	580.0	635.0	649.3	666.9	745.9	165.9	28.6%
Fire, Civil Service	302.5	311.0	308.0	329.0	445.0	142.5	47.1%
Career Service	1,164.7	1,091.5	948.9	934.2	1,169.8	5.1	0.4%
Subtotal, General Fund	2,047.2	2,037.5	1,906.2	1,930.0	2,360.7	313.5	15.3%
Non-General Funds							
Police Civil (Non-GF)	2.5	2.0	8.8	10.2	1.1	(1.4)	-56.0%
Wastewater/ Water Fund	285.0	403.0	422.0	429.0	497.0	212.0	74.4%
Development Review Fund	112.0	119.3	70.8	82.8	156.0	44.0	39.3%

Rec & Cultural Svcs Funds	90.8	86.0	79.2	94.8	126.5	35.7	39.3%
All Other FTE	108.5	132.9	145.6	154.6	178.2	69.7	64.2%
Subtotal, Non-General Funds	655.8	800.1	776.3	877.3	1,072.8	417.0	63.6%
Total	2,703.0	2,837.7	2,682.4	2,807.3	3,433.5	730.5	27.0%

OTHER FUNDS

In addition to services funded by the General Fund, the city's budget includes funding for a variety of programs and services funded from various other special purpose and enterprise funds. The following is a summary of significant changes in the operating budgets for the city's other funds. More information on capital spending in each fund can be found in the Capital Improvement Program section.

Conservation Trust Fund

Operating expenditures for 2023 in the Conservation Trust Fund are \$45,300 (3.1 percent) lower than the 2022 Original Budget. Personal services costs are increasing \$54,800 (4.3 percent) due to the citywide pay and benefit increases but is offset by one-time capital related budget in 2022 not recurring. There are no amendments in the Conservation Trust Fund.

Development Review Fund

Operating expenditures in 2023 will increase by \$2.4 million (11.2 percent) compared to the 2022 Original Budget, with most of the increase in personal services. The majority of the increase is due to the \$1.1 million in amendments, including activating and funding 8.0 FTE and adding a 1.0 FTE Engineering Supervisor, the details of which can be found in the department pages.

Enhanced E-911 Fund

Operating expenditures in 2023 will increase by \$1.9 million (21.2 percent) compared to the 2022 Original Budget, with most of the increase in personal services and supplies. This budget variance is predominately associated with increases in pay and benefits in accordance with city policy and a \$403,400 ongoing cybersecurity amendment.

Fleet Fund

In 2023, operating expenditures will increase by \$2.4 million (19.8 percent) compared to the 2022 Original Budget primarily due to a \$2.1 million increase in fuel costs. The Fleet Fund is gaining 2.0 FTE, a Fire Fleet Technician and the conversion of a variable hour Financial Support Technician to an FTE.

Gifts and Grants Fund

For 2023, the total budget in the Gifts and Grants Fund will decrease \$12.6 million (53.8 percent) due almost solely to federal grant spending not recurring on grants such as American Rescue Plan Act (ARPA), Emergency Solutions, and Treasury Emergency Rental. A 1.0 grant-funded FTE will be eliminated with the transfer of the Crisis Response Team to the General Fund. At the October 8 Budget Workshop, Council added \$320,000 in ARPA funds use for Detention Center retention bonuses.

Marijuana Tax Revenue Fund

For 2023, the total budget in the Marijuana Tax Revenue Fund is expected to increase \$5.6 million (38.3 percent) due primarily to an increase in budget related to the Youth Violence Prevention Program and to several transfers requested by Council at the October 8 Budget Workshop, the most significant of which was \$2.0 million transferred to the Capital Projects Fund for traffic signal projects.

Open Space Fund

The 2023 operating budget is \$1.2 million higher than the 2022 original operating budget, due to pay and benefit increases, significant inflation-related mandated costs, and addition of 6.96 FTE, including 4.0 FTE Park Rangers and 1.0 FTE Park Ranger Supervisor for daytime patrols in Parks and a transfer of 1.96 FTE from the Designated Revenues Fund related to Dove Valley Maintenance.

Recreation Fund

For 2023, expenditures are expected to be \$1.2 million (7.3 percent) higher than the 2022 Original Budget. Personal services, up \$841,000 (7.0 percent), drive most of that increase. There are several causes for this, including the full-year-funding of 16.0 FTE Southeast Recreation Center staff added for only a partial year in 2022, as well annual wage increases in accordance with city policy, offset by the elimination of 2.0 FTE associated with the Morning Star Adult Day Program.

Inflationary pressures are also driving up utility spending \$317,600 (29.4 percent), with electricity, natural gas, and water/sewer costs increasing. The largest increase is in electricity costs, up \$210,500 (31.6 percent).

Risk Fund

In 2023, expenditures are budgeted to be \$1.5 million (10.1 percent) higher than the 2022 Original Budget. The largest increases are in insurance premiums, up \$653,200 (18.2 percent), and the appropriation for IBNR claims, up \$500,000 (50.0 percent).

Water and Wastewater Funds

The Water and Wastewater funds operate as enterprise funds in which revenues from user fees, development fees, and other charges for services must cover all capital and operating costs. The total operating budget for these funds will increase \$14.9 million (8.5 percent) from the 2022 Original Budget. Significant budgetary factors addressed include the following:

- In the Water Fund, operating expenses for 2023 will increase \$12.1 million (11.6 percent) compared to the 2022 Original Budget, primarily to account for increases in supplies and services including the Lead Replacement Program (\$3.0 million), utilities, capital related equipment, and funding of 6.1 FTE and other salary related benefits.
- In the Wastewater Fund, the 2023 operating budget is \$2.8 million (4.0%) higher than the 2022 Original Budget, due to increases in supplies and services, utilities, capital related equipment, funding of 3.9 new FTE and other salary related benefits.

CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program (CIP) provides funding over a five-year period for projects of \$25,000 or more that help the city provide for its facility and infrastructure needs. All such projects must have a long-term benefit of five years or more. The CIP section of the 2023 budget contains a list of funded programs.

The CIP budget is balanced; the budget identifies funding sources of all recommended projects for all five years of the plan. Annual capital appropriations from all city funds will reach \$287.7 million in 2022, and \$332.4 million in 2023. A total of \$1.6 billion in capital projects is budgeted or planned between 2023 and 2027 in all funds.

The primary funds associated with the five-year CIP are:

- The Capital Projects Fund (CPF) - \$170.7 million;
- Transportation Maintenance Fund (TMF) - \$194.1 million;
- The Open Space Fund (OSF) - \$25.5 million;

- The Conservation Trust Fund (CTF) - \$16.0 million;
- Enhanced E-911 Fund (E-911) - \$9.3 million;
- Parks Development Fund (PDF) - \$8.2 million; and
- The Water and Wastewater Funds - \$1.2 billion.

Capital Projects Fund

The Capital Projects Fund (CPF) provides support for general government capital projects. The CPF at minimum receives a transfer equal to 100 percent of all building materials and equipment use taxes plus 4.0 percent of all other General Fund revenues, less revenue from the 0.25 percent sales and use tax dedicated to the police officer staffing program.

The 2023-2027 five-year plan totals \$170.7 million. This is \$138.2 million lower than the \$308.9 million that was in the 2022-2026 five-year plan. The reason for the significant decrease is due to the creation of the Transportation Maintenance Fund (TMF) noted previously and the movement of ongoing transportation budget to that new fund. If not for the move, the CPF would have risen to \$364.8 million. The TMF will be discussed in more detail later.

Even though the roadway maintenance projects in Public Work were moved to the TMF, they still have the largest budget in the fund. In 2023, the \$20.0 million Public Works appropriation includes building repair projects, more variable transportation projects, traffic signal construction, and a traffic management system project. After Public Works, the next largest user of funds is Non-Departmental, with \$15.2 million in 2023. The largest project is \$6.0 million for a Bus Rapid Transit (BRT) project. In total, \$14.0 million will be spent in the project, including \$8.0 million projected in 2022. Additionally, \$3.0 million has been added as the annual debt payment for a \$35.0 million transportation-related Certificate of Participation (COP). The COP proceeds will be spent on projects out of the TMF.

The CIP section of the 2023 Adopted Budget book contains detail concerning the Capital Projects Fund.

Transportation Maintenance Fund

The Transportation Maintenance Fund (TMF) was created for the 2023 budget, separating the five ongoing transportation maintenance programs into a separate fund, in order to create a clearer vision for such maintenance. These programs include Concrete Repair, Street Asphalt Overlay, Chip Seal / Crack Seal, and Street Reconstruction. Over the five-year plan, \$194.1 million is projected to be spent, including orgs previously housed in the CPF and \$35.0 million for the proceeds of a transportation-related Certificate of Participation.

Water and Wastewater Capital Projects

The Aurora Water Capital Improvement Program, which includes projects in the Water Fund and the Wastewater Fund, represents 73.7 percent of the city's planned five-year capital spending. The 2023 budget includes updates to the plan which incorporates needs identified through master planning, recent development trends, and updated engineering estimates. Planned capital spending for Aurora Water amounts to \$1.2 billion for the 2023-2027 period.

In the Water Fund, major capital projects include: Wild Horse Reservoir (\$262.2 million), Water Rights Acquisition (\$150.0 million), Rampart Water Delivery System (\$104.0 million), Griswold Water Purification Facility (\$81.5 million), Wemlinger Water Purification Facility Improvements (\$62.3 million), and Prairie Waters North Campus Expansion (\$58.0 million).

In the Wastewater Fund, major capital projects include: New Sewer Line Construction, (\$31.3 million), First Creek Interceptor (\$25.9 million), Miscellaneous Sewer Replacement (\$10.9 million), and Stormwater Development Projects (\$10.0 million).

The Aurora Water five-year project detail can be found in Appendix 2.

Other Capital Funds

There are several funds associated with Parks, Recreation, and Open Space (PROS). The Open Space Fund, a combination of Arapahoe County Open Space (ArCo) projects and Adams County (AdCo) projects, includes \$25.5 million over the five-year plan, which is 1.6 percent of total capital spending. The Conservation Trust Fund, funded through lottery proceeds, has projects totaling \$16.0 million in the five-year plan (1.0 percent of total capital spending). The Parks Development Fund and the Golf Courses Fund also have capital projects. The most significant projects include Median Development and Maintenance (\$6.5 million), Turf Conversion (4.2 million), Central Community Park (\$2.9 million), Dome Park, (\$2.7 million), Triple Creek Improvements (\$2.7 million), a Parks Equity implementation project (\$2.5 million), and Highline Canal Trail (\$2.1 million). Most of the funding for these projects comes from the ArCo Open Space Tax and the Conservation Trust Fund.

The Enhanced E-911 Fund provides for the acquisition, development, and maintenance of the equipment and communication systems related to 911 calls and the 800 MHz radio communication systems. The 800 MHz radio debt, Mobile Data Computer (MDC) infrastructure replacement, and funding for erecting a new radio tower to provide more reliable communications for public safety in Southeast Aurora account for the majority of E-911 spending. During the 2023-2027 period, \$9.3 million (0.6 percent of total capital spending) is projected to be spent.

SUMMARY INFORMATION

There are additional summary tables following these pages:

- Attachment 1 - Citywide revenues, expenditures, and FTE levels;
- Attachment 2 - Total revenues, total uses, and total funds available by fund;

- Attachment 3 - Total operating and capital expenditures by fund from 2020 through 2023;
- Attachment 4 - Comparison of the 2022 Original Budget to the 2022 projection. The 2022 Original Budget was the budget as originally adopted by City Council excluding any subsequent modifications;
- Attachment 5 - General Fund expenditures and appropriations by department;
- Attachment 6 - Major changes in fund balances for all funds in 2022 and 2023;
- Attachment 7 - Significant base budget changes in various city funds;
- Attachment 8 - Amendments listing;
- Attachment 9 - Staffing levels by fund;
- Attachment 10 – Detailed staffing changes from amendments;
- Attachment 11 - Five-year Capital Improvement Plan (2023-2027) along with information on appropriations for 2020 through 2022; and
- Attachment 12 - Capital amendments by department and fund.

Attachment 6

Major Changes in Funds Available (in Excess of \$1.0 Million)

Significant Decreases in 2022 Funds Available		
Fund	Decrease	Comments
Capital Projects	\$ (1,208,356)	Spend-down of I-70/Picadilly project funds received in 2021
Conservation Trust	\$ (1,833,247)	Spending of funds available on capital projects
Designated Revenues	\$ (4,370,125)	Spending of funds available on job-related incentive
Development Review	\$ (2,258,264)	Primarily due to increased personal services costs and contracted labor to keep up with high-level development activity
General Fund	\$ (22,644,159)	Primarily due to increase in transfers to the Capital Project Fund for the I-70/Picadilly Interchange and capital project inflation
Gifts and Grants	\$ (62,104,859)	Expenditure of significant American Rescue Plan Act (ARPA) relief funds received in 2021
Open Space	\$ (4,692,754)	Spending of funds available on capital projects
Wastewater	\$ (24,744,069)	Spending of funds available on capital projects
Water	\$ (14,953,055)	Spending of funds available on capital projects

Significant Increases in 2022 Funds Available		
Fund	Increase	Comments
Marijuana Tax Revenue	\$ 1,156,284	Accumulating fund balance in the Youth Violence Prevention Program
Parks Development	\$ 1,563,440	Additional developer contributions held as funds build for large projects
Recreation	\$ 1,256,037	Significant vacancy savings caused by turnover and hiring issues

Significant Planned Drawdowns of Funds Available in 2023		
Fund	Drawdown	Comments
Designated Revenues	\$ (1,107,224)	Draw down of funds designated for the program to include Community Trees, Court Technology Surcharge, and Wellness Court Surcharge
Enhanced E-911	\$ (3,114,125)	Spending of funds available on capital projects
General Fund	\$ (1,818,945)	One-time and ongoing amendments in City Council, Police, and Public Defender
Gifts and Grants	\$ (5,604,545)	Primarily due to the spend down of relief grants received in prior fiscal years
Marijuana Tax Revenue	\$ (5,212,397)	Spending accumulated fund balance in the Youth Violence Prevention Program and spending on capital projects and Victim Assistance Support
Open Space	\$ (1,338,788)	Spending of funds available on capital projects
Parks Development	\$ (1,816,082)	Spending of funds available on capital projects
Recreation	\$ (1,318,119)	Assumption of fully-funded positions and revenues still weak following COVID
Water	\$ (68,174,737)	Spending of funds available on capital projects

Significant Planned Increases in Funds Available in 2023		
Fund	Increase	Comments
Capital Projects	\$ 14,490,914	Additional unspent capital impact fees
Wastewater	\$ 19,299,445	Proceeds of borrowing in 2023 to be spend in subsequent years

Attachment 7 - Significant Base Budget Adjustments, Non-General Fund

Attachment 7
Significant Base Budget Adjustments, Non-General Fund

Fund	Item	Amount	Description
Community Development	Personal Services Adjustments	\$ 137,082	Primarily due to citywide compensation adjustments
Conservation Trust	One-Time Expenditures	\$ (101,450)	Removal of 2022 funding for PROS 811 Utility Location expenses as well as trail snow removal equipment
Debt Service (SID)	Other Adjustments	\$ (106,721)	For 2023, budget assumes there are no active Special Improvement Districts
Designated Revenues	One-Time Expenditures	\$ (110,000)	Removal funding for contracted vault toilet cleaning services throughout city parks
	Other Adjustments	\$ 451,273	Primarily due to Court Technology Fee and Competency Initiative Extension through 2023
	Personal Services Adjustments	\$ 101,513	Primarily due to citywide compensation adjustments
Development Review	2022 Spring Supplemental	\$ 268,320	Primarily due to ERP overhead and additional Business Solution Architect for Accela software system support
	One-Time Expenditures	\$ (129,700)	Primarily due to removal of 2022 funding for interdepartmental growth and forecasting modeling tool in Planning
	Other Adjustments	\$ 389,211	This is primarily due to the increase in General Fund overhead allocation to the fund. It is also due to increases in fleet charges
	Personal Services Adjustments	\$ 690,119	Primarily due to citywide compensation adjustments
Enhanced E-911	Other Adjustments	\$ 492,683	Primarily due to IT mandated costs
	Personal Services Adjustments	\$ 957,868	Primarily due to citywide compensation adjustments as well as progression steps in Aurora911
Fleet Management	One-Time Expenditures	\$ (121,000)	Removal of 2022 funding for the replacement of a Fleet utility truck
	Other Adjustments	\$ 2,128,559	Primarily due to mandated cost adjustments for citywide Fleet fuel
	Personal Services Adjustments	\$ 195,520	Primarily due to citywide compensation adjustments
Gifts & Grants	One-Time Expenditures	\$ (7,650,265)	Removal of 2022 funding for city set aside for Affordable Housing Gap Financing, Courtroom and Detention Center upgrades, Disparity Study, and Fire SAFER grants
	Other Adjustments	\$ (5,223,768)	Primarily a reduction of various Housing and Community Services grants, most notably for Treasury Emergency Rental
Golf Course	2022 Spring Supplemental	\$ 512,922	Seasonal golf worker wage increases
	Other Adjustments	\$ 480,096	Mandated costs for Parks, Recreation, & Open Space, primarily increased commodities necessary for turf maintenance
	Personal Services Adjustments	\$ 282,360	Primarily due to citywide compensation adjustments as well as temp, overtime and other cost of living increases
Marijuana Tax Revenue	2022 Spring Supplemental	\$ 151,342	Additional staffing for Homelessness Compliance
	Other Adjustments	\$ 1,712,451	Primarily due to marijuana sales tax revenue transfer to support homelessness and programs directly related to youth violence prevention
Open Space Fund	Personal Services Adjustments	\$ 107,749	Primarily due to changes in salaries and benefits

Attachment 7 - Significant Base Budget Adjustments, Non-General Fund

Attachment 7**Significant Base Budget Adjustments, Non-General Fund**

Fund	Item	Amount	Description
Recreation	Other Adjustments	\$ (156,358)	Associated mandated costs for Parks, Recreation, & Open Space utilities offset with a PROS vacancy savings target
	Personal Services Adjustments	\$ 1,484,093	Primarily due to citywide compensation adjustments, including full-year adjustment for the Southeast Rec Center personnel
Risk Management	Other Adjustments	\$ 1,466,740	Primarily due to adjustments for expected increased insurance premiums and claims paid
Wastewater	One-Time Expenditures	\$ (156,027)	Removal of 2022 funding associated with new budgeted positions as well temporary wage budgets
	Other Adjustments	\$ 1,248,421	Primarily adjustments for debt payments, allocated admin adjustments, and other contractual obligations
	Personal Services Adjustments	\$ 607,613	Primarily due to citywide compensation adjustments
Water	One-Time Expenditures	\$ (222,758)	Removal of 2022 funding associated with new budgeted positions as well temporary wage budgets
	Other Adjustments	\$ 4,945,728	Primarily adjustments for debt payments, allocated admin adjustments, and other contractual obligations
	Personal Services Adjustments	\$ 1,367,275	Primarily due to citywide compensation adjustments

Total Water Fund	147,635,944	178,432,852	105,958,509	158,723,953	212,504,318	196,650,317	256,151,183	215,333,650	1,039,363,421
Total Capital Improvement Program	228,943,143	357,284,629	287,671,867	332,426,601	331,017,090	288,716,774	361,859,637	310,072,183	1,624,092,285

Capital Improvement Program appropriations are considered spent in the year that they are appropriated on a budget basis. However, on an accounting basis any unspent appropriation carries forward to the next year. Typically, when a project is completed or there is a change in scope associated with a project, surplus budget is lapsed to fund balance. A negative figure is generally the result of the application of a budget reduction to a project with unspent prior year appropriation.

City of Aurora, Colorado

**2023 Operating and Capital
Improvement Budget**

STRATEGIC PLAN

Strategic Plan Framework

The Strategic Plan is designed to be the guiding framework for city decision making. This effort, which the city began in 2020 is reaching a new level. The initiative arose from a City Manager-commissioned management committee recommendation. Raftelis was awarded the facilitation role through a competitive process.

The project kicked off in early 2020 with an employee survey. Raftelis interviewed each Council Member as part of the data gathering process. Each city department nominated one staff member to be a Department Champion. The Champions, in collaboration with the PACE Committee (Partnership for Aurora City Employees), developed draft mission and vision statements. Senior Management reviewed the draft statements and, in a facilitated exercise, developed accompanying outcome statements. Staff also conducted a citywide public survey through the city's website in both English and Spanish.

Throughout 2020, Raftelis facilitated several virtual public input forums with the following groups:

- Boards and Commissions Chairs
- Representatives from city stakeholder organizations
- General public engagement
- Aurora Immigrant and Refugee Committee

Based upon the input collected, staff edited the draft framework and developed a set of strategic priorities for each outcome area. The framework was further edited based upon Council's input from the 2021 winter workshop.

During 2022, staff continued to develop the strategic plan framework and started to implement portions of the plan in the 2023 budget development process. The following progress was made:

- Staff further refined the 2021 version of the strategic plan framework by consolidating strategic outcomes that were similar in meaning and referred to common issues. As a result, the number of strategic outcome categories has been reduced from originally eight to five, described in more detail below.
- The city is in the process of hiring a Strategy and Performance Manager to facilitate the plan's final review and adoption by Council and oversee the plan's implementation. Using the city's dashboard platform, the city intends to manage progress against the strategic plan internally and report externally to the public on the city website.
- The strategic plan framework has been introduced to the public at ward meetings and at the Citizens' Advisory Budget Committee meeting.
- City Council assigned rankings to the strategic outcomes and selected their highest strategic priorities for 2023. The highest ranked strategic priority was: Assure the city's long-term financial viability.
- As part of the 2023 budget development process, departments were asked to tie proposed budget amendment requests to strategic outcomes. The summary is shown within each outcome description below. A list of all operating amendments and remarks on which outcomes they

affect can be found in Attachment 8 of the Executive Summary. Strategic outcomes are also noted in each amendment detail in the department pages.

Once adopted, further steps will be taken to implement the strategic plan in 2023. Staff has begun to draft tactics (action steps) to support each strategic priority under the outcomes. Tactics will be monitored via the city's strategic plan management platform and include performance measures to help the city manage its progress in implementing the plan components to achieve the desired strategic outcomes and vision.

In addition, Council and staff will review the Strategic Plan annually, allowing the city to identify and respond to events that could impact the community. This annual review will also allow for the adjustment of priorities.

The 2023 budget includes the current framework for the city's strategic plan as well as several examples of current metrics. In future budgets, the city will report on departments' ability to meet strategic outcomes and how that impacts the city's operations. In addition, the entire operating and capital improvement budget will be evaluated in the light of the strategic plan.

The current framework for the city's strategic plan follows.

VISION STATEMENT

A vision statement articulates a desired future state, what the city believes Aurora will become as a result of the city's efforts under this strategic plan. It is aspirational in nature and worded accordingly. The proposed vision statement embodies the spirit of the Aurora Places community vision in a memorable condensed format.

Aurora will be the safest, most livable city in Colorado, boasting a unique and diverse community identity, vibrant economy, and an inspired future.

MISSION STATEMENT

A mission statement describes, in overarching terms, how the city will achieve the desired vision.

We are Aurora, connecting people and businesses with innovative and efficient services, unique places and experiences, and equitable, affordable access to public resources to enhance our diverse community's quality of life.

VALUES

Values are the set of guiding principles and fundamental beliefs that help us function together as a team and work toward our common vision. While they are not an exhaustive list of possibilities, they are unique to our city government and our experiences as city staff. They are simple to understand and remember. We call them **Core 4 Values**.

They are:

- RESPECT
 - We live RESPECT by valuing the worth of others; practicing empathy; honoring diversity and differences; and practicing the Golden Rule.
- INTEGRITY
 - We live INTEGRITY by telling the truth; being consistent; and doing the right thing when no one is looking.
- PROFESSIONALISM
 - We live PROFESSIONALISM by treating everyone equally; embracing best and safe practices; and collecting data that guides decision-making for accomplishing our goals.
- CUSTOMER SERVICE
 - We live CUSTOMER SERVICE by “going the extra mile”; being responsive, courteous, and fair; and delivering quality, efficient, and cost-effective services.

OUTCOMES AND STRATEGIC PRIORITIES

The five outcomes below represent those areas in which staff believes the city needs to be successful to achieve the stated vision. The strategic priorities listed below each outcome statement are the strategies the city intends to employ to achieve these outcomes. Departments are developing departmental tactical plans that will embody the approaches for implementing the strategic priorities. Aurora is a city of diverse communities and people groups. Staff is considering the unique characteristics, needs, and values of community members as tactical approaches are developed.

Many of the goals and strategies of the Aurora Places comprehensive plan overlap with the strategic priorities and tactical approaches in this Strategic Plan. Where applicable, staff will identify those strategies and tactics within this Strategic Plan that are also components of the Aurora Places comprehensive plan.

Aurora is not an island. The city overlaps three counties and is neighbor to the state capitol city as well as other growing communities. Staff believes that it is important to partner with the state, county, and municipal neighbors where there is a mutually beneficial fit. Partnering will be a component of the city's tactics where appropriate.

Social Determinants of Health

According to the Center for Disease Control (CDC) the social determinants of health are “conditions in the places where people live, learn, work, and play that affect a wide range of health risks and outcomes.” The CDC employs a framework that includes 5 key areas:

- Healthcare Access and Quality 🏥
- Education Access and Quality 📖
- Social and Community Context 🗣️
- Economic Stability 💰
- Neighborhood and Built Environment 🏠

At City Council's request components within the framework that address any of these determinants will be identified by the icons above.

THRIVING

Aurora is a city in which community members, organizations, and businesses live well, grow strong, and succeed. 🚗 🏡 💰 🏠

Strategic Priorities

1. Provide safe, dependable, and sustainable infrastructure.
2. Leverage the City's industry strengths, location advantages, and retail base to attract and retain diverse, innovative, multi-size employers that provide quality wages, and stable employment opportunities with career advancement.
3. Develop partnerships with businesses, non-profits, arts and other organizations, community members, and regional partners to facilitate connections and investment in the City and its residents.
4. Take advantage of opportunities and existing assets to further define Aurora's sense of unique and diverse place-making.
5. Collaborate with developers, businesses, non-profits, public health organizations, other governmental agencies, and the faith community to address affordable housing needs and the needs of the unhoused.

Percentage of Proposed Amendments

The 2023 budget includes proposed amendments in all funds totaling \$26,800 ongoing and \$54,000 one-time to advance the strategic plan outcome Thriving, including a total of 2.0 FTE. Highlights include one-time funds for library programming and associated marketing and the addition of 1.0 FTE Water Conservation Manager.

A sample of Performance Measures currently utilized to measure success in this outcome include:

Department	Indicator	2020 Actual	2021 Actual	2022 Original	2022 Projection	2023 Adopted
Planning and Development Services						
	98% of all disbursements and client questions resolved within agreed upon time frame	100%	100%	98%	99%	98%
	Bucket List: 98% of "bucket list" building permit applications will be checked for compliance with the zoning code in 7 days or less	99%	86%	98%	93%	98%
Housing and Community Services						
	Creation of new affordable rent and homeownership housing units in the city through community investment.	164	349	917	350	500

HEALTHY & SAFE

Aurora is a safe and healthy city with an eye toward preserving open spaces and other resources to promote community well-being. 🚒 🚓 🏠

Strategic Priorities

1. Maintain and improve the city's infrastructure (including water, sewer, and storm services) with efficiency and innovation in accordance with all regulations and best practices to support public health and safety.
2. Identify innovative and community-based approaches to enhance public safety and to create a welcoming city.
3. Create and maintain a safe, clean, and pleasant environment.
4. Understand and address our diverse community's safety needs and preferences.
5. Develop, maintain, support, and promote community physical and mental wellness initiatives.

Percentage of Proposed Amendments

\$10.0 million
of \$23.3 million

The 2023 budget includes proposed amendments of \$8.5 million ongoing and \$1.5 million one-time to advance the strategic plan outcome Healthy and Safe, including a total of 36.5 FTE. Highlights include additional Fire and Police FTE, the implementation of the camping ordinance, Axon technology and equipment, the Aurora Mobile Response Team expansion, and added security in parks.

A sample of Performance Measures currently utilized to measure success in this outcome include:

Department	Indicator	2020 Actual	2021 Actual	2022 Original	2022 Projection	2023 Adopted
Aurora Fire Rescue						
	90th percentile response times for first due truck company to structure fires is under 9 minutes 20 seconds	9:33	8:53	< 9:20	9:20	< 9:20
Police						
	SWAT active control of scene within two hours of request 100% of the time	75%	88%	100%	83%	100%
Aurora Water						
	Maintain a minimum of 50,500 acre-feet of available water in our storage reservoirs at all times	118,824 AF	96,901 AF	107,630 AF	76,919 AF	75,000 AF
Housing and Community Services						
	Aurora Mobile Response Team: Individuals contacted through emergency behavioral health calls for service	0	148	N/A	350	700

PLANNED & MAINTAINED

Aurora is a city that develops, integrates, maintains, and upgrades infrastructure, facilities, systems, and processes to support a strong economy, community wellness, and an effective and efficient city government. 🏢

Strategic Priorities

1. Build, maintain, and upgrade city infrastructure.
2. Re-envision the use of data, technology, resources, land, and partnerships to deliver the best outcomes for the city.
3. Use sustainable practices when developing, maintaining, and upgrading city infrastructure.
4. Proactively pursue continuous process improvement.

Percentage of Proposed Amendments

\$9.6 million
of \$23.3 million

The 2023 budget includes proposed amendments of \$7.2 million ongoing and \$2.4 million one-time to advance the strategic plan outcome Planned and Maintained, including a total of 21.0 FTE. Highlights include the activation and funding of 8.0 FTE across various departments in the Development Review Fund and the Lead Replacement Program in Aurora Water.

A sample of Performance Measures currently utilized to measure success in this outcome include:

Department	Indicator	2020 Actual	2021 Actual	2022 Original	2022 Projection	2023 Adopted
Public Works						
	Complete 80% of scheduled preventative maintenance services on all equipment within the designated period	50%	65%	80%	70%	80%
Aurora Water						
	Achieve a level of service for the turn-around time for preventative maintenance service for small equipment which is 3 days or less	2.8 days	2.9 days	≤3 days	1.5 days	≤3 days
Public Works						
	Complete review of building plans within established timeframes 90% of the time	99%	99%	90%	99%	90%

RESILIENT

Aurora proactively seeks to minimize the impact of disasters, major disruptions, environmental changes, and other unforeseen and unpredictable stressors and shocks on the organization and community through responsible economic, human, financial, natural, and man-made resource management. \$ 🌱 🏠

Strategic Priorities

1. Assure the city's long-term financial viability.
2. Foster organizational resilience through programs with the capacity to respond rapidly to disruption.
3. Foster community resilience through focused programs that build and maintain mutual support capacity, trust, and relationships among neighbors.
4. Sustain natural environmental resiliency.

Percentage of Proposed Amendments

\$403,400
of \$23.3 million

The 2023 budget includes proposed amendments of \$403,400 ongoing to advance the strategic plan outcome Resilient, including 1.0 FTE. Highlights include the addition of 1.0 FTE Senior Security Analyst in the 911 Cybersecurity Program.

A sample of Performance Measures currently utilized to measure success in this outcome include:

Department	Indicator	2020 Actual	2021 Actual	2022 Original	2022 Projection	2023 Adopted
Finance						
	Maintain appropriate reserve levels - Tabor, Policy, Operating	Yes	Yes	Yes	Yes	Yes
Aurora Fire Rescue						
	OEM personnel will participate in 90% (a minimum of 400 hours) of all local and regional exercises	20%	90%	90%	90%	90%

DIVERSE

Aurora celebrates and embraces its diversity in interests, backgrounds, cultures, stages of life, and perspectives. Equitable community access to all city services is a hallmark of our city's character. 🏠 🌱 \$

Strategic Priorities

1. Connect a diverse workforce with employment opportunities within the city government and the community to enhance a strong economy.
2. Increase participation from and engagement by all members of our diverse communities in city matters.
3. Engage the community in celebrating our diversity.
4. Identify and provide additional amenities to attract and retain a diverse population (age, race, ethnicity, background, and interest).
5. Establish a city organizational ethos that values and reflects the benefits of diversity, equity, and inclusion.
6. Provide equitable access to city services.

Percentage of Proposed Amendments

\$224,800
of \$23.3 million

The 2023 budget includes proposed amendments of \$200,800 ongoing and \$24,000 one-time to advance the strategic plan outcome Diverse, including a total of 1.0 FTE. Highlights include the addition of 1.0 FTE Website and Digital Accessibility Coordinator and the conversion of an oil and gas position to an ADA Project Manager.

A sample of Performance Measures currently utilized to measure success in this outcome include:

Department	Indicator	2020 Actual	2021 Actual	2022 Original	2022 Projection	2023 Adopted
Office of Diversity, Equity and Inclusion						
	Conduct 6 diversity trainings for City of Aurora Staff	6	6	6	6	6
	Plan/facilitate 2 Responding to Aurora's Critical Topics (ReACT) events that open dialogue about community concerns	2	0	2	2	2
Communications						
	Number of engaged users (comments, likes, shares, clicks) per city Facebook post	373	50	100	59	50
Police						
	Under-represented minority applications for employment will be at least 54% of the application pool	45%	48%	54%	50%	54%

PROFILE OF AURORA

2023 Profile of Aurora

This section presents information about the City of Aurora, including city organizational charts.

The Aurora-in-Brief section provides general city demographic, economic, and community overview information. Additional charts and graphs are included to provide more information on specific characteristics of the city. In addition, maps displaying city infrastructure are included. Sources for these documents include: the City of Aurora Planning and Development Services, Information Technology, Public Works, and Finance Departments, the US Census Bureau's 2021 American Community Survey (One-Year Estimates), Aurora Public Schools, and Cherry Creek School District.

The organizational charts depict the overall structure of the city and the four leadership groupings of city departments and offices. The organizational chart information is depicted using the following categories:

- City of Aurora;
- City Manager's Office;
- Deputy City Manager Venegas;
- Deputy City Manager Perry; and
- Deputy City Manager Batchelor.

Aurora in Brief

The City of Aurora covers 163.2 square miles, establishes the eastern border of the metro-Denver area, and includes portions of Adams, Arapahoe, and Douglas Counties. The City has 100.2 square miles of developed land and 63.0 square miles of undeveloped land; it is a

city with room to grow. Aurora has a semi-arid, four-season climate with mild average temperatures and more than 243 days of sunshine a year.

DEMOGRAPHICS

Population: 398,018 (2022 est.)
Up 18,584 (4.9%) from 2020 ACS 5-year estimate

GENERAL FUND REVENUES

2023 General Fund Revenue Overview

The City of Aurora General Fund revenue estimates for the 2023 budget process were developed by the Business Research Division (BRD) of the Leeds School of Business at the University of Colorado Boulder in collaboration with the Office of Budget and Financial Planning (OBFP). Econometrically-derived forecasts of tax collections calculated by the BRD are used for the five-year horizon ending in 2027 for sales, automobile use, building use, other use, and property taxes which together constitute 81 percent of the total General Fund revenues. The remaining sources of revenue are forecasted by the OBFP. The OBFP projects revenues for the budget using a combination of historical trends, current knowledge, and an assessment of expected trends and events that will affect future revenues. To ensure that all known and anticipated factors are considered, the underlying assumptions are assessed by both internal and external specialists during the budget process.

The essential inputs for the BRD forecasting model are the historical data on key economic indicators at the national, state, and local levels. These data are sourced from U.S. government agencies, Moody's Analytics, Colorado government agencies, and City of Aurora departments. In many ways, the City of Aurora's economy functions like the economy of the Denver Metro region, the state of Colorado, and the nation—the city is not decoupled from macroeconomic expansions and recessions. However, the factors driving the pace of growth locally can differ from the regional and national economy which led to a deeper examination of the local economy and demographics. This is evidenced by the positive 5.3 percent increase in City of Aurora sales tax revenues in 2020, a period in which most municipalities experienced sharp declines in economic activity and revenues. It is believed that the pandemic resulted in more Aurora residents staying and shopping in the city, which benefited sales tax collections.

Some key differences between Aurora and other taxing districts include:

- Different tax bases reflecting differences in exempted expenditure categories
- Differences in the age composition of the populations and their expected growth rates
- A large and changing volume of daily in-migration or out-migration of workers
- Differences in relative incomes between Aurora and regional households
- The pace of new construction within the city
- Industry and employment growth locally versus regionally and nationally
- Local tourism base
- Mix of primary and secondary employers

Forecasts of national indicators that are needed to derive the state and local forecasts are from Moody's Analytics. BRD chose to model three forecasts including an optimistic, baseline, and pessimistic scenario. The Moody's S2 scenario was used to develop the baseline revenue scenario. Under this scenario, U.S. real gross domestic product (GDP) is projected to grow by 2.3 percent in 2022 and 1.4 percent in 2023. Although this baseline scenario was originally labeled a downside scenario when it was created, Leeds staff believed it was the most appropriate set of assumptions

given rising economic concerns, including high inflation, when the model was created in March and April 2022. An optimistic scenario and a pessimistic scenario were also created. In the baseline forecast there are roughly equal chances of the economy over-performing and under-performing the scenario. Despite increasing concerns about the United States' economy, total revenues from the five revenue sources are expected to increase by 7.1 percent in 2022 in the baseline scenario. Based on strong year-to-date revenue receipts and inflation-driven growth in certain revenue sources, none of the scenarios projected revenues to decline in 2022. However, under the pessimistic scenario, revenues in 2023 would decline by 1.9 percent. Under the baseline scenario, the five revenue streams will grow by 3.5 percent compared to projected 2022 revenue. These different forecasts provide sensitivity analysis around relatively favorable and unfavorable economic conditions.

The economy has strongly rebounded from the COVID-induced recession. Real GDP reached new peak levels in 2021 and employment is projected to rebound to record levels in 2022. Consumer demand remained extraordinarily strong in 2021 and early 2022. A combination of strong consumer demand and supply shortages caused the United States to record the highest level of inflation in nearly four decades. Over recent months, the Federal Reserve has been aggressively raising interest rates in an attempt to slow inflation. Most economists are now lowering their projections for economic growth in 2022, with a growing concern that a recession in the near term is increasingly possible. Given these concerns, city management decided to use an adjusted version of the BRD baseline forecast. Adjustments were made to reflect the most current revenue data, reflect two Aurora-specific circumstances, and use a slightly moderated level of growth for most revenue sources that was ten percent lower than the baseline scenario.

The first Aurora-specific modification is increasing the sales tax projection over the BRD baseline scenario starting in 2023 to reflect the expiration of the Cornerstar Urban Renewal Area (URA). This modification will increase sales tax collections by over \$1.3 million annually in 2024 (and will increase sales tax collections by roughly a quarter of this amount in 2023 since the URA expires in late 2023). In the second modification, all scenarios were adjusted to reflect the reality of the Taxpayer's Bill of Rights (TABOR), a provision in the Colorado Constitution that limits revenues that state and local governments may retain and expend. Rather than showing projected property tax revenues generated under the city's historical mill levy, the modification shows the lesser of projected revenues and the property tax collections that Aurora is allowed to keep under TABOR. Due to high levels of inflation in 2022, the revenue forecast assumes the TABOR revenue limit will grow by 9.0 percent in 2023. As a result, it is projected that the \$49.7 million in property tax collections in 2023 will be \$565,400 under the projected TABOR limit. In the baseline scenario, property tax revenue will again exceed the TABOR limit in 2024 (after properties values are re-assessed) before falling below the TABOR limit again in 2025. In the optimistic scenario, property tax revenues remain above the TABOR limit in every single year in the five-year forecast. Conversely, in the pessimistic scenario, property tax revenue dips below the TABOR revenue limit starting in 2023 and remains there through the end of the forecast period in 2027. All scenarios in this revenue overview have been adjusted and use the calculated TABOR limit as the effective revenue estimate if projected revenue is above the limit.

National GDP decreased by a total of 3.4 percent in 2020, the first full-year decline since 2009 and the largest annual decline since 1946. However, in a strong economic recovery, GDP reached new peak levels in 2021. The BRD pessimistic forecast assumes that GDP will increase by 0.9 percent in 2022 before decreasing by 0.4 percent in 2023. The mild recession inherent in this scenario will

see retail trade in 2023 fall by 1.1 percent and employment will drop by 1.6 percent. Under this scenario, the total of all five revenue streams projected by Leeds would decline by 1.9 percent in 2023 before growing by 6.5 percent in 2024.

In the baseline scenario, the GDP in the United States grows by 2.3 percent and slows to 1.4 percent in 2023. After this point, GDP is projected to grow between 2.4 percent to 3.0 percent per year through 2027. Under the baseline scenario, employment is projected to rebound to new record levels in 2022 and will continue to grow each year through 2027.

Table 1 displays growth rates for the total of the five top revenue sources for the BRD optimistic, BRD pessimistic, and OBFP adjusted baseline projections. The table also contains the growth rates published in the 2022 Original Budget as a final point of comparison. For 2022 through 2027, the adjusted baseline forecast has been chosen as the basis for the 2023 budget. The table also shows increased revenue in each year, calculated as the difference between the adjusted baseline revenue forecast and the Adopted 2022 Budget Book.

Table 1: Forecast Scenarios: Comparison of Year-Over-Year Growth Rates

Dollar Values in Millions

Percent Change from Prior Year	2021	2022	2023	2024	2025	2026	2027
2022 Budget Book	13.3%	(4.9%)	4.5%	4.7%	4.7%	4.7%	4.7%
Adjusted Baseline	13.3%	6.9%	4.4%	6.8%	4.2%	4.3%	4.1%
Pessimistic	13.3%	5.5%	(1.1%)	6.5%	6.4%	7.1%	4.7%
Optimistic	13.3%	8.8%	6.9%	4.6%	3.8%	4.1%	4.0%
New Revenue Compared to 2022 Budget	\$0.0	\$36.7	\$34.8	\$40.5	\$39.2	\$38.1	\$35.9

Note: 2021 growth rates represent actual growth in revenues between 2021 and 2020.

In the 2022 budget, it was assumed that the top five revenue sources would increase by 5.4 percent in 2021. With a stronger-than-projected economic recovery, these five revenue sources actually grew by 13.3 percent in 2021. Given this strong growth, revenues in 2022 would actually have to decline by 4.9 percent to meet the 2022 budget plan. As of June 2022, year-to-date revenues for sales tax, other use tax, auto use tax, and property tax are all up double-digit percentages. This revenue growth reflects strong consumer demand as well as inflation-driven growth. As such, it is not realistic to predict negative growth for these revenue streams in 2022. Instead, the last three scenarios project growth in the current year ranging from 5.5 percent in the pessimistic scenario to 8.8 percent in the optimistic scenario. Growth slows down in 2023 under all of the scenarios. In the pessimistic scenario, the country experiences a mild recession and revenues decline by 1.1 percent in 2023. The difference between the adjusted baseline scenario used in the 2023 budget and the assumptions contained in the Adopted 2022 Budget is shown in the “New Revenue Compared to 2022 Budget” line at the bottom of Table 1. Essentially this last line shows that the revenue projections contained in the 2022 budget did not foresee either the full strength of the economic recovery from the COVID-19 pandemic or how inflation would drive certain revenues streams to experience strong growth. It is not surprising that expectations for these revenue streams would need to be reset accordingly.

Figure 1 displays the growth rates graphically which helps to highlight some important observations. One observation relates to how significantly the 2022 revenue forecast has changed in one year. Given the higher-than-expected economic growth experienced over the last year

(resulting in higher than anticipated General Fund revenues in 2021), we now have higher base revenues to grow upon in 2022. In this regard, 2022 collections would have to decline by 4.9 percent to arrive at the original revenue forecast in the 2022 Budget. With strong year-to-date revenues in early 2022, all of the current scenarios now show revenues growing in 2022. Interestingly, all three of the new scenarios have similar levels of growth for 2024 and beyond, ranging from 3.8 percent to 7.1 percent.

Figure 1: Percent Change to Prior Year

In Figure 1, revenues under the pessimistic scenario decline slightly in 2023 as the country enters a mild recession. However, growth rates for the pessimistic scenario in 2024 and beyond are a bit higher, such that annual collections under the pessimistic scenario are roughly the same as in the adjusted baseline forecast in both 2026 and 2027. For 2025 and beyond, the 2022 budget, the adjusted baseline forecast, and the optimistic forecast all have very similar annual growth rates ranging from 3.9 percent to 4.6 percent.

Current Economic Conditions

National gross domestic product (GDP) grew by an impressive 5.7 percent in 2021. This strong economic recovery also saw growth in employment, income, and consumption. Consumer demand remained extraordinarily strong in 2021 and into early 2022, which was a significant contributor to inflation. In 2022, the U.S. recorded the highest inflation in nearly four decades. As the country grapples with inflation, economists have been lowering their projections of growth looking forward. Under the adjusted baseline scenario, GDP growth is projected to slow to 2.3 percent in 2022 and 1.4 percent in 2023. From 2024 through 2027, GDP growth projections average 2.7 percent. Increasing consumption and growth in prices helps to drive nominal growth in sales, use, and property tax collections in 2022 and 2023 even when overall economic growth is slowing.

Total General Fund revenues are now projected to grow by 6.1 percent in 2022 and 2.7 percent in 2023. Sales tax revenue is the primary driver behind the revenue performance as this source represents about 57 percent of total General Fund revenues. Under the adjusted baseline scenario, the City of Aurora will see sales tax revenue increase by 7.2 percent in 2022 and 3.0 percent in

2023. This forecast reflects slowing economic growth. For example, under the baseline scenario, 2022 personal income growth is projected to slow to 2.5 percent in Colorado. In 2022, job growth in Colorado is also projected to slow to 0.3 percent. The slowing economic growth, in combination with high inflation, will cause retail trade in Colorado to increase by only 1.1 percent in 2022 and 3.3 percent in 2023. The economy is projected to improve in 2024 and beyond, with sales tax revenue projections growing by 3.9 percent to 5.6 percent per year from 2024 to 2027.

There may be more downside risk than potential upside to the baseline forecast. By April 2022, inflation in the United States reached 8.3 percent. The Federal Reserve is expected to enact a series of interest rate increases in an attempt to bring inflation under control. While interest rate hikes should reduce consumer demand, these increases also have the potential to cause an economic recession. A shortage of workers, supply chain disruptions, COVID-19 variants, and war in the Ukraine all have the potential to impact the supply of goods and services, create additional inflationary pressures, and diminish economic growth. That stated, consumer demand remains relatively strong and unemployment in the United States, Colorado, and Metro Denver continues to decline. Some sectors, like travel and tourism, continue to show strong growth in early 2022 compared to the same period in 2021. Other service industries, including restaurants, bars, and movie theaters, are also recovering strongly in 2022. Looking ahead to the third quarter of 2022, business leaders have turned sharply negative in their outlook, citing concerns about inflation, interest rates, and supply chain issues as primary concerns. Consumer confidence was strong, actually showing modest gains in the YTD index score through May 2022. However, a close look at the monthly numbers shows that confidence has started to cool over recent months, likely reflecting rising interest rates and a softening of anticipated spending for big ticket items like cars, homes, and major appliances. Coming out of the first two years of the COVID-19 pandemic, there still appears to be growing consumer demand, even if that growth is starting to slow. As such, if inflation and supply-side challenges can be quickly brought under control, there is the potential to exceed economic expectations.

The following discussion provides an overview of General Fund revenue, including an updated 2022 projection and the revenue estimate for the 2023 budget. The 2023 revenue estimate is based on the adjusted baseline scenario and is not adjusted by any amendments (there are no changes to General Fund revenue related to amendments in 2023). See Revenue Attachment A for June year-to-date actuals and the 2022 full-year projected gains and shortfalls by revenue source. A complete list of General Fund actuals and projected revenue from 2019 through 2027 can be found in Revenue Attachment B.

2022 Full-Year Projection Update

Although there is a growing concern about inflation and a possible recession, in the first half of 2022 the economy saw low unemployment and growth in consumer demand. Some revenue streams, such as sales and use tax collections, have also seen increases related to rising prices. Total General Fund sources through the first half of 2022 have increased \$28.0 million (13.0 percent) over 2021. Year-to-date (YTD) sales tax revenue has grown by \$12.6 million (10.7 percent), accounting for 45.2 percent of the growth in total General Fund sources. The second biggest source of variance is in property tax collections, although this amount is misleading. YTD property tax revenue is \$7.3 million higher than in 2021, although current year revenues include \$3.2 million in deferred 2021 tax revenues. Property tax revenues last year did not contain any deferred revenues. This \$3.2 million reflects property tax revenues in 2020 and 2021 which were

General Fund Revenue Overview

collected above the Taxpayer's Bill of Rights (TABOR) revenue limit and will be rebated to property taxpayers in 2022 through a temporary mill levy reduction.

One of the first steps in the budget process is to prepare an updated projection for current year revenues. This new projection updates the revenues that were included in the 2022 Original Budget. Over the first six months of 2022, a little over half of the city's General Fund revenue sources have over-performed the original expectation. Total General Fund sources are \$29.2 million (13.6 percent) over the 2022 Original Budget through the end of June. More than 75 percent of this positive variance is driven by strong YTD sales and use tax collections. The only other substantial variance from the budget plan is audit revenue, which is \$6.2 million (252.4 percent) above the 2022 budget plan. Of the \$8.6 million in YTD audit recoveries, \$6.2 million relates specifically to three large, multi-year audits that were completed in the first half of 2022.

Construction activity does not appear to have been affected by the pandemic. Capital-related use tax collections grew by 13.8 percent in 2020 and by another 22.4 percent in 2021. Because capital use taxes are volatile and periods of strong growth are usually followed by corrections, the 2022 Original Budget assumed a decline in capital-related use tax collections in 2022 that has not yet materialized. Year-to-date collections in 2022 are actually up 4.5 percent. As a result, capital-related use taxes through the first six months of 2022 are \$3.3 million (22.4 percent) above the budget plan. Per city ordinance, capital-related use tax revenue is transferred to the Capital Projects Fund and is therefore not available for General Fund operations. After accounting for the capital transfer, General Fund operating revenues are \$25.2 million (13.0 percent) above the 2022 budget on a year-to-date basis.

Table 2 shows the year-to-date 2022 actuals and how they compare to 2021 actuals and the 2022 budget through June.

**Table 2. Year-to-Date Variance to 2021 and Original Budget
Through June 2022**

Revenue Source	Year-to-Date 2022 Actuals	Higher/(Lower) than YTD 2021	% Change to 2021	Higher/(Lower) than YTD Budget	% Change to Budget
General Sales Tax	\$ 131,085,679	\$ 12,632,133	10.7%	\$ 16,544,190	14.4%
Property Tax	37,183,437	7,344,711	24.6%	0	0.0%

Capital Transfer Out	25,276,220	1,772,262	7.5%	4,058,658	19.1%
General Fund Operating Revenue	\$ 218,169,110	\$ 26,204,805	13.7%	\$ 25,164,050	13.0%

General Fund Revenue Overview

Based on recent revenue collections, current economic conditions, and future expectations, the revised full-year projection for 2022 is \$23.5 million (5.4 percent) higher than 2021, which equates to a \$42.8 million (10.2 percent) increase compared to the 2022 Original Budget. Table 3 shows how the updated 2022 projections compare to 2021 revenue collections and the figures included in the 2022 Original Budget.

**Table 3. 2022 Full-Year Projection Variance to
2021 and 2022 Original Budget**

Revenue Source	Full-Year Projection	Higher/(Lower) than 2021	% Change to 2021	Higher/(Lower) than Budget	% Change to Budget
General Sales Tax	\$ 263,229,402	\$ 17,627,138	7.2%	\$ 29,067,349	12.4%
Property Tax	46,161,109	5,273,928	12.9%	341,048	0.7%
Capital Related Use Tax	33,502,888	(2,141,727)	(6.0%)	4,406,509	15.1%
Automobile Use Tax	27,120,445	(1,215,617)	(4.3%)	2,920,576	12.1%
Franchise Fees	17,381,079	1,726,186	11.0%	2,233,270	14.7%
Highway Users	11,837,703	(298,442)	(2.5%)	(463,349)	(3.8%)
External Charges	6,057,047	50,549	0.8%	(1,112,485)	(15.5%)
Audit Revenue	10,453,436	270,374	2.7%	5,545,809	113.0%
Lodgers Tax	7,982,459	1,191,722	17.5%	(16,300)	(0.2%)
All Other Sources	36,794,396	1,020,208	2.9%	(163,408)	(0.4%)
Total General Fund Sources	\$ 460,519,964	\$ 23,504,319	5.4%	\$ 42,759,019	10.2%
Capital Transfer Out	47,519,402	(902,699)	(1.9%)	5,613,716	13.4%
General Fund Operating Revenue	\$ 413,000,562	\$ 24,407,018	6.3%	\$ 37,145,303	9.9%

2023 Revenue Estimate

General Fund sources are estimated to grow at a rate of 2.8 percent, or \$13.0 million in 2023 compared to the 2022 projection. Collections from sales tax and property tax are projected to experience the largest increases at \$7.9 and \$3.6 million respectively. A \$5.5 million decline in audit recoveries is projected to partially offset some of these gains. Table 4 below depicts both projected revenues in both 2022 and 2023, including the major changes in sales tax, property tax, and audit recoveries.

Table 4. Sources of Funds

Sources of Funds	2021 Actual	2022 Projection	2023 Adopted	2021-2022 Change	2022-2023 Change
General Sales Tax	\$ 245,602,264	\$ 263,229,402	\$ 271,173,019	7.2%	3.0%
Property Tax	40,887,181	46,161,109	49,745,107	12.9%	7.8%
Capital-Related Use Tax	35,644,615	33,502,888	34,920,187	(6.0%)	4.2%
Auto Use Tax	28,336,062	27,120,445	27,120,445	(4.3%)	0.0%
Franchise Fees/Taxes	15,654,893	17,381,079	16,251,309	11.0%	(6.5%)
Highway Users Fees/Taxes	12,136,145	11,837,703	12,890,630	(2.5%)	8.9%
Audit Recoveries	10,183,062	10,453,436	4,995,964	2.7%	(52.2%)
All Other Operating Revenue	45,736,874	50,833,902	55,887,685	11.1%	9.9%
General Fund Revenue	\$ 434,181,095	\$ 460,519,964	\$ 472,984,346	6.1%	2.7%
Transfers In from Other Funds	2,834,550	-	584,916	(100.0%)	0.0%
Total General Fund Sources (including transfers in)	\$ 437,015,645	\$ 460,519,964	\$ 473,569,262	5.4%	2.8%
Transfer Out of Capital-Related Revenue	48,422,101	47,519,402	49,262,540	(1.9%)	3.7%
General Fund Operating Revenue (excludes capital transfer)	\$ 388,593,544	\$ 413,000,562	\$ 424,306,722	6.3%	2.7%

Details behind the specific revenue projections for the first six revenue streams in Table 4 can be found in the Key Funding Sources section in the General Fund Revenue Overview. The projected decline in audit recoveries in 2023 reflects that 2022 revenues benefited from three large, multi-year audits of major retailers. Since large audit recoveries are one-time in nature, it is unlikely that the current level of recoveries will repeat moving forward.

Projected growth in 2023 of “All Other Operating Revenue” shown in Table 4 includes the following increases:

- **Internal Charges for Services.** Internal charges for services are service fees charged to sources that are within or “internal” to the City of Aurora. Most of this revenue stream consists of overhead charges that allow city funds to pay their fair share of overhead expenses. Under an updated overhead allocation calculation that now includes Information Technology (IT) expenses, revenue from internal charges for services is projected to increase by \$1.4 million in 2023.
- **Miscellaneous Revenues.** Traditionally, miscellaneous revenues have been just that, miscellaneous. Starting in 2021, the collection of oil and gas royalties were included in this revenue stream, adding \$267,000 earned by leasing out city-owned minerals. Royalties are projected to increase to \$1.6 million in 2022 and \$3.0 million in 2023. Under the current leases, mineral production, and hence royalties, will start to taper off in 2025.
- **Interest.** Given rapidly rising interest rates, interest income earned on the balance in the city’s General Fund is projected to increase in 2023 by \$860,900 (38.5 percent) compared

to 2022.

There are no amendments in the 2023 budget which will result in increased General Fund revenue.

Key Fund Sources

Six key revenue sources comprise 87.1 percent of the General Fund sources. The following discussion focuses on these six revenue sources: sales tax, property tax, capital-related use tax, auto use tax, franchise fees and taxes, and Highway Users Tax Fund disbursements.

Sales Tax: A general sales tax of 3.75 percent is levied on all retail sales, certain services, and rentals of tangible property. A few items, such as food, fuel, drugs, and cigarettes, are excluded from sales tax.

Sales tax is the largest source of operating revenue for the city, accounting for 57 percent of total collections into the General Fund. In 2020, the United States entered a short and very steep recession as a result of the COVID-19 pandemic. Amid a partial shutdown on the economy, U.S. GDP shrunk by an annualized rate of 29.9 percent in the second quarter of the year. Aurora's sales tax collections were not hit quite so hard, but in May 2020 sales tax collections declined by 12.6 percent compared to May 2019. The resultant economic recovery was also swift. In the third quarter of 2020, GDP increased by 35.3 percent. As can be seen on Figure 2 below, monthly sales tax collections in the second half of 2020 generally showed growth over 2019. When 2020 had ended, sales tax collections for the year had grown by 5.3 percent. One factor driving growth in late 2020 and early 2021 was the passage of the Marketplace Facilitator Ordinance.

Even without the additional revenue from the ordinance, sales tax collections in 2021 benefited from a stronger-than-expected economic recovery that continued throughout the year. Consumer demand remained strong, driven by rising personal income and recovery of some of the jobs lost during the pandemic-induced recession in 2020. As shown in Figure 2, starting in March 2021, revenues grew by double-digit percentages each month through February 2022. Moving further into 2022, it appears that economic growth is starting to slow. GDP declined by an annualized rate of 1.6 percent in the first quarter of 2022. Despite slowing economic growth, higher prices for goods and services were the predominant reason that sales tax collections continue to grow. Inflation in the United States in June reached 9.1 percent, the highest level in forty years. Sales tax revenues through June 2022 were 10.7 percent, or \$12.6 million, higher than 2021 year-to-date collections.

Figure 2. Sales Tax Percent Change from Prior Year by Month

Under the adjusted baseline revenue scenario, growth in sales tax collections will continue to moderate from the high growth experienced in 2021. By the end of 2022, it is projected that real Gross Domestic Product (GDP) will have increased by a modest 2.3 percent. The jobs market will remain strong, growing the number of jobs in the United States by 1.6 percent. Table 3 shows that the updated projection for the full year of sales tax collections in 2022 will beat the original budget expectations by \$29.1 million (12.4 percent). Under this projection, year-end sales tax growth in 2022 will be 7.2 percent.

Moving into 2023, the adjusted baseline scenario predicts a slowing 3.0 percent rate of growth in sales tax collections. This projection reflects a slow growth economy, with real GDP in the United States projected to increase by 1.4 percent in 2023. The labor market will also experience moderate growth, with the number of jobs in the United States increasing by 1.2 percent in 2023. Under these conditions, retail sales are projected to grow by 2.9 percent in 2023. The vast majority of the increase in retail sales is projected to come from price increases, as inflation in 2023 is projected at 2.7 percent (down from a projected rate of 8.0 percent in 2022).

Growth in sales tax collections picks up after 2023, with growth ranging from 3.9 percent to 5.6 percent in each of the last four years of the forecast horizon. This reflects stronger GDP growth in the United States starting in 2024, a jobs market that continues to add new jobs each year of the forecast, and continued growth in personal income. All of these factors lead to sustained growth in retail trade in Colorado, projected at 5.2 percent in 2024 and then projected to level off around 3.5 percent for each of the next three years.

Property Tax: Property tax is applied to all real and business-related personal property within the city. Applying the mill levy to the assess valuation determine the amount of taxes collected. For most recent years, the general mill levy has been set at 8.605 mills.

Property tax collections make up 11 percent of total General Fund sources and are based on the assessed valuation of property within the city, re-valued by the county assessor every odd-numbered year. Revenue generated in any year is the result of certified valuations by each county, finalized at the prior year-end. The 2021 reassessment impacts property tax revenues received in 2022. Given the every-other-year re-assessment cycle, property tax revenues have increased significantly in even-numbered years (after the re-assessments done in the odd-numbered years). Total property tax revenue grew by 20.0 percent in 2016, 16.8 percent in 2018, and 20.4 percent in 2020. Based on 2021 certified assessment reports from Arapahoe, Adams, and Douglas counties, the assessed value of property in Aurora was \$6.0 billion. This amount represents a 13.1 percent increase from the \$5.3 billion assessed valuation in 2019.

Figure 3. Case-Shiller Home Price Index

Source: S&P Indices

The 2021 property re-assessment includes both changes in property valuation and inventory. According to the Case-Shiller Home Price Index shown in Figure 3, property values increased by 3.7 percent in 2019, the smallest level of growth since 2011. Since 2019, housing prices have grown strongly. Housing prices grew by 9.2 percent in 2020 and grew by 20.3 percent in 2021. The 20.3 percent growth rate in 2021 was easily the highest growth rate in at least a dozen years. Growth in housing prices has not slowed in the first half of 2022, when housing prices increased by 13.3 percent between the start of the year and the end of June. As can be seen in Figure 3, housing prices are increasing rapidly nationwide, although Denver's rapid growth in home prices has outpaced that of other cities since the start of 2021.

The BRD projection for property tax collections assumes the historical mill levy of 8.605 mills will be applied in each year of the forecast. However, given strong growth in property tax

collections over recent years, the city has exceeded the revenue limitation contained in the Taxpayers Bill of Rights (TABOR) in both 2020 and 2021. In order to have property tax revenues remain in compliance with TABOR, the city enacted temporary property tax reductions in both 2021 and 2022. Most recently, in 2022, the City of Aurora enacted a temporary property tax reduction which reduced the mill levy from its historical rate of 8.605 mills down to a one-time rate of 8.073 mills. Given strong growth in property assessments, Aurora may exceed the \$46.2 million TABOR limit in 2022 even with the temporary property reduction having been implemented. After adjusting for the temporary mill levy reduction, the Leeds baseline property tax projection is that Aurora will collect \$67,800 more in property tax revenues in 2022 than it is allowed to keep under the TABOR revenue limitation. Moving forward, the city will continue to use a temporary property tax reduction to manage property tax revenues and remain in compliance with TABOR.

As is the general pattern, assessed property values (and hence property tax revenues) typically don't grow much in odd-numbered years given the every-other-year reassessment cycle. Assuming the baseline mill levy of 8.605 mills in 2023, the BRD baseline scenario projects that property tax collections would be \$49.7 million. For 2023, the TABOR revenue limit is projected to grow by 9.0 percent in 2023 to \$50.3 million. Growth in the TABOR limit each year is calculated as the change in housing inventory (as a percentage) plus the prior year's inflation. Given high inflation in 2022, the city's TABOR limit is projected to grow to a level that is higher than what Aurora actually projects it will receive in property tax revenue. As such, for 2023, the revenue forecast uses the lower number (the \$49.7 million in property tax collections projected under BRD baseline scenario). With the 2023 reassessment projected to drive growth in property tax revenues in 2024, the projection then shows projected property tax revenues exceeding the TABOR limitation again in 2024. As such, the revenue forecast uses the \$53.2 million TABOR limitation as the revenue forecast for 2024. Property tax revenues are projected at \$55.4 million in 2025, \$57.9 million in 2026, and \$60.4 million in 2027.

Capital-Related Use Tax: This revenue source consists of both the other use tax and building materials use tax. Both use taxes are levied at 3.75 percent, the same rate as the city's sales tax. Other use tax is applied to equipment and other tangible personal property purchased, leased, or rented upon which no legally imposed Aurora sales tax was paid at the time of purchase. Building materials use tax is applied to the value of all materials, fixtures and supplies used in the construction of a building or improvement to a property within the city. Use taxes are complimentary to sales tax, but are paid directly to the city rather than to a vendor collecting on behalf of the city. Most capital-related use tax revenue is transferred to the Capital Projects Fund in accordance with Council policy.

Capital-related use taxes make up 7 percent of total General Fund sources. In 2021, the city collected a record high \$35.6 million in capital-related use taxes. The BRD forecast noted that capital-related use taxes are highly volatile, and years of exceptionally high growth in collections are often followed by corrections. Given this pattern, capital-related use tax collections are projected to drop to \$33.5 million in 2022. The 2022 projection equates to a reduction of \$2.1 million or 6.0 percent compared to 2021 actual revenues.

For 2023, capital-related use tax collections are projected to increase to \$34.9 million. Despite this projected \$1.4 million (4.2 percent) increase, the 2023 figure does not exceed the high point set in 2021. Because revenue is projected in nominal terms (projections are not adjusted for inflation),

one factor helping to drive projected growth in capital-related use taxes is inflation. Specifically, BRD projects that inflation in Colorado will be 4.3 percent in 2023. The BRD projection for capital-related use tax is based on separate projections of revenue generated by the building materials use tax and the other use tax, as will be discussed in the next two paragraphs. Capital-related use tax collections are projected to grow to \$37.0 million in 2024, \$37.9 million in 2025, \$38.9 million in 2026, and \$38.8 million in 2027.

Beyond inflation, two key drivers of building materials use tax revenues are Colorado housing permits and Colorado nonresidential construction. In the Leeds baseline scenario, non-residential construction in Colorado is projected to decline slightly in 2023 before growing at more robust rates starting in 2024. After declining at a projected rate of 1.8 percent in 2023, non-residential construction is projected to grow 11.1 percent in 2024, 5.0 percent in 2025, and 5.6 percent in 2026. The value of residential construction permits is projected to follow a similar path, declining by 1.9 percent in 2023 before growing by 5.5 percent in 2024 and growing by another 4.0 percent in 2025. Building materials use tax revenues generally follow the pattern of construction activity, but with more volatility. Looking forward, BMUT collections are projected to grow by 4.5 percent in 2023, 4.4 percent in 2024, and 2.4 percent in 2025.

Colorado state employment is the primary predictor for other use tax revenues, serving as an indicator for general economic activity in the state and in the city. Colorado employment is projected to grow at a slow 0.3 percent in 2022, 1.5 percent in 2023, and 3.2 percent in 2024. After 2024, employment is projected to grow by less than 1.0 percent in each of the next three years. This economic outlook results in a projected 3.7 increase in other use tax collections in 2023, a projected 8.6 percent increase in 2024, and projected growth of 2.7 percent in 2025.

Auto Use Tax: All motor vehicles, trailers, and semi-trailers purchased outside the city by Aurora residents are subject to the payment of use tax at the time of registration. Sales of new and used vehicles within the city by licensed vendors are reflected in sales tax collections. The city receives use tax up to four months after the purchase date while sales tax has a one-month lag.

Auto use tax comprises 6 percent of total General Fund sources. In 2021, Aurora collected \$28.3 million in auto use tax revenues, easily beating the previous record for annual auto use tax collections (\$22.3 million collected in 2019). Auto use tax collections in 2021 were 31.9 percent greater than in 2020. The BRD baseline projection has auto use tax collections growing by 4.4 percent in 2022 (to \$29.6 million) and growing again in 2023 by another 9.4 percent (to \$32.4 million). This projection was made despite a shortage of new cars to sell. For example, the National Automobile Dealers Association reported that new car sales through March 2022 were down 22.7 percent compared to the first three months of 2021. The reduction in new car sales reflects a shortage of computer chips and other supply chain disruptions that have severely limited the availability of new cars. The 2023 Adopted Budget did not use the BRD baseline scenario for auto use tax collections given concerns about sustaining growth in this revenue stream in light of declining new car sales. For 2022, it was assumed that auto use tax collections would decline by 4.3 percent to \$27.1 million. This projection reflects that higher prices for both new and used cars is expected to offset some of the revenue loss associated with reduced new car sales.

Once again using more conservative assumptions about auto use tax collection than contained in the BRD baseline forecast, the 2023 Adopted Budget assumes that auto use tax collections in 2023 will remain flat at the same \$27.1 million as is projected for 2022. This assumption is roughly consistent with BRD's pessimistic model, which projects \$27.0 million of auto use tax collections

in 2023. The 2023 Adopted Budget further assumes that the supply chain issues which are currently limiting the availability of new cars for sale will be resolved by 2024. As the new car market normalizes, auto use tax collections are forecast to resume growth and will rise by 5.2 percent per year from 2024 through 2027. This projected growth is based on average growth rate in this revenue stream from 2016-2019, reflecting the last four years before this revenue stream was significantly impacted by the COVID-19 pandemic and resultant economic disruptions.

Franchise Fees and Taxes: Franchise fees and taxes are levied on businesses that deliver public utility services, including natural gas, electricity, telephone, and cable television service, in part through the use of the city's rights-of-way. Franchise fees and taxes are set by ordinance and are renegotiated periodically. All fees are collected monthly, with the exception of cable TV fees, which are collected quarterly. Companies pass on the cost of franchise fees and taxes to customers in the form of a municipal charge. This revenue stream generally follows the ups and downs of local energy prices. Revenues are strongly seasonal and lag three months relative to energy use. Collections from the two different types of energy utilities exhibit nearly opposite within-year trends, with electricity use peaking in the summer and natural gas use reaching a high point during the coldest months of the year.

Franchise fees and taxes make up 3 percent of total General Fund sources. Overall collections of franchise fees and taxes year-to-date through June 2022 were \$6.6 million. Electric and natural gas franchise fees account for nearly 84.6 percent of this total amount. These same two sources also account for nearly all of the growth over collections in the first seven months of 2021, with collections from natural gas fees growing 32.3 percent and collections from electricity fees growing 11.2 percent. Inflation appears to be responsible for the growth experienced in collections this year, with the prices of piped gas service increasing by 38.4 percent and the price of electricity rising by 13.7 percent. Although smaller sources of revenue, collections from cable TV fees are roughly flat so far this year and collections from the telephone tax are down 16.8 percent year-to-date. Given these trends, the city is now projected to collect \$17.4 million from franchise fees and taxes in 2022. This amount represents an overall growth of 11.0 percent compared to collections in 2021.

The two largest percentage increases in year-over-year franchise tax collections occurred in 2003 (16.0 percent growth) and 2008 (14.0 percent growth). In each of these two cases, a year of large growth was followed by a year of declining growth. Given this pattern and the likely decline of energy prices from current levels, revenue from franchise fees and taxes is expected to decline in 2023 by 6.5 percent to \$16.3 million. Based on the historical average growth rate for this revenue source, the collection of franchise fees and taxes is expected to grow 0.8 percent in 2024 and each year thereafter throughout the remainder of the forecast period.

Highway Users Taxes Fund Revenues (HUTF): The state Highway Users Tax Fund (HUTF) was created to account for state highway revenue and is comprised of revenue generated mainly by fuel excise taxes (22¢ per gallon of gasoline and 20.50¢ per gallon of diesel fuel). It also includes certain annual vehicle license and registration fees, and since 2009 includes fees created by the FASTER legislation, typically generating just over 20 percent of total HUTF revenues. HUTF distributions are made per statute to the Colorado Department of Transportation, counties, and municipalities. Distributions to individual municipalities are based on a formula that considers the previous year's number of vehicles registered and the relative number of street miles in a municipality.

Of note, the Sustainability of the Transportation System Act (S.B. 21-260) will generate significant additional HUTF revenue, both by distributing federal American Rescue Plan Act (ARPA) funds received by the State of Colorado for local highway maintenance purposes as well as by creating new fees on gasoline, diesel, electric vehicles, delivery services, and rideshare services. In regard to the new revenue from S.B. 21-260, in the most recent legislation session the Colorado General Assembly passed H.B. 22-1351, which delayed the implementation of the new transportation fees from July 1, 2022, to April 1, 2023. To hold local governments harmless from this delay, the bill also transferred state funds to the HUTF for distribution to cities and counties in 2022.

Through June 2022, Highway Users Tax Fund receipts were \$372,900 or 7.8 percent lower than the same period in 2021. It seems likely that this reduction is related in part to high current gas prices. Because the gas tax is a flat fee (22¢ per gallon of gasoline and 20.50¢ per gallon of diesel fuel) instead of a percentage, gas tax collections do not inherently increase when gas prices go up. Instead, high current prices encourage reduced fuel consumption, which would reduce HUTF tax collections. Overall, HUTF collections are projected to decline by \$298,400 (2.5 percent) in 2022.

For 2023 and beyond, projected growth in HUTF revenues mirrors the growth rates contained in statewide projections of HUTF issued by state economists with Legislative Council Staff. In this regard, the projection reflects the passage of statewide legislation delaying new fees that would increase HUTF revenues. Given this delay, growth in HUTF revenues from the new fees is now projected to occur starting April 1, 2023. As a result, HUTF revenues are projected to grow by 8.9 percent in 2023, by 3.0 percent in 2024, and then to remain flat thereafter.

2022 General Fund Revenue Gains and Shortfalls

City of Aurora, Colorado

**2023 Operating and Capital
Improvement Budget**

FINANCIAL OUTLOOK

Long-Range General Fund Financial Outlook

The long-range financial outlook provides a forward-looking view of the General Fund operating budget allowing city officials and others to evaluate the long-term sustainability of the annual operating budget. In addition, it provides a starting point for future decision-making regarding the budget by identifying the balance between potential spending needs and the projected revenue outlook, making it a key tool for financial planning.

The city uses this information as a resource to:

- Identify preliminary spending priorities for future years;
- Incorporate necessary budget adjustments into the long-range financial projections;
- Evaluate whether additions and reductions to the budget are sustainable;
- Maintain options to deal with unexpected contingencies; and
- Anticipate factors affecting revenues and service needs.

The city has taken steps towards reducing the “structural gap” that was identified several years ago in a comprehensive study. Steps include judiciously funding service level needs with ongoing revenue, using one-time funds for one-time needs, and indexing service fees annually. The long-term General Fund financial outlook scenarios described in this section confirm that a structural gap remains a risk.

The Financial Outlook section includes:

- An overview of the outlook for the General Fund from 2023 to 2027;
- Cost drivers impacting the projections;
- Summary and detail tables covering
 - General Fund budget data for the years 2021 through 2027;
 - Future percentage changes expected in various parts of the budget; and
 - Amendments to the budget, including possible future adjustments.

GENERAL FUND OVERVIEW

The five-year projections provided in the financial outlook reflect numerous assumptions related to revenues and expenditures in 2022 and beyond. These assumptions represent a reasonable starting point for estimating the long-term status of the General Fund. However, it is important to note that the assumptions and resulting projections will change over time. Even relatively minor changes in key variables can cause significant changes in the long-term outlook. For example, a one percent change in revenue for any given year in the future would change the projections for that year and all future years by at least \$5.0 million.

Revenue Outlook: Benefiting from a strong economic recovery, total General Fund revenues are projected to grow by 6.1 percent in 2022 and then experience more moderate growth of 2.7 percent in 2023. There are no amendments in the 2023 budget which will result in increased General Fund operating revenue.

Future projections include steady growth in General Fund revenues of 5.2 percent in 2024 followed by 3.3 to 3.5 percent in the years from 2025 through 2027. This projection assumes that the economy will continue to grow during this time period, though there are concerns about inflation and a possible recession. Worker shortages, supply chain disruptions, COVID-19 variants, and the war in Ukraine all have the potential to create additional inflationary pressures which poses a risk to the forecast. The revenue section of this budget book provides detail behind these forecasts.

Future Expenditures: The estimate prepared for the General Fund takes into account expenditures required to maintain current city services as well as some future costs. This summary of the city's General Fund financial outlook starts with the 2023 budget plus future increases related to compensation and other likely contractual or mandated costs. Two scenarios were prepared in order to contrast the effect of compensation increases for pay and benefits against all other costs. The first scenario is included in detail in this section and includes pay and benefit increases, while the second scenario assumes no increase in pay or insurance benefits for 2023-2027. While the second scenario is unlikely, the exclusion highlights the budget impact of all other costs as shown starting on page F-3.

Assumptions regarding funding priorities will change as the City Manager, the Mayor, and City Council establish their budget plans each year. Consequently, the estimates incorporated herein represent projections and are not an official adopted or proposed spending plan for any year other than 2023. Unless otherwise noted, all assumptions described in this section apply to the years 2024 through 2027.

COST DRIVERS

The compensation increase scenario contains:

- For 2024, Civil Service pay and benefits in accordance with the Collective Bargaining Agreements (CBA) with the Fraternal Order of Police (FOP) and the International Association of Fire Fighters (IAFF)
- For 2024, Career Service increase commensurate with the CBAs of an amount equivalent to 5.0 percent in salary-related costs. This could be in the form of a pay increase and / or other compensation plan
- For 2025 through 2027, both Civil and Career Service increase of 3.0 percent in salary-related costs
- A 5.0 percent increase in the city contribution for health and dental benefits for all years 2024 through 2027

The following future adjustments are included in both scenarios:

- The cost of risk management, fleet fuel, and fleet maintenance increases by approximately 6.0 percent each year

- The cost increase for utilities in total is estimated at 4.0 percent per year
- Additional funds in 2024 and increasing annually through 2027 for the Vehicle Replacement plan
- An annual contingency for compensation adjustments based on market salary trends
- Estimates of the impact of the number of payroll hours in each calendar year
- An annual increase for contract and mandated costs based on recent historical averages
- Move 2.0 FTE grant compliance and development positions funded by the ARPA Grant to the General Fund in 2027
- Add 15.0 Police Officers and vehicles in 2024
- Add 17.0 Fire Fighters and a fire truck in 2024
- Expand the Aurora Mobile Response Team and the Crisis Response Team programs in 2024
- A 0.5 percent annual increase in the city's contribution to Fire FPPA pension for the defined benefit members. This is required per Colorado state legislation passed in 2020
- An increase in Public Safety funding 2025 through 2027
- Increase for Police training in 2024
- Police and Fire step increases for current civil employees in 2024 through 2027
- Projected adjustments to subsidized funds to include the Recreation, Cultural Services, E-911, Victim Assistance, and Parking and Mobility funds
- The impact of the Visit Aurora transfer calculation based on lodging tax projections

Adjustments to match calculations for Policy and TABOR reserves are not included and are assumed to be covered by either unassigned funds available or by the operating reserve. Maintaining reserves will remain an important financial priority, as the purpose of such reserves is to protect against emergencies and provide for long-term financial stability.

SCENARIO RESULTS

One of the primary goals of this budget is to balance the current year, while limiting future balancing issues. The 2023 budget is completely balanced, and 2024 is balanced to within \$2.2 million which equates to 0.4 percent of the General Fund. This \$2.2 million as well as the future balancing actions shown in the following table may be resolved by the combination of revenue in excess of the current projection and budget reductions.

Item	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Surplus/ (Balancing Actions)	(\$2,171,993)	(\$3,527,345)	(\$5,594,041)	(\$7,996,547)

Future years include annual pay and benefit increases as described in the 'Cost Drivers' section. When excluding annual increases in compensation and insurance, the need for future balancing actions is eliminated. The following table shows the cost of estimated compensation and insurance adjustments.

Financial Outlook

Item	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Compensation	\$12,781,841	\$20,834,854	\$29,129,525	\$37,673,018
Insurance	\$1,653,002	\$3,388,823	\$5,211,436	\$7,125,208

By eliminating pay and benefit increases for the years 2024-2027, revenues will exceed expenditures in every year, which results in a surplus for all years as shown in the table below.

Item	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Surplus/ (Balancing Actions)	\$12,262,850	\$20,696,332	\$28,746,920	\$36,801,679

This demonstrates the impact of compensation on the city's operating budget. As is common for a service-based organization, personnel costs make up 78.2 percent of the General Fund budget (before transfers).

The five-year budget projections suggest that the ability to maintain and improve city services, extend additional services to developing areas, and complete future capital projects is heavily dependent on improving revenue while continuing to find operational efficiencies. These scenarios do not represent an official plan for any year other than 2023.

TABLES

The tables on the following pages include data for the 2021 actual data, 2022 projection, the 2023 budget, and projections for 2024 through 2027. The outlook tables include a summary of revenues, expenditures, and fund balance for each year and identify the annual surplus or the amount that must be balanced in the year. The tables presented after the outlook include estimated future percentage increases applied to various parts of the base budget, a listing of amendments to the 2023 budget, and potential future adjustments.

**2023 Operating and Capital
Improvement Budget**

FUND SUMMARIES

Fund Summaries Overview

The purpose of a fund summary is to capture and detail the financial condition of each city fund. Each summary provides information on revenues, expenditures and ending funds available. In addition, it functions as a planning mechanism, as it allows expenditures to be matched to available revenues and/or fund balance. Fund summaries also identify components of funds available and anticipated uses.

A fund summary document includes the following sections: summary, long-range plan and narrative. The summary parts have five columns: two years of actual data, the original adopted budget, the current-year projection and the budget. The long-range plan shows projections through 2027.

Summary

The first section of the fund summary is a detailed summary of *sources* and *uses*. Sources include revenues, transfers in and decreases in funds available. Uses include expenditures, transfers out and increases of funds available. It is important to note sources and uses are always balanced because fund sources are either expended, become restricted, committed or assigned, or become unrestricted (unreserved or undesignated) funds available. In a very few cases the budget numbers differ from the city's Annual Comprehensive Financial Report (ACFR) because of various budget adjustments. These adjustments are noted within the summary.

The next section of the summary relates to ending funds available. This section summarizes the beginning funds available and shows specific components of ending funds available. Components of ending funds available may differ from the ACFR. Funds available components are as follows:

- **Restricted:** Constraints placed on use are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation;
- **Committed:** Constrained to specific purposes as imposed by formal action (ordinance or resolution) of the City Council, the city's highest level of decision-making authority; and
- **Assigned:** Amounts the city intends to use for a specific purpose. Intent can be expressed by City Council or may be delegated by the City Manager.

The Original Budget states beginning and ending funds available as they were presented in the Adopted Budget Book. Ending funds available for any given year becomes the beginning funds available in the following year with the exception of the Original Budget column.

Long Range Outlook

The third section, the long-range outlook, shows the effect of expenditure and revenue projections on funds available through 2027. These consider generalized growth rate assumptions for revenue and expenditure amounts.

Narrative

The final section of the document is the narrative. The narrative gives background information including the history and the purpose of the fund. Major changes to revenues, expenditures, and fund balance are discussed in some detail in this section. Information concerning the long-range outlook, including growth rate assumptions used in making the outlook, may also be discussed.

Fund Types

The city's fund accounting structure separates funds into fund types based on their specific activities or certain objectives in accordance with special regulations, restrictions or limitations. Definitions for the various fund types are available in the glossary section of this book. The following table shows the type designation for each of the city's various funds. Detailed information for each fund is located within each fund summary. The chart below demonstrates the distribution of expenditure appropriations by fund type, and the chart on the next page is the relationship between departments and fund types.

General Fund Policy Reserve TABOR Reserve	Enterprise Funds Golf Courses Wastewater Water	Special Revenue Funds Community Development Conservation Trust Cultural Services Designated Revenues Enhanced E-911 Gift & Grants Marijuana Revenue Open Space Parking and Mobility Parks Development Recreation
Debt Service Funds Debt Service (GO) Debt Service (SID) Surplus & Deficiency	Internal Service Funds Fleet Management Risk Management	
Capital Project Funds Capital Projects Transportation Maintenance

Purpose of the Fund

The General Fund is the primary operating fund of the city and includes nearly all taxes and other resources traditionally associated with city operations. The majority of the fund is spent on public safety functions. Revenues and expenditures from the 0.25 percent voter-approved sales tax police officer staffing mandate are included in this fund. The five-year proforma is found in the Financial Outlook section.

Factors Affecting Revenue

Revenue for the General Fund is primarily dependent on consumer activity in Aurora. Sales and use tax from consumer purchases generate approximately two-thirds of the revenue for the General Fund.

The 2022 projection is \$42.8 million (10.2 percent) more than the 2022 Original Budget, which was based on the assumption of COVID-altered revenue. In fact, revenues did not drop as previously anticipated. Taxes alone are up \$43.9 million (11.8 percent), primarily associated with greater sales and use tax receipts, with inflation effects as a driver. The remainder of revenues are expected to stagnate, down \$1.1 million (2.5 percent), primarily associated with a decrease in fine and forfeiture revenue and charges for service.

For 2023, the revenue growth already experienced is expected to continue, but at a more muted level. Because the 2022 Original Budget was so low, 2023 is \$55.2 million (13.2 percent) more. It is only \$12.5 million (2.7 percent) more than the 2022 projection, assuming a much smaller growth rate than 2021 and 2022. Most of the growth is in taxes, up \$7.0 million (1.7 percent). There is a one-time transfer of \$584,900 to fund various Council amendments made at the October 8 Budget Workshop.

Factors Affecting Expenditures

The majority of General Fund expenditures fund public safety-related functions such as police and fire. Like most non-capital funds in the city, expenditures for the General Fund are largely driven by personnel.

Consistent with revenue, the comparison of the 2022 Original Budget to the 2022 projection is striking. Including transfers, an additional \$57.0 million (13.4 percent) is projected, with most of the increase in transfers, which account for \$43.8 million of the increase. The majority of the transfer increase is associated with the transfer to the Capital Project Fund due to additional capital-related revenue and the one-time addition of \$18.0 million for inflation-affected capital projects. A \$13.3 million increase to fund the payoff of Hogan Parkway is another significant reason for the increase.

An increase in expenditures for supplies and services adds \$14.5 million to the variance, including \$4.7 million for an Independent Consent Decree Monitor and a \$5.2 million citywide use of professional and technical services to continue to provide services given the city's high turnover

rate. Decreases or minimal change is expected from other expenditure types.

For 2023, an increase of \$49.2 million (11.6 percent) is budgeted, with most of that associated with inflation, including wages. Inflation has hit nearly every expenditure type. Much of the increase comes in the form of personal service increases, up \$28.2 million (10.1 percent). Increases in Police and Fire make up most of the increase.

Supplies and services are expected to increase \$9.6 million (22.0 percent) including a net \$2.7 million one-time amendment for City Council to spend as they wish. Housing and Community Services increased \$2.2 million associated primarily with the implementation of the city's camping ordinance. Information Technology increased \$4.1 million primarily associated with technology-related contractual increases.

Utilities are increasing \$1.6 million (13.7 percent) mostly due to Xcel Energy-related increases. Interfund charges are increasing \$3.0 million (14.3 percent) due to increased fuel and risk charges to departments. Capital related charges are decreasing \$3.9 million due primarily to one-time purchases in 2022 not recurring. Transfers are increasing \$10.4 million (14.7 percent) primarily due to the CPF transfer and the transfer to subsidized funds (Recreation, Cultural Services, Enhanced E-911, and Designated Revenues for victim assistance).

At the October 8 Budget Workshop, Council added a net \$102,100 to the fund, with one-time adds of \$764,900 nearly totally offset by \$662,800 of ongoing reductions. The majority of the one-time amendments are transfers to the Capital Projects Fund for several projects. The majority of the ongoing reductions include the elimination of a net 6.0 FTE. More information on the Council amendments can be found in Appendix 1 and in the department pages.

Included in the 2023 budget are net ongoing amendments totaling \$8.1 million and one-time amendments totaling \$5.5 million. There are 38.50 FTE included in the amendments with the majority for public safety.

Ending Funds Available

Although a significantly larger amount of funds available is expected to be spent in 2022, ending funds available is remarkably similar to the Original Budget. In 2023, funds available is expected to be drawn down by \$1.8 million. The fund is balanced for 2023.

Purpose of the Fund

The Capital Projects Fund (CPF) provides for general government infrastructure and facilities, including streets, and information systems. Transportation maintenance, which was previously in the CPF, has been moved to the Transportation Maintenance Fund (TMF). The broad purpose of the CPF makes it a key resource in achieving many of the city's strategies for growth and maintenance of city facilities and infrastructure. The CPF pays for capital projects for a wide range of departments, including Public Works and Information Technology.

Factors Affecting Revenue

The CPF receives most of its funding from a transfer from the General Fund via a formula specified by ordinance. This ordinance requires the CPF receive a transfer equal to 100 percent of all building materials and equipment use taxes plus 4.0 percent of all other General Fund revenues less revenues from the 0.25 percent sales and use tax dedicated to public safety. The Marijuana Tax Revenue Fund also transfers funds for transportation projects. In 2022, stronger capital-related and impact fee revenue, the one-time transfer of \$18 million for project inflation, and the acquisition of unbudgeted grant and intergovernmental revenue is projected to drive a \$41.7 million increase in CPF sources.

In 2023, a significant shift will occur related to the General Fund transfer and the creation of the Transportation Maintenance Fund (TMF). Starting in 2023, the General Fund transfer will split, with \$28.9 million instead going to the TMF. This is the primary driver in the \$13.5 million (19.7 percent) decrease in sources compared to the 2022 Original Budget. Partially offsetting the decrease is a one-time transfer of \$2.8 million from the General Fund and Marijuana Tax Revenue Fund for various capital projects. The projects and the transfer were discussed at the October 8 Budget Workshop.

After transfers, charges for service is typically the next largest source of funds. This revenue, primarily comprised of capital impact fees, is expected to stay in the \$17.7 million range throughout the five-year plan.

Intergovernmental revenue is typically the next largest source of funds. For 2023, this revenue stream is expected to be \$2.3 million higher than the 2022 Original Budget primarily due to the inclusion of additional Highway User Tax Fund revenue related to the recently passed Colorado Senate Bill 260.

Factors Affecting Expenditures

Expenditures in the Capital Projects Fund tend to ebb and flow with one-time projects funded typically by previously noted transfers and intergovernmental revenue. The 2022 projection is \$49.4 million more than the 2022 Original

Budget, due primarily to \$30.0 million in additional I-70/Picadilly Interchange spending and the additional grant and intergovernmental spending. In addition, a new Bus Rapid Transit (BRT) project is included, accounting for \$8.0 million of the variance.

In 2023, the split of transportation projects between the CPF and TMF noted above drive a significant decrease in CPF expenditures, decreasing between \$28.9 million and \$34.5 million throughout the five-year plan. The 2023 proposed budget is \$40.7 million. Significant projects remaining in the fund include building repair projects, funding for the BRT noted above, various smaller street and traffic projects, and a technical expenditure related to the Aerotropolis Regional Transportation Authority (ARTA). At the October 8 Budget Workshop, Council added \$2.8 million in capital projects, including \$2.0 million for traffic signal projects, \$400,000 for the repair of Warren Avenue, and \$350,000 as a set-aside for possible greenhouse repairs.

A new \$3.0 million annual debt payment is also included in the five-year plan, funding the \$35.0 million Certificate of Participation for road maintenance in the TMF. That will be the fourth debt service payment scheduled in the five-year plan. In Fire, \$2.0 million is included for the building of three fire stations. In Non-Departmental, \$1.5 million is included to fund the police and fire training facility. In Public Works, \$825,000 is included for the Police District 2 office space.

Detailed information of the expenditure budgets can be found in the Capital Improvement Program section of the budget.

Ending Funds Available

Funds available is expected to grow significantly over time, primarily due to unspent restricted capital impact fees. For 2023, without the increase in fees, funds available would have decreased \$3.0 million.

Additional information on the Capital Projects Fund, including the 2023 to 2027 five-year plan, can be found in the CIP section of the 2023 budget and in the appendices.

Purpose of the Fund

The Community Development (CD) Fund is composed of the United States Department of Housing and Urban Development (HUD) grant awards consisting of the Community Development Block Grant (CDBG) and Home Investment Partnerships Grant (HOME), as well as funds from the Neighborhood Stabilization Program (NSP). As a condition for receiving HOME funds, the city is required to provide a match to the HOME grant equal to 22.5 percent of the annual award. The city match is received as a transfer in from the General Fund to the Community Development Fund. All funds are spent on qualifying programs within the city.

Ending Funds (Bud.)	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Factors Affecting Revenue

Revenue for the Community Development Fund is dependent upon grant allocations and program income, which vary from year to year. The United States Department of Housing and Urban Development (HUD) grant awards, consisting of the Community Development Block Grant (CDBG) and Home Investment Partnerships Grant (HOME), are the primary, ongoing sources of revenue in the fund.

Total revenue in 2022 is projected to be \$83,500 (1.8 percent) less than the 2022 Original Budget assumption. The 2022 Community Development actual award for CDBG and HOME combined was slightly less than estimated. Of this total, CDBG funding is expected to decrease by \$162,600 (5.6 percent) and HOME funding is expected to increase by \$124,300 (8.9 percent). As a result, the General Fund transfer in for the HOME grant match increased by \$22,800. Revenue was further reduced by the assumption that the Neighborhood Stabilization Program grants will not bring in consistent program income. Therefore the 2022 projection and the 2023 budget have been set to zero.

Factors Affecting Expenditures

The city fully appropriates all available funds to match the approved federal spending plan, so all funds available are budgeted and projected to be spent within program requirements. Therefore, expenditures are equal to revenues in any given year. Please see the Community Development

Program Detail section of the 2023 Adopted Budget for the detailed plan by project as approved by the Citizens' Advisory Committee on Housing and Community Development.

For 2023, significant CDBG expenditures will be directed at rehabilitation programs such as the Rehab Gap Financing Program and the Home Repair Loan and Grant Programs.

Principal HOME-funded programs for 2023 include the Affordable Housing Gap Financing Reserve and the Tenant-based Rental Assistance Program.

Ending Funds Available

The fund is projected to remain balanced, as all funds are appropriated in accordance with the approved federal spending plan.

Purpose of the Fund

Pursuant to Colorado law, the Conservation Trust Fund (CTF) is used for the acquisition, development, and maintenance of new conservation sites or for capital improvements or maintenance for recreational purposes on any public site. The source of revenue is lottery proceeds distributed by the State of Colorado.

Factors Affecting Revenue

Lottery proceeds tend to rise and fall based on the interest in specific lottery games, which makes it difficult to trend or project. Revenue in 2022 is projected to be \$485,100 (11.6 percent) higher than the 2022 Original Budget primarily associated with additional intergovernmental revenue. In 2023, revenue is expected to grow by \$1.1 million (25.4 percent), once again due to a greater expectation of intergovernmental revenue. In the out-years, lottery revenue is estimated to grow by one percent per year, driving modest growth in projected fund revenues.

Factors Affecting Expenditures

Typically, the majority of the expenditure variation from year to year is dependent on the capital expenditures in the fund. Spending in 2022, which is at its high point in this fund summary, is projected to come in on budget. For 2023, there is a \$600,000 decrease in capital spending from that high point. In 2023 and the out-years, anticipated capital spending is held comparatively lower to 2022 which ensures capital budget capacity for future priorities informed by the PROS system-wide master planning effort (to be completed in the first half of 2023).

For 2023 and 2024, capital construction projects include Beck pool renovation, Village East park improvements, Moorhead Center annual construction debt payment. Other projects included in the 5-year plan are Plains Conservation Center site improvements, Meadowood playground, and Lowry Park and Rocky Ridge Park synthetic athletic field additions.

More detail on capital can be found in the Capital Improvement Program section as well as Appendix 2.

The 2022 projection for operating expenditures is \$167,700 (2.5 percent) lower than the 2022 Original Budget due to vacancy savings, primarily in Parks Operations. For 2023, operating expenditures are expected to decrease \$45,300 (3.1 percent) with one-time 2022 budget for vehicles and snow removal equipment not expected to recur. This is partially offset with additional personal services of \$54,800 (4.3 percent) associated with pay increases in accordance with city policy.

Ending Funds Available

In any given year, funds available tend to fluctuate with capital projects expenditure projections. The 2022 Original Budget assumed \$1.3 million in ending funds available, but because of the higher revenue in both 2021 and 2022, the current projection is over \$3.0 million. By the end of 2023, funds available are anticipated to drop to \$2.3 million, and then grow throughout the five-year plan to \$5.1 million by 2027.

Purpose of the Fund

The Cultural Services Fund accounts for cultural-related services provided to citizens such as programs in performing arts, fine arts, history, and public art. Funding for these services is provided by fees, donations, General Fund transfers, intergovernmental revenues from the Scientific and Cultural Facilities District (SCFD), and proceeds from the Art In Public Places (AIPP) ordinance. AIPP proceeds are revenues designated for acquisition and maintenance of public art and administration of the program.

Factors Affecting Revenue

In 2022, charges for services are projected to be \$86,000 (10.0 percent) less than the 2022 Original Budget primarily due to reduced services in multiple areas related to the ongoing impact of the COVID-19 pandemic. The Aurora Fox Arts Center and other arts programs continued to operate with reduced services through the first half of 2022. Operations are expected to normalize through the third and fourth quarters of this year. Other revenues are also anticipated to conform to budget by year end.

In 2023, revenue before transfers in is expected to increase \$23,900 (1.8 percent) when compared to the 2022 Original Budget. Increased charges for services revenue associated with the Aurora Fox Arts Center and Aurora Dance Arts accounts for the most of this change

For 2023, the Transfers in budget is comprised of the Cultural Services Fund subsidy from the General Fund (\$1.5 million) plus the the Transfers in for Art in Public Places from the Capital Projects Fund (\$713,000).

The 2023 budget shows an increase in revenue total sources of \$275,900 (8.6 percent) compared to the 2022 Original Budget. This is driven primarily by an increase in the Art in Public Places (AIPP) transfer from the Capital Projects Fund.

Factors Affecting Expenditures

In 2022 total uses are projected to be \$132,300 (3.8 percent) lower than the 2022 Original Budget. Contributing factors include personnel vacancy savings and lower supplies and services expenses to offset lower revenues.

In 2023, total expenditures are expected to be close to the 2022 Original Budget. This is due to the movement of 0.5 FTE out of the Cultural Services Fund with a 2022 Spring Supplemental. The majority of supplies and services will remain flat compared to the 2022 Original Budget with the elimination of one-time Equal Pay Equal Work (EPEW) adjustments last year.

Ending Funds Available

Funds available are expected to decrease over time as funds are spent on various public art projects. The remaining programs in the fund maintain a small fund balance and generally spend annual revenues. The 2023 Budget will spend down approximately \$15,200 resulting in an ending fund balance of \$1.9 million, with \$467,300 restricted for Scientific and Cultural Facilities District (SCFD) and \$1.4 million committed to Art In Public Places (AIPP). By the end of 2027, the projected ending funds available are estimated at \$283,600. The Art in Public Places Commission maintains a five-year plan that envisions potential sites and estimates appropriate budgets for future acquisitions. The plan spends down the committed fund balance on projects that span across all six wards in Aurora.

Purpose of the Fund

Expenditures in the Debt Service Special Improvement District Fund are for payments of principal and interest on special assessment revenue bonds. Funds available must be first spent on debt service or contractual payments associated with the Special Improvement Districts (SIDs). SID 1-10 (Dam East) is the only active SID for 2019-2022. The Dam East SID is for neighborhood fence construction.

Ending Funds (Bud.)	\$ 26,054	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Factors Affecting Revenue

Revenues are received from special assessments on properties that are part of the improvement district. These revenues fluctuate from year to year, primarily due to voluntary prepayment of assessments. The Dam East SID will be active through 2022 and closed for the 2023 budget leaving no remaining active SID. Revenue projections for 2022 assume the remaining receivable balance for the Dam East SID will be collected in full.

Factors Affecting Expenditures

Expenditures are for debt payments or contractual arrangements for SIDs. The prepayment of assessments is typical and permits the prepayment of debt, which yields fluctuating expenditures from year to year. Timing differences often occur between collections and payments

resulting in a year-end fund balance. The 2022 projection assumes the final debt and interest payments, and associated collection fees for the Dam East SID. The 2022 projection also includes a transfer out of the residual funds to the Capital Projects Fund. For 2023, the expenditure budget assumes there are no active SIDs.

Ending Funds Available

Currently, there are no active SIDs in the long-term outlook.

Purpose of the Fund

The Designated Revenues Fund was established in 1997 to manage various revenues restricted for specific purposes, which are neither gifts nor grants. Surcharge-funded programs, certain incentive programs, and the Aurora Channel are examples of Designated Revenues Fund programs.

Factors Affecting Revenue

Collections in the Designated Revenues Fund can vary significantly from year to year. The 2022 revenue projection before transfers is \$696,000 (12.7 percent) lower than the 2022 Original Budget. The vast majority of this decline can be explained by the \$694,600 (52.4 percent) reduction in projected fine collections in the form of court surcharges. Traffic ticket surcharges are the main source of revenue in the fines and forfeitures category. Residual effects of the COVID-19 pandemic, police reform, increased attrition, and a stronger focus on violent crime reduction have continued to impact traffic ticket production in 2022.

Transfers in for 2022 are projected to be \$2.1 million higher than budgeted. An incentive payment in relation to a large data center in Aurora drives a \$1.3 transfer in from the General Fund that was not budgeted for 2022. This, combined with past transfers in, will provide the necessary funding for the projected payment in 2022. In addition, \$762,900 is projected to be transferred in from the General Fund for an infusion of fund balance for the Public Safety Assistance and Victim Services surcharge programs. Expenditure budgets in these programs will be adjusted down in 2023 and 2024 as a result of the lower surcharge revenue projection assumption.

The 2023 fund sources are \$1.7 million (31.5 percent) more than the 2022 Original Budget which is the net of a few notable changes. First, the 2023 budget assumes collections of fines and forfeitures will be lower by \$694,600 (52.4 percent). This is the result of the assumed lower number of traffic ticket filings as discussed for 2022. Offsetting this decline are increases in other revenues of \$372,400 and transfers in of \$2.0 million.

The increase in the other revenues category is solely due to the Competency Initiative funded by the Colorado Competency Fines Committee in collaboration with the Public Defender's Office. Initial funding for the initiative was provided in 2021 with efforts beginning in 2022. The state has been pleased with the program's progress in keeping incompetent clients out of the state system and has increased funding for 2023. The increase in transfers in is due to additional transfers in from the General Fund of \$500,000 as a set aside for future incentive obligations and \$341,200 to sustain the fund balance for Victim Services, a court surcharge funded program. In addition, Council added

one-time transfers from the Marijuana Tax Revenue Fund for impound fee support of \$1.0 million and overall victim assistance support of \$100,000 at the October 8 Budget Workshop.

Factors Affecting Expenditures

Expenditures fluctuate year-to-year based on varied program activity, though tend to follow the pattern set forth by the revenue. In 2022, total uses of funds is projected to increase by \$4.3 million (61.7 percent) compared to the 2022 Original Budget. The largest variance can be seen in the supplies and services category. This is mostly the result of the increase in the projection for the significant incentive payment offset by personal services savings, primarily in the Community Trees Program for vacancy savings.

The 2023 fund uses are \$1.4 million (20.2 percent) higher than the 2022 Original Budget. This increase is driven by the funding for the state Competency Initiative and the combined Council adjustments of \$1.1 million for impound fee and overall victim assistance support.

Ending Funds Available

The funds available balance is projected to decrease in both 2022 and 2023. This is primarily driven by the development incentive payment for 2022. In 2023, a few programs will draw down designated funds, including Community Trees, Court Technology Surcharge, and Wellness Court Surcharge.

Due to the difficulty of projecting meaningful future revenues and expenditures associated with the Designated Revenues Fund, normal projection methods cannot be utilized. Consequently, there is no long-range projection associated with the fund.

Purpose of the Fund

The Development Review Fund (DRF) was created in 2002 to address developer demand for quicker turnaround of plan reviews related to new development within the city. Planning and Development Services, Public Works, General Management, and Information Technology are the departments directly involved in the DRF. Revenues originate from development-related fees for various plan reviews, permits, and inspections. Revenues that exceed planned expenditures remain in the DRF as accumulated fund balance that creates a contingency reserve. This reserve is intended as a means to stabilize the Development Review Program when revenues decline or unexpected program needs arise. Over time, revenues and expenditures will fluctuate depending on the level of new development and construction activity within the city and the resulting changes in plan review and inspection activity.

Year-End Inc./(Dec.)	4,119,744	(2,258,264)	(693,773)	(575,171)	(632,806)	(674,023)	(685,444)
Ending Funds (Bud.)	\$ 15,878,204	\$ 13,619,940	\$ 12,926,167	\$ 12,350,996	\$ 11,718,190	\$ 11,044,167	\$ 10,358,723

Factors Affecting Revenue

Revenue is dependent on construction and development activity. When planning for the 2022 budget, a more positive outlook was taken in response to the historically robust development activity that was occurring. The 2022 revenue is projected to be \$3.5 million (16.4 percent) more than 2022 Original Budget as development continues to thrive, but at more moderate growth levels.

Main revenue drivers in this fund are application fees and building permits which together account for over 90 percent of fund revenue. Total revenues are expected to increase by \$1.3 million (6.2 percent) in 2023 compared to the 2022 Original Budget as development activity continues to be steady. Future revenue projections are based on moderate growth in development, redevelopment, and construction starting in 2024 that aligns with other citywide revenue growth assumptions.

Factors Affecting Expenditures

The 2022 projected fund expenditures are \$6.1 million (29.1 percent) higher than the 2022 Original Budget. Personal services are projected to be \$709,100 (4.5 percent) higher than the 2022 budget due primarily to ten approved additional staff and the use of overtime in order to meet service level expectations in Public Works. Supplies and services are projected to be \$5.1 million over budget primarily due to increased contracted professional services for Public Works support with development review timelines in response to historically high

development activity, as well as Information Technology in support of the implementation of the Accela workflow management system. Higher credit card fees is an additional driving factor as more customers choose to submit payments online.

The 2023 budget is \$2.4 million (11.2 percent) higher than the 2022 Original Budget. This increase is mainly a result of added funding for: an amendment for the activation of an existing 8.0 FTE across various departments that are critical to improve consistency, quality, timeliness, and predictability for all phases of development within the city; an amendment for the addition of 1.0 FTE Traffic Engineering Supervisor in Public Works; base compensation increases in accordance with city policy; and lastly an increase in costs allocated to the fund. The Budget Amendment Request section of each department has additional detail on the amendments.

Ending Funds Available

Funds available are projected to decrease annually starting in 2022 with increased staffing costs as the main driver for expenses. Development-related revenue is anticipated to grow moderately starting in 2024 and continuing through 2027 resulting in a projected fund balance of \$10.4 million in 2027.

Purpose of the Fund

The Enhanced E-911 Fund provides for personnel answering 911 calls and the acquisition, deployment and maintenance of 911 equipment and systems to receive, dispatch, and respond to citizens' 911 calls. Funding also covers the computer aided dispatch (CAD) system and the 800 megahertz radio (MHz) communication system. The primary source of revenue is the E-911 surcharge on wired, wireless, voice over internet protocol (VoIP), and prepaid wireless telephones.

Factors Affecting Revenue

In 2022, E-911 Fund revenue is projected to be \$1.0 million (15.7 percent) higher than originally budgeted. This increase is directly attributable to the state collected surcharges for prepaid cell phones and support for the ongoing costs of the local implementation of the Next Generation 911 (NG911) services. In 2020, the city implemented the backbone for NG911 with the Emergency Services IP network (ESINet). As this network infrastructure is built out across the state, it will allow for call overload handling, text to 911, call transfer, and capabilities to integrate systems across jurisdictional boundaries if necessary. This sets the city on the path to take advantage of evolving technologies in 911 as they become available. To offset the almost 200 percent increase in ongoing costs for the ESINet over the traditional wired 911 lines, the city receives a portion of the statewide surcharge based on a state-maintained allocation model.

A transfer from the General Fund is scheduled annually to cover the cost of 65.0 FTE. Transfers in 2022 are projected to be \$701,200 greater than the 2022 Original Budget due to the increase in pay required to maintain appropriate staffing levels in the Aurora911 Center.

The 2023 revenue forecast before transfers is \$614,200 (9.4 percent) higher than the 2022 Original Budget. As discussed above, this is attributed to the increased receipts from the state surcharges.

In 2023, a \$5.7 million transfer from the General Fund is scheduled to cover the cost of the FTE noted previously. This transfer is \$845,800 (17.3 percent) greater than in the 2022 Original Budget due to increases for pay and benefits in the Aurora911 Department.

Factors Affecting Expenditures

Total expenditures in 2022 are \$883,700 (7.7 percent) greater than the 2022 Original Budget which are related to the aforementioned increase in pay. A supplemental will be necessary for this change.

The 2023 operating E-911 budget exceeds the 2022 Original Budget by \$1.9 million (21.2 percent). This budget variance is predominately associated with the discussed increases in pay and benefits and a \$403,400 ongoing amendment to provide cybersecurity protection for the 911 infrastructure.

The 2023 capital budget includes the 800 MHz radio system debt service, mobile data computer (MDC) replacement, and funding for erecting a new radio tower to provide more reliable communications for Public Safety in Southeast Aurora. The last year for the 800 MHz system debt in 2024. In 2025 and 2026, additional MDC replacements are planned.

Ending Funds Available

Funds available tend to ebb and flow with changes in capital spending, as noted with the \$3.1 million decrease in 2023. Throughout the five-year plan, funds available are expected to increase to \$3.5 million.

Assigned for Fleet Operations	\$ 184,751	\$ 87,961	\$ 267,009	\$ 126,936	\$ 127,793

Purpose of the Fund

The Fleet Management Fund is an internal service fund responsible for the centralized fuel and maintenance costs for 3,460 city-owned motorized vehicles and equipment. Operations are funded by charges to departments to recover costs associated with the provision of these services. Expenditures for the fund are primarily driven by fuel and maintenance costs. As a result, fluctuations in the cost of fuel, labor, parts and sublets (outsourced repairs) can have a large impact on the fund.

Ending Funds (Bud.)	\$ 87,961	\$ 126,936	\$ 127,793	\$ 127,793	\$ 127,793	\$ 127,793	\$ 127,793

Factors Affecting Revenue

Revenues include service charges to departments for city owned vehicle repair and maintenance, fuel, and overhead. In 2022, revenue, excluding transfers, is projected to be \$301,400 (2.6 percent) less than the 2022 Original Budget. The decrease is due primarily to lower-than-expected costs related to fuel, partially offset by higher parts costs being charged out to departments. Fleet was able to lock into favorable fuel costs in late summer of 2021 for the 2022 fiscal year.

Overall revenue, excluding transfers, will increase \$2.5 million (21.0 percent) in 2023 compared to the 2022 Original Budget. Fuel revenue is the main driver behind the increase. Based on the U.S. Energy Information Administration (EIA) outlook and the fact that fuel prices for the 2023 Budget were not locked as of budget development, a significant increase in fuel is anticipated. There was also a small increase in overhead and labor revenue. Overhead charges are used to help recover non-billable costs incurred by the fund for items such as utilities, replacement of tools and supplies, as well as management and administrative costs.

Factors Affecting Expenditures

The 2022 projection is \$140,300 (1.2 percent) lower than the 2022 Original Budget primarily due to lower than anticipated fuel costs. This is offset by higher parts costs and personal services costs due to an unbudgeted, approved, variable hour employee being utilized to keep up with workload.

In 2023, fuel costs, an amendment for the addition of 2.0 FTE, and base compensation increases drive overall expenses to increase \$2.4 million (19.8 percent) over the 2022 Original Budget.

Ending Funds Available

Funds available are projected to increase \$39,000 in 2022 and another \$900 in 2023. In 2024, this will result in a beginning fund balance of \$127,800 that is expected to carry forward through 2027, as all out-year budgets are balanced.

Purpose of the Fund

The Gifts and Grants Fund accounts for various gifts and grants made to the city from other governments or private parties, where the amount or duration of funding does not warrant establishing a separate fund. Sources of revenue for this fund can usually be categorized as either a gift, advance grant, or reimbursable grant. All funds are restricted specifically for eligible uses as defined by gift designations or grant agreements.

Factors Affecting Revenue

Due to the one-time nature of many of the gifts and grants, revenue totals can vary significantly from year to year. On average, more than 90 percent of the revenue comes in the form of intergovernmental revenue received from other government agencies.

The overwhelming headline in the Gift and Grants Fund was the significant influx of relief funds granted to the city as a result of the COVID-19 induced economic recession. The city was awarded \$33.9 million associated with the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) in 2021 and \$65.4 million from the American Rescue Plan Act (ARPA) in 2022. The receipt of these funds drove up the projection of interest income to be \$336,500 over the Original Budget.

The 2022 projected revenue for the fund is \$30.4 million (79.9 percent) lower than the 2022 Original Budget because the entirety of the American Rescue Plan Act (ARPA) funds were booked in 2021 rather than over two years as was originally budgeted. Significant grants expected in 2022 include: the Piton Foundation Moorhead Grant in the amount of \$1.9 million by the Parks, Recreation, and Open Space Department, three Colorado Department of Transportation (CDOT) grants totaling \$505,000, a Department of Local Affairs (DOLA) grant in the amount of \$640,000 for health and wellness, and a grant from Rocky Mountain High Intensity Drug Trafficking Areas (HIDTA) in the amount of \$553,000 in the Aurora Police Department.

Total revenue in 2023 is expected to decrease by \$32.9 million (86.3 percent) as the level of grant awards returns to a more typical level. Significant grants expected in 2023 include two grants that were received in 2022 that are expected to be awarded in 2023 as well: \$505,000 in a variety of CDOT grants as well as a Department of Local Affairs DOLA grant for \$640,000 for health and wellness, both in the Aurora Police Department. As with all anticipated grant awards, the amounts in 2023 are not yet known and so the assumption is that they will be close to, if not the same as the 2022 grant awards.

Factors Affecting Expenditures

Expenditures, like revenues, can vary significantly from year to year, but tend to follow the pattern set forth by the revenue.

In 2022, expenditures are projected to be \$46.3 million higher than the 2022 Original Budget primarily due to projected spending associated with the ARPA grant across all expenditure categories. The fund balance will be significantly spent down by the end of 2022. A supplemental will be necessary for this spend-down.

In 2023, expenditures normalize and are budgeted to decrease \$12.6 million (53.8 percent) compared to the 2022 Original Budget, as spending against relief grants winds down. At the October 8 Budget Workshop, Council added \$320,000 one-time for detention retention bonuses out of ARPA funds.

Ending Funds Available

Ending funds available in 2022 are projected to decrease to \$11.2 million which is \$45.5 million lower than the 2022 Original Budget had assumed. Ending funds available are expected to decrease further to \$5.6 million due to the anticipated spend down of relief grants in 2023.

Due to the difficulty of predicting future revenue and expenditures associated with the Gifts and Grants Fund, there is no long-range projection associated with the fund.

Purpose of the Fund

The Golf Courses Fund was established for the operation and maintenance of city-owned and/or city-operated golf courses. The fund is supported by user charges for greens fees, driving range fees, and cart rentals, as well as pro shop sales and concessions. As an enterprise fund, expenses are managed in accord with revenues.

Factors Affecting Revenue

The majority of revenue in any given year comes from greens fees and cart rental fees. These fees are included in the charges for services category. The 2022 Projection is \$728,200 (8.3 percent) higher than the 2022 Original Budget, driven by higher projected revenue from user charges. Revenues increased dramatically in 2020 and 2021 during the COVID-19 pandemic as people's interest in various forms of outdoor recreation peaked. While the 2022 projected revenue represents a decrease compared to 2021 peak, the \$9.5 million in projected revenues is still quite healthy.

In 2023, revenues are expected to increase \$1.4 million (15.6 percent) over the 2022 Original Budget, based on the assumption that public interest in golf remains above pre-COVID-19 conditions but does not match the peak in public interest that occurred in 2021. Revenues are anticipated to grow by approximately \$200,000 annually from 2024 through 2027.

Factors Affecting Expenses

For 2022, projected expenses are higher than the 2022 Original Budget by \$796,400 (8.9 percent), relating entirely to inflationary increases in both seasonal wages as well as for fertilizer, chemicals, and other supplies. Projected 2022 spending includes an additional \$512,900 provided by a 2022 Spring Supplemental amendment for a wage increase for seasonal workers.

For the 2023 budget, Total Uses are \$1.3 million (14.0 percent) higher than the 2022 Original Budget. Of this increase, \$795,300 relates to an increase in the cost of personal services and is driven by citywide pay and benefits increases. The 2023 budget also includes a \$138,100 increase in spending on utilities and a \$305,000 increase in supplies for turf maintenance.

Ending Funds Available

The 2022 ending funds available are projected to be higher than the 2022 Original Budget by \$3.1 million. The 2022 Original Budget did not anticipate that golf revenues in 2021 would significantly outperform the high levels of revenue in 2020, resulting in the Golf Courses Fund starting 2022 with \$3.2 million higher funds available than projected. Funds available tends to go down when capital spending is relatively high. Despite inflationary pressures on fund expenditures, funds available are generally estimated to stay at about \$6.0 million through 2027.

Purpose of the Fund

Voters approved Amendment 64 in 2012 prompting City Council to enter the retail marijuana industry in 2014, providing new revenue sources for the city. In 2014, Aurora voters approved a 5.75 percent city sales tax on retail marijuana products and 5.0 percent excise tax on the sale or transfer of unprocessed retail marijuana from cultivation facilities. Aurora voters also granted the city permission to increase or decrease the sales tax rate without further voter approval so long as the rate of taxation does not exceed 10.0 percent. In 2017, City Council increased the city's retail marijuana sales tax rate from 5.75 percent to 7.75 percent effective July 1, 2017 to fund homelessness services and housing projects. In 2020, City Council increased the city's sales tax rate to 8.75 percent effective July 1, 2020 to support community service agencies and programs directly related to youth violence prevention. Additionally, the city collects 10.0 percent of the 15.0 percent state special sales tax based on the sale of retail marijuana within the city's boundaries. The 0.25 percent sales tax dedicated to public safety is in the General Fund.

Factors Affecting Revenue

In 2022, the retail marijuana industry in Aurora is projected to generate \$2.8 million (16.3 percent) less than originally budgeted. Benefitting from federal stimulus efforts and the closure of multiple entertainment options in 2020 and 2021, marijuana tax revenue increased substantially in the last two years. However, sales tax growth has not continued as forecasted in the 2022 Original Budget as pandemic-related restrictions have been lifted and high inflation has begun to impact discretionary spending. A decline in state wholesale prices has also contributed to the decline. In Colorado, the average wholesale market rate is used to calculate excise tax on sales and transfers of unprocessed retail marijuana.

The 2023 revenue forecast is \$2.5 million (14.1 percent) lower than the 2022 Original Budget and \$381,800 (2.6 percent) higher than the 2022 projection, assuming slower revenue growth than experienced in the past two years.

Factors Affecting Expenditures

Council-approved projects include ongoing appropriation of \$4.0 million to cover debt payments for the Central and Southeast Recreation Centers and \$6.0 million to cover road and transportation projects. They are reflected in the transfer out to other funds.

At the October 8 Budget Workshop, Council decided to fund one-time adds in the General Fund (\$584,900), traffic signal projects in the Capital Projects Fund (\$2.0 million), and both Impound Fee Support and Victim Assistance Support in the Designated Revenues Fund (\$1.1 million) via transfers from the Marijuana Tax Revenue Fund.

The city's 2.0 percent special sales tax rate is forecasted to generate \$2.7 million in both 2022 and 2023 for homelessness assistance projects. This is lower than the amount included in the Original Budget due to a slowdown in tax revenue, explaining a portion of the projected decrease in expenditures before transfers out. In addition, the projection assumes only half of the Youth Violence Prevention Program budget will be spent in 2022, with the remainder reverting to funds available. In 2023, \$2.3 million in accumulated funds available plus ongoing funding of \$1.4 million is budgeted in the Youth Violence Prevention Program.

Appendix 5 provides additional detail on this fund.

Ending Funds Available

Funds available are forecasted to decrease in 2023 as the accumulated fund balance in the Youth Violence Prevention Program is fully budgeted in that year. Based on current and predicted spending patterns, funds available are projected to increase from \$6.0 million in 2023 to \$12.5 million by 2027.

Purpose of the Fund

The Open Space Fund is funded by the a 25 cent per 100 dollar Arapahoe and Adams County Open Space Taxes. Voters in Arapahoe County in 2021 and Adams County in 2020 permanently reauthorized the open space and use tax until repealed. Revenues and expenditures for the two counties are tracked separately within the fund. Arapahoe County's ordinance defines the Arapahoe County Open Space Tax to be for expenditures in park land acquisitions and improvements, construction, maintenance (not to exceed 20.0 percent of revenues), education, and patrol for parks and open space. In addition, funding can be used for environmental education programs. As of 2011, this fund also includes revenues and expenditures related to the Adams County Open Space Tax. The Adams County ordinance defines the Adams County Open Space Tax to be for expenditures on park land acquisitions and improvements, construction, maintenance, management and patrol of parks, open space, and recreation facility improvements.

Ending Funds (Bud.)	\$ 11,716,709	\$ 7,023,955	\$ 5,685,167	\$ 7,581,167	\$ 12,962,480	\$ 18,237,052	\$ 25,608,735

Factors Affecting Revenue

The majority of the year-to-year variation in this fund is related to intergovernmental revenue tied to sales tax. The 2022 projection is \$472,100 (3.9 percent) more than the 2022 Original Budget, due to an increase in intergovernmental revenue. The 2023 projection includes a \$1.9 million (15.8 percent) increase, primarily associated with expected intergovernmental revenues in both Adams and Arapahoe Counties.

Factors Affecting Expenditures

The majority of the expenditure variation from year to year is primarily dependent on capital project expenditures in the fund. Capital expenditures vary significantly from year-to-year. For example, in 2020 and 2021, less capital spending occurred compared to that projected in later years. Capital expenditures in 2022 are expected to surpass \$12.2 million, the highest amount of any year shown. Capital in 2023 is expected to drop \$3.9 million to \$8.3 million before leveling off to an average of \$4.3 million in the out-years. Significant capital projects in 2023 include Central Community Park, Triple Creek Trail Improvements, Rocky Ridge Park, and a park equity project. Significant capital projects in the out-years include Triple Creek Trail, Central Community Park, Highline Hollows Park, a continuation of the park equity project, and irrigation, courts, and trail replacements.

Concerning operating expenditures, the \$819,800 (13.8 percent) variance between the 2022 Original Budget and the 2022 projection is due mostly to vacancy savings related to higher than historical turnover related to the Great Resignation. The 2023 operating budget is \$1.2 million higher than the 2022 original operating budget, due to pay and benefit increases, significant inflation-related mandated costs, and the addition of 7.0 FTE, including the 4.0 FTE Park Rangers and 1.0 FTE Park Ranger Supervisor for daytime patrols in Parks and a 2.0 FTE transfer of FTE from the Designated Revenue Fund related to anticipated maintenance changes at Dove Valley. The future operating expenditures are based on citywide assumptions for each expenditure stream.

Ending Funds Available

The use of funds available typically follows the capital plan. In years with relatively low capital spending, like 2020 and 2021, funds available increase. In years with more capital spending, like 2022 and 2023, funds available decrease. Funds available are projected to drop to \$5.7 million through 2023, before climbing to \$25.6 million by 2027. The last year of the Sports Park debt service is in 2024 which contributes to the large fund balance increase in 2025 through 2027. The department will complete a system-wide park and recreation master plan in 2023 which will inform future capital project priorities and related spending.

Purpose of the Fund

The Parking and Mobility Fund is a special revenue fund that has been created to implement the Park Aurora Parking and Mobility Business Plan endorsed by City Council in summer 2015. The Park Aurora Program is a service function of the City of Aurora with goals to provide efficient parking management operations and a safe and positive parking environment for customers while supporting and strengthening the transit-oriented development, urban center, and place-making goals of the community.

Factors Affecting Revenue

The original assumptions for revenue related to the fund were based on projected RTD ridership on the “R” line, station area redevelopment that would increase parking demand, citations issued, and the collection rates. RTD ridership has been extremely low since the proliferation of the COVID-19 pandemic. There is less reliance on parking options. In addition, rates for monthly passes and self-parking have been reduced as part of an intergovernmental agreement with RTD tied to garage utilization rates.

In 2022, even though citation revenue is lower due to vacancies in the enforcement division, the majority of revenue has come from fines and forfeitures from the program actively monitoring parking rules and regulations. The demand for monthly passes for Iliff Garage and on-street paid parking continues to be low as people continue to work remotely or find other alternatives. Total revenues, excluding transfers in 2022 are projected to be \$27,800 (6.6 percent) less than the 2022 Original Budget.

By 2023, total revenue, excluding transfers will increase by \$145,100 (34.6 percent) from the 2022 Original Budget. This is primarily due to fines and forfeitures increasing as two new contracted Parking Enforcement Officers will be added. Based on current citation collection rates, the enforcement efforts of a fully trained Parking Enforcement Officer yield enough revenue to pay for the position. The intergovernmental revenue from RTD will continue to escalate annually at a rate of two percent to address annual increases in operations and maintenance expenses. The General Fund subsidy will be adjusted to maintain zero funds available.

Factors Affecting Expenditures

The Parking and Mobility Fund includes a vendor contract to provide turn-key professional parking management service focused on: off-street parking; on-street parking; parking permit issuance; parking enforcement; citation adjudication and administration (including hearing officers); meter operation; and a customer service portal. Enforcement staffing levels based on citizen responses and coverage expectations will affect the future growth of the expenditures.

In 2022, expenditures are projected to be under budget by \$48,200 (4.1 percent). This is primarily due to vacancy savings in contracted services as well as the cost of a patrol vehicle being less than expected. In 2023, expenditures will increase by \$178,600 (15.3 percent) compared to the 2022 Original Budget. This is primarily due to the one-time funding of two new enforcement vehicles, funding for two additional contracted Parking Enforcement Officers, and personal services increases as compensation base adjustments are factored in.

Ending Funds Available

A subsidy from the General Fund is necessary for balancing of the fund and may be required for a more extended period than what was originally planned due to lower than expected RTD ridership. Until the point that revenue exceeds expenditures, funds available will remain at zero in the Parking and Mobility Fund.

Purpose of the Fund

The Parks Development Fund (PDF) is a component of the Parks, Recreation and Open Space Department's (PROS) Capital Improvement Program. The fund supports land acquisition, park design, and construction within specific areas in proximity to the areas originating the funds. Developer contributions, fees, and interest earnings support the Parks Development Fund. Parks Development funds are often used to leverage other parks capital funds, such as the Open Space or Conservation Trust Funds. As those projects move through the design process, Park Development funds will be used to supplement the total project budget. Given the geographic restrictions and the timing of the design and planning processes for individual projects, it is difficult to forecast PDF expenditures in the out-years.

Factors Affecting Revenue

Development revenue makes up the majority of revenue in any given year and tends to be sporadic, with 2020-2022 coming in higher than normal. In 2022, revenues are projected to increase \$1.5 million over the 2022 Original Budget associated with additional developer contributions. In 2023, the contributions are expected to continue, but decline in the out-years. Investment income is expected to stay relatively steady throughout the five-year plan.

Factors Affecting Expenditures

Expenditures in this fund can vary from year to year, depending on the capital projects funded at the time and the amount collected for each development. Revenues must be spent on neighborhood and community parks in the areas from which the revenues were collected. Revenues are reviewed annually to identify appropriate expenditure opportunities for the next two years.

Significant Capital Projects in 2022 include system-wide master planning and Utah Park. In 2023, capital projects include Red-tailed Hawk Park, Crestridge Park, Lowry Park, and Dome Park. Significant out-year PDF projects include Dome Park and Centre Hills Park. The detailed schedule for the PDF projects is presented in Appendix 2.

On the operating side, 1.0 FTE Senior Planner cut in 2021 has been restored as part of the 2023 budget.

Ending Funds Available

For the years with significant capital projects, funds available are expected to decline, such as in 2023. In the years without significant capital expenditures, funds available are projected to increase as funds build up for large projects. By 2027, funds available are projected to grow to \$22.5 million. Of the funds available at the beginning of 2022, \$6.9 million was collected specifically to develop community parks along the E-470 corridor.

Purpose of the Fund

The Recreation Fund, established in 1986, accounts for recreational services provided to citizens. Funding for these services comes from user fees and a General Fund transfer, intended to cover mandated costs which include personal services costs, utilities, interfund charges, and other required costs such as custodial fees and contractual escalators. The recent COVID-19 pandemic significantly affected the fund and its ability to provide recreation services in 2020 and early 2021.

Factors Affecting Revenue

A return to normal levels of Recreation Fund facility and program usage was projected as part of the 2022 budget, but that return is materializing much slower than assumed. Total Recreation Fund revenue is projected to come in \$2.7 million (17.6 percent) less than originally assumed. Most of the decreases are seen in external charges, specifically class/team fees, leisure passes, and concessions. Intergovernmental revenues is projected to be \$238,000 (56.0 percent) lower than the 2022 Original Budget and off from previous years. The subsidy transfer from the General Fund, which includes a \$500,000 increase in the subsidy to help operate the Southeast Recreation Center, is expected to remain on budget.

For 2023, total sources before the decrease in fund available are expected to remain very close to the 2022 Original Budget, up \$202,600 (1.3 percent), with an \$808,800 (10.7 percent) transfer increase partially offset by a \$358,700 (4.8 percent) decrease in charges for service and a \$240,000 (56.5 percent) decrease in inter-governmental revenue. In the out-years, total revenues are projected to grow in the range 4.0 to 5.0 percent each year.

Factors Affecting Expenditures

Compared to the 2022 Original Budget, 2022 projected expenditures are down \$4.3 million (27.3 percent). The majority of this, \$3.8 million, is in personal services. Some of this is due to significantly high turnover, as well as the

difficulty experienced in refilling vacant recreation positions, especially in the Aquatics and Centers/Fitness programs. In addition, supplies and services are projected to be \$593,100 (23.3 percent) under the 2022 Original Budget based on cost cutting measures in every program to assist with fund balancing.

For 2023, expenditures are expected to be \$1.2 million (7.3 percent) higher than the 2022 Original Budget. Personal services, up \$841,000 (7.0 percent) drive most of that increase. There are several causes for this, including the full-year funding of 16.0 FTE Southeast Recreation Center staff added for only a partial year in 2022, as well as citywide pay and benefit increases. Due to slower growing revenue projections, a \$500,000 vacancy savings target was included to partially offset these increases. Inflationary pressures are also driving up utility spending \$317,600 (29.4 percent), with electricity, natural gas, and water/sewer costs increasing. The largest increase is in electricity costs, up \$210,500 (31.6 percent).

Ending Funds Available

Funds available are projected to rise significantly in 2022, up \$1.5 million (58.2 percent), primarily associated with the turnover and hiring issues mentioned previously. For 2023, full-funding of recreation staff and the projection of a slower-than-anticipated return of Recreation Fund revenues are driving a \$1.3 million (32.7 percent) decrease in funds available. By 2027, funds available are projected to hit \$1.9 million.

Purpose of the Fund

The Risk Management Fund accounts for centralized costs of self-insurance retention, administration, safety, and occupational health programs and excess insurance coverage for claims and judgments made against the city. Revenues are derived from charges to departments, interest income, and insurance recoveries.

Factors Affecting Revenue

In 2022, revenues are projected to be \$265,400 (1.8 percent) less than the 2022 Original Budget due to projected declines in insurance recoveries and interest income.

In 2023, internal charges to departments will increase by \$1.2 million (8.9 percent) to cover the increase in insurance premiums and claims as outlined below. These internal charges account for 93.2 percent of sources with approximately 77.4 percent charged to the General Fund. The General Fund transfer to the Risk Management Fund has increased by \$500,000 to better cover growth in expenses related to incurred but not reported (IBNR) risk claims.

In the out-years, charges for services are expected to increase 6.0 percent per year which drives most of the revenue growth.

Factors Affecting Expenditures

Total expenditures in 2022 are projected to be \$730,100 (4.9 percent) higher than the 2022 Original Budget due to increases in insurance premiums and claims. Public entity liability claims are projected to be \$1.0 million higher than budgeted, vehicle accident claims are projected to be \$324,500 higher than budgeted, and risk insurance premiums are projected to be \$280,200 higher than

budgeted. These projected increases are offset by \$496,600 in operational savings as well as \$378,000 in savings in other risk claim categories.

In 2023, expenditures are expected to be \$1.5 million (10.1 percent) higher than the 2022 Original Budget. Insurance premiums will increase \$653,200 (18.2 percent) and the appropriation for IBNR claims will increase by \$500,000 (50.0 percent).

In the out-years, the cost of supplies and services are expected to increase 6.0 percent per year which drives most of the expenditure growth.

Ending Funds Available

Funds available can vary significantly from year to year. The preferred amount of funds available brings an additional level of confidence to the claims payable liability based on the annual actuarial report of the fund. At the end of 2020, the fund had a year-end balance of \$6.0 million. Due to significant increases in claims paid in 2021 and 2022 the fund balance is projected to decline to \$3.0 million at the end of 2022.

In the five-year outlook, charges to departments are expected to increase by approximately 6.0 percent annually. Funds available are projected to remain around \$3.0 million throughout the five-year plan.

Purpose of the Fund

The Transportation Maintenance Fund was created for the 2023 budget, shifting the five ongoing transportation maintenance budgets into a separate fund, which provides a clearer vision for such maintenance. These budgets include Concrete Repair, Street Asphalt Overlay, Chip Seal / Crack Seal, and Street Reconstruction. The Capital Projects Fund budget and out-year projections are being decreased a commensurate amount. It will be funded via a transfer from the General Fund exactly the amount of the year's expenditures, thus will have no funds available.

Ending Funds (Bud.)	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Factors Affecting Revenue

Typically, this fund will receive a transfer from the General Fund for the exact amount of that year's expenditure need. In 2023, an additional \$35 million is expected for the proceeds of Certificates of Participation (COPs) being funded from the Capital Projects Fund.

Ending Funds Available

This fund will be funded at exactly the amount of the year's expenditures via a transfer from the General Fund, and thus will have no funds available.

Factors Affecting Expenditures

In addition to the transportation maintenance projections moved from the General Fund, the \$35 million from the COPs will be budgeted in 2023.

Purpose of the Fund

The Wastewater Fund is an enterprise fund that provides for the systems and operations used in the collection and treatment of wastewater from the sanitary sewer as well as stormwater activities of the city.

Ending Funds (Bud.)	\$ 30,273,015	\$ 5,528,946	\$ 24,828,391	\$ 3,530,709	\$ 5,898,260	\$ 3,398,632	\$ 4,566,460

Factors Affecting Revenue

Revenue is comprised primarily of utility sales, development fees, and other charges for services. The 2022 projected revenues include a 4.0 percent increase in sewer rates and a 3.5 percent increase in stormwater monthly service fees. Total Wastewater Fund revenues are expected to come in slightly higher than budgeted, up \$1.2 million (1.4 percent).

Excluding proceeds from borrowing, 2023 revenues are \$4.5 million (5.0 percent) higher than the 2022 Original Budget, driven by projected utility sales. Planned rate increases include 5.0 percent in Sewer and 3.5 percent in Stormwater. Sewer connection fees are projected to increase 6.3 percent and no increase is projected for stormwater development fees. Development fee revenues are expected to decrease \$1.4 million (13.2 percent) compared to 2022 as the growth in the city is expected to be slightly less than previous record years while still remaining strong. Debt financing is projected in 2023 to finance sewer infrastructure projects. Debt financing is evaluated and updated annually.

Annual forecasts through 2027 are based on a historical average customer growth prepared by Aurora Water staff. The long-range outlook includes an annual rate increase of 5.0 percent for sanitary sewer and 3.5 percent increase in the monthly usage fee for stormwater in 2025 and 2027. Sewer and stormwater connection fees are projected to have inflationary increases of 4.0 percent from 2024 through 2027 once the new master plans are completed. The amount of actual future rate and fee increases, if any, is impacted by multiple factors and will be determined in future budgets.

Factors Affecting Expenditures

Expenses in the Wastewater Fund can vary greatly, mainly due to changes in sanitary sewer treatment charges from Metro Water Recovery (Metro) and timing of capital projects. The 2022 projected operating expenses, which excludes capital projects, are projected to be \$3.5 million (4.9 percent) lower than the 2022 Original Budget primarily due to vacancy savings and lower than anticipated supplies and services expenses. The 2023 operating budget is \$2.8 million (4.0 percent) higher than the 2022 Original Budget, due primarily to personal service increases, including the funding of 3.9 new FTE. Supplies and services, utilities, and allocated expenses are also drivers of the increase.

Major capital projects funded in 2023 through 2027 include new infrastructure construction, maintenance, and repair to ensure properly maintained systems, and new projects for maintaining current infrastructure and growth. Significant projects include New Sewer Line Construction (\$31.3 million), Westerly Creek (\$28.3 million), and First Creek Interceptor (\$25.9 million).

The long-range outlook in operating expenses is primarily driven by increases in debt-related costs and salary increases. Long-range capital planning is undertaken to ensure the sewer and stormwater systems have adequate capacity to address future needs.

Ending Funds Available

Ending funds in 2027 are projected to be \$962,500 less than 2022. The 2023 projected borrowings will result in an increase in ending funds available, followed by a series of fluctuations primarily caused by the level of capital appropriations in any given year.

Purpose of the Fund

The Water Fund is an enterprise fund that provides for the acquisition, development, and protection of water and water rights, and the operation and maintenance of the water purification facilities and distribution system, to provide safe drinking water to customers.

Factors Affecting Revenue

Revenue is comprised primarily of utility sales and development fees. The 2022 revenue projections are in line with budgeted revenues. Collections of development fees are expected to be close to budget. Utility sales are expected to be slightly lower than budgeted but offset by other revenues.

In 2023, total revenues are expected to be \$10.3 million (5.3 percent) higher than the 2022 Original Budget. The majority of the increase can be attributed to a rate increase of 4.0 percent in water based on normal growth expected in the customer base. All other revenue streams are anticipating increases as well.

Annual forecasts through 2027 are based on a historical average customer growth prepared by Aurora Water staff, average temperature, and precipitation projections. The long-range outlook includes annual water rate increases of 5.0 percent from 2024 through 2027. Debt financing is projected in 2024 and 2026 to finance Wild Horse Reservoir and other infrastructure projects for a total of \$530.0 million; \$330.0 million in 2024 and \$200.0 million in 2026.

Factors Affecting Expenses

Expenses in the Water Fund vary from year to year, mainly due to the timing of capital projects. The 2022 operating expenses, which exclude capital projects, are projected to be higher than the 2022 Original Budget by \$1.4 million (1.3 percent). This variance is primarily due to personal services vacancy savings offset by additional supplies and services spending, including a special assessment for the Busk Ivanhoe tunnel repair (\$1.3 million). Operating expenses for 2023 will increase \$12.1

million (11.6 percent) compared to the 2022 Original Budget, primarily to account for increases in supplies and services including the Lead Replacement Program (\$3.0 million), utilities, capital related equipment, and personal services funding, including the addition of 6.1 FTE.

Major capital projects funded in 2023 through 2027 include new infrastructure, maintenance, and repair to ensure properly maintained systems, and new projects for maintaining current infrastructure and growth. Capital projects initially have limited details and design features. Costs are subject to change as more information becomes available. Significant projects include Wild Horse Reservoir (\$262.2 million preparation and initial construction), Improvements to Water Treatment Facilities (\$170.4 million), and Water Rights Acquisition (\$150.0 million).

In the long-range outlook, increases in operating expenses are primarily driven by inflationary increases and increases for debt principal and interest payments based new projected debt in 2024 and 2026. Capital planning ensures sufficient and reliable water supplies for Aurora's water customers. This includes significant spending on water and storage acquisition, as well as transmission and distribution projects.

Ending Funds Available

Funds available tend to ebb and flow based on the level of capital appropriations and future borrowing. As an example, 2023 is expected to be spent down to \$535,700, before borrowing in 2024 increases funds available drastically. Expected borrowing is also projected in 2026. Ending funds in 2027 are projected to be \$40.8 million less than 2022.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

DEPARTMENT OPERATING BUDGETS

2023 Department Operating Budgets Overview

This section presents detailed information regarding the operating budgets for each city department. The following items are included in the following pages for each department:

- A summary of programs including all funding sources and a brief description of services;
- A department summary of FTE and expenditures;
- A budget summary for each major type of expenditure;
- A budget narrative of factors influencing the department's budget;
- A listing of base budget adjustments;
- A summary of operating budget amendment requests, including amendments added by Council at the October 8, 2022 Budget Workshop;
- A summary of operating budget amendment requests;
- An operating expenditure summary for each fund in the department;
- A staffing summary for each fund in the department; and
- A program description with expenditures by fund, expenditures by type, staffing and performance measure summaries for each program in the department. Inactive programs are not displayed.

Data for the years 2020 through 2023 are presented for the operating budget. The 2020 through 2021 data represent actual expenditures reconciled to the city's Annual Comprehensive Financial Report, with minor variances due to rounding.

The 2022 original data represents the original Adopted Budget that was adopted by City Council in the fall of 2021. The 2022 projection data represents a projection of year-end expenditures. The 2023 numbers represent the Adopted Budget.

The city operating budget is developed with the prior-year budget as a starting point. Base budget adjustments are made in the budget for maintaining service levels from the prior year. Examples of base budget adjustments include increases for costs, such as increased fuel costs and increased insurance costs. Due to the large quantity and relative significance of base budgets, the Base Budget Adjustments section summarizes base budget adjustments into several categories listed and described below:

- **One-Time Removals.** Adjustments for items placed in or removed from the prior-year budget that were for only one year. An example is one-time equipment purchases.

- **Mid-Year Modifications.** Budget supplemental ordinances approved during the year prior to the budget year that have an ongoing impact.
- **Compensation Adjustments.** All full-time positions in the city are projected based on current pay and benefit levels. Furlough savings are also projected here. Personal services budgets are adjusted based on these projections and other projected pay and benefit costs. Examples include increases in planned health insurance contributions or an individual change in a health insurance plan.
- **Mandated Costs.** Expenses the city must fund to maintain service levels. Examples include increasing fuel prices or insurance costs.
- **Grant/Designated Revenues Adjustments.** Due to an often-limited time frame for grant funded projects, budgets are adjusted based on current grant awards or the spending down of cash available for a grant.
- **Other Adjustments.** Usually associated with moving operational budgets for specific items from one department to another in accordance with the active management of operations.

The prior-year original budget with the addition of base budget adjustments equals the Base Budget. The Base Budget is amended with programmatic adjustments provided in specific detail in the Amendments section following the base budget adjustments. The Amendments section details expenditure, revenue and FTE adjustments that affect how the department operates. While the majority of items affect expenditures, some amendments have impacts to city revenues. For example, an elimination of a recreation program would also likely reduce fee revenue from the program. Therefore, the 'Net' column demonstrates the net impact to the fund from a budget amendment.

The FTE column displays changes to full-time equivalent employee counts within a department.

The sum of the prior-year original budget, base budget adjustments and operating budget amendments will result in the department's 2023 operating budget. Details on how the funding is used are included by program in the program section.

Aurora Water

PROGRAM SUMMARY

Administration \$592,538 2 FTE *Provide executive management direction and control for Aurora Water	Debt Service \$37,151,944 0 FTE *Fund debt service payments for the Water and Wastewater funds	Environmental Services \$7,470,399 29 FTE *Conduct environmental inspections, and provide water and wastewater compliance assistance
Financial Administration \$60,743,715 55.4 FTE *Provide administrative, financial, and business analysis support for Aurora Water operations and capital improvement program	Operations & Maintenance \$26,028,981 145.6 FTE *Operation and maintenance of water delivery system and sanitary sewer and storm drainage collection systems	Planning & Engineering Services \$10,828,716 67 FTE *Provide infrastructure planning and engineering review, inspections, GIS support, and manage the capital improvement program
Public Info & Water Conservation \$3,195,413 17 FTE *Provide water information and conservation services to the public	Support Services \$11,727,305 87 FTE *Provide high quality, efficient, and cost effective services to internal and external customers, and support operational activities	Treatment \$18,253,642 76 FTE *Provide treated water, reuse water treatment services, and operation and maintenance of raw water supply systems
Water Resources \$15,076,848 25 FTE *Manage the planning, acquisition, permitting, and use of the city's water supplies

Aurora Water

DESCRIPTION

Aurora Water is responsible for enhancing and protecting the quality of life for Aurora citizens by providing quality water, sewer, and stormwater services in a manner that balances social, environmental, and economic needs. Responsibilities and roles within the organization include: operation and maintenance of the water, sewer, and stormwater systems; water purification and reuse water treatment; utility financial monitoring, planning, customer billing, and revenue collection; infrastructure planning and engineering, inspections, and management of the capital improvement program; public information and water conservation; water resources planning, acquisition, and development; permitting, watershed protection, and water and wastewater regulatory compliance; and administration.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Aurora Water Department 2022 projection is \$154,000 (0.1 percent) under the 2022 Original Budget across all funds, but with significant variation between funds. The Wastewater Fund is projecting \$3.1 million in savings, primarily from \$1.5 million (9.3 percent) in personal service savings, and \$1.3 million (21.8 percent) in supplies and service savings, especially in professional services.

The Water Fund is projected to be \$2.4 million (2.3 percent) over the 2022 Original Budget, with \$2.1 million (6.3 percent) in personal service savings partially offsetting a \$4.0 million (17.8 percent) overage in supplies, primarily from increased Intergovernmental Agreement (IGA) payments, ditch company assessment costs, and credit card fees. A supplemental will be necessary for these.

The 2022 budget marks the first time Aurora Water had a budget in the General Fund with the creation of the Central Customer Service Center funded in the 2022 Spring Supplemental. This supplemental included 4.0 FTE customer service staff.

2023 Department Budget Variance

The Aurora Water Department 2023 budget is \$17.1 million (9.8 percent) higher than the 2022 Original Budget, with \$9.6 million of that coming in base adjustments, including \$5.4 million in mandated costs. The primary driver of the mandated cost increase includes \$3.7 million in utility increases. The city's compensation increase of \$3.3 million are also found in base adjustments.

There are \$7.5 million in amendments in Aurora Water, with \$6.0 million in the Water Fund, \$1.1 million in the Wastewater Fund, \$334,300 in the Development Review Fund (DRF), and \$95,000 in the General Fund. The 2023 budget marks the first time Aurora Water has had budget in the DRF, taking on the drainage review duties from Public Works. A total of 15.0 FTE are being added, including 5.1 FTE in the Water Fund, 3.9 FTE in the Wastewater Fund, 3.0 FTE in the Development Review Fund, and 3.0 FTE in the General Fund.

Details behind these amendments can be found in the Budget Amendment Request section.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget

New Appropriation

Activate and Fund 8.0 FTE Across Various Departments in the Development Review Fund	0.00	0	0.00	0	3.00	334,289
---	------	---	------	---	------	---------

Program affected: Various in Aurora Water, Public Works, Planning and Development Services

Strategic Outcome: Planned and Maintained

Duration: Various across noted departments

This amendment adds staffing in the Development Review Fund across three departments. The request for additional staff is due to increased workload related to development review activity. Ongoing management of the development review processes, policies, and procedures by staff has identified the positions as critical to improve consistency, quality, timeliness, and predictability for all phases of development within the city. Public Works will add 1.0 FTE Building Life Safety Supervisor, 1.0 FTE Permit Technician Supervisor, and 1.0 FTE Plan Review Manager for the new Development Review Division within the department. Aurora Water will add 1.0 FTE Engineer, 1.0 FTE Engineer Technician, and 1.0 FTE Project Engineer as the Drainage Review has been transferred from Public Works to Aurora Water. Planning and Development Services will add 1.0 FTE Planning Supervisor and 1.0 FTE Project Coordinator.

Add 1.0 FTE - Convert Variable Hour GIS Specialist	0.40	39,094	0.60	58,644	1.00	97,738
--	------	--------	------	--------	------	--------

Program affected: Planning and Engineering Services

Strategic Outcome: Planned and Maintained

Duration: Ongoing

The GIS staff has utilized variable hour staff and intern staff over the last several years to manage an ever-increasing workload. The recent Water Tech Master Plan identified additional resources needed to maintain a level of service as more staff across the utility become reliant on the GIS data and associated tools. The GIS staff workload is especially heavy in times of new development; however, should that decrease, there is a list of 120 outstanding project requests that continues to grow.

Aurora Water

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget
<i>New Appropriation</i>						
Add 1.0 FTE - Convert Variable Hour Project Engineer (SCADA)	0.40	50,656	0.60	75,982	1.00	126,638
Program affected: Planning and Engineering Services Strategic Outcome: Planned and Maintained Duration: Ongoing The Planning and Engineering Team currently has 2 FTEs for Supervisory Control and Data Acquisition (SCADA) related aspects for our capital projects delivery. These two staff are responsible for reviews of design drawings, one-line and electrical drawings, and then construction services including Factory Acceptance and Site Acceptance testing duties (FATS and SATS). SCADA is required on all projects that have a need for remote operation or remote monitoring/data collection. This includes all treatment plants, pump stations, lift stations, wells, large PRVs, and remotely operated valves. Due to the age of much of the existing SCADA infrastructure, the increased number of pumping facilities, and overall system expansion, the number of SCADA related projects has tripled in the last few years. In 2020, the team had 7 design projects and 8 construction projects. Now in 2022, the team has 23 design projects and 15 construction projects. Recognizing the drastic increase in SCADA related projects starting in 2021, the team asked for a variable hour position to help with the workload. However, when looking at the long-term capital projections, realizing the significant time dedication required for FATS and SATS, and the challenge to get this position backfilled as a variable hour position, engineering is requesting conversion from variable hour to an FTE.						
Add 1.0 FTE AW Technology Administrator	0.40	62,417	0.60	93,627	1.00	156,044
Program affected: Financial Administration Strategic Outcome: Planned and Maintained Duration: \$154,000 Ongoing, \$2,000 One-time Add 1.0 FTE AW Technology Administrator as identified in the Water Technology Master Plan. This position is needed for a broader view of the Water Technology Program and managing priorities, budget, and governance of all technology in the department. The Aurora Water Technology Administrator creates a technology vision and strategy for the City of Aurora Water department and ensures its integration across diverse divisions within the utility in coordination with the City Information Technology Department. They will identify opportunities for differentiating the technology portfolio including capabilities and solutions. They will act as a change agent in leading the organizational changes that are required to create and maintain the necessary technology portfolio. They will possess extensive knowledge and understanding of the evolving utility technology market and act as a thought leader on emerging technology trends. They are responsible for researching and developing new strategies and implement water technology policies.						
Add 1.0 FTE Customer Billing Representative	0.30	23,525	0.70	54,887	1.00	78,412
Program affected: Financial Administration Strategic Outcome: Planned and Maintained Duration: Ongoing This request is for one Customer Service Representatives (CSR) for the Water Billing & Customer Service section of Financial Administration and reduce temporary contract labor to continue to ensure the highest level of customer service as the City continues to grow. As the City continues to grow and the number of Water customers continues to expand, the workload for customer service representatives also continues to grow. The additional FTE will help to maintain good customer service to our water customers.						

Aurora Water

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget
<i>New Appropriation</i>						
Add 1.0 FTE Paralegal II and Reduce Outside Legal Services	0.00	0	0.00	-99,098	0.00	-99,098
Program affected: City Attorney Civil Division (Water Fund) Strategic Outcome: Planned and Maintained Duration: Ongoing \$0 (Water Fund), \$1,000 (GF) This zero dollar ongoing amendment will add FTE authority for 1.0 FTE in the City Attorney's Office Water Fund budget. To offset the cost of adding the FTE, the department, in coordination with Aurora Water, has reduced the outside legal services appropriation housed in Aurora Water. There is a small ongoing increase of \$1,000 for office-related needs in the City Attorney's General Fund budget. This position will address the increasing need for more in-house water acquisition support for the Water Department. The increase is due to the retirement of the long-used outside water attorney and will support the new in-house water attorney authorized in the 2022 budget. This position will report to the development group manager and support the senior water attorney. As the in-house staffing comes on board, the outside legal services budget will continue to be reviewed and adjusted as needed.						
Add 1.0 FTE Project Coordinator	0.40	35,611	0.60	53,415	1.00	89,026
Program affected: Planning and Engineering Services Strategic outcome: Planned and Maintained Duration: \$87,000 Ongoing, \$2,000 One-time Planning and Engineering has seen a steady increase of capital projects over the past few years due to the growth of the City and the continually aging infrastructure. Therefore, our current estimator/scheduler has been asked to perform project management duties. In addition, as a part of our succession planning efforts, we have started to cross-train our scheduler/estimator/project manager on the North Campus program while also transitioning the Senior Engineer currently overseeing the North Campus to assist with the Homestake assets shared with Colorado Springs Utilities. Therefore, we are requesting a project coordinator role to perform scheduling/estimating and additional project coordination roles to support the project managers and the SCADA team whose workload has tripled in the past three years.						
Add 1.0 FTE Water Conservation Manager	0.00	0	1.00	199,917	1.00	199,917
Program affected: Public Info and Water Conservation Strategic outcome: Thriving Duration: \$197,400 Ongoing, \$2,500 One-time Water Conservation has increasingly become a source for water to meet increased impacts on the city's existing water system of a hotter and drier climate, while effectively creating an additional water source to meet the needs of a growing community. Conservation tracks the total cost of water saved. Analysis shows efficiently utilizing current supplies increases the reusability of current and future water rights, at a cost that is one half to one third of new water acquisition. There is currently one supervisory position in Water Conservation which has been actively involved in higher level policy recommendations and determinations, more in line with the expectations of a manager. It also noted that there were too many direct reports to the supervisor, which has daily operational duties beyond personnel oversight. Creating a Water Conservation Manager will allow for sharing of personnel duties by retaining a supervisor to oversee several programs and their staff and allow the Manager position to focus on higher level discussions with stakeholders, both internal and external.						

Aurora Water

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget
<i>New Appropriation</i>						
Add 1.0 FTE Water Resources Project Manager	0.00	0	1.00	143,303	1.00	143,303
Program affected: Water Resources Strategic outcome: Planned and Maintained Duration: \$139,300 Ongoing, \$4,000 One-time Aurora Water owns more than 25,000 acres of land over 116 different properties and more than 17,000 acres of dry-up covenants and easements outside of city limits. The Water Resources Division manages and maintains these lands in conjunction with other teams in Water Operations. However, as Water Resources acquires more water rights and often more land, more compliance requirements must be managed and met. This is most prevalent in the Lower South Platte River Basin due to the nature of acquiring agricultural water rights and changing it to municipal use. Currently, multiple Water Resources staff manage the lands and various water use agreements, leases, and contracts in the Lower South Platte, the Upper South Platte and the Upper Arkansas areas. These staff have multiple other responsibilities and projects as well. A dedicated lands management staff person would ensure a comprehensive approach.						
Add 2.0 FTE - Convert Variable Hour Water Utility Inspectors	0.80	75,078	1.20	112,610	2.00	187,688
Program affected: Planning and Engineering Services Strategic Outcome: Planned and Maintained Duration: Ongoing The inspections staff has relied on several variable hour staff as well as third party resources over the last several years due to the continued growth in the City. The intent of this request is to convert two inspectors this year to FTE positions while monitoring workload for the need. One is in utility inspections and one is in our watch and protect group. In addition to the base workload, the team plans to train/increase training for inspectors to do more complex inspections that are currently being managed by third party consultants. If the development rate does decrease, this staff will stay fully utilized and afford opportunities to save on utility consultant costs. Additional benefits of an FTE position are to get more qualified candidates in a tough job market. For the Watch and Protect Group, there are currently three employees (one full time variable hour and two part time variable hour) who provide oversight of the two most critical pipelines (Rampart and PWP). They drive the lines to ensure no one is constructing near them without a license agreement, help issue license agreements, and do construction oversight for those working near the lines once a license agreement is issued.						
Add 3.0 FTE Customer Service Representatives	0.00	0	0.00	0	3.00	95,028
Program affected: Financial Administration Strategic Outcome: Planned and Maintained Duration: Ongoing This amendment will add three additional Customer Service Representatives (CSRs) for Access Aurora while eliminating three Contract Labor Employees (CLEs) positions to ensure the highest level of customer service for the call center and Customer Service Hub in the General Fund. Access Aurora is currently understaffed to meet the needs of Aurora constituents. Access Aurora staff has been working diligently to maintain quality service and create efficiencies through the rapid changes and increases in roles and responsibilities. This amendment will ensure that appropriate service levels continue to be met through both the call center and walk-in center.						

Aurora Water

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget
<i>New Appropriation</i>						
Add Appropriation for Pump and Motor Maintenance	0.00	50,000	0.00	75,000	0.00	125,000
Program affected: Operations and Maintenance Strategic outcome: Planned and Maintained Duration: Ongoing The Pumping Section has a list of planned pump and motor rebuilds scheduled on a regular interval. With the inflationary costs for materials and shipping, additional funding is needed to cover the estimated annual cost for rehabilitating the pumps and motors or the purchase of smaller motors that are not fiscally viable to rebuild. This next year additional funding is required due to the number of pieces of equipment scheduled. The scheduled rebuilding of the pumps and motors is critical to maintaining reliable pump and lift stations.						
Add Appropriation for the Construction and Repair Program	0.00	58,500	0.00	331,500	0.00	390,000
Program affected: Operations and Maintenance Strategic outcome: Planned and Maintained Duration: Ongoing This request for increased funding will cover cost overruns incurred in the last two years. Cost overruns have been due to overtime pay, the increase cost of parts stocked in the warehouse, the increased cost of other construction materials, and increased costs when renting barricades for traffic control during water main break repairs.						
Hydro Excavation Vacuum Truck	0.00	88,500	0.00	501,500	0.00	590,000
Program affected: Operations and Maintenance Strategic Outcome: Planned and Maintained Duration: One-time Request the purchase of a hydro excavation vacuum truck. Vacuum excavation has become an expanding necessity for safe excavation around subsurface infrastructure which is becoming increasingly crowded by dry utilities. Current practice for stormwater system cleaning and large hydro-excavations is to request a Vac-Con combination vacuum and jet sewer cleaner truck, resulting in the crew being pulled from normal sewer cleaning duties to perform these activities. Purchasing this vacuum truck reduces the amount of workforce needed at a site and allows for crew efficiency. This will also provide a dedicated tool for excavation crews, stormwater maintenance, and allows the sewer cleaning crews to remain focused on their core function of maintaining the sewer collection systems. In 2021, Wastewater sewer cleaning crews were pulled from performing core duties and dispatched to excavate in assistance for Water T&D crews a total of 538 labor hours not including Vac-Con operating time and costs. Vacuum excavators can also be using for removing debris from storm drain inlets totaling 592 labor hours. Purchasing this vacuum excavator allows for more efficiency in providing a dedicated tool for excavation crews and Stormwater maintenance crews and allows the sewer cleaning crews to remain more focused on their core function of maintaining the sewer collection systems. This unit will primarily be utilized by both the Construction and Stormwater sections within O&M. With increasing excavations that have an abundance of surrounding dry utilities and tight access locations, hydro excavations are becoming a more efficient and safer way to excavate and complete repairs. Due to the increasing installation of water quality structures, debris removal and design changes of pond outlet structures within the stormwater system, purchasing this unit will also allow for safe, proactive, and efficient ways of cleaning the stormwater system.						

Aurora Water

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget
<i>New Appropriation</i>						
Increase Appropriation for Variable Hour Staffing	0.00	60,000	0.00	90,000	0.00	150,000
Program affected: Planning and Engineering Services Strategic Outcome: Planned and Maintained Duration: Ongoing Planning and Engineering Services is requesting an ongoing add of \$150,000. The P&E 2018, 2019, 2020, and 2021 temporary labor costs (including benefits) have been 290,000, \$350,000, \$350,000, and \$420,000 respectively. The temporary staff assist with the additional tasks that are generated from the continued strong development in the City. This also includes staff to better protect our raw water lines (Watch and Protect) due to increased construction outside the City and SCADA support staff to address the constant need for communications and control of external facilities.						
Lead Replacement Program	0.00	0	0.00	3,000,000	0.00	3,000,000
Program affected: Environmental Services Strategic Outcome: Healthy and Safe Duration: Ongoing This is a five-year project with the intent to remove lead and galvanized service lines. Aurora Water, focused on evaluating houses older than 1954, initiated a program to begin replacing identified lead service lines in 2018. The older area of Aurora, where the majority of houses built before 1954 are located, was identified as the area where lead service lines could be present. This effort will positively impact the community by removing these types of service lines.						
Power BI Software Purchase	0.00	28,000	0.00	42,000	0.00	70,000
Program affected: Planning and Engineering Services Strategic Outcome: Planned and Maintained Duration: Ongoing Planning and Engineering Services needs an additional \$70,000 in 2023 for the Software budget to pay for the following license increase: Power BI Capacity and Power BI Pro. Currently, the City of Aurora only licenses individual creator licenses for Power BI. For Aurora Water to utilize the dashboards created from several key 2022 and 2023 projects (Wemlinger Asset Management plan, IWMP 2, etc.) Aurora Water will need to license a server for Power BI (which will cover all 'viewers' of dashboards as well as the data model required to build them) and license several Power Users to create and modify dashboards. The Business Intelligence (BI) platform will enhance Aurora Water's current reporting capability to combine data from multiple systems, allow for additional functionality such as forecasting, and will be easier for users to gain insight from the data already collected. This will eventually eliminate the use of Aurora Water's current reporting software: SSRS and Crystal.						
Pump Casing for Large PW Conveyance Pumps	0.00	231,600	0.00	347,400	0.00	579,000
Program affected: Operations and Maintenance Strategic Outcome: Planned and Maintained Duration: One-time The casings on the smaller pumps in the Prairie Waters conveyance system showed degradation of the pump volute, a part of the pump housing. As a result, the three smaller pumps casings are being replaced. The larger pumps, which are of the same material and manufactured by the same company, are critical to pumping needed water. These pumps can convey between six to fifteen million gallons of water per day, which will be needed in the agreement to provide water for the WISE partnership. The Prairie Waters conveyance system at start-up was only needed on a limited basis. As the City has grown, the system is now being used as a primary source of water for Aurora customers and for the WISE partnership. In order to ensure the pump station can continue uninterrupted operation of the stations, these pump casings are critical to have on-hand for the scheduled maintenance of the pumps.						

Aurora Water

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023					
	Wastewater Fund		Water Fund		<u>Total</u>	
	FTE	Budget	FTE	Budget	FTE	Budget
<i>New Appropriation</i>						
Replace Laboratory Equipment Used for Sampling Drinking Water	0.00	37,500	0.00	212,500	0.00	250,000
Program affected: Environmental Services Strategic Outcome: Planned and Maintained Duration: One-time Drinking water regulations require quarterly sampling for disinfection byproducts including THMs and HAAs. In addition to the required quarterly samples, Aurora Water samples on a monthly basis to monitor these compounds to inform the treatment division. The current instrument is 25 years old and is nearing the end of its serviceable life. In 2021, the instrument required \$4,200 of repairs and was down for almost two months. The cost of subcontracting the tests is \$4,400 a quarter if the instrument is not operational. A newer instrument would not only allow us to maintain our current analytical capacity, but would also provide an opportunity to expand our ability to analyze for other non-regulated THM and HAA compounds and other parameters such as those related to taste & odor.						
Rocky Ford II Revegetation Efforts & Land Management	0.00	0	0.00	200,000	0.00	200,000
Program affected: Water Resources Strategic Outcome: Planned and Maintained Duration: \$50,000 Ongoing, \$150,000 One-time As part of the Rocky Ford II Revegetation Efforts & Land Management Program, an additional \$50,000 is requested as well as a \$150,000 one-time budget request for mitigation in 2023.						
Southeast Area Maintenance Facility (SEAM)	0.00	86,000	0.00	129,000	0.00	215,000
Program affected: Financial Administration Strategic Outcome: Planned and Maintained Duration: \$115,000 Ongoing, \$100,000 One-time The new SEAM facility is scheduled to be completed in 2023. This request will cover expenses necessary for the move to the Southeast Area Maintenance Facility and ongoing operations to include things such as utilities, custodial, equipment installation, landscape maintenance, and building systems support.						
Strontia Springs Watershed Management Program	0.00	0	0.00	188,760	0.00	188,760
Program affected: Strategic Outcome: Planned and Maintained Duration: \$78,700 Ongoing, \$110,100 One-time Aurora Water has several agreements with Denver Water for the operation and maintenance of Strontia Springs Reservoir. Aurora is obligated to pay a certain percentage of costs for these activities. There have been several wildfires within the basin above Strontia Springs Reservoir in the last 20 years. As a result, the sediment load and potential sediment load that can wash into the reservoir has increased. As sediment washes in, the total volume of the reservoir decreases. Aurora Water and Denver Water have agreed to 5-year management program aimed at removing and reducing sediment within the basin.						
Technical Adjustment: FTE Allocations Between Funds - Administrative	1.10	61,426	-1.10	-61,426	0.00	0
Program affected: Various Strategic Outcome: Planned and Maintained Duration: Ongoing This technical adjustment will reallocate administrative FTE between programs/funds (Water and Wastewater) as part of a re-organizational decision to better meet identified operational needs of the department.						

Aurora Water

<i>New Appropriation</i>						
Technical Adjustment: FTE Allocations Between Funds - Environmental	0.10	12,362	-0.10	-12,362	0.00	0
Program affected: Various Strategic Outcome: Planned and Maintained Duration: Ongoing This technical adjustment will reallocate environmental FTE between programs/funds (Water and Wastewater) as part of a re-organizational decision to better meet identified operational needs of the department.						
Vehicles to Support New Staff	0.00	60,000	0.00	90,000	0.00	150,000
Program affected: Planning and Engineering Services Strategic Outcome: Planned and Maintained Duration: One-time Three vehicles to support the new staff requested in the inspections and engineering teams (one pool vehicle and two inspection trucks). All vehicles being requested are electric vehicles to also allow for piloting for a future electric fleet (two trucks and one SUV).						
Watershed Health	0.00	0	0.00	100,000	0.00	100,000
Program affected: Water Resources Strategic Outcome: Healthy and Safe Duration: Ongoing Aurora Water diverts water from three major river basins within the state. The total area of Aurora's watershed is about 17,852 square miles or about 17% of the entire state of Colorado. Catastrophic wildfires are growing in intensity and impact. Wildfires can have enormously costly negative impacts on water supply infrastructure. For example, the debris from the Hayman fire that flowed into Strontia Springs Reservoir has cost over \$40 million dollars to remove. The Water Resources Division collaborates with other water providers like Denver Water, Colorado Spring Utilities and Pueblo Board of Water Works as well as other local, state and federal agencies and non-governmental organizations (NGOs) on projects and processes to prevent fires and mitigate impacts from fires in our watersheds. Several collaborative groups have been formed where water providers and NGO's can partner with the US and State Forest services to bring more resources, voices and political support to successfully navigate federal and state process in an effort to complete watershed health projects. These projects are labor intensive. Aurora Water is part of many of these collaboratives but has limited staff resources. As such, we usually contribute financially to many of these efforts. Our funding goes to either direct work within the forest or to support the process.						
WTO Training and New Employee Certification Incentive Program	0.00	37,744	0.00	56,615	0.00	94,359
Program affected: Support Services Strategic Outcome: Planned and Maintained Duration: Ongoing Request additional training funding for Instrumentation and Control Section for new online TPC Simulation Training, Thermography training & certification, Rockwell Automation Conference, Rocky Mountain Section AWWA local conference, ongoing Lenel training/certifications, and certification incentives for Electrical and HMI staff. Downtime of increasingly complex equipment can cost thousands and put a strain on water treatment plants and city infrastructure.

Environmental Services

This program provides support for other programs including analyzing data, conducting regulatory reviews, performing internal assessments and assisting with regulatory compliance and environmental permitting to ensure water, wastewater and stormwater programs meet applicable federal, state and local regulatory requirements. It conducts multi-disciplinary environmental inspections to ensure compliance with applicable federal, state, and local regulatory requirements and programs. Furthermore, the program collects water quality samples and performs a variety of analyses to provide qualitative and quantitative data for use in operational decisions. The 2023 budget includes the net allocation of 2.5 FTE from other programs.

Financial Administration

The Financial Administration Division provides administrative, business system, and financial support for Aurora Water. Primary duties include administration, business process mapping, customer billing and collections, accounting, rate development, budget development, and financial tracking and reporting. The Financial Administration Division also oversees department-wide funding not related to any specific Aurora Water program and maintains the financial integrity of the Water and Wastewater Funds. The 2022 Spring Supplemental transferred 3.0 FTE from Support Services and also added 4.0 FTE Access Aurora positions. The 2023 budget includes the addition of 3.0 Access Aurora Customer Service FTE, 1.0 FTE AW Technology Administrator, 1.0 FTE Customer Billing Representative, and a net allocation of 6.4 FTE from other programs.

Planning & Engineering Services

The program develops long range infrastructure and asset management and other technical plans. It develops and manages the GIS and Infor systems for Water. It provides engineering review of developers' utility submittals, processes tap applications, and manages infrastructure development. It manages and executes the Aurora Water Capital Improvement Program and performs inspections for both capital and development projects. The 2023 budget includes amendments to add 3.0 FTE Engineers in the Development Review Fund and 1.0 FTE Project Coordinator, 1.0 FTE GID Specialist conversion, 1.0 FTE SCADA Project Engineer conversion, and 2.0 FTE Water Utility Inspector conversion as detailed in the Budget Amendment Requests section.

Public Info & Water Conservation

The program provides public outreach and information on Aurora Water's current and future activities; develops source materials, both print and digital, in support of department's projects and programs; administers water demand management program, including direct customer interaction on water use awareness to achieve greater efficiencies; enforces Aurora Water Management Plan; provides educational resources for K-12 schools on water source, watershed awareness, water quality and conservation in alignment with science curriculums; and develops adult education curriculum on conservation and source water awareness. The 2023 Budget includes a 1.0 FTE Water Conservation Manager amendment.

Support Services

The program provides high quality, efficient and cost-effective services to internal and external customers, and supports operational activities. It is responsible for: emergency operations plans; warehouse services, specialized trades support; vehicle and equipment utilization, preventative repair and maintenance of small equipment; cross connection control program; contractor services on new infrastructure; wet utility locates; water meter-related activities; fire hydrant use permits; and technical support for the automation and control of process and security systems associated with the city's water infrastructure. In the 2022 Spring Supplemental, 3.0 FTE were transferred to the Finance Administration Program. In 2023, an additional 2.0 FTE were allocated to other programs.

Treatment

The program provides treated water (that meets or exceeds regulatory requirements) for Aurora residents and businesses through the water transmission and distribution system. It provides delivery of raw water supply to Aurora's water purification facilities through a network of system facilities (reservoirs, tunnels, pipelines, diversions structures, rivers, and pumping stations) as well as provides reuse water treatment services. In 2023, a net 2.5 FTE was allocated to other programs.

Water Resources

The program acquires, administers, develops, and protects the city's raw water supplies in the Colorado, Arkansas, and South Platte basins. It provides short-term and long-term planning to meet the city's existing and future water resource needs while protecting the city's water rights portfolio. It includes funding for water partnerships (Aurora-Colorado Springs Joint Water Authority and Busk-Ivanhoe Water System Authority) formed by contract for the purpose of developing and operating water resources, systems, and facilities in whole or in part for the benefit of the parties. A 1.0 FTE Water Resource Project Manager has been added to the 2023 Proposed Budget.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Aurora911 Department primarily resides in two funds, the General Fund and the Enhanced E-911 (E-911) Fund. In 2022, due to significant turnover, additional overtime was used, and compensation increases were approved to address turnover which increased personal services by \$853,600 (11.3 percent). Since the call-taker budget in the E-911 Fund is mostly covered with a subsidy from the General Fund, the compensation change increased the transfer out budget by \$701,200 (14.3 percent). In addition, General Fund equipment purchases and Gifts & Grants Fund professional services expenditures associated with the 911 Nurse Triage Line drove total expenses in all funds to be \$1.8 million over the 2022 Original Budget. A supplemental will be necessary for these expenses.

2023 Department Budget Variance

The Aurora911 Department 2023 budget is \$2.0 million (15.3 percent) higher than the 2022 Original Budget primarily due to the aforementioned compensation increase and the related transfer from the General Fund to the E-911 Fund. There is one \$6,300 add related to online training, resources, and clinical tools in the 2023 budget. There are no additional FTE.

City Attorney

DESCRIPTION

The City Attorney's Office has two divisions, the Civil Division and the Criminal Justice Division. The Civil Division works to prepare ordinances, represent the city in litigation, and provide legal counsel to the Mayor & City Council, Council Appointees and city departments. The Criminal Justice Division handles prosecution of violations of municipal ordinances and regulations.

BUDGET SUMMARY BY TYPE

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The City Attorney's Office primarily resides in two funds, the General Fund and the Water Fund. On a bottom-line basis, the department's 2022 projection is slightly over budget by \$39,000 (0.5 percent), but the funds themselves show larger variances. In the General Fund, the department is projected to be \$150,500 (1.9 percent) over the 2022 Original Budget. This is due to Equal Pay / Equal Work (EPEW) pay adjustments that were not included in the original budget. After taking this into account, the City Attorney's Office is projected to be on budget. On a more granular level, the Criminal Justice Division is seeing significant vacancies which is in turn driving an increase in professional services to cover those vacancies. Vacancies in the Civil Division are not as striking.

In the Water Fund, personnel savings are driving a \$111,600 (37.5 percent) variance in the Civil Division nearly covering the additional projection in the General Fund for EPEW wage adjustments. Due to the vacancies in the Water Fund, contracted services were used with those costs incurred in the Water Department budget. Internal water attorney positions are being recruited to limit further outside counsel legal fees to backfill vacancies.

2023 Department Budget Variance

The City Attorney's Office 2023 Budget is \$990,900 (12.0 percent) greater than the 2022 Original Budget. Much of this increase, \$582,500, can be found in base adjustments. Of the base adjustments, the compensation increase of \$575,500 is the single largest factor. The compensation adjustment is driven primarily by the reflection of the 2022 EPEW pay changes in the department, as well as the citywide assumptions for pay and benefit increases for 2023.

The 2023 budget includes three amendments. One is in the Water Fund and will add 1.0 FTE Paralegal II. This amendment has a zero dollar impact to the Water Fund as Aurora Water is reducing the legal services appropriation to offset the cost of bringing this in-house. The remaining two will impact the General Fund. One will add 1.0 FTE City Attorney position for 2 years to fulfill an intergovernmental agreement with the U.S. Attorney's Office. A second is for \$166,400 associated with weekend court. Weekend court is a state mandate per HB22-1067 requiring municipal courts to hold a bond hearing within 48 hours for a jailed person on a municipal hold. More information on this amendment can be found in the Budget Amendment Request section.

<u>General Fund / New Appropriation</u>				
Add 1.0 FTE Criminal City Attorney for US Attorney's Office IGA (two years)	1.00	141,992	0	141,992
<p>Program affected: City Attorney Criminal Division</p> <p>Strategic Outcome: Healthy and Safe</p> <p>Duration: One-time \$142,000 (2 years 2023/2024)</p> <p>This amendment will add appropriation for 1.0 FTE in the City Attorney's Criminal Division for two years (2023/2024). Recent changes in state law have impacted the ability for law enforcement to prosecute certain crimes, including Possession of a Weapon by Previous Offenders (POWPO) in state court. These offenses remain federal offenses and there is the ability for law enforcement to pursue federal prosecution of these cases. The City and the US Attorney's Office have entered into an Intergovernmental Agreement (IGA), whereby the US Attorney's Office will appoint an Assistant City Attorney as a Special Assistant to the US Attorney (SAUSA). As a SAUSA, the Assistant City Attorney will work directly with and under the supervision of the US Attorney's Office to prosecute violent crimes involving a firearm under the U.S. Code, specifically felons illegally in possession of a firearm under 18 USC Section 922 but may include other violent offenses involving firearms, that originate in or are connected to Aurora.</p>				
Add 1.0 FTE Paralegal II and Reduce Outside Legal Services	0.00	1,000	0	1,000
<p>Program affected: City Attorney Civil Division (Water Fund)</p> <p>Strategic Outcome: Planned and Maintained</p> <p>Duration: Ongoing \$0 (Water Fund), \$1,000 (GF)</p> <p>This zero dollar ongoing amendment will add FTE authority for 1.0 FTE in the City Attorney's Office Water Fund budget. To offset the cost of adding the FTE, the department, in coordination with Aurora Water, has reduced the outside legal services appropriation housed in Aurora Water. There is a small ongoing increase of \$1,000 for office-related needs in the City Attorney's General Fund budget. This position will address the increasing need for more in-house water acquisition support for the Water Department. The increase is due to the retirement of the long-used outside water attorney and will support the new in-house water attorney authorized in the 2022 budget. This position will report to the development group manager and support the senior water attorney. As the in-house staffing comes on board, the outside legal services budget will continue to be reviewed and adjusted as needed.</p>				

City Attorney

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Weekend Court	0.00	166,396	0	166,396
Programs affected: Case Management, City Attorney Criminal Division, Courtroom Assistants, Detention, Judicial, Marshal, Public Defender Strategic Outcome: Healthy and Safe Duration: Various across noted departments In order to comply with HB22-1067, the city will begin to hold court over the weekend starting January 1, 2023. This amendment adds appropriation to cover the staffing needs at the courthouse for weekend court. To accomplish this, several staffing options will be used including relief staff, overtime, contracted staff and the addition of 1.0 FTE Public Defender. This request is based on the Court being open one day per weekend unless there is a holiday requiring the Court be open both weekend days, for a total of 63 weekend days.				
Per the bill, municipal courts are required to hold a bond hearing within 48 hours for a person jailed only on a municipal hold, regardless of whether the deadline falls on a weekend or holiday. The 48-hour clock begins once the jail notifies the municipal court that a person is being held solely on the basis of a municipal hold, and the jail must ensure that the person is made available for the hearing. There are exceptions if the defendant refuses or is unable to attend the hearing in certain circumstances.

PROGRAM DETAIL

Civil Division

The Civil Division prepares ordinances and resolutions, represents the city in litigation, and provides legal counsel to city offices and City Council through both oral and written advice, including the drafting of memoranda and review of legal documents. Department performance may be measured primarily by maintaining the confidence of City Council and clients, and by performing all legal work with the highest of quality in a timely manner.

The Civil Division FTE count goes up by 1.0 FTE in 2023 for the addition of the Paralegal II in the Water Fund. See amendment detail for more information.

City Council

DESCRIPTION

City Council's role is to set goals and provide leadership to facilitate attainment of citizen satisfaction. This is accomplished by addressing constituent service requests in a timely manner, assuring broad citizen input/representation on issues, enacting ordinances for the benefit of citizens' health and safety, and representing Aurora's interests at the local, state, regional, and national level.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The variance in the City Council budget from the 2022 Original Budget to the 2022 Projection is due to a small amount of vacancy savings.

2023 Department Budget Variance

The City Council 2023 budget is \$2.7 million higher than the 2022 Original Budget, due almost entirely to a \$3.0 million one-time amendment setting aside funds for Council use. At the October 8 Budget Workshop, Council used \$300,000 of the amount for purchasing speed guns for police cars. The base budget increased \$3,500, with the removal a one-time add for Arts Festival funding made in 2022 mostly offsetting pay and benefit increases in accordance with city policy.

A detailed breakdown of City Council spending can be found in Appendix 4.

Civil Service Commission

DESCRIPTION

The Civil Service Commission is responsible for administering the City of Aurora's separate civil service system to examine and certify highly-qualified candidates for civil service positions in the Fire and Police Departments. Additionally, the Commission handles promotional testing and disciplinary appeal hearings of civil service personnel actions in accordance with its charter and ordinance responsibilities.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

For 2022, the Civil Service Commission is projected to be on budget compared to the 2022 Original Budget.

2023 Department Budget Variance

The Civil Service 2023 Budget is \$218,500 (17.8 percent) less than the 2022 Original Budget. The budget decrease is primarily due to the removal of a prior-year \$249,000 one-time amendment. The amendment addressed contractual costs and temporary salaries associated with background investigations and other testing related to larger Police and Fire academies that will continue. This is slightly offset with \$30,100 compensation adjustments in accordance with city policy.

There are no amendments included in the 2023 Proposed Budget. FTE counts are remaining the same.

Communications

DESCRIPTION

The Communications Department is responsible for conducting internal and external communications, as well as providing professional public and media relations support for the city. Communications also manages the city branding and marketing program. The department communicates the issues, priorities, activities, and news of the city to residents of Aurora and the metro area, with a goal of providing accurate and timely information. Information is provided via the Aurora Channel and its productions, city social media accounts, the city website, city-produced publications, and communication vehicles of the department and its partners. The Communications Department focuses on issue management and presenting stories of the city and community. The department oversees: Public Information, Marketing and Branding, the Aurora Channel, Art Media, the Mail Center, and the Print Shop. Additionally, the department works with many community partners on mutually beneficial marketing and public relations projects.

BUDGET SUMMARY BY TYPE

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Communications Department 2022 projection is \$188,000 (4.3 percent) lower than the 2022 Original Budget with the transfer of the Access Aurora Program to the Aurora Water Department being the biggest contributing factor.

2023 Department Budget Variance

The Communications Department 2023 budget is \$121,500 (2.8 percent) higher than the 2022 Original Budget. The decision to move the Access Aurora Program to Aurora Water resulted in a savings of \$329,400 offset by the amendment to the budget for a new Website and Digital Accessibility Coordinator in the amount of \$132,300 to ensure the city's web compliance with new state law. Additional variance can be attributed to the impact of citywide assumptions for benefit and pay increases.

The department is increasing by 1.0 FTE for 2023, as noted above to support web compliance with the Colorado House Bill 21-1110 which requires local public entities in Colorado to meet the OIT website accessibility standards.

PROGRAM DETAIL

Art Media

The city's team of graphic designers is responsible for supporting the entire city with design projects. The team continually seeks ways to deliver professional and attractive, brand-consistent designs at an economical cost to the city, including the design of all materials for the Fox Arts Center. As the job management system changed, on-time data was not captured in 2022.

Aurora Channel

The Aurora Channel provides quality local news and public affairs coverage about the community, as well as other educational programs of interest to residents and businesses. The division also produces informational and promotional videos for city departments and monitors cable television franchises in Aurora. Additionally, AuroraTV.org offers a host of on-demand programming. As the job management system changed, performance measure data was not captured in 2022.

Mail Center

The Mail Center ensures compliance with USPS rules, delivers and processes USPS mail and packages, and works with outside mail service companies to prep special and large-scale mail projects. In addition, the Mail Center handles all internal mail, including all materials produced by the in-house printshop, as well as picking up and delivering throughout the 85 square-mile city. It also handles all citywide freight each week. Mail technicians pick up water bill payments from remote city facilities. The employment of mail technicians as couriers has allowed the city to save on external document delivery costs.

PROGRAM DETAIL

Marketing and Branding

This group promotes the city of Aurora and all it has to offer to residents of Aurora and the broader metro area including production of the Aurora Eats Food Guide. The target audiences are current and future residents, business leaders, realtors, and other influencers with the goal of raising awareness of our many attributes and cultivating a better understanding of our community. They also oversee the strategic implementation of marketing campaigns and materials, and work with partner organizations to maximize use of resources and strengthen Aurora's brand.

Media and Public Relations

Media and Public Relations, including the Director, has the dual role of providing management oversight of the Communications and Marketing Department and serving as the city's primary liaison to various members of the community and media on citywide issues. The Media Relations staff provides strategy on media matters, responds to media inquiries, proactively pitches positive city stories, and prepares talking points and provides speechwriting support for city leadership on Council approved items. The Public Relations group prepares materials including News Aurora, This is Aurora, the Welcome Packet, internal city communications and many other key publications and projects. The group also maintains the city's accounts on various social media sites including Facebook, Twitter, Instagram, and Nextdoor. This group also oversees use of Engage Aurora and works with the Information Technology Department and 150+ contributors throughout the city to maintain the city's website. This program also oversees the city's strategic marketing and branding efforts. A 2023 Amendment to the budget adds 1.0 FTE to this program to support the city's compliance with Colorado House Bill 21-1110. Facebook changed its analytic insights in 2022 only allowing the capture the last 90 days of data, which is the reason for the lowered engaged user performance measure target in 2023.

Court Administration

DESCRIPTION

The Court Administration Department is comprised of five divisions that provide a variety of services and programs. The Office of the Court Administrator oversees administrative and court technology services. The Case Management Division serves as the custodian of all municipal court records and processes all summonses for city code violations. The Municipal Court handles a wide variety of violations such as traffic, zoning, sales tax, building code, domestic violence, and animal control ordinance violations. The Marshal Division enforces court orders, transports prisoners, and provides security for the Municipal Court Building, court personnel, and the public. The Probation Division provides sentencing options and monitors defendants to ensure compliance with court orders. The Detention Division is responsible for the custodial care, safety, and well-being of all persons placed in custody.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The 2022 projection for the Court Administration Department is \$279,500 (2.5 percent) higher than the 2022 Original Budget. This is due to the 2022 Spring Supplemental appropriation for the body worn camera contract, as well as, Equal Pay / Equal Work (EPEW) pay adjustments that were not included in the original budget. After taking these into account, Court Administration is projected to be on budget. Personal services are projected to be under the original budget by \$637,400, due primarily to significant vacancies in the Detention Program. These savings will be used to cover a detention center improvement project.

2023 Department Budget Variance

The Court Administration Department 2023 Budget is \$1.3 million (11.3 percent) greater than the 2022 Original Budget. The majority of this increase, \$958,500, can be found in base adjustments. Of the base adjustments, the compensation increase of \$503,600 is the single largest factor. The compensation adjustment is driven by the reflection of the 2022 EPEW pay changes in the department, as well as the citywide assumptions for pay and benefit increases for 2023. From the 2022 Spring Supplemental, an ongoing \$300,000 associated with body-worn cameras for the Detention and Marshal Divisions is also included in base adjustments.

There are four amendments in the 2023 budget, two were included in the proposed budget and two were added by City Council at the October 8 Budget Workshop. The first adds 1.0 FTE Deputy Court Administrator offset with an ongoing vacancy savings assumption for a zero-dollar ongoing impact to the General Fund. There is a small amount of one-time budget for a computer and other office-related essentials. In addition, there is an \$89,300 amendment associated with weekend court. Weekend court is a state mandate per HB22-1067 requiring municipal courts to hold a bond hearing within 48 hours for a jailed person on a municipal hold. One of the two amendments added by City Council is for \$150,000 to hire an outside firm to assess the Court system with respect to case load, staffing, and workflow, in order to make recommendations. The second amendment is for \$75,000 to pilot a probation diversion program designed to provide financial assistance to qualifying individuals for classes and evaluations ordered by the Courts. More information on these amendments can be found in the Budget Amendment Request section.

Grant / Designated Revenue Adjustments	112,779
Total Base Adjustments	\$958,499

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 1.0 FTE Deputy Court Administrator	1.00	6,000	0	6,000
Program affected: Office of the Court Administrator Strategic Outcome: Healthy and Safe Duration: One-time This amendment adds authority for 1.0 FTE Deputy Court Administrator and one-time appropriation for a computer and other office-related essentials. Due to the ongoing challenges facing the court system, the addition of a Deputy Court Administrator is imperative for successful completion of projects and improvements needed to meet the needs of internal and external customers and citizen expectations. It also allows for a career succession plan and provides for more seamless operations while the Court Administrator is on leave or otherwise offsite.				
In order to accomplish this with a zero-dollar ongoing impact to the General Fund, the department is offsetting the cost of adding this position with an ongoing vacancy savings assumption of \$157,200. Historical data shows that this vacancy savings assumption is conservative.				
Assessment of the Court System	0.00	150,000	0	150,000
Program affected: Office of the Court Administrator Duration: One-time At the October 8 Budget Workshop, City Council added \$150,000 for an overall evaluation of the Court system. This assessment will primarily involve the Court Administration, Judicial, and City Attorney departments and cover case load, staffing, and workflow to formulate recommendations.				
Probation Diversion Pilot	0.00	75,000	0	75,000
Program affected: Probation Duration: One-time At the October 8 Budget Workshop, City Council added \$75,000 for a one-time Probation Diversion Pilot. Clients at 150 percent of the poverty level and below may apply for monetary assistance to cover evaluations and classes ordered by the Court.				

Court Administration

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Weekend Court	0.00	89,330	0	89,330
Programs affected: Case Management, City Attorney Criminal Division, Courtroom Assistants, Detention, Judicial, Marshal, Public Defender Strategic Outcome: Healthy and Safe Duration: Various across noted departments In order to comply with HB22-1067, the city will begin to hold court over the weekend starting January 1, 2023. This amendment adds appropriation to cover the staffing needs at the courthouse for weekend court. To accomplish this, several staffing options will be used including relief staff, overtime, contracted staff and the addition of 1.0 FTE Public Defender. This request is based on the Court being open one day per weekend unless there is a holiday requiring the Court be open both weekend days, for a total of 63 weekend days. Per the bill, municipal courts are required to hold a bond hearing within 48 hours for a person jailed only on a municipal hold, regardless of whether the deadline falls on a weekend or holiday. The 48-hour clock begins once the jail notifies the municipal court that a person is being held solely on the basis of a municipal hold, and the jail must ensure that the person is made available for the hearing. There are exceptions if the defendant refuses or is unable to attend the hearing in certain circumstances.

PROGRAM DETAIL

Case Management

The program serves as custodian of all court records, providing criminal background checks for internal and external customers. It collects all court-related fines, fees, court costs, restitution, bonds, and jury fees. It provides information to all

Court Administration

PROGRAM DETAIL

Case Management

court departments, such as Judicial, the Police Department, City Attorney and the Public Defender. It manages collections for fines through the court website, IVR system and collection agencies. It coordinates jury summonses and services. It coordinates and supervises work programs to satisfy court fines, costs and payment plans.

The COVID-19 pandemic, as well as significant staffing concerns in the Aurora Police Department, has had a profound impact on traffic patrol. As staffing issues improve, the number of summonses projected for 2023 shows slight improvement compared to 2022 data but remains below the years before the pandemic.

Detention

The program provides custodial care, safety, and well-being for all people detained in the Detention Center. With the emphasis on safety, efficiency, and security for staff and detainees, the Detention Center provides custodial care for the well-being of all persons placed in custody. It processes all detainees admitted and released, video and audio monitor everyone in the facility. It transports inmates to and from other city and county jail facilities, and assists the public with bonding of inmates, court-ordered fingerprints and sex offender registrations.

Due to the COVID-19 pandemic, all county jails had set requirements for arrest and detention. Offenders with lesser, non-violent charges were released with an active warrant, while more serious offenders were detained. Some jurisdictions have opened over the second half of 2022, yet others still have minor restrictions or stipulations. The number of detainees is expected to increase at a moderate pace as restrictions continue to be lifted.

Marshal

This program provides security for the Municipal Court building, court personnel and the public. It enforces court orders, serves warrants, assists with trials, and manages prisoner holding cells. It transfers prisoners from the courtroom to holding cells, completes necessary processing, then releases or transfers said prisoners to the Detention Center and other jail facilities. Additionally, it transports prisoners detained in other jurisdictions on municipal warrants or awaiting trials at the Aurora Municipal Court.

In response to the COVID-19 pandemic, all county jails set requirements for arrest or being held to include higher bonds or specific charges. These requirements, which dramatically reduced the number of people in custody, have been lifted and there are mandatory sentences for municipal charges. With this, the number of remands and transports are both expected to increase.

Court Administration

PROGRAM DETAIL

Office of the Court Administrator

This program provides direction and oversight of activities performed by the administrative divisions of the Aurora Municipal Court which includes: Case Management, Court Information System Services, Marshals, Probation, and Detention. It ensures that these divisions provide a high level of customer service, operate efficiently and effectively, promote fiscal responsibility, and adhere to city and judicial policies as well as city, state, and federal laws. It serves as information coordinator and staff support for administrative services provided to court employees and customers. This program also handles all grants awarded to the department. The 2023 budget includes the addition of 1.0 FTE Deputy Court Administrator.

Probation

This program provides judges with background information, sentencing options, and recommendations when requested. It monitors defendants to ensure compliance with court orders. It coordinates and supervises various community service programs. It provides information on high-profile defendants to the specialized units of the Aurora Police Department to enhance police, victim and community safety. It maintains a proactive role in working with specific city departments and community agencies for the prevention and treatment of animal abuse, fire-setting, and other acts of violence.

Court closures and restrictions, due to the COVID-19 pandemic, reduced the number of arrests and probation cases. As more jails have opened and restrictions have been lifted over the second half of 2022, the number of new cases has trended up which is expected to continue into 2023.

Finance

DESCRIPTION

The Finance Department includes general financial functions, business licensing, and tax collection for the city government. The department provides support and advice to the City Manager, City Council, and departments in matters related to financial issues, economic development policy, and strategic planning. Specific functions in carrying out this mission include: management of the budget process, support in strategic planning, development of long-range financial options, economic and revenue analysis, revenue management, licensing of businesses, collection of various taxes, accounting and financial reporting, cash management, financial controls, debt and capital planning, accounts receivable and payable, purchasing and contracts, payroll, pension administration, grant management, and marijuana enforcement.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Finance Department 2022 projection is \$123,700 (1.3 percent) under the 2022 Original Budget which is almost completely attributable to the General Fund. The department is projected to be under due predominantly to vacancy savings in personal services as well as a department reorganization of the Tax & Licensing Division into two new separate divisions: Taxpayer Services and Business Licensing.

There is a net 1.0 FTE increase to the General Fund from the 2022 Original Budget to the 2022 projection due to the addition of a Licensing Officer in the 2022 Spring Supplemental to assist the Marijuana Licensing Division.

2023 Department Budget Variance

The Finance Department 2023 budget is \$292,600 (3.0 percent) higher than the 2022 Original Budget. This increase is primarily driven by compensation adjustments, including 2022 Equal Pay/Equal Work (EPEW) adjustments and citywide pay and benefit increases for 2023.

As mentioned previously, 1.0 FTE was added in the 2022 Spring Supplemental, but further increases in expenditures are due to an amendment in the 2023 Adopted Budget to add 3.0 FTE. The Finance Department will add two payroll accountants to the Payroll Division and a Business System Analyst to Accounting, which will provide needed reinforcement of the Enterprise Resource Planning (ERP) implementation effort. Added staffing costs will be offset by elimination of the existing budget for positive timekeeping, as is discussed in the Budget Amendment Requests section.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 3.0 FTE - Enterprise Resource Planning Implementation	3.00	127,571	0	127,571
Programs affected: Payroll and Accounting Strategic Outcome: Planned and Maintained Duration: Ongoing				
Two payroll accountant adds are necessary to handle new manual processes for the Workday ERP implementation that will replace current, highly customized and automated processes. These positions will ensure the same level of service and support from Payroll that is currently provided.				
The Business System Analyst position will be a general information systems resource within the Finance Department to support financial functions within the department and across the city in areas of report writing, configuration changes, trouble-shooting issues, researching enhancements, testing, etc. This position will be the Workday ERP point person within the Finance Department and will work daily with the Finance ERP subject matter experts and the Budget Business Systems Analyst. This position will be expected to research, design, document, test, implement, provide training for, and maintain financial ERP functions. The \$301,800 ongoing cost of these three adds will be offset by elimination of the \$174,300 of ongoing positive timekeeping budget to lower costs.

Finance

PROGRAM DETAIL

Accounting

This function oversees all financial activity of the city, maintains the official accounting records, and produces the annually required city financial statements. This program is also responsible for designing, implementing, and monitoring financial controls as well as overseeing the citywide purchasing card program.

There is a 1.0 FTE increase for the Business Systems Analyst position being added to support financial functions within the department. This position will be expected to research, design, document, test, implement, provide training for, and maintain financial ERP functions.

A major reduction in 2023 funding is due to the removal of \$300,000 in one-time funding provided in 2022 for ERP report writing consulting services.

Accounts Payable

This function verifies that proper purchasing procedures are followed, proper authorization is obtained, and that no duplicate payments are made. Invoices for payment are batched by departments but reviewed by the Accounts Payable function. Errors are noted, researched, and corrected as appropriate and payments are processed. This function also oversees the vendor identification system and production of the IRS form 1099s.

PROGRAM DETAIL

Budget & Financial Planning

This function manages the annual budget process, provides support in strategic planning, prepares the city's budget documents and makes recommendations with regard to short and long-term financial plans. It analyzes revenues, expenditures and economic factors, prepares financial projections for all city funds, and makes recommendations to management and City Council. It oversees financial aspects of the city's capital program including all long-range financial planning. The function supports the work of other city departments by facilitating accurate and efficient administration of the budget at all levels of the city.

The majority of the increase in the 2023 budget is attributed to the transfer of budget from the Administration Program for the budget system contractor, along with city wage adjustments.

Business Licensing

This function accepts applications for review and issues and manages all city general business, grants special licenses, and provides corresponding customer service. This function also identifies and follows-up on businesses that may not be licensed and performs periodic compliance checks. Licensing assists law enforcement by acting as a gatekeeper and enforcement entity to prevent or remove problematic operations in the city. This includes participating in investigations of commercial operations to ensure compliance with state and local laws and taking enforcement action as needed. The cost for this function is covered by fees and identification of audit leads.

This is the first of two newly created divisions resulting from the reorganizational split of the old Tax & Licensing Program into two separate but related factions: 5.0 FTE moved to Business Licensing and 10.0 FTE moved to Taxpayer Services. Increased spending for 2023 is due to the movement of an employee into Business Licensing from Marijuana Licensing for 6.0 FTE total for this program.

PROGRAM DETAIL

Marijuana Licensing

This division was formed in 2014 to create, implement, and enforce the rules and regulations for retail marijuana establishments. Cross-functional teams provide assistance in licensing, tax collections, auditing, development assistance, plan review, permitting, and regular inspections by various departments. Retail, manufacturing, cultivation, testing, and transporter comprise the current allowed marijuana business types.

In 2022, a Spring Supplemental added a Licensing Officer to this program, but 1.0 FTE was moved from Marijuana Licensing to Business Licensing. This explains the net zero change in FTE for this program.

Payroll

This function is responsible for producing the city payroll and associated reports. This function: reviews time card batches produced by departments; completes all quarterly and annual tax filings; and generates payments for all payroll, associated taxes, pensions, deferred compensation, garnishments, and insurance premiums.

Payroll is currently projected to finish higher in 2022 due to higher personnel costs to cover staff overtime during the implementation phase of the new ERP system. The 2023 Adopted Budget includes the addition of 2.0 FTE for payroll accountants to assist with new, manual processes associated with the ERP.

Taxpayer Services

This function collects past due taxes, processes tax returns, and provides customer information and assistance. The primary collection enforcement mechanism is telephone contact and site visits with business owners. When necessary, this function places a lien on the business property and may also seize and sell businesses' personal property assets. Revenues from collection enforcement activities allow this program to more than fully cover its direct expenditures.

This is the second of two newly created divisions resulting from the reorganizational split of the old Tax & Licensing Program into two separate but related factions.

Fire

DESCRIPTION

Aurora Fire Rescue (AFR) is responsible for ensuring a safe community within the City of Aurora by providing protection of life and property threatened by medical emergencies, fires, hazardous materials, severe weather conditions, and all other natural or man-made catastrophes. Major programs within the Fire Department include: Fire Emergency Services, the Office of Emergency Management, Community Engagement, Fire Inspections and Investigations, and Professional Development and Support. Fire Emergency Services is responsible for firefighting and rescue activities as well as providing both advanced and basic medical assistance. The Office of Emergency Management develops the citywide emergency plans, provides preparedness trainings and ensures that recovery systems are established for our community. Community Engagement is the department's interface with the public and includes public information officers, recruitment, and a community health education program. Fire Inspection and Investigations conducts inspections to ensure fire code compliance, and Professional Development and Support provides training to new recruits as well as continuing education for all incumbent firefighters.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Aurora Fire Rescue (AFR) Department 2022 projection is \$660,600 (0.9 percent) higher than the 2022 Original Budget, with the Gifts and Grants Fund projection over by \$478,600, and the General Fund over by \$182,000. In the Gifts and Grants Fund, the overage is driven primarily by timing issues with grant awards. The FY20 Assistance to Firefighters Grant (\$252,000) and the FY20 Fire Prevention and Safety Grant (\$198,500) were awarded in August 2021 and will be expended in 2022. The award date was after the deadline for budget submissions. The General Fund overage is primarily due to inflationary cost drivers on essential fire and EMS supplies as well as higher than budgeted overtime and acting pay costs. Supplementals will be necessary to adjust both the Gifts and Grants Fund and the General Fund.

2023 Department Budget Variance

The AFR Department 2023 budget is \$8.3 million (11.5 percent) higher than the 2022 Original Budget, with \$7.7 million of that coming in base adjustments, including mandated costs. Most of the base adjustments occur in the General Fund and consist of compensation adjustments, as well as a one-time retention bonus as an outcome of the latest collective bargaining agreement. This is offset by a \$444,600 reduction of base budget in the Gifts and Grants Fund as SAFER grants are closed.

There are \$696,000 in General Fund amendments in AFR. The largest is a \$507,700 amendment adding funding for firefighter personnel dedicated to managing logistics, equipment management, and fleet support functions. The department is increasing by 4.0 FTE for 2023, all included in the General Fund amendment referenced above.

Fire

BASE ADJUSTMENTS

Base Adjustments	2023
Prior Year One Times	-3,456,647
Compensation Adjustments	9,699,130
Mandated Costs	955,340
Other Adjustments	453,874
Total Base Adjustments	\$7,651,697

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 4.0 FTE Firefighters for 24-Hour Logistics, Equipment, and Fleet Support	4.00	507,732	0	507,732
<p>Programs affected: Fire Emergency Response Services, Community Engagement, Fire Training</p> <p>Strategic Outcome: Healthy and Safe</p> <p>Duration: \$437,000 Ongoing, \$70,800 One-time</p> <p>This amendment adds staffing dedicated to managing logistics, equipment management, and fleet support functions. The department currently utilizes several positions and individuals to piecemeal these functions. Apparatus, EMS equipment, self-contained breathing apparatus (SCBA), and small tools needs to be managed in a consistent manner to reduce costs and extend the life of the equipment. The individuals assigned to this role would be responsible for the day-to-day management of the following: SCBA repair and inventory management; fleet repair and inventory management; repair and inventory management of small tools, nozzles, and ancillary equipment. In addition, these personnel will respond to multi-alarm fires using the new Air and Light Truck, where they will provide rehabilitation, command post operations and replenishment of routine air supply needs.</p>				
Emergency Medical Services Supplies	0.00	63,738	0	63,738
<p>Program affected: Fire Emergency Response Services</p> <p>Strategic Outcome: Healthy and Safe</p> <p>Duration: Ongoing</p> <p>This amendment will provide additional funding for the increased volume of required Emergency Medical Services supplies. Advanced life support and basic life support calls continue to increase, and new COVID-19 procedures demand increased personal protection equipment for each call. In addition, cost increases for N-95 masks, gloves, and disinfectants are nearly double what they were prior to the pandemic.</p>				
Increase Medical Director Hours	0.00	63,750	0	63,750
<p>Program affected: Fire Emergency Response Services</p> <p>Strategic Outcome: Healthy and Safe</p> <p>Duration: One-time</p> <p>This amendment provides additional funding for increased Medical Director hours needed to comply with the consent decree.</p>				
Self-Contained Breathing Apparatus Regulators	0.00	60,790	0	60,790
<p>Program affected: Fire Emergency Response Services</p> <p>Strategic Outcome: Healthy and Safe</p> <p>Duration: Ongoing</p> <p>The Coronavirus Aid, Relief, and Economic Security (CARES) Act funding was used to purchase new regulators for all firefighting members, following best practice of not sharing breathing apparatus during a respiratory pandemic. There is a Union safety push that all employees get a new regulator at the time of hire and continue this practice after the COVID-19 pandemic has diminished. Each year an average of more than thirty new firefighters are hired annually. New safety protocol requires these additional resources be available.</p>

Arson Investigation

This function investigates the cause and origin of fires, explosions, and hazardous materials incidents within the city. Investigators function as peace officers and follow criminal cases through investigation, evidence collection, interview, case filing, and all court proceedings. Accidental incidents are investigated, documented, and reported to support prevention methods to the community.

The closure rate for Arson cases is above the national average for several reasons. In 2020, AFR transferred a second Lieutenant to the Fire Investigations group to add more expertise and bandwidth to the program. This has resulted in better partnerships with Aurora Police Department and the Adams and Arapahoe County District Attorneys. In addition, the department's Juvenile Fire Setters Program is designed to identify, evaluate, and treat juvenile fire setters, thus improving the closure rate of arson cases.

PROGRAM DETAIL

Community Engagement

Community Engagement is the department's interface with the public and promotes the positive work of the department. Programs include public information officers, firefighter recruitment, safety education for the public, community health initiatives, and media relations. For 2023, 1.0 FTE has been moved to Fire Emergency Response Services. The performance measure for smoke detector installs continues to ramp back up coming out of the COVID-19 pandemic.

Emergency Management and Planning

This function is responsible for coordinating the prevention, preparation, response, and recovery from natural or man-made disasters that occur within the City of Aurora. This is accomplished through the production and maintenance of the city's Continuity of Operations Plan, as well as the coordination and evaluation of response and recovery capabilities by providing pre-event exercises and drills. This program is also responsible for all intra-city grant acquisition and oversight related to emergency management within the city.

Fire Emergency Response Services

This function provides a full-service emergency response system to the citizens and visitors of the city and includes rapid emergency response and abatement of all fire-related incidents. It also provides initial basic and advanced life support care to medically stabilize patients and ensures that they are transported to the appropriate medical facility with appropriate continuous care. This function is capable of providing specialty services such as Hazardous Materials, Mass Decontamination, Wildland, and Technical Rescue Services related to incidents of a specialized nature. For 2023, 1.0 FTE has been moved from Community Engagement and 4.0 FTE has been added to this program as presented in the Budget Amendment Request section.

Fire Inspections

This function conducts annual and biennial fire inspections in all businesses and schools within the city and enforces compliance with the International Fire Code (IFC) in matters of fire and life safety. Additionally, this division conducts fire safety training and community outreach, performs fire safety standbys, assists fire crews, and consults with the public on matters relating to IFC and its interpretation. A small portion of education-related revenue for the program comes from court-ordered restitution.

PROGRAM DETAIL

Fire Training

This function provides the necessary resources, instructors, and equipment to conduct basic firefighting training of new recruits. In addition, this function provides continuing education that allows the department to meet not only state required emergency medical training and fire training levels, but also meet national standards.

General Management

DESCRIPTION

It is the responsibility of General Management to ensure that all departments operate efficiently and effectively to meet the goals established by City Council. All of the following groups are housed in General Management: The Office of the City Manager; Deputy City Managers; Office of Development Assistance; Office of Diversity, Equity and Inclusion; Intergovernmental Relations; Internal Audit; Office of City Clerk; Office of International and Immigrant Affairs; Office of Process Improvement, and Oil and Gas Division.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The General Management budget is primarily housed in the General Fund and the Development Review Fund. Across all funds, General Management is projected to be \$1.1 million under budget, \$568,200 in Development Review, and \$489,000 in General Fund, all associated with personal services savings. The savings are primarily in Office of Development Assistance and Office of Process Improvement in the Development Review Fund and the Independent Police Monitor in the General Fund.

2023 Department Budget Variance

Across all funds, General Management expenses will be \$413,300 (5.5 percent) lower than the 2022 Original Budget. Increases in personal services in accordance with city policy are offset with the elimination of 2022 one-time budgets not recurring in 2023 and the elimination of 5.0 FTE by Council as part of the October 8 Budget Workshop.

There are multiple amendments in the budget for 2023. Two of the amendments were part of the 2023 Proposed Budget. The first is the addition of 1.0 FTE Americans with Disabilities Act Project Manager partially offset with the lapse of 1.0 FTE Project Coordinator in the Oil and Gas Division. The other amendment has some ongoing and one-time funds related to campaign finance and lobbyist reporting software. At the October 8 Budget Workshop, Council eliminated 5.0 FTE, including 1.0 FTE Diversity, Equity and Inclusion Manager, 1.0 FTE Oil and Gas Inspector position, and 3.0 FTE associated with the elimination of the Police Monitor Program.

Additional details can be found in the Budget Amendment Request Section.

BASE ADJUSTMENTS

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 1.0 FTE ADA Project Manager Offset with 1.0 FTE Lapse of Oil and Gas Position	0.00	69,479	0	69,479
Program affected: Office of the City Manager, Oil and Gas Division Strategic Outcome: Diverse Duration: Ongoing The Americans with Disabilities Act (ADA) ensures that individuals with disabilities have equal access and opportunities to all governmental activities, programs, and services. This 1.0 FTE ADA Project Manager is needed for various duties including overseeing ADA-related projects and implementing/enforcing ADA rules. The cost of the project manager is being partially offset by the lapse of a vacant Oil and Gas Project Coordinator, which is not needed for the foreseeable future.				
Campaign Finance and Lobbyist Reporting Software	0.00	168,000	0	168,000
Program affected: Office of the City Clerk Strategic Outcome: Planned and Maintained Duration: \$108,000 Ongoing, \$60,000 One-time In 2022, City Council approved an ordinance amending the reporting requirements for campaign finance and an ordinance requiring lobbyists to register and file financial reports. These ordinances require significant reporting on the part of the candidates, committees, and lobbyists. This amendment will provide appropriation to purchase the software for this purpose. There is a one-time implementation fee and annual fee for each module (lobbyist module and campaign finance module).				
Eliminate 1.0 FTE Vacant Diversity, Equity and Inclusion Manager Position	-1.00	-157,900	0	-157,900
Program affected: Office of Diversity, Equity, and Inclusion Duration: Ongoing At the October 8 Budget Workshop, Council eliminated a vacant Diversity, Equity and Inclusion Manager position.				
Eliminate 1.0 FTE Vacant Oil and Gas Inspector Position	-1.00	-94,514	0	-94,514
Program affected: Oil and Gas Division Duration: Ongoing At the October 8 Budget Workshop, Council eliminated a vacant Oil and Gas Inspector position.				
Eliminate Police Monitor Program, Including 3.0 Vacant FTE	-3.00	-419,568	0	-419,568
Program affected: Independent Police Monitor Duration: Ongoing At the October 8 Budget Workshop, Council eliminated the Police Monitor Program, including 3.0 Vacant FTE.

PROGRAM DETAIL

Independent Police Monitor

The Police Monitor Division has several functions: monitoring investigations into complaints, officer-involved shootings, and in-custody deaths involving sworn personnel; making recommendations about the findings and discipline associated with complaints involving sworn personnel; publicly reporting on patterns of complaints, findings, and discipline; making recommendations regarding potential law enforcement, corrections, and oversight related policy issues; and engaging the community and law enforcement through outreach. At the October 8 Budget Workshop, Council eliminated this program as it is similar to a new program in the Police Department budget.

General Management

PROGRAM DETAIL

Intergovernmental Relations

The program manages the federal lobbying contract to ensure Aurora's interests are represented in Washington, D.C. and to secure federal funding for the city. It manages the state lobbying contract and analyzes state legislation to determine effects on the city. It lobbies for or against proposals in order to maintain the city's interests. This division fosters and maintains relationships with local governments and affiliated groups.

PROGRAM DETAIL

Office of Development Assistance

The Office of Development Assistance (ODA) furthers the commitment to quality development and the enhancement of business growth in the city by providing assistance to the development community. Primary functions involve providing a general overview of the development review process, hosting pre-application meetings, offering personalized project management assistance, and facilitating solutions to problems that may arise during the review and construction of projects. ODA also manages the review and negotiation of annexation agreements, development agreements, and Title 32 Metro Districts.

Office of International and Immigrant Affairs

The Office of International and Immigrant Affairs (OIIA) is responsible for conducting various activities with an international focus. The office develops and maintains relationships between the city and Aurora's immigrant and refugee communities. The office serves as a liaison to Aurora's Sister Cities International Program and oversees international protocol-oriented activities. Also included in the OIIA budget is \$50,000 of ongoing funding for the annual Global Fest event.

PROGRAM DETAIL

Office of Process Improvement

The Office of Process Improvement provides methods, resources, and training to optimize land development business processes and strengthen the city's strategic goals of timeliness, code compliance, and quality. Utilizing proven disciplines such as LEAN and Six Sigma, the office forms partnerships with subject matter experts to create cross-departmental functional teams that assess and implement operational improvements for internal and external customers of the city. Additionally, the office provides business governance, training, and change management for the city's primary workflow software system (Accela) for land development, licensing, development project tracking, permitting, plan code reviews, and inspections for compliance across multiple departments.

PROGRAM DETAIL

Office of the City Manager

In accordance with the policy guidelines of the Mayor and City Council, this program provides direction and oversight of all city operations, ensures achievement of City Council's stated goals, plans major development projects, prepares the city's budget and multi-year capital improvement program, enforces all ordinances and regulations, helps promote economic development, enhances intergovernmental relations, maintains the city's sound financial condition, manages the personnel and benefits system, provides for construction and maintenance of the city's infrastructure and public facilities, and implements all city policies. This program houses the City Manager, Deputy City Managers, and administrative support staff.

In the 2023 Budget, 1.0 FTE Americans with Disabilities Act Project Manager has been added.

Oil and Gas Division

In 2020, the Oil and Gas Division was established to conduct plan review and ongoing monitoring of the oil and gas industry well sites and facilities within the city. The division is staffed with a manager who also acts as the city's liaison with the Colorado Oil and Gas Conservation Commission (COGCC). The staff members will conduct plan reviews, construction inspections, ongoing inspections, and track all required monitoring and documentation. In the 2023 Budget, 1.0 FTE Project Coordinator was eliminated. At the October 8 Budget Workshop, Council eliminated 1.0 FTE Inspector.

Housing and Community Services

DESCRIPTION

Housing and Community Services (formerly Neighborhood Services) consists of five divisions: Neighborhood Support (Code Enforcement), Animal Services, Community Development, Community Engagement, and the Homelessness Program. The mission of the Housing and Community Services Department is to maintain community appearance and enhance the quality of life in Aurora's neighborhoods. This is accomplished through a combination of community outreach, education, code enforcement, and numerous neighborhood improvement programs and services. The staff is dedicated to forming partnerships with neighborhoods, residents, and community groups to strengthen and enhance both the social fabric and physical aspects of Aurora neighborhoods. The department also provides the leadership and coordination of the multi-departmental housing strategy to assure a well-coordinated effort for a continuum of housing that meets the needs of Aurora's residents.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Housing and Community Services (HCS) Department resides in multiple funds, including the General Fund, Community Development Fund, Marijuana Tax Revenue Fund, and the Gifts and Grants Fund. On a bottom-line basis, the department's 2022 projection is under the 2022 Original Budget by \$2.8 million (11.6 percent), which is the net of significant ups and downs in the different funds.

In the General Fund, the department is projected to be over the 2022 Original Budget by \$2.1 million. The 2022 Spring Supplemental accounts for \$784,100 of this, including a \$557,100 one-time re-appropriation of Affordable Housing Seed Funding that was not spent in 2021, and a one-time \$203,400 of additional funding for further development of the Aurora Mobile Response Team. The projection also includes \$1.7 million in 2022 estimated costs for the Camping Ordinance Implementation that will require a supplemental budget request in the spring of 2023. Savings in the rest of the General Fund operations come primarily from vacancy savings. These savings are significantly offset by additional costs related to the 2022 Camping Ordinance and Equal Pay/Equal Work (EPEW) pay adjustments in the General Fund.

In the Gift and Grants Fund, the department is projected to be under the 2022 Original Budget by \$3.7 million. The 2022 budget assumed grant funds, primarily for the COVID-19 response, would be spent in 2022. Instead, a greater amount of spending than assumed occurred in 2021. Some additional spending will be stretched out until 2023 and beyond. The projection for the Community Development Fund grants is slightly under budget by \$58,300 to reflect the actual 2022 grant awards for the Community Development Block Grant and the Home Investment Partnerships Grant.

In the Marijuana Tax Revenue Fund, the department is projected to be under the original budget by \$1.2 million. Homelessness Services and Youth Violence Prevention are the two programs in HCS that are funded with marijuana tax revenue. The Youth Violence Prevention Program is projected to spend 45.9 percent of the 2022 Original Budget, which is the primary reason the projection is under budget. This program is taking a bit longer to develop than anticipated. Additionally, marijuana tax revenue collections in 2022 are projected to be lower, also reducing the projection for the amount obligated for Homelessness Services.

Housing and Community Services

DEPARTMENT NARRATIVE

2023 Department Budget Variance

The HCS Department 2023 budget is \$188,500 (0.8 percent) less than the 2022 Original Budget. This small adjustment down is the net of significant ups and downs. Base adjustments outlined in the Base Adjustment section account for a \$2.7 million decrease at the department level for all funds combined. Amendments for 2023 outlined in the Budget Amendment Requests section total \$2.5 million for all funds, offsetting the significant decrease in the base.

Significant base increases include \$659,400 in compensation adjustments for the citywide assumptions for pay and benefits as well as the reflection of the 2022 EPEW wage adjustments in the department. Other Adjustments of \$1.6 million account for an increase in the programs funded by the Marijuana Tax Revenue Fund. This will adjust the 2023 appropriation in the fund to reflect the 2023 revenue forecast plus projected 2022 year-end funds available. Grant budgets are adjusted down by \$5.1 million to right-size the grant budgets to the expected expenditures for 2023 as the COVID-19 grants are winding down.

There are five amendments in the 2023 budget. One of these amendments is the annual amendment in the Community Development Fund to adjust the appropriation to reflect the 2023 estimated grant awards for the Community Development Block Grant and the Home Investment Partnerships Grant. The remaining four amendments are in the General Fund. The most significant is for \$2.1 million to provide ongoing appropriation to carry out the efforts required by the new camping ordinance. This amendment includes the addition of 2.0 FTE, including 1.0 FTE Outreach Manager and 1.0 FTE Abatement Coordinator. Another significant amendment for \$536,600 ongoing will expand the Aurora Mobile Response Team budget. This amendment includes the addition of 1.0 FTE Data Analyst. The remaining two amendments are primarily one-time and will add appropriations for an Animal Care vehicle and to retrofit the Aurora Cold Weather Outreach Team shuttle to accommodate a new service to underserved Aurora residents called "City Hall to Go." More information on these amendments can be found in the Budget Amendment Requests section.

Community Development Fund / New Appropriation

Anticipated CDBG and HOME Grant Adjustments	0.00	-224,823	0	-224,823
---	------	----------	---	----------

Program affected: CDBG Funded Programs

Strategic Outcome: Thriving

Duration: Ongoing

This amendment makes the necessary adjustments to appropriation for the 2023 anticipated grant awards for the Community Development Block Grant (CDBG) and Home Investment Partnerships Grant (HOME).

The anticipated CDBG funding level is assumed to be equal to the 2022 actual grant award of \$2.6 million and \$100,000 of program income. The anticipated HOME grant funding level is assumed to be equal to the actual 2022 grant award of \$1.2 million and \$400,000 of program income. The assumed General Fund grant match is \$280,500.

Total anticipated funding for these two grants, including program income and the General Fund match, is \$4.6 million. Please see the Community Development Program Detail section in the appendices of the 2023 Adopted Budget for the detailed plan by project as approved by the Citizens' Advisory Committee on Housing and

Housing and Community Services

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Community Development Fund / New Appropriation</u>				
Community Development.				
New Appropriation Total	0.00	-224,823	0	-224,823
Community Development Fund Total	0.00	-224,823	0	-224,823
<u>General Fund / New Appropriation</u>				
Animal Services Vehicle	0.00	79,000	0	79,000
Program affected: Animal Services Strategic Outcome: Healthy and Safe Duration: \$4,000 Ongoing; \$75,000 One-time This amendment adds one-time appropriation for a large, specially equipped Animal Services vehicle and a small amount of ongoing funding for fuel. This vehicle will be the second four-wheel drive vehicle in the Animal Services fleet of seven. The division currently utilizes three small trucks, two vans, and two large trucks for 12 field staff. This vehicle will allow the division to more efficiently respond to calls in inclement winter weather and the summer heat. The cooling/heating system gives the officer the ability to regulate the temperature in the animal storage area. This allows the officer to stay out on the road longer to handle more calls, rather than transporting animals back to the shelter before returning back out on a call.				
Aurora Mobile Reponse Team Expansion	1.00	536,636	0	536,636
Program affected: Aurora Mobile Response Team Strategic Outcome: Healthy and Safe Duration: Ongoing This amendment will provide additional ongoing appropriation to expand the Aurora Mobile Response Team (AMRT) Program. This program provides an alternative to police response for individuals identified to be experiencing a behavioral health crisis. Currently the AMRT Program staffs 1.0 FTE Program Manager and one contracted team (1 paramedic/1 clinician) 40 hours a week within northwest Aurora. This amendment will add 1.0 FTE Data Analyst and expand the AMRT to two teams to allow for more coverage. The service level is not finalized yet, but as an example, a minimum staffing model could be used for 24/7 coverage, or optimized coverage could be obtained with 10-hour coverage per day, 7 days a week. The Mobile Response Team is a resource seen as valuable by both the community and our public safety partners. Calls come in through Aurora911 and are triaged to determine the appropriateness of an unarmed response. This model, combined with a law enforcement co-responder model (Crisis Response Team), provides a spectrum of care to individuals in Aurora, giving them the right response at the right time, while allowing the Aurora Police and Fire Departments to focus on criminal and lifesaving calls for service.				

Housing and Community Services

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Camping Ordinance Implementation	2.00	2,100,000	0	2,100,000
Program affected: Homelessness Initiative Strategic Outcome: Healthy and Safe Duration: Ongoing This amendment will provide ongoing appropriation to carry out the implementation of the approved Unauthorized Camping Ordinance 2022-12 that went into effect April 30, 2022. This ordinance was created in response to Resolution number 2022-49 directing the City Manager to look for, create, and maintain sufficient shelter options to provide a safe space for individuals and families in an unauthorized camp that desire to use a shelter option. For 2023, this program will include the efforts that began with the Safe Outdoor Space Program funded primarily by the 2020 ESG-COVID and ARPA grants. Ongoing efforts for 2023 include site abatement, outreach, Safe Outdoor Space (SOS) operations, as well as care and maintenance of pallet shelters. To accomplish this, 2.0 FTE and agency funding are requested. The two FTEs include 1.0 FTE Abatement Coordinator and 1.0 FTE Outreach Manager. Recruiting efforts for these positions will begin mid to late 2022. Agency funding will cover an outreach team, shelter site management, shelter staff, case management, and meals. Ongoing abatement funding approved in the 2022 budget is believed to be adequate. This complex program will continue to develop throughout 2023 and the years to come.				
City Hall to Go	0.00	23,000	0	23,000
Program affected: Neighborhood Liaisons Strategic Outcome: Diverse Duration: \$3,000 Ongoing, \$20,000 One-time This amendment will add one-time appropriation to retrofit the Aurora Cold Weather Outreach Team shuttle. The City Hall to Go van will be used to enhance community engagement for our underserved and diverse community, who often have limited access to participate in venues (e.g. limited Internet or technology, language barriers). A small amount of ongoing appropriation is included for fuel and other fleet expenses. The City Hall to Go van will include outreach materials like iPads/laptops, folding tables, chairs, city promotional materials, Wi-Fi hotspots, screens/speakers, pop-up tents, etc. for flexible engagement opportunities in underserved communities. The vinyl wrap could be designed through a commission to a local artist to brand the engagement van to increase recognition in the field. City Hall to Go will build our capacity as a city to engage meaningfully with our community, increase access, and boost long-term civic engagement and trust, which is pivotal to our recovery as a community. City personnel can utilize the City Hall to Go van for any engagement needs / events out in the field where community members are already gathered.

PROGRAM DETAIL

Administration

Housing and Community Services Administration provides management of the various functions including: Code Enforcement, Neighborhood Engagement Coordinators, Animal Services, Community Development, Youth Violence Prevention, the Aurora Mobile Response Team, and the Homelessness Program. The Administration also provides oversight to assure the progress, and coordination of the city's multi-departmental Aurora Housing Strategy. Substantial time and resources are spent troubleshooting, managing special projects, and resolving difficult or sensitive issues.

Housing and Community Services

PROGRAM DETAIL

Affordable Housing

The Affordable Housing Program provides oversight of the Housing Strategy implementation, in addition to providing gap funding to eligible developments for the purpose of creating and/or retaining affordable housing units within the City of Aurora. Each year, the city invests in affordable housing in accordance with plan. The performance measure data reflects the considerable lag between project approval and completion.

Animal Services

The Animal Services Division and the Aurora Animal Shelter provide lifesaving programs and services for the city. The division investigates, quarantines, reports information regarding cases involving diseases transmitted from animals to people, and collaborates with state and local health departments to safeguard public health and safety. The shelter is a member of the Metro Denver Animal Welfare Alliance, a consortium of metro Denver shelter and rescue organizations working together towards 100 percent placement of adoptable animals. The shelter is also a member of the Colorado Federation of Animal Welfare Agencies whose shared vision is to make Colorado a state of humane communities for all pets and people. The cost of Animal Services operations is significantly offset by revenue from licenses, permits, fees, and fines.

In the 2022 Spring Supplemental, a part-time Animal Shelter Assistant position was increased by 0.5 FTE to create a full-time position.

In spite of staffing challenges and the residual impacts of the COVID-19 pandemic, performance data for Animal Services show favorable results. Transfers to other shelters and higher levels of adoptions have resulted in shorter than anticipated lengths of stay for cats and dogs in 2022. The save rate, though down slightly from 2021, is well above the 85 percent target as the shelter and behavior teams have worked hard to explore every opportunity for animal placement. Additionally, with the leadership of the Veterinarian, the vet team has been able to take on more complex medical cases making these animals healthy for placement.

Housing and Community Services

PROGRAM DETAIL

Aurora Mobile Response Team

This program will continue efforts to develop and implement an alternative response to low risk, low acuity situations where law enforcement is not required in the northwest part of Aurora. The team includes a program manager, mental health worker, and an EMT.

The 2022 projection includes one-time supplemental funding for further development of the Aurora Mobile Response Team. The additional 2023 ongoing appropriation will add 1.0 FTE Data Analyst and a second paramedic/clinician team.

This program began as a pilot with operations beginning late in 2021, therefore, performance measure targets were not created for the 2022 budget. A full year of data has allowed the program to establish projected results for 2022 and performance measure targets for 2023.

Community Engagement

The Community Engagement Division is responsible for developing an organizational framework and programs that support long-lasting relationships between communities and the city thereby cultivating trust and encouraging vibrant civic participation. The Neighborhood Engagement Coordinators (formerly Neighborhood Liaisons) serve as a bridge between the city, residents, developers, and community partners on a variety of engagement projects, and address topics affecting quality of life. Additionally, they develop and administer a portfolio of neighborhood engagement programs to provide resources and capacity-building opportunities to neighborhood groups. The Community Engagement Division also oversees the Youth Violence Prevention Program; funding for that program comes from the Marijuana Tax Revenue Fund.

COVID-19 Relief Grants

Many of the city's activities in response to the COVID-19 outbreak were subject to reimbursement through the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act. The city received CARES funds as a passthrough from Adams and Arapahoe counties. The passthrough funds have been used to provide small business grants and rental assistance, city personnel costs and personal protective equipment (PPE), and safety improvements to city facilities.

Emergency Solutions Grants

The Emergency Solutions Grant (ESG) Program provides federal funding to non-profit Emergency Shelter subrecipients in Aurora. It also allocates funds to nonprofit agencies for provision of Rapid Re-Housing funds to either place homeless persons into housing, or Homelessness Prevention funds to prevent households from becoming homeless during a crisis.

Housing and Community Services

PROGRAM DETAIL

Homelessness Initiative

The Homelessness Initiative Program provides capacity building, training, partner coordination, and funding to address the needs of Aurora's unhoused and housing insecure community. The program supports services along the homelessness crisis response system continuum, from prevention, to shelter and rapid rehousing. Additionally, the Homelessness Initiative leads the regional Point in Time Count, participates in county and regional work to end homelessness, and provides evidence-based training, otherwise unattainable to nonprofits, in order to build a comprehensive and effective homelessness services system.

Homelessness Initiative funding comes from the General Fund and the Marijuana Tax Revenue Fund. City Council's dedication of 2.0 percent of the city's special sales tax rate on retail marijuana has created an ongoing funding source for homelessness assistance in Aurora.

In 2023, an amendment for the Camping Ordinance Implementation adds \$2.1 million ongoing to the General Fund budget. This amendment includes the addition of 2.0 FTE, including 1.0 FTE Outreach Manager and 1.0 FTE Abatement Coordinator.

Increased experience and varied awards have led to success for the Homeless Initiative's program on its performance measures. The city receives many applications from those needing housing stabilization assistance. However, not every household receives the max \$4,000 available. This allows the division to assist more than 12 households per month.

After a full year in operation, case conferencing is now a highly effective program. In addition to passionate partner organizations, assistance and resources from the Veteran's Affairs Office has allowed the program to meet and exceed its goal. Future targets for performance will be evaluated over the coming year.

Housing and Community Services

PROGRAM DETAIL

Neighborhood Support

Neighborhood Support Code Enforcement promotes and encourages a positive physical image of Aurora's neighborhoods through education, the Graffiti Off Neighborhoods Program (GON), proactive and complaint-based enforcement of the city's zoning (weeds, trash, landscape maintenance, unlawful vehicles, business signs, etc.), and housing codes. Inspection activities include site plans, multi-family rental properties, enforcement on commercial properties, and land use. The cost of Code Enforcement is significantly offset by revenue from abatement fees, vacant property registration, as well as systematic housing inspection fines and fees.

Neighborhood Support performance measure results were predominantly affected by timing issues and staffing vacancies. Graffiti calls went to separate departments on many occasions, resulting in the referral reaching the department after 48 hours. The division is working with Access Aurora to remedy this. In these instances, the Graffiti Off Neighborhoods (GON) team would remove graffiti the same day the referral was received. Additionally, vacancies impacted the ability for the Code Enforcement team to respond proactively and within 48 hours. The city has implemented a compensation and recognition plan to help with turnover citywide.

Human Resources

DESCRIPTION

The Human Resources Department provides overall management, organization, and control for Human Resources (HR) and Risk Management. The HR function supports the city's business management, strategy, workforce management, and planning through the following operations: employee relations; labor relations; recruiting, hiring and onboarding employees; employee training and development; benefits, wellness and leave of absence management; compensation and classification; and Human Resources Information Systems (HRIS). The Risk Management Division administers claims for losses suffered by residents, workplace injuries to employees, and self-insured losses on city-owned property and vehicles. It also administers several programs intended to enhance employee safety.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Human Resources (HR) Department's 2022 projection is \$878,600 (4.8 percent) higher than the 2022 Original Budget, with the Risk Management Fund over by \$775,000 and the General Fund over by \$103,500. In the Risk Management Fund, the overage is driven primarily by a \$1.3 million projected increase in public entity liability claims and vehicle accident claims. A supplemental will be necessary to cover this, although savings in other types of risk claims and in program administration will reduce the amount of supplemental funds needed. In the General Fund, the Department received a 2022 Spring Supplemental providing an additional \$243,100 and 2.0 FTE for a Compensation Manager and a Public Safety Coordinator. When including the additional spending authority provided in the supplemental, the department is not projecting to be over its General Fund working budget in 2022.

2023 Department Budget Variance

The Human Resources (HR) Department's 2023 budget is \$2.2 million (11.8 percent) higher than the 2022 Original Budget, with \$1.8 million of that coming in base adjustments, including mandated costs. Base adjustments include \$1.5 million of additional funding related to the city's self-insured risk management program, including additional funding to pay higher risk insurance premiums, to cover claims liability adjustments, to better address vehicle accident claims, and to pay for the cost of the Origami risk management system. All of these Risk Management Program expenses are funded from the Risk Management Fund. The city's compensation increases are also found in mandated costs, with these increases funded by both the General Fund and Risk Management Fund.

There are \$332,700 in amendments in HR, all of which is funded from the General Fund. In the continued effort to enhance staffing to the level needed to fully address the needs of a growing city, HR amendments will add 3.0 FTE's, including a Compensation Analyst, a Talent Acquisition Specialist, and an Employee Relations Specialist.

The department is increasing by 5.0 FTE compared to the 2022 Original Budget, including a 1.0 FTE Compensation Manager and a 1.0 FTE Public Safety Coordinator added through the 2022 Spring Supplemental Process. Additionally, 2023 FTE also include a 1.0 FTE Compensation Analyst, a 1.0 FTE Talent Acquisition Specialist, and a 1.0 FTE Employee Relations Specialist, all of which are added as 2023 amendments.

Human Resources

BASE ADJUSTMENTS

Base Adjustments	2023
Prior Year One Times	-181,825
Mid Year Modifications	243,103
Compensation Adjustments	297,621
Mandated Costs	1,478,251
Total Base Adjustments	\$1,837,150

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 1.0 FTE Compensation Analyst	1.00	119,986	0	119,986
Program affected: Human Resources Operations Strategic Outcome: Planned and Maintained Duration: \$118,000 Ongoing, \$2,000 One-time In an effort to better meet critical human resources needs of a growing city, this request would convert a current variable-hour benefit-eligible (VHB) position to a full-time Compensation Analyst. This specific request would assist with the department's workload of compensation and classification requests.				
Add 1.0 FTE Employee Relations Specialist	1.00	114,549	0	114,549
Program affected: Employee Relations Strategic Outcome: Planned and Maintained Duration: \$112,500 Ongoing, \$2,000 One-time In an effort to better meet the critical human resources needs of a growing city and support the needs for enhanced employee performance management support, this request would provide a full-time Employee Relations Specialist. This employee would help the Employee Relations Division manage the newly developed Performance Management Program. This position will provide vital support, coaching, development, policy advisement, employee evaluations guidance, programs to recognize employee achievement and high-performance, Workday support, and pay-for-performance oversight.				
Add 1.0 FTE Talent Acquisition Specialist	1.00	98,206	0	98,206
Program affected: Recruiting Strategic Outcome: Planned and Maintained Duration: \$96,200 Ongoing, \$2,000 One-time In an effort to better meet critical human resources needs of a growing city, this request would convert a current variable-hour benefit-eligible (VHB) position to a full-time Talent Acquisition Specialist. The requested position would help with recruiting, onboarding new hires, and addressing employment-related inquiries. The additional employee would help the department to be more of a strategic business partner to other departments, would increase productivity, and would result in a higher service level for the city.

PROGRAM DETAIL

Administration

HR Administration provides oversight of HR operations, Risk Management, collective bargaining agreement (CBA) negotiations, strategic planning, and general support to all city departments.

In 2023, a Project Specialist position in Administration was reduced by 0.5 FTE to allow a part-time Training Coordinator position in Human Resource Operations to be converted to full-time.

Human Resources

PROGRAM DETAIL

Human Resources Operations

This program is composed of several human resources functions. HR Operations provides support in the planning, implementation, support, and management of the city's workforce. This includes the following key HR operations: Talent Acquisition, responsible for the recruitment, hiring, and onboarding of employees; Benefits, including leave of absence and wellness administration; Compensation and Classification, responsible for the city's pay program; Aurora Learn, supporting the training and development of employees as well as the volunteer services and employee outreach and engagement programs; HR Information Systems, responsible for the management of the city's Human Capital Management (HCM) system, employee records, and reporting and analysis; Employee Relations, responsible for investigating employee claims of discrimination, harassment, sexual harassment, and policy violations in the workplace, administration of the Police Independent Review Board, providing preventative training, and employee performance management; and Employee Wellness, which coordinates various initiatives designed to manage claims and improve the overall health of the city's workforce.

In 2023, the FTE total includes a 1.0 FTE Compensation Manager and a 1.0 FTE Civil Service Administrator added with the 2022 Spring Supplemental. HR also received 3.0 additional FTE as 2023 amendments, including a Compensation Analyst, a Talent Acquisition Analyst, and an Employee Relations Specialist. Finally, a Project Specialist position in Administration was reduced by 0.5 FTE to allow a part-time Training Coordinator position in Human Resource Operations to be converted to full-time. In total, these changes resulted in an increase of 5.5 FTE in Human Resource Operations from the 2022 Original Budget to the 2023 Adopted Budget.

The Human Resources Department continues to undergo significant changes, including the addition of new programs and responsibilities as well as the implementation of Workday, a new Enterprise Resource Planning (ERP) system. Not only do these changes make it difficult to know how business processes will look in 2023, but the city is also shifting to become a data-driven organization and appropriate performance measures have yet to be determined. Further, the City of Aurora recently completed a Culture and Engagement Survey of its employees. The Department of Human Resources, in collaboration with other city departments, are actively digesting the results of this survey and working with City Management on goals, initiatives, and areas of focus needed to respond to the survey results. The Department anticipates having measurable goals in the 2024 budget for Human Resource Operations.

Human Resources

PROGRAM DETAIL

Risk Management

This program administers property, general liability, and workers' compensation claims internally. It selects and purchases appropriate insurance broker services and commercial insurance products to protect the city. It provides pre-employment physicals, on-going commercial driver's license drug testing, and management of the hearing conservation program through Employee Health Services. It coordinates respirator fit testing and hazardous materials physicals mandated by regulators for certain employees whose job duties involve hazardous chemicals or excessive amounts of harmful particulates. It manages the citywide safety program to reduce and mitigate employee injuries. It manages claims negotiations and litigation with the City Attorney's Office to mitigate the cost of claims and suits filed against the city. Fund revenues come from internal service charges to other funds as well as insurance recovery payments.

The increase in the 2023 budget includes several mandated cost-related increases, including an increase of \$653,200 to pay the increasing cost of the city's risk insurance premiums, an increase of \$175,300 to pay for risk claims related to vehicle accidents, and an increase of \$125,000 to pay for technical services including the annual operating cost of the city's risk management system.

Information Technology

DESCRIPTION

The Information Technology (IT) Department is responsible for effectively delivering high quality technical solutions securely and efficiently for all city stakeholders whether conducting business in the office or remotely. Three fundamental responsibilities drive IT's technology delivery: availability, security, and innovation. This is accomplished through: 1) infrastructure support which includes networks, the phone system, radio system, database and server operations, and support of desktop and mobile computing; 2) solutions delivery which includes applications implementation and support for systems including human resources, payroll, workflow management, E-911, and computer-aided dispatch systems; 3) project management which aligns the IT portfolio, project management, and resources with the city goals and requirements; 4) information security which includes the implementation of citywide security policies and operations, and processes that involve physical and digital security measures to protect data. By focusing on these fundamental responsibilities, IT is an integral business partner of city agencies.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Information Technology (IT) Department 2022 projection is \$485,000 (2.2 percent) higher than the 2022 Original Budget, with the Development Review Projection over by \$1.0 million, offset with net budget savings of \$552,600 in the other funds. In the Development Review Fund, the overage is driven primarily by a \$1.0 million increase in expenses related to the Accela Program. A supplemental will be necessary to cover this.

The General Fund is \$577,400 (3.1 percent) lower than the 2022 Original Budget. Personal service savings of \$1.1 million are projected throughout the general IT programs, with enterprise systems having the largest variance. These savings are partially offset with additional hosted subscription costs and contract personnel costs to fill personal services vacancies. The Enhanced E-911 Fund is projected close to budget.

2023 Department Budget Variance

The Information Technology (IT) Department 2023 budget is \$5.9 million (26.3 percent) higher than the 2022 Original Budget, with \$4.0 million of that coming in base adjustments, including mandated costs. Most of the base adjustments occur in the General Fund and consist of annual support increases for the majority of the city's technology portfolio, including the return of the PC/laptop (user devices) replacement program cut during the COVID-19 pandemic. The city's compensation increases are also found in base adjustments.

There are \$1.9 million of amendments in IT, with \$1.4 million of them in the General Fund. The largest is a \$1.1 million amendment associated with Axon Technology for body-worn cameras and other public safety technology. There is also \$478,900 in Enhanced E-911 Amendments, with the largest being a \$403,400 Cybersecurity Program Amendment. At the October 8 Budget Workshop, Council replaced the Court Records Consultant amendment with appropriation for the purchase of a case management system.

The department added a 1.0 FTE Business Solution Architect in the 2022 Spring Supplemental. In 2023, a 1.0 FTE Sr. Security Analyst is being added as part of the Cybersecurity amendment.

BASE ADJUSTMENTS

Base Adjustments	2023
Prior Year One Times	-1,069,500
Mid Year Modifications	84,770
Compensation Adjustments	671,018
Mandated Costs	3,826,436
Other Adjustments	509,270
Total Base Adjustments	\$4,021,994

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Enhanced E-911 Fund / New Appropriation</u>				
911 Quality Assurance Tracking Application	0.00	8,000	0	8,000
Program affected: Public Safety Strategic Outcome: Planned and Maintained Duration: Ongoing Aurora911 has unique industry-specific requirements for tracking and reporting training and certifications for the purposes of liability protection and alignment with published national industry standards. The same requirements exist for the department's formalized Quality Assurance Program, which measures compliance with formalized call taking protocols for Police, Fire, and EMS. This tool is important for the Professional Development Team to identify and address performance gaps at the individual and department level. As the department works toward seeking accreditation, this platform will play a central role in supporting that process.				
911 Screen Capture Application	0.00	67,510	0	67,510
Program affected: Public Safety Strategic Outcome: Planned and Maintained Duration: \$7,500 Ongoing, \$60,000 One-time This funding will provide the hardware, software, licensing, and storage upgrades needed for the existing recording system to allow screen capture of computers in the Aurora911 Communications Center. Screen capture will provide Aurora911 with the ability to review call taker and dispatcher use of the applications for quality assurance and training purposes.				
Add 1.0 FTE Senior Security Analyst - 911 Cybersecurity Program	1.00	403,353	0	403,353
Program affected: Public Safety Strategic Outcome: Resilient Duration: Ongoing This appropriation provides for the ongoing expenses of licensing, services, and personnel that was funded as a 911 capital project in 2022. This program provides cybersecurity protection for the 911 infrastructure and use of applications by leveraging existing tools, recommending specific practices, and recommending additional tools to augment the security of the 911 infrastructure. It enhances the city's security posture and ability to respond to citizens' 911 calls for service, dispatch appropriate units, and monitor evolving public safety events. A 1.0 FTE Sr. Security Analyst is included in this amendment.				
New Appropriation Total	1.00	478,863	0	478,863
Enhanced E-911 Fund Total	1.00	478,863	0	478,863

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Axon Technology and Equipment	0.00	1,071,896	0	1,071,896
Program affected: Public Safety Strategic Outcome: Healthy and Safe Duration: Ongoing This is an ongoing amendment committing to a long term agreement to provide the Aurora Police Department with increased services and a standard replacement schedule with Axon company of their body worn cameras and conducted energy weapons. Additional services will include migration/storage of digital evidence, interview room audio and video recording, and virtual reality training. It also includes drones and their associated licensing.				
Case Management System	0.00	225,000	0	225,000
Programs affected: IT Administration, Public Safety Duration: \$75,000 Ongoing, \$150,000 One-time At the October 8 Budget Workshop, Council eliminated the one-time Court Records Consultant amendment of \$100,000 and added appropriation of \$325,000 for the purchase of a case management system for the City Attorney's municipal prosecution section. This includes one-time funds for project management, technical delivery services, cybersecurity components, and/or training services as may be required to deploy the system and ongoing funds for annual support and maintenance.				
Court Records Consultant (Eliminated)	0.00	100,000	0	100,000
Program affected: IT Administration Strategic Outcome: Planned and Maintained Duration: One-time This is a one time request to provide a review with recommendations including the use of software tools and automation of the city requirements for the transfer and sharing of information required by the courts to execute their mission. This would include internal requirements as well as requirements from outside agencies and the discovery process. This proposed amendment has been eliminated by the Council adjustment: Case Management System.

PROGRAM DETAIL

Administration

Information Technology Administration provides strategic technology planning and evaluation to ensure best practices and efficiencies are utilized throughout the city. This program works with city agencies to develop strategic technology and business plans, lays the foundation for the technology platform upon which Smart City visions are realized, and supports citywide technology purchases and payment processing. It also provides administrative support for all IT personnel for payroll processing, training, travel, and human resources issues.

In 2022, the Information Technology Department had difficulty meeting the response and resolution metrics for break/fix incidents that clients reported, which was impacted by position vacancies for technical personnel. This also affected the customer survey response for IT performance.

Client Services

The Client Services Program has full responsibility for city endpoint computing including all desktop computers, laptops, peripherals, and managed print services to reduce overall printing costs. This program also provides technology support for elected officials and executive staff. Primary responsibilities also include the procurement and management of user devices including software and security updates, as well as the resolution of client user device issues. For 2023, 2.0 FTE will be moved to the Information Security Program.

PROGRAM DETAIL

Enterprise Solutions

The Enterprise Solutions Program acquires, develops, tests, provides technical training, coordinates vendor interaction, implements best practices, and maintains and supports all multi-user software applications used in the city's day-to-day business operations. The program's mission is to effectively deliver high-quality technology solutions securely and efficiently to all city stakeholders. These applications ensure that users have timely and appropriate access to applications containing work product and city information related to their duties. In 2022, 1.0 FTE Business Solutions Architect was added in the Spring Supplemental.

Enterprise Systems

The Enterprise Systems Program is responsible for all data center operations including disaster recovery. The program designs, installs, and monitors computer infrastructure, databases, and data storage for all line of business operations at the city, providing 24/7 access and ensuring optimal system performance. The program is responsible for hardware and software life-cycle management to meet increased security requirements and computing demands. This program is also responsible for disaster recovery operations, ensuring that redundant hardware and applications are backed up and available for restoration when necessary. It maintains security updates on all servers, manages vendor software, hardware support and maintenance contracts, and performs break-fix services for system and database-related issues.

Information Security

The Information Security Program ensures information is handled and managed in a secure and respectful manner in accordance with its sensitivity and risk to the City of Aurora. This is accomplished through the design, application, and maturity of meaningful information security and privacy policies, practices, and controls throughout the city. In 2023, 2.0 FTE will be moved from Client Services to this program.

Networking

The Networking Program designs, installs, monitors, and maintains voice and data networks and security camera services for the city which include fiber optic, copper, and wireless networks. The program is responsible for life-cycle management of networking hardware and software ensuring optimal performance and security. It also manages the voice and data network carrier contracts to ensure competitive pricing and performance, provides secure broadband internet services for all city employees, maintains the associated network security software and hardware, and provides break-fix services for network-related issues.

Project Management Office

The Information Technology Project Management Office (PMO) provides governance for, and management of, the City of Aurora's portfolio of IT projects. The program provides IT project, portfolio, and program management, implements and oversees processes, tools, templates, and project roles to bring management rigor and throughput for all IT projects. It also maintains and advocates for the IT project management framework, and provides project management coaching and support.

Public Safety

The Public Safety Program provides technical support, system maintenance, and project implementation of technology systems and software to assist the city's Public Safety agencies in the conduct of their missions supporting the citizens of Aurora. This support not only includes Aurora911, Police, and Fire, but also the Office of Emergency Management, the Unified Metropolitan Forensic Crime Lab, and the City of Aurora Public Safety Training Center. Functions include supporting 911 call-taking, dispatching, staff scheduling, records management systems, command and control systems and data analytic platforms. The program supports Emergency Management technology in the city's emergency operation center, mobile command and communications vans; maintains the radio system network infrastructure and public safety mobile devices; and coordinates with public safety staff, systems and hardware vendors for the ongoing maintenance and upgrades of public safety systems on a 24/7 basis. In 2023, a 1.0 FTE Sr. Security Analyst is being added to this program.

Judicial

DESCRIPTION

The primary objective of the Judicial Department is to administer justice in a fair and impartial manner. The functions of the Judicial Department are performed by judges, courtroom assistants, and court reporters. The courtroom assistants maintain courtroom decorum and serve as the point of contact for all participants in court proceedings. The court reporters serve as the official record-maker for the municipal court. The Judicial Department also oversees the Teen Court, Wellness Court, and Armed Forces Treatment Court.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Judicial Department resides in multiple funds, including the General Fund, Designated Revenues Fund, and the Gifts and Grants Fund. On a bottom-line basis, the department's 2022 projection is over the 2022 Original Budget by \$138,900 (3.8 percent), but the funds themselves show larger variances. In the General Fund, the department is projected to be \$73,400 (2.3 percent) over the 2022 Original Budget. This is due to the receipt of Equal Pay / Equal Work (EPEW) pay adjustments that were not included in the original budget. After taking this into account, the Judicial Department is projected to be on budget. The Designated Revenues Fund is projected to be \$102,300 (20.7 percent) under budget with savings in the Special Courts including Teen Court and the Wellness and Armed Forces Treatment Courts. In the Gifts and Grants Fund, \$172,300 for the extension of the DOLA 1st Appearance grant drives the variance in that fund.

2023 Department Budget Variance

The Judicial Department Budget for 2023 is \$322,000 (8.7 percent) greater than the 2022 Original Budget. Base adjustments account for \$264,000 of this increase. A breakout of this increase can be found in following base adjustments section which shows that the compensation increase of \$265,900 is the single largest factor. The compensation adjustment is driven by the reflection of the 2022 EPEW pay changes in the department, as well as the citywide assumptions for pay and benefit increases for 2023.

There are two amendments in the proposed budget. The first is for a zero-dollar conversion of a part-time variable-hour Courtroom Assistant to a 0.5 FTE. The cost of the FTE is offset by a reduction in the temporary budget. In addition, a \$58,000 amendment is included for the implementation of a weekend court. Weekend court is a state mandate per HB22-1067 requiring municipal courts to hold a bond hearing within 48 hours for a jailed person on a municipal hold. More information on this amendment can be found in the Budget Amendment Request section.

BASE ADJUSTMENTS

Base Adjustments	2023
Compensation Adjustments	265,912
Mandated Costs	3,107
Grant / Designated Revenue Adjustments	-5,000
Total Base Adjustments	\$264,019

Judicial

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 0.5 FTE - Convert Variable Hour Courtroom Assistant	0.50	0	0	0
Program affected: Courtroom Assistants Strategic Outcome: Healthy and Safe Duration: Ongoing This amendment will add authorization for 0.5 FTE to convert a part-time variable hour Courtroom Assistant to a part-time FTE. This conversion is necessary to promote a fair and equitable workgroup composition and satisfy an ongoing need. The cost of adding the FTE is offset by a reduction in the temporary budget to achieve a zero-dollar impact to the General Fund.				
Weekend Court	0.00	57,990	0	57,990
Programs affected: Case Management, City Attorney Criminal Division, Courtroom Assistants, Detention, Judicial, Marshal, Public Defender Strategic Outcome: Healthy and Safe Duration: Various across noted departments In order to comply with HB22-1067, the city will begin to hold court over the weekend starting January 1, 2023. This amendment adds appropriation to cover the staffing needs at the courthouse for weekend court. To accomplish this, several staffing options will be used including relief staff, overtime, contracted staff and the addition of 1.0 FTE Public Defender. This request is based on the Court being open one day per weekend unless there is a holiday requiring the Court be open both weekend days, for a total of 63 weekend days. Per the bill, municipal courts are required to hold a bond hearing within 48 hours for a person jailed only on a municipal hold, regardless of whether the deadline falls on a weekend or holiday. The 48-hour clock begins once the jail notifies the municipal court that a person is being held solely on the basis of a municipal hold, and the jail must ensure that the person is made available for the hearing. There are exceptions if the defendant refuses or is unable to attend the hearing in certain circumstances.				
New Appropriation Total	0.50	57,990	0	57,990

Courtroom Assistants

The courtroom assistant maintains courtroom decorum and serves as a contact person for jurors, defendants, attorneys, witnesses, and the public. The assistant also maintains the flow of persons and files to and from the courtroom and other areas of the courthouse. In 2023, a 0.5 FTE Courtroom Assistant is added as a variable hour conversion.

Teen Court

This program educates youth on the judicial process and provides first-time juvenile offenders the opportunity to correct their mistakes without a criminal conviction through diversion. The COVID-19 pandemic, as well as a new trend in lower numbers of juvenile arraignment cases, has had an impact on participation data. Participation in 2023 is expected to return to a more typical level.

Wellness and Armed Forces Treatment Court

The Wellness Court and Armed Forces Treatment Court provide supervision, behavior health treatment, and an integrated continuum of care through services provided by community partners for justice involved individuals affected by mental illness. Both Courts serve targeted populations with targeted services. Each Court seeks to increase long-term public safety, reduce recidivism, and lower the costs for first responders, hospitalization, and incarceration by holding defendants whose criminal behavior is affected by mental illness accountable and assisting them to achieve long term stability, sobriety, self-sufficiency, and to become law-abiding citizens.

Library & Cultural Services

DESCRIPTION

The Library & Cultural Services Department provides educational and arts programs for all ages that enhance the quality of life of citizens and the desirability of Aurora as a place to live, work, and play. The Administration Division centrally manages internal services including finance, personnel, marketing, meeting room services, and computer systems that assist the operating divisions in providing their programs and services. The Library Facilities and Public Services Division oversees operation of multiple library branches and computer centers. The Cultural Services Division operates one museum, one visual arts center, one performing arts center, 27 city landmarks, four historic sites/districts under historic preservation, and Aurora's summer concerts.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Library and Cultural Services Department manages budgets within several funds. Overall, the 2022 projection is \$19,700 (0.2 percent) less than the 2022 Original Budget across all funds. The General Fund projection is \$180,800 (2.7 percent) under the 2022 Original Budget due to vacancy savings. Several vacant positions are anticipated to be filled in the later half of the year. A significant portion of vacancy savings will be used to replace library shelving and furniture, as well as to pay for contract workers temporarily covering operational needs until regular full-time employees can be hired. The Gifts & Grants Fund is projected to be \$225,300 over the 2022 Original Budget due to additional donations from the Friends of the Aurora Public Library and library ARPA grant funds. A 2022 Spring Supplemental was added to provide the appropriate spending authority for this additional grant fund.

The Cultural Services Fund is projected to come in under budget by \$64,300 (1.9 percent) attributable to reduced programming during the first half of 2022. Operations have begun to normalize as the pandemic wanes. This trend is expected to continue contingent on the department's ability to attract and retain staff.

2023 Department Budget Variance

The 2023 budget will be \$123,600 (1.2 percent) higher than the 2022 Original Budget. Much of this increase is related to a technical realignment of department personnel and the increase of two part-time positions to full-time resulting in a net 1.0 FTE increase that was done with the 2022 Spring Supplemental. Another driving factor for this increase is the citywide increase in pay and benefits that can be seen in the Base Adjustments section.

The 2023 budget includes an amendment for \$50,000 in one-time funds associated with improvements in programming, supplies, and equipment vital in tailoring content to be inclusive to the various community groups and cultural backgrounds of the city. More information on this amendment can be found in the Budget Amendment Request section.

The net 1.0 FTE increase in the Administration Program as seen in the 2022 Projection is attributable to the increase of two part-time positions to full-time employees that occurred with the 2022 Spring Supplemental.

Library & Cultural Services

PROGRAM DETAIL

Administration

This program centrally manages Library and Cultural Services processes including technical services, library courier, budget, accounting, payroll/hiring, meeting rooms, cash handling, purchasing, procurement card processing, donations, and customer service for all Library and Cultural Services facilities. It serves to collaborate with other library systems and arts groups, as well as various community and business groups. It also acts as liaison to the Council-appointed Aurora Library Board and Friends of the Aurora Public Library nonprofit. This program houses all general and programming-related donations and grants.

The increase of 1.5 FTE in this program occurred with the 2022 Spring Supplemental and is composed of an addition of an additional 1.0 FTE and a transfer of 0.5 FTE from the Cultural Services Division Management program to support operational needs.

Art in Public Places

This program is dedicated to the administration, coordination, and scheduling of art acquisition as well as maintenance of public art owned or leased by the city. It establishes procedures for the selection of artwork for the city collection, provides for the display of that collection, and provides art collection management, maintenance, and repair. The program also manages the metropolitan district's required public art plan on behalf of the City of Aurora as well as all transit-oriented art development. The City Council appointed Art in Public Places Commission sets annual goals for community outreach and education.

Library & Cultural Services

PROGRAM DETAIL

Cultural Services Division Administration

This function coordinates and schedules performing arts (Dance and Aurora Fox Arts Center), visual arts, music, pottery, Art in Public Places, historic services (preservation and the Aurora History Museum), the Bicentennial Art Center, Aurora's Rhythms Concert series, and all programs and performances associated with these areas. It writes and manages numerous grants as well as the Scientific and Cultural Facilities District Tier II (SCFD) fund certification.

In the 2022 Spring Supplemental 0.5 FTE was transferred from the Cultural Services Division Management program into the Administration program to support operational needs.

Historic Services

This program identifies, preserves, protects, and provides opportunity for the appreciation of archaeological and historic resources for Aurora residents. The Historic Services' responsibilities include curating and exhibiting historically significant displays, recommendation of nomination sites as local or national landmarks to the local and National Registry of Historic Places, and managing Aurora's Certified Local Government (CLG) programs. As part of these programs, approximately 40 to 50 commercial and single-family home rehabilitation loan reviews with Section 106 reviews are provided annually. The program provides oversight to and assistance for 27 local landmarks, two historic districts, and two cultural heritage sites. The Aurora History Museum researches and develops educational content for tours, lectures, workshops, and classes. It also designs, constructs, and installs exhibits throughout the city.

Library Collection Management and Systems

This program is responsible for the management of the library materials collection and the associated database of collection and patron records. The collection includes books, periodicals, databases, items currently on interlibrary loan, electronic books, and audiovisual items. The program consists of four functions: technical support of proprietary library software, materials acquisition, the cataloging and processing of those materials, and the removal of obsolete items.

PROGRAM DETAIL

Library Facilities and Public Services

This program's budget includes the management of all library facilities. Public Services staff tasks include: checking out over 1.2 million items annually to over one million visitors; facilitating use of in-house materials and public use equipment such as computers, copiers, and fax machines; answering reference questions; and providing front line customer service to patrons. Programming is supported by donations from the Friends of the Aurora Public Library.

Non-Departmental

DESCRIPTION

The Non-Departmental budget was established to centralize non-specific costs. Areas covered include: building lease payments; other debt service payments; operating transfers, including transfers to the Capital Projects Fund; snow removal; incentive payments; the compensation reserve; and other charges. This portion of the budget is managed by the Office of Budget and Financial Planning.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

Non-Departmental is the home for citywide compensation adjustments, transfers, and other expenditures not specifically tied to one department. It is found in nearly every fund. In 2022, the total city projection is \$109.0 million over the 2022 Original Budget, nearly all for one-time needs. A large variance is found in the Gifts and Grants Fund, as \$50.5 million in unbudgeted American Rescue Plan Act (ARPA) funds are projected. A supplemental will be needed for the ARPA spending.

Variances in the General Fund account for \$56.2 million of the overage. Additional transfers account for \$43.1 million, including \$27.6 million to the Capital Projects Fund for additional revenue and inflation expenses and \$13.3 million projected to pay off Hogan Parkway. Also in the General Fund is an additional net \$7.2 million primarily to cover one-time anticipated retention and recruitment spending in an attempt to slow the city's high turnover rate. The final significant variance is the inclusion of a \$4.7 million Independent Consent Decree Monitor in the 2022 Spring Supplemental. Supplementals will be necessary for these overages that require appropriation.

All other funds are projected close to or under budget with the exception of the Designated Revenues Fund, which paid a significant job-based incentive in 2022. A supplemental will be necessary for this as well.

2023 Department Budget Variance

Across all funds, Non-Departmental expenses will be \$4.7 million (4.5 percent) higher than the 2022 Original Budget. The General Fund is increasing \$9.7 million (12.9 percent), primarily due to an \$8.9 million increase in transfers. The transfer increases are primarily associated with the Capital Projects Fund transfer, subsidy increases, and interfund charge increases (primarily the Risk Management Fund).

The increase in the General Fund is partially offset by decreases in other funds, primarily for one-time budgets in 2022 not recurring. The largest example of this is a \$6.6 million decrease of ARPA spending in the Gifts and Grants Fund. There are several amendments in Non-Departmental for 2023, two that were added as part of the 2023 Proposed Budget and several more which were added by Council at the October 8 Budget Workshop. Of the amendments in the 2023 Proposed Budget, the first is a zero-dollar amendment to activate 8.0 unfunded FTE in the Development Review Fund by transferring the FTE authority from Non-Departmental to other departments. The second is a technical transfer of grant match funding for the Home Investment Partnership Grant in the General Fund. Most of the amendments added by Council are transfers of funds for various needs, including funding capital projects and vehicle impound fee support. Outside of transfers, proposed amendments to the Public Defender budget were moved to Non-Departmental pending a study of the need for the amendment. Finally,

Non-Departmental

DEPARTMENT NARRATIVE

Council added an amendment using ARPA funds for detention center personnel retention bonuses. More detail on each of these can be found in the Budget Amendment Requests section.

Compensation Adjustments	-2,406,895
Mandated Costs	747,807
Grant / Designated Revenue Adjustments	-34,300
Other Adjustments	9,031,933
Total Base Adjustments	(\$418,114)

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Development Review Fund / New Appropriation</u>				
Activate and Fund 8.0 FTE Across Various Departments in the Development Review Fund	-8.00	0	0	0
Program affected: Various in Aurora Water, Public Works, Planning and Development Services Strategic Outcome: Planned and Maintained Duration: Various across noted departments This amendment adds staffing in the Development Review Fund across three departments. The request for additional staff is due to increased workload related to development review activity. Ongoing management of the development review processes, policies, and procedures by staff has identified the positions as critical to improve consistency, quality, timeliness, and predictability for all phases of development within the city. Public Works will add 1.0 FTE Building Life Safety Supervisor, 1.0 FTE Permit Technician Supervisor, and 1.0 FTE Plan Review Manager for the new Development Review Division within the department. Aurora Water will add 1.0 FTE Engineer, 1.0 FTE Engineer Technician, and 1.0 FTE Project Engineer as the Drainage Review has been transferred from Public Works to Aurora Water. Planning and Development Services will add 1.0 FTE Planning Supervisor and 1.0 FTE Project Coordinator.

<u>General Fund / New Appropriation</u>				
Anticipated CDBG and HOME Grant Adjustments	0.00	22,827	0	22,827
Program affected: CDBG Funded Programs Strategic Outcome: Thriving Duration: Ongoing This amendment makes the necessary adjustments to appropriation for the 2023 anticipated grant awards for the Community Development Block Grant (CDBG) and Home Investment Partnerships Grant (HOME). The anticipated CDBG funding level is assumed to be equal to the 2022 actual grant award of \$2.6 million and \$100,000 of program income. The anticipated HOME grant funding level is assumed to be equal to the actual 2022 grant award of \$1.2 million and \$400,000 of program income. The assumed General Fund grant match is \$280,500. Total anticipated funding for these two grants, including program income and the General Fund match, is \$4.6 million. Please see the Community Development Program Detail section in the appendices of the 2023 Adopted Budget for the detailed plan by project as approved by the Citizens' Advisory Committee on Housing and Community Development.				
One-Time Council Adjustments Covered via Marijuana Tax Revenues Fund Transfer	0.00	0	584,916	-584,916
Program affected: Transfers and Other Requirements Duration: One-Time At the October 8 Budget Workshop, Council added several one-time amendments to the General Fund and decided to fund them via Marijuana Tax Revenues Fund funds. This transfer accomplishes this objective.				
Transfer of General Funds to Capital Projects Funds for Greenhouse Repair Set-Aside and Warren Avenue Repair	0.00	750,000	0	750,000
Program affected: Transfers and Other Requirements Duration: One-Time At the October 8 Budget Workshop, City Council added a Greenhouse Repair Set-Aside (\$350,000) and a Warren Avenue Repair project (\$400,000), both funded via a transfer from the General Fund.				
Transfer Public Defender Add for 1.0 Weekend Court FTE to Non-Departmental (Pending Study)	1.00	107,760	0	107,760
Program affected: Public Defender/Transfers and Other Requirements Duration: \$105,800 Ongoing, \$2,000 One-Time At the October 8 Budget Workshop, Council moved the Public Defender proposed amendment to add 1.0 FTE for the weekend court mandate to Non-Departmental pending a study of the organizational structure.

PROGRAM DETAIL

American Rescue Plan Act (ARPA)

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law by the President. The \$1.9 trillion legislation included \$360 billion in aid for state and local governments. The intent of the aid is to ensure state, local, and tribal governments have sufficient resources to respond to the COVID-19 public health emergency and its ongoing economic impacts.

As part of this legislation, the City of Aurora received \$65.4 million in one-time assistance with the opportunity to apply for additional grants. The majority of the funds are allocated to specific needs.

At the October 8 Budget Workshop, Council added \$320,000 for Detention Center staff retention bonuses.

Building Leases

This program accounts for lease payments for the Aurora Municipal Center (AMC) and other city buildings. The leases are held with the Aurora Capital Leasing Corporation (ACLC), the capital leasing arm of the city. The ACLC board members are city staff. ACLC borrows money to purchase or construct the buildings. The lease payments from the city are used by ACLC to pay debt service on the borrowings.

PROGRAM DETAIL

Compensation Reserve

This program provides contingency/special funding, primarily for employee compensation. The budget includes unfunded FTE in the Development Review Fund to provide hiring flexibility for the departments in the fund. The large increase in the General Fund in 2022 is due to the anticipated retention and recruitment spending noted in the Department Narrative section. As part of the 2023 Budget, 8.0 FTE are being moved to other departments and activated, leaving 4.0 FTE remaining.

PROGRAM DETAIL

COVID-19 Relief Grants

Many of the city's activities in response to the COVID-19 outbreak were subject to reimbursement through the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act. The city received CARES funds as a passthrough from Adams and Arapahoe counties. The passthrough funds have been used to provide small business grants and rental assistance, city personnel costs and personal protective equipment (PPE), and safety improvements to city facilities.

PROGRAM DETAIL

Snow Removal

This program covers expenditures for overtime, equipment, and supplies related to snow removal efforts on designated routes, and when necessary, on all city roads. Although snow and ice control is managed by Public Works, the overtime can be incurred by any department. Because of this, the program is centralized in Non-Departmental.

PROGRAM DETAIL

Transfers and Other Requirements

This program centralizes transfers of monies to other funds and other payments. The largest transfer provides funding to the Capital Projects Fund as required by city code. A significant amount of one-time funds are transferred as well, which causes the large variances from year to year. At the October 8 Budget Workshop, Council added several transfers to funds for various purposes, as noted in the Budget Amendment Requests section. In addition, the Public Defender amendments, including 3.0 FTE, were moved to this program pending a study on the need for the amendments.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The PROS 2022 projection is \$5.4 million (10.6 percent) lower than the 2022 Original Budget, with the General Fund under by \$1.0 million, the Recreation Fund under by \$4.0 million, the Golf Courses Fund over by \$964,000, and five other funds that support the department projected to be under-budget by a combined \$1.3 million. Projected spending in the General Fund and Recreation Fund reflects the challenging labor market and the difficulty PROS has experienced filling and retaining various positions, including permanent staff, variable hour benefit eligible (VHBE) positions, and seasonal positions. In the Golf Courses Fund, PROS received a 2022 Spring Supplemental amendment, which provided an additional \$512,900 to increase seasonal golf worker wages. After accounting for this and a transfer of \$140,200 related to the implementation of the Equal Pay / Equal Work Act, operating expenses in the Golf Courses Fund is still projected to be over-budget by \$310,900. This projected over-expenditure will require a supplemental and is driven by: (1) higher-than-anticipated merchandise purchases to meet public demand for goods sold at the pro shops of city golf courses; and (2) significant cost increases associated with fertilizer, seed, and irrigation supplies.

2023 Department Budget Variance

The PROS 2023 budget is \$5.2 million (10.3 percent) higher than the 2022 Original Budget, with \$3.8 million of that coming in base adjustments, including mandated costs. Base adjustments include: (1) \$2.4 million in compensation increases for both full-time, part-time, and seasonal staff; (2) \$1.1 million for mandated cost increases; (3) a \$916,000 reduction for one-time appropriations in 2022 that do not carry into 2023; (4) \$513,000 in ongoing funding from the 2022 Spring Supplemental that will provide seasonal golf workers with a wage increase; (5) \$782,100 associated with full-year compensation for 16.0 FTE at the Southeast Recreation Center that received partial-year funding in 2022; (6) a \$500,000 reduction to better reflect projected spending in 2023 on temporary salaries; and (7) \$400,000 associated with inflationary increases in the cost of supplies needed for turf maintenance at golf courses and other PROS properties. Funding to cover base adjustments will include additional funding from the Recreation Fund (\$1.6 million), Golf Courses Fund (\$1.4 million), General Fund (\$565,600), and other cash funds (\$204,800).

There are \$1.4 million of proposed amendments to the PROS budget with \$1.1 million funded from the Open Space Fund,

Parks, Recreation & Open Space

DEPARTMENT NARRATIVE

\$456,200 in the General Fund, and \$97,300 in the Parks Development Fund. The three largest requests are \$571,400 to add 4.0 FTE Park Rangers and 1.0 FTE Park Ranger Supervisor, \$408,800 to add nighttime security at city parks, and \$291,200 to add security at recreation centers and the Del Mar pool. There are also \$916,000 of one-time 2022 expenditures that will not carry-forward into 2023.

The department is increasing by 4.0 FTE for 2023, all of which are added through amendments. FTE increases include 4.0 FTE Park Rangers, 1.0 FTE Park Ranger Supervisor, and 1.0 FTE Senior Planner to restore a position that was eliminated in the 2020 budget. These increases are offset by a reduction of 2.0 FTE that are associated with the Morning Star Adult Day program.

BASE ADJUSTMENTS

Base Adjustments	2023
Prior Year One Times	-916,043
Mid Year Modifications	512,922
Compensation Adjustments	3,160,840
Mandated Costs	1,540,306
Grant / Designated Revenue Adjustments	33,000
Other Adjustments	-500,000
Total Base Adjustments	\$3,831,025

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Designated Revenues Fund / New Appropriation</u>				
Transfer 1.96 FTE from Designated Revenues Fund into Open Space Fund	-1.96	-136,499	0	-136,499
Program affected: Parks Operations and Maintenance Strategic Outcome: Planned and Maintained Duration: Ongoing This amendment will move funds associated with 1.96 FTE from the Designated Revenue Fund into the Open Space Fund. Currently, these FTE are funded from an Intergovernmental Agreement with Arapahoe County that will expire after 2023. This amendment will allow these FTE to continue to perform needed Parks O&M work in 2023 and beyond.				
New Appropriation Total	-1.96	-136,499	0	-136,499
Designated Revenues Fund Total	-1.96	-136,499	0	-136,499
<u>General Fund / New Appropriation</u>				
Add Security to Recreation Centers and Del Mar Pool During Peak Hours	0.00	291,200	0	291,200
Program affected: Recreation Strategic Outcome: Healthy and Safe Duration: Ongoing This amendment will provide off-duty police in combination with private security at recreation centers and the Del Mar Pool. The recreation centers and the Del Mar Pool engage with thousands of visitors weekly. Staff is primarily focused on serving the needs of citizens and providing necessary services. The additional security will focus on any violation of park regulations or rules.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Purchase Trash Truck	0.00	165,000	0	165,000
Program affected: Parks Operations and Maintenance Strategic Outcome: Planned and Maintained Duration: One-time This amendment is for the purchase of a trash truck to service park properties. It creates efficiencies resulting in labor savings and also improves safety by reducing the amount of trash handling.				
New Appropriation Total	0.00	456,200	0	456,200
General Fund Total	0.00	456,200	0	456,200
<u>Open Space Fund / New Appropriation</u>				
Add 5.0 FTE - Adding Four Park Rangers and One Park Ranger Supervisor for Daytime Patrols in Parks	5.00	571,372	0	571,372
Program affected: Open Space and Natural Resources (OSNR) Strategic Outcome: Healthy and Safe Duration: \$432,900 Ongoing, \$138,500 One-time This amendment will add four Park Rangers, one Park Ranger Supervisor, and two Ranger vehicles. The OSNR Division has increased total acreage by 30% over the past 8 years. These Park Rangers will provide a safety presence by contacting park visitors, educating users regarding rules and regulations, and enforcing violations when appropriate. Common issues to address will include unauthorized camping, abandoned or unauthorized vehicles off the roadway, dogs off-leash, littering, and unruly visitors.				
Add Nighttime Security to Parks	0.00	408,800	0	408,800
Program affected: Open Space and Natural Resources (OSNR) Strategic Outcome: Healthy and Safe Duration: Ongoing This amendment will contract with a private security agency to improve security and safety of citizens by patrolling parks and trails at night. In the program, a private security company will provide two vehicles, each with one security guard, to patrol parks and trails with higher incidence of criminal activity. The patrol will educate citizens, enforce park rules, offer assistance when needed, and contact Aurora Police for more serious infractions.				
Transfer 1.96 FTE from Designated Revenues Fund into Open Space Fund	1.96	136,499	0	136,499
Program affected: Parks Operations and Maintenance Strategic Outcome: Planned and Maintained Duration: Ongoing This amendment will move funds associated with 1.96 FTE from the Designated Revenue Fund into the Open Space Fund. Currently, these FTE are funded from an Intergovernmental Agreement with Arapahoe County that will expire after 2023. This amendment will allow these FTE to continue to perform needed Parks O&M work in 2023 and beyond.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Parks Development Fund / New Appropriation</u>				
Add 1.0 FTE Senior Planner - Restore 2020 Cut	1.00	97,258	0	97,258
Program affected: Parks Planning Design and Construction (PD&C) Strategic Outcome: Planned and Maintained Duration: Ongoing This amendment will restore one Senior Planner FTE that was cut in the 2021 budget due to the pandemic. This position was cut due to an anticipated decline in construction activity that never materialized. The requested FTE is critical to address internal planning and support plan review.				
New Appropriation Total	1.00	97,258	0	97,258
Parks Development Fund Total	1.00	97,258	0	97,258
<u>Recreation Fund / Budget Cut</u>				
Cut 2.0 FTE - Eliminate Morning Star Adult Day Program	-2.00	-163,196	-290,000	126,804
Program affected: Recreation Strategic Outcome: Planned and Maintained Duration: Ongoing The Morning Star Adult Day program closed in March 2020 due to the COVID pandemic. City Council voted to not reopen the program on February 7, 2022. The amendment eliminates 2 vacant FTE positions and other associated program expenses. The offsetting Medicaid and Veterans Administration revenue budgets are also eliminated. There is a third, currently-filled program position which would remain and will focus on program development for Aurora's older adults as informed by 2022/2023 PROS Department planning efforts, including a Needs Assessment for Older Adults and the PROS Master Plan. Both studies are to identify service level gaps and recommendations for Aurora's older adult population.				
Budget Cut Total	-2.00	-163,196	-290,000	126,804

PROGRAM DETAIL

Administration

Administration includes the Business Services Division and the department director. This function offers department leadership, finance, budget, payroll, hiring, and administrative support to all PROS divisions.

PROS has had significant challenges with hiring staff the past couple of years, which has had an impact on the operating groups and meeting performance goals related to service level standards.

PROGRAM DETAIL

Aquatics

Aquatics provides a safe, healthy aquatics environment for citizens of all ages and strives to improve their quality of life through family exercise, formal swimming instruction, and teams. The indoor and outdoor aquatic facilities located throughout our community provide safe, fun, and healthy activities for Aurora's youth and adults. In 2023, there is a loss of 1.0 FTE as a result of a strategic resources deployment effort by PROS through programmatic reorganization of personnel within recreation programs.

Parks, Recreation & Open Space

PROGRAM DETAIL

Forestry

The Forestry Program helps create a healthy, natural environment for the Aurora community by maintaining and planting trees throughout the city. These trees are planted on city streets, rights of way, public building grounds, and on parks and open space properties. Trees provide many essential benefits to the community, such as clean air and shade for homes, which results in reduced utility bills and increased property values.

Since the effects of the pandemic have eased, staffing has been a challenge for the Forestry Program. The Forestry team has been without 5-8 crew members and/or apprentices for the past 18-24 months. Contractors have been working to fill in the gaps, but the loss of staff have still resulted in the program missing performance benchmarks related to inspections and the number of trees serviced each month. Further, a spring 2022 storm caused significant damage to city trees and the inspectors were focused on emergency issues rather than routine inspections. This storm caused a delay in inspections that echoed throughout the end of the year.

Open Space and Natural Resources

The Open Space and Natural Resources (OSNR) Program creates a healthy environment for the Aurora community by programming, managing, patrolling, and enhancing open space and natural resources, including reservoirs and trail corridors. Offering outdoor recreational opportunities at these sites encourages an active lifestyle essential to a healthy Aurora. OSNR also provides educational opportunities which help get kids outdoors via the Morrison Nature Center at Star K Ranch, the Senac Creek Nature Center at Aurora Reservoir, and the Plains Conservation Center. The 2023 budget contains an increase of \$571,400 from the Open Space Fund to add 4.0 FTE Park Rangers and 1.0 FTE Park Ranger Supervisor for daytime patrols of city parks.

Planning, Design and Construction

The Planning, Design and Construction Program oversees the plans, designs, and construction of healthy outdoor environments for Aurora. All new construction and renovations to parks, trails, and open space areas are managed by this diverse workgroup. These dynamic spaces allow Aurora citizens to maintain active, healthy lifestyles and provide city residents with a higher quality of life. The 2023 budget contains an increase of \$97,300 from the Parks Development Fund to restore a 1.0 FTE Senior Planner position that was cut in 2020.

The program has missed benchmark performance measures related to GIS and development review work in 2021 and the 2022 projection. This performance relates to a Senior Planner position that was vacant during 2021 and most of 2022, which caused the heavy workload to exceed staff capacity during that time.

Recreation Centers & Fitness

The Recreation Centers and Fitness Program provides recreational health and wellness services to promote healthy, active lifestyles. This program also manages the larger recreation centers such as Beck, Moorhead, and Central. The engaging programs offered at these centers include cooking, dog obedience training, fitness, aerobics, and yoga. In 2023, there is an increase of 5.0 FTE as a result of a strategic resources deployment effort by PROS through programmatic reorganization of personnel within recreation programs.

Recreation Division Management

Recreation Division Management oversees efficient and effective planning and management of the Recreation Division operations, which provides the Aurora community with essential programs to promote safe, active, and healthy lifestyles for all ages. A wide range of quality classes and positive activities are offered to citizens through the division with extensive community engagement and assessment. In 2023, there is a loss of 1.0 FTE as a result of a strategic resources deployment effort by PROS through programmatic reorganization of personnel within recreation programs.

Recreation Division Management has not been able to meet its performance benchmark related to growing recreation revenues. This performance relates to the bounce back from the pandemic being softer than expected for most indoor activities. League and tournament attendance and field rentals have mostly recovered. Pools, fitness classes, and other indoor classes have lagged. The inability to hire enough staff in critical areas, like pool supervisors and fitness instructors, has also exacerbated these challenges. Despite revenue growth not meeting its performance objective, PROS has been actively managing Recreation Fund expenditures based on actual revenue to keep a sufficient balance in the fund.

Special Programs

Special Programs provide programs ranging from preschool to adults age 50 and over, including young adults and children with disabilities, and promote active and healthy lifestyles along with enrichment programs for older adults. These programs are essential for developing a sense of community. In 2023, there is a reduction of 2.0 FTE as part of an amendment to eliminate the Morning Star Program. There is also a loss of 1.0 FTE as a result of a strategic resources deployment effort by PROS through programmatic reorganization of personnel within recreation programs.

Youth Development

The Youth Development Program provides school-age children with the intellectual, social, emotional, and physical skills necessary for an active, healthy lifestyle and successful development. This program also manages smaller recreation centers such as Meadowood and Expo, where youth activities are the primary focus. The facilities, located throughout the community, operated by and through this program, are essential in providing a safe environment for youth in the Aurora community. In 2023, there is a loss of 2.0 FTE as a result of a strategic resources deployment effort by PROS through programmatic reorganization of personnel within recreation programs.

Planning & Development Services

DESCRIPTION

The Planning and Development Services Department provides economic development, long range planning, transportation, environmental, and development review and permitting services for the city. The department is organized in three divisions; Development Services, Long-Range Planning, and Current Planning. The Development Services Division promotes private investment, development, and job creation in Aurora by implementing and coordinating components of the city's economic development strategy through urban renewal, economic development, and the Aurora-South Metro Denver Small Business Development Center(s). The Long-Range Planning Division manages a variety of long-range planning initiatives to provide a framework for long-term growth, including the Aurora Places Comprehensive Plan, the Northeast Aurora Transportation Study (NEATS) and master plans for specific areas of the city such as City Center. The Current Planning Division facilitates the efficient processing of land use and development applications with an emphasis on achieving quality development, customer service, and a balance between development and neighborhood interests.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Planning and Development Services Department resides in multiple funds, including the General Fund, Development Review Fund, and the Gifts and Grants Fund. On a bottom-line basis, the department 2022 projection is under the 2022 Original Budget by \$451,900 (6.7 percent), but the funds themselves show larger variances. In the General Fund, the department is projected to be \$296,600 (8.4 percent) under the 2022 Original Budget. This is primarily due to \$197,600 (8.5 percent) personal services savings related to vacancies and the difficult hiring environment. In addition, professional and other expenditure savings in supplies and service are under budget by \$263,800 (22.4 percent). The savings are offset by an additional \$159,000 transfer of funds, including transfers of North Aurora Arts Grant to the Cultural Services Fund and arts facility renovation to the Capital Projects Fund budgeted in the 2022 Spring Supplemental.

In the Development Review Fund, the department is projected to be \$216,900 (7.8 percent) under the 2022 Original Budget, mostly due to development services-related vacancies. The Gifts and Grants Fund is projected to be \$61,700 (16.0 percent) higher than the 2022 Original Budget, which is primarily associated with the spending of a Small Business Development Center Accelerated Growth grant. Supplemental appropriation will be needed for the Gifts and Grants Fund.

2023 Department Budget Variance

The Planning and Development Services Department 2023 Budget is \$243,700 (3.6 percent) greater than the 2022 Original Budget. The base budget decreased \$17,800 with compensation increases offset by 2022 one-time amendments not recurring. The Development Review Fund saw the largest increase, up \$268,100 (9.6 percent). Most of the increase is due to personal services increases of \$356,900 (14.7 percent), including pay increases accordance with city policy and an amendment activating 1.0 FTE Planning Supervisor and 1.0 FTE Project Coordinator. More information on this amendment can be found in the Budget Amendment Requests section.

The General Fund bottom line is basically unchanged, with compensation increases of \$93,400 (4.0 percent) offset with the elimination of a 2022 one-time City Center Master Plan expense not recurring. The Gifts and Grants Fund is decreasing \$17,700 (4.6 percent), due primarily to a \$50,000 Aurora business revolving loan in 2022 not budgeted for 2023. There is a technical transfer of 1.0 FTE Small Business Specialist from the Gifts and Grants Fund to the General Fund with a net-zero

Planning & Development Services

DEPARTMENT NARRATIVE

funding impact in an amendment that also adds 1.0 FTE Associate Director-SBDC to the Gifts and Grants Fund. More information on this amendment can be found in the Budget Amendment Requests section.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Development Review Fund / New Appropriation</u>				
Activate and Fund 8.0 FTE Across Various Departments in the Development Review Fund	2.00	228,671	0	228,671
Program affected: Various in Aurora Water, Public Works, Planning and Development Services Strategic Outcome: Planned and Maintained Duration: Various across noted departments This amendment adds staffing in the Development Review Fund across three departments. The request for additional staff is due to increased workload related to development review activity. Ongoing management of the development review processes, policies, and procedures by staff has identified the positions as critical to improve consistency, quality, timeliness, and predictability for all phases of development within the city. Public Works will add 1.0 FTE Building Life Safety Supervisor, 1.0 FTE Permit Technician Supervisor, and 1.0 FTE Plan Review Manager for the new Development Review Division within the department. Aurora Water will add 1.0 FTE Engineer, 1.0 FTE Engineer Technician, and 1.0 FTE Project Engineer as the Drainage Review has been transferred from Public Works to Aurora Water. Planning and Development Services will add 1.0 FTE Planning Supervisor and 1.0 FTE Project Coordinator.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 1.0 FTE Associate Director-SBDC and Technical Transfer of 1.0 FTE Small Business Specialist	1.00	0	0	0
Program affected: Business Services Strategic Outcome: Thriving Duration: \$31,300 Ongoing, \$1,500 One-time The 1.0 FTE Associate Director-SBDC will be grant funded and primarily responsible for running programming offered by the Small Business Administration (SBA), State of Colorado, counties, and municipalities in the service area. The SBA and the Office of Economic Development and International Trade (OEDIT) require the Aurora-South Metro Small Business Development Center (SBDC) to cover the geographic area of all entrepreneurs in the City of Aurora, Arapahoe and Douglas counties. This position will focus on statewide and county-wide programs and technical assistance that will also expand City of Aurora services with these programs.				
The technical transfer part of the amendment moves 1.0 FTE from the Gifts and Grants Fund to the General Fund. This will have a net-zero impact on the General Fund as Supplies and Services will be reduced, and the remainder will be funded through an allocation to the Auroura Urban Renewal Authority (AURA).

PROGRAM DETAIL

Administration

This function is responsible for oversight of the department's work program, and for developing and maintaining a quality-driven organization through improved customer service, departmental administration, and city-planning policies. The function consists of the Planning and Development Services Director, the Management Assistant, and the Budget Coordinator. Most staff time is spent overseeing special projects and supervising department issues.

PROGRAM DETAIL

Aurora Urban Renewal

The function of this program is to implement plans and strategies, promote redevelopment opportunities, solicit private investment and projects for 21 urban renewal areas and other city redevelopment areas. Some of the responsibilities of the staff in this program are as follows: evaluate and implement Tax Increment Financing (TIF) areas and associated projects within each identified area; research urban renewal area project opportunities; and negotiate and manage incentives for infrastructure, public improvements, and private developments for enhancements to all redevelopment areas. In addition, Aurora Urban Renewal also provides and manages Environmental Protection Agency revolving loan funds through the Aurora Urban Renewal Authority.

Business Services

This program provides one-on-one business advising, low-cost training, technical assistance, and access to financial assistance and programs provided by banks and other agencies. Business Services develop programs and targeted seminars for local partners and other audiences with an emphasis in urban renewal and targeted development areas. They also serve as a liaison for business input and recognition through the Business Advisory Board and provide support for culturally, ethnically and/or racially diverse entrepreneurs through bilingual counseling and seminars, international and cultural programming, and other business assistance. Aurora is the official host of the Aurora-South Metro Small Business Development Center, serving Aurora and the southern suburbs. For 2023, 1.0 FTE was moved from Development Services to Business Services in the General Fund, 1.0 FTE was moved from Gifts and Grants to the General Fund, and 1.0 FTE Associate Director-SBDC was added to the Gifts and Grants Fund.

Development Services

Resources in this program provide incentives and programs to support economic development and primary job creation, including participating in and facilitating, as appropriate, workforce development and training programs. Focused emphasis on retail development is provided by the Retail Specialist and the Retail Project Manager. The program completes special projects, analyzes and supports retail development, negotiates economic development and incentive agreements, and handles realtor, broker, and developer inquiries. Economic development assistance and contract management and coordination for the city is provided with respect to the following public/private economic development organizations: Aurora Economic Development Council (AEDC) and the Adams County Economic Development Council (ACED). In addition, the program recruits and supports new and existing businesses, in conjunction with existing economic development organizations. For 2023, 1.0 FTE was moved from Development Services to Business Services in the General Fund.

Planning

Planning facilitates the efficient processing of land use applications with an emphasis on achieving quality development, creative solutions to land use issues, and an adequate balance between development and neighborhood interests. The program includes an environmental planning section that addresses city regulatory requirements and assists customers with evaluating compatible land uses where environmental issues are present. The Data Services Team provides internal and external customers with socio-economic data, addressing, and map products. The program also provides long-range planning solutions, including land use and urban design plans for specific areas of the city, and amendments to the zoning code and comprehensive plan. In 2023, 1.0 FTE Planning Supervisor and 1.0 FTE Project Coordinator are included in the budget.

Police

DESCRIPTION

The Aurora Police Department is a full-service law enforcement agency serving the citizens of the City of Aurora. The department is committed to maintaining and improving peace, order, and safety through excellence in law enforcement and community service. The department has both sworn police officers and civilian personnel assigned to operating and support programs in five divisions. The Patrol Division manages the Districts. The Investigations Division include the Major Investigations Section, General Investigations Section, and Regional Crime Lab. The Special Operations Division includes the Traffic Section, Investigation Support Section, Operations Support Section, and the Regional Anti-Violence Enforcement Network (RAVEN). The Professional Standards and Training Division programs include the Professional Standards Section, Electronic Support Section, and the Training Section. The Business Services Division programs include the Records Section, Property and Technical Services Section, Vehicle Impound Unit, Equipment and Facilities Section, and Administrative Services Section. Other support programs and functions for the department include the Internal Affairs Bureau, Community Relations Section, Employee Support (Wellness) Unit, and Public Affairs Unit.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Aurora Police Department 2022 projection is \$1.8 million (1.3 percent) lower than the 2022 Original Budget, with the Gifts and Grants Fund under by \$1.9 million and the General Fund over by \$89,400. In the Gifts and Grants Fund, the department is projecting to be under budget primarily due to anticipated grants not coming in as strongly as originally budgeted. In the General Fund, the department received a 2022 Spring Supplemental providing an additional \$131,500 and 2.0 FTE to civilianize staff positions at the Impound Unit to replace sworn assignments. When including the additional spending authority provided in the 2022 supplemental, the department is projecting to spend just under its General Fund working budget in 2022.

2023 Department Budget Variance

The Aurora Police Department's 2023 budget is \$12.9 million (9.5 percent) higher than the 2022 Original Budget, with \$8.8 million of that coming in base adjustments, including mandated costs. The vast majority of these base adjustments occur in the General Fund. Base adjustments include:

- \$8.9 million for compensation increases for both career and civil service staff, as well as other costs associated with the new 2023-2024 Civil Service Collective Bargaining Agreement;
- \$1.6 million for mandated cost increases;
- \$131,500 associated with the Impound Unit supplemental noted earlier;
- a reduction of \$96,500 associated with other technical adjustments; and
- a decrease of \$1.7 million for one-time budget from 2022 not recurring in 2023.

There are \$4.1 million in amendments in Police, including an increase of \$3.1 million in the General Fund, an increase of \$1.1 million in the Designated Revenues Fund, and a decrease of \$104,900 from the Gifts and Grants Fund. Amendments include:

- \$985,400 for 3.0 FTE Community Service Representatives for traffic, as well as an additional 3.0 FTE Community Service Representatives for theft reports;

Police

DEPARTMENT NARRATIVE

- A net \$549,600 (\$654,500 in General Fund partially offset with \$104,900 decrease in Gifts and Grants Fund) for Crisis Response Team funding;
- \$215,000 for BearCat funding; and
- \$200,000 for training.

Adjustments made by Council at the October 8 Budget Workshop include:

- \$1.0 million for victim assistance support related to impound lot fees and \$100,000 for general victim assistance support in the Designated Revenues Fund;
- \$500,000 for 4.0 FTE Crime Scene Investigators and 3.0 FTE Property Technicians;
- \$300,000 for speed guns; and
- \$293,000 for 4.0 FTE Police Officers and equipment for ¼ year and the elimination of the 12.0 FTE Police Officer add.

The department is increasing by 18.0 FTE for 2023, including 2.0 FTE added through the 2022 Spring Supplemental process and 16.0 FTE added as 2023 amendments.

BASE ADJUSTMENTS

Base Adjustments	2023
Prior Year One Times	-1,726,440
Mid Year Modifications	131,527
Compensation Adjustments	8,926,879
Mandated Costs	1,555,024
Other Adjustments	-96,465
Total Base Adjustments	\$8,790,525

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Designated Revenues Fund / New Appropriation</u>				
Transfer of Marijuana Funds to Designated Revenues Fund for Impound Fee Support	0.00	1,000,000	1,000,000	0
Program affected: Business Services Division, Transfers and Other Requirements Duration: One-time At the October 8 Budget Workshop, Council added one-time appropriation for impound fee support in the Designated Revenues Fund to provide more support for victims of auto theft. This will be funded via a transfer from the Marijuana Tax Revenues Fund.				
Transfer of Marijuana Funds to Designated Revenues Fund for Victim Assistance Support	0.00	100,000	100,000	0
Program affected: Investigations Bureau, Transfers and Other Requirements Duration: One-time At the October 8 Budget Workshop, Council added one-time appropriation for victim assistance support in the Designated Revenues Fund to provide more support for victims of crimes. This will be funded via a transfer from the Marijuana Tax Revenues Fund.				
New Appropriation Total	0.00	1,100,000	1,100,000	0
Designated Revenues Fund Total	0.00	1,100,000	1,100,000	0

Police

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 4.0 FTE Officers and Equipment for Full-Year and 8.0 FTE Officers and Equipment for 1/4 Year (Eliminated)	12.00	1,218,916	0	1,218,916
Program affected: Training Section Strategic Outcome: Healthy and Safe Duration: \$678,800 Ongoing, \$540,100 One-time The Police Department will add 12.0 FTE Patrol Officers to its authorized strength in 2023 to meet the staffing mandate, with 4.0 budgeted for a full year and 8.0 FTE budgeted for a quarter of the year. This amendment provides appropriation for personal services, fully-marked patrol vehicles, Mobile Data Computers (MDCs), mobile radios, portable radios, Microsoft Office software licenses, tasers, body-worn cameras, and uniform costs for the officers. This proposed amendment has been eliminated by the Council adjustment: Eliminate 12.0 FTE Police Officer Add and Add 4.0 FTE Officers and Equipment for 1/4 Year				
Add 6.0 FTE Community Services Representatives for Traffic and Cold Burglary Investigations	6.00	985,436	0	985,436
Program affected: Traffic Section Strategic Outcome: Healthy and Safe Duration: \$540,200 Ongoing, \$445,300 One-Time APD is requesting three civilian traffic personnel to handle responses to minor traffic incidents such as non-injury traffic accidents, traffic direction, and disabled vehicles. There are over 10,000 non-injury accidents in Aurora each year, so utilizing civilians for this work will allow sworn officers the time to focus on other issues. Additionally, APD is requesting three civilian community service officers to handle theft reports on cold burglaries to allow sworn officers to spend more time on other investigations. The amendment includes workstations, equipment, vehicles, uniforms, software, and other setup costs.				
Add 7.0 FTE Civilian Police Positions	7.00	500,000	0	500,000
Program affected: Investigations Bureau, Business Services Division Duration: Ongoing At the October 8 Budget Workshop, Council added 4.0 FTE Crime Scene Investigators and 3.0 FTE Property Technicians to address an increased workload.				
Crisis Response Team - Transition to General Fund and Eliminate Grant Funded Position	0.00	654,500	0	654,500
Program affected: Operations Support Section Strategic Outcome: Healthy and Safe Duration: \$526,500 Ongoing, \$128,000 One-time The Crisis Response Team (CRT) is a team of specially-trained officers and mental health clinicians who respond to mental health calls for service. The team had one Justice and Mental Health grant-funded FTE that is being eliminated due to the expiration of the grant. Additional CRT budget is being added in the General Fund, primarily professional services. There is also \$128,000 one-time for CRT vehicles.				
Eliminate 12.0 FTE Police Officer Amendment and Add 4.0 FTE Officers and Equipment for 1/4 Year	-8.00	-925,916	0	-925,916
Program affected: Training Section Duration: -\$565,800 Ongoing, -\$360,100 One-time At the October 8 Budget Workshop, Council eliminated the 12.0 FTE Police Officer amendment. This elimination was revised at the October 24 first reading of the adopted budget with the addition of 4.0 FTE Police Officers and equipment for a quarter of the year. This will increase the sworn strength to 748 as per the consent decree.

PROGRAM DETAIL

Administration-Chief

The Chief of Police and executive staff lead and direct the planning, organization and operations of the department's law enforcement resources, including all uniformed officers and civilian employees, dedicated to the pursuit of a safer Aurora. This program includes the Internal Affairs Section and Public Affairs Unit. It also includes the Employee Support Unit, which manages the wellness program, and the Chaplains. Some department-wide related costs, such as risk charges and Old Hire pension costs, are charged here. In 2023, there is a net loss of 1.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

Business Services Division

The Business Services Division provides oversight for budget, accounting, payroll, purchasing, and accounts payable and receivable services. It performs analytical studies for Police Administration, pursues grant opportunities, administers awarded grants, and provides technical support for the agency. The Records Unit receives and processes all criminal justice records and serves citizens with walk-in requests for police reports. The Property and Evidence Unit receives, preserves, safeguards, releases, and disposes of property placed in their custody. The Vehicle Impound Detail processes impounded vehicles, including storage, release, and disposal. Additional services include court and secondary employment scheduling, quartermaster support, equipment maintenance and distribution, and police fleet and facilities management. In the 2022 Spring Supplemental, 2.0 FTE Impound Lot Technicians were added. At the October 8 Budget Workshop, Council added 3.0 FTE Property Technicians. This increase is offset by a loss of 3.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

Police

PROGRAM DETAIL

District 1

District 1, one of three decentralized districts, provides patrol services and specialized functions, including Police Area Representatives (PAR) officers for its designated geographic area. The goal is to safeguard the community through proactive policing, community engagement and effective resource management. In 2023, there is a net loss of 1.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel. In addition, recruits that are currently shown in the Training Section will move to operational programs upon completion of training throughout 2023.

New state statutes have increased the workload associated with each call. Along with staffing issues, this has resulted in an increase in the monthly median response time.

Police

PROGRAM DETAIL

District 2

District 2, one of three decentralized districts, provides patrol services and specialized functions including Police Area Representatives (PAR) officers for its designated geographic area. The goal is to safeguard the community through proactive policing, community engagement, and effective resource management. In 2023, there is a net-zero change, but a shift in civil FTE to career FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel. In addition, recruits that are currently shown in the Training Section will move to operational programs upon completion of training throughout 2023.

New state statutes have increased the workload associated with each call. Along with staffing issues, this has resulted in an increase in the monthly median response time.

PROGRAM DETAIL

District 3

District 3, one of three decentralized districts, provides patrol services and specialized functions including School Resource Officers (SROs) and Police Area Representatives (PAR) officers for its designated geographic area. The goal is to safeguard the community through proactive policing, community engagement, and effective resource management. In 2023, there is a net addition of 12.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

New state statutes have increased the workload associated with each call. Along with staffing issues, this has resulted in an increase in the monthly median response time.

Investigations Bureau

Investigations Bureau detectives conduct criminal investigations. This includes generalized investigations as well as specialty investigations indicated by their unit titles: Major Crimes/Homicide Unit, Economic Crimes Unit, Crimes Against Children Unit, Domestic Violence Unit, Crime Scene Unit, Special Victims Unit, and the Sex Crimes Unit. The Victim Services Unit provides on-scene and follow-up crisis intervention to victims of violent crimes. The Investigations Bureau Commander also oversees the Crime Laboratory. At the October 8 Budget Workshop, Council added 4.0 FTE Crime Scene Investigators. This increase is offset by a net loss of 4.0 Civil FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

PROGRAM DETAIL

Operations Support Section

The Operations Support Section is comprised of highly specialized tactical support teams. The Special Weapons and Tactics (SWAT) team plans and conducts high-risk operations in support of other department units and sections. Additionally, the SWAT team responds to potentially hazardous situations to contain and resolve these incidents. The K-9 Unit provides assistance to and increases the safety of officers in the detection and apprehension of suspects, building searches, drug/contraband searches, and control of crowds. The FAST Unit (Fugitive apprehension and Surveillance Team) is responsible for apprehending fugitives wanted by the Aurora Police Department and those wanted by other agencies that are believed to be in the City of Aurora. The Crisis Response Team (CRT) is a team of specially trained officers and mental health clinicians who respond to mental health calls for service. In 2023, there is a net gain of 1.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

PROGRAM DETAIL

Professional Standards and Training Division

The Professional Standards and Training Division provides guidance to the agency on policy, training, background investigations, recruiting, and force investigations. Additionally, the division is responsible for the Force Review Board (FRB), which reviews all uses of force that involve weapons or result in injury. The Professional Standards Section (PSS) conducts staff inspections, publishes department policies, and manages the department's accreditation program. The section also manages the department's Early Intervention System identifying stressors affecting department personnel, and conducts background investigations on all potential department employees. This section also houses the Recruiting Unit to reach the future officers of Aurora. The Force Investigations Unit investigates uses of force in the department. The Electronic Support Section manages the technology used throughout the department. In 2023, there is a net loss of 1.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

Regional Crime Lab

APD joined the Unified Metropolitan Forensic Crime Lab in 2019, which includes Arapahoe County, Douglas County, and the 18th Judicial District. The lab provides DNA analysis, chemistry services, latent print examination, questioned document analysis, such as handwriting and counterfeiting, photographic support, and firearms and tool mark examinations. In 2023, there is a net gain of 1.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

PROGRAM DETAIL

Traffic Section

The Traffic Section provides traffic enforcement and professional crash investigations and endeavors to positively affect motorist driving habits to reduce the number and severity of motor vehicle crashes. The section also administers traffic-related grants, coordinates and supports special events and supports VIP protection and motorcades. Units include the Motorcycle Enforcement Team (MET), DUI Unit, Traffic Services Unit, and Day and Night Traffic Units. In 2023, the addition of 6.0 FTE Community Service Representatives in the 2023 budget is partially offset by a loss of 4.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

Training Section

The Training Section conducts both 8-week lateral academies and 26-week basic academies between five to seven times per year. Additionally, the program conducts quarterly in-service training for all commissioned officers. The Training Section operates the firearms range and facilitates weapons qualifications for officers and other armed city employees in addition to specialized training. Expenditures vary considerably between years due to year-to-year differences in the number, size, and timing of recruit classes. New recruits are initially budgeted in the program and are moved to operational programs upon completion of training. For 2023, the 4.0 FTE Officers added are in this program. In addition, there is a net gain of 6.0 FTE as a result of strategic resource deployment efforts by APD through programmatic reorganization of personnel.

Public Defender

DESCRIPTION

The Aurora Public Defender's Office (APDO) is constitutionally mandated to provide effective and efficient legal representation to indigent clients accused of municipal ordinance violations, where jail is a possible sentence. The APDO is required to provide representation to indigent clients that is equal to representation provided to non-indigent defendants. The APDO is an independent agency overseen by the Aurora Public Defender Commission which is a seven-member Commission whose members are appointed by the Aurora City Council.

The 2023 budget includes 17.5 FTE positions; including the Chief Public Defender and 11 attorneys; an Executive Specialist and 3.5 administrative positions; and one investigator. Non-Departmental includes 3.0 FTE attorneys held there pending an organizational study.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Public Defender's Office resides in multiple funds, including the General Fund Designated Revenues Fund, and Gifts and Grants Fund. On a bottom-line basis, the department's 2022 projection is over the 2022 Original Budget by \$247,100 (12.9 percent), but for different reasons in the different funds. In the General Fund, the department is projected to be \$111,600 (5.8 percent) over the 2022 Original Budget. This is due to Equal Pay / Equal Work (EPEW) pay adjustments, as well as a compensation adjustment in the 2022 Spring Supplemental. Both are included in the 2022 projection but were not included in the original budget. After taking the EPEW adjustments and supplemental into account, the Public Defender's Office is projected to be slightly under budget.

The Designated Revenue Fund is projected to be \$123,900 over the 2022 Original Budget, primarily associated with an amendment in the 2022 Spring Supplemental to appropriate the Competency Initiative funded by the Colorado Competency Fines Committee. In the Gifts and Grants Fund, expenses associated with a COVID-19 grant-related variable hour attorney cause the \$11,600 expense. A future supplemental will be necessary for both of these overages.

2023 Department Budget Variance

The Public Defender's Office 2023 Proposed Budget of \$2.9 million was \$1.0 million (52.7 percent) greater than the 2022 Original Budget. Over three-quarters of the proposed increase (79 percent) was either driven by a state funded initiative or by mandates to include the citywide base budget changes and weekend court, an unfunded state mandate. The breakdown of the total proposed increase is as follows:

- 31 percent (\$316,100) for citywide assumptions for pay, benefits, and interfund charges for fleet and risk;
- 37 percent (\$372,400) for the state funded Competency Initiative;
- 11 percent (\$107,800) for the weekend court state mandate; and
- 21 percent (\$215,000) to right size staff in response to recent a workload study.

At the October 8 Budget Workshop, City Council made changes to the proposed budget (outlined later in this narrative) reducing the Public Defender budget to \$2.6 million for adoption. The Adopted Budget is \$688,600 (35.9 percent) higher than

Public Defender

DEPARTMENT NARRATIVE

the 2022 Original Budget.

Base adjustments account for the entire 2023 budget increase and are summarized in the following Base Adjustments section. They include amounts to align pay, benefits, and interfund charges for fleet and risk to citywide assumptions. Another significant base adjustment is for the continuation and expansion of the Competency Initiative partnership with the state. The state has been pleased with the program's progress in keeping incompetent clients out of the state system and has awarded the Public Defender's Office \$372,400 in additional funding. This program is currently funded through 2023 and primarily covers one variable hour mental health professional, competency evaluations, and mental health interns.

The 2023 Proposed Budget included two amendments totaling \$322,800. One amendment added 2.0 FTE to address an increasing workload. A workload study completed by UNCOMN consulting services supports the need for two additional Public Defenders to meet the Constitutionally mandated level of representation of clients. The second amendment for \$107,800 added 1.0 FTE Public Defender associated with weekend court. Weekend court is a state mandate per HB22-1067 requiring municipal courts to hold a bond hearing within 48 hours for a jailed person on a municipal hold.

At the October 8 Budget Workshop, City Council moved the proposed appropriations for the 1.0 FTE requested for the weekend court mandate and the 2.0 FTE requested as a result of a workload study to Non-Departmental pending a study of the Public Defender organization. A total of \$322,800 is moved to Non-Departmental. The funding in Non-Departmental will be used for 2023 as follows: to fund a study to perform a cost-benefit analysis review of the current program versus having the services fulfilled by an outside agency; to contract for legal services for the weekend court mandate; and to contract for legal services to address workload issues as needed.

Details regarding all amendments can be found in the following Budget Amendment Request section.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net

General Fund / New Appropriation

Add 2.0 FTE Public Defenders to Address Workload	2.00	214,995	0	214,995
--	------	---------	---	---------

Program affected: Public Defender
Strategic Outcome: Healthy and Safe
Duration: \$211,000 Ongoing, \$4,000 One-time

This amendment will add ongoing appropriation for 2.0 FTE Public Defenders to address workload. Workload has steadily increased due to a relaxing of standards for arrest and detention post COVID; an increase in the number of arrests and new charges; and a significant increase in clients with mental health issues. Additionally, the complexity of cases due to additional body worn cameras and multiple charges in cases have increased the workload. There is a small amount of one-time appropriation included in this amendment for the initial office set-up costs.

In September of 2021, an assessment of the Public Defender's Office entitled, Review of the Aurora, Colorado Municipal Public Defense System, was completed. One of the recommendations was for a data driven workload analysis to be conducted which was finalized in August 2022 by UNCOMN consulting services. A workload study is the best measure for resource requests and allocation. The analysis was completed through an examination of time

<u>General Fund / New Appropriation</u>				
keeping on cases to establish the workload requirements for the office to meet the Constitutionally mandated level of representation for clients as set forth in the Aurora Municipal Code, Sec 50-166. The workload data from that assessment supports this request for two additional attorney positions.				
Transfer Public Defender Add for 1.0 Weekend Court FTE to Non-Departmental (Pending Study)	-1.00	-107,760	0	-107,760
Program affected: Public Defender/Transfers and Other Requirements Duration: \$105,800 Ongoing, \$2,000 One-Time At the October 8 Budget Workshop, Council moved the Public Defender proposed amendment to add 1.0 FTE for the weekend court mandate to Non-Departmental pending a study of the organizational structure.				
Transfer Public Defender Add for 2.0 FTE to Non-Departmental (Pending Study)	-2.00	-214,995	0	-214,995
Program affected: Public Defender/Transfers and Other Requirements Duration: \$210,000 Ongoing, \$4,000 One-Time At the October 8 Budget Workshop, Council moved the Public Defender proposed amendment to add 2.0 FTE in response to a workload study to Non-Departmental pending a study of the organizational structure.				
Weekend Court	1.00	107,760	0	107,760
Programs affected: Case Management, City Attorney Criminal Division, Courtroom Assistants, Detention, Judicial, Marshal, Public Defender Strategic Outcome: Healthy and Safe Duration: Various across noted departments In order to comply with HB22-1067, the city will begin to hold court over the weekend starting January 1, 2023. This amendment adds appropriation to cover the staffing needs at the courthouse for weekend court. To accomplish this, several staffing options will be used including relief staff, overtime, contracted staff and the addition of 1.0 FTE Public Defender. This request is based on the Court being open one day per weekend unless there is a holiday requiring the Court be open both weekend days, for a total of 63 weekend days. Per the bill, municipal courts are required to hold a bond hearing within 48 hours for a person jailed only on a municipal hold, regardless of whether the deadline falls on a weekend or holiday. The 48-hour clock begins once the jail notifies the municipal court that a person is being held solely on the basis of a municipal hold, and the jail must ensure that the person is made available for the hearing. There are exceptions if the defendant refuses or is unable to attend the hearing in certain circumstances.

PROGRAM DETAIL

COVID-19 Relief Grants

Many of the city's activities in response to the COVID-19 outbreak were subject to reimbursement through the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act. The city received CARES funds as a passthrough from Adams and Arapahoe counties. The passthrough funds have been used to provide small business grants and rental assistance, city personnel costs and personal protective equipment (PPE), and safety improvements to city facilities.

Public Defender

PROGRAM DETAIL

Public Defender

To comply with that Constitutional mandate, the Aurora Public Defender Commission through the Aurora Public Defender's Office is required to

...ensure that indigent clients are represented independently of any political consideration or private interests, provide legal services to indigent persons accused of violation of municipal ordinances that are commensurate with those available to nonindigents, and conduct the office in accordance with the Colorado Code of Professional Standards relating to the administration of criminal justice, the defense function. Aurora Municipal Code, Sec. 50-166.

In addition to jail visits and meetings with clients and witnesses, APDO represents clients at first appearances, bond returns, pre-trials, court and jury trials, sentencing, citation hearings and appeals.

As a result of the recent assessment of the Public Defender's Office conducted by the of the National Legal Aid and Defender Association (NLADA) and the use of the case management system, performance data will become more useful going forward as new data is collected. Tracking time rather than just number of cases for workload analysis will provide better data for resource allocation. Hours spent on Appearances in Court and Case Interviews are provided below as two new measures with the first full year of data in 2021.

Case counting is provided as a performance metric below. The case numbers have decreased, yet the workload has increased exemplifying that counting cases is not an accurate measure of workload on its own. There are several factors involved in the decline of cases, including fewer arrests, charges, and clients due to the COVID-19 pandemic. Increased use of body worn cameras; staffing of the Wellness and newly formed Aurora Armed Forces Treatment Court as well as the impacts of the COVID-19 pandemic process changes have all factored into the increased workload.

Public Works

DESCRIPTION

Public Works is responsible for providing a variety of infrastructure services to Aurora residents and visitors. Service divisions under the management of Public Works are: Administration, Building, Engineering, Facilities, Streets, Traffic, Real Property, Park Aurora, Public Improvement Inspections, Materials Lab, and Fleet. Specific responsibilities of the department include: planning, survey, design, and construction management of capital improvement projects on behalf of the city; building plan review, inspections and permits; maintenance and cleanliness of all public streets, alleys, and municipal parking areas; maintenance and repair of city buildings; design, installation, operation, and maintenance of traffic control signals, devices, and markings; support of all city land property transactions; and to ensure that all roadway and utilities infrastructure projects are constructed to meet or exceed the city standards. In addition, the Fleet Division within Public Works manages the city's vehicle and equipment fleet.

DEPARTMENT NARRATIVE

2022 Department Projection Variance

The Public Works Department resides in multiple funds, including the General Fund, Development Review Fund, Fleet Management Fund, Parking and Mobility Fund, and the Designated Revenues Fund. On a bottom-line basis, the department's 2022 projection is over the 2022 Original Budget by \$5.1 million (8.1 percent), which is the net of significant increases and decreases in the different funds as follows.

In the General Fund, the department is projected to be under the 2022 Original Budget by \$694,000 (1.8 percent). Savings in the General Fund operations, primarily for position vacancies and savings in public lighting, entirely offset additional costs and the impact of Equal Pay / Equal Work (EPEW) and subsequent pay adjustments in the General Fund. Additional costs include the 2022 Spring Supplemental which accounts for \$137,700 of this total for the addition of 1.0 FTE Street Light Program Manager. The projection also includes unbudgeted items such as: leave buyout costs; overtime and standby pay; changes to employee benefit selections; sharp cost increases in operating supplies in Streets, Traffic, and Facilities Operations; and the authorized backfilling of vacant traffic engineering staff with a consultant contract.

In the Development Review Fund, the department is projected to be over the Original Budget in 2022 by \$5.9 million (46.4 percent). The 2022 projection is over budget primarily due to: ten approved additional unbudgeted staff working to meet customer service expectations; contracted service to serve as an extension of staff to assist with development review timelines; overtime required to meet service level expectations; and credit card fees in excess of budget. Appropriation will be requested in a supplemental to cover the budget overage.

In the Fleet Management Fund, the department is projected to be under the Original Budget by \$26,300 (0.2 percent). The 2022 projection reflects an increase for an unbudgeted, management approved variable hour employee and higher than budgeted parts costs entirely offset by lower than budgeted costs for fuel. Fleet was able to lock into favorable fuel costs in late summer of 2021 for the 2022 fiscal year.

In the Parking and Mobility Fund, the department is projected to be under the Original Budget by \$33,400 (2.9 percent). The 2022 projection includes vacancy savings within the parking enforcement contract that is largely offset by overtime.

Public Works

DEPARTMENT NARRATIVE

In the Designated Revenues Fund, the department is projected to be over the Original Budget by \$1,000. The 2022 Spring Supplemental accounts for all the variance to establish the Shared Mobility Program.

2023 Department Budget Variance

The Public Works Department 2023 Budget is \$6.1 million (9.7 percent) more than the 2022 Original Budget. This adjustment upward is the net of significant increases and decreases. Base adjustments outlined in the Base Adjustments section account for a \$4.8 million increase at the department level for all funds combined. Amendments for 2023 outlined in the Budget Amendment Requests section total \$1.3 million for all funds.

Significant base increases include \$2.1 million in compensation adjustments for the citywide assumptions for pay and benefits as well as the reflection of the 2022 EPEW and subsequent wage adjustments in the department. There are also \$3.9 million in mandated costs that encompass department contract rate increases, and anticipated increases in fuel costs and citywide utilities. This is offset with a \$1.7 million decrease due to 2022 one-time budgets being taken out.

There are five amendments in the 2023 budget. The two amendments in the Development Review Fund are to activate and fund 3.0 FTE, as well as add an additional 1.0 FTE to keep up with workload associated with development activity. There is one amendment in the General Fund to reinstate 3.0 FTE that were cut during initial stages of the COVID-19 pandemic. The amendment in the Fleet Management Fund adds 2.0 FTE to help address an imbalance of workload. Lastly, the amendment in the Parking and Mobility Fund adds funding for two contracted Parking Enforcement Officers and two patrol vehicles to keep up with citizen call volumes. More information on these amendments can be found in the Budget Amendment Requests section.

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Development Review Fund / New Appropriation</u>				
Activate and Fund 8.0 FTE Across Various Departments in the Development Review Fund	3.00	416,238	0	416,238
Program affected: Various in Aurora Water, Public Works, Planning and Development Services Strategic Outcome: Planned and Maintained Duration: Various across noted departments This amendment adds staffing in the Development Review Fund across three departments. The request for additional staff is due to increased workload related to development review activity. Ongoing management of the development review processes, policies, and procedures by staff has identified the positions as critical to improve consistency, quality, timeliness, and predictability for all phases of development within the city. Public Works will add 1.0 FTE Building Life Safety Supervisor, 1.0 FTE Permit Technician Supervisor, and 1.0 FTE Plan Review Manager for the new Development Review Division within the department. Aurora Water will add 1.0 FTE Engineer, 1.0 FTE Engineer Technician, and 1.0 FTE Project Engineer as the Drainage Review has been transferred from Public Works to Aurora Water. Planning and Development Services will add 1.0 FTE Planning Supervisor and 1.0 FTE Project Coordinator.				

Public Works

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>Development Review Fund / New Appropriation</u>				
Add 1.0 FTE Traffic Engineering Supervisor	1.00	175,169	0	175,169
Program affected: Engineering Services Strategic Outcome: Planned and Maintained Duration: \$173,200 Ongoing, \$2,000 One-time This amendment adds 1.0 FTE Traffic Engineering Supervisor in the Development Review Fund to address an increased workload related to development review activity. Ongoing management of the development review processes, policies, and procedures by staff has identified this position as critical to improve consistency, quality, and timeliness of traffic engineering review.				
New Appropriation Total	4.00	591,407	0	591,407
Development Review Fund Total	4.00	591,407	0	591,407
<u>Fleet Management Fund / New Appropriation</u>				
Add 2.0 Fleet FTE	2.00	154,169	0	154,169
Program affected: Fleet Management Administration Strategic Outcome: Healthy and Safe Duration: Ongoing In order to begin to address an imbalance of workload to employees, this request will add 1.0 FTE Fire Fleet Technician and convert 1.0 Contingent Financial Support Technician to FTE. The addition of a Fire Fleet Technician will increase available staff trained specifically to maintain and repair specialized emergency response vehicles and equipment. In the interest of public safety, Fleet provides 24/7 support to Aurora Fire Rescue, and adequate staffing levels are imperative to minimize the downtime of such vehicles. The conversion of the 1.0 Contingent Financial Support Technician to FTE will help support retention of this important position. This position has been in place for over two years and the workload continues to increase, demonstrating the need for a permanent FTE. This position provides coverage for invoice processing; orders fuel citywide; helps maintain EPA compliance; performs fuel chip key programming; and prepares budget month end reports. This position is currently budgeted part-time but has been working full-time with contingent benefits since March 2020; therefore, there is only a partial offset of temporary funding available.				
New Appropriation Total	2.00	154,169	0	154,169
Fleet Management Fund Total	2.00	154,169	0	154,169

Public Works

BUDGET AMENDMENT REQUESTS

Fund \ Type \ Description	2023			
	FTE	Budget	Revenue	Net
<u>General Fund / New Appropriation</u>				
Add 3.0 FTE - Restore 2020 Position Cuts	3.00	378,271	0	378,271
Program affected: Engineering Services Strategic Outcome: Planned and Maintained Duration: \$372,300 Ongoing, \$6,000 One-time As part of the cuts made during the initial stages of the COVID-19 pandemic, Public Works eliminated several positions. This request will restore three of those positions: Facilities Project Manager; Project Engineer (Transportation) and Sustainability Engineer.				
The restoration of the Facilities Project Manager position will increase service levels by addressing a consistent backlog of between 30 and 40 projects. Inadequate staffing levels have caused a project request to remain on the backlog list for up to one year. Currently the group is averaging 30 active projects at a time which equates to 6-7 projects per person. Project Managers are currently fulfilling the individual roles of Project Manager, Observer, and Contract Coordinator.				
The Project Engineer (Transportation) position will restore the division to its pre-COVID staffing levels. Workload continues to increase due to ongoing development; roadway safety and capacity improvement needs; and the increasing availability and pursuit of Federal Aid Grant programs, which have an increasing number of compliance requirements.				
The Sustainability and Energy Management Engineer was a recommendation by Internal Audit and approved for recruitment in 2020. Currently, the city has no oversight or management of energy usage. The position will evaluate usage, identify improvements and manage projects to achieve sustainability goals for the city. The Sustainability Engineer will provide sustainability suggestions for new construction and maintenance projects as well as assist in projects related to electrical vehicle charging stations.

<u>Parking and Mobility Fund / New Appropriation</u>				
Increase Professional Services for Two Parking Enforcement Officers	0.00	212,500	174,000	38,500
Program affected: Parking and Mobility Strategic Outcome: Planned and Maintained Duration: \$112,500 Ongoing, \$100,000 One-time This amendment will add appropriation to increase the professional services contract for Park Aurora to include two additional Parking Enforcement Officers and two patrol vehicles. The volume of calls from Aurora residents for enforcement exceeds the current capacity and resources to respond to them. Based on current citation collection rates, the enforcement efforts of a single Parking Enforcement Officer yield enough revenue to cover the ongoing cost of the positions.

PROGRAM DETAIL

Administration

The Administration Program prepares and manages the department budgets; prepares contract documents; processes contract payments, requisitions, and other financial transactions; and provides administrative and clerical services to divisions via a pool of three employees. Approximately half of this program's funding is Risk Management charges for the department. The Director, Business Services Manager, and Parking Magistrates are also included in this program.

PROGRAM DETAIL

Building Division

The Building Division issues permits; inspects residential and commercial construction and remodel projects for compliance with adopted building codes; conducts all site development and construction plan reviews; and administers contractor and supervisor licensing. In 2023, there is an activation and funding for 2.0 FTE to this program in the Development Review Fund as presented in the Budget Amendment Requests section.

Public Works

PROGRAM DETAIL

Engineering Services

Engineering Services plans, designs, constructs, and manages capital improvement, utilities, intersection, Transportation Improvement Program (TIP), facilities, and fence projects for Public Works and various departments. This function also maintains record drawings and reports for infrastructure. The Development Review Fund function of Engineering Services reviews and approves the civil engineering plans. Traffic engineering requests are varied and include: evaluating need for traffic signs and signals to address hazards; reviewing signal timing to improve flow; addressing school traffic concerns; coordinating construction detours and lane closures; collecting traffic volume count data; approving oversize/overweight vehicle permits; special use permits; sign permits; addressing Council requests; and coordinating with other jurisdictions on traffic improvement projects. In 2022, there was a transfer of 1.0 FTE to Traffic Operations in the General Fund to better align with the position's duties. In 2023, there is: an activation and funding for 1.0 FTE to this program in the Development Review Fund; an add for 1.0 FTE to this program in the Development Review Fund; and a restoration for 3.0 FTE to this program in the General Fund. More information on the adds can be found in the Budget Amendment Requests section.

Performance measures in transportation and development review have been negatively affected in 2020 and 2021 by an unprecedented volume of workload due to increased development activity, as well as difficulty in recruiting qualified engineering staff. The review in civil plans continues to come in under target as work volume remains high and qualified engineers have been difficult to attract.

Facilities Operations

Facilities Operations provides preventive maintenance and minor repair services for more than 130 city buildings in a full range of trade areas to include HVAC, electrical, plumbing, and carpentry needs. It also manages multiple service contracts including custodial services, waste management, and specialty labor/trades services. This program is included within the Operations Division.

The performance measure has been negatively affected due to an unprecedented workload level and limited staff.

Public Works

PROGRAM DETAIL

Fleet Replacement

This function provides for the purchase and lease costs associated with the replacement of city vehicles and equipment for General Fund departments. The budgeted cost for this program includes replacement costs and lease payments for several high-cost vehicles such as fire trucks, dump trucks, and street sweepers.

Parking and Mobility

The Parking and Mobility Program, known as Park Aurora, was developed in 2015. The program manages parking garages and on-street parking facilities; administers neighborhood and commuter parking permits; enforces parking rules and regulations; and helps identify and coordinate mobility enhancement opportunities throughout the city.

Public Improvements

The Public Improvements Program has two main functions: Public Improvements and Materials Testing Lab. The Public Improvement function permits, inspects, and warranties developer infrastructure in new construction, including asphalt and concrete roadways, curb and gutter, walks, crosspans, and curb ramps. Resources permitting, this division may also inspect the repair, replacement, maintenance and restoration operations for dry utilities, such as phone, power, cable, gas and fiber optic lines. The Materials Lab provides technical support and prepares subsurface soils investigations for city improvement projects in Public Works, PROS, Aurora Water, and Building Maintenance; provides testing and qualification of soils, concrete, and asphalt used in city repair, utility replacement, and maintenance operations; and reviews testing of and qualifies materials used in developer infrastructure improvements. This program is included within the Engineering Services Division. In 2022, there was a transfer of 1.0 FTE from Street Operations.

Performance measures are negatively affected due by an unprecedented volume of workload as a result of high development activity and limited staff.

Public Utilities

This program includes both the Public Building Utilities and the Public Lighting functions. The program funds the monthly water/sewer, gas, and electricity charges for all public buildings as well as the energy charges for all street lights and traffic signals. It also covers non-routine street light maintenance costs (e.g. cut underground wires, knock downs, etc). In the 2022 Spring Supplemental, there was an add for 1.0 FTE Street Light Program Manager in the General Fund to this program.

Public Works

PROGRAM DETAIL

Real Property Services

The Real Property Services Program conducts transactions on land acquisition and real estate for special projects for all city departments as well as land disposal, land surveying, and leases for the city. Tasks include negotiations; condemnation support; appraisal procurement; consultant management; licenses and revocable permit processing; title work closing; environmental assessment; demolition and relocation; and technical review of land development plans that includes land records, mathematical calculations, survey data, building permits, review of subdivision plats and site plans, annexations, street vacations, easement dedications and releases, and recording of documents. The program also supports the city with development of property inventory and maintenance of property records.

Performance measures are negatively affected due by an unprecedented volume of workload due to current development activity and the ability to recruit and retain staff.

Public Works

PROGRAM DETAIL

Street Operations

The Street Operations Program provides two key functions: Street Maintenance and Street Sweeping. The Street Maintenance function provides for maintenance of all public streets, sidewalks, alleys, and municipal parking areas in the city; pavement repairs include patching, milling, and overlays; concrete infrastructure maintenance on streets, including curbs, gutters and sidewalks; installation of handicap ramps in compliance with the Americans with Disabilities Act; gravel surface and shoulder maintenance on rural roads; and routine maintenance including alley grading and pothole repair. This program also performs snow removal. The Street Sweeping function provides for cleaning of all public streets, sidewalks, paved alleys and municipal parking lots in the city. Routine street cleaning maintains the overall appearance of the city and is required for regional air and water quality. Compliance with the Regional Air Quality Management Plan requires commitment to a regular frequency of street sweeping, especially during the winter months. Street cleaning is also a requirement of the stormwater permit for the city and is reported annually as part of regulatory compliance. In 2022, there was a transfer of 1.0 FTE to Public Improvements.

Performance measures for pothole repair are negatively affected due to a shortage of street crews as it has been difficult to recruit and retain qualified staff.

Public Works

PROGRAM DETAIL

Traffic Operations

The Traffic Operations Program provides for the installation and maintenance of traffic control devices on public streets throughout Aurora. This includes traffic signs, pavement markings, traffic signals, and flashing beacons for school zones. This program also provides for the operation of the central traffic signal system and associated communications equipment. This program is included within the Operations Division. In 2022, there was a transfer of 1.0 FTE from Engineering Services to better align with the position's duties.

City of Aurora, Colorado

**2023 Operating and Capital
Improvement Budget**

CAPITAL IMPROVEMENT PROGRAM

Capital Improvement Program

This section presents detailed information on the Capital Improvement Program (CIP) budget for the city and includes:

- An overview of the CIP;
- The five-year plan for the Capital Projects Fund;
- A summary of the CIP five-year budget plan for each fund;
- The Capital Improvement Program, excluding Aurora Water;
- The Aurora Water Capital Improvement Program; and
- A listing of budget adjustments to capital projects in all funds (Capital Program Amendments Detail), and
- A listing of Non-Routine projects.

Data for the years 2021 through 2027 are presented. The 2021 data represents carryforward appropriations reconciled to the city's Annual Comprehensive Financial Report. The 2022 data represent an estimate of how the 2022 budget will end the year. The 2023 figures represent the city's capital budget. All 2024 through 2027 numbers represent planned future expenditures that are part of a balanced five-year Capital Improvement Program.

Additional information on the Capital Improvement Program is included in other sections of the 2023 Budget. The additional information that can be found outside of the CIP section includes:

- Section B: Executive Summary
 - The CIP Summary by fund and department, 2020-2027
 - The Capital Amendments Summary by fund and department
- Section I: Appendices
 - The Building Repair Subfund five-year project detail
 - The Parks and Open Space five-year project detail
 - The Aurora Water five-year project detail

Capital Improvement Program Overview

The City of Aurora's five-year Capital Improvement Program (CIP) identifies the capital needs of the city and allocates existing funds and projected revenues for projects of \$25,000 or more. All projects must have a long-term benefit of at least five years. The CIP funds:

- Public facilities construction, remodeling, and renovation;
- Street overlay and reconstruction;
- Major water and wastewater infrastructure projects;
- Park land acquisition, development, and improvements;
- Major facilities repair and enhancement;
- Technology improvements and infrastructure;
- Traffic signal installation;
- Major equipment purchases; and
- Art in Public Places.

The CIP functions as a capital-spending plan for all five years. The CIP is updated annually as part of the budget process. It includes appropriations to support approved capital projects for the current budget year and reflects the input received from citizens and staff. It also contains appropriations for new projects and any requests to revise prior year appropriations, as shown in the Capital Program amendments table. Unlike the operating budget, which authorizes expenditures for only one fiscal year, capital budget appropriations are multi-year and continue until the project is completed or changed by City Council.

OVERVIEW OF FUNDS ASSOCIATED WITH THE CIP

There are multiple funds in the city that include at least some expenditures associated with the CIP. Chart 1 represents the breakdown of projects by fund over the 2023 to 2027 five-year plan. Some of these funds also include annual operating appropriations. Listed below is a brief description of the funds associated with the CIP.

- **Capital Projects Fund.** The Capital Projects Fund (CPF) provides for general government infrastructure and facilities including streets, information systems

Chart 1. Capital Improvement Projects by Fund – Five-Year Plan

and facilities. The broad purpose of the CPF makes it a key resource in achieving many of the city's strategies for growth and maintenance of city facilities and infrastructure. For 2023, five Transportation Maintenance budgets were removed from the CFP to create the new Transportation Maintenance Fund. The CPF accounts for 10.5 percent of the CIP five-year plan.

- **Conservation Trust Fund.** Pursuant to Colorado law, the Conservation Trust Fund (CTF) is used for the acquisition, development, and maintenance of new conservation sites, for recreation-related capital improvements, or maintenance to public sites. The primary source of revenue for the CTF is lottery proceeds distributed by the State of Colorado. The CTF accounts for 1.0 percent of the CIP five-year plan.
- **Enhanced E-911 Fund.** The Enhanced E-911 Fund provides for the acquisition, deployment and maintenance of emergency communication systems, including the 800-megahertz (MHz) communication system. The primary source of revenue for the Enhanced E-911 Fund is the emergency telephone surcharge. The Enhanced E-911 Fund accounts for 0.6 percent of the CIP five-year plan.
- **Gifts and Grants Fund.** The Gifts and Grants Fund accounts for gifts and grants to the city from other governments or private parties where the size or duration of the funding source does not warrant establishing a separate fund. There are no Gifts and Grants Fund projects in the CIP five-year plan.
- **Golf Courses Fund.** The Golf Courses Fund is an enterprise fund that provides for the operation and maintenance of city-owned golf courses. The Golf Courses Fund accounts for 0.1 percent of the CIP five-year plan.
- **Open Space Fund.** The Open Space Fund (OSF) was created in 2011, combining the Arapahoe County Open Space Fund (ArCo Fund) and the Adams County (AdCo) projects. It provides for the acquisition, development, and maintenance of parks and open space in the city. The primary source of revenue for the Open Space Fund is a one quarter of one percent Arapahoe County Open Space sales and use tax. The OSF accounts for 1.6 percent of the CIP five-year plan.
- **Parks Development Fund.** The Parks Development Fund (PDF) provides for land acquisition and park construction within specific areas determined by the funding source. The primary source of funding is developer contributions. The Parks Development Fund accounts for 0.5 percent of the CIP five-year plan.
- **Transportation Maintenance Fund.** The Transportation Maintenance Fund (TMF) was created for the 2023 budget, separating the five ongoing transportation maintenance budgets into a separate fund, in order to create a clearer vision for such maintenance. These budgets include Concrete Repair, Street Asphalt Overlay, Chip Seal / Crack Seal, and Street Reconstruction. Transportation Maintenance projects account for 12.0 percent of the five-year CIP.

Capital Improvement Program - Overview

- **Wastewater Fund.** The Wastewater Fund is an enterprise fund that provides for the systems and operations used in treating and disposing of wastewater from the sanitary sewer and storm drain systems in the city. Wastewater projects account for 9.7 percent of the five-year CIP.
- **Water Fund.** The Water Fund is an enterprise fund that provides for the acquisition of water and water rights as well as for the operation and maintenance of water plants, distribution systems and infrastructure. Water Fund projects are 64.0 percent of the five-year CIP.

FINANCIAL OVERVIEW OF THE CAPITAL IMPROVEMENT PLAN

Annual capital appropriations from all the city funds are projected to reach \$287.7 million in 2022, while a grand total of \$1.6 billion in capital projects is projected or planned between 2023 and 2027. The plan for each fund and major changes are discussed in the following sections.

Capital Projects Fund (CPF)

History of the CPF

The 2023-2027 five-year plan totals \$170.7 million. This is \$138.2 million lower than the \$308.9 million that was in the 2022-2026 five-year plan as shown in Chart 2. The reason for the significant decrease is due to the creation of the TMF noted previously and the movement of ongoing transportation budget to that new fund. If not for the move, the CPF would have risen to \$364.8 million. The TMF will be discussed in more detail later.

Chart 2. CPF Five-Year Plan by Year

2023 CPF Plan

Revenue

For 2023, approximately 40.8 percent of CPF revenue is from the General Fund, lower than the historical average. City ordinance requires that the CPF receives a transfer equal to 100.0 percent of all building materials and equipment use taxes plus 4.0 percent of all other General Fund revenues less revenues from the 0.25 percent sales and use tax dedicated to public safety. Starting in 2023, this transfer will be split between the CPF and the new TMF. The TMF will receive between \$28.9 million and \$34.5 million of the transfer in the five-year plan. At the October 8 Budget Workshop, City Council added a transfer of 750,000 for a greenhouse repair set-aside and a repair project on Warren Avenue.

In addition to the General Fund ordinance transfer, an \$8.0 million transfer from the Marijuana Tax Revenue Fund is included for transportation priority projects, road maintenance, and a one-time transfer of \$2.0 million for traffic signal projects added at the October 8 Budget Workshop. A portion of the transfer was made available due to the 2022 debt payoff of the Hogan Parkway, which freed up \$2.4 million ongoing.

Capital Impact Fees are expected to be \$17.7 million throughout the five-year plan. This revenue stream has grown recently since Council-approved increase in the fees in 2019. This revenue can have one-time spikes, making them difficult to predict, thus the static projection.

Intergovernmental revenue and grants also flow into the CPF. In 2022, one-time revenues totaling \$8.2 million are being received for specific projects, including \$3.6 million for South Aurora Regional Improvement Authority (SARIA) funds, \$1.9 million from a Highway Safety Improvement Program grant, \$1.6 million for Northwest Aurora intersection improvements, and several smaller one-time receipts of funds. Offsetting one-time projects were also included for this revenue. For 2023, Intergovernmental revenue consists of Adams County transportation sales tax and additional HUTF funds from Colorado Senate Bill 260.

Interest-related revenues have been low since the recession due to a very low rate of return.

Other revenues include:

- \$464,000 for charges for service for the new ERP system;
- \$400,000 for a street occupancy fee;
- \$45,000 in charge revenue associated with the Building Repair Subfund; and
- \$44,790 in cell tower revenue, an annual amount tied to a lease payment for a cell tower on Aurora property.

For 2023, CPF revenue is shown in Table 1.

Table 1. 2023 Capital Projects Fund Revenue

Item	Amount
General Fund Transfer – Ordinance	\$ 49,262,540
General Fund Transfer – Ongoing Reduction	(640,900)
General Fund Transfer – Ongoing Road Maintenance Funds	2,000,000
General Fund Transfer – City Council added	750,000
Marijuana Tax Revenue Fund Transfer	8,000,000
Less Transfer of Funds to Transportation Maintenance Fund	(28,859,956)
Capital Impact Fee Revenue	17,763,050
Adams Co. Transportation Sales Tax	3,587,500
Interest Earnings	1,240,000
Colorado State Bill 260 Highway User Tax Funds	1,273,901
ERP Charges for Service	463,971
Street Occupancy Fee	400,000
Other Revenues	89,790
Total Sources of Funds	\$ 55,239,896

Expenditures

Table 2 denotes significant 2022 projection changes by department.

Table 2. 2022 Projection Changes By Department

Department	2022 Original	2022 Projection	Total Change	Comment
Finance	\$ 631,355	\$ 631,355	\$ -	No Change
Fire	2,000,000	2,000,000	-	No Change
IT	426,000	426,000	-	No Change
Non-Dept	6,240,950	13,106,956	6,866,006	Additional funds for Bus Rapid Transit project
Planning	-	24,000	24,000	1400 Dallas Street Renovation
PROS	951,890	951,890	-	No Change
Public Works	52,094,292	94,568,764	42,474,473	Primarily increases for I/70 Picadilly Interchange, additional street maintenance funds, and spending of received inter-governmental and grant funds
Total	\$62,344,487	\$111,708,965	\$49,364,479	

Table 3 shows the breakdown of 2023 CPF expenditures by department.

Table 3. 2023 Capital Projects Fund Expenditures by Department

Department	Amount
Finance	\$ 702,445
Fire	2,000,000
Information Technology	426,000
Non-Departmental	15,151,414
Parks, Recreation and Open Space	2,502,974
Public Works	19,966,149
Total	\$ 40,748,982

Even though the roadway maintenance projects in Public Works were moved to the TMF, they still have the largest budget in the fund. The \$20.0 million Public Works appropriation includes building repair projects, more variable transportation projects, traffic signal construction, and a traffic management system project. After Public Works, the next largest user of funds is Non-Departmental, with \$15.2 million in 2023. The largest project is \$6 million for the BRT project noted previously. In addition, \$3.0 million has been added as the annual debt payment for a \$35 million transportation-related Certificate of Participation, the proceeds of which will be spent in the TMF. At the October 8 Budget Workshop, City Council added \$2.4 million to Public Works for traffic signal projects and Warren Avenue Repair, and \$350,000 to Non-Departmental for a greenhouse repair set-aside.

CPF Five-Year Plan

In any given year, Capital Projects Fund expenditures in each department are increased or decreased, depending on various factors. The adjustments are comprised of two types: calendar adjustments or amendments, as noted in Table 4. The budgets for Fire and Information Technology did not change.

Table 4. Capital Projects Fund Adjustments from Previous Five-Year Plan

Department	Calendar Adjustment	Amendment	Total Change	Comment
Finance	\$ 100,558	\$ 276,875	\$ 377,433	Direct cost adjustment in accordance with city policy
Non-Dept	1,655,871	18,505,515	20,161,386	Primarily BRT and COP debt
PROS	342,900	1,288,184	1,631,084	High Line Canal match, median development, and fire station xeric areas
Public Works	(3,925,993)	(156,394,007)	(160,320,000)	Primarily move of roadway maintenance to TMF
Total	(\$1,826,664)	(\$136,323,433)	(\$138,150,097)	

Calendar Adjustments

Calendar adjustments are typical adjustments that occur due to the move of the five-year plan from one specified span of years to the next. For example, since the previous five-year plan included projects from 2022 to 2026 and the new five-year plan includes projects from 2023 to 2027, any adjustment in budget occurring *solely* due to the elimination of 2022 and the subsequent adding of 2027 are calendar adjustments. Often, what appears to be a large change in a specific project is due almost completely to a calendar adjustment. Adjustments of this type are mechanical in nature, not as a result of specified balancing strategy. Calendar adjustments are completed prior to amendments.

Amendments and City Council Capital Priorities

Amendments are all other changes and may include new projects, changes in expenditures due to balancing and in the case of direct cost projects, mandated pay adjustments. Amendments are summarized in Attachment 12 of the Executive Summary and detailed in the amendment section. The most significant amendments to the five-year plan include:

- In Non-Departmental:
 - A net increase of \$18.5 million is included as amendments. Significant amendments include:
 - \$15.0 million total was added for the annual transportation COPs debt payment,
 - \$6.0 million was added for the second year of the BRT project, and
 - The Aerotropolis Regional Transportation Authority projection was decreased by \$3.2 million due to more muted growth assumptions.
 - \$350,000 added by City Council at the October 8 Budget Workshop for a greenhouse repair set-aside.

Capital Improvement Program - Overview

- In Parks, Recreation and Open Space, \$1.3 million associated with a Highline Canal Underpass Transportation Improvement Program (TIP) grant match and Fire Station landscape conversions to water-wise xeric designs.
- In Public Works, a net decrease of \$156.4 million is included as amendments due to the movement of transportation maintenance projects to the TMF. It also includes two amendment added by City Council at the October 8 Budget Workshop, including \$2.0 million for traffic signal projects and \$400,000 for repairs to Warren Avenue

OTHER FUNDS

Conservation Trust Fund

In 2023, the Conservation Trust Fund (CTF) is projected to receive approximately \$5.3 million in revenue from state lottery proceeds and interest income. Significant capital projects in 2023 include Village East and Beck Center improvements, Turf Conversions, and a Park Equity project. Significant capital projects in the out-years include Turf Conversions, Plains Conservation Center improvements, Meadowood Playground, Lowry Park, and Rocky Ridge Park. The detailed schedule for the CTF projects is presented in Appendix 2.

Enhanced E-911 Fund

The Enhanced E-911 Fund provides for the acquisition, deployment and maintenance of the equipment and communication systems related to 911 calls and the 800 MHz radio communication systems. During the period 2023-2027, \$9.3 million is projected to be spent. Included is the debt service payment for the radio system. The last year of that payment will be 2024. Mobile data computer and radio system infrastructure upgrades are also included in the five-year plan.

Golf Courses Fund

The Golf Courses Fund's five-year capital plan includes \$2.3 million for turf care equipment, golf cart fleet replacements (2), and facility repairs and upgrades.

Open Space Fund (OSF)

The Open Space Fund (OSF) was created for the 2011 budget, combining the Arapahoe County Open Space Fund (ArCo Fund) and the Adams County (AdCo) projects previously held in the Designated Revenues Fund. Specific to Arapahoe County projects, Arapahoe County voters approved a quarter-percent sales and use tax on the 2003 ballot for acquisition, development, and maintenance of open space, parks, and trails in Arapahoe County. Funds spent on maintenance are limited to 20.0 percent of annual revenues. In Adams County, a similar AdCo tax is in place. There is no limit on the amount that can be spent on patrol and environmental education programs in either county. In 2020 and 2021, Adams and Arapahoe County voters reapproved the quarter-percent sales and use tax in perpetuity.

Capital Improvement Program - Overview

The OSF provides the city with a valuable opportunity to increase funding for parks and trail development. The fund is expecting a slight decrease in capital spending in the five-year plan. Significant capital projects in 2023 include Central Community Park design, Triple Creek Trail construction, Rocky Ridge Park synthetic athletic field addition, and unspecified projects to address park system inequities identified in the 2022-2023 PROS Master Plan study. Significant capital projects in the out-years include additional Triple Creek Trail improvements, Central Community Park construction, and additional park improvement projects yet identified to address system-wide service gaps and/or barriers to park access (also known as park equity projects). The detailed schedule for the Open Space Fund projects is presented in the Appendix 2.

Parks Development Fund

The Parks Development Fund (PDF) is projected to see an uptick in capital projects, spending \$8.2 million over the five-year plan. Significant PDF projects include Dome Park, Crestridge Park Renovation, Lowry Park, and General Park. The detailed schedule for the PDF projects is presented in Appendix 2.

Transportation Maintenance Fund

The Transportation Maintenance Fund (TMF) was created for the 2023 budget, separating the five ongoing roadway maintenance budgets into a separate fund, which creates a clearer vision for such maintenance. Over the five-year plan, \$194.1 million is projected to be spent, including budgets previously housed in the CPF and \$35.0 million as the proceeds of a transportation-related Certificate of Participation.

Water/Wastewater Funds

The Aurora Water Capital Improvement Program, which includes projects in the Water Fund and the Wastewater Fund, represents nearly 74 percent of the city's planned five-year capital spending. The 2023 budget includes updates to the plan to incorporate needs identified through master planning, recent development trends, and updated engineering estimates. Planned capital spending for Aurora Water amounts to \$1.2 billion for the 2023-2027 period.

In the Water Fund, major capital projects include: Wild Horse Reservoir (\$262.2 million), Water Rights Acquisition (\$150.0 million), Rampart Water Delivery System (\$104.0 million), Griswold Water Purification Facility (\$81.5 million), Wemlinger Water Purification Facility Improvements (\$62.3 million), and Prairie Waters North Campus Expansion (\$58.0 million).

In the Wastewater Fund, major capital projects include: New Sewer Line Construction, (\$31.3 million); First Creek Interceptor (\$25.9 million), Miscellaneous Sewer Replacement (\$10.9 million), and Stormwater Development Projects (\$10.0 million).

The Aurora Water five-year project detail can be found in Appendix 2.

SPECIFIC PROJECTS IN THE CIP

The projects in the Capital Improvement Program can be split into two distinct categories: routine and non-routine.

Routine capital projects are those projects that tend to have one or more of the following features:

- Consistent budgets each year;
- Budget not necessarily delineated into specific and distinct projects;
- No specific start and end dates; and
- Focus on repair and maintenance.

Routine projects make up the majority of capital spending. A subset of routine programs is the project management-related appropriations. Major routine projects will be identified in more detail below.

Non-routine projects include projects that are more distinct and have specific start and end dates. The budgets for these projects tend to be one-time in nature. Non-routine projects make up a relatively small portion of the total CIP. Significant additional operating costs can be associated with the completion of some non-routine projects. Major non-routine projects are detailed at the end of this section.

Major Routine Projects

Routine projects make up a majority of the CIP. The bulk of the routine projects have to do with repair and replacement of City infrastructure. Several major routine categories include:

Public Works Projects Related to Street Improvements and Street Lighting

The majority of the major routine projects in the Capital Projects Fund fall under this category. Examples of the Public Works projects include miscellaneous street improvements and traffic signal repairs. Traffic signalization includes budget for new and component replacement of traffic signals. No additional operating costs are projected because of these Public Works projects. General routine maintenance on City infrastructure is necessary to prevent higher future costs.

Projects Related to Information Technology

All of the projects in the E-911 Fund are considered routine projects, including 911 Systems Cybersecurity Program, 800 MHz radio system upgrade, and mobile data computer (MDC) infrastructure replacement. The majority of the \$7.4 million budgeted in the E-911 five-year plan is the annual debt-service payment associated with the 800 MHz communication project, accounting for \$5.4 million of the total. The last year of that payment will be 2024.

Projects Related to Building Repair

The building repair projects, previously in the Building Repair Fund for repairs and maintenance of city owned buildings, are primarily routine in nature. A total of \$21.9 million of spending is

Capital Improvement Program - Overview

planned from 2023 through 2027, including security projects. Detail behind these projects can be found in Appendix 2.

Project Management Related Appropriations in the Capital Improvement Program

The Capital Improvement Program includes appropriations for project management expenses related directly to capital projects. Table 4 details the project management expenses included in the 2023 CIP plan. These costs are capitalized into project expenditures, which are included in the capital budget and therefore are not reported in the operating section of the budget book.

Table 5. Summary of Operating-Related Appropriations in the CIP

Department	Fund	Item	2023 Amount	Description
Finance	CPF	Direct Costs Financial Services	\$201,200	Funding for operating expenses to provide financial and budget oversight for the city's CPF
Finance	CPF	Direct Costs Purchasing Services	\$501,300	Funding for operating related expenses associated with purchasing services benefiting the CPF
Public Works	CPF	Direct Costs Engineering and Design	\$1,713,900	Funding for operating expenses associated with engineering and design of Public Works' CPF projects
Public Works	CPF	Direct Costs Facilities Management	\$176,400	Funding for operating related expenses associated with building maintenance and repair projects

The direct cost appropriations primarily cover the cost of staff whose time is devoted to capital projects or programs. For example, the appropriation for engineering and design direct costs in the Public Works Department covers the salary and benefit expenses for engineering staff working on transportation projects in the Capital Projects Fund. All amounts are adjusted annually for pay and insurance adjustments.

ART IN PUBLIC PLACES

Generally, an amount equal to one percent of the construction cost of a capital project is dedicated to the Art in Public Places (AIPP) Program for the acquisition and maintenance of public art. By ordinance, certain projects are not assessed the one percent fee, including underground water and sewer improvements. The amounts currently incorporated into the five-year plan reflect an estimate of the transfer for each year. For the 2023-2027 five-year plan, the AIPP transfer will be approximately \$2.4 million.

¹ Figures represent previous years unspent appropriation as of December 31, 2021, as reported in the 2021 Annual Comprehensive Financial Report.

² Figures represent an estimate of how the 2022 adopted budget will be amended by year-end 2022. This column includes the 2022 adopted budget plus budget transfers, Fall 2021 and Spring 2022 budget amendments and contemplated amendments, transfers and lapses for the remainder of 2022. A negative figure is generally the result of the application of a budget reduction to a project with unspent prior year appropriation.

Project: ARTA Payment (25407)

The Aerotropolis Regional Transportation Authority (ARTA) was established on February 27, 2018 under an intergovernmental agreement between Adams County, the City of Aurora, and the Aerotropolis Area Coordinating Metropolitan District. Under the agreement, the City will collect, and remit any use tax and impact fees received within ARTA's geographic boundaries.

Initially, the expectation was for this area to grow faster than it is actually growing. This decreased budget represents the less aggressive growth rates.

Capital Program Amendments Detail

Capital Projects Fund

Non-Departmental

Project: Colfax Bus Rapid Transit (25752)

The City and County of Denver (CCD), City of Aurora, Regional Transportation District (RTD), and the Colorado Department of Transportation (CDOT) will be pursuing grant funding to construct a bus-rapid transit project on Colfax Avenue. Aurora's share is \$14.0 million. Aurora will be constructing 12 enhanced BRT stations which will include BRT branding elements, ticket vending machines, variable message signs with real-time schedule information, and emergency telephones. It is anticipated that a signature transit station/shelter will be constructed at the Havana Street BRT station location. Upon implementation, the project will reduce transit travel time, increase transit ridership, provide more affordable and reliable access to jobs and community services along the corridor, improve pedestrian safety, and create exciting streetscape, placemaking, and economic development opportunities.

Project: Transportation Maintenance COP Payment (25754)

In order to fully fund the city's transportation maintenance program, a one-time \$35 million influx of budget was needed. An initial interest payment starts in 2022 in order to save money over the life of the debt. A Certificate Of Participation (COP) was chosen as the mechanism to obtain the funds. This is the annual payment for COP. The associated work is being done in the new Transportation Maintenance Fund.

Capital Program Amendments Detail

Conservation Trust Fund

Parks, Recreation & Open Space

Project: Construction Open Space-CTF (61886)

Highline Canal funding shifted from 2024 to 2025 to balance the Conservation Trust Fund with no net funding change over the 2-year period. Budget added in 2027 completes the 5-year plan.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned
2022 Budget	1,500,000	0	100,000	600,000	600,000	0
2023 Budget	1,500,000	0	0	700,000	600,000	400,000
Budget Change	\$0	\$0	(\$100,000)	\$100,000	\$0	\$400,000

Project: Construction Parks-CTF (61887)

The Rocky Ridge Park renovation project moved from 2025 to 2024 to meet American Recovery Protection Act (ARPA) associated grant spending requirements and the budget was increased due to inflation. Budget added in 2027 completes the 5-year plan.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned
2022 Budget	850,000	550,000	800,000	1,150,000	0	0
2023 Budget	850,000	550,000	1,350,000	850,000	0	100,000
Budget Change	\$0	\$0	\$550,000	(\$300,000)	\$0	\$100,000

Project: Infrastructure Open Space-CTF (61847)

Miscellaneous small projects and restoration efforts on city open space properties are partially funded by revenue from the State's Conservation Trust Fund (Lottery proceeds). Funds shifted into alternate years to bundle projects to leverage economy of scale. Budget added to 2027 completes the 5-year plan.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned
2022 Budget	165,000	115,000	150,000	130,000	180,000	0
2023 Budget	165,000	115,000	130,000	150,000	130,000	215,000
Budget Change	\$0	\$0	(\$20,000)	\$20,000	(\$50,000)	\$215,000

Project: Infrastructure Parks-CTF (61703)

Park Infrastructure projects includes ADA compliance, security lighting, and water conservation projects. The increased funding across all years is primarily due to increased focus on ADA compliance and water conservation projects (cool weather turf conversions and irrigation enhancements). Budget added in 2027 includes similar projects across the park and trail system to complete the 5-year plan.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Capital Program Amendments Detail

Conservation Trust Fund

Parks, Recreation & Open Space

Project: Infrastructure Recreation-CTF (New)

Conservation Trust Fund revenues (Colorado Lottery proceeds) may be used for capital related recreation projects. The majority of the 2022 five-year budget plan in 2023 thru 2025 was related to yet to be defined capital recreation projects. Most budget related to undefined projects was eliminated in future years. The ongoing PROS Master Plan will be completed in the first half of 2023 and will better inform capital spending needs for the 2024 budget process. The remaining annual budget will support capital fitness equipment needs. Funds added in 2027 were added to complete the 5-year plan.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned
2022 Budget	1,165,000	1,790,000	465,000	1,015,000	1,015,000	0

Capital Program Amendments Detail

Enhanced E-911 Fund

Information Technology

Project: MDC Infrastructure Replacement (37733)

The method for replacing the Mobile Data Computers (MDCs) has been changed from replacing a portion of the computers each year in the Police and Fire departments to a complete replacement of the MDCS in a specific department on a 5-year replacement cycle. This ensures that the Police and Fire Departments are using the same computer models throughout their life cycle for efficiency of support and maintenance. Annual increases in the number of public safety vehicles and the expectation that the costs of computers will increase up to 25% in 2023 causes updates to the 5-year projection annually.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Golf Courses Fund

Parks, Recreation & Open Space

Project: Golf-Infra CTF Support (61606)

These projects are funded through a transfer from the Conservation Trust Fund to support the Golf Enterprise Fund. Projects primarily fund irrigation renovation, golf cart fleet replacements, and golf course path projects. Change in 2026 adds budget in anticipation of a golf cart fleet replacement and budget added in 2027 completes the 5-year plan.

Collection

The current plan for Collection was updated to include priority development and system rehabilitation sanitary sewer projects. First Creek Interceptor Segments 1B-1D is partially being pushed out from 2023 to 2024. The project will increase in cost by \$5.0 million. Funding for Miscellaneous Sewer Replacement projects will increase by \$8.6 million, with the largest increase occurring in 2023 (\$6.3 million). Sewer Line Construction projects for the Sand Creek Interceptor were pushed to 2027 due to timing issues. Second Creek Interceptor Metro Connection is a new project in 2023 adding \$3.8 million to the plan. No changes are anticipated in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned
2022 Budget	43,625,000	29,500,000	5,150,000	6,400,000	40,650,000	0

Changes Total:	\$0	\$2,174,738	\$12,478,279	(\$1,941,768)	(\$24,015,974)	\$19,804,667
-----------------------	------------	--------------------	---------------------	----------------------	-----------------------	---------------------

Operations & General Management

The current plan was updated to include priority system rehabilitation related wastewater projects. Increases in 2023 through 2027 are largely due to several new Demolition projects that were added to the plan for facilities that are not in use or slated for demolition in the next few years. Each will cost approximately \$700,000 over a 2-year period ranging from 2023 to 2027. Additionally, Kings Pointe Tower SCADA improvements increased by \$375,000 in 2023. The Microwave Audit Corrections (AW Towers) project was added for \$50,000 in 2023 and \$300,000 for 2024. The Northeast Future Maintenance Facility project was added in 2024 for \$1.0 million for the land purchase of a future satellite maintenance facility. We will review the need to lapse budgets at the end of 2022 as projects progress.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Aurora Water

Storm Water

The current Stormwater plan was updated to include the reprioritization of development and system improvement related projects. The large decrease in 2023 is related to Westerly Creek Future Phases being pushed out predominantly into 2024 (\$6.4 million) and 2025 (\$5.0 million). The Alameda Street Outfall project added an additional \$17.0 million in 2024, contributing to the large increase. Decreases in 2026 are primarily related to Detention Pond Land Acquisition reductions (\$11.5 million) and reductions to Westerly Creek Future Phases (\$4.8 million). No changes are anticipated in the 2022 projection.

Capital Program Amendments Detail

Water Fund

Aurora Water

Operations & General Management

The current plan was updated to include priority system rehabilitation water projects. Funding for the Supervisory Control and Data Acquisition (SCADA) improvements for \$1.9 million was added in 2023. The Automated Meter Reading System (AMI) funding was pushed out from 2023/2024 to 2024/2025. This was the driving factor for the decrease in 2023 and the increase in 2025. An additional \$2.2 million was added for Solar Projects from 2023 to 2025. The decrease in 2026 is due to the Robertsdale Solar project being pushed up from 2026 to 2025. Additionally, \$2.1 million was budgeted for Vault/Valve Rehab (2023-2027). No changes are anticipated in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Pumping

The current plan for Pumping includes system rehabilitation and expansion projects at the Quincy, Robertsdale, Wemlinger Zone 5, Marina Zone 7, and Powhatan Zone 8 Pump Stations. Quincy Pump Station improvements were added in 2023 (\$4 million) and 2024 (\$3.4 million), contributing to the increases in those years. Robertsdale pump station improvements increased by \$3 million in 2024, and \$5 million was added in 2024 for Wemlinger Zone 5 pump station upgrades, which is a new project. Marina Zone 7 Pump Station expansion is a new project and will add \$500K in 2024 and \$5.0 million in 2025. Powhatan Zone 8 Pump Station Expansion is also a new project adding \$1 million in 2026 and \$10.0 million in 2027. The Prairie Waters Pump Station increased in cost by \$3.2 million in the 5-year plan. No changes are anticipated in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Capital Program Amendments Detail

Water Fund

Aurora Water

Source of Supply Other

The current plan for the Source of Supply - Other Program was updated with significant changes related to the North Campus Expansion to 30 MGD, Horizontal Wells, Quincy Intertie Wemlinger Pipeline, and the reduction of the Rampart Water Delivery System Expansion Phase I. The Horizontal Wells added \$32 million from 2023 to 2025 and was a major contributor to the increase in 2023 and in 2025. Rampart Delivery System Expansion was reduced in 2024 by \$50 million, increased in 2025 by \$37 million, and reduced in 2026 by \$18 million for a total reduction of \$32 million. These changes were the major contributors to the variances in 2024-2026. Construction in the amount of \$52 million will occur in both 2024 and 2025. The North Campus Expansion will take place in 2026 and 2027, adding \$21.7 million to the plan. The Quincy Intertie Wemlinger Pipeline will cost \$6 million in 2023. No changes are anticipated in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned
2022 Budget	7,500,000	1,000,000	107,814,586	22,500,000	18,958,446	0
2023 Budget	7,500,000	24,100,000	66,750,000	67,000,000	2,000,000	20,000,000
Budget Change	\$0	\$23,100,000	(\$41,064,586)	\$44,500,000	(\$16,958,446)	\$20,000,000

Source of Supply Other Program

Changes Total:	\$0	\$23,100,000	(\$41,064,586)	\$44,500,000	(\$16,958,446)	\$20,000,000
-----------------------	------------	---------------------	-----------------------	---------------------	-----------------------	---------------------

Source of Supply Storage

The current plan for Source of Supply Storage was updated per revised delivery schedules for projects related to water storage, mostly acquisition and growth-related projects. The increase in 2023 is due mainly to increased costs for Aquifer Storage and Recovery (\$4.2 million) and Eagle River Phase I (\$6.6 million). The largest increases in 2024 are for Lower South Platte Storage Walker Site Improvements (\$5 million), Kirby-Dersham/Challenger Site Development/Improvements (\$2 million), and Aquifer Storage and Recovery (\$2.5 million). Wild Horse Reservoir and Conveyances have increased by \$146.0 million, which accounts for the majority of the increases in 2026 and 2027. No changes are anticipated in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Capital Program Amendments Detail

Water Fund

Aurora Water

Source of Supply Water

The current plan for Source of Supply Water was updated to include water rights acquisition and system rehabilitation-related projects. The current capital plan (\$187.7 million) is \$53.8 million or 40.2 percent higher than the previous five-year plan (\$133.9 million). Funding for Water Rights Acquisitions has increased in anticipation of future growth, resulting in an increase in 2023 (\$7.5 million), a decrease in 2024 (\$8.0 million), an increase in 2025 (\$7.5 million), an increase in 2026 (\$32.5 million), and an increase in 2027 (\$25.0 million). Additionally, \$11.7 million in funding was budgeted for Sand Creek Reclaimed Water Line Land Acquisition in 2023/2024. The Strontia isolation valve was reduced by \$5.1 million in 2023 and pushed out to 2025 (\$5.5 million) and 2026 (\$4.5 million). There are no changes in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Source of Supply Water Program

Changes Total:	\$0	\$3,200,000	\$4,500,000	\$13,000,000	\$37,000,000	\$25,000,000
-----------------------	------------	--------------------	--------------------	---------------------	---------------------	---------------------

Transmission & Distribution

The current Transmission & Distribution (T&D) plan includes changes in the project prioritization and delivery schedule for new water mains. As growth in the city has continued to be strong, there is a need to re-prioritize the delivery schedule. The new water mains needed to support development were evaluated and reprioritized per engineer estimates, resulting in a manageable delivery schedule and streamlined funding. The Pressure Zone 4 - Engineering and Easement Acquisition Services for Utility Extensions project was reduced by \$2.0 million and pushed out from 2023 to 2024. An additional \$4.0 million was added in 2024. In 2027, \$5.0 million was added for future distribution projects. Zone 7 Storage Tank was pushed out from 2023 to 2024 (\$5 million) and increased by \$5 million in 2025. The Line Replacement budget was increased by \$30.9 million from 2023 to 2027. No changes are anticipated in the 2022 projection.

	2022 Projected	2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned

Treatment

The current plan for Treatment includes the following water purification facility (WPF) improvements: \$81.5 million for Griswold WPF, \$62.3 million for Wemlinger WPF and \$26.6 million for Binney WPF. Adjustments to the current plan include changes for shifting project prioritizations and delivery timelines. The Wemlinger Chemical Feed construction was pushed up from 2024 to 2023 and phase funded from 2023 through 2027. Funding increased by \$2.0 million. The Griswold Solids Handling System Improvements construction project increased to \$19.0 million in 2023 and \$11.0 million in 2024. Funding for the project increased by \$16.0 million. The Binney Flocculation/Sedimentation Basin Covers project added \$8.0 million to the budget in 2023. No changes are anticipated in the 2022 projection.

210-PWP Raw Water PS Expansion

PROJECT INFORMATION

Location:
Proj. Type: Upgrade or Expand System/Facility/Infrastructure
Category: Utilities - Pump Station

Proj. Manager: Dean Bedford/Chris Leslie
Start Date: Quarter 1, 2023
End Date: Quarter 2, 2027
Bond Funded:

Description:

Design and construction of expansion on three conveyance pump stations on the Prairie Water Conveyance System. Expansion includes the addition of one pump in each pump station in the existing pump bay. Included will be SCADA and electrical to support the additional pumps. This project is triggered by the increase in capacity at the North Campus well field as well as the increased demand on the Prairie Water System from combination downstream users.

Aquifer Storage and Recovery Development

PROJECT INFORMATION

Location: Various
Proj. Type: New Construction/Development/Infrastructure
Category: Utilities - Storage

Proj. Manager: Rich Vidmar
Start Date: Quarter 1, 2019
End Date: Ongoing
Bond Funded: No

Description:

This project includes geotechnical investigations, borehole drilling and analysis, water quality sampling and analysis, and porosity/transmissivity testing in both alluvial and confined aquifers under and adjacent to the city. The development of such storage could give Aurora Water additional flexibility in water resources management, help meet storage needs, and allow maximum utilization of water supplies. During times of excess water supplies, water can be stored below ground to reduce the amount of water loss from evaporation. During times of drought or to serve particular needs difficult to meet with existing surface water infrastructure, water can be withdrawn from these aquifers to supply different types of uses.

Description:

The existing Prologis Lift Station is over capacity and cannot meet the needs of impending development. The Prologis Lift Station was designed and constructed in 2003 and was anticipated to serve the Eastgate and Prologis subdivisions through 2011. This project includes a gravity interceptor from the Prologis Lift Station to the First Creek Lift Station, which will provide system reliability by conveying flows by gravity to the First Creek Lift Station.

PROJECT INFORMATION

Location:	Various	Proj. Manager:	Mathew Allsopp
Proj. Type:	Upgrade or Expand System/Facility/Infrastructure	Start Date:	Ongoing
Category:	Utilities - Storage	End Date:	Ongoing
		Bond Funded:	No

Description:

This project is part of an agreement with Colorado Springs for the Homestake Water System. As part of the Homestake Agreement, Aurora and Colorado Springs participate in a shared water system to manage an existing water supply. The total water supply at Homestake is approximately 30,000 acre feet, split fifty-fifty between Aurora and Colorado Springs.

Operating Impact:

The Homestake projects are funded by both Operating and Capital Improvement Program funding. The capital funding outlined above is primarily for infrastructure related projects. All other components (electricity, supplies, etc.) are currently funded in the Water Fund operating budget. There are no additional operating impacts expected for this project.

Homestake/Eagle River Project

PROJECT INFORMATION

Location:	Colorado River Basin	Proj. Manager:	Kathy Kitzmann
Proj. Type:	Upgrade or Expand System/Facility/Infrastructure	Start Date:	Ongoing
Category:	Utilities - Storage	End Date:	Ongoing
		Bond Funded:	

Description:

The Eagle River project will be developed pursuant to the 1998 Eagle River Memorandum of Understanding (MOU) amongst west slope entities and the Homestake partners. The project will provide 10,000 acre feet of new water for Aurora when developed, with the timing of project delivery dependent upon multiple parties. Colorado Springs and Aurora are working with Western Slope entities on potential cooperative development alternatives. This project is necessary to provide the additional water supply for the City to support new development and increased demand. The current five-year plan includes \$8.6 million for permitting and land acquisition.

Meter Replacement Program

PROJECT INFORMATION

Location:	Various	Proj. Manager:	Steve Sciba
Proj. Type:	Upgrade or Expand System/Facility/Infrastructure	Start Date:	Quarter 3, 2018
Category:	Utilities - Infrastructure	End Date:	Quarter 4, 2025
		Bond Funded:	No

Description:

The City of Aurora Water Department owns and operates approximately 93,000 potable water meters ranging from 5/8" to 12" in diameter. The current Automated Meter Reading (AMR) system was installed in 2005 and is at the end of its 15-year useful life. The meter reading system is anticipated to be replaced by 2025 to prevent the mass failure of meter endpoint batteries, which allow the meter reads to be collected by the current drive-by system. The implementation of an Automated Meter Infrastructure (AMI) system will include integrating the new system with the new SpryPoint billing system.

Wemlinger Blended Water Pipeline

PROJECT INFORMATION

Location: Southeast Aurora
Proj. Type: New Construction/Development/Infrastructure
Category: Utilities - Pipe Line

Proj. Manager: Elizabeth Carter
Start Date: Ongoing
End Date: Ongoing
Bond Funded: No

Description:

This project allows Aurora Reservoir water to be filled at the same time the Wemlinger Water Purification Facility (WPF) is fed by gravity. It also allows for the blending of partially treated Binney WPF water to be pumped to Wemlinger WPF for final treatment when all stages of the project are completed. The project requires parallel 54 inch and 60 inch pipelines to concurrently fill Aurora Reservoir and supply Wemlinger WPF. The Wemlinger Blended Pipeline project has been pushed out to the 20-year plan. The current 5-year plan includes the Quincy Intertie to the Wemlinger Pipeline.

Total Cost	\$0	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$10,000,000

Operating Impact:

As Fire Station #5 and Fire Station #15 are both replacements of existing facilities, the only station with additional operating costs will be Fire Station #16, the Gaylord Station. That station opened in late 2018 with a single engine company. A second company (Ladder 16) was added to the station in the 2019 budget with funding assistance from the Staffing for Adequate Fire & Emergency Response (SAFER) Grant.

NON-DEPARTMENTAL

ARTA Payment

PROJECT INFORMATION

Location: Eastern part of city
Proj. Type: Not Assigned
Category: Development Related

Proj. Manager: TBD
Start Date: Quarter 1, 2020
End Date: Quarter 4, 2045
Bond Funded: No

Description:

The Aerotropolis Regional Transportation Authority (ARTA) was established on February 27, 2018 under an intergovernmental agreement between Adams County, the City of Aurora, and the Aerotropolis Area Coordinating Metropolitan District. Under the agreement, the City will collect, and remit any use tax and impact fees received within ARTA's geographic boundaries. This represents the ARTA Impact Fees and Use Tax going back to ARTA. This expenditure line is consistent with the ARTA financing documents.

FINANCIAL INFORMATION

Capital Funding:

Department / Fund	Carryforward 2021	2022 Projected	Five-Year Plan					Total 2023-2027
			2023	2024	2025	2026	2027

Operating Impact:

This is the Aerotropolis Regional Transportation Authority (ARTA) Impact Fees and Use Tax going back to ARTA. There is no additional operating impact.

Colfax Bus Rapid Transit

PROJECT INFORMATION

Location: Colfax
Proj. Type: Improvements to System/Facility/Infrastructure
Category: Existing Services

Proj. Manager: N/A
Start Date: Ongoing
End Date: Ongoing
Bond Funded: No

Description:

This project will fund development of various bus service enhancement features for RTD buses operating along Colfax's designated Bus Rapid Transit (BRT) route. The enhancements may include branded buses with multi-door boarding and alighting features, off-vehicle ticketing, bus stop bulb-outs, bus shelters, pedestrian scale lighting, security cameras, upgraded trash receptacles, and real-time bus arrival and departure information.

Operating Impact:

To be determined as responsibilities along the route are solidified.

Public Safety Training Facility

PROJECT INFORMATION

Location: Powhatan and Quincy (near reservoir entrance)
Proj. Type: New Construction/Development/Infrastructure
Category: Public Safety

Proj. Manager: Tom McMinimee
Start Date: Quarter 2, 2012
End Date: Quarter 3, 2016
Bond Funded: Partial - COPS

Description:

This project funds the annual debt service payments for a new public safety training facility near Aurora Reservoir.

FINANCIAL INFORMATION

Capital Funding:

Department / Fund	Carryforward 2021	2022 Projected	Five-Year Plan					Total 2023-2027
			2023	2024	2025	2026	2027

Operating Impact:

All operating costs for this project will come from currently budgeted funds, so no future operating impacts are expected.

PARKS, RECREATION & OPEN SPACE

Construction - Open Space

PROJECT INFORMATION

Location: Various
Proj. Type: Improvements to System/Facility/Infrastructure
Category: Infrastructure

Proj. Manager: Nicole Ankeney
Start Date: Ongoing
End Date: Ongoing
Bond Funded: No

Description:

This project is for improvements to existing City owned open space properties and new construction for continued trail extension. Projects associated with this include Highline Canal, Aurora Reservoir, Plains Conservation Center improvements, Triple Creek trail development, and other various smaller open space projects such as fencing and hardscape repair. More information behind this project grouping can be found in the Parks, Recreation & Open Space Detail By Project report in the appendix.

FINANCIAL INFORMATION

Capital Funding:

Department / Fund	Carryforward 2021	2022 Projected	Five-Year Plan					Total 2023-2027
			2023	2024	2025	2026	2027	
Parks, Recreation & Open Space								
Capital Projects Fund	\$218,937	\$0	\$740,000	\$0	\$0	\$0	\$0	\$740,000
Conservation Trust Fund	\$1,612,555	\$1,500,000	\$0	\$0	\$700,000	\$600,000	\$400,000	\$1,700,000
Gifts & Grants Fund	\$94,696	\$300,000	\$0	\$0	\$0	\$0	\$0	\$0
Open Space Fund	\$1,447,253	\$4,150,000	\$1,950,000	\$400,000	\$1,900,000	\$550,000	\$450,000	\$5,250,000
Parks Development Fund	\$0	\$0	\$350,000	\$0	\$0	\$0	\$0	\$350,000
Total Cost	\$3,373,441	\$5,950,000	\$3,040,000	\$400,000	\$2,600,000	\$1,150,000	\$850,000	\$8,040,000

Operating Impact:

Operating impacts are project dependent and based on scale, scope, and timing. The Plains Conservation Center improvement may result in additional operating cost as the area is further developed and educational programming expands.

Construction Parks

PROJECT INFORMATION

Location: Various
Proj. Type: New Construction/Development/Infrastructure
Category: Infrastructure

Proj. Manager: Nicole Ankeney
Start Date: Ongoing
End Date: Ongoing
Bond Funded: No

Description:

This project provides improvements to existing parks and new park additions in the city's existing parks or on lands set aside for park development. Detail is in the individual project pages in the Parks, Recreation & Open Space Detail By Project report in the appendix. Most of the projects consist of improvements to numerous existing parks and playgrounds.

PARKS, RECREATION & OPEN SPACE

Construction Parks

FINANCIAL INFORMATION

Capital Funding:

Department / Fund	Carryforward 2021	2022 Projected	Five-Year Plan					Total 2023-2027
			2023	2024	2025	2026	2027	
Parks, Recreation & Open Space								
Capital Projects Fund	\$1,576,579	\$298,000	\$60,000	\$0	\$0	\$0	\$0	\$60,000
Conservation Trust Fund	\$716,500	\$850,000	\$550,000	\$1,350,000	\$850,000	\$0	\$100,000	\$2,850,000
Gifts & Grants Fund	\$16,664	\$0	\$0	\$0	\$0	\$0	\$0	\$0

Parks Development Fund	\$3,460,778	\$786,560	\$4,432,229	\$1,721,096	\$1,355,805	\$56,486	\$0	\$7,565,616
Total Cost	\$8,952,580	\$7,334,560	\$8,992,229	\$6,921,096	\$3,005,805	\$956,486	\$350,000	\$20,225,616

Operating Impact:

The majority of expenditures in 2021 through 2024 are related to park and playground renovation efforts and will not result in additional operating expenses. However, the Central Community Park is new construction to start in 2023. Water related expenses would begin in 2024 and other related operating expense would follow a warranty period and most likely begin in 2025. Dome Park is new construction planned for in 2024. Water related expense would begin in 2025 and other related operating expenses follow a warranty period and most likely begin in 2026. Red-tailed Hawk Park Phase II is planned for design and construction in 2023 and 2024, respectively. Water related expenses begin in 2025 and other related operating expenses would follow a warranty period and start in 2027. There will be a need to add Parks O&M maintenance and irrigation FTE over multiple years to serve the new parks. Future operating impacts for water, maintenance, and staffing expense will continue beyond the five-year plan.

Annual Operating Costs		2024	2025	2026	2027	Total
	New Personnel (FTE)	0.00	5.00	5.00	5.00	
	Personal Services	0	550,000	566,500	583,500	1,700,000
	Other	70,000	380,000	532,000	691,000	1,673,000
	Total Operating Costs	\$70,000	\$930,000	\$1,098,500	\$1,274,500	\$3,373,000

Northwest Aurora Alley Paving Program

Operating Impact:

Improvements to existing infrastructure will not have operating impact.

Police District 2 Debt Service

PROJECT INFORMATION

Location: District 2, Central Aurora

Proj. Manager: Elly Watson

Proj. Type: Improvements to System/Facility/Infrastructure

Start Date: Quarter 2, 2015

Category: Public Safety

End Date: Ongoing

Bond Funded: Partial - COPS

Description:

This project purchased and renovated an existing building to serve as Police District 2. This alleviated overcrowding in the previous District 2/Headquarters building on the Aurora Municipal Center campus. The project is funded through a ten-year debt service payment.

FINANCIAL INFORMATION

Capital Funding:

Operating Impact:

Operating expenses were built into previous budgets, including utilities, custodial, trash service, routine building maintenance, etc.

Traffic Management System

PROJECT INFORMATION

Location: TBD

Proj. Manager: TBD

Proj. Type: New Construction/Development/Infrastructure

Start Date: Ongoing

Category: Infrastructure

End Date: Ongoing

Bond Funded: No

Description:

In response to a street network that is increasing in technological complexity and growing in size, the city is setting aside funds towards improvements to the traffic signal system which could include software upgrades, technological infrastructure improvements, and a traffic management center.

PUBLIC WORKS

Traffic Management System

Total Cost	\$16,214,863	\$1,600,000	\$1,600,000	\$1,600,000	\$1,600,000	\$1,600,000	\$1,600,000	\$8,000,000

Operating Impact:

Projects are generally not anticipated to have significant operational impacts as they are upgrades, expansions, and/or improvements to existing infrastructure. Monthly service fees for new traffic signals are accounted for annually in the Public Lighting budget.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

APPENDICES

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 1 Operating Budget Reconciliations

Operating Budget Reconciliation Overview

2023 OPERATING RECONCILIATION

The purpose of the operating reconciliation is to illustrate the steps involved in the creation of the 2023 Operating Budget. The process includes several entries:

- 2022 Original Budget;
- Removal of one-time costs previously included in the budget;
- Items from 2022 Supplemental ordinances that were approved to be ongoing items in 2023;
- Estimated personal services adjustments (PS Deltas) representing changes to personal services costs;
- Other adjustments for mandated costs like electricity and water lead to the ‘Base Final’ total column;
- Adds and cuts; and
- Council adjustments to the Proposed Budget (Proposed Adjustments).

RECONCILIATION OF 2021 ACFR TO 2023 GENERAL FUND SUMMARY

The purpose of this reconciliation is to illustrate the differences between the General Fund 2021 actual fund balance as reported in the Annual Comprehensive Financial Report (ACFR) to the 2021 actual unassigned funds available reported in the General Fund Summary.

CITY COUNCIL ADJUSTMENTS TO CITY MANAGER’S 2023 PROPOSED BUDGET

At the October 8, 2022 Budget Workshop, City Council made various adjustments to the 2023 Proposed Budget. This is a summary of those changes.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 2

Capital Improvement Program Detail

Capital Improvement Program Detail Overview

2023 BUILDING REPAIR SUBFUND

This detailed reconciliation provides a five-year spending plan for building repair projects in the Building Repair Subfund. These projects involve items such as roofs, signage, lighting, floor repair, carpet replacement, interior/exterior painting, security, HVAC, and electrical distribution repair.

2023 PARKS CAPITAL IMPROVEMENT PROGRAM DETAIL

The Parks Capital Improvement Program Detail shows specific work plans for project types within the Parks, Recreation and Open Space Department's five-year capital improvement program. This program crosses multiple funding sources and includes infrastructure, park construction, land acquisition, and engineering costs.

2023 AURORA WATER CAPITAL IMPROVEMENT DETAIL

This section provides detailed project information for the planned five-year Aurora Water Capital Improvement Program. This document lists additional detail for individual projects within each funding source and program shown in the Capital Improvement Program section of this book. The Aurora Water Capital Program incorporates maintenance and modernization of the current system and expansion for future population growth. Projects are categorized by programs in each fund.

Building Repair Subfund Program Detail

Project/Title	2022 Projected	Five-Year Plan					Total Cost 2023 -2027
		2023 Adopted	2024 Planned	2025 Planned	2026 Planned	2027 Planned	
BUDGET							
Building Repair Projects - CPF	\$ 6,402,520	\$ 3,417,520	\$ 3,537,520	\$ 3,997,520	\$ 3,417,520	\$ 3,417,520	\$ 17,787,600
Security Enhancements	440,000	500,000	1,220,000	500,000	500,000	500,000	3,220,000
Direct Cost Facility Engineering - CPF	159,995	176,418	181,711	187,162	192,777	198,560	936,628
Budget Carryforward	6,256,853	6,062,897	1,759,417	1,080,937	1,012,457	563,977	10,479,685
Total Budget Available	\$ 13,259,368	\$ 10,156,835	\$ 6,698,648	\$ 5,765,619	\$ 5,122,754	\$ 4,680,057	\$ 32,423,913
USES							
Direct Cost Facilities Engineering Services	\$ 159,995	\$ 176,418	\$ 181,711	\$ 187,162	\$ 192,777	\$ 198,560	\$ 936,628

- ¹ Figures represent an estimate of how the 2022 adopted budget will be amended by year-end 2022. This column includes the 2022 adopted budget plus budget transfers, Fall 2021 and Spring 2022 budget amendments and contemplated amendments, transfers and lapses for the remainder of 2022. A negative figure is generally the result of the application of a budget reduction to a project with unspent prior year appropriation.

1 Figures represent previous years unspent appropriation as of December 31, 2021, as reported in the 2021 Annual Comprehensive Financial Report.

2 Figures represent an estimate of how the 2022 adopted budget will be amended by year-end 2022. This column includes the 2022 adopted budget plus budget transfers, Fall 2021 and Spring 2022 budget amendments and contemplated amendments, transfers and lapses for the remainder of 2022. A negative figure is generally the result of the application of a budget reduction to a project with unspent prior year appropriation.

Operating Transfers

Schedule of Annual Operating Transfers

Transfer Out	Transfer In	Amount	Comments
Fund Name		2023 Adopted	
General	ACLC	\$ 11,675,249	Lease payments: AMC (\$7,098,500); Fleet (\$3,711,121); Fire SCBA (\$476,400); History Museum (\$157,835); and Crime Lab (\$231,393)
General	Capital Projects / Transportation Maintenance	51,371,640	\$22.5 million to the Capital Projects Fund to include \$750,000 for the Green House Set-Aside and Warren Avenue Repair budget adjustments made by Council, \$28.9 million to the Transportation Maintenance Fund
General	Community Development	280,445	City match for HOME grant
General	Cultural Services	1,451,666	Annual transfer to Cultural Services Fund
General	Designated Revenues	935,502	Annual transfer for Victim Assistance (\$50,000), Special transfer for Victim Assistance (\$341,202), create incentive transfer (\$500,000), Special Courts (\$44,300)
General	Enhanced E-911	5,738,560	Annual transfer to Enhanced E-911 Fund
General	Parking and Mobility	779,956	Annual transfer to Parking and Mobility Fund
General	Recreation	8,349,782	Annual transfer to Recreation Fund
General	Risk Management	563,000	\$500,000 incurred but not reported as well as \$63,000 annual transfer for respiratory protection compliance physicals
Conservation Trust	Golf Courses	250,000	Funding for Conservation Trust approved capital projects in the Golf Courses Fund
Marijuana Tax Revenue	ACLC	4,000,000	Central and Southeast Recreation Centers lease payments
Marijuana Tax Revenue	Capital Projects / Transportation Maintenance	8,000,000	\$6.0 million for Transportation Projects and Road Maintenance, \$2.0 million budget adjustment made by Council for Traffic Signal Projects
Marijuana Tax Revenue	Designated Revenues	1,100,000	Budget adjustment made by Council to fund Impound Lot Victim Assistance and Overall Victim Assistance Support in the Designated Revenues Fund
Marijuana Tax Revenue	General	584,916	Budget adjustment made by Council to fund several one-time items in the General Fund
Open Space	ACLC	1,124,500	Sports Park Expansion lease payments
Total Transfer Out / In		\$ 96,205,216	

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 4

City Council Budget Detail

City Council General Fund Budget Detail

This appendix breaks down the budget for City Council, including dues and subscriptions and designated commitments. City Council approves membership in many outside governmental entities, paid under dues and subscriptions.

For 2023, the following changes have been made to the City Council budget:

Base Changes

- There is a minor personal services increase of \$12,600 associated with pay increases and health care costs;
- Risk management budget was increased by \$880; and
- A \$10,000 prior-year, one-time budget for Arts Festival funding was removed.

Proposed Amendments

- A \$3.0 million amendment is included in the City Council budget as a set-aside to fund Council ideas as part of the creation of the 2023 budget. At the October 8, 2022 Budget Workshop, Council spent \$300,000 of this amount on Speed Guns in Police Cars, leaving \$2.7 million.

The table on the following page provides a line-item account of the change in the City Council budget from 2022 to 2023.

Through 2027, City Council has appropriated/committed \$151.0 million of the \$163.5 million projected revenue. This includes an ongoing appropriation of \$4.0 million annually to service debt: \$2.0 million each for the Central Recreation Center and the new Southeast Recreation Center. In 2022, the city dedicated an additional ongoing \$2.0 million for road maintenance which has brought the total amount contributed to transportation projects and road maintenance to \$6.0 million. A 2.0 percent special sales tax designated for Homelessness Services was implemented in July 2017 and is projected to generate \$2.7 million to \$3.1 million annually. In July 2020, a 1.0 percent special sales tax was implemented for Youth Violence Prevention and is projected to generate \$1.3 million to \$1.6 million annually. In 2023, \$2.3 million in accumulated funds available plus ongoing funding of \$1.4 million is budgeted in this program, reflecting the funding total of \$3.7 million. Unused funds will revert to the youth violence prevention reserve.

2023 Operating and Capital Improvement Budget

Appendix 6

Court Surcharge Program Summary

Program Summary

The City of Aurora's court surcharge programs are housed in the Designated Revenues Fund where revenues are restricted for specific purposes by city ordinance.

The city's court surcharge programs consist of Problem Solving Courts, Victim Assistance, Public Safety Assistance Agencies, and includes the Court Technology program. The programs are funded by individual program fees and surcharges assessed by the Municipal Court on all standard city fines for ordinance violations (e.g. traffic tickets). The \$50.00 surcharge is allocated to each program as follows: Problem Solving Courts (Teen Court, Wellness Court, and Armed Forces Treatment Court) \$15.00, Victim Assistance \$23.50, Public Safety Assistance Agencies \$10.50, and Court Technology \$1.00.

Increased attrition and a stronger focus on violent crime reduction have continued to impact traffic ticket production in 2022, resulting in an unexpected 41.0 percent year-over-year decrease in projected surcharge revenue. The 2023 budget assumes traffic enforcement will continue at current levels through 2023 and increase in 2024. Nonetheless, revenue is projected to remain below historical averages through the forecast period. The related revenue shortfall in three of the four court surcharge programs (Problem Solving Courts, Public Safety Assistance Agencies, Victim Assistance) will be addressed through a transfer from the General Fund to ensure all programs are balanced in the five-year outlook.

The following pages provide a description of each court surcharge program as well as financial data to include a five-year proforma.

Ending Funds Available	\$ 558,645	\$ 453,513	\$ 145,341	\$ -	\$ -	\$ -	\$ -

The City of Aurora's Problem Solving Courts currently consists of the Aurora Teen Court, the Municipal Wellness Court, and the new Armed Forces Treatment Court. The Aurora Teen Court is an educational diversion program that operates in the Aurora Municipal Court. The program provides an alternative response for the juvenile justice system for first-time, misdemeanor juvenile offenders, in which teens determine appropriate sanctions for the offender. The City of Aurora's Municipal Wellness Court is a treatment and recovery court for persons with mental health issues who are arrested on municipal charges. The Wellness Court and the Armed Forces Treatment Court provide wrap-around services which include mental health and substance abuse treatment, individual case management, housing, assistance to obtain public and private services, education, and job training. The Wellness Court and the Armed Forces Treatment Court provide an active problem-solving approach to monitoring not only participants but also service delivery systems for compliance to foster better quality of life, long-term community safety, fiscal responsibility, and judicial economy.

Declining court surcharge revenue has resulted in projected revenues that fall behind program costs in the five-year forecast. The outlook shows that ending funds available will be depleted by the end of 2024, requiring an annual General Fund subsidy to keep the program solvent.

Ending Funds Available	\$ 19,699	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

The Victim Services Unit (VSU) provides vital services to victims of crimes covered by the State Victim Rights Act. Most of the program's expenditures are personal services related. The 2023 budget funds 6.0 FTE Victim Advocates and 1.0 FTE Support Specialist Unit. The VSU also maintains an active roster of 15 community volunteer advocates and relies on two interns from area universities for programmatic support. The division is actively seeking more volunteers.

Declining traffic ticket production has resulted in revenues that have fallen behind program costs for several years. This trend prompted City Council to re-imagine Victim Assistance program funding and increase the court surcharge allocation to this program in 2021. Nevertheless, projected revenues continue to fall short of projected expenditures in 2022 and the five-year forecast. The annual revenue shortfall will be covered by an increase in the General Fund subsidy from \$50,000 in 2021 to \$362,900 in 2022 and \$391,200 in 2023. The subsidy is projected to decrease in 2024 as traffic enforcement is expected to pick up in the medium term.

At the October 8 Budget Workshop, Council added one-time appropriation of \$100,000 for additional victim assistance support, funded by a transfer from the Marijuana Tax Revenue Fund. In addition, Council added \$1.0 million for impound fee assistance to provide more support for victims of auto theft, administered in a separate program.

Ending Funds Available	\$ -	\$ 265,567	\$ 265,134	\$ 387,944	\$ 512,254	\$ 517,254	\$ 522,254

Each year the city makes awards to agencies that support law enforcement. Agencies who have received funding in the past include: Arapahoe House, Aurora Mental Health Center, Gateway Domestic Violence Services, Mile High Behavioral Healthcare, STRIDE Community Health Center (formerly Metro Community Provider Network), and SungateKids. Arapahoe House discontinued detox services in 2017 and Aurora Mental Health Center took over detox services in Aurora.

Due to a lack of sustainable funding, the Pilot Triage Program administered by Aurora Mental Health Center was eliminated in mid-2019 and Aurora Fire Rescue paramedics took over the medical role for the Aurora Cold-Weather Outreach Team, thereby ending the funding of Stride Community Health Center. In addition, declining court surcharge revenues prompted City Council to re-imagine PSAA program funding in 2021, reducing the annual funding award and placing a stronger emphasis on law enforcement support.

The continued decrease in court surcharge revenue was unexpected and 2022 expenditures exceed the projected funds available in this program. The 2023 budget approves the one-time General Fund transfer of \$400,300 to cover both 2022 and 2023 expenditures. In 2023, agency funding will be reduced from \$267,300 to \$133,000 in response to the significant decline in program revenue. Starting in 2024, budgeted expenditures will match the last full year of revenue actuals at the time awards are announced, to sustain the program without long-term support from the General Fund. Awards are typically announced in the fall of the prior year.

The following table shows the amount of awards for agencies from 2017-2022.

AGENCY	2017	2018	2019	2020	2021	2022
Mile High Behavioral Healthcare	\$ 287,940	\$ 287,940	\$ 287,940	\$ 262,025	\$ -	\$ 137,300

The Information Technology Division of Court Administration is tasked with keeping up with current technology trends and services to ensure a sensible, cost and time effective experience for those doing business in the Aurora Municipal Court.

The court technology fee of \$1.00 helps mitigate the cost of providing services by the municipal court administration. These funds are used for Court Technology needs to ensure service improvements for employees and citizens. The improvements in technology and business practices as well as a desire to best serve the community means the Court needs to improve the way it does business and access to Justice. The virtual court appearance process has been adopted as the new business model of court proceedings for the safety and convenience of employees and the public.

In 2023, Court Technology will be working towards becoming a paperless court, expanding text messaging, and online partial payments. In addition, the division will be tasked with managing continued enhancements to court and detention security systems, court room technology updates and keeping up with ever changing legal prosecution standards and legislation.

Appendix 7

General Fund Fleet Replacement

General Fund Fleet Replacement

This appendix breaks down the budget for vehicle and equipment replacement for the General Fund. This includes a breakdown of the types of vehicles and equipment being replaced and their quantities. Fleet replacement is based on a point system that factors in age, cost for maintenance, and mileage. This list is a tentative list as of the time of budget creation and is subject to change based on needs.

Quantity	Vehicle Type	Department	Funding Type	Budget
13	Marked Patrol Tahoes	Police	Existing Annual Budget Cash Funded	\$910,000
2	Unmarked Tahoes	Police	Existing Annual Budget Cash Funded	\$146,000
6	Full-Size Pickups	PROS(4), Public Works(2)	Existing Annual Budget Cash Funded	\$360,000
4	Misc. Trailers/Equipment	Public Works(2), PROS(2)	Existing Annual Budget Cash Funded	\$146,000
2	Full-Size Van	Public Works(1), TV Ops(1)	Existing Annual Budget Cash Funded	\$133,000
3	Unmarked Sedans	Police(2), Fire(1)	Existing Annual Budget Cash Funded	\$120,000
1	Passenger Van	PROS(1)	Existing Annual Budget Cash Funded	\$105,000
4	Mid-Size SUV	Police(1), Public Works(1), HCS(1), GM(1)	Existing Annual Budget Cash Funded	\$180,000
2	Fire Engines & Equipment	Fire	Execute leases in 2023; payments starting in 2024	\$1,568,700
1	Mobile Command Center	Fire/Police	Execute leases in 2023; payments starting in 2024	\$1,125,000
5	Dump Trucks	Public Works(2), PROS(3)	Execute leases in 2023; payments starting in 2024	\$1,817,500
1	Milling Machine	Public Works	Execute leases in 2023; payments starting in 2024	\$790,000
1	Grader	Public Works	Execute leases in 2023; payments starting in 2024	\$425,000
1	Backhoe	Public Works	Execute leases in 2023; payments starting in 2024	\$285,000

NOTE: This list does not contain vehicles to be purchased with one-time funding in the Police and Fire Department Budgets.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 8

Community Development Program Detail

City of Aurora Community Development

The Community Development Division administers the city’s Housing and Urban Development (HUD) funded programs. The city receives significant HUD grant funding annually from the Community Development Block Grant (CDBG) funds, the Home Investment Partnership (HOME) program funds, and the Hearth Emergency Solutions Grant (HESG) funds. As a condition for receiving HOME funds, the city is required to provide a match to the HOME grant equal to 22.5 percent of the annual award. CDBG and HOME funds are administered out of the Community Development Fund while HESG is a part of the Gifts and Grants Fund.

Future funding levels for HUD programs are uncertain as they are dependent on annual congressional approval. Due to this uncertainty, the 2023 budget includes funding equal to the actual 2022 grant awards for CDBG, HOME, and HESG. The following program detail provides anticipated funding amounts and planned expenditures with high level project information. All funds are spent on qualifying programs within the city.

Additional program detail for CDBG and HOME can be found in Attachments A and B of this appendix.

2023 CDBG FUNDING – PROGRAMMED FUNDS

ADMINISTRATION: (Subject to a 20% Administrative Cap of \$544,216) \$544,216

- **CDBG Program Administration**
Provides funds for salaries, benefits, training, supplies, and operating expenses for the general administration of the city’s Community Development Block Grant (CDBG) program.

REHABILITATION PROGRAMS:

- **Housing Rehabilitation Program Staff and Operating Expenses** \$400,000
The funds are required for direct-delivery program staff salaries, benefits, supplies, service, and training related to the Division’s Housing Rehabilitation programs. These funds **are not** part of the 20% CDBG Administrative Cap.
- **Emergency Home Repair Program** \$150,000
This citywide program provides financial and technical assistance to income-eligible homeowners to make necessary emergency repairs to their home. Most common repairs include replacement of furnaces, water heaters, water lines, and sewer lines. The funds are provided in the form of a grant, up to \$12,000 for sewer line repairs and up to \$8,000 for all other repairs.
- **Minor Home Repair Program** \$350,000
This citywide program provides financial and technical assistance to income-eligible, owner-occupied homeowners to make minor repairs to their homes. Repairs include items such as removal of non-city-owned hazardous trees, adding handicap access to the home,

Appendix 8 – Community Development Program Detail

and replacing windows. The funds are provided in the form of a grant to the homeowner with a maximum project cost of \$24,999.

- **Home Repair Loan Program** \$350,000
This citywide program provides financial and technical assistance to income-eligible, owner-occupied homeowners in need of more extensive home repairs. The funds are provided in the form of a low-interest loan to the homeowner with project costs not to exceed \$45,000.
- **Gap Financing Reserve Program** \$236,864
This citywide program will provide gap financing to organizations or developers who are building or rehabilitating rental housing throughout the city.

PUBLIC SERVICE: (15% public service cap)

- **Home Ownership Assistance Program (HOAP)** \$290,000
These funds are for salaries and operating expenses for the pre-purchase, reverse equity, foreclosure prevention, pre-foreclosure sale, personal financial fitness, and home ownership assistance program counseling services (all counseling is offered at no cost to the participants).

NOTE: HOAP is Aurora's only HUD-approved counseling agency.

OTHER PROGRAMS:

- **New: Small Business Loan Program** \$400,000
This citywide program will aim to promote economic development by offering low interest loans to small businesses in Aurora to start or expand operations where traditional financing may not be available.

CDBG TOTAL: \$2,721,080

2023 HOME INVESTMENT PARTNERSHIP (HOME) FUNDING – PROGRAMMED FUNDS

ADMINISTRATION: (Subject to a 10% Administrative Cap of \$164,642) \$164,642

- **HOME Program Administration**
Provides funds for salaries, benefits, training, supplies, and operating expenses for the general administration of the city's Home Investment Partnership Act (HOME) Program.

HOME PROGRAMS:

- **Affordable Housing Gap Financing Reserve Program** \$1,375,261
This citywide program will provide gap financing to organizations or developers who are building or rehabilitating rental housing throughout the city. The city's money will leverage other funds such as bank loans and state tax credits to make housing projects financially feasible and to help build affordable units in Aurora.

Appendix 8 – Community Development Program Detail

- **Tenant-Based Rental Assistance (TBRA) Program** \$200,000
This citywide program will provide HOME funds for direct assistance to households whose gross income is 60% or less of the Area Median Income (AMI), who need help paying rent for a period not to exceed 24 months. TBRA is not long-term financial assistance to the household. Qualified applicants work directly with Community Development counselors and a case manager to build the capacity to pay their rent without subsidy assistance over a maximum two-year period. Tenant-based Rental Assistance is not a section 8 subsidy program or a Housing Choice Voucher Program. TBRA is a rental subsidy that can be used to assist individual households with costs such as rent and security deposits. Under the program, qualified applicants will be required to participate in self-sufficiency programs as a condition of rental assistance. Required self-sufficiency programs include but are not limited to one-on-one counseling by HUD Certified Housing Counselors, the first-time homebuyer class, and attendance to all available financial fitness classes. The intent of the program is to educate applicants to become self-sufficient and responsible renters and future homeowners.
- **Community Housing Development Organization (CHDO) Activities** \$186,964
This citywide program provides funds to qualified CHDO's operating in Aurora to construct or rehabilitate affordable housing units to benefit low- to moderate-income individuals and families. HUD requires a minimum of 15% of the city's annual HOME grant be set aside for this purpose.

HOME TOTAL: \$1,926,867

2023 HEARTH EMERGENCY SOLUTIONS GRANTS (HESG)

ADMINISTRATION: (Subject to a 7.5% Administrative Cap of \$17,708) \$17,708

- **HESG Program Administration**
Provides funds for salaries, benefits, training, supplies, and operating expenses for the general administration of the city's HESG Program.

HESG CORE Programs:

Providers will be selected through a request for proposal process.

- Shelter funding capped at 60% \$141,669
- Rapid Re-housing / Homeless Prevention capped at 32.5% \$76,738

HESG TOTAL: \$236,115

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 9

Art in Public Places

Art In Public Places Summary

Art in Public Places (AIPP) is split into two basic components: Art Administration & Maintenance and Art Acquisition. Each component is treated as having its own beginning and ending funds available.

Art Administration & Maintenance

	2022 Projection	2023 Adopted	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Beginning Funds Available	\$ 662,502	\$ 612,705	\$ 670,346	\$ 645,896	\$ 619,223	\$ 594,081
Revenues						
Investment Income	\$ 7,264	\$ 13,100	\$ 14,332	\$ 13,810	\$ 13,240	\$ 12,702
Other Revenue	53,000	50,000	50,000	50,000	50,000	50,000
Transfers in	112,930	178,244	100,434	104,408	112,357	112,357
Total Revenues	\$ 173,194	\$ 241,344	\$ 164,766	\$ 168,218	\$ 175,596	\$ 175,059
Expenditures						
Personal Services	\$ 132,900	\$ 134,720	\$ 138,762	\$ 142,924	\$ 147,212	\$ 151,628
Maintenance	79,374	40,000	41,200	42,436	43,709	45,020
Other Charges	10,717	8,984	9,254	9,531	9,817	10,111
Total Expenditures	\$ 222,991	\$ 183,704	\$ 189,216	\$ 194,891	\$ 200,738	\$ 206,760
Ending Funds Available	\$ 612,705	\$ 670,346	\$ 645,896	\$ 619,223	\$ 594,081	\$ 562,380

Typically, 25 percent of the AIPP transfers go into the Art Administration & Maintenance (AA&M) component of the AIPP Program. Transfers in will increase in 2023 due to anticipated increases in capital spending. Funds from Metro District and Transit Oriented Development (TOD) sites are projected here and remain flat.

Art Acquisition

	2022 Projection	2023 Adopted	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Beginning Funds Available	\$ 1,036,529	\$ 780,978	\$ 771,681	\$ 528,690	\$ 290,776	\$ 281,037
Revenues						
Investment Income	\$ 6,909	\$ 22,000	\$ 21,738	\$ 14,893	\$ 8,191	\$ 7,917

Total Revenues	\$ 345,699	\$ 556,732	\$ 323,039	\$ 328,116	\$ 345,261	\$ 344,986
Expenditures						
Acquisitions - Scheduled	\$ 601,250	\$ 561,030	\$ 561,030	\$ 561,030	\$ 350,000	\$ 350,000
Other Expenses	-	5,000	5,000	5,000	5,000	5,000
Total Expenditures	\$ 601,250	\$ 566,030	\$ 566,030	\$ 566,030	\$ 355,000	\$ 355,000
Ending Funds Available	\$ 780,978	\$ 771,681	\$ 528,690	\$ 290,776	\$ 281,037	\$ 271,023

Typically, 75 percent of the AIPP transfers go into the Art Acquisition component of the AIPP Program. Economic improvements have resulted in increased capital projects expenditures which increase transfers to the program. Significant projects in the five-year plan continue to include the Southeast Recreation Center, the Metro Station tunnel, Iliff Station Roundabout, and other projects to be determined.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 10 Debt

Debt & Capital Leases

The City of Aurora, like other communities, delivers capital improvements to enable the city to maintain and expand services as the city grows. Most of these improvements are infrastructure related projects (i.e. streets, parks, water, and public facilities) which require high initial investments but serve the city for many years.

There are two basic approaches to pay for these improvements. With the first approach, generally known as pay-as-you-go financing, the city uses current revenues (cash) as the primary source of funds for capital improvement projects. The second approach to fund these improvements involves the use of debt or lease financing, referred to as term financing. This is an especially suitable means to pay for projects with a long useful life that are needed to support additional infrastructure generated by growth. Term financing allows construction of improvements at a more opportune time, rather than delaying projects until enough current revenues and fund balances are available. This approach allows for project costs to be more fairly distributed to the users over the useful life of the improvements (generational equity).

CITY FINANCING ENTITIES

The City Charter defines the types of bonded indebtedness the city may incur. Several city operating units use term financing to fund capital projects. These units are: the General Fund, enterprise funds (Water, Wastewater, and Golf Courses), Aurora Capital Leasing Corporation (ACLC), Aurora Urban Renewal Authority (AURA), and General or Special Improvement Districts (GIDs and SIDs).

The General Fund may issue voter-approved debt backed by taxes, and enterprise funds issue debt based on net fees for services. ACLC is a Colorado nonprofit corporation formed for the primary purpose of facilitating the lease-purchase acquisition of real or personal property used in the operations of the City of Aurora. AURA uses various financing instruments to fund improvements within Urban Renewal Areas in the city. Property owners at the neighborhood level vote to create GIDs or SIDs to finance improvements within the respective district.

TYPES OF FINANCING INSTRUMENTS

General Obligation Bonds

These general obligation bonds are generally issued for infrastructure projects including streets, parks, and public buildings. State Statute requires voter approval of general obligation debt, even if no new tax is required to repay the debt. General obligation bonds are backed by the full faith, credit, and taxing power of the city.

Revenue Bonds

Revenue bonds are associated with capital improvement projects of revenue-based enterprises including Water, Wastewater, and Golf Courses. A dedicated stream of fee-based revenues (net of operating expenses) is pledged to pay both the principal and interest on the revenue bonds. This type of debt is an obligation of the respective enterprise, not of the City of Aurora or its General Fund, and does not require voter approval.

Refunding Bonds

Refunding bonds are issued to refinance outstanding bonds in order to realize debt service savings over the remaining term of the obligation. Generally, the city's bonds are structured such that bonds may be refunded 10-years after issuance and beyond. The city's current Debt, Disclosure and Post-Issuance Compliance Policy currently states that present value savings must equal or exceed 3.0 percent for the city to refund bonds.

Lease-Purchase Financing

Lease-purchase financing is used to facilitate the purchase acquisition of real and personal property used in the operations of the city. ACLC owns and leases to the city several buildings, large fleet vehicles (i.e. fire trucks and other long-lived rolling stock) and other capital equipment. Lease payments are subject to annual appropriation and, as such, are not considered "debt" under Colorado law. At the end of the lease term, title to the asset financed is transferred to the city. This financing method takes the form of capital leases, direct bank loans, and Certificates of Participation (COPs). Similar to bonds, COPs carry a credit rating, and are sold to investors via an underwriter.

Development Revenue Bonds

Development revenue bonds promote business or other economic activity. They are paid solely from the revenues derived from the private enterprise for which the bonds were issued. They are conduit borrowings and do not constitute an obligation of the city.

Special or General Improvement District Obligations

These bonds or direct loans enable construction of improvements within designated districts of the city whereby the improvements confer special benefits on the real property within the districts and general benefits to the city at large. Revenues from special assessments and tax levies in SIDs or GIDs are collected from property owners within the districts and are used to pay the principal and interest on the bonds. Debt issued by these districts do not constitute an obligation of the city.

Tax Increment Revenue Bonds

Tax increment revenue bonds finance the construction of public improvements within an urban renewal area established by the city. AURA uses the incremental revenues generated within the boundaries of the tax increment district to pay the principal and interest on the bonds. They do not

constitute an obligation of the city, although the city may pledge contingent credit support (commonly referred to as its “moral obligation”) to the obligations of AURA.

Inter-fund Loans

Periodically the city authorizes and makes internal loans between funds. These loans are normally made to enable the city to accomplish a capital improvement project using an internal source of funds. This method enhances the city's responsiveness to accomplish needed projects in a cost-effective manner and minimizes delays that would otherwise occur while accumulating sufficient current funding sources. An inter-fund loan and its terms can only be established by City Council.

DEBT POLICY

One goal in the management of the city's debt is to maintain or improve the city's bond rating as determined by the rating agencies (Moody's, Fitch and Standard & Poor's). The city's Debt, Disclosure and Post-Issuance Compliance Policy adopted by Council and summarized below is to help ensure this goal is met and that debt is used only for beneficial purposes. The policy also aims to maintain the city's debt service at fiscally responsible levels.

Creditworthiness Objectives

The city seeks to maintain the highest practical credit ratings that can be achieved without compromising delivery of city services. The city is committed to ensuring that actions within its control are prudent and responsive. The city will keep outstanding debt at consistent levels with its creditworthiness objectives. The city is committed to full and complete financial disclosure.

Purposes and Uses of Debt

Debt will be issued for a capital project when it is an appropriate means to achieve a fair allocation of costs between current and future beneficiaries, or in the case of an emergency. Debt shall not, in general, be used for projects solely because insufficient funds are budgeted at the time of acquisition or construction or for operating deficiencies. Long-term financing for assets is considered only when they have a useful life of five or more years. In accordance with IRS regulations, debt will not be issued for periods that exceed 120 percent of the useful or average useful life of the project to be financed.

Debt Standards and Structure

Debt will generally be structured for the shortest period consistent with a fair allocation of costs to beneficiaries or users and to achieve the lowest possible net cost to the city given market conditions, project timing and need, and type of security. Deferring principal and/or interest will be considered only in specific circumstances. Refunding bonds and credit enhancements will be considered and used when there is a net benefit to the city.

Debt Administration and Process

Payments of general obligation debt service shall be from the city Debt Service Fund. All general obligation and revenue bond proceeds shall be invested as part of the city's consolidated cash pool unless a segregated investment is determined more appropriate or specified by legislation. The Finance Department may assess a fee as part of the costs of issuance to offset internal costs of issuance and management. Any capital financing proposal to a city department involving the pledge or other extension of the city's credit, or the city acting as a conduit for the sale of securities, shall be referred to the Finance Department for review.

BOND RATINGS

A bond rating is an evaluation of credit risk. A bond rating does not constitute a recommendation to invest in a bond and does not take into consideration the risk preference of the investor. While many factors go into the investment decision making process, the bond rating is often the single most important factor, with the exception of market conditions, affecting investor appetite and the interest cost on bonds.

There are three major rating agencies for municipal bonds: Moody's Investors Service (Moody's), Standard & Poor's (S&P), and Fitch Ratings. Of the three rating agencies, S&P and Moody's rate the majority of all municipal and corporate bonds.

Rating Criteria

In assigning a rating for general obligation bonds the rating agencies assess the following factors:

- Economy
- Debt Structure
- Financial Condition
- Demographic Factors
- Management practices of the governing body and administration

The above criteria are also used to analyze revenue bonds and lease obligations although additional credit criteria is considered (e.g. users and user charges for utilities) and the covenants and protections offered to investors.

Rating agencies use mathematical ratios to compare an issuer to others; however, a rating is not a scientific evaluation and subjective evaluation appears to also play a role in the rating assigned. The following table shows the comparable investment grade ratings of the major agencies.

Appendix 10 - Debt & Capital Leases

Rating Grade Description		Moody's	S&P	Fitch
Investment grade	Minimal credit risk	Aaa	AAA	AAA
	Very low credit risk	Aa1	AA+	AA+
		Aa2	AA	AA
		Aa3	AA-	AA-
	Low credit risk	A1	A+	A+
		A2	A	A
		A3	A-	A-
	Moderate credit risk	Baa1	BBB+	BBB+
		Baa2	BBB	BBB
		Baa3	BBB-	BBB-
	Not Rated	NR	NR	NR

Aurora Credit Ratings

The city's credit ratings are a valuation of its creditworthiness. It is the city's goal to maintain high credit ratings for its bonds. Credit ratings indicate financial strength of the organization being evaluated. High ratings increase the attractiveness of the city's bonds in the fixed-income market. Typically, this translates to lower borrowing rates, which ultimately results in lower costs to the taxpayer/ratepayer. Certain transactions are not rated because the rating agency was not contracted by the city to provide a rating. In 2022, Moody's affirmed the city's General Obligation rating to Aaa, the highest rating possible and S&P affirmed the city's AA+ rating in 2020. In 2021, both S&P and Fitch affirmed the Water Fund's AA+ rating. Also, in 2021 the Wastewater Fund was assigned ratings of AAA from Fitch and AA+ from S&P. The city's Certificates of Participation ratings (subject to appropriation) are one notch below the city's General Obligation ratings. Rated series are outlined on the following page.

Appendix 10 - Debt & Capital Leases

CITY OF AURORA, COLORADO 2022 SCHEDULE OF DEBT RATINGS (unaudited)

Debt Issue	Unenhanced Rating by Agency

LEGAL DEBT MARGIN

The legal debt margin computation determines the limit on general obligation debt the city can undertake. The City Charter requires that the total outstanding general obligation indebtedness of the city, other than water bonds, shall at no time exceed three percent of the assessed valuation of the taxable property within the city. Certain deductions to outstanding debt are allowed, including: voter-approved debt, general obligation water bonds, capital lease obligations, revenue bonds, and special assessment bonds. The city's general obligation bonds, other than water bonds, are limited to maturities of 15 years from date of issue per the city charter. Water bond maturities are specified by the ordinance authorizing issuance of the bonds. The city's legal debt margin as of December 31, 2021 was \$180.9 million, as shown on the following page.

Appendix 10 - Debt & Capital Leases

2021 Computation of Legal Debt Margin			
In Accordance with Aurora Charter Article XI			
Assessed valuation, all Counties:	\$ 6,029,470,069		
Debt limit - 3% of assessed valuation			\$ 180,884,102
Amount of debt outstanding:			
Total bonded debt	\$ 684,144,711		
Other debt	252,079,276		
Total		\$ 936,223,987	
Deductions allowed by law:			
General obligation bonds exempt from limit	2,750,000	(a)	
Revenue bonds	681,394,711	(b)	
Capitalized lease obligations	37,475,103	(b)	
Certificates of participation	187,103,337	(b)	
Revenue notes	27,500,836	(b)	
Total deductions		\$ 936,223,987	
Amount of debt applicable to debt limit			-
Legal Debt Margin			\$ 180,884,102 (c)

(a) General Improvement District bonds are exempt from the debt limit.

(b) Revenue bonds and other forms of debt paid from revenues generated are exempt from the debt limit.

(c) Article X, Section 20(4)(b) of the Colorado Constitution requires the city to receive voter approval in advance for the creation of any multiple fiscal year direct or indirect debt or other financial obligation, regardless of whether or not the city is at its legal debt margin. Typically, voter approval of additional debt includes a provision exempting the new debt from the debt margin. Consequently, the computation of the city's legal debt margin has little real significance.

Enterprises, as defined in Article X, Section 20(2)(d) of the Colorado Constitution, are not required to receive voter approval. An "enterprise" is a city-owned business authorized to issue its own revenue bonds and receiving under 10% of annual revenues in grants from all Colorado state and local governments combined.

Source: City of Aurora 2021 Comprehensive Annual Financial Report

CURRENT STATUS

The authorized and issued amount of current debt (including all financial instruments) as of December 31, 2022 is \$1.3 billion, of which \$0 is subject to the legal debt margin (see 2021 calculation above). The principal balance is \$886.5 million. Principal payments in 2023 total \$39.5 million and interest payments are \$27.5 million. See the 'Outstanding Debt Issues' table on page J-83 for a current listing of the status of outstanding issues.

Recent Debt Financing

On August 24, 2022, the city through ACLC issued \$31.975 million Certificates of Participation to finance multiple priority road improvement projects. The bonds were underwritten by RBCCM at a "All-in" total interest cost of 3.69% with a final maturity of 2042. The bonds are rated Aa1 by Moody's.

On August 4, 2022, the city through ACLC entered into a lease-purchase agreement with Bank of America to finance the acquisition of \$6.176 million in heavy fleet vehicles and associated equipment. The transaction matures in 2029 at an “All-in” total interest cost of 2.71%.

On October 6, 2022, AURA entered into a Tax Increment Refinancing Loan agreement with NBH bank to refinance the outstanding AURA Series 2014 loan. The loan amount is \$20.645 million maturing in 2039 at an interest rate of 4.06%. The AURA Original Fitzsimons Arapahoe TIF Area contributed \$5 million at closing and the city passed a Moral Obligation Resolution to support the debt service reserve fund. The reserve fund from the 2014 loan was rolled into the new loan to establish a new reserve fund.

On October 6, 2022, in conjunction with the 2022 AURA Refinancing, AURA terminated an interest rate cap agreement with the Royal Bank of Canada-Capital Markets. The interest rate cap hedged interest rate risk on the Series 2014 loan and thus was no longer necessary for AURA.

OUTSTANDING DEBT

The outstanding principal balance administered by the City of Aurora as of December 31, 2022 is shown in the following pie chart by entity. Payments are outlined in detail in the following table including: the original amount authorized and issued; the 2022 year-end balance; 2023 scheduled payments of principal and interest; and the resulting principal balance at the conclusion of 2023.

December 31, 2022 Outstanding Principal

2023 Operating and Capital Improvement Budget

Appendix 12 Budget Ordinance Summary

Budget Ordinance Summary

ORDINANCE PROCESS

The following pages describe the 2022 and 2023 budget ordinances. The initial budget ordinance for each year is adopted in the fall of the prior year. Departments are given an opportunity to request amendments due to factors that were not identified at that time the budget was initially adopted. At these times, departments submit supplemental budget amendment requests to the Office of Budget and Financial Planning (OBFP). The OBFP creates a list of supplemental requests in an amending ordinance that is reviewed and revised by city management and forwarded to City Council for review and approval. If City Council approves the amending ordinance, the budget is officially changed. These amending ordinances can be used to change the budget in a prior year, the current year, or the upcoming year, depending on the situation. Normally, these amending ordinances occur in the spring and the fall. Copies of the official ordinances are kept on file by the City Clerk and in the OBFP.

2023 BUDGET ORDINANCES

The primary ordinances in a given budget year are those that establish the tax levy, create the initial adopted budget and set the initial appropriations. These are known as budget ordinances. There are three 2023 ordinances: the Tax Levy Ordinance, the Adopting Budget Ordinance, and the Appropriating Budget Ordinance.

Tax Levy Ordinance: This ordinance establishes the annual tax levy on all taxable property within the city. The revenue raised from this tax is used to defray the general expenses of the city and to discharge certain indebtedness of the city.

Adopting Budget Ordinance: This ordinance adopts the city's annual operating and capital improvement projects budget. The adopting ordinance sets the budget parameters for the city in a given year.

Appropriating Budget Ordinance: This ordinance establishes specific budget appropriations by fund for the fiscal year. This ordinance is considered the spending blueprint for all funds and for all departments.

2022 AMENDING ORDINANCES

Amending ordinances are used to modify the amounts approved with the budget ordinances. There were two 2022 amending ordinances: the 2022 Spring Supplemental Amendment Ordinance and the 2022 Fall Supplemental Amendment Ordinance. Only the significant 2022 amendments are specifically identified in the following section.

Spring Supplemental Budget Appropriation Amendment Ordinance (Introduced 04/25/2022, Approved 05/09/2022, Effective 06/11/2022): This ordinance amended the original budget for 2022 and also amended the 2021 budget for year-end adjustments. The items in this supplemental are taken into account in the 2022 projection, as published in this budget book.

Significant supplemental items included the addition of a net 9.5 FTE across various departments:

- 1.0 FTE Street Light Program Manager to address increased workload associated with the city-owned street light program.
- 1.0 FTE Community Program Specialist to assist with compliance on community projects funding with marijuana sales tax to support the city's homelessness program.
- 0.5 FTE increase to a part-time Animal Services Assistant to meet operational requirements as the city's animal shelter returns to normal operations.
- 1.0 FTE Licensing Officer to address increased workload related to additional marijuana compliance primarily associated with legalized marijuana delivery.
- 1.0 FTE Compensation Manager for oversee HR compensation and benefits programs as well as 1.0 FTE Public Safety Coordinator to directly respond to a recent consent decree and the city to revamp the hiring process of police officers and firefighters.
- 1.0 FTE Business Solution Architect for the ongoing operational support of the Accela workflow management software system.
- A net 1.0 FTE increase due to increasing two part-time Library Clerks to provide an adequate level of service in the city's libraries and mitigate high turnover.
- 2.0 FTE Impound Technicians added to civilianize staff positions at the Impound Unit to replace sworn Police assignments.

Other significant supplemental items in all funds included:

- The appropriation of **\$30.0 million** for the federal and state portion of the \$25 million Better Utilizing Infrastructure to Leverage Development (BUILD) multimodal surface transportation grant and a **\$5 million** FASTER safety grant for the I-70 / Piccadilly Interchange Project.
- The appropriation of **\$13.1 million** to pay off the Hogan parkway debt with General Funds, thus freeing up \$2.4 million annually for transportation maintenance.
- The appropriation of \$4.7 million to obligate the full amount for the contracted Independent Consent Decree Monitor team and services.
- The transfer of **\$4.0 million** to the Capital Projects Fund (CPF) as part of a new initiative to utilize excess General Fund dollars to address road maintenance.
- The appropriation of **\$1.8 million** for two Southeast Aurora Regional Improvement Authority (SARIA) Projects: Quincy Lane Addition and Gartrell Bridge.

Fall Supplemental Budget Appropriation Amendment Ordinance (Introduced 11/14/2022, Approved 11/28/2022; Effective 12/28/2022): This is the second of two scheduled appropriation adjustments. This supplemental amended the 2022 budget only. Although most of these items were known at the time of the creation of the 2023 budget and therefore were included in the 2022 department expenditure projection, some supplemental items were identified too late for inclusion in the department projection.

Appropriation requests in the Capital Projects Fund included:

- The appropriation of **\$8.0 million** for the City of Aurora's share of the Colfax Bus Rapid Transit project in collaboration with the City and County of Denver and the Regional Transportation District.
- The appropriation of **\$1.9 million** in additional grant funds received through the Colorado Highway Safety Improvement Program to modernize and improve traffic signal equipment in various intersections.
- The appropriation of **\$1.8 million** for the Arapahoe County cost share of the Southeast Aurora Regional Improvement Authority Gun Club Phase One Project.
- The appropriation of **\$637,300** in reimbursement funds for Public Works capital programs. These funds will be allocated to projects as needs arise. The most significant reimbursement is from the Regional Transportation District for \$550,400 for a joint landscape project along the I-225/R-Line light rail system appropriated in the Miscellaneous Street Improvements program.
- The lapse of **\$1.5 million** to lapse appropriation for the Aerotropolis Regional Transportation.

Other significant supplemental items included:

- The appropriation of capital grant awards totaling **\$2.4 million** in the Gifts and Grants Fund for various PROS projects, including the Highline Canal AdCo Grant for I-70 Pedestrian Bridge for \$1.6 million and the Murphy Creek Trail Grant from Arapahoe County for \$500,000.
- Appropriations totaling **\$1.2 million** in the Community Development Fund to align the budgets for the Home Investment Partnership Grant and the Community Development Block Grant to the final grant amount and to include program income through August 2022.

Appendix 13

Budget Process and Calendar

Budget Process and Calendar

The budget process for the city involves teamwork and cooperation among many groups and individuals within the city, including: citizens, elected officials, other government entities, neighborhood associations, Council-appointed boards and commissions, and city staff. The process provides opportunities for the public to gain information and understanding about the city's budget and operations. In addition, citizens are given a forum to provide input regarding how the city allocates its resources.

CITIZEN INVOLVEMENT

Budget town meetings are conducted by each Ward Council member early in the budget development process. At that time, citizens receive information about the budget and are given the opportunity to inform City Council about their issues and priorities. Citizens are encouraged to express their opinions about the budget and members of the public can make requests of City Council. In addition, two public hearings are scheduled during City Council's formal weekly meetings. One hearing is held in the spring before budget preparation begins; and the other is scheduled in the fall just prior to Council meeting(s) to consider the proposed budget.

The Citizens' Advisory Budget Committee (CABC) meets monthly to become familiar with city operations, priorities, and budget needs. The CABC meets prior to the proposed budget submission to form its own recommendations to present to City Council. Other commissions directly involved in making budget recommendations to the City Council are the Citizens' Advisory Committee for Housing and Community Development (CHCD), and the Citizens' Water Advisory Committee (CWAC).

CITY STAFF INVOLVEMENT AND THE BASIS OF BUDGETING

Each year, the Office of Budget and Financial Planning projects revenues for the next five years. The first year of the five-year projection is used as the basis for the annual operating budget. The annual operating budget balances operating expenditures with operating revenues.

For expenditures, the baseline for the development of the 2023 budget during 2022 is the projected amount approved by City Council during the adoption of the 2022 budget less one-time items and various adjustments. These changes may include: utility, water, and fuel rate adjustments; risk management adjustments; and fleet service adjustments. Personal services costs are calculated by the Office of Budget and Financial Planning to reflect current staffing levels and cost factors. These amounts are provided to the departments on a line-item basis.

Any new funding request that is not tied to the items noted above must be requested and specifically justified within a budget amendment request (an "add"). This process applies to requests to fund expanding or additional services. Similarly, departments submit budget reductions (a "cut") when lower revenue projections necessitate such items.

Program managers and budget coordinators work together to compile and submit their budget to department directors and appointees for approval. This information is then submitted to the Office of Budget and Financial Planning in June. The budget submission includes line-item allocations.

After significant review of additions and reductions by Executive Staff, the Office of Budget and Financial Planning consolidates prior year actual expenditures, the current year budget projections, and department budget submissions into the City Manager's proposed budget document. Items in the proposed budget are presented to City Council, both in one-on-one settings and formal presentations, for their consideration and approval. The City Council convenes a workshop in the fall to discuss the proposed budget. At this time, the City Council makes any desired adjustments to the proposal and forwards it to a formal meeting for a vote.

In accordance with the city charter, the budget is adopted by December after appropriate public notices and readings. After the budget is adopted, City Council may adjust the budget by way of one or more supplemental appropriation ordinances during the year. These ordinances are normally considered in the spring and fall.

Budget Document

The Office of Budget and Financial Planning annually prepares two formal documents:

1. The *Proposed Budget* is a recommended budget using the current year budget with adjustments as approved by the City Manager.
2. The *Adopted Budget* is formally adopted by the City Council in the annual budget ordinance. It is the result of refinements made to the proposed budget by Council after analysis of overall city needs, priorities, and available resources.

BUDGET CALENDAR

Summary of Key Events

The city's fiscal year is January 1 through December 31. The budget is developed and considered between April and November. Monitoring and adjustment of the budget occur throughout the year. The following is a typical calendar.

January – May

- Final revenues and expenditures for the previous year are reported and analyzed;
- First quarter review of current year expenditures and revenues;
- Appropriation amendments are requested, and the spring supplemental ordinance is presented;
- Goals and priorities for the next year are defined; and
- City Council members host "Budget Town Meetings."

June – August

- Second quarter review of current year expenditures and revenues;
- Departments prepare proposed budgets/adjustments;
- Departments present budget adjustments to City Manager;
- Executive staff evaluate projections and determine budget adjustments;
- Administrative fee changes are reviewed by the Management and Finance Committee;
- The Citizens' Advisory Budget Committee reviews and comments upon the city's budget proposals; and
- The proposed budget is produced and delivered to City Council.

September – December

- The Citizens' Advisory Budget Committee, the Citizens' Water Advisory Committee, and the Citizens' Advisory Committee on Housing and Community Development present to Council regarding the proposed budget;
- City Manager presents the proposed budget to Council;
- City Council reviews the proposed budget and makes budget decisions;
- Administrative fees are approved;
- Budget ordinances are introduced and adopted;
- Third quarter review of current year expenditures and revenues; and
- Appropriation amendments are requested, and the fall supplemental ordinance is presented.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 14 General Financial Policies

General Financial Policies

FINANCIAL STRUCTURES AND POLICIES OVERVIEW

The financial structure portion defines three broad fund classifications, as discussed below. The three classifications are further divided into eight fund types. This section details the financial structure of the City and details the financial policies, the basis of accounting, and the basis of budgeting specific to each fund type. These financial policies include both formal policies and current practice. The policies in this document apply to the 2023 budget year and previous years only. From time to time, they are reviewed and updated.

FINANCIAL STRUCTURE AND THE ASSOCIATED MEASUREMENT FOCUS AND BASIS OF ACCOUNTING/BUDGETING

The City's budgeting and accounting system uses funds to report its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. Each fund is a separate accounting entity. Resources of the City are accounted for in individual funds based on the purpose for which they are to be used. The various funds are classified into three classifications: Governmental, Proprietary, and Fiduciary. Each classification is further divided into separate fund types. Certain funds may not be specifically budgeted by OBFP, because they do not technically use City money. Funds not budgeted by the City are specifically noted in their respective categories.

Each of the three fund classifications used by the City of Aurora uses a different measurement focus and basis of accounting. Measurement focus is used to describe what revenue and expenditure transactions or events are recognized and basis of accounting refers to the timing or point at which those revenue and expenditure transactions are recognized. Operating statements that focus on changes in economic resources answer the question "what transaction and events have increased or decreased total economic resources during the period to make the fund better or worse off?" Whereas operating statements that focus on changes in current financial resources answer the question "what transactions or events of the period have increased or decreased the resources available for spending in the near future?" While measurement focus is the goal or end result of the financial statements, the basis of accounting is the means to that end and allows the financial statements to show the intended result. *Full accrual basis* recognizes revenues when earned (rather than received) and expenditures when an obligation to pay is incurred (rather than when the payment is made). Capital expenses are recognized over the life of the asset, not when the asset is purchased. Under the *modified accrual basis* of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures. For the most part, the basis of accounting and the basis of budgeting are the same. Any differences between the basis of accounting and the basis of budgeting for City funds are noted in each section.

Table 1: City of Aurora Fund Structure

Fund Categories	Basis of Accounting	Types	Nature of the Funds
Governmental	Modified Accrual	General Fund	General operating fund for the City
		Special revenue funds	Specific resources spent for a specified purpose
		Debt service funds	Account for principal, interest, and fees for debt
		Capital funds	Resources to be spent on major capital projects
Proprietary	Full Accrual	Enterprise funds	Financed and operated similar to private business
		Internal service funds	Resources spent for centralized services (cost recovery)
Fiduciary	Full Accrual (non-budgeted)	Pension trust funds	Account for assets held in a trustee capacity

GOVERNMENTAL FUNDS

The City of Aurora accounts for Governmental Funds using the modified accrual basis of accounting. Major revenues recognized in the accounting period in which they become both measurable and available include: property tax, sales and use taxes, lodger's tax, occupational privilege tax, franchise taxes, intergovernmental revenues, interest, and charges for services. The City considers revenue available if collected within two months after year-end. Major revenues determined not to be available soon enough to pay liabilities of the current period or not objectively measurable include: special assessments, licenses, permits, fines, and forfeitures. Therefore, they are recognized in the year they are received. Expenditures are recorded when incurred with the exception of principal on long-term debt and compensated absences, which are accounted for when due.

The **General Fund** is the general operating fund of the City. It is used to account for all general financial resources. Resources are used to finance general City expenditures and to transfer to other funds as required by law or approved by the City Council. The Policy Reserve Fund and TABOR Reserve Fund are subsets of the General Fund.

Special revenue funds are used to account for revenues that are restricted or designated on specified purposes. Special revenue funds include:

- Aurora Conference Center General Improvement District (not budgeted);
- Aurora Urban Renewal Authority General Fund (not budgeted);
- Cherry Creek Racquet Club Fence General Improvement District (not budgeted);
- Cobblewood General Improvement District (not budgeted);
- Community Development Fund;
- Conservation Trust Fund;
- Cultural Services Fund;
- Designated Revenues Fund (budget only fund);
- Development Review Fund;
- Enhanced E-911 Fund;
- Gifts & Grants Fund;
- Marijuana Tax Revenue;
- Meadow Hills General Improvement District (not budgeted);
- Open Space Fund;
- Parking and Mobility Fund;
- Parks Development Fund;
- Peoria Park Subdivision General Improvement District (not budgeted);
- Pier Point 7 General Improvement District (not budgeted); and
- Recreation Fund.

Debt service funds account for principal, interest, and fees incurred due to general obligation, special assessment, certificates of participation, capital leases, and note debt of the City except those accounted for in a proprietary fund. Debt service funds include:

- Aurora Capital Leasing Corporation (not budgeted);
- Aurora Urban Renewal Authority Debt Service Fund (not budgeted); and
- Special Improvement District Debt Service (SID).

The capital funds account for resources allocated for the acquisition or construction of major capital projects except those financed by special revenue and proprietary funds. Capital funds include:

- The Capital Projects Fund (CPF);
- Transportation Maintenance Fund (TMF); and
- Aurora Capital Leasing Corporation Capital Projects Fund (not budgeted).

The difference between the basis of accounting and the **basis of budgeting** for Governmental Funds are as follows:

- Encumbrances are treated as expenditures in the year they are encumbered, not when the expenditure occurs.
- Grants are considered revenue when awarded, not when earned.
- Sales, use, and lodgers taxes are considered revenue when received rather than when earned.
- Project-length (continuing appropriation) budgets adopted during the year are considered to reduce funds available in the year adopted, not when expenditures occur.
- Overspending of project length (continuing appropriation) budgets is considered to reduce funds available.
- Close-out of unspent project-length (continuing appropriation) budgets is considered to increase funds available.
- Purchases of inventory are considered expenditures when purchased, not when sold or used.
- Proceeds from capital leases and related capital expenditures are not budgeted.
- Interfund loans are considered revenue/expenditure rather than receivable/payable.
- Proceeds from debt that are reserved for future debt service are not budgeted.
- The value received on the trade-in of fixed assets and the related capital expenditures are not budgeted.
- Changes in investment income due to recording investments at fair value are not budgeted.
- Transactions related to asset forfeitures are not budgeted.
- Operating transfers and the movement of cash funds are not synonymous. Operating transfers may or may not necessitate cash movement, and cash movement may be done without an operating transfer. Operating transfers are necessary when the goal is to:
 - Move budget between departments in the same fund, the exception being a transfer of budget from Non-Departmental;

- Move budget to another fund within a department;
- Move budget between departments and between funds; and
- Move capital budget from one project to another, unless a master-subordinate relationship exists with the projects. This relationship is referenced in more detail in the Capital Improvement Projects Fund Financial Policies Section.

PROPRIETARY FUNDS

Proprietary funds account for operations that are financed and operated in a manner similar to private business. They are accounted for on a full accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Unbilled, but earned, utility service revenues are recorded at year-end.

Enterprise funds account for activities for which a fee is charged to external users for goods and services. Activities must be reported as enterprise funds if any of the following conditions exist: the activity is financed with debt that is secured solely by a pledge of revenues from fees and charges; laws or regulations require that the activity's costs, including capital costs, be recovered with fees and charges; or the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs. An enterprise fund must be able to operate self-sufficiently over time. Enterprise funds include:

- Golf Fund;
- Wastewater Fund; and
- Water Fund.

Internal service funds account for resources provided by other City funds for centralized services to City departments and agencies on a cost-recovery basis. Internal Service Funds are:

- Fleet Management Fund; and
- Risk Management Fund.

The difference between the basis of accounting and the **basis of budgeting** for proprietary funds are as follows:

- Capital outlay is budgeted as an expenditure in the year purchased.
- Depreciation is not budgeted.
- Proceeds from the issuance of debt are considered revenues instead of an increase in liabilities.
- Principal payments are shown as expenditures rather than reductions of the liability.
- Proceeds from debt that are reserved for future debt service are not budgeted.
- Encumbrances are treated as expenditures in the year they are encumbered, not when the expense occurs.
- Grants are considered revenue when awarded, not when earned.
- Receipts of long-term receivables are considered revenues, not reductions of the receivable.

- Proceeds from the sale of assets are recognized as revenue; however, the related gain or loss is not.
- Purchases of inventory are considered expenditures when purchased, not when sold or used.
- Gains or losses on refunding and prepayment of debt are considered to increase or decrease the funds available in the year in which they occur and are not capitalized and amortized over the life of the bonds.
- Accrued compensated absences are not considered expenditures until paid.
- Interest earned on escrowed cash and investments is not considered revenue for budget purposes.
- The gain or loss on the equity in the joint venture is not budgeted, however payments to the joint venture are budgeted as expenditures.
- Project-length (continuing appropriation) budgets are considered reductions of funds available when appropriated, not when expenditures occur.
- Overspending of project length budgets is considered to reduce funds available.
- Close-out of unspent project length budgets is considered to increase funds available.
- Proceeds from capital leases and related capital expenditures are not budgeted.
- The value received on the trade-in of fixed assets and the related capital expenditures are not budgeted.
- Changes in investment income due to recording investments at fair value are not budgeted.
- Operating transfers and the movement of funds are not synonymous. Operating transfers may or may not necessitate cash movement, and cash movement may be done without an operating transfer. They are necessary when the goal is to:
 - Move budget between departments in the same fund, the exception being a transfer of budget from Non-Departmental;
 - Move budget within a department to another fund;
 - Move budget between departments and between funds; and
 - Move capital budget from one project to another, unless a master-subordinate relationship exists with the projects. This relationship is referenced in more detail in the Capital Improvement Projects Fund Financial Policies Section.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the City in a trustee capacity for others and cannot be used to support the city government's own programs. Fiduciary funds are not budgeted. The City has two fiduciary fund types, pension trust funds and custodial funds.

Pension trust funds are used to account for assets held by the City in a trustee capacity for members and beneficiaries of pension plans. Trust funds include:

- Elected Officials' and Executive Personnel Defined Benefit Plan Fund (EOEP);

- General Employees' Retirement Plan Fund (GERP); and
- Executive Retirement Plan Fund (ERP) and Old Hire Fire and Police Fund (OHFP) starting in 2020.

Custodial funds are used to account for assets held by the City for others but not in a trust. Custodial funds include:

- Police Evidentiary Cash starting in 2020.

GENERAL FINANCIAL POLICIES

I. General Financial Policies Applicable to All Funds

The policies identified as general policies are applicable to all funds of the City and impact overall financial management decisions.

A. **Funds Available Policies**

1. Funds available can be used to balance sources and uses if reasonable due diligence is made to ensure that its use will not create future adverse impacts.
2. Funds available can be transferred from one fund to another as needed, pursuant to the rules that govern the sending fund.
3. Funds available components are as follows:
 - a. **Restricted** – Limitations imposed by creditors, grantors, contributors, or laws and regulations of other governments.
 - b. **Committed** – Limitation imposed at the highest level of decision making that requires formal action at the same level to remove.
 - c. **Assigned** – Intended use established by highest level, body, or official designated for that purpose.
4. Funds available components may change as situations warrant.
5. Generally Accepted Accounting Principles require a disclosure in the city's financial report as to the order in which different classifications of fund balance are spent. This helps a reviewer of the city's financial reports better understand the financial practices of the city. When expenditures are incurred that use monies from more than one classification, the city will generally determine the order on a case-by-case basis taking into account grant agreements, contracts, business reasons, or other constraints. If there are no constraints, the order of spending will be restricted resources, committed, assigned and, lastly, unassigned.
6. "One-time money" is funds that are available only once and is not expected to reoccur year after year. One-time monies are usually fund balance from previous years, unexpected revenues, or savings from unexpectedly lower expenses in any year. Because these monies are not regular revenues that recur from year to year, good financial practices avoid uses that have ongoing costs. If one-time monies are used to support recurring costs, spending could increase to a level that could not be supported by future years' revenues.

B. Revenue Policies

1. The City shall strive to maintain a balanced and diversified revenue system to protect the City from fluctuations in any one source due to changes in local economic conditions which adversely impact that source.
2. Each year the budget office will project revenues for the ensuing five years. The first year of the five-year projection will be used as the basis for the annual operating budget. The basis of the projection is disclosed in the Revenue Section of this book. The projection is consistent with management and Council direction.
3. Federal aid, state aid, gifts, and grants will be accepted only after an assessment is made of potential cost implications.

C. Budget Expenditure Policies

1. The annual operating budget as accepted and appropriated by the City Council will be adhered to in the level of detail approved by Council. If necessary, supplemental appropriations can be used to modify this budget.
2. The City of Aurora budget will balance sources and uses.
3. The annual operating budget will normally provide for adequate funding of City retirement systems, adequate maintenance and/or replacement of capital plant and equipment, and adequate maintenance of an insurance fund, providing for self-insurance or using other acceptable insurance methods. If adequate funding cannot be budgeted, these differences shall be disclosed.

D. Transfer Policies

1. For purposes of budgeting, a transfer will be considered an operating transfer if it accomplishes the following:
 - a) Moves budget between departments in the same fund, the exception being a transfer of budget from Non-Departmental, which is classified as a budget transfer;
 - b) Moves budget within a department to another fund;
 - c) Moves budget between departments and between funds; and
 - d) Moves capital budget from one project to another, regardless of department, unless a master-subordinate relationship exists with the projects. This relationship is referenced in more detail in the Capital Improvements Projects Funds Financial Policies Section.
2. Operating transfers require Council approval.
3. Budget transfers of non-capital budget appropriations within the same department and fund, including transfers to and from the Non-Departmental budget, do not require Council approval.
4. Budget transfers of capital budget appropriation to and from Non-Departmental do not require Council approval.
5. Operating transfers may or may not involve the movement of cash.

6. In some cases, for purposes of ensuring adequate disclosure of substantive appropriation changes, supplemental budget ordinances may identify as transfers certain items not technically considered operating transfers.
7. If a budget change is necessary from existing budget to transfer budget or vice-versa but does not change the primary purpose for the original budget, the change can be made via a budget transfer and does not require Council approval.

E. Investment/Cash Management Policies

1. The City of Aurora will use pooled city cash to invest in United States government, corporate, municipalities, money market instruments, and certificates of deposit, assuming investments meet city standards for investment quality. Criteria for selecting investments, using the prudent investor rule, are safety, liquidity, and yield, in that order of priority.
2. Cash and investment proceeds will be structured to utilize all available funds for investment purposes.

F. Legal, Accounting and Auditing Policies

1. The Charter and Code of the City of Aurora, State of Colorado statutes, and federal laws and regulations will be followed wherever they apply to the financial activities of the City.
2. The source of historical financial information about the City will be the central accounting system as operated and maintained by the Finance Department. The source of all current and future budget information, including spending plans, revenues, and expenditures, is the annual budget document.
3. The City of Aurora Internal Audit Office will audit financial controls and operational efficiencies.
4. An annual external audit will be performed by an independent public accounting firm with the subsequent issuance of a financial report and opinion.
5. The Management and Finance Committee of City Council is the city's audit committee. The audit committee ensures on-going governing body involvement in internal control and financial reporting.

II. General Fund Policies

The General Fund is used to account for the ordinary operations of the City of Aurora, which are financed primarily from taxes and other general revenues. In addition to policies applicable to all funds, the following policies shall apply specifically to the General Fund:

A. Revenue and Expenditure Policies

1. Unless legally designated, revenue that comes into the General Fund is considered to be for general purposes.
2. The City of Aurora will follow a policy of prompt and efficient collection of City imposed taxes.

3. The City of Aurora revenue structure will not rely solely on property taxes or other restricted and inelastic sources of revenues.
4. For the General Fund two types of reserves are maintained: operating reserves and emergency reserves (TABOR and Policy Reserve). When Reserves are used, specific budgetary plans should be formally made for quickly restoring them. To help protect the City's financial future and to maintain a high level of financial creditability, every effort should be made to follow the plan.
5. Operating Reserve: The purpose of the General Fund Operating Reserve is to provide a source of additional funds in cases where Council determines such use is appropriate and necessary. Use of these funds should be for one-time uses (as defined by that policy) and may include paying for unexpected revenue shortfalls in a year, unexpected expenses, including emergencies, and offsetting potential budget cuts as deemed appropriate and necessary by Council. These reserves are also to assist with meeting financial bond rating agency total reserve requirements. When feasible, these reserves should be maintained at a minimum level of approximately 1 – 3 percent of General Fund budgeted revenues. Maintenance of an Operating Reserve of less than 1 percent is not considered financially prudent and should be avoided. When Operating Reserves are used, they should be restored as quickly as feasible, usually from any one-time monies that become available in any budget year.
6. Policy Reserve: A reserve will be held in the General Fund, equal to 10 percent of the General Fund operating budget, adjusted to exclude the Capital Projects Fund transfer, transfers associated with tax incentives, and 2 per 1000-related expenditures. When Policy Reserves are used, they should be restored within two fiscal years.
7. TABOR Reserve: The TABOR reserve is defined by the State Constitution and is to be maintained and the amount adjusted annually in accordance with the Constitution. The reserve is approximately equal to 3 percent of the fiscal year's spending will be held in the General Fund. Any spending of the TABOR reserve must be restored by the end of the following fiscal year. Assets can be used for the TABOR Reserve.

III. Special Revenue Funds Financial Policies

The City of Aurora uses special revenue funds to account for revenues from specific taxes or other restricted or committed revenue that by law or agreements are designated to finance specific activities of city government. In addition to policies applicable to all funds, the following policies shall apply specifically to special revenue funds.

A. Community Development Fund

The Community Development Fund accounts for revenue and expenditures relating to federal grants received from the United States Department of Housing and Urban Development. Community Development expenditures will be spent in accordance with general City financial policies and appropriate federal regulations.

B. Recreation Revenue Fund

The Recreation Fund is used to account for the financing of recreation activities and programs through General Fund subsidies, user fees, and charges for services.

1. Council, from time to time, examines the appropriateness of the relationship between revenues raised by fees compared to revenues raised by transfers of General Fund monies.
2. Increases in costs related to pay increases mandated by City policy, utilities charges, maintenance contracts, and other mandatory requirements, will generally be funded through an increase in the General Fund transfer.

C. Cultural Services Fund

The Cultural Services Fund accounts for revenue from fees, donations, grant funds from the Scientific and Cultural Facilities District (SCFD) and other grantors, proceeds from the Art in Public Places (AIPP) ordinance and General Fund subsidies.

1. Council, from time to time, examines the appropriateness of the relationship between revenues raised by fees compared to revenues raised by transfers of General Fund monies.
2. Increases in costs related to pay increases mandated by City policy, utilities charges, maintenance contracts, and other mandatory requirements, will generally be funded through an increase in the General Fund transfer.

D. Gifts & Grants Fund

The Gifts & Grants Fund is used to account for revenue received for specific purposes according to appropriate laws and agreements. In addition to policies applicable to all funds, the following policies shall apply specifically to the Gifts & Grants Fund:

1. Gift & Grant Funds will be pursued and gift and grant opportunities will be evaluated based on current and future financial implications. Gifts & Grants Fund expenditures will be in accordance with the expressed or implied purpose stated in the terms of the gift or grant.
2. Revenue is recorded based on a signed award.

E. Development Review Fund

The Development Review Fund was created to account for revenues and expenditures for services related to providing for enhanced review of development plans and for construction (building) inspections. At the time the Development Review Fund was created, it was clear that management was to adjust staffing and costs in accordance with the workload and revenues. A fund balance was envisioned as part of the financial and operational structure. The fund balance would be built-up in times of high revenue and could be used to provide for quality service and staffing during times of rapidly changing workload levels.

1. The Development Review Fund should be operated as a special revenue fund and is intended to be entirely self-sufficient.

2. The budget process for the Fund should allow for increases or decreases in staffing during the year. One acceptable process is the Manager advising Council informally of any proposed change outside the scope of the budget. If no one on Council objects, the Manager may begin to implement that change. The change should be formally considered by Council at the next available routine supplemental appropriation.
3. A fund balance shall be maintained at a level sufficient to:
 - a. Fund costs during a significant slowdown to allow for service quality to be maintained while still reducing expenditures (and staff) as quickly as feasible,
 - b. Fund costs for a period of time where further staff reductions would destroy base capabilities,
 - c. Fund the ramp-up of workload during a rapid increase in development activity.

F. Enhanced E-911 Fund

The Enhanced E-911 Fund provides for the acquisition, development and maintenance of 911 equipment and systems to receive, dispatch, and respond to citizens' 911 calls. Its main use is supporting the communications personnel answering 911 calls, maintaining the 911 call answering system, the computer aided dispatch (CAD) system and the 800 megahertz radio (MHz) communication system. The primary source of revenue for the fund is the E-911 surcharge on wired, wireless, voice over internet protocol (VoIP) and prepaid wireless telephones.

1. The E-911 Surcharge will be used to fund call center call takers and \$2.0 million in capital costs, including the annual debt service for the 800 MHz Radio replacement. The call takers were moved from the General Fund in 2015.
2. The remainder of the costs will be funded by a transfer from the General Fund, equal to the cost of the call takers noted previously.
3. The funds available associated with the more restrictive E-911 Surcharge related expenditures and the rest of the fund will be kept separate and used for its intended purpose.

G. Social Service Agency Funding Financial Policies

Specific financial policies concerning support to outside agencies for community and human services include the City's desire to assist those outside agencies without significantly affecting the primary service responsibilities of the City of Aurora. In addition to policies applicable to all funds, the following policies shall apply specifically to social service agency funding:

1. Basic responsibility for governmental support of social services rests with federal, state, and county governments.
2. City involvement in support of social or community services shall occur under the following guidelines:
 - a) The organization involved must be a nonprofit agency.

- b) The service or program shall substantially meet a community need of Aurora citizens.
 - c) The service or program does not duplicate or significant overlap services provided by agencies currently receiving grant funding from the City of Aurora.
 - d) Agencies providing assistance to City departments by servicing referred clients shall be given priority consideration for funding.
 - e) The agency sponsors agree to submit periodic financially detailed expenditures, the number of clients served who are residents within the City, and a ratio of resources utilized per client according to municipal boundaries.
3. Agencies receiving grant funding from surcharges for the conviction of a municipal offense must demonstrate a commitment to Aurora law enforcement and were identified by ordinance and resolution in 2006.
- a) Services provided by the organization should assist and/or enhance the mission of Aurora law enforcement to provide for public safety.
4. Each year the City Council will review the basic decision to provide funding to the agency and/or the amount of an award.
5. City Council discourages the submission of out-of-cycle budget requests for social service agencies. The only exception to this policy is requests for charitable contributions related to the purchase of tables at charitable social events. Such requests may be considered if:
- a) The amount requested does not exceed funds set aside by Council or within a department budget for such purpose;
 - b) If an individual Council member recommends the request and it is approved by the full Council; and
 - c) The organization is a partner in assisting meeting community needs and there is a public expectation of a City presence at the event.

IV. Capital Improvements Projects Funds Financial Policies

The Capital Improvements Program (CIP) is a process that identifies City capital projects needed to maintain current capital assets and support new development and services.

A. Revenue and Expenditure Policies

1. A capital improvement project is defined as the construction, acquisition or improvement of infrastructure, facilities, or other qualifying asset that costs at least \$25,000 and which has a long-term benefit of five years or more, or extends the useful life of the improved asset by five years or more. Also included are:
- a) Direct personnel costs associated with engineering, design, inspection, and project management. Direct supply, service, and support costs, such as those related to construction, financial services, or major procurement bidding costs may also be charged to CIP projects.

- b) Major street renovation.
 - c) Initial purchase or replacement of computer and communications hardware, as long as the hardware has a life of five or more years. Initial purchase or replacement of computer and communications software, will also apply, as long as the software equals or exceeds \$25,000 in any given year.
 - d) Multi-organization one-time purchases / replacements of a number of similar pieces of equipment costing at least \$200,000 in total.
- 2. The legal level of control for a capital improvement program will be the project as defined in Section H of the budget document.
 - 3. Any request to transfer budget from one project listed in the Capital Improvement Program Summary by Fund, Department, and/or Project, to another project similarly listed will require approval by City Council.
 - 4. Council authorization is not required to establish subordinate project codes that will be used to track revenues, expenditures, and budgets for components within an appropriated capital project as long as such transfers remain within a single fund and department. Council authorization is also not required for budget transfers among subordinate project codes established in this master-subsidary manner.
 - 5. A department may not enter into a contract without sufficient appropriation to cover the contract.

V. Enterprise Funds Financial Policies

The enterprise funds are used to establish, finance, and account for the acquisition, operation, and maintenance of City of Aurora programs which are entirely or predominantly self-supporting by user charges or dedicated revenues. In addition to policies applicable to all funds, the following policies shall apply specifically to the enterprise funds:

A. Revenue and Expenditure Policies

- 1. Enterprise fund revenue will be generated by the sale of goods and services or from other dedicated revenues to provide for effective operations.
- 2. License, permit, and user fees will be periodically reviewed to determine what fees should be charged to provide for sound financial policies.
- 3. Enterprise funds user fees shall be set at levels sufficient to cover operating expenditures, meet debt obligations, provide additional funding for capital improvements, and provide adequate levels of working capital.
- 4. Charges to enterprise funds for services provided by the General Fund will be based on a pro rata unit share of each enterprise fund's resource use, taking into account any offsetting no charge or reduced cost service provided by the enterprise fund to other City funds.

VI. Internal Service Funds Financial Policies

Internal service funds are used to finance and account for goods and services furnished by a designated organizational program to other organizational programs within the City of Aurora fund structure. In addition to policies applicable to all funds, the following policies shall apply specifically to internal service funds:

A. Revenue and Expenditure Policies

1. Internal service funds revenue will cover the cost of operations and will be generated by charging City of Aurora budget programs that use such services.
2. Standard rates will be reviewed periodically to determine if charges to other funds are reasonable.
3. The City will operate a risk management program to provide for protection against loss and a reduction in exposure to liability. Such program shall include an employee safety-training program to minimize financial losses to the City.

VII. Debt Service Funds Financial Policies

A. Debt Policies

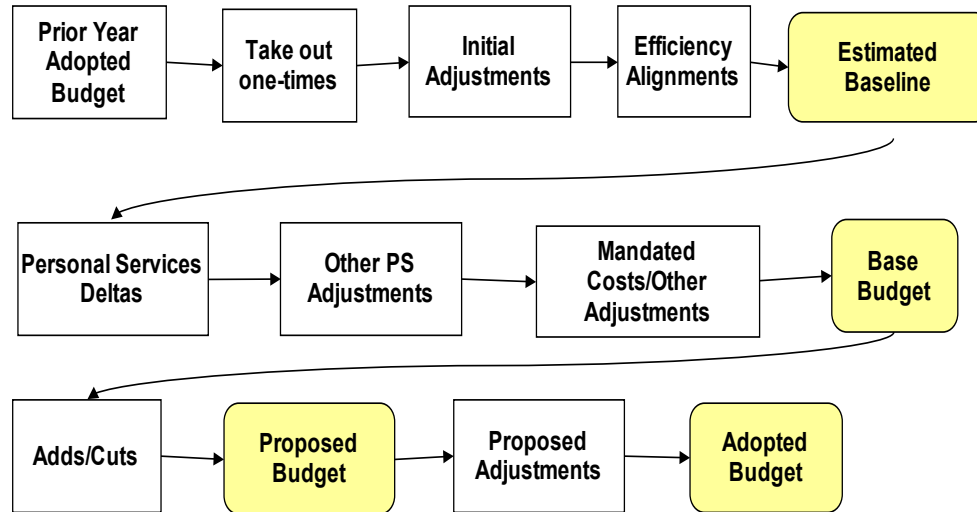

1. The City of Aurora will not use long-term debt to finance operations or for repair or renovation of existing assets unless the remaining useful life following such repair or renovation is extended.
2. Debt issuance decisions should include consideration of the impact of debt service costs and net increased operations and maintenance costs resulting from projects financed with debt.
3. Both capital projects and improvements financed with debt should have a useful life equal to or exceeding the term of the final maturity of the debt issued. Lease-purchase financing will be considered when the useful life of the item is equal to or greater than the length of the lease.
4. Debt should be self-supporting whenever possible, whereby debt service payments are funded from revenues specifically dedicated to retiring the bonds.
5. The total outstanding general obligation indebtedness of the City, less legally excludable outstanding debt, shall not exceed 3 percent of the assessed valuation of the taxable property within the City.

Policies Related to Specific Events

I. Policies related to budget building

A. The **budget process** period is created each year, depending on the procedures that need to take place and the relative importance of these procedures.

B. Most budget processes will follow a flow similar to this:

C. The definitions and policies related to each individual phase of the budget process are as follows:

1. **Prior year adopted budget:** The prior year adopted budget is that budget that was approved by Council during the prior year. Carryforwards, transfers, lapses, or supplementals are not included in this amount.
2. **Take out one-times:** During the creation of the prior year budget, there were items that were added into the budget on a one-time basis. That is, the expenditure was not meant to carry into the next year's budget. Those appropriations are removed during this phase. It is the responsibility of OBFP, with department input, to remove the budgets.
3. **Initial Adjustments:** There are several types of initial adjustments, including:
 - a) **Prior Year Fall Supplemental Ongoing:** This is the addition of ongoing items from the previous year's supplemental. It is the responsibility of OBFP, with department input, to adjust the budgets.
 - b) **Program Updates:** This is the physical rearranging of orgs within a program. When an org moves from one program to another, the history of that org also moves.
 - c) **Current Year Spring Supplemental Ongoing:** This is the addition of ongoing items from the current year's supplemental. It is the responsibility of OBFP, with department input, to adjust the budgets.

4. **Efficiency Alignments:** This is the movement of budget from one org and account to another that results in no bottom-line change. Specific policies pertain to what accounts are allowed to move in the net zero entry process. Because they will be fully updated at another point in the budget building process, budget cannot move into or out of:
 - a) Forecasted personal services accounts;
 - b) Accounts included in the Zero-Base Budget process;
 - c) Interfund charge accounts;
 - d) Debt related accounts;
 - e) Transfer accounts;
 - f) Allocated admin accounts;
 - g) Utility accounts, and
 - h) One-time budget requirements.
5. The sum of the above four steps creates the **Estimated Baseline**.
6. **Personal Services Deltas:** The personal services delta is the amount of difference between the Estimated Baseline and the amount the Personal Services forecasting system calculates for each position. Not every personal services account is forecasted. Changes in accounts not related to the forecast are placed in the next phase, Other Personal Services Adjustments. Policies specific to FTE budgeting are found in a later section.
7. **Other Personal Service Adjustments:** Personal service cost changes not related to the Personal Services Delta phase are entered in this phase.
8. **Mandated Costs/Other Adjustments:** Mandated costs are those items where the City has no choice but to fund the costs.
 - a) Examples include:
 - i. Utilities costs increases driven by rate changes, not costs driven by increased use
 - ii. Increased risk charges
 - iii. Changes in subsidies and overhead charges driven by mandated costs or base personal services increases
 - b) OBFP calculates most of these items.
 - c) OBFP will work with departments on items that the department believes qualify as baseline additions versus those that need to be shown as adds.
9. The **Estimated Baseline** plus the sum of steps 6 through 9 creates the **Base Budget**. As a matter of policy, City Council is not presented the detail behind the previous steps, but the detail must be available upon request.
10. **Adds/Cuts:** Those budget changes that are not mandated costs are entered into the budget as adds and cuts. City Council is presented with a list of these adds and cuts.
11. The **Estimated Baseline** plus the Adds/Cuts creates the **City Manager's Proposed Budget**, of which the Council deliberates at the October workshop. The Proposed Budget is the culmination of all of the earlier phases.

12. **Proposed Adjustments:** During City Council's fall workshop, any changes that City Council wishes to make from the Proposed Budget are entered into this phase.
13. The **Proposed Budget** and the Proposed Adjustments create the **Adopted Budget**. This budget is approved by ordinance and entered into One Solution upon formal Council approval.

II. Policies Related to Spring and Fall Supplementals (Amendments):

- A. Supplementals are normally done twice a year, once in the spring, and once in the fall.
- B. The purpose of a supplemental is to give departments the ability to modify their current working budget to take into account things that were not known at the time of the creation of the approved budget.
- C. In the months prior to supplemental entry, OBFP will keep a file with details about possible amendments.
- D. Supplemental entry will be done in the Budget Management System (BMS).
- E. A supplemental must be requested if:
 1. The supplemental will increase the budget of a department within a fund.
 2. The supplemental is associated with an operating transfer of funds available from one fund to another.
 3. The supplemental moves budget authority between two departments, regardless of whether or not they are in the same fund, with the exception of Non-Departmental.
 - a. If the movement of budget authority does not change the intent of the budget (i.e. changing the budget from a debt class to a transfer class), no supplemental is needed.
 4. The supplemental moves budget authority between two capital projects, unless a subordinate relationship exists between the projects.
 5. The supplemental involves significant lapses of budget appropriation, as defined by the budget officer.
- F. **Line Items:** The line items of every supplemental will be comprised of the following types:
 1. **New Appropriation:** This is an increase to the budget not from operating transfers. Most supplementals are new appropriations. An org and account is necessary for a new appropriation. A new appropriation must be a positive number.
 2. **Operating Transfers:** This is a change to the budget associated with a movement of funds available across funds. A 'transfer-out' org and account on the sending side, as well as a 'transfer-in' org and account for the receiving side,

- is necessary for an appropriation. Bullet G below, “Offsets”, will have more information on this.
3. **Lapse:** This is a decrease to the budget not from operating transfers. An org and account is necessary for a lapse. A lapse must be a negative number.
 4. **Payment to a City Funded Entity:** This is a line item pertaining to the transfer of funding to a non-budgeted City Funded Entity (CFE). A ‘transfer-out’ org and account is necessary for this appropriation.
 5. **No Appropriation – Revenue Only:** This is a line item with an amount of zero for the supplemental that includes a revenue offset with no corresponding appropriation. The revenue org and account must be entered as an offset for this type. Bullet G below will have more information on this.
- G. **Offsets:** An offset is the amount of an add that will not affect the fund’s bottom line, as any expenditure change will be covered by revenue changes or transfers of previously appropriated budget. Revenue that will offset the expenditure supplemental must be entered, when applicable. Offsets can be comprised of the following types:
1. **New Revenue:** The supplemental will be at least partially funded by new revenue. An org and account for the new revenue is necessary for a new revenue offset.
 2. **Operating Transfers:** The supplemental will be at least partially funded by an operating transfer. An org and account for the operating transfer is necessary for this offset. As noted above, a ‘transfer-out’ org and account on the sending side is also necessary.
- H. **Special Cases:** Transferring budget authority from one capital org to another will be shown as a lapse (decrease) in the sending org and a new appropriation (increase) in the receiving org.
- I. **Net bottom line impact:** This is the difference between the amendment and the offset. This is the amount that the funds available will change, if the supplemental is approved.
- J. If two supplementals are related in that for one to be approved, the other must be approved, they will be linked in the BMS system and shown to City Council as one supplemental.
- K. After the supplemental list has been checked for accuracy and readability, it is sent to Executive Staff (City Manager and Deputy City Managers (DCMs)) for approval. OBFP and Executive Staff reserve the right to delete, add, or modify supplementals prior to the supplemental ordinance being sent to City Council.
- L. Once Executive Staff approves the supplementals, a single supplemental ordinance is created. The ordinance is composed of :
1. The agenda form
 2. The ordinance
 3. The supplemental backup material (from BMS)

- M. Supplementals are presented to the Management and Finance Committee, which approves the supplemental and forwards it to the full Council.
- N. Supplementals are presented to City Council during a special study session and again at the regular Council meeting for the first and second readings.
- O. OBFP will upload the org and account information into the One Solution system after the first reading, unless the political climate surrounding the supplemental is such that the approval of the supplemental by City Council cannot be reasonably expected.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 15

General Improvement District Budgets

General Improvement Districts in the City of Aurora

A General Improvement District (GID) is a taxing unit created for the purpose of acquiring, constructing, installing, operating, or maintaining any public improvement or for the purpose of providing such service. There are currently six voter-approved GIDs in the city.

Cherry Creek Racquet Club Fence General Improvement District (1-2007)

	2023 Adopted	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Beginning Funds Available	\$ -	\$ -	\$ -	\$ -	\$ -
Revenue					
Property Tax	64,000	64,000	64,000	64,000	64,000
Total Revenue	\$ 64,000	\$ 64,000	\$ 64,000	\$ 64,000	\$ 64,000
Expenditures					
Debt Payment	60,000	60,000	60,000	60,000	60,000
Maintenance	4,000	4,000	4,000	4,000	4,000
Total Expenditures	\$ 64,000	\$ 64,000	\$ 64,000	\$ 64,000	\$ 64,000
Ending Funds Available	\$ -	\$ -	\$ -	\$ -	\$ -

The Cherry Creek Racquet Club Fence General Improvement District (GID) was approved as part of the November 2007 election. The project will not exceed \$706,000 and will generate approximately \$64,000 annually in revenue from property tax within the district boundaries. Included in that amount is a provision that will bring in up to \$4,000 annually for maintenance purposes. The property tax will be used to pay down the debt associated with the construction of the fence, as well as maintenance costs for the upkeep of the fence.

Meadow Hills General Improvement District (3-2008)

	2023 Adopted	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Beginning Funds Available	\$ -	\$ -	\$ -	\$ -	\$ -
Revenue					
Property Tax	47,500	47,500	47,500	47,500	47,500
Total Revenue	\$ 47,500	\$ 47,500	\$ 47,500	\$ 47,500	\$ 47,500
Expenditures					
Debt Payment	41,000	41,000	41,000	41,000	41,000
Maintenance	6,500	6,500	6,500	6,500	6,500
Total Expenditures	\$ 47,500	\$ 47,500	\$ 47,500	\$ 47,500	\$ 47,500
Ending Funds Available	\$ -	\$ -	\$ -	\$ -	\$ -

The Meadow Hills Country Club General Improvement District (GID) was approved during the November 2008 election. The GID will generate approximately \$47,500 annually in revenue from property tax within the Meadow Hills district boundaries to fund the construction of a not-to-exceed \$685,000 masonry fence. Included in that amount is a provision that will bring in up to \$6,500 annually for maintenance purposes.

Appendix 15 - General Improvement District Budgets

Peoria Park Subdivision General Improvement District (1-2008)

	2023 Adopted	2024 Projected	2025 Projected	2026 Projected	2027 Projected
Beginning Funds Available	\$ -	\$ -	\$ -	\$ -	\$ -
Revenue					
Property Tax	37,400	37,400	37,400	37,400	37,400
Total Revenue	\$ 37,400	\$ 37,400	\$ 37,400	\$ 37,400	\$ 37,400
Expenditures					
Debt Payment	30,400	30,400	30,400	30,400	30,400
Maintenance	7,000	7,000	7,000	7,000	7,000
Total Expenditures	\$ 37,400	\$ 37,400	\$ 37,400	\$ 37,400	\$ 37,400
Ending Funds Available	\$ -	\$ -	\$ -	\$ -	\$ -

The Peoria Park Subdivision General Improvement District (GID), approved during the November 2008 election, will generate approximately \$37,400 annually in revenue from property tax within the Peoria Park district boundaries to fund the construction of a not to exceed \$388,900 masonry fence. Included in that amount is a provision that will bring in up to \$7,000 annually for maintenance purposes.

The Pier Point General Improvement District (GID), approved during the November 2009 election, was created to provide essential sanitary sewer system improvements and services within the Pier Point district boundaries, including, but not limited to, collection mains and laterals, transmission lines, and related landscaping improvements. The GID will generate approximately \$199,750 annually in revenue from property tax within the Pier Point 7 district boundaries. There is a not to exceed \$3.5 million in debt associated with the GID to be repaid from property tax within the district boundaries.

The Aurora Conference Center General Improvement District (GID) was approved during the November 2011 election. Qualified electors voted in favor of authorizing the levy of an ad valorem property tax for the construction of and/or to incentivize a public conference center and related improvements. Its purpose is to attract tourism to the area and stimulate development of property within and surrounding the GID, to provide off-site public infrastructure, and to provide for the payment of future regional infrastructure costs, all for the benefit of GID taxpayers. The budget and proposed mill levy for the Aurora Conference Center GID is currently based on the now completed Gaylord hotel. As development around the Gaylord in the Aurora Conference Center GID continues, the property tax will increase as estimated in years 2023-2027.

Cobblewood General Improvement District (1-2016)

The Cobblewood General Improvement District (GID) was approved during the November 2016 election. The purpose of the GID is to repair and bring to city standards the neighborhood's private roadway. Upon completion of this work, the road will be conveyed to and maintained by the city. The project will not exceed \$935,600 and will generate approximately \$32,000 annually in revenue from property tax within the district boundaries. The property tax will be used to pay down the debt associated with the cost of the street improvements.

In late 2015, the Aurora City Council approved the creation of a 6.8 acre URA at the northeast corner of South Sable Street and East Alameda Avenue. The Alameda Center urban renewal plan established a single TIF area covering the entire plan area to facilitate the redevelopment of the existing bank and shopping center into a quality transit-oriented development. A public finance and redevelopment agreement was approved in February 2019. The redevelopment project, Parkside, was completed in 2021 and includes 216 market-rate apartments, 34,500 square feet of commercial space, and a new bank building. Lease-up of the apartments and commercial space is ongoing. AURA has agreements to return 25 percent of APS and 100 percent of Metro District and Business Improvement District property tax mills to the respective jurisdictions.

The Parkside Collective Apartments suffered an explosion on September 10, 2022. Residential leases were terminated and ground-floor commercial build-out was paused. The building is currently closed with repairs underway. A reopening has not yet been determined.

The Aurora Conference Center URA was approved on September 26, 2011. Taxes generated by the Aurora Conference Center General Improvement District are allocated separately in the urban renewal plan, and began being collected in January 2013. Construction commenced on April 20, 2015 and the hotel and conference center opened in late 2018. The project includes a 1,500-room hotel with approximately 400,000 square feet of conference facilities.

The Buckingham URA was created in 2008. It is located on the east side of Havana Street on the south side of Mississippi Avenue to Florida Avenue. This URA was created with the goals of eliminating slum and blight, remediating environmental contamination and redeveloping the former Buckingham Square Mall into a designated activity center for the Havana Street Corridor. The urban renewal goals that were met include the redevelopment of an aging, mostly vacant mall into a thriving retail lifestyle center, the creation of some 700 jobs, the addition of a significant sales tax revenue generating project, and the implementation of a major activity node along the Havana corridor, among others.

The Buckingham URA consists of three Tax Increment Areas. TIF areas 1 and 2 have been established for the Gardens on Havana retail center (TIF 1) and the Centro Apartments (TIF 2). A total 22 percent of incremental sales tax and 70 percent of incremental property tax is pledged to support the project while 30 percent of school and county property taxes will be returned to those jurisdictions by cooperative agreements. The entirety of the levy from the Havana Business Improvement District will also be returned by the cooperation agreement approved in August 2010. The remaining revenues will be used to support personal services and capital projects in the area provided by the city or AURA.

TIF area 3 was established in 2012 for the redevelopment of the 1470 South Havana building into the 86 unit Bella Vita assisted/independent living project. 100 percent of property and use tax funds flow to AURA. The TIF funds are being used to repay AURA's cost of constructing the Ironton extension, a crucial connection road for the URA.

CITY CENTER II URBAN RENEWAL AREA

	Inception Through 2020	2021 Actuals	2022 Projection	2023 Forecast

The City Center II URA was created in 2009 and includes approximately 128 acres bounded roughly by S. Sable Street on the west, E. Alameda Parkway on the north, W. Tollgate Creek on the east, and E. Center Avenue on the south. TIF area 1 was established in 2009 for the intended first phase of the Metro Center project, located at the southwest corner of E. Alameda Parkway and S. Chambers Road on 24.6 acres. When the developer failed to generate sufficient tenant interest in order to begin work in TIF area 1, the development focus shifted to the west side of the property. TIF areas 2, 3, and 4 were established in late 2015, all located at the southeast corner of E. Alameda Avenue and S. Sable Boulevard on roughly 16.5 total acres. A new owner purchased the property in December 2019 and received approval of a new master plan in 2021. Preliminary plans call for a range of uses including residential, retail, office, and hotel.

The Colorado Science and Technology Park URA (CSTP) was created in 2008. It is located north of Montview Boulevard between Peoria Street and Fitzsimons Parkway. This URA was created to stimulate the development of a state-of-the-art life sciences research park. One TIF area has been established of which 85 percent of sales, use, lodgers and property tax increments are pledged to the metro district for public infrastructure and improvements that have been completed to date. The remaining revenues are currently being used by AURA to support projects on the campus. As revenues increase, AURA will use revenues to support personal services provided by the city in addition to developer incentives and AURA projects. The developer incentive currently reimburses the metro district for campus infrastructure costs incurred. In 2015, construction of Bioscience 2 was completed. The building is owned by the University of Colorado and leased to Fitzsimons Redevelopment Authority. Construction of specific infrastructure to support the building was given consideration as payment in lieu of taxes. The 106 room Benson Hotel and Faculty Club in Tax Increment Area 1 is near completion with an anticipated June 2023 opening. Fitzsimons Redevelopment Authority continues to redevelop the initial portions of the former golf course land west of Scranton Street with completion of the Bioscience 3(117K square feet) and parking garage in 2020 and Bioscience 5 (90K square feet) in 2022. Construction on a new Bioscience 4 building is pending. In July 2022, the Aurora City Council approved an amendment to the CSTP urban renewal plan which created a second TIF area west of Scranton. Approximately \$84 million in new infrastructure is planned to accommodate 3-4 million square feet of new development in TIF area 2. A public finance agreement is pending to support the financing of this new infrastructure.

The CornerStar URA was created in 2008 with a single TIF area. It is located at the southwest corner of Parker Road and Arapahoe Road on 158 acres. This URA was created in order to facilitate the redevelopment of a long-vacant site with severe drainage issues. The primary project within the URA is a 685,000 square foot retail lifestyle center with Target and Dick's Sporting Goods among the primary anchors. All incremental revenues generated are pledged to offset the drainage improvements at the site. The Public Finance and Redevelopment Agreement for a financial incentive of \$17.5 million (net present value), was approved in 2007. The developer incentive for this project includes 30 percent of sales tax for the term and 100 percent of use tax for the first two years. The use tax collection and payment period ended September 2009, and the pledge of incremental sales tax revenues will end effective September 30, 2023.

The Fitzsimons URA was created in 2001 to stimulate redevelopment of the former Fitzsimons Army Hospital campus and the surrounding area. In 2008, the plan was amended to remove the portion of the campus that became the Colorado Science and Technology Park URA. This URA has only one TIF area that includes collections from both Adams and Arapahoe Counties. In 2014, the URA was decreased by another 74 acres, which became the Fitzsimons Boundary Area II URA. Existing projects in Fitzsimons Village (Springhill Suites, office building and bank) will remain in this area and continue to generate TIF that will be paid to the Fitzsimons Village Metro District. Projected personal services costs reflect AURA staff costs. The Developer incentives line includes the incremental taxes paid under the Fitzsimons Village redevelopment agreement. In 2019, \$6.45 million was taken from Fitzsimons URA revenues to be reimbursed by a future loan, allocated for the Fitzsimons Gateway Hotel eligible public improvements. In June of 2019, AURA agreed to the reimbursement agreement to "front-fund" eligible public improvements for the hotel. In May of 2019 AURA authorized to set aside \$1.0 million for affordable housing investments within the Fitzsimons area. We also anticipate future projects such as refinancing or other campus capital projects in future years. In 2022, \$5M is shown as being deducted from expenses. This amount will be transferred in order to be allocated towards the refinancing of the Hyatt Hotel and Conference Center (Fitz II, TIF 1).

The initial Fitzsimons URA was approved and adopted by the Aurora City Council in 2001. The plan included the establishment of a tax increment area that encompasses the entire URA. A new URA, Fitzsimons Boundary Area II, was created in February 2014. Fitzsimons Boundary Area II URA comprises approximately 74 acres located south of Colfax Avenue and across from the campus. Four separate TIF areas were created with the approval of the urban renewal plan. TIF area 1, Boundary II includes the Hyatt Hotel project, co-located with the Aurora Conference Center, and includes a stand-alone public parking facility. All incremental revenue sources are pledged towards the repayment of the City's debt, issued for the construction of the AURA-owned conference center and parking garage. TIF area 2 does not have a redevelopment agreement in place. Approved plans for the eastern portion of the area call for 370 units of multifamily residential with 9,000 square feet of ground-floor retail. TIF area 3 is the 363-unit Legacy at Fitzsimons project, a 5-story multifamily rental project located within Fitzsimons Village, with an incentive agreement of \$5.7 million in place. TIF area 4 is the Forum at Fitzsimons project. A 2014 redevelopment agreement provided for 397 multifamily rental units and 27,000 square feet of first floor retail/commercial space. The project was completed in 2019 and was the first multifamily project to be incentivized by AURA.

The Fitzsimons Gateway A URA was approved in November 2015. It is a 2.03 acre URA located one parcel east of the southeast corner of East Colfax Avenue and North Peoria Street. In June of 2019, the AURA board approved an agreement to reimburse the developer for up to \$6.45 million in approved public improvement costs to develop a 140-room Hyatt House hotel. This amount was paid out in full. The funds for the reimbursement were allocated from the Fitzsimons Adam's County fund and may possibly be replaced with debt that will be issued by the Finance Department. The debt will be repaid over time from the TIF funds. The extended stay hotel opened in April 2021. An Environmental Protection Agency (EPA) funded loan, administered by AURA, was used to remediate this and the Fitzsimons Gateway B site, and revenue generated from the projects is being used to pay the annual debt service on that EPA loan. \$1M will be deducted from revenues in 2023 to be allocated to a refinancing of the Hyatt Hotel and Conf. Center in Fitz II, TIF 1.

The Fletcher Plaza URA was adopted on January 27, 2003. The Colfax Avenue area around Fletcher Plaza is the historic center of Original Aurora, and based on an extensive planning effort that started in 1992, has become a focal point for acknowledgement of Aurora's historic beginnings. The plan area as adopted roughly approximates the boundaries of the Aurora Cultural Arts District and is considered a "key place" in Aurora Places, Aurora's new comprehensive plan, adopted September 2018. Public investment in the area including the Aurora Fox Arts Center, Martin Luther King, Jr. Library/Municipal Services Center, public art, alleyway paving, Fletcher Plaza, and more recently, the People's Building have contributed to the area's redevelopment and prevented continued deterioration of property.

The city amended the Fletcher Plaza urban renewal plan in June 2014 to confirm the conditions of blight as required under State law and delineate a TIF area covering the equivalent of approximately one square block. This area contains a brewery, as well as neighboring parcels targeted for reinvestment, including two new food establishments in the central portion of the Fletcher Plaza Urban Renewal Area. TIF revenue collection is confined to sales and use tax only. These revenues will be used to incentivize further diversification of the neighborhood commercial tax base, and compliment the offerings of the Aurora Cultural Arts District. In 2021, the city was awarded a CDOT Grant to upgrade Fletcher Plaza and adjacent public spaces. Funds are being utilized in 2022 to improve the crossing areas at Emporia and Elmira Streets on Colfax Avenue, refurbish the plaza, restore the outdoor sound system, and provide wayfinding signage on Colfax Avenue in the Arts District. Additional investments in the streetscape were made in 2022, replacing pedestrian street lights and adding new street trees and landscape in the Colfax corridor.

In 2011, the Aurora City Council adopted the Havana North Urban Renewal Plan. In 2012, the AURA board approved an amendment to the Havana North Urban Renewal Plan and creation of TIF Area 1, serving to pledge 100 percent of the incremental sales and use tax to AURA for a 25 year period, to be utilized towards future public improvements to the area. AURA purchased the Fan Fare property, identified as the Plan's catalyst site, in February of 2014, for \$4.0 million dollars, and later, through an RFP process, selected a Development team and concept for redevelopment of the blighted site.

In order to assist with the financial gap in facilitating the redevelopment, the AURA board approved a Public Finance and Redevelopment Agreement for a \$12.0 million incentive in August, 2019, in addition to the purchase and sale agreement to sell the 10.3 acre AURA owned site to Developer for \$4.0 million dollars, plus accrued interest through the closing date. The budget figures reflect the TIF projections from the Argenta proforma. The AURA loan to the city Water Department was paid off in full with the transfer of property to the developer. The mixed-use Argenta project will include 86 for-sale townhomes, 150 condominiums, approximately 19,000 square feet of commercial/retail space, surrounding a 20,000 square foot central park. The mixed-use building which will include ground floor, commercial space and condominiums is anticipated to be completed the first quarter of 2023. The townhome phase will begin construction in 2023 with partial completion by the end of the year.

The Horizon Uptown URA was created in March 2010. The TIF area will expire in 2035. It is located at the southwest corner of East Colfax Avenue and E-470. In 2010 this 503-acre urban renewal plan called for the development of approximately 2.9 million square feet of office space, 1.25 million square feet of retail and lodging, and 3,850 residential units. Applicable pledged revenue streams include incremental use and property taxes only. Since 2020, some residential developments have been completed in the southwest portion of the property. None of the promised commercial development has yet occurred.

In 2021, due to non-performance and change of vision by the developer, the 2010 public finance and redevelopment agreement was terminated by the AURA, the developer, and metropolitan districts. Also in 2021, AURA entered into separate cooperation agreements with the metropolitan districts and Aurora Public Schools in order to pass through the respective entities' mill levies.

The Iliff Station URA was established in April 2014. This was the first new light rail station north of Nine Mile along the Aurora Line. The parcel for the light rail station and associated parking was acquired by the Regional Transportation District (RTD) in 2013. The City of Aurora provided the majority of the funding for the parking structure, which was complete in early 2016.

The urban renewal plan provides for the establishment of two separate tax increment financing districts which allocate incremental property, sales, use, lodger's and occupational privilege taxes to AURA to support urban renewal projects. TIF area 1 covers the portion of the URA north of East Harvard Avenue and has been developed as a 315 unit market-rate apartment project with 12,400 square feet of ground-floor retail. A redevelopment agreement between AURA and GPAI Iliff Station, LLC (Grand Peaks Development) was executed in October 2017 and provides for up to \$11.4 million in TIF support for public improvements.

TIF area 2 covers the portion of the URA south of East Harvard Avenue and contains a 424-unit apartment project, Parq at Iliff, and a recently-completed 110-room Hampden Inn and Suites. Development in TIF area 2 has been market-driven and no related incentive agreements are in place.

The Nine Mile Station URA was created in 2014 and is located at Parker Road and I-225. The urban renewal plan authorizes the creation of one or more TIF districts to facilitate redevelopment and blight elimination in the area. The urban renewal plan calls for higher density redevelopment providing a mix of retail, commercial and residential uses. The Regatta Plaza shopping center was originally part of Nine Mile Station URA. However, in late 2015, the center was removed from the boundary and reconstituted as four separate urban renewal areas being Plazas 1 through 4. AURA entered into a master developer agreement to help redevelop the Plazas into a mixed-use center now known as the Point at Nine Mile Station. A Public Finance & Redevelopment Agreement for Plaza 1 TIF was executed in 2017 and since that time the former King Soopers store and fuel station structures have been demolished and relocated to within the TIF 1 boundary. In addition to the new, larger King Soopers building, approximately 22,000 square feet of new retail has been constructed. In 2021, a redevelopment agreement was executed for the construction of an affordable, multi-family housing project within Plaza 3 which broke ground in late summer 2021. Also in Plaza 3, AURA sold land for a market-rate housing project which broke ground in late 2022. A bridge connecting the Point at Nine Mile Station will begin construction in 2023. Due to a fuel tank puncture during the demolition of the former King Soopers fuel station, the transfer of that parcel to AURA has been delayed; however, the transfer is expected to occur in December 2022. The four Plazas are effectively a single project with interconnected costs and responsibilities between AURA and the master developer. Therefore, the Plaza URAs are being reported as if it was a single URA (i.e. a single URA with four separate TIFs).

The Westerly Creek Urban Renewal Area was created in 2013 and is located in northwest Aurora. It is geographically comprised of an area bounded by Montview Boulevard, East 26th Avenue, Dayton Street, Westerly Creek, and north of 25th Avenue between Dayton and Peoria Street. In 2015, AURA amended the urban renewal plan. The WCV URP now includes four Tax Increment Areas. These include: Stanley Market Place (TIF area 1), Stanley Residential (TIF area 2), Stapleton-Aurora Residential (TIF area 3), and Stapleton-Aurora Phase II (TIF area 4). Stanley Market Place, now completed and stabilized, is the renovation of the former Stanley Aviation manufacturing facility into a 96,000 SF unique, destination urban retail marketplace. Stanley Residential is a 200 unit market rate multifamily project on the southern edge of the Stanley property. Construction is substantially complete with an opening anticipated by summer 2023. Stapleton-Aurora Residential is a 322 unit single family and attached residential development located between E. 25th Avenue and E. 26th Avenue from Fulton to Peoria. AURA has financial incentive agreements in place to share tax revenues with the developers of projects in TIF Areas 1 and 3. Any incremental TIF revenues generated within TIF Areas 2 and 4, currently flows to and remains with AURA. Stapleton-Aurora Phase II, TIF Area 4, extends from Moline to Peoria, and includes a 265 unit market-rate multifamily project, in addition to a 148,000 SF dual-branded hotel that is currently under construction on a 3.4 acre parcel. In December of 2020, AURA acquired approximately 2.5 acres of land at the NW corner of E. 25th Avenue and Peoria Street in TIF Area 4. Plans include issuing a future RFP to attract a mixed-use, commercial development. Lastly, the massive Alexan Westerly Creek apartment and retail project continues its construction activity, offering a large number of residential units that are currently in lease-up. Alexan extends from 23rd Avenue towards Montview Boulevard on the sites formerly occupied by Montview Plaza and a tow yard.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 17

Water Authority Budgets

Water Authorities

The Aurora-Colorado Springs Joint Water Authority and Busk-Ivanhoe Water System Authority were formed by contract between the City of Aurora and the City of Colorado Springs and the Board of Water Works of Pueblo, Colorado for the purpose of developing and operating water resources, systems, and facilities in whole or in part for the benefit of the parties.

The Aurora-Colorado Springs Joint Water Authority is a political subdivision of the state of Colorado formed in 1983 for the purpose of developing water resources, systems or facilities for the benefit of the City of Aurora and the City of Colorado Springs. The Authority constructed and operates an extension pipeline to transmit raw water from the outlet works of Twin Lakes Reservoir to the existing Otero Pumping Station intake pipeline. The Authority furnishes water transmission services to each city and charges each city a transmission service charge sufficient to cover annual project costs (50-50 participation share between Aurora and Colorado Springs). A special assessment in the amount of \$1.4 million (\$700,000 each for Aurora Water and Colorado Springs Utilities) was added in 2023 for the installation (construction) of a redundant isolation valve.

The Busk-Ivanhoe Water System Authority was created in 2008 to effectuate the development, operation, maintenance, and capital improvement of the Busk-Ivanhoe Water System ("System") for the mutual benefit of the Pueblo Board of Water Works of Pueblo, Colorado and the City of Aurora, Colorado. The System consists of collection/transmission ditches, dams, reservoirs, pipelines, water tunnels, and other related infrastructure/appurtenances located in Pitkin and Lake Counties by which waters may be collected, stored, and diverted from the western slope of Colorado to the eastern slope of Colorado; water rights; and other related buildings/facilities and equipment located at Ivanhoe Reservoir in Pitkin County. A special assessment in the amount of \$4.0 million (\$2.0 million each for Aurora Water and Pueblo Water) was added in 2023 for the Carlton tunnel repairs.

City of Aurora, Colorado

2023 Operating and Capital Improvement Budget

Appendix 18 Glossary

Glossary of Terms

2 per 1000

2 per 1000 is a City of Aurora mandated target of staffing two sworn police officers for every one thousand city residents.

Accounting System

An accounting system is the total set of records and procedures that are used to record, classify, and report information on the financial status and operations of the city.

Accrual

The accrual basis of accounting recognizes transactions and events as they are earned or incurred, even though they may not yet have been received or paid in cash.

Adopted Budget

An adopted budget is the City Council approved financial plan for the ensuing year.

Amended Budget

The amended budget is the adopted budget, including any changes that occurred per ordinance during the year. This budget does not include carryforwards or non-ordinance related transfers or lapses.

American Rescue Plan Act of 2021 (ARPA)

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law by the President. The intent of the legislation is to provide state, local and Tribal governments with significant resources to respond to the COVID–19 public health emergency and its economic impacts. As part of this legislation, the City of Aurora will receive a total of \$65.4 million which will be divided into two payments. The city has already received the first payment and will received the second. These funds must be expended or legally obligated by December 31, 2024. Funds that have been legally obligated can be expended until December 31, 2026.

Annual Comprehensive Financial Report (ACFR)

The ACFR is a set of city financial statements that comply with the accounting requirements established by the Governmental Accounting Standards Board (GASB) and must be audited by an independent auditor using generally accepted government auditing standards.

Appropriation

Legally authorized by the City Council, an appropriation permits city officials to incur obligations against, and to make expenditures from governmental resources. It provides a given amount of spending for a department, fund, or capital project. Appropriations are usually made for fixed amounts and are typically granted for a one-year period.

Appropriation Ordinance

An appropriation ordinance is passed by City Council to authorize an expenditure of a designated amount of public funds for a specific purpose. Typically, ordinances are passed for the annual budget, a spring supplemental appropriation, and a fall supplemental appropriation.

Art in Public Places (AIPP)

The Art in Public Places Program was established in 1993. The Capital Improvement Program provides funding for the acquisition and maintenance of public art. It is generally an amount equal to one percent of the construction cost of each capital project.

Aurora Capital Leasing Corporation (ACLC)

The ACLC is a Colorado nonprofit corporation that purchases, leases, or acquires personal property of any kind for the use and benefit of the City of Aurora. The ACLC enters into lease purchase agreements with the city called certificates of participation (COPs) to finance construction of new facilities.

Balanced Budget

A balanced budget is one in which total expenditures equal total revenue. An entity has a budget surplus if expenditures are less than revenues. It has a budget deficit if expenditures are greater than revenues.

Baseline Budget

A department's baseline or target budget amount is set by the City Manager at the initiation of the budget development process. While the total amount of all requirements may exceed the amount available in the target budget, the most critical requirements must be included within the target amount.

Baseline Budget Adjustment

A baseline budget adjustment is made in the budget for maintaining service levels from the prior year. Due to the large quantity and relative significance of base budgets, base budget adjustments are categorized into several different categories: one-time removals; mid-year modifications; compensation adjustments; mandated costs; grant/designated revenue adjustments; and other adjustments. The prior year's original budget plus base budget adjustments equal the Base Budget. The addition of the Base Budget and budget amendment requests equal the operating budget.

Bond

A bond is a long-term written promise to repay (debt) a specified amount of money (the face amount of the bond) on a pre-determined date (the maturity date). In addition, periodic interest payments must be made throughout the life of the bond. Bonds are typically used for long-term debt to pay for specific capital expenditures.

Budget Category

The budget category is the ‘parent’ budget level of a related group of budget classes. The total amount of the related budget classes represents the budget category. For example, the budget category ‘Salaries & Benefits’ is made up of all budget classes for personal services—Regular Salary, Salary Driven Benefits, Non-Salary Driven Benefits, Temporary Compensation, Overtime, and Special Pay.

Budget Class

The budget class is the ‘parent’ budget level of a related group of budget sub-objects. The total of the related sub-objects represents the budget class. For example, the budget class ‘Salary Driven Benefits’ is made up of several pension sub-objects, two Federal Insurance Contributions Act Tax (FICA) sub-objects, Medicare, and various insurance-related sub-objects.

Budget Coordinator (DBC or BC)

The Department Budget Coordinator (DBC) is the department director’s representative in budget matters. The DBC assists the director in all phases of budget development and execution.

Budget Transfer

A transfer of approved funds from one program to another is called a budget transfer. A ‘Budget Transfer Request’ form is used to request and document transfers between programs. Monies cannot be transferred between departments, between Council-approved capital projects or between funds without City Council approval.

Building Repair Fund (BRF)

The Building Repair Fund is included as part of the Capital Projects Fund and provides funding for major repair of city facilities such as the repair and maintenance of roofs, signage, lighting, floor repair and carpet replacement, interior/exterior painting, HVAC system replacements, and electrical distribution repair.

Capital Budget

The capital budget allocates existing funds and anticipated revenues for the development and improvement of facility and infrastructure projects valued at \$25,000 or more. All projects must have a long-term benefit of at least five years.

Capital Improvement Program (CIP)

The Capital Improvement Program is a proposed schedule for five years of anticipated expenditures to construct, repair or acquire needed capital infrastructure and/or facilities. Projects in the first year of the plan are fully funded in the budget year; projects in years two (2) through five (5) are planned for future funding. The plan is updated annually.

Capital Project Funds

Capital project funds are utilized for major capital acquisition and construction and are reported separately from ongoing operating activities. Capital projects funds are established to provide for all general government infrastructure and facilities including streets, parks, information systems and facilities.

CARES Act

The CARES Act is the federal Coronavirus Aid, Relief, and Economic Security Act passed by Congress in March 2020. The CARES Act established the Coronavirus Relief Fund through which it provides payments to state, local, and tribal governments navigating the impact of the COVID-19 pandemic.

City Manager’s Proposed Budget

The proposed budget is presented to City Council by the City Manager. It is the cumulative result of the City Manager’s review and decisions regarding department target budgets, non-departmental items, and selected target budget adjustments.

Community Development Fund

The Community Development Fund is composed of the United States Department of Housing and Urban Development grant awards consisting of the Community Development Block Grant and Home Investment Partnerships Grant. All funds are spent on qualifying programs within the city.

Conservation Trust Fund (CTF)

Pursuant to Colorado law, the CTF is to be used for the acquisition, development, and maintenance of new conservation sites for capital improvements or maintenance for recreational purposes on any public site. The primary source of revenue is Colorado Lottery proceeds distributed by the State of Colorado.

Contingency

A contingency is a budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

Contingent Employee

Contingent employees are also referred to as temporary or contract employees. A contingent employee is one whose employment with the city is subject to a standardized employment agreement.

Cultural Services Fund

The Cultural Services Fund accounts for cultural services provided to citizens such as programs in performing arts, fine arts, history, and public art.

Debt Service

Debt service is the cost of paying principal and interest on borrowed money according to a predetermined payment schedule.

Debt Service Funds

The debt service funds are established to accumulate resources to pay the principal, interest, and agency fees on long-term debt. Mill levies dedicated to a specific bond issuance and special assessment debt are accounted for within various debt service funds.

Deficit

A deficit is an excess of expenditures over revenues for any given year.

Department

A department is the basic organizational unit of city government that is functionally unique in its delivery of services.

Designated Funds Available

Designated funds available are those portions of total funds available that must be spent for a particular purpose.

Designated Revenues Fund

The Designated Revenues Fund was established in 1997 to manage various revenues restricted for specific purposes, which are neither gifts nor grants. Surcharge-funded programs, certain incentive programs, and the Aurora Channel are examples.

Development Review Fund

The Development Review Fund provides support for new development within the city that includes plans review and building inspection. Revenues originate from development-related fees.

Encumbrance

An encumbrance is the legal commitment of appropriated funds to purchase an item or service in the future.

Enhanced E-911 Fund

The Enhanced E-911 Fund provides for personnel answering 911 (emergency) calls and the acquisition, development, and maintenance of 911 equipment and systems to receive, dispatch, and respond to citizens' 911 calls.

Enterprise Funds

Enterprise funds house activities for which a fee is charged to external users in exchange for goods or services. These funds have been established to manage operations (a) that are financed and operated in a manner similar to private business and are predominantly supported by user charges; or (b) where Council has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Expenditure

An expenditure is the actual spending of funds for goods, services or other designated purposes.

Expenditure Summary

An expenditure summary details the highest-level analysis of expenditures presented in the budget.

Fiduciary Fund

A fiduciary fund is an account with funds from assets that the government holds as a trustee and that it cannot use to fund its own programs. Fiduciary funds include pension and employee benefit trust funds, agency funds, external investment trust funds, and private-purpose trust funds.

Fiscal Year

The 12-month period which represents the city's budget year is a fiscal year. The city's fiscal year is January 1 through December 31.

Fitzsimons Redevelopment Authority

The Fitzsimons Redevelopment Authority (FRA) is a special-purpose governmental entity created in 1996 under an intergovernmental agreement between the City of Aurora and the University of Colorado Regents for leading the planning, implementation, and redevelopment efforts of the former Fitzsimons Army Medical Center.

Fixed Asset

Tangible assets valued over \$5,000 with a useful life of more than one year, such as infrastructure, equipment, and buildings that may be depreciated over time.

Fleet Management Fund

The Fleet Management Fund is an internal service fund responsible for the centralized fuel and maintenance costs for city-owned motorized vehicles and equipment. Operations are funded by charges to departments to recover costs associated with the provision of these services.

Full-Time Equivalent (FTE)

The FTE value represents a budgeted, benefited position and is based on the number of hours per week an employee works. Generally, an employee who works 40 hours per week is considered to be one FTE. *Note: Effective July 1, 2018, the average hours per week for a 24-hour shift firefighter are 48 hours.*

Functions

Functions are groups of interdependent, closely related services or activities contributing to a common objective.

Fund

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts.

Funds Available for Appropriation

Funds available are monies available for appropriation and expenditure by designated city departments.

Fund Balance

Fund balance is the difference between assets and liabilities for any given fund. Fund balance differs from funds available in that funds available is only currently available financial assets while fund balance includes non-available financial assets such as, but not limited to, current encumbrances and carryforward adjustments, investments to fair value adjustments, and deferred revenue adjustments.

General Fund

This is the chief operating fund for the city government and accounts for all financial resources unless there is a compelling reason to report an activity in some other fund type.

General Improvements District

A general improvements district is a taxing unit created for the purpose of acquiring, constructing, installing, operating or maintaining any public improvement or for the purpose of providing a service.

General Obligation Bond

A general obligation bond is issued upon direction of City Council and requires approval in a city election. The city's general obligation bonds have a maturity of no more than 15 years. The bonds are repaid from general revenues of the city or from specific sources approved by voters.

Gifts and Grants Fund

The Gifts and Grants Fund was established to account for all types of gifts and grants received by the city for operating programs and capital improvement projects. Gifts and grants are generally received from other governments or private sources.

Goals and Priorities

Goals and priorities describe the strategic vision for the city as approved by Council.

Golf Courses Fund

The Golf Courses Fund is an enterprise fund established for the operation and maintenance of city-owned and/or city-operated golf courses. The fund is supported by user charges for green fees, driving range fees, and cart rentals, as well as pro shop sales and concessions.

Governmental Fund

A governmental fund is a self-balancing set of accounts that are maintained for governmental activities. Financial statements of governmental funds are prepared on the modified accrual basis of accounting.

Grant

A grant is a contribution by the state or federal government or another organization to support a particular function.

Internal Service Funds

Internal service funds are established to centralize the management of goods and services furnished by one department to other departments within the city on a cost-reimbursement basis.

Lapse

A lapse is a reduction of existing appropriation and spending authority.

Legal Debt Margin

The city may have an outstanding legal debt margin equal to no more than three percent of the city's total assessed valuation. Certain deductions to outstanding debt are allowed, including voter-approved debt, general obligation water bonds, capital lease obligations, revenue bonds, and special assessment bonds.

Mandated Costs

Expenses the city must fund to maintain service levels. Examples include increasing fuel prices or insurance costs.

Master Capital Project

The master capital project is the legal level of control for a capital appropriation and is the level at which City Council approves the capital budget. The related master is a 'budget only' project under which multiple related capital subsidiary projects may exist.

Marijuana Tax Revenue Fund

The Marijuana Tax Revenue Fund was created in 2017 in order to account for the city's retail marijuana sales tax collections, as well as the city's share of the state special sales tax based on the sale of retail marijuana within the city's boundaries. Per ordinance, revenue generated by the two percent special sales tax rate is designed for homelessness services and housing projects, with the remaining amount available for appropriation as determined by City Council.

Mill

A mill is a unit used in property tax assessment. One mill is equal to 1/1000th of a dollar and is multiplied by the taxable value of property to determine the total amount of property tax due.

Modified Accrual

Modified accrual is a basis of accounting that recognizes transactions and events when they become measurable and available. Any physical assets with future benefits are expensed when they are acquired as opposed to depreciated over the life of the asset.

Open Space Fund

The Open Space Fund is funded by Arapahoe and Adams County Open Space taxes. The fund appropriates funding for park land acquisitions and improvements, construction, maintenance, and management and patrol of parks and open space. Revenues and expenditures for the two counties are tracked separately within the fund.

Operating Budget

The operating budget includes portions of the budget pertaining to daily operations that provide basic governmental services. Also included are appropriations for expenditures such as personal services, commodities, services and transfers.

Operating Transfer

An operating transfer moves funds available between budgeted funds as shown in the fund summaries. Operating transfers require City Council approval.

Original Budget

The budget that was originally adopted by City Council. This budget does not include supplemental budget requests.

Parking and Mobility Fund

The Parking and Mobility Fund is a special revenue fund that was created to implement the Park Aurora Parking and Mobility Business Plan. The goal of the plan is to provide efficient parking management operations and a safe and positive parking environment for customers while supporting the transit-oriented development, urban center, and the place-making goals of the community.

Parks Development Fund

The Parks Development Fund was established to provide for the development of park facilities in newly developed areas of the city. Funds are contributed by developers in accordance with agreements with the city.

Performance Measures

Performance measures are specific quantitative measures of the quality and/or quantity of services provided by a city program.

Policy Reserves

Policy reserves are reserves held in the General Fund, equal to ten percent of the General Fund operating budget, adjusted to exclude the Capital Projects Fund transfer, transfers associated with tax incentives, and 2 per 1000-related expenditures.

Proforma

The proforma document is a budgeting tool used to project revenues and expenditures in future years based on various assumptions.

Program

A program is the organizational level at which operating funds are budgeted. In many departments, the program is the lowest organizational level.

Program Budget

The program budget includes goals, objectives, significant changes, and expenditures. They are presented in the budget document by department, with a department summary preceding all programs.

Projection

The projection includes anticipated expenditures for the current year, including current year encumbrances, less encumbrances carried forward from the prior year.

Proprietary Fund

A proprietary fund is a government fund that has profit and loss aspects; it therefore uses the accrual rather than the modified accrual accounting method. The two types of proprietary funds are the enterprise fund and the internal service fund.

Recreation Fund

The Recreation Fund accounts for recreational services provided to citizens and is funded by user fees and a General Fund transfer.

Revenue

Revenue is income received by the city from taxes, fees, gifts, grants, reimbursements, intergovernmental revenues, interest earnings, and other sources.

Revenue Bond

A revenue bond is secured by the pledge of specific revenues issued to finance a capital improvement. Generally, city revenue bonds are issued only by enterprise funds.

Risk Management Fund

The Risk Management Fund accounts for centralized costs of self-insurance retention, administration, safety, and occupational health programs and excess insurance coverage for claims and judgements made against the city.

Service Fees

Service fees is an umbrella term for all fees and charges assessed by city operations for services provided. Fees and charges are reviewed each year by the departments. Revisions may be recommended based on City Council guidance, cost of services, and other factors. The City Manager approves service fees each year.

Special Improvement District

Special improvement districts are formed to construct improvements and assess the cost upon the property benefited by the improvements. Improvements may consist of constructing, grading, paving, pouring, curbing, guttering, lining, or otherwise improving the whole or any part of any street or providing street lighting or drainage facilities in the city.

Special Revenue Funds

Special revenue funds are used to account for revenues received by the city that are required by law, contract, or city policy to be spent for a specific purpose. An example is a tax that is designated for the purchase and maintenance of open space.

Staffing Summary

The staffing summary provides the number of full-time equivalent (FTE) positions.

Subfund

A set of self-balancing accounts at an organizational level lower than the fund.

Subsidiary Capital Project

The subsidiary capital project is a lower-level mechanism for accounting and tracking specific project budgets that are related to one master capital project.

Supplemental Appropriation Ordinance

A supplemental appropriation ordinance is passed by City Council to authorize expenditure of funds in addition to appropriations in the approved annual budget authorization ordinance.

Surplus

A surplus is an excess of revenues over expenditures for any given year.

Taxpayer Bill of Rights (TABOR) Reserve

The TABOR reserve is defined by the State Constitution and is to be maintained and the amount adjusted annually in accordance with the Constitution. The reserve is approximately equal to three percent of the fiscal year's spending and is held in the General Fund. Any spending of the TABOR reserve must be restored by the end of the following fiscal year. Assets may be used for the TABOR Reserve.

Tax Increment Financing (TIF)

TIF is often used to finance redevelopment projects in urban renewal areas. TIF allows a local authority to leverage taxes to assist in financing redevelopment projects, such as infrastructure and environmental cleanup in blighted areas.

Transportation Maintenance Fund

The Transportation Maintenance Fund was created for the 2023 budget, shifting the five ongoing transportation maintenance budgets into a separate fund, which provides a clearer vision for such maintenance. This fund will be funded at exactly the amount of the year's expenditures via a transfer from the General Fund, and thus will not have funds available at year end.

Transportation Improvement Program (TIP)

The TIP identifies the priority of federally funded highway, transit, and alternative mode transportation (trails) improvements to be completed by the Colorado Department of Transportation (CDOT) and other local government sponsors. The TIP is prepared by the Denver Regional Council of Governments (DRCOG), in cooperation with CDOT and the local implementing agency (the city).

Undesignated Fund Balance

Undesignated fund balance includes those portions of total funds available that may be spent for any purpose.

Urban Renewal

Urban renewal is the process of revitalizing a blighted urban area through large-scale redevelopment or new development.

Visit Aurora

Visit Aurora is the official destination marketing organization for the City of Aurora and acts as the primary liaison between meeting planners and hotel partners.

Wastewater Fund

The Wastewater Fund is an enterprise fund that provides for the systems and operations used in the collection and treatment of wastewater from the sanitary sewer as well as stormwater activities of the city.

Water Fund

The Water Fund is an enterprise fund that provides for the acquisition, development, and protection of water and water rights and the operation and maintenance of the water purification facilities and distribution system.
