## IN THIS BULLETIN

- Proposed Rule Updates and Comment Period
- Hemp Products with THC
- How to Avoid Some of Our Fees
- Quick Links
- Other Aurora Newsletters

### **Proposed Rule Updates and Comment Period**

The Licensing Division has posted proposed updates to the City's Regulated Marijuana Establishment Rules and Regulations. Please see the [redline version link here](#) and submit any comments to [marijuana@auroragov.org](mailto:marijuana@auroragov.org) by 5:00pm on November 24th, 2023.

### **Hemp Products With THC**

The State General Assembly passed Senate Bill 23-271 which increases regulation of cannabis products derived from hemp not sold in a regulated marijuana establishment. This caps the level of THC in these products and they cannot advertise that they contain THC whether that be Delta-9 or any other THC derivative. Current licensed manufacturers in the state can continue operating if the products are shipped out of state. If you discover THC products that are not sold by a licensed retail marijuana establishment in Aurora, please let us know at [marijuana@auroragov.org](mailto:marijuana@auroragov.org) or 303-739-7833.

### **How to Avoid Some of Our Fees**

We have some fees we don't want to charge you! Late fees and reinspection fees. First, get license renewal applications in at least 30 days in advance of the expiration date, any less gets a late fee and might result in a temporary loss of the license. All taxes need to be current and fees paid for a complete application. For inspections, the first reinspection is \$200 and \$400 for each subsequent reinspection. Consider conducting mock inspections of your operation to avoid a failing inspection. Common reasons for inspection failure:

1. Video retention of 40 days onsite and 20 days offsite required and all Managers and Designees must be able to competently operate the system.
2. Battery backup on all video and security systems must have a minimum of 4 hours of operating time.
3. Modification of Premises (MOP's) must be submitted and approved prior to any work being started. Applications and requirements are found

on the website.

4. Please notify the Licensing Division of any security equipment related failures immediately and any criminal activity on the licensed premises within 24 hours as stated in the Rules and Regulations.
