Fire Apparatus Access Road Specifications: The International Fire Code, subsections 503.2.1 and 503.2.3 are hereby amended by City of Aurora Building and Zoning Code, Section 66-32 to read as follows:

- 503.2.1. Dimensions. Fire apparatus access roads shall have an unobstructed width of not less than 23 feet, except for approved security gates, in accordance with Section 503.6, and an unobstructed vertical clearance of not less than 13 feet, 6 inches.

- 503.2.3. Surface. Fire apparatus access roads shall be designated and maintained to support the imposed loads of the fire apparatus and shall be surfaced so as to provide all weather driving capabilities. Per No speed reducing devices or traffic calming features of any type, that alter the elevation of the roadway, including by not limited to speed bumps, shall be permitted on any fire apparatus access road.
