

## Welcome to Public Meeting #1 of 3

The City of Aurora initiated this project to provide a comprehensive transportation study of the Parker Road and Smoky Hill Road intersections along Quincy Avenue. The study will evaluate the existing and future operating conditions of the area intersections with the goal of identifying relatively low-cost near-term operational improvements.

### PURPOSE OF THIS PUBLIC OPEN HOUSE

The purpose of this first public open house is to introduce the study and present existing and forecasted transportation conditions information. The City of Aurora values the input of citizens and businesses in the area, and is using this meeting to gather suggestions for lower-cost improvements that could reduce congestion and improve operational performance and safety at the Parker Road and Smoky Hill intersections along Quincy Avenue.

We look forward to hearing your comments!

### MEETING EXHIBITS

Graphics are displayed around the room to present the following information:

- Study Introduction
- Existing and Forecasted Traffic Conditions
- Existing Roadway, Environmental and Multimodal Conditions

### AGENCIES INVOLVED IN THIS STUDY

City of Aurora (Lead agency)  
Arapahoe County  
Colorado Department of Transportation  
Denver Regional Council of Governments

### COMMENT OPPORTUNITIES

- Ask questions or provide comments to project personnel (with name tags).
- Fill out a comment sheet and drop it off at the sign-in table or send it in later.
- Use the contact information to the right to provide your comments.
