To the best of my information, knowledge, and belief, the special inspections required for this project (list specific item number and scope) \_\_\_\_\_ as listed in the itemized statement of special inspections submission for plan approval in IBC 1704. 1.1 occurring inspection date \_\_\_\_\_ is recorded below:

The following discrepancies that were outstanding since the last Interim report dated \_\_\_\_\_, have been corrected:

(Attach 8 1/2 x 11 continuation sheet(s) if required to complete description of corrections) Interim reports numbered \_\_\_\_ to \_\_\_\_, are to be considered an integral part of this report. Prepare reporting forms in a progressive or running list of items that need addressed. Enter the latest inspection discrepancy after those previously listed. Once the issue is resolved, enter a **statement of resolution** at the end of that item and close with, **"This issue is closed"**. This will allow us to readily track completion of non-compliant items. Example: Firestopping in north wall is not in conformance with approved plans. **Upon re-inspection, firestopping is in compliance. This issue is closed.**
