Greetings!

Our Golf Shops are Now Open!

Golf Shops are now open to the public. Signage on the floor and out the door will identify how many people can be waiting inside to pay fees. While you still need to book your reservations over the phone, you now pay for your green fees inside the shop. Credit cards, Premier/Gift cards and raincheck are the only acceptable forms of payment. At this time, cash and check payments will not be accepted. We have new guidelines in place during this unusual time regarding the amenities offered at the golf courses.

For guidelines, click here.

We ask that you wear a mask when you enter the shop. Thank you for your patience and we look forward to seeing you!

Driving Ranges and Practice Facilities are Now Open!

Driving ranges and practice facilities are open. In our continuing efforts to expand services slowly, we are limiting driving range use to 40 minutes per person. Please social distance while waiting on the next available station. If you are going to use the chipping/pitching areas, you will need to use your own golf balls. Baskets and golf balls will be sanitized after each use. Driving range hours vary with each facility. Hours are posted in the golf shop and/or on the ball machine. Driving ranges bring more people and more tendencies to congregate. We ask for your continued help in observing social distancing while on our properties.
