

## Aurora Water Water-wise Landscape Rebate Program Checklist

Transforming your landscape to a water-wise oasis requires a few steps to get you from start to finish! Use the checklist below to make sure you are on the right track to obtain our water-wise landscape rebate (WWLR).

### WWLR Application Process

- Apply online no later than **August 1** to participate in the current year. Be sure to review the “Eligibility” section of our WWLR Program Manual prior to submission.
- Receive approval from program manager to participate in program. Read through WWLR Program Manual for program requirements.
- Submit a landscape design and plant list for approval. Need a design? We have a free design consultation program for Aurora Water customers. Call 303.739.7195 for more details.

### Installing Your Landscape

- After receiving design and plant list approval, proceed with the installation of your landscape (soil amendment, plants, applicable irrigation) except for the mulch.

### First Inspection

- Call or email to set up your first inspection with the program manager after installing all the landscape materials except for the mulch.
- If applicable, address any issues from the first inspection, then call to set up additional site visit for verification.

### Finishing Your Project

- After passing the first inspection by meeting all necessary requirements, apply mulch to landscape and schedule the final inspection.

### Final Inspection

- Once the final inspection is complete, submit all your itemized receipts/invoices and additional required paperwork (photo ID, W-9, program agreement). Projects and paperwork must be completed and submitted by **October 31** of the current year to receive your rebate.

### Monitoring Outdoor Water Usage

- Pay attention to your monthly Know Your Flow emails and modify your irrigation schedule as necessary to receive your remaining rebate payments.
