

WATER

is a precious resource in Aurora. Teach kids to make the most of every drop.

If I Was a Fish (Preschool-Grade 1)

What would you need if you were a fish? Clean water! Explore the importance of this natural resource through movement and songs like “H₂O”, “If I Were a Fish” and “The Water Cycle.” Learn about the water cycle and the role that people play in it, how we use water, and how kids can help protect it.

30 minute program, can be presented to 1-4 classes at once

Water Heroes (Grade 1-3)

It takes a lot of interesting people with cool jobs to provide water to Aurora. Learn about the people in our community who bring water to your faucet. During this presentation, students dress up in costumes and act out the water supply process.

40 minute program, can be presented to 1-4 classes at a time

Water & Weather (Grade 2)

What does our weather have to do with our water? Everything! Learn fun facts about the water cycle, where you get your drinking water and how we measure snow!

30 min, can be presented to 2 classes at a time

Conservation Capers (Grade 3-4)

Students learn more about the source of their water and conservation through three conservation activities and receive an Aurora Water Conservation Kit to take home and start saving water.

40 minute program, can be presented to 1-2 classes at a time

Water- Keep it Clean! (Grade 3-5)

How much water is on earth? Find out through interactive games. Take a look at a watershed model to understand how kids can help protect our water from Non-Point and Point-Source Pollution.

40 minute program, can be presented to 1 class at a time

Water in the Ol' West Assembly Presentation (Grade 4)

Take a journey back in time to the cattle drives. Calamity Jane and Barb Wire share a chuck-wagon full of antiques and treasures and tell the tale of water use in the Ol' West.

40 minute program, can be presented to a minimum of 3 classes at a time

We All Live Downstream (Grade 5-6)

We all live in a watershed. Learn about the watersheds, where your water comes from and how to protect it from pollution.

50 minute program, can be presented to 1-2 classes at a time

Conservation Challenge – Rebate Game (Grade 6-8)

Learn about the source of your water and form teams of “families” that compete to save the most water in the Conservation Challenge Game. Learn about our H₂O Tracker App.

30-45 minute presentation, can be presented to 1-2 classes at a time

The Facts Behind the Faucet (Grade 6-8)

We turn on the tap, drink it, bathe in it, flush it. Students learn about global water issues, our water system from source to tap and how they can be the most efficient water users.

40-60 minute program, can be presented to 1-6 classes at a time

Aurora's Water Supply + Careers in Water (Grade 9-12)

Learn about Aurora's water system and the types of careers involved in the water industry.

30-45 minute program, can be presented to 1-2 classes at a time
