REGISTRATION AND CLASS PLACEMENT

Registration for the Continuous Dance Program is done via phone call to the Dance Office. Children are placed in classes based on age, ability and technique level. Classes are arranged sequentially so that students progress through the program safely, without gaps in their training, and are well prepared for the next technique level. Instructors may recommend a transfer to another class (up or down a level) based on ability and the best interest of the student. Students should expect to spend 2-3 years in any given level/style in this program for proper development.
