NOTICE OF COUNCIL MEETING

(Open to the Public)
Monday, June 8, 2026
6:00 PM

Members of the Aurora City Council will participate in the June 8, 2026 Council Meeting.

Members of the public and media are invited to attend the Aurora City Council Meetings in person or remotely through the options listed below.

View or Listen Live

Live streamed at www.auroraTV.org
Youtube.com/TheAuroraChannel

Cable Channels 8 and 880 in Aurora

In-person Participation

Members of the public may attend in-person at the Aurora Municipal Center, Paul Tauer Aurora City Council Chamber located at 15151 E. Alameda Pkwy. Public comment is welcome for items appearing on the agenda or on any matter of city concern. Individuals must appear in person and speak from the podium. Individuals are allotted a maximum of three (3) minutes to speak.

- **Public Invited to be Heard:** One (1) hour is dedicated to public comment on items not listed on the agenda at the beginning and at the end of every regular council meeting. Individuals may register to speak in one of the following manners:

    1. Sign up online beginning at 8 AM on the Friday before the meeting through 1 PM on the day of the council meeting; or
    2. Sign up in person by handing a completed speaker slip to the city clerk in the Paul Tauer Aurora City Council Chamber on the day of the council meeting beginning at 5 PM and up until the time the last individual finishes speaking during the first Public Invited to be Heard session. Verified Aurora residents who sign up before 5:45 PM are given priority and placed before non-resident speakers.

       For the last Public Invited to be Heard session, speaker slips must be returned before the item preceding the Public Invited to be Heard is finished. Order priority will be given to speakers who did not speak during the first Public Invited to be Heard session.

- **Public Comment on Agenda Item:** Individuals are invited to comment in support of or to oppose any item listed on the agenda. Those wishing to comment on an agenda item must sign up in advance using the 'Public Comment on Agenda Item' online request form beginning at 8 a.m. on the Friday before the council meeting through 1 p.m. on the day of the council meeting.

  Those wishing to comment on an agenda item listed under the PUBLIC HEARING category may either register online as noted above or sign up in person with the clerk starting at 5:00 p.m. Sign up must be completed before the Public Hearing agenda item title is read.

  Visit the Addressing the City Council webpage for the online signup forms and more information.

The city of Aurora is committed to the accessibility of our services and our responsibility to provide them in a non-discriminatory manner. The city recognizes the importance of effective and accurate communication with the community and values equal access to our programs, services and activities. If you seek a physical accommodation, or require the use of an auxiliary aid or device, or if you require an interpreter to help you access this event or service, please scan the QR code below to fill out a request form or contact the City Clerk's Office at cityclerk@auroragov.org or 303.739.7094:

Individuals are strongly encouraged to submit their requests three (3) days in advance of any scheduled event. For additional information, please visit AuroraGov.org/Accessibility.

11.a Resolutions

11.a.1 Intergovernmental Agreement (IGA) with Arapahoe County for Additional Voter Service Polling Center (VSPC)

R2026-54 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING AMENDMENT NO.4 FOR 2026 TO A STANDING INTERGOVERNMENTAL AGREEMENT BETWEEN ARAPAHOE COUNTY AND THE CITY OF AURORA, PERTAINING TO APPROVED VOTER SERVICE AND POLLING CENTERS

Kadee Rodriguez, City Clerk / Andrea Wood, Assistant City Attorney

11.a.2 Emergency Resolution to Implement a Policy Regarding Aurora Police Department Communications

R2026-55 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, DIRECTING THE CITY MANAGER TO IMPLEMENT A POLICY REGARDING AURORA POLICE DEPARTMENT COMMUNICATIONS

Sponsors: Alison Coombs, Mayor Pro Tem / Gianina Horton, Council Member

Jason Batchelor, City Manager / Peter Schulte, City Attorney

MPT Coombs announced the substitute version of the resolution, which included replacing the first clause with a directive regarding following existing policy and workflows related to communications, and amendments in the second section to ensure public safety, emergencies, and concerns as instances where immediate publication of information can be made.

P. Schulte explained that over the weekend, City Communications informed him and Council that there were existing policies, procedures, and workflows that existed in the city that apply to all departments, so many Council Members asked him to address the amendments. He said the resolution is asking APD and the city manager to review and amend as necessary the established city communications policies, procedures, and workflows that apply to all city departments. He noted it also means APD will not post

mugshots and/or suspect names publicly until the subject has pled guilty or been convicted of a crime, unless the city manager approves otherwise on a case by case basis.

J. Batchelor added mugshots and people's names are subject to the Criminal Justice Records Act, but the direction of the resolution is to not have the police department do that on their social medias.

CM Bergan stated there was a request for CM Andrews to recuse himself from this item due to the active DUI case in Arapahoe County District Court.

P. Schulte responded he did not see where CM Andrews was required to recuse himself under their rules of conflict. He added the 18th Judicial District Attorney said they are no longer handling that case, as it has been turned over to the Denver DA's Office and County Court.

MPT Coombs pointed out that conversation was not to the motion.

Moved by: Alison Coombs

Second by: Ruben Medina

Does Council wish to substitute the resolution in the agenda packet with the amended resolution?

Voting Aye: (6): Robert Andrews, Alison Coombs, Stephanie Hancock, Gianina Horton, Alli Jackson, and Ruben Medina

Voting Nay: (3): Françoise Bergan, Curtis Gardner, and Angela Lawson

Absent: (1): Amy Wiles

Council heard public comment on the agenda related item.

MPT Coombs moved to approve the substitute motion.

CM Bergan appreciated the changes that were made to the original resolution, but she still felt it stifled the speech of the police chief. She noted the statement in Section 2, number one, was complicated and not practical for the police chief to have to get every single thing approved for things like a media requests or telling the public about an incident that happened. She asked why this was an emergency resolution and bypassed the Public Safety Committee and Study Session. She added it also has a waiver of reconsideration. She expressed getting information out to residents right away is being transparent and often in the interest of safety. She commented that the chief and commanders are qualified to speak about crime, not City Council or City Manager. She pointed out the situation they had a few years ago with apartment complexes and Tren de Aragua, which was terribly handled by communications.

CM Lawson shared she received many messages from residents over the weekend about this resolution. She said not having information about a

person who has allegedly committed a crime in someone's neighborhood is a devalue to the community and public safety. She voiced a business owner contacted her and said it was important for businesses to have information on what is going on. She noted transparency is very important and APD has done a good job on that and the residents have appreciated it. She also pointed out one of the ballot initiatives is for public safety, as that was a lot of people's number one priority. She asked if they were going to stifle the voice of the police department, what was the point of having the public safety initiative and supporting public safety? She added that as a resident, she did not want the city manager or City Council to be approving anything like that, as they do not have experience in that arena, and she wanted to hear from the public safety groups that know about the issues and can reassure residents.

CM Hancock said she was deeply disturbed by the resolution and wanted to know why it was considered an emergency and did not go through the Public Safety Committee. She stated this was a direct attack on the police chief to muzzle him and make the city less safe. She reiterated the number one thing constituents wanted was public safety and that the chief can use his expertise and experience to keep the city safe and not bend to whims and ideological disposition of people on City Council who want to see the chief fired or put so much pressure on him that he will quit. She noted the Police Union has also come out against this and she has received dozens and dozens of emails saying they do not want this, and as City Council, they are supposed to represent the needs and wants of their constituents.

MPT Coombs commented the main and important piece is that factual information is given and not tinged with personal opinion, political inuendo, and the beliefs of the chief about legislation. She stated transparency and respect for the public requires respecting different roles and not putting information out that leads to people feeling empowered to make disgusting comments about their neighbors or judgements ground in assumption that certain groups are inherently a threat, which is what happens on APD pages due to the tone, opinion, and personal bias. She said that undermines public trust and torches any credibility they may have had over the work that many members of the department and city staff put into the Consent Decree. She expressed this resolution was not preventing transparency or factual information, and provides specific exceptions for emergencies or individuals not yet detained.

CM Wiles voiced she was conflicted about this resolution because she was trying to balance the ability for the public to have information they need to be safe, but also be mindful of what is being released and keeping liability in mind when they publish incorrect things or inhibit prosecutors from being able to prosecute things correctly because of social media posts. She felt it was a shame the police chief could not follow directions to post just the facts and not create division and racist comments. She hated they have gotten to the

point where they cannot work together and the city has become so hateful and divided, but it starts with leadership.

CM Horton stated the text of the resolution is very mundane but it is about making sure a city department is in line with city expectations around communications on digital and social media platforms and identifying the discrepancies that need to be addressed. She expressed it is their responsibility as a governing body to have not only the authority and say of legislation and where the city stands, but also to remind people that constitutional guarantees like due process and governing fairly and with justice are very important, as well as the chief not making posts that put their city in a terrible position. She added the resolution makes sure they can communicate effectively and factually on public safety issues, which was the number one priority from constituents.

CM Medina asked if there have been concerns raised that APD releases have impacted the prosecution cases.

P. Schulte answered yes, and he shared some examples of that.

CM Bergan voiced if there was a person arrested for rape and posted bond and were out in the community, the public should be able to have that information to protect themselves. She said the majority of the public appreciates the postings put out by APD.

MPT Coombs clarified that is why the amendments were made for the city manager to create a policy to include exceptions where there is a imminent public safety risk or emergency, including someone being released pre-adjudication and a potential threat to the community.

Moved by: Alison Coombs

Second by: Gianina Horton

Does Council wish to approve the substitute resolution?

Voting Aye: (6): Robert Andrews, Alison Coombs, Gianina Horton, Alli Jackson, Ruben Medina, and Amy Wiles

Voting Nay: (4): Françoise Bergan, Curtis Gardner, Stephanie Hancock, and Angela Lawson

18. REPORTS

18.a Mayor

Mayor Coffman shared he has a program where he visits different religious faiths, and he posted about visiting a Mosque on April 10th, and it went viral in a negative way, as most of the comments were ugly and intolerant. He stated that on the post he expressed that he was a Christian, but stood by Muslims, Jews, Hindus, Sikhs, and Buddhists and their right to practice their religion without fear of discrimination and intimidation. He expressed that in a city that is a diverse culturally and in different faiths, it surprised him they are not as tolerant as they think they are, which was disappointing and he hoped they could heal those divisions.

18.b Council

CM Coombs announced the next Rule Committee Meeting on decorum will be on the 26th, at 5:30 p.m., in the Aurora Room. She noted that will be the last meeting on decorum, but they will continue with discussions on virtual participation, recommendations on City Council travel budgets, and the introduction of new items for consideration. She stated tonight's meeting was pretty intense and she appreciated the invitation to think about how they view louder reaction and how they often do not see proactive actions. She said everyone has a right to be heard and to be there without feeling threatened, and everyone is responsible for making sure that happens. She shared some community members have said there was a lot of pain in the Aurora Muslim community and American Muslims in general, as they are feeling vulnerable and deeply troubled by the shooting at the Islamic Center of San Diego. She expressed Muslim hatred is on the rise across America, but everyone should be free to worship and practice their faith without intimidation, fear, or targeting, and it is incumbent on all of us to push back on that. She requested a brief moment of silence for them.

CM Jackson gave a shoutout for National Asian American Native Hawaiian and Pacific Islander month, and she read a quote about truth from Pakistanian Political Scientist Eqbal Ahmad. She announced the Mosaic of Cultures exhibit around Aurora's Filipino community will be running until April 2027 the Aurora History Museum, and there will be National Asian American Native Hawaiian

and Pacific Islander Month Celebration tomorrow, from 12-1 p.m., on the Great Lawn.

CM Horton reported that she presented an update on the work being done for place accountability at the Consent Decree's Community Advisory Council, went to the State of the City Luncheon, Spring Workshop with multiple Build Up Aurora presentations and discussions on budget, hosted a Know Your Rights Training and Learn Your Rights in Community (LYRIC), and Aurora 911 tour. She gave a reminder that her Ward 1 Town Hall is May 21st, at 6 p.m., at the MLK Library, which will include presentations on Housing Forward, Access Aurora, and Code Enforcement, as well as 30 minutes at the end to talk about things going on in Ward 1.

CM Wiles expressed her deepest condolences to the Muslim community. She felt that was reflective of a lot of things they discussed today, and she offered apologies for potentially not listening to other people. She said they are leaders of this community and do not do a good job of listening and respecting one another, much less the community, and if they want change to happen it has to start with them. She added their community is diverse and they all bring unique things to the table and need to think about how they are engaging with one another. She shared a young male athlete at the Special Olympics said, "I hate how mean everybody has become. We should be better than this and we're not; we're falling farther and farther down, and it hearts my heart and it makes me sad." She stated that was reflective of how many people feel right now, so she asked that they all do better.

CM Medina attended the Lotus School Senior Graduation, with more than half going to Colorado colleges and many others going out of state, so it was great to see a diverse community going out in the world and continuing their positivity.

CM Hancock gave a reminder that her town hall is the 21st, at Noonan's, at 6 p.m., where they will start with a half hour networking for businesses in Ward 4. She read an email she got from someone who attended the April 20th City Council Meeting in person, who stated they wanted to speak, but after seeing how the Council was treated with profanity, disrespectful comments, clicking of fingers, clapping, shouting, bullying, groups, and threats, they no longer wanted to speak in person again, as they did not feel safe. That person also said public safety was their first concern and should be that of all of City Council. CM Hancock said it made her sad people felt like that, and she did not know the benefit of the decorum meetings when they continue to attack one side or the other. She stated unless everyone agrees to follow the rules, they will continue to have the same thing every week. She believed in having vigorous discussion between differing opinions, but the level it has reached was staggering. She mentioned one religious group that has not been talked about much in the news lately are the Christians who have been persecuted, kidnapped, and murdered in Nigeria, as well as pastor being arrested in front of abortion clinics in the United States. CM Hancock voiced their country was

founded on freedom of religion, and it is unfortunate they are so divisive that explanations and demonstrations of faith are marked with violence and brings the whole country down. She asked for a moment of silence for Christians who are being persecuted around the world.

CM Andrews and CM Gardner did not have a report. CM Lawson and CM Bergan were not available.

HISTORY *(Dates reviewed by City council, Policy Committees, Boards and Commissions, or Staff. Summarize pertinent comments. ATTACH MINUTES OF COUNCIL MEETINGS, POLICY COMMITTEES AND BOARDS AND COMMISSIONS.)*

The Aurora Immigrant and Refugee Commission (AIRC) promotes the integration of the local immigrant and refugee communities into Aurora's civic, economic and cultural life.

The Aurora Immigrant and Refugee Commission consists of eleven (11) voting members appointed by the Aurora City Council. The term length is two (2) years and members may serve up to three (3) terms. All eligible applications received within the last year are forwarded to the Board to be considered for interviews.

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

The Aurora Immigrant and Refugee Commission currently has four (4) vacancies. The Commission received nine (9) applications and interviews were conducted on February 3, 2026, April 7, 2026 and April 14, 2026.

Among the applicants were:
Leon Duran
Ismael Zeleke
Felipe Vieyra
Girum Alemayehu
Faraj Atwi
Sabe Kemer
Keith Parker
Douglas Rudig
Rufus Solomon

Upon conducting interviews, the Aurora Immigrant and Refugee Commission respectfully recommends the appointment of the following candidates:

Leon Duran – Fill Partial term beginning 2/1/2025 and ending on 1/31/2027
Ismael Zeleke – 1st term beginning on 2/1/2026 and ending on 1/31/2028
Felipe Vieyra – 1st term beginning on 2/1/2026 and endging on 1/31/2028
Girum Alemayehu – 1st term beginning on 2/1/2026 and ending on 1/31/2028

FISCAL IMPACT

Select all that apply. (If no fiscal impact, click that box and skip to "Questions for Council")

☐ Revenue Impact ☐ Budgeted Expenditure Impact ☐ Non-Budgeted Expenditure Impact
☐ Workload Impact ☒ No Fiscal Impact

REVENUE IMPACT
Provide the revenue impact or N/A if no impact. (What is the estimated impact on revenue? What funds would be impacted? Provide additional detail as necessary.)

N/A

BUDGETED EXPENDITURE IMPACT
Provide the budgeted expenditure impact or N/A if no impact. (List Org/Account # and fund. What is the amount of budget to be used? Does this shift existing budget away from existing programs/services? Provide additional detail as necessary.)

N/A

NON-BUDGETED EXPENDITURE IMPACT

Provide the non-budgeted expenditure impact or N/A if no impact. (Provide information on non-budgeted costs. Include Personal Services, Supplies and Services, Interfund Charges, and Capital needs. Provide additional detail as necessary.)

N/A

WORKLOAD IMPACT

Provide the workload impact or N/A if no impact. (Will more staff be needed or is the change absorbable? If new FTE(s) are needed, provide numbers and types of positions, and a duty summary. Provide additional detail as necessary.)

N/A

QUESTIONS FOR COUNCIL

Does Council wish to support the appointments of Leon Duran, Ismael Zeleke, Felipe Vieyra and Girum Alemayehu to the Aurora Immigrant and Refugee Commission?

LEGAL COMMENTS

All boards and commissions shall be appointed by City Council. (City Charter 3-11 and 9-1) The membership of the Aurora Immigrant and Refugee Commission shall make a good faith effort to fully represent the diversity of the immigrant and refugee community. The Aurora Immigrant and Refugee Commission shall consist of eleven (11) members who are residents of the City. (City Code 2-878) The term of appointment for each member is two years with a maximum of three two-year terms. (City Code 2-879). (Wood)

MEMORANDUM

City of Aurora

AuroraGov.org

To: Mayor Coffman and Members of City Council

From: Jose Ramos, Chair

Through: Kendall Koca, Director, General Management and Marcus Bond, City Clerk Analyst

Date: April 20, 2026

Subject: Consideration to Appoint Member(s) to the Aurora Immigrant and Refugee Commission

---

Number of Vacancies: 4

Interview Information

Date of Interviews: February 3, 2026
Applicant Names: Faraj Atwi, Leon Duran
Applicants Interviewed: Faraj Atwi, Leon Duran

Date of Interviews: April 7, 2026
Applicant Names: Girum Alemayehu, Sabe Kemer, Keith Parker, Rufus Solomon, Ismael Zeleke
Applicants Interviewed: Girum Alemayehu, Sabe Kemen, Rufus Solomon, Ismael Zeleke

Date of Interviws: April 14, 2026
Applicant Names: Felipe Vieyra, Douglas Rudig
Applicants Interviewd: Felipe Vieyra, Douglas Rudig

Summary of suggested appointment(s):

Ismael Zeleke:
The Commission believes Mr. Zeleke would be a strong addition due to his background in political science and his commitment to supporting newcomers. His firsthand experience navigating employment and education as a newcomer provides valuable perspective and allows him to effectively relate to immigrant and refugee communities.

Felipe Vieyra:
The Commission was impressed with Mr. Vieyra's extensive experience supporting immigrant and refugee civic engagement. His service as a founding member of the City and County of Denver's Immigrant and Refugee Commission, along with his ongoing community advocacy work, would bring valuable expertise and perspective to the Commission.

Girum Alemayehu:
Mr. Alemayehu brings many years of experience as a business owner in Aurora and has developed strong connections within the community. His professional background and ongoing community involvement would provide valuable insight and representation for local immigrant communities.

Leon Duran:
Mr. Duran's background in history and the arts could support cultural and storytelling initiatives planned for 2026, including digital storytelling efforts that highlight the experiences of Aurora's diverse communities.

Recommendation

The Aurora Immigrant and Refugee Commission strongly supports the appointment of Ismael Zeleke, Felipe Vieyra, Girum Alemayehu, and Leon Duran as a member(s) on the Aurora Immigrant and Refugee Commission.

Work Experience:
15 Years

Certification(s):
Civil Engineering, CPR

How are you involved in your community?:
am actively engaged in my community through personal and professional relationships, supporting local small businesses, and participating in community events in Aurora. I make a point to stay informed on local issues that impact residents, particularly those affecting immigrant and diverse communities. I also regularly connect with neighbors and community members to better understand shared challenges and opportunities for growth. I also volunteer at my children's school when time allows.

List your interests and activities.:

My interests include community development, supporting immigrant and refugee populations, economic empowerment, and public service. I am especially passionate about initiatives that create access to opportunity, including workforce development and small business support. In my free time, I enjoy spending time with family, fishing, staying active, and reading.

Do you presently serve in any other appointed position on a board, commission or committee?:

No

If yes, enter the board name and position:
N/A

Are you currently a member and seeking reappointment on the board you are applying for?:

No

Why do you desire this appointment?:
I am seeking this appointment because I am passionate about supporting and uplifting immigrant and refugee communities in Aurora. As an Ethiopian American, I understand the importance of representation, access to resources, and having a voice in decisions that impact our communities. I am particularly interested in contributing to efforts that improve access to economic opportunities, community integration, and equitable services. I also see this as an opportunity to learn from others, bring forward community perspectives, and play a meaningful role in helping Aurora continue to be a welcoming and inclusive city. I would be honored to contribute my time, perspective, and commitment to service through this commission.

How much time do you anticipate being able to spend on this appointment each month?:
I am able to commit approximately 5–10 hours per month, including attending meetings, preparing as needed, and supporting any additional initiatives or community engagement efforts.

Do you have any conflicts of interest that should be disclosed?:

No

If yes, please explain:
N/A

N/A

Are you currently a member and seeking reappointment on the board you are applying for?:

No

Why do you desire this appointment?:
As an immigrant from Mexico and a former founding member of the City and County of Denver's Immigrant and Refugee Commission, I am deeply committed to supporting and uplifting immigrant communities. I would be honored to continue that service here in Aurora by contributing to this commission's work on behalf of immigrant and refugee residents. Having personally navigated complex systems in a new country, I understand both the challenges and the resilience that define the immigrant experience. Those experiences have shaped my desire to give back to a community that has welcomed me with openness and opportunity. Serving on this commission would allow me to offer my time, perspective, and skills in support of families seeking belonging, stability, and voice. I hope to help ensure that Aurora's immigrant and refugee communities feel seen, supported, and empowered to fully participate in civic life.

How much time do you anticipate being able to spend on this appointment each month?:
3-5 hours a month but also flexible dependent on what the commission needs!

FELIPE VIEYRA

[redacted]

[redacted] @ [redacted] [redacted] [redacted]

EXPERIENCE

Director of Programs and Advocacy

Denver Families for Public Schools

09/2022 - Present Denver, United States

- Designed and led the organization's comprehensive organizing and advocacy strategy, ensuring families and classroom-level educators shaped DPS policy debates and priorities.
- Built and scaled leadership development pipelines—training over 100 community advocates and school board candidates, with two alumni elected to the DPS Board of Education.
- Directed high-impact field operations, including canvassing over 100,000 residents and coordinating C3/C4 strategies that contributed to electing all three endorsed 2023 school board candidates.
- Supervised and developed a diverse team of organizers, program managers, and over 100 canvassers, strengthening staff capacity, coaching systems, and organizational culture.
- Cultivated coalitions and partnerships, managed vendors and consultants, and built data systems to evaluate basebuilding, campaign performance, and advocacy outcomes—continuously refining strategy and strengthening the organization's influence.

Lyra Denver Director

Lyra Colorado

01/2020 - 12/2022 Denver, CO

- Built and executed multi-year advocacy and organizing strategies.
- Developed systems for learning, evaluation, and continuous improvement.
- Aligned program design with equity-centered empowerment of frontline leaders (teachers/educators).
- Led complex advocacy efforts that require coordination across teams and stakeholders, specifically high-performing executive directors of large school networks
- Shaped narratives that resonate with deeply impacted communities.
- Built and managed coalitions with grassroots organizations and diverse partners.
- Hosted a 500+ person action on the Denver Public School Board that led to meaningful policy outcomes

Director of Organizing Strategy

Leadership for educational equity

01/2018 - 01/2020 Las Vegas, NV + Denver, CO

- Led and coached a campaign team of 8–12 organizers through a major 2018 ballot initiative, overseeing field strategy, daily operations, and volunteer mobilization while driving measurable community engagement.
- Built and strengthened coalitions with community organizations, stakeholders, and LEE members across Denver, expanding leadership pipelines and advancing long-term organizing and policy goals.
- Designed and implemented strategic organizing plans that grew member bases, developed leaders, and aligned organizing work with broader movement priorities across multiple cities, including launching a new organizing program in Las Vegas.
- Recruited, trained, and supported community members pursuing public leadership roles, including coaching one member to a successful bid for elected office.
- Mobilized organizers and community partners to secure policy wins such as the "Black Excellence Resolution" before the Denver School Board, demonstrating the power of coordinated grassroots advocacy.

EXPERIENCE

Bilingual Community Organizer

Together colorado

08/2016 - 01/2018 Denver, CO

- Co-led Together Colorado's 2016 civic engagement program, mobilizing community members statewide to increase voter turnout and deepen participation in democracy.
- Implemented a broad community organizing strategy engaging residents on education, healthcare, public safety, immigration, criminal justice, and conservation issues.
- Led the Federated Education Committee, gaining deep experience in education policy and facilitating member-led strategy development.
- Trained extensively on the Voter Activation Network (VAN), enabling effective turf-cutting, MiniVAN use, door-knocking operations, and large-scale phone-banking efforts.
- Developed leaders through an organizing model that taught policy literacy, volunteer management, and how to build and pursue legislative goals rooted in community priorities.

Outreach Program Director

Colorado Rapids Youth Soccer Club

05/2014 - 08/2016 Denver, CO

- Developed and led a high-quality soccer program serving Latino youth across Colorado, recruiting more than 400 participants and expanding access to competitive play.
- Built and managed partnerships with schools, community organizations, and the Colorado Rapids, including serving as a U.S. Soccer Symposium panelist on youth development.
- Recruited, hired, trained, and supervised a coaching staff of 15 or more, ensuring program quality, safety, and positive youth development.
- Oversaw a $135,000 annual budget, managed a scholarship program, and streamlined youth recruitment and selection processes.
- Compiled annual grant reports and maintained strong donor relationships by ensuring compliance, clear documentation, and measurable program impact.

Bilingual Community Organizer

Stand for Children Colorado

08/2012 - 01/2014 Denver, CO

Marcus Bond

Name: Alemayehu, Girum

Address: [redacted]

Email: [redacted]

Board Name: Aurora Immigrant and Refugee Commission

Date of Birth:
[redacted]

Home Phone Number:
[redacted]

Work Phone Number:
[redacted]

How long have you lived in Aurora?:
30

Are you registered to vote?:

Yes

Years of Education Completed:
PhD

Degree(s) Received:
public policy and law

College(s) Attended:
Addis Ababa university BA, Oklahoma State University MSC, Walden University PHD

Employer Name:
Gman Inc

Employer Address:
18680 E Iliff Avenue, Aurora, Co 80013

Current Position:
Business owner

Years with Current Employer:
16

Work Experience:
I am a business owner with over 16 years of experience operating and managing a retail enterprise in Aurora, Colorado. I hold a PhD in Public Policy and Law and bring more than 30 years of leadership experience across academia, nonprofit governance, and private enterprise. My professional background includes service as a university lecturer, nonprofit board chairman, federal policy engagement, immigrant advocacy, and economic development initiatives supporting small businesses and refugee entrepreneurs in Colorado. I have also testified before the United States Congress representing Ethiopian American concerns related to governance and diaspora engagement.

Certification(s):
PhD, Public Policy and Law (Walden University, 2025) MSc, Agricultural Education (Oklahoma State University) BA, Philosophy (Addis Ababa University)

How are you involved in your community?:

I am actively involved in immigrant and refugee community leadership in Aurora and the greater Denver region. I serve as Board member of the Ethiopian American Development Council (EADC) and Chairman of CEELA (a business association supporting immigrant entrepreneurs). I previously served as Chairman of St. Mary Ethiopian Orthodox Tewahedo Church of Denver and have been engaged in nonprofit governance, youth mentorship, cultural programming, and immigrant integration initiatives. I regularly advocate for policies that promote economic empowerment, civic engagement, and access to opportunity for immigrant and refugee communities.

List your interests and activities.:
Public policy, immigrant integration, economic development, youth mentorship, nonprofit governance, cultural preservation, comparative legal systems, and community capacity building. I also mentor young professionals and support immigrant entrepreneurs navigating regulatory and licensing systems.

Do you presently serve in any other appointed position on a board, commission or committee?:

No

If yes, enter the board name and position:
no

Are you currently a member and seeking reappointment on the board you are applying for?:

No

Why do you desire this appointment?:
As both an immigrant and a long-time Aurora business owner, I understand firsthand the challenges and opportunities facing immigrant and refugee communities. I desire this appointment to contribute policy insight, lived experience, and governance expertise to help the City of Aurora strengthen integration pathways, economic mobility, civic participation, and access to services for newcomers. I believe the Immigrant & Refugee Commission plays a vital role in ensuring that Aurora remains inclusive, economically vibrant, and responsive to its diverse population. I am committed to collaborative leadership and practical solutions.

How much time do you anticipate being able to spend on this appointment each month?:
0–15 hours per month, including meetings, preparation, and community engagement activities.

Do you have any conflicts of interest that should be disclosed?:

No

If yes, please explain:
No

[redacted] | [redacted] [redacted]

EDUCATION **University of Denver**, Denver, CO
Bachelor of Arts in Political Science; Minor in International Relations; June 2022
Activities: First Generation; Alumni Mentor, Denver Promise; Assistant Administrator, Customer Service Rep, Athletic Management

EXPERIENCE

The Lex Fellowship, Roma, Italy
Legal Associate, December 2025
Partnered with Pirola, B-HSE, Roedl, Lapani, Zoppini, and Gitti & Partners to analyze litigation and transactional cases and strengthen legal reasoning. Weekly legal training sessions with US national fellows on doctrinal concepts, case transactions, litigation skills, and professional development in Roma.

Aurora Education Association, Aurora, CO
Canvassor Corridantor, September – November 2025
Conducted field operations for the Aurora Education Association, supporting education reform initiatives by communicating relevant election issues through in-person canvassing and coordinating weekly community outreach "Get Out the Vote (GOTV)" efforts.

Denver Families, Denver, CO
Field Organizer, August 2025 – November 2025
Led and supported in-person canvassing efforts for Denver Families, advancing education reform–focused initiatives by clearly communicating relevant election issues to voters and organizing week-to-week community outreach and Get Out the Vote (GOTV) activities.

Bryan Lindstrom for State HD 36 , Aurora, CO
Campaign Manger, January 2024 – June 2024
Served as Field Manager for a State House campaign in Aurora, Colorado, overseeing field operations through data and spreadsheet management, conducting in-person training, organizing voter outreach initiatives—including canvassing, phone banking, and targeted community events—and coordinating weekly fundraising and advocacy efforts with attention to messaging and organizational compliance.

Colorado State House of Representatives, Denver, CO
HD 41 State Internship, February 2023 – April 2023
Served as a Legislative Aide Intern with the Colorado State House of Representatives, conducting legal and policy research, analyzing and summarizing prior legislation introduced by Representative Iman Jodeh, and researching, drafting, and formally presenting a comprehensive bill addressing funding mechanisms, stakeholder interests, and implementation strategy.

Chris Hinds for Denver City Council, Denver, CO
Campaign Coordinator, Jan 2023 – June 2023
Supported a Denver City Council campaign by coordinating targeted urban voter engagement initiatives, mobilizing and training volunteers, conducting direct outreach during multiple organized weekends of action, and participating in photo shoots and video advertisements for campaign communications.

Arapahoe County Colorado Coordinate Campaign, Aurora, CO
Field Organizer, September 2022 – November 2022
Served as a Field Organizer with the Colorado Coordinated Campaign, leading volunteer-driven voter outreach efforts that contributed to successful State House races in Districts 41 and 42 by coordinating direct voter contact, managing canvassing and phone banking operations, and organizing targeted urban and suburban engagement initiatives during multiple weekends of action.

QUESTIONS FOR COUNCIL

Does Council wish to support the reappointment of Graciela Gonzalez (youth) and appointment of Leslie Lopez (adult) and Felicia Curvin (adult) to the Aurora Youth Commission?

LEGAL COMMENTS

All boards and commissions shall be appointed by City Council. (City Charter 3-11 and 9-1). The Aurora Youth Commission shall consist of twenty-two (22) voting members. Of the voting members, sixteen (16) members shall be ages 14 through 20. Six (6) voting members shall be adults of the age of 21 or over. The composition of the Commission shall represent school districts, private schools, and home school participation to the extent possible through the nomination process. Commission members must be residents of the City, except that any student currently enrolled in a secondary school within the City is a qualified member regardless of their city of residence. Each Commissioner serves a two-year term. (City Code 2-902). Each commissioner may serve a maximum of four consecutive terms. (Resolution R2025-78). (Wood)

MEMORANDUM

City of Aurora

AuroraGov.org

To: Mayor Coffman and Members of City Council

From: David Wagner, Staff Liaison/Supervisor of Youth Services, Aurora Youth Commission

Through: Marcus Bond, City Clerk Analyst
Brian Green, Director, Parks, Recreation and Open Space Department
Wynter Stieger, Acting Recreation Services Manager, Recreation Division, PROS
Donna Hunt, Superintendent of Youth Services, Recreation Programs, PROS

Date: April 21, 2026

Subject: New Appointment and Reappointment to the Aurora Youth Commission

---

Board or Commission Name: Aurora Youth Commission

Number of Vacancies: 1 Youth, 2 Adults

Interview Information

Date of Interviews: April 17, 2026, and April 21, 2026

Applicant Names: Leslie Lopez, Felicia Curvin, Laura DePierre, Graciela Gonzalez, Abdullahi Adan

Applicants Interviewed: 1 Youth, 2 Adults

Recommendation

Suggested Appointment: Leslie Lopez

Summary: Leslie brings a strong background in financial services, marketing, and school-based family engagement, with a clear focus on advocating for youth and families. As a Family Liaison and active volunteer in student ambassador and literacy programs, Leslie demonstrates a commitment to supporting student success and community connection. She currently serves on a school governing board, lead workshops, and is interested in expanding opportunities such as career fairs for youth. Her long-standing involvement in community service reflects a deep value for leadership, networking, and giving back, beginning at a young age. Notably, she has taken initiative in the youth community by creating programs such as a student ambassador group and a yearbook program where none previously existed. References would likely describe them as relationship-driven, structured, and highly dedicated to ensuring young people have the support and opportunities they need, with a strong desire to make a meaningful, positive impact.

The Aurora Youth Commission strongly supports the appointment of Leslie Lopez as a Adult Member to complete the Partial term beginning 8/1/2024 ending 7/31/2026 and be appointed to the 1st term beginning 8/1/2026 ending on 7/31/2028 on the Aurora Youth Commission.

Suggested Appointment: Felicia Curvin

Summary: Felicia has a developing understanding of the Commission but is motivated by a desire to support youth who care about the overall wellbeing of Aurora. She brings relevant professional experience as a director with a faith-based nonprofit focused on youth development. Her skills include trauma-informed care, creating psychologically safe environments, leadership development, and after-school readiness. Her path into community service began in her teenage years through court-ordered service, which evolved into a genuine commitment to supporting marginalized groups and strengthening communities. She has made meaningful contributions by expanding youth programming, including connecting students to resources such as food support and grief counseling while creating safe, supportive spaces for self-expression. Friends would likely describe her as a fearless, organized leader and strong connector who is passionate about mobilizing resources, supporting others, and turning ideas into action.

The Aurora Youth Commission strongly supports the appointment of Felicia Curvin as an Adult Member to the 1st term beginning 8/1/2025 ending on 7/31/2027 on the Aurora Youth Commission.

Suggested Reappointment: Graciela Gonzalez

Summary: Graciella has been an engaged member of the Aurora Youth Commission for the past two years, during which she has taken on an active and consistent role in supporting the Commission's work. She regularly attends meetings and contributes to discussions and planning efforts. Over her tenure, she has also been involved in a variety of community-based initiatives, including park clean-up projects, the Fill the Bus donation drive, and support for the ARISE Triathlon. Through her participation, she has demonstrated reliability, commitment to youth and community engagement, and a willingness to step in and support key Commission events and service projects.

The Aurora Youth Commission strongly supports the reappointment of Graciela Gonzalez to her 2nd term beginning 8/1/2026 ending on 7/31/2028 on the Aurora Youth Commission.

Employer Name:
Aurora Public Schools / Tollgate Elementary

Employer Address:
701 S Kalispell Way

Current Position:
Family Liaison

Years with Current Employer:
2 years

Work Experience:
I have a strong background in leadership, community engagement, and youth support through both professional and volunteer roles. I currently work as a Family Liaison, where I connect families with school and community resources, coordinate large-scale events, and collaborate with community partners to support student success. I also serve on the School Governing Board, where I contribute to decision-making processes that impact school policies, family engagement, and student outcomes. In addition, I have been involved as a Student Ambassador, supporting school events, organizing fundraisers, and helping create a positive school culture. Previously, I gained experience in the financial sector working with a bank, where I developed customer service, communication, and problem-solving skills. I have also explored marketing and outreach, helping promote events and initiatives through community engagement and communication strategies. Overall, my experience reflects a strong commitment to leadership, service, and making a positive impact in my community—especially working with youth and families.

Certification(s):

CPI, CPR, RBT in progress

How are you involved in your community?:
I am actively involved in my community by supporting children and their families through my role as a Family Liaison. I help connect families with resources, organize school events, and create opportunities for students to feel supported, engaged, and successful. I also serve on the Governing Board, where I contribute to decisions that impact students' education and well-being. In addition, I help support Student Ambassadors, encouraging student leadership, involvement, and service within the school community. I also participate in school programs and fundraisers that directly benefit children and families. My main focus is making sure children feel supported, valued, and have access to opportunities that help them grow and succeed.

List your interests and activities.:
I am passionate about working with youth, leadership, and community involvement. I enjoy supporting student development, mentoring, and creating opportunities for children to grow and feel empowered. I am also interested in personal growth, education, and financial literacy, and I enjoy learning and sharing resources that help others improve their lives. In my free time, I like organizing events, creating content, and exploring ways to make a positive impact in my community.

Do you presently serve in any other appointed position on a board, commission or committee?:

Yes

If yes, enter the board name and position:
Governing Board / Family Liaison

Are you currently a member and seeking reappointment on the board you are applying for?:

Yes

Why do you desire this appointment?:
desire this appointment because I am passionate about supporting youth and making a positive impact in my community. Through my work with students and families, I have seen how important it is for young people to feel heard, supported, and represented. I want to be part of a space where I can advocate for youth, bring new ideas, and help create opportunities that support their growth, leadership, and success. This opportunity aligns with my purpose of working with children and contributing to a stronger, more connected community.

How much time do you anticipate being able to spend on this appointment each month?:
5 to 10 hours

Do you have any conflicts of interest that should be disclosed?:

No

If yes, please explain:

Employer Address:
Unemployed

Current Position:
Psychologist

Years with Current Employer:
0

Work Experience:
Practicing psychologist and federal law enforcement officer for more than ten years.

Certification(s):
Many

How are you involved in your community?:

I am a career civil servant, a small business owner, an activist, an advocate, a community organizer, and a mom. I am a former federal law enforcement officer. I am a psychologist who has worked with inmates and those struggling with substance use for the past ten years. I am currently a member of Soil Web Connections in Wheatridge, helping Brain Storm and connect environmentally conscious individuals and groups. While new to Aurora, I previously served on the community relations board for a federal correctional institution. I was also a member of the Chamber of Commerce, a regular attendee of two borough councils, the Library board, and Charity events. In the past five years, I've organized many charitable events, including a very successful collaboration between local businesses and animal shelters that resulted in adoptions and pet food collection. I'm also an avid user of community resources. My family uses the libraries and parks, we attend community events, and I have a city tree on my property. I am deeply committed to improving the lives of the people in my community and I would be proud to serve on the Aurora Youth Commission.

List your interests and activities.:
Science, libraries, Girl Scouts, music, nature, pets, and more.

Do you presently serve in any other appointed position on a board, commission or committee?:

No

If yes, enter the board name and position:
N/A

Are you currently a member and seeking reappointment on the board you are applying for?:

No

Why do you desire this appointment?:
I want to use my expertise as a psychologist and my experience as a mom in community to better the well-being of Aurora's youth. I have four kids, from two months to 9 years old. We homeschool, which also needs representation, and in no way prevents me from caring deeply about our schools. I have a vested interest in making our community healthier, safer, more accessible, and more fun for all our kids.

How much time do you anticipate being able to spend on this appointment each month?:
20 hours

Do you have any conflicts of interest that should be disclosed?:

No

If yes, please explain:
Not that I am aware of. I'm seeking employment with the VA currently.

QUESTIONS FOR COUNCIL

Does Council wish to reappoint Glen Wagner to the Civic Engagement Commission?

LEGAL COMMENTS

All boards and commissions shall be appointed by City Council. (City Charter 3-11 and 9-1) The Civic Engagement Commission shall consist of fifteen members. Five members shall be appointed each year to staggered three-year terms. In appointing members to the commission City Council shall consider individuals who are representative of, or who have experience working with, immigrants, individuals with limited English language proficiency, people with disabilities, students, youth, seniors, veterans, community groups, advocacy groups that seek to promote transparency and accountability in government or protect civil rights, and groups or categories of residents that have been historically underrepresented in or underserved by city government and its processes. Each member shall be a resident of the City both when appointed to the committee and while serving on the committee. (City Code 2-922) Commission members may serve up to three consecutive terms. (City Code 2-772 and Resolution R2025-78) (Wood)

Cedric Wright

[redacted]

Professional Experience

Outreach Case Coordinator III
Organization Name, Denver, CO
August 2025 – Present

- Conduct street outreach and engage unsheltered individuals using trauma-informed and harm-reduction approaches.
- Build strong rapport with clients to assess needs and support pathways to stable housing.
- Provide housing navigation services, including assistance with Coordinated Entry, housing applications, and required documentation.
- Manage an active caseload and support clients through all stages of the housing process.
- Maintain accurate and timely documentation in HMIS in compliance with program standards.
- Respond to crises in the field using problem-solving, de-escalation, and crisis intervention strategies.
- Work independently in community settings while coordinating with local housing providers and service partners.
- Transport clients to appointments and housing-related services as needed.

Eligibility Specialist at Denver Jails/Neighborhood Resource Sites
City and County of Denver, Denver, CO
October 2024 – August 20025

- Provided same-day, in-person benefit services to incarcerated individuals, demonstrating a deep understanding of correctional environments and a commitment to equitable, client-centered service delivery.
- Adapted to fluid, unpredictable interactions with clients in crisis, using de-escalation strategies and trauma-informed care to build trust and ensure consistent service outcomes.
- Operated with a high level of independence and attention to detail across multiple facilities, supporting quality service delivery through accurate case processing and site adaptability.
- Participated in ongoing professional development, including de-escalation and mental health first aid training, to enhance service quality and align with re-entry and justice-focused best practices.

Correctional Services Specialist I – Community Correction
City and County of Denver, Denver, CO
March 2024 – October 2024

- Conduct headcounts, participant interviews, and safety inspections within a secure correctional environment.

Cedric Wright

[redacted]

- Enforce compliance and respond to misconduct using trauma-informed, evidence-based interventions.
- Maintain detailed documentation and participate in 24/7 operational coverage to ensure facility integrity and public safety.
- Apply policy knowledge to de-escalate situations and manage client behavior, fostering a secure and rehabilitative environment.

Community Corrections Officer
Intervention Community Corrections Services, Lakewood, CO
September 2019 – March 2024

- Conducted investigative interviews with clients, documented behavioral infractions, and recommended appropriate interventions.
- Applied trauma-informed practices and cultural competency to handle complex behavioral challenges.
- Maintained case notes and collaborated with law enforcement, counselors, and case managers to monitor compliance.
- Reported and tracked data related to client progress and incident management.

National Account Manager / Communications Consultant
Green Cow Public Relations Group, Detroit, MI
October 2014 – Present

- Led strategic communications and data-driven reporting on sensitive issues involving diverse stakeholder groups.
- Created documentation and media summaries used for advocacy, legal defense, and public engagement.
- Coordinated messaging with legal counsel and partners on equity-related cases, enhancing public transparency.

Business Development Manager
Q3 Contracting, Inc., Denver, CO
January 2021 – September 2021

- Conducted stakeholder meetings and facilitated conflict resolution between project partners.
- Managed documentation and tracking of contractor interactions, emphasizing fairness and inclusion.

[redacted]

PURPOSE

As a dedicated and results-driven Quality Assurance professional with over 20 years of experience in ensuring compliance, enhancing processes, and leading teams to achieve excellence. My diverse background in quality management, various quality engineering roles and a Veteran, underscores my commitment to delivering superior quality standards. I will leverage my expertise in a dynamic organization where I can contribute to continuous improvement, foster innovation, and drive impactful results.

WORK EXPERIENCE & QUALIFICATIONS

Barber-Nichols LLC. Arvada, CO 2018 to Present

Quality Lab Manager - 2020 to Present

- Manages, leads, engages, hold accountable and develop department employees through training and coaching to ensure job satisfaction and growth.
- Conducts performance reviews with staff and ensure all direct reports have a personal development plan for improvement.
- Manages personal performance by setting and communicating clear goals and expectations.
- Develops strategic plan and projects to execute on organizational vision and define metrics to track success.
- Capital expense planning from request to implementation to promote process efficiency to reach expected ROI.
- Communicates the company's goals and objectives to the staff and identify key metrics to ensure that the department is driving to the company's goals and objectives.
- Proactively coordinates team and individual work assignments to achieve daily goals and objectives to ensure schedule adherence and to optimize the overall efficiency and utilization of the quality lab.
- Designs and streamlines processes to ensure consistent performance by employees. Uses KPIs, data analysis, and employee engagement initiatives to empower them for success. Collaborates with Lead Inspectors, CMM Programmers, and Lab Inspectors to standardize inspection methods.
- Provides technical oversight and direction as required, to assist in troubleshooting or root cause analysis and implements continual improvement measures.
- Monitors the quality planning process to ensure accuracy and completion.
- Collaborates cross-functionally to ensure consistency in planning and data transfers effectively to meet customer needs and organizational objectives through team execution.

Quality Assurance Engineer - 2018 to 2020

- Reviewed process documentation to ensure customer requirements are met and developed documentation needed to verify and validate requirements.
- Monitored and assessed in-process production and assembly performance to ensure customer requirements are maintained.
- Maintained the quality management system for compliance to ISO 9001/AS9100 as well as to evaluate its effectiveness.
- Collaborated with all departments to ensure that information and data transfers effectively to meet customer needs and organizational objectives.

- Continuously improved procedures, processes and methods to ensure quality with zero defects and excursions.
- Reviewed new contracts to ensure customer requirements are clearly defined and incorporated in subsequent build and quality documents.
- Monitored production and assembly and provided support and troubleshooting for in-process inspections.
- Developed and executed quality management system training throughout the organization to ensure that employees can find procedures and properly follow them.
- Worked with process owners to change process and procedures to incorporate corrective/preventive actions and lessons learned to ensure that the quality management system is continually improving.
- Interfaced with customers and compliance agencies to schedule and facilitate audits to evaluate the effectiveness of the quality management system.
- Supported registration and customer audits, as well as other customer visits and source inspections to ensure that BN met customer and third-party needs. Performed internal audits to assess compliance to the QMS.
- Maintained the corrective and preventive action system to ensure timely closure of corrective and preventive actions.

Vestas Blades. Brighton, CO - 2014 to 2018

Quality Assurance Engineer

- Identified and resolved systemic and isolated production challenges using SharePoint dashboards to present analyzed SQL server data. Leverages Statistical Process Control (SPC) tools and problem-solving tools (Minitab/SixSigma/DMAIC/, FMEA and Apollo RCA) in the Corrective Actions and Preventive Actions (CAPA) process; Directly driving a 75% reduction in Cost of Poor Quality (COPQ)
- Managed and trained Quality Assurance Inspectors and technicians, directing focus in-line with continuous improvement targets.
- Performed quality-engineering reviews of design documentation for compliance with stated requirements, and company quality records.
- Created and maintained focused metrics (Key Performance Measurements/Indicators [KPMs/KPIs]) to identify processes/functions contributing to the successes and deficiencies in specific production cycles; Standardized metrics across the business for easy cross-functional comparison.
- Evaluated defects and outlines repairs/solutions, meeting visual and structural needs, based on engineering drawings and technical requirements
- Initiated audits to ensure process and quality compliance; identified non-compliance and initiated resolution through effective CAPAs.
- Managed Customer Quality relations, Investigated and reviewed escapes (on and off-site); Developed, implemented and validated CAPA.
- Supported as part of SAP roll-out team and serves as factory super-user/trainer.

GE Aviation/MRAS. Baltimore, MD - 2011 to 2014

Lead Quality Assurance Engineer

- Created, oversaw and approved First Article Inspection (FAI) activities, identifying and demonstrating contractual and technical compliance during New Product Introduction (NPI) and in serial production.
- Directed and approved the development of manufacturing planning with a focus on human-factors, shared best-practices that accurately conveyed contractual and technical requirements; Resulting in over 40% reduction in production defects and a yield of a 20% increase in productivity rate.
- Led supply-chain teams in the development and implementation of internal strategies, policies and procedures to demonstrate ongoing compliance to regulatory standards (i.e. AS9100, ISO9001).
- Scheduled and performed technical competency reviews; administered appropriate training/certification (decertification & recertification) ensuring qualification of operators for specialized production tasks
- Served as Corrective Action Board (CAB) , and Material Review Board (MRB) Lead

- Issued Corrective Action Requests (CARs) upon nonconformance discovery (with written recommendations for resolution) and validated the implementation of corrective actions for identified internal and supplier systemic/product non-compliances, driving a 65% decline in Cost of Quality(CoQ).
- Facilitated tasks among process and functional owners to accomplish project goals
- Performed various Quality Management System analysis (i.e. CoQ, delivery schedule) to determine current-state restrictions and prompt actions for improvements.
- Served as QA representative on the Configuration Change Board(CCB), reviewed/approved engineering changes (ECRs/ECOs) and managed implementation of requirements to production (and Supplier) teams, guaranteeing deliverables were revision-current.

First Source Electronics. Elkridge, MD - 2011 to 2011

Quality Assurance Inspector

- Initiated written recommendations to align work instructions with contract requirements, specifications and industry standards (ISO9001).
- Supported supplier quality systems Purchase Order (PO) review to accurately identify requirements and ensure compliance in manufacturing planning.
- Performed electrical testing on circuit boards and cable systems to identify defects and prompt appropriate rework.
- Monitored, controlled, and processed nonconforming material including rework and scrap.
- Implemented advanced inspection and measurement techniques that lead to increased organization identified defects.

United States Marine Corps(USMC) – 2001 to 2010

Training and Operations Manager

- Reviewed project directives upon assignment, adopted alternative and compliant systems operations for systems proficiency in quality, safety, and cost/waste reduction.
- Scheduled and administered employee training, and audited for effectiveness; Maintained a running status of personnel database to guarantee timely completion of all required training.
- Liaised with executives and counterparts to communicate progress and concerns; Engaged in sharing of best practices.
- Managed a training and education budget ($500k$800k), recommended and approved advanced training opportunities for qualified candidates, supporting the sustenance and progress of key organizational functions.
- Performed Personnel Management functions in team assigned production activities, planning and counseling which provided a felicitous and functional work environment.

Quality Assurance Supervisor/ Aviation Mechanic

- Trained and certified quality inspectors in maintenance and quality applications (precision measurement, product and quality standards, etc.) to sustain continuity in shop proficiency.
- Managed Airframes and Powerplant systems overhaul and repair in a high-tempo supply-chain environment, supporting combat operations and maintaining a 92% First Time Yield (FTY) rate.
- Supervised and streamlined work-center and flightline operations using lean six-sigma methodologies, promoting a 40% increase in productivity rate.
- Prompted and performed timely periodic component inspection in accordance with industry standards.
- Developed standard operating procedures (SOPs) compliant to industry standards (i.e. ISO, AS, NAMP).
- Maintained quality systems database, generated metrics, analyzed negative trends to identify deficiencies, and implemented system improvements to reverse identified risks.
- Managed maintenance related programs (FOD, safety, hazardous materials, document management) to support required health and safety standards (i.e. OSHA, EPA, NAVOSH, and NAMP), effectiveness and awareness among employees.

- Facilitated continuous product, process, and tooling improvements, with Failure Mode and Effects Analysis (FMEAs) and lean six sigma methodologies, which drove changes to industry standards and practices. This resulted in product improvements and reduction in cost.

EDUCATION & TRAINING

- **Business Administration Studies**, University of Maryland. Adelphi, MD. May 2016
- **Business Administration**, American Military University. CharlesTown, WV. May 2012
- Dale Carnegie Leadership Development Training
- Apollo Root Cause Analysis and Corrective Action (RCCA)
- AIRSpeed: DoD Lean and Process Planning
- Lean Six Sigma Green Belt

QUESTIONS FOR COUNCIL

Does Council wish to support the Resolution?

LEGAL COMMENTS

The council and its members shall deal with that portion of the administrative service for which the city manager is responsible solely through the manager, and neither the council nor any member thereof shall give orders to any employee of the city either publicly or privately. Any violation of the provisions of this section by a member of the council shall constitute misconduct and shall be punishable in such manner as may be in the discretion of the other members of the council. (City Charter Sec. 3-10). The purchasing manager shall submit a weekly report of purchasing and contracting activities to the city council. The report shall include information on competitively solicited purchase orders, change orders, and all other contracts of $50,000 or more except for change orders for construction contracts. Council has the right to pull any contracts from the report and request a presentation from staff on the contract and seek formal approval by the majority of the Council. Council has the inherent right to create exceptions to this process, like the one contained in this resolution. (City Code Sec. 2-672 (a)(2) & 681). (McClelland)

RESOLUTION NO. R2026- ____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S STRONG SUPPORT FOR AND DIRECTING THE CITY MANAGER TO REQUIRE CITY COUNCIL APPROVAL FOR CERTAIN TYPES OF CONTRACTS AND AGREEMENTS

WHEREAS, United States citizens and immigrants alike face violations of their constitutional and due process rights due to Immigration and Customs Enforcement ("I.C.E."); and

WHEREAS, the City Council of the City of Aurora, Colorado (the "City"), finds and believes that it is in the best interests of the health, safety, and welfare of its residents to be aware of certain entities the City may contract with in the future; and

WHEREAS, the City Council finds that any potential contracts, agreements, intergovernmental agreements, and/or memoranda of understanding with those entities affiliated with I.C.E. or the Department of Homeland Security ("D.H.S.") should only be approved by City Council.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, THAT:

Section 1. Any and all proposed contracts, agreements, intergovernmental agreements, and/or memoranda of understanding, etc. with I.C.E., D.H.S., The GEO Group, CoreCivic, Key Lime Air, or any of their associates or affiliates, or other vendors providing similar services, for any amount, shall only be approved by City Council.

Section 2. All resolutions or parts of resolutions of the City in conflict herewith are hereby rescinded.

RESOLVED AND PASSED this _____ day of _____ 2026.

_____
MIKE COFFMAN, Mayor

HISTORY *(Dates reviewed by City council, Policy Committees, Boards and Commissions, or Staff. Summarize pertinent comments. ATTACH MINUTES OF COUNCIL MEETINGS, POLICY COMMITTEES AND BOARDS AND COMMISSIONS.)*

Many of Aurora's streets, facilities, and systems built in earlier decades now require significant reinvestment and replacement. The result is a growing gap between what it will cost to maintain, modernize and construct the city's infrastructure and the funding that is currently available.

The city has completed additional capital master plans and facility assessments and have refined project scopes and costs. Detailed capital master planning efforts undertaken over the last three years identifies a focused list of priority projects with preliminary estimated capital costs of about $2 billion.

In 2024, City Council unanimously created the Build Up Aurora Infrastructure Task Force to evaluate these needs and develop a long-range plan for capital investment. Members were appointed by City Council from across the community, including business, economic development, construction, hospitality and tourism, and public safety. The task force's responsibilities included reviewing the updated capital project lists, developing criteria for prioritizing projects based on urgency, risk, and community benefit, recommending a phased approach to capital investment over a ten-year period, considering sustainable funding options that match project scale and timeline, and incorporating public feedback into final recommendations.

In 2025 and 2026 substantial community engagement was undertaken to understand which capital projects the community cares about most. Departments met regularly with the Infrastructure Task Force to review project needs, while at the same time engaging residents to understand their priorities and perspectives. Over the last year, the City hosted over 54 events, received over 5,800 infrastructure ideas, facilited 22 discussions with over 357 participants, and conducted two surveys resulting in over 3,100 online and princted survey responses.

The Infrastructure Task Force has finalized a short-term, mid-term, and long-term recommendation for the efficient allocation of resources to support city capital improvement needs that incorporated community feedback. The Task Force's short-term recommendation is to pursue voter authorization in November for a $264,515,000 bond program and supporting combined sales and use tax rate increase of 0.325% with a 30 year sunset which is allocated by purpose/ballot question as follows:

1. Transportation Infrastructure ($107,475,000);0.132% sales and use tax rate increase
2. Public Safety ($52,065,000);0.064% sales and use tax rate increase
3. Community Facilities ($104,975,000);0.129% sales and use tax rate increase

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

This companion resolution outlines the capital projects to be undertaken with bond proceeds upon voter approval of three ballot questions on the November 3, 2026 ballot. The resolution directs the City Manager to construct and deliver specific capital projects as well as report progress on the delivery of the projects included in the resolution

annually.

FISCAL IMPACT

Select all that apply. (If no fiscal impact, click that box and skip to "Questions for Council")

☐ Revenue Impact ☐ Budgeted Expenditure Impact ☐ Non-Budgeted Expenditure Impact
☒ Workload Impact ☐ No Fiscal Impact

REVENUE IMPACT

Provide the revenue impact or N/A if no impact. (What is the estimated impact on revenue? What funds would be impacted? Provide additional detail as necessary.)

Resolution is contingent on voter approval of ballot questions proposed to be referred to the November 3, 2026 ballot.

BUDGETED EXPENDITURE IMPACT

Provide the budgeted expenditure impact or N/A if no impact. (List Org/Account # and fund. What is the amount of budget to be used? Does this shift existing budget away from existing programs/services? Provide additional detail as necessary.)

N/A – Contingent on voter approval of ballot questions proposed to be referred to the November 3, 2026 ballot.

NON-BUDGETED EXPENDITURE IMPACT

Provide the non-budgeted expenditure impact or N/A if no impact. (Provide information on non-budgeted costs. Include Personal Services, Supplies and Services, Interfund Charges, and Capital needs. Provide additional detail as necessary.)

N/A

WORKLOAD IMPACT

Provide the workload impact or N/A if no impact. (Will more staff be needed or is the change absorbable? If new FTE(s) are needed, provide numbers and types of positions, and a duty summary. Provide additional detail as necessary.)

The $264.5 million bond program will result in additional projects to be delivered by city staff with the support of external consultants. In addition to project management needs, the city will also experience an increased workload in budgeting, accounting, plan review, and inspections.

QUESTIONS FOR COUNCIL

Does the City Council support the approval of the proposed Build Up Aurora bond program companion resolution?

LEGAL COMMENTS

Council shall act only by ordinance, resolution or motion. All legislative enactments must be in the form of ordinances; all other actions, except as herein provided, may be in the form of resolutions or motions. (City Charter Section 5-1). (Allen)

RESOLUTION NO. R2026- ____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, IN SUPPORT OF BUILD UP AURORA IMPROVEMENT PROJECTS

WHEREAS, the City of Aurora, Colorado, (the "City"), is a home rule municipality, organized and existing under and by virtue of Article XX, Section 6 of the Colorado Constitution, and it has the power to regulate matters of local concern; and

WHEREAS, the City Council (the "Council") unanimously created the Build Up Aurora Infrastructure Task Force (the "Task Force") in 2024 to develop a phased strategic plan for the efficient allocation of resources to support city capital improvement needs; and

WHEREAS, the Task Force engaged with Aurora residents through a variety of methods to understand their capital improvement needs, preferences, and concerns, and incorporate their input into recommendations; and

WHEREAS, after receiving public input and recommendations from the Task Force, the City Council of the City of Aurora, Colorado, has carefully considered the capital improvement needs of the City; and

WHEREAS, the Council recognizes the need to provide for public safety, including without limitation the operation of and repair, maintenance, and improvements to police, fire, and other public safety infrastructure and facilities, such as police station facility capital improvements, Aurora 911 facility capital improvements, Fire Station 19 construction, Fire Station 2 renovation, Fire Station facility capital improvements, and Fire Station 3 renovation; and

WHEREAS, the Council recognizes the need to provide for transportation infrastructure needs, including without limitation the operation of and repair, maintenance, and improvements to city transportation infrastructure and facilities, such as transportation safety improvements, Gun Club Road (Quincy to Aurora Parkway), Peoria over Sand Creek Bridge replacement, high priority sidewalk improvements, and Aurora Reservoir transportation improvements; and

WHEREAS, the Council recognizes the need to provide for community facilities, including without limitation the operation of and repair, maintenance, and improvements to libraries, recreation centers, and community centers, such as neighborhood park renovations, Aurora Center for Active Adults renovation, recreation facilities capital improvements, new Northeast Aurora Recreation Center, master planned parks construction, Central Library branch remodel, Mission Viejo Library branch remodel, and new Northeast Aurora Library branch; and

WHEREAS, Aurora residents, constituents, taxpayers, and customers will benefit from the coordinated efforts of the various capital improvement projects; and

WHEREAS, the City Council of the City of Aurora desires to express its support to pursue

shared funding opportunities that will improve safety, relieve congestion, and benefit economic growth within the City of Aurora and connecting through adjacent jurisdictions of Aurora through the establishment of these projects; and

WHEREAS, pursuant to City Charter 3-9, the City Council of the City of Aurora has all legislative powers of the City and all other powers of a home rule city not specifically limited by the Constitution of the State of Colorado and not specifically limited or conferred upon others by the Charter; and

WHEREAS, pursuant to City Charter 5-1, the City Council of the City of Aurora shall have the power to act by ordinance, resolution or motion and may adopt policies as it deems proper and advisable.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, THAT:

Section 1. Upon voter approval of ballot questions by voters of Aurora on the November 3, 2026 ballot, City Council directs the City Manager to construct and deliver the following needed capital improvements.

- **Transportation Infrastructure up to $108,000,000 including but not limited to**
  - Gun Club Road (Quincy to Aurora Parkway)
  - Peoria over Sand Creek Bridge Replacement
  - High Priority Sidewalk Improvements
  - Aurora Reservoir Transportation Improvements

- **Public Safety up to $53,000,000 including but not limited to**
  - Police Station Facility Capital Improvements
  - Aurora 911 Facility Capital Improvements
  - Fire Station 19 Construction
  - Fire Station 2 Renovation
  - Fire Station Facility Capital Improvements
  - Fire Station 3 Renovation

- **Community Facilities up to $105,000,000 including but not limited to**
  - Neighborhood Park Renovations
  - Aurora Center for Active Adults Renovation
  - Recreation Facilities Capital Improvements
  - New Northeast Aurora Recreation Center
  - Master Planned Parks Construction
  - Central Library Branch Remodel
  - Mission Viejo Library Branch Remodel
  - New Northeast Aurora Library Branch

Section 2. If any project listed in this Resolution is held to be invalid by a court of competent jurisdiction, such invalidity shall not affect the other parts and provisions of any

bonds authorized by voters at the November 3, 2026 ballot.

Section 3. Any modifications to add or remove a project will require an amendment to this Resolution by the City Council.

Section 4. The City Manager shall describe progress of the expenditure of the funds for each purpose listed above in a report to City Council at least annually.

Section 5. This Resolution shall be effective upon passage by the electorate of the November 3, 2026 ballot question(s) that authorize any bonds for the purposes referenced herein.

Section 6. The Mayor and the City Clerk are hereby authorized to execute and deliver this Resolution in substantially the form presented at this meeting, with such technical additions, deletions, and variations as the City Attorney may deem necessary or appropriate and not inconsistent with this Resolution.

Section 7. All resolutions or parts of resolutions of the City in conflict herewith are hereby rescinded.

RESOLVED AND PASSED this _____ day of _____ 2026.

Study Session
May 18, 2026

Infrastructure Task Force

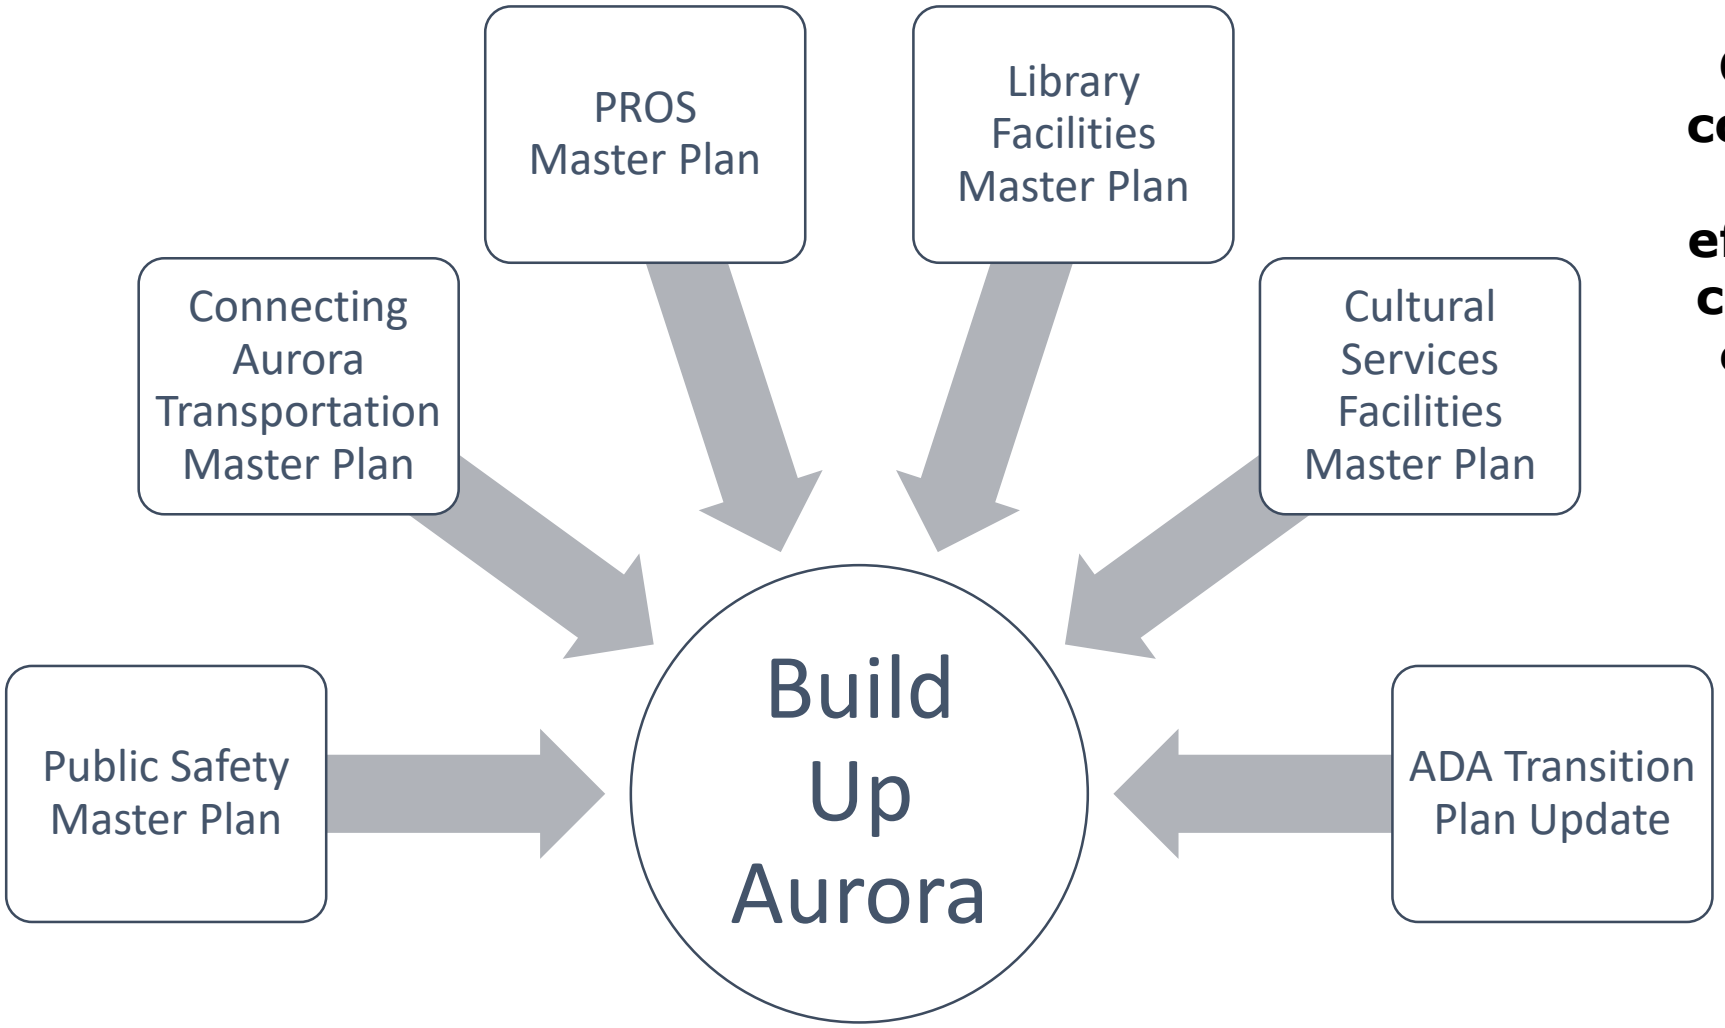
Approved unanimously by City Council in July 2024, the Build Up Aurora Infrastructure Task Force looked at long-term solutions for projects ranging from public safety and transportation to parks, libraries, recreation and accessibility, and it will continue to seek community input and support.

Members

Council Member Curtis Gardner, co-chair
Council Member Françoise Bergan, co-chair
Ray Barnes, former Aurora Fire Rescue Chief
Joel Boyd, Town Center at Aurora
Steve Coffin, Steve Coffin Strategies
Naomi Colwell, Aurora Chamber of Commerce
Rita Connerly, Fairfield and Wood, P.C.
Bruce Dalton, Visit Aurora
Ryan Frazier, Frazier Global
Jeff Knight, Hispanic Contractors of Colorado (HCC)/ JKS Industries
Wendy Mitchell, Aurora Economic Development Council
Jason Wardrip, Colorado Building and Construction Trades Council

Infrastructure Task Force

- Develop a **short-term, mid-term, and long-term phased strategic plan** for the efficient allocation of resources to support city capital improvement needs.
- Establish **criteria for prioritizing city infrastructure needs** based on factors such as urgency, impact, feasibility, alignment with strategic goals and prioritization based on community needs.
- Foster **effective communication and collaboration** with internal and external stakeholders, including business and community groups, industry partners, and the public.
- **Engage with Aurora residents** through a variety of methods to understand their infrastructure needs, preferences, and concerns, and incorporate their input into recommendations.
- **Review funding options** that support sustainable infrastructure development and ongoing capital maintenance.



Build Up Aurora Process – Core Tenets

- Strategic Capital Planning
- Public Engagement
- Transparency
- Fiscal Responsibility

- ✓ Incorporated recommendations of capital master planning efforts that included community engagement.
- ✓ Two years of public and stakeholder engagement to understand what capital projects the community cares about most.
- ✓ Review of existing funding sources to understand capacity to fund priority capital needs.
- ✓ Citywide technical project evaluation (scope, schedule, budget)
- ✓ Information shared publicly through each stage of process (EngageAurora.org/BuildUpAurora)

Build Up AURORA
Care for What We Have
Provide for What We Need

Capital Master Planning Efforts

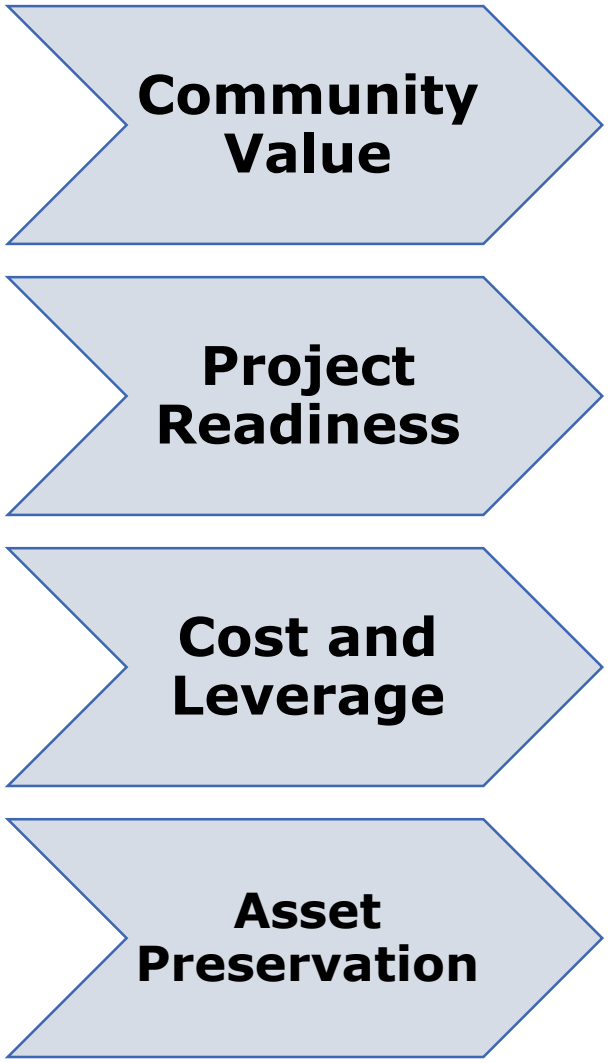
City has undertaken comprehensive capital master planning efforts to evaluate the city's capital needs to enhance capital and financial planning.

Draft 10-Year Capital Improvement Master Plan

Transportation Infrastructure $596.2M

Parks, Recreation and Open Space $255.7M

Libraries, Arts and Culture $84.0M



Other City Facilities $246.5M

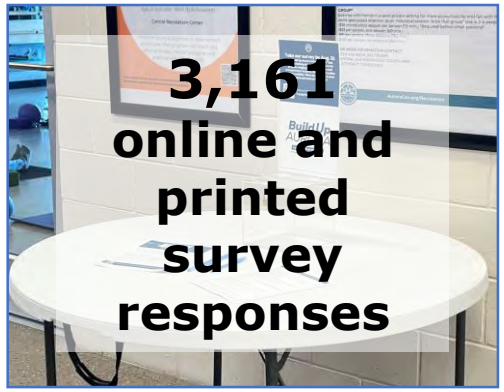
Public Safety $900M

- **$2.08 billion in capital needs identified in draft 10-Year Capital Improvement Master Plan***
- **Consists of projects that exceed what the city can afford to complete in its annual budget**

**Estimated project cost subject to change. Estimated costs represent total cost (not including land acquisition where applicable) and do not represent phasing options.*

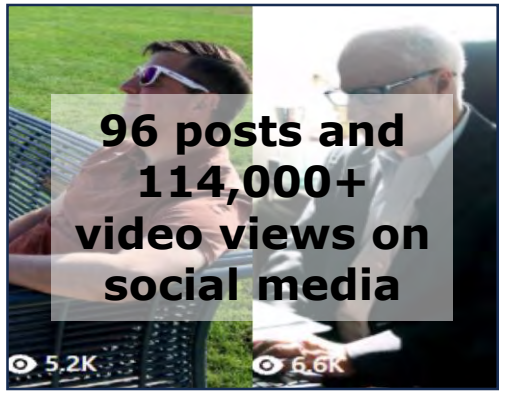
Capital Project Prioritization Framework: Community Informed and Technically Sound

Prioritization of capital project needs help ensure capital resources are invested responsibly, focusing first on projects that:

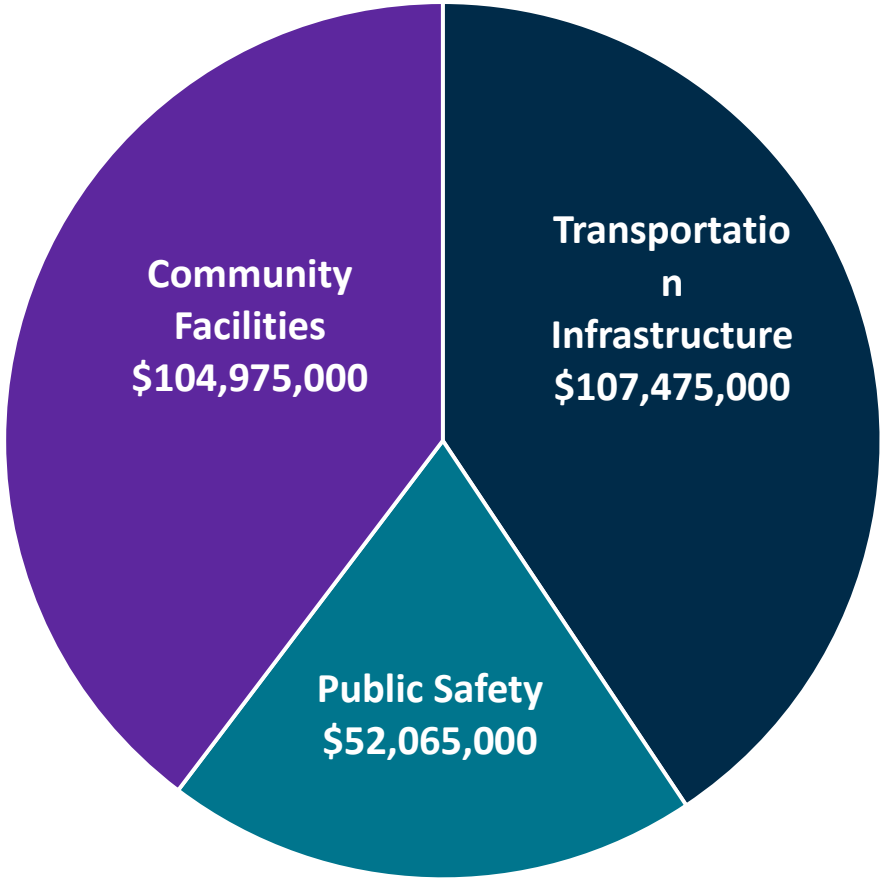


- Deliver the greatest public benefit
- Are ready to move forward
- Address the most critical needs
- Plan thoughtfully for future city needs

2025-26 Public Outreach Overview



Build Up AURORA
Care for What We Have
Provide for What We Need



Bond Program Parameters

- Address key infrastructure needs and service gaps valued by the community
- Fund critical projects now to avoid higher future costs
- Maximize existing funding to reduce borrowing needs
- Balance operating costs and affordability of new facilities
- Create a flexible financial plan to meet ongoing capital needs.

Proposed 2026 Bond Program

2026 Bond Proposed Project Totals

- **Total Project Value*: $264,515,000**
- More than **65 distinct projects**
- Provides comprehensive funding approach to address capital improvements and repairs in each purpose.
- Leverages over **$44M** in existing capital funding

Bond Purpose	Amount	Sales and Use Tax Rate
Transportation Infrastructure	$107,475,000	0.132%
Public Safety	$52,065,000	0.064%
Community Facilities	$104,975,000	0.129%
	$264,515,000	**0.325%**

**Includes $7.595M in purpose contingency funding*

Build Up AURORA
Care for What We Have Provide for What We Need

Transportation Infrastructure

Project Name	Funding Amount	Ward
Transportation Infrastructure		
Transportation Safety Improvements	$ 25,000,000	All Wards
Gun Club Road (Quincy to Aurora Parkway)	$ 34,000,000	VI
Peoria over Sand Creek Bridge Replacement	$ 37,000,000	I
High Priority Sidewalk Improvements	$ 7,000,000	I, II, III, IV
Aurora Reservoir Transportation Improvements	$ 1,000,000	VI
Purpose Contingency	*$ 3,475,000*	
Transportation Infrastructure Total	**$ 107,475,000**	

Key Project Facts

- **47 distinct capital projects**
- 30 traffic, intersection, and pedestrian safety projects across the city
- 13 high priority missing sidewalks
- Replacement of the city's oldest bridge built in 1966
- New improvements at the Aurora Reservoir to improve access

Public Safety

Project Name	Funding Amount	Ward
Public Safety		
Police Station Facility Capital Improvements	$ 8,500,000	I, II, VI
Aurora 911 Facility Capital Improvements	$ 2,000,000	VI
Fire Station 19 Construction	$ 13,700,000	VI
Fire Station 2 Renovation	$ 8,020,000	I
Fire Station Facility Capital Improvements	$ 8,500,000	IV, V
Fire Station 3 Renovation	$ 10,000,000	I
Purpose Contingency	*$ 1,345,000*	
Public Safety Total	**$ 52,065,000**	

Key Project Facts

- Improvements at all police and fire stations
- Improvements and renovations at the Aurora 911 Tallyns Reach facility
- 2 fire station renovations
- New fire station to address response times in southeast Aurora

Community Facilities

Project Name	Funding Amount	Ward
Community Facilities		
Neighborhood Park Renovations	$ 28,000,000	All Wards
Aurora Center for Active Adults Renovation	$ 5,000,000	III
Recreation Facilities Capital Improvements	$ 3,700,000	I, IV, V, VI
New Northeast Aurora Recreation Center	$ 36,500,000	II
Master Planned Parks Construction	$ 5,000,000	V
Central Library Branch Remodel	$ 4,000,000	III
Mission Viejo Library Branch Remodel	$ 5,000,000	V
New Northeast Aurora Library Branch	$ 15,000,000	II
Purpose Contingency	*$ 2,775,000*	
Community Facilities Total	**$ 104,975,000**	

Key Project Facts

- 7 neighborhood park renovations
- Renovation of the Aurora Center for Active Adults built in 1980
- Construction of Central Community Park (Phase 1)
- 2 library branch renovations
- Construction of a new recreation center and library to serve northeast Aurora

Proposed 2026 Ballot Questions

Total Project Value*: $264,515,000

- More than **65 distinct projects**
- Companion resolution will designate projects and level of funding to be undertaken with proceeds of bonds if authorized by voters
- 0.325% sales and use tax increase recommended (prorated across three categories) to provide financial capacity to issue bonds

Ballot Question/Purpose	Est. Par Amount (Principal)	Total Repayment Cost (Principal + Interest)*	Sales and Use Tax Rate	
Transportation Infrastructure	$107,475,000	$209,733,000	0.132%	*1.3 cents/$10*
Public Safety	$52,065,000	$101,600,000	0.064%	*0.6 cents/$10*
Community Facilities	$104,975,000	$204,870,000	0.129%	*1.3 cents/$10*
Aggregate of Three Questions/Issuances*	**$264,515,000**	**$516,203,000**	**0.325%**	*3.25 cents/$10*

**Estimated repayment cost includes additional capacity to support interest rate volatility*

Proposed 2026 Financing Structure

- Debt authorized under the 2026 bond program will be issued over time
  - *Each bond issuance requires approval by City Council*

- Proposed key terms for 2026 bond program:
  - Bonds will be secured by dedicated sales and use tax
  - Allows future bonding capacity without raising taxes (potential 2031/2032 authorization)
  - Max term for bonds and sales and use tax increases not to exceed 30-years
  - Reserves

- Strong credit rating supports favorable financing terms

- Sales and use tax increases are forecasted to exceed annual debt service, with surplus funding purposed to fund:
  - Additional capital improvements and repairs
  - Bond program and project management services

On April 16, 2025, the Water Policy Committee supported the fourth Amendment to an Intergovernmental Agreement for Drainage and Flood Control improvements for the Cherry Creek Restoration at Arapahoe Road and forwarded to Regular Session.

On May 05, 2025, the City Council of the City of Aurora approved an Amendment to an Intergovernmental Agreement for Drainage and Flood Control Improvements for the Cherry Creek Restoration at Arapahoe Road as item 10.a.9.

Om May 20, 2026, the Water Policy Committee supported the fifth Amendment to an Intergovernmental Agreement for Drainage and Flood Control improvements for the Cherry Creek Restoration at Arapahoe Road and forwarded to Regular Session

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

Background: In 2004, the Mile High Flood District (MHFD) and Aurora completed a Master Drainageway Plan for the Cherry Creek Basin Upstream of the Cherry Creek reservoir. The Master Plan identified the need for bank stabilization and grade control to mitigate significant erosion concerns. Since that time, some grade control structures have been installed and portions of the reach have been improved. However, there is still significant erosion occurring in several other locations within the channel between the Cherry Creek Soccer Complex and the confluence with Piney Creek.

Scope:
The Scope of this Intergovernmental Agreement (IGA) is to identify ways to mitigate the erosion in the remaining portions of the channel. Future amendments will be required to complete mitigation design, and to construct identified projects.

Cost:
MHFD requested that all participating parties contribute to this study. Based on tributary area, Aurora previously contributed $650,000.00, the Mile High Flood District contributed $925,000.00, the Southeast Metro Stormwater Authority (SEMSWA) contributed $370,000.00 and the Cherry Creek Basin Water Quality Authority (CCBWQA) contributed $635,000.00. This amendment increases each party's contribution to complete the design portion of the project. MHFD and Aurora have increased their contribution by $400,000.00 and SEMSWA and CCWQBA have increased their contribution by $200,000.00. These contributions will complete the design portion of the project and funding for the construction phase will be presented in future amendments.

In addition to these funds, the District identified a previous project account from 2015 with an identical scope and thus was able to transfer the remaining project funds to the project including $90,513.66 from Aurora, $115,276.50 from MHFD, $1,790.74 from SEMSWA, and $81,247.40 from CCBWQA. This transfer was approved in the second amendment in 2023.

	Previous Contribution	Previous Special Transfer	Contribution through this Amendment	Total Contribution
MHFD	$1,325,000.00	$115,276.50	$ 400,000.00	$1,840,276.50
Aurora	$ 650,000.00	$ 90,513.66	$ 400,000.00	$1,140,513.66
SEMSWA	$ 570,000.00	$ 1,790.74	$ 200,000.00	$ 771,790.74
CCBWQA	$ 835,000.00	$ 81,247.40	$ 200,000.00	$1,116,247.40
TOTAL	$3,380,000.00	$288,828.30	$1,200,000.00	$4,868,828.30

Further Amendments are anticipated as the project advances to detailed design and the construction phase.

FISCAL IMPACT

Select all that apply. (If no fiscal impact, click that box and skip to "Questions for Council")

☐ Revenue Impact ☒ Budgeted Expenditure Impact ☐ Non-Budgeted Expenditure Impact
☐ Workload Impact ☐ No Fiscal Impact

REVENUE IMPACT
Provide the revenue impact or N/A if no impact. (What is the estimated impact on revenue? What funds would be impacted? Provide additional detail as necessary.)

N/A

BUDGETED EXPENDITURE IMPACT

Provide the budgeted expenditure impact or N/A if no impact. (List Org/Account # and fund. What is the amount of budget to be used? Does this shift existing budget away from existing programs/services? Provide additional detail as necessary.)

Funding for this Intergovernmental Agreement Amendment is available in the Wastewater Fund capital budget in the amount of $400,000.

QUESTIONS FOR COUNCIL

Does Council approve a Resolution in support of an Intergovernmental Agreement between the City of Aurora Colorado, acting by and through its Utility Enterprise, the Urban Drainage and Flood Control District, d/b/a Mile High Flood District, Southeast Metro Stormwater Authority, the Cherry Creek Basin Water Quality Authority, and Arapahoe County regarding final design, right-of-way acquisition, and construction of drainage and flood control improvements for Cherry Creek restoration at Arapahoe Road?

LEGAL COMMENTS

The City is authorized to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government (Article XIV of the Colorado Constitution and C.R.S. 29-1-203). The City Charter authorizes the City by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment or facilities or for furnishing or receiving commodities and services. (Charter Section 10-12). (Best)

RESOLUTION NO. R2026- ____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF THE FIFTH AMENDMENT TO AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, SOUTHEAST METRO STORMWATER AUTHORITY, THE CHERRY CREEK BASIN WATER QUALITY AUTHORITY, AND ARAPAHOE COUNTY REGARDING FINAL DESIGN, RIGHT-OF-WAY ACQUISITION, AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR CHERRY CREEK RESTORATION AT ARAPAHOE ROAD

WHEREAS, the City of Aurora, acting by and through its Utility Enterprise ("Aurora Water"), the Urban Drainage and Flood Control District d/b/a Mile High Flood District ("District"), Southeast Metro Stormwater Authority ("SEMSWA"), the Cherry Creek Basin Water Quality Authority ("CCBWQA"), and Arapahoe County ("Arapahoe") have agreed to further fund and proceed with the design, right-of-way acquisition, and construction of drainage and flood control improvements for Cherry Creek restoration at Arapahoe Road; and

WHEREAS, the project costs funded through this amendment to the Intergovernmental Agreement Amendment include final design services, delineation and description and acquisition of right of way and easements, construction of improvements and necessary contingencies ("Project Costs"); and

WHEREAS, Aurora Water shall make an additional financial contribution to the Project Costs through this fifth amendment; and

WHEREAS, a summary of Project Cost contributions to date is set forth in the table below:

	Previous Contribution	Previous Special funds Transfer	Contribution through this Amendment	Total Contribution
District	$1,325,000	$115,276.50	$400,000	$1,840,276.50
Aurora Water	$650,000	$90,513.66	$400,000	$1,140,513.66
SEMSWA	$570,000	$1,790.74	$200,000	$771,790.74
CCBWQA	$835,000	$81,247.40	$200,000	$1,116,247.40
TOTAL	$3,380,000	$288,828.30	$1,200,000	$4,868,828.30

; and

WHEREAS, the work performed pursuant to the Intergovernmental Agreement and this amendment is necessary for the health, safety, and welfare of the people of Aurora; and

WHEREAS, the City is authorized, pursuant to Article XIV of the Colorado Constitution and Section 29-1-203 of the Colorado Revised Statutes, to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government; and

WHEREAS, Section 10-12 of the City Charter authorizes the City by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment or facilities or for furnishing or receiving commodities and services.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, THAT:

Section 1. The fifth amendment to the Intergovernmental Agreement between the City of Aurora, the District, SEMSWA, CCBWQA, and Arapahoe regarding final design, right-of-way acquisition, and construction of drainage and flood control improvements for Cherry Creek Restoration at Arapahoe Road is hereby approved.

Section 2. The Mayor and City Clerk are hereby authorized to execute the attached agreement in substantially the form presented at this meeting with such technical additions, deletions, and variations as may be deemed necessary or appropriate by the City Attorney.

Section 3. All resolutions or parts of resolutions of the City in conflict herewith are hereby rescinded.

RESOLVED AND PASSED this _____ day of _____ 2026.

FIFTH AMENDMENT TO
AGREEMENT REGARDING
FINAL DESIGN, RIGHT-OF-WAY ACQUISITION, AND CONSTRUCTION
OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR
CHERRY CREEK RESTORATION AT ARAPAHOE ROAD

Agreement No. 21-06.17E
Project No. 108670

THIS FIFTH AMENDMENT TO AGREEMENT (hereinafter called "FIFTH AMENDMENT"), by and between URBAN DRAINAGE AND FLOOD CONTROL DISTRICT D/B/A MILE HIGH FLOOD DISTRICT (hereinafter called "DISTRICT") and CITY OF AURORA, Colorado, a Colorado home rule municipal corporation of the counties of Adams, Arapahoe, and Douglas acting by and through its Utility Enterprise (hereinafter called "CITY"); SOUTHEAST METRO STORMWATER AUTHORITY (hereinafter called "SEMSWA"); CHERRY CREEK BASIN WATER QUALITY AUTHORITY (hereinafter called "CCBWQA") and collectively known as "PARTIES"; and ARAPAHOE COUNTY, Colorado (hereinafter called "Arapahoe County") ONLY as to Paragraphs 10 and 11 of the original AGREEMENT;

WITNESSETH:

WHEREAS, PARTIES have entered into " Agreement Regarding Final Design, Right-of-Way Acquisition and Construction of Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road " (Agreement No. 21-06.17) dated December 21, 2021, as amended (hereinafter called "AGREEMENT"); and

WHEREAS, PARTIES now desire to proceed with the design, right-of-way acquisition and construction of drainage and flood control improvements for Cherry Creek Restoration at Arapahoe Road (hereinafter called "PROJECT"); and

WHEREAS, PARTIES desire to increase the level of funding by $1,200,000; and

WHEREAS, DISTRICT's Board of Directors has authorized additional DISTRICT financial participation for PROJECT (Resolution No. ___, Series of 2026); and

WHEREAS, the City Council of City; Board of Directors of SEMSWA; Board of Directors of CCBWQA; and the Board of Directors of DISTRICT have authorized, by appropriation or resolution, all of PROJECT costs of the respective PARTIES.

NOW, THEREFORE, in consideration of the mutual promises contained herein, PARTIES hereto agree as follows:

1. Paragraph 4. PROJECT COSTS AND ALLOCATION OF COSTS is deleted and replaced as follows:

4. PROJECT COSTS AND ALLOCATION OF COSTS

A. PARTIES agree that for the purposes of this AGREEMENT, PROJECT costs shall consist of and be limited to the following:

1. Final design services;

2. Delineation, description and acquisition of required rights-of-way/ easements;
3. Construction of improvements;
4. Contingencies mutually agreeable to PARTIES.

B. It is understood that PROJECT costs as defined above are not to exceed $4,868,828.30 without amendment to this AGREEMENT.

PROJECT costs for the various elements of the effort are estimated as follows:

	ITEM	AS AMENDED	PREVIOUSLY AMENDED
1.	Final Design	$ 1,000,000	$ 1,000,000
2.	Right-of-way	$ -0-	$ -0-
3.	Construction	$ 3,668,828.30	$ 2,468,828.30
4.	Contingency	$ 200,000	$ 200,000
	Grand Total	$ 4,868,828.30	$ 3,668,828.30

* It is anticipated that additional funding for construction will be added through future amendments.

This breakdown of costs is for estimating purposes only. Costs may vary between the various elements of the effort without amendment to this AGREEMENT provided the total expenditures do not exceed the maximum contribution by all PARTIES plus accrued interest.

C. At the request of the CITY, SEMSWA, and CCBWQA, the following CITY, SEMSWA, CCBWQA, and DISTRICT funds pursuant to a prior amendment have been transferred to PROJECT from a separate special fund held by DISTRICT: Transfer from: Cherry Creek at Arapahoe Road; Project No. 100407; Account No. 5603; Agreement No. 12-08.04 Amendment E; Amount: $288,828.30.

D. Based on total PROJECT costs, the maximum percent and dollar contribution by each party shall be:

	Percentage Share	Previously Contributed	Special Funds Transfer from Account No. 5603	Additional Contribution	Maximum Contribution
DISTRICT Special Funds Transfer	37.80%	$1,325,000	$115,276.50	$400,000	$1,840,276.50
CITY Special Funds Transfer	23.42%	$650,000	$90,513.66	$400,000	$1,140,513.66
SEMSWA Special Funds Transfer	15.85%	$570,000	$1,790.74	$200,000	$771,790.74
CCBWQA Special Funds Transfer	22.93%	$835,000	$81,247.40	$200,000	$1,116,247.40
TOTAL	100.00%	$3,380,000	$288,828.30	$1,200,000	$4,868,828.30

E. DISTRICT Acknowledges that (i) CCBWQA does not by this Agreement irrevocably pledge present cash reserves for payments in future fiscal years, and (ii) It is understood and agreed that notwithstanding any other provision contained herein to the contrary, any additional contribution obligation of CCBWQA hereunder, whether direct or contingent, shall extend only to funds duly and lawfully appropriated and encumbered by the Board of Directors of CCBWQA for the purposes of the Agreement, and paid into the Treasury of CCBWQA, and shall under no circumstances exceed $1,116,247.40 without CCBWQA's prior express written consent.

2. Paragraph 5. MANAGEMENT OF FINANCES is deleted and replaced as follows:

5. MANAGEMENT OF FINANCES

As set forth in DISTRICT policy (Resolution No. 11, Series of 1973, Resolution No. 49, Series of 1977, and Resolution No. 37, Series of 2009), the funding of a local body's one-half share may come from its own revenue sources or from funds received from state, federal or other sources of funding without limitation and without prior DISTRICT approval. Payment of each PARTY's full share (CITY - $1,140,513.66; SEMSWA - $771,790.74; CCBWQA - $1,116,247.40; DISTRICT - $1,840,276.50), to the extent not previously paid, shall be made to DISTRICT subsequent to execution of this AGREEMENT and within 30 days of request for payment by DISTRICT. The payments by PARTIES shall be held by DISTRICT in a special fund to pay for increments of PROJECT as authorized by PARTIES, and as defined herein. DISTRICT shall provide a periodic accounting of PROJECT funds as

well as a periodic notification to PARTIES of any unpaid obligations. Any interest earned by the monies contributed by PARTIES shall be accrued to the special fund established by DISTRICT for PROJECT and such interest shall be used only for PROJECT upon approval by the contracting officers (Paragraph 13).

Within one year of completion of PROJECT if there are monies including interest earned remaining which are not committed, obligated, or disbursed, each party shall receive a share of such monies, which shares shall be computed as were the original shares; or at CITY, SEMSWA, and CCBWQA request, CITY, SEMSWA, or CCBWQA share of remaining monies shall be transferred to another special fund held by DISTRICT.

3. All other terms and conditions of this AGREEMENT shall remain in full force and effect.

WHEREFORE, PARTIES hereto have caused this FIFTH AMENDMENT to be executed by properly authorized signatories as of the date and year written below.

Mile High Flood District IGAs

Agreements between MHFD and Aurora 2026
Cherry Creek Stream Restoration at Arapahoe Road

Cherry Creek Stream Restoration at Arapahoe Road

- The last master plan for this area was completed in 2004, only some of the capital projects have been constructed.
- Project Details
  - Identify, design and construct a project to address worsening erosion.

Cherry Creek Stream Restoration at Arapahoe Road

	Previous share	Transfer	This amendment contribution	Total
MHFD	$1,325,000	$115,276.50	$400,000	$1,840,276.50
City of Aurora	$650,000	$90,513.66	$400,000	$1,140,513.66
SEMSWA	$570,000	$1,790.74	$200,000	$771,790.74
CCBWQA	$835,000	$81,247.40	$200,000	$1,116,247.40
Total	$3,380,000	$288,828.30	$1,200,000	$4,868,828.30

- Aurora Water's total contribution is approximately 20% of the total funds.
- Other agencies are increasing their share in this and future amendments.

Cherry Creek Stream Restoration at Arapahoe Road

Does the Water Policy Committee support moving this item forward to Regular Council?

Water Policy Committee (WPC) Meeting
October 20, 2021

Members Present: Council Member Crystal Murillo Chair; Council Member Allison Hiltz Vice Chair (Absent); Council Member Alison Coombs

Others Present: Leiana Baker, Casey Rossman, Jo Ann Giddings, Steve Sciba, Laura Perry, Sam Miller, Janet Marlow (CWAC), Sarah Young, Marshall Brown, Christine McKenney, Alex Davis, Ian Best, Angie Binder (CWAC), Ted Hartfelder, Rick Kienitz, John Murphy, Stephanie Neitzel, Swirvine Nyirenda, Jeffrey Sipes, Gail Thrasher

---

1. Approval of Minutes

The September 7, 2021, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Summary Report
B. Monthly Water Supply Update

Summary of Issue and Discussion: Council Member Coombs stated, it looks like we're doing ok in the Arkansas and Colorado basins. What is on the horizon with the Colorado River. M. Brown replied, there was a shortage declaration and that triggered some reductions primarily in Arizona and concerns in Nevada. Most of our water comes from the South Platte Basin. Council Member Coombs stated, if we are expected to reduce our use from the Colorado River what would we do? M. Brown replied, about 20% of our supply comes from the Colorado River. We can take water from the Prairie Waters System and we can add further restrictions to outdoor watering.

Outcome: The Consent items were supported as presented.

Follow-Up Action: The Consent items were supported as presented.

---

3. Citizens' Water Advisory Committee Quarterly Update

Summary of Issue and Discussion: J. Marlow gave an overview of the quarterly update.

- Kathy Kitzmann gave an update on state bills.
- Virtual water tour presentation.
- 2022 Budget presentation.
- Water tour was cancelled for this year.
- SEAM building update.
- Rocky Ford tour.
- Engage Aurora website presentation.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

4. Amendment to an Intergovernmental Agreement (IGA) with the City and County of Denver regarding the Gateway Lift Station

Summary of Issue and Discussion S. Young stated, the need to amend the 2018 IGA is to reflect the Gateway Lift Station's actual baseline capacity and anticipated capacities associated with the proposed phased capacity movements.

Outcome: The Committee supports the Amendment to an Intergovernmental Agreement (IGA) regarding the Gateway Lift Station and forwarded to Regular Session for consideration.

Follow-Up Action: The Committee supports the Amendment to an Intergovernmental Agreement (IGA) regarding the Gateway Lift Station and will forward to Regular Session for consideration.

---

5. Intergovernmental Agreement (IGA) regarding the Design and Construction and Flood Improvements for Cherry Creek Restoration at Arapahoe Road

Summary of Issue and Discussion S. Miller stated, this IGA is to identify ways to mitigate the erosion in the remaining portions of channel and to complete a design for those mitigation measures.

Council Member Coombs asked, what is the cost percentages between the entities? S. Miller replied, we expect the percentages to increase next year. S. Young added, it depends on the entities that are involved in the project determines the percentages.

Outcome: The Committee supports the Intergovernmental Agreement (IGA) regarding the Design and Construction and Flood Improvements for Cherry Creek Restoration at Arapahoe Road and forwarded to Study Session for consideration.

Follow-Up Action: The Committee supports the Intergovernmental Agreement (IGA) regarding the Design and Construction and Flood Improvements for Cherry Creek Restoration at Arapahoe Road and will forward to Study Session for consideration.

---

6. Resolution approving an Intergovernmental Agreement (IGA) between the City of Aurora and the United States Department of Agriculture Animal and Plant Health Inspection Service

Summary of Issue and Discussion: A. Davis stated, this agreement would ensure Rocky Ford Ditch lands would continue to remain in compliance with the Water Court Decrees. The agreement would target areas where the native grass is most threatened and areas where there are neighboring farmlands in danger of being overrun and damaged by prairie dogs.

Council Member Murillo asked, are we exterminating the prairie dogs? A. Davis replied, yes. It is very difficult action to take. Not all prairie dogs will be exterminated. and some will be moved, however, we are not able to move them all. There are limited options regarding this. Council Member Coombs asked, is the issue that there are too many to move? A. Davis replied, yes. The population has grown so much that not all the prairie dogs can be moved. We are required by

decree to keep the revegetation of the native grasses. M. Brown added, we did try some alternative ideas years ago and they didn't work. Council Member Murillo stated, there is a study of non-lethal evacuations regarding prairie dogs. M. Brown replied, we're happy to look at other options. Council Members and staff agree that this is a difficult decision and continue to look for other alternatives. Council Member Murillo stated, is there a timeline, within the next month? A. Davis replied, there is a certain time of the year when the process happens that is more humane and helps to ensure that other wildlife will not be impacted. The item will go to Study Session November 15.

Outcome: The Committee supports moving this Resolution of the Intergovernmental Agreement between the City of Aurora and the United States Department of Agriculture Animal and Plant Health Inspection Service to Study Session for consideration.

Follow-Up Action: The Committee supports moving this Resolution of the Intergovernmental Agreement between the City of Aurora and the United States Department of Agriculture Animal and Plant Health Inspection Service to Study Session for consideration.

---

7. Northeast Aurora Potable Water Pipeline Project and Front Range Airport

Summary of Issue and Discussion: S. Young stated, the Aurora Water Department completed the Integrated Water Master Plan (IWMP) in 2016. The IWMP identified a potable water pipeline extension to Northeast Aurora by 2025. The pipeline will provide service along the 26th Avenue corridor, service to the Transport development (dba Port Colorado) and a tie-in location for the Front Range Airport (FRA dba Colorado Air and Space Port (CASP)) to meet the obligations under the existing water services agreement.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: None.

Outcome: N/A

Follow-Up Action: N/A

---

9. Confirm Next Meeting

The next meeting is scheduled for November 17, 2021, 9:00 a.m. via WebEx.

X Crystal Murillo
Crystal Murillo (Nov 22, 2021 18:25 MST)

Chair, Water Policy Committee

MINUTES

Regular Meeting of the **Aurora City Council**
Monday, November 22, 2021

1. **RECONVENE REGULAR MEETING OF NOVEMBER 22, 2021, CALL TO ORDER**

Mayor Coffman reconvened the regular meeting of City Council for November 22, 2021, at 6:30 p.m.

2. **ROLL CALL**– Kadee Rodriguez, City Clerk

COUNCIL MEMBERS PRESENT: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

Call-in instructions were provided in both English and Spanish.

3. **INVOCATION/MOMENT OF SILENCE** – Mike Coffman, Mayor

4. **PLEDGE OF ALLEGIANCE** (all standing)

5. **EXECUTIVE SESSION UPDATE**

Mayor Coffman stated legal advice was discussed in Executive Session.

6. **APPROVAL OF MINUTES**

6.a. September 13, 2021, Meeting Minutes

Motion by Bergan, second by Coombs, to approve the minutes of the September 13, 2021, City Council meeting, as presented.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson Marcano, Murillo

6.b. October 11, 2021, Meeting Minutes

Motion by Coombs, second by Lawson, to approve the minutes of the October 11, 2021, City Council meeting, as presented.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson Marcano, Murillo

6.c. October 25, 2021, Meeting Minutes

Motion by Berzins, second by Bergan, to approve the minutes of the October 25, 2021, City Council meeting, as presented.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson Marcano, Murillo

7. PROCLAMATIONS OR CEREMONIES

7.a. Small Business Saturday

Mayor Coffman read the proclamation declaring November 27, 2021 as Small Business Saturday.

8. PUBLIC INVITED TO BE HEARD

(non-agenda related issues only)

Council heard public call-in testimony on non-agenda related items.

9. ADOPTION OF THE AGENDA

Motion by Bergan, second by Berzins, to approve the agenda.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

10. CONSENT CALENDAR

This portion of the agenda is a meeting management tool to allow the City Council to handle several routine items with one action. Any member of the Council may request an item to be removed from the Consent Calendar and considered separately. Any item removed will be considered immediately following the adoption of the remainder of the Consent Calendar

10.a. Consideration to AWARD A SINGLE SOURCE CONTRACT to Liberty Industrial Group, Inc., Arvada, Colorado in the amount of $318,855.00 for the Binney Water Purification Facility Sodium Hydroxide Tank Rehabilitation (Phase 2) Project.

Elizabeth Carter, Principal Engineer, Aurora Water / Ian Best, Assistant City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

10.b. Consideration to APPROVE A PROFESSIONAL SERVICES AGREEMENT IN THE AMOUNT OF $112,000 IN 2022 between the city of Aurora, and Aurora Sister Cities International

Ricardo Gambetta, Manager of the Office of International and Immigrant Affairs / Hanosky Hernandez, Assistant City Attorney

Outside Speaker: Karlyn Shorb, Executive Director, Aurora Sister Cities International

10.c. Consideration to AWARD AN OPENLY SOLICITED contract to Saunders Construction, Englewood, Colorado in the amount of $6,138,838.00 for the Work Package 4 of the Southeast Aurora Maintenance (SEAM) Facility Project, Project No. R-5661

Waiver of reconsideration requested due to market conditions and material procurement lead times.

Andrea Long, Senior Engineer, Aurora Water / Brian Rulla, Assistant City Attorney

10.d. Consideration to Award a Single Source Contract to Innovest Portfolio Solutions LLC in the amount of $64,500 for investment advisory consulting services associated with the City's 457 and 401(a) plans through December 31, 2022

Nancy Wishmeyer, Controller / Hanosky Hernandez, Assistant City Attorney

10.e. Consideration to AWARD A SINGLE SOURCE CONTRACT to AM Signal, LLC., Littleton, Colorado in the amount of $134,376.96 for the purchase of twenty-four (24) TrafiSense 2 Thermal Sensors and Video Detectors and related components.

Staff requests a waiver or reconsideration as these detection cameras are needed urgently to maintain functionality of the City's traffic signals as maintenance stock is low and the lead time on these cameras is 6 months due to current industry wide supply chain issues.

Carlie Campuzano, Traffic Manager, Public Works / Ian Best, Assistant City Attorney

10.f. Consideration to EXTEND A COMPETITIVELY BID CONTRACT to Liberty Waste Management, Englewood, Colorado in the not-to-exceed amount of $80,600.00 for portable toilet rental services required through November 30, 2022.

John Wesolowski, Manager of Parks and Forestry / Ian Best, Assistant City Attorney

10.g. Consideration to AWARD A COMPETITIVELY BID CONTRACT to Keesen Landscape Management, Inc., Englewood, Colorado in the not-to-exceed amount of $210,000.00 for abatement services as required through March 31, 2022. (B-4543)

Sandra Youngman, Manager of Code Enforcement / Ian Best, Assistant City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

10.h. Consideration to AWARD A SINGLE SOURCE CONTRACT to Accurate Legal Support Services, LLC, Littleton, Colorado in the not-to-exceed amount of $88,600.00 for subpoena process services as required through December 31, 2022. (B-4630)

Julie Heckman, Deputy City Attorney / Ian Best, Assistant City Attorney

Motion by Bergan, second by Hiltz, to approve items 10a – 10h.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

10.i. Consideration to AWARD A SOLE SOURCE CONTRACT to ZETX Inc., Chandler, AZ in the amount of $239,986.58 to purchase two each Drive Test Scanner Suites for the Police RAVEN Task Force

Chief Vanessa Wilson, Police / Megan Platt, Asst. City Attorney

Acting Division Chief Mark Hildebrand, Aurora Police, provided a summary of the item.

Council Member Marcano asked staff to speak to the City's fiduciary responsibility in this regard. Acting Division Chief Hildebrand did so. Council Member Marcano stated his understanding the item made efforts more efficient but did not do anything the police could not already do.

Acting Division Chief Hildebrand concurred.

Council Member Coombs stated her understanding the item did not violate anyone's privacy rights and it did not secure anyone's data.

Acting Division Chief Hildebrand concurred.

Council Member Hiltz suggested a larger Data Governance policy should be created for the City going forward.

Motion by Marcano, second by Bergan, to approve item 10i.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

10.j. Consideration to AWARD CHANGE ORDER #1 TO AN OPENLY SOLICITED CONTRACT to J. Brower Psychological Services, Denver, CO in the total amount of $110,000.00 to provide psychological counseling services for the Aurora Police Dept. through 5/31/2022. (R-2081)

Chief Vanessa Wilson, Police / Ian Best, Asst. City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Motion by Bergan, second by Hiltz, to approve item 10j.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

Mayor Coffman called for a brief recess of Council to allow staff to provide public call-in instructions.

COLORADO, APPROVING THE 2022 OPERATING PLAN AND BUDGET FOR THE WINDLER BUSINESS IMPROVEMENT DISTRICT NO.2

Carol Toth, Manager of Accounting, Finance / Hans Hernandez Perez, Assistant City Attorney

Motion by Gardner, second by Lawson, to approve item 11g.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

11.h. 2022 Operating Plan and Budget for the Citadel on Colfax Business Improvement District

R2021-135 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE 2022 OPERATING PLAN AND BUDGET FOR THE CITADEL ON COLFAX BUSINESS IMPROVEMENT DISTRICT

Carol Toth, Manager of Accounting, Finance / Hans Hernandez Perez, Assistant City Attorney

Council Member Murillo referenced p. 4 and noted there were two serving and three vacant positions on the board and asked staff if that was common. Ms. Wishmeyer answered no. Council Member Murillo asked if a vacancy like this has been seen before with this group. Ms. Wishmeyer answered affirmatively. Council Member Murillo asked when that occurred. Ms. Wishmeyer stated it was noted last year when the item was reviewed. Council Member Murillo expressed concerns that there were only two out of five board members making these decisions.

Motion by Bergan, second by Berzins, to approve item 11h.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

11.i. 2022 Operating Plan and Budget for the Fitzsimons Business Improvement District

11.k. Property Negotiations - Solar Lease at NE Corner of 6th Ave and Tower Road

R2021-138 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE LEASE OF CITY OWNED LAND CONTAINING APPROXIMATELY 43.6 ACRES FOR A SOLAR GARDEN PROJECT AT THE NORTHEAST CORNER OF 6TH AVENUE AND TOWER ROAD

Karen Hancock, Principal Planner / Michelle Gardner, Senior Assistant City Attorney

Karen Hancock, Principal Planner, provided a summary of the item.

Motion by Coombs, second by Gardner, to approve item 11k.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

11.l. Rocky Ford Land Management IGA

R2021-139 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE COOPERATIVE SERVICE AGREEMENT BETWEEN THE CITY OF AURORA, COLORADO, ACTING BY AND THROUGH ITS UTILITY ENTERPRISE, AND UNITED STATES DEPARTMENT OF AGRICULTURE ANIMAL AND PLANT HEALTH INSPECTION SERVICE WILDLIFE SERVICES

Alexandra Davis, Deputy Director of Water Resources / Stephanie Neitzel, Assistant City Attorney

Alexandra Davis, Deputy Director of Water Resources, provided a summary of the item.

Mayor Pro Tem Bergan asked Ms. Davis to speak to the agricultural benefits of the item. Ms. Davis did so.

Council Member Marcano stated prairie dog removal was of great concern to some of his constituents. He asked if the City has attempted to trap and relocate them. Ms. Davis

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

answered no and discussed the capture and relocating process. She stated the City was looking into a US Fish & Wildlife Black-footed Ferret Project where the prairie dogs would become food for an endangered species. Council Member Marcano stated the City had to act sooner than that to remain in compliance.

Ms. Davis concurred.

Council Member Murillo acknowledged Ms. Davis and staff's effort in this regard. She asked Ms. Davis to speak to the timeline for substantial compliance. Ms. Davis did so. Council Member Murillo asked if an affirmative vote would allow the City to participate in the US Fish & Wildlife program. Ms. Davis answered no and explained the program process.

Mayor Pro Tem Bergan asked Ms. Davis to speak to the time element for compliance. Ms. Davis did so. Mayor Pro Tem Bergan stated her understanding the issue needed to be addressed right away.

Ms. Davis concurred.

Council Member Coombs asked Ms. Davis to speak to whether the City could consider other options if they came into compliance in the first year rather than finishing out the three-year contract and if so, what the likelihood was for that to occur. Ms. Davis stated the City could not utilize non-lethal management methods due to the sheer number of prairie dogs. She stated the City would work to preserve one whole colony and relocate others. Council Member Coombs asked Ms. Davis why some of the prairie dogs could not be relocated to northwesterly areas. Ms. Davis discussed prairie dog habitability and vegetation in those areas.

Council Member Murillo stated she was uncertain about supporting lethal options. She asked Ms. Davis to speak to the timeline to perhaps implement non-lethal methods. Ms. Davis did so.

Mayor Pro Tem Bergan stated she understood her colleagues' concerns and asked them to take the timeline into consideration. She noted alternative methods could be pursued moving forward.

Motion by Bergan, second by Berzins, to end discussion and call for the vote on the item.

Voting Aye: Bergan, Berzins, Gardner, Gruber, Hiltz, Lawson, Murillo

Voting Nay: Coombs, Marcano

Motion by Gardner, second by Bergan, to approve item 11l.

Voting Aye: Bergan, Berzins, Gardner, Gruber, Lawson

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Voting Nay: Coombs, Hiltz, Marcano, Murillo

Council Member Coombs stated she might have gotten to an affirmative vote if she had been allowed to ask all her questions. She addressed Mayor Coffman and suggested he not move to the question without allowing people to ask all their questions.

11.m. Drainage and Flood Control Improvements for the Cherry Creek Restoration at Arapahoe Road

R2021-140 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, SOUTHEAST METRO STORMWATER AUTHORITY, AND THE CHERRY CREEK BASIN WATER QUALITY AUTHORITY REGARDING DESIGN AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR CHERRY CREEK RESTORATION AT ARAPAHOE ROAD

Swirvine Nyirenda, Planning Services Manager / Ian Best, Assistant City Attorney

Sarah Young, Deputy Director, Aurora Water, provided a summary of the item.

Motion by Coombs, second by Marcano, to approve item 11m.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

11.n. Larson Farms & Feeding LLC, Farming and Grazing Lease with Water Use Agreement

Hector Reynoso, Manager of Real Property Services / Dawn Jewell, Water Resources Supervisor / Michelle Gardner, Senior Assistant City Attorney

Hector Reynoso, Manager of Real Property Services, provided a summary of the item.

Motion by Marcano, second by Lawson, to approve item 11n.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

11.o. Ford Farms LLC - Farm, Grazing and Property Lease with Water Use Agreement

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

R2021-142 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE FARM, GRAZING AND PROPERTY LEASE WITH WATER USE AGREEMENT ON CITY-OWNED LAND IN WASHINGTON AND LOGAN COUNTIES BETWEEN CITY OF AURORA AND FORD FARMS LLC

Hector Reynoso, Manager of Real Property Services / Dawn Jewell, Water Resources Supervisor, Aurora Water / Michelle Gardner, Sr. Asst. City Attorney

Hector Reynoso, Manager of Real Property Services, provided a summary of the item.

Motion by Bergan, second by Marcano, to approve item 11o.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

11.p. Consent Decree Agreement

R2021-143 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S APPROVAL FOR ENTERING INTO THE STIPULATED CONSENT DECREE AGREEMENT WITH THE STATE OF COLORADO ATTORNEY GENERAL PURSUANT TO C.R.S. § 24-31-113

Staff is requesting a waiver of reconsideration to accommodate the prompt filing of the Agreement with the Court.

Jim Twombly, City Manager / Peter Schulte, Public Safety Client Group Manager

Jason Batchelor, Deputy City Manager, and Peter Schulte, Public Safety Client Group Manager, gave presentations on the item.

Mayor Pro Tem Bergan referenced the resolution and asked staff to speak to Council's role in the consent decree. Mr. Schulte did so, noting this was the point where Council approved these steps.

Council Member Marcano asked staff to speak to what part labor organizations played in crafting the decree. Mr. Schulte did so.

Council Member Hiltz expressed appreciation to staff for their efforts in this regard. She stated the City had a lot of work to do and has for a long time in terms of policing. She stated it was unfortunate that it took this process to get it done, noting there were those in the City who did not want to have these discussions.

Council Member Lawson echoed Council Member Hiltz's thanks of staff. She referenced 317, Civil Service Commission, and noted it was rather broad. She asked Mr. Schulte to speak to how Council would be a part of the implementation process. Mr. Schulte did so.

Council Member Hiltz gave a shout-out to former Council Member Johnston for her efforts in having the Chiefs provide input into the item. She discussed her experience in 2020 working on the Public Safety Committee where their efforts were dismissed, and they were called anti-police when now two separate independent investigations confirmed their concerns.

Council Member Berzins stated she heard the unions were not very involved which concerned her as that was their job. She asked staff if the unions had a seat at the negotiations table. Mr. Bachelor answered no, noting everything that was being negotiated was a management right as it had to do with department operations. He stated the item was reviewed with the unions to answer their questions once it was made public.

Mr. Schulte stated the unions would be an integral part once the policies were instilled.

Council Member Berzins expressed concerns related to the waiver of reconsideration because the role of Attorney General was a political position. She asked staff to speak to how a change in that position would impact the item. Mr. Batchelor stated the waiver of reconsideration was simply a Council procedural rule. Council Member Berzins asked if the consent decree could be changed at some point. Mr. Schulte answered no, noting it became an order of the court once it was approved and signed by the Court.

Troy Eid, outside counsel, explained the consent decree process.

Council Member Berzins stated her understanding Council was giving power to a judge.

Mr. Eid disagreed, noting progress and timeframes were very clear in the framework.

Council Member Berzins expressed concerns that crime would continue to increase as it did after 217 passed and wondered if this would help public safety at all. She stated Council cared about the consent decree only because they were intrinsically involved but noted the average person did not care about it as they just wanted to be safe.

Mr. Schulte discussed how the item was different from a Department of Justice consent decree.

Council Member Berzins stated she wanted to see the specifics in it before it passed. She expressed appreciation to staff for their efforts in this regard and restated her concerns that crime was on the rise.

Mr. Batchelor discussed the role of the independent monitor as called out in the decree.

Mayor Pro Tem Bergan expressed appreciation to staff for their efforts in this regard. She noted some of the trainings and reform were currently in place which expedited the process. She noted additionally the metrics were in place to ensure the City remained in compliance.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Mr. Schulte concurred.

Mayor Pro Tem Bergan stated more information provided more transparency to the public.

Mr. Schulte concurred.

Council Member Coombs expressed appreciation to staff for their attendance and for providing information. She referenced hiring and recruitment and noted backgrounding was not specifically addressed. She discussed the current situation where a disproportionate number of persons of color were being disqualified and lateral hires had significant backgrounding issues. She asked staff to speak to how those issues would be addressed. Mr. Batchelor did so, noting that process was not specified but having a qualified and diverse work force was a part of the requirement and it would be reached through input from an outside expert.

Mr. Schulte concurred, noting the background checks would go through the Human Resources and Police and Fire Departments.

Council Member Coombs referenced the waiver of reconsideration and asked staff to speak to what would happen should there not be a waiver of reconsideration and the item was called up, and Council chose not to support it. Mr. Schulte stated the Attorney General's Office would file a lawsuit and the City would litigate it.

Mr. Eid stated the Attorney General had a complaint and he would go to court and sue the City therefore either the City stated they disagreed with it and stipulated to a judgement, or they rolled the dice and went to court. He discussed the problem with going to court in this regard.

Mr. Schulte stated things could change until the agreement was signed and that was why staff was stressing the waiver.

Council Member Coombs referenced bias-based policing goals and measurements and asked if those offenses and related offenses were required to be included and what the related offenses were and why were they chosen. Mr. Schulte stated all three offenses would be included and he discussed how they related to misdemeanors.

Mr. Batchelor discussed the importance of ensuring Use of Force was proportional to the offense.

Motion by Hiltz, second by Coombs, to approve item 11p.

Council Member Hiltz stated her appreciation for the conversation and noted the importance of recognizing not all people in Aurora were safe and that was due in large part to racially biased policing. She stated Chief Wilson and many City police officers have worked hard,

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

were committed to moving forward in a better direction and were being mindful of those policing policies but there was also police union leadership who were undermining that every step of the way. She stated she supported the item because the City had a problem they have not been able to address because of representation that was fighting against it which caused more harm. She stated she was not an expert on youth violence but noted the importance of listening to the community. She stated Aurora's problems began long before Chief Wilson and she applauded the Chief's efforts in making the necessary changes in this regard. She stated it was evidenced by the actions of the police union leadership that Aurora needed a court order to force them to do better because it was very clear it was not happening organically. She addressed those officers who were attempting to do better to treat people as they should be treated, and she applauded their efforts. She stated this would be her final vote on a resolution of Council and it was very fitting considering the work that has been done over the last several years.

Council Member Marcano concurred and expressed appreciation to Council Member Hiltz for her comments. He added this was a framework for a conversation to come as there was nothing prescriptive in the decree and he expressed his hope the community would be largely involved in that discussion. He addressed Council and discussed the importance of digging into the root causes such as wages, healthcare, childcare, housing, food access and recreational opportunities that led to people getting involved with law enforcement to begin with. He noted these issues were within Council's policy-making wheelhouse and pointed out leaving them unaddressed would result in another big incident in the future. He stated his support for the item and expressed appreciation to staff for their efforts in this regard.

Council Member Murillo expressed appreciation to all those who worked hard to bring the item forward. She stated it was an understatement to state Aurora experienced a nationally organized movement that they never should have. She stated as a result, they had to react with the utmost care in terms of how to move forward. She stated she found peace in the process that the direction provided did not rely on opinion but rather on independent objective third-party recommendations. She stated the City has not resolved these issues on their own and the consent decree provided a framework of how the City could do better. She stated the consent decree allowed the City to be proactive in a reactive situation, to take control of what could be changed and to be cooperative with the opinions around policing in Aurora. She supported the item and looked forward to working with the community and staff to move Aurora forward because they owed it the community to do so.

Council Member Hiltz also expressed appreciation to Fire Chief Fernando Gray, Aurora Fire, for his efforts in this regard.

Council Member Coombs expressed appreciation to Council Members Hiltz, Murillo and Marcano for their comments and to staff for their hard work, thoughtfulness and swiftness in this regard. She stated her support for the item.

Mayor Coffman stated Aurora made tremendous progress prior to the consent decree and would continue to do so irrespective of it.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Dan Brotzman, City Attorney, asked if the waiver of reconsideration was included in the motion.

Mayor Coffman asked Council Member Coombs if it was included in her motion. Council Member Coombs answered affirmatively.

Voting Aye: Bergan, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

Voting Nay: Berzins

Mayor Coffman called for a brief recess of Council to allow staff to provide public call-in instructions.

12. **PUBLIC HEARING WITH RELATED ORDINANCE**

12.a. 2021 International Building Code Adoption

2021-65 FOR AN ORDINANCE AMENDING CHAPTER 22 OF THE CITY CODE OF THE CITY OF AURORA, COLORADO, REGARDING BUILDING AND BUILDING REGULATIONS, AND THE ADOPTION BY REFERENCE OF THE INTERNATIONAL BUILDING CODE, THE INTERNATIONAL PLUMBING CODE, THE INTERNATIONAL MECHANICAL CODE, THE INTERNATIONAL FUEL GAS CODE, THE INTERNATIONAL ENERGY CONSERVATION CODE, THE INTERNATIONAL RESIDENTIAL CODE, THE INTERNATIONAL EXISTING BUILDING CODE, AND THE INTERNATIONAL SWIMMING POOL AND SPA CODE

Jose Rodriguez, Building Plan Review Manager / Michelle Gardner, Sr. Assistant Attorney

Mayor Coffman opened the public hearing on the item and hearing none, closed the public hearing.

Jose Rodriguez, Building Plan Review Manager, provided a summary of the item.

Mayor Pro Tem Bergan pointed out the item was presented to the Joint Task Force who also supported the item.

Mr. Rodriguez concurred.

Motion by Marcano, second by Lawson, to approve item 12a.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

12.c. Battery Powered Electric Fence Ordinance

2021-67 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, ADDING SECTIONS 22-642, 66-37, AND 146-4.7.9.U, TO THE CITY CODE, AND AMENDING TABLE 3.2-1, SECTIONS 146-4.7.9.E.1, 146-4.7.9.M, AND 146-6.2 OF THE CITY CODE PERTAINING TO BATTERY- OPERATED ALARMED ELECTRIC FENCES

Jason Batchelor, Deputy City Manager / Tim Joyce, Assistant City Attorney

Sponsor: Council Member Gardner

Mayor Coffman opened the public hearing on the item.

Brandon Cammarata, Manager, Planning, provided a summary of the item.

Council Member Marcano asked if there was any potential liability of a business owner if someone was injured by the battery powered fence.

Tim Joyce, Assistant City Attorney, stated someone could always bring a lawsuit as it depended on the circumstances. He noted there was no liability on the part of the City.

Motion by Gardner, second by Berzins, to approve item 12c.

Mayor Coffman closed the public hearing on the item.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Council Member Gardner recognized staff for their efforts in this regard.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

19.a. Consideration to appoint one (1) member to the Civil Service Commission

Kadee Rodriguez, City Clerk / Dave Lathers, Senior Assistant City Attorney

Motion by Marcano, second by Hiltz, to appoint Desmond McNeil to the Civil Service Commission.

Council Member Marcano stated Mr. McNeil had a great understanding of how the commission operated and he had thoughtful responses to Council's questions.

Mayor Pro Tem Bergan expressed appreciation to all three candidates as they all had good comments but noted her support for Mr. McNeil as he had experience and straight-forward answers to Council's questions.

Council Member Coombs concurred. She stated Mr. McNeil was very prepared and thoughtful in his interview.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

19.b. Consideration to reappoint two (2) members to the Board of Adjustments and Appeals

Kadee Rodriguez, City Clerk, General Management / David Lathers, Senior Assistant City Attorney

Motion by Bergan, second by Gardner, to reappoint Kari Gallo and Andris Berzins, to the Board of Adjustments and Appeals.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

19.c. Consideration to appoint one (1) member to the General Employees Retirement Board

Kadee Rodriguez, City Clerk, General Management / David Lathers, Senior Assistant City Attorney

Motion by Coombs, second by Marcano, to appoint Michelle Reding to the General Employees Retirement Board.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

19.d. 2021 and 2022 Council Meeting Calendars

James Twombly, City Manager

James Twombly, City Manager, provided a summary of the item.

Motion by Bergan, second by Gardner, to cancel the December 27, 2021 study session meeting.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Lawson, Marcano, Murillo

20. **REPORTS**

20.a. Report by the Mayor

Mayor Coffman noted everyone has been consumed by the recent tragedies in Aurora and he confirmed Council and City staff would continue to work to find a way forward once all the facts become known. He pointed out City Council has done a lot in terms of youth violence prevention, and he assured everyone they would continue to do so.

20.b. Reports by the Council

Mayor Pro Tem Bergan discussed her attendance at the recent Day Resource Center Thanksgiving Lunch and expressed appreciation to Greg Baker, Public Relations Manager, Aurora Water, and Tim York, Water Preservation Specialist, Aurora Water, for their presentation at the recent Ward VI Town Hall meeting. She stated she was saddened and troubled by the recent shootings at Central and Hinkley High Schools and how it made students fearful to go to school when schools should be safe. She echoed Chief Wilson's comments regarding the importance of parents, friends and the community helping each other in checking in with local youth. She stated School Resource Officers (SROs) in schools were important, but felt it was up to parents and the community to come together to help

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

solve the issue. She noted her hope the City's Youth Violence Program would move forward to help youth in preventing crime.

Council Member Lawson echoed Mayor Pro Tem Bergan's comments and sent her thoughts and prayers out to those youth involved. She expressed appreciation to community leaders and Council for coming together and discussed the importance of listening to kids. She expressed her hope the City could move forward with the Youth Violence Prevention Program to provide adequate services and support initiatives in this regard. She discussed her participation in the Day Resource Center Thanksgiving Luncheon. She provided FSIR and NLC Conference updates.

Council Member Hiltz discussed her attendance at the recent Light of Dawn reopening and the State of Emergency on Youth Violence meetings. She expressed appreciation to Council Member Lawson for her efforts in that regard. She discussed the importance of listening to kids as they were the most impacted. She expressed her hope Council would support Council Member Lawson in her efforts moving forward.

Council Member Gardner discussed his and Council Member Hiltz's efforts in helping the non-profit Wholly Kicks restore what was lost when their storage unit was broken into. He recognized Amazon for their efforts in that regard. He discussed his attendance at the recent Southlands Christmas parade and expressed appreciation to Local #1290 for allowing him to ride along with Santa. He recognized these were challenging times and noted it weighed heavily on him. He pointed out government could not solve these problems. He stated they could contribute through more mental health funding and youth programming. He discussed the impact the last 18 months have had on youth's mental health and the need for everyone including parents and faith leaders to help by listening to and loving others.

Council Member Murillo announced the next Ward I Town hall was scheduled for Thursday, January 20, 2022, and she encouraged all those interested in attending to do so. She discussed staff's efforts in working to provide a hybrid model for the meetings. She echoed Council's comments related to youth and gun violence. She agreed it was everyone's responsibility to address and listen to youth in the City. She noted as the youngest council member ever elected, she empathized with people not hearing someone because of their youth. She discussed her attendance at recent Town Halls where youth were front and center speaking about their issues and the need for safe, physical spaces and things to do. She noted the importance of being responsive to and honoring of the City's youth. She stated they discussed mental health, conflict resolution, and feeling the need to be armed for self-protection. She stated a holistic approach was needed and she looked forward to continuing those conversations. She stated not one policy would fix it because it was an ever-evolving process, but she resolved to work collaboratively with youth and other leaders to solve these complex issues in the City.

Council Member Berzins concurred. She stated it came down to parents and caretakers to help youth because they could not grow up alone. She stated they needed someone to talk

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

to such as church youth groups and pastors to work out their problems. She stated there were many leaders in the community who were willing to help with the youth and Council needed to use those leaders and point the City's youth in the right direction. She discussed the negative impact social media had on youth and noted there was a lot of hate going on. She echoed Council Member Gardner's comment that everyone needed to focus more on loving each other and taking care of each other. She stated it was a long process, but youth were at stake, and they were the future. She asked parents and neighbors to step up and reach out to help a young person as they gave out signs when they were troubled. She discussed her attendance at the recent annual Visit Aurora meeting and encouraged everyone to visit the Cirque Dreams Holidaze Christmas event at the Gaylord Rockies.

Council Member Marcano discussed the success of the recent Aurora Sister Cities Fall Fundraiser and expressed appreciation to Mayor Coffman, Debi Hunter-Holen and Bill Holen for their efforts in that regard. He acknowledged and echoed his colleagues' comments on the recent tragedies in Aurora. He discussed a pastor's comment where he begged youth to talk about what was going on and noted adults have failed to take meaningful steps to address the root causes of youth violence. He referenced the Educational Fund to Stop Gun Violence and listed their primary reasons behind gun violence. He noted the importance of providing more youth resources, having difficult conversations, and providing mental health services as the world was much more complicated for this generation. He believed it would take everyone pulling together to address the problem because they were failing future leaders today.

Council Member Coombs expressed appreciation to her colleagues for their comments related to youth violence and the recent violent incidents. She stated the tone of the youth was fear and they and their parents stated they needed the City to use their power to act. She stated parents were working hard to support their families and while they were responsible, they also needed support through programming and adequate childcare. She noted other issues that arose from the youth was they did not feel accepted for who they were from those places they were supposed to feel safe, seek resources and be heard. She stated it was important to listen to them about their needs but also about their experience because they were not feeling supported or listened to by the adults they were turning to. She stated it was everyone's responsibility to convey acceptance, care and love and a part of loving people was for them to know they were loved for who they were. She stated it was also important to take their issues seriously because not all their experiences were the same. She stated it was not only social media that made those experiences not the same. She expressed appreciation to the youth and their parents for their courage in being very real with their leaders in this regard. She discussed her participation at the recent Young Invincibles program event. She provided Visit Aurora, DRCOG, Mile High Behavioral Healthcare, Mayoral Mission to El Salvador and State of Recycling and Compost Colorado updates.

Mayor Coffman called for a brief recess of Council to determine if Council Member Gruber could be made available to provide a report. He returned from the recess and announced Council Member Gruber was unable to speak due to technical issues.

Water Policy Committee (WPC) Meeting
October 19, 2022

Members Present: Council Member Steve Sundberg Chair, Council Member Angela Lawson Vice-Chair, Council Member Curtis Gardner

Absent:

Others Present: Rachel Allen, Greg Baker, Ian Best, Todd Brewer, Marshall Brown, Melina Bourdeau, Steve Cann, Alex Davis, Rick Kienitz, Sam Miller, Swirvine Nyirenda, Casey Rossman, Rich Vidmar, Sarah Young, Daniel Pershing

---

1. Approval of Minutes
The September 21, 2022, meeting minutes were approved as presented.

2. Consent Items
A. Construction Change Order Report
B. Monthly Water Supply Update

Summary of Issue and Discussion: None.

Outcome: The Consent items were supported as presented.

Follow-Up Action: The Consent items were supported as presented.

---

3. Water Education Colorado Water Fluency Program

Summary of Issue and Discussion: Council Member Coombs – not available.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

4. Consideration to appoint one (1) member to the Homestake Steering Committee

Summary of Issue and Discussion: M. Brown stated, Aurora Water is requesting Mathew Allsopp be appointed to serve the remainder of Steve Sciba's appointment ending in December 2023 and an additional three (3) years from December 2023 to December 2026.

Outcome: The Committee supports the Consideration to reappoint one (1) member to the Homestake Steering Committee.

Follow-Up Action: Forward to Study Session for consideration.

---

5. Consideration to appoint one (1) member to the Joint Water Authority

Summary of Issue and Discussion: M. Brown stated, Aurora Water is requesting Mathew Allsopp be appointed to serve the remainder of Steve Sciba's appointment ending in December 2023 and an additional three (3) years from December 2023 to December 2026.

Outcome: The Committee supports the Consideration to reappoint one (1) member to the Joint Water Authority.

Follow-Up Action: Forward to Study Session for consideration.

---

6. First Amendment to Drainage and Flood Control Improvements for Westerly Creek at Alameda and Dakota Avenue

Summary of Issue and Discussion: S. Miller gave a presentation.

Outcome: The Committee supports the First Amendment to Drainage and Flood Control Improvements for Westerly Creek at Alameda and Dakota Avenue.

Follow-Up Action: Forward to Regular Session for consideration.

---

7. First Amendment to Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road

Summary of Issue and Discussion: S. Miller gave a presentation. Council Member Sundberg asked, what length of stream needs to be repaired? S. Miller replied, I don't have the exact length, it is quite a bit but not every foot of it is going to need to be included in this project.

Outcome: The Committee supports the First Amendment to Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road.

Follow-Up Action: Forward to Regular Session for consideration.

---

8. Rockinghorse Reimbursement Agreement

Summary of Issue and Discussion: S. Young and D. Pershing gave an overview of the agreement.

Outcome: The Committee supports the Rockinghorse Reimbursement Agreement.

Follow-Up Action: Forward to Study Session for consideration.

---

9. Colorado State Forest Service Funding Agreement

Summary of Issue and Discussion: R. Vidmar gave an overview of the agreement.

Outcome: The Committee supports the Colorado State Forest Service Funding Agreement.

Follow-Up Action: Forward to Study Session for consideration.

---

10. Stewardship West Memorandum of Understanding

Summary of Issue and Discussion: R. Vidmar gave an overview of the Memorandum of Understanding. Council Member Sundberg asked, what type of physical work is performed in that 500 acres to mitigate? R. Vidmar replied, several things are done. There is pre-removal of standing dead or what we call groupie clumpy. It's basically thinning within the forest to limit that crown movement of fire and to get the fire to go back to the ground so that it can be fought and stopped on the ground. That is the primary method being used in this area and is set up by the U.S. Forest Service.

Outcome: The Committee supports the Stewardship West Memorandum of Understanding.

Follow-Up Action: Forward to Study Session for consideration.

---

11. Joint Water Authority Second Amendment to a Water Transmission Agreement

Summary of Issue and Discussion: A. Davis gave an overview of the agreement.

Outcome: The Committee supports the Joint Water Authority Second Amendment to a Water Transmission Agreement.

Follow-Up Action: Forward to Regular Session for consideration.

---

12. Intergovernmental (IGA) Water Lease Agreement with the Board of Water Works of Pueblo

Summary of Issue and Discussion: A. Davis gave an overview of the IGA. Council Member Sundberg asked, what is the value for this water in your opinion? A. Davis replied, It's expensive, but we think it's worth it because it's that high mountain pristine water and it's fully consumable. It's the same price that we are paying in our long-term lease with Pueblo.

Outcome: The Committee supports the IGA Water Lease Agreement with the Board of Water Works of Pueblo.

Follow-Up Action: Forward to Study Session for consideration.

---

13. PFAS Update Presentation

Summary of Issue and Discussion: T. Brewer gave a presentation regarding PFAS. Council Member Gardner asked, does the Environmental Protection Agency (EPA) put out an advance notice that they are looking at doing some type of regulation and asking for comments? T. Brewer replied, the EPA process takes a while. They have to do a draft proposed rule in the

office of management and budget, a cost benefit analysis and to make sure that what they're doing can stand up to litigation and have it open for public comment. Currently they have a draft regulation that is under review in their budget office. Council Member Lawson asked, how much testing do we do on our pipes in the city and do we have PVC pipes? T. Brewer replied, we do have some PVC pipes in our system, and we have done sampling at the plants to see what's going out into the system.

Outcome: The Committee supports the PFAS updated.

Follow-Up Action: Forward to Study Session for consideration.

---

14. Future Development Water Supply Needs and Constraints

Summary of Issue and Discussion: S. Young gave a presentation on how utilities are planned for new development from the Aurora Places Comprehensive Plan through construction by the development community.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

15. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: Council Member Sundberg asked about the intersection of Chambers and 6th Avenue. Chambers northbound has been shut down for quite a while is that a water project? G. Baker replied, it's an XCEL project for new gas lines. Relative to the regional conservation Memorandum of Understanding (MOU), Council Member Gardner asked, what is the definition of non-functional turf? M. Brown replied, the definition is left for each individual municipality to define their own. Aurora created our definition during the Water Conservation Ordinance process and some others are following our lead. Council Member Gardner asked, are we being proactive with asking or incentivizing residents to remove existing turf? M. Brown replied, we've enhanced our rebate programs for residential and commercial properties starting January 1, 2023.

Outcome: Informational only.

Follow-Up Action: Information only.

---

7. Confirm Next Meeting

The next meeting is scheduled for November 16, 2022, 10:30 a.m. via WebEx.

X Steve Sundberg (Nov 22, 2022 14:42 MST)

Steve Sundberg
Chair, Water Policy Committee

MINUTES

Regular Meeting of the **Aurora City Council**
Monday, November 14, 2022

1. **RECONVENE REGULAR MEETING OF NOVEMBER 14, 2022, AND CALL TO ORDER**

Mayor Coffman reconvened the regular meeting of the City Council for November 14, 2022, at 6:30 p.m.

2. **ROLL CALL**– Kadee Rodriguez, City Clerk

COUNCIL MEMBERS PRESENT: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

Public call-in instructions were provided in both English and Spanish.

3. **INVOCATION/MOMENT OF SILENCE**– Mike Coffman, Mayor

Mayor Coffman led the prayer and followed by reading the Land Acknowledgement.

4. **PLEDGE OF ALLEGIANCE** (all standing)

5. **EXECUTIVE SESSION UPDATE**

Mayor Coffman stated that during the executive session, the council discussed settlement negotiations and police chief recruitment.

6. **APPROVAL OF MINUTES**

6.a. **October 24, 2022, Meeting Minutes**

Motion by Bergan, second by Sundberg, to approve the minutes of October 24, 2022 as presented.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

7. **PROCLAMATIONS OR CEREMONIES**

7.a. **National Homeless and Hunger Awareness Week**

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Mayor Coffman proclaimed November 12th through 20th, 2022 as National Homeless and Hunger Awareness Week.

Mayor Coffman recognized the presence of Cub Scout Pack 11-27.

8. **PUBLIC INVITED TO BE HEARD**

(non-agenda-related issues only)

Council heard public in-person and call-in testimony on non-agenda-related items.

9. **ADOPTION OF THE AGENDA**

9.a. **Grand Avenue Townhome Site Plan with an Adjustment (Item 13.a.)**

Applicant presentation: 15 minutes permitted under Council Rules

Appellant presentation: 15 minutes allowed if approved by Council

MPT Bergan explained that they normally approve the 15-minute presentations during the adoption of the agenda, and they will present at the beginning of the designated item. Mayor Coffman asked if they should move it to the end of the meeting since it would be lengthy.

CM Gardner expressed his opposition to the motion to move the item to the end of the agenda. CM Marcano mentioned that they previously had presentations during their designated slot, or they are moved earlier in the meeting.

CM Murillo expressed her opposition to moving the item to the end of the meeting but wants to approve the appellant's presentation. She offered a substitute motion.

Motion by Bergan, second by Lawson to adopt the agenda with the appellant presentation and move item 13a to the end of the agenda.

SUBSTITUTE MOTION

Motion by Murillo, second by Bergan to adopt the agenda with the appellant presentation.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

10. **CONSENT CALENDAR**

This portion of the agenda is a meeting management tool to allow the City Council to handle several routine items with one action. Any member of the Council may request an item to be removed from the Consent Calendar and considered separately. Any item removed will be considered immediately following the adoption of the remainder of the Consent Calendar.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

10.a. **Consideration to EXTEND A SINGLE SOURCE CONTRACT with GolfNow, Chicago, Illinois in the Amount of $69,000.00 for the Golf Course Point of Sale Software for the Points of Sale at the Five City of Aurora Owned Golf Courses through December 31, 2023**

Doug McNeil, Manager of Golf / Dave Lathers, Senior Assistant City Attorney

10.b. **Consideration to EXTEND A COMPETITIVELY BID CONTRACT to Republic Services of Denver, Commerce City, Colorado in the Amount of $113,000.00 for Trash Collection – South Side of the City through August 31, 2023**

Lynne Center, Deputy Director of Public Works / David Lathers, Senior Assistant City Attorney

10.c. **Consideration to EXTEND A COMPETITIVELY BID CONTRACT to Republic Services of Denver, Commerce City, Colorado in the Amount of $130,000.00 for Trash Collection – North Side of the City through August 31, 2023**

Lynne Center, Deputy Director of Public Works / David Lathers, Senior Assistant City Attorney

10.d. **ARPA Nonprofit Grant Agreements**

Christina McClelland, Grant Development Manager / Hanosky Hernandez, Senior Assistant City Attorney

Nancy Wishmeyer, Controller, provided a summary of the item.

MPT Bergan requested to make a motion to table item 10d until the next meeting to have more time to review it. CM Marcano mentioned that there had been frustration from some council members in the past for postponing items due to the inability to read through them all. He asked if there are specific items that MPT Bergan had questions about.

CM Gardner asked how the $313,598 for East Colfax Community Collective would be used. N. Wishmeyer answered that it would be for legal services, the community navigator which will help residents and small businesses go through the application process for grant sources, and translation services. CM Coombs stated that she does not see a reason to delay already vetted grants since October 3rd when they've had over a month to review them, and they had larger grant awards. MPT Bergan said that they delayed the youth grant awards. She explained that she is asking to postpone to go more in-depth.

CM Marcano commented that he encountered a similar issue with the federal and state priorities that were readily available for comment and review weeks prior to the meeting. He mentioned that CM Lawson will be bringing forward a proposal to make being in Council a full-time paying job. He stressed that he does not like delaying city business since they were given ample opportunity to read through the items and check in with staff and other council members.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Motion by Bergan, second by Lawson to table the item to the next regular Council Meeting.

Voting Aye: Mayor Coffman, Bergan, Gardner, Jurinsky, Lawson, Sundberg, Zvonek

Voting Nay: Coombs, Marcano, Medina, Murillo

10.e. **Consideration to AWARD A SINGLE SOURCE CONTRACT to Innovest Portfolio Solutions LLC in the Amount of $67,750 for Investment Advisory Services Associated with the City's 457 and 401(a) Plans through December 31, 2023**

Nancy Wishmeyer, Controller / Hanosky Hernandez, Senior Assistant City Attorney

10.f. **Consideration to EXTEND AN OPENLY SOLICITED CONTRACT to LOOMIS, Aurora, Colorado in the Amount Not-to-exceed $65,000.00 for Armored Car Services. (RFP-1972)**

Nancy Wishmeyer, Controller / Hanosky Hernandez, Senior Assistant City Attorney

10.g. **Consideration to AWARD A SOLE SOURCE CONTRACT to MMLJ INC., Houston, Texas in the Amount of $68,000.00 for the Purchase of a Portable Dustless Blasting System**

Sandra Youngman, Code Enforcement Manager / David Lathers, Senior Assistant City Attorney

10.h. **Granular Activated Carbon for Binney Water Purification Facility**

Consideration to AWARD A COMPETITIVELY BID CONTRACT to Cabot Norit Americas, Inc., Marshall, Texas, in the Amount of $480,240.00 for the Purchase of Granular Activated Carbon Water Treatment Media for the Binney Water Purification Facility, Invitation for Bid B-4667.

Bobby Oligo, Manager of Water Treatment, Aurora Water / Dave Lathers, Senior Assistant City Attorney

10.i. **Consideration to AWARD A COMPETITIVELY BID CONTRACT to American Civil Constructors, Inc., Littleton CO in the Amount of $8,443,892.50 for the High Line Canal Trail Improvements; Project 5890A**

Waiver of reconsideration is requested to accommodate the completion of the award process before the expiration of construction bids. This project is a DRCOG TIP project and required multiple CDOT approvals before this award could be brought forward for Council's consideration resulting in a compressed award schedule.

Matt Kozakowski, Transportation Project Delivery Manager / David Lathers, Senior Assistant City Attorney

Sponsor: Angela Lawson, Council Member

Roberto Venegas, Deputy City Manager

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

10.p. **Consideration of a Professional Services Agreement with Holland & Knight in the Amount of $120,000 for the 2023 Federal Lobbying Contract**

Sponsor: Angela Lawson, Council Member

Roberto Venegas, Deputy City Manager

Motion by Bergan, second by Sundberg to approve the consent calendar items 10a through 10c, and 10e through 10p.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

11. RESOLUTIONS

11.a. Homeless Initiative

R2022-195 A RESOLUTION FROM THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S DESIRE TO REDUCE THE NUMBER OF PEOPLE EXPERIENCING HOMELESSNESS THROUGH EMPLOYMENT-BASED PROGRAMMING AND CONDITIONS-BASED TRANSITIONAL HOUSING THAT LEADS TO SELF-SUFFICIENCY. THE CITY COUNCIL DIRECTS THE CITY MANAGER AND HIS STAFF TO SUPPORT THIS EFFORT BY DEVELOPING AND EXECUTING A COMPREHENSIVE APPROACH THAT ALIGNS WITH THE NECESSARY SUPPORT TO MEET THE NEEDS OF THE DIVERSE HOMELESS POPULATION IN AURORA

Sponsor: Mike Coffman, Mayor

Council heard public in-person testimony.

Mayor Mike Coffman provided a summary of the item.

Discussion on the Bergan Amendment

Mayor Coffman asked G. Koumantakis to speak to Mayor Pro Tem Bergan's previous amendment. G. Koumantakis explained that Mayor Pro Tem Bergan's previous amendment requires the campus to be operated by a nonprofit organization but does not allow the use of general fund revenues for construction, maintenance, or operations. G. Koumantakis said that Mayor Coffman wants to change this into the city being responsible for maintaining the facility and reimbursing the operator for the cost of the low-barrier emergency shelter. Mayor Pro Tem Bergan asked if the city would only be responsible for maintenance but not operations. Mayor Coffman confirmed this. He explained that Colorado Springs Rescue Mission was reimbursed by the city for the first phase. They raised money from foundations, grants, and CDBG money, but not general funds for Colorado Springs to provide programming and transitional housing, and work. Rescue Mission also mentioned that Aurora may not need general fund revenue to support the low-barrier emergency shelter.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Mayor Pro Tem Bergan asked for confirmation if the language states that they would maintain the shelter versus they "might." Mayor Coffman explained that they are referring to the mechanical parts of the facility such as the roof. Mayor Pro Tem Bergan expressed concern about possible high-cost facility maintenance. She said that she does not want taxpayers to be responsible for a building that they are not constructing. Mayor Coffman said that they are. Mayor Pro Tem Bergan said that they are constructing using money from the state. Mayor Coffman said that they have a commitment from Adams and Arapahoe County in addition to the money that they are applying for from the state. He added that they are using the city's ARPA dollars dedicated to capital construction. He explained that it will be a city-owned facility that will be operated by a nonprofit contractor.

CM Coombs pointed out that they don't have commitments from Adams and Arapahoe Counties and that the state grant applications are competitive. J. Prosser explained that they don't have a formal written commitment. However, the item has gone before both Board of County Commissioners through Study Session. Arapahoe County has already agreed. Adams County would have to go back to the County Commissioners on December 6th. CM Coombs asked what the counties are supporting. J. Prosser answered that they presented a concept plan for the Navigation Campus to include an emergency shelter, transitional housing, and a day center that would include navigation services such as mental health, medical, laundry, and food. A commitment to those participating in funding the facility would be part of the RFP and selection process for an operator wherein the specifics of the operations would be discussed. CM Coombs pointed out that they did not say that they were on board with what is in the resolution, but they approve of having a say in the operator and operations if they give their funds. J. Prosser reiterated that they presented a conceptual plan but the discussion on operations would come later. Mayor Coffman said that this provides a direction in terms of how the campus will operate programmatically. He said that the state and the counties will come on board.

MPT offered a different change to her amendment to remove the language regarding funding but retain that the campus will be operated by a nonprofit. Mayor Coffman considered this a friendly amendment.

Discussion on Marcano Amendment (self-reliance)

CM Marcano mentioned that some of his amendments were adopted in the Whereas clauses, but the bulk was unaddressed. He said that he does not believe that the County partners would support a Treatment or Work-First program. He mentioned that the commissioners and the state are looking for evidence-based solutions that are not exclusive to Housing-First and other best practices.

CM Marcano presented his first amendment to strike "self-sufficiency" throughout the text and replace it with "self-reliance". He explained that self-reliance empowers people to have control over their decision-making. However, self-sufficiency means depending on nobody else but yourself. Mayor Coffman urged a no vote and stated that self-sufficiency is an aspirational goal.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Discussion on Marcano Amendment (4th Whereas Clause)

CM Marcano presented his next amendment to replace "include employment-based programming and conditions-based transitional housing to increase the number of people who exit homelessness on an annual basis" with "that empower individuals experiencing homelessness to choose for themselves their path to self-reliance, to include mental and physical health care, job training, educational assistance, and low-barrier housing" in the 4th Whereas Clause.

Mayor Coffman urged a no vote and said that it waters down the program. He reiterated that the people opt to participate and are given a navigation plan by a case manager. Mayor Pro Tem Bergan urged a no-vote and said that people should have a plan.

CM Marcano reiterated that the project was meant to be a regional campus and they are trying to get state support. He said that it would be unlikely to get support if they are insistent on a narrow work-first scope of programming. He added that they must set themselves up for success and serve as many people as possible. He mentioned that they have niche programs such as Bridge House that are workforce focused. But people must be of sound mind, willing, able, and sober to participate in the program. However, a percentage of the unhoused population is not. He stressed that they should not be tailoring a large project to a niche population since it would not make them attractive for grants and it would not be as effective. He urged a yes vote. Mayor Pro Tem Bergan asked if those on the low barrier would still be receiving services. Mayor Coffman said yes.

Discussion on Marcano Amendment 8

CM Marcano presented his amendment which adds another bullet to Section 1.

Mayor Coffman stated that this contradicts other parts of the resolution that states they are not going to accept federal funds if it compromises the program. He said this is not the direction they want to go with the program. He stressed the outcome they want is for people to get back on their feet, get job training, and acquire jobs. CM Lawson said that intergovernmental collaboration will be important if they are seeking funding. Mayor Coffman said the language is unnecessary because the resolution already speaks to working with other entities and establishing IGAs. He mentioned that permanent supportive housing is successful for those who cannot work. He expressed concern that the amendment might be interpreted as Aurora negotiating its approach with everybody. He said they should show the state and counties that this is what Aurora wants to do and they can either come along or not. Mayor Coffman said he believes that the Governor would be in support of the program.

CM Coombs pointed out that the language may only either be unnecessary because it is implied or it is contradictory, but it cannot be both. She pointed to the program in Houston that showed leadership in regional collaboration. She stressed that they are relying on other jurisdictions' money as well and they should show leadership by working together and recognizing each other as equals. Mayor Pro Tem Bergan said they do not know what the development of necessary infrastructure implies. She

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

pointed out that the amendment is unnecessary since they already do work with federal, state, and local governments.

CM Zvonek expressed concerns about the amendment potentially tieing them to the federal government's preferred Housing-First Policy which only works for a small segment of the unhoused population who are unable to reach self-reliance. He stated that they should encourage regional and state partners to do differently, take an all-of-the-above approach, and not treat everything with a one-size-fits-all policy such as Housing-First which does not work. He expressed his opposition to the amendment. CM Zvonek mentioned the official position of the city to request a waiver or a block grant from the federal government to give cities and the state more flexibility on how to spend funding for homelessness. He mentioned that they have an opportunity to help people with behavioral, mental, or addiction issues who are being left untreated unless they want to. Through this resolution, they can encourage these people and incentivize them to become self-reliant. He stressed that if this ultimately leads to not getting funding, then they should still do something differently rather than going down the same failed path as Housing First.

Mayor Pro Tem Bergan asked if there is expected funding from philanthropic organizations. Mayor Coffman said that it would be for the operations but not for the construction.

CM Marcano stressed that Housing First is the most effective approach that they can take to solve homelessness. He mentioned that they could secure once-in-a-lifetime funding for Aurora through intergovernmental collaboration. He stated that narrowly tailoring the resolution against the best evidence available is setting Aurora and the state up for failure. He encouraged other council members to rethink their approach and lean into cooperation. CM Coombs pointed out that they are presenting a rhetoric that Aurora does not care about others' input on the project. She said that this kind of thinking results in different entities using resources and pulling in different directions rather than putting all resources together in the same direction.

CM Gardner asked if they could still collaborate with other jurisdictions and governmental agencies if the amendment would not be added. G. Koumantakis said that there is language present in the resolution.

Discussion on Marcano Amendment 9

CM Marcano presented his amendment which revises "co-locate necessary services" to "co-locate necessary services to the maximum extent possible" in Section 1.

Mayor Coffman expressed his support for the amendment and said that it was already expressed in the language but reinforcing it would not be a problem. He further stated that their goal is to have partner agencies for mental health, addiction recovery, and job training on campus.

CM Lawson commented on why they did not approve of reinforcing collaboration with federal, state, and local partners.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

CM Marcano explained that he is forwarding this amendment because it is important to stress that they are doing these to the maximum extent possible and not send a message to staff or partners that all services must be co-located. He wanted to demonstrate flexibility in the spirit of cooperation. Mayor Coffman added that it reinforces the spirit of the proposal. However, the prior amendment would cause the city to negotiate or compromise the direction that they want to take.

Discussion on Marcano Amendment 10

CM Marcano presented his amendment which revises the word "arranged" to "sought" in Section 1 which states "Provide a navigation center to offer short-term bridge housing along with supportive services while long-term housing is being arranged."

Mayor Coffman said that the amendment is unnecessary, and people are going to be participating in programs. He stressed the importance of people going through the programs, so they do not go back on the street. He expressed concern that this amendment would swerve the resolution into a different approach and would take people into housing instead of going through case management and participating in addiction recovery and job training. CM Coombs clarified that the amendment more broadly encompasses what people would get at the Navigation Center since it includes case management and other supportive services. She explained that the only difference is that the amendment says that the Navigation Center would offer short-term bridge housing, which is also the intent of providing transitional housing.

CM Coombs offered an amendment to change "short-term bridge housing" into "transitional housing." Mayor Coffman said that transitional housing is in the latter phase. CM Marcano considered this as a friendly amendment. CM Marcano pointed out that the Navigation Center programs do not preclude case management. He stressed that any program addressing homelessness requires case management. He explained that the amendment adds clarity, and it specified that the Navigation Center is not simply a rebranded congregant shelter. It bridges the unhoused population to move towards self-reliance and independence.

Discussion on Marcano Amendment 11

Mayor Pro Tem Bergan commented that the resolution should be fairly simple, but they are discussing numerous amendments. Mayor Coffman responded that the resolution sets a direction for the campus. CM Coombs mentioned that they did not finish discussing all the amendments last time because some council members requested the mayor to revise the resolution and bring it back. However, the Mayor did not participate in further discussions before bringing it to the floor again. Mayor Pro Tem Bergan said that they don't have to do several amendments to a resolution. Mayor Coffman explained that he had the amendments before him and added some to the resolution, including ones that passed during the previous Regular Meeting.

CM Marcano forwarded his amendment that adds "Provide Rapid Re-Housing (RRH) services to ensure a quick exit from homelessness for low-acuity individuals and families" to Section 1. He explained that this is for people who are down on their luck

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

and do not need to be on campus. This reiterates to partners that it is a priority for Aurora to ensure that no one falls through.

Mayor Pro Tem Bergan asked if the city does rapid rehousing. J. Prosser said that they currently offer rapid rehousing through different service providers and some federal funding. CM Zvonek asked if anyone could go into rapid rehousing and if there are conditions. J. Prosser said it would be people that can afford their rent or a portion of it. The program has a two-year time limit and comes with case management. CM Zvonek asked if they could avail of the program for any reason that they're experiencing homelessness. J. Prosser said that people can apply regardless of the reason why they are unhoused. CM Coombs clarified that there are conditions to this. She mentioned that she referred people to the program but have not qualified.

Mayor Pro Tem Bergan said that there must be conditions for not bringing drugs into pallet homes. J. Prosser clarified that pallet homes are not considered rapid rehousing but bridge or transitional housing. She added that those in pallet shelters may eventually qualify for rapid rehousing.

Mayor Coffman asked if there were directions to have partner nonprofits deal with families and not have families on the campus. G. Koumantakis said that there is a warehouse clause stating that the city shall be responsible for identifying an alternative location to provide for the needs of homeless families while providing emergency shelter until a transfer can occur. Mayor Coffman asked if this is done out of the Day Resource Center. J. Prosser answered that rapid rehousing is done out of partner agencies like Mile-High and the Salvation Army. It is partially funded through federal funds like HUD, HOME, and ESG. It is also funded through the city's Flex Fund which is a one-time assistance.

Mayor Coffman clarified that even though off-campus partner agencies would deal with family issues, the resolution states that they will relocate them under emergency purposes. Mayor Coffman expressed his support for the amendment. He asked if this is current policy. J. Prosser said yes. G. Koumantakis clarified that he was only explaining that the resolution also has something in place for families.

CM Medina asked what the availability of rapid rehousing is. J. Prosser answered that the funds are limited. She added that she will get back to the Council on the exact number of families and individuals that utilize the program yearly. Mayor Pro Tem Bergan suggested changing the language from "provide" to "if possible." CM Marcano explained that using "provide" shows a commitment to the strategy and emphasizes Aurora's priorities. He stressed the importance of collaboration and consolidating resources.

Mayor Coffman expressed concerns about other funds being diverted from the supportive services to rapid rehousing. J. Prosser explained that the funding from HUD for rapid rehousing could not be used for addiction recovery since it is specific that a certain portion must go to sheltering. She added that this would be worked out in the operations agreement with the partners and operator. CM Coombs clarified that organizations that provide supportive services use different sources of funding from

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

housing funds. She stressed that they are different buckets of money and that funds would not be diverted to rapid rehousing from supportive services.

Discussion on Marcano Amendment 13

CM Marcano presented Amendment 13 which replaces "offer workforce development opportunities" with "provide opportunities for workforce development through job training and educational assistance in coordination with case management."

Mayor Coffman said that it is unnecessary language and could be interpreted in a way that is contrary to the intent of the proposal. He added that educational assistance will be broad and that earning degrees does not necessarily lead to jobs that pay a living wage.

CM Jurinsky expressed her disappointment regarding all the unnecessary amendments despite the Mayor and CM Marcano being requested to hash out the resolution before bringing it back. CM Marcano explained that he also would have preferred sitting down with the Mayor, and revising it, but it did not happen. He added that the resolution did not even go to a policy committee. Mayor Coffman urged a no vote on the amendment.

Discussion on Marcano Amendment 14

CM Marcano presented his amendment that replaces "Continuously measure success by more than meals served and beds provided and instead centered around the number of people who reach self-sufficiency," with:

Continuously measure, for everyone enrolled in the program, the efficacy of the program as follows:

- Their utilization of supportive services.
- Their utilization of workforce development opportunities.
- Their housing status and income sources for 36 months beginning from their move-in date.
- Their employment status and income level for 36 months beginning from their move-in date.

Mayor Coffman said that it is unnecessary since these issues will be in the RFP.

Discussion on Marcano Amendment 15

CM Marcano presented his amendment that replaces "Reliance on community support (individuals, business community, and foundations) rather than federal support if it comes with inflexible requirements," with:

Develop an initiative to supplement Federal funding and City staffing and funding by generating financial and volunteer support from:

- Individuals

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

- Private businesses
- Non-Governmental Organizations
- Philanthropic Foundations

Mayor Coffman stated that it is unnecessary.

Discussion on Marcano Amendment 17

CM Marcano presented his amendment that adds "Develop a strategy to reach out to jurisdictions throughout the metropolitan region with the goal of building consensus on a shared regional strategy utilizing evidence-based best practices to reduce homelessness, sharing resources, and eliminating redundancies where appropriate to maximize the effectiveness of our collective efforts," to Section 1.

Mayor Coffman said that the resolution already has language on working with surrounding jurisdictions and developing IGAs.

Discussion on Marcano Amendment 12

CM Marcano presented his amendment which replaces "Incentivize participation in supportive services and require conditions for transitional housing," with "Provide Permanent Supportive Housing (PSH) services to ensure stability and supported recovery for individuals and families for whom Rapid Re-Housing alone would not be enough to prevent homelessness," in Section 1.

CM Marcano explained that this is a "yes, and..." He reiterated the importance of regional collaboration on projects where federal dollars and other jurisdictions are involved. He mentioned that Aurora is an outlier in its opposition to Permanent Supportive Housing. Mayor Coffman said that this is unnecessary and that other organizations are doing Permanent Supportive Housing.

Discussion on the Resolution

CM Marcano expressed his disappointment with the continuous abuse of calling for the question. He said that they should be as clear as possible with their intent when crafting resolutions. They need to signal to partners that they are willing to collaborate and that they have a clear idea of the potential of the Campus. He expressed his opposition to the resolution as it is not a wise use of resources, and they will not be able to garner regional support. He mentioned that this is signaling that they are opposed to following successful policy and utilizing evidence to address issues in the city.

CM Jurinsky commented on being accused of abuse by someone joining the meeting virtually while other Council members showed up in City Hall. CM Marcano explained that he is recovering from surgery.

Mayor Pro Tem Bergan commented that they have had amendments to resolutions, but not this many. CM Marcano said that the resolution should have been brought to a

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

policy committee or Mayor Coffman could have accepted his multiple offers to meet up and discuss the resolution.

Mayor Coffman explained that he was able to review CM Marcano's amendments beforehand and added in ones that he agreed with. He said that the resolution is a major policy initiative, and it allows Aurora to lead in a different direction than previous failed attempts. He added that it will be a tough-love approach in moving people into self-sufficiency through work and dealing with addiction and mental health challenges. He mentioned that not all people experiencing homelessness are in encampments, and some are couch surfing or do not have stable housing. He highlighted that this would move Aurora in a different direction and become a leader in addressing homelessness. He urged a yes vote on the resolution.

CM Coombs expressed her opposition to the resolution and stated that they should start within Aurora if they want to lead.

Motion by Bergan, second by Coffman to approve the Bergan amendment which adds "it would be operated by a non-profit."

Mayor Coffman called for a brief recess of Council to allow staff to provide call-in instructions.

12. **PUBLIC HEARING WITH RELATED ORDINANCE**

12.a. **Standards for Other Types of Signs**

2022-71 FOR AN ORDINANCE AMENDING CHAPTER 146 OF THE CITY CODE OF THE CITY OF AURORA, COLORADO, RELATING TO STANDARDS FOR OTHER TYPES OF SIGNS

Brandon Cammarata, Planning Manager / George Koumantakis, Manager of Client Services, City Attorney

Mayor Coffman opened the public hearing.

Brandon Cammarata, Planning Manager, provided a summary of the item.

Mayor Coffman closed the public hearing.

CM Zvonek explained that the City Code requires pennants to have a permit, have a limitation on how long they could be hung, and must be in good condition. Having these requirements, other than pennants being in good condition, is an undue burden on businesses. He mentioned that the pennants oftentimes are used to advertise sales and events. He added that they have received complaints from constituents regarding the need for code enforcement and having these requirements in place takes time away from code enforcement for other pressing matters. CM Coombs expressed her support. She commented that constituents expressed concerns regarding code changes that

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

would take code enforcement away from other issues that may seem trivial but are big concerns of residents like the placement of trash cans.

Motion by Zvonek, second by Jurinsky to approve item 12a.

Voting Aye: Bergan, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

13. **PUBLIC HEARING WITHOUT RELATED ORDINANCE**

13.a. **Public Hearing and Appeal of the October 12, 2022, Planning Commission's Approval of the Grand Avenue Townhome Site Plan with an Adjustment**

Stephen Rodriguez, Planning Supervisor / Daniel L. Money, Senior Assistant City

Attorney Outside Speaker: Nathan Adams, CEO of redT Homes

Mayor Coffman opened the public hearing.

Stephen Rodriguez, Planning Supervisor, provided a summary of the item.

CEO of redT Homes Nathan Adams and Project Manager Joshua Botts discussed the background of redT Homes and how the development met all the necessary criteria for application in Aurora.

The appellants expressed concerns regarding the high cost of homes provided by the development which could not be attained by low-income families, including the immigrant and refugee population, within the community. They stressed the importance of building affordable housing.

Council heard public in-person testimony.

Mayor Pro Tem Bergan asked if the applicant conducted their market studies and what their investment is in construction costs. She asked if they could lower the price point. N. Adams said that the total investment with be over $20 million to build 53 townhomes. He added that they spent $200,000 per door on land, architecture, tap fees, and infrastructure before they were able to build vertically. He said that the land cost was around $57,000 per door. If the price moves lower, they need construction costs to come down. Mayor Pro Tem Bergan asked if anybody showed interest in the vacant lot prior to redT Homes. S. Rodriguez said that they were not aware of any. N. Adams mentioned that the property was on the market for some time, and they were the only ones interested.

CM Gardner highlighted that the development meets all the criteria of the comprehensive plan. He asked if they have a legal requirement to approve it and what the potential liabilities would be if it were denied. D. Money explained that the Council must review the appeal based on the standards and criteria of the UDO, and the decision of the planning commission, and ensure that the development is compatible

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

with the neighborhood. He added that the zoning district in question is mixed-use and is designed for a diversity of housing types for a diversity of income. It is Council's role and prerogative how to apply the standards of the UDO. He further explained that the land is use-by-right, and if the city says that they cannot build on or use it, then it would set the city up for a potential lawsuit. This would have to be litigated in court and determined if the government did a takings.

CM Marcano asked what the estimated HOA dues would be. N. Adams said that they will intentionally be kept low, around $70 to $100 a month. He added that it may be on the lower end since they have an obligation to put one water line to each property. This fee includes snow removal and landscape maintenance. He stressed that the project has no swimming pools, gyms, or fitness centers. CM Marcano asked if they estimated the impact the development might have on comparable rent in the area or on property taxes. N. Adams said no since they are a for-sale development and are not looking at rents. He explained that they are adding inventory on the site. He added that they did not look at taxes since policymakers are the ones that set them.

CM Coombs mentioned that the cost of parking requirements often increases the cost of development. She asked for the estimated amount of cost per home and the cost to develop in line with the parking requirements of the city. N. Adams said that they are building a one-car garage and additional off-street space for most of the units to keep the cost down. Constructing a one-car garage costs $12,000. Some properties would have two-car garages. He explained that the only they could do to bring the cost lower is to build it to a LEED gold certification standard, which is non-negotiable for the company.

CM Coombs asked about the density of the site as it relates to parking requirements. N. Adams said that there are exactly two spaces per unit, totaling 106 parking spaces. He highlighted that this would seem to be the right amount for three and four-bedroom units. He added that they were intentional about adding multi-bedroom townhomes to appeal to people that are currently in the neighborhood.

CM Coombs pointed out that the area has more access to transit than the rest of the city. She asked if the developer looked at transit-oriented development and the impact that may have on parking requirements. N. Adams reiterated that they do not set the policy and only follow the parking requirement of the city. He said that they would love to see more people taking public transportation, but there are not a lot of people waiting for the bus on Colfax. CM Coombs said that people are using the bus along Colfax. She mentioned that they can get waivers associated with TOD, which the development would qualify for. Therefore, if they are looking for ways to encourage transit use, there is a policy in place to enable this and bring down the cost of development.

CM Coombs asked if the city looked at the site for land banking. J. Twombly said no. CM Coombs commented that this is an opportunity that would be beneficial for the city moving forward. She asked if they are permitted to utilize the housing plan in deciding whether to approve or deny the proposal. C. Money said that the judge would strictly go by code and other adopted city regulations, which this developed complies with and

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

where the housing plan would be taken into account. They would also decide based on conditions specifically applied to the development by the Planning and Zoning Commission or City Council and a prior decision affecting the property. He explained that it would depend on how it would be interpreted.

CMM Coombs mentioned that if they have data demonstrating a compelling government interest, then they could use this as an argument against being found to have engaged in illegal regulatory takings. The conducted housing study has demonstrated a cost burden for housing for the community, including this area. She asked if this could be used as a defense against any potential takings claim. D. Money said they would use all they can as a defense, should they go to court. He explained that if the government takes land or prevents its use, then the government must pay for it. The payment would be either through a lawsuit that has higher damages or through buying the land.

CM Gardner asked how removing all parking would impact the ability to obtain financing. N. Adams said that it would be difficult, but not impossible. He explained that they must raise equity and produce an economically viable project with a high probability of selling to get financing. He added that they are only near buses, but not light rail. CM Marcano mentioned that the Colfax Corridor has the most heavily utilized bus in the network. The Corridor is also about to become a Bus Rapid Transit (BRT) corridor, which will be a big asset to the city and the project. He asked if the developers currently own the land. N. Adams said yes.

CM Marcano asked if they are aware of how long previous owners owned it. N. Adams said they do not know, and it was not relevant to whether it made sense to develop on the site. CM Marcano explained that he wants to know if the previous owners were intending to develop the land or if they were hoping to sell it to development that would increase the cost in the community. N. Adams said that they do not have any insight. CM Marcano asked staff for records of the property. B. Cammarata said that the County Assessor would have the information.

Mayor Coffman mentioned that residents in the area expressed concern regarding four boarded-up homes that were continually broken into and were nests for illegal activity. They wanted something done with the property for their safety. Mayor Coffman pointed out that they are not tearing down low-income property and replacing it with higher income. They are simply redeveloping a vacant parcel that is crime infested. CM Sundberg requested the spreadsheet on the work done by Mr. Green on providing $3 million in rental assistance. He mentioned that Aurora has 20 affordable housing projects in the pipeline including Weatherstone, Elevate Aurora, etc. He pointed to a testimony from an apartment complex manager indicating that there is not a big disparity between current homes there that could sell for over $500,000. CM Sundberg mentioned testimonies indicating that the project could improve lighting, safety, speeding, and drug use in the area. He stressed that these improvements were also indicated by the developer. He thanked the developer for providing a service to the city.

Mayor Coffman closed the public hearing.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Mayor Pro Tem Bergan thanked the individuals that shared testimonies. She mentioned that she sat on a hearing for a developer trying to bring in affordable housing to CHFA to get state grants. However, these grants are few and far between and there are only so many per year that a developer can apply for across the state. She said that there are ways to work on getting affordable housing and reducing construction costs on some standards in the city. She stressed that the property is currently on vacant land with no interest from other developers to provide affordable housing. She said that it is heartbreaking to hear stories from residents, but it is a good project that will improve the neighborhood.

CM Gardner thanked the residents that provided their testimonies. He expressed frustration that the developers have been put through a lot by organizations that are not in Aurora. He stressed that the developers have the right to build, and Council does not have the legal right to turn it down. He stated that those from Aurora that were urged to speak were lied to by organizations and used as pawns to push rent control. He added that this was not an argument regarding affordable housing, gentrification, or displacement; rather, it was how the project complies with the UDO and the city's comprehensive plan. He stated that they will continue to support affordable housing projects that are appropriate for the city but will not be bullied by organizations from Denver.

CM Jurinsky stressed that there is a housing shortage at every price point and there are people that could afford $500,000 but have not been able to find a home due to bidding wars. She said that these new home builds would avoid these bidding wars. She mentioned that she received past criticism when she stood up to a developer who she felt was displacing people in businesses. However, she could not find how this project would displace anyone as it is a vacant lot. She expressed her support for the project.

CM Medina stressed how every change and development in the area, including The Stanley, affected people in the community. He referred to a study saying that The Stanley did not know how to reach out to the community and 90% of the people who lived a block away did not know that The Stanley existed. He stressed the importance of talking to the residents, including them in meetings, and reaching out to the immigrant and refugee populations. They should not assume that everybody speaks English, has access to a computer, or has time to go to meetings. He stated that he will look at ways to mitigate these issues in the future.

CM Jurinsky mentioned that they received an email stating that Nano has been involved with the developer for some time. Mayor Pro Tem Bergan said that the notice goes out to every neighborhood, registered neighborhood associations, residents within, and adjacent property owners. N. Adams said that they have engaged with Nano and Del Mar who were both previously in opposition. N. Adams met and compromised with them and changed their position to support them by allowing them to have a say in the development. He added that most of the people in opposition are from the East Colfax Collective, which is not a registered neighborhood organization. He mentioned that they refused to engage despite being given his direct contact details until they came into his office on Thursday of last week.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Mayor Pro Tem Bergan asked if they attended the meetings. N. Adams said that ECC did not attend any meetings. But they started the development process in 2021. CM Gardner referred to the memo from the police chief stating that there has been a 60% decrease in crime events, a 75% reduction in drug crimes, and a 60% reduction in motor vehicle thefts since they increased focus on crime in the area. He highlighted that this development would continue to turn crime around and make residents feel safer.

CM Marcano said that the amenities of the project are great and would love to see this development all over the city but for a reasonable price. He mentioned that it may be a little over-parked given the proximity to the busiest transit corridor in the metro. He stated that the median income in Aurora is $67,700 a year. To afford this, the minimum income required would be $140,000. He stressed how this development in the most diverse and lowest-income part of town would lead to displacement by raising property values in the area. He added that they would then end up with a larger public safety issue by not addressing the root cause of crime. CM Marcano stated that they should prioritize people living in the community and work with developers that would provide a hood housing product at an affordable rate. He said that they should utilize this vacant lot for community benefit and deter crime, but not by building million-dollar townhomes in an area with a $36,000 to $40,000 median income. CM Marcano pointed to the UDO which requires the application to mitigate any adverse impacts on the surrounding area to the maximum degree possible. He mentioned how the developers did not study how the project will impact existing residents and property owners and how it may trigger displacement.

CM Coombs mentioned that the proposal was submitted for late submission approval and was specifically asked to be moved to today's meeting despite numerous resolutions. She said that the mayor is the one that asked for this and is the only person that sees and sets the agenda. She highlighted how this impacted people's ability to stay and participate. She suggested opening the agenda-setting process. She added that one of the organizations involved in speaking for the appellant was specifically called out during the ARPA Grant Item. CM Coombs said that she hopes that this was not an effort at intimidation. CM Coombs pointed out that the top five professions in the area cannot afford a cost of a home in this development. She highlighted that construction is one of the most lucrative jobs among those professions and is prevalent in wage theft. She mentioned the importance of actual attainable missing middle housing which this development is not. She suggested looking into the housing study to acknowledge the reality in the city.

CM Murillo expressed her appreciation for CM Coombs for calling out the delayed vote on ARPA dollars that have already been vetted by staff for projects. She mentioned that the organization, despite being from Denver, also has Aurora members. She expressed her disappointment to the applicant referring to the appellant's comments as straight-out lies despite their testimonies being rooted in the impact of the project and not directed at the business. CM Murillo pointed out the positives of the development including being near BRT and being LEED certified. She stressed the importance of acknowledging the housing plan, affordability, and the reality of the people living in the area. She highlighted that people are not against development and a safe community. However, they want to see development that will have long-term benefits. CM Murillo

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

thanked the work of APD regarding the decrease in crime. However, she pointed out that these improvements were not due to housing development. She stressed the importance of pushing for safer communities regardless of the price of the homes. She thanked the organizations like the East Colfax Community Collective for empowering people and providing testimony.

FOR THE TAX COLLECTION YEAR BEGINNING JANUARY 1, 2023, AND ENDING DECEMBER 31, 2023

Greg Hays, Budget Officer / Hanosky Hernandez, Senior Assistant City Attorney

15.g. **Water Rate Ordinance**

2022-62 CONSIDERATION OF THE CITY COUNCIL OF THE CITY OF AURORA TO APPROVE AN ORDINANCE AMENDING CERTAIN SECTIONS OF CHAPTER 138 OF THE CITY CODE OF THE CITY OF AURORA RELATING TO SERVICES FOR THE PROVISION OF WATER

Jo Ann Giddings, Deputy Director of Business Services, Aurora Water / Rachel Allen, Client Group Manager, City Attorney

Marshall Brown, General Manager of Aurora Water, provided a summary of the item.

CM Gardner expressed his opposition. Mayor Pro Tem Bergan asked what the consequences will be if they do not pass the water rate. M. Brown explained that they would rethink how to cover the operating costs and may cut into water reserves. They have to rethink operations that they do proactively to exceed regulatory requirements such as PFAS lead service line removals. He added that there would be consequences for the confidence of the public in the water system and they would have to send public notices out explaining the delay and deferral of some operations.

Mayor Pro Tem Bergan asked if they would still be required to raise rates next year by a higher amount. M. Brown confirmed this. He mentioned that the rate increases would compound the regulatory items. They could be delayed for a year or two, but they would eventually be required to comply which will destroy public confidence and still raise the rates. Mayor Pro Tem Bergan asked if the budget has been approved. M. Brown said yes.

Motion by Coombs, second by Marcano to approve item 15g.

Voting Aye: Bergan, Coombs, Marcano, Medina, Murillo, Sundberg

Voting Nay: Gardner, Jurinsky, Lawson, Zvonek

15.h. **General Improvement District 3-2008 (Meadow Hills Country Club) 2023 Operating Budget**

20. REPORTS

20.a. Report by the Mayor

None.

20.b. Reports by the Council

CM Lawson gave her condolences to Dr. Jules Smith of the Rising Star Missionary Baptist Church and Mr. Ernie Clark.

CM Jurinsky also gave her condolences. She wished everyone a Happy Thanksgiving.

CM Murillo extended her condolences. She mentioned that one of AFR's family members also passed away. She announced that her town hall would be moved to December 1st at the Moorhead Recreation Center. She wished everyone a Happy Thanksgiving.

CM Marcano thanked the residents who voted in the elections and the candidates who ran. He congratulated the winners and is optimistic about the collaborative opportunities Aurora has in the coming years with new state and county-level partners. He announced that the next Ward IV meeting would be on January 12th at the Colorado Early Colleges from 6:30 PM. Arapahoe County District 4 Commissioner would be in attendance to discuss her role on the county commission and collaboration between Arapahoe County and Aurora.

CM Coombs echoed the condolences. She added that Mr. Ernie Clark's volunteers and daughters intend to continue his legacy of providing bikes for the community. She announced that the Ward V Town Hall would be on November 15th at the Central Recreation Center and WebEx.

Mayor Pro Tem expressed her condolences to Mr. Clark. She announced that her Town Hall would be on November 16th with topics on crime, motor vehicle theft, and prosecuting crime. She wished everyone a Happy Thanksgiving.

Councilmembers Gardner, Zvonek, Sundberg, and Medina did not have reports.

21. ADJOURNMENT

Mayor Coffman adjourned the regular meeting of the City Council.

Water Policy Committee (WPC) Meeting

August 10, 2023

Members Present: Council Member Steve Sundberg (Chair), Council Member Alison Coombs (Vice Chair), Council Member François Bergan

Absent:

Others Present: Rachel Allen, Greg Baker, Todd Brewer, Marshall Brown, Michael Bryant, Steve Cann, James DeHerrera, Rory Franklin, Sonya Gonzalez, John Murphy, Swirvine Nyirenda, Cat Olukotun, Casey Rossman, Earl Wilkinson, Eric Schneider, Sam Scorza, Gail Thrasher, Sarah Young

---

1. Approval of Minutes

The July 19, 2023, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update
C. Quarterly Financial Report

Summary of Issue and Discussion: Regarding the construction change order report, CM Sundberg asked, what was the material that would cause this type of erosion to the pipe referenced in the change order for this month? S. Nyirenda responded, corrugated metal pipe which was popular several years ago but is no longer being used due to corrosion issues.

Regarding the quarterly financial report, CM Sundberg asked, are the revenue decreases the result of a decrease in construction and connection fees? M. Brown responded yes. CM Coombs asked, is the rate revenue down because of lower demand? C. Olukotun responded, yes.

CM Coombs asked, how many full-time employees does the vacancy savings represent in regard to personnel services? M. Brown responded, we are slightly over 10%, so roughly 40 plus positions are currently open. CM Coombs asked, how is that impacting workloads for current employees? M. Brown responded, we are accruing additional overtime, primarily in treatment, field crews, construction and repairs, and inspections. The department is also utilizing outside contractors in the interim to fill some our positions. CM Coombs asked if it was an authority issue that Council can provide to fill those positions? M. Brown responded, no, we have the authority, it is mostly the job market affecting the utility and while we are competitive in pay, we are still trying to figure out ways of streamlining the hiring process. We are also hoping there

will be some improvements with vacancies once we move to the Southeast Area Maintenance Facility.

CM Bergan asked, with employees retiring, is there a way we can bring them back as contractors part-time? M. Brown responded, we have done that, most recently with Dan Mikesell who returned for nine months. Additionally, we have contracted with not just retirements but other employees that have left the city.

CM Sundberg asked if the Southeast Area Maintenance Facility cost is reflected in the second quarter financial report? M. Brown responded, the facility is out of the budget as it is near completion and was previously programmed in the capital improvements budget. The contract for the moving company went through council a few weeks ago which is the last of the major costs associated with construction. The cost of the facility was roughly $147,000,000.00 which was ideal timing wise, if we would have built in today's market it would have been closer to $250,000,000.00. S. Young added, the contractor, Saunders, worked proactively in ordering materials such as steel prior to fabrication to lock in prices which allowed us to come in on budget.

CM Bergan stated, constituents continue to ask her about rate increases with increased development while they are being asked to conserve water. M. Brown responded, the rate increases help us operate the water system. Conservation creates resiliency and sustainability for existing customers and helps to meet the needs of additional growth. A lot of our projects associated with water supply and resiliency are split between rate and fee revenue. CM Bergan stated, she has further discussed with constituents that while the population in Aurora has grown substantially, we have actually reduced the water supply need. M. Brown confirmed her statement and added, our growth is a far steeper curve than the increase in water use. We are also continuing to be aggressive in water supply acquisitions to meet future demands. Additionally, if development slows, we are still working on projects associated with growth so the rate payer, bond ratings, etc. allow us to issue debt which will be carried through non-developmental periods.

Outcome: The consent items were supported as presented.

Follow-Up Action: The consent items were supported as presented.

---

3. Major Drainageway Planning for East Toll Gate Creek Tributaries Intergovernmental Agreement

Summary of Issue and Discussion: S. Scorza, gave a presentation regarding an Intergovernmental Agreement between the City of Aurora, Mile High Flood District, and the Southeast Metro Stormwater Authority for the funding of major drainageway planning for the East Toll Gate Creek tributaries. The proposed work will include mapping, compilation of

existing data, field work, and development and evaluation of alternatives to provide the most feasible drainage and flood control master plan for the study area. The total cost of the project is $200,000.00 with Aurora Water contributing $90,000.00.

Outcome: The Committee supports the major drainageway planning for East Toll Gate Creek Tributaries intergovernmental agreement and forwarded to the next Study Session for consideration

Follow-Up Action: The Committee supports the major drainageway planning for East Toll Gate Creek Tributaries intergovernmental agreement and will forward to the next Study Session for consideration

---

4. Second Amendment to an Intergovernmental Agreement for Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road

Summary of Issue and Discussion: S. Scorza gave a presentation discussing the second amendment to an intergovernmental agreement between the City of Aurora, the Mile High Flood District, the Southeast Metro Stormwater Authority, and the Cherry Creek Basin Water Quality Authority identifying ways to mitigate erosion occurring between the Cherry Creek Soccer Complex and the confluence with Piney Creek. The total cost of the project is $2,203,828.30 with Aurora Water's total contribution at $740,258.84.

CM Sundberg asked, will this restoration include the area just South of the reservoir where the road has been washed out in a couple of places? S. Scorza responded, this project is further upstream. That specific area is entirely within Cherry Creek Basin Water Quality Authorities jurisdiction. S. Young added, there are future discussions planned with Mile High Flood District and the Cherry Creek Basin Water Quality Authorities to discuss what to do in that area not only to protect the Rampart Pipeline but mitigate the amount of sediment going into the reservoir. There will be an interim fix that the Cherry Creek Basin Water Quality Authorities insurance will pay for, but they are looking at a permanent solution.

CM Coombs asked, was there flooding in the area of this project? S. Scorza responded, yes, while no structures have been impacted, there has been an increase in the degradation of the stream and sediment movement.

Outcome: The Committee supports the second amendment to an intergovernmental agreement for drainage and flood control improvements for Cherry Creek Restoration at Arapahoe Road and forwarded to the next Council Meeting for consideration.

Follow-Up Action: The Committee supports the second amendment to an intergovernmental agreement for drainage and flood control improvements for Cherry Creek Restoration at Arapahoe Road and will forward to the next Council Meeting for consideration.

---

5. Drainage and Flood Control Improvements for Unnamed Creek Upstream of S. Jericho Way Intergovernmental Agreement.

Summary of Issue and Discussion: S. Scorza gave a presentation discussing an intergovernmental agreement between the City of Aurora and the Mile High Flood District for the rehabilitation of the Unnamed Creek upstream of S. Jericho Way to reduce street flooding in the area, provide additional water quality volume, provide maintenance feasibility for the upstream forebays, reduce sediment buildup, and enhance the community. The total cost of the project is $1,100,000.00 with Aurora Water contributing $700,000.00.

CM Sundberg asked, why can't Mile High Flood District contribute more equitably? S. Scorza responded, since this project is moving from a maintenance project to a capital project, Mile High Flood district is reappropriating the maintenance funds over to capital projects. Next year, they will contribute additional funds through the approval of their board.

CM Bergan asked, how does the Mile High Flood District get their revenues? S. Young responded, through mill levy collected by county then the funds are split up between the jurisdictions within those counties.

Outcome: The Committee supports the intergovernmental agreement for drainage and flood control improvements for Unnamed Creek upstream of S. Jericho Way and forwarded to the next Study Session for consideration.

Follow-Up Action: The Committee supports the intergovernmental agreement for drainage and flood control improvements for Unnamed Creek upstream of S. Jericho Way and will forward to the next Study Session for consideration.

---

6. 2024 Proposed Fee Increase Presentation

Summary of Issue and Discussion: C. Olukotun gave a presentation on the proposed 2024 connection fee increases.

CM Bergan asked, if the average summer usage were tiered in the presentation as the difference seems lower that previously stated. CM Coombs asked if CM Bergan was accounting for storm and wastewater fees as the displayed chart only accounted for water. M. Brown added, the storm and wastewater would be in addition to the water increase. CM Bergan stated she realized she was only looking at the water increase and not accounting for storm and wastewater.

Regarding the scenarios in the presentation, CM Bergan asked, in scenario one and two, is 7,000 square feet single-family homes what we are seeing come from developer plans? M. Brown stated, there is variability in the plans coming in, however, 7,000 square feet is the average lot size the Dever-Metro area has settled on for comparison. This gives us a more accurate way to compare against surrounding utilities. CM Bergan stated, we will hear from the development

community that the fee increases will affect the price of housing. M. Brown stated, correct, however, in comparison, the only other utility below Aurora is Denver and that is because they are not currently pursuing water rights which would increase their fees. Additionally, they are not seeing the same amount of development that is driving water use demands.

CM Bergan asked, so when developers are saying our connection fees are higher, that is not correct? M. Brown responded, it is not correct in the single family residential space which is what most of our development is. We are also cheaper than other utilities for low water commercial use and very competitive in the multifamily, however, high-use development connection fees are significantly higher in Aurora.

CM Coombs asked, if Denver is developing in such a way that they get water savings, what would Aurora's development look like from a physical standpoint that would give us water savings instead of increased water use? M. Brown responded, the urban redevelopment space is where they are redeveloping spaces with a lot of outdoor irrigation into more efficient areas with more waterwise landscaping and multi-story buildings which results in water savings. Aurora does not have much redevelopment going on, so we do not have the same opportunities this year for water savings that Denver does.

CM Coombs asked if there was anything we can do to be more competitive in the multi-family space? And can we put together some multi-family scenarios to understand how we can be more competitive? M. Brown responded, yes, we can put some examples together, we will also analyze how the conservation ordinance that has been implemented affects those types of developments since they have separate meters for indoor use and irrigation. With those changes, it is likely we will be cheaper than surrounding utilities except for Denver.

CM Sundberg suggested that when this is presented at Study Session to highlight the inevitable cost increases of energy, natural gas, etc. CM Sundberg reiterated the importance of highlighting cost increases and highlighting the comparison of our costs to surrounding utilities. CM Bergan added, it would also be good to present on where we have tried to create savings and efficiencies in the system. Additionally, the misconception that residents are responsible for paying for new development. M. Brown stated that we will be sure to highlight those areas and also include that 2% of the 2023 5% increase were due to federal mandates to keep drinking water free of PFAS and the costs associated with the removal which can reach roughly $2,000,000.00 a year.

Outcome: The Committee supports the 2024 Proposed Fee Presentation and forwarded to the next Study Session for consideration.

Follow-Up Action: The Committee supports the 2024 Proposed Fee Presentation and will forward to the next Study Session for consideration.

---

7. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: CM Sundberg reminded the committee of the water tour on August 15 and August 16.

Regarding the credit card fee presentation from the July Water Policy Committee meeting, M. Brown stated that the debit card payments for water bills is charged as a credit card not an ACH payment since the payments are managed by VISA. We will continue to encourage residents to switch to ACH payments that do not go through a bank card to avoid the processing fee.

CM Bergan suggested a presentation on innovation for the next Water Policy Committee meeting.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Confirm Next Meeting

The next meeting is scheduled for September 20, 2023, 10:30 a.m. via WebEx.

Scott Newman, Chief Information Officer / Hanosky Hernandez, Senior Assistant City Attorney

11.b.3 **Single Subject Ballot Initiatives**

2023-38 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING SECTIONS 54-121 AND 54-131 OF THE CITY CODE PERTAINING TO BALLOT INITIATIVES

Sponsor: Curtis Gardner, Mayor Pro Tem

Dan Brotzman, City Attorney / Jack Bajorek, Deputy City Attorney

Outside Speakers: Julie Gamec and Alicia Khine, THK Associates

Motion by Gardner, second by Lawson to approve the Consent Calendar - Resolutions and Ordinances.

- ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

12. **PUBLIC HEARINGS**

Public hearings with or without related ordinances

12.a **Unified Development Ordinance (UDO) Amendments to Clarify Parks and Opens Spaces**

2023-40 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING VARIOUS SECTIONS OF CHAPTER 146 OF THE CITY CODE OF THE CITY OF AURORA, COLORADO TO PROVIDE CORRECTIONS, CLARIFICATIONS AND UPDATES TO THE LAND USE REGULATIONS OF THE UNIFIED DEVELOPMENT ORDINANCE (UDO)

Nicole Ankeney, Planning, Design and Construction Manager of Parks, Recreation and Open Space / Michelle Gardner, Senior Assistant City Attorney

Mayor Coffman opened the public hearing.

Nicole Ankeney, Manager of Planning, Design, and Construction, provided a summary of the item.

Mayor Coffman closed the public hearing.

Motion by Bergan, second by Marcano to approve 12.a.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

12.b **Unified Development Ordinance (UDO) Amendments to Update Various Sections in the Landscape, Dimensional, and Parking Standards**

2023-41 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING VARIOUS SECTIONS OF CHAPTER 146 OF THE CITY CODE, TO ADDRESS LANDSCAPE, DIMENSIONAL AND PARKING STANDARDS WITHIN THE CITY

Brandon Cammarata, Planning Manager, Planning and Development Services / Rachel Allen, Client Services Manager, City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Water Policy Committee (WPC) Meeting

June 12, 2024

Members Present: Council Member Steve Sundberg (Chair), Council Member Stephanie Hancock (Vice Chair), Council Member François Bergan

Absent:

Others Present: Rachel Allen, Greg Baker, Ian Best, Marshall Brown, Melina Bourdeau, Stephen Cann, Alexandra Davis, Denver Gazette, Rory Franklin, James DeHerrera, Sonya Gonzalez, Kathy Kitzmann, Luz Lopez, Brenda Mendoza-Ortega, John Murphy, Swirvine Nyirenda, Cat Olukotun, Casey Rossman, Eric Schneider, Sam Scorza, Oona Sullivan, Cheinette Van Wyk, Earl Wilkinson, Jenny Wynn, Tim York, Sarah Young

---

1. Approval of Minutes

The May 15, 2024, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update
C. Quarterly Financial Update

Summary of Issue and Discussion: CM Began asked, why is Twin Lakes so low? M. Brown responded, this time of year, the higher reservoirs have lower levels because we move the water down lower in the system to increase our capacity to catch runoff. CM Bergan asked, are the fires up in that area impacting the reservoirs? M. Brown stated there was not an imminent threat on infrastructure as of now however, we may see some debris from the fire runoff into the water supply.

Outcome: The consent items were supported as presented.

Follow-Up Action: None.

---

3. Third Amendment to a Intergovernmental Agreement Regarding Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road

Summary of Issue and Discussion: S. Scorza gave a presentation regarding an intergovernmental agreement between the Mile High Flood District (MHFD) and Aurora Water to identify ways to

mitigate erosion in the remaining portions of the channel. Future amendments will be required to complete mitigation design, and to construct identified projects.

Outcome: The Committee supports the Intergovernmental Agreement Amendment regarding Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road and forwarded to the next Council meeting.

Follow-Up Action: The Intergovernmental Agreement Amendment regarding Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road will be forwarded to the next Council meeting.

---

4. Fifteenth Amendment to a Intergovernmental Agreement Regarding Drainage and Flood Control Improvements for First Creek Detention Upstream of I-70

Summary of Issue and Discussion: S. Scorza gave a presentation regarding an intergovernmental agreement between the Mile High Flood District (MHFD) and Aurora Water to develop a final design of the First Creek Detention Pond including land acquisition, mapping, compilation of existing data, necessary field work, development of final design, and services during construction.

CM Bergan asked, why is there such a large increase in funding for this amendment? S. Scorza responded, the increase is largely due to the surge inflation. CM Bergan asked, when is the estimated completion date? S. Scorza responded, design should be complete this year with construction beginning mid-2025. CM Bergan asked, is there a way we can lock in the rates and costs in a contract to avoid inflation? S. Scorza stated, the plan is to pay the contractor the increased price now to avoid further inflation of costs. M. Brown added, we try to lock in pricing when we can but do that where we can, but it is more difficult on a stormwater project because the price is largely based on labor and design costs rather than procuring materials. CM Bergan asked, is this pond bordering Denver and if so, are they contributing? S. Scorza responded, this project is within the City of Aurora so Denver is not contributing to this one.

Outcome: The Committee supports the Intergovernmental Agreement Amendment regarding Drainage and Flood Control Improvements for First Creek Detention Upstream of I-70 and forwarded to the next Council meeting.

Follow-Up Action: The Intergovernmental Agreement Amendment regarding Drainage and Flood Control Improvements for First Creek Detention Upstream of I-70 will be forwarded to the next Council meeting.

---

5. Metro Water Recovery, Denver Water, and Aurora Water Regional Water Reuse Feasibility Study Intergovernmental Agreement

Summary of Issue and Discussion: M. Brown gave a presentation on an Intergovernmental Agreement between Metro Water Recovery, Denver Water, and Aurora Water regarding a regional water reuse feasibility study which will identify and evaluate potential future regional water reuse opportunities and partnership solutions.

CM Bergan asked, why are we contributing to this study if we already have a plan for reuse? M. Brown responded, this study is to better understand our reuse needs in the northeast Aurora area in conjunction with Metro Water Recovery and Denver.

CM Sundberg asked, will this affect development in that area? M. Brown stated, it will eventually if we cannot develop a reuse plan.

Outcome: The Committee supports the Intergovernmental Agreement regarding a Regional Water Reuse Feasibility Study and forwarded to the next Study Session.

Follow-Up Action: The Intergovernmental Agreement regarding a Regional Water Reuse Feasibility Study will be forwarded to the next Study Session.

---

6. PFAS Infrastructure Grant

Summary of Issue and Discussion: L. Lopez gave a presentation on a Colorado Department of Public Health and Environment infrastructure grant for the design of a granular activated carbon or ion exchange facility to treat Perfluoroalkyl/Polyfluoroalkyl (PFAS) in the water prior to sending it to the Water Purification Facilities (where no PFAS removal is provided).

CM Bergan asked, is this only for the design? L. Lopez responded yes, for now, since we are not shovel ready. CM Bergan asked, once we are done with the planning then we can apply for the construction grant? L. Lopez responded yes, but it will be a grant that the city of Aurora will need to match funding on.

CM Sundberg asked, where will this facility be located? M. Brown responded, it could be located near the Cherry Creek wells by Coner Star or downstream prior to an existing water treatment process. L. Lopez added, the potential treatment locations are Griswold, Quincy Reservoir or Wemlinger

Outcome: The Committee supports the PFAS Infrastructure Grant Agreement and forwarded to the next Council meeting.

Follow-Up Action: The Agreement regarding a PFAS Infrastructure Grant will be forwarded to the next Council meeting.

---

7. Artificial Turf Presentation

Summary of Issue and Discussion: T. York gave a presentation on impacts to the use of artificial turf relating to Senate Bill 24-005 Article 99, "Prohibition of Nonfunctional Turf, Artificial Turf, and Invasive Plant Species". The presentation will also include Aurora's current allowances for artificial turf and required changes per SB 24-005.

CM Bergan asked, are sports areas still allowed to have turf? T. York responded, yes. CM Bergan asked, so nothing other than the percentage of shrubs has changed with the residential side? T. York responded, no, that was an Aurora guideline, there was nothing changed for residential at the state level. CM Bergan asked, do the sports fields not want artificial turf because of the potential chemical emissions? M. Brown responded, chemicals was one of the concerns as well as heat. CM Bergan asked, if the Homeowner's Associations (HOA's) and Metro Districts could still prohibit artificial turf. T. York responded yes, the Metro Districts and HOA's can still prohibit artificial turf in the front yard but they cannot prohibit water wise landscaping.

CM Bergan asked, are we going to send out communication to the development community that the new Unified Development Ordinance's that will take effect? M. Brown stated, we will time the communication closer to when the changes will occur which are required by the end of 2026.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Grass Replacement Incentive Program Proposed Changes

Summary of Issue and Discussion: T. York gave a presentation on changes to the Grass Replacement Incentive Program (GRIP). The GRIP program provides financial incentive for the conversion of high-water use Kentucky bluegrass to water-wise landscape. Proposed changes will create an improved customer experience for our citizens, administrative efficiencies for staff, and programmatic equity across customer classes.

CM Bergan asked, how is the square footage of each yard being measured? T. York responded, with our free design program, we go and measure for the customer or we can utilize our GIS data. We are also working on a potential option for customers to be able to measure their own lawn and submit the measurements online.

CM Bergan asked, with the new calculations, will customers still be able to qualify for the full $4,000 rebate? T. York responded, it is dependent on how large your yard is. Since we are offering $3.00 per square foot, if your yard is 1,000 square feet, you would qualify for $3,000.

CM Sundberg asked, is the 500 square foot requirement still in place? T. York responded, yes, if the area is less than 500 square feet, the customer is required to convert the entire area to qualify.

CM Bergan asked, do we provide grass removal? T. York responded, we previously partnered with Resource Central who would offer turf removal and we would help subsidize it but the participation was very low so it didn't make financial sense to continue our partnership.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

9. 2025 Proposed Rates Presentation

Summary of Issue and Discussion: C. Olukotun gave a presentation on the proposed 2025 rate increases based on the most current financial plan. Aurora Water understands the significant impacts rate increases have on our customers, and therefore, the policy of the utility is, whenever possible, to have small incremental rate increases instead of infrequent large rate increases.

CM Bergan asked, are the operational costs just to maintain our system and not add to it and the costs to add to the system are paid by fees from developers? M. Brown responded, correct, however, projects that are a benefit to not only the customers but to growth will be split between rates and fees. CM Bergan asked, so looking at Wild Horse once the project is completed and paid off will that be removed from costs? M. Brown responded, we will likely be paying debt service on the Wild Horse project for a long period of time.

CM Sundberg asked, will the 2025 proposed rate increase line up with what was presented last year? C. Olukotun responded yes, however, the only change was to the sewer rate increases due to Metro Water Recovery increasing their rates.

CM Bergan asked, with the grant money that we will be receiving for PFAS, will that reduce our costs? M. Brown responded, the grant will only pay for 50% of the project and Aurora Water will be responsible for funding the other 50%. Additionally, a portion of the rate increase is due to the ongoing operational costs of treating PFAS. L. Lopez added, the grant process is competitive so there is a chance we will not receive the grant so want to budget accordingly. CM Bergan asked, will the PFAS settlement money help to offset the rate increases? M. Brown stated, since the settlement will be divided throughout the country, we will likely only receive $10 yes, but $15 million which will be spread out over several years which will not have a large impact on our rates.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

10. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: CM Bergan asked, will there be a WISE presentation coming to a future meeting? M. Brown replied, once we have completed our negotiations with Dominion, we will bring an update as well as a presentation on WISE.

CM Sundberg asked how the negotiations with Dominion were progressing. M. Brown stated, the discussion are centered around shifting their water our of the Rampart system and developing a scheduled frequency of water delivery. The 570 agreement volume will come out this fall, the 250 agreement volume will come out next spring and the 230 agreement water will come out in 2031. We are also awaiting a response from Dominion on our proposed drought restrictions when Aurora Water declares a drought state. We have also requested they make their WISE connection by October of this year because we will no longer be delivering any of the 570 agreement water through Rampart, they will have to take it through their new connection.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

11. Confirm Next Meeting

The next meeting is scheduled for July 17, 2024, 10:30 a.m. at the Southeast Area Maintenance Facility or via Teams

X S

Steve Sundberg
Chair, Water Policy Committee

Signature: Steve Sundberg (Jul 17, 2024 21:44 MDT)

MINUTES

Regular Meeting of the Aurora City Council

Monday, July 8, 2024

COUNCIL MEMBERS PRESENT:	Mayor Coffman	Angela Lawson
	Françoise Bergan	Ruben Medina
	Alison Coombs	Crystal Murillo
	Curtis Gardner	Steve Sundberg
	Stephanie Hancock	Dustin Zvonek
	Danielle Jurinsky	

---

1. CALL TO ORDER

Mayor Coffman reconvened the regular meeting of the City Council at 6:30 p.m.

2. ROLL CALL

Public call-in instructions were provided in both English and Spanish.

3. INVOCATION/MOMENT OF SILENCE

Mayor Coffman led in prayer for the July 8, 2024 meeting.

4. PLEDGE OF ALLEGIANCE

All standing.

5. EXECUTIVE SESSION UPDATE

Mayor Coffman provided an update on the Executive Session, stating personnel matters, property acquisition and security were discussed.

6. APPROVAL OF MINUTES

6.a June 10, 2024 Meeting Minutes

Moved by: Steve Sundberg

Second by: Stephanie Hancock

Does Council wish to approve the minutes of the meeting on June 10, 2024?

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Crystal Murillo, Steve Sundberg, and Dustin Zvonek

Absent: (1): Ruben Medina

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

6.b June 24, 2024 Meeting Minutes

Moved by: Françoise Bergan

Second by: Alison Coombs

Does Council wish to approve the minutes of the meeting on June 24, 2024?

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Crystal Murillo, Steve Sundberg, and Dustin Zvonek

Absent: (1): Ruben Medina

7. PROCLAMATIONS OR CEREMONIES

7.a Swearing-in Ceremony for Interim City Attorney Jack Bajorek

Shawn Day, Presiding Judge, Aurora Municipal Court

7.b Colombian Cultural Week

Mayor Coffman proclaimed the week of July 15 - 21, 2024 as Colombian Cultural Week.

Mayor Coffman read a land acknowledgement.

8. PUBLIC INVITED TO BE HEARD

(non-agenda related issues only)

Council heard public testimony on non-agenda related items.

9. ADOPTION OF THE AGENDA

The agenda was adopted as amended.

Amendment:

Moved by: Stephanie Hancock

Second by: Françoise Bergan

Does Council wish to adopt the agenda with the proposed amendment to remove items 11.a.4, 11.a.5, 11.a.10 and 11.a.11?

Voting Aye: (8): Mayor Coffman, Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Steve Sundberg, and Dustin Zvonek

Voting Nay: (2): Alison Coombs, and Crystal Murillo

Absent: (1): Ruben Medina

Moved by: Danielle Jurinsky

Second by: Dustin Zvonek

Does Council wish to support the motion to end the debate?

Voting Aye: (7): Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Steve Sundberg, and Dustin Zvonek

Voting Nay: (3): Mayor Coffman, Alison Coombs, and Crystal Murillo

Absent: (1): Ruben Medina

10. CONSENT CALENDAR - MOTIONS

Any member of Council may request an item be removed from Consent Calendar and considered separately. Removed items are considered immediately following the adoption of the Consent Calendar.

Moved by: Dustin Zvonek

Second by: Stephanie Hancock

Does Council wish to conduct the meeting virtually?

Voting Aye: (8): Mayor Coffman, Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Steve Sundberg, and Dustin Zvonek

Absent: (3): Alison Coombs, Ruben Medina, and Crystal Murillo

Moved by: Françoise Bergan

Second by: Dustin Zvonek

Does Council wish to approve the Motions Consent Calendar as presented?

Voting Aye: (8): Mayor Coffman, Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Steve Sundberg, and Dustin Zvonek

Absent: (3): Alison Coombs, Ruben Medina, and Crystal Murillo

10.a Motions

10.b Planning Matters

10.c Appointments to Boards and Commissions

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

10.c.1 Consideration to Appoint One (1) Member to the Aurora Fox Arts Center Board

Kadee Rodriquez, City Clerk / Tim Joyce, Assistant City Attorney

10.c.2 Council Direct Appointment of One (1) Member to the Aurora Fox Arts Center Board

Sponsor: Danielle Jurinsky, Council Member

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

11. CONSENT CALENDAR - RESOLUTIONS AND ORDINANCES

Any member of Council may request an item be removed from Consent Calendar and considered separately. Removed items are considered immediately following the adoption of the Consent Calendar.

Moved by: Dustin Zvonek

Second by: Françoise Bergan

Does Council wish to approve the Resolutions and Ordinances Consent Calendar with Item 11.a.9 removed for discussion?

Voting Aye: (7): Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Steve Sundberg, and Dustin Zvonek

Absent: (3): Alison Coombs, Ruben Medina, and Crystal Murillo

11.a Resolutions

11.a.1 Fifteenth Amendment Regarding the Design and Construction of Drainage Flood Control Improvements for First Creek Detention Upstream of I-70

R2024-78 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF THE FIFTEENTH AMENDMENT TO AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE AND THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT REGARDING DESIGN AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR FIRST CREEK DETENTION UPSTREAM OF I-70

James DeHerrera, Planning Services Manager, Aurora Water / Ian Best, Assistant City Attorney

11.a.2 Third Amendment to Drainage and Flood Control Improvements for Cherry Creek Restoration at Arapahoe Road

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

R2024-79 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF THE THIRD AMENDMENT TO AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, SOUTHEAST METRO STORMWATER AUTHORITY, THE CHERRY CREEK BASIN WATER QUALITY AUTHORITY, AND ARAPAHOE COUNTY REGARDING FINAL DESIGN, RIGHT-OF-WAY ACQUISITION, AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR CHERRY CREEK RESTORATION AT ARAPAHOE ROAD

James DeHerrera, Planning Services Manager, Aurora Water / Ian Best, Assistant City Attorney

11.a.3 PFAS Infrastructure Grant

R2024-80 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S APPROVAL OF AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE AND THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT WATER QUALITY CONTROL DIVISION REGARDING GRANT FUNDS TO PLAN, DESIGN, AND CONSTRUCT PUBLIC WATER INFRASTRUCTURE FOR TREATMENT OF PER- AND POLYFLUOROALKYL SUBSTANCES (PFAS)

Cat Olukotun, Deputy Director of Business Services, Aurora Water / Ian Best, Assistant City Attorney

11.a.4 Intergovernmental Agreement (IGA) Between the City of Aurora and City & County of Denver for the Operations and Maintenance Plan for a Portion of 68th Avenue

R2024-81 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA AND THE CITY AND COUNTY OF DENVER FOR THE OPERATIONS AND MAINTENANCE PLAN OF A PORTION OF 68TH AVENUE

Haley Johansen, City Engineer, Public Works / Michelle Gardner, Senior Assistant City Attorney

11.a.5 TUMO Center

R2024-82 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, ENDORSING AND SUPPORTING ARMENIANS OF COLORADO INC.'S EFFORTS TO ESTABLISH A TUMO CENTER IN AURORA, AND DIRECTING THE CITY MANAGER TO REPORT TO THE CITY COUNCIL ON SUCH PROSPECTS

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

Sponsor: Alison Coombs, Council Member / Mike Coffman, Mayor

Jason Batchelor, City Manager / Jack Bajorek, Deputy City Attorney

11.a.6 Transitioning Domestic Violence Cases Out of Aurora Municipal Court

R2024-83 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, DIRECTING THE CITY MANAGER, CITY ATTORNEY, COURT ADMINISTRATOR, AND PRESIDING JUDGE TO COLLABORATE WITH KEY STAKEHOLDERS TO DEVELOP A PLAN FOR TRANSITIONING THE PROSECUTION OF DOMESTIC VIOLENCE CASES OUT OF THE AURORA MUNICIPAL COURT

Sponsor: Dustin Zvonek, Mayor Pro Tem

Jason Batchelor, City Manager / Peter Schulte, Client Group Manager, City Attorney

11.a.7 Directing the City Attorney to Evaluate a Legal Challenge and Challenge Colorado House Bill 24-1437

R2024-84 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, DIRECTING THE CITY ATTORNEY TO EVALUATE A LEGAL CHALLENGE AND CHALLENGE COLORADO HOUSE BILL 24-1437, PROHIBITING FLAT FEE CONTRACTS FOR DEFENDING INDIGENT CLIENTS, ON THE GROUNDS THAT IT VIOLATES THE COLORADO CONSTITUTION INCLUDING HOME RULE AUTHORITY

Sponsor: Dustin Zvonek, Mayor Pro Tem

Jason Batchelor, City Manager / Peter Schulte, Client Group Manager, City Attorney

11.a.8 Tax Rebate Agreement – Project Waterfall

R2024-85 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AUTHORIZING THE EXECUTION OF THE TAX REBATE AGREEMENT BETWEEN THE CITY OF AURORA, COLORADO ("CITY") AND PROJECT WATERFALL ("TAXPAYER")

Chad Argentar, Senior Project Manager, Planning and Business Development / Rachel Allen, Client Group Manager, City Attorney

11.a.9 Ballot Question – Ownership of Pit Bulls Ordinance

R2024-86 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, SUBMITTING TO A VOTE OF REGISTERED ELECTORS OF THE CITY AT THE SPECIAL MUNICIPAL ELECTION OF NOVEMBER 5, 2024, A BALLOT QUESTION PERTAINING TO THE OWNERSHIP OF PIT BULLS WITHIN THE CITY OF AURORA, COLORADO

Sponsor: Danielle Jurinsky, Council Member / Co-Sponsor: Mike Coffman, Mayor

Anthony Youngblood, Manager of Animal Services, Housing and Community Services; Angela Garcia, Senior Assistant City Attorney

CM Jurinsky stated the reason for pulling the item is because she has received a lot of emails from the public stating they are worried with the way it is worded and concerned about it passing. She said it has come to her attention that it has to be worded this way.

Staff provided a brief summary and explanation of the item.

Moved by: Danielle Jurinsky

Second by: Françoise Bergan

Does Council wish to support Resolution R2024-86?

Voting Aye: (7): Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Angela Lawson, Steve Sundberg, and Dustin Zvonek

Absent: (3): Alison Coombs, Ruben Medina, and Crystal Murillo

11.a.10 Aurora Pride Sponsorship

R2024-87 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S DESIRE TO SPONSOR THE 2024 AURORA PRIDE EVENT AT THE AURORA RESERVOIR IN THE AMOUNT OF $15,000

Sponsor: Alison Coombs, Council Member

R2024-88 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S APOLOGY AND CONDOLENCES TO THE FAMILY OF KILYN LEWIS

Sponsor: Alison Coombs, Council Member

Alison Coombs, Council Member / Jack Bajorek, Deputy City Attorney

11.b Finalizing of Ordinances

Ordinances approved unanimously at first reading.

11.b.1 Hours of Operation for Retail Marijuana Stores

2024-31 AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING SECTION 146-3.3.5.S.3 OF THE

UNIFORM DEVELOPMENT ORDINANCE PERTAINING TO THE HOURS OF OPERATION FOR RETAIL MARIJUANA STORES

Sponsor: Curtis Gardner, Council Member

Brandon Cammarata, Planning Manager, Planning and Business Services / Lena McClelland, Assistant City Attorney

12. PUBLIC HEARINGS

Public hearings with or without related ordinances.

13. INTRODUCTION OF ORDINANCES

14. FINALIZING OF ORDINANCES

Ordinances not approved unanimously at first reading.

15. ANNEXATIONS

16. RECONSIDERATIONS AND CALL UPS

17. GENERAL BUSINESS

18. REPORTS

18.a Mayor

Mayor Coffman expressed that any loss of life is always a tragedy. He stated there is a process for an officer involved shooting and an ongoing investigation by the 18th Judicial District, Critical Response and investigation team as per state law. He said there is also an internal investigation by the Aurora Police Department on whether the officer adhered to the standards, training, and procedures. He said it is fair to allow those processes to occur before they comment on the case. He extended his condolences to the family.

18.b Council

CM Jurinsky wished her dad a happy 80th birthday.

CM Sundberg thanked the police department and said people in society realize now more than ever that they need the police department.

CM Hancock stated she and MPT Zvonek will be hosting a town hall at the Colorado Early Colleges on July 11th. She commented that she saw a lot online about Fredrick Douglas' speech on why slaves should celebrate the 4th of July, and she read a portion of his speech and stated it is not a holiday for black people or white people, but a holiday for all Americans. She expressed that she believes in the constitution and principles of this country and would be happy to help anyone who will not stand for the pledge, or acknowledge this country is great, pack their bags and leave, because this country is worth fighting for.

CM Lawson gave her FSIR legislative update, stated the Senate Appropriations Committee will begin markups for spending bills, and said the city is watching to see

if their congressional directive spending requests will make the cut this week. The city is also working with state partners to address issues for the next legislative sessions in 2025. The next FSIR meeting is July 19th, virtual, at 1 p.m.

CM Bergan thanked the Metro District of Flagstone for letting them have a meeting. She also attended the Aurora Highlands ribbon cutting of the 38th Avenue Interchange and bridge.

CM Gardner and MPT Zvonek did not have a report. CM Coombs, CM Medina, and CM Murillo were absent for reports.

19. ADJOURNMENT

Mayor Coffman adjourned the regular meeting of City Council.

MIKE COFFMAN, MAYOR

ATTEST:

KADEE RODRIGUEZ, CITY CLERK

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

Water Policy Committee (WPC) Meeting

April 16, 2025

Members Present: Council Member Alison Coombs (Chair), Council Member Françoise Bergan (Vice Chair), Council Member Ruben Medina

Absent:

Others Present: Abba Ahmed, Rachel Allen, Ian Best, Stephen Cann, Shonnie Cline, Alex Davis, James DeHerrera, Rory Franklin, Elizabeth Gillitzer-Gallardo, Sonya Gonzalez, Kathy Kitzmann, Jessica LaPierre, Luz Lopez, Brenda Mendoza Ortega, Adrian Morris, John Murphy, Christian Nelson, Swirvine Nyirenda, Casey Rossman, Sam Scorza, Matt Spacek, Oona Sullivan, Alex Weber, Earl Wilkinson, Sarah Young

---

1. Approval of Minutes

The March 19, 2025, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update
C. Grants Update
D. Wild Horse Quarterly Update

Summary of Issue and Discussion: CM Bergan asked, on the water supply update, there is a chart on drought, and it looks like there is going to be drought in the areas surrounding us, is that just a prediction? J. Murphy responded, the brown color on the chart represents the persisting drought and the yellow represents where drought is expected to develop.

Outcome: The consent items were supported as presented.

Follow-Up Action: None.

---

3. 2025 Weather Modification Program Intergovernmental Agreement

Summary of Issue and Discussion: A. Ahmed gave a presentation on an Intergovernmental Agreement (IGA) between several water agencies, including the City of Aurora, to enable multiple water agencies to cost share weather modification (cloud seeding) services conducted under the Central Colorado Mountains River Basin (CCMRB) Weather Modification Program.

CM Coombs asked, where are the new partners included in the agreement, as they do not have a separate cost breakdown? Are they included in the larger organizations and what is their contribution? A. Ahmed responded, those partners are not part of the Front Range, they were added in the presentation to show the extent of the cloud seeding throughout Colorado.

CM Bergan stated, there was mention of three generators not working but there is some confusion because in the presentation it stated 23 manual generators and two remote generators. A. Ahmed responded, yes, there are five remote generators, but three were not mentioned in the presentation because they are not currently working. Overall, there are 23 non-remote generators and 5 remote generators. CM Bergan asked, are the remote generators more expensive? A. Ahmed responded, yes, because they are more efficient and we do not have to manually start them, they can be started remotely. CM Bergan asked, are there plans to add more of the remote generators? A. Ahmed stated the plan in the next couple of years is to have all 25 or 30 generators be remote. CM Bergan asked, are there any grants that we could apply for to help with cost? A. Ahmed responded yes, we have brought this to the Colorado Water Conservation Board, and they are currently researching available grants.

CM Medina asked, are there multiple people who are starting up the generators? And what is the cost to start all of them? A. Ahmed responded, it is usually farmers and ranchers that are trained to turn on the manual generators since they are typically placed on their land. However, sometimes this can be difficult which is why we are heading towards all remote generators.

Outcome: The Committee supports moving a Resolution for the 2025 Weather Modification Program Intergovernmental Agreement forward to the next Council meeting.

Follow-Up Action: The Resolution for the 2025 Weather Modification Program Intergovernmental Agreement will be forwarded to the next Council meeting.

---

4. Joint Wet Weather Monitoring and Discharge Permit Activities Intergovernmental Agreement

Summary of Issue and Discussion: J. LaPierre gave a presentation on an Intergovernmental Agreement (IGA) between the City of Aurora, the City of Denver and the City of Lakewood for wet weather monitoring. The weather monitoring involves collecting runoff at several automated stations in the metro area and analyzing the water quality for specific pollutants as agreed upon in the original MS4 permit.

Outcome: The Committee supports moving a Resolution for the Joint Wet Weather Monitoring and Discharge Permit Activities Intergovernmental Agreement forward to the next Council meeting.

Follow-Up Action: The Resolution for the Joint Wet Weather Monitoring and Discharge Permit Activities Intergovernmental Agreement will be forwarded to the next Council meeting.

---

5. Fourth Amendment to Drainage and Flod Control Improvements for the Cherry Creek Restoration at Arapahoe Road Intergovernmental Agreement

Summary of Issue and Discussion: S. Scorza gave a presentation on the fourth amendment to an Intergovernmental Agreement (IGA) between the City of Aurora, Mile High Flood District, Southeast Metro Stormwater Authority, the Cherry Creek Basin Water Quality Authority, and Arapahoe County. This amendment will aid in the identification of ways to mitigate erosion in the remaining portions of the channel located between the Cherry Creek Soccer Complex and the confluence with Piney Creek.

CM Bergan asked, how did we end up in a situation where we are paying a greater share? S. Scorza responded, this is a project that Aurora Water requested, and had it built into our five-year capital improvements plan, the other contributors are just now catching up with their contributions.

Outcome: The Committee supports moving a Resolution for the Fourth Amendment to drainage and Flood Control Improvements for the Cherry Creek Restoration at Arapahoe Road Intergovernmental Agreement forward to the next Council meeting.

Follow-Up Action: The Resolution for the Fourth Amendment to drainage and Flood Control Improvements for the Cherry Creek Restoration at Arapahoe Road Intergovernmental Agreement will be forwarded to the next Council meeting.

---

6. East Cherry Creek Valley Master Sewer Intergovernmental Agreement

Summary of Issue and Discussion: J. DeHerrera gave a presentation on a Master Sewer Intergovernmental Agreement (IGA) between the City of Aurora and the East Cherry Creek Valley Water and Sanitation District (ECCV). This IGA has been drafted to clarify each party's obligations including clarity and consistency, capacity and cost sharing, contract administration, support of future development, and anticipated infrastructure upgrades.

Outcome: The Committee supports moving a Resolution for the East Cherry Creek Valley Master Sewer Intergovernmental Agreement forward to Study Session.

Follow-Up Action: The Resolution for the East Cherry Creek Valley Master Sewer Intergovernmental Agreement will be forwarded to the next Study Session.

---

7. Kings Point Intergovernmental Agreement

Summary of Issue and Discussion: J. DeHerrera gave a presentation on an amendment to Intergovernmental Agreement (IGA) between the City of Aurora and the East Cherry Creek Valley Water and Sanitation District (ECCV). This amendment will reflect changes made in the new Master Sewer Agreement as previously mentioned which includes the joint use of sewer infrastructure to support the Kings Point development.

CM Bergan asked, since Prairie Point was not required to install a lift station, how does that work in terms of the developer cost? J. DeHerrera responded, there was an agreement signed in 2019 with the developer that they will be responsible for the costs associated with the upsizing of the line eventually. CM Bergan asked, will King's Point South require a lift station? J. DeHerrera responded, King's Point South goes to the West and so they may require a lift station. S. Young added, King's Point South is divided between a couple of basins that gravities toward the West side of King's Point which will require a lift station eventually.

Outcome: The Committee supports moving a Resolution for the Kings Point Intergovernmental Agreement forward to Study Session.

Follow-Up Action: The Resolution for the Kings Point Intergovernmental Agreement will be forwarded to the next Study Session.

---

8. Wild Horse Project History

Summary of Issue and Discussion: S. Young gave a presentation on the history of the Wild Horse Project program which includes early planning efforts, and the work planned through 2025.

CM Bergan asked, the fact that all this work has already been done with the modeling over several years of the Wild Horse North site and it has remained our best option, why are we having to do another study on the Wild Horse South alternative? S. Young responded, the NEPA process itself, which is a comparison of resources between the selected alternatives, has not yet started. So, the information we are collecting is basically showing the baseline data. For example, the Gold Eagles nests in the North Wild Horse site in comparison to the nests in the South Wild Horse site and how they will be impacted.

CM Bergan asked, have we learned anything that we should have done sooner in the process, so we did not end up in the current situation? S. Young responded, one option would have been a Request for Proposal (RFP) process to bring all the technical experts that we now onboard sooner and have them develop a massive package of information to present to the Bureau of Land Management (BLM) for their review rather than piecemealing the process. The timeline may have been the same though and this way we have built a good relationship with BLM throughout the process. It's hard to say which would have been better. CM Bergan asked, wouldn't it have saved time to have all the experts exploring the alternatives at the same time? S. Young responded, we weren't sure which alternatives were going to be selected to move forward for further evaluations. That step was required first.

CM Coombs asked, we know that we need this reservoir by 2045, are there any other benefits to completing the reservoir early besides the continued increase in costs of supplies? S. Young responded, the increase in costs is the main reason for completing the reservoir as soon as

possible. Additionally, with the continuing changes in the NEPA process, we are looking to get full approval in one presidential administration if possible.

CM Bergan asked, do we know the difference in cost between what we anticipated four to five years ago and what is now anticipated? S. Young responded, due to the market volatility over the past few years, our project engineers were unable to properly predict the cost of the project which is why we secured a Construction Manager/General Contractor (CMGC) to give us a better idea of costs. Currently, we are looking at over a billion dollars for the construction of Wild Horse and anticipating a 5% increase in costs year over year.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

9. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: None.

Outcome: Informational only.

Follow-Up Action: Informational only.

10. Confirm Next Meeting

The next meeting is scheduled for May 21, 2025, at 10:30 a.m. at the Southeast Area Maintenance Facility or via Teams.

X Alison L Coombs (Jun 4, 2025 20:32 MDT)

Alison Coombs
Chair, Water Policy Committee

MINUTES

Regular Meeting of the Aurora City Council

Monday, May 5, 2025

COUNCIL MEMBERS PRESENT:	Mayor Coffman	Amsalu Kassaw
	Françoise Bergan	Angela Lawson
	Alison Coombs	Ruben Medina
	Curtis Gardner	Crystal Murillo
	Stephanie Hancock	Steve Sundberg
	Danielle Jurinsky	

---

1. CALL TO ORDER

Mayor Coffman reconvened the regular meeting of the City Council at 6:45 p.m.

2. ROLL CALL

3. INVOCATION/MOMENT OF SILENCE

Mayor Coffman led in prayer for the May 5, 2025 meeting.

4. PLEDGE OF ALLEGIANCE

(All Standing)

Mayor Coffman read a land acknowledgement.

5. EXECUTIVE SESSION UPDATE

Mayor Coffman provided an update on the Executive Session, stating litigation was discussed.

6. APPROVAL OF MINUTES

6.a April 21, 2025 Meeting Minutes

Moved by: Steve Sundberg

Second by: Amsalu Kassaw

Does Council wish to approve the minutes of the April 21, 2025 meeting?

Voting Aye: (11): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

7. PROCLAMATIONS OR CEREMONIES

8. ADOPTION OF THE AGENDA

Moved by: Amsalu Kassaw

Second by: Angela Lawson

Does Council wish to adopt the agenda as presented?

Voting Aye: (11): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

9. CONSENT CALENDAR - MOTIONS

Any member of Council may request an item be removed from Consent Calendar and considered separately. Removed items are considered immediately following the adoption of the Consent Calendar.

Moved by: Alison Coombs

Second by: Angela Lawson

Does Council wish to approve the Motions Consent Calendar as presented?

Voting Aye: (11): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

9.a Motions

9.b Planning Matters

9.c Appointments to Boards and Commissions

9.c.1 Consideration to Appoint One (1) Youth Member to the Aurora Youth Commission

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

Renee Pettinato Mosley, Senior Manager of Risk, Finance / Kim Skaggs, Assistant City Attorney

10.a.5 Rules of Order and Procedure: Amendment Concerning Council Member Testimony

R2025-46 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, TO AMEND THE RULES OF ORDER AND PROCEDURE FOR THE AURORA, COLORADO, CITY COUNCIL CONCERING PUBLIC COMMUNICATION

Sponsor: Angela Lawson, Council Member

Liz Rogers, Intergovernmental Relations Manager, General Management / George Koumantakis, Deputy City Attorney

CM Lawson explained that this resolution would put some type of parameter into the rules regarding testimony of council members when they go to legislature to testify. She stated that as the FSIR Chair for the past 9 years, she has seen inconsistencies on how individuals are testifying. She shared that some people on Council may do this because they do not like the chair or what came out of the committee in terms of positions. She said even if a council member does not like the person, decisions, or positions that came from legislative actions, they still need to respect the actual committee. She gave an example that some people have testified and said they were testifying in their individual capacity and on behalf of their constituents and not on behalf of City Council or the legislative committee. CM Lawson asked the city attorney if that makes the line gray of where a council member is crossing the line.

G. Koumantakis responded that if this resolution passes, yes, that would cover what she is concerned about. He expressed that the way Council rules are now, it has the potential to mislead the legislators they are testifying in front of to make them believe that all constituents have concerns about that specific legislation.

She asked how it is presenting if they state they are there in an individual capacity as an Aurora City Council Member representing their ward and urging a certain vote.

G. Koumantakis answered that if the FSIR Committee and Council as a whole has taken a different position, the Council Member would be in direct violation of the Council rules.

CM Lawson explained that this resolution would add the parameter that when a council member is testifying, they can still say they are speaking in their individual capacity and expressing their own view, but not those of the City Council or their constituents. She added that will give future Chairs and Councils a basic idea of what they can do if they choose to go forward with any kind of censure.

CM Coombs stated that when she goes down to the legislature to take a position on an issue or an item, it has never been about a personal feeling toward the Chair or members of the committee, but often due to opposition to the positions taken. She said it is not personal and apologized if that has ever been the sentiment that has come across. She said she does not oppose all of this, but if she were to use the sample statement, which states that they are not speaking on the views of their constituents, that would be a lie, as she has conversations with constituents that support her same positions. She suggested to strike "or the Council Members constituents" and replace it with "and may not state that they are speaking for their constituents". She offered that as a friendly amendment.

CM Lawson accepted the friendly amendment.

CM Bergan understood what CM Coombs was saying, but she did not think that the word constituents should be used at all when testifying, and should just be testifying on their individual basis. She suggested saying their name and that's it, and that they should not wear their name badges that are given as City Council Members.

Mayor Coffman voiced that the purpose of the resolution is to just have clarifying language that when testifying on a position that is not the City's position or the FSIR Committee, that they clearly identify they are not representing the city. He said they can be silent on the constituent issue, as this is just to have a clean, concise statement that someone reads before testifying.

CM Murillo was not opposed to adding some clarity, but said it is confusing and a slippery slope on the last part. She expressed that she has always been very clear that she is there in an individual capacity, but she wondered if there are some unintended consequences. She stated that it is a fact that she is an Aurora City Council Member, and she does not claim to represent the full opinion of the City Council, but as a representative of her district, whether they say representing their constituents or not, she is concerned with the direction of this. She said her testimony has nothing to do with

trying to be contrary to the City's position, but if a community group in her community asks her to advocate for a particular bill and it aligns with her beliefs, she will go and do what they ask her to do, so she is worried that this is a gag order and unintended consequences to impede on her ability for freedom of speech and being able to identify herself. She expressed that she does not understand why she cannot say she is speaking in her individual capacity, that she is a city council member, and that she does advocate for a certain position.

CM Lawson responded that she does not think it feels like a gag order. She said she has testified at the legislature before and people have asked her to testify on certain positions and it is not for the city, but she only says, "I am Angela Lawson", and does not go in to say she is a council member. She added that she has testified on behalf of the City because she is the FSIR Chair, but when going down there individually, she has never said she is a council member and only says her name, that she is there in her own capacity, and representing a position on a bill. She voiced that she is not trying to take anyone's rights away, and this is just something that causes a lot of confusion.

P. Schulte explained that under the First Amendment, this is not a gag order. He said that if their testimony and how they introduce themselves gives themselves a little bit more credibility than the average citizen, that is what this resolution is trying to prevent. He stated that a lot of the representatives and senators know who they are, but by stating they are there as an individual and not representing constituents or being a council member will put them on the same level playing field if the City has taken a position that is contrary to their position. He added that from a legal perspective, this is fine the way it is written, because they are not preventing anyone from going down on their individual capacity to speak on something, but you're not representing yourself as a council member.

CM Lawson asked if CM Coombs friendly amendment be a slippery slope.

P. Schulte answered no.

CM Coombs asked with the friendly amendment, wouldn't they also strike "or my constituents" from the example text, as they should not even be saying constituents at all whether it is don't or do.

P. Schulte responded that it would be acceptable. He asked CM Coombs to read into the record what it would say without that.

CM Coombs read "I, Alison Coombs, am speaking in my individual capacity, expressing my own views and not those of the City Council."

P. Schulte said that would accomplish the goal of CM Lawson.

CM Murillo asked P. Schulte if he stated that the intent was to limit the power of the individual council member.

P. Schulte clarified that what he said was that if they are speaking as a council member, they are potentially giving themselves more credibility than a regular citizen.

CM Murillo responded that she is a council member and was elected, so she does not understand why that would be a problem.

P. Schulte said he understood but he is talking from a legal perspective, not a political perspective.

CM Murillo stated that she is also talking about her obligation and duty to represent her community and to state facts.

P. Schulte responded that every time he has been at the legislature this year, everyone on the Council has been introduced as a council member and that is totally fine, but when someone gets introduced as a council member and they state the recommended sentence in this rule if it passes, they will be in compliance.

CM Murillo voiced she is concerned that if she states she is an Aurora City Council Member, will she be censured or have a gag order to express her opinion on a bill.

CM Lawson expressed that it gives an option, but that does not mean that they can censure them.

CM Murillo said there is a lot of emphasis on individuals, so it feels suspect to think this is more than focusing on specific individuals. She explained that what concerns her is, like they have now, a majority has green lit a lot of questionable actions by colleagues and have not chosen to censure or create any type of punishment for an opinion that they agree with, and are going to drown out the minority perspective. She added that she is very concerned that this will set up a precedent of a slippery slope or could be used as a gag order, which feels highly undemocratic. She supported adding clarity, but she wanted to know if she will be able to state that she is an Aurora City Council Member when giving testimony, as that is why people ask her to give testimony and her opinion, because she is not an average person with perspective and represents constituents.

CM Lawson called for the question to end debate.

CM Murillo asked for a point of order.

CM Coombs called for a point of order.

CM Lawson expressed that she already called to end debate.

P. Schulte explained that he cannot answer any more questions, as the call for the question has already been made, and CM Lawson was recognized by the mayor, with the motion pending. He said if the motion fails, then he can answer questions, but the motion to end debate stops everything and that is where they are right now, and it is non-debatable.

CM Murillo asked her colleagues to support that so they can get some clarification, as this is embarrassing and disrespectful.

Moved by: Angela Lawson

Second by: Amsalu Kassaw

Does Council wish to support the approval of the Rules of Order and Procedure: Amendment Concerning Council Member Testimony with the friendly amendment?

Friendly Amendment: Strike on behalf of constituents under Public Communication and example statement

Voting Aye: (8): Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, and Steve Sundberg

Voting Nay: (2): Alison Coombs, and Crystal Murillo

Moved by: Angela Lawson

Second by: Françoise Bergan

Does Council wish to approve the motion to end the debate?

Voting Aye: (9): Mayor Coffman, Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, and Steve Sundberg

Voting Nay: (2): Alison Coombs, and Crystal Murillo

CM Coombs stated that she voted no to her amendment because an answer was not given on if it was censurable to say they are a member of the city council and there in their individual capacity.

CM Murillo called for a point of order. She asked if yelling and screaming, throwing a temper tantrum part of the rules of the quorum.

10.a.6 Rules of Order and Procedure: Amendment Concerning Virtual Meetings

R2025-47 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, TO AMEND THE RULES OF ORDER AND PROCEDURE FOR THE AURORA, COLORADO, CITY COUNCIL CONCERNING VIRTUAL ATTENDANCE AT CITY COUNCIL MEETINGS;

CAMERAS AND RECORDING DEVICES IN THE CHAMBERS; AND ONE PERSON AT THE PODIUM

Sponsor: Françoise Bergan, Council Member

Jason Batchelor, City Manager / Andrea Wood, Assistant City Attorney

CM Bergan offered a motion to amend 10.a.6 to strike Section 2(a) that is regarding the videotaping.

Staff gave a brief presentation on the item.

Council heard public comment on the agenda related item.

CM Bergan pointed out that whether it is a school board meeting or any other city council meeting that has happened, there has always been one person at the podium, as that is standard and respectful. She voiced that having multiple people is a safety issue. She explained that even though they have police officers in the chamber, they would have to watch multiple people at the podium versus the one person and watching the audience, which is why this is being brought forward. She noted that she did make the exception for a child being accompanied by a parent or an interpreter. She added that no one on this Council or previous Council has ever given notice when they have allowed virtual meetings, and the 24 hours does not make sense, because if someone is sick or their car breaks down within the 24 hours timeframe, they will be in violation of that rule, which is why she asking for it to be removed.

CM Coombs voiced that there was discussion already this evening about the balance of power and what is appropriate, and even with their state legislature at the well, there are multiple people there for support on a regular basis. She said what this is saying is that elected officials are entitled to that show of support physically, but people are not. She stated that a relevant point was made earlier about what the balance of power is between us as elected officials and the people that we represent. She added that it is believed that because we have the power to govern, that means we should have more power than the people who put us here, and that shows priorities, understanding of power, service and leadership, and responsibility being misguided, imbalanced, and pointed in the wrong direction, as there is no reason why the people in our community should not be able to show each other support in the same way elected officials do.

CM Medina said that he is not going to run and hide from community, because he is not afraid of community and is in the community all the time. He added that he is probably one of the only council members that does not have a podium at his council meetings purposefully because of the power dynamics. He explained that

everything he does is in a circle of chairs so that they are all equal and he allows people to speak whether they agree or disagree with him, as it is about them working collectively together to solve problems.

CM Hancock called for the question.

CM Murillo offered a friendly amendment to add an exception for people with disabilities or that have some sort of impairment that may need assistance.

CM Bergan asked if that would be someone with a physical disability, like someone with a wheelchair that needs assistance.

CM Murillo responded potentially, as there are also people with mental disabilities.

CM Bergan voiced that she would accept the amendment for only physical disabilities, as it would be difficult to discern any other type.

CM Murillo accepted that.

CM Hancock accepted that as well.

CM Coombs asked for clarification that they agreed to physical disability only rather than disability period.

Mayor Coffman answered that is correct.

CM Coombs added that is deeply problematic and probably discriminatory.

P. Schulte asked if they could make it any acceptable disability under the ADA.

CM Murillo expressed that she would support that if the sponsor would.

CM Bergan said no, as she cannot be going into the unknown at this point and agreed to just the friendly amendment of physical disability.

CM Murillo asked if this would apply to the listening sessions since they have removed them from the agenda.

P. Schulte answered that it does apply to the listening sessions and the council meetings.

CM Murillo inquired how a violation would be enforced.

P. Schulte responded that because they have security officers that work for the City that are able to enforce house rules, they could stand by and not let people pass them, and if they get assaulted or pushed away, the police could arrest those individuals.

CM Hancock called for the question.

Moved by: Françoise Bergan

Second by: Stephanie Hancock

Does Council wish to support the approval of the resolution for Rules of Order and Procedure: Amendment Concerning Virtual Meetings as amended?

Friendly Amendments:

- Remove Section 2
- Add exception for individuals with physical disabilities

Voting Aye: (6): Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, and Steve Sundberg

Voting Nay: (4): Alison Coombs, Angela Lawson, Ruben Medina, and Crystal Murillo

Moved by: Stephanie Hancock

Second by: Françoise Bergan

Does Council wish to approve the motion to end the debate?

Second by: Angela Lawson

Does Council wish to continue this item to the July 14th, 2025 Council Meeting?

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

11.d Quiktrip 4263 Conditional Use Appeal

A PUBLIC HEARING AND CONSIDERATION WITHOUT RELATED ORDINANCE TO CONSIDER AN APPEAL BY THE APPLICANT REGARDING THE PLANNING AND ZONING COMISSION DECISION OF DENIAL FOR THE QUIKTRIP 4263 SITE PLAN AND CONDITIONAL USE

James Schireman, Planner I, Planning and Business Development / Lena McClelland, Assistant City Attorney

CM Hancock continued her recusal for this item.

Mayor Coffman opened the public hearing.

Staff gave a brief presentation on the item.

The applicant concurred with a continuance to July 14th.

Mayor Coffman closed the public hearing.

Moved by: Alison Coombs

Second by: Angela Lawson

Does Council wish to continue this item to the July 14th, 2025 Council Meeting?

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

CM Coombs asked about ex parte communications. She explained that a constituent called her wanting to talk about Quiktrip, but she did not respond to their call. She asked if she should refrain from doing that.

P. Schulte answered yes.

CM Coombs asked if a council member could attend public meetings as the applicant is engaged in their public meetings to hear the discussion that from those meetings and if they are allowed to be informed of when those meetings happen.

P. Schulte responded they should not attend those meetings because they are outside of this process.

CM Coombs asked if information could be provided to Council in advance about the public meetings and what took place in them so they can question and interrogate in that quasi-judicial capacity.

P. Schulte stated that if they do not get information about meetings that they appellant produces, they will have strong questions for them on July 14th, but it would be their obligation, as there are a variety of ways for them to bring evidence to the Council.

CM Coombs requested that they have robust information about the content of those meetings so they can have that conversation in the proper form.

12. INTRODUCTION OF ORDINANCES

12.a GERP Code Amendments Relating to Short-Term and Long-Term Disability

2025-42 AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING SECTIONS 102 AND 147 OF THE CITY CODE PERTAINING TO UPDATES TO THE GENERAL EMPLOYEES RETIREMENT PLAN

Nancy Wishmeyer, Controller, Finance / Hanosky Hernandez, Senior Assistant City Attorney

Staff gave a brief presentation on the item.

Moved by: Alison Coombs

Second by: Angela Lawson

Does the Council support the approval of the GERP Code Amendment Relating to Short-Term and Long-Term Disability?

Voting Aye: (10): Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Council took a brief recess.

12.b 2025 Spring Supplemental

2025-43 AN ORDINANCE OF THE CITY OF AURORA, COLORADO APPROPRIATING SUMS OF MONEY IN ADDITION TO THOSE APPROPRIATED IN ORDINANCE NOS. 2023-52, 2024-18, AND 2024-80 FOR THE 2024 FISCAL YEAR AND ORDINANCE NO. 2024-72 FOR THE 2025 FISCAL YEAR

Tyler Phillips, Budget Program Manager, Finance / Hanosky Hernandez, Senior Assistant City Attorney

Staff gave a brief presentation on the item.

CM Gardner asked if the $5.4 million for the security expansion and fire alarm replacement has been funded or if it would require a transfer from the Capital Projects Fund. He noted he was disappointed that this question was also asked in the Management and Finance Meeting last month and it was not made clear.

Court administrator explained the request is not currently funded. She said there were some possible changes to it, where $1 million for the fire alarm system was maybe not needed, so that would reduce the request by $1 million, plus contingency. She noted that this came forward prior when the estimate was lower, and they wanted to bring it forward after they had more final numbers.

CM Coombs asked what the process for approving the rest of the items without that and how they would split that up.

J. Batchelor responded that it is broken down in the supplemental and listed as three projects under court admin, with the design listed as Project 1, ADA as Project 2, and the expansion for security and fire alarms listed as Project 3. So, if Council passes the Appropriation, they would probably see if they could find funding for that in the CPF, but alternatively, Council could say this is a discussion better had as part of the 2026 budget.

CM Gardner stated that to him this seems like more of a conversation they should be having as part of Build Up Aurora, as they are going through a process right now to look at capital needs in the City and public safety is going to be high on that list, and this should be prioritized with all of the other capital needs. He supported removing this item from the Spring Supplemental and pushing the discussion into the Build Up Aurora process.

CM Bergan asked how much it would be to just fund the fire alarms, as that seems to be a very important aspect to public safety.

J. Batchelor answered that it is something they are continuing to look at. He explained that the fire alarm system in the Courts Building is so old that it is connected to the police headquarters building and history museum, so they are all operating off of one fire alarm system, which does not meet current code. He added they are looking at if they should break out the fire alarm system for all three buildings and have that be a separate project from the expansion for the physical security of the Courts Building, but either way the expansion would probably trigger that requirement.

CM Bergan asked if they could bring the fire alarms to code without having to do the entire expansion.

J. Batchelor responded that they would essentially have two separate projects, one being a fire alarm project for the three buildings, which would be about $1 million, and the second being a physical expansion of the Courts Building for about $4.4 million.

CM Bergan expressed she was hoping they could use some potential ARPA dollars for the fire alarms, but it does not sound like that possible.

J. Batchelor explained the ARPA dollars are already fully committed.

Moved by: Alison Coombs

Second by: Angela Lawson

Does the Council wish to support the approval of the Spring Supplemental Ordinance as amended?

Amendment: Court Administration building expansion capital project 3 removed

Voting Aye: (9): Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Voting Nay: (1): Danielle Jurinsky

12.c Stanley 98 Street Vacation 3.0

2025-44 AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, REPEALING ORDINANCE NO. 2025-15 AS A DUPLICATE OF ORDINANCE NO. 2025-13 DUE TO AN ADMINISTRATIVE ERROR AND CORRECTING SAID ERROR WITH THIS ORDINANCE VACATING A PORTION OF A 16-FOOT WIDE ALLEY RIGHT-OF-WAY, N BLOCK 104 DEDICATED BY THE PLAT OF JOHNSON-HICKAM SUBDIVISION AT RECEPTION NUMBER 480782, SITUATED IN THE NORTHWEST 1/4 OF SECTION 35, TOWNSHIP 3 SOUTH, RANGE 67 WEST OF THE 6TH P.M. LOCATED NORTH OF EAST 25TH AVENUE,

AND BETWEEN JAMAICA STREET AND JOLIET STREET (STANLEY 98 STREET VACATIONS)

Ariana Muca, Planner III, Planning and Business Development / Lena McClelland, Assistant City Attorney

Staff gave a brief presentation on the item.

Moved by: Alison Coombs

Second by: Angela Lawson

Does Council wish to support the approval of the Ordinance that would repeal Ordinance No. 2025-15 and vacate a portion of the 16' wide alley right-of-way between Jamaica St. and Joliet St.?

Voting Aye: (9): Françoise Bergan, Alison Coombs, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Absent: (1): Curtis Gardner

12.d Property Acquisitions - Aero 70 Project

2025-45 AN ORDINANCE AUTHORIZING THE CITY OF AURORA, COLORADO, TO EXERCISE THE POWER OF EMINENT DOMAIN FOR ACQUISITION OF CERTAIN REAL PROPERTY INTERESTS NECESSARY FOR THE AERO 70 PROJECT

Hector Reynoso, Real Property Services Manager, Public Works / Michelle Gardner, Senior Assistant City Attorney

Staff gave a brief presentation on the item.

Moved by: Alison Coombs

Second by: Angela Lawson

Does Council wish to support the approval of the ordinance authorizing the use of eminent domain, pursuant to Aurora City Code Section 12-12, to acquire the necessary property interests for the construction of the Aero 70 Project?

Voting Aye: (9): Françoise Bergan, Alison Coombs, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Absent: (1): Curtis Gardner

13. FINALIZING OF ORDINANCES

Ordinances not approved unanimously at first reading.

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

14. ANNEXATIONS

15. RECONSIDERATIONS AND CALL UPS

16. GENERAL BUSINESS

16.a Determination of Final Candidates to be Interviewed for the Planning and Zoning Commission Vacancy

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

Mayor Coffman suggested going with the top two, Michael Riley and Johnny Watson.

CM Bergan commented that she would normally interview three, but the third person was at least 10 points behind the other two, so she recommended just interviewing the first two.

CM Coombs said that they had found themselves in a position before where they ended up not having any candidates they wanted to appoint based on fewer interviews, so she offered a friendly amendment to add the third candidate.

CM Bergan did not accept the friendly amendment.

Moved by: Françoise Bergan

Second by: Amsalu Kassaw

Who does Council wish to select as final candidates to interview for the appointment to the Planning and Zoning Commission vacancy?

- Johnny Watson
- Michael Riley

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Absent: (1): Curtis Gardner

16.b Discussion and Possible Action Regarding Future In-Person or Virtual Council Meetings

Peter Schulte, City Attorney

P. Schulte asked Council if they had any actions that they would like to be taken on the next meeting in regards to In-Person or Virtual Meetings.

CM Bergan noted that there will be a few people missing on the next meeting, so she recommended a virtual meeting.

CM Coombs asked if that would include removing all public comment or would they provide an avenue for that. She explained if it is only because people are going to be elsewhere, those people could just join virtually.

P. Schulte explained that if Council gave direction for public comment to be on the call-in line, they could do that, but with the motion as it sits right now, there would be no public comment on the 19th, and they would just go right into Study Session.

CM Bergan asked if they could add a call-in line for that particular meeting, as she would be amenable to that.

CM Jurinsky agreed with that.

CM Coombs asked for clarification if that would eliminate the public comment session or would they have that virtually.

P. Schulte explained that the motion on the floor is that the meeting would be virtual, and they would make sure to have the 40-minute public comment session from 6 to 6:40 via the call-in line.

Moved by: Françoise Bergan

Second by: Danielle Jurinsky

Does the Council wish to move the Council Meeting on May 19, 2025 to be Virtual, with call-in line for public comment listening session? (Requires 2/3 vote members present)

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Absent: (1): Curtis Gardner

17. REPORTS

17.a Mayor

The mayor had no report.

17.b Council

CM Coombs thanked Staff for their continued work on the Civic Engagement Academy, where she presented last Wednesday, and appreciated their thoughtful questions. She noted that May is Mental Health Awareness Month and Colorado has a program called I Matter, which provides six mental health sessions for all Colorado youth, and information on this can be found at imattercolorado.org. She stated that on May 17th, they have Water-wise Day, AFR, Rotary Fire Safety Field Day, and the opening reception for the Prehistoric Aurora Exhibit at the Aurora History Museum. She put a formal opinion on the record on whether or not the conduct of identifying oneself as a council member without saying "I represent" would be censurable

conduct. She added that by already saying they do not represent City Council it implies being a member of Council.

P. Schulte responded that each situation is going to be different, but if they call themselves a council member but still state they are representing themselves individually, he thinks that should be fine with the rule passed tonight, but they need to be clear, based on their testimony, that they are representing themselves and not the city in any way, and that would not be censurable.

CM Jurinsky attended the Aurora Economic Development Council's Accelerate trip and met with the Colorado Delegation to lobby on behalf of current frozen federal dollars, as there are several grants they are waiting on funding for and pled the case that we meet requirements of the current administration to receive our federal funding. She got two congressional members committed to helping us get our grant funding released.

CM Murillo announced her May Town Hall, which will be May 22nd, 6-7:30 p.m., at the MLK Library. She acknowledged that today is Cinco De Mayo and wanted to uplift the celebration of that and the role that our Mexican neighbors played in pushing against slavery back in the day, which is one of the biggest outcomes of Cinco De Mayo.

CM Sundberg reported that he recently participated in a couple of neighborhood cleanups, one at Murphy Creek and another along Colfax with Iron Sharp and a couple of police departments. He attended the Freedom Memorial Visitor Center groundbreaking, part of the Triple Creek Trailhead Art and Public Places process, Community College of Aurora luncheon, and the Energy and Environment Symposium in Rifle.

CM Medina attended the Colorado Association of Black Professional Engineers and Scientists yesterday, where they had students from 5th grade to high school that are interested in being project managers and looking into how to build affordable housing. He said they had a lot of projects around aerospace and engineering and other types of engineering aspects, and it was well attended. He announced his town hall, which is May 13th, 6:30-8 p.m., at the Central Library.

CM Hancock voiced that she also attended the Accelerate trip, as they advocated for the much-needed infrastructure funding needed in Aurora. She attended the Buckley Regional Military Affairs Council Meeting, where they reaffirmed their commitment to support the brave men and women who serve, along with their families. She noted that one of the biggest takeaways they got from the congressional delegation in DC was their support for the Space Force Guard and Reserve Units that are much needed. She was present at the groundbreaking ceremony for the Colorado Freedom Memorial Project. She said Dr. Brownlee and his remarkable team played a key role in the CCA College Beyond Walls Luncheon, and they are expanding out into a partnership with Commerce City. She expressed that the City of Aurora is doing many great things behind the scenes and in the public to ensure the city is the gold standard for what happens in communities across the country. She added that

people can download the Aurora Public Library Magazine online, as there are amazing opportunities for young people in it.

CM Lawson thanked everyone that attended and participated in her last town hall that was on Drug Takeback Awareness Day, where they had a lot of people that brought their unused medications. She announced her next town hall is May 13th, 6:30-8 p.m., at the Central Rec Center, and there will be another one on May 24th, at 10 a.m., at Heather Gardens.

CM Bergan stated she also attended the Accelerate Colorado Business Development trip, where they met with their congressional delegation, and got to meet with Congressman Crow, Congressman Neguse, Congressman Evans, Congresswoman Boebert, Congresswoman Pettersen, and Congressman Jeff Hurd, Senator Hickenlooper and Senator Bennett. She said they had good meetings with different departments, including Department of Transportation, Department of Energy, and Intergovernmental Affairs, and received insight from some news organizations. She also attended the Infrastructure Task Force Meeting, Fitzsimmons Redevelopment Authority, and the E-470 Roadway Committee Meeting.

CM Kassaw did not have a report. CM Gardner was absent.

18. ADJOURNMENT

Mayor Coffman adjourned the regular meeting of City Council.

On March 18, 2013, City Council approved the Westerly Creek (Upstream of the Dam) Master Plan Intergovernmental Agreement as item 10a.

On August 16, 2018, the Water Policy Committee supported forwarding the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to Council Session.

On September 24, 2018, the City Council approved the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek as item 10d.

On June 3, 2019, the City Council approved the first Amendment to the Intergovernmental Agreement for Improvement to the 22nd Avenue Outfall to Westerly Creek as item 10d.

On June 24, 2020, the Water Policy Committee supported forwarding the second Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to Council Session.

On July 20. 2020, the City Council approved the second amendment to the Intergovernmental Agreement for Improvement to the 22nd Avenue Outfall to Westerly Creek as item 10a.

On September 21, 2022, the Water Policy Committee supported forwarding the third Amendment (erroneously titled the fourth Amendment) to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to Council Session.

On October 24, 2022, the City Council approved the third Amendment (erroneously titled the fourth Amendment) to the Intergovernmental Agreement for Improvement to the 22nd Avenue Outfall to Westerly Creek as item 11c.

On April 19, 2023, the Water Policy Committee supported forwarding the fourth Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to Council Session.

On May 8, 2023, the City Council approved the fourth Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek as item 11.a.2.

On March 20, 2024, the Water Policy Committee supported forwarding the fifth Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to Council Session.

On April 8, 2024, the City Council approved the fifth Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek as item 11.a.1.

On June 18. 2025, the Water Policy Committee supported forwarding the sixth Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to Council Session

On July 28, 2025, the City Council approved the sixth Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek as item 10.a.4.

On May 20, 2026, the Water Policy Committee supported forwarding the seventh Amendment to the Intergovernmental Agreement for Improvement to 22nd Avenue Outfall to Westerly Creek to the June 8, 2026 Council meeting.

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

Background:
This project is a resulting recommendation of the Westerly Creek (Upstream of the Dam) Master Plan (2010). This "Amendment to Agreement Regarding Final Design, Right-of-Way Acquisition and Construction of Drainage and Flood Control Improvements for 22nd Avenue Outfall to Westerly Creek" (the Amendment) is the seventh amendment to the agreement between the City of Aurora and Mile High Flood District (District).

Scope:
As the area along Westerly Creek between Montview Blvd to E 26th Ave was developing, it became clear that the 22nd Ave stormsewer and outfall must be upsized to reduce known flooding in the area. The scope was expanded to include stream improvements within the Westerly Creek stream corridor.

The project will incorporate water quality into the area, reduce the floodplain encroachment on adjacent properties, rehabilitate the eroding areas of the stream, and provide open space amenities for surrounding properties. Aurora Parks, Recreation and Open Space is cost participating in this project to fund the new regional trail along the corridor.

Cost:
The previous six amendments detail MHFD's funding share of $4,945,000, Aurora Water's share of $6,500,000 and Parks Recreation and Open Space's share of $3,410,000. This seventh amendment increases the funding from the District by $250,000, and Aurora Water by $560,000. Parks Recreation and Open Space's contribution is not increasing this year. Additionally, the amendment includes a transfer of $61,969.65 from Sand Creek – Baranmor Ditch. The project total increases to $15,726,969.65. The funding history has been summarized in the table below.

	Previous Contribution	Contribution through this Amendment	Total Contribution
District	$4,945,000.00	$250,000.00	$ 5,225,984.83
Aurora Water	$6,500,000.00	$560,000.00	$ 7,090,984.82
Aurora PROS	$3,410,000.00	$0.00	$ 3,410,000.00
Total	$14,855,000.00	$ 810,000.00	$15,726,969.65

Aurora's additional $560,000 will be funded from ORG 52364.

The total anticipated project cost is $16,714,423 but the project is currently running under budget. It is unknown if additional amendments and funding contributions will be needed.

QUESTIONS FOR COUNCIL

Does Council support a Resolution of the City Council supporting the seventh amendment to an Intergovernmental Agreement between the City of Aurora acting by and through its Utility Enterprise and the Urban Drainage and Flood Control District, d/b/a Mile High Flood District regarding final design and construction of drainage and flood control improvements for 22nd Avenue outfall to Westerly Creek?

LEGAL COMMENTS

The City is authorized to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government (Article XIV of the Colorado Constitution and C.R.S. 29-1-203). The City Charter authorizes the City by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment or facilities or for furnishing or receiving commodities and services. (Charter Section 10-12). (Best).

RESOLUTION NO. R2026- ____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE SEVENTH AMENDMENT TO AN AGREEMENT BETWEEN THE CITY OF AURORA ACTING BY AND THROUGH ITS UTILITY ENTERPRISE AND URBAN DRAINAGE AND FLOOD CONTROL DISTRICT D/B/A MILE HIGH FLOOD DISTRICT REGARDING FINAL DESIGN, RIGHT-OF-WAY ACQUISITION, AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR 22ND AVENUE OUTFALL TO WESTERLY CREEK

WHEREAS, the City of Aurora, acting by and through its Utility Enterprise ("Aurora Water"), and the Urban Drainage and Flood Control District d/b/a Mile High Flood District ("District") have agreed to fund the design and construction of improvements for 22nd Avenue Outfall to Westerly Creek; and

WHEREAS, the project costs funded through this amendment include construction of the improvements for 22nd Avenue Outfall to Westerly Creek, final design services, delineation, description and acquisition of required rights-of-way and easements, and contingences mutually agreeable to Parties ("Project Costs"); and

WHEREAS, Aurora Water's contribution to the Project Costs through this amendment shall be $560,000; and

WHEREAS, a summary of contributions is set forth in the table below:

	Previous Contribution	Contribution through this Amendment	Transfer	Total Contribution
District	$4,945,000	$250,000	$30,984.83	$5,225,984.83
Aurora Water	$6,500,000	$560,000	$30,984.82	$7,090,984.82
Aurora PROS	$3,410,000	$0	$0	$3,410,000
TOTAL	$14,855,000	$810,000	$61,969.65	$15,726,969.65

; and

WHEREAS, the work performed pursuant to this amendment to the Intergovernmental Agreement is necessary for the health, safety, and welfare of the people of Aurora; and

WHEREAS, the City is authorized, pursuant to Article XIV of the Colorado Constitution C.R.S. 29-1-203, to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government; and

WHEREAS, Section 10-12 of the City Charter authorizes the City by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment, or facilities or for furnishing or receiving commodities and services.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, THAT:

Section 1. The seventh amendment to the Intergovernmental Agreement between Aurora Water and the District regarding the final design, right-of-way acquisition and construction of drainage and flood control improvements for 22nd Avenue Outfall to Westerly Creek is hereby approved.

Section 2. The Mayor and City Clerk are hereby authorized to execute the attached agreement in substantially the form presented at this meeting with such technical additions, deletions, and variations as may be deemed necessary or appropriate by the City Attorney.

Section 3. All resolutions or parts of resolutions of the City in conflict herewith are hereby rescinded.

RESOLVED AND PASSED this _____ day of _____ 2026.

AMENDMENT TO
AGREEMENT REGARDING
FINAL DESIGN, RIGHT-OF-WAY ACQUISITION, AND CONSTRUCTION
OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR
22nd AVENUE OUTFALL TO WESTERLY CREEK
CITY OF AURORA

Agreement No. 18-06.01G
Project No. 107146

THIS SEVENTH AMENDMENT TO AGREEMENT (hereinafter called "SEVENTH AMENDMENT"), by and between URBAN DRAINAGE AND FLOOD CONTROL DISTRICT D/B/A MILE HIGH FLOOD DISTRICT (hereinafter called "DISTRICT") and CITY OF AURORA (hereinafter called "CITY") and collectively known as "PARTIES";

WITNESSETH:

WHEREAS, PARTIES have entered into "Agreement Regarding Final Design, Right-of-Way Acquisition and Construction of Drainage and Flood Control Improvements for 22ND Avenue Outfall to Westerly Creek" (Agreement No. 18-06.01) dated October 30, 2018, as amended (hereinafter called "AGREEMENT"); and

WHEREAS, PARTIES now desire to construct improvements for 22nd Avenue Outfall to Westerly Creek (hereinafter called "PROJECT"); and

WHEREAS, PARTIES desire to increase the level of funding by $871,969.65; and

WHEREAS, DISTRICT's Board of Directors has authorized additional DISTRICT financial participation for PROJECT (Resolution No. 12, Series of 2026); and

WHEREAS, the City Council of CITY and the Board of Directors of DISTRICT have authorized, by appropriation or resolution, all of PROJECT costs of the respective PARTIES.

NOW, THEREFORE, in consideration of the mutual promises contained herein, PARTIES hereto agree as follows:

1. Paragraph 4. PROJECT COSTS AND ALLOCATION OF COSTS is deleted and replaced as follows:

4. PROJECT COSTS AND ALLOCATION OF COSTS

A. PARTIES agree that for the purposes of this AGREEMENT, PROJECT costs shall consist of and be limited to the following:

1. Final design services;
2. Delineation, description and acquisition of required rights-of-way/ easements;
3. Construction of improvements;
4. Contingencies mutually agreeable to PARTIES.

B. It is understood that PROJECT costs as defined above are not to exceed $15,726,969.65 without amendment to this AGREEMENT.

PROJECT costs for the various elements of the effort are estimated as follows:

	ITEM	AS AMENDED	PREVIOUSLY AMENDED
1.	Final Design	$ 2,000,000	$ 1,400,000
2.	Right-of-way	$ -0-	$ -0-
3.	Construction	$ 13,376,969.65	$ 13,455,000
4.	Contingency	$ -0-	$ -0-
	Grand Total	$ 15,726,969.65	$ 14,855,000

This breakdown of costs is for estimating purposes only. Costs may vary between the various elements of the effort without amendment to this AGREEMENT provided the total expenditures do not exceed the maximum contribution by all PARTIES plus accrued interest.

C. At the request of COUNTY, the following COUNTY funds may be transferred to PROJECT from a separate special fund held by DISTRICT:
Transfer from: Sand Creek - Baranmor Ditch
Account No. 10-05-76111-107306 Agreement No.19-02.13 Amount: $61,969.65

D. Based on total PROJECT costs, the maximum percent and dollar contribution by each party shall be:

	Percentage Share	Previously Contributed	Additional Contribution	Transfer	Maximum Contribution
DISTRICT	33%	$4,945,000	$250,000	$30,984.83	$5,225,984.83
CITY

2. Paragraph 5. MANAGEMENT OF FINANCES

5. MANAGEMENT OF FINANCES

As set forth in DISTRICT policy (Resolution No. 11, Series of 1973, Resolution No. 49, Series of 1977, and Resolution No. 37, Series of 2009), the funding of a local body's full share may come from its own revenue sources or from funds received from state, federal or other sources of funding without limitation and without prior DISTRICT approval.
Payment of each PARTY's full share (Aurora Water - $7,090,984.82; PROS - $3,410,000; DISTRICT - $5,225,984.83) shall be made to DISTRICT subsequent to execution of this AGREEMENT and within 30 days of request for payment by DISTRICT. The payments by PARTIES shall be held by DISTRICT in a special fund to pay for increments of PROJECT as

authorized by PARTIES, and as defined herein. DISTRICT shall provide a periodic accounting of PROJECT funds as well as a periodic notification to CITY of any unpaid obligations. Any interest earned by the monies contributed by PARTIES shall be accrued to the special fund established by DISTRICT for PROJECT and such interest shall be used only for PROJECT upon approval by the contracting officers (Paragraph 13).

Following completion of PROJECT if there are monies including interest earned remaining, which are not committed, obligated, or disbursed, each party shall be refunded proportional to the PARTY'S contribution; or, at PROJECT SPONSOR request, monies shall be transferred to another special fund held by DISTRICT.

3. All other terms and conditions of this AGREEMENT shall remain in full force and effect.

WHEREFORE, PARTIES hereto have caused this SEVENTH AMENDMENT to be executed by properly authorized signatories as of the date and year written below.

URBAN DRAINAGE AND
FLOOD CONTROL DISTRICT D/B/A

Mile High Flood District IGAs

Agreements between MHFD and Aurora 2026
22nd Avenue Outfall to Westerly Creek Improvement Project

22nd Avenue Outfall to Westerly Creek Improvement Project

THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT

RESOLUTION NO. 43, SERIES OF 2018
(Authorization to Participate in Drainage and Flood Control Improvements on the 22nd Avenue Outfall to Westerly Creek, City of Aurora, Adams County)

EXHIBIT A

- Westerly Creek Master Plan 2010
- Agreement Includes Final Design, ROW Acquisition, and Construction
- Project includes revitalization of Westerly Creek, Drainage and Flood Control, Water Quality, and Regional Trail Improvements

22nd Avenue Outfall to Westerly Creek Improvement Project

	Previous Contribution	Contribution through this Amendment	Total Contribution
District	$4,945,000.00	$250,000.00	$ 5,225,984.83
Aurora Water	$6,500,000.00	$560,000.00	$ 7,090,984.82
Aurora PROS	$3,410,000.00	$0.00	$ 3,410,000.00
Total	$14,855,000.00	$ 810,000.00	$15,726,969.65

- There are 3 contributing partners: Mile High Flood District, Aurora Water, and Parks Recreation and Open Space (PROS)
- Aurora Water's total contribution is approximately 45% of the total funds.
- PROS contributed $3,410,000 via previous amendments

22nd Avenue Outfall to Westerly Creek Improvement Project

Does the Water Policy Committee support moving this item forward to the June 8, 2026 Council meeting?

MINUTES

Regular Meeting – Aurora City Council
Monday, March 18, 2013

CALL TO ORDER – REGULAR MEETING

Mayor Pro Tem Berzins convened the regular meeting of City Council at 4:01 p.m.

ROLL CALL

PRESIDING:	Mayor Pro Tem Berzins
COUNCIL MEMBERS PRESENT:	Broom, Hunter Holen, LeGare, Mounier, Pierce, Roth
COUNCIL MEMBERS ABSENT:	Mayor Hogan, Cleland
OFFICIALS PRESENT:	City Manager Noe, Deputy City Attorney Hyman, Assistant City Manager/City Clerk Napper
COUNCIL MEMBERS ARRIVING AFTER ROLL CALL:	Markert, Peterson

Assistant City Manager/City Clerk Janice Napper announced the proposed items for discussion at executive session.

CONSIDERATION TO RECESS FOR EXECUTIVE SESSION

Motion by Hunter Holen, second by Pierce, to recess for executive session.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Mounier, Pierce, Roth

The executive session was recorded pursuant to the requirements of state law.

1. **RECONVENE REGULAR MEETING OF MARCH 18, 2013 AND CALL TO ORDER**

Mayor Pro Tem Berzins reconvened the regular meeting of City Council at 7:30 p.m.

2. **ROLL CALL**

PRESIDING:	Mayor Pro Tem Berzins
COUNCIL MEMBERS PRESENT:	Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth
COUNCIL MEMBERS ABSENT:	Mayor Hogan, Cleland
OFFICIALS PRESENT:	City Manager Noe, Deputy City Attorney Hyman, Assistant City Manager/City Clerk Napper

3. **INVOCATION** Pastor Eddie Fransua, Shuffle In Biker Church

4. **PLEDGE OF ALLEGIANCE TO THE FLAG**

5. **APPROVAL OF THE MINUTES OF THE MEETING OF MARCH 4, 2013**

Motion by LeGare, second by Roth, to approve the minutes of March 4, 2013 as presented.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

♠ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Abstained: None

6. **CEREMONY**

No Ceremonies.

Council Member Markert expressed appreciation to the Metro Community Provider Network (MCPN), the federally qualified health center who serves Aurora citizens for healthcare issues, for presenting the city with the community partner award for the nexus program. The program allows the city to support the clinic by having medical care available for police pickups and people who need medical care in an emergency room or hospital.

7. **PUBLIC INVITED TO BE HEARD (non-agenda related issues only)**

a. Public Invited to be Heard on the 2014 Budget

Arnie Schultz, Aurora, Colorado, representing the Aurora Residents for Recreation (ARR), expressed appreciation to the city and city staff who supported the ARR, and discussed additional ways for citizens to support ARR.

8. **ADOPTION OF THE AGENDA**

The agenda was adopted as presented.

9. **CONSENT CALENDAR - 9a-9e**

General Business

a. Consideration to AWARD A SOLE SOURCE CONTRACT to Intrado Inc., Longmont, Colorado in the amount of $132,330.57 for annual maintenance of the City's 911 answering system through February 28, 2014.

b. Consideration to AWARD A SINGLE SOURCE CONTRACT to L.L. Johnson Distributing Company, Denver, Colorado in the not to exceed amount of $124,000.00 to cover the cost of Toro brand repair parts and services as required through March 31, 2014, for Golf and Fleet Services.

Motion by Pierce, second by Markert, to approve items 9a – 9b.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

Final Ordinances

♠ c. **2013-07**
Consideration for ADOPTION OF AN ORDINANCE of the City Council of the City of Aurora, Colorado, amending Chapter 146 of the City Code of the City of Aurora, Colorado, by the addition of a new Section 146-406.5 to address the impact of the I-225 rail line project upon adjacent development.

Motion by LeGare, second by Markert, to approve item 9c.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

♠ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

♠ d. **2013-08**
Consideration for ADOPTION OF AN ORDINANCE of the City Council of the City of Aurora, Colorado, authorizing the use of lease-purchase financing to acquire certain equipment during the 2013 fiscal year pursuant to the terms of an equipment Lease Purchase Agreement by and between the Aurora Capital Leasing Corporation, as lessor, and the City of Aurora, Colorado, as lessee; authorizing officials of the City to take all action necessary to carry out the transactions contemplated hereby; and related matters.

Motion by Markert, second by Broom, to approve item 9d.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

♠ e. **2013-09**
Consideration for ADOPTION OF AN ORDINANCE of the City Council of the City of Aurora, Colorado, amending Subsection 130-522(b) of the City Code related to the New Job Reward program.

Motion by Roth, second by Hunter Holen, to approve item 9e.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

10. **RESOLUTIONS**

♠ a. **R2013-13**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, approving the Intergovernmental Agreement between the City of Aurora, acting by and through its Utility Enterprise, the City and County of Denver, and Urban Drainage and Flood Control District regarding Westerly Creek.

Motion by Broom, second by Peterson, to approve item 10a.

Voting Aye: Berzins, Broom, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

11. **PLANNING MATTERS**

a. PUBLIC HEARING to consider an appeal of the Planning Commission's decision to deny a conditional use for a fueling station in a Planned Development Zone District for Maverik Country Store.

Mayor Pro Tem Berzins opened the public hearing on the item.

Libby Tart-Schoenfelder, Senior Planner II, Planning, gave a presentation of the item.

Council Member Markert asked if the fire department had reviewed the gate for safety concerns. Ms. Tart-Schoenfelder stated it was technically a private street and was at the prerogative of the neighborhood, however, she noted Life Safety has stated no concerns about the gate.

Council Member LeGare asked if the 24 hour operation was in the proposal to follow the Super Target model. Ms. Tart-Schoenfelder answered affirmatively. Council Member LeGare asked if the Super Target were to go to 24 hours and the Maverik store followed, and then the Super Target stopped being open 24 hours, would the Maverik store be required to change their hours as well. Ms. Tart-Schoenfelder answered no. Council Member LeGare noted environmental concerns related to gas and oil running into Piney Creek were expressed in the backup material and asked staff to speak to the extensive environmental regulations the Maverik store would be

Water Policy Committee (WPC) Meeting
August 16, 2018

Members Present: Council Member Bob Roth, Chair; Council Member Francoise Bergan, Vice Chair (called in); Council Member Johnny Watson

Members Absent:

Others Present: Leiana Baker, Marshall Brown, Alex Davis, Steve Fiori, Nancy Freed, Jo Ann Giddings, Pam Hensley, Don Langley (CWAC), John Murphy, Stephanie Neitzel, Kelley Neumann, Gail Thrasher, Sarah Young, Fernando Aranda

---

1. APPROVAL OF MINUTES

The July 12, 2018, meeting minutes were approved as presented.

2. CONSENT ITEMS

A. Monthly Water Supply Update
B. Construction Change Order Summary Report
C. Quarterly Financial Update

Summary of Issue and Discussion: Council Member Bergan asked, where does the excess water go if we have a really wet season and heavy snowfall? M. Brown replied, in really wet periods we lose out at the bottom end of the system. The Prairie Waters system is ramped up pretty high to protect some of the storage. If there is a lot of water available Prairie Waters can ramp down or offer those water supplies to south metro entities and take more water out of the system/storage, and sometimes we do leases to other entities. J. Murphy added, the reason we are in good shape this year is due to being in good shape at the start of the season.

Outcome: The Consent items were supported as presented.

Follow-Up Action: The Consent items were supported as presented.

---

3. IMPROVEMENTS TO 22ND AVENUE OUTFALL TO WESTERLY CREEK

Summary of Issue and Discussion: S. Young stated, flooding is known to occur on Dallas St. between E. 22nd and 23rd Avenue near the Stanley Marketplace. This project will mitigate the flooding by collecting excess street flows and conveying them directly to Westerly Creek via an outfall pipe in E. 22nd Avenue. New Type-R inlet and a new 48 inch reinforced concrete pipe (RCP) will convey flows westward to a new outfall at Westerly Creek. Aurora and Urban Drainage Flood Control District will jointly fund the project.

Council Member Watson asked, is the area south of Stanley Marketplace a flood impact area. S. Young replied, there are improvements upstream that would help some of the flooding issues. Council Member Watson asked, how is the amount of rainfall predicted. S. Young replied, there are two things regarding stormwater flooding, how much rain falls over a certain period of time and the duration. An example, is a two-inch, six hour rain storm is what we would consider a one

hundred year rainfall event. It means there is a one percent chance that this amount of rain would fall in that area.

Outcome: The Committee supports the Improvements to 22nd Avenue to Outfall to Westerly Creek, and forwarded the matter to Study Session for consideration.

Follow-Up Action: The Committee supports the Improvements to 22nd Avenue to Outfall to Westerly Creek, and will forward to Study Session for consideration.

---

4. IMPROVEMENTS FOR ROBINSON GULCH INTERGOVERNMENTAL AGREEMENT AMENDMENT

Summary of Issue and Discussion: S. Young stated, Urban Drainage and Flood Control District (UDFCD) funded the design for the maintenance of drainage and flood control improvements for the Robinson Gulch project in 2015. Final design plans are anticipated this fall and construction is anticipated to begin in 2018. Based on available funds through the UDFCD maintenance program, funding over several years is needed to accumulate this amount. Aurora's share of the $750,000 was split into three difference IGAs and payments.

Council Member Bergan asked, Aurora Parkway and Arapahoe Road recently flooded, is fixing that part of this project? S. Young replied, it's in the same area as Robinson Gulch, but those flooding issues are Capital Projects whereas this is a maintenance project. M. Brown added, it was a construction project and construction Best Management Practices affected the stormwater drainage. Stormwater quality measures were in place and reduced the storm drain capacity.

Outcome: The Committee supports the Improvements for Robinson Gulch Intergovernmental Agreement Amendment, and forwarded the matter to Regular Session for consideration.

Follow-Up Action: The Committee supports the Improvements for Robinson Gulch Intergovernmental Agreement Amendment, and will forward to Regular Session for consideration.

---

5. INTERGOVERNMENTAL AGREEMENT TO LEASE WATER TO PARK COUNTY

Summary of Issue and Discussion: A. Davis stated, Park County is currently operating a Substitute Water Supply Plan (SWSP) to replace water that the County takes from the river for road maintenance and dust suppression purposes. The SWSP for 2018 is in need of a small amount of water and the County has requested a temporary lease from the City for this purpose. The lease provides for up to a total of fifteen (15) acre-feet to be delivered from Spinney Mountain Reservoir by December 31, 2018, and the price is $300 per acre-foot.

Outcome: The Committee supports the Intergovernmental Agreement to Lease Water to Park County, and forwarded the matter to Regular Session for consideration.

Follow-Up Action: The Committee supports the Intergovernmental Agreement to Lease Water to Park County, and will forward to Regular Session for consideration.

6. HARLAND DITCH QUIT CLAIM DEED

Summary of Issue and Discussion: A. Davis stated, the City of Aurora owns the water rights from the Harland Ditch in Park County, Colorado, and as such has been listed in the Park County records as the owner of the Harland Ditch Right-of-Way. The Harland Ditch water rights were changed and are delivered for City use downstream of the Harland Ditch location. The City has no current or future need for the Harland Ditch Right-of-Way and no records of actually owning the Right-of-Way for the ditch. The current land owner has asked the City to allow him to use the Right-of-Way to access the land he owns. The City has issued a License Agreement to allow use of the ditch Right-of-Way, and is now cleaning up the title by issuing a Quit Claim Deed for the Harland Ditch Right-of-Way.

Outcome: The Committee supports the Harland Ditch Quit Claim Deed, and forwarded the matter to Regular Session for consideration.

Follow-Up Action: The Committee supports the Harland Ditch Quit Claim Deed, and will forward to Regular Session for consideration.

7. ORDINANCE AMENDING SECTIONS OF CHAPTER 138 AND 146 OF CITY CODE

Summary of Issue and Discussion: J. Giddings stated, the proposed 2019 budget includes the proposed rate and fee adjustments based on the latest financial plan. Proposed changes for 2019, are a 3% increase in Water, 4% increase in Sewer, and no increase in Storm. Developmental Fee increases are 4.7% Water, 6.4% Sewer, and 6.5% Storm. In addition to the fee adjustments, Aurora Water has been working to streamline fees paid by developers. Staff is asking to move the sewer interceptor fee, currently collected at platting, to be collected at the same time the connection fee is paid. Development fees are calculated using the costs developed in the master planning process performed by the Planning and Engineering division in Aurora Water. A large portion of the water development fee increase is due to the increase cost of acquiring and developing water. In addition to the increases, staff is proposing a change to the commercial connection fee for a 2-inch meter. The proposal is to have the connection fee determined by a calculation based on the specific site plan determining the actual projected water usage. These accounts will be subject to a capital recovery fee based on an agreed upon annual water usage.

Other ordinance updates include:
An update has been added defining regional infrastructure that may be eligible for developer reimbursement when a developer builds the infrastructure due to the developer needs outside of the timing in the Aurora Water capital budget (Section 138-153 and 138-261). Clarification of rates to be paid by customers that may be served directly by a service provider other than Aurora Water due to circumstances that make it more beneficial to serve the customers by another service provider. The rates paid will be established by the direct service provider (Section 138-223). For consistency purposes, adding the paragraph requiring the rate and connection fees for outside sewer customers to be 1 1/2 times the rates and fees for in city customers (Section 138-327). This is similar to the rates and fees for outside water service customers. A modification is being proposed for the use of independent water systems. As the City continues to grow and

change with more industrial uses and limited special purpose water needs, there may be opportunities that are beneficial to the City for outside independent water system usage with approval by the Aurora Water Director (Section 138-154). The current opportunity to pay an additional fee to decrease the amount of capital recovery fees paid and increase the annual water allocation usage is limited in code to one time only for the property. The proposed change is to allow an annual opportunity to pay additional fees to adjust the water usage allocation. This change will allow for more opportunity to pay additional fees in the future, and may better align the payment with actual water usage primarily as it relates to new commercial buildings (Section 138-221). Section 138-228 allows for an incentive payment to development of transportation oriented development is being deleted as this was a temporary incentive with an expiration of January 1, 2019. Proposed amendments to Section 138-442.5 are to clarify current requirements. Proposed change to Section 146-306 is to move the sewer development fee to the connection fee.

Council Member Bergan stated, the slide showing the monthly average water bill, should be sent with the customer's water bill, this would show that Aurora Water's average water bill is lower compared to other entities. Council Member Roth agreed. Council Member Watson asked, who are the two-inch meter size users? J. Giddings replied, it varies. M. Brown added, a lot of the commercial buildings are on a two-inch meter. Council Member Watson asked, why are the rates changing? M. Brown replied, rates pay for the cost to operate the system, fees pay for the cost to create the system. Our fee increases are driven mainly by the cost of acquiring and developing the water supply, and went to a volumetric based fee structure to account for that. The size of the pipe doesn't matter in our fee as much as how much we push through the pipes. That is why we have gone to the average daily use calculation. There is a water allocation that has been agreed upon for their annual use and if they exceed that allocation there is a capital recovery surcharge that is in addition to the normal rate. Council Member Watson stated, he has heard that Aurora has high tap fees. M. Brown replied, we are the only entity that has this fee structure. For residential, if you build a small house with a small water footprint in Aurora, you will pay a lower tap fee. Council Member Roth asked, can someone disprove the 36% impervious assumed for residential lots? M. Brown replied, this methodology would not include anything like that. The percentage is a community wide average. For commercial we are looking at a process to work with them on their design to calculate how much run-off is coming off the site. F. Aranda added, all of the increases that are being proposed are part of the master plan final study and are part of a multi-year phase in. M. Brown added, the fees have to keep up with the water prices and construction prices. Council Member Bergan asked, if we ask the developer to make a connection on a road is that what we are talking about? J. Giddings replied, it can be for new developer connections to services. Council Member Bergan asked, could it be lift stations? J. Giddings replied, yes. Council Member Bergan asked, if the developer isn't going to be reimbursed, why would they want to do it? M. Brown replied, if a developer comes in and needs a lift station but the lift station is only going to provide service to their neighborhood that would not be reimbursement eligible. That is why it says reimbursement eligible.

Outcome: The Committee supports the Ordinance Amending Sections of Chapter 138 and 146 of City Code, and forwarded the matter to Study Session for consideration.

Follow-Up Action: The Committee supports the Ordinance Amending Sections of Chapter 138 and 146 of City Code, and will forward to Study Session for consideration.

8. CHANGE IN METHODOLOGY TO STORMWATER MONTHLY FEES

Summary of Issue and Discussion: F. Aranda stated, that current available information through Geographical Information Systems (GIS) related to site specific impervious areas and the run-off impacts to the stormwater system provides for a more equitable way to allocate stormwater charges. Aurora Water Staff performed an analysis of a stormwater rate structure using GIS impervious data. This concept was presented to the Water Policy Committee (WPC) on May 10, 2018. The analysis showed the implementation of this structure would have a significant impact on some commercial properties. The Committee recommended updating the commercial class stormwater units as defined in the current City Code Section 138-397 in 2019, and allow for a two year implementation for customers with significant changes. The Committee also was supportive of going to an impervious rate structure starting in 2020.

Staff is recommending an implementation plan that will smooth some of the impacts as commercial properties transition from the current rate structure with updated units for all accounts and then moving into an impervious rate structure. The impervious rate structure is an industry best practice as a more equitable way to allocate storm charges.

Council Member Bergan asked, did we look at all the customers in Aurora and what would be the impact to them. F. Aranda replied, if they go full impervious it would have an impact. Council Member Bergan asked, is gravel is consider impervious? F. Aranda replied, from the satellite point of view – no. From the data received and analyzed it's not included. Something we want to look at because there is run off from gravel. M. Brown added, there is a correction factor that you would apply to gravel, it's partially impervious.

Outcome: When the methodology is complete this item will be presented to the Committee in approximately 2-3 months and then forwarded to Study Session.

Follow-Up Action: J. Giddings and F. Aranda will present the final methodology to the Committee in approximately 2-3 months.

---

9. MISCELLANEOUS MATTERS FOR CONSIDERATION

Summary of Issue and Discussion: None.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

10. CONFIRM NEXT MEETING

The next meeting is scheduled for Thursday, September 13, 2018, 3:30 p.m. in the Mt. Elbert Conference Room.

X

Council Member Roth
Chair - Water Policy Committee

MINUTES

Regular Meeting – Aurora City Council
Monday, September 24, 2018

CALL TO ORDER – REGULAR MEETING

Mayor LeGare convened the regular meeting of City Council at 5:00 p.m.

ROLL CALL

PRESIDING:	Mayor LeGare
COUNCIL MEMBERS PRESENT:	Bergan, Berzins, Gruber, Johnston, Lawson, Murillo, Richardson, Roth, Watson
COUNCIL MEMBERS ABSENT:	Hiltz
OFFICIALS PRESENT:	City Manager Twombly, Interim City Attorney Brotzman, City Clerk Analyst Shafer
COUNCIL MEMBERS ARRIVING AFTER ROLL CALL:	None

City Clerk Analyst Shafer announced the proposed items for discussion at executive session.

CONSIDERATION TO RECESS FOR EXECUTIVE SESSION

Motion by Bergan, second by Watson, to recess for executive session.

Voting Aye: Mayor LeGare, Bergan, Berzins, Gruber, Johnston, Lawson, Murillo, Richardson, Roth, Watson

Abstaining: None

The executive session was recorded pursuant to the requirements of state law.

1. **RECONVENE REGULAR MEETING OF SEPTEMBER 24, 2018 AND CALL TO ORDER**

   Mayor LeGare reconvened the regular meeting of City Council at 7:30 p.m.

2. **ROLL CALL** Barb Shafer, City Clerk Analyst

COUNCIL MEMBERS PRESENT:	Mayor LeGare, Bergan, Berzins, Gruber, Johnston, Lawson, Murillo, Richardson, Roth, Watson
COUNCIL MEMBERS ABSENT:	Hiltz

3. **INVOCATION** Pastor Scott Bloyer, Elevation Christian Church

4. **PLEDGE OF ALLEGIANCE TO THE FLAG** (all standing)

5. **APPROVAL OF THE MINUTES OF THE MEETING OF SEPTEMBER 4, 2018**

   Motion by Roth, second by Bergan, to approve the minutes of the meeting of September 4, 2018, as presented.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Voting Aye: Mayor LeGare, Bergan, Berzins, Gruber, Johnston, Lawson, Murillo, Richardson, Roth, Watson

Abstaining: None

APPROVAL OF THE MINUTES OF THE MEETING OF SEPTEMBER 17, 2018

Motion by Bergan, second by Richardson, to approve the minutes of the meeting of September 17, 2018, as presented.

Voting Aye: Mayor LeGare, Bergan, Berzins, Gruber, Johnston, Lawson, Murillo, Richardson, Roth, Watson

Abstaining: None

6. **CEREMONY**

a. Colfax Marathon Awards

Mayor LeGare invited Andrea Dowdy, CEO, Colfax Marathon and the Aurora Fire Department running team to come forward. Ms. Dowdy presented awards to Mayor LeGare and Aurora Fire Department Teams #1 and #2 and expressed appreciation to the Aurora Police and Fire Departments, Kaiser Permanente and the City of Aurora for their efforts in creating another successful and safe marathon. Each guest expressed appreciation for the recognition.

7. **PUBLIC INVITED TO BE HEARD (non-agenda related issues only)**

a. Public Invited to be Heard on the 2019 Budget

Linnea Reed-Ellis and Michael Himawan, Aurora, Colorado, stated their opposition to the proposal that the time allowed in the Public Invited to be Heard segment of the City Council meeting agenda be limited.

Arnie Shultz, Aurora, Colorado, echoed the previous comments related to limiting the public speaking time in City Council meetings, expressed appreciation to the City for their efforts related to including recreation centers in the City budget and advocated for more effort in that regard.

Jon Barber, President, E-470 Neighbors Group, Aurora, Colorado, expressed concerns related to infrastructure and plans not keeping up with development in the City and discussed the related safety concerns.

Randall McCoy, Aurora, Colorado, discussed city, state and federal officials' suppression of citizens and his negative experiences with City of Aurora Police.

Bryan Lindstrom, Aurora, Colorado, expressed appreciation to the City Council for honoring the democratic process.

8. **ADOPTION OF THE AGENDA**

The agenda was adopted as presented with the adjustment of item 6a.

9. **CONSENT CALENDAR - 9a-f**

General Business

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

a. ♦ a. **R2018-87**
Consideration to APPROVE A RESOLUTION of the City Council of Aurora, Colorado, Approving the Restaurant Program Grant Agreement/Letter of Understanding among the City of Aurora, Colorado, Byung Young Cho, Soon Ja Lee (Owners) and Mountain Pig, LLC and the Loan Agreement between the City of Aurora, Colorado and the Owners for the Development of the Mason Dumplings Restaurant. STAFF SOURCE: Timothy "Tim" Gonerka, Senior Project Manager, Planning & Development Services

Motion by Berzins, second by Roth, to approve item 10a.

Council Member Gruber asked staff the location of the restaurant.

Tim Gonerka, Senior Project Manager, Planning & Development Services, noted it was located at the corner of Dayton and Montview.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Council Member Gruber asked if the City has supported other restaurants located in Ward I. Mr. Gonerka answered affirmatively.

Council Member Murillo asked Mr. Gonerka to speak to the City's restaurant incentive program, noting it was a great program. Mr. Gonerka did so, noting it was a program approved by Council to incentivize restaurants to come into northwest Aurora specifically with the goal of creating restaurant venues in spaces where there were not any. Council Member Murillo reiterated it was a great program and discussed the Transforming Safety Initiative grant funding program that was designed to reduce crime via community development.

Voting Aye: Bergan, Berzins, Gruber, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ b. **R2018-88**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, for the termination of a Drainage Easement to allow for the dedication of a Drainage & Trail Easement over the Bolling Drive Tributary. ***(This Item Also Appears on the September 24, 2018 Study Session) (Due to this item being dual listed, the backup is included in item 2a of the Study Session Packet.)***

MINUTES

Regular Meeting – Aurora City Council
Monday, June 3, 2019

CALL TO ORDER – REGULAR MEETING

Mayor LeGare convened the regular meeting of City Council at 4:00 p.m.

ROLL CALL

PRESIDING:	Mayor LeGare
COUNCIL MEMBERS PRESENT:	Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson Murillo, Richardson, Roth, Watson
COUNCIL MEMBERS ABSENT:	None
OFFICIALS PRESENT:	City Manager Twombly, Interim City Attorney Brotzman, City Clerk Ruger
COUNCIL MEMBERS ARRIVING AFTER ROLL CALL:	None

City Clerk Ruger announced the proposed items for discussion at executive session.

CONSIDERATION TO RECESS FOR EXECUTIVE SESSION

Motion by Watson, second by Berzins, to recess for executive session.

Voting Aye: Mayor LeGare, Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

Abstaining: None

The executive session was recorded pursuant to the requirements of state law.

1. **RECONVENE REGULAR MEETING OF JUNE 3, 2019 AND CALL TO ORDER**

   Mayor LeGare reconvened the regular meeting of City Council at 7:30 p.m.

2. **ROLL CALL** Stephen Ruger, City Clerk

COUNCIL MEMBERS PRESENT:	Mayor LeGare, Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson
COUNCIL MEMBERS ABSENT:	None

3. **INVOCATION** Pastor Tom Tupito, Aurora First SDA

4. **PLEDGE OF ALLEGIANCE TO THE FLAG** (all standing)

5. **APPROVAL OF THE MINUTES OF THE MEETING OF MAY 20, 2019**

   Motion by Johnston, second by Roth, to approve the minutes of the meeting of May 20, 2019, as amended.

   Voting Aye: Mayor LeGare, Bergan, Berzins, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Abstaining: Gruber

6. **CEREMONY**

a. Swearing in of newly appointed Boards and Commission members – Presiding Judge Shawn Day

Judge Shawn Day administered the oath of office to the newly appointed board and commission members. City Council congratulated the members and thanked them for their service to Aurora.

Name	Board or Commission
Steven Gallegos	Career Service Commission
Brad Stratton	Open Space Board
Nadine Caldwell	Metro Wastewater
Dan Mikesell	Metro Wastewater
Jo Ann Giddings	Metro Wastewater

b. Proclamation declaring June 2019 Immigrant Heritage Month – Mayor LeGare

Mayor LeGare invited everyone involved with the proclamation to come forward. Mayor LeGare read the proclamation declaring June 2019 Immigrant Heritage Month. Everyone expressed appreciation for the proclamation.

7. **PUBLIC INVITED TO BE HEARD (non-agenda related issues only)**

Brandon Golston discussed the use and subsequent danger of Directed Energy Weapons including radio frequency and expressed the importance of instituting legislation in that regard.

Endale Getahun, KETO Ethiopian radio, expressed appreciation to the City Council for their support of the radio station. He discussed several challenges faced by the immigrant community throughout Aurora and the country.

Jonathan and Matthew Endale expressed appreciation on behalf of the Ethiopian community to the City Council for their support of the Ethiopian community and KETO radio station.

Doug Shriner, President, Murphy Creek III, expressed appreciation to City Council for denying the Murphy Creek East expansion proposal and for hearing the neighbors' related concerns.

Margaret Rash, Vice-President, Murphy Creek Metro District III, echoed Mr. Shriner's comments and discussed the residents' concerns in that regard.

Margaret Sobey echoed the previous comments related to her appreciation to City Council for their response to the Murphy Creek East expansion. She noted ways in which the applicant did not follow City procedure in that regard.

8. **ADOPTION OF THE AGENDA**

The agenda was adopted as presented.

9. **CONSENT CALENDAR - 9a-k**

General Business

a. Consideration to AWARD A COMPETITIVELY BID CONTRACT to W.L. Contractors, Inc., Arvada, Colorado in the amount of $3,644,762.00 for the 2019 Traffic Signal Construction Services Project, Project Number 19015. STAFF SOURCE: Anna Bunce, Traffic Manager, Public Works

b. Consideration to AWARD A SOLE SOURCE CONTRACT to GE Digital LLC (formerly GE Intelligent Platforms), San Ramon, CA in the total amount of $74,322.37 for the annual renewal of software maintenance on the Water SCADA Information Management System through June 2020. STAFF SOURCE: Marena Lertch, Manager Water Service Operations, Aurora Water

c. Consideration to EXTEND A COMPETITIVELY BID CONTRACT to EJ USA, Inc., Denver, Colorado in the not-to-exceed amount of $75,500.00 for the purchase of manhole products as required by the Water Department through March 31, 2020. (B-4215) STAFF SOURCE: Marena Lertch, Manager Water Service Operations, Aurora Water

d. Consideration to award a SINGLE SOURCE CONTRACT to Black & Veatch Corporation, Denver, Colorado in the amount of $344,820.00 for engineering planning, coordination and inspection services for Rampart Tunnel No. 2. STAFF SOURCE: Steven Fiori, Project Delivery Services Manager, Aurora Water

e. Consideration to AWARD A CHANGE ORDER TO THE COMPETITIVELY BID CONTRACT with Velocity Constructors, Inc., Denver, Colorado in the amount of $275,030.00, for the Griswold Water Purification Facility (WPF) Air Scour Improvements Project, Project No. 5618A. STAFF SOURCE: Steven Fiori, Project Delivery Services Manager, Aurora Water

Motion by Roth, second by Berzins, to approve items 9a – 9e.

Voting Aye: Mayor LeGare, Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

Final Ordinances

♦ f. **2019-19**
Consideration of AN ORDINANCE FOR ADOPTION of the City Council of the City of Aurora, Colorado, to Amend and Rename The Park Chambers Combined General and Preliminary Development Plan to The Aurora Ready Mix Crushing Facility general development plan in order to permit rock crushing operations on the site and update site conditions within the plan (READY MIX GDP AMENDMENT) STAFF SOURCE: Stephen E Rodriguez, Planning Supervisor, Planning & Development Services

Motion by Roth, second by Berzins, to approve item 9f.

Voting Aye: Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ g. **2019-20**
Consideration of AN ORDINANCE FOR ADOPTION of the City Council of the City of Aurora, Colorado, amending Section 134-422 relating to Authority for Administration of the Parking and Mobility Program. STAFF SOURCE: Tom Worker-Braddock, Senior Planner, Planning & Development Services

Motion by Roth, second by Bergan, to approve item 9g.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Voting Aye: Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ h. **2019-21**
Consideration of AN ORDINANCE FOR ADOPTION of the City Council of the City of Aurora, Colorado, excluding certain property identified as PA 5A from the boundaries of the Porteos Business Improvement District. STAFF SOURCE: Mark Geyer, Project Manager, General Management

♦ i. **2019-22**
Consideration of AN ORDINANCE FOR ADOPTION of the City Council of the City of Aurora, Colorado, excluding certain property identified as PA 6A North from the boundaries of the Porteos Business Improvement District. STAFF SOURCE: Mark Geyer, Project Manager, General Management

♦ j. **2019-23**
Consideration of AN ORDINANCE FOR ADOPTION of the City Council of the City of Aurora, Colorado, excluding certain property identified as PA 6A South from the boundaries of the Porteos Business Improvement District. STAFF SOURCE: Mark Geyer, Project Manager, General Management

Motion by Gruber, second by Watson, to approve items 9h – 9j.

Voting Aye: Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ k. **2019-24**
Consideration of AN ORDINANCE FOR ADOPTION of the City Council of the City of Aurora, Colorado, vacating a portion of the public right-of-way for East Gibraltar Court, within the King's Point Master Plan Development, City of Aurora, County of Arapahoe, State of Colorado (EAST GIBRALTAR COURT STREET VACATION) STAFF SOURCE: Heather Lamboy, Planning Supervisor, Planning & Development Services

Motion by Bergan, second by Richardson, to approve item 9k.

Voting Aye: Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

10. **RESOLUTIONS**

♦ a. **R2019-34**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, authorizing the execution of the oil and gas operator agreement between the city of aurora, Colorado, and ConocoPhillips company, a Delaware corporation and its subsidiaries and Burlington resources oil & gas company LP, a Delaware limited partnership, (COLLECTIVELY "OPERATOR"), a Colorado Limited Liability Company. ***(Staff Requests a Waiver of Reconsideration)*** STAFF SOURCE: Christine McKenney, Client Group Manager, City Attorney

Mayor LeGare opened the public hearing on the item.

Elizabeth Paranhos, Attorney, stated she was outside counsel for the City of Aurora on Oil & Gas matters and provided a presentation on the item.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Council Member Johnston asked Ms. Paranhos if the comparison for the Colorado Oil & Gas Conservation Commission (COGCC) related to the previous COGCC whose mission it was to promote oil and gas development or the new COGCC whose mission was to regulate oil and gas that protected public health, safety, welfare and the environment. Ms. Paranhos stated any rules referenced were rules that were adopted by the prior COGCC.

Council Member Gruber asked if in addition to City staff, another attorney, Jeff Robbins, was a co-architect of the development agreements. Ms. Paranhos agreed Mr. Robbins represented the City prior to the operator agreement negotiations with ConocoPhillips. Council Member Gruber stated that was important to note because he and Council Member Johnston worked closely with Mr. Robbins during development of the item and presently, Mr. Robbins was named the Chairman of the COGCC. He pointed out his understanding that Mr. Robbins planned to take many of the things that have been discussed in that regard and make them state requirements, noting that meant Aurora was actually leading the COGCC in creating these requirements.

Council Member Johnston stated her appreciation that the City of aurora used outside counsel who was now the COGCC Chairman, however, she noted one could not assume what the COGCC was doing in terms of rulemaking and process at this point.

Council Member Bergan pointed out the agreement stated ConocoPhillips would abide by any new COGCC rules.

Ms. Paranhos concurred, noting ConocoPhillips would abide by any and all state and federal best practices.

Mayor Pro Tem Roth asked Ms. Paranhos if she was actively involved in putting together the Best Management Practices (BMP) for the City and County of Broomfield operator agreement. Ms. Paranhos answered affirmatively. Mayor Pro Tem Roth asked Ms. Paranhos if she was familiar with the structure and final product of the agreement. Ms. Paranhos answered affirmatively. Mayor Pro Tem Roth asked if the City's agreement was more robust in terms of air quality and groundwater monitoring than the City of Broomfield agreement. Ms. Paranhos answered affirmatively, noting ConocoPhillips agreed to install continuous air quality monitors at all phases of development and to pay for those monitors. Mayor Pro Tem Roth asked if that was so in any other agreement Ms. Paranhos was aware of. Ms. Paranhos answered no.

Council Member Johnston stated her understanding that Broomfield and other communities had a moratorium and asked if the City of Aurora was the only local government with an operator agreement that came so closely after the passage of SB 181. Ms. Paranhos stated the only other one she was aware of was Commerce City.

Council Member Watson referenced and read p. 273 of the staff report, noting it appeared the City of Aurora created more stringent rules than those found in SB 181.

Ms. Paranhos stated the bill itself did not set forth any specific rule requirements, noting it required the COGCC to significantly overhaul its regulations and to do specific types of rulemaking in the future. She stated her opinion that the agreement was in the spirit of SB 181.

Council Member Gruber asked Ms. Paranhos to describe the service site public participation process. Ms. Paranhos did so. Council Member Gruber stated Aurora residents would actively participate in the process as the item moved forward.

Ms. Paranhos concurred.

Council Member Hiltz asked if a penalty would be assessed to the City should a permit come in that required further review which thereby delayed approval. Ms. Paranhos noted a clear, relatively set schedule was made for permit review and confirmed there was some language in the agreement that allowed for that timeframe to be extended. Council Member Hiltz referenced the $1,000 per day penalty for a delay and asked if that was something the City was currently reimbursing to the operator or was that a new provision. Ms. Paranhos stated it was a new provision, noting it would be triggered if there were a delay in terms of denial of a permit application after everyone did what they were supposed to do

Council Member Gruber stated the reason operator agreements were reviewed in the first place was because there were a number of well sites being designed and the City had limited authority. He recalled City Council decided the City should work with the oil companies in terms of the City's preferred Best Management Practices and their request for accelerated support. He asked Ms. Paranhos to speak to that. Ms. Paranhos did so. Council Member Gruber pointed out the City received all of the benefits of the operator agreements with very stringent environmental protections and the understanding that any new changes developed by the state would be included.

Ms. Paranhos stated they were not the best environmental standards in the world but agreed they were certainly robust and did exceed state level requirements in Colorado.

Council Member Johnston stated she was a part of some of the earlier discussions and clarified she has often been supportive of operator agreements of Best Management Practices, she noted she has also been consistent in her concerns when highly industrial operations were going into residential zones. She stated this operator agreement did not relate to new construction only.

Council Member Hiltz stated concerns related to risk and liability were raised at the previous meeting related to an operator agreement. She asked how the situation developed from an agreement being sent back to staff to a new agreement being generated that included a new provision related to delay reimbursement where the City would absorb the risk.

Dan Brotzman, Interim City Attorney, stated the other extraction operator agreement did not move forward because it did not have acceptable remedy language which was not the case with the ConocoPhillips agreement. He noted the ConocoPhillips agreement did include a penalty that was significantly different from what was being proposed by the other operator.

Council Member Hiltz asked the specific remedy language in the prior ConocoPhillips agreement that caused the penalty language to be added. Mr. Brotzman stated they wanted to look at consequential damages for the infrastructure which related to hundreds of millions of dollars. He noted additionally, they indicated they would sue the City for all of the infrastructure costs for delaying the permit. Council Member Hiltz asked Mr. Brotzman if it was his legal opinion that this was the best way to minimize the risk. Mr. Brotzman answered affirmatively.

Council Member Watson read from the agreement, noting ConocoPhillips has agreed to limit its remedies against the City to delay reimbursement provisions.

Ms. Paranhos concurred, noting ConocoPhillips has agreed to not sue for any monetary damages related to delays.

Vanessa Thompson, Surface Land Supervisor, ConocoPhillips, gave a presentation on the item.

Council Member Lawson noted Ms. Thompson stated ConocoPhillips held 15 open house meetings in six years and asked Ms. Thompson to speak to what the neighborhood meetings looked like.

Max Blair, ConocoPhillips, did so.

Council Member Lawson asked if there was any type of follow-up with the residents that addressed their questions. Mr. Blair stated there was a mix of both direct conversations and ConocoPhillips reaching out.

Council Member Gruber asked Ms. Thompson to speak to the moratorium agreement entered into by ConocoPhillips and the City. Ms. Thompson did so, noting there were 10 well sites with submittals dating back to October 2018 with ConocoPhillips. Council Member Gruber asked if there has been a moratorium on ConocoPhillips since October. Ms. Thompson agreed it was fair to state there was a pause.

Council Member Watson asked if, in addition to the public meetings, tours of the site were offered. Ms. Thompson answered affirmatively.

Council Member Johnston clarified there has not been a moratorium and suggested it was irresponsible to state otherwise. She expressed appreciation to Ms. Thompson for her use of the term 'pause.' She also expressed appreciation for the tours that were offered and asked if there was a City process or meetings on the issue.

Jason Batchelor, Deputy City Manager, answered no, noting the operator agreements contemplated and included additional meetings around specific well sites as they moved through the permit process.

Mayor LeGare related the rules of order for speaking on the item. He asked those in support of the item present at the meeting to stand. He recognized approximately 160 people standing. He asked those in opposition to the item present at the meeting to stand. He recognized approximately 35 people standing.

Council Member Hiltz asked if the Mayor could ask how many people were present who were employed by the industry. Mayor LeGare answered no.

Valerie Rowe; Kevin Hougen; Terry Peltes; Chris McGowan; James Hopper; Rob Carroll; Ryan Seastrom; Michael Mead; Jessica Crespin; Jerry Cunningham; Dustin Dudley; Colton Loehr; Seth Lovelady; Amanda Martin; Scott Farkas; Brad Pierce; Polly Page; Jennifer Churchfield; Blaise Sims; John Wolfkill; Cameron Ming; Rita Connerly; Mark Archuleta; Doug Tisdale; Zach Neal; Daisie Young; Valerie Wells; and Ryan Foltz, spoke in favor of the item.

MAYOR LEGARE CALLED FOR A 13 MINUTE BREAK

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Richard Radar; Adam Fung; Ellen Woo; Sarah Brockway; Edith Henke; Aimee Potter, Larry Scrima; Sandy Toland; Sonia Skakich-Scrima; Kristen Mallory; Randee Webb; Pat Dunn; Arnie Schultz; Tim Rash; Lucy Molina; Margaret Rash; and Margaret Sobey, spoke in opposition to the item.

Council Member Gruber noted assumptions have been made that Emerge candidates should not vote in this instance because Emerge has a pillar specifically against oil and gas. He asked the City Attorney to speak to that concern.

Council Member Hiltz clarified Emerge did not have a pillar of anti or pro anything and she contended the narrative that Emerge candidates were not free-thinking was disrespectful and rude. She noted she did not have a problem sharing where her campaign funding came from.

Mr. Brotzman discussed the Council Rules of Procedure, Voting Conflicts of Interest, as it applied to the situation, noting all council members must vote unless there a personal interest in the item was realized.

Council Member Murillo stated her frustrations that her opinions, as a woman, were grouped together with other women simply because of their gender. She stated the same could not be said for the male council members based on their gender, political party or ethnicity.

Council Member Johnston referenced BMP 34 in Class II, Underground Injection Wells, and expressed her understanding that the injection well and injection well approval that, while it was outside of the City of Aurora, it was within Arapahoe County and was therefore included in the BMP.

Ms. Thompson stated it was not a ConocoPhillips-operated well but the operator had lengthy conversations with City staff prior to it being included in the BMP as an exception.

Council Member Johnston asked how many of the wells would be using the injection well. Mr. Blair stated that information was not available at this time as that well was proposed and not approved or in service yet and any comment in that regard would be speculation. Council Member Johnston asked Mr. Blair if he was aware that the proposed site for the injection well was within five miles of the Lowry Superfund site. Mr. Blair answered affirmatively. Council Member Johnston asked if ConocoPhillips was aware that there was 138 million gallons of toxic chemicals within the Superfund site.

Ms. Thompson confirmed the Superfund site has been evaluated and ConocoPhillips has been very careful with their well siting as a result.

Council Member Johnston asked if the applicant was aware that the US Geological Survey.gov stated seismic activity could be induced within 10 miles of an injection well site. Mr. Ming reiterated it was not a ConocoPhillips well therefore the concern was between Arapahoe County and the company attempting to permit the injection well.

Council Member Johnston stated it may not be a ConocoPhillips well but it was included in the operator agreement. She pointed out the 140 million gallons of toxic chemicals was a major concern of the Superfund site and ConocoPhillips has insisted the injection well be included in the agreement. She asked if ConocoPhillips was willing to remove it. Mr. Ming stated it was not up to ConocoPhillips to do so. He stated that was up to the county and the

company attempting to permit the well. Council Member Johnston stated ConocoPhillips could remove the BMP 24, Class II provision from the agreement and asked if they were willing to do so.

Ms. Thompson stated Expedition Water worked very closely with the City and the City agreed they were comfortable with the design of the well, noting ConocoPhillips could not speak specifically to the design of the well because it was not their well.

Council Member Johnston asked if ConocoPhillips would remove the injection well provision of BMP 34 from the operator agreement. Ms. Thompson clarified the ConocoPhillips team present at the meeting were not authorized to make those types of changes to the agreement, noting the agreement has been worked through carefully between the City and ConocoPhillips.

Mr. Ming suggested City staff might speak to the issue.

Ms. Paranhos did so, noting Aurora Water met with the company who planned to operate the injection well in Arapahoe County and Aurora Water was satisfied that the well would be operated in a safe manner and that any concerns related to earthquakes and aquifer contamination risks would be mitigated by the well construction. She stated that was why the provision that ConocoPhillips would use that particular injection well and not any other injection wells within a four-mile buffer of the City limits.

Council Member Johnston stated her understanding that the City took a position on the proximity which was four miles from the City's water infrastructure and that there was no Environmental Protection Agency (EPA) oversight for Class II underground injection wells and that that was under the Colorado Department of Public Health & Environment's (CDPHE) oversight. She asked if Expedition Water had any other injection wells near other Superfund sites. Ms. Paranhos stated she did not have that information.

Council Member Hiltz asked why hold a public hearing if changes could not made and if not at the meeting, when could those changes could be made. Mayor LeGare stated the public hearing was held to gain input on an Oil and Gas operator agreement that has been extensively worked on by City staff and the applicant. He pointed out that it was now up to City Council to determine whether or not the agreement was acceptable and then to vote accordingly. He asked the applicant representatives to restate their names for the record.

Vanessa Thompson; Maxwell Blair and Cameron Ming did so.

Council Member Bergan asked if the applicant held meetings in good faith to help locate the wells so that they did not impact development. Mr. Blair explained the well sites reflected in the operator agreement were a culmination of an arduous and extensive process.

Council Member Gruber asked the depth of the injection well. Mr. Ming reiterated it was not a ConocoPhillips well. Council Member Gruber pointed out the well was a distance away with a two mile depth.

Mr. Ming concurred.

Council Member Berzins noted there was a lot of testimony on both sides of the issue and asked the applicant and staff if there was anything either of them would like to address regarding the public comment.

Mayor LeGare acknowledged Mr. Batchelor's no gesture.

Ms. Thompson clarified ConocoPhillips was in compliance with the BMPs and the inspection provision in the operator agreement specifically, noting any safety event or other incident required immediate reporting by ConocoPhillips and the inspection was of a different nature.

Mr. Ming noted the location of ConocoPhillips pipelines was secret for safety reasons.

Mr. Blair noted that secrecy ensured the pipelines would be properly located and spotted if development occurred in any proximity to them.

Council Member Johnston expressed concerns that concerns related to permitting might be raised at the neighborhood meetings that would be held after the operator agreement was approved and asked how that would be addressed since the agreement stated 'the City shall not oppose or object in any form to any permits, applications or similarly related approvals related to the operator, oil, gas operations or any development of any new wells or well sites'. Ms. Thompson stated any comments from both the neighborhood meeting as well as the call for public comment as a result of the permit process would be administered back to ConocoPhillips and they would have a response requirement in order to further the permit process.

Council Member Murillo asked how many well pads versus wells were being proposed under the purview of the operator agreement. Ms. Thompson stated there were 45 well sites with a total potential well count of 310.

Council Member Lawson asked how a homeowner purchasing a home in the area would be notified of the pipeline location. Ms. Thompson stated the pipelines were located in a protected easement that were separate and apart from any home deeds. Council Member Lawson asked if the onus was on the homebuyer to find out if the pipeline was nearby. Ms. Thompson answered affirmatively.

Mr. Blair stated the pipeline would be well marked at any crossing and at intervals which provided an opportunity for homeowners to do research for their home when they purchased it.

Council Member Bergan asked if most of the well sites were located in undeveloped areas. Ms. Thompson answered affirmatively. Council Member Bergan asked the typical width of a utility easement. Ms. Thompson stated 50 feet.

Council Member Murillo asked the proposed increase of wells from what ConocoPhillips had currently. Ms. Thompson stated there were currently 25 constructed well pads with approximately 50 wells. Council Member Murillo noted that was a significant increase.

Mayor LeGare discussed the public hearing process and how it was changed through public notice to reflect that on the agenda. He closed the public hearing on the item.

Motion by Bergan, second by Gruber, to approve item 10a with a waiver of reconsideration.

Council Member Johnston clarified a waiver of reconsideration meant the item could not be reconsidered if new information were to be provided.

Council Member Bergan expressed appreciation to all those who attended the meeting. She stated she and her fellow council members wanted to protect the environment and the health of the community and therefore they took the issue very seriously, noting this has not been a brief process. She pointed out there were almost 50 BMPs for the agreement and any new regulations imposed by the state would be met by the operator. She suggested as such, other jurisdictions might view the City of Aurora as the model for how to do an operator agreement. She stated she would support the item.

Council Member Hiltz expressed appreciation to ConocoPhillips for taking the time and effort to learn the community needs and for going above and beyond since the May 20th meeting in their public outreach efforts. She stated she would not support the item because there was a lot that still needed to be considered and she felt there needed to be a longer public input process. She agreed there was a path forward but noted unfortunately this was not it.

Council Member Murillo stated it gave her great pause to know the operator agreement would be a legally binding contract where six times as many oil wells as there were currently. She pointed out the City had one opportunity to get it right and she did not feel the City has done its due diligence in terms of health and safety and public input in this instance. She stated she supported operator agreements in general because it was a way to create stability for the industry and to codify health and safety concerns. She noted she empathized with those who have a vested interest in ConocoPhillips however she did not think the City Council should be making decisions based on the perceived goodness of a company because this was policy. She stated she would not support the item for those reasons.

Mayor Pro Tem Roth noted in light of the transparency questions by the City, he spoke to the Colorado Municipal League's (CML) position on the item and the passing of SB 181.

Council Member Johnston addressed concerns related to SB 181. She stated CML's position on the bill was irrelevant to her because this was Aurora. She noted it was suggested the City might be held as a model for operator agreements and she expressed her hope that was not so because she did not think it was how public policy should be handled. She pointed out she represented the neighbors where the item was located and she could not support the item primarily because of the fast track and the location of the injection well site near the Superfund site. She expressed her disappointment and embarrassment that the City has not insisted on more robust feedback in this regard.

Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, approving an Amendment to the Intergovernmental Agreement between the City of Aurora, Colorado, acting by and through its Utility Enterprise, and the Urban Drainage and Flood Control District, regarding final design, right-of-way acquisition, and construction of drainage and flood control improvements for 22nd Avenue outfall to Westerly Creek. STAFF SOURCE: Sarah Young, Deputy Director of Planning and Engineering, Aurora Water

Motion by Watson, second by Roth, to approve item 10d.

Voting Aye: Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ e. **R2019-38**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, for the Agreement Regarding Member Funding Transfers Pursuant to the Aerotropolis Regional Transportation Authority Establishment Agreement. ***(Staff Requests a Waiver of Reconsideration) (This item will also appear on the June 3, 2019 Study Session) (Due to this item being dual listed, the backup is included in item 4b of the Study Session Packet.)*** **STAFF SOURCE: Michelle Gardner, Senior Assistant City Attorney, City Attorney**

Motion by Gruber, second by Roth, to approve item 10e with a waiver of reconsideration.

Voting Aye: Bergan, Berzins, Gruber, Hiltz, Johnston, Lawson, Murillo, Richardson, Roth, Watson

♦ f. **R2019-39**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, supporting and declaring June 7, 2019 as national gun violence awareness day. Sponsor: Council Member Johnston

Misty Glover, Aurora Moms Demand Action for Gun Sense in America, discussed her disappointment in the proclamation request denial by Mayor LeGare and the increased and recent gun violence in Aurora. She pointed out victims deserved leadership that supported them and noted her intention to vote for people to do that.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Water Policy Committee (WPC) Meeting
June 24, 2020

Members Present: Council Member Marsha Berzins, Chair; Council Member Alison Coombs Vice Chair; Council Member Francoise Bergan

Others Present: Casey Rossman, Greg Baker, Leiana Baker, Jo Ann Giddings, Rory Franklin, John Murphy, Dan Mikesell, Marshall Brown, Stephanie Neitzel, Sarah Young, Alex Davis, Gail Thrasher, Christine McKenney, Nancy Freed, Fernando Aranda

---

1. Approval of Minutes
The May 27, 2020, meeting minutes were approved as presented.

2. Consent Items
A. Monthly Water Supply Update
B. Construction Change Order Summary Report

Summary of Issue and Discussion: Council Member Berzins asked, how is the water storage? M. Brown replied, it's in a decent place, may not be quite as high as previous years, but in good shape for fall and into the next year.

Outcome: The Consent items were supported as presented.

Follow-Up Action: The Consent items were supported as presented.

---

3. Westerly Creek at Stanley Intergovernmental Agreement (IGA)

Summary of Issue and Discussion: S. Young stated, his project is a resulting recommendation of the Westerly Creek (Upstream of the Dam) Master Plan. This "Amendment to Agreement Regarding Final Design, Right-of-Way Acquisition and Construction of Drainage and Flood Control Improvements for 22nd Avenue Outfall to Westerly Creek" (the Amendment) is the third amendment to the agreement between Mile High Flood District (MHFD) previously Urban Drainage and Flood Control District UDFCD).

The project began as an upsizing of the 22nd Avenue stormwater pipe and outlet structure to reduce flooding that is known to occur on Dallas Street near Stanley Marketplace. The scope of the project was expanded to include a required water quality project as well as improve the last remaining unimproved section of Westerly Creek.

The project was originally going to be managed by the City of Aurora and thus MHFD contributed funding to the City. However, due to the new complexity of the project, it was determined that MHFD is better suited to lead the design and construction. Aurora Water will return the 22nd Avenue outfall funding and contribute additional funding for the flood prevention, water quality and recreational aspects. The District will contribute an additional $400,000 to the project, the City of Aurora Parks, Recreation and Open Space Department has

pledged $200,000, and Aurora Water will return MHFD's original contribution of $500,000 and contribute an additional $2,000,000 to the project.

Council Member Bergan stated, if this is not a floodplain will it prevent flooding? S. Young replied, yes. This isn't an actual regulated floodplain. We are aware of flooding in the area and mapping is needed. Council Member Bergan asked, will this help residents with their flood insurance. S. Young replied, this project will help mitigate flooding it's not a regulated floodplain. Because the City is part of the FEMA Community Rating System with a good score (due to our proactive stormwater program), anyone who does purchase flood insurance can receive a discount.

Outcome: The Committee supports the Westerly Creek at Stanley IGA and forwarded to Study Session for consideration.

Follow-Up Action: The Committee supports the Westerly Creek at Stanley IGA and will forward to Study Session for consideration.

---

4. New Residential Water Rate

Summary of Issue and Discussion: F. Aranda stated, Aurora Water's current residential rate structure was implemented in 2007 (14 years ago). Since then, the rates have increased but the structure has remained the same. The residential water rate structure consists of a monthly fixed service charge and a monthly volumetric charge based on three tiers, Tier 1 is from 0 to 20,000 gallons, Tier 2 is from 21,000 to 40,000 gallons, and Tier 3 is all usage over 40,000 gallons. Aurora Water's Tier 1 is the most generous Tier 1 of all the utilities with a tier rate structure in the region. Staff is proposing a new rate structure that incorporates four Tiers. This will keep low water usage customer bills relatively the same as they are currently. Any increases in 2021 would be minimal and mainly impact high water usage customers.

This item was presented to the Water Policy Committee on May 27, 2020. The Committee asked staff to return to answer further questions. Staff has also presented more specific information on residential customer accounts across the City for Committee consideration.

Council Member Bergan asked, will water usage inside the home contribute to the increase? F. Aranda replied, yes. Council Member Coombs stated, Meadow Hills has larger lots that are required to irrigate. This will impact those residents, who are mostly retirees, and did not know they were facing these increases when they purchased their homes. M. Brown replied, we have had several discussions with the residents of Meadow Hills previously, but additional conversations may prove beneficial especially regarding water conservation and their larger lots. Conservation programs have been modified over the years, which may be more accessible to those residents. M. Brown suggested a separate meeting with Council Member Coombs to discuss these rebates and addressing the residents at their next town hall meeting. If they choose to keep the large areas of turf, the increase will likely affect them. Council Member Coombs agreed that a meeting regarding the water rebates and conservation for large landscaping will be helpful in addressing resident's concerns. Council Member Bergan stated, retirement communities in her Ward are on fixed incomes and would also benefit from a presentation at a town hall meeting for conservation programs and rebates. M. Brown replied, there have been communication with districts regarding conservation landscape and rebate programs and will

look at schedules to coordinate a time for which to meet with both Council Member Coombs and Council Member Bergen to discuss further. Council Member Berzins stated, wastewater keeps going up as well, and changing turf is expensive. Council Member Berzins stated that she is not for water rate increases but does understand the need for them and therefore supports moving the item forward to Study Session.

Outcome: The Committee supports the New Residential Water Rate and forwarded to Study Session for consideration.

Follow-Up Action: The Committee supports the New Residential Water Rate and will forward to Study Session for consideration.

---

5. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: Council Member Berzins thanked the Citizens' Water Advisory Committee for their service and participation in the meetings.

Council Member Bergan would like a presentation on xeriscape programs for the next Water Policy Meeting. T. York will present at the July 22 meeting.

Water Tour has been cancelled and a one-day water tour is being offered.

Nancy Freed asked, is the water rate discussion going to Council in August? M. Brown replied, yes in August. J. Giddings added, there are required changes to the ordinance and will be included in the budget in the fall.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

6. Confirm Next Meeting

The next meeting is scheduled for July 22, 2020, 9:00 a.m. via WebEx.

Council Member Berzins
Chair - Water Policy Committee

MINUTES

Regular Meeting – Aurora City Council
Monday, July 20, 2020

CALL TO ORDER – REGULAR MEETING

Mayor Coffman convened the regular meeting of City Council at 4:00 p.m.

ROLL CALL

PRESIDING:	Mayor Coffman
COUNCIL MEMBERS PRESENT:	Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo
COUNCIL MEMBERS ABSENT:	None
OFFICIALS PRESENT:	City Manager Twombly, City Attorney Brotzman, City Clerk Ruger
COUNCIL MEMBERS ARRIVING AFTER ROLL CALL:	None

City Clerk Ruger announced the proposed items for discussion at executive session.

CONSIDERATION TO RECESS FOR EXECUTIVE SESSION

Motion by Gruber, second by Coombs, to recess for executive session.

Voting Aye: Mayor Coffman, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

Abstaining: None

1. **RECONVENE REGULAR MEETING OF JULY 20, 2020 AND CALL TO ORDER**

   Mayor Coffman reconvened the regular meeting of City Council at 7:30 p.m.

2. **ROLL CALL** Stephen Ruger, City Clerk

   COUNCIL MEMBERS PRESENT: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Murillo Marcano

3. **INVOCATION/MOMENT OF SILENCE FOR 7/20** Barbara Dahl, City Clerk Analyst, and Mayor Coffman

4. **PLEDGE OF ALLEGIANCE TO THE FLAG** (all standing)

5. **APPROVAL OF THE MINUTES**

   No minutes were available.

6. **CEREMONY**

   None

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

7. **PUBLIC INVITED TO BE HEARD (non-agenda related issues only)**

Mayor Coffman asked if there were any objections to moving the public comment to the end of the meeting.

Council Member Marcano asked how many comments were submitted.

Stephen Ruger, City Clerk, stated approximately 86.

Council Member Marcano stated his objection to moving the public comment.

Motion by Bergan, second by Gruber, to suspend Council rules to move the public comment to the end of the meeting.

Mayor Pro Tem Johnston estimated the public testimony would take up to four hours and she expressed concerns related to those who wanted to have a discussion on the independent investigation. She pointed out Public Invited to Be Heard was for non-agenda items and she wanted people to testify on agenda items and speak to the City's business. She stated she put it on the study session agenda for the entire Council to discuss and noted that did not happen because of timing. She stated there was interest in what Council Member Lawson was going to do with her proposal, the independent study and more discussion was needed therefore she would support the suspension of rules for this time.

Mayor Coffman clarified the motion was for all Public Invited to Be Heard comments to be moved to the end of the meeting.

Mayor Pro Tem Johnston stated she would only support moving non-agenda items but not agenda items and asked Council Member Bergan to speak to her intention behind the motion. Council Member Bergan asked staff if those comments related to the independent investigation had been sorted from the non-agenda item comments.

Mr. Ruger stated thus far everything in the public comments pertained to non-agenda items.

Council Member Bergan stated her support for moving non-agenda related items to the end of the agenda.

Council Member Coombs stated this was an issue that has been discussed by Council on several occasions that has not yet been settled. She stated her concerns were for staff, particularly those who were present to provide presentations. She noted it was important to be very clear on processes and procedures so the community knew what to expect. She stated those decisions should be made before they were implemented because she had concerns related to making changes on the way the Council operated before alerting the community to those changes. She stated she would not support the motion because she did not feel the community was properly informed.

Council Member Marcano echoed Council Member Coombs concerns. He stated he was a firm believer in public comment periods and he understood that moving to a digital medium changed the dynamic and put more of a burden on staff. He agreed it was an issue that should be discussed at a special study session. He stated it was not fair to change the rules in the middle of the game therefore the issue should be deferred until Council could meet and have a discussion.

Voting Aye: Mayor Coffman, Bergan, Berzins, Gardner, Gruber, Johnston, Lawson

Voting Nay: Coombs, Hiltz, Marcano, Murillo

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

8. **ADOPTION OF THE AGENDA**

The agenda was adopted as presented.

9. **CONSENT CALENDAR**

General Business

a. Consideration to AWARD A SOLE SOURCE PROFESSIONAL SERVICES AGREEMENT with Brothers Redevelopment, Inc. (BRI) for services to support the City of Aurora Community Development Minor Home Repair Program in providing financial and technical assistance to low- and moderate-income Aurora, Colorado homeowners needing essential home repairs not-to-exceed $250,000 for this program.
Presenter: Jessica Prosser, Manager of Community Development, Housing and Community Services/Joyce, Tim, Assistant City Attorney II Civil

Motion by Marcano, second by Murillo, to approve item 9a.

Council Member Marcano asked staff to provide a brief overview of the program and to explain why it was a sole sourced item.

Jessica Prosser, Manager of Community Development, Housing and Community Services, did so.

Council Member Murillo gave a shout-out to Brothers Redevelopment founder who graduated from Aurora Central High School in Ward I.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

b. Consideration to AWARD A SINGLE SOURCE CONTRACT to Carollo Engineers, Inc., Littleton, CO in the amount of $4,208,093.00 for design-build services for the Sand Creek Water Reuse Facility Programmable Logic Controls Conversion and Improvements Project (Phase 2 of 2).
Presenter: Elizabeth Carter, Principal Engineer, Aurora Water/David Lathers, Senior Asst City Attorney

c. Consideration to AWARD AN OPENLY SOLICITED CONTRACT to Wilson & Company, Inc., Denver, Colorado in the amount of $128,227.00 for providing Engineering Services for Storm CMP Rehabilitation Task 6, Project No. R-2041.
Presenter: Swirvine Nyirenda, Principal Engineer, Aurora Water/David Lathers, Senior Asst City Attorney

d. Consideration to AWARD A SINGLE SOURCE CONTRACT to Keesen Landscape Management Inc., Englewood, Colorado in the not-to-exceed amount of $210,000.00 for Weed Mowing and Trash Removal Services (Abatement Services) as required through December 31, 2020.
Presenter: Nancy Sheffield, Interim Director, Housing and Community Services/David Lathers, Senior Asst City Attorney

Motion by Coombs, second by Bergan, to approve items 9b – 9d.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

e. Consideration to APPROVE THE PURCHASE of 119 share of stock in the Whitney Ditch Company from BCI Waterco LLC and an affiliated water pipeline easement from GWIP

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

LLC, for $26,881,719.75, by the City of Aurora, acting by and through its Utility Enterprise.
Presenter: Dawn Jewell, S Platte Basin Supv, Aurora Water/ Neitzel, Stephanie, Assistant City Attorney II Civil

Motion by Coombs, second by Johnston, to approve item 9e.

Council Member Coombs requested a staff presentation for the benefit of the public.

Alexandra Davis, Deputy Director Water Resources, Aurora Water, did so.

Council Member Bergan stated her understanding that the City would not pay until the location issue was resolved in water court.

Ms. Davis stated the City would pay for the water rights outright in this instance and would go to court later.

Council Member Bergan asked if it was contingent on the approval. Ms. Davis answered no, noting staff did not believe there was a significant risk in this regard.

Voting Aye: Mayor Coffman, Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

10. **RESOLUTIONS**

♦ a. **R2020-64** Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, approving an Amendment to Intergovernmental Agreement No. 18-06.01B regarding funding the 22nd Avenue outfall to Westerly Creek Improvement Project between the City of Aurora, and the Urban Drainage and Flood Control District D/B/A mile High Flood District.
Presenter: Sarah Young, Deputy Director Wtr Plan/Engin, Aurora Water/ Ian Best, Assistant City Attorney I

Motion by Berzins, second by Johnston, to approve item 10a.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

♦ b. **R2020-65**Consideration to APPROVE A RESOLUTION by the City Council of the City of Aurora, Colorado for the Agreement Between the City of Aurora and the Colorado Department of Revenue, Division of Motor Vehicles, Regarding Commercial Driver License Testing.
Presenter: Renee Pettinato Mosley, Risk Manager, Human Resources/Gardner, Michelle, Senior Asst City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Water Policy Committee (WPC) Meeting
September 21, 2022

Members Present: Council Member Steve Sundberg Chair

Absent: Council Member Angela Lawson Vice-Chair, Council Member Curtis Gardner

Others Present: Casey Rossman, Greg Baker, John Murphy, Sherry Scaggiari, Steve Fiori, Leiana Baker, Steve Cann, Sam Miller, Sarah Young, Marshall Brown, Ian Best, Alex Davis, Rachel Allen, Swirvine Nyirenda, Laura Perry, Jo Ann Giddings, Fernando Aranda, Melina Bourdeau

---

1. Approval of Minutes
The August 17, 2022, meeting minutes were approved as presented.

2. Consent Items
A. Construction Change Order Report
B. Monthly Water Supply Update

Summary of Issue and Discussion: None.

Outcome: The Consent items were supported as presented.

Follow-Up Action: The Consent items were supported as presented.

---

3. Fourth Amendment to the 22nd Avenue Outfall to Westerly Creek Improvement Project between the City of Aurora and the Urban Drainage and Flood Control District D/B/A Mile High Flood District

Summary of Issue and Discussion: S. Miller gave a presentation.

Outcome: Council Member Steve Sundberg Chair agreed to sponsor the Fourth Amendment to the 22nd Avenue Outfall to Westerly Creek Improvement Project between the City of Aurora and the Urban Drainage and Flood Control District D/B/A Mile High Flood District due to lack of Quorum.

Follow-Up Action: Forward to Study Session for consideration.

---

4. Future Development Water Supply Needs and Constraints

Summary of Issue and Discussion: S. Young requested to move item to October.

Outcome: Item will be moved to October.

Follow-Up Action: Item moved to October.

5. Lead and Copper Rule Presentation

Summary of Issue and Discussion: S. Scaggiari gave a presentation. Council Member Sundberg asked, is the cost $1,400.00 for both lines? S. Scaggiari replied, yes, that's for the pot holing to do the inventory piece, but to replace is approximately $8,000.00 for both sides. That price has gone up since we did this the last time. Council Member Sundberg asked, is the customer expected to pay their portion or does grant money take care of that? S. Scaggiari replied, we're hoping that the grant money will take care of that. Council Member Sundberg asked, what is the physical process for potholing? S. Scaggiari replied, it's creating about a quarter inch hole, it can be done with water or air, the dirt comes out and you eventually get to where the service line is and inspect that line to see if it's lead or not. Council Member Sundberg asked, how far down are the lines? S. Scaggiari replied, it varies with most being roughly 18" deep. Council Member Sundberg asked, what about concern and the reality of mercury in our water system? S. Scaggiari replied, there has been no history of mercury in the water. Council Member Sundberg asked, if this was a concern in the mountain water? S. Scaggiari replied, no, it's not something we test for and we've not seen it in the water.

Outcome: Informational only.

Follow-Up Action: Informational only.

6. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: Council Member Sundberg thanked for the Water Tour.

Outcome: Informational only.

Follow-Up Action: Information only.

7. Confirm Next Meeting

The next meeting is scheduled for October 19, 2022, 10:30 a.m. via WebEx.

X Steve Sundberg (Nov 22, 2022 14:44 MST)

Steve Sundberg
Chair, Water Policy Committee

MINUTES

Regular Meeting of the **Aurora City Council**
Monday, October 24, 2022

1. **RECONVENE REGULAR MEETING OF OCTOBER 24, 2022, AND CALL TO ORDER**

Mayor Coffman reconvened the regular meeting of the City Council for October 24, 2022, at 6:30 p.m.

2. **ROLL CALL**– Kadee Rodriguez, City Clerk

COUNCIL MEMBERS PRESENT: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

Public call-in instructions were provided in both English and Spanish.

3. **INVOCATION/MOMENT OF SILENCE**– Mike Coffman, Mayor

Mayor Coffman led in prayer and followed with reading the Land Acknowledgement.

4. **PLEDGE OF ALLEGIANCE** (all standing)

5. **EXECUTIVE SESSION UPDATE**

Mayor Coffman stated that during the executive session, council discussed the search of the APD Chief and personnel evaluations for two executive positions.

6. **APPROVAL OF MINUTES**

6.a. **October 10, 2022, Meeting Minutes**

Motion by Bergan, second by Murillo, to approve the minutes of October 10, 2022 as presented.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

7. **PROCLAMATIONS OR CEREMONIES**

7.a. **Veterans Day Minute of Silence**

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Mayor Coffman proclaimed November 11, 2022 as Veterans Day – Minute of Silence.

7.b. **Commitment to Combatting Antisemitism**

Mayor Coffman proclaimed October 27, 2022 as a day to reaffirm Aurora's Commitment to Combatting Antisemitism.

8. **PUBLIC INVITED TO BE HEARD**

(non-agenda-related issues only)

Council heard public in-person and call-in testimony on non-agenda-related items.

Mayor Coffman explained that he will hold a public meeting regarding issues on Havana together with Council members Medina and Marcano. He asked for the contact information of the individual that spoke about issues experienced on Havana.

CM Marcano requested the information of the individual that spoke on the increasing rent prices. CM Coombs requested the information of the resident in her ward that spoke on the increasing rent prices and the Multifamily Systemic Inspection Program.

CM Marcano requested the information of the Ward IV resident that expressed concerns about excessive speeding on roadways in the city and residential neighborhoods.

CM Sundberg asked for a status update on the speed radar vans. J. Batchelor said that they have been in contact with the pilot vendor and are working through the process to roll them out in 2023.

9. **ADOPTION OF THE AGENDA**

Motion by Marcano, second by Jurinsky to adopt the agenda as presented.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

10. **CONSENT CALENDAR**

This portion of the agenda is a meeting management tool to allow the City Council to handle several routine items with one action. Any member of the Council may request an item to be removed from the Consent Calendar and considered separately. Any item removed will be considered immediately following the adoption of the remainder of the Consent Calendar.

10.a. **Consideration to AMEND THE SINGLE SOURCE CONTRACT with HDR Engineering, Denver, CO in the amount of $191,656.00 for I-70/Picadilly Interchange Design-Build Procurement and Program Management Consulting Services**

Matt Kozakowski, Transportation Project Delivery Manager / Dave Lathers, Senior Assistant City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

10.b. **Consideration to AWARD A COMPETITIVELY BID CONTRACT to Brannan Sand and Gravel Company, Denver, CO in the amount of $309,859.00 for the 2022 Speed Cushion Installation Services; Project 5901A.**

Waiver of reconsideration is requested due to the urgency to start construction to avoid winter weather delays and asphalt plants shutdown for the season.

Carl Harline, Public Works / Dave Lathers, Senior Assistant City Attorney

10.c. **Consideration to AWARD AN OPENLY SOLICITED CONTRACT to Alfred Benesch, Denver, Colorado in the amount of $6,688,593.51 for CMCI and Material Testing for the I70 Picadilly Design Build Project; R-2262.**

Matt Kozakowski, Transportation Project Delivery Manager / Dave Lathers, Senior Assistant City Attorney

10.d. **Grey and Black Market Marijuana Enforcement Grant Program**

Timothy Sherbondy, Grants Analyst / Megan Platt, Assistant City Attorney

Motion by Bergan, second by Sundberg to approve the consent calendar items 10a through 10d.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

11. **RESOLUTIONS**

11.a. **2023 Employee Pay Table and Classification**

R2022-191 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE 2023 EMPLOYEE PAY TABLE AND CLASSIFICATIONS

Ryan Lantz, Director of Human Resources / Kim Skaggs, Assistant City Attorney

Ryan Lantz, Director of Human Resources, provided a summary of the item.

CM Sundberg asked who gathers the data for the table of standard or average pay. He asked if it is a subscribed service or if it is done by staff. R. Lantz said that there is a Compensation Division within Human Resources that does the research. They use a variety of different sources to gather data in collaboration with department directors.

CM Coombs asked if there are efforts being done to look at pay rates for lower-wage employees. R. Lantz said they are addressing the issues through recent pay increases applied to all employees that raised their pay above $15 per hour. The compensation team is also finalizing a new pay table that looks at market data specific to seasonal and part-time positions.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Motion by Sundberg, second by Coombs to approve item 11a.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

11.b. **Business Safety and Security Upgrade Grant Program**

R2022-192 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT FOR ADDITIONAL FUNDING FOR THE BUSINESS SAFETY AND SECURITY UPGRADE GRANT PROGRAM USING ARPA FUNDS

Sponsor: Curtis Gardner, Council Member

Kendall Koca, Manager of Special Projects / Tim Joyce, Assistant City Attorney

Kendall Koca, Manager of Special Projects, provided a summary of the item.

Motion by Gardner, second by Bergan to approve item 11b.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

11.c. **4th Amendment to 22nd Outfall to Westerly Creek Improvement Plan**

R2022-193 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF THE AMENDMENT TO AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE AND THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT REGARDING FINAL DESIGN AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR 22nd AVENUE OUTFALL TO WESTERLY CREEK

Sponsor: Steve Sundberg, Council Member

Swirvine Nyirenda, Planning and Engineering Services Manager / Ian Best, Assistant City Attorney

Sarah Young, Aurora Water Deputy Director of Planning & Engineering, provided a summary of the item.

Motion by Sundberg, second by Coombs to approve item 11c.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

11.d. **Proposed Modifications to Moral Obligations Policy and Review of Existing Moral Obligations**

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

MINUTES

Mayor Coffman read the land acknowledgment.

8. **PUBLIC INVITED TO BE HEARD**

Council heard public in-person testimonies on non-agenda-related items.

9. **ADOPTION OF THE AGENDA**

Motion by Gardner, second by Zvonek to adopt the agenda.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

10. **CONSENT CALENDAR**

10.a **Motions**

10.a.1 **Sanitary Manhole Repair on 19th Avenue at Florence Street Amendment 1**

Consideration to Award a CHANGE ORDER TO A COMPETITIVELY SOLICITED CONTRACT to Mott MacDonald, LLC, Lakewood, Colorado in the Amount of $160,997.00 for Additional Design Effort Including Field Survey, Utility Locating, Potholing, Plan Reviewing, Coordination, Special Inspections, and Final Walkthrough for the Sanitary Manhole Repair at 19th and Florence Project

Andrea Long, Principal Engineer, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.2 **Consideration to AWARD A CHANGE ORDER TO A COMPETITIVELY BID CONTRACT to McDade Woodcock, Inc., Englewood, CO in the Amount of $3,074,804.00 for the North Campus Well Field Electrical Phase 2 Project, Project No. 5887A**

John Clark, Principal Engineer, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.3 **Consideration to AWARD A COMPETITIVELY BID CONTRACT to T. Lowell Construction Inc., Castle Rock, Colorado in the Amount of $4,640,000.00 for the Zone 3C: 36-inch Pipeline from E. 56th Ave. to E. 64th Ave. Project, Project No. 5918A**

Dean Bedford, Principal Engineer, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.4 **Consideration to AMEND AN OPENLY SOLICITED CONTRACT with Ground Engineering, Inc., Denver, Colorado in the Amount of $60,000.00 for Providing Inspection Services to Supplement the Aurora Water Inspections Team**

Vern Adam, Deputy Director of Engineering, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.5 **Consideration to AWARD A SOLE SOURCE CONTRACT to Xylem Water Solutions, USA, Inc., Columbia, MD, in the Amount of $89,615.00 for Providing PCCP Pipeline Monitoring and AFO Server Extended Warranty Services**

Sarah Young, Assistant General Manager of Planning and Engineering, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.6 **Consideration to AWARD A SINGLE SOURCE CONTRACT to Bohannan Huston, Inc., Albuquerque, New Mexico, in the Amount of $350,000.00 for One (1) Full-Time Staff Member to Review Preliminary and Final Drainage Reports and Plans for Aurora Water**

Sarah Young, Assistant General Manager of Planning and Engineering, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.7 **Consideration to AWARD A SINGLE SOURCE CONTRACT to Jacobs Engineering Group, Inc., Denver, Colorado, in the Amount of $350,000.00 for Two (2) Full-Time Staff Members to Review Preliminary and Final Drainage Reports and Plans for Aurora Water**

Sarah Young, Assistant General Manager of Planning and Engineering, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.8 **Consideration to AWARD A SOLE SOURCE CONTRACT to Selectron Technologies, Inc., Portland, Oregon in the Amount of $185,790.00 for the City's Water Customer Billing IVR System through May 31, 2024**

Greg Baker, Manager of Water Public Relations, Aurora Water / Hanosky Hernandez, Senior Assistant City Attorney

10.a.9 **Consideration to AWARD A SOLE SOURCE CONTRACT to Emergency One, Inc., Ocala, Florida in the Not-to-Exceed Amount of $260,000.00 for OEM Repair Parts as Required for the City's Emergency One Fire Apparatus through May 31, 2024**

Ron Forrest, Fleet Manager, Public Works / Hanosky Hernandez, Senior Assistant City Attorney

10.a.10 **Consideration to AWARD AN OPENLY SOLICITED CONTRACT to Ground Engineering Consultants, Inc. Englewood, CO in the Amount Not-to-Exceed**
$2,899,195.00 for Construction Management/Construction Inspection Services; R- 2308

- ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Waiver of Reconsideration is requested to expedite award to ensure continuity of inspection services for the Streets Division.

Nicholas Johnson, Engineering Supervisor, Public Works / Hanosky Hernandez, Senior Assistant City Attorney

10.a.11 **Consideration to AWARD A SINGLE SOURCE CONTRACT to Northeast Transportation Connections, Denver, CO in the Amount of $130,000.00 to Develop a Transportation Demand Management Program**

Tom Worker-Braddock, Senior Planner, Planning and Development Services / Hanosky Hernandez, Senior Assistant City Attorney

10.a.12 **JusticeWorks**

Consideration to AWARD AN OPENLY SOLICITED CONTRACT to JusticeWorks, Allentown, PA (With a Facility and Local Representation in Aurora) in the Amount of $136,837.06 for a Case Manager(s)/ Navigator's Staff will Be Assigned to the Youth Violence Prevention Program and Supervised by the Manager of the Youth Violence Prevention Program

Joseph DeHerrera, Youth Violence Prevention Program Manager, Housing and Community Services / Hanosky Hernandez, Senior Assistant City Attorney

Motion by Gardner, second by Sundberg to approve item 10.a.12.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Lawson, Marcano, Murillo, Jurinsky, Medina, Zvonek, Sundberg

10.a.13 **Award a $50,000 Grant to Support the Cherry Creek School District Summer Leadership Academy**

Jason Batchelor, Interim City Manager

Motion by Bergan, second by Coombs to approve item 10.a.13.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Lawson, Marcano, Murillo, Jurinsky, Medina, Zvonek, Sundberg

10.b **Planning Matters**

10.c **Appointments to Boards and Commissions**

10.c.1 **Consideration to Appoint Two (2) members and Reappoint One (1) Member to the Aurora Commission For Older Adults**

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

10.c.2 **Consideration to Appoint Two (2) Members and Reappoint Three (3) Members to the Parks and Recreation Advisory Board**

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

10.c.3 **Consideration to Appoint Three (3) Members to the Civic Engagement Commission**

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

Motion by Gardner, second by Sundberg to approve the Consent Calendar – Motions with items 10.a.12 and 10.a.13 removed.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Lawson, Marcano, Murillo, Jurinsky, Medina, Zvonek, Sundberg

11. RESOLUTIONS

11.a Resolutions

11.a.1 **The First Amendment to the Irondale Gulch Outfall Systems Plan Intergovernmental Agreement**

R2023-49 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN AMENDMENT TO AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA COLORADO ACTING BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT AND THE CITY AND COUNTY OF DENVER REGARDING FINAL DESIGN AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR OUTFALL SYSTEMS PLAN FOR IRONDALE GULCH UPSTREAM OF ROCKY MOUNTAIN ARSENAL

Swirvine Nyirenda, Planning Services Manager, Aurora Water / Ian Best, Assistant City Attorney

11.a.3 **Trolley Station Metropolitan District Request for Consent to Dissolution**

R2023-51 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, CONSENTING TO THE DISSOLUTION OF TROLLEY STATION METROPOLITAN DISTRICT

Cesarina Dancy, Senior Development Project Manager, Office of Development Assistance / Brian Rulla, Assistant City Attorney

11.b **Finalizing of Ordinances**

Ordinances approved unanimously at first reading

11.b.1 **2023 Spring Supplemental**

2023-12 FOR AN ORDINANCE OF THE CITY OF AURORA, COLORADO APPROPRIATING SUMS OF MONEY IN ADDITION TO THOSE APPROPRIATED IN ORDINANCE NOS. 2021-56, 2022-24, AND 2022-73 FOR THE 2022 FISCAL YEAR AND ORDINANCE NO. 2022-59 FOR THE 2023 FISCAL YEAR

Jackie Ehmann, Budget Program Manager, Finance / Hanosky Hernandez Perez, Senior Assistant City Attorney

Motion by Gardner, second by Sundberg to approve the Consent Calendar – Resolutions and Ordinances.

Voting Aye: Bergan, Coombs, Gardner, Lawson, Marcano, Murillo, Jurinsky, Medina, Zvonek, Sundberg

12. **PUBLIC HEARING WITH RELATED ORDINANCE**

- ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

12.a **Southshore Metropolitan District No. 1 Request for Dissolution**

R2023-52 A PUBLIC HEARING AND CONSIDERATION OF A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, CONSENTING TO THE DISSOLUTION THE SOUTHSHORE METROPOLITAN DISTRICT NO. 1

Cesarina Dancy, Senior Development Project Manager, Office of Development Assistance / Brian Rulla, Assistant City Attorney

Mayor Coffman opened the public hearing.

Cesarina Dancy, the Senior Project Manager from the Office of Development Assistance, provided a summary of the item.

Mayor Coffman closed the public hearing.

Motion by Bergan, second by Marcano to approve item number 12.a.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

12.b **White Buffalo Metropolitan District Nos. 1-3 Amended and Restated Service Plan**

R2023-53 A PUBLIC HEARING AND CONSIDERATION OF A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE AMENDED AND RESTATED SERVICE PLAN FOR WHITE BUFFALO METROPOLITAN DISTRICT NOS. 1-3 AND AUTHORIZING THE EXECUTION OF AN INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA, COLORADO AND THE DISTRICTS

Cesarina Dancy, Senior Development Project Manager, Office of Development Assistance / Brian Rulla, Assistant City Attorney

Mayor Coffman opened the public hearing.

Cesarina Dancy, the Senior Project Manager from the Office of Development Assistance, provided a summary of the item.

Mayor Coffman closed the public hearing.

Motion by Gardner, second by Lawson to approve item number 12.b.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

13. **INTRODUCTION OF ORDINANCES**

13.a **56th Avenue Street Vacation**

2023-13 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, VACATING A PORTION OF THE PUBLIC RIGHT-OF-WAY FOR 56TH AVENUE, LOCATED BETWEEN NORTH PICADILLY ROAD AND NORTH TIBET STREET, CITY OF AURORA, COUNTY OF ADAMS, STATE OF COLORADO (56TH AVENUE STREET VACATION).

Stephen Gubrud, Planner, Planning and Development Services / Daniel L. Money, Senior Assistant City Attorney

Council heard public in-person testimony.

Motion by Bergan, second by Coombs to approve item number 13.a.

Voting Aye: Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

14. **FINALIZING OF ORDINANCES**

15. **ANNEXATIONS**

16. **RECONSIDERATIONS AND CALL UPS**

17. **GENERAL BUSINESS**

18. **REPORTS**

18.a **Mayor**

Mike Coffman reported that at the beginning of the legislative session, he collaborated with Mayor Hancock and Mayor Suthers, the mayors of the other two largest cities in Colorado, to address several issues before the legislature which were aimed at reducing the crime rate. He believed they had achieved some degree of success in all their endeavors. He mentioned that the legislature had passed an issue that classified all auto theft as a felony, granted funding for license plate readers, increased the number of juvenile detention beds, and was likely to pass the Ghost Gun Legislation. He noted one unsuccessful initiative: restoring gun rights for certain classes of criminals. Coffman felt the collaborative effort was effective, with the governor acknowledging and endorsing their proposals in his State of the State Speech.

18.b **Council**

CM Lawson expressed her thoughts and prayers for the individuals affected by an incident at the Gaylord Hotel. She provided an update on the FSIR Committee,

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

noting that the Colorado Legislative Session had ended, and that Governor Polis had signed a $38.5 billion state spending plan into law. Senate Bill 2397, regarding motor vehicle theft, had passed both the House and Senate and awaited the Governor's signature. Senate Bill 213, the Land Use Bill, however, failed to pass. CM Lawson, along with Mayor Coffman, attended the Bike and Roll Day at Sunrise Elementary School, which promoted safety for bike riders and pedestrians. Additionally, she mentioned attending the Community College of Aurora Foundation Luncheon, an event that honored students, many of whom would go on to further academic endeavors. She praised the Community College for their excellent work in supporting these students.

CM Jurinsky shared that she attended the Community College of Aurora (CCA) Foundation Luncheon, noting that she herself is a CCA alumna. She also attended a Police Appreciation Event at CM Sundberg's Legends Location, where they had a successful turnout from the Aurora Police Department and the community, raising significant funds for the Aurora Police Foundation. Lastly, she announced the upcoming At-Large Town Hall, scheduled for June 15 at the People's Building in North Aurora.

CM Murillo shared that she was appointed to the Highline Canal Committee representing the City of Aurora. She recently had a meeting to discuss the transition of the canal's ownership from Denver to various counties. The goal is to protect the canal as an open space with appropriate considerations. The conversation involves several counties and cities and is ongoing. She also announced her upcoming Town Hall on Thursday, May 25, at the Moorhead Recreation Center.

CM Sundberg shared that he attended the Community College of Aurora Fundraiser and enjoyed it. He also mentioned the Police Appreciation Party organized by local businesswomen, where 31 officers showed up and $2,000 was raised. This money may go towards updates for the Youth Five-O Gaming Trailer, and some developers are also contributing to the Aurora Police Foundation. CM Sundberg, along with Mayor Coffman, Congressman Crow, and others, attended a ceremony for the opening of Liberty View affordable housing for veterans aged 62 and older. He ended by expressing thoughts and prayers for those affected by an incident at the Gaylord.

CM Medina mentioned that he also attended the Community College of Aurora (CCA) Fundraiser and the CCA Graduation, where he was impressed by the success stories of the students. He also held a Town Hall meeting last Wednesday, where one of the consent monitors engaged in conversation with constituents. He plans to continue that dialogue.

CM Marcano attended the Aurora Sister Cities Intercontinental Fundraiser, which was a great success and raised more funds than the previous year. He thanked everyone who supported the event and contributed to the silent auction. He also announced the next Ward IV Meeting, which would take place on May 11, featuring presentations on water issues and the Community Advisory Council for the Consent Decree.

- ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

CM Coombs attended the graduation for the Community College of Aurora, where she was particularly impressed by the concurrent enrollment students, who are high school students graduating with an associate degree. She also attended the Cinco de Mayo celebration for the Aurora Economic Opportunity Coalition. She announced her upcoming town halls on May 16 at Heather Gardens and May 20 at the Central Recreation Center. She also mentioned the final Charter Review Committee Public Hearing on May 23, which will be an opportunity to comment on the Charter proposals presented by Aurora Fire and Aurora Police.

CM Bergan participated in the Bike to School event at Sunrise Elementary School along with CM Lawson. She attended the HBA Housing Summit which discussed affordable housing and toured the Benson Hotel and Faculty Club on the Anschutz Campus. She was a judge at a Kentucky Derby Event at Southlands. She expressed her condolences for those affected by the Gaylord accident. She announced her upcoming Town Hall on May 17, which will include a presentation on water and the budget. Finally, she thanked those responsible for killing Bill 213, a land use bill, in defense of home rule authority.

19. **ADJOURNMENT**

Mayor Coffman adjourned the regular meeting of the City Council.

MIKE COFFMAN, MAYOR

ATTEST:

KADEE RODRIGUEZ, CITY CLERK - Deputy
Cecilia Zapata

Water Policy Committee (WPC) Meeting

March 20, 2024

Members Present: Council Member Steve Sundberg (Chair), Council Member Stephanie Hancock (Vice Chair), Council Member François Bergan

Absent:

Others Present: Rachel Allen, Greg Baker, Ian Best, Dan Brotzman, Marshall Brown, Melina Bourdeau, Shonnie Cline, Mayor Mike Coffman, Alexandra Davis, James DeHerrera, Jessica LaPierre, Marena Lertch, Luz Lopez, John Murphy, Swirvine Nyirenda, Casey Rossman, Sam Scorza, Jessi Scott, Oona Sullivan, Cheinette Can Wyk, Richard Vidmar, Earl Wilkinson, Tim York, Sarah Young

---

1. Approval of Minutes

The February 21, 2024, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update

Summary of Issue and Discussion: None.

Outcome: The consent items were supported as presented.

Follow-Up Action: None.

---

3. Fifth Amendment to the 22nd Ave. Outfall to Westerly Creek Improvement Project Intergovernmental Agreement (IGA) between the City of Aurora and Mile High Flood District

Summary of Issue and Discussion: S. Scorza gave a presentation on the fifth amendment to an Intergovernmental Agreement between the City of Aurora and the Mile High Flood District regarding the final design and construction of drainage and flood control improvements for the 22nd Avenue outfall to Westerly Creek.

CM Bergan asked, will this be the last amendment for this project? S. Scorza responded, there will likely be one more amendment following this one that will complete this project.

CM Hancock asked, have we started construction on this project yet? S. Scorza responded, we are still in the design phase so we are not ready for construction yet. There is still a lot of ongoing communication between the stakeholders that will lead us to the best possible design including more curvature to the stream. CM Hancock asked, will the new curvature help with the flow of the stream to prevent flooding? S. Scorza stated, yes, the stream will be moved away from properties that have the potential to flood and allow flood waters to move more effectively downstream.

Outcome: The Committee supports the Fifth Amendment to the 22nd Aven Outfall to Westerly Creek Improvement Project Agreement between the City of Aurora and Mile High Flood District and forwarded to the next Council Meeting.

Follow-Up Action: A Fifth Amendment to the 22nd Ave Outfall to Westerly Creek Improvement Project Agreement will be forwarded to the next Council Meeting.

---

4. Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement (IGA)

Summary of Issue and Discussion: J. LaPierre gave a presentation on the Joint West Weather Monitoring IGA with the Urban Drainage and Flood Control District, d/b/a Mile High Flood District, the City and County of Denver, and the City of Lakewood, which involves collecting runoff at a number of automated stations in the metro area and analyzing the water quality for specific pollutants as agreed upon in the original Municipal Separate Storm Sewer (MS4) permit in 1996.

CM Hancock asked, where are we in the process of implementing this project? J. LaPierre responded, the season for sampling is from April 1st through October 31st, and the sampling will take place along the South Platte River up near Sand Creek and West Tollgate Creek. The data will then be collected and submitted in our annual MS4 report to the State which is a regulatory requirement for our MS4 permit. CM Hancock asked, what does the sampling consist of? J. LaPierre responded, the sampling records the streamflow and precipitation data after any major streamflow events including heavy snowmelt and heavy rainstorms.

Outcome: The Committee supports the Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement and forwarded to the next Council Meeting.

Follow-Up Action: The Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement will be forwarded to the next Council Meeting.

---

5. Turf Transformation for Water Conservation and Hydroelectric Energy Recovery Project Grant

Summary of Issue and Discussion: L. Lopez gave a presentation on a proposed grant that will assist the City in enhancing water and energy efficiency, utilize resources judiciously, achieve additional cost savings, reduce its greenhouse gas foot print, enhance water conservation, and enhance biodiversity through the Sustainable Turf Transformation for Water Conservation and Hydroelectric Energy Recovery Project with help from the Department of the Interior, Bureau of Reclamation, Water Resources and Planning Office.

CM Began asked, what are the anticipated savings in water usage from the turf conversion and how long will it take to recoup the $408,000 in grant funding? M. Brown responded, we are paying roughly $20,000 to $25,000 per acre foot to acquire water rights multiplied by the 31.5 acre feet of water saved per year which is roughly $800,000 in savings. This savings does not account for additional costs associated with water supply, including treatment, however, with the inclusion of the grant, the cost benefit is great.

CM Bergan asked, what will go in place of the turf? M. Brown responded, some of the replacement will be the Tahoma 31 Bermuda grass and some will be replaced with native grasses. With the native grass, we will essentially remove any need for irrigation with a slightly higher cost-savings benefit than with the Tahoma 31 Bermuda grass.

CM Sundberg asked, when will we find out if the grant has been accepted? L. Lopez responded, we should find out if our grant application has been accepted by the end April 2024.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

6. Aurora Watershed Management and Source Water Protection Plan

Summary of Issue and Discussion: R. Vidmar gave a presentation on the Aurora Watershed Management and Source Water Protection Plan which formalizes Aurora Water's approach to source water protection.

CM Bergan asked, is the State open to thinning the forest? R. Vidmar responded, if we are working on any public or federal land, any prescription thinning has to go through the National Environmental Policy Act to evaluate the impacts of doing a thinning project. Therefore, the City works closely with the Forest Service during those projects, including the project funded last year at Miller Gulch. CM Bergan asked, is there a benefit to doing those projects? R. Vidmar responded, yes, it creates a defensible space to get the fire to the ground where it is easier to fight.

CM Sundberg asked, are we happy with the States efforts? R. Vidmar responded, yes, there is a lot of communication and engagement with the Colorado State Forest Service and the Colorado State University in that regard.

Mayor Coffman asked, how are we doing with our Federal Partners? R. Vidmar responded, we do have staff that is solely focused on watershed health, and has been doing very good work on establishing relationships with the National Forest Service on a Federal level. Mayor Coffman asked, what are some of our most difficult areas regarding fuel build-up when it comes to overgrowth in our watershed? R. Vidmar responded, one of our most difficult areas is the slow pace of tagging trees to be removed because it is all done by hand. Additionally, the type of trees that are being cut are not attractive to the lumber industry, making it difficult to get rid of the additional timber. Mayor Coffman asked, if we have a catastrophic fire that is so hot it sterilizes the soil, what do we do? R. Vidmar responded, after a large burn, the Burn Area Response Team, a U.S. Forest service led team, responds to assess the damage and potential impacts of the fire. The best things we can do both pre and post-fire is to create sediment basins to avoid any burn sediment from reaching the base of the canyon and entering the main stems of waterways.

CM Sundberg asked, is there a targeted area for beetle kill trees? R. Vidmar responded yes, there are targeted areas for removing those trees however, the forest service will leave some of those as to not disrupt the ecosystem for birds and other animals.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

7. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: M. Brown stated the water conservation event is scheduled for May 18, 2024, starting at 9:00 a.m. in the water-wise garden at the Aurora Municipal Center. This will be a community-wide event and is open for any of the Councilmembers to be present and meet with community members. Additionally, the annual Youth Water Festival is scheduled for May 16, 2024, which is a great opportunity for Councilmembers to meet with students from all over Aurora.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Confirm Next Meeting

The next meeting is scheduled for April 17, 2024, 10:30 a.m. via Teams.

A. Construction Change Order Report
B. Monthly Water Supply Update
C. Grants Update

Summary of Issue and Discussion: None.

Outcome: The consent items were supported as presented.

Follow-Up Action: None.

---

3. 16th Amendment to a Drainage and Flood Control Improvements Intergovernmental Agreement for First Creek Detention Pond Upstream of I-70

Summary of Issue and Discussion: S. Scorza gave a presentation on the sixteenth amendment to an Intergovernmental Agreement (IGA) between the City of Aurora and the Mile High Flood District. This amendment is to develop a final design of the First Creek Detention Pond including land acquisition, mapping, compilation of existing data, necessary field work, development on final design, and services during construction.

CM Bergan asked, what has been Mile High Flood District's total contribution for this project? M. Brown responded, their total contribution so far is $7.449 million. CM Bergan asked, is it typical for the cost to be 50/50 for cost sharing? S. Young stated, based on the studies, the overall cost is typically split 50/50. However, there are various contributions per county, so it is difficult to determine the full cost split on construction projects.

CM Medina asked, with the delays in construction, is that going to add to the cost? S. Scorza responded, we are confident that the cost is where it should be based on the 30% design, but the general contractor will be able to give us a better idea if our early estimates are correct. S. Young added, part of the reasoning behind increasing our cost contributions now is to complete construction before any additional cost increases over time.

Outcome: The Committee supports moving a Resolution for the 16th Amendment to an IGA for Drainage and Flood Control Improvements to First Creek Detention Pond Upstream of I-70 forward to the July 14, 2025, Council Meeting.

Follow-Up Action: A Resolution for the 16th Amendment to an IGA for Drainage and Flood Control Improvements to First Creek Detention Pond Upstream of I-70 will be forwarded to the July 14, 2025, Council Meeting.

---

4. Sixth Amendment to and Intergovernmental Agreement for the 22nd Avenue Outfall to Westerly Creek Improvement Project

Summary of Issue and Discussion: S. Scorza gave a presentation on the sixth amendment to an Intergovernmental Agreement (IGA) between the City of Aurora and the Mile High Flood District. This amendment will incorporate water quality into the area, reduce the floodplain encroachment on adjacent properties, rehabilitate the eroding areas of the stream, and provide open space amenities for surrounding properties.

CM Bergan asked, when there are multiple amendments, is that when Mile High Flood District begins to decrease their contributions? M. Brown responded, the percentages are split based on the location of the project and who will benefit the most. CM Bergan asked, will Adams County not have to participate in this contribution? M. Brown responded, we have seen county participation in some of these projects, but it depends on the specifics of the drainage area and who is benefiting. S. Scorza responded, since this project is in Adams County, source of the funding received from the flood district is coming from Adams County's share of Mile High's funding.

CM Coombs asked, since the other side of the creek is Denver, are any of those Denver properties benefiting from the diversion? S. Scorza responded, yes, the other side of the stream is Denver however, since the stream leans heavily to the East and the land on the Denver side is park land, there is really no benefit of Denver for this portion of the project. There are other portions of the creek that do involve Denver which they have contributed to.

Outcome: The Committee supports moving a Resolution for the Sixth Amendment to an IGA for the 22nd Avenue Outfall to Westerly Creek Improvement Project forward to the July 14, 2025, Council Meeting.

Follow-Up Action: The Resolution for the Sixth Amendment to an IGA for the 22nd Avenue Outfall to Westerly Creek Improvement Project will be forward to the July 14, 2025, Council Meeting.

---

5. Large Water Users Ordinance

Summary of Issue and Discussion: S Young gave a presentation on the proposed Ordinance for Aurora Water's Large Water User Guide. The Guide includes a matrix whereby water use for commercial and industrial sites is limited to between 500 and 3,000 gallons per acre per day depending on the recoverable water volume. Over the last couple of years, the Guide encouraged companies to investigate lower water use process alternatives (i.e. indirect evaporative cooling) and discouraged extraordinarily high-water users from requesting service from Aurora Water. The protection against excessive water usage in our arid region will help ensure reliable service for current and future Aurora Water customers. To further enforce this Guide, Aurora Water requests that the information in the Guide be codified as section 138-161 of the Aurora City Code.

CM Bergan asked, is potable versus non-potable water considered in the table? M. Brown responded, yes, for example, the car washes will do their own recycling on site, but the initial delivery is potable water. There are very limited opportunities to start with non-potable water so virtually all our initial deliveries are with potable water. CM Bergan asked, couldn't the data centers use non-potable water like our golf courses? M. Brown responded, there are a limited number of golf courses on our Sand Creek system however, the system has limited capacity. There have been some golf course closures recently so there is some additional capacity in the Sand Creek system, so staff have spoken with Buckly Space Force Base and some oil and gas companies about utilizing the Sand Creek system. S. Young added, there are some additional challenges with non-potable water as it is not pressurized like our potable water system and pressurizing the non-potable water would require a lot of additional infrastructure.

CM Bergan asked, do the majority of our current large water users fall into the green area of the table? S. Young stated yes, the majority fall into the green and yellow portions of the table. M. Brown added, we have worked with large water users that have fallen into the red on their water efficiencies and brought them down into the yellow or green. CM Bergan asked, is there ever going to be a situation where they move back to the orange or red area of the table? M. Brown stated that as part of the process we have set allocations for the large water users that limits their water use including all the phases. Additionally, we are able to double or triple their water rates. We are also looking at other implications we can put in place beyond just financial for when the large water users exceed their allocations.

Mayor Pro Tem Sundberg added, this ordinance allows Aurora Water smart growth opportunities while providing guidance to large water users looking to move into Aurora. Additionally, this is an opportunity for Aurora to set an example to other municipalities for smart, sustainable growth.

Outcome: The Committee supports moving an Ordinance for the Large Water Users Guide forward to the July 14, 2025, Study Session with Mayor Pro Tem Sundberg as the sponsor.

Follow-Up Action: An Ordinance for the Large Water Users Guide will be forwarded to the July 14, 2025, Study Session with Mayor Pro Tem Sundberg as the sponsor.

---

6. Dominion Water and Sanitation District Intergovernmental Agreement

Summary of Issue and Discussion: A. Davis gave a presentation for an Intergovernmental Agreement (IGA) between the City of Aurora and the Dominion Water and Sanitation District. This IGA is intended to consolidate the previous agreements in a newly amended and restated agreement which will ensure that Aurora Water's transportation and conveyance costs are recovered, that the agreements are updates to reflect current conditions and ensure clarity between the parties moving forward.

CM Bergan asked, is the Dominion South Platte diversion connection complete? A. Davis responded, the WISE/Dominion connection has been completed. M. Brown added, our obligation is to deliver the 250 from the WISE connection, the 230 will continue to be delivered through the Rampart system until the October 2031 date or until the completion of the diversion infrastructure, whichever comes first.

CM Bergan asked, in the event of a major drought, can we limit the amount of water delivered to Dominion to ensure our residents take priority? M. Brown responded, there are two options for Dominion during a drought with the first being they will trim back their usage or, they will pay a surcharge. CM Bergan asked, if they pay the surcharge, how will our customers be affected? M. Brown responded, Dominion has a different demographic than Aurora residents in that they use significantly less water on average than our customers. They have also adopted several conservation measures to keep their water usage low. CM Bergan asked, if we ended up in a severe drought, where outside irrigation is banned, will that be the expectation for Dominion as well? M. Brown responded, yes.

Outcome: The Committee supports moving a Resolution for the Dominion Water and Sanitation District IGA forward to the July 14, 2025, Study Session and Council Meeting.

Follow-Up Action: A Resolution for the Dominion Water and Sanitation District's Intergovernmental Agreement will be forwarded to the July 14, 2025, Study Session and Council Meeting.

---

7. Spry Point Alerts Presentation

Summary of Issue and Discussion: S. Cline and J. Montoya gave a presentation on the customer service portal which will now include features to enhance transparency and empower water-saving behaviors. The following are what can be expected within the new customer portal which aligns with Aurora Water's goals to improve customer service, encourage conservation, and reduce non-revenue water loss:

- Hourly Water Use Data
- Customer Water Alerts
- Improved Portal Interface
- Leak Detection Support

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: None

Outcome: Informational only.

Follow-Up Action: Informational only.

---

9. Confirm Next Meeting

The next meeting is scheduled for July 16, 2025, at 10:30 a.m. at the Southeast Area Maintenance Facility or via Teams.

HISTORY *(Dates reviewed by City council, Policy Committees, Boards and Commissions, or Staff. Summarize pertinent comments. ATTACH MINUTES OF COUNCIL MEETINGS, POLICY COMMITTEES AND BOARDS AND COMMISSIONS.)*

The City of Aurora has had agreements in place with the Mile High Flood District (previously the Urban Drainage and Flood Control District) since 1993 to address a variety of permitting requirements contained within the City's Municipal Separate Storm Sewer (MS4) Permit. The original agreement with the District was approved in 1993 and 13 addenda covered the period from 1994 through 2009. From 2010 through 2013, new intergovernmental agreements (IGAs) were reached between the parties.

The agreement for calendar year 2013 was supported by the Infrastructure and Operations Policy Committee (IOPC) on April 17, 2013, and subsequently approved by City Council at the May 6, 2013, City Council Meeting.

Funding from previous assessments was sufficient to support activities in 2014 and 2015. On August 16, 2016, the Water Policy Committee supported forwarding an agreement regarding funding of joint wet weather monitoring and other Colorado Discharge Permit System (CDPS) activities to City Council Regular Session. The term of that agreement was two years to cover 2016 and 2017. Council approved the agreement on September 12, 2016.

On January 11, 2018, the Water Policy Committee supported moving the Joint Wet Weather Monitoring and other Colorado Discharge Permit System (CDPS) activities for calendar year 2018 forward to the next City Council meeting (Aurora's contribution was $22,000.00).

On March 14, 2019, the Water Policy Committee moving the Joint Wet Weather Monitoring and other Colorado Discharge Permit System activities for calendar year 2019 forward to Study Session (Aurora's contribution was $20,000.00).

On April 15, 2019, City Council approved the agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2019 as item 10a (Aurora's contribution was $20,000.00).

On November 14, 2019, the Water Policy Committee supported moving the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2020 forward to the next Council Meeting (Aurora's contribution was $24,000.00).

On December 2, 2019, City Council approved the agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2020 as item 16d (Aurora's contribution was $24,000.00).

On January 27, 2021, the Water Policy Committee supported moving the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2021 forward to the next Council Meeting (Aurora's contribution was $24,000.00).

On February 22, 2021, City Council approved the agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2021 as item 10c (Aurora's contribution was $24,000.00).

On February 16, 2022, the Water Policy Committee supported moving the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2022 forward to the next Council Meeting (Aurora's contribution was $24,000.00).

On March 14, 2022, City Council approved the agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2022 as item 11a (Aurora's contribution was $24,000.00).

On March 15, 2023, the Water Policy Committee supported moving the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2023 forward to the next Council Meeting (Aurora's contribution was $29,000.00).

On April 10, 2023, City Council approved the agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for calendar year 2022 as item 11a1 (Aurora's contribution was $29,000.00).

On March 20, 2023, the Water Policy Committee supported moving the Joint Funding for West Weather Monitoring and other CDPS activities for the calendar year of 2024 forward to the next Council Meeting (Aurora's contribution is $29,000.00).

On March 20, 2024 the Water Policy Committee supported moving the Joint Funding for West Weather Monitoring and other CDPS activities for the calendar year of 2024 forward to the April 8, 2024 Council meeting. (Aurora's contribution is $29,000.00).

On April 8, 2024, City Council approved the Intergovernmental Agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for the calendar year of 2024 as item 11a2. (Aurora's contribution is $29,000.00)

On April 16, 2025, the Water Policy Committee supported moving moving the Joint Funding for West Weather Monitoring and other CDPS activities for the calendar year of 2025 forward to the May 5, 2025 Council meeting. (Aurora's contribution is $29,000.00).

On May 5, 2025, City Council approved the Intergovernmental Agreement regarding the Joint Funding for Wet Weather Monitoring and other CDPS activities for the calendar year of 2025 as item 10a10. (Aurora's contribution is $29,000.00)

On May 20, 2026, the Water Policy Committee supported moving moving the Joint Funding for West Weather Monitoring and other CDPS activities for the calendar year of 2026 forward to the June 8, 2026 Council meeting. (Aurora's contribution is $29,000.00).

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

The cities of Aurora, Denver, and Lakewood were originally issued Municipal Separate Storm Sewer (MS4) Discharge permits in June 1996. Those permits were renewed in April 2003 and then again in March 2009. The current agreement between Aurora, Denver, Lakewood and the Mile High Flood District, along with previous agreements with Urban Drainage, have been in place to address a number of permit requirements, in particular wet weather monitoring, required within the MS4 permits.

Wet weather monitoring involves collecting runoff at a number of automated stations in the metro area and analyzing the water quality for specific pollutants as agreed upon in the original MS4 permit in 1996. Historic records are kept to determine levels of pollutants in runoff and if any trends are occurring. A trend analysis report is prepared after four years of data collection and an assessment is made regarding whether concentrations of certain parameters appear to be increasing or decreasing. When completed, the trend analysis is provided as part of the City's MS4 annual report. In addition, a data collection report is prepared annually and submitted to the Water Quality Control Division as part of the annual reporting requirements of Aurora's MS4 permit.

Aurora, in conjunction with Denver and Lakewood, have continued to work cooperatively with the Mile High Flood District (previously the Urban Drainage and Flood Control District) since 1996 to meet a number of permit conditions through these agreements. Aurora's share of the overall project cost is 20%. The overall project cost for 2026 is expected to be $145,000 and thus Aurora's share of that cost will be a maximum of $29,000. The term of the agreement will be for one year.

FISCAL IMPACT

QUESTIONS FOR COUNCIL

Does the Council support a Resolution of the City Council of the City of Aurora, Colorado, Expressing the Aurora City Council's support of an Intergovernmental Agreement among the City of Aurora, acting by and through its Utility Enterprise, the Urban Drainage and Flood Control District, d/b/a Mile High Flood District, the City and County of Denver, and the City of Lakewood regarding funding of Joint Wet Weather Monitoring and other Colorado Discharge permit activities?

LEGAL COMMENTS

The City is authorized to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government (Article XIV of the Colorado Constitution and C.R.S. 29-1-203). The City Charter authorizes the City by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment or facilities or for furnishing or receiving commodities and services. (Charter Section 10-12). (Best).

RESOLUTION NO. R2026- ____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN INTERGOVERNMENTAL AGREEMENT AMONG THE CITY OF AURORA, COLORADO, BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, THE CITY AND COUNTY OF DENVER, AND THE CITY OF LAKEWOOD REGARDING FUNDING OF JOINT WET WEATHER MONITORING AND OTHER COLORADO DISCHARGE PERMIT ACTIVITIES

WHEREAS, the City of Aurora, acting by and through its Utility Enterprise ("Aurora Water"), the Urban Drainage and Flood Control District d/b/a Mile High Flood District ("District"), City and County of Denver ("Denver"), and the City of Lakewood ("Lakewood") intend to enter into an annual intergovernmental agreement ("Intergovernmental Agreement") to fund joint wet-weather monitoring and other Colorado Discharge Permit System Permit activities; and

WHEREAS, the purpose of this Intergovernmental Agreement is to comply with certain portions of each sponsor's state issued permit; and

WHEREAS, the project costs funded through this Intergovernmental Agreement include monitoring and reporting of wet-weather stormwater runoff, development of education and outreach programs and materials, field testing of stormwater best management practices ("BMPs"), development of BMP selection and design guidance, and development of compliance strategies for state regulations ("Project Costs"); and

WHEREAS, Aurora's portion of the Project Costs shall be $29,000.00 or twenty percent (20%) of the $145,000.00 total; and

WHEREAS, a summary of cost contributions from the parties is set forth below:

	Contribution
District	$48,330 (33.33%)
Denver	$43,500 (30.00%)
Aurora Water	$29,000 (20.00%)
Lakewood	$24,170 (16.67%)
Total	$145,000 (100%)

;and

WHEREAS, the City of Aurora is authorized, pursuant to Article XIV of the Colorado Constitution and C.R.S. 29-1-203, to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government; and

WHEREAS, Section 10-12 of the City Charter authorizes the City of Aurora by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment or facilities or for furnishing or receiving commodities and services.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, THAT:

Section 1. The Agreement Regarding Funding of Joint Wet Weather Monitoring and CDPS Activities between Aurora Water, the District, Denver, and Lakewood is hereby approved.

Section 2. The Mayor and City Clerk are hereby authorized to execute the attached agreement in substantially the form presented at this meeting with such technical additions, deletions, and variations as may be deemed necessary or appropriate by the City Attorney.

Section 3. That the Mayor of Aurora, City Clerk, and City Attorney are authorized to take such action and to execute such documents as necessary to implement the intent of this resolution.

Section 4. All resolutions or parts of resolutions of the City in conflict herewith are hereby rescinded.

RESOLVED AND PASSED this _____ day of _____ 2026.

_____
MIKE COFFMAN, Mayor

ATTEST:

_____
KADEE RODRIGUEZ, City Clerk

APPROVED AS TO FORM:

PETER A. SCHULTE, CITY ATTORNEY

By: Ian J Best RLA
IAN BEST, Assistant City Attorney

AGREEMENT REGARDING FUNDING OF
JOINT WET WEATHER MONITORING AND
OTHER CDPS PERMIT ACTIVITIES

Agreement No. 26-02.01
Project No. 104918
Agreement Amount $145,000

THIS AGREEMENT, by and between URBAN DRAINAGE AND FLOOD CONTROL DISTRICT D/B/A MILE HIGH FLOOD DISTRICT (hereinafter called "DISTRICT") and COUNTY OF DENVER (hereinafter called "DENVER"), CITY OF AURORA (hereinafter called "AURORA"), and CITY OF LAKEWOOD (hereinafter called "LAKEWOOD"); (hereinafter DENVER, AURORA and LAKEWOOD shall be known as "PROJECT SPONSOR(S)" and DISTRICT and PROJECT SPONSOR(S) shall be collectively known as "PARTIES");
WHEREAS, the PARTIES have periodically, each year since 1993, entered into "Agreement Regarding Funding of Joint Monitoring and Other Colorado Discharge Permit System (CDPS) Permit Activities" (Agreement No. 25-02.22 and all previous agreements referenced therein); and

WHEREAS, DISTRICT has heretofore annually assisted PROJECT SPONSORS with implementation of their CDPS stormwater discharge permits (hereinafter called "PERMITS"); and

WHEREAS, DISTRICT has annually conducted a wet-weather monitoring program and assisted with development and printing of public education brochures on behalf of PROJECT SPONSORS; and

WHEREAS, PERMITS issued by the State of Colorado (hereinafter called "STATE") to PROJECT SPONSORS require the continuation of the wet-weather monitoring program and public education/outreach programs; and

WHEREAS, PARTIES have budgeted funds in 2026 for joint activities in PERMITS and now desire to commit and obligate these funds; and

WHEREAS, DISTRICT has previously established a work program for 2026 (Resolution No. 89, Series of 2025) which includes coordination and assistance to local governments in their efforts to comply with municipal NPDES stormwater discharge permits.

NOW, THEREFORE, in consideration of the mutual promises contained herein, PARTIES hereto agree as follows:

Part 1

1.01 SCOPE OF AGREEMENT

This Agreement defines the responsibilities and financial commitments of PARTIES with respect to PROJECT.

1.02 SCOPE OF PROJECT

The purpose of this joint effort is to comply with certain portions of each PROJECT SPONSOR's PERMIT issued by STATE. DISTRICT shall provide technical support and advice to PROJECT SPONSORS during the issuance period. PROJECT SPONSORS shall include DISTRICT in all

discussions with STATE leading towards agreeing to conditions that may affect the jointly funded elements of each PERMIT. The scope of joint activities covered by this Agreement includes the following activities:

- Monitoring and reporting of wet-weather stormwater runoff,
- Development of education and outreach programs and materials, and
- Development of compliance strategies for regulations as revised by STATE.

1.03 PUBLIC NECESSITY

PARTIES agree that the work performed pursuant to this Agreement is necessary for the health, safety, comfort, convenience, and welfare of all the people of the State, and is of particular benefit to the inhabitants of PARTIES and to their property therein.

1.04 PROJECT COSTS AND ALLOCATION OF COSTS

A. PARTIES agree that for the purposes of this Agreement project costs shall consist of, and be limited to, services in support of Paragraph 1.02. SCOPE OF PROJECT and related services and contingencies mutually agreeable to PARTIES. Project costs are not to exceed $145,000 without amendment to this Agreement, as detailed in Paragraph 5.

B. Based on total PROJECT costs, the maximum percent and dollar contribution by each party shall be:

	Percentage Share	Maximum Contribution
DISTRICT	33.33%	$48,330
DENVER	30.00%	$43,500
AURORA	20.00%	$29,000
LAKEWOOD	16.67%	$24,170
TOTAL	100%	$145,000

1.05 MANAGEMENT OF FINANCES

As set forth in DISTRICT policy (Resolution No. 11, Series of 1973, Resolution No. 49, Series of 1977, and Resolution No. 37, Series of 2009), the funding of a PROJECT SPONSOR's share may come from its own revenue sources or from funds received from state, federal or other sources of funding without limitation and without prior DISTRICT approval.

Payment of each party's full share (DISTRICT - $48,330; DENVER - $43,500; AURORA - $29,000; and LAKEWOOD - $24,170 shall be made to DISTRICT subsequent to execution of this Agreement and within 30 days of request for payment by DISTRICT. The payments by PARTIES shall be held by DISTRICT in a special fund to pay for increments of PROJECT as authorized by PARTIES, and as defined herein. DISTRICT shall provide accounting of PROJECT funds as well as a notification to PROJECT SPONSOR of any unpaid obligations upon request. Any interest earned by the monies contributed by PARTIES shall be accrued to the special fund established by DISTRICT for PROJECT and such interest shall be used only for PROJECT upon approval by the contracting officers (Paragraph 2.05).

Within one year of completion of PROJECT if there are monies including interest earned remaining which are not committed, obligated, or disbursed, each party shall receive a share of such monies, which shares shall be computed as were the original shares; or, at PROJECT SPONSOR request, PROJECT SPONSOR share of remaining monies shall be transferred to another special fund held by DISTRICT.

1.06 PUBLISHED REPORTS AND PROJECT DATA

DISTRICT will provide to each SPONSOR a copy of any data and/or report that DISTRICT receives from its consultant(s) or contractor(s), or that DISTRICT collects or develops under this Agreement.

1.09 RESPONSIBILITIES OF PARTIES

DISTRICT shall be responsible for coordinating with PROJECT SPONSOR the information developed by the various consultants hired by DISTRICT and for obtaining all concurrences from PROJECT SPONSOR needed to complete PROJECT in a timely manner. PROJECT SPONSOR agrees to review all concept plans, preliminary design plans, and final plans and specifications; and to provide comments within 21 calendar days after the drafts have been provided by DISTRICT to PROJECT SPONSOR.

1.10 PUBLIC RELATIONS

It shall be at PROJECT SPONSOR's sole discretion to initiate and to carry out any public relations program to inform the residents in PROJECT area as to the purpose of PROJECT and what impact it may have on them. Technical information shall be presented to the public by the selected engineer, if requested by PROJECT SPONSOR. In any event DISTRICT shall have no responsibility for a public relations program but shall assist PROJECT SPONSOR as needed and appropriate.

1.11 EXECUTION IN COUNTERPARTS – ELECTRONIC SIGNATURES

Electronic signatures shall be permitted to bind the PARTIES to this Agreement, and all subsequent documents requiring the signatures of the PARTIES to this Agreement. Documents requiring notarization may also be notarized by electronic signatures. All use of electronic signatures shall be governed by the Uniform Electronic Transactions Act, CRS §§ 24-71.3-101 to 121. However, the PARTIES agree that only electronic signatures created by electronic signature software including but not limited to DocuSign shall be permitted.

Part 2

2.01 TERM OF AGREEMENT

The term of this Agreement shall commence upon execution and shall terminate three (3) years after the final payment is made and the final accounting of funds on deposit at DISTRICT is provided to all PARTIES pursuant to Paragraph 1.05 herein.

2.02 LIABILITY

Each party hereto shall be responsible for any suits, demands, costs or actions at law resulting from its own negligent or wrongful acts or omissions and may insure against such liabilities as appropriate.

2.03 CONTRACTING OFFICERS

A. The contracting officer for DENVER shall be the Manager of Public Works, 201 West Colfax Avenue, Department 608, Denver, Colorado 80202.

B. The contracting officer for AURORA shall be the General Manager of Aurora Water, 26791 E Quincy Ave Aurora, CO 80016

C. The contracting officer for LAKEWOOD shall be the City Manager, 480 S. Allison Parkway, Lakewood, Colorado 80226.

D. The contracting officer for DISTRICT shall be the Executive Director, 12575 West Bayaud Avenue, Lakewood, Colorado 80228.

C. The contracting officers for PARTIES each agree to designate and assign a PROJECT representative to act on the behalf of said PARTIES in all matters related to PROJECT undertaken pursuant to this Agreement. Each representative shall coordinate all PROJECT related issues between PARTIES, shall attend all progress meetings, and shall be responsible for providing all available PROJECT-related file information to the engineer upon request by DISTRICT or PROJECT SPONSOR. Said representatives shall have the authority for all approvals, authorizations, notices or concurrences required under this Agreement. In the case of amendments to this Agreement, contracting officers shall determine which PARTIES are impacted by the amendment and ensure that such PARTIES provide their approval in writing. Unaffected PARTIES shall only be required to acknowledge the amendment in writing, and their acknowledgment shall be sufficient to meet the requirements of this Agreement.

2.04 AMENDMENTS

This Agreement contains all of the terms agreed upon by and among PARTIES. Any amendments to this Agreement shall be in writing. Amendments affecting only specific PARTIES, whether through changes in scope or additional funding contributions, shall require the written approval of the impacted PARTIES. All other PARTIES unaffected by the amendment shall acknowledge the amendment in writing, and their acknowledgement shall be sufficient to meet the requirements of this Agreement.

2.05 SEVERABILITY

If any clause or provision herein contained shall be adjudged to be invalid or unenforceable by a court of competent jurisdiction or by operation of any applicable law, such invalid or unenforceable clause or provision shall not affect the validity of the Agreement as a whole and all other clauses or provisions shall be given full force and effect.

2.06 APPLICABLE LAWS

This Agreement shall be governed by and construed in accordance with the laws of the State of Colorado. Jurisdiction for any and all legal actions regarding this Agreement shall be in the State of Colorado and venue for the same shall lie in the county where PROJECT is located.

2.07 ASSIGNABILITY

No party to this Agreement shall assign or transfer any of its rights or obligations hereunder without the prior written consent of the other party or parties to this Agreement.

2.08 BINDING EFFECT

The provisions of this Agreement shall bind and shall inure to the benefit of PARTIES hereto and to their respective successors and permitted assigns.

2.09 ENFORCEABILITY

PARTIES hereto agree and acknowledge that this Agreement may be enforced in law or in equity, by decree of specific performance or damages, or such other legal or equitable relief as may be available subject to the provisions of the laws of the State of Colorado.

2.10 TERMINATION OF AGREEMENT

This Agreement may be terminated upon thirty (30) days' written notice by any party to this Agreement, but only if there are no contingent, outstanding contracts. If there are contingent, outstanding contracts, this Agreement may only be terminated upon the cancellation of all contingent, outstanding contracts. All costs associated with the cancellation of the contingent contracts shall be shared between PARTIES in the same ratio(s) as were their contributions.

2.11 NO DISCRIMINATION IN EMPLOYMENT

In connection with the performance of work under this Agreement, PARTIES agree not to refuse to hire, discharge, promote or demote, or to discriminate in matters of compensation against any person otherwise qualified because of race, color, ancestry, creed, religion, national origin, gender, age, military status, sexual orientation, gender identity, marital status, or physical or mental disability and further agree to insert the foregoing provision in all subcontracts hereunder.

2.12 APPROPRIATIONS

Notwithstanding any other term, condition, or provision herein, each and every obligation of the PARTIES stated in this Agreement is subject to the requirement of a prior appropriation of funds therefore by the appropriate governing body of the respective PARTIES .

2.13 NO THIRD PARTY BENEFICIARIES

It is expressly understood and agreed that enforcement of the terms and conditions of this Agreement, and all rights of action relating to such enforcement, shall be strictly reserved to PARTIES, and nothing contained in this Agreement shall give or allow any such claim or right of action by any other or third person on such Agreement. It is the express intention of PARTIES that any person or party other than PARTIES receiving services or benefits under this Agreement shall be deemed to be an incidental beneficiary only.

2.14 GOVERNMENTAL IMMUNITIES

PARTIES hereto intend that nothing herein shall be deemed or construed as a waiver by any party of any rights, limitations, or protections afforded to them under the Colorado Governmental Immunity Act (§ 24-10-101, *et seq*., C.R.S.) as now or hereafter amended or otherwise available at law or equity.

2.15 INTENT OF AGREEMENT

Except as otherwise stated herein, this Agreement is intended to describe the rights and responsibilities of and between PARTIES and is not intended to and shall not be deemed to confer rights upon any person or entities not named as PARTIES, nor to limit in any way the powers and responsibilities of PROJECT SPONSOR, DISTRICT or any other entity not a party hereto.

WHEREFORE, PARTIES hereto have caused this instrument to be executed by properly authorized signatories as of the date and year first above written.

Infrastructure and Operations Policy Committee Meeting
April 17, 2013

Members Present: Council Member Bob Roth, Chair; Council Member Molly Markert; Council Member Sally Mounier

Others Present: Nancy Freed, Jack Bajorek, Greg Baker, Marshall Brown, Mac Callison, Larry Catalano, Dave Chambers, Lisa Darling, Karen Hancock, Pam Hensley, Sean Lieske, Christine McKenney, Tom McMinimee, Dan Mikesell, Melissa Miles, Elly Watson, Don Kado (CWAC), Jim Mitchell (CWAC)

VII. Intergovernmental Agreement (IGA) with Urban Drainage for CPDS (Stormwater) Permit Activities

S. Lieske said we have an annual agreement with Urban Drainage for some cooperative efforts that include both sampling and public education material that is put out between Urban Drainage, Denver, Lakewood, and Aurora. The IGA is a funding agreement between Aurora and the other three entities for these ongoing efforts. This year the total cost is around $168,000. Aurora's share is 20% or about $33,600. Staff requests that the IGA be forwarded to the regular City Council agenda since this has been an annual agreement since 1996.

Comments: Council Member Roth asked how the share is determined. S. Lieske said his understanding that when it was initially developed in 1996 it was based off of the 1990 census. It is based on the 1990 populations of those cities. Council Member Mounier asked about the verbiage on page 80 of 84 of the agenda packet that contains language related to the topic of not contracting with an illegal alien is standard. C. McKenney replied that the language is standard and required by the state of Colorado to be in all of our contracts.

Outcome: The Committee approved this item and forwarded it to a regular City Council agenda.

Follow-up Action: This item will be added to May 6, 2013, regular City Council agenda.

Council Member Markert stated her opposition to the item because a policy should be a simple document and not a dissertation.

Council Member Peterson stated her opposition to the item.

Voting Aye: Berzins, Broom, Cleland, Hunter Holen, LeGare, Mounier, Pierce, Roth

Voting Nay: Markert, Peterson

♦ d. **R2013-25**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, approving the Utility Relocation Agreement between the City and the Regional Transportation District for the I-225 Rail Line project.

Motion by LeGare, second by Cleland, to approve item 10d.

Voting Aye: Berzins, Broom, Cleland, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

♦ e. **R2013-26**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, approving an Intergovernmental Agreement by and between the Urban Drainage Flood Control District, the City and County of Denver, the City of Lakewood, and the City regarding funding of joint wet weather monitoring and other CDPS activities.

Motion by Broom, second by Peterson, to approve item 10e.

Voting Aye: Berzins, Broom, Cleland, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

11. **ORDINANCES FOR INTRODUCTION**

♦ a. **2013-13**
Consideration for INTRODUCTION OF AN ORDINANCE of the City Council of the City of Aurora, Colorado, appropriating sums of money in addition to those appropriated in Ordinance Nos. 2011-39, 2012-22, and 2012-53 for the 2012 fiscal year and Ordinance No. 2012-44 for the 2013 fiscal year.

Motion by Roth, second by LeGare, to introduce item 11a.

Voting Aye: Berzins, Broom, Cleland, Hunter Holen, LeGare, Markert, Mounier, Peterson, Pierce, Roth

♦ b. **2013-14**
Consideration for INTRODUCTION OF AN ORDINANCE of the City Council of the City of Aurora, Colorado, amending Sections 130-31 and 130-157 of the City Code relating to exempting coins and precious metal bullion from sales tax.

Motion by LeGare, second by Roth, to introduce item 11b.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Water Policy Committee (WPC) Meeting
August 16, 2016

Members Present: Council Member Bob Roth, Chair; Council Member Barbara Cleland, Vice Chair (Absent); Council Member Bob LeGare

Others Present: Greg Baker, Marshall Brown, Alex Davis, Steve Fiori, Abby Fitch, Angela Garcia, Jo Ann Giddings, Pam Hensley, Jill Piatt Kemper, Sean Lieske, John Murphy, Kelley Neumann, Linda Whited

---

I. Approval of Minutes

The minutes of the July 19, 2016, Water Policy Committee meeting were approved as presented.

II. Consent Items

A. Monthly Water Supply Update
B. Construction Change Order Summary Report
C. Quarterly Financial Report

Comments:
Council Member LeGare asked about the Quarterly Financial Report memo which states S&P Global and Fitch rated the bonds AA+, and Fitch updated the sewer bonds to AAA. Council Member LeGare wanted to confirm that AAA is above AA+. J. Giddings replied, yes, and it is as high as you can go.

III. IGA with Urban Drainage for CDPS (Stormwater) Permit Activities

S. Lieske gave a presentation on an agreement with Urban Drainage and Flood Control District since 1998 to address a variety of permit conditions associated with the City's Municipal Separate Storm Sewer System (MS4) Permit.

The cities of Aurora, Denver, and Lakewood were each issued Municipal Stormwater Discharge Permits by the Colorado Department of Public Health and Environment Water Quality Control Division pursuant to the requirements of the Federal Clean Water Act effective June 10, 1996. The permits were renewed in April 2003, and a second time in March 2009. For this renewal, Aurora's share of the project costs is $16,000 with a term of two years.

Comments:
Council Member LeGare stated, looking at the minutes from 2013, the total amount was $168,000. Does the amount fluctuate every year? S. Lieske replied, yes, based on the expectations of what the wet weather monitoring will be.

Outcome:
The Committee supported forwarding this item to Regular City Council meeting.

Water Policy Committee (WPC) Meeting
January 11, 2018

Members Present: Council Member Bob Roth, Chair; Council Member Francoise Bergan, Vice Chair - Absent; Council Member Bob LeGare

Others Present: Greg Baker, Leiana Baker, Marshall Brown, Steve Fiori, Pam Hensley, Sean Lieske, Christine McKenney, Dan Mikesell, John Murphy, Stephanie Neitzel, Rich Vidmar, Jill Piatt-Kemper, Tom Coker (CWAC), Jim Mitchell (Citizen)

IV. INTERGOVERNMENTAL AGREEMENT (IGA) WITH URBAN DRAINAGE FOR COLORADO DISCHARGE PERMIT SYSTEM (CDPS) PERMIT ACTIVITIES

Summary of Issue and Discussion: S. Lieske stated, this has been an agreement we've had with Urban Drainage, Lakewood, and Denver since 1993, and is associated with wet weather monitoring, some educational material, and conducting some efforts on our behalf associated with the City's municipal separate storm sewer permit (MS4). This year's IGA will be good for about a year. The overall project costs will be about $110,000.00 of which $22,000.00 will be Aurora's share.

Council Member Roth asked, why these three entities, and what is the percentage based on, is it population? S. Lieske replied, the percentage is based on the population of a 1990 census. When we entered into the agreement they were the three entities that had Phase 1 MS4 Permits and worked with Urban Drainage at the time.

Outcome: The Committee supports the IGA with Urban Drainage for CDPS Permit Activities, and forwarded the matter to Regular Session for consideration.

Follow-Up Action: The Committee supports the IGA with Urban Drainage for CDPS Permit Activities, and will forward to Regular Session for consideration.

5. JOINT WET WEATHER MONITORING AND OTHER CDPS PERMIT ACTIVITIES

Summary of Issue and Discussion: S. Lieske stated, wet weather monitoring involves collecting runoff at a number of automated stations in the metro area and analyze the water quality for specific pollutants in runoff and if any trends are occurring. A trend analysis report is prepared after four years of data collection and an assessment is made regarding whether concentrations of certain parameters appear to be increasing or decreasing. The data collection report is prepared annually and submitted to the Water Quality Control Division as part of the requirements of Aurora's MS4 permit. Aurora, in conjunction with Denver and Lakewood, have continued to work cooperatively with Urban Drainage and Flood Control District DBA Mile High Flood District to meet a number of permit conditions through these agreements. Aurora's costs for the calendar year 202 is a maximum of $24,000.00 and the term of the agreement is one year.

Council Member Bergan stated, with the reports on contaminants have there been any major surprises. S. Lieske replied, no. Council Member Bergan stated, if there were a lot of rainfall and caused some flooding would that bring contaminants into the water. S. Lieske replied, it's to make sure that municipalities are doing what they can to control contaminants as best as they can.

Outcome: The Committee recommends the Joint Wet Weather Monitoring and Other CDPS Permit Activities and forwarded to Regular Session for consideration.

Follow-Up Action: The Committee recommends the Joint Wet Weather Monitoring and Other CDPS Permit Activities and will forward to Regular Session for consideration.

Motion by Marcano, second by Murillo, to approve item 16b.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

♦ c. **R2019-119**
Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, approving an Amendment to the Revised Water Transmission Service Contract among the Aurora Colorado Springs Joint Water Authority, the City of Aurora, Colorado, acting by and through its Utility Enterprise and the City of Colorado Springs, Colorado.

5. Joint Wet Weather Monitoring and Other Discharge Permitting Activities Intergovernmental Agreement (IGA)

Summary of Issue and Discussion: S. Lieske stated, Aurora, in conjunction with Denver and Lakewood, have continued to work cooperatively with the Mile High Flood District (previously the Urban Drainage and Flood Control District) since 1996 to meet a number of permit conditions through these agreements. Aurora's share of the overall project cost is 20%. The overall project cost for 2021 is expected to be $120,000 and thus Aurora's share of that cost will be a maximum of $24,000. The term of the agreement will be for one year.

Outcome: The Committee supports the Joint West Weather Monitoring and Other Discharge Permitting Activities IGA and forwarded both to Regular Session for consideration.

Follow-Up Action: The Committee supports the Joint West Weather Monitoring and Other Discharge Permitting Activities IGA and will forward to Regular Session for consideration.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

10.c. JOINT WET WEATHER MONITORING IGA

R2021-09 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN INTERGOVERNMENTAL AGREEMENT AMONG THE CITY OF AURORA, COLORADO, BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, THE CITY AND COUNTY OF DENVER, AND THE CITY OF LAKEWOOD REGARDING FUNDING OF JOINT WET WEATHER MONITORING AND OTHER COLORADO DISCHARGE PERMIT ACTIVITIES

Sean Lieske, Environmental Permitting Manager, Aurora Water / Christine McKenney, Client Group Manager

Motion by Coombs, second by Marcano, to approve item 10c.

Voting Aye: Bergan, Berzins, Coombs, Gardner, Gruber, Hiltz, Johnston, Lawson, Marcano, Murillo

11. **PUBLIC HEARING WITH RELATED ORDINANCE**

None

12. **PUBLIC HEARING WITHOUT RELATED ORDINANCE**

13. **INTRODUCTION OF ORDINANCES**

13.a. MODIFICATION OF THE EXEMPTION FOR LONG TERM LODGING

2021- 07 AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, AMENDING ARTICLE IV OF SECTION 130 RELATING TO THE MODIFICATION OF THE EXEMPTION FOR LONG TERM LODGING

Trevor Vaughn, Manager of Tax and Licensing/Hans Hernandez, Assistant City Attorney

Call-in instructions were provided for the benefit of the public.

Mayor Coffman called for a five-minute break to allow for those wishing to speak on an agenda item to call in.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Water Policy Committee (WPC) Meeting
February 16, 2022

Members Present: Council Member Steve Sundberg Chair, Council Member Angela Lawson Vice-Chair, Council Member Curtis Gardner

Absent:

Others Present: Casey Rossman, Greg Baker, Jo Ann Giddings, John Murphy, Laura Perry, Rachel Allen, Marshall Brown, Rick Kienitz, Sarah Young, Sean Lieske, Steve Fiori, Tony Tran, Sherry Scaggiari, Ian Best, Fernando Aranda-Perozo, Dick Eason, Rory Franklin, Sonya Gonzalez, Gail Thrasher, Leiana Baker

---

1. Approval of Minutes
The January 19, 2022, meeting minutes were approved as presented.

2. Consent Items
A. Construction Change Order Report
B. Water Supply Update
C. Fourth Quarter Water Financial Report
D. Tentative 2022 Schedule and 2021 Recap

Summary of Issue and Discussion:
Council Member Lawson suggested August for the Water Tour. Council Member Lawson requested a future topic regarding density and sprawl impacts on water. M. Brown replied, it is addressed in the Master Plan that looks at 100 years, and we can add some type of detail for density and sprawl effects regarding water use in the Master Plan and bring a presentation to the committee in the future.

Outcome: The Consent items were supported as presented.

Follow-Up Action: The Consent items were supported as presented.

---

3. Joint Wet Weather Monitoring and other Colorado Discharge Permit Activities Intergovernmental Agreement (IGA)

Summary of Issue and Discussion: S. Lieske gave an overview of the IGA. Aurora, in conjunction with Denver and Lakewood, have continued to work cooperatively with the Mile High Flood District (previously the Urban Drainage and Flood Control District) since 1996 to meet a number of permit conditions. Aurora's share of the overall project costs 20%. The overall project cost for 2022 is expected to be $120,000.00 and Aurora's share will be a maximum of $24,000.00. The term of this agreement is one year.

Outcome: The Committee supports the Joint Wet Weather Monitoring and other Colorado Discharge Permit Activities and forwarded to next Regular Session for consideration.

Follow-Up Action: The Committee supports the Joint Wet Weather Monitoring and other Colorado Discharge Permit Activities and will forward to the next Regular Session for consideration.

---

4. Westfield Stanley Apartments Reimbursement Agreement

Summary of Issue and Discussion: S. Young gave an overview of utility reimbursement agreements. T. Tran provided a location overview and summarized the proposed reimbursement agreement for the cost of the regional storm sewer improvements. The regional 60-inch equivalent storm pipe in 23rd Avenue will reduce flood risk and allow for site development of the Stanley Apartments site. The reimbursement amount is to not exceed $442,565.12 plus a 10% contingency ($44,257) without further council approval.

Council Member Lawson asked, does the agreement costs include the operational or the maintenance over the years? T. Tran replied, this agreement is for the reimbursement of the construction costs associated with the regional storm sewer improvements that will be publicly owned and maintained. There are no long-term maintenance costs included with this reimbursement agreement. S. Young added, the developer pays connection fees as well as monthly storm drainage usage fees and those fees go towards long term maintenance and operation of the City's utility assets.

Outcome: The Committee supports the Westfield Stanley Apartments Reimbursement Agreement and forwarded to next Study Session for consideration.

Follow-Up Action: The Committee supports the Westfield Stanley Apartments Reimbursement Agreement and will forward to the next Study Session for consideration.

---

5. Intergovernmental (IGA) Cost-Sharing Agreement to Fund an Interlocal Funding Agreement for Colorado River Conservation Project

Summary of Issue and Discussion: A. Davis gave a presentation. The agreement allows Aurora to share in the costs for the Interlocal Funding Agreement of an alfalfa pilot study program. Aurora's cost share will be $7,500.00. Denver Water will coordinate funding and administer the contract with the N-Drop technology system program consultants.

Council Member Gardner asked, what are a couple of practical conservation measures for agriculture with respect to this project program? A. Davis replied, flood irrigation is where most agricultural irrigation started. There are different types of sprinklers and drip systems which allow you to divert only the water that is needed. This technology is gravity powered so it's cheaper than other sprinkler systems which rely on pumps and electricity to operate.

Outcome: The Committee supports the IGA Cost-Sharing Agreement to Fund an Interlocal Funding Agreement for Colorado River Conservation Project and forwarded to next Study Session for consideration.

Follow-Up Action: The Committee supports the IGA Cost-Sharing Agreement to Fund an Interlocal Funding Agreement for Colorado River Conservation Project and will forward to the next Study Session for consideration.

---

6. The Board of Water Works of Pueblo Water Lease Agreement

Summary of Issue and Discussion: A. Davis and R. Kienitz gave a presentation. This agreement will become effective in 2024 and be in effect for ten (10) years with an opportunity to renew at the end of that period for an additional ten (10) years. The cost of the water will increase from a cost in 2021 of $256.38 per acre-foot to $775.51 per acre-foot in 2024. Any subsequent increase in price will be that percentage increase in the rate that Pueblo Board of Water Works charges their customers, if any.

Council Member Lawson asked, whatever the rate increase is for the payers in Pueblo is that what we will always go by in terms of the leasing agreements when it renews? R. Kienitz replied, yes. A. Davis added, there are different ways to structure increases when there is a long term lease and Pueblo chose the structure. Council Member Sundberg asked, it looks like the rate may have tripled since the last time it was negotiated. Do you think these rates are fair? M. Brown replied, the rate went up significantly and we tried to negotiate a lower rate which didn't work out. M. Brown explained that the price increase is not that different from what we have implemented in what we charge those entities to whom we lease water.

Outcome: The Committee supports the Board of Water Works of Pueblo Lease and forwarded to next Regular Session for consideration.

Follow-Up Action: The Committee supports the Board of Water Works of Pueblo Lease and will forward to the next Regular Session for consideration.

---

7. River Compacts Presentation

Summary of Issue and Discussion: A. Davis gave a presentation.

Council Member Lawson asked, on the map where it states 19 states rely on the Colorado water, do we look at population? I'm sure that it has an impact on if they're getting a lot of our water. A. Davis replied, water that is allocated to another state is their water and not our water. Most states entered into these compacts in order to ensure water was available for future population growth.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: Council Member Sundberg asked, for the superfund site, by the landfill, what amount of water is being used to clean the site and what is the water source. M. Brown replied, they are using groundwater. A. Davis added, we do augment their groundwater

pumping up to 9 acre-feet per year (we put 9 acre-feet into the South Platte river system to partially offset some of their pumping).

Outcome: Informational only.

Follow-Up Action: Information only,

---

6. Confirm Next Meeting

The next meeting is scheduled for March 16, 2022, 10:30 a.m. via WebEx.

X
Steve Sundberg (Mar 22, 2022 07:32 MDT)

Steve Sundberg
Chair, Water Policy Committee

Sarah Young, Deputy Director of Planning and Engineering, Aurora Water / Ian Best Assistant City Attorney

Motion by Bergan, second by Lawson, to approve items 10a – 10j.

Voting Aye: Mayor Coffman, Bergan, Coombs, Gardner, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

Mayor Coffman called for a brief recess of Council to allow staff to provide call-in instructions.

11. **RESOLUTIONS**

11.a. **Joint Wet Weather Monitoring and other Colorado Discharge Permit Activities Intergovernmental Agreement.**

R2022-53 Consideration to APPROVE A RESOLUTION of the City Council of the City of Aurora, Colorado, expressing the Aurora City Council's support of an Intergovernmental Agreement among the City of Aurora, Colorado, by and through its Utility Enterprise, the Urban Drainage and Flood Control District, d/b/a Mile High Flood District, the City and County of Denver and the City of Lakewood regarding funding of Joint Wet Weather Monitoring and other Colorado Discharge Permit Activities.

Sean Lieske, Environmental Services Manager, Aurora Water / Ian Best, Assistant City Attorney

11.b. **Conveyance of an easement to Morgan County Rural Electric Association (MCREA) on City-owned land in Washington County.**

R2022-54 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE CONVEYANCE OF EASEMENT AREA CONTAINING APPROXIMATELY 0.911 ACRES OF CITY-OWNED LAND IN WASHINGTON COUNTY TO MORGAN COUNTY RURAL ELECTRIC ASSOCIATION (MCREA)

Tom Clark, Senior Real Estate Specialist, Public Works / Michelle Gardner, Senior Assistant City Attorney

11.c. **Appointing Directors to the Hilltop at DIA Metropolitan District Nos. 1-3 Board of Directors**

R2022-55 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPOINTING DIRECTORS TO FILL VACANCIES ON HILLTOP AT DIA METROPOLITAN DISTRICT NOS. 1-3 BOARD OF DIRECTORS

Cesarina Dancy, Senior Development Project Manager, Office of Development Assistance / Brian Rulla, Assistant Attorney II

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Water Policy Committee (WPC) Meeting

March 15, 2023

Members Present: Council Member Steve Sundberg (Chair), Council Member Alison Coombs (Vice Chair), Council Member François Bergan

Absent:

Others Present: Rachel Allen, Fernando Aranda, Greg Baker, Ian Best, Todd Brewer, Dan Brotzman, Marshall Brown, Melinda Bourdeau, Alex Davis, James DeHerrera, Steve Fiori, Rory Franklin, Sonya Gonzalez, Kevin Linder, Dan Mikesell, John Murphy, Swirvine Nyirenda, Casey Rossman, Sherrie Scaggiari, Catherine Schumacher, Gail Thrasher, Rich Vidmar, Tim York, Sarah Young, Cheinette Van Wyk

---

1. Approval of Minutes

The February 15, 2023, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update

Summary of Issue and Discussion: CM Coombs asked if the forecasted rain and snow for tonight (3/15/2023) in the high country will result in faster than expected snow melt, how will it impact our reservoirs, and concerns regarding flooding? J. Murphy responded, if the rain is significant, it can affect the melting of the snowpack which would not be beneficial to us since our water rights will not become active until April. CM Coombs asked if the reduction in snowpack would negatively impact Aurora? J. Murphy replied, it could potentially negatively impact us if the water rights in affect now, downstream of the South Platte where larger irrigation reservoirs are located, are filling up due to early snowmelt and higher stream flows which will decrease the amount of water we can collect. However, J. Murphy stated he is not seeing that the stream flows have increased in the data thus far. M. Brown added, the moisture content of the snow is higher this year as well which is an additional benefit to the city.

CM Sundberg asked, will we see Quincy reservoir and Aurora reservoir down to the point where there is concern? J. Murphy stated the Aurora reservoir is full right now as a result of operationally moving water down from reservoirs higher in the system. M. Brown added, historically, we always keep Aurora and Quincy reservoirs full to reduce operational risk to the city. Where you will see the largest impact to the reservoirs is Homestake or Spinney where there are dramatically lower water levels. CM Sundberg stated, hopefully the councilmembers in

doubt of the lower reservoir levels will be able to participate in the water tour this year to understand the impact of the drought.

Outcome: The consent items were supported as presented.

Follow-Up Action: The consent items were supported as presented.

---

3. Large Water User Restriction

Summary of Issue and Discussion: S. Young gave a presentation discussing a newly developed matrix system which will grade potential large water users that do not return wastewater flow back to the system which is important to recapture. The goal of the matrix is to is to evaluate customers with a high water use and potentially taking water out of the system and suggesting they not be allowed to in the system due to the impacts on sustainability. With customers whose water use is high, and the recoverable use is high we want to discuss conservation efforts and evaluate the positive impacts they may have to the city including employment/high value jobs, capital investment to the city, diversity in employee base, national recognition, and support of an existing employment center. This will allow the city to determine if the benefits will outweigh the high water use.

CM Bergan asked if the criteria were weighted especially with organizations that may fall into the red categories? S. Young responded, currently it is not, but the aim is to refine the terms in the matrix and start utilizing it. M. Brown added, the first goal is to try to work with the large organizations to move them out of the red through conservation efforts or efficiencies in landscape designs to drive their water use down. The dark red portion of the matrix will not be allowed whereas the lighter red will require further discussions and evaluations. CM Bergan asked, will this be an evaluation of new and current users? S. Young responded, yes, this will be for new users. M. Brown added, while the matrix will not be used for existing users, we are already having conversations with them about conservation including nonfunctional turf.

CM Coombs asked, are we able to require other sustainability measures that may relate to climate change and greenhouse gas reduction to address the high impact they are having environmentally? M. Brown responded, in the comprehensive plan, the sustainability section addresses other environmental issues in addition to water use and conservation and will be considered through further development of the matrix and criteria.

CM Sundberg asked, what are some of the other water users industrially that don't allow recapture? S. Young stated, other users that would land in the deep red would be a concrete batch plant which is high water use and the water leaves the system or canning operations. M. Brown added, beverage and food processing would also land in the dark red.

CM Coombs asked, where on the matrix would fracking fall as far as volumetric use and water quality? S. Young stated, she would look into it further and reach out to CM Coombs directly to follow-up.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

4. Joint Wet Weather Monitoring Intergovernmental Agreement

Summary of Issue and Discussion: S. Scaggiari gave an overview of the IGA. Aurora, in conjunction with Denver and Lakewood, have continued to work cooperatively with the Mile High Flood District (previously the Urban Drainage and Flood Control District) since 1996 to meet a number of permit conditions related to municipal separate storm sewer (MS4). Aurora's share of the overall project costs is 20%. The overall project cost for 2023 is expected to be $145,000.00 with Aurora's share at a maximum of $29,000.00. The term of this agreement is one year.

Outcome: The Committee supports the Joint West Weather Monitoring and other Colorado Discharge Permit Activities and forwarded to the next Council Meeting for consideration.

Follow-Up Action: The Committee supports the Joint Wet Weather Monitoring and other Colorado Discharge Permit Activities and will forward to the next Council Meeting for consideration.

---

5. Storage Project Update Presentation

Summary of Issue and Discussion: R. Vidmar gave a presentation.

CM Bergan asked, there is still a lot of land that needs to be acquired, is that something that is stalled, or we are waiting on an agreement? R. Vidmar responded, we held off on the land acquisition until the feasibility study was completed after the reconfiguration of the dam. Since the feasibility study has concluded, we will continue with the land acquisitions. CM Bergan asked, is it necessary to acquire that much land, especially on the northside where the land looks detached from the reservoir. R. Vidmar responded, yes, the land will include the reservoir and the buffer around the reservoir. The additional land will also allow for greater watershed protection.

CM Bergan asked, regarding the East reservoir, will the oil and gas operations be taken into consideration as part of the land investigations? R. Vidmar responded, yes, we will evaluate the oil and gas operations as part of the land investigation.

CM Bergan asked if there was anything the councilmembers can do to assist in the permitting process for Wild Horse? A. Davis responded, her team has a great relationship with the Bureau of Land Management, (BLM) and they have been very supportive. Additionally, the BLM has assigned an incredibly qualified project manager to the project.

CM Sundberg asked, so there are two conceivable future reservoirs East? M. Brown responded, yes, it has been narrowed down to two feasible sites. We are prioritizing East storage to take advantage of the reuse coming off the South Platte train but will only choose one of the two potential sites.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

6. Direct Potable Reuse Presentation

Summary of Issue and Discussion: C. Schumacher and K. Linder gave a presentation.

CM Bergan asked, are we looking at the Sand Creek River because the South Platte River water is not very clean? M. Brown responded, right now, our reusable water is going to Metro Water Recovery where it is being treated and then released into the South Platte River. We do take some of that water into the Sand Creek facility and use it for irrigation purposes. However, the technology is now available to clean up the reuse water directly instead of routing it to Metro which will increase cost effective efficiencies in our system. It will also improve water quality.

CM Coombs asked, since the cost of chemicals to treat the water have gone up and we would be processing more water through Sand Creek, is that going to increase costs, or will they be offset with direct potable reuse? M. Brown responded, while the costs of chemicals and electricity will increase for our facilities, we will avoid higher costs to Metro which reduces treatment cost redundancies.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

7. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: M. Brown thanked staff at Aurora Water for all their hard work and expertise.

Outcome: Informational only.

Follow-Up Action: Informational only.

8. Confirm Next Meeting

The next meeting is scheduled for April 19, 2023, 10:30 a.m. via WebEx.

X Steve Sundberg (Apr 21, 2023 02:58 MDT)

Steve Sundberg
Chair, Water Policy Committee

MINUTES

Regular Meeting of the **Aurora City Council**
Monday, April 10, 2023

1. **RECONVENE REGULAR MEETING OF APRIL 10, 2023, AND CALL TO ORDER**

Mayor Coffman reconvened the regular meeting of the City Council for April 10, 2023, at 6:30 p.m.

2. **ROLL CALL**– Kadee Rodriguez, City Clerk

COUNCIL MEMBERS PRESENT: Mayor Coffman, Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

COUNCIL MEMBERS ABSENT: Mayor Pro Tem Gardner

Public call-in instructions were provided in both English and Spanish.

3. **INVOCATION/MOMENT OF SILENCE**– Mike Coffman, Mayor

Mayor Coffman led the prayer for the April 10th Council Meeting.

4. **PLEDGE OF ALLEGIANCE** (all standing)

5. **EXECUTIVE SESSION UPDATE**

Mayor Coffman proceeded with an update on the executive session, where participants had discussed negotiations on contracts and legal advice on rulemaking.

6. **APPROVAL OF MINUTES**

6.a. **March 13, 2023 Meeting Minutes**

Motion by Sundberg, second by Bergan to approve March 13, 2023 meeting minutes.

Voting Aye: Mayor Coffman, Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

6.b. **March 27, 2023 Meeting Minutes**

Motion by Sundberg, second by Bergan to approve March 27, 2023 meeting minutes.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Voting Aye: Mayor Coffman, Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

7. **PROCLAMATIONS OR CEREMONIES**

7.a. **Genocide Awareness and Prevention Month**
Mayor Coffman proclaimed April 2023 as Genocide Awareness and Prevention Month, condemning all acts of genocide and crimes against humanity, and urging the community to embrace diversity, speak kindly, and treat everyone with kindness.

7.b. **Aurora Arbor Week**
Mayor Coffman proclaimed April 21st, 2023, as Aurora Arbor Week.

7.c. **Arab American Heritage Month**
CM Lawson read a proclamation declaring April 2023 as Arab American Heritage Month.

7.d. **Child Abuse Prevention Month**
CM Lawson read a proclamation declaring April 2023 as Child Abuse Prevention Month and invited citizens to raise awareness and increase prevention efforts.

8. **PUBLIC INVITED TO BE HEARD**

(Non-agenda-related issues only)

Council heard public In-person testimonies on non-agenda-related items.

9. **ADOPTION OF THE AGENDA**

Motion by Marcano, second by Zvonek to adopt the agenda.

Voting Aye: Mayor Coffman, Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

10. **CONSENT CALENDAR - MOTIONS**

10.a. **Motions**

10.a.1 **Consideration to EXTEND A COMPETITIVELY BID CONTRACT to Keesen Landscape Management, Inc., Englewood, CO in the Not-to-Exceed Amount of $250,000.00 for Abatement Services as Required Through March 31, 2024. (B- 4543)**

Sandra Youngman, Manager of Code Enforcement / Dave Lathers, Senior Assistant City Attorney

Sandra Youngman, Manager of Code Enforcement, provided a summary of the item.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

CM Sundberg asked if Keesen had been able to keep up with the daily demand for abatements and if they had enough crew to handle the job. Sandra Youngman, Manager of Code Enforcement in Housing and Community Services, confirmed that Keesen had been keeping up with code enforcement abatements.

CM Sundberg also inquired about Keesen's landscaping services and if they were related to homeless services and abatement. S. Youngman clarified that the contract with Keesen was specifically for weed, trash, and debris abatement, and they were not involved in cutting trees.

Motion by Sundberg, second by Lawson to approve item 10.a.1.

Voting Aye: Mayor Coffman, Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

10.a.2 Channel Aggradation Study and Remediation Plan Phase 1 – Stantec Consulting Services – Amendment Nine

Consideration to AMEND AN OPENLY SOLICITED CONTRACT with Stantec Consulting Services, Inc., Fort Collins, Colorado in the Amount of $35,000.00 to Add Required Survey and Letter of Map Revisions Submittal Process for the Channel Aggradation Study and Remediation Plan Phase 1 Project, R-1725.

Andrea Long, Principal Engineer, Aurora Water / Dave Lathers, Senior Assistant City Attorney

10.a.3 Tetra Tech, Inc. Professional Engineering Services for Wild Horse Dam and Reservoir

Consideration to AMEND AN OPENLY SOLICITED CONTRACT to Tetra Tech, Inc., Denver, Colorado in the Amount of $10,496,837.00 for Providing Professional Engineering Services for the Feasibility Design, and Permitting Support for Wild Horse Dam and Reservoir

John P. Clark, Principal Engineer, Aurora Water / Dave Lathers, Senior Assistant City Attorney

10.a.4 Consideration to APPROVE AN AMENDMENT TO AN OPENLY SOLICITED CONTRACT to Dewberry Engineers, Inc., Denver, Colorado in the Amount of $970,308.00 for 30% Engineering Design for the Wild Horse Reservoir Pipelines, RFP R-2100

John P. Clark, Principal Engineer, Aurora Water / Dave Lathers, Senior Assistant City Attorney

10.a.5 Consideration to AWARD A COMPETITIVELY BID CONTRACT with US Distributing, Inc. Denver, Colorado in the Amount of $90,000.00 for AC Delco OEM Parts as Required by Fleet Through March 31, 2024. (B-4687)

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Ron Forrest, Fleet Manager, Public Works / Dave Lathers, Senior Assistant City Attorney

10.a.6 Consideration to AWARD A SINGLE SOURCE CONTRACT to Iron Code Technologies, Denver, CO in the Amount of $225,000.00 for a Municipal Court Case Management System

Due to the workload of the City Prosecutors, the risk of sanctions from the Courts, and the time required to implement the solution, staff request a waiver of reconsideration so work can commence as soon as possible.

Scott Newman, Chief Information Officer / Dave Lathers, Senior Assistant City Attorney

10.b. **Planning Matters**

10.c. **Appointments to Boards and Commissions**

10.c.1 Consideration to Appoint One (1) Member to the Veterans Affairs Commission

Kadee Rodriguez, City Clerk / Dave Lathers, Senior Assistant City Attorney

10.c.2 Consideration to Appoint One (1) Member to the Open Space Advisory Board

Kadee Rodriguez, City Clerk / Dave Lathers, Senior Assistant City Attorney

10.c.3 Consideration to Appoint Three (3) Members to the Golf Course Advisory Committee

Kadee Rodriguez, City Clerk / Dave Lathers, Senior Assistant City Attorney

Motion by Bergan, second by Marcano to approve the Consent Calendar – Motions with item 10.a.1 removed.

Voting Aye: Coffman, Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

11. CONSENT CALENDAR - RESOLUTIONS AND ORDINANCES

11.a. Resolutions

11.a.1 Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement

R2023-37 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA,

♦ *The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.*

COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN INTERGOVERNMENTAL AGREEMENT AMONG THE CITY OF AURORA, COLORADO, BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, THE CITY AND COUNTY OF DENVER, AND THE CITY OF LAKEWOOD REGARDING FUNDING OF JOINT WET WEATHER MONITORING AND OTHER COLORADO DISCHARGE PERMIT ACTIVITIES

Sherry Scaggiari, Manager of Environmental Permitting, Aurora Water / Ian Best, Assistant City Attorney

11.a.2 Daniel P. Mikesell Water Operations Facility Dedication Plaque

R2023-38 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT FOR THE DEDICATION PLAQUE TO BE PLACED IN THE DANIEL P. MIKESELL WATER OPERATIONS FACILITY

Greg Baker, Manager of Water Public Relations, Aurora Water / Ian Best, Assistant City Attorney

11.a.3 Intergovernmental Agreement for Voter Service Polling Centers (VSPC) and Ballot Drop Box Locations

R2023-39 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, APPROVING THE INTERGOVERNMENTAL AGREEMENT BETWEEN ARAPAHOE COUNTY AND THE CITY OF AURORA FOR THE COORDINATED ELECTIONS TO BE HELD NOVEMBER 7, 2023 AND NOVEMBER 5, 2024

Kadee Rodriguez, City Clerk / Dave Lathers, Senior Assistant City Attorney

11.b. Finalizing of Ordinances

Ordinances approved unanimously at first reading.

11.b.1 Consideration to Update City Code that Governs Purchasing - City Code Chapter 2 Administration, Article VI Purchases and Contracts

2023-08 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING IN ITS ENTIRETY ARTICLE VI OF CHAPTER 2 OF THE CITY CODE PERTAINING TO CONTRACTS AND PURCHASING TO ACCOMMODATE AND INCORPORATE CURRENT CITY ORGANIZATIONAL CHART POSITION TITLES, TO CONFORM TO LONGSTANDING CITY PURCHASING PRACTICES AS REFLECTED IN ADOPTED PURCHASING PROCEDURE LETTERS AND TO REFLECT ADOPTED CITY BUSINESS PRACTICES MEMORANDA, AND REMOVING REFERENCES TO DISCARDED PURCHASING PRACTICES, AND GENERALLY CLARIFYING THE LANGUAGE OF THE ARTICLE

Bryn Fillinger, Manager of Purchasing Services, Finance / Dave Lathers, Senior Assistant City Attorney

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Motion by Bergan, second by Lawson to approve the Consent Calendar - Resolutions and Ordinances.

Voting Aye: Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

12. **PUBLIC HEARINGS**

12.a. **Majestic Commercenter II as a Blighted Area Designation**

2023-10 A PUBLIC HEARING AND INTRODUCTION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, DESIGNATING THE PROPOSED MAJESTIC COMMERCENTER II URBAN RENEWAL AREA AS A BLIGHTED AREA APPROPRIATE FOR URBAN RENEWAL

Jennifer Orozco, Senior Development Project Manager, Planning and Development Services / Rachel Allen, Manager of Client Services, City Attorney

Mayor Coffman opened the public hearing.

Jennifer Orozco, Senior Development Project Manager, provided a summary of the item.

CM Bergan asked about the minimum requirement for blighting factors. J. Orozco explained that at least four factors must be met for an urban renewal project, but in this case, with a single property owner, they could have as few as one factor of blight.

Mayor Coffman closed the public hearing.

Motion by Sundberg, second by Bergan to approve item number 12.a.

Voting Aye: Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

12.b. **Majestic 5280 RV Storage Zoning Map Amendment**

2023-11 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, REZONING A PARCEL OF LAND MEASURING 2.14 ACRES, MORE OR LESS, LOCATED AT THE SOUTHWEST CORNER OF SMITH ROAD AND SABLE BOULEVARD, CITY OF AURORA, COUNTY OF ADAMS, STATE OF COLORADO, FROM MIXED-USE CORRIDOR ZONE DISTRICT (MU-C) TO BUSINESS/TECH ZONE DISTRICT (I-1) AND AMENDING THE ZONING MAP ACCORDINGLY (5280 RV STORAGE ZONING MAP AMENDMENT)

Liz C Fuselier, Planner, Planning and Development Services / Dan Money, Senior Assistant City Attorney

Mayor Coffman opened the public hearing.

Liz Fuselier, Planner, provided a summary of the item.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

Council heard public in-person testimony.

CM Murillo asked staff to address the concerns raised in the public testimony. L. Fuselier responded.

CM Murillo asked about the drainage issues mentioned in the public testimony. L. Fuselier responded that the drainage issues were reviewed by Public Works and have been approved by the city through the site plan.

CM Coombs asked for clarification regarding any additional drainage to address the concerns expressed. Jessica Melton with JL Melton Construction, representing the property owner, explained that a drainage study had been conducted and the drainage would comply with city regulations and requirements.

CM Murillo asked if there were other mixed-use zoned areas nearby and the reasoning behind the initial zoning. Liz Fuselier responded. CM Murillo expressed her concerns about the highest and best use for the property and asked about access to bus stations. Liz Fuselier confirmed there are bus stops on Sable and Smith Road and explained that infrastructure will be brought up to code.

CM Murillo sought clarification on whether the RV storage was the best and highest use for the property, as it is currently zoned for alternative development. L. Fuselier confirmed that the RV storage is a use permitted under I-1 zoning. J. Melton added additional information.

CM Marcano asked about the access points for the overall project. L. Fuselier mentioned that there would be access off of Sable Boulevard, and J. Melton provided a site plan.

CM Marcano then asked if there was a possibility to create a pedestrian path along the northern side of the property to address the concerns raised by the community members. J. Melton explained that it might not be realistic due to a small triangle of land owned by a separate party.

CM Marcano appreciated the new sidewalks but sought clarification on whether a pedestrian path could be incorporated along the perimeter of the property instead of cutting through it. J. Melton expressed concerns that creating such a path could potentially not be in the best interest of the area and the community.

CM Marcano asked for more details on the environmental concerns and why the area would be unsuitable for certain uses based on previous activity at or near the site. L. Fuselier responded.

CM Coombs asked if there was a reason why the area would not be suited for other types of commercial activities, such as retail services, that would benefit the neighborhood and community. L. Fuselier clarified that only two acres of the eight-acre parcel were zoned MU-C and that the development opportunity for that northeast corner would be just for MU-C. She confirmed that most of the parcel was already industrial, and they were trying to rezone the MU-C portion to match the rest of the area.

♦ ***The** City **Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

CM Bergan pointed out that there had been no desire from developers to develop that one corner for its current zoning, and L. Fuselier agreed, mentioning that they had received numerous pre-applications for the entire parcel that typically included requests for rezoning. CM Bergan noted that it made sense from a compatibility perspective to keep the zoning consistent, as having just one portion zoned as MU-C was odd.

Mayor Coffman closed the public hearing.

Motion by Jurinsky, second by Sundberg to approve item number 12.b.

Voting Aye: Bergan, Jurinsky, Lawson, Sundberg, Zvonek

Voting Nay: Coombs, Marcano, Medina, Murillo

12.c. **Crestone Peak Resources Operator Agreement Revisions to Exhibits A and B**

R2023-40 A PUBLIC HEARING AND CONSIDERATION OF A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF REVISIONS TO EXHIBITS A AND B OF THE CRESTONE PEAK RESOURCES OPERATOR AGREEMENT

Jeffrey S. Moore, Manager of Oil and Gas Division, Planning and Development Services / Ian Best, Assistant City Attorney

Outside speaker: Dan Harrington, Asset Development Lead, Civitas Resources

Mayor Coffman opened the public hearing.

Jeffrey Moore, Manager of Oil and Gas, and Dan Harrington, the Asset Development lead at Citivas Resources, provided a summary of the item.

Mayor Coffman closed the public hearing.

Motion by Sundberg, second by Zvonek to approve item number 12.c.

Voting Aye: Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

13. **INTRODUCTION OF ORDINANCES**

14. **FINALIZING OF ORDINANCES**

14.a. **Northeast Aurora Planning and Annexation Boundary Expansion Comprehensive Plan Amendment**

2023-07 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING THE 2018 COMPREHENSIVE PLAN TO ENLARGE THE PLANNING AND ANNEXATION BOUNDARY LOCATED IN THE NORTHEAST SECTION OF THE CITY AND

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

DESIGNATING A PLACETYPE OF INDUSTRIAL HUB TO THE AREA (NORTHEAST PLANNING AND ANNEXATION BOUNDARY EXPANSION COMPREHENSIVE PLAN AMENDMENT)

Daniel Krzyzanowski, Planning Supervisor, Planning and Development Services / Daniel L. Money, Senior Assistant City Attorney

Council heard public in-person testimony.

Daniel Krzyzanowski from the Planning and Development Services Department and Brian Gaffney, the Principal of EPS, provided a summary of the item.

CM Coombs expressed concerns about the 12-square mile area and leapfrog development, and asked if the staff had an analysis of a smaller area immediately adjacent to the current city annexation boundaries, including the Chelsea property.
D. Krzyzanowski and B. Gaffney responded.

Mayor Coffman emphasized that the current discussion was only the first step and not an annexation itself. The Council would still have the ability to accept, or decline based on further analysis if the applicant decided to annex into the city.

CM Sundberg mentioned that there was a city-approved alternative smaller annexation plan that they received information on and suggested it might be a good alternative to consider as a substitute motion for the current discussion.

CM Coombs expressed her support for the substitute motion, citing that the concerns about leapfrog development are not applicable to this site since it is adjacent to the city and fills a small gap in the current planning and annexation boundary. She also noted that it is not speculative in nature for a significant portion of the site.

CM Marcano echoed CM Combs' sentiments and expressed appreciation for the applicant demonstrating that the proposal is not speculative. He believes the proposed use makes sense given the industry in the area and is happy to support the smaller expansion.

Motion by Sundberg, second by Bergan to approve the substitute motion to 14.a.

Voting Aye: Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

14.b. **Ordinance to Amend A.M.C Section 134**

2023-09 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING ARTICLE X CHAPTER 134 OF THE CITY CODE PERTAINING TO THE AURORA PARKING AND TRAFFIC ENFORCEMENT BUREAU AND AUTOMATED VEHICLE IDENTIFICATION SYSTEM CITATIONS

Carrigan Bennett, Police Lieutenant / Megan Platt, Assistant City Attorney

Lieutenant Carrigan Bennett provided a summary of the item.

Motion by Medina, second by Marcano to approve item number 14.b.

♦ *The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.*

Voting Aye: Bergan, Coombs, Jurinsky, Lawson, Marcano, Medina, Murillo, Sundberg, Zvonek

15. **ANNEXATIONS**

16. **RECONSIDERATIONS AND CALL UPS**

17. **GENERAL BUSINESS**

18. **REPORTS**

18.a. **Mayor**

Mayor Coffman announced that he would be hosting a Town Meeting on April 15th from 2:00 to 3:30 pm at the Central Library. The meeting would cover topics such as an update on the Consent Decree, homeless issues, and law enforcement issues, with Interim Chief Art Acevedo also presenting. The Mayor encouraged people to attend.

18.b. **Council**

CM Lawson reported that the most significant issue currently being discussed by the FSIR Committee is Senate Bill 213, the Land Use Bill, which has many amendments being considered. She stated that she and CM Sundberg attended the End Veteran Suicide Gala organized by Warriors Now, which aimed to raise money and awareness for Veteran suicide prevention. The event was successful and raised close to $40,000, which will be used for programs to support Veterans and help develop a wellness center.

CM Jurinsky announced that the next At-Large Town Hall will be held on June 15th at the People's Building on Colfax at 6:00 p.m., with all four At-Large Council Members in attendance.

CM Zvonek shared that DRCOG held a special board meeting to discuss Senate Bill 213, the Governor's Statewide Land Use Bill. The board voted to actively oppose the bill, as did several local jurisdictions, counties, cities, and CML. DRCOG will continue working to improve the bill but opposes it in its current state. Additionally, they discussed the EPA's Climate Pollution Reduction Grants and the possibility of DRCOG being the lead agency to facilitate them. CM Zvonek mentioned that he will circulate a letter to his colleagues suggesting their support and exploring ways for Aurora to apply for grants, particularly for equipment funding from the federal government.

CM Murillo attended several events over the weekend and expressed gratitude to Somos Dance Studio for their grand opening in Ward I. She highlighted the importance of supporting BIPOC-owned small businesses and building a local infrastructure for fun experiences. She also attended a charity event by the Heavy Hands, Heavy Hearts Foundation, supporting their Gloves Up, Guns Down initiative for youth violence prevention. Lastly, she announced her monthly Town Hall meeting scheduled for Thursday, April 27th at 6:00 p.m. at the MLK Library.

♦ ***The** City **Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

CM Sundberg shared his wife's experience as a survivor of the Rwandan genocide and the power of forgiveness. He mentioned being a court-appointed special advocate and encouraged others to volunteer. He talked about attending various events, including the End Veteran Suicide gala, Somos Dance Studio opening, and the Chamber Awards Event. He and Councilwoman Jurinsky are visiting an Adams 12 Law Enforcement Crime Scene Pathway Curriculum to learn how young people are being introduced to careers in law enforcement and crime scene investigation. Lastly, he announced the Ward II Town Hall on the 20th, where they will discuss alternative energy solutions, oil and gas, and other issues.

CM Medina mentioned hosting a Town Hall last week with a robust agenda that included open space, budget, and the Consent Decree. Many questions arose about the Consent Decree, and community members felt disconnected from the information. He plans to work on finding a better way to present and share information about the Consent Decree, as well as how it's being monitored in the community.

CM Marcano announced the final public hearing for the Charter Review Committee, which will take place on April 13th at 7:00 p.m. in the Council Chambers. He encouraged people to submit comments online or in person at the hearing. He also mentioned the upcoming Ward IV meeting on April 13th at 6:30 p.m. at Colorado Early Colleges, featuring an overview of the 2023 Budget and light appetizers from Nile Ethiopian.

CM Coombs mentioned that her next Ward Town Hall took place on Tuesday at 6:00 p.m. at Central Rec Center, with a hybrid format. The event featured a presentation on the Consent Decree and County Assessor PK Kaiser discussing property valuations and appeals for the upcoming property tax cycle. Representatives from the PAR Department and Fire Department were also present.

CM Bergan mentioned that those recommended for the Golf Commission, Veterans Commission, and Open Space Board had been approved as part of the consent calendar. Despite missing some evening events due to illness, she participated in virtual meetings, including the Region 9 opioid meeting. They finalized scopes of work for different subgroups, prepared to finalize the RFQ document and evaluation rubric, and planned to advertise the RFQ. After evaluating applications, they will allocate the opioid settlement money to help address the opioid addiction problem in the city and country. The settlement funds will continue for 18 years beyond this first phase.

Mayor Coffman mentioned that he participates in a public safety rotation. He recently went on a ride along with Officer Madison Burzynski from District 3, who is a three-year veteran of the Aurora Police Department. The week before, he observed operations at the detention facility. He clarified that he was observing and not in detention himself. Next weekend, he plans to observe the Marshals' interface with the weekend court.

19. ADJOURNMENT

Mayor Coffman adjourned the regular meeting of the City Council.

♦ ***The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.***

MIKE COFFMAN, MAYOR

Water Policy Committee (WPC) Meeting

March 20, 2024

Members Present: Council Member Steve Sundberg (Chair), Council Member Stephanie Hancock (Vice Chair), Council Member François Bergan

Absent:

Others Present: Rachel Allen, Greg Baker, Ian Best, Dan Brotzman, Marshall Brown, Melina Bourdeau, Shonnie Cline, Mayor Mike Coffman, Alexandra Davis, James DeHerrera, Jessica LaPierre, Marena Lertch, Luz Lopez, John Murphy, Swirvine Nyirenda, Casey Rossman, Sam Scorza, Jessi Scott, Oona Sullivan, Cheinette Can Wyk, Richard Vidmar, Earl Wilkinson, Tim York, Sarah Young

---

1. Approval of Minutes

The February 21, 2024, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update

Summary of Issue and Discussion: None.

Outcome: The consent items were supported as presented.

Follow-Up Action: None.

---

3. Fifth Amendment to the 22nd Ave. Outfall to Westerly Creek Improvement Project Intergovernmental Agreement (IGA) between the City of Aurora and Mile High Flood District

Summary of Issue and Discussion: S. Scorza gave a presentation on the fifth amendment to an Intergovernmental Agreement between the City of Aurora and the Mile High Flood District regarding the final design and construction of drainage and flood control improvements for the 22nd Avenue outfall to Westerly Creek.

CM Bergan asked, will this be the last amendment for this project? S. Scorza responded, there will likely be one more amendment following this one that will complete this project.

CM Hancock asked, have we started construction on this project yet? S. Scorza responded, we are still in the design phase so we are not ready for construction yet. There is still a lot of ongoing communication between the stakeholders that will lead us to the best possible design including more curvature to the stream. CM Hancock asked, will the new curvature help with the flow of the stream to prevent flooding? S. Scorza stated, yes, the stream will be moved away from properties that have the potential to flood and allow flood waters to move more effectively downstream.

Outcome: The Committee supports the Fifth Amendment to the 22nd Aven Outfall to Westerly Creek Improvement Project Agreement between the City of Aurora and Mile High Flood District and forwarded to the next Council Meeting.

Follow-Up Action: A Fifth Amendment to the 22nd Ave Outfall to Westerly Creek Improvement Project Agreement will be forwarded to the next Council Meeting.

---

4. Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement (IGA)

Summary of Issue and Discussion: J. LaPierre gave a presentation on the Joint West Weather Monitoring IGA with the Urban Drainage and Flood Control District, d/b/a Mile High Flood District, the City and County of Denver, and the City of Lakewood, which involves collecting runoff at a number of automated stations in the metro area and analyzing the water quality for specific pollutants as agreed upon in the original Municipal Separate Storm Sewer (MS4) permit in 1996.

CM Hancock asked, where are we in the process of implementing this project? J. LaPierre responded, the season for sampling is from April 1st through October 31st, and the sampling will take place along the South Platte River up near Sand Creek and West Tollgate Creek. The data will then be collected and submitted in our annual MS4 report to the State which is a regulatory requirement for our MS4 permit. CM Hancock asked, what does the sampling consist of? J. LaPierre responded, the sampling records the streamflow and precipitation data after any major streamflow events including heavy snowmelt and heavy rainstorms.

Outcome: The Committee supports the Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement and forwarded to the next Council Meeting.

Follow-Up Action: The Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement will be forwarded to the next Council Meeting.

---

5. Turf Transformation for Water Conservation and Hydroelectric Energy Recovery Project Grant

Summary of Issue and Discussion: L. Lopez gave a presentation on a proposed grant that will assist the City in enhancing water and energy efficiency, utilize resources judiciously, achieve additional cost savings, reduce its greenhouse gas foot print, enhance water conservation, and enhance biodiversity through the Sustainable Turf Transformation for Water Conservation and Hydroelectric Energy Recovery Project with help from the Department of the Interior, Bureau of Reclamation, Water Resources and Planning Office.

CM Began asked, what are the anticipated savings in water usage from the turf conversion and how long will it take to recoup the $408,000 in grant funding? M. Brown responded, we are paying roughly $20,000 to $25,000 per acre foot to acquire water rights multiplied by the 31.5 acre feet of water saved per year which is roughly $800,000 in savings. This savings does not account for additional costs associated with water supply, including treatment, however, with the inclusion of the grant, the cost benefit is great.

CM Bergan asked, what will go in place of the turf? M. Brown responded, some of the replacement will be the Tahoma 31 Bermuda grass and some will be replaced with native grasses. With the native grass, we will essentially remove any need for irrigation with a slightly higher cost-savings benefit than with the Tahoma 31 Bermuda grass.

CM Sundberg asked, when will we find out if the grant has been accepted? L. Lopez responded, we should find out if our grant application has been accepted by the end April 2024.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

6. Aurora Watershed Management and Source Water Protection Plan

Summary of Issue and Discussion: R. Vidmar gave a presentation on the Aurora Watershed Management and Source Water Protection Plan which formalizes Aurora Water's approach to source water protection.

CM Bergan asked, is the State open to thinning the forest? R. Vidmar responded, if we are working on any public or federal land, any prescription thinning has to go through the National Environmental Policy Act to evaluate the impacts of doing a thinning project. Therefore, the City works closely with the Forest Service during those projects, including the project funded last year at Miller Gulch. CM Bergan asked, is there a benefit to doing those projects? R. Vidmar responded, yes, it creates a defensible space to get the fire to the ground where it is easier to fight.

CM Sundberg asked, are we happy with the States efforts? R. Vidmar responded, yes, there is a lot of communication and engagement with the Colorado State Forest Service and the Colorado State University in that regard.

Mayor Coffman asked, how are we doing with our Federal Partners? R. Vidmar responded, we do have staff that is solely focused on watershed health, and has been doing very good work on establishing relationships with the National Forest Service on a Federal level. Mayor Coffman asked, what are some of our most difficult areas regarding fuel build-up when it comes to overgrowth in our watershed? R. Vidmar responded, one of our most difficult areas is the slow pace of tagging trees to be removed because it is all done by hand. Additionally, the type of trees that are being cut are not attractive to the lumber industry, making it difficult to get rid of the additional timber. Mayor Coffman asked, if we have a catastrophic fire that is so hot it sterilizes the soil, what do we do? R. Vidmar responded, after a large burn, the Burn Area Response Team, a U.S. Forest service led team, responds to assess the damage and potential impacts of the fire. The best things we can do both pre and post-fire is to create sediment basins to avoid any burn sediment from reaching the base of the canyon and entering the main stems of waterways.

CM Sundberg asked, is there a targeted area for beetle kill trees? R. Vidmar responded yes, there are targeted areas for removing those trees however, the forest service will leave some of those as to not disrupt the ecosystem for birds and other animals.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

7. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: M. Brown stated the water conservation event is scheduled for May 18, 2024, starting at 9:00 a.m. in the water-wise garden at the Aurora Municipal Center. This will be a community-wide event and is open for any of the Councilmembers to be present and meet with community members. Additionally, the annual Youth Water Festival is scheduled for May 16, 2024, which is a great opportunity for Councilmembers to meet with students from all over Aurora.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

8. Confirm Next Meeting

The next meeting is scheduled for April 17, 2024, 10:30 a.m. via Teams.

X Stephanie Hancock
Stephanie Hancock (Apr 17, 2024 16:02 MDT)

Stephanie Hancock
Vice Chair, Water Policy Committee

MINUTES

Regular Meeting of the Aurora City Council

Monday, April 8, 2024

COUNCIL MEMBERS PRESENT:	Stephanie Hancock	Françoise Bergan
	Steve Sundberg	Alison Coombs
	Danielle Jurinsky	Crystal Murillo
	Angela Lawson	Curtis Gardner
	Mayor Coffman	Ruben Medina
		Dustin Zvonek

1. CALL TO ORDER

Mayor Coffman convened the regular meeting of City Council at 6:30 p.m.

2. ROLL CALL

Public call-in instructions were provided in both English and Spanish.

3. INVOCATION/MOMENT OF SILENCE

Mayor Coffman led in prayer.

Mayor Coffman read a land acknowledgement.

4. PLEDGE OF ALLEGIANCE

(All Standing)

5. EXECUTIVE SESSION UPDATE

Mayor Coffman provided an update on the Executive Session, stating litigation matters, union negotiations, land acquisition, and personnel matters were discussed.

6. APPROVAL OF MINUTES

6.a March 11, 2024 Meeting Minutes

6.b March 25, 2024 Meeting Minutes

Moved by Françoise Bergan

Second by Steve Sundberg

Does Council wish to approve the minutes of the March 11, 2024 and March 25, 2024 meetings?

Voting Aye: (11): Stephanie Hancock, Steve Sundberg, Danielle Jurinsky, Alison Coombs, Angela Lawson, Mayor Coffman, Françoise Bergan, Crystal Murillo, Curtis Gardner, Ruben Medina, and Dustin Zvonek

7. PROCLAMATIONS OR CEREMONIES

7.a National Donate Life Month

Mayor Coffman proclaimed April 2024 as National Donate Life Month.

7.b Month of the Military Child

Mayor Coffman proclaimed April 2024 as Month of the Military Child.

7.c Aurora Arbor Week Proclamation

Mayor Coffman proclaimed April 15, 2024 through April 20, 2024 as Aurora Arbor Week.

7.d National Public Safety Telecommunicators Week

Mayor Coffman proclaimed April 14, 2024 through April 20, 2024 as National Public Safety Telecommunicators Week.

7.e Eid al-Fitr

Mayor Coffman proclaimed April 10, 2024 as Eid al-Fitr.

8. PUBLIC INVITED TO BE HEARD

(non-agenda related issues only)

Council heard public testimony on non-agenda-related items.

9. ADOPTION OF THE AGENDA

Moved by Curtis Gardner

Second by Steve Sundberg

Does Council wish to adopt the agenda with Item 11.a.5 (tabled) and Item 12.b. removed?

Voting Aye: (11): Stephanie Hancock, Steve Sundberg, Danielle Jurinsky, Alison Coombs, Angela Lawson, Mayor Coffman, Françoise Bergan, Crystal Murillo, Curtis Gardner, Ruben Medina, and Dustin Zvonek

10. CONSENT CALENDAR - MOTIONS

Any member of Council may request an item be removed from Consent Calendar and considered separately. Removed items are considered immediately following the adoption of the Consent Calendar.

Moved by Curtis Gardner

Second by Alison Coombs

Does Council wish to approve the Motions consent calendar?

For (11): Stephanie Hancock, Steve Sundberg, Danielle Jurinsky, Alison Coombs, Angela Lawson, Mayor Coffman, Françoise Bergan, Crystal Murillo, Curtis Gardner, Ruben Medina, and Dustin Zvonek

10.a Motions

10.b Planning Matters

10.c Appointments to Boards and Commissions

10.c.a Consideration to Appoint One (1) Member and Reappoint Two (2) Members to the Golf Course Advisory Committee

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

10.c.b Consideration to Appoint One (1) Member to the Veterans Affairs Commission

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

10.c.c Consideration to Appoint Two (2) Members to the Citizens Advisory Committee on Housing and Community Development

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

10.c.d Consideration to Appoint One (1) Member to the Board of Adjustment and Appeals

Kadee Rodriguez, City Clerk / Tim Joyce, Assistant City Attorney

11. CONSENT CALENDAR - RESOLUTIONS AND ORDINANCES

Any member of Council may request an item be removed from Consent Calendar and considered separately. Removed items are considered immediately following the adoption of the Consent Calendar.

Moved by Curtis Gardner

Second by Françoise Bergan

Does Council wish to approve the Resolutions and Ordinances consent calendar with item 11.a.4. removed?

Voting Aye: (10): Stephanie Hancock, Steve Sundberg, Danielle Jurinsky, Alison Coombs, Angela Lawson, Françoise Bergan, Crystal Murillo, Curtis Gardner, Ruben Medina, and Dustin Zvonek

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

11.a Resolutions

11.a.1 Fifth Amendment to the 22nd Ave Outfall to Westerly Creek Improvement Project between the City of Aurora and Mile High Flood District

R2024-35 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN AMENDMENT TO THE INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA AND URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT REGARDING FINAL DESIGN, RIGHT-OF-WAY ACQUISITION, AND CONSTRUCTION OF DRAINAGE AND FLOOD CONTROL IMPROVEMENTS FOR 22ND AVENUE OUTFALL TO WESTERLY CREEK

James DeHerrera, Planning Services Manager, Aurora Water / Ian Best, Assistant City Attorney

11.a.2 Joint Wet Weather Monitoring and Other Colorado Discharge Permit Activities Intergovernmental Agreement

R2024-36 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT OF AN INTERGOVERNMENTAL AGREEMENT AMONG THE CITY OF AURORA, COLORADO, BY AND THROUGH ITS UTILITY ENTERPRISE, THE URBAN DRAINAGE AND FLOOD CONTROL DISTRICT, d/b/a MILE HIGH FLOOD DISTRICT, THE CITY AND COUNTY OF DENVER, AND THE CITY OF LAKEWOOD REGARDING FUNDING OF JOINT WET WEATHER MONITORING AND OTHER COLORADO DISCHARGE PERMIT ACTIVITIES

Todd Brewer, Deputy Director of Treatment and Environmental Services, Aurora Water / Ian Best, Assistant City Attorney

11.a.3 Supporting the Flight Operations at Buckley Space Force Base

R2024-37 RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S STRONG SUPPORT OF THE 140TH WING OF THE COLORADO AIR NATIONAL GUARD'S FLIGHT OPERATIONS AT BUCKLEY SPACE FORCE BASE

Sponsors: Danielle Jurinsky, Council Member / Mike Coffman, Mayor

George Koumantakis, Manager of Client Services, Office of the City Attorney

Council heard public comment on the agenda-related-item.

11.a.4 Solution for Unsafe Traffic Conditions on North Bound Interstate 225 Between E. 2nd and E. Alameda Ave.

R2024-38 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, STRONGLY CALLING ON THE COLORADO DEPARTMENT OF TRANSPORTATION TO STUDY AND IMPLEMENT A SOLUTION FOR THE UNSAFE TRAFFIC CONDITIONS ON NORTH BOUND INTERSTATE 225 BETWEEN EAST 2ND AVENUE AND EAST ALAMEDA AVENUE

Sponsors: Mike Coffman, Mayor / Steve Sundberg, Council Member

Ryan Germeroth, Deputy Director of Transportation and Mobility, Public Works / Lena McClelland, Assistant City Attorney

CM Sundberg explained he pulled the item to bring attention to the important safety issue in their city. He talked about all the accidents that were occurring at excessive speeds here, and you can see marks and scrapes on the concrete barriers and debris from crashed vehicles when driving through. He expressed CDOT was planning to conduct a study this summer for an award to fix the issues next year sometime, but they want to implore CDOT to hurry up and get the project fixed so more people do not die from car crashes here.

Staff provided a brief statement on the item.

Mayor Coffman thanked staff for their work on this and CM Sundberg for bringing the issue forward.

CM Coombs added that the young woman that was killed in the most recent accident was a member of the Mon community that came to the US for safety for their family. She said they owe it to everyone in their community to provide safety.

CM Bergan stated it was also important that everyone wear a seatbelt.

Moved by Steve Sundberg

Second by Alison Coombs

Does Council wish to support Resolution R2024-38 to call on the Colorado Department of Transportation to Study and Implement a solution for the unsafe traffic conditions on northbound Interstate 225 between East 2nd Avenue and East Alameda Avenue?

Voting Aye: (10): Stephanie Hancock, Steve Sundberg, Danielle Jurinsky, Alison Coombs, Angela Lawson, Françoise Bergan, Crystal Murillo, Curtis Gardner, Ruben Medina, and Dustin Zvonek

11.a.5 Rules of Order and Procedure: Amendment to Public Comment for City Council Meetings

R2024-39 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, TO AMEND THE RULES OF ORDER AND PROCEDURE FOR THE AURORA, COLORADO, CITY COUNCIL CONCERNING PUBLIC COMMENT FOR CITY COUNCIL MEETINGS

Sponsor: Curtis Gardner, Council Member

Andrea Wood, Assistant City Attorney

11.b Finalizing of Ordinances

Ordinances approved unanimously at first reading

11.b.1 Aurora Center for Health, Wealth and Well-Being (Zoning Map Amendment)

2024-07 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, FOR A ZONING MAP AMENDMENT TO REZONE APPROXIMATELY 2 ACRES OF LAND TO MIXED-USE CORRIDOR DISTRICT (MU-C), LOCATED AT THE SOUTHWEST CORRIDOR OF COLFAX AVENUE AND AIRPORT BOULEVARD

Liz Fuselier, Planner, Planning and Business Development / Lena McClelland, Assistant City Attorney

11.b.2 Lease-Purchase of Golf Maintenance Equipment

2024-08 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA AUTHORIZING THE DIRECTOR OF PARKS, RECREATION AND OPEN SPACE (PROS) TO ACQUIRE CERTAIN GOLF MAINTENANCE EQUIPMENT DURING THE 2024 FISCAL YEAR, PURSUANT TO THE TERMS OF LEASE-PURCHASE AGREEMENTS TO BE ENTERED INTO BETWEEN THE CITY, AS LESSEE, AND LEASE INVESTORS, VENDORS OR THE AURORA CAPITAL LEASING CORPORATION, EACH AS LESSOR, AUTHORIZING OFFICIALS OF THE CITY TO TAKE ALL ACTION NECESSARY TO CARRY OUT THE TRANSACTIONS CONTEMPLATED HEREBY

Teresa Sedmak, City Treasurer, Finance / Hanosky Hernandez, Senior Assistant City Attorney

11.b.3 Increase the E-911 Surcharge Imposed on Phone Service

2024-09 FOR AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA AMENDING SECTION 58-1 OF THE CITY CODE OF THE CITY OF AURORA, COLORADO, RELATING TO AN INCREASE OF THE E-911 SURCHARGE

Scott Newman, Chief Information Officer / Hanosky Hernandez, Senior Assistant City Attorney

2024-10 AN ORDINANCE AUTHORIZING THE CITY OF AURORA, COLORADO, TO EXERCISE THE POWER OF EMINENT DOMAIN FOR ACQUISITION OF CERTAIN PROPERTY INTERESTS NECESSARY FOR THE ILIFF AND BUCKLEY INTERSECTION IMPROVEMENTS PROJECT

Hector Reynoso, Real Property Services Manager / Michelle Gardner, Senior Assistant City Attorney

Outside Speaker: Don Ostrander, HROP Law, Outside Legal Counsel

12. PUBLIC HEARINGS

Public hearings with or without related ordinances

12.a Proposed Comprehensive Plan Amendment to Adopt the Parks, Recreation, and Open Space (PROS) Master Plan

2024-11 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING THE 2018 COMPREHENSIVE PLAN TO ADOPT BY REFERENCE THE "OUR PARKS, OUR PLACES: A PLAN FOR AURORA'S PARKS, RECREATION, AND OPEN SPACE" PLAN ("PROS MASTER PLAN")

Daniel Krzyzanowski, Planning Supervisor, Planning and Business Development / Lena McClelland, Assistant City Attorney

Mayor Coffman opened the public hearing.

Staff provided a brief summary of the item.

Council heard public testimony on the agenda-related-item.

Mayor Coffman closed the public hearing.

Moved by Danielle Jurinsky

Second by Curtis Gardner

Does the City Council wish to support Ordinance 2024-11 amending the 2018 Comprehensive Plan to adopt by reference the "Our Parks, Our Places: A Plan for Aurora's Parks, Recreation and Open Space Plan" Plan ("PROS Master Plan")?

Voting Aye: (10): Stephanie Hancock, Steve Sundberg, Danielle Jurinsky, Alison Coombs, Angela Lawson, Françoise Bergan, Crystal Murillo, Curtis Gardner, Ruben Medina, and Dustin Zvonek

12.b Adopt the 2020 Model Traffic Code

2024-12 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING SECTIONS 134-1, and 134-8; AND REPEALING SECTION 134-2(n)(3) OF THE CITY CODE PERTAINING TO ADOPTION OF THE 2020 MODEL TRAFFIC CODE AND LOCAL AMENDMENTS

Chris Poppe, Police Commander / Andrea Wood, Assistant City Attorney

12.c Horizon Amended Vesting Development Agreement

2024-13 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE APPROVING AN AMENDED AND RESTATED VESTED RIGHTS DEVELOPMENT AGREEMENT BETWEEN THE CITY OF AURORA COLORADO, LENDLEASE HORIZON, LLC, AND HULAND1, LLC CONTAINING PROVISIONS FOR A VESTED PROPERTY RIGHT PURSUANT TO ARTICLE 68 OF TITLE 24, C.R.S. FOR CERTAIN LANDS LOCATED IN SECTION 1, TOWNSHIP 4 SOUTH, RANGE 66 WEST OF THE SIXTH PRINCIPAL MERIDIAN, COUNTY OF ARAPAHOE, STATE OF COLORADO

Jacob Cox, Interim Director of Development Services / Brian Rulla, Assistant City Attorney

Mayor Coffman opened the public hearing.

Staff provided a brief presentation on the item.

CM Coombs asked what guarantees they had that the development will be carried out within the timeframe set.

J. Cox stated the goal was to allow them more time to bring commercial to market in the area.

CM Sundberg mentioned he met with the developer and partners and toured the development, and the developer really wants to leave a legacy of building community in a positive way with a walkable neighborhood, Pre-K through 8th school, dog park, and other wonderful amenities.

Mayor Coffman closed the public hearing.

Jacob Cox, Interim Director of Development Services / Brian Rulla, Assistant City Attorney

16. RECONSIDERATIONS AND CALL UPS

17. GENERAL BUSINESS

18. REPORTS

18.a Mayor

Mayor Coffman stated he spent time with AFR for a 24-hour shift, and encouraged other council members to do the same to see all they do. He also attended an awards event for the firefighters. He added he would be having Town Meeting on April 20th, with presentations by Chief Morris, Chief Oughton, and a representative from Highline Canal. He said he will confirm the location and time on his Facebook page tomorrow.

18.b Council

CM Coombs reported she visited several mosques and it was wonderful to see the coming together of community and deepening sense of compassion despite their struggles, and she thanked them for allowing her to join. She noted she will be unable to attend the At-Large Town Hall Meeting on the 18th, because she will be attending the city's lobbying trip to D.C.

CM Gardner stated he would also be unable to attend the At-Large Town Hall Meeting on the 18th, and addressed 11.a.5. He explained he decided to pull that because the city is currently paying several thousand dollars a month to

maintain the public comment line, but they very rarely have public commenters call in, but will be looking to find a more cost effective option.

CM Jurinsky announced she will be co-hosting the Ward 4 Town Hall on April 11th, Ward 5 Town Hall on April 16th, and hosting the At-Large Town Hall on April 18th, at 6:30, at the Southeast Rec Center with MPT Zvonek. She also mentioned the Water Wise Event on May 18th, at 9 a.m., at City Hall in the Water Wise Garden, where they will have many vendors and opportunities to look at conserving water and saving money.

MPT Zvonek explained a bill that was introduced a few weeks ago that was introduced, HB14-37, which is an attempt to subvert local control. He said one of their options to avoid that is to review whether or not they want to continue subsidizing Arapahoe and Adams County for prosecuting domestic violence cases not reaching a felony level in their courts. He said he would be bringing an ordinance to the next Public Safety Meeting to start the conversation on whether or not they should continue or allow the legislature determine how they handle public defense and contract out with public defenders. He stated he would also be bringing a resolution asking the City Manager to cost out what the taxpayers of Aurora are subsidizing those two counties to handle those cases in our court.

CM Murillo announced her monthly Town Hall on April 25th at the Aurora Fox Center, that she will be co-hosting with CM Coombs. She extended an invitation for everyone to come to the Aurora Cultural Arts District to check out a city owned venue.

CM Sundberg noted a bar and grill that had a chronic dine and dasher that came back in recently and physically threatened the bartender when confronted, but police were not able to get him. He attended the Warrior Now End Suicide Event with CM Bergan and CM Hancock, which is to prevent veteran suicide. He said it was positive and they raised over $50,000. He also mentioned a graduation for the Aurora Armed Forces Wellness Court on April 22nd for someone who has been sober for a year. He announced his Town Hall for April 18th, at the Central Recreation Center, at 6:30, to talk about grocery stores in Ward 2 and to meet the new Library Services Director.

CM Medina announced his Town Hall for April 9th, at the Central Library.

CM Hancock discussed attending the Veteran Suicide Gala, stating there was a compelling speech on how veterans return home with a lack of purpose and choose other means to get needs met, but this program wraps around veterans and helps them reintegrate into society. She said she went to the opening of the new Xfinity Store in Ward 4, which show businesses are still coming to Aurora. She stated she would be co-hosting her Ward 4 Town Hall with CM Jurinsky on April 11th, at Colorado Early College, with 911 attending and having a discussion on budget, safety, and other things they have been doing. She encouraged everyone to come out.

CM Lawson gave the FSIR update, voicing there was 30 days left of the state legislative session with over 600 bills introduced, and the Colorado Senate approved the 40.6 billion dollar budget for the next fiscal year for the state. She stated SB24-035, strengthening the enforcement of human trafficking, was sent to the Governor for signature to be passed into law. Congress is back in session and will focus on foreign aid and homeland security. She announced the next FSIR Meeting is on April 12th, and the Ward 5 Town Halls will be April 20th, at Heather Garden, from 10-11:45 and April 30th, at Central Rec Center, from 6:30-8. Both Town Halls will be discussing the budget and the Aurora Fire Rescue Strategic Plan. She noted that anyone could attend.

CM Bergan announced the new Executive Director for the E-470 Executive Board. She attended the Veterans Suicide Gala, and said a lot of court judges were there. She said she also attended the State FBLA Awards Ceremony, and congratulated all the students who won awards.

19. ADJOURNMENT

Mayor Coffman adjourned the regular meeting of City Council.

MIKE COFFMAN, MAYOR

ATTEST:

KADEE RODRIGUEZ, CITY CLERK

The City Charter prescribes the Mayor may vote on resolutions and ordinances only to create or break a tie vote of Council Members present. The Mayor Pro-Tem is always permitted to vote on all items.

Water Policy Committee (WPC) Meeting

April 16, 2025

Members Present: Council Member Alison Coombs (Chair), Council Member Françoise Bergan (Vice Chair), Council Member Ruben Medina

Absent:

Others Present: Abba Ahmed, Rachel Allen, Ian Best, Stephen Cann, Shonnie Cline, Alex Davis, James DeHerrera, Rory Franklin, Elizabeth Gillitzer-Gallardo, Sonya Gonzalez, Kathy Kitzmann, Jessica LaPierre, Luz Lopez, Brenda Mendoza Ortega, Adrian Morris, John Murphy, Christian Nelson, Swirvine Nyirenda, Casey Rossman, Sam Scorza, Matt Spacek, Oona Sullivan, Alex Weber, Earl Wilkinson, Sarah Young

---

1. Approval of Minutes

The March 19, 2025, meeting minutes were approved as presented.

2. Consent Items

A. Construction Change Order Report
B. Monthly Water Supply Update
C. Grants Update
D. Wild Horse Quarterly Update

Summary of Issue and Discussion: CM Bergan asked, on the water supply update, there is a chart on drought, and it looks like there is going to be drought in the areas surrounding us, is that just a prediction? J. Murphy responded, the brown color on the chart represents the persisting drought and the yellow represents where drought is expected to develop.

Outcome: The consent items were supported as presented.

Follow-Up Action: None.

---

3. 2025 Weather Modification Program Intergovernmental Agreement

Summary of Issue and Discussion: A. Ahmed gave a presentation on an Intergovernmental Agreement (IGA) between several water agencies, including the City of Aurora, to enable multiple water agencies to cost share weather modification (cloud seeding) services conducted under the Central Colorado Mountains River Basin (CCMRB) Weather Modification Program.

CM Coombs asked, where are the new partners included in the agreement, as they do not have a separate cost breakdown? Are they included in the larger organizations and what is their contribution? A. Ahmed responded, those partners are not part of the Front Range, they were added in the presentation to show the extent of the cloud seeding throughout Colorado.

CM Bergan stated, there was mention of three generators not working but there is some confusion because in the presentation it stated 23 manual generators and two remote generators. A. Ahmed responded, yes, there are five remote generators, but three were not mentioned in the presentation because they are not currently working. Overall, there are 23 non-remote generators and 5 remote generators. CM Bergan asked, are the remote generators more expensive? A. Ahmed responded, yes, because they are more efficient and we do not have to manually start them, they can be started remotely. CM Bergan asked, are there plans to add more of the remote generators? A. Ahmed stated the plan in the next couple of years is to have all 25 or 30 generators be remote. CM Bergan asked, are there any grants that we could apply for to help with cost? A. Ahmed responded yes, we have brought this to the Colorado Water Conservation Board, and they are currently researching available grants.

CM Medina asked, are there multiple people who are starting up the generators? And what is the cost to start all of them? A. Ahmed responded, it is usually farmers and ranchers that are trained to turn on the manual generators since they are typically placed on their land. However, sometimes this can be difficult which is why we are heading towards all remote generators.

Outcome: The Committee supports moving a Resolution for the 2025 Weather Modification Program Intergovernmental Agreement forward to the next Council meeting.

Follow-Up Action: The Resolution for the 2025 Weather Modification Program Intergovernmental Agreement will be forwarded to the next Council meeting.

---

4. Joint Wet Weather Monitoring and Discharge Permit Activities Intergovernmental Agreement

Summary of Issue and Discussion: J. LaPierre gave a presentation on an Intergovernmental Agreement (IGA) between the City of Aurora, the City of Denver and the City of Lakewood for wet weather monitoring. The weather monitoring involves collecting runoff at several automated stations in the metro area and analyzing the water quality for specific pollutants as agreed upon in the original MS4 permit.

Outcome: The Committee supports moving a Resolution for the Joint Wet Weather Monitoring and Discharge Permit Activities Intergovernmental Agreement forward to the next Council meeting.

Follow-Up Action: The Resolution for the Joint Wet Weather Monitoring and Discharge Permit Activities Intergovernmental Agreement will be forwarded to the next Council meeting.

---

5. Fourth Amendment to Drainage and Flod Control Improvements for the Cherry Creek Restoration at Arapahoe Road Intergovernmental Agreement

Summary of Issue and Discussion: S. Scorza gave a presentation on the fourth amendment to an Intergovernmental Agreement (IGA) between the City of Aurora, Mile High Flood District, Southeast Metro Stormwater Authority, the Cherry Creek Basin Water Quality Authority, and Arapahoe County. This amendment will aid in the identification of ways to mitigate erosion in the remaining portions of the channel located between the Cherry Creek Soccer Complex and the confluence with Piney Creek.

CM Bergan asked, how did we end up in a situation where we are paying a greater share? S. Scorza responded, this is a project that Aurora Water requested, and had it built into our five-year capital improvements plan, the other contributors are just now catching up with their contributions.

Outcome: The Committee supports moving a Resolution for the Fourth Amendment to drainage and Flood Control Improvements for the Cherry Creek Restoration at Arapahoe Road Intergovernmental Agreement forward to the next Council meeting.

Follow-Up Action: The Resolution for the Fourth Amendment to drainage and Flood Control Improvements for the Cherry Creek Restoration at Arapahoe Road Intergovernmental Agreement will be forwarded to the next Council meeting.

---

6. East Cherry Creek Valley Master Sewer Intergovernmental Agreement

Summary of Issue and Discussion: J. DeHerrera gave a presentation on a Master Sewer Intergovernmental Agreement (IGA) between the City of Aurora and the East Cherry Creek Valley Water and Sanitation District (ECCV). This IGA has been drafted to clarify each party's obligations including clarity and consistency, capacity and cost sharing, contract administration, support of future development, and anticipated infrastructure upgrades.

Outcome: The Committee supports moving a Resolution for the East Cherry Creek Valley Master Sewer Intergovernmental Agreement forward to Study Session.

Follow-Up Action: The Resolution for the East Cherry Creek Valley Master Sewer Intergovernmental Agreement will be forwarded to the next Study Session.

---

7. Kings Point Intergovernmental Agreement

Summary of Issue and Discussion: J. DeHerrera gave a presentation on an amendment to Intergovernmental Agreement (IGA) between the City of Aurora and the East Cherry Creek Valley Water and Sanitation District (ECCV). This amendment will reflect changes made in the new Master Sewer Agreement as previously mentioned which includes the joint use of sewer infrastructure to support the Kings Point development.

CM Bergan asked, since Prairie Point was not required to install a lift station, how does that work in terms of the developer cost? J. DeHerrera responded, there was an agreement signed in 2019 with the developer that they will be responsible for the costs associated with the upsizing of the line eventually. CM Bergan asked, will King's Point South require a lift station? J. DeHerrera responded, King's Point South goes to the West and so they may require a lift station. S. Young added, King's Point South is divided between a couple of basins that gravities toward the West side of King's Point which will require a lift station eventually.

Outcome: The Committee supports moving a Resolution for the Kings Point Intergovernmental Agreement forward to Study Session.

Follow-Up Action: The Resolution for the Kings Point Intergovernmental Agreement will be forwarded to the next Study Session.

---

8. Wild Horse Project History

Summary of Issue and Discussion: S. Young gave a presentation on the history of the Wild Horse Project program which includes early planning efforts, and the work planned through 2025.

CM Bergan asked, the fact that all this work has already been done with the modeling over several years of the Wild Horse North site and it has remained our best option, why are we having to do another study on the Wild Horse South alternative? S. Young responded, the NEPA process itself, which is a comparison of resources between the selected alternatives, has not yet started. So, the information we are collecting is basically showing the baseline data. For example, the Gold Eagles nests in the North Wild Horse site in comparison to the nests in the South Wild Horse site and how they will be impacted.

CM Bergan asked, have we learned anything that we should have done sooner in the process, so we did not end up in the current situation? S. Young responded, one option would have been a Request for Proposal (RFP) process to bring all the technical experts that we now onboard sooner and have them develop a massive package of information to present to the Bureau of Land Management (BLM) for their review rather than piecemealing the process. The timeline may have been the same though and this way we have built a good relationship with BLM throughout the process. It's hard to say which would have been better. CM Bergan asked, wouldn't it have saved time to have all the experts exploring the alternatives at the same time? S. Young responded, we weren't sure which alternatives were going to be selected to move forward for further evaluations. That step was required first.

CM Coombs asked, we know that we need this reservoir by 2045, are there any other benefits to completing the reservoir early besides the continued increase in costs of supplies? S. Young responded, the increase in costs is the main reason for completing the reservoir as soon as

possible. Additionally, with the continuing changes in the NEPA process, we are looking to get full approval in one presidential administration if possible.

CM Bergan asked, do we know the difference in cost between what we anticipated four to five years ago and what is now anticipated? S. Young responded, due to the market volatility over the past few years, our project engineers were unable to properly predict the cost of the project which is why we secured a Construction Manager/General Contractor (CMGC) to give us a better idea of costs. Currently, we are looking at over a billion dollars for the construction of Wild Horse and anticipating a 5% increase in costs year over year.

Outcome: Informational only.

Follow-Up Action: Informational only.

---

9. Miscellaneous Matters for Consideration

Summary of Issue and Discussion: None.

Outcome: Informational only.

Follow-Up Action: Informational only.

Renee Pettinato Mosley, Senior Manager of Risk, Finance / Kim Skaggs, Assistant City Attorney

10.a.5 Rules of Order and Procedure: Amendment Concerning Council Member Testimony

R2025-46 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, TO AMEND THE RULES OF ORDER AND PROCEDURE FOR THE AURORA, COLORADO, CITY COUNCIL CONCERING PUBLIC COMMUNICATION

Sponsor: Angela Lawson, Council Member

Liz Rogers, Intergovernmental Relations Manager, General Management / George Koumantakis, Deputy City Attorney

CM Lawson explained that this resolution would put some type of parameter into the rules regarding testimony of council members when they go to legislature to testify. She stated that as the FSIR Chair for the past 9 years, she has seen inconsistencies on how individuals are testifying. She shared that some people on Council may do this because they do not like the chair or what came out of the committee in terms of positions. She said even if a council member does not like the person, decisions, or positions that came from legislative actions, they still need to respect the actual committee. She gave an example that some people have testified and said they were testifying in their individual capacity and on behalf of their constituents and not on behalf of City Council or the legislative committee. CM Lawson asked the city attorney if that makes the line gray of where a council member is crossing the line.

G. Koumantakis responded that if this resolution passes, yes, that would cover what she is concerned about. He expressed that the way Council rules are now, it has the potential to mislead the legislators they are testifying in front of to make them believe that all constituents have concerns about that specific legislation.

She asked how it is presenting if they state they are there in an individual capacity as an Aurora City Council Member representing their ward and urging a certain vote.

G. Koumantakis answered that if the FSIR Committee and Council as a whole has taken a different position, the Council Member would be in direct violation of the Council rules.

CM Lawson explained that this resolution would add the parameter that when a council member is testifying, they can still say they are speaking in their individual capacity and expressing their own view, but not those of the City Council or their constituents. She added that will give future Chairs and Councils a basic idea of what they can do if they choose to go forward with any kind of censure.

CM Coombs stated that when she goes down to the legislature to take a position on an issue or an item, it has never been about a personal feeling toward the Chair or members of the committee, but often due to opposition to the positions taken. She said it is not personal and apologized if that has ever been the sentiment that has come across. She said she does not oppose all of this, but if she were to use the sample statement, which states that they are not speaking on the views of their constituents, that would be a lie, as she has conversations with constituents that support her same positions. She suggested to strike "or the Council Members constituents" and replace it with "and may not state that they are speaking for their constituents". She offered that as a friendly amendment.

CM Lawson accepted the friendly amendment.

CM Bergan understood what CM Coombs was saying, but she did not think that the word constituents should be used at all when testifying, and should just be testifying on their individual basis. She suggested saying their name and that's it, and that they should not wear their name badges that are given as City Council Members.

Mayor Coffman voiced that the purpose of the resolution is to just have clarifying language that when testifying on a position that is not the City's position or the FSIR Committee, that they clearly identify they are not representing the city. He said they can be silent on the constituent issue, as this is just to have a clean, concise statement that someone reads before testifying.

CM Murillo was not opposed to adding some clarity, but said it is confusing and a slippery slope on the last part. She expressed that she has always been very clear that she is there in an individual capacity, but she wondered if there are some unintended consequences. She stated that it is a fact that she is an Aurora City Council Member, and she does not claim to represent the full opinion of the City Council, but as a representative of her district, whether they say representing their constituents or not, she is concerned with the direction of this. She said her testimony has nothing to do with

trying to be contrary to the City's position, but if a community group in her community asks her to advocate for a particular bill and it aligns with her beliefs, she will go and do what they ask her to do, so she is worried that this is a gag order and unintended consequences to impede on her ability for freedom of speech and being able to identify herself. She expressed that she does not understand why she cannot say she is speaking in her individual capacity, that she is a city council member, and that she does advocate for a certain position.

CM Lawson responded that she does not think it feels like a gag order. She said she has testified at the legislature before and people have asked her to testify on certain positions and it is not for the city, but she only says, "I am Angela Lawson", and does not go in to say she is a council member. She added that she has testified on behalf of the City because she is the FSIR Chair, but when going down there individually, she has never said she is a council member and only says her name, that she is there in her own capacity, and representing a position on a bill. She voiced that she is not trying to take anyone's rights away, and this is just something that causes a lot of confusion.

P. Schulte explained that under the First Amendment, this is not a gag order. He said that if their testimony and how they introduce themselves gives themselves a little bit more credibility than the average citizen, that is what this resolution is trying to prevent. He stated that a lot of the representatives and senators know who they are, but by stating they are there as an individual and not representing constituents or being a council member will put them on the same level playing field if the City has taken a position that is contrary to their position. He added that from a legal perspective, this is fine the way it is written, because they are not preventing anyone from going down on their individual capacity to speak on something, but you're not representing yourself as a council member.

CM Lawson asked if CM Coombs friendly amendment be a slippery slope.

P. Schulte answered no.

CM Coombs asked with the friendly amendment, wouldn't they also strike "or my constituents" from the example text, as they should not even be saying constituents at all whether it is don't or do.

P. Schulte responded that it would be acceptable. He asked CM Coombs to read into the record what it would say without that.

CM Coombs read "I, Alison Coombs, am speaking in my individual capacity, expressing my own views and not those of the City Council."

P. Schulte said that would accomplish the goal of CM Lawson.

CM Murillo asked P. Schulte if he stated that the intent was to limit the power of the individual council member.

P. Schulte clarified that what he said was that if they are speaking as a council member, they are potentially giving themselves more credibility than a regular citizen.

CM Murillo responded that she is a council member and was elected, so she does not understand why that would be a problem.

P. Schulte said he understood but he is talking from a legal perspective, not a political perspective.

CM Murillo stated that she is also talking about her obligation and duty to represent her community and to state facts.

P. Schulte responded that every time he has been at the legislature this year, everyone on the Council has been introduced as a council member and that is totally fine, but when someone gets introduced as a council member and they state the recommended sentence in this rule if it passes, they will be in compliance.

CM Murillo voiced she is concerned that if she states she is an Aurora City Council Member, will she be censured or have a gag order to express her opinion on a bill.

CM Lawson expressed that it gives an option, but that does not mean that they can censure them.

CM Murillo said there is a lot of emphasis on individuals, so it feels suspect to think this is more than focusing on specific individuals. She explained that what concerns her is, like they have now, a majority has green lit a lot of questionable actions by colleagues and have not chosen to censure or create any type of punishment for an opinion that they agree with, and are going to drown out the minority perspective. She added that she is very concerned that this will set up a precedent of a slippery slope or could be used as a gag order, which feels highly undemocratic. She supported adding clarity, but she wanted to know if she will be able to state that she is an Aurora City Council Member when giving testimony, as that is why people ask her to give testimony and her opinion, because she is not an average person with perspective and represents constituents.

CM Lawson called for the question to end debate.

CM Murillo asked for a point of order.

CM Coombs called for a point of order.

CM Lawson expressed that she already called to end debate.

P. Schulte explained that he cannot answer any more questions, as the call for the question has already been made, and CM Lawson was recognized by the mayor, with the motion pending. He said if the motion fails, then he can answer questions, but the motion to end debate stops everything and that is where they are right now, and it is non-debatable.

CM Murillo asked her colleagues to support that so they can get some clarification, as this is embarrassing and disrespectful.

Moved by: Angela Lawson

Second by: Amsalu Kassaw

Does Council wish to support the approval of the Rules of Order and Procedure: Amendment Concerning Council Member Testimony with the friendly amendment?

Friendly Amendment: Strike on behalf of constituents under Public Communication and example statement

Voting Aye: (8): Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, and Steve Sundberg

Voting Nay: (2): Alison Coombs, and Crystal Murillo

Moved by: Angela Lawson

Second by: Françoise Bergan

Does Council wish to approve the motion to end the debate?

Voting Aye: (9): Mayor Coffman, Françoise Bergan, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, and Steve Sundberg

Voting Nay: (2): Alison Coombs, and Crystal Murillo

CM Coombs stated that she voted no to her amendment because an answer was not given on if it was censurable to say they are a member of the city council and there in their individual capacity.

CM Murillo called for a point of order. She asked if yelling and screaming, throwing a temper tantrum part of the rules of the quorum.

10.a.6 Rules of Order and Procedure: Amendment Concerning Virtual Meetings

R2025-47 A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, TO AMEND THE RULES OF ORDER AND PROCEDURE FOR THE AURORA, COLORADO, CITY COUNCIL CONCERNING VIRTUAL ATTENDANCE AT CITY COUNCIL MEETINGS;

CAMERAS AND RECORDING DEVICES IN THE CHAMBERS; AND ONE PERSON AT THE PODIUM

Sponsor: Françoise Bergan, Council Member

Jason Batchelor, City Manager / Andrea Wood, Assistant City Attorney

CM Bergan offered a motion to amend 10.a.6 to strike Section 2(a) that is regarding the videotaping.

Staff gave a brief presentation on the item.

Council heard public comment on the agenda related item.

CM Bergan pointed out that whether it is a school board meeting or any other city council meeting that has happened, there has always been one person at the podium, as that is standard and respectful. She voiced that having multiple people is a safety issue. She explained that even though they have police officers in the chamber, they would have to watch multiple people at the podium versus the one person and watching the audience, which is why this is being brought forward. She noted that she did make the exception for a child being accompanied by a parent or an interpreter. She added that no one on this Council or previous Council has ever given notice when they have allowed virtual meetings, and the 24 hours does not make sense, because if someone is sick or their car breaks down within the 24 hours timeframe, they will be in violation of that rule, which is why she asking for it to be removed.

CM Coombs voiced that there was discussion already this evening about the balance of power and what is appropriate, and even with their state legislature at the well, there are multiple people there for support on a regular basis. She said what this is saying is that elected officials are entitled to that show of support physically, but people are not. She stated that a relevant point was made earlier about what the balance of power is between us as elected officials and the people that we represent. She added that it is believed that because we have the power to govern, that means we should have more power than the people who put us here, and that shows priorities, understanding of power, service and leadership, and responsibility being misguided, imbalanced, and pointed in the wrong direction, as there is no reason why the people in our community should not be able to show each other support in the same way elected officials do.

CM Medina said that he is not going to run and hide from community, because he is not afraid of community and is in the community all the time. He added that he is probably one of the only council members that does not have a podium at his council meetings purposefully because of the power dynamics. He explained that

everything he does is in a circle of chairs so that they are all equal and he allows people to speak whether they agree or disagree with him, as it is about them working collectively together to solve problems.

CM Hancock called for the question.

CM Murillo offered a friendly amendment to add an exception for people with disabilities or that have some sort of impairment that may need assistance.

CM Bergan asked if that would be someone with a physical disability, like someone with a wheelchair that needs assistance.

CM Murillo responded potentially, as there are also people with mental disabilities.

CM Bergan voiced that she would accept the amendment for only physical disabilities, as it would be difficult to discern any other type.

CM Murillo accepted that.

CM Hancock accepted that as well.

CM Coombs asked for clarification that they agreed to physical disability only rather than disability period.

Mayor Coffman answered that is correct.

CM Coombs added that is deeply problematic and probably discriminatory.

P. Schulte asked if they could make it any acceptable disability under the ADA.

CM Murillo expressed that she would support that if the sponsor would.

CM Bergan said no, as she cannot be going into the unknown at this point and agreed to just the friendly amendment of physical disability.

CM Murillo asked if this would apply to the listening sessions since they have removed them from the agenda.

P. Schulte answered that it does apply to the listening sessions and the council meetings.

CM Murillo inquired how a violation would be enforced.

P. Schulte responded that because they have security officers that work for the City that are able to enforce house rules, they could stand by and not let people pass them, and if they get assaulted or pushed away, the police could arrest those individuals.

CM Hancock called for the question.

10.b Finalizing of Ordinances

Ordinances approved unanimously at first reading.

11. PUBLIC HEARINGS

Public hearings with or without related ordinances.

11.a Urban Cottages Jewell - Zoning Map Amendment

2025-06 A PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, FOR A ZONING MAP AMENDMENT TO REZONE APPROXIMATELY 3.91 ACRES OF LAND TO MEDIUM-DENSITY RESIDENTIAL DISTRICT (R-2), LOCATED SOUTH OF THE

INTERSECTION OF EAST JEWELL AVENUE AND SOUTH JOLIET STREET (URBAN COTTAGES ON JEWELL REZONE)

This item was continued to the July 14, 2025 City Council Meeting

Rachid Rabbaa, Planner III, Planning and Business Development / Lena McClelland, Assistant City Attorney

11.b Amendments to Crestone Peak Resources Operator Agreement

R2025-52 A PUBLIC HEARING AND CONSIDERATION OF A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, EXPRESSING THE AURORA CITY COUNCIL'S SUPPORT FOR REVISIONS TO EXHIBITS A AND B OF THE CRESTONE PEAK RESOURCES OPERATOR AGREEMENT

Jeffrey Moore, Manager, Energy and Environment Division / David Scott, Assistant City Attorney

Outside Speaker: Dan Harrington, Asset Development Manager, Civitas Resources

Mayor Coffman opened the public hearing.

Staff gave a brief presentation on the item.

Mayor Coffman closed the public hearing.

Moved by: Alison Coombs

Second by: Angela Lawson

Does the Council wish to support the approval of the resolution to revise Exhibits A and B of the Crestone Peak Resources Operator Agreement?

Voting Aye: (10): Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

11.c Quiktrip 4263 Site Plan Appeal

A PUBLIC HEARING AND CONSIDERATION WITHOUT RELATED ORDINANCE TO CONSIDER AN APPEAL BY THE APPLICANT REGARDING THE PLANNING AND ZONING COMISSION DECISION OF DENIAL FOR THE QUIKTRIP 4263 SITE PLAN AND CONDITIONAL USE

James Schireman, Planner I, Planning and Business Development / Lena McClelland, Assistant City Attorney

Mayor Coffman opened the public hearing.

Staff gave a brief presentation on the item.

CM Hancock recused herself from any discussion, vote, or anything to do with the Quiktrip resolutions, as she participated in a quasi-judicial meeting where she made her position known.

The applicant asked for a continuance for two months, as they are going to engage more with the community and are working on a couple of modifications to the site plan.

Mayor Coffman closed the public hearing.

Moved by: Alison Coombs

Second by: Angela Lawson

Does Council wish to continue this item to the July 14th, 2025 Council Meeting?

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

11.d Quiktrip 4263 Conditional Use Appeal

A PUBLIC HEARING AND CONSIDERATION WITHOUT RELATED ORDINANCE TO CONSIDER AN APPEAL BY THE APPLICANT REGARDING THE PLANNING AND ZONING COMISSION DECISION OF DENIAL FOR THE QUIKTRIP 4263 SITE PLAN AND CONDITIONAL USE

James Schireman, Planner I, Planning and Business Development / Lena McClelland, Assistant City Attorney

CM Hancock continued her recusal for this item.

Mayor Coffman opened the public hearing.

Staff gave a brief presentation on the item.

The applicant concurred with a continuance to July 14th.

Mayor Coffman closed the public hearing.

Moved by: Alison Coombs

Second by: Angela Lawson

Does Council wish to continue this item to the July 14th, 2025 Council Meeting?

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Curtis Gardner, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

CM Coombs asked about ex parte communications. She explained that a constituent called her wanting to talk about Quiktrip, but she did not respond to their call. She asked if she should refrain from doing that.

P. Schulte answered yes.

CM Coombs asked if a council member could attend public meetings as the applicant is engaged in their public meetings to hear the discussion that from those meetings and if they are allowed to be informed of when those meetings happen.

P. Schulte responded they should not attend those meetings because they are outside of this process.

CM Coombs asked if information could be provided to Council in advance about the public meetings and what took place in them so they can question and interrogate in that quasi-judicial capacity.

P. Schulte stated that if they do not get information about meetings that they appellant produces, they will have strong questions for them on July 14th, but it would be their obligation, as there are a variety of ways for them to bring evidence to the Council.

CM Coombs requested that they have robust information about the content of those meetings so they can have that conversation in the proper form.

12. INTRODUCTION OF ORDINANCES

12.a GERP Code Amendments Relating to Short-Term and Long-Term Disability

2025-42 AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, AMENDING SECTIONS 102 AND 147 OF THE CITY CODE PERTAINING TO UPDATES TO THE GENERAL EMPLOYEES RETIREMENT PLAN

Nancy Wishmeyer, Controller, Finance / Hanosky Hernandez, Senior Assistant City Attorney

Staff gave a brief presentation on the item.

Moved by: Alison Coombs

Second by: Angela Lawson

Does the Council support the approval of the GERP Code Amendment Relating to Short-Term and Long-Term Disability?

Voting Aye: (10): Françoise Bergan, Alison Coombs, Curtis Gardner, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Council took a brief recess.

12.b 2025 Spring Supplemental

2025-43 AN ORDINANCE OF THE CITY OF AURORA, COLORADO APPROPRIATING SUMS OF MONEY IN ADDITION TO THOSE APPROPRIATED IN ORDINANCE NOS. 2023-52, 2024-18, AND 2024-80 FOR THE 2024 FISCAL YEAR AND ORDINANCE NO. 2024-72 FOR THE 2025 FISCAL YEAR

Tyler Phillips, Budget Program Manager, Finance / Hanosky Hernandez, Senior Assistant City Attorney

Staff gave a brief presentation on the item.

CM Gardner asked if the $5.4 million for the security expansion and fire alarm replacement has been funded or if it would require a transfer from the Capital Projects Fund. He noted he was disappointed that this question was also asked in the Management and Finance Meeting last month and it was not made clear.

Court administrator explained the request is not currently funded. She said there were some possible changes to it, where $1 million for the fire alarm system was maybe not needed, so that would reduce the request by $1 million, plus contingency. She noted that this came forward prior when the estimate was lower, and they wanted to bring it forward after they had more final numbers.

CM Coombs asked what the process for approving the rest of the items without that and how they would split that up.

J. Batchelor responded that it is broken down in the supplemental and listed as three projects under court admin, with the design listed as Project 1, ADA as Project 2, and the expansion for security and fire alarms listed as Project 3. So, if Council passes the Appropriation, they would probably see if they could find funding for that in the CPF, but alternatively, Council could say this is a discussion better had as part of the 2026 budget.

CM Gardner stated that to him this seems like more of a conversation they should be having as part of Build Up Aurora, as they are going through a process right now to look at capital needs in the City and public safety is going to be high on that list, and this should be prioritized with all of the other capital needs. He supported removing this item from the Spring Supplemental and pushing the discussion into the Build Up Aurora process.

CM Bergan asked how much it would be to just fund the fire alarms, as that seems to be a very important aspect to public safety.

J. Batchelor answered that it is something they are continuing to look at. He explained that the fire alarm system in the Courts Building is so old that it is connected to the police headquarters building and history museum, so they are all operating off of one fire alarm system, which does not meet current code. He added they are looking at if they should break out the fire alarm system for all three buildings and have that be a separate project from the expansion for the physical security of the Courts Building, but either way the expansion would probably trigger that requirement.

CM Bergan asked if they could bring the fire alarms to code without having to do the entire expansion.

J. Batchelor responded that they would essentially have two separate projects, one being a fire alarm project for the three buildings, which would be about $1 million, and the second being a physical expansion of the Courts Building for about $4.4 million.

CM Bergan expressed she was hoping they could use some potential ARPA dollars for the fire alarms, but it does not sound like that possible.

J. Batchelor explained the ARPA dollars are already fully committed.

Absent: (1): Curtis Gardner

16.b Discussion and Possible Action Regarding Future In-Person or Virtual Council Meetings

Peter Schulte, City Attorney

P. Schulte asked Council if they had any actions that they would like to be taken on the next meeting in regards to In-Person or Virtual Meetings.

CM Bergan noted that there will be a few people missing on the next meeting, so she recommended a virtual meeting.

CM Coombs asked if that would include removing all public comment or would they provide an avenue for that. She explained if it is only because people are going to be elsewhere, those people could just join virtually.

P. Schulte explained that if Council gave direction for public comment to be on the call-in line, they could do that, but with the motion as it sits right now, there would be no public comment on the 19th, and they would just go right into Study Session.

CM Bergan asked if they could add a call-in line for that particular meeting, as she would be amenable to that.

CM Jurinsky agreed with that.

CM Coombs asked for clarification if that would eliminate the public comment session or would they have that virtually.

P. Schulte explained that the motion on the floor is that the meeting would be virtual, and they would make sure to have the 40-minute public comment session from 6 to 6:40 via the call-in line.

Moved by: Françoise Bergan

Second by: Danielle Jurinsky

Does the Council wish to move the Council Meeting on May 19, 2025 to be Virtual, with call-in line for public comment listening session? (Requires 2/3 vote members present)

Voting Aye: (10): Mayor Coffman, Françoise Bergan, Alison Coombs, Stephanie Hancock, Danielle Jurinsky, Amsalu Kassaw, Angela Lawson, Ruben Medina, Crystal Murillo, and Steve Sundberg

Absent: (1): Curtis Gardner

17. REPORTS

17.a Mayor

The mayor had no report.

17.b Council

CM Coombs thanked Staff for their continued work on the Civic Engagement Academy, where she presented last Wednesday, and appreciated their thoughtful questions. She noted that May is Mental Health Awareness Month and Colorado has a program called I Matter, which provides six mental health sessions for all Colorado youth, and information on this can be found at imattercolorado.org. She stated that on May 17th, they have Water-wise Day, AFR, Rotary Fire Safety Field Day, and the opening reception for the Prehistoric Aurora Exhibit at the Aurora History Museum. She put a formal opinion on the record on whether or not the conduct of identifying oneself as a council member without saying "I represent" would be censurable

conduct. She added that by already saying they do not represent City Council it implies being a member of Council.

P. Schulte responded that each situation is going to be different, but if they call themselves a council member but still state they are representing themselves individually, he thinks that should be fine with the rule passed tonight, but they need to be clear, based on their testimony, that they are representing themselves and not the city in any way, and that would not be censurable.

CM Jurinsky attended the Aurora Economic Development Council's Accelerate trip and met with the Colorado Delegation to lobby on behalf of current frozen federal dollars, as there are several grants they are waiting on funding for and pled the case that we meet requirements of the current administration to receive our federal funding. She got two congressional members committed to helping us get our grant funding released.

CM Murillo announced her May Town Hall, which will be May 22nd, 6-7:30 p.m., at the MLK Library. She acknowledged that today is Cinco De Mayo and wanted to uplift the celebration of that and the role that our Mexican neighbors played in pushing against slavery back in the day, which is one of the biggest outcomes of Cinco De Mayo.

CM Sundberg reported that he recently participated in a couple of neighborhood cleanups, one at Murphy Creek and another along Colfax with Iron Sharp and a couple of police departments. He attended the Freedom Memorial Visitor Center groundbreaking, part of the Triple Creek Trailhead Art and Public Places process, Community College of Aurora luncheon, and the Energy and Environment Symposium in Rifle.

CM Medina attended the Colorado Association of Black Professional Engineers and Scientists yesterday, where they had students from 5th grade to high school that are interested in being project managers and looking into how to build affordable housing. He said they had a lot of projects around aerospace and engineering and other types of engineering aspects, and it was well attended. He announced his town hall, which is May 13th, 6:30-8 p.m., at the Central Library.

CM Hancock voiced that she also attended the Accelerate trip, as they advocated for the much-needed infrastructure funding needed in Aurora. She attended the Buckley Regional Military Affairs Council Meeting, where they reaffirmed their commitment to support the brave men and women who serve, along with their families. She noted that one of the biggest takeaways they got from the congressional delegation in DC was their support for the Space Force Guard and Reserve Units that are much needed. She was present at the groundbreaking ceremony for the Colorado Freedom Memorial Project. She said Dr. Brownlee and his remarkable team played a key role in the CCA College Beyond Walls Luncheon, and they are expanding out into a partnership with Commerce City. She expressed that the City of Aurora is doing many great things behind the scenes and in the public to ensure the city is the gold standard for what happens in communities across the country. She added that

people can download the Aurora Public Library Magazine online, as there are amazing opportunities for young people in it.

CM Lawson thanked everyone that attended and participated in her last town hall that was on Drug Takeback Awareness Day, where they had a lot of people that brought their unused medications. She announced her next town hall is May 13th, 6:30-8 p.m., at the Central Rec Center, and there will be another one on May 24th, at 10 a.m., at Heather Gardens.

CM Bergan stated she also attended the Accelerate Colorado Business Development trip, where they met with their congressional delegation, and got to meet with Congressman Crow, Congressman Neguse, Congressman Evans, Congresswoman Boebert, Congresswoman Pettersen, and Congressman Jeff Hurd, Senator Hickenlooper and Senator Bennett. She said they had good meetings with different departments, including Department of Transportation, Department of Energy, and Intergovernmental Affairs, and received insight from some news organizations. She also attended the Infrastructure Task Force Meeting, Fitzsimmons Redevelopment Authority, and the E-470 Roadway Committee Meeting.

CM Kassaw did not have a report. CM Gardner was absent.

18. ADJOURNMENT

Mayor Coffman adjourned the regular meeting of City Council.

MIKE COFFMAN, MAYOR

City staff reviews all known grant opportunities and compares to project opportunities within the city in a effort to leverage funding for the greater benefit of Aurora residents. In past Regional Transportation Operations and Technology (RTO&T) calls, staff has had great success in applying for and receiving grants.

At the August 24, 2023 meeting of the Transportation, Airports, and Public Works Policy Committee, staff provided an overview of the Denver Regional Council of Governments (DRCOG) FY2022-2027 RTO&T program application calls.

At the June 26, 2024 meeting of the Transportation, Airports, and Public Works Policy Committee, staff presented an intergovernmental agreement (IGA). Committee members unanimously supported moving the IGA forward to Study Session. The IGA was then approved at Study Session and the Regular Meeting, and was fully executed in October 2024.

At the April 23rd, 2026 Transportation, Airport and Public Works Committee, the Committee recommended the IGA amendment move forward to City Council.

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

The City of Aurora applied for three Denver Regional Council of Governments (DRCOG) 2024-2027 Regional Transportation Operations and Technology (RTO&T) grants, administered by the Colorado Department of Transprotation (CDOT). This item is an Intergovernmental agreement with CDOT to administer one of the three grant projects.

The Traffic Signal Equipment Upgrade grant application includes procurement of 42 multi-modal detection devices and uninterruptable power supplies at intersections along DRCOG eligible corridors. The detection devices will continuously collect vehicular, pedestrian, bicycle, and truck data and they will allow staff to remotely monitor detection functionality.

This project is funded with 100% grant funds and 0% local match. DRCOG will contribute $1,021,000 to fully fund this project.

The City of Aurora and CDOT previously executed an IGA for this project in October 2024. CDOT has changed their grant management process, and requested that the IGA template be changed so that their procurement team can manage the project funding. This new IGA contains the same project details and financial details as the previous IGA, and will replace the previously approved IGA when it is executed.

FISCAL IMPACT

Select all that apply. (If no fiscal impact, click that box and skip to "Questions for Council")

☐ Revenue Impact ☐ Budgeted Expenditure Impact ☐ Non-Budgeted Expenditure Impact
☐ Workload Impact ☒ No Fiscal Impact

REVENUE IMPACT
Provide the revenue impact or N/A if no impact. (What is the estimated impact on revenue? What funds would be impacted? Provide additional detail as necessary.)

N/A

BUDGETED EXPENDITURE IMPACT

Provide the budgeted expenditure impact or N/A if no impact. (List Org/Account # and fund. What is the amount of budget to be used? Does this shift existing budget away from existing programs/services? Provide additional detail as necessary.)

N/A

NON-BUDGETED EXPENDITURE IMPACT

Provide the non-budgeted expenditure impact or N/A if no impact. (Provide information on non-budgeted costs. Include Personal Services, Supplies and Services, Interfund Charges, and Capital needs. Provide additional detail as necessary.)

N/A

WORKLOAD IMPACT

Provide the workload impact or N/A if no impact. (Will more staff be needed or is the change absorbable? If new FTE(s) are needed, provide numbers and types of positions, and a duty summary. Provide additional detail as necessary.)

N/A. Workload will be absorbed into FTE positions in the Traffic Engineering and Operations units of Public Works.

QUESTIONS FOR COUNCIL

Does Council approve of the Resolution for the Intergovernmental Agreement between City of Aurora and Colorado Department of Transportation for Aurora Traffic Signal Equipment Upgrade Project?

LEGAL COMMENTS

The City is authorized to cooperate and contract with any political subdivision of the State of Colorado, to provide any function, service, or facility lawfully authorized to each of the contracting or cooperating units of government (Article XIV of the Colorado Constitution and C.R.S. 29-1-203). The City Charter authorizes the City by resolution to enter into contracts or agreements with other governmental units, including special districts, for the joint use of buildings, equipment or facilities or for furnishing or receiving commodities and services. (Charter Section 10-12). (M. Gardner)

STATE OF COLORADO SUBAWARD AGREEMENT

By: Department of Transportation

Effective Date:_____

1. PARTIES

This Agreement is entered into by and between Subrecipient named on the Cover Page for this Agreement (the "Subrecipient"), and the STATE OF COLORADO acting by and through the State agency named on the Cover Page for this Agreement (the "State"). Subrecipient and the State agree to the terms and conditions in this Agreement.

2. TERM AND EFFECTIVE DATE

A. Effective Date

This Agreement shall not be valid or enforceable until the Effective Date, and the Grant Funds shall be expended by the Fund Expenditure End Date shown on the Cover Page for this Agreement. The State shall not be bound by any provision of this Agreement before the Effective Date, and shall have no obligation to pay Subrecipient for any Work performed or expense incurred before the Effective Date, except as described in **§5.D**, or after the Fund Expenditure End Date.

B. Initial Term

The Parties' respective performances under this Agreement shall commence on the Agreement Performance Beginning Date shown on the Cover Page for this Agreement and shall terminate on the Initial Agreement Expiration Date shown on the Cover Page for this Agreement (the "Initial Term") unless sooner terminated or further extended in accordance with the terms of this Agreement.

C. Extension Terms - State's Option

The State, at its discretion, shall have the option to extend the performance under this Agreement beyond the Initial Term for a period, or for successive periods, of one year or less at the same rates and under the same terms specified in this Agreement (each such period an "Extension Term"). In order to exercise this option, the State shall provide written notice to Subrecipient in a form substantially equivalent to the Sample Option Letter attached to this Agreement.

D. End of Term Extension

If this Agreement approaches the end of its Initial Term, or any Extension Term then in place, the State, at its discretion, upon written notice to Subrecipient in a form substantially equivalent to the Sample Option Letter attached to this Agreement, may unilaterally extend such Initial Term or Extension Term for a period not to exceed two months (an "End of Term Extension"), regardless of whether additional Extension Terms are available or not. The provisions of this Agreement in effect when such notice is given shall remain in effect during the End of Term Extension. The End of Term Extension shall automatically terminate upon execution of a replacement Agreement or modification extending the total term of this Agreement.

E. Early Termination in the Public Interest

The State is entering into this Agreement to serve the public interest of the State of Colorado as determined by its Governor, General Assembly, or Courts. If this Agreement ceases to further the public interest of the State, the State, in its discretion, may terminate this Agreement in whole or in part. A determination that this Agreement should be terminated in the public interest shall not be equivalent to a State right to terminate for convenience. This subsection shall not apply to a termination of this Agreement by the State for Breach of Agreement by Subrecipient, which shall be governed by **§12.A.i**.

i. Method and Content

The State shall notify Subrecipient of such termination in accordance with **§14**. The notice shall specify the effective date of the termination and whether it affects all or a portion of this Agreement, and shall include, to the extent practicable, the public interest justification for the termination.

ii. Obligations and Rights

Upon receipt of a termination notice for termination in the public interest, Subrecipient shall be subject to the rights and obligations set forth in **§12.A.i.a**.

iii. Payments

If the State terminates this Agreement in the public interest, the State shall pay Subrecipient an amount equal to the percentage of the total reimbursement payable under this Agreement that corresponds to the percentage of Work satisfactorily completed and accepted, as determined by the State, less payments previously made. Additionally, if this Agreement is less than 60% completed, as determined by the State, the State may reimburse Subrecipient for a portion of actual out-of-pocket expenses, not otherwise reimbursed under this Agreement, incurred by Subrecipient which are directly attributable to the uncompleted portion of Subrecipient's obligations, provided that the sum of any and all reimbursement shall not exceed the Subaward Maximum Amount payable to Subrecipient hereunder.

F. Subrecipient's Termination Under Federal Requirements

Subrecipient may request termination of this Agreement by sending notice to the State, or to the Federal Awarding Agency with a copy to the State, which includes the reasons for the termination and the effective date of the termination. If this Agreement is terminated in this manner, then Subrecipient shall return any advanced payments made for work that will not be performed prior to the effective date of the termination.

3. DEFINITIONS

The following terms shall be construed and interpreted as follows:

A. "**Agreement**" means this subaward agreement, including all attached Exhibits, all documents incorporated by reference, all referenced statutes, rules and cited authorities, and any future modifications thereto.

B. "**Award**" means an award by a Recipient to a Subrecipient funded in whole or in part by a Federal Award. The terms and conditions of the Federal Award flow down to the Award unless the terms and conditions of the Federal Award specifically indicate otherwise.

C. "**Breach of Agreement**" means the failure of a Party to perform any of its obligations in accordance with this Agreement, in whole or in part or in a timely or satisfactory manner. The institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Subrecipient, or the appointment of a receiver or similar officer for Subrecipient or any of its property, which is not vacated or fully stayed within 30 days after the institution of such proceeding, shall also constitute a breach. If Subrecipient is debarred or suspended under §24-109-105, C.R.S. at any time during the term of this Agreement, then such debarment or suspension shall constitute a breach.

D. "**Budget**" means the budget for the Work described in Exhibit A.

E. "**Business Day**" means any day other than Saturday, Sunday, or a legal holiday as listed in §24-11-101(1), C.R.S.

F. "**CORA**" means the Colorado Open Records Act, §§24-72-200.1, ***et. seq.***, C.R.S.

G. "**Deliverable**" means the outcome to be achieved or output to be provided, in the form of a tangible or intangible Good or Service that is produced as a result of Subrecipient's Work that is intended to be delivered by Subrecipient.

H. "**Effective Date**" means the date on which this Agreement is approved and signed by the Colorado State Controller or designee, as shown on the Signature Page for this Agreement.

I. "**End of Term Extension**" means the time period defined in **§2.D**.

J. "**Exhibits**" means the exhibits and attachments included with this Agreement as shown on the Cover Page for this Agreement.

K. "**Extension Term**" means the time period defined in **§2.C**.

L. "**Federal Award**" means an award of Federal financial assistance or a cost-reimbursement contract, under the Federal Acquisition Regulations or by a formula or block grant, by a Federal Awarding Agency to the Recipient. "Federal Award" also means an agreement setting forth the terms and conditions of the Federal Award. The term does not include payments to a Subrecipient or payments to an individual that is a beneficiary of a Federal program.

M. "**Federal Awarding Agency**" means a Federal agency providing a Federal Award to a Recipient. Federal Highway Administration (FHWA) is the Federal Awarding Agency for the Federal Award which is the subject of this Agreement.

N. "**FHWA**" means Federal Highway Administration.

O. "**Goods**" means any movable material acquired, produced, or delivered by Subrecipient as set forth in this Agreement and shall include any movable material acquired, produced, or delivered by Subrecipient in connection with the Services.

P. "**Grant Funds**" means the funds that have been appropriated, designated, encumbered, or otherwise made available for payment by the State under this Agreement.

Q. "**Incident**" means any accidental or deliberate event that results in or constitutes an imminent threat of the unauthorized access, loss, disclosure, modification, disruption, or destruction of any communications or information resources of the State, which are included as part of the Work, as described in §§24-37.5-401, ***et. seq***., C.R.S. Incidents include, without limitation (i) successful attempts to gain unauthorized access to a State system or State Records regardless of where such information is located; (ii) unwanted disruption or denial of service; (iii) the unauthorized use of a State system for the processing or storage of data; or (iv) changes to State system hardware, firmware, or software characteristics without the State's knowledge, instruction, or consent.

R. "**Initial Term**" means the time period defined in **§2.B**.

S. "**Matching Funds**" (Local Funds, or Local Match) means the funds provided by Subrecipient as a match required to receive the Grant Funds and includes in-kind contribution.

T. "**Party**" means the State or Subrecipient, and "Parties" means both the State and Subrecipient.

U. "**PII**" means personally identifiable information including, without limitation, any information maintained by the State about an individual that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records. PII includes, but is not limited to, all information defined as personally identifiable information in §§24-72-501 and 24-73-101, C.R.S.

V. "**Recipient**" means the State agency shown on the Signature and Cover Pages of this Agreement, for the purposes of this Federal Award.

W. "**Services**" means the services to be performed by Subrecipient as set forth in this Agreement and shall include any services to be rendered by Subrecipient in connection with the Goods.

X. "**State Confidential Information**" means any and all State Records not subject to disclosure under CORA. State Confidential Information shall include but is not limited to PII and State personnel records not subject to disclosure under CORA. State Confidential Information shall not include information or data concerning individuals that is not deemed confidential but nevertheless belongs to the State, which has been communicated, furnished, or disclosed by the State to Subrecipient which (i) is subject to disclosure pursuant to CORA; (ii) is already known to Subrecipient without restrictions at the time of its disclosure to Subrecipient; (iii) is or subsequently becomes publicly available without breach of any obligation owed by Subrecipient to the State; (iv) is disclosed to Subrecipient, without confidentiality obligations, by a third party who has the right to disclose such information; or (v) was independently developed without reliance on any State Confidential Information.

Y. "**State Fiscal Rules**" means the fiscal rules promulgated by the Colorado State Controller pursuant to §24-30-202(13)(a), C.R.S.

Z. "**State Fiscal Year**" means a 12-month period beginning on July 1 of each calendar year and ending on June 30 of the following calendar year. If a single calendar year follows the term, then it means the State Fiscal Year ending in that calendar year.

AA. "**State Records**" means any and all State data, information, and records, regardless of physical form.

BB. "**Subaward Maximum Amount**" means an amount equal to the total of Grant Funds for this Agreement.

CC. "**Subcontractor**" means any third party engaged by Subrecipient to aid in performance of the Work. "Subcontractor" also includes sub-recipients of Grant Funds.

DD. "**Subrecipient**" means a non-Federal entity that receives a sub-award from a Recipient to carry out part of a Federal program but does not include an individual that is a beneficiary of such program. A Subrecipient may also be a recipient of other Federal Awards directly from a Federal Awarding Agency.

EE. "**Uniform Guidance**" means the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR Part 200, commonly known as the "Super Circular, which supersedes requirements from OMB Circulars A-21, A-87, A-110, A-122, A-89, A-102, and A-133, and the guidance in Circular A-50 on Single Audit Act follow-up.

FF. "**Work**" means the Goods delivered and Services performed pursuant to this Agreement.

GG. "**Work Product**" means the tangible and intangible results of the Work, whether finished or unfinished, including drafts. Work Product includes, but is not limited to, documents, text, software (including source code), research, reports, proposals, specifications, plans, notes, studies, data, images, photographs, negatives, pictures, drawings, designs, models, surveys, maps, materials, ideas, concepts, know-how, information, and any other results of the Work. "Work Product" does not include any material that was developed prior to the Effective Date that is used, without modification, in the performance of the Work.

Any other term used in this Agreement that is defined elsewhere in this Agreement or in an Exhibit shall be construed and interpreted as defined in that section.

4. STATEMENT OF WORK AND BUDGET

Subrecipient shall complete the Work as described in this Agreement and in accordance with the provisions of Exhibit A. The State shall have no liability to compensate Subrecipient for the delivery of any goods or the performance of any services that are not specifically set forth in this Agreement.

5. PAYMENTS TO SUBRECIPIENT

A. Subaward Maximum Amount

Payments to Subrecipient are limited to the unpaid, obligated balance of the Grant Funds. The State shall not pay Subrecipient any amount under this Agreement that exceeds the Subaward Maximum Amount shown on the Cover Page of this Agreement as "Federal Funds Maximum Amount".

B. Payment Procedures

i. Invoices and Payment

a. The State shall pay Subrecipient in the amounts and in accordance with the schedule and other conditions set forth in Exhibit A.

b. Subrecipient shall initiate payment requests by invoice to the State, in a form and manner approved by the State.

c. Any advance payment allowed under this Agreement, shall comply with State Fiscal Rules and be made in accordance with the provisions of this Agreement and its Exhibits. Eligibility and submission for advance payment is subject to State approval and must include approved documentation in the form and manner set forth and approved by the State.

d. The State shall pay each invoice within 45 days following the State's receipt of that invoice, so long as the amount invoiced correctly represents Work completed by Subrecipient and previously accepted by the State during the term that the invoice covers. If the State determines that the amount of any invoice is not correct, then Subrecipient shall make all changes necessary to correct that invoice.

e. The acceptance of an invoice shall not constitute acceptance of any Work performed or Deliverables provided under this Agreement.

ii. Interest

Amounts not paid by the State within 45 days of the State's acceptance of the invoice shall bear interest on the unpaid balance beginning on the 45th day at the rate of 1% per month, as required by §24-30-202(24)(a), C.R.S., until paid in full; provided, however, that interest shall not accrue on unpaid amounts that the State disputes in writing. Subrecipient shall invoice the State separately for accrued interest on delinquent amounts, and the invoice shall reference the delinquent payment, the number of days' interest to be paid and the interest rate.

iii. Payment Disputes

If Subrecipient disputes any calculation, determination or amount of any payment, Subrecipient shall notify the State in writing of its dispute within 30 days following the earlier to occur of Subrecipient's receipt of the payment or notification of the determination or calculation of the payment by the State. The State will review the information presented by Subrecipient and may make changes to its determination based on this review. The calculation, determination or payment amount that results from the State's review shall not be subject to additional dispute under this subsection. No payment subject to a dispute under this subsection shall be due until after the State has concluded its review, and the State shall not pay any interest on any amount during the period it is subject to dispute under this subsection.

iv. Available Funds-Contingency-Termination.

The State is prohibited by law from making commitments beyond the term of the current State Fiscal Year. Payment to Subrecipient beyond the current State Fiscal Year is contingent on the appropriation and continuing availability of Grant Funds in any subsequent year (as provided in the Colorado Special Provisions). If federal funds or funds from any other non-State funds constitute all or some of the Grant Funds, the State's obligation to pay Subrecipient shall be contingent upon such non-State funding continuing to be made available for payment. Payments to be made pursuant to this Agreement shall be made only from Grant Funds, and the State's liability for such payments shall be limited to the amount remaining of such Grant Funds. If State, federal or other funds are not appropriated, or otherwise become unavailable to fund this Agreement, the State may, upon written notice, terminate this Agreement, in whole or in part, without incurring further liability. The State shall, however, remain obligated to pay for Services and Goods that are delivered and accepted prior to the effective date of notice of termination, and this termination shall otherwise be treated as if this Agreement were terminated in the public interest as described in **§2.E**.

v. Federal Recovery

The close-out of a Federal Award does not affect the right of the Federal Awarding Agency or the State to disallow costs and recover funds on the basis of a later audit or other review. Any cost disallowance recovery is to be made within the Record Retention Period, as defined below.

C. Matching Funds

Subrecipient shall provide Matching Funds as provided in Exhibit A. Subrecipient shall have raised the full amount of Matching Funds prior to the Effective Date and shall report to the State regarding the status of such funds upon request. Subrecipient's obligation to pay all or any part of any Matching Funds, whether direct or contingent, only extends to funds duly and lawfully appropriated for the purposes of this Agreement by the authorized representatives of Subrecipient and paid into Subrecipient's treasury or bank account. Subrecipient represents to the State that the amount designated "Subrecipient's Matching Funds" in Exhibit A has been legally appropriated for the purposes of this Agreement by its authorized representatives and paid into its treasury or bank account. Subrecipient does not by this Agreement irrevocably pledge present cash reserves for payments in future fiscal years, and this Agreement is not intended to create a multiple-fiscal year debt of Subrecipient. Subrecipient shall not pay or be liable for any claimed interest, late charges, fees, taxes or penalties of any nature, except as required by Subrecipient's laws or policies.

D. Reimbursement of Subrecipient Costs

i. The State shall reimburse Subrecipient for the federal share of properly documented allowable costs related to the Work after review and approval thereof, subject to the provisions of **§5**, this Agreement and Exhibit A. However, any costs incurred by Subrecipient prior to the Effective Date shall not be reimbursed absent specific allowance of pre-award costs and indication that the Federal Award funding is retroactive. The State shall pay Subrecipient for costs or expenses incurred or performance by the Subrecipient prior to the Effective Date, only if (1) the Grant Funds involve federal funding and (2) federal laws, rules, and regulations applicable to the Work provide for such retroactive payments to the Subrecipient. Any such retroactive payments shall comply with State Fiscal Rules and be made in accordance with the provisions of this Agreement.

ii. The State shall reimburse Subrecipient's allowable costs, not exceeding the Subaward Maximum Amount shown on the Cover Page of this Agreement and on Exhibit A for all allowable costs

described in this Agreement and shown in Exhibit A. Except as provided in §5.E., Subrecipient may adjust the amounts between each line item of Exhibit A without formal modification to this Agreement as long as the Subrecipient provides notice to the State of the change, the change does not modify the Subaward Maximum Amount or the Subaward Maximum Amount for any federal fiscal year or State Fiscal Year, and the change does not modify any requirements of the Work.

iii. The State shall only reimburse allowable costs described in this Agreement and shown in the Budget if those costs are:

a. Reasonable and necessary to accomplish the Work and for the Goods and Services provided; and

b. Equal to the actual net cost to Subrecipient (i.e. the price paid minus any items of value received by Subrecipient that reduce the cost actually incurred).

iv. Subrecipient's costs for Work performed after the Fund Expenditure End Date shown on the Cover Page for this Agreement, or after any phase performance period end date for a respective phase of the Work, shall not be reimbursable. Subrecipient shall initiate any payment request by submitting invoices to the State in the form and manner set forth and approved by the State.

E. Use of Funds, Budget Adjustments

Grant Funds shall be used only for eligible costs identified herein and/or in the Budget. Subrecipient may adjust budgeted expenditure amounts up to 10% between activities of said Budget without approval of the State. Budget adjustments to activities exceeding 10% but less than 24.99% must be submitted in advance of actual cost and receive written State approval, which approval may be transmitted informally by email or such other means that does not rise to the level of an amendment to this Agreement. A budget revision of **Exhibit A** will be issued by the State with any such adjustment. Adjustments in excess of 24.99% for any activity shall be authorized by the State in an amendment to this Agreement which may also require an amendment to **Exhibit A**. Budget adjustments shall not increase the State's total consideration beyond the Subaward Maximum Amount without an amendment to this Agreement.

F. Close-Out

Subrecipient shall close out this Award within 45 days after the Fund Expenditure End Date shown on the Cover Page for this Agreement. To complete close-out, Subrecipient shall submit to the State all Deliverables (including documentation) as defined in this Agreement and Subrecipient's final reimbursement request or invoice. The State will withhold 5% of allowable costs until all final documentation has been submitted and accepted by the State as substantially complete. If the Federal Awarding Agency has not closed this Federal Award within one year and 90 days after the Fund Expenditure End Date shown on the Cover Page for this Agreement due to Subrecipient's failure to submit required documentation, then Subrecipient may be prohibited from applying for new Federal Awards through the State until such documentation is submitted and accepted.

6. REPORTING - NOTIFICATION

A. Quarterly Reports

In addition to any reports required pursuant to any other Exhibit, for any Agreement having a term longer than three months, Subrecipient shall submit, on a quarterly basis, a written report specifying progress made for each specified performance measure and standard in this Agreement. Such progress report shall be in accordance with the procedures developed and prescribed by the State. Progress reports shall be submitted to the State not later than five Business Days following the end of each calendar quarter or at such time as otherwise specified by the State.

B. Litigation Reporting

If Subrecipient is served with a pleading or other document in connection with an action before a court or other administrative decision making body, and such pleading or document relates to this Agreement or may affect Subrecipient's ability to perform its obligations under this Agreement, Subrecipient shall, within 10 days after being served, notify the State of such action and deliver copies of such pleading or document to the State's Principal Representative identified on the Cover Page for this Agreement.

C. Performance and Final Status

Subrecipient shall submit all financial, performance and other reports to the State no later than 45 calendar days after the end of the Initial Term if no Extension Terms are exercised, or the final Extension Term exercised by the State, containing an evaluation and review of Subrecipient's performance and the final status of Subrecipient's obligations hereunder.

D. Violations Reporting

Subrecipient shall disclose, in a timely manner, in writing to the State and the Federal Awarding Agency, all violations of federal or State criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal Award. The State or the Federal Awarding Agency may impose any penalties for noncompliance allowed under 2 CFR Part 180 and 31 U.S.C. 3321, which may include, without limitation, suspension or debarment.

7. SUBRECIPIENT RECORDS

A. Maintenance

Subrecipient shall make, keep, maintain, and allow inspection and monitoring by the State of a complete file of all records, documents, communications, notes and other written materials, electronic media files, and communications, pertaining in any manner to the Work and the delivery of Services (including, but not limited to the operation of programs) or Goods hereunder (collectively, the "Subrecipient Records"). Subrecipient shall maintain such records for a period of three years following the date of submission to the State of the final expenditure report, or if this Award is renewed quarterly or annually, from the date of the submission of each quarterly or annual report, respectively (the "Record Retention Period"). If any litigation, claim, or audit related to this Award starts before expiration of the Record Retention Period, the Record Retention Period shall extend until all litigation, claims, or audit findings have been resolved and final action taken by the State or Federal Awarding Agency. The Federal Awarding Agency, a cognizant agency for audit, oversight or indirect costs, and the State, may notify Subrecipient in writing that the Record Retention Period shall be extended. For records for real property and equipment, the Record Retention Period shall extend three years following final disposition of such property.

B. Inspection

Subrecipient shall permit the State, the federal government, and any other duly authorized agent of a governmental agency to audit, inspect, examine, excerpt, copy and transcribe Subrecipient Records during the Record Retention Period. Subrecipient shall make Subrecipient Records available during normal business hours at Subrecipient's office or place of business, or at other mutually agreed upon times or locations, upon no fewer than two Business Days' notice from the State, unless the State determines that a shorter period of notice, or no notice, is necessary to protect the interests of the State.

C. Monitoring

The State, the federal government, and any other duly authorized agent of a governmental agency, in its discretion, may monitor Subrecipient's performance of its obligations under this Agreement using procedures as determined by the State or that governmental entity. Subrecipient shall allow the State to perform all monitoring required by the Uniform Guidance, based on the State's risk analysis of Subrecipient and this Agreement. The State shall have the right, in its sole discretion, to change its monitoring procedures and requirements at any time during the term of this Agreement. The State shall monitor Subrecipient's performance in a manner that does not unduly interfere with Subrecipient's performance of the Work.

D. Final Audit Report

Subrecipient shall promptly submit to the State a copy of any final audit report of an audit performed on Subrecipient's records that relates to or affects this Agreement or the Work, whether the audit is conducted by Subrecipient or a third party. Additionally, if Subrecipient is required to perform a single audit under 2 CFR 200.501, ***et. seq.***, then Subrecipient shall submit a copy of the results of that audit to the State within the same timelines as the submission to the federal government.

8. CONFIDENTIAL INFORMATION – STATE RECORDS

A. Confidentiality

Subrecipient shall keep confidential, and cause all Subcontractors to keep confidential, all State Records, unless those State Records are publicly available. Subrecipient shall not, without prior written approval of the State, use, publish, copy, disclose to any third party, or permit the use by any third party of any State Records, except as otherwise stated in this Agreement, permitted by law or approved in writing by the State. Subrecipient shall provide for the security of all State Confidential Information in accordance with all applicable laws, rules, policies, publications, and guidelines. Subrecipient shall immediately forward any request or demand for State Records to the State's Principal Representative identified on the Cover Page of this Agreement.

B. Other Entity Access and Nondisclosure Agreements

Subrecipient may provide State Records to its agents, employees, assigns and Subcontractors as necessary to perform the Work, but shall restrict access to State Confidential Information to those agents, employees, assigns and Subcontractors who require access to perform their obligations under this Agreement. Subrecipient shall ensure all such agents, employees, assigns, and Subcontractors sign agreements containing nondisclosure provisions at least as protective as those in this Agreement, and that the nondisclosure provisions are in force at all times the agent, employee, assign or Subcontractor has access to any State Confidential Information. Subrecipient shall provide copies of those signed nondisclosure provisions to the State upon execution of the nondisclosure provisions if requested by the State.

C. Use, Security, and Retention

Subrecipient shall use, hold and maintain State Confidential Information in compliance with any and all applicable laws and regulations only in facilities located within the United States, and shall maintain a secure environment that ensures confidentiality of all State Confidential Information. Subrecipient shall provide the State with access, subject to Subrecipient's reasonable security requirements, for purposes of inspecting and monitoring access and use of State Confidential Information and evaluating security control effectiveness. Upon the expiration or termination of this Agreement, Subrecipient shall return State Records provided to Subrecipient or destroy such State Records and certify to the State that it has done so, as directed by the State. If Subrecipient is prevented by law or regulation from returning or destroying State Confidential Information, Subrecipient warrants it will guarantee the confidentiality of, and cease to use, such State Confidential Information.

D. Incident Notice and Remediation

If Subrecipient becomes aware of any Incident, it shall notify the State immediately and cooperate with the State regarding recovery, remediation, and the necessity to involve law enforcement, as determined by the State. After an Incident, Subrecipient shall take steps to reduce the risk of incurring a similar type of Incident in the future as directed by the State, which may include, but is not limited to, developing and implementing a remediation plan that is approved by the State at no additional cost to the State.

E. Data Protection and Handling

Subrecipient shall ensure that all State Records and Work Product in the possession of Subrecipient or any Subcontractors are protected and handled in accordance with the requirements of this Agreement, including the requirements of any Exhibits hereto, at all times. As used in this section, the protections afforded Work Product only apply to Work Product that requires confidential treatment.

F. Safeguarding PII

If Subrecipient or any of its Subcontractors will or may receive PII under this Agreement, Subrecipient shall provide for the security of such PII, in a manner and form acceptable to the State, including, without limitation, State non-disclosure requirements, use of appropriate technology, security practices, computer access security, data access security, data storage encryption, data transmission encryption, security inspections, and audits. Subrecipient shall be a "Third-Party Service Provider" as

defined in §24-73-103(1)(i), C.R.S., and shall maintain security procedures and practices consistent with §§24-73-101, *et seq.*, C.R.S.

9. CONFLICTS OF INTEREST

A. Actual Conflicts of Interest

Subrecipient shall not engage in any business or activities or maintain any relationships that conflict in any way with the full performance of the obligations of Subrecipient under this Agreement. Such a conflict of interest would arise when a Subrecipient or Subcontractor's employee, officer or agent were to offer or provide any tangible personal benefit to an employee of the State, or any member of his or her immediate family or his or her partner, related to the award of, entry into or management or oversight of this Agreement.

B. Apparent Conflicts of Interest

Subrecipient acknowledges that, with respect to this Agreement, even the appearance of a conflict of interest shall be harmful to the State's interests. Absent the State's prior written approval, Subrecipient shall refrain from any practices, activities or relationships that reasonably appear to be in conflict with the full performance of Subrecipient's obligations under this Agreement.

C. Disclosure to the State

If a conflict or the appearance of a conflict arises, or if Subrecipient is uncertain whether a conflict or the appearance of a conflict has arisen, Subrecipient shall submit to the State a disclosure statement setting forth the relevant details for the State's consideration. Failure to promptly submit a disclosure statement or to follow the State's direction in regard to the actual or apparent conflict constitutes a breach of this Agreement.

D. Subrecipient shall not engage in any business or activities, or maintain any relationships that conflict in any way with the full performance of the obligations of Subrecipient under this Subaward. Subrecipient acknowledges that, with respect to this Subaward, even the appearance of a conflict of interest shall be harmful to the State's interests and absent the State's prior written approval, Subrecipient shall refrain from any practices, activities or relationships that reasonably appear to be in conflict with the full performance of Subrecipient's obligations under this Subaward. If a conflict or the appearance of a conflict arises, or if Subrecipient is uncertain whether a conflict or the appearance of a conflict has arisen, Subrecipient shall submit to the State a disclosure statement setting forth the relevant details for the State's consideration. Subrecipient acknowledges that all State employees are subject to the ethical principles described in §24-18-105, C.R.S. Subrecipient further acknowledges that State employees may be subject to the requirements of §24-18-105, C.R.S. with regard to this Subaward.

10. INSURANCE

Subrecipient shall obtain and maintain, and ensure that each Subcontractor shall obtain and maintain, insurance as specified in this section at all times during the term of this Agreement. All insurance policies required by this Agreement that are not provided through self-insurance shall be issued by insurance companies as approved by the State.

A. Workers' Compensation

Workers' compensation insurance as required by state statute, and employers' liability insurance covering all Subrecipient or Subcontractor employees acting within the course and scope of their employment.

B. General Liability

Commercial general liability insurance covering premises operations, fire damage, independent contractors, products and completed operations, blanket contractual liability, personal injury, and advertising liability with minimum limits as follows:

i. $1,000,000 each occurrence;
ii. $1,000,000 general aggregate;
iii. $1,000,000 products and completed operations aggregate; and
iv. $50,000 any 1 fire.

C. Automobile Liability

Automobile liability insurance covering any auto (including owned, hired and non-owned autos) with a minimum limit of $1,000,000 each accident combined single limit.

D. Additional Insured

The State shall be named as additional insured on all commercial general liability policies (leases and construction contracts require additional insured coverage for completed operations) required of Subrecipient and Subcontractors.

E. Primacy of Coverage

Coverage required of Subrecipient and each Subcontractor shall be primary over any insurance or self-insurance program carried by Subrecipient or the State.

F. Cancellation

All insurance policies shall include provisions preventing cancellation or non-renewal, except for cancellation based on non-payment of premiums, without at least 30 days prior notice to Subrecipient and Subrecipient shall forward such notice to the State in accordance with **§14** within seven days of Subrecipient's receipt of such notice.

G. Subrogation Waiver

All insurance policies secured or maintained by Subrecipient or its Subcontractors in relation to this Agreement shall include clauses stating that each carrier shall waive all rights of recovery under subrogation or otherwise against Subrecipient or the State, its agencies, institutions, organizations, officers, agents, employees, and volunteers.

H. Public Entities

If Subrecipient is a "public entity" within the meaning of the Colorado Governmental Immunity Act, §24-10-101, ***et seq.***, C.R.S. (the "GIA"), Subrecipient shall maintain, in lieu of the liability insurance requirements stated above, at all times during the term of this Agreement such liability insurance, by commercial policy or self-insurance, as is necessary to meet its liabilities under the GIA. If a Subcontractor is a public entity within the meaning of the GIA, Subrecipient shall ensure that the Subcontractor maintain at all times during the terms of this Subrecipient, in lieu of the liability insurance requirements stated above, such liability insurance, by commercial policy or self-insurance, as is necessary to meet the Subcontractor's obligations under the GIA.

I. Certificates

For each insurance plan provided by Subrecipient under this Agreement, Subrecipient shall provide to the State certificates evidencing Subrecipient's insurance coverage required in this Agreement prior to the Effective Date. Subrecipient shall provide to the State certificates evidencing Subcontractor insurance coverage required under this Agreement prior to the Effective Date, except that, if Subrecipient's subcontract is not in effect as of the Effective Date, Subrecipient shall provide to the State certificates showing Subcontractor insurance coverage required under this Agreement within seven Business Days following Subrecipient's execution of the subcontract. No later than 15 days before the expiration date of Subrecipient's or any Subcontractor's coverage, Subrecipient shall deliver to the State certificates of insurance evidencing renewals of coverage. At any other time during the term of this Agreement, upon request by the State, Subrecipient shall, within seven Business Days following the request by the State, supply to the State evidence satisfactory to the State of compliance with the provisions of this section.

11. BREACH OF AGREEMENT

In the event of a Breach of Agreement, the aggrieved Party shall give written notice of breach to the other Party. If the notified Party does not cure the Breach of Agreement, at its sole expense, within 30 days after the delivery of written notice, the Party may exercise any of the remedies as described in **§12** for that Party. Notwithstanding any provision of this Agreement to the contrary, the State, in its discretion, need not provide notice or a cure period and may immediately terminate this Agreement in whole or in part or institute any other remedy in this Agreement in order to protect the public interest of the State; or if Subrecipient is debarred or suspended under §24-109-105, C.R.S.,

the State, in its discretion, need not provide notice or cure period and may terminate this Agreement in whole or in part or institute any other remedy in this Agreement as of the date that the debarment or suspension takes effect.

12. REMEDIES

A. State's Remedies

If Subrecipient is in breach under any provision of this Agreement and fails to cure such breach, the State, following the notice and cure period set forth in **§11**, shall have all of the remedies listed in this section in addition to all other remedies set forth in this Agreement or at law. The State may exercise any or all of the remedies available to it, in its discretion, concurrently or consecutively.

i. Termination for Breach of Agreement

In the event of Subrecipient's uncured breach, the State may terminate this entire Agreement or any part of this Agreement. Additionally, if Subrecipient fails to comply with any terms of the Federal Award, then the State may, in its discretion or at the direction of a Federal Awarding Agency, terminate this entire Agreement or any part of this Agreement. Subrecipient shall continue performance of this Agreement to the extent not terminated, if any.

a. Obligations and Rights

To the extent specified in any termination notice, Subrecipient shall not incur further obligations or render further performance past the effective date of such notice, and shall terminate outstanding orders and subcontracts with third parties. However, Subrecipient shall complete and deliver to the State all Work not cancelled by the termination notice, and may incur obligations as necessary to do so within this Agreement's terms. At the request of the State, Subrecipient shall assign to the State all of Subrecipient's rights, title, and interest in and to such terminated orders or subcontracts. Upon termination, Subrecipient shall take timely, reasonable and necessary action to protect and preserve property in the possession of Subrecipient but in which the State has an interest. At the State's request, Subrecipient shall return materials owned by the State in Subrecipient's possession at the time of any termination. Subrecipient shall deliver all completed Work Product and all Work Product that was in the process of completion to the State at the State's request.

b. Payments

Notwithstanding anything to the contrary, the State shall only pay Subrecipient for accepted Work received as of the date of termination. If, after termination by the State, the State agrees that Subrecipient was not in breach or that Subrecipient's action or inaction was excusable, such termination shall be treated as a termination in the public interest, and the rights and obligations of the Parties shall be as if this Agreement had been terminated in the public interest under **§2.E**.

c. Damages and Withholding

Notwithstanding any other remedial action by the State, Subrecipient shall remain liable to the State for any damages sustained by the State in connection with any breach by Subrecipient, and the State may withhold payment to Subrecipient for the purpose of mitigating the State's damages until such time as the exact amount of damages due to the State from Subrecipient is determined. The State may withhold any amount that may be due Subrecipient as the State deems necessary to protect the State against loss including, without limitation, loss as a result of outstanding liens and excess costs incurred by the State in procuring from third parties replacement Work as cover.

ii. Remedies Not Involving Termination

The State, in its discretion, may exercise one or more of the following additional remedies:

a. Suspend Performance

Suspend Subrecipient's performance with respect to all or any portion of the Work pending corrective action as specified by the State without entitling Subrecipient to an adjustment in price or cost or an adjustment in the performance schedule. Subrecipient shall promptly cease

performing Work and incurring costs in accordance with the State's directive, and the State shall not be liable for costs incurred by Subrecipient after the suspension of performance.

b. Withhold Payment

Withhold payment to Subrecipient until Subrecipient corrects its Work.

c. Deny Payment

Deny payment for Work not performed, or that due to Subrecipient's actions or inactions, cannot be performed or if they were performed are reasonably of no value to the state; provided, that any denial of payment shall be equal to the value of the obligations not performed.

d. Removal

Demand immediate removal of any of Subrecipient's employees, agents, or Subcontractors from the Work whom the State deems incompetent, careless, insubordinate, unsuitable, or otherwise unacceptable or whose continued relation to this Agreement is deemed by the State to be contrary to the public interest or the State's best interest.

e. Intellectual Property

If any Work infringes, or if the State in its sole discretion determines that any Work is likely to infringe, a patent, copyright, trademark, trade secret or other intellectual property right, Subrecipient shall, as approved by the State **(i)** secure that right to use such Work for the State and Subrecipient; **(ii)** replace the Work with noninfringing Work or modify the Work so that it becomes noninfringing; or, **(iii)** remove any infringing Work and refund the amount paid for such Work to the State.

B. Subrecipient's Remedies

If the State is in breach of any provision of this Agreement and does not cure such breach, Subrecipient, following the notice and cure period in **§11** and the dispute resolution process in **§13** shall have all remedies available at law and equity.

13. DISPUTE RESOLUTION

A. Initial Resolution

Except as herein specifically provided otherwise, disputes concerning the performance of this Agreement which cannot be resolved by the designated Agreement representatives shall be referred in writing to a senior departmental management staff member designated by the State and a senior manager designated by Subrecipient for resolution.

B. Resolution of Controversies

If the initial resolution described in **§13.A** fails to resolve the dispute within 10 Business Days, Subrecipient shall submit any alleged breach of this Agreement by the State to the Procurement Official of the State Agency named on the Cover Page of this Agreement as described in §24-101-301(30), C.R.S., for resolution following the same resolution of controversies process as described in §§24-106-109, and 24-109-101.1 through 24-109-505, C.R.S., (collectively, the "Resolution Statutes"), except that if Subrecipient wishes to challenge any decision rendered by the Procurement Official, Subrecipient's challenge shall be an appeal to the executive director of the Department of Personnel and Administration, or their delegate, in the same manner as described in the Resolution Statutes before Subrecipient pursues any further action. Except as otherwise stated in this Section, all requirements of the Resolution Statutes shall apply including, without limitation, time limitations regardless of whether the Colorado Procurement Code applies to this Agreement.

14. NOTICES and REPRESENTATIVES

Each individual identified as a Principal Representative on the Cover Page for this Agreement shall be the principal representative of the designating Party. All notices required or permitted to be given under this Agreement shall be in writing, and shall be delivered **(A)** by hand with receipt required, **(B)** by certified or registered mail to such Party's principal representative at the address set forth on the Cover Page for this Agreement or **(C)** as an email with read receipt requested to the principal representative at the email

address, if any, set forth on the Cover Page for this Agreement. If a Party delivers a notice to another through email and the email is undeliverable, then, unless the Party has been provided with an alternate email contact, the Party delivering the notice shall deliver the notice by hand with receipt required or by certified or registered mail to such Party's principal representative at the address set forth on the Cover Page for this Agreement. Either Party may change its principal representative or principal representative contact information, or may designate specific other individuals to receive certain types of notices in addition to or in lieu of a principal representative, by notice submitted in accordance with this section without a formal amendment to this Agreement. Unless otherwise provided in this Agreement, notices shall be effective upon delivery of the written notice.

15. RIGHTS IN WORK PRODUCT AND OTHER INFORMATION

A. Work Product

Subrecipient agrees to provide to the State a royalty-free, non-exclusive and irrevocable license to reproduce publish or otherwise use and to authorize others to use the Work Product described herein, for the Federal Awarding Agency's and State's purposes. All Work Product shall be delivered to the State by Subrecipient upon completion or termination hereof.

B. Exclusive Property of the State

Except to the extent specifically provided elsewhere in this Agreement, all State Records, documents, text, software (including source code), research, reports, proposals, specifications, plans, notes, studies, data, images, photographs, negatives, pictures, drawings, designs, models, surveys, maps, materials, ideas, concepts, know-how, and information provided by or on behalf of the State to Subrecipient are the exclusive property of the State (collectively, "State Materials"). Subrecipient shall not use, willingly allow, cause or permit Work Product or State Materials to be used for any purpose other than the performance of Subrecipient's obligations in this Agreement without the prior written consent of the State. Upon termination of this Agreement for any reason, Subrecipient shall provide all Work Product and State Materials to the State in a form and manner as directed by the State.

C. Exclusive Property of Subrecipient

Subrecipient retains the exclusive rights, title, and ownership to any and all pre-existing materials owned or licensed to Subrecipient including, but not limited to, all pre-existing software, licensed products, associated source code, machine code, text images, audio and/or video, and third-party materials, delivered by Subrecipient under this Agreement, whether incorporated in a Deliverable or necessary to use a Deliverable (collectively, "Subrecipient Property"). Subrecipient Property shall be licensed to the State as set forth in this Agreement or a State approved license agreement: (i) entered into as exhibits to this Agreement, (ii) obtained by the State from the applicable third-party vendor, or (iii) in the case of open source software, the license terms set forth in the applicable open source license agreement.

16. GENERAL PROVISIONS

A. Assignment

Subrecipient's rights and obligations under this Agreement are personal and may not be transferred or assigned without the prior, written consent of the State. Any attempt at assignment or transfer without such consent shall be void. Any assignment or transfer of Subrecipient's rights and obligations approved by the State shall be subject to the provisions of this Agreement.

B. Subcontracts

Subrecipient shall not enter into any subaward or subcontract in connection with its obligations under this Agreement without the prior, written approval of the State. Subrecipient shall submit to the State a copy of each such subaward or subcontract upon request by the State. All subawards and subcontracts entered into by Subrecipient in connection with this Agreement shall comply with all applicable federal and state laws and regulations, shall provide that they are governed by the laws of the State of Colorado, and shall be subject to all provisions of this Agreement. If the entity with whom Subrecipient enters into a subcontract or subaward would also be considered a Subrecipient, then the subcontract or subaward entered into by Subrecipient shall also contain provisions permitting both

Subrecipient and the State to perform all monitoring of that Subcontractor in accordance with the Uniform Guidance.

C. Binding Effect

Except as otherwise provided in **§16.A**., all provisions of this Agreement, including the benefits and burdens, shall extend to and be binding upon the Parties' respective successors and assigns.

D. Authority

Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations have been duly authorized.

E. Captions and References

The captions and headings in this Agreement are for convenience of reference only, and shall not be used to interpret, define, or limit its provisions. All references in this Agreement to sections (whether spelled out or using the § symbol), subsections, exhibits or other attachments, are references to sections, subsections, exhibits or other attachments contained herein or incorporated as a part hereof, unless otherwise noted.

F. Counterparts

This Agreement may be executed in multiple, identical, original counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.

G. Entire Understanding

This Agreement represents the complete integration of all understandings between the Parties related to the Work, and all prior representations and understandings related to the Work, oral or written, are merged into this Agreement. Prior or contemporaneous additions, deletions, or other changes to this Agreement shall not have any force or effect whatsoever, unless embodied herein.

H. Digital Signatures

If any signatory signs this Agreement using a digital signature in accordance with the Colorado State Controller Contract, Grant and Purchase Order Policies regarding the use of digital signatures issued under the State Fiscal Rules, then any agreement or consent to use digital signatures within the electronic system through which that signatory signed shall be incorporated into this Agreement by reference.

I. Modification

Except as otherwise provided in this Agreement, any modification to this Agreement shall only be effective if agreed to in a formal amendment to this Agreement, properly executed and approved in accordance with applicable Colorado State law and State Fiscal Rules. Modifications permitted under this Agreement, other than Agreement amendments, shall conform to the policies issued by the Colorado State Controller.

J. Statutes, Regulations, Fiscal Rules, and Other Authority.

Any reference in this Agreement to a statute, regulation, State Fiscal Rule, fiscal policy or other authority shall be interpreted to refer to such authority then current, as may have been changed or amended since the Effective Date of this Agreement.

K. External Terms and Conditions

Notwithstanding anything to the contrary herein, the State shall not be subject to any provision included in any terms, conditions, or agreements appearing on Subrecipient's or a Subcontractor's website or any provision incorporated into any click-through or online agreements related to the Work unless that provision is specifically referenced in this Agreement.

L. Severability

The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect, provided that the Parties can continue to perform their obligations under this Agreement in accordance with the intent of this Agreement.

M. Survival of Certain Agreement Terms

Any provision of this Agreement that imposes an obligation on a Party after termination or expiration of this Agreement shall survive the termination or expiration of this Agreement and shall be enforceable by the other Party.

N. Taxes

The State is exempt from federal excise taxes under I.R.C. Chapter 32 (26 U.S.C., Subtitle D, Ch. 32) (Federal Excise Tax Exemption Certificate of Registry No. 84-730123K) and from State and local government sales and use taxes under §§39-26-704(1), ***et seq.,*** C.R.S. (Colorado Sales Tax Exemption Identification Number 98-02565). The State shall not be liable for the payment of any excise, sales, or use taxes, regardless of whether any political subdivision of the State imposes such taxes on Subrecipient. Subrecipient shall be solely responsible for any exemptions from the collection of excise, sales or use taxes that Subrecipient may wish to have in place in connection with this Agreement.

O. Third Party Beneficiaries

Except for the Parties' respective successors and assigns described in **§16.A**., this Agreement does not and is not intended to confer any rights or remedies upon any person or entity other than the Parties. Enforcement of this Agreement and all rights and obligations hereunder are reserved solely to the Parties. Any services or benefits which third parties receive as a result of this Agreement are incidental to this Agreement, and do not create any rights for such third parties.

P. Waiver

A Party's failure or delay in exercising any right, power, or privilege under this Agreement, whether explicit or by lack of enforcement, shall not operate as a waiver, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise of such right, power, or privilege.

Q. CORA Disclosure

To the extent not prohibited by federal law, this Agreement and the performance measures and standards required under §24-106-107, C.R.S., if any, are subject to public release through the CORA.

R. Standard and Manner of Performance

Subrecipient shall perform its obligations under this Agreement in accordance with the highest standards of care, skill and diligence in Subrecipient's industry, trade, or profession.

S. Licenses, Permits, and Other Authorizations

i. Subrecipient shall secure, prior to the Effective Date, and maintain at all times during the term of this Agreement, at its sole expense, all licenses, certifications, permits, and other authorizations required to perform its obligations under this Agreement, and shall ensure that all employees, agents and Subcontractors secure and maintain at all times during the term of their employment, agency or Subcontractor, all license, certifications, permits and other authorizations required to perform their obligations in relation to this Agreement.

ii. Subrecipient, if a foreign corporation or other foreign entity transacting business in the State of Colorado, shall obtain prior to the Effective Date and maintain at all times during the term of this Agreement, at its sole expense, a certificate of authority to transact business in the State of Colorado and designate a registered agent in Colorado to accept service of process.

T. Federal Provisions

Subrecipient shall comply with all applicable requirements of Exhibits C, D, and E at all times during the term of this Agreement.

17. COLORADO SPECIAL PROVISIONS (COLORADO FISCAL RULE 3-3)

These Special Provisions apply to all agreements except where noted in italics.

A. Statutory Approvals. §24-30-202(1), C.R.S.
This Agreement shall not be valid until it has been approved by the Colorado State Controller or designee. If this Agreement is for a Major Information Technology Project, as defined in §24-37.5-102(2.6), C.R.S., then this Agreement shall not be valid until it has been approved by the State's Chief Information Officer or designee.

B. Fund Availability. §24-30-202(5.5), C.R.S.
Financial obligations of the State payable after the current State Fiscal Year are contingent upon funds for that purpose being appropriated, budgeted, and otherwise made available.

C. Governmental Immunity.
Liability for claims for injuries to persons or property arising from the negligence of the Parties, its departments, boards, commissions committees, bureaus, offices, employees and officials shall be controlled and limited by the provisions of the Colorado Governmental Immunity Act, §24-10-101, et seq., C.R.S.; the Federal Tort Claims Act, 28 U.S.C. Pt. VI, Ch. 171 and 28 U.S.C. 1346(b), and the State's risk management statutes, §§24-30-1501, et seq. C.R.S. No term or condition of this Agreement shall be construed or interpreted as a waiver, express or implied, of any of the immunities, rights, benefits, protections, or other provisions, contained in these statutes.

D. Independent Contractor.
Grantee shall perform its duties hereunder as an independent contractor and not as an employee. Neither Grantee nor any agent or employee of Grantee shall be deemed to be an agent or employee of the State. Grantee shall not have authorization, express or implied, to bind the State to any agreement, liability or understanding, except as expressly set forth herein. Grantee and its employees and agents are not entitled to unemployment insurance or workers compensation benefits through the State and the State shall not pay for or otherwise provide such coverage for Grantee or any of its agents or employees. Grantee shall pay when due all applicable employment taxes and income taxes and local head taxes incurred pursuant to this Agreement. Grantee shall (i) provide and keep in force workers' compensation and unemployment compensation insurance in the amounts required by law, (ii) provide proof thereof when requested by the State, and (iii) be solely responsible for its acts and those of its employees and agents.

E. Compliance with Law.
Grantee shall comply with all applicable federal and State laws, rules, and regulations in effect or hereafter established, including, without limitation, laws applicable to discrimination and unfair employment practices.

F. Choice of Law, Jurisdiction, and Venue.
Colorado law, and rules and regulations issued pursuant thereto, shall be applied in the interpretation, execution, and enforcement of this Agreement. Any provision included or incorporated herein by reference which conflicts with said laws, rules, and regulations shall be null and void. All suits or actions related to this Agreement shall be filed and proceedings held in the State of Colorado and exclusive venue shall be in the City and County of Denver.

G. Prohibited Terms.
Any term included in this Agreement that requires the State to indemnify or hold Grantee harmless; requires the State to agree to binding arbitration; limits Grantee's liability for damages resulting from death, bodily injury, or damage to tangible property; or that conflicts with this provision in any way shall be void ab initio. Nothing in this Agreement shall be construed as a waiver of any provision of §24-106-109, C.R.S.

H. Software Piracy Provisions.
State or other public funds payable under this Agreement shall not be used for the acquisition, operation, or maintenance of computer software in violation of federal copyright laws or applicable licensing restrictions. Grantee hereby certifies and warrants that, during the term of this Agreement and any extensions, Grantee has and shall maintain in place appropriate systems and controls to prevent such improper use of public funds. If the State determines that Grantee is in violation of this provision, the State may exercise any remedy available at law or in equity or under this Agreement, including, without limitation, immediate termination of this Agreement and any remedy consistent with federal copyright laws or applicable licensing restrictions.

I. Employee Financial Interest/Conflict of Interest §§24-18-201 and 24-50-507, C.R.S.
The signatories aver that to their knowledge, no employee of the State has any personal or beneficial interest whatsoever in the service or property described in this Agreement. Grantee has no interest and shall not acquire any interest, direct or indirect, that would conflict in any manner or degree with the performance of Grantee's services and Grantee shall not employ any person having such known interests.

J. Vendor Offset and Erroneous Payments §§24-30-202(1) and 24-30-202.4, C.R.S.
[Not applicable to intergovernmental agreements] Subject to §24-30-202.4(3.5), C.R.S., the State Controller may withhold payment under the State's vendor offset intercept system for debts owed to State agencies for: (i) unpaid child support debts or child support arrearages; (ii) unpaid balances of

tax, accrued interest, or other charges specified in §§39-21-101, et seq., C.R.S.; (iii) unpaid loans due to the Student Loan Division of the Department of Higher Education; (iv) amounts required to be paid to the Unemployment Compensation Fund; and (v) other unpaid debts owing to the State as a result of final agency determination or judicial action. The State may also recover, at the State's discretion, payments made to Grantee in error for any reason, including, but not limited to, overpayments or improper payments, and unexpended or excess funds received by Grantee by deduction from subsequent payments under this Agreement, deduction from any payment due under any other contracts, grants or agreements between the State and Grantee, or by any other appropriate method for collecting debts owed to the State.

EXHIBIT A, STATEMENT OF WORK AND BUDGET

SA# 26185 – Statement of Work

FY 25 Aurora Traffic Signal Equipment Upgrade

The City of Aurora Traffic Engineering Division of Public Works will be upgrading Aurora's traffic signal system. The system upgrades are focused on upgrading existing traffic signals in order to adjust and monitor signal timing and performance in real time, to reduce motorist frustration and unsafe driving by monitoring and improving traffic signal coordination, and to prevent unnecessary stops and delays, which reduces emissions and fuel consumption. The City of Aurora will achieve these goals by upgrading vehicular detection and uninterruptable power supplies (UPS) with real-time monitoring capabilities at existing traffic signals within the City of Aurora. These locations are critical to achieving the previously mentioned goals on arterial travel corridors within the City, allowing City staff to monitor and respond to maintenance issues proactively, efficiently, and effectively. The City will be installing UPS units and batteries at forty-two (42) signalized intersections owned, operated, and maintained by the City of Aurora. The project will also be upgrading multimodal video detection units at existing traffic signals within the City of Aurora. The City will be installing MioVision Smart 360 cameras at forty-two (42) signalized intersections owned, operated, and maintained by the City of Aurora.

Budget - City of Aurora - STU M055-072 (26185)

A. Cost of Work Estimate

The Grantee has estimated the total cost the Work to be $1,021,000.00, which is to be funded as follows:

1. FUNDING

a.	Federal Funds (100% STBG)	$1,021,000.00
b.	Grantee Funds (0% of STBG)	$0.00
	TOTAL FUNDS ALL SOURCES	**$1,021,000.00**

2. OMB UNIFORM GUIDANCE

a.	Federal Award Identification Number (FAIN):	TBD
b.	Name of Federal Awarding Agency:	FHWA
c.	Grantee Unique Entity Identifier	KVZATDBDECG8
d.	Assistance Listing # Highway Planning and Construction	ALN 20.205
e.	Is the Award for R&D?	No
f.	Indirect Cost Rate (if applicable)	N/A
g.	Amount of Federal Funds Obligated by this Action:	$0.00
h.	Amount of Federal Funds Obligated to Date (including this Action):	$0.00

3. ESTIMATED PAYMENT TO GRANTEE

a.	Federal Funds Budgeted		$1,021,000.00
b.	Less Estimated Federal Share of CDOT-Incurred Costs		$0.00
	TOTAL ESTIMATED PAYMENT TO GRANTEE	**100%**	**$1,021,000.00**
	TOTAL ESTIMATED FUNDING BY GRANTEE	**0%**	**$0.00**
	TOTAL PROJECT ESTIMATED FUNDING	**100%**	**$1,021,000.00**

4. FOR CDOT ENCUMBRANCE PURPOSES

Type of Fed Funds

a.	Total Encumbrance Amount (Federal funds + Grantee funds	$1,021,000.00
b.	Less ROW Acquisition 3111 and/or ROW Relocation 3109	$0.00
	NET TO BE ENCUMBERED BY CDOT IS AS FOLLOWS	**$1,021,000.00**

B. Funding Ratios

The funding ratio for the federal funds for this Work is 100% federal funds to 0% Subrecipient funds, and this ratio applies only to the $1,021,000.00 that is eligible for federal funding. All other costs are borne by the Subrecipient at 100%. If the total cost of performance of the Work exceeds $1,021,000.00, and additional federal funds are not available, the Subrecipient shall pay all such excess costs. If the total cost of performance of the Work is less than $1,021,000.00, then the amounts of Subrecipient and federal funds will be decreased in accordance with the funding ratio described in **A.1**. **This applies to the entire scope of Work.**

C. Maximum Amount Payable

The maximum amount payable to the Subrecipient under this Agreement shall be $1,021,000.00. For CDOT accounting purposes, the federal funds of $1,021,000.00 and the Subrecipient funds of $0.00 will be encumbered for a total encumbrance of $1,021,000.00, unless this amount is increased by an executed amendment before any increased cost is incurred. The total budget is $1,021,000.00, unless this amount is increased by an executed amendment before any increased cost is incurred. The total cost of the Work is the best estimate available, based on the design data as approved at the time of execution of this Agreement, and that any cost is subject to revisions agreed to by the parties prior to bid and award. The maximum amount payable will be reduced without amendment when the actual amount of the Subrecipient's

awarded Agreement is less than the budgeted total of the federal funds and the Subrecipient funds. The maximum amount payable will be reduced through the execution of an Option Letter as described in Section 7. E. of this contract. **This applies to the entire scope of Work.**

D. Single Audit Act Amendment

All state and local government and non-profit organizations receiving $750,000 or more from all funding sources defined as federal financial assistance for Single Audit Act Amendment purposes shall comply with the audit requirements of 2 CFR part 200, subpart F (Audit Requirements) see also, 49 CFR 18.20 through 18.26. The Single Audit Act Amendment requirements applicable to the Subrecipient receiving federal funds are as follows:

i. **Expenditure less than $750,000**
If the Subrecipient expends less than $750,000 in Federal funds (all federal sources, not just Highway funds) in its fiscal year then this requirement does not apply.

ii. **Expenditure of $750,000 or more-Highway Funds Only**
If the Subrecipient expends $750,000 or more, in Federal funds, but only received federal Highway funds (Catalog of Federal Domestic Assistance, CFDA 20.205) then a program specific audit shall be performed. This audit will examine the "financial" procedures and processes for this program area.

iii. **Expenditure of $750,000 or more-Multiple Funding Sources**
If the Subrecipient expends $750,000 or more in Federal funds, and the Federal funds are from multiple sources (FTA, HUD, NPS, etc.) then the Single Audit Act applies, which is an audit on the entire organization/entity.

iv. **Independent CPA**
Single Audit shall only be conducted by an independent CPA, not by an auditor on staff. An audit is an allowable direct or indirect cost.

EXHIBIT C, FEDERAL PROVISIONS

1. APPLICABILITY OF PROVISIONS.

1.1. The Grant to which these Federal Provisions are attached has been funded, in whole or in part, with an Award of Federal funds. In the event of a conflict between the provisions of these Federal Provisions, the Special Provisions, the body of the Grant, or any attachments or exhibits incorporated into and made a part of the Grant, the provisions of these Federal Provisions shall control.

1.2. The State of Colorado is accountable to Treasury for oversight of their subrecipients, including ensuring their subrecipients comply with federal statutes, Award Terms and Conditions, Treasury's Final Rule, and reporting requirements, as applicable.

1.3. Additionally, any subrecipient that issues a subaward to another entity (2nd tier subrecipient), must hold the 2nd tier subrecipient accountable to these provisions and adhere to reporting requirements.

1.4. These Federal Provisions are subject to the Award as defined in §2 of these Federal Provisions, as may be revised pursuant to ongoing guidance from the relevant Federal or State of Colorado agency or institutions of higher education.

2. DEFINITIONS.

2.1. For the purposes of these Federal Provisions, the following terms shall have the meanings ascribed to them below.

2.1.1. "Award" means an award of Federal financial assistance, and the Grant setting forth the terms and conditions of that financial assistance, that a non-Federal Entity receives or administers.

2.1.2. "Entity" means:

2.1.2.1. a Non-Federal Entity;

2.1.2.2. a foreign public entity;

2.1.2.3. a foreign organization;

2.1.2.4. a non-profit organization;

2.1.2.5. a domestic for-profit organization (for 2 CFR parts 25 and 170 only);

2.1.2.6. a foreign non-profit organization (only for 2 CFR part 170) only);

2.1.2.7. a Federal agency, but only as a Subrecipient under an Award or Subaward to a non-Federal entity (or 2 CFR 200.1); or

2.1.2.8. a foreign for-profit organization (for 2 CFR part 170 only).

2.1.3. "Executive" means an officer, managing partner or any other employee in a management position.

2.1.4. "Expenditure Category (EC)" means the category of eligible uses as defined by the US Department of Treasury in "Appendix 1 of the Compliance and Reporting Guidance, State and Local Fiscal Recovery Funds" report available at www.treasury.gov.

2.1.5. "Federal Awarding Agency" means a Federal agency providing a Federal Award to a Recipient as described in 2 CFR 200.1

2.1.6. "Grant" means the Grant to which these Federal Provisions are attached.

2.1.7. "Grantee" means the party or parties identified as such in the Grant to which these Federal Provisions are attached.

2.1.8. "Non-Federal Entity means a State, local government, Indian tribe, institution of higher education, or nonprofit organization that carries out a Federal Award as a Recipient or a Subrecipient.

2.1.9. "Nonprofit Organization" means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

2.1.9.1. Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

2.1.9.2. Is not organized primarily for profit; and

2.1.9.3. Uses net proceeds to maintain, improve, or expand the operations of the organization.

2.1.10. "OMB" means the Executive Office of the President, Office of Management and Budget.

2.1.11. "Pass-through Entity" means a non-Federal Entity that provides a Subaward to a Subrecipient to carry out part of a Federal program.

2.1.12. "Prime Recipient" means the Colorado State agency or institution of higher education identified as the Grantor in the Grant to which these Federal Provisions are attached.

2.1.13. "Subaward" means an award by a Prime Recipient to a Subrecipient funded in whole or in part by a Federal Award. The terms and conditions of the Federal Award flow down to the Subaward unless the terms and conditions of the Federal Award specifically indicate otherwise in accordance with 2 CFR 200.101. The term does not include payments to a Contractor or payments to an individual that is a beneficiary of a Federal program.

2.1.14. "Subrecipient" or "Subgrantee" means a non-Federal Entity (or a Federal agency under an Award or Subaward to a non-Federal Entity) receiving Federal funds through a Prime Recipient to support the performance of the Federal project or program for which the Federal funds were awarded. A Subrecipient is subject to the terms and conditions of the Federal Award to the Prime Recipient, including program compliance requirements. The term does not include an individual who is a beneficiary of a federal program. For SLFRF Grants, a subrecipient relationship continues to exist for Expenditure Category 6.1 Revenue Replacement.

2.1.15. "System for Award Management (SAM)" means the Federal repository into which an Entity must enter the information required under the Transparency Act, which may be found at http://www.sam.gov. "Total Compensation" means the cash and noncash dollar value earned by an Executive during the Prime Recipient's or Subrecipient's preceding fiscal year (see 48 CFR 52.204-10, as prescribed in 48 CFR 4.1403(a)) and includes the following:

2.1.15.1. Salary and bonus;

2.1.15.2. Awards of stock, stock options, and stock appreciation rights, using the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2005) (FAS 123R), Shared Based Payments;

2.1.15.3. Earnings for services under non-equity incentive plans, not including group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of Executives and are available generally to all salaried employees;

2.1.15.4. Change in present value of defined benefit and actuarial pension plans;

2.1.15.5. Above-market earnings on deferred compensation which is not tax-qualified;

2.1.15.6. Other compensation, if the aggregate value of all such other compensation (e.g., severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the Executive exceeds $10,000.

2.1.16. "Transparency Act" means the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), as amended by §6202 of Public Law 110-252.

2.1.17. "Uniform Guidance" means the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The terms and conditions of the Uniform Guidance flow down to Awards to Subrecipients unless the Uniform Guidance or the terms and conditions of the Federal Award specifically indicate otherwise.

2.1.18. "Unique Entity ID Number" means the Unique Entity ID established by the federal government for a Grantee at https://sam.gov/content/home

3. COMPLIANCE.

3.1. Grantee shall comply with all applicable provisions of the Transparency Act and the regulations issued pursuant thereto, all provisions of the Uniform Guidance, and all applicable Federal Laws and regulations required by this Federal Award. Any revisions to such provisions or regulations shall automatically become a part of these Federal Provisions, without the necessity of either party executing any further instrument. The State of Colorado, at its discretion, may provide written notification to Grantee of such revisions, but such notice shall not be a condition precedent to the effectiveness of such revisions.

3.2. Per US Treasury Final Award requirements, grantee programs or services must not include terms or conditions that undermine efforts to stop COVID-19 or discourage compliance with recommendations and CDC guidelines.

4. SYSTEM FOR AWARD MANAGEMENT (SAM) AND UNIQUE ENTITY ID SYSTEM (UEI) REQUIREMENTS.

4.1. SAM. Grantee shall maintain the currency of its information in SAM until the Grantee submits the final financial report required under the Award or receives final payment, whichever is later. Grantee shall review and update SAM information at least annually.

4.2. UEI. Grantee shall provide its Unique Entity ID to its Prime Recipient, and shall update Grantee's information in SAM.gov at least annually.

5. TOTAL COMPENSATION.

5.1. Grantee shall include Total Compensation in SAM for each of its five most highly compensated Executives for the preceding fiscal year if:

5.1.1. The total Federal funding authorized to date under the Award is $30,000 or more; and

5.1.2. In the preceding fiscal year, Grantee received:

5.1.2.1. 80% or more of its annual gross revenues from Federal procurement Agreements and Subcontractors and/or Federal financial assistance Awards or Subawards subject to the Transparency Act; and

5.1.2.2. $30,000,000 or more in annual gross revenues from Federal procurement Agreements and Subcontractors and/or Federal financial assistance Awards or Subawards subject to the Transparency Act; and

5.1.2.3. 5.1.2.3 The public does not have access to information about the compensation of such Executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d) or § 6104 of the Internal Revenue Code of 1986.

6. REPORTING.

6.1. If Grantee is a Subrecipient of the Award pursuant to the Transparency Act, Grantee shall report data elements to SAM and to the Prime Recipient as required in this Exhibit. No direct payment shall be made to Grantee for providing any reports required under these Federal Provisions and the cost of producing such reports shall be included in the Grant price. The reporting requirements in this Exhibit are based on guidance from the OMB, and as such are subject to change at any time by OMB. Any such changes shall be automatically incorporated into this Grant and shall become part of Grantee's obligations under this Grant.

7. EFFECTIVE DATE AND DOLLAR THRESHOLD FOR FEDERAL REPORTING.

7.1. Reporting requirements in §8 below apply to new Awards as of October 1, 2010, if the initial award is $30,000 or more. If the initial Award is below $30,000 but subsequent Award modifications result in a total Award of $30,000 or more, the Award is subject to the reporting requirements as of the date the Award exceeds $30,000. If the initial Award is $30,000 or more, but funding is subsequently de-obligated such that the total award amount falls below $30,000, the Award shall continue to be subject to the reporting requirements. If the total award is below $30,000 no reporting required; if more than $30,000 and less than $50,000 then FFATA reporting is required; and, $50,000 and above SLFRF reporting is required.

7.2. The procurement standards in §9 below are applicable to new Awards made by Prime Recipient as of December 26, 2015. The standards set forth in §11 below are applicable to audits of fiscal years beginning on or after December 26, 2014.

8. SUBRECIPIENT REPORTING REQUIREMENTS. [INTENTIONALLY DELETED]

9. PROCUREMENT STANDARDS.

9.1. Procurement Procedures. A Subrecipient shall use its own documented procurement procedures which reflect applicable State, local, and Tribal laws and applicable regulations, provided that the procurements conform to applicable Federal law and the standards identified in the Uniform Guidance, including without limitation, 2 CFR 200.318 through 200.327 thereof.

9.2. Domestic preference for procurements (2 CFR 200.322). As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all Agreements and purchase orders for work or products under this award.

9.3. Procurement of Recovered Materials. If a Subrecipient is a State Agency or an agency of a political subdivision of the State, its Contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247, that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

10. ACCESS TO RECORDS.

10.1. A Subrecipient shall permit Prime Recipient and its auditors to have access to Subrecipient's records and financial statements as necessary for Recipient to meet the requirements of 2 CFR 200.332 (Requirements for pass-through entities), 2 CFR 200.300 (Statutory and national policy requirements) through 2 CFR 200.309 (Period of performance), and Subpart F-Audit Requirements of the Uniform Guidance.

11. SINGLE AUDIT REQUIREMENTS.

11.1. If a Subrecipient expends $750,000 or more in Federal Awards during the Subrecipient's fiscal year, the Subrecipient shall procure or arrange for a single or program-specific audit conducted for that year in accordance with the provisions of Subpart F-Audit Requirements of the Uniform Guidance, issued pursuant to the Single Audit Act Amendments of 1996, (31 U.S.C. 7501-7507). 2 CFR 200.501.

11.1.1. Election. A Subrecipient shall have a single audit conducted in accordance with Uniform Guidance 2 CFR 200.514 (Scope of audit), except when it elects to have a program-specific audit conducted in accordance with 2 CFR 200.507 (Program-specific audits). The Subrecipient may elect to have a program-specific audit if Subrecipient expends Federal Awards under only one Federal program (excluding research and development) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of Prime Recipient. A program-specific audit may not be elected for research and development unless all of the Federal Awards expended were received from Recipient and Recipient approves in advance a program-specific audit.

11.1.2. Exemption. If a Subrecipient expends less than $750,000 in Federal Awards during its fiscal year, the Subrecipient shall be exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 (Relation to other audit requirements), but records shall be available for review or audit by appropriate officials of the Federal agency, the State, and the Government Accountability Office.

11.1.3. Subrecipient Compliance Responsibility. A Subrecipient shall procure or otherwise arrange for the audit required by Subpart F of the Uniform Guidance and ensure it is properly performed and submitted when due in accordance with the Uniform Guidance. Subrecipient shall prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with 2 CFR 200.510 (Financial statements) and provide the auditor with access to personnel, accounts, books, records, supporting documentation, and other information as needed for the auditor to perform the audit required by Uniform Guidance Subpart F-Audit Requirements.

12. GRANT PROVISIONS FOR SUBRECIPIENT AGREEMENTS.

12.1. In addition to other provisions required by the Federal Awarding Agency or the Prime Recipient, Grantees that are Subrecipients shall comply with the following provisions. Subrecipients shall include all of the following applicable provisions in all Subcontractors entered into by it pursuant to this Grant.

12.1.1. [Applicable to federally assisted construction Agreements.] Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all Agreements that meet the definition of "federally assisted construction Agreement" in 41 CFR Part 60-1.3 shall include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, Office of Federal Agreement Compliance Programs, Equal Employment Opportunity, Department of Labor.

12.1.2. [Applicable to on-site employees working on government-funded construction, alteration and repair projects.] Davis-Bacon Act. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148).

12.1.3. Rights to Inventions Made Under a grant or agreement. If the Federal Award meets the definition of "funding agreement" under 37 CFR 401.2 (a) and the Prime Recipient or Subrecipient wishes to enter into an Agreement with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the Prime Recipient or Subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Agreements and Cooperative Agreements," and any implementing regulations issued by the Federal Awarding Agency.

12.1.4. Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended. Agreements and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal awardees to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal Awarding Agency and the Regional Office of the Environmental Protection Agency (EPA).

12.1.5. Debarment and Suspension (Executive Orders 12549 and 12689). A Agreement award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in SAM, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

12.1.6. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal Agreement, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

12.1.7. Never Contract with the Enemy (2 CFR 200.215). Federal awarding agencies and recipients are subject to the regulations implementing "Never Contract with the Enemy" in 2 CFR part 183. The regulations in 2 CFR part 183 affect covered Agreements, grants and cooperative agreements that are expected to exceed $50,000 within the period of performance, are performed outside the United States and its territories, and are in support of a contingency operation in which members of the Armed Forces are actively engaged in hostilities.

12.1.8. Prohibition on certain telecommunications and video surveillance services or equipment (2 CFR 200.216). Grantee is prohibited from obligating or expending loan or grant funds on certain telecommunications and video surveillance services or equipment pursuant to 2 CFR 200.216.

12.1.9. Title VI of the Civil Rights Act. The Subgrantee, Contractor, Subcontractor, transferee, and assignee shall comply with Title VI of the Civil Rights Act of 1964, which prohibits recipients of federal financial assistance from excluding from a program or activity, denying benefits of, or otherwise discriminating against a person on the basis of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of Treasury's Title VI regulations, 31 CFR Part 22, which are herein incorporated by reference and made a part of this Agreement (or agreement). Title VI also includes protection to persons with "Limited English Proficiency" in any program or activity receiving federal financial assistance, 42 U.S. C. § 2000d et seq., as implemented by the Department of the Treasury's Title VI regulations, 31 CRF Part 22, and herein incorporated by reference and made part of this Agreement or agreement.

13. CERTIFICATIONS.

13.1. Subrecipient Certification. Subrecipient shall sign a "State of Colorado Agreement with Recipient of Federal Recovery Funds" Certification Form in Exhibit E and submit to State Agency with signed grant agreement.

13.2. Unless prohibited by Federal statutes or regulations, Prime Recipient may require Subrecipient to submit certifications and representations required by Federal statutes or regulations on an annual basis. 2 CFR 200.208. Submission may be required more frequently if Subrecipient fails to meet a requirement of the Federal award. Subrecipient shall certify in writing to the State at the end of the Award that the project or activity was completed or the level of effort was expended. 2 CFR 200.201(3). If the required level of activity or effort was not carried out, the amount of the Award must be adjusted.

14. EXEMPTIONS.

14.1. These Federal Provisions do not apply to an individual who receives an Award as a natural person, unrelated to any business or non-profit organization he or she may own or operate in his or her name.

14.2. A Grantee with gross income from all sources of less than $300,000 in the previous tax year is exempt from the requirements to report Subawards and the Total Compensation of its most highly compensated Executives.

15. EVENT OF DEFAULT AND TERMINATION.

15.1. Failure to comply with these Federal Provisions shall constitute an event of default under the Grant and the State of Colorado may terminate the Grant upon 30 days prior written notice if the default remains uncured five calendar days following the termination of the 30-day notice period. This remedy will be in addition to any other remedy available to the State of Colorado under the Grant, at law or in equity.

15.2. Termination (2 CFR 200.340). The Federal Award may be terminated in whole or in part as follows:

15.2.1. By the Federal Awarding Agency or Pass-through Entity, if a Non-Federal Entity fails to comply with the terms and conditions of a Federal Award;

15.2.2. By the Federal awarding agency or Pass-through Entity, to the greatest extent authorized by law, if an award no longer effectuates the program goals or agency priorities;

15.2.3. By the Federal awarding agency or Pass-through Entity with the consent of the Non-Federal Entity, in which case the two parties must agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated;

15.2.4. By the Non-Federal Entity upon sending to the Federal Awarding Agency or Pass-through Entity written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated. However, if the Federal Awarding Agency or Pass-through Entity determines in the case of partial termination that the reduced or modified portion of the Federal Award or Subaward will not accomplish the purposes for which the Federal Award was made, the Federal Awarding Agency or Pass-through Entity may terminate the Federal Award in its entirety; or

15.2.5. By the Federal Awarding Agency or Pass-through Entity pursuant to termination provisions included in the Federal Award.

EXHIBIT D, ADDITIONAL PROGRAM REQUIREMENTS

A. Work

Per 23 CFR 420.111, SUBRECIPIENT shall complete the Work and other obligations as described herein and Exhibit A. Work performed prior to the Effective Date or after the Termination date shall not be considered part of the Work. SUBRECIPIENT shall take all reasonable steps to carry out all activities described and identified in the Statement of Work. The Statement shall include an estimation of anticipated benefits from each program submitted, a Budget, the activity purpose, objectives, major tasks, timeline of expected completion, and an Evaluation process to determine the success of each activity stated in Exhibit A. In addition, SUBRECIPIENT shall be responsible for:

1.) The initial design and implementation of its congestion mitigation and air quality program as outlined in the current TIP;
2.) Monitoring and Evaluating the program effectiveness;
3.) The promotion of congestion mitigation and air quality program(s) by employers;
4.) Submittal of an annual report to CDOT; and,

B. Notice

SUBRECIPIENT shall not commence Work until the date specified by a written notice, which may be electronic, and shall complete the Work within the period specified in the Agreement unless the period or terms thereof are extended according to this Agreement.

C. Staff/Consultant Services

SUBRECIPIENT shall be responsible to select staff/consultant services in compliance with all applicable federal procurement requirements including 23 CFR 172 and 2 CFR 200. Any Request for Proposal (RFP) used by SUBRECIPIENT to secure consultant Services must be reviewed by CDOT before SUBRECIPIENT releases the RFP. CDOT shall have 15 calendar days from the date of receiving the RFP in which to return comments. Responses to CDOT's comments will be provided by SUBRECIPIENT within 15 calendar days of receipt of the comments. SUBRECIPIENT shall notify CDOT in writing before executing any Agreement for consultant Services which utilizes Grant funding.

D. Statement of Work and Budget Amendment

SUBRECIPIENT shall amend Exhibit A in accordance with the terms of this Agreement, when:

1.) Reallocating funds between budget line items in Exhibit A, as permitted pursuant to §5(E); and
2.) Adding or deleting activities listed in Exhibit A to reflect authorized budget line item reallocations permitted pursuant to §5(E).

If any changes to Exhibit A (i) require an increase or decrease to the maximum amount of this Subaward, (ii) change the term of the Agreement, or (iii) exceed the 24.99% threshold in §5(E) for any activity, the Parties must amend this Agreement prior to such change being effective.

E. Limited Availability of Funds

The amount of Federal Funds available to pay for the Work performed by Subrecipient in any one year is limited to the amount of the unused portion of the allocated funds, made available through 23 §USC 104 (b)(3) and (f) as amended, and 49 USC 5303 as amended.

F. Additional Funds Use

Federal Funds shall be used only to reimburse Subrecipient for eligible allowable costs incurred and Subrecipient shall be solely responsible for all costs incurred that are either not allowable or which exceed the funds available in the Agreement as identified herein and/or in the Exhibit A.

G. Billing, Reimbursement, and Allowable Costs

1.) **Reimbursement**

The Parties hereto exprssly recognize that the Subrecipient is to be paid, reimbursed, or otherwise compensated with the funds provided to CDOT by the U.S. Department of Transportation for the purpose of completing the Work and therefore, the Subrecipient expressly understands and agrees that all its rights, demands, and claims to compensation arising under this Agreement are contingent upon receipt of such funds by CDOT.

2.) **Allowable Costs**

CDOT shall not be obligated to use State funds under this Agreement. CDOT's use of Federal Fnds shall be to reimburse Subrecipient for allowable costs incurred by Subrecipient, as defined in this

Agreement. Subrecipient shall be solely responsible for all costs incurred which are not allowable or which exceed the funds available in the Agreement.

H. Allowable and Indirect Costs

Allowable and indirect costs may include but are not limited to those listed in 2 CFR 200, or State Fiscal Rule 2-7: "Official Functions and Training Functions," whichever may apply. However, such costs shall be limited to those costs determined by the CDOT as necessary to directly carry out the Work for this Agreement. In determining the amount of allowable costs, CDOT will exclude:

a) Any costs incurred by the Subrecipient before the execution of the Agreement.

b) Any costs incurred by the Subrecipient that are not included in **Exhibit A**.

c) Any cost incurred by the Subrecipient after the termination date of this Agreement as amended.

d) Memberships, subscriptions, and professional activities, which do not meet the following requirements:

(1). Costs of membership in civic and community, social organizations are allowable as a direct cost with the approval of the federal-awarding agency;

(2). Costs of subscriptions to business, professional, and technical periodicals;

(3). Costs of meetings, conferences, and conventions where the primary purpose is the dissemination of technical information, including meals, transportation, rental of meeting facilities, and other incidental costs; or

(4). Costs of memberships in business, technical, and professional organizations. However, costs of membership in organizations substantially engaged in lobbying are not allowed and thus unallowable.

e) Official Function Expenditures (as defined by Rule 2-7 of the Colorado State Fiscal Rules), which do not qualify as a meeting, conference, meal or other function that is hosted by the MPO or Subrecipient staff and attended by guests and/or other MPO or Subrecipient personnel and held for official MPO or Subrecipient business. Expenditures incurred for official functions shall be approved by the responsible MPO or Subrecipient official.

I. Disallow Costs

CDOT has the right to disallow any costs incurred by the Subrecipient, which are not consistent with this Agreement, or on any activity not in compliance with the authorized Work.

J. Reimbursement Waiver

Subrecipient agrees that reimbursement of any cost under this Agreement does not constitute a final CDOT decision about the allowability of the costs and does not constitute a waiver of any violation by Subrecipient of the terms of this Agreement.

K. Certification

Upon submitting request for reimbursement, the designated representative of the Subrecipient has certified that:

a) The costs are allowable, and therefore reimburseable;

b) The expenditure amount for that time period is correct;

c) The agreed upon Work has been performed and/or Work Product has been produced;

d) All Requests for Proposals and/or Requests for Qualifications have been forwarded to CDOT for review and comment; and

e) Reimbursements are being requested in accordance with the terms of this Agreement.

L. Expenditures

Along with the form requesting reimbursement, the Subrecipient shall include expenditures of Federal Funds for Work. The information shall contain:

i. Budgetted amount;

ii. Expenditures for current billing cycle and year-to-date;

iii. Unexpended balance after current cycle;

iv. Percent expended year-to-date; and

v. Copies of Subcontractors invoices, if applicable.

M. Invoice

CDOT shall pay the Subrecipient's voucher for expenditures incurred in performance of Work, up to the maximum amount described in §7, and elsewhere in this Agreement, subject to conditions specified herein, within 30 days of receipt.

N. Final Report

Within 30 days after the end of the Program period, SUBRECIPIENT will provide to CDOT a final accomplishment report of the activities performed under this Agreement for the completed fiscal year. It shall include, but not be limited to:

1.) Final accompishments by activities; and
2.) Status of uncompleted products; and
3.) Accomplishment of performance measures; and
4.) Actual expenditures for the Program Period.

O. Reporting Guidance

Reporting made for the purpose of this Agreement and its activities shall be done in accordance with 23 CFR Part 420.117, 450 and 2 CFR 200, and any supporting sections or amendments. The provisions of this paragraph do not constitute a waiver of legal and administrative appeals available to SUBRECIPIENT or the State.

P. Monitoring

In accordance with 2 CFR 200 and other applicable standards, the State will monitor all the activities conducted by SUBRECIPIENT pursuant to the terms of this Agreement to assure that the Project is being performed consistent with supporting federal laws and regulations, as amended, to enable the preparation and submission of appropriate reports that will contain at a minimum:

1.) Comparison of actual performance with established goals during the program and once the program is complete;
2.) Progress in meeting schedules;
3.) Comparison of budgeted (approved) amounts and actual costs incurred;
4.) Cost variances to budget;
5.) Approved program revisions; and
6.) Other supporting data.

Q. Performance, Progress, Personnel, and Funds

In responding to these requirements, CDOT will utilize the following steps and procedures to ensure that assigned responsibilities are carried out:

1.) **Monitoring Documents**
CDOT will use the current Statement of Work, and supporting documents, in reviewing the progress being made by SUBRECIPIENT to meet the commitments in this Agreement. The Statement of Work must include all activities, deliverables, and performance measures, and Budgets committed to by SUBRECIPIENT.

2.) **Monitoring Meetings**
Meetings between CDOT and SUBRECIPIENT representatives will be conducted at CDOT's discretion for the purpose of reviewing progress, resource allocations, and billings.

3.) **Progress and Financial Reports**
CDOT will prepare and submit progress and financial reports to the appropriate federal agencies.

R. Noncompliance

Any Product that SUBRECIPIENT has committed to in the Statement of Work not produced and justification not provided in a timely manner in accordance with this agreement, may result in the delay of payment of funds and/or termination as provided under this Agreement. Along with the terms of this Agreement and in accordance with 2 CFR 200, the following steps will be implemented by CDOT:

1.) CDOT representative will meet with SUBRECIPIENT representative to discuss performance.
2.) The CDOT representative will report the progress to the Division of Transportation Development Director.
3.) The Director will issue a decision as to whether performance is satisfactory or unsatisfactory. If performance was determined to have been unsatisfactory, CDOT shall determine if a reduction in allocation is appropriate. SUBRECIPIENT will be notified of any decisions made by CDOT.

S. Additional Requirements for Rights in Data, Documents, and Computer Software

Whenever possible, published material shall acknowledge the financial participation of CDOT and/or the FHWA and other agencies contributing funding to the Work Product. Any published material acknowledging the contribution of the FHWA shall include the federal disclaimer statement: "FUNDED BY THE FHWA". Published materials include any non-internal documents, reports, maps, photographs,

computer software, or like materials that are intended to be viewed by those outside of CDOT, and Subrecipient.

Patents: In addition to the standard patent rights clauses of 37 CFR §401 et. al, and other applicable laws and regulations, CDOT, Subrecipient, and either party's subrecipients are subject to the provisions of 37 CFR part 401, governing patents and inventions whereby "The Subcontractor or Subrecipient will retain all rights provided for the State in this clause, and the State will not, as part of the consideration for awarding the subaward or Agreement, obtain rights in the Subcontractor's or Subrecipient 's subject inventions."

T. 2 CFR 200 Subpart F

In accordance with the provisions of 2 CFR 200: "Audits of States, Local Governments, and Nonprofit Organizations", all nonfederal entities including state and local government and non-profit organizations, receiving more than $750,000 from all federal financial assistance funding sources, shall comply with the audit requirements of 2 CFR 200. Compliance with 2 CFR 200 is required in the following manner:

a) If the Subcontractor expends less than $750,000 in Federal funds (all federal sources, not just Highway funds) in its fiscal year then this requirement does not apply.

b) If the Subcontractor expends more than $750,000 in Federal funds, but only received federal Highway funds (Catalog of Federal Domestic Assistance, CFDA 20.205) then a program specific audit shall be performed. This audit will examine the "financial" procedures and processes for this program area.

c) If the Subcontractor expends more than $750,000 in federal funds, and the federal funds are from multiple sources (FTA, HUD, NPS, etc.) then the Single Audit Act applies, which is an audit on the entire organization/entity.

d) Single Audit can only be conducted by an independent auditor in accordance with generally accepted government auditing standards covering financial audits (2 CFR 200). An audit is an allowable direct or indirect cost.

U. Final Audit Report

If an audit is performed on Subrecipient's records for any fiscal year covering a portion of the term of this Agreement, Subrecipient shall submit a copy of the final audit report to CDOT or its principal representative at the address specified herein.

EXHIBIT E, TITLE VI – CIVIL RIGHTS

Nondiscrimination Requirements

Subrecipient shall not exclude from participation in, deny the benefits of, or subject to discrimination any person in the United States on the ground of race, color, national origin, sex, age or disability.

Subrecipient shall abide by all applicable federal and state nondiscrimination laws and regulations, including but not limited to, Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d et seq.; The Civil Rights Restoration Act of 1987, Pub. L. No. 100-259, 102 Stat. 28; 49 CFR Part 21: Nondiscrimination in Federally-Assisted Programs of the Department of Transportation; 23 CFR Part 200: Title VI Program and Related Statutes - Implementation and Review Procedures; Title II of the Americans with Disabilities Act of 1990, 42 U.S.C §§12101 - 12213; Rehabilitation Act of 1973 § 504, 29 U.S.C § 794; 49 CFR Part 27: Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Assistance; 28 CFR Part 35: Nondiscrimination on the Basis of Disability in State and Local Government Services; 49 CFR Part 28: Enforcement of Nondiscrimination on the Basis of Handicap in Programs or Activities Conducted by the Department of Transportation.

As a condition of federal financial assistance, Subrecipient shall develop and maintain a Title VI Program in accordance with the "Requirements for FHWA Subrecipients" set forth in CDOT's Title VI Program Plan. Subrecipient shall also facilitate compliance with Executive Order 12898 and DOT Order 5610.2(a) by incorporating the principles of environmental justice in planning, project development and public outreach in accordance with applicable CDOT and FHWA guidance.

In any contract utilizing federal funds, land, or other federal aid, Subrecipient shall require the federal-aid recipient or contractor to provide a statement of written assurance that they will comply with Section 504 and not discriminate on the basis of disability. Subrecipient shall develop and maintain an ADA Program in accordance with 28 CFR Part 35, Nondiscrimination on the Basis of Disability in State and Local Government Services and any other requirements established by CDOT for FHWA subrecipients.

Disadvantaged Business Enterprise Requirements

The requirements of 49 CFR Part 26 and CDOT's DOT-approved DBE program are incorporated by reference into this agreement. Subrecipient shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Agreement. Subrecipient shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of this DOT-assisted Agreement. Failure by Subrecipient to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy as CDOT deems appropriate. Subrecipient must include this assurance in all DOT-assisted contracts.

Prompt Payment

Subrecipient shall require that all contractors pay subcontractors for satisfactory performance of work no later than 30 days after the receipt of payment for that work from the contractor. If Subrecipient allows contractors to withhold retainage from subcontractors, retainage shall be released within 30 days from the date the work is satisfactorily completed.

Transportation, Airports and Public Works (TAPS) Policy Committee Meeting

August 24, 2023

Members Present: Council Member (CM) Juan Marcano, Chair; Council Member (CM) Angela Lawson, Vice-Chair, Council Member (CM) Ruben Medina; Council Member (CM) Francoise Bergan

Others Present: Carlie Campuzano, Elly Watson, Julie Patterson, Traci Burton, Rachel Allen, Brian Rulla, James Paral, Lynne Center, Ryan Germeroth, Tom Worker-Braddock, Mac Callison, Mindy Parnes, Huiliang Liu, Haley Busch Johansen, Michelle Gardner, Cindy Colip, Laura Perry, and Scott Bauman

2. APPROVAL OF MINUTES

The minutes for the July 27, 2023 TAPS meeting were approved as written.

---

3. CONSENT ITEMS (None)

---

4. GENERAL BUSINESS

4.a. DRCOG 2024-2027 Regional Transportation Operations and Technology Set-Aside Application Update

Summary of Issue and Discussion:

Carlie Campuzano, Traffic Manager in the Public Works Department, presented on recent grant applications they submitted the previous month that were part of the DRCOG Regional Transportation Operations and Technology Set-Aside Program. She said this program was focused on transportation technology projects. She stated the three applications they submitted were to upgrade the traffics signal communication system, create a traffic management center, and upgrade different traffic signal equipment. The three projects totaled $2.8 million with a local match of approximately $700,000. Ms. Campuzano said the applications were being scored and reviewed and they were hoping to hear back next month.

Ms. Campuzano gave some background on how their system operated and initiatives they were working with as far as fiber. She stated that the city has a lot of traffic signals and other field devices, and staff needs to bring back data from them. She said traffic signals currently operate on a wireless network comprised of radios throughout the city, but the overall bandwidth of the communications

network is limited, which limits the type of data that can be brought back. She said staff has identified the need for fiber to bolster the existing communications system. She said the Public Works Department kicked off a fiber master plan project in 2021, and they pulled resources together along with Aurora Water and Aurora IT to create the plan. She said they were working with a consultant on a fiber master plan and planned on presenting it later in the year. Ms. Campuzano showed maps of where the city would benefit from fiber. She noted a high priority segment for them was connecting different city facilities along Chambers Rd and Smoky Hill Pkwy. She pointed out that it would not happen overnight as the total cost is about 80 million dollars for City-wide fiber. Ms. Campuzano said they identified a potential cost sharing opportunity with CDOT, because they already have fiber along I-225, I-70, and Colfax, and CDOT is open to letting the city use 8 strands of fiber for City traffic and IT purposes. She said City staff drafted a proposal and submitted it to CDOT earlier in the year, which they reviewed and approved. She said it would help the City improve data reliability and capacity.

Ms. Campuzano discussed the grant application for a communications infrastructure upgrade, which was aimed at doing the connection work needed to connect to the CDOT fiber. She said staff are working on a formal agreement with CDOT that would be presented in a few months as an IGA. She stated it would allow the city to connect 12 traffic signals and two city facilities. She also spoke about the application for equipment for the traffic management center (TMC), which would pay for a lot of the hardware needed for a future TMC. She also talked about the application to purchase different hardware equipment, including 42 video detection units and battery backup power supplies.

Committee Discussion:
CM Lawson thanked C. Campuzano for the presentation. She asked if they looked at the future growth of the city and any needs they would have.

Ms. Campuzano said they did have a portion of the fiber master plan and extra maps that addressed the area of the city that was growing. She said that staff already updated design standards to require developers to install conduit proactively as a part of new projects.

CM Lawson stated that was good to know. She said it was a little concerning that the older part of the city was going to be more difficult to make it happen and hoped they would examine that to make sure everything is somewhat on a level playing field for everyone in the city.

CM Marcano asked if it was eligible for federal grant funding with the broadband money they recently approved.

Cindy Colip stated that she did not know, but staff would reach out to Scott Newman in IT.

CM Marcano asked if they were still looking to lease broadband access to other providers or explore municipal broadband in the future.

Ms. Campuzano said that was something Scott was looking at and they would have him there to provide answers when they present the Fiber Master Plan. She said they tried to overestimate quantities in order to lease out strands, so it was a consideration.

Outcome: Information only.

Follow-up Action: No follow-up needed.

Transportation, Airports and Public Works (TAPS) Policy Committee Meeting

June 26, 2024

Members Present:	Council Member (CM) Stephanie Hancock, Chair; Council Member (CM) Francoise Bergan, Vice-Chair; Council Member (CM) Angela Lawson, Member
Others Present:	Carlie Campuzano, Julie Patterson, Ryan Germeroth, Mac Callison, Huiliang Liu, Haley Busch Johansen, Laura Perry, Cathy Valencia, Mindy Parnes, Stephanie Sinclair, Adrian Morris, Traci Burton, Jeannine Rustad, Marc Tamburro, Brian Rulla, Nicholas Johnson, Daniel Clark, Hector Reynoso, Rachel Allen, Michelle Gardner
Guest:	Keith Borsheim

1. WELCOME AND INTRODUCTION

2. APPROVAL OF MAY 16, 2024 MEETING MINUTES

3. CONSENT ITEMS (None)

4. GENERAL BUSINESS

4.a. Consideration to Approve a Resolution for the IGA with CDOT for the Aurora Traffic Signal Equipment Upgrade Project

Summary of Issue and Discussion:

Carlie Campuzano, Traffic Manager, asked for consideration and approval for a resolution for the IGA (Intergovernmental Agreement) with Colorado Department of Transportation (CDOT) for the Aurora Traffic Signal Equipment Upgrade Project. This is for a grant project applied for through DRCOG (Denver Regional Council of Governments) for the Regional Transportation Operations and Technology set-side program that is administered by CDOT. C. Campuzano noted that they applied for three different grant projects for traffic items and received funding for all three, which are for communications infrastructure, traffic management center, and this project, which is for traffic signal equipment upgrades. Staff selected 42 locations to upgrade multimodal detection units which provide data and metrics as well as 42 backup power supply units. The federal funding will procure the hardware and internal staff will phase in the installations.

Committee Discussion:
CM Bergan asked what the criteria was for choosing the 42 locations.

C. Campuzano responded that the locations were determined primarily based on which corridors were eligible, but they tend to be high volume and higher crash locations.

CM Lawson inquired if there was any regional coordination to do something on Parker Road.

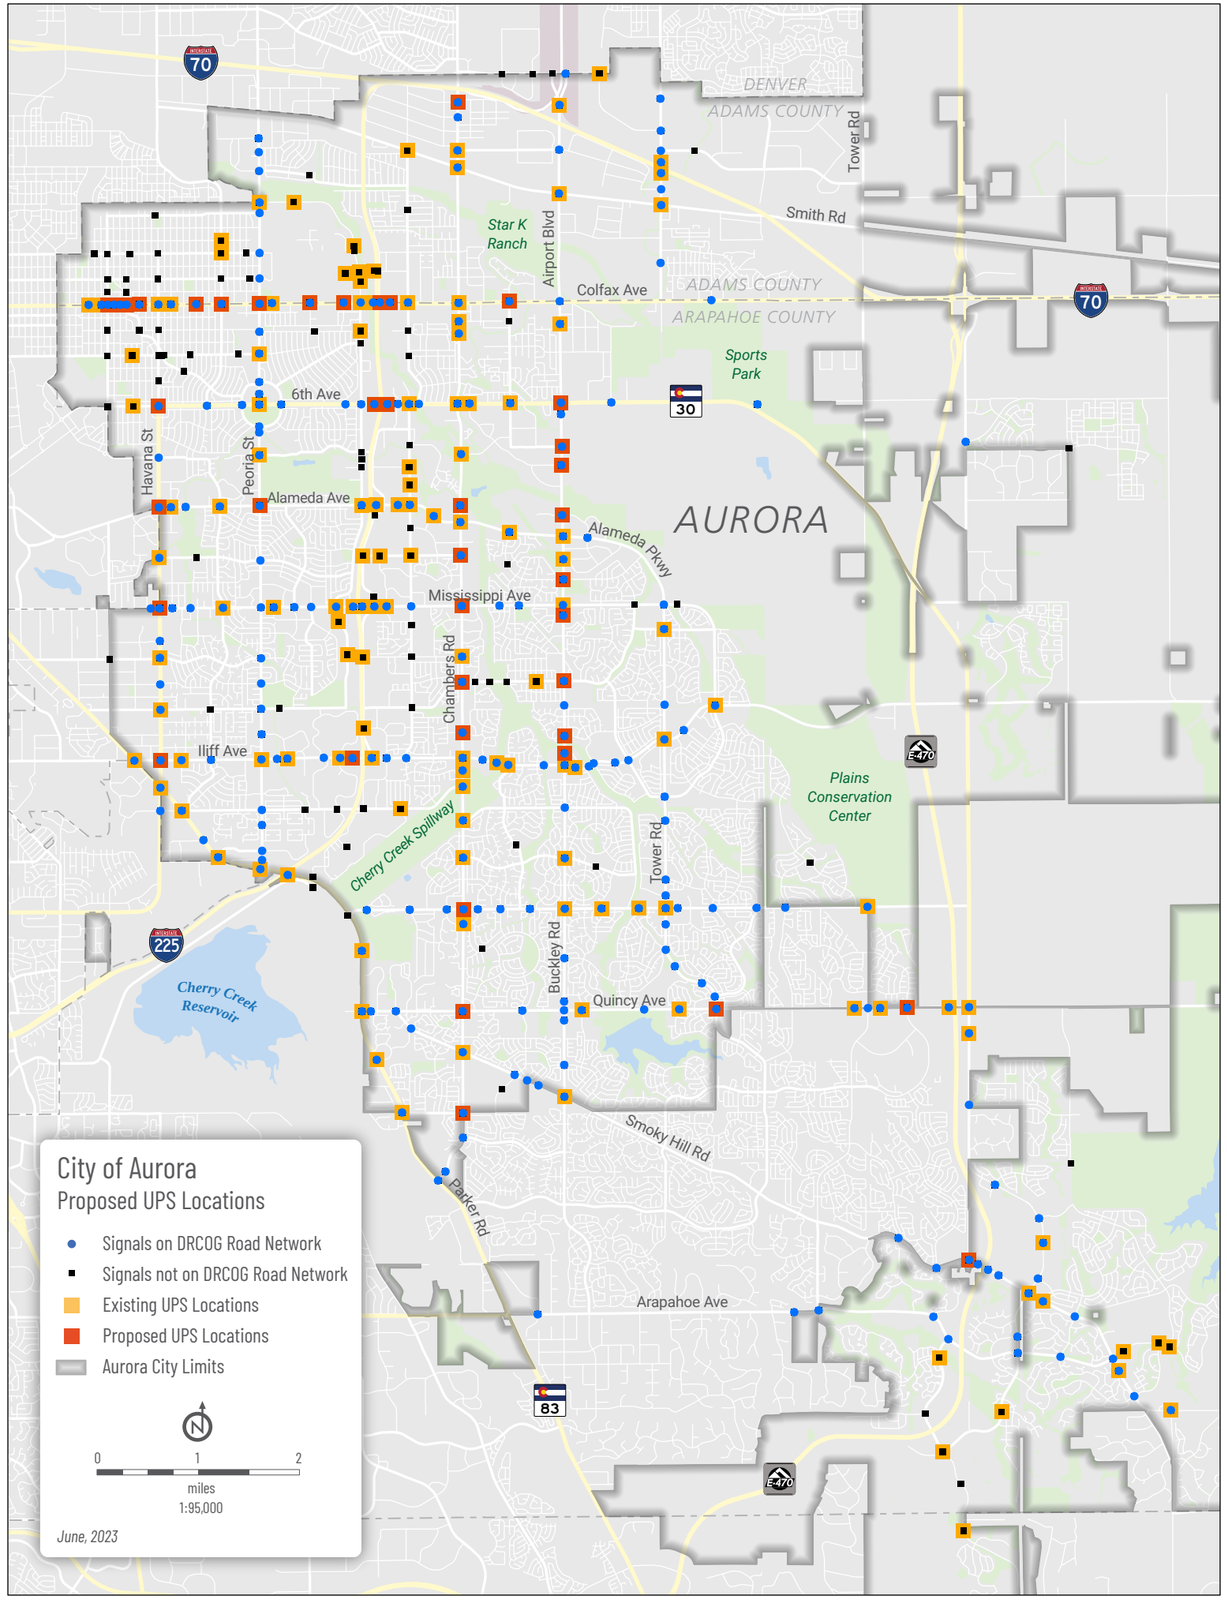
C. Campuzano said there was a lot of multijurisdictional coordination, and the there is a city-wide safety action plan coming up which includes all of Aurora that is funded by DRCOG. She said she would bring forward updates on that next year.

Outcome: The Committee recommended the item move forward to Study Session.

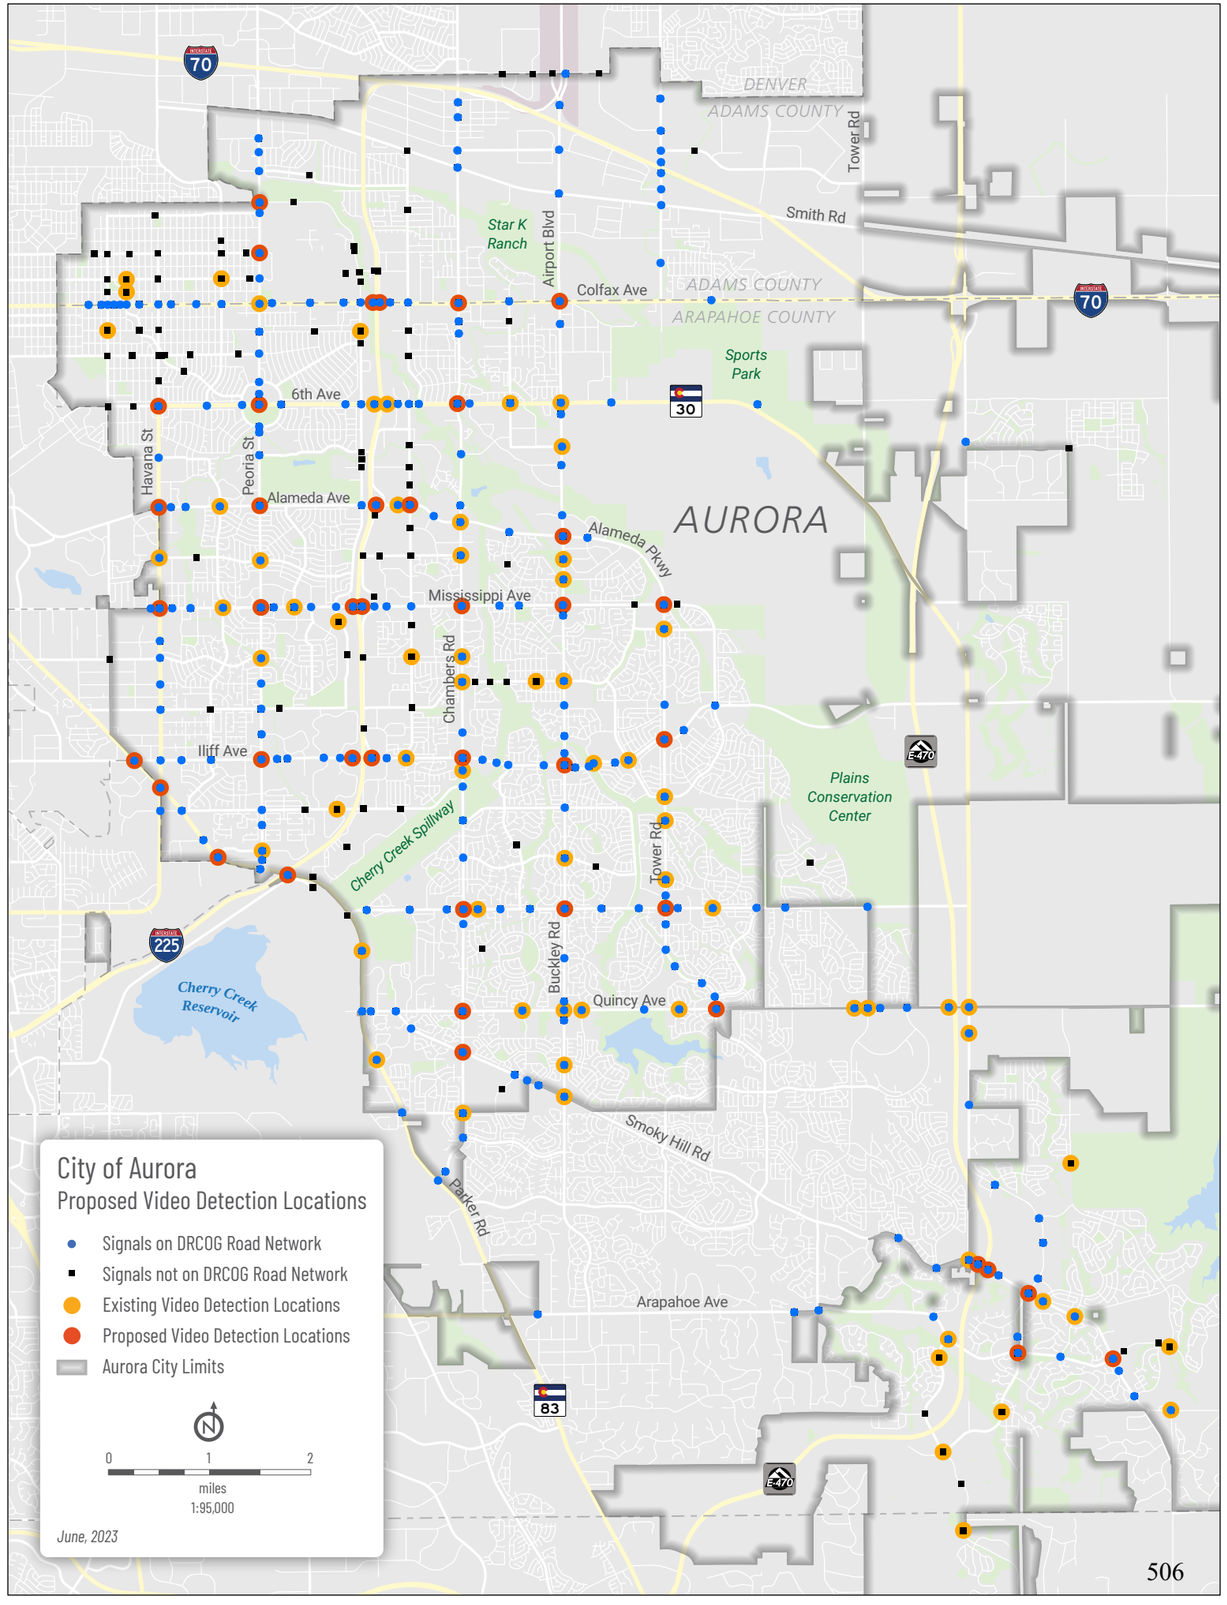
Follow-up Action: Staff will move the item forward to Study Session.

4.b. Consideration to Approve a Resolution for the IGA with CDOT for the Main Task Order for Fiber and Equipment Exchange

Summary of Issue and Discussion:
Carlie Campuzano, Traffic Manager, asked for consideration and approval for a resolution for the IGA with CDOT for the Main Task Order for Fiber and Equipment Exchange, which will also set them up for a future option letter for a construction project. Through the Fiber Master Plan process, staff set goals and strategies for deploying fiber in the city and coordinated with external stakeholders. This coordination included the identification of a high priority sharing opportunity with CDOT. This IGA is the Main Task Order that defines how fiber and equipment will be shared between Aurora and CDOT, and it does not involve any funding.



Committee Discussion: None.



Outcome: The Committee recommended the item move forward to Study Session.

Follow-up Action: Staff will move the item forward to Study Session.

4.c. Connecting Aurora - Aurora Citywide Multimodal Transportation Master Plan Project Update

Summary of Issue and Discussion:
Keith Borsheim, Consultant Project Manager, gave an update on Connecting Aurora, the Citywide Multimodal Transportation Master Plan Project. They are 85 to 90% done with existing conditions analysis, have completed the first round of public engagement, and hope to present the draft vision, mission, and goals to Council next month. The project team hosted four in-person open houses, an online open house, an online map, and attended six community events and popups. They also had extensive engagement efforts through social-media, newsletters, flyers, post cards and traditional media coverages, etc., and received great feedback. The feedback showed that people feel somewhat safe in a vehicle, but somewhat unsafe with other non-vehicle modes of transportation. Regarding vehicle travel, they heard about driving challenges, important factors on why people travel in a car, and how often and how long people are traveling via a vehicle. For walking, they heard about what prevents people from walking and what desired sidewalk improvements are. For biking, they heard about what prevents people from biking and what desired bikeway improvements are. On the public transit, they found that most people do not use

1. PARTIES

This Agreement is entered into by and between Local Agency named on the Signature and Cover Page for this Agreement ("Local Agency"), and the STATE OF COLORADO acting by and through the State agency named on the Signature and Cover Page for this Agreement (the "State" or "CDOT"). Local Agency and the State agree to the terms and conditions in this Agreement.

2. TERM AND EFFECTIVE DATE

A. Effective Date

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

This Agreement shall not be valid or enforceable until the Effective Date, and Agreement Funds shall be expended within the dates shown in **Exhibit C** for each respective phase ("Phase Performance Period(s)"). The State shall not be bound by any provision of this Agreement before the Effective Date, and shall have no obligation to pay Local Agency for any Work performed or expense incurred before 1) the Effective Date of this original Agreement; except as described in **§7.D**; 2) before the encumbering document for the respective phase *and* the official Notice to Proceed for the respective phase; or 3) after the Final Phase Performance End Date, as shown in **Exhibit C**. Additionally, the State shall have no obligation to pay Local Agency for any Work performed or expense incurred after the Agreement Expiration Date or after required billing deadline specified in **§7.B.i.e**., or the expiration of "Special Funding" if applicable, whichever is sooner. The State's obligation to pay Agreement Funds exclusive of Special Funding will continue until the Agreement Expiration Date. If Agreement Funds expire before the Agreement Expiration Date, then no payments will be made after expiration of Agreement Funds.

B. Initial Term and Extension

The Parties' respective performances under this Agreement shall commence on the Agreement Effective Date shown on the Signature and Cover Page for this Agreement and shall terminate on April 02, 2034 as shown on the Signature and Cover Page for this Agreement, unless sooner terminated or further extended in accordance with the terms of this Agreement. Upon request of Local Agency, the State may, in its sole discretion, extend the term of this Agreement by Option Letter pursuant **§7.E.iv**. If the Work will be performed in multiple phases, the period of performance start and end date of each phase is detailed under the Project Schedule in **Exhibit C**.

C. Early Termination in the Public Interest

The State is entering into this Agreement to serve the public interest of the State of Colorado as determined by its Governor, General Assembly, or Courts. If this Agreement ceases to further the public interest of the State, and this ARPA Award is not appropriated, or otherwise become unavailable to fund this ARPA Award the State, in its discretion, may terminate this Agreement in whole or in part. This subsection shall not apply to a termination of this Agreement by the State for breach by Local Agency, which shall be governed by **§14.A.i.**

i. Method and Content

The State shall notify Local Agency by providing written notice to Local Agency of the termination and be in accordance with **§16.** The notice shall specify the effective date of the termination and whether it affects all or a portion of this Agreement.

ii. Obligations and Rights

Upon receipt of a termination notice for termination in the public interest, Local Agency shall be subject to **§14.A.i.a**

iii. Payments

If the State terminates this Agreement in the public interest, the State shall pay Local Agency an amount equal to the percentage of the total reimbursement payable under this Agreement that corresponds to the percentage of Work satisfactorily completed and accepted, as determined by the State, less payments previously made. Additionally, if this Agreement is less than 60% completed, as determined by the State, the State may reimburse Local Agency for a portion of actual out-of-pocket expenses, not otherwise reimbursed under this Agreement, incurred by Local Agency which are directly attributable to the uncompleted portion of Local Agency's obligations, provided that the sum of any and all reimbursement shall not exceed the maximum amount payable to Local Agency hereunder. This subsection shall not apply to a termination of this ARPA Award by the State for breach by Local Agency.

D. Local Agency Termination Under Federal Requirements

Local Agency may request termination of the ARPA Award by sending notice to the State, which includes the effective date of the termination. If this ARPA Award is terminated in this manner, then Local Agency shall return any advanced payments made for work that will not be performed prior to the effective date of the termination.

3. AUTHORITY

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Authority to enter into this Agreement exists in the law as follows:

A. Federal Authority

Pursuant to Title I, Subtitle A, of the "Fixing America's Surface Transportation Act" (FAST Act) of 2015, and to applicable provisions of Title 23 of the United States Code and implementing regulations at Title 23 of the Code of Federal Regulations, as may be amended, (collectively referred to hereinafter as the "Federal Provisions"), certain federal funds have been and are expected to continue to be allocated for transportation projects requested by Local Agency and eligible under the Surface Transportation Improvement Program that has been proposed by the State and approved by the Federal Highway Administration ("FHWA").

Pursuant to Title VI of the Social Security Act, Section 602 of the "Coronavirus State and Local Fiscal Recovery Funds", a part of the American Rescue Plan, provides state, local and Tribal governments with the resources needed to respond to the pandemic and its economic effects and to build a stronger, more equitable economy during the recovery.

B. State Authority

Pursuant to CRS §43-1-223 and to applicable portions of the Federal Provisions, the State is responsible for the general administration and supervision of performance of projects in the Program, including the administration of federal funds for a Program project performed by a Local Agency under a contract with the State. This Agreement is executed under the authority of CRS §§29-1-203, 43-1-110; 43-1-116, 43-2-101(4)(c) and 43-2-104.5.

4. PURPOSE

The purpose of this Agreement is to disburse Federal funds to the Local Agency pursuant to CDOT's Stewardship Agreement with the FHWA and/or USDT as shown in **Exhibit C**.

5. DEFINITIONS

The following terms shall be construed and interpreted as follows:

A. "**Agreement**" means this agreement, including all attached Exhibits, all documents incorporated by reference, all referenced statutes, rules and cited authorities, and any future modifications thereto.

B. "**Agreement Funds**" means the funds that have been appropriated, designated, encumbered, or otherwise made available for payment by the State under this Agreement.

C. "**ARPA**" means American Rescue Plan Act, funded by the US Department of the Treasury ("USDT"). See "SLFRF" below.

D. "**Award**" means an award by a Recipient to a Subrecipient funded in whole or in part by a Federal Award. The terms and conditions of the Federal Award flow down to the Award unless the terms and conditions of the Federal Award specifically indicate otherwise.

E. "**Budget**" means the budget for the Work described in **Exhibit C**.

F. "**Business Day**" means any day in which the State is open and conducting business, but shall not include Saturday, Sunday or any day on which the State observes one of the holidays listed in §24-11-101(1) C.R.S..

G. "**Chief Procurement Officer**" means the individual to whom the Executive Director has delegated his or her authority pursuant to §24-102-202 to procure or supervise the procurement of all supplies and services needed by the State.

H. "**CJI**" means criminal justice information collected by criminal justice agencies needed for the performance of their authorized functions, including, without limitation, all information defined as criminal justice information by the U.S. Department of Justice, Federal Bureau of Investigation, Criminal Justice Information Services Security Policy, as amended and all Criminal Justice Records as defined under §24-72-302, C.R.S.

I. "**Consultant**" means a professional engineer or designer hired by Local Agency to design the Work Product.

J. "**Contractor**" means the general construction contractor hired by Local Agency to construct the Work.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

K. "**CORA**" means the Colorado Open Records Act, §§24-72-200.1 *et. seq.*, C.R.S.

L. "**Effective Date**" means the date on which this Agreement is approved and signed by the Colorado State Controller or designee, as shown on the Signature and Cover Page for this Agreement.

M. "**Evaluation**" means the process of examining Local Agency's Work and rating it based on criteria established in **§6, Exhibit A** and **Exhibit E**.

N. "**Exhibits**" means the following exhibits attached to this Agreement:

i. **Exhibit A**, Scope of Work.
ii. **Exhibit B**, Sample Option Letter.
iii. **Exhibit C**, Funding Provisions
iv. **Exhibit D**, Local Agency Resolution
v. **Exhibit E**, Local Agency Contract Administration Checklist
vi. **Exhibit F**, Certification for Federal-Aid Contracts
vii. **Exhibit G**, Disadvantaged Business Enterprise
viii. **Exhibit H**, Local Agency Procedures for Consultant Services
ix. **Exhibit I**, Federal-Aid Contract Provisions for Construction Contracts
x. **Exhibit J**, Additional Federal Requirements
xi. **Exhibit K**, The Federal Funding Accountability and Transparency Act of 2006 (FFATA) Supplemental Federal Provisions
xii. **Exhibit L**, Sample Sub-Recipient Monitoring and Risk Assessment Form
xiii. **Exhibit M**, Supplemental Provisions for Federal Awards Subject to The Office of Management and Budget Uniform Administrative Requirements, Cost principles, and Audit Requirements for Federal Awards (the "Uniform Guidance")
xiv. **Exhibit N**, Federal Treasury Provisions
xv. **Exhibit O**, Agreement with Subrecipient of Federal Recovery Funds
xvi. **Exhibit P**, SLFRF Subrecipient Quarterly Report
xvii. **Exhibit Q**, SLFRF Reporting Modification Form
xviii. **Exhibit R**, Applicable Federal Awards
xix. **Exhibit S**, PII Certification
xx. **Exhibit T**, Checklist of Required Exhibits Dependent on Funding Source

O. "**Expiration Date**" means the date on which this Agreement expires, as shown on the Signature and Cover Page for this Agreement.

P. "**Extension Term**" means the period of time by which the ARPA Expiration Date is extended by the State through delivery of an updated ARPA Letter.

Q. "**Federal Award**" means an award of Federal financial assistance or a cost-reimbursement contract under the Federal Acquisition Requirements by a Federal Awarding Agency to a Recipient. "Federal Award" also means an agreement setting forth the terms and conditions of the Federal Award. The term does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program.

R. "**Federal Awarding Agency**" means a Federal agency providing a Federal Award to a Recipient. The US Department of the Treasury is the Federal Awarding Agency for the Federal Award, which may be the subject of this Agreement.

S. "**FHWA**" means the Federal Highway Administration, which is one of the twelve administrations under the Office of the Secretary of Transportation at the U.S. Department of Transportation. FHWA provides stewardship over the construction, maintenance and preservation of the Nation's highways and tunnels. FHWA is the Federal Awarding Agency for the Federal Award which is the subject of this Agreement.

T. "**Goods**" means any movable material acquired, produced, or delivered by Local Agency as set forth in this Agreement and shall include any movable material acquired, produced, or delivered by Local Agency in connection with the Services.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

U. "**Incident**" means any accidental or deliberate event that results in or constitutes an imminent threat of the unauthorized access or disclosure of State Confidential Information or of the unauthorized modification, disruption, or destruction of any State Records.

V. "**Initial Term**" means the time period defined in **§2.B**.

W. "**Local Funds**" means the funds provided by the Local Agency as their obligated contribution to the federal and/or State Awards to receive the federal and/or State funding.

X. "**Notice to Proceed**" means the letter issued by the State to the Local Agency stating the date the Local Agency can begin work subject to the conditions of this Agreement.

Y. "**OMB**" means the Executive Office of the President, Office of Management and Budget.

Z. "**Oversight**" means the term as it is defined in the Stewardship Agreement between CDOT and the FHWA.

AA. "**Party**" means the State or Local Agency, and "**Parties**" means both the State and Local Agency.

BB. "**PCI**" means payment card information including any data related to credit card holders' names, credit card numbers, or the other credit card information as may be protected by state or federal law.

CC. "**PHI**" means any protected health information, including, without limitation any information whether oral or recorded in any form or medium: **(i)** that relates to the past, present or future physical or mental condition of an individual; the provision of health care to an individual; or the past, present or future payment for the provision of health care to an individual; and **(ii)** that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual. PHI includes, but is not limited to, any information defined as Individually Identifiable Health Information by the federal Health Insurance Portability and Accountability Act.

DD. "**PII**" means personally identifiable information including, without limitation, any information maintained by the State about an individual that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; and any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information. PII includes, but is not limited to, all information defined as personally identifiable information in §24-72-501 C.R.S. "PII" shall also mean "personal identifying information" as set forth at § 24-74-102, et. seq., C.R.S.

EE. "**Recipient**" means the Colorado Department of Transportation (CDOT) for this Federal Award.

FF. "**Services**" means the services to be performed by Local Agency as set forth in this Agreement and shall include any services to be rendered by Local Agency in connection with the Goods.

GG. "**SLFRF**" means State and Local Fiscal Recovery Funds, provided by ARPA, funded by the US Treasury Department.

HH. "**Special Funding**" means an award by Federal agency or the State which may include but is not limited to one or a combination of Multimodal Transportation & Mitigation Options Funding, Revitalizing Main Streets, Safer Main Streets, Stimulus Funds, Coronavirus Response and Relief Supplemental Funds, ARPA, SLFRF, or COVID Relief.

II. "**State Confidential Information**" means any and all State Records not subject to disclosure under CORA. State Confidential Information shall include, but is not limited to, PII and State personnel records not subject to disclosure under CORA.

JJ. "**State Fiscal Rules**" means the fiscal rules promulgated by the Colorado State Controller pursuant to §24-30-202(13)(a).

KK. "**State Fiscal Year**" means a 12-month period beginning on July 1 of each calendar year and ending on June 30 of the following calendar year. If a single calendar year follows the term, then it means the State Fiscal Year ending in that calendar year.

LL. "**State Purchasing Director**" means the position described in the Colorado Procurement Code and its implementing regulations.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

MM. "**State Records**" means any and all State data, information, and records, regardless of physical form, including, but not limited to, information subject to disclosure under CORA.

NN. "**Sub-Award**" means this Award by the State to Local Agency funded in whole or in part by a Federal Award. The terms and conditions of the Federal Award flow down to this Sub-Award unless the terms and conditions of the Federal Award specifically indicate otherwise.

OO. "**Subcontractor**" means third parties, if any, engaged by Local Agency to aid in performance of the Work.

PP. "**Subrecipient**" means a non-Federal entity that receives a sub-award from a Recipient to carry out part of a Federal program but does not include an individual that is a beneficiary of such program. A Subrecipient may also be a recipient of other Federal Awards directly from a Federal Awarding Agency.

QQ. "**Tax Information**" means Federal and State of Colorado tax information including, without limitation, Federal and State tax returns, return information, and such other tax-related information as may be protected by Federal and State law and regulation. Tax Information includes but is not limited to all information defined as Federal tax Information in Internal Revenue Service Publication 1075.

RR. "**Uniform Guidance**" means the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, which supersedes requirements from OMB Circulars A-21, A-87, A-110, A-122, A-89, A-102, and A-133, and the guidance in Circular A-50 on Single Audit Act follow-up.

SS. "**USDT**" The United States Department of the Treasury (**USDT**) is the national treasury and finance department of the federal government of the United States where it serves as an executive department. The USDT funds ARPA.

TT. "**Work**" means the delivery of the Goods and performance of the Services in compliance with CDOT's Local Agency Manual described in this Agreement.

UU. "**Work Product**" means the tangible and intangible results of the Work, whether finished or unfinished, including drafts. Work Product includes, but is not limited to, documents, text, software (including source code), research, reports, proposals, specifications, plans, notes, studies, data, images, photographs, negatives, pictures, drawings, designs, models, surveys, maps, materials, ideas, concepts, know-how, and any other results of the Work. "Work Product" does not include any material that was developed prior to the Effective Date that is used, without modification, in the performance of the Work.

Any other term used in this Agreement that is defined in an Exhibit shall be construed and interpreted as defined in that Exhibit.

6. SCOPE OF WORK

Local Agency shall complete the Work as described in this Agreement and in accordance with the provisions of **Exhibit A**, and the Local Agency Manual. The State shall have no liability to compensate Local Agency for the delivery of any Goods or the performance of any Services that are not specifically set forth in this Agreement. Work may be divided into multiple phases that have separate periods of performance. The State may not compensate for Work that Local Agency performs outside of its designated phase performance period. The performance period of phases, including, but not limited to Design, Construction, Right of Way, Utilities, or Environment phases, are identified in **Exhibit C**. The State may unilaterally modify **Exhibit C** from time to time, at its sole discretion, to extend the Agreement Expiration Date and/or to extend the period of performance for a phase of Work authorized under this Agreement. To exercise these options to extend the Agreement Expiration Date and/or to update the phase performance period extension option, the State will provide written notice to Local Agency in a form substantially equivalent to **Exhibit B.** The State's unilateral extension of the Agreement Expiration Date and/or the phase performance periods will not amend or alter in any way the funding provisions or any other terms specified in this Agreement, notwithstanding the options listed under **§7.E**

A. Local Agency Commitments

i. Design

If the Work includes preliminary design, final design, design work sheets, or special provisions and estimates (collectively referred to as the "Plans"), Local Agency shall ensure that it and its Contractors comply with and are responsible for satisfying the following requirements:

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

a. Perform or provide the Plans to the extent required by the nature of the Work.

b. Prepare final design in accordance with the requirements of the latest edition of the American Association of State Highway Transportation Officials (AASHTO) manual or other standard, such as the Uniform Building Code, as approved by the State.

c. Prepare provisions and estimates in accordance with the most current version of the State's Roadway and Bridge Design Manuals and Standard Specifications for Road and Bridge Construction or Local Agency specifications if approved by the State.

d. Include details of any required detours in the Plans in order to prevent any interference of the construction Work and to protect the traveling public.

e. Stamp the Plans as produced by a Colorado registered professional engineer.

f. Provide final assembly of Plans and all other necessary documents.

g. Ensure the Plans are accurate and complete.

h. Make no further changes in the Plans following the award of the construction contract to Contractor unless agreed to in writing by the Parties. The Plans shall be considered final when approved in writing by CDOT, and when final, they will be deemed incorporated herein.

ii. Local Agency Work

a. Local Agency shall comply with the requirements of the Americans With Disabilities Act (ADA) 42 U.S.C. § 12101, et. seq., and applicable federal regulations and standards as contained in the document "ADA Accessibility Requirements in CDOT Transportation Projects".

b. Local Agency shall afford the State ample opportunity to review the Plans and shall make any changes in the Plans that are directed by the State to comply with FHWA requirements.

c. Local Agency may enter into a contract with a Consultant to perform all or any portion of the Plans and/or construction administration. Provided, however, if federal-aid funds are involved in the cost of such Work to be done by such Consultant, such Consultant contract (and the performance provision of the Plans under the contract) must comply with all applicable requirements of 23 C.F.R. Part 172 and with any procedures implementing those requirements as provided by the State, including those in **Exhibit H**. If Local Agency enters into a contract with a Consultant for the Work:

1) Local Agency shall submit a certification that procurement of any Consultant contract complies with the requirements of 23 C.F.R. 172.5(1) prior to entering into such Consultant contract, subject to the State's approval. If not approved by the State, Local Agency shall not enter into such Consultant contract.

2) Local Agency shall ensure that all changes in the Consultant contract have prior approval by the State and FHWA and that they are in writing. Immediately after the Consultant contract has been awarded, one copy of the executed Consultant contract and any amendments shall be submitted to the State.

3) Local Agency shall require that all billings under the Consultant contract comply with the State's standardized billing format. Examples of the billing formats are available from the CDOT Agreements Office.

4) Local Agency (and any Consultant) shall comply with 23 C.F.R. 172.5(b) and (d) and use the CDOT procedures described in **Exhibit H** to administer the Consultant contract.

5) Local Agency may expedite any CDOT approval of its procurement process and/or Consultant contract by submitting a letter to CDOT from Local Agency's attorney/authorized representative certifying compliance with **Exhibit H** and 23 C.F.R. 172.5(b)and (d).

6) Local Agency shall ensure that the Consultant contract complies with the requirements of 49 CFR 18.36(i) and contains the following language verbatim:

(a) The design work under this Agreement shall be compatible with the requirements of the contract between Local Agency and the State (which is incorporated herein by this

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

reference) for the design/construction of the project. The State is an intended third-party beneficiary of this agreement for that purpose.

(b) Upon advertisement of the project work for construction, the consultant shall make available services as requested by the State to assist the State in the evaluation of construction and the resolution of construction problems that may arise during the construction of the project.

(c) The consultant shall review the construction Contractor's shop drawings for conformance with the contract documents and compliance with the provisions of the State's publication, Standard Specifications for Road and Bridge Construction, in connection with this work.

(d) The State, in its sole discretion, may review construction plans, special provisions and estimates and may require Local Agency to make such changes therein as the State determines necessary to comply with State and FHWA requirements.

iii. Construction

If the Work includes construction, Local Agency shall perform the construction in accordance with the approved design plans and/or administer the construction in accordance with **Exhibit E**. Such administration shall include Work inspection and testing; approving sources of materials; performing required plant and shop inspections; documentation of contract payments, testing and inspection activities; preparing and approving pay estimates; preparing, approving and securing the funding for contract modification orders and minor contract revisions; processing construction Contractor claims; construction supervision; and meeting the quality control requirements of the FHWA/CDOT Stewardship Agreement, as described in **Exhibit E**.

a. The State may, after providing written notice of the reason for the suspension to Local Agency, suspend the Work, wholly or in part, due to the failure of Local Agency or its Contractor to correct conditions which are unsafe for workers or for such periods as the State may deem necessary due to unsuitable weather, or for conditions considered unsuitable for the prosecution of the Work, or for any other condition or reason deemed by the State to be in the public interest.

b. Local Agency shall be responsible for the following:

1) Appointing a qualified professional engineer, licensed in the State of Colorado, as Local Agency Project Engineer (LAPE), to perform engineering administration. The LAPE shall administer the Work in accordance with this Agreement, the requirements of the construction contract and applicable State procedures, as defined in the CDOT Local Agency Manual (https://www.codot.gov/business/designsupport/bulletins_manuals/2006-local-agency-manual).

2) For the construction Services, advertising the call for bids, following its approval by the State, and awarding the construction contract(s) to the lowest responsible bidder(s).

(a) All Local Agency's advertising and bid awards pursuant to this Agreement shall comply with applicable requirements of 23 U.S.C. §112 and 23 C.F.R. Parts 633 and 635 and C.R.S. § 24-92-101 et seq. Those requirements include, without limitation, that Local Agency and its Contractor(s) incorporate Form 1273 (Exhibit I) in its entirety, verbatim, into any subcontract(s) for Services as terms and conditions thereof, as required by 23 C.F.R. 633.102(e).

(b) Local Agency may accept or reject the proposal of the apparent low bidder for Work on which competitive bids have been received. Local Agency must accept or reject such bids within three (3) working days after they are publicly opened.

(c) If Local Agency accepts bids and makes awards that exceed the amount of available Agreement Funds, Local Agency shall provide the additional funds necessary to complete the Work or not award such bids.

(d) The requirements of **§6.A.iii.b.2** also apply to any advertising and bid awards made by the State.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

(e) The State (and in some cases FHWA) must approve in advance all Force Account Construction, and Local Agency shall not initiate any such Services until the State issues a written Notice to Proceed.

iv. Right of Way (ROW) and Acquisition/Relocation

a. If Local Agency purchases a ROW for a State highway, including areas of influence, Local Agency shall convey the ROW to CDOT promptly upon the completion of the project/construction.

b. Any acquisition/relocation activities shall comply with all applicable federal and State statutes and regulations, including but not limited to, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, the Uniform Relocation Assistance and Real Property Acquisition Policies for Federal and Federally Assisted Programs, as amended (49 C.F.R. Part 24), CDOT's Right of Way Manual, and CDOT's Policy and Procedural Directives.

c. The Parties' respective responsibilities for ensuring compliance with acquisition, relocation and incidentals depend on the level of federal participation as detailed in CDOT's Right of Way Manual (located at http://www.codot.gov/business/manuals/right-of-way); however, the State always retains oversight responsibilities.

d. The Parties' respective responsibilities at each level of federal participation in CDOT's Right of Way Manual, and the State's reimbursement of Local Agency costs will be determined pursuant the following categories:

1) Right of way acquisition (3111) for federal participation and non-participation;

2) Relocation activities, if applicable (3109);

3) Right of way incidentals, if applicable (expenses incidental to acquisition/relocation of right of way – 3114).

v. Utilities

If necessary, Local Agency shall be responsible for obtaining the proper clearance or approval from any utility company that may become involved in the Work. Prior to the Work being advertised for bids, Local Agency shall certify in writing to the State that all such clearances have been obtained.

vi. Railroads

If the Work involves modification of a railroad company's facilities and such modification will be accomplished by the railroad company, Local Agency shall make timely application to the Public Utilities Commission ("PUC") requesting its order providing for the installation of the proposed improvements. Local Agency shall not proceed with that part of the Work before obtaining the PUC's order. Local Agency shall also establish contact with the railroad company involved for the purpose of complying with applicable provisions of 23 C.F.R. 646, subpart B, concerning federal-aid projects involving railroad facilities, and:

a. Execute an agreement with the railroad company setting out what work is to be accomplished and the location(s) thereof, and which costs shall be eligible for federal participation.

b. Obtain the railroad's detailed estimate of the cost of the Work.

c. Establish future maintenance responsibilities for the proposed installation.

d. Proscribe in the agreement the future use or dispositions of the proposed improvements in the event of abandonment or elimination of a grade crossing.

e. Establish future repair and/or replacement responsibilities, as between the railroad company and the Local Agency, in the event of accidental destruction or damage to the installation.

vii. Environmental Obligations

Local Agency shall perform all Work in accordance with the requirements of current federal and State environmental regulations, including the National Environmental Policy Act of 1969 (NEPA) as applicable.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

viii. Maintenance Obligations

Local Agency shall maintain and operate the Work constructed under this Agreement at its own cost and expense during their useful life, in a manner satisfactory to the State and FHWA. Local Agency shall conduct such maintenance and operations in accordance with all applicable statutes, ordinances, and regulations pertaining to maintaining such improvements. The State and FHWA may make periodic inspections to verify that such improvements are being adequately maintained.

ix. Monitoring Obligations

Local Agency shall respond in a timely manner to and participate fully with the monitoring activities described in **§7.F.vi.**

B. State's Commitments

i. The State will perform a final project inspection of the Work as a quality control/assurance activity. When all Work has been satisfactorily completed, the State will sign the FHWA Form 1212.

ii. Notwithstanding any consents or approvals given by the State for the Plans, the State shall not be liable or responsible in any manner for the structural design, details or construction of any Work constituting major structures designed by, or that are the responsibility of, Local Agency, as identified in **Exhibit E**.

7. PAYMENTS

A. Maximum Amount

Payments to Local Agency are limited to the unpaid, obligated balance of the Agreement Funds set forth in **Exhibit C**. The State shall not pay Local Agency any amount under this Agreement that exceeds the Agreement Maximum set forth in **Exhibit C**.

B. Payment Procedures

i. Invoices and Payment

a. The State shall pay Local Agency in the amounts and in accordance with conditions set forth in **Exhibit C**.

b. Local Agency shall initiate payment requests by invoice to the State, in a form and manner approved by the State.

c. The State shall pay each invoice within 45 days following the State's receipt of that invoice, so long as the amount invoiced correctly represents Work completed by Local Agency and previously accepted by the State during the term that the invoice covers. If the State determines that the amount of any invoice is not correct, then Local Agency shall make all changes necessary to correct that invoice.

d. The acceptance of an invoice shall not constitute acceptance of any Work performed or deliverables provided under the Agreement.

e. If a project is funded in part with Federal or State special funding there may be an expiration date for the funds. The expiration date applies to grants and local funds used to match grants. To receive payment or credit for the match, Work must be completed or substantially completed, as outlined in the terms of the grant, prior to the expiration date of the special funding and invoiced in compliance with the rules outlined in the award of the funding. The acceptance of an invoice shall not constitute acceptance of any Work performed or deliverables provided under the Agreement.

ii. Interest

Amounts not paid by the State within 45 days after the State's acceptance of the invoice shall bear interest on the unpaid balance beginning on the 46th day at the rate of 1% per month, as required by §24-30-202(24)(a), C.R.S., until paid in full; provided, however, that interest shall not accrue on unpaid amounts that the State disputes in writing. Local Agency shall invoice the State separately for accrued interest on delinquent amounts, and the invoice shall reference the delinquent payment, the number of days interest to be paid and the interest rate.

iii. Payment Disputes

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

If Local Agency disputes any calculation, determination, or amount of any payment, Local Agency shall notify the State in writing of its dispute within 30 days following the earlier to occur of Local Agency's receipt of the payment or notification of the determination or calculation of the payment by the State. The State will review the information presented by Local Agency and may make changes to its determination based on this review. The calculation, determination, or payment amount that results from the State's review shall not be subject to additional dispute under this subsection. No payment subject to a dispute under this subsection shall be due until after the State has concluded its review, and the State shall not pay any interest on any amount during the period it is subject to dispute under this subsection.

iv. Available Funds-Contingency-Termination

a. The State is prohibited by law from making commitments beyond the term of the current State Fiscal Year. Payment to Local Agency beyond the current State Fiscal Year is contingent on the appropriation and continuing availability of Agreement Funds in any subsequent year (as provided in the Colorado Special Provisions). If federal funds or funds from any other non-State funds constitute all or some of the Agreement Funds, the State's obligation to pay Local Agency shall be contingent upon such non-State funding continuing to be made available for payment. Payments to be made pursuant to this Agreement shall be made only from Agreement Funds, and the State's liability for such payments shall be limited to the amount remaining of such Agreement Funds. If State, federal or other funds are not appropriated, or otherwise become unavailable to fund this Agreement, the State may, upon written notice, terminate this Agreement, in whole or in part, without incurring further liability. The State shall, however, remain obligated to pay for Services and Goods that are delivered and accepted prior to the effective date of notice of termination, and this termination shall otherwise be treated as if this Agreement were terminated in the public interest as described in **§2.C**.

b. If the agreement funds are terminated, the State can terminate the contract early. Payment due for work done to the date of termination will be processed in a manner consistent with **§2.C**.

v. Erroneous Payments

The State may recover, at the State's discretion, payments made to Local Agency in error for any reason, including, but not limited to, overpayments or improper payments, and unexpended or excess funds received by Local Agency. The State may recover such payments by deduction from subsequent payments under this Agreement, deduction from any payment due under any other contracts, grants or agreements between the State and Local Agency, or by any other appropriate method for collecting debts owed to the State. The close out of a Federal Award does not affect the right of FHWA or the State to disallow costs and recover funds on the basis of a later audit or other review. Any cost disallowance recovery is to be made within the Record Retention Period (as defined below in **§9.A**.).

vi. Federal Recovery

The close-out of a Federal Award does not affect the right of the Federal Awarding Agency or the State to disallow costs and recover funds on the basis of a later audit or other review. Any cost disallowance recovery is to be made within the Record Retention Period, as defined below.

C. Local Agency Funds

Local Agency shall provide their obligated contribution funds as outlined in **§7.A**. and **Exhibit C**. Local Agency shall have raised the full amount of their funds prior to the Effective Date and shall report to the State regarding the status of such funds upon request. Local Agency's obligation to pay all or any part of any matching funds, whether direct or contingent, only extend to funds duly and lawfully appropriated for the purposes of this Agreement by the authorized representatives of Local Agency and paid into Local Agency's treasury. Local Agency represents to the State that the amount designated "Local Agency Funds" in **Exhibit C** has been legally appropriated for the purpose of this Agreement by its authorized representatives and paid into its treasury. Local Agency may evidence such obligation by an appropriate ordinance/resolution or other authority letter expressly authorizing Local Agency to enter into this Agreement and to expend its match share of the Work. A copy of any such ordinance/resolution or authority letter is attached hereto as **Exhibit D** if applicable. Local Agency does not by this Agreement irrevocably pledge present cash reserves for payments in future fiscal years, and this Agreement is not intended to create a multiple-fiscal year debt of

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Local Agency. Local Agency shall not pay or be liable for any claimed interest, late charges, fees, taxes, or penalties of any nature, except as required by Local Agency's laws or policies.

D. Reimbursement of Local Agency Costs

The State shall reimburse Local Agency's allowable costs, not exceeding the maximum total amount described in **Exhibit C** and **§7**. However, any costs incurred by Local Agency prior to the Effective Date shall not be reimbursed absent specific allowance of pre-award costs and indication that the Federal Award funding is retroactive. The State shall pay Local Agency for costs or expenses incurred or performance by the Local Agency prior to the Effective Date, only if (1) the Grant Funds involve federal funding and (2) federal laws, rules, and regulations applicable to the Work provide for such retroactive payments to the Local Agency. Any such retroactive payments shall comply with State Fiscal Rules and be made in accordance with the provisions of this Agreement. The applicable principles described in 2 C.F.R. Part 200 shall govern the State's obligation to reimburse all costs incurred by Local Agency and submitted to the State for reimbursement hereunder, and Local Agency shall comply with all such principles. The State shall reimburse Local Agency for the federal-aid share of properly documented costs related to the Work after review and approval thereof, subject to the provisions of this Agreement and **Exhibit C**. Local Agency costs for Work performed prior to the Effective Date shall not be reimbursed absent specific allowance of pre-award costs and indication that the Federal Award funding is retroactive. Local Agency costs for Work performed after any Performance Period End Date for a respective phase of the Work, is not reimbursable. Allowable costs shall be:

i. Reasonable and necessary to accomplish the Work and for the Goods and Services provided.

ii. Actual net cost to Local Agency (i.e. the price paid minus any items of value received by Local Agency that reduce the cost actually incurred).

E. Unilateral Modification of Agreement Funds Budget by State Option Letter

The State may, at its discretion, issue an "Option Letter" to Local Agency to add or modify Work phases in the Work schedule in **Exhibit C** if such modifications do not increase total budgeted Agreement Funds. Such Option Letters shall amend and update **Exhibit C**, Sections 2 or 4 of the Table, and sub-sections B and C of the **Exhibit C**. Option Letters shall not be deemed valid until signed by the State Controller or an authorized delegate. **This is NOT a Notice to Proceed**. Modification of **Exhibit C** by unilateral Option Letter is permitted only in the specific scenarios listed below. The State will exercise such options by providing Local Agency a fully executed Option Letter, in a form substantially equivalent to **Exhibit B**. Such Option Letters will be incorporated into this Agreement. This applies to the entire Scope of Work.

i. Option to Begin a Phase and/or Increase or Decrease the Encumbrance Amount

The State may require by Option Letter that Local Agency begin a new Work phase that may include Design, Construction, Environmental, Utilities, ROW Incidentals or Miscellaneous Work (but may not include Right of Way Acquisition/Relocation or Railroads) as detailed in **Exhibit A.** Such Option Letters may not modify the other terms and conditions stated in this Agreement and must decrease the amount budgeted and encumbered for one or more other Work phases so that the total amount of budgeted Agreement Funds remains the same. The State may also change the funding sources so long as the amount budgeted remains the same and the Local Agency contribution does not increase. The State may also issue a unilateral Option Letter to increase and/or decrease the total encumbrance amount of two or more existing Work phases, as long as the total amount of budgeted Agreement Funds remains the same, replacing the original Agreement Funding exhibit (**Exhibit C**) with an updated **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.).

ii. Option to Transfer Funds from One Phase to Another Phase.

The State may require or permit Local Agency to transfer Agreement Funds from one Work phase (Design, Construction, Environmental, Utilities, ROW Incidentals or Miscellaneous) to another phase as a result of changes to State, federal, and local match funding. In such case, the original funding exhibit (**Exhibit C**) will be replaced with an updated **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.) attached to the Option Letter. The Agreement Funds transferred from one Work phase to another are subject to the same terms and conditions stated in the original Agreement with the total budgeted Agreement Funds remaining the same. The State may unilaterally exercise this option by providing a

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

fully executed Option Letter to Local Agency within thirty (30) days before the initial targeted start date of the Work phase, in a form substantially equivalent to **Exhibit B**.

iii. Option to Exercise Options i and ii.

The State may require Local Agency to add a Work phase as detailed in **Exhibit A**, and encumber and transfer Agreement Funds from one Work phase to another. The original funding exhibit (**Exhibit C**) in the original Agreement will be replaced with an updated **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.) attached to the Option Letter. The addition of a Work phase and encumbrance and transfer of Agreement Funds are subject to the same terms and conditions stated in the original Agreement with the total budgeted Agreement Funds remaining the same. The State may unilaterally exercise this option by providing a fully executed Option Letter to Local Agency within 30 days before the initial targeted start date of the Work phase, in a form substantially equivalent to **Exhibit B**.

iv. Option to Extend Agreement/Phase Term and/or modify the OMB Uniform Guidance. The State, at its discretion, shall have the option to extend the term of this Agreement and/or update a Work Phase Performance Period and/or modify information required under the OMB Uniform Guidance, as outlined in **Exhibit C**. Any updated version of **Exhibit C** shall be attached to any executed Option Letter as **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.). In order to exercise this option, the State shall provide written notice to the Local Agency in a form substantially equivalent to **Exhibit B**.

F. Accounting

Local Agency shall establish and maintain accounting systems in accordance with generally accepted accounting standards (a separate set of accounts, or as a separate and integral part of its current accounting scheme). Such accounting systems shall, at a minimum, provide as follows:

i. Local Agency Performing the Work

If Local Agency is performing the Work, it shall document all allowable costs, including any approved Services contributed by Local Agency or subcontractors, using payrolls, time records, invoices, contracts, vouchers, and other applicable records.

ii. Local Agency-Checks or Draws

Checks issued or draws made by Local Agency shall be made or drawn against properly signed vouchers detailing the purpose thereof. Local Agency shall keep on file all checks, payrolls, invoices, contracts, vouchers, orders, and other accounting documents in the office of Local Agency, clearly identified, readily accessible, and to the extent feasible, separate and apart from all other Work documents.

iii. State-Administrative Services

The State may perform any necessary administrative support services required hereunder. Local Agency shall reimburse the State for the costs of any such services from the budgeted Agreement Funds as provided for in **Exhibit C**. If FHWA Agreement Funds are or become unavailable, or if Local Agency terminates this Agreement prior to the Work being approved by the State or otherwise completed, then all actual incurred costs of such services and assistance provided by the State shall be reimbursed to the State by Local Agency at its sole expense.

iv. Local Agency-Invoices

Local Agency's invoices shall describe in detail the reimbursable costs incurred by Local Agency for which it seeks reimbursement, the dates such costs were incurred and the amounts thereof, and Local Agency shall not submit more than one invoice per month.

v. Invoicing Within 60 Days

The State shall not be liable to reimburse Local Agency for any costs invoiced more than 60 days after the date on which the costs were incurred, including costs included in Local Agency's final invoice. The State may withhold final payment to Local Agency at the State's sole discretion until completion of final audit. Any costs incurred by Local Agency that are not allowable under 2 C.F.R. Part 200 shall be Local Agency's responsibility, and the State will deduct such disallowed costs from any payments due to Local Agency. The State will not reimburse costs for Work performed after the Performance Period End Date for a respective Work phase. The State will not reimburse costs for Work performed prior to Performance

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Period End Date, but for which an invoice is received more than 60 days after the Performance Period End Date.

vi. Risk Assessment & Monitoring

Pursuant to 2 C.F.R. 200.331(b), – CDOT will evaluate Local Agency's risk of noncompliance with federal statutes, regulations, and terms and conditions of this Agreement. Local Agency shall complete a Risk Assessment Form (**Exhibit L**) when that may be requested by CDOT. The risk assessment is a quantitative and/or qualitative determination of the potential for Local Agency's non-compliance with the requirements of the Federal Award. The risk assessment will evaluate some or all of the following factors:

- Experience: Factors associated with the experience and history of the Subrecipient with the same or similar Federal Awards or grants.
- Monitoring/Audit: Factors associated with the results of the Subrecipient's previous audits or monitoring visits, including those performed by the Federal Awarding Agency, when the Subrecipient also receives direct federal funding. Include audit results if Subrecipient receives single audit, where the specific award being assessed was selected as a major program.
- Operation: Factors associated with the significant aspects of the Subrecipient's operations, in which failure could impact the Subrecipient's ability to perform and account for the contracted goods or services.
- Financial: Factors associated with the Subrecipient's financial stability and ability to comply with financial requirements of the Federal Award.
- Internal Controls: Factors associated with safeguarding assets and resources, deterring and detecting errors, fraud and theft, ensuring accuracy and completeness of accounting data, producing reliable and timely financial and management information, and ensuring adherence to its policies and plans.
- Impact: Factors associated with the potential impact of a Subrecipient's non-compliance to the overall success of the program objectives.
- Program Management: Factors associated with processes to manage critical personnel, approved written procedures, and knowledge of rules and regulations regarding federal-aid projects.

Following Local Agency's completion of the Risk Assessment Tool (**Exhibit L**), CDOT will determine the level of monitoring it will apply to Local Agency's performance of the Work. This risk assessment may be re-evaluated after CDOT begins performing monitoring activities.

G. Close Out

Local Agency shall close out this Award within 90 days after the Final Phase Performance End Date. If SLFRF Funds are used the Local Agency shall close out that portion of the Award within 45 days after the ARPA Award Expiration Date. Close out requires Local Agency's submission to the State of all deliverables defined in this Agreement, and Local Agency's final reimbursement request or invoice. The State will withhold 5% of allowable costs until all final documentation has been submitted and accepted by the State as substantially complete. If FHWA or US Treasury has not closed this Federal Award within one (1) year and 90 days after the Final Phase Performance End Date due to Local Agency's failure to submit required documentation, then Local Agency may be prohibited from applying for new Federal Awards through the State until such documentation is submitted and accepted.

8. REPORTING - NOTIFICATION

A. Quarterly Reports

In addition to any reports required pursuant to **§19** or pursuant to any exhibit, for any contract having a term longer than 3 months, Local Agency shall submit, on a quarterly basis, a written report specifying progress made for each specified performance measure and standard in this Agreement. Such progress report shall be in accordance with the procedures developed and prescribed by the State. Progress reports shall be submitted to the State not later than ten (10) Business Days following the end of each calendar quarter or at such time as otherwise specified by the State. If SLFRF Funds are used the report must be in the format of **Exhibit P**.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

B. Litigation Reporting

If Local Agency is served with a pleading or other document in connection with an action before a court or other administrative decision making body, and such pleading or document relates to this Agreement or may affect Local Agency's ability to perform its obligations under this Agreement, Local Agency shall, within 10 days after being served, notify the State of such action and deliver copies of such pleading or document to the State's principal representative identified in **§16**.

C. Performance and Final Status

Local Agency shall submit all financial, performance and other reports to the State no later than 60 calendar days after the Final Phase Performance End Date or sooner termination of this Agreement, containing an Evaluation of Subrecipient's performance and the final status of Subrecipient's obligations hereunder.

D. Violations Reporting

Local Agency must disclose, in a timely manner, in writing to the State and FHWA, all violations of federal or State criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal Award. Penalties for noncompliance may include suspension or debarment (2 CFR Part 180 and 31 U.S.C. 3321).

9. LOCAL AGENCY RECORDS

A. Maintenance

Local Agency shall make, keep, maintain, and allow inspection and monitoring by the State of a complete file of all records, documents, communications, notes and other written materials, electronic media files, and communications, pertaining in any manner to the Work or the delivery of Services (including, but not limited to the operation of programs) or Goods hereunder. Local Agency shall maintain such records for a period (the "Record Retention Period") pursuant to the requirements of the funding source and for a minimum of three (3) years following the date of submission to the State of the final expenditure report, whichever is longer, or if this Award is renewed quarterly or annually, from the date of the submission of each quarterly or annual report, respectively. If any litigation, claim, or audit related to this Award starts before expiration of the Record Retention Period, the Record Retention Period shall extend until all litigation, claims, or audit findings have been resolved and final action taken by the State or Federal Awarding Agency. The Federal Awarding Agency, a cognizant agency for audit, oversight or indirect costs, and the State, may notify Local Agency in writing that the Record Retention Period shall be extended. For records for real property and equipment, the Record Retention Period shall extend three (3) years following final disposition of such property.

B. Inspection

Records during the Record Retention Period. Local Agency shall make Local Agency Records available during normal business hours at Local Agency's office or place of business, or at other mutually agreed upon times or locations, upon no fewer than two (2) Business Days' notice from the State, unless the State determines that a shorter period of notice, or no notice, is necessary to protect the interests of the State.

C. Monitoring

The State will monitor Local Agency's performance of its obligations under this Agreement using procedures as determined by the State. The State shall monitor Local Agency's performance in a manner that does not unduly interfere with Local Agency's performance of the Work. Local Agency shall allow the State to perform all monitoring required by the Uniform Guidance, based on the State's risk analysis of Local Agency. The State shall have the right, in its sole discretion, to change its monitoring procedures and requirements at any time during the term of this Agreement. The State shall monitor Local Agency's performance in a manner that does not unduly interfere with Local Agency's performance of the Work. If Local Agency enters into a subcontract with an entity that would also be considered a Subrecipient, then the subcontract entered into by Local Agency shall contain provisions permitting both Local Agency and the State to perform all monitoring of that Subcontractor in accordance with the Uniform Guidance.

D. Final Audit Report

Local Agency shall promptly submit to the State a copy of any final audit report of an audit performed on Local Agency's records that relates to or affects this Agreement or the Work, whether the audit is conducted

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

by Local Agency or a third party. Additionally, if Local Agency is required to perform a single audit under 2 CFR 200.501, *et seq*., then Local Agency shall submit a copy of the results of that audit to the State within the same timelines as the submission to the federal government.

10. CONFIDENTIAL INFORMATION-STATE RECORDS

A. Confidentiality

Local Agency shall hold and maintain, and cause all Subcontractors to hold and maintain, any and all State Records that the State provides or makes available to Local Agency for the sole and exclusive benefit of the State, unless those State Records are otherwise publicly available at the time of disclosure or are subject to disclosure by Local Agency under CORA. Local Agency shall not, without prior written approval of the State, use for Local Agency's own benefit, publish, copy, or otherwise disclose to any third party, or permit the use by any third party for its benefit or to the detriment of the State, any State Records, except as otherwise stated in this Agreement. Local Agency shall provide for the security of all State Confidential Information in accordance with all policies promulgated by the Colorado Office of Information Security and all applicable laws, rules, policies, publications, and guidelines. Local Agency shall immediately forward any request or demand for State Records to the State's principal representative. If Local Agency or any of its Subcontractors will or may receive the following types of data, Local Agency or its Subcontractors shall provide for the security of such data according to the following: **(i)** the most recently promulgated IRS Publication 1075 for all Tax Information and in accordance with the Safeguarding Requirements for Federal Tax Information attached to this Award as an Exhibit, if applicable, **(ii)** the most recently updated PCI Data Security Standard from the PCI Security Standards Council for all PCI, **(iii)** the most recently issued version of the U.S. Department of Justice, Federal Bureau of Investigation, Criminal Justice Information Services Security Policy for all CJI, and **(iv)** the federal Health Insurance Portability and Accountability Act for all PHI and the HIPAA Business Associate Agreement attached to this Award, if applicable. Local Agency shall immediately forward any request or demand for State Records to the State's principal representative.

B. Other Entity Access and Nondisclosure Agreements

Local Agency may provide State Records to its agents, employees, assigns and Subcontractors as necessary to perform the Work, but shall restrict access to State Confidential Information to those agents, employees, assigns and Subcontractors who require access to perform their obligations under this Agreement. Local Agency shall ensure all such agents, employees, assigns, and Subcontractors sign nondisclosure agreements with provisions at least as protective as those in this Agreement, and that the nondisclosure agreements are in force at all times the agent, employee, assign or Subcontractor has access to any State Confidential Information. Local Agency shall provide copies of those signed nondisclosure agreements to the State upon request.

C. Use, Security, and Retention

Local Agency shall use, hold and maintain State Confidential Information in compliance with any and all applicable laws and regulations in facilities located within the United States, and shall maintain a secure environment that ensures confidentiality of all State Confidential Information wherever located. Local Agency shall provide the State with access, subject to Local Agency's reasonable security requirements, for purposes of inspecting and monitoring access and use of State Confidential Information and evaluating security control effectiveness. Upon the expiration or termination of this Agreement, Local Agency shall return State Records provided to Local Agency or destroy such State Records and certify to the State that it has done so, as directed by the State. If Local Agency is prevented by law or regulation from returning or destroying State Confidential Information, Local Agency warrants it will guarantee the confidentiality of, and cease to use, such State Confidential Information.

D. Incident Notice and Remediation

If Local Agency becomes aware of any Incident, it shall notify the State immediately and cooperate with the State regarding recovery, remediation, and the necessity to involve law enforcement, as determined by the State. Unless Local Agency can establish that none of Local Agency or any of its agents, employees, assigns, or Subcontractors are the cause or source of the Incident, Local Agency shall be responsible for the cost of notifying each person who may have been impacted by the Incident. After an Incident, Local Agency shall take steps to reduce the risk of incurring a similar type of Incident in the future as directed by the State, which

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

may include, but is not limited to, developing, and implementing a remediation plan that is approved by the State at no additional cost to the State.

E. Safeguarding Personally Identifying Information "PII"

If Local Agency or any of its Subcontracts will or may receive PII under this agreement, Local Agency shall provide for the security for such PII, in a manner and form acceptable to the State, including, without limitation, State non-disclosure requirements, use of appropriate technology, security practices, computer access security, data access security, data storage encryption, data transmission encryption, security inspections, and audits. Local Agency shall be a "Third Party Service Provider" as defined in §24-73-103(1)(i), C.R.S. and shall maintain security procedures and practices consistent with §§24-73-101 et seq., C.R.S. In addition, as set forth in § 24-74-102, et. seq., C.R.S., Contractor, including, but not limited to, Contractor's employees, agents and Subcontractors, agrees not to share any PII with any third parties for the purpose of investigating for, participating in, cooperating with, or assisting with Federal immigration enforcement. If Contractor is given direct access to any State databases containing PII, Contractor shall execute, on behalf of itself and its employees, the certification attached hereto as **Exhibit S** on an annual basis Contractor's duty and obligation to certify as set forth in **Exhibit S** shall continue as long as Contractor has direct access to any State databases containing PII. If Contractor uses any Subcontractors to perform services requiring direct access to State databases containing PII, the Contractor shall require such Subcontractors to execute and deliver the certification to the State on an annual basis, so long as the Subcontractor has access to State databases containing PII.

11. CONFLICTS OF INTEREST

A. Actual Conflicts of Interest

Local Agency shall not engage in any business or activities or maintain any relationships that conflict in any way with the full performance of the obligations of Local Agency under this Agreement. Such a conflict of interest would arise when a Local Agency or Subcontractor's employee, officer or agent were to offer or provide any tangible personal benefit to an employee of the State, or any member of his or her immediate family or his or her partner, related to the award of, entry into or management or oversight of this Agreement. Officers, employees, and agents of Local Agency may neither solicit nor accept gratuities, favors or anything of monetary value from contractors or parties to subcontracts.

B. Apparent Conflicts of Interest

Local Agency acknowledges that, with respect to this Agreement, even the appearance of a conflict of interest shall be harmful to the State's interests. Absent the State's prior written approval, Local Agency shall refrain from any practices, activities or relationships that reasonably appear to be in conflict with the full performance of Local Agency's obligations under this Agreement.

C. Disclosure to the State

If a conflict or the appearance of a conflict arises, or if Local Agency is uncertain whether a conflict or the appearance of a conflict has arisen, Local Agency shall submit to the State a disclosure statement setting forth the relevant details for the State's consideration. Failure to promptly submit a disclosure statement or to follow the State's direction in regard to the actual or apparent conflict constitutes a breach of this Agreement.

12. INSURANCE

Local Agency shall obtain and maintain, and ensure that each Subcontractor shall obtain and maintain, insurance as specified in this section at all times during the term of this Agreement. All insurance policies required by this Agreement that are not provided through self-insurance shall be issued by insurance companies with an AM Best rating of A-VIII or better.

A. Local Agency Insurance

Local Agency is a "public entity" within the meaning of the Colorado Governmental Immunity Act, §24-10-101, *et seq.*, C.R.S. (the "GIA") and shall maintain at all times during the term of this Agreement such liability insurance, by commercial policy or self-insurance, as is necessary to meet its liabilities under the GIA.

B. Subcontractor Requirements

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Local Agency shall ensure that each Subcontractor that is a public entity within the meaning of the GIA, maintains at all times during the terms of this Agreement, such liability insurance, by commercial policy or self-insurance, as is necessary to meet the Subcontractor's obligations under the GIA. Local Agency shall ensure that each Subcontractor that is not a public entity within the meaning of the GIA, maintains at all times during the terms of this Agreement all of the following insurance policies:

i. Workers' Compensation

Workers' compensation insurance as required by state statute, and employers' liability insurance covering all Local Agency or Subcontractor employees acting within the course and scope of their employment.

ii. General Liability

Commercial general liability insurance written on an Insurance Services Office occurrence form, covering premises operations, fire damage, independent contractors, products and completed operations, blanket contractual liability, personal injury, and advertising liability with minimum limits as follows:

a. $1,000,000 each occurrence;

b. $1,000,000 general aggregate;

c. $1,000,000 products and completed operations aggregate; and

d. $50,000 any 1 fire.

iii. Automobile Liability

Automobile liability insurance covering any auto (including owned, hired and non-owned autos) with a minimum limit of $1,000,000 each accident combined single limit.

iv. Protected Information (this insurance requirement only applies if the Subcontractor has or will have access to State Confidential Information)

Liability insurance covering all loss of State Confidential Information, such as PII, PHI, PCI, Tax Information, and CJI, and claims based on alleged violations of privacy rights through improper use or disclosure of protected information with minimum limits as follows:

a. $1,000,000 each occurrence; and

b. $2,000,000 general aggregate.

v. Professional Liability Insurance (this insurance requirement only applies if the Subcontractor is providing professional services including but not limited to engineering, architectural, landscape architectural, professional surveying, industrial hygiene services, or any other commonly understood professional service)

Professional liability insurance covering any damages caused by an error, omission or any negligent act with minimum limits as follows:

a. $1,000,000 each occurrence; and

b. $1,000,000 general aggregate.

vi. Crime Insurance

Crime insurance including employee dishonesty coverage with minimum limits as follows:

a. $1,000,000 each occurrence; and

b. $1,000,000 general aggregate.

vii. Cyber/Network Security and Privacy Liability

Liability insurance covering all civil, regulatory and statutory damages, contractual damages, data breach management exposure, and any loss of State Confidential Information, such as PII, PHI, PCI, Tax Information, and CJI, and claims based on alleged violations of breach, violation or infringement of right to privacy rights through improper use or disclosure of protected consumer data protection law,

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

confidentiality or other legal protection for personal information, as well as State Confidential Information with minimum limits as follows:

a. $1,000,000 each occurrence; and

b. $2,000,000 general aggregate.

C. Additional Insured

The State shall be named as additional insured on all commercial general liability policies (leases and construction contracts require additional insured coverage for completed operations) required of Local Agency and Subcontractors. In the event of cancellation of any commercial general liability policy, the carrier shall provide at least 10 days prior written notice to CDOT.

D. Primacy of Coverage

Coverage required of Local Agency and each Subcontractor shall be primary over any insurance or self-insurance program carried by Local Agency or the State.

E. Cancellation

All commercial insurance policies shall include provisions preventing cancellation or non-renewal, except for cancellation based on non-payment of premiums, without at least 30 days prior notice to Local Agency and Local Agency shall forward such notice to the State in accordance with **§16** within 7 days of Local Agency's receipt of such notice.

F. Subrogation Waiver

All commercial insurance policies secured or maintained by Local Agency or its Subcontractors in relation to this Agreement shall include clauses stating that each carrier shall waive all rights of recovery under subrogation or otherwise against Local Agency or the State, its agencies, institutions, organizations, officers, agents, employees, and volunteers.

G. Certificates

For each commercial insurance plan provided by Local Agency under this Agreement, Local Agency shall provide to the State certificates evidencing Local Agency's insurance coverage required in this Agreement within seven (7) Business Days following the Effective Date. Local Agency shall provide to the State certificates evidencing Subcontractor insurance coverage required under this Agreement within seven (7) Business Days following the Effective Date, except that, if Local Agency's subcontract is not in effect as of the Effective Date, Local Agency shall provide to the State certificates showing Subcontractor insurance coverage required under this Agreement within seven (7) Business Days following Local Agency's execution of the subcontract. No later than 15 days before the expiration date of Local Agency's or any Subcontractor's coverage, Local Agency shall deliver to the State certificates of insurance evidencing renewals of coverage. At any other time during the term of this Agreement, upon request by the State, Local Agency shall, within seven (7) Business Days following the request by the State, supply to the State evidence satisfactory to the State of compliance with the provisions of this **§12**.

13. BREACH

A. Defined

The failure of a Party to perform any of its obligations in accordance with this Agreement, in whole or in part or in a timely or satisfactory manner, shall be a breach. The institution of proceedings under any bankruptcy, insolvency, reorganization, or similar law, by or against Local Agency, or the appointment of a receiver or similar officer for Local Agency or any of its property, which is not vacated or fully stayed within 30 days after the institution of such proceeding, shall also constitute a breach.

B. Notice and Cure Period

In the event of a breach, the aggrieved Party shall give written notice of breach to the other Party. If the notified Party does not cure the breach, at its sole expense, within 30 days after the delivery of written notice, the Party may exercise any of the remedies as described in **§14** for that Party. Notwithstanding any provision of this Agreement to the contrary, the State, in its discretion, need not provide notice or a cure period and

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

may immediately terminate this Agreement in whole or in part or institute any other remedy in the Agreement in order to protect the public interest of the State.

14. REMEDIES

A. State's Remedies

If Local Agency is in breach under any provision of this Agreement and fails to cure such breach, the State, following the notice and cure period set forth in **§13.B,** shall have all of the remedies listed in this **§14.A.** in addition to all other remedies set forth in this Agreement or at law. The State may exercise any or all of the remedies available to it, in its discretion, concurrently or consecutively.

i. Termination for Breach

In the event of Local Agency's uncured breach, the State may terminate this entire Agreement or any part of this Agreement. Local Agency shall continue performance of this Agreement to the extent not terminated, if any.

a. Obligations and Rights

To the extent specified in any termination notice, Local Agency shall not incur further obligations or render further performance past the effective date of such notice and shall terminate outstanding orders and subcontracts with third parties. However, Local Agency shall complete and deliver to the State all Work not canceled by the termination notice and may incur obligations as necessary to do so within this Agreement's terms. At the request of the State, Local Agency shall assign to the State all of Local Agency's rights, title, and interest in and to such terminated orders or subcontracts. Upon termination, Local Agency shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Local Agency but in which the State has an interest. At the State's request, Local Agency shall return materials owned by the State in Local Agency's possession at the time of any termination. Local Agency shall deliver all completed Work Product and all Work Product that was in the process of completion to the State at the State's request.

b. Payments

Notwithstanding anything to the contrary, the State shall only pay Local Agency for accepted Work received as of the date of termination. If, after termination by the State, the State agrees that Local Agency was not in breach or that Local Agency's action or inaction was excusable, such termination shall be treated as a termination in the public interest, and the rights and obligations of the Parties shall be as if this Agreement had been terminated in the public interest under **§2.C**.

c. Damages and Withholding

Notwithstanding any other remedial action by the State, Local Agency shall remain liable to the State for any damages sustained by the State in connection with any breach by Local Agency, and the State may withhold payment to Local Agency for the purpose of mitigating the State's damages until such time as the exact amount of damages due to the State from Local Agency is determined. The State may withhold any amount that may be due Local Agency as the State deems necessary to protect the State against loss including, without limitation, loss as a result of outstanding liens and excess costs incurred by the State in procuring from third parties replacement Work as cover.

ii. Remedies Not Involving Termination

The State, in its discretion, may exercise one or more of the following additional remedies:

a. Suspend Performance

Suspend Local Agency's performance with respect to all or any portion of the Work pending corrective action as specified by the State without entitling Local Agency to an adjustment in price or cost or an adjustment in the performance schedule. Local Agency shall promptly cease performing Work and incurring costs in accordance with the State's directive, and the State shall not be liable for costs incurred by Local Agency after the suspension of performance.

b. Withhold Payment

Withhold payment to Local Agency until Local Agency corrects its Work.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

c. Deny Payment

Deny payment for Work not performed, or that due to Local Agency's actions or inactions, cannot be performed or if they were performed are reasonably of no value to the state; provided, that any denial of payment shall be equal to the value of the obligations not performed.

d. Removal

Demand immediate removal from the Work of any of Local Agency's employees, agents, or Subcontractors from the Work whom the State deems incompetent, careless, insubordinate, unsuitable, or otherwise unacceptable or whose continued relation to this Agreement is deemed by the State to be contrary to the public interest or the State's best interest.

e. Intellectual Property

If any Work infringes a patent, copyright, trademark, trade secret, or other intellectual property right, Local Agency shall, as approved by the State (a) secure that right to use such Work for the State or Local Agency; (b) replace the Work with non infringing Work or modify the Work so that it becomes non infringing; or, (c) remove any infringing Work and refund the amount paid for such Work to the State.

B. Local Agency's Remedies

If the State is in breach of any provision of this Agreement and does not cure such breach, Local Agency, following the notice and cure period in **§13.B** and the dispute resolution process in **§15** shall have all remedies available at law and equity.

15. DISPUTE RESOLUTION

A. Initial Resolution

Except as herein specifically provided otherwise, disputes concerning the performance of this Agreement which cannot be resolved by the designated Agreement representatives shall be referred in writing to a senior departmental management staff member designated by the State and a senior manager designated by Local Agency for resolution.

B. Resolution of Controversies

If the initial resolution described in §15.A fails to resolve the dispute within 10 Business Days, Contractor shall submit any alleged breach of this Contract by the State to the Procurement Official of CDOT as described in §24-101-301(30), C.R.S. for resolution in accordance with the provisions of §§24-106-109, 24-109-101.1, 24-109-101.5, 24-109-106, 24-109-107, 24-109-201 through 24-109-206, and 24-109-501 through 24-109-505, C.R.S., (the "Resolution Statutes"), except that if Contractor wishes to challenge any decision rendered by the Procurement Official, Contractor's challenge shall be an appeal to the executive director of the Department of Personnel and Administration, or their delegate, under the Resolution Statutes before Contractor pursues any further action as permitted by such statutes. Except as otherwise stated in this Section, all requirements of the Resolution Statutes shall apply including, without limitation, time limitations.

C. Questions of Fact

Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement shall be decided by the Chief Engineer of the Department of Transportation. The decision of the Chief Engineer will be final and conclusive unless, within 30 calendar days after the date of receipt of a copy of such written decision, Local Agency mails or otherwise furnishes to the State a written appeal addressed to the Executive Director of CDOT. In connection with any appeal proceeding under this clause, Local Agency shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, Local Agency shall proceed diligently with the performance of this Agreement in accordance with the Chief Engineer's decision. The decision of the Executive Director or his duly authorized representative for the determination of such appeals shall be final and conclusive and serve as final agency action. This dispute clause does not preclude consideration of questions of law in connection with decisions provided for herein. Nothing in this Agreement, however, shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

16. NOTICES AND REPRESENTATIVES

Each individual identified below shall be the principal representative of the designating Party. All notices required or permitted to be given under this Agreement shall be in writing and shall be delivered **(i)** by hand with receipt required, **(ii)** by certified or registered mail to such Party's principal representative at the address set forth below or **(iii)** as an email with read receipt requested to the principal representative at the email address, if any, set forth below. If a Party delivers a notice to another through email and the email is undeliverable, then, unless the Party has been provided with an alternate email contact, the Party delivering the notice shall deliver the notice by hand with receipt required or by certified or registered mail to such Party's principal representative at the address set forth below. Either Party may change its principal representative or principal representative contact information by notice submitted in accordance with this **§16** without a formal amendment to this Agreement. Unless otherwise provided in this Agreement, notices shall be effective upon delivery of the written notice.

17. RIGHTS IN WORK PRODUCT AND OTHER INFORMATION

A. Work Product

Local Agency hereby grants to the State a perpetual, irrevocable, non-exclusive, royalty free license, with the right to sublicense, to make, use, reproduce, distribute, perform, display, create derivatives of and otherwise exploit all intellectual property created by Local Agency or any Subcontractors. Local Agency assigns to the State and its successors and assigns, the entire right, title, and interest in and to all causes of action, either in law or in equity, for past, present, or future infringement of intellectual property rights related to the Work Product and all works based on, derived from, or incorporating the Work Product. Whether or not Local Agency is under contract with the State at the time, Local Agency shall execute applications, assignments, and other documents, and shall render all other reasonable assistance requested by the State, to enable the State to secure patents, copyrights, licenses and other intellectual property rights related to the Work Product. The Parties intend the Work Product to be works made for hire.

i. Copyrights

To the extent that the Work Product (or any portion of the Work Product) would not be considered works made for hire under applicable law, Local Agency hereby assigns to the State, the entire right, title, and interest in and to copyrights in all Work Product and all works based upon, derived from, or incorporating the Work Product; all copyright applications, registrations, extensions, or renewals relating to all Work Product and all works based upon, derived from, or incorporating the Work Product; and all moral rights or similar rights with respect to the Work Product throughout the world. To the extent that Local Agency cannot make any of the assignments required by this section, Local Agency hereby grants to the State a perpetual, irrevocable, royalty-free license to use, modify, copy, publish, display, perform, transfer, distribute, sell, and create derivative works of the Work Product and all works based upon, derived from,

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

or incorporating the Work Product by all means and methods and in any format now known or invented in the future. The State may assign and license its rights under this license.

ii. Patents

In addition, Local Agency grants to the State (and to recipients of Work Product distributed by or on behalf of the State) a perpetual, worldwide, no-charge, royalty-free, irrevocable patent license to make, have made, use, distribute, sell, offer for sale, import, transfer, and otherwise utilize, operate, modify and propagate the contents of the Work Product. Such license applies only to those patent claims licensable by Local Agency that are necessarily infringed by the Work Product alone, or by the combination of the Work Product with anything else used by the State.

iii. Assignments and Assistance

Whether or not the Local Agency is under Agreement with the State at the time, Local Agency shall execute applications, assignments, and other documents, and shall render all other reasonable assistance requested by the State, to enable the State to secure patents, copyrights, licenses and other intellectual property rights related to the Work Product. The Parties intend the Work Product to be works made for hire. Local Agency assigns to the State and its successors and assigns, the entire right, title, and interest in and to all causes of action, either in law or in equity, for past, present, or future infringement of intellectual property rights related to the Work Product and all works based on, derived from, or incorporating the Work Product.

B. Exclusive Property of the State

Except to the extent specifically provided elsewhere in this Agreement, any pre-existing State Records, State software, research, reports, studies, photographs, negatives, or other documents, drawings, models, materials, data, and information shall be the exclusive property of the State (collectively, "State Materials"). Local Agency shall not use, willingly allow, cause or permit Work Product or State Materials to be used for any purpose other than the performance of Local Agency's obligations in this Agreement without the prior written consent of the State. Upon termination of this Agreement for any reason, Local Agency shall provide all Work Product and State Materials to the State in a form and manner as directed by the State.

C. Exclusive Property of Local Agency

Local Agency retains the exclusive rights, title, and ownership to any and all pre-existing materials owned or licensed to Local Agency including, but not limited to, all pre-existing software, licensed products, associated source code, machine code, text images, audio and/or video, and third-party materials, delivered by Local Agency under this Agreement, whether incorporated in a Deliverable or necessary to use a Deliverable (collectively, "Local Agency Property"). Local Agency Property shall be licensed to the State as set forth in this Agreement or a State approved license agreement: (i) entered into as exhibits to this Agreement, (ii) obtained by the State from the applicable third-party vendor, or (iii) in the case of open source software, the license terms set forth in the applicable open source license agreement.

18. GOVERNMENTAL IMMUNITY

Liability for claims for injuries to persons or property arising from the negligence of the Parties, their departments, boards, commissions committees, bureaus, offices, employees and officials shall be controlled and limited by the provisions of the GIA; the Federal Tort Claims Act, 28 U.S.C. Pt. VI, Ch. 171 and 28 U.S.C. 1346(b), and the State's risk management statutes, §§24-30-1501, *et seq.* C.R.S. The following applies through June 30, 2022: no term or condition of this Contract shall be construed or interpreted as a waiver, express or implied, of any of the immunities, rights, benefits, protections, or other provisions, contained in these statutes.

19. STATEWIDE CONTRACT MANAGEMENT SYSTEM

If the maximum amount payable to Local Agency under this Agreement is $100,000 or greater, either on the Effective Date or at any time thereafter, this **§19** shall apply. Local Agency agrees to be governed by and comply with the provisions of §24-106-103, §24-102-206, §24-106-106, §24-106-107 C.R.S. regarding the monitoring of vendor performance and the reporting of contract performance information in the State's contract management system ("Contract Management System" or "CMS"). Local Agency's performance shall be subject to evaluation and review in accordance with the terms and conditions of this Agreement, Colorado statutes governing CMS, and State Fiscal Rules and State Controller policies.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

20. GENERAL PROVISIONS

A. Assignment

Local Agency's rights and obligations under this Agreement are personal and may not be transferred or assigned without the prior, written consent of the State. Any attempt at assignment or transfer without such consent shall be void. Any assignment or transfer of Local Agency's rights and obligations approved by the State shall be subject to the provisions of this Agreement

B. Subcontracts

Local Agency shall not enter into any subcontract in connection with its obligations under this Agreement without the prior, written approval of the State. Local Agency shall submit to the State a copy of each such subcontract upon request by the State. All subcontracts entered into by Local Agency in connection with this Agreement shall comply with all applicable federal and state laws and regulations, shall provide that they are governed by the laws of the State of Colorado, and shall be subject to all provisions of this Agreement.

C. Binding Effect

Except as otherwise provided in **§20.A.** all provisions of this Agreement, including the benefits and burdens, shall extend to and be binding upon the Parties' respective successors and assigns.

D. Authority

Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations have been duly authorized.

E. Captions and References

The captions and headings in this Agreement are for convenience of reference only, and shall not be used to interpret, define, or limit its provisions. All references in this Agreement to sections (whether spelled out or using the § symbol), subsections, exhibits or other attachments, are references to sections, subsections, exhibits or other attachments contained herein or incorporated as a part hereof, unless otherwise noted.

F. Counterparts

This Agreement may be executed in multiple, identical, original counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.

G. Digital Signatures

If any signatory signs this agreement using a digital signature in accordance with the Colorado State Controller Contract, Grant and Purchase Order Policies regarding the use of digital signatures issued under the State Fiscal Rules, then any agreement or consent to use digital signatures within the electronic system through which that signatory signed shall be incorporated into this Contract by reference.

H. Entire Understanding

This Agreement represents the complete integration of all understandings between the Parties related to the Work, and all prior representations and understandings related to the Work, oral or written, are merged into this Agreement. Prior or contemporaneous additions, deletions, or other changes to this Agreement shall not have any force or effect whatsoever, unless embodied herein.

I. Jurisdiction and Venue

All suits or actions related to this Agreement shall be filed and proceedings held in the State of Colorado and exclusive venue shall be in the City and County of Denver.

J. Modification

Except as otherwise provided in this Agreement, any modification to this Agreement shall only be effective if agreed to in a formal amendment to this Agreement, properly executed and approved in accordance with applicable Colorado State law and State Fiscal Rules. Modifications permitted under this Agreement, other than contract amendments, shall conform to the policies promulgated by the Colorado State Controller.

K. Statutes, Regulations, Fiscal Rules, and Other Authority.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Any reference in this Agreement to a statute, regulation, State Fiscal Rule, fiscal policy or other authority shall be interpreted to refer to such authority then current, as may have been changed or amended since the Effective Date of this Agreement.

L. Order of Precedence

In the event of a conflict or inconsistency between this Agreement and any exhibits or attachment such conflict or inconsistency shall be resolved by reference to the documents in the following order of priority:

i. The provisions of the other sections of the main body of this Agreement.
ii. **Exhibit N**, Federal Treasury Provisions.
iii. **Exhibit F**, Certification for Federal-Aid Contracts.
iv. **Exhibit G**, Disadvantaged Business Enterprise.
v. **Exhibit I**, Federal-Aid Contract Provisions for Construction Contracts.
vi. **Exhibit J**, Additional Federal Requirements.
vii. **Exhibit K**, Federal Funding Accountability and Transparency Act of 2006 (FFATA) Supplemental Federal Provisions.
viii. **Exhibit L**, Sample Sub-Recipient Monitoring and Risk Assessment Form.
ix. **Exhibit M**, Supplemental Provisions for Federal Awards Subject to The Office of Management and Budget Uniform Administrative Requirements, Cost principles, and Audit Requirements for Federal Awards (the "Uniform Guidance").
x. **Exhibit O**, Agreement with Subrecipient of Federal Recovery Funds.
xi. **Exhibit R**. Applicable Federal Awards.
xii Colorado Special Provisions in the main body of this Agreement.
xiii. **Exhibit A**, Scope of Work.
xiv. **Exhibit H**, Local Agency Procedures for Consultant Services.
xv. **Exhibit B**, Sample Option Letter.
xvi. **Exhibit C**, Funding Provisions.
xvii. **Exhibit P**, SLFRF Subrecipient Quarterly Report.
xviii. **Exhibit Q**, SLFRF Reporting Modification Form.
xix. **Exhibit D**, Local Agency Resolution.
xx. **Exhibit E**, Local Agency Contract Administration Checklist.
xxi. **Exhibit S**, PII Certification.
xxii. **Exhibit T**, Checklist of Required Exhibits Dependent on Funding Source.
xxiii. Other exhibits in descending order of their attachment.

M. Severability

The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect, provided that the Parties can continue to perform their obligations under this Agreement in accordance with the intent of the Agreement.

N. Survival of Certain Agreement Terms

Any provision of this Agreement that imposes an obligation on a Party after termination or expiration of the Agreement shall survive the termination or expiration of the Agreement and shall be enforceable by the other Party.

O. Third Party Beneficiaries

Except for the Parties' respective successors and assigns described in **§20.C,** this Agreement does not and is not intended to confer any rights or remedies upon any person or entity other than the Parties. Enforcement of this Agreement and all rights and obligations hereunder are reserved solely to the Parties. Any services or benefits which third parties receive as a result of this Agreement are incidental to the Agreement, and do not create any rights for such third parties.

P. Waiver

A Party's failure or delay in exercising any right, power, or privilege under this Agreement, whether explicit or by lack of enforcement, shall not operate as a waiver, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise of such right, power, or privilege.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Q. CORA Disclosure

To the extent not prohibited by federal law, this Agreement and the performance measures and standards required under §24-106-107 C.R.S., if any, are subject to public release through the CORA.

R. Standard and Manner of Performance

Local Agency shall perform its obligations under this Agreement in accordance with the highest standards of care, skill and diligence in Local Agency's industry, trade, or profession.

S. Licenses, Permits, and Other Authorizations.

Local Agency shall secure, prior to the Effective Date, and maintain at all times during the term of this Agreement, at its sole expense, all licenses, certifications, permits, and other authorizations required to perform its obligations under this Agreement, and shall ensure that all employees, agents and Subcontractors secure and maintain at all times during the term of their employment, agency or subcontract, all license, certifications, permits and other authorizations required to perform their obligations in relation to this Agreement.

T. Compliance with State and Federal Law, Regulations, and Executive Orders

Local Agency shall comply with all State and Federal law, regulations, executive orders, State and Federal Awarding Agency policies, procedures, directives, and reporting requirements at all times during the term of this Agreement.

U. Accessibility

i. Local Agency shall comply with and the Work Product provided under this Agreement shall be in compliance with all applicable provisions of §§24-85-101, et seq., C.R.S., and the Accessibility Standards for Individuals with a Disability, as established by the Governor's Office of Information Technology (OIT), pursuant to Section §24-85-103 (2.5), C.R.S. Local Agency shall also comply with all State of Colorado technology standards related to technology accessibility and with Level AA of the most current version of the Web Content Accessibility Guidelines (WCAG), incorporated in the State of Colorado technology standards.

ii. Each Party agrees to be responsible for its own liability incurred as a result of its participation in and performance under this Agreement. In the event any claim is litigated, each Party will be responsible for its own attorneys' fees, expenses of litigation, or other costs. No provision of this Agreement shall be deemed or construed to be a relinquishment or waiver of any kind of the applicable limitations of liability provided to either the Local Agency or the State by the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, et seq. and Article XI of the Colorado Constitution. Nothing in the Agreement shall be construed as a waiver of any provision of the State Fiscal Rules.

iii. The State may require Local Agency's compliance to the State's Accessibility Standards to be determined by a third party selected by the State to attest to Local Agency's Work Product and software is in compliance with §§24-85-101, et seq., C.R.S., and the Accessibility Standards for Individuals with a Disability as established by OIT pursuant to Section §24-85-103 (2.5), C.R.S.

V. Taxes

The State is exempt from federal excise taxes under I.R.C. Chapter 32 (26 U.S.C., Subtitle D, Ch. 32) (Federal Excise Tax Exemption Certificate of Registry No. 84-730123K) and from State and local government sales and use taxes under §§39-26-704(1), *et seq.,* C.R.S. (Colorado Sales Tax Exemption Identification Number 98-02565). The State shall not be liable for the payment of any excise, sales, or use taxes, regardless of whether any political subdivision of the state imposes such taxes on Local Agency. Local Agency shall be solely responsible for any exemptions from the collection of excise, sales or use taxes that Local Agency may wish to have in place in connection with this Agreement.

21. COLORADO SPECIAL PROVISIONS (COLORADO FISCAL RULE 3-3)

These Special Provisions apply to all contracts. Contractor refers to Local Agency and Contract refers to Agreement.

A. STATUTORY APPROVAL. §24-30-202(1), C.R.S.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

This Contract shall not be valid until it has been approved by the Colorado State Controller or designee. If this Contract is for a Major Information Technology Project, as defined in §24-37.5-102(19), then this Contract shall not be valid until it has been approved by the State's Chief Information Officer or designee.

B. FUND AVAILABILITY. §24-30-202(5.5), C.R.S., applicable Local Agency law, rule or regulation.

Financial obligations of the Parties payable after the current State Fiscal Year or fiscal year are contingent upon funds for that purpose being appropriated, budgeted, and otherwise made available.

C. GOVERNMENTAL IMMUNITY.

Liability for claims for injuries to persons or property arising from the negligence of the Parties, its departments, boards, commissions committees, bureaus, offices, employees and officials shall be controlled and limited by the provisions of the Colorado Governmental Immunity Act, §24-10-101, et seq., C.R.S.; the Federal Tort Claims Act, 28 U.S.C. Pt. VI, Ch. 171 and 28 U.S.C. 1346(b), and the State's risk management statutes, §§24-30-1501, et seq. C.R.S. No term or condition of this Contract shall be construed or interpreted as a waiver, express or implied, of any of the immunities, rights, benefits, protections, or other provisions, contained in these statutes.

D. INDEPENDENT CONTRACTOR

Contractor shall perform its duties hereunder as an independent contractor and not as an employee. Neither Contractor nor any agent or employee of Contractor shall be deemed to be an agent or employee of the State. Contractor shall not have authorization, express or implied, to bind the State to any agreement, liability or understanding, except as expressly set forth herein. **Contractor and its employees and agents are not entitled to unemployment insurance or workers compensation benefits through the State and the State shall not pay for or otherwise provide such coverage for Contractor or any of its agents or employees. Contractor shall pay when due all applicable employment taxes and income taxes and local head taxes incurred pursuant to this Contract. Contractor shall (i) provide and keep in force workers' compensation and unemployment compensation insurance in the amounts required by law, (ii) provide proof thereof when requested by the State, and (iii) be solely responsible for its acts and those of its employees and agents.**

E. COMPLIANCE WITH LAW.

Contractor shall comply with all applicable federal and State laws, rules, and regulations in effect or hereafter established, including, without limitation, laws applicable to discrimination and unfair employment practices.

F. CHOICE OF LAW, JURISDICTION, AND VENUE.

Colorado law, and rules and regulations issued pursuant thereto, shall be applied in the interpretation, execution, and enforcement of this Contract. Any provision included or incorporated herein by reference which conflicts with said laws, rules, and regulations shall be null and void. All suits or actions related to this Contract shall be filed and proceedings held in the State of Colorado and exclusive venue shall be in the City and County of Denver.

G. PROHIBITED TERMS.

Any term included in this Contract that requires the Parties to indemnify or hold Contractor harmless; requires the Parties to agree to binding arbitration; limits Contractor's liability for damages resulting from death, bodily injury, or damage to tangible property; or that conflicts with this provision in any way shall be void ab initio. Nothing in this Contract shall be construed as a waiver of any provision of §24-106-109 C.R.S. Any term included in this Contract that limits Contractor's liability that is not void under this section shall apply only in excess of any insurance to be maintained under this Contract, and no insurance policy shall be interpreted as being subject to any limitations of liability of this Contract.

H. SOFTWARE PIRACY PROHIBITION.

State or other public funds payable under this Contract shall not be used for the acquisition, operation, or maintenance of computer software in violation of federal copyright laws or applicable licensing restrictions. Contractor hereby certifies and warrants that, during the term of this Contract and any extensions, Contractor has and shall maintain in place appropriate systems and controls to prevent such improper use of public funds. If the State determines that Contractor is in violation of this provision, the State may exercise any remedy

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

available at law or in equity or under this Contract, including, without limitation, immediate termination of this Contract and any remedy consistent with federal copyright laws or applicable licensing restrictions.

I. EMPLOYEE FINANCIAL INTEREST/CONFLICT OF INTEREST. §§24-18-201 and 24-50-507, C.R.S.

The signatories aver that to their knowledge, no employee of the State has any personal or beneficial interest whatsoever in the service or property described in this Contract. Contractor has no interest and shall not acquire any interest, direct or indirect, that would conflict in any manner or degree with the performance of Contractor's services and Contractor shall not employ any person having such known interests.

22. FEDERAL REQUIREMENTS

Local Agency and/or their contractors, subcontractors, and consultants shall at all times during the execution of this Agreement strictly adhere to, and comply with, all applicable federal and State laws, and their implementing regulations, as they currently exist and may hereafter be amended. A summary of applicable federal provisions are attached hereto as **Exhibit F**, **Exhibit I**, **Exhibit J**, **Exhibit K**, **Exhibit M, Exhibit N** and **Exhibit O** are hereby incorporated by this reference.

23. DISADVANTAGED BUSINESS ENTERPRISE (DBE)

Local Agency will comply with all requirements of **Exhibit G** and **Exhibit E,** Local Agency Contract Administration Checklist, regarding DBE requirements for the Work, except that if Local Agency desires to use its own DBE program to implement and administer the DBE provisions of 49 C.F.R. Part 26 under this Agreement, it must submit a copy of its program's requirements to the State for review and approval before the execution of this Agreement. If Local Agency uses any State- approved DBE program for this Agreement, Local Agency shall be solely responsible to defend that DBE program and its use of that program against all legal and other challenges or complaints, at its sole cost and expense. Such responsibility includes, without limitation, determinations concerning DBE eligibility requirements and certification, adequate legal and factual bases for DBE goals and good faith efforts. State approval (if provided) of Local Agency's DBE program does not waive or modify the sole responsibility of Local Agency for use of its program.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

EXHIBIT A

SCOPE OF WORK

Name of Project: FY25 Aurora Traffic Signal Equipment Upgrade
Project Number: STU M055-072
SubAccount #: 26185

The project will deploy new video detection systems and UPS at 42 intersections along the DRCOG roadway network within the City of Aurora. Project components will include all video detection systems, mounting hardware, cabling, power supplies, cabinet components, licensing, integration, and testing. The equipment will be purchased from qualified vendors and the installation work will be completed by City of Aurora staff.

Currently, intersections without video detection are unable to provide multimodal detection, 24/7 traffic counts, and remote configuration of detection zones. The absence of these elements results in increased maintenance costs as well as an increased need for external count data services. Existing detection is sometimes unreliable and cannot always be monitored remotely. The installation of video detection will address these issues.

Currently, intersections without Uninterruptible Power Supplies (UPS) are at risk of becoming inoperable in the event of a power failure. The UPS also provides power conditioning to incoming utility power thereby providing clean and stable power that can extend the life of the traffic signal equipment within the cabinet. The installation of UPS will address these issues and allow the intersections to continue to operate.

This project is for the procurement of equipment only and the City will complete the installation with our own workforce.

If ARPA funds are used, all ARPA funds must be encumbered by December 31, 2024. All work funded by ARPA must be completed by December 31, 2026 and all bills must be submitted to CDOT for payment by January 31, 2027. These bills must be paid by CDOT by March 31, 2027.

By accepting funds for this Scope of Work, Local Agency acknowledges, understands, and accepts the continuing responsibility for the safety of the traveling public after initial acceptance of the project. **Local Agency is responsible for maintaining and operating the scope of work described in this Exhibit A constructed under this Agreement at its own cost and expense during its useful life.**

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

EXHIBIT B

SAMPLE IGA OPTION LETTER

Date	State Fiscal Year	Option Letter No.
Project Code	**Original Agreement #**	

Vendor Name:

Option to unilaterally add phasing to include Design, Construction, Environmental, Utilities, ROW incidentals or Miscellaneous and to update encumbrance amount(s).

Option to unilaterally transfer funds from one phase to another phase.

Option to unilaterally add phasing to include Design, Construction, Environmental, Utilities, ROW incidentals or Miscellaneous, to update encumbrance amount(s), and to unilaterally transfer funds from one phase to another phase.

Option to unilaterally extend the term of this Agreement and/or update a Work Phase Performance Period and/or modify OMB Guidance.

Option A

In accordance with the terms of the original Agreement between the State of Colorado, Department of Transportation and the Local Agency, the State hereby exercises the option to authorize the Local Agency to add a phase and to encumber funds for the phase based on changes in funding availability and authorization. The total encumbrance is (or increased) by $0.00. A new **Exhibit C-1** is made part of the original Agreement and replaces **Exhibit C**.

Option B

In accordance with the terms of the original Agreement between the State of Colorado, Department of Transportation and the Local Agency, the State hereby exercises the option to transfer funds based on variance in actual phase costs and original phase estimates. A new **Exhibit C-1** is made part of the original Agreement and replaces **Exhibit C**.

Option C

In accordance with the terms of the original Agreement between the State of Colorado, Department of Transportation and the Local Agency, the State hereby exercises the option to 1) release the Local Agency to begin a phase; 2) to encumber funds for the phase based upon changes in funding availability and authorization; and 3) to transfer funds from phases based on variance in actual phase costs and

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

original phase estimates. A new **Exhibit C-1** is made part of the original Agreement and replaces **Exhibit C**.

Option D

In accordance with the terms of the original Agreement between the State of Colorado, Department of Transportation and the Local Agency, the State hereby exercises the option extend the term of this Agreement and/or update a Work Phase Performance Period and/or modify information required under the OMB Uniform Guidance, as outlined in **Exhibit C**. This is made part of the original Agreement and replaces the Expiration Date shown on the Signature and Cover Page. Any updated version of **Exhibit C** shall be attached to any executed Option Letter as **Exhibit C-1** (with subsequent exhibits labeled **C-2**, **C-3**, etc.).

The effective date of this option letter is upon approval of the State Controller or delegate.

ALL AGREEMENTS MUST BE APPROVED BY THE STATE CONTROLLER

CRS §24-30-202 requires the State Controller to approve all State Agreements. This Agreement is not valid until signed and dated below by the State Controller or delegate. Contractor is not authorized to begin performance until such time. If the Local Agency begins performing prior thereto, the State of Colorado is not obligated to pay the Local Agency for such performance or for any goods and/or services provided hereunder.

Fed $ LA Work

EXHIBIT C - FUNDING PROVISIONS

City of Aurora - STU M055-072 (26185)

A. Cost of Work Estimate

The Local Agency has estimated the total cost of the Work to be $1,021,000.00, which is to be funded as follows:

1. FUNDING

a. Federal Funds (100% of STBG Award)	$1,021,000.00
b. Local Agency Funds (0% of STBG Award)	$0.00
TOTAL FUNDS ALL SOURCES	**$1,021,000.00**

2. OMB UNIFORM GUIDANCE

a.	Federal Award Identification Number (FAIN):	TBD
b.	Name of Federal Awarding Agency:	FHWA
c.	Local Agency Unique Entity Identifier	KVZATDBDECG8
d.	Assistance Listing # Highway Planning and Construction	ALN 20.205
e.	Is the Award for R&D?	No
f.	Indirect Cost Rate (if applicable)	N/A
g.	Amount of Federal Funds Obligated by this Action:	$0.00
h.	Amount of Federal Funds Obligated to Date (including this Action):	$0.00

3. ESTIMATED PAYMENT TO LOCAL AGENCY

a.	Federal Funds Budgeted	$1,021,000.00
b.	Less Estimated Federal Share of CDOT-Incurred Costs	$0.00

TOTAL ESTIMATED PAYMENT TO LOCAL AGENCY	**100%**	**$1,021,000.00**
TOTAL ESTIMATED FUNDING BY LOCAL AGENCY	**0%**	**$0.00**
TOTAL PROJECT ESTIMATED FUNDING	**100%**	**$1,021,000.00**

4. FOR CDOT ENCUMBRANCE PURPOSES

a.	Total Encumbrance Amount (Federal funds + Local Agency funds)	$1,021,000.00
b.	Less ROW Acquisition 3111 and/or ROW Relocation 3109	$0.00
NET TO BE ENCUMBERED BY CDOT IS AS FOLLOWS		**$1,021,000.00**

Note: No funds are currently available. Design and Construction funds will become available after execution of an Option letter (Exhibit B) or formal Amendment.

WBS Element 26185.10.30	Performance Period Start*/End Date TBD-TBD	Design	3020	$0.00
WBS Element 26185.20.10	Performance Period Start*/End Date TBD- TBD	Const.	3301	$0.00

*The Local Agency should not begin work until all three (3) of the following are in place: 1) Phase Performance Period Start Date; 2) the execution of the document encumbering funds for the respective phase; and 3) Local Agency receipt of the official Notice to Proceed. Any work performed before these three (3) milestones are achieved will not be reimbursable.

B. Funding Ratios

The funding ratio for the federal funds for this Work is 100% federal funds to 0% Local Agency funds, and this ratio applies only to the $1,021,000.00 that is eligible for federal funding. All other costs are borne by the Local Agency at 100%. If the total cost of performance of the Work exceeds $1,021,000.00, and additional federal funds are not available, the Local Agency shall pay all such excess costs. If the total

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

cost of performance of the Work is less than $1,021,000.00, then the amounts of Local Agency and federal funds will be decreased in accordance with the funding ratio described in **A1**. **This applies to the entire scope of Work.**

C. Maximum Amount Payable

The maximum amount payable to the Local Agency under this Agreement shall be $1,021,000.00. For CDOT accounting purposes, the federal funds of $1,021,000.00 and the Local Agency funds of $0.00 will be encumbered for a total encumbrance of $1,021,000.00, unless this amount is increased by an executed amendment before any increased cost is incurred. The total budget is $1,021,000.00, unless this amount is increased by an executed amendment before any increased cost is incurred. The total cost of the Work is the best estimate available, based on the design data as approved at the time of execution of this Agreement, and that any cost is subject to revisions agreed to by the parties prior to bid and award. The maximum amount payable will be reduced without amendment when the actual amount of the Local Agency's awarded Agreement is less than the budgeted total of the federal funds and the Local Agency funds. The maximum amount payable will be reduced through the execution of an Option Letter as described in Section 7. E. of this contract. **This applies to the entire scope of Work.**

D. Single Audit Act Amendment

All state and local government and non-profit organizations receiving $750,000 or more from all funding sources defined as federal financial assistance for Single Audit Act Amendment purposes shall comply with the audit requirements of 2 CFR part 200, subpart F (Audit Requirements) see also, 49 CFR 18.20 through 18.26. The Single Audit Act Amendment requirements applicable to the Local Agency receiving federal funds are as follows:

i. **Expenditure less than $750,000**
If the Local Agency expends less than $750,000 in Federal funds (all federal sources, not just Highway funds) in its fiscal year then this requirement does not apply.

ii. **Expenditure of $750,000 or more-Highway Funds Only**
If the Local Agency expends $750,000 or more, in Federal funds, but only received federal Highway funds (Catalog of Federal Domestic Assistance, CFDA 20.205) then a program specific audit shall be performed. This audit will examine the "financial" procedures and processes for this program area.

iii. **Expenditure of $750,000 or more-Multiple Funding Sources**
If the Local Agency expends $750,000 or more in Federal funds, and the Federal funds are from multiple sources (FTA, HUD, NPS, etc.) then the Single Audit Act applies, which is an audit on the entire organization/entity.

iv. **Independent CPA**
Single Audit shall only be conducted by an independent CPA, not by an auditor on staff. An audit is an allowable direct or indirect cost.

Project Location	Date
City of Aurora	**01/1/2023**

Project Description
FY25-Aurora Traffic Signal Equipment Upgrade

Local Agency	Local Agency Project Manager
Aurora	**Carlie Campuzano**
CDOT Resident Engineer	CDOT Project Manager
Alvin Stamp	**Chris Vokurka**

INSTRUCTIONS:
This checklist shall be used to establish the contractual administrative responsibilities of the individual parties to this agreement. The checklist becomes an attachment to the Local Agency Agreement. Section numbers (NO.) correspond to the applicable chapters of the *CDOT Local Agency Desk Reference (Local Agency Manual).* LAWR numbers correspond to the applicable flowchart in the Local Agency Web Resource.

The checklist shall be prepared by placing an X under the responsible party, opposite each of the tasks. The X denotes the party responsible for initiating and executing the task. Only one responsible party should be selected. When neither CDOT nor the Local Agency is responsible for a task, not applicable (NA) shall be noted. In addition, # will denote that CDOT must concur or approve.

Tasks that will be performed by Headquarters staff are indicated with an X in the CDOT column under Responsible Party. The Regions, in accordance with established policies and procedures, will determine who will perform all other tasks that are the responsibility of CDOT.

The checklist shall be prepared by the CDOT Resident Engineer or the CDOT Project Manager, in cooperation with the Local Agency Project Manager, and submitted to the Region Program Engineer. If contract administration responsibilities change, the CDOT Resident Engineer, in cooperation with the Local Agency Project Manager, will prepare and distribute a revised checklist.

Note:
Failure to comply with applicable Federal and State requirements may result in the loss of Federal or State participation in funding.

CERTIFICATION FOR FEDERAL-AID CONTRACTS

The Local Agency certifies, by signing this Agreement, to the best of its knowledge and belief, that:

No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, Agreement, loan, or cooperative agreement.

If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer of Congress, or an employee of a Member of Congress in connection with this Federal contract, Agreement, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such sub-recipients shall certify and disclose accordingly.

EXHIBIT G

DISADVANTAGED BUSINESS ENTERPRISES

SECTION 1. Policy

It is the policy of the Colorado Department of Transportation (CDOT) that Disadvantaged Business Enterprises (DBEs) shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this agreement, pursuant to 49 CFR Part 26. Accordingly, CDOT's federally approved DBE Program Plan shall apply to this agreement.

SECTION 2. Subrecipient and Participant Obligation.

The Local Agency and its subrecipients agrees to ensure that DBEs certified through the Colorado Unified Certification Program have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this agreement.

All participants on contracts and subcontracts financed in whole or in part with Federal funds provided under this Agreement shall take all necessary and reasonable steps in accordance with the CDOT's federally approved DBE Program Plan to ensure that DBEs have the maximum opportunity to compete for and perform contracts.

Local Agency subrecipients and their contractors shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of CDOT and federally assisted contracts.

SECTION 3. DBE Program.

The Local Agency subrecipient shall be responsible for complying with CDOT's FHWA-approved DBE Program Plan.

Local Agency requirements can be found at:

https://www.codot.gov/business/civilrights

EXHIBIT H

LOCAL AGENCY PROCEDURES FOR CONSULTANT SERVICES

Title 23 Code of Federal Regulations (CFR) 172 applies to a federally funded Local Agency project agreement administered by CDOT that involves professional consultant services. 23 CFR 172.1 states "The policies and procedures involve federally funded contracts for engineering and design related services for projects subject to the provisions of 23 U.S.C. 112(a) and are issued to ensure that a qualified consultant is obtained through an equitable selection process, that prescribed work is properly accomplished in a timely manner, and at fair and reasonable cost" and according to 23 CFR 172.5 "Price shall not be used as a factor in the analysis and selection phase." Therefore, local agencies must comply with these CFR requirements when obtaining professional consultant services under a federally funded consultant contract administered by CDOT.

CDOT has formulated its procedures in Procedural Directive (P.D.) 400.1 and the related operations guidebook titled "Obtaining Professional Consultant Services". This directive and guidebook incorporate requirements from both Federal and State regulations, i.e., 23 CFR 172 and CRS §24-30-1401 et seq. Copies of the directive and the guidebook may be obtained upon request from CDOT's Agreements and Consultant Management Unit. [Local agencies should have their own written procedures on file for each method of procurement that addresses the items in 23 CFR 172].

Because the procedures and laws described in the Procedural Directive and the guidebook are quite lengthy, the subsequent steps serve as a short-hand guide to CDOT procedures that a Local Agency must follow in obtaining professional consultant services. This guidance follows the format of 23 CFR 172. The steps are:

1. The contracting Local Agency shall document the need for obtaining professional services.

2. Prior to solicitation for consultant services, the contracting Local Agency shall develop a detailed scope of work and a list of evaluation factors and their relative importance. The evaluation factors are those identified in C.R.S. 24-30-1403. Also, a detailed cost estimate should be prepared for use during negotiations.

3. The contracting agency must advertise for contracts in conformity with the requirements of C.R.S. 24-30-1405. The public notice period, when such notice is required, is a minimum of 15 days prior to the selection of the three most qualified firms and the advertising should be done in one or more daily newspapers of general circulation.

4. The Local Agency shall not advertise any federal aid contract without prior review by the CDOT Regional Civil Rights Office (RCRO) to determine whether the contract shall be subject to a DBE contract goal. If the RCRO determines a goal is necessary, then the Local Agency shall include the goal and the applicable provisions within the advertisement. The Local Agency shall not award a contract to any Contractor or Consultant without the confirmation by the CDOT Civil Rights and Business Resource Center that the Contractor or Consultant has demonstrated good faith efforts. The Local Agency shall work with the CDOT RCRO to ensure compliance with the established terms during the performance of the contract.

5. The Local Agency shall require that all contractors pay subcontractors for satisfactory performance of work no later than 30 days after the receipt of payment for that work from the contractor. For construction projects, this time period shall be reduced to seven days in accordance with Colorado Revised Statute 24-91-103(2). If the Local Agency withholds retainage from contractors and/or allows contractors to withhold retainage from subcontractors, such retainage provisions must comply with 49 CFR 26.29.

6. Payments to all Subconsultants shall be made within thirty days of receipt of payment from [the Local Agency] or no later than ninety days from the date of the submission of a complete invoice from the Subconsultant, whichever occurs first. If the Consultant has good cause to dispute an amount invoiced by a Subconsultant, the Consultant shall notify [the Local Agency] no later than the required date for payment. Such notification shall include the amount disputed and justification for the withholding. The Consultant shall maintain records of payment that show amounts paid to all Subconsultants. Good cause does not include the Consultant's failure to submit an invoice to the Local Agency or to deposit payments made.

7. The analysis and selection of the consultants shall be done in accordance with CRS §24-30-1403. This section of the regulation identifies the criteria to be used in the evaluation of CDOT pre-qualified prime consultants and their team. It also shows which criteria are used to short-list and to make a final selection.

The short-list is based on the following evaluation factors:

a. Qualifications,

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

b. Approach to the Work,

c. Ability to furnish professional services.

d. Anticipated design concepts, and

e. Alternative methods of approach for furnishing the professional services. Evaluation factors for final selection are the consultant's:

a. Abilities of their personnel,

b. Past performance,

c. Willingness to meet the time and budget requirement,

d. Location,

e. Current and projected work load,

f. Volume of previously awarded contracts, and

g. Involvement of minority consultants.

8. Once a consultant is selected, the Local Agency enters into negotiations with the consultant to obtain a fair and reasonable price for the anticipated work. Pre-negotiation audits are prepared for contracts expected to be greater than $50,000. Federal reimbursements for costs are limited to those costs allowable under the cost principles of 48 CFR 31. Fixed fees (profit) are determined with consideration given to size, complexity, duration, and degree of risk involved in the work. Profit is in the range of six to 15 percent of the total direct and indirect costs.

9. A qualified Local Agency employee shall be responsible and in charge of the Work to ensure that the work being pursued is complete, accurate, and consistent with the terms, conditions, and specifications of the contract. At the end of Work, the Local Agency prepares a performance evaluation (a CDOT form is available) on the consultant.

CRS §§24-30-1401 THROUGH 24-30-1408, 23 CFR PART 172, AND P.D. 400.1, PROVIDE ADDITIONAL DETAILS FOR COMPLYING WITH THE PRECEEDING EIGHT (8) STEPS.

ATTACHMENTS

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under title 23, United States Code, as required in 23 CFR 633.102(b) (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services). 23 CFR 633.102(e).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider. 23 CFR 633.102(e).

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services) in accordance with 23 CFR 633.102. The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in solicitation-for-bids or request-for-proposals documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract). 23 CFR 633.102(b).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract. 23 CFR 633.102(d).

3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. 23 U.S.C. 114(b). The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors. 23 U.S.C. 101(a).

II. NONDISCRIMINATION (23 CFR 230.107(a); 23 CFR Part 230, Subpart A, Appendix A; EO 11246)

The provisions of this section related to 23 CFR Part 230, Subpart A, Appendix A are applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR Part 60, 29 CFR Parts 1625-1627, 23 U.S.C. 140, Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and related regulations including 49 CFR Parts 21, 26, and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding $10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR Part 60, and 29 CFR Parts 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with 23 U.S.C. 140, Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), and Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and related regulations including 49 CFR Parts 21, 26, and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR Part 230, Subpart A, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

1. Equal Employment Opportunity: Equal Employment Opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (*see* 28 CFR Part 35, 29 CFR Part 1630, 29 CFR Parts 1625-1627, 41 CFR Part 60 and 49 CFR Part 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140, shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR Part 35 and 29 CFR Part 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract. 23 CFR 230.409 (g)(4) & (5).

b. The contractor will accept as its operating policy the following statement:

> "It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, sexual orientation, gender identity, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action or are substantially involved in such action, will be made fully cognizant of and will implement the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer or other knowledgeable company official.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to ensure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs (i.e., apprenticeship and on-the-job training programs for the geographical area of contract performance). In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. 23 CFR 230.409. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability.

c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established thereunder. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, sexual orientation, gender identity, national origin, age, or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors, suppliers, and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurances Required:

a. The requirements of 49 CFR Part 26 and the State DOT's FHWA-approved Disadvantaged Business Enterprise (DBE) program are incorporated by reference.

b. The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:
(1) Withholding monthly progress payments;
(2) Assessing sanctions;
(3) Liquidated damages; and/or
(4) Disqualifying the contractor from future bidding as non-responsible.

c. The Title VI and nondiscrimination provisions of U.S. DOT Order 1050.2A at Appendixes A and E are incorporated by reference. 49 CFR Part 21.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women.

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of more than $10,000. 41 CFR 60-1.5.

As prescribed by 41 CFR 60-1.8, the contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, sexual orientation, gender identity, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location under the contractor's control where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding $2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size), in accordance with 29 CFR 5.5. The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. 23 U.S.C. 113. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. 23 U.S.C. 101. Where applicable law requires that projects be treated as a project on a Federal-aid highway, the provisions of this subpart will apply regardless of the location of the project. Examples include: Surface Transportation Block Grant Program projects funded under 23 U.S.C. 133 [excluding recreational trails projects], the Nationally Significant Freight and Highway Projects funded under 23 U.S.C. 117, and National Highway Freight Program projects funded under 23 U.S.C. 167.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 “Contract provisions and related matters” with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages (29 CFR 5.5)

a. *Wage rates and fringe benefits.* All laborers and mechanics employed or working upon the site of the work (or otherwise working in construction or development of the project under a development statute), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of basic hourly wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. As provided in paragraphs (d) and (e) of 29 CFR 5.5, the appropriate wage determinations are effective by operation of law even if they have not been attached to the contract. Contributions made or costs reasonably anticipated for bona fide fringe benefits under the Davis-Bacon Act (40 U.S.C. 3141(2)(B)) on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.e. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics must be paid the appropriate wage rate and fringe benefits on the wage determination for the classification(s) of work actually performed, without regard to skill, except as provided in paragraph 4. of this section. Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *Provided,* That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classifications and wage rates conformed under paragraph 1.c. of this section) and the Davis-Bacon poster (WH–1321) must be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. *Frequently recurring classifications.* (1) In addition to wage and fringe benefit rates that have been determined to be prevailing under the procedures set forth in 29 CFR part 1, a wage determination may contain, pursuant to § 1.3(f), wage and fringe benefit rates for classifications of laborers and mechanics for which conformance requests are regularly submitted pursuant to paragraph 1.c. of this section, provided that:

(i) The work performed by the classification is not performed by a classification in the wage determination for which a prevailing wage rate has been determined;

(ii) The classification is used in the area by the construction industry; and

(iii) The wage rate for the classification bears a reasonable relationship to the prevailing wage rates contained in the wage determination.

(2) The Administrator will establish wage rates for such classifications in accordance with paragraph 1.c.(1)(iii) of this section. Work performed in such a classification must be paid at no less than the wage and fringe benefit rate listed on the wage determination for such classification.

c. *Conformance.* (1) The contracting officer must require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract be classified in conformance with the wage determination. Conformance of an additional classification and wage rate and fringe benefits is appropriate only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is used in the area by the construction industry; and

(iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) The conformance process may not be used to split, subdivide, or otherwise avoid application of classifications listed in the wage determination.

(3) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken will be sent by the contracting officer by email to *DBAconformance@dol.gov*. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(4) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer will, by email to *DBAconformance@dol.gov*, refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(5) The contracting officer must promptly notify the contractor of the action taken by the Wage and Hour Division under paragraphs 1.c.(3) and (4) of this section. The contractor must furnish a written copy of such determination to each affected worker or it must be posted as a part of the wage determination. The wage rate (including fringe benefits where appropriate) determined pursuant to paragraph 1.c.(3) or (4) of this section must be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

d. *Fringe benefits not expressed as an hourly rate.* Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor may either pay the benefit as stated in the wage determination or may pay another bona fide fringe benefit or an hourly cash equivalent thereof.

e. *Unfunded plans.* If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *Provided,* That the Secretary of Labor has found, upon the written request of the contractor, in accordance with the criteria set forth in § 5.28, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

f. *Interest.* In the event of a failure to pay all or part of the wages required by the contract, the contractor will be required to pay interest on any underpayment of wages.

2. Withholding (29 CFR 5.5)

a. *Withholding requirements.* The contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for the full amount of wages and monetary relief, including interest, required by the clauses set forth in this section for violations of this contract, or to satisfy any such liabilities required by any other Federal contract, or federally assisted contract subject to Davis-Bacon labor standards, that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to Davis-Bacon labor standards requirements and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld. In the event of a contractor's failure to pay any laborer or mechanic, including any apprentice or helper working on the site of the work all or part of the wages required by the contract, or upon the contractor's failure to submit the required records as discussed in paragraph 3.d. of this section, the contracting agency may on its own initiative and after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

b. *Priority to withheld funds.* The Department has priority to funds withheld or to be withheld in accordance with paragraph

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

2.a. of this section or Section V, paragraph 3.a., or both, over claims to those funds by:

(1) A contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(2) A contracting agency for its reprocurement costs;

(3) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(4) A contractor's assignee(s);

(5) A contractor's successor(s); or

(6) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901–3907.

3. Records and certified payrolls (29 CFR 5.5)

a. *Basic record requirements* (1) *Length of record retention.* All regular payrolls and other basic records must be maintained by the contractor and any subcontractor during the course of the work and preserved for all laborers and mechanics working at the site of the work (or otherwise working in construction or development of the project under a development statute) for a period of at least 3 years after all the work on the prime contract is completed.

(2) *Information required.* Such records must contain the name; Social Security number; last known address, telephone number, and email address of each such worker; each worker's correct classification(s) of work actually performed; hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act); daily and weekly number of hours actually worked in total and on each covered contract; deductions made; and actual wages paid.

(3) *Additional records relating to fringe benefits.* Whenever the Secretary of Labor has found under paragraph 1.e. of this section that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act, the contractor must maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(4) *Additional records relating to apprenticeship.* Contractors with apprentices working under approved programs must maintain written evidence of the registration of apprenticeship programs, the registration of the apprentices, and the ratios and wage rates prescribed in the applicable programs.

b. *Certified payroll requirements* (1) *Frequency and method of submission.* The contractor or subcontractor must submit weekly, for each week in which any DBA- or Related Acts-covered work is performed, certified payrolls to the contracting agency. The prime contractor is responsible for the submission of all certified payrolls by all subcontractors. A contracting agency or prime contractor may permit or require contractors to submit certified payrolls through an electronic system, as long as the electronic system requires a legally valid electronic signature; the system allows the contractor, the contracting agency, and the Department of Labor to access the certified payrolls upon request for at least 3 years after the work on the prime contract has been completed; and the contracting agency or prime contractor permits other methods of submission in situations where the contractor is unable or limited in its ability to use or access the electronic system.

(2) *Information required.* The certified payrolls submitted must set out accurately and completely all of the information required to be maintained under paragraph 3.a.(2) of this section, except that full Social Security numbers and last known addresses, telephone numbers, and email addresses must not be included on weekly transmittals. Instead, the certified payrolls need only include an individually identifying number for each worker (*e.g.,* the last four digits of the worker's Social Security number). The required weekly certified payroll information may be submitted using Optional Form WH–347 or in any other format desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division website at *https://www.dol.gov/sites/dolgov/files/WHD/legacy/files/wh347/.pdf* or its successor website. It is not a violation of this section for a prime contractor to require a subcontractor to provide full Social Security numbers and last known addresses, telephone numbers, and email addresses to the prime contractor for its own records, without weekly submission by the subcontractor to the contracting agency.

(3) *Statement of Compliance.* Each certified payroll submitted must be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor, or the contractor's or subcontractor's agent who pays or supervises the payment of the persons working on the contract, and must certify the following:

(i) That the certified payroll for the payroll period contains the information required to be provided under paragraph 3.b. of this section, the appropriate information and basic records are being maintained under paragraph 3.a. of this section, and such information and records are correct and complete;

(ii) That each laborer or mechanic (including each helper and apprentice) working on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR part 3; and

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification(s) of work actually performed, as specified in the applicable wage determination incorporated into the contract.

(4) *Use of Optional Form WH–347.* The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 will satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(3) of this section.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

(5) *Signature.* The signature by the contractor, subcontractor, or the contractor's or subcontractor's agent must be an original handwritten signature or a legally valid electronic signature.

(6) *Falsification.* The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 3729.

(7) *Length of certified payroll retention.* The contractor or subcontractor must preserve all certified payrolls during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

c. *Contracts, subcontracts, and related documents.* The contractor or subcontractor must maintain this contract or subcontract and related documents including, without limitation, bids, proposals, amendments, modifications, and extensions. The contractor or subcontractor must preserve these contracts, subcontracts, and related documents during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

d. *Required disclosures and access* (1) *Required record disclosures and access to workers.* The contractor or subcontractor must make the records required under paragraphs 3.a. through 3.c. of this section, and any other documents that the contracting agency, the State DOT, the FHWA, or the Department of Labor deems necessary to determine compliance with the labor standards provisions of any of the applicable statutes referenced by § 5.1, available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and must permit such representatives to interview workers during working hours on the job.

(2) *Sanctions for non-compliance with records and worker access requirements.* If the contractor or subcontractor fails to submit the required records or to make them available, or refuses to permit worker interviews during working hours on the job, the Federal agency may, after written notice to the contractor, sponsor, applicant, owner, or other entity, as the case may be, that maintains such records or that employs such workers, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available, or to permit worker interviews during working hours on the job, may be grounds for debarment action pursuant to § 5.12. In addition, any contractor or other person that fails to submit the required records or make those records available to WHD within the time WHD requests that the records be produced will be precluded from introducing as evidence in an administrative proceeding under 29 CFR part 6 any of the required records that were not provided or made available to WHD. WHD will take into consideration a reasonable request from the contractor or person for an extension of the time for submission of records. WHD will determine the reasonableness of the request and may consider, among other things, the location of the records and the volume of production.

(3) *Required information disclosures.* Contractors and subcontractors must maintain the full Social Security number and last known address, telephone number, and email address of each covered worker, and must provide them upon request to the contracting agency, the State DOT, the FHWA, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or other compliance action.

4. Apprentices and equal employment opportunity (29 CFR 5.5)

a. *Apprentices* (1) *Rate of pay.* Apprentices will be permitted to work at less than the predetermined rate for the work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship (OA), or with a State Apprenticeship Agency recognized by the OA. A person who is not individually registered in the program, but who has been certified by the OA or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice, will be permitted to work at less than the predetermined rate for the work they perform in the first 90 days of probationary employment as an apprentice in such a program. In the event the OA or a State Apprenticeship Agency recognized by the OA withdraws approval of an apprenticeship program, the contractor will no longer be permitted to use apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(2) *Fringe benefits.* Apprentices must be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringe benefits must be paid in accordance with that determination.

(3) *Apprenticeship ratio.* The allowable ratio of apprentices to journeyworkers on the job site in any craft classification must not be greater than the ratio permitted to the contractor as to the entire work force under the registered program or the ratio applicable to the locality of the project pursuant to paragraph 4.a.(4) of this section. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated in paragraph 4.a.(1) of this section, must be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under this section must be paid not less than the applicable wage rate on the wage determination for the work actually performed.

(4) *Reciprocity of ratios and wage rates.* Where a contractor is performing construction on a project in a locality other than the locality in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyworker's hourly rate) applicable within the locality in which the construction is being performed must be observed. If there is no applicable ratio or wage rate for the locality of the project, the ratio and wage rate specified in the contractor's registered program must be observed.

b. *Equal employment opportunity.* The use of apprentices and journeyworkers under this part must be in conformity with

the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

c. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. 23 CFR 230.111(e)(2). The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeyworkers shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract as provided in 29 CFR 5.5.

6. Subcontracts. The contractor or subcontractor must insert FHWA-1273 in any subcontracts, along with the applicable wage determination(s) and such other clauses or contract modifications as the contracting agency may by appropriate instructions require, and a clause requiring the subcontractors to include these clauses and wage determination(s) in any lower tier subcontracts. The prime contractor is responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in this section. In the event of any violations of these clauses, the prime contractor and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and may be subject to debarment, as appropriate. 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract as provided in 29 CFR 5.5.

9. Disputes concerning labor standards. As provided in 29 CFR 5.5, disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility. a. By entering into this contract, the contractor certifies that neither it nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of 40 U.S.C. 3144(b) or § 5.12(a).

c. The penalty for making false statements is prescribed in the U.S. Code, Title 18 Crimes and Criminal Procedure, 18 U.S.C. 1001.

11. Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

a. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

b. Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

c. Cooperating in any investigation or other compliance action, or testifying in any proceeding under the DBA, Related Acts, this part, or 29 CFR part 1 or 3; or

d. Informing any other person about their rights under the DBA, Related Acts, this part, or 29 CFR part 1 or 3.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

Pursuant to 29 CFR 5.5(b), the following clauses apply to any Federal-aid construction contract in an amount in excess of $100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchpersons and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek. 29 CFR 5.5.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph 1. of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages and interest from the date of the underpayment. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

mechanic, including watchpersons and guards, employed in violation of the clause set forth in paragraph 1. of this section, in the sum currently provided in 29 CFR 5.5(b)(2)* for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph 1. of this section.

* $31 as of January 15, 2023 (See 88 FR 88 FR 2210) as may be adjusted annually by the Department of Labor, pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990.

3. Withholding for unpaid wages and liquidated damages

a. *Withholding process.* The FHWA or the contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this section on this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld.

b. *Priority to withheld funds.* The Department has priority to funds withheld or to be withheld in accordance with Section IV paragraph 2.a. or paragraph 3.a. of this section, or both, over claims to those funds by:

(1) A contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(2) A contracting agency for its reprocurement costs;

(3) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(4) A contractor's assignee(s);

(5) A contractor's successor(s); or

(6) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901–3907.

4. Subcontracts. The contractor or subcontractor must insert in any subcontracts the clauses set forth in paragraphs 1. through 5. of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor is responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs 1. through 5. In the event of any violations of these clauses, the prime contractor and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

5. Anti-retaliation. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

a. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;

b. Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under CWHSSA or this part;

c. Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or

d. Informing any other person about their rights under CWHSSA or this part.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System pursuant to 23 CFR 635.116.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term “perform work with its own organization” in paragraph 1 of Section VI refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions: (based on longstanding interpretation)

(1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
(2) the prime contractor remains responsible for the quality of the work of the leased employees;

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

(3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and

(4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract. 23 CFR 635.102.

2. Pursuant to 23 CFR 635.116(a), the contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. Pursuant to 23 CFR 635.116(c), the contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract. (based on long-standing interpretation of 23 CFR 635.116).

5. The 30-percent self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements. 23 CFR 635.116(d).

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR Part 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract. 23 CFR 635.108.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR Part 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704). 29 CFR 1926.10.

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR Part 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 11, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT (42 U.S.C. 7606; 2 CFR 200.88; EO 11738)

This provision is applicable to all Federal-aid construction contracts in excess of $150,000 and to all related subcontracts. 48 CFR 2.101; 2 CFR 200.327.

By submission of this bid/proposal or the execution of this contract or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, subcontractor, supplier, or vendor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal Highway Administration and the Regional Office of the Environmental Protection Agency. 2 CFR Part 200, Appendix II.

The contractor agrees to include or cause to be included the requirements of this Section in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements. 2 CFR 200.327.

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost $25,000 or more – as defined in 2 CFR Parts 180 and 1200. 2 CFR 180.220 and 1200.220.

1**. Instructions for Certification – First Tier Participants:**

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction. 2 CFR 180.320.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default. 2 CFR 180.325.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. 2 CFR 180.345 and 180.350.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180, Subpart I, 180.900-180.1020, and 1200. “First Tier Covered Transactions” refers to any covered transaction between a recipient or subrecipient of Federal funds and a participant (such as the prime or general contract). “Lower Tier Covered Transactions” refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). “First Tier Participant” refers to the participant who has entered into a covered transaction with a recipient or subrecipient of Federal funds (such as the prime or general contractor). “Lower Tier Participant” refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction. 2 CFR 180.330.

g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold. 2 CFR 180.220 and 180.300.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. 2 CFR 180.300; 180.320, and 180.325. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. 2 CFR 180.335. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the System for Award Management website (https://www.sam.gov/). 2 CFR 180.300, 180.320, and 180.325.

i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default. 2 CFR 180.325.

* * * * *

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – First Tier Participants:

a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency, 2 CFR 180.335;.

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property, 2 CFR 180.800;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification, 2 CFR 180.700 and 180.800; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. 2 CFR 180.335(d).

(5) Are not a corporation that has been convicted of a felony violation under any Federal law within the two-year period preceding this proposal (USDOT Order 4200.6 implementing appropriations act requirements); and

(6) Are not a corporation with any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability (USDOT Order 4200.6 implementing appropriations act requirements).

b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant should attach an explanation to this proposal. 2 CFR 180.335 and 180.340.

* * * * *

3. **Instructions for Certification - Lower Tier Participants:**

(Applicable to all subcontracts, purchase orders, and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200). 2 CFR 180.220 and 1200.220.

a. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances. 2 CFR 180.365.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180, Subpart I, 180.900 – 180.1020, and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. “First Tier Covered Transactions” refers to any covered transaction between a recipient or subrecipient of Federal funds and a participant (such as the prime or general contract). “Lower Tier Covered Transactions” refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). “First Tier Participant” refers to the participant who has entered into a covered transaction with a recipient or subrecipient of Federal funds (such as the prime or general contractor). “Lower Tier Participant” refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated. 2 CFR 1200.220 and 1200.332.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold. 2 CFR 180.220 and 1200.220.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the System for Award Management website (https://www.sam.gov/), which is compiled by the General Services Administration. 2 CFR 180.300, 180.320, 180.330, and 180.335.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment. 2 CFR 180.325.

* * * * *

4. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Participants:

a. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals:

(1) is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency, 2 CFR 180.355;

(2) is a corporation that has been convicted of a felony violation under any Federal law within the two-year period preceding this proposal (USDOT Order 4200.6 implementing appropriations act requirements); and

(3) is a corporation with any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability. (USDOT Order 4200.6 implementing appropriations act requirements)

b. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant should attach an explanation to this proposal.

* * * * *

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed $100,000. 49 CFR Part 20, App. A.

1. The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such recipients shall certify and disclose accordingly.

XII. USE OF UNITED STATES-FLAG VESSELS:

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, or any other covered transaction. 46 CFR Part 381.

This requirement applies to material or equipment that is acquired for a specific Federal-aid highway project. 46 CFR 381.7. It is not applicable to goods or materials that come into inventories independent of an FHWA funded-contract.

When oceanic shipments (or shipments across the Great Lakes) are necessary for materials or equipment acquired for a specific Federal-aid construction project, the bidder, proposer, contractor, subcontractor, or vendor agrees:

1. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels. 46 CFR 381.7.

2. To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, ‘on-board’ commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph (b)(1) of this section to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Office of Cargo and Commercial Sealift (MAR-620), Maritime Administration, Washington, DC 20590. (MARAD requires copies of the ocean carrier's (master) bills of lading, certified onboard, dated, with rates and charges. These bills of lading may contain business sensitive information and therefore may be submitted directly to MARAD by the Ocean Transportation Intermediary on behalf of the contractor). 46 CFR 381.7.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS (23 CFR 633, Subpart B, Appendix B)
This provision is applicable to all Federal-aid projects funded under the Appalachian Regional Development Act of 1965.

1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:

a. To the extent that qualified persons regularly residing in the area are not available.

b. For the reasonable needs of the contractor to employ supervisory or specially experienced personnel necessary to assure an efficient execution of the contract work.

c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph (1c) shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph (4) below.

2. The contractor shall place a job order with the State Employment Service indicating (a) the classifications of the laborers, mechanics and other employees required to perform the contract work, (b) the number of employees required in each classification, (c) the date on which the participant estimates such employees will be required, and (d) any other pertinent information required by the State Employment Service to complete the job order form. The job order may be placed with the State Employment Service in writing or by telephone. If during the course of the contract work, the information submitted by the contractor in the original job order is substantially modified, the participant shall promptly notify the State Employment Service.

3. The contractor shall give full consideration to all qualified job applicants referred to him by the State Employment Service. The contractor is not required to grant employment to any job applicants who, in his opinion, are not qualified to perform the classification of work required.

4. If, within one week following the placing of a job order by the contractor with the State Employment Service, the State Employment Service is unable to refer any qualified job applicants to the contractor, or less than the number requested, the State Employment Service will forward a certificate to the contractor indicating the unavailability of applicants. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph (1c) above.

5. The provisions of 23 CFR 633.207(e) allow the contracting agency to provide a contractual preference for the use of mineral resource materials native to the Appalachian region.

6. The contractor shall include the provisions of Sections 1 through 4 of this Attachment A in every subcontract for work which is, or reasonably may be, done as on-site work.

EXHIBIT J

ADDITIONAL FEDERAL REQUIREMENTS

Federal laws and regulations that may be applicable to the Work include:

Executive Order 11246

Executive Order 11246 of September 24, 1965 entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967 and as supplemented in Department of Labor regulations (41 CFR Chapter 60) (All construction contracts awarded in excess of $10,000 by the Local Agencies and their contractors or the Local Agencies).

Copeland "Anti-Kickback" Act

The Copeland "Anti-Kickback" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3) (All contracts and sub-Agreements for construction or repair).

Davis-Bacon Act

The Davis-Bacon Act (40 U.S.C. 276a to a-7) as supplemented by Department of Labor regulations (29 CFR Part 5) (Construction contracts in excess of $2,000 awarded by the Local Agencies and the Local Agencies when required by Federal Agreement program legislation. This act requires that all laborers and mechanics employed by contractors or sub-contractors to work on construction projects financed by federal assistance must be paid wages not less than those established for the locality of the project by the Secretary of Labor).

Contract Work Hours and Safety Standards Act

Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330) as supplemented by Department of Labor regulations (29 CFR Part 5). (Construction contracts awarded by the Local Agency's in excess of $2,000, and in excess of $2,500 for other contracts which involve the employment of mechanics or laborers).

Clean Air Act

Standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h), section 508 of the Clean Water Act (33 U.S.C. 1368). Executive Order 11738, and Environmental Protection Agency regulations (40 CFR Part 15) (contracts, subcontracts, and sub-Agreements of amounts more than $100,000).

Energy Policy and Conservation Act

Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub. L. 94-163).

OMB Circulars

Office of Management and Budget Circulars A-87, A-21 or A-122, and A-102 or A-110, whichever is applicable.

Hatch Act

The Hatch Act (5 USC 1501-1508) and Public Law 95-454 Section 4728. These statutes state that federal funds cannot be used for partisan political purposes of any kind by any person or organization involved in the administration of federally assisted programs.

Nondiscrimination

The Local Agency shall not exclude from participation in, deny the benefits of, or subject to discrimination any person in the United States on the ground of race, color national origin, sex, age or disability. Prior to the receipt of any Federal financial assistance from CDOT, the Local Agency shall execute the attached Standard DOT Title VI assurance. As appropriate, the Local Agency shall include Appendix A, B, or C to the Standard DOT Title VI assurance in any contract utilizing federal funds, land, or other aid. The Local Agency shall also include the following in all contract advertisements:

> *The [Local Agency], in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (79 Stat. 252, 42 US.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, DBEs will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for any award.*

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

ADA

In any contract utilizing federal funds, land, or other federal aid, the Local Agency shall require the federal-aid recipient or contractor to provide a statement of written assurance that they will comply with Section 504 and not discriminate on the basis of disability.

Uniform Relocation Assistance and Real Property Acquisition Policies Act

The Uniform Relocation Assistance and Real Property Acquisition Policies Act, as amended (Public Law 91-646, as amended and Public Law 100-17, 101 Stat. 246-256). (If the contractor is acquiring real property and displacing households or businesses in the performance of the Agreement).

Drug-Free Workplace Act

The Drug-Free Workplace Act (Public Law 100-690 Title V, subtitle D, 41 USC 701 et seq.).

Age Discrimination Act of 1975

The Age Discrimination Act of 1975, 42 U.S.C. Sections 6101 et. seq. and its implementing regulation, 45 C.F.R. Part 91; Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794, as amended, and implementing regulation 45 C.F.R. Part 84.

23 C.F.R. Part 172

23 C.F.R. Part 172, concerning "Administration of Engineering and Design Related Contracts".

23 C.F.R Part 633

23 C.F.R Part 633, concerning "Required Contract Provisions for Federal-Aid Construction Contracts".

23 C.F.R. Part 635

23 C.F.R. Part 635, concerning "Construction and Maintenance Provisions".

Title VI of the Civil Rights Act of 1964 and 162(a) of the Federal Aid Highway Act of 1973

Title VI of the Civil Rights Act of 1964 and 162(a) of the Federal Aid Highway Act of 1973. The requirements for which are shown in the Nondiscrimination Provisions, which are attached hereto and made a part hereof.

Nondiscrimination Provisions:

In compliance with Title VI of the Civil Rights Act of 1964 and with Section 162(a) of the Federal Aid Highway Act of 1973, the Contractor, for itself, its assignees, and successors in interest, agree as follows:

i. Compliance with Regulations

The Contractor will comply with the Regulations of the Department of Transportation relative to nondiscrimination in Federally assisted programs of the Department of Transportation (Title 49, Code of Federal Regulations, Part 21, hereinafter referred to as the "Regulations"), which are herein incorporated by reference and made a part of this Agreement.

ii. Nondiscrimination

The Contractor, with regard to the work performed by it after award and prior to completion of the contract work, will not discriminate on the ground of race, color, sex, mental or physical handicap or national origin in the selection and retention of Subcontractors, including procurement of materials and leases of equipment. The Contractor will not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix C of the Regulations.

iii. Solicitations for Subcontracts, Including Procurement of Materials and Equipment

In all solicitations either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurement of materials or equipment, each potential Subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this Agreement and the Regulations relative to nondiscrimination on the ground of race, color, sex, mental or physical handicap or national origin.

iv. Information and Reports

The Contractor will provide all information and reports required by the Regulations, or orders and instructions issued pursuant thereto and will permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the State or the FHWA to be pertinent to ascertain compliance with such Regulations, orders, and instructions. Where any information required of the Contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Contractor shall so certify to the State, or the FHWA as appropriate and shall set forth what efforts have been made to obtain the information.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

v. Sanctions for Noncompliance

In the event of the Contractor's noncompliance with the nondiscrimination provisions of this Agreement, the State shall impose such contract sanctions as it or the FHWA may determine to be appropriate, including, but not limited to: **a.** Withholding of payments to the Contractor under the contract until the Contractor complies, and/or **b.** Cancellation, termination or suspension of the contract, in whole or in part.

Incorporation of Provisions §22

The Contractor will include the provisions of this Exhibit J in every subcontract, including procurement of materials and leases of equipment, unless exempt by the Regulations, orders, or instructions issued pursuant thereto. The Contractor will take such action with respect to any subcontract or procurement as the State or the FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance; provided, however, that, in the event the Contractor becomes involved in, or is threatened with, litigation with a Subcontractor or supplier as a result of such direction, the Contractor may request the State to enter into such litigation to protect the interest of the State and in addition, the Contractor may request the FHWA to enter into such litigation to protect the interests of the United States.

The United States Department of Transportation (USDOT) Standard Title VI/Non-Discrimination

Assurances for Local Agencies

DOT Order No. 1050.2A

The [Local Agency] (herein referred to as the "Recipient"), **HEREBY AGREES THAT**, as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation (DOT), through the Colorado Department of Transportation and the Federal Highway Administration (FHWA), Federal Transit Administration (FTA), and Federal Aviation Administration (FAA), is subject to and will comply with the following:

Statutory/Regulatory Authorities

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
- 49 C.F.R. Part 21 (entitled Non-discrimination In Federally-Assisted Programs Of The Department Of Transportation-Effectuation Of Title VI Of The Civil Rights Act Of 1964);
- 28 C.F.R. section 50.3 (U.S. Department of Justice Guidelines for Enforcement of Title VI of the Civil Rights Act of 1964);

The preceding statutory and regulatory cites hereinafter are referred to as the "Acts" and "Regulations," respectively.

General Assurances

In accordance with the Acts, the Regulations, and other pertinent directives, circulars, policy, memoranda, and/or guidance, the Recipient hereby gives assurance that it will promptly take any measures necessary to ensure that:

> *"No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity, "for which the Recipient receives Federal financial assistance from DOT, including the FHWA, FTA, or FAA.*

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI and other Non-discrimination requirements (The Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these non- discrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

Specific Assurances

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted FHWA, FTA, and FAA assisted programs:

1. The Recipient agrees that each "activity," "facility," or "program," as defined in §§ 21.23(b) and 21.23(e) of 49 C.F.R. § 21 will be (with regard to an "activity") facilitated or will be (with regard to a "facility") operated or will be (with regard to a "program") conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
2. The Recipient will insert the following notification in all solicitations for bids, Requests for Proposals for work, or material subject to the Acts and the Regulations made in connection with all FHWA, FTA and FAA programs and, in adapted form, in all proposals for negotiated agreements regardless of funding source:
3. "The [Local Agency] in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 US.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

4. to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award."
5. The Recipient will insert the clauses of Appendix A and E of this Assurance in every contract or agreement subject to the Acts and the Regulations.

6. The Recipient will insert the clauses of Appendix B of this Assurance, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.

7. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.

8. That where the Recipient receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.

9. That the Recipient will include the clauses set forth in Appendix C and Appendix D of this Assurance, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:

    a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
    b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.

10. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:

    a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
    b. the period during which the Recipient retains ownership or possession of the property.

11. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.

12. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the [Local Agency] also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing the FHWA, FTA, and FAA's access to records, accounts, documents, information, facilities, and staff. You also recognize that you must comply with any program or compliance reviews, and/or complaint investigationsconducted by CDOT, FHWA, FTA, or FAA. You must keep records, reports, and submit the material for review

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

upon request to CDOT, FHWA, FTA, or FAA, or its designee in a timely, complete, and accurate way. Additionally, you must comply with all other reporting, data collection, and evaluation requirements, as prescribed by law or detailed in program guidance.

[Local Agency] gives this ASSURANCE in consideration of and for obtaining any Federal grants, loans, contracts, agreements, property, and/or discounts, or other Federal-aid and Federal financial assistance extended after the date hereof to the recipients by the U.S. Department of Transportation under the FHWA, FTA, and FAA. This ASSURANCE is binding on [Local Agency], other recipients, sub-recipients, sub-grantees, contractors, subcontractors and their subcontractors', transferees, successors in interest, and any other participants in the FHWA, FTA, and FAA funded programs. The person(s) signing below is authorized to sign this ASSURANCE on behalf of the Recipient.

APPENDIX A

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees as follows:

1. **Compliance with Regulations**: The contractor (hereinafter includes consultants) will comply with the Acts and the Regulations relative to Non-discrimination in Federally-assisted programs of the U.S. Department of Transportation, FHWA, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

2. **Non-discrimination**: The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Acts and the Regulations, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

3. **Solicitations for Subcontracts, Including Procurements of Materials and Equipment**: In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Acts and the Regulations relative to Non-discrimination on the grounds of race, color, or national origin.

4. **Information and Reports**: The contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the [Local Agency], CDOT or FHWA to be pertinent to ascertain compliance with such Acts, Regulations, and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to the [Local Agency], CDOT or FHWA, as appropriate, and will set forth what efforts it has made to obtain the information.

5. **Sanctions for Noncompliance**: In the event of a contractor's noncompliance with the non-discrimination provisions of this contract, the [Local Agency] will impose such contract sanctions as it, CDOT or FHWA may determine to be appropriate, including, but not limited to:

   a. withholding payments to the contractor under the contract until the contractor complies; and/or
   b. cancelling, terminating, or suspending a contract, in whole or in part.

6. **Incorporation of Provisions**: The contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as the Recipient or the [Local Agency], CDOT or FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request the Recipient to enter into any litigation to protect the interests of the Recipient. In addition, the contractor may request the United States to enter into the litigation to protect the interests of the United States.

APPENDIX B

CLAUSES FOR DEEDS TRANSFERRING UNITED STATES PROPERTY

The following clauses will be included in deeds effecting or recording the transfer of real property, structures, or improvements thereon, or granting interest therein from the United States pursuant to the provisions of Assurance 4:

NOW, THEREFORE, the U.S. Department of Transportation as authorized by law and upon the condition that the [Local Agency] will accept title to the lands and maintain the project constructed thereon in accordance with (***Name of Appropriate Legislative Authority***), the Regulations for the Administration of (***Name of Appropriate Program***), and the policies and procedures prescribed by the FHWA of the U.S. Department of Transportation in accordance and in compliance with all requirements imposed by Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Non-discrimination in Federally-assisted programs of the U.S Department of Transportation pertaining to and effectuating the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. § 2000d to 2000d-4), does hereby remise, release, quitclaim and convey unto the [Local Agency] all the right, title and interest of the U.S. Department of Transportation in and to said lands described in Exhibit A attached hereto and made a part hereof.

(HABENDUM CLAUSE)

TO HAVE AND TO HOLD said lands and interests therein unto [Local Agency] and its successors forever, subject, however, to the covenants, conditions, restrictions and reservations herein contained as follows, which will remain in effect for the period during which the real property or structures are used for a purpose for which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits and will be binding on the [Local Agency] its successors and assigns.

The [Local Agency], in consideration of the conveyance of said lands and interests in lands, does hereby covenant and agree as a covenant running with the land for itself, its successors and assigns, that (1) no person will on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination with regard to any facility located wholly or in part on, over, or under such lands hereby conveyed [,] [and]* (2) that the [Local Agency] will use the lands and interests in lands and interests in lands so conveyed, in compliance with all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Non-discrimination in Federally-assisted programs of the U.S. Department of Transportation, Effectuation of Title VI of the Civil Rights Act of 1964, and as said Regulations and Acts may be amended [, and (3) that in the event of breach of any of the above-mentioned non-discrimination conditions, the Department will have a right to enter or re-enter said lands and facilities on said land, and that above described land and facilities will thereon revert to and vest in and become the absolute property of the U.S. Department of Transportation and its assigns as such interest existed prior to this instruction].*

(*Reverter clause and related language to be used only when it is determined that such a clause is necessary to make clear the purpose of Title VI.)

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

APPENDIX C

CLAUSES FOR TRANSFER OF REAL PROPERTY ACQUIRED OR IMPROVED UNDER THE ACTIVITY, FACILITY, OR PROGRAM

The following clauses will be included in deeds, licenses, leases, permits, or similar instruments entered into by the [Local Agency] pursuant to the provisions of Assurance 7(a):

A. The (grantee, lessee, permittee, etc. as appropriate) for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree [in the case of deeds and leases add "as a covenant running with the land"] that:

    1. In the event facilities are constructed, maintained, or otherwise operated on the property described in this (deed, license, lease, permit, etc.) for a purpose for which a U.S. Department of Transportation activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, the (grantee, licensee, lessee, permittee, etc.) will maintain and operate such facilities and services in compliance with all requirements imposed by the Acts and Regulations (as may be amended) such that no person on the grounds of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities.

B. With respect to licenses, leases, permits, etc., in the event of breach of any of the above Non-discrimination covenants, [Local Agency] will have the right to terminate the (lease, license, permit, etc.) and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the (lease, license, permit, etc.) had never been made or issued. *

C. With respect to a deed, in the event of breach of any of the above Non-discrimination covenants, the [Local Agency] will have the right to enter or re-enter the lands and facilities thereon, and the above described lands and facilities will there upon revert to and vest in and become the absolute property of the [Local Agency] and its assigns. *

(*Reverter clause and related language to be used only when it is determined that such a clause is necessary to make clear the purpose of Title VI.)

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

APPENDIX D

CLAUSES FOR CONSTRUCTION/USE/ACCESS TO REAL PROPERTY ACQUIRED UNDER THE ACTIVITY, FACILITY OR PROGRAM

The following clauses will be included in deeds, licenses, permits, or similar instruments/agreements entered into by [Local Agency] pursuant to the provisions of Assurance 7(b):

A. The (grantee, licensee, permittee, etc., as appropriate) for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree (in the case of deeds and leases add, "as a covenant running with the land") that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishing of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, (3) that the (grantee, licensee, lessee, permittee, etc.) will use the premises in compliance with all other requirements imposed by or pursuant to the Acts and Regulations, as amended, set forth in this Assurance.

B. With respect to (licenses, leases, permits, etc.), in the event of breach of any of the above Non- discrimination covenants, [Local Agency] will have the right to terminate the (license, permit, etc., as appropriate) and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said (license, permit, etc., as appropriate) had never been made or issued. *

C. With respect to deeds, in the event of breach of any of the above Non-discrimination covenants, [Local Agency] will there upon revert to and vest in and become the absolute property of [Local Agency] of Transportation and its assigns. *

(*Reverter clause and related language to be used only when it is determined that such a clause is necessary to make clear the purpose of Title VI.)

APPENDIX E

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

Pertinent Non-Discrimination Authorities:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination onthe basis of race, color, national origin); and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601),(prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis ofsex);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on thebasis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, orsex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability ofTitle VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all ofthe programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation,and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;
- The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of Limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

EXHIBIT K

FFATA SUPPLEMENTAL FEDERAL PROVISIONS

State of Colorado
Supplemental Provisions for
Federally Funded Contracts, Grants, and Purchase Orders
Subject to
The Federal Funding Accountability and Transparency Act of 2006 (FFATA), As Amended
Revised as of 3-20-13

The contract, grant, or purchase order to which these Supplemental Provisions are attached has been funded, in whole or in part, with an Award of Federal funds. In the event of a conflict between the provisions of these Supplemental Provisions, the Special Provisions, the contract or any attachments or exhibits incorporated into and made a part of the contract, the provisions of these Supplemental Provisions shall control.

1. **Definitions.** For the purposes of these Supplemental Provisions, the following terms shall have the meanings ascribed to them below.

1.1. **"Award"** means an award of Federal financial assistance that a non-Federal Entity receives or administers in the form of:

1.1.1. Grants;
1.1.2. Contracts;
1.1.3. Cooperative agreements, which do not include cooperative research and development agreements (CRDA) pursuant to the Federal Technology Transfer Act of 1986, as amended (15 U.S.C. 3710);
1.1.4. Loans;
1.1.5. Loan Guarantees;
1.1.6. Subsidies;
1.1.7. Insurance;
1.1.8. Food commodities;
1.1.9. Direct appropriations;
1.1.10. Assessed and voluntary contributions; and
1.1.11. Other financial assistance transactions that authorize the expenditure of Federal funds by non-Federal Entities.

Award ***does not*** include:

1.1.12. Technical assistance, which provides services in lieu of money;
1.1.13. A transfer of title to Federally-owned property provided in lieu of money; even if the award is called a grant;
1.1.14. Any award classified for security purposes; or
1.1.15. Any award funded in whole or in part with Recovery funds, as defined in section 1512 of the American Recovery and Reinvestment Act (ARRA) of 2009 (Public Law 111-5).

1.2. **"Contract"** means the contract to which these Supplemental Provisions are attached and includes all Award types in **§1.1.1** through **1.1.11** above.

1.3. **"Contractor"** means the party or parties to a Contract funded, in whole or in part, with Federal financial assistance, other than the Prime Recipient, and includes grantees, subgrantees, Subrecipients, and borrowers. For purposes of Transparency Act reporting, Contractor does not include Vendors.

1.4. **"Data Universal Numbering System (DUNS) Number"** means the nine-digit number established and assigned by Dun and Bradstreet, Inc. to uniquely identify a business entity. Dun and Bradstreet's website may be found at: http://fedgov.dnb.com/webform.

1.5. **"Entity"** means all of the following as defined at 2 CFR part 25, subpart C;

1.5.1. A governmental organization, which is a State, local government, or Indian Tribe;
1.5.2. A foreign public entity;
1.5.3. A domestic or foreign non-profit organization;

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

1.5.4. A domestic or foreign for-profit organization; and

1.5.5. A Federal agency, but only a Subrecipient under an Award or Subaward to a non-Federal entity.

1.6. **"Executive"** means an officer, managing partner or any other employee in a management position.

1.7. **"Federal Award Identification Number (FAIN)"** means an Award number assigned by a Federal agency to a Prime Recipient.

1.8. **"FFATA"** means the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109- 282), as amended by §6202 of Public Law 110-252. FFATA, as amended, also is referred to as the "Transparency Act."

1.9. **"Prime Recipient"** means a Colorado State agency or institution of higher education that receives an Award.

1.10. **"Subaward"** means a legal instrument pursuant to which a Prime Recipient of Award funds awards all or a portion of such funds to a Subrecipient, in exchange for the Subrecipient's support in the performance of all or any portion of the substantive project or program for which the Award was granted.

1.11. **"Subrecipient"** means a non-Federal Entity (or a Federal agency under an Award or Subaward to a non-Federal Entity) receiving Federal funds through a Prime Recipient to support the performance of the Federal project or program for which the Federal funds were awarded. A Subrecipient is subject to the terms and conditions of the Federal Award to the Prime Recipient, including program compliance requirements. The term "Subrecipient" includes and may be referred to as Subgrantee.

1.12. **"Subrecipient Parent DUNS Number"** means the subrecipient parent organization's 9-digit Data Universal Numbering System (DUNS) number that appears in the subrecipient's System for Award Management (SAM) profile, if applicable.

1.13. **"Supplemental Provisions"** means these Supplemental Provisions for Federally Funded Contracts, Grants, and Purchase Orders subject to the Federal Funding Accountability and Transparency Act of 2006, As Amended, as may be revised pursuant to ongoing guidance from the relevant Federal or State of Colorado agency or institution of higher education.

1.14. **"System for Award Management (SAM)"** means the Federal repository into which an Entity must enter the information required under the Transparency Act, which may be found at http://www.sam.gov.

1.15. **"Total Compensation"** means the cash and noncash dollar value earned by an Executive during the Prime Recipient's or Subrecipient's preceding fiscal year and includes the following:

1.15.1. Salary and bonus;

1.15.2. Awards of stock, stock options, and stock appreciation rights, using the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2005) (FAS 123R), Shared Based Payments;

1.15.3. Earnings for services under non-equity incentive plans, not including group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of Executives and are available generally to all salaried employees;

1.15.4. Change in present value of defined benefit and actuarial pension plans;

1.15.5. Above-market earnings on deferred compensation which is not tax-qualified;

1.15.6. Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the Executive exceeds $10,000.

1.16. "**Transparency Act**" means the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), as amended by §6202 of Public Law 110-252. The Transparency Act also is referred to as FFATA.

1.17 "Vendor" means a dealer, distributor, merchant or other seller providing property or services required for a project or program funded by an Award. A Vendor is not a Prime Recipient or a Subrecipient and is not subject to the terms and conditions of the Federal award. Program compliance requirements do not pass through to a Vendor.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

2. **Compliance.** Contractor shall comply with all applicable provisions of the Transparency Act and the regulations issued pursuant thereto, including but not limited to these Supplemental Provisions. Any revisions to such provisions or regulations shall automatically become a part of these Supplemental Provisions, without the necessity of either party executing any further instrument. The State of Colorado may provide written notification to Contractor of such revisions, but such notice shall not be a condition precedent to the effectiveness of such revisions.

3. **System for Award Management (SAM) and Data Universal Numbering System (DUNS) Requirements.**

   3.1. SAM. Contractor shall maintain the currency of its information in SAM until the Contractor submits the final financial report required under the Award or receives final payment, whichever is later. Contractor shall review and update SAM information at least annually after the initial registration, and more frequently if required by changes in its information.

   3.2. DUNS. Contractor shall provide its DUNS number to its Prime Recipient, and shall update Contractor's information in Dun & Bradstreet, Inc. at least annually after the initial registration, and more frequently if required by changes in Contractor's information.

4. **Total Compensation.** Contractor shall include Total Compensation in SAM for each of its five most highly compensated Executives for the preceding fiscal year if:

   4.1. The total Federal funding authorized to date under the Award is $25,000 or more; and

   4.2. In the preceding fiscal year, Contractor received:

      4.2.1. 80% or more of its annual gross revenues from Federal procurement contracts and subcontracts and/or Federal financial assistance Awards or Subawards subject to the Transparency Act; and

      4.2.2. $25,000,000 or more in annual gross revenues from Federal procurement contracts and subcontracts and/or Federal financial assistance Awards or Subawards subject to the Transparency Act; and

   4.3. The public does not have access to information about the compensation of such Executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d) or § 6104 of the Internal Revenue Code of 1986.

5. **Reporting.** Contractor shall report data elements to SAM and to the Prime Recipient as required in §7 below if Contractor is a Subrecipient for the Award pursuant to the Transparency Act. No direct payment shall be made to Contractor for providing any reports required under these Supplemental Provisions and the cost of producing such reports shall be included in the Contract price. The reporting requirements in §7 below are based on guidance from the US Office of Management and Budget (OMB), and as such are subject to change at any time by OMB. Any such changes shall be automatically incorporated into this Contract and shall become part of Contractor's obligations under this Contract, as provided in **§2** above. The Colorado Office of the State Controller will provide summaries of revised OMB reporting requirements at http://www.colorado.gov/dpa/dfp/sco/FFATA.htm.

6. **Effective Date and Dollar Threshold for Reporting.** The effective date of these Supplemental Provisions apply to new Awards as of October 1, 2010. Reporting requirements in §7 below apply to new Awards as of October 1, 2010, if the initial award is $25,000 or more. If the initial Award is below $25,000 but subsequent Award modifications result in a total Award of $25,000 or more, the Award is subject to the reporting requirements as of the date the Award exceeds $25,000. If the initial Award is $25,000 or more, but funding is subsequently de-obligated such that the total award amount falls below $25,000, the Award shall continue to be subject to the reporting requirements.

7. **Subrecipient Reporting Requirements.** If Contractor is a Subrecipient, Contractor shall report as set forth below.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

7.1 To SAM. A Subrecipient shall register in SAM and report the following data elements in SAM ***for each*** Federal Award Identification Number no later than the end of the month following the month in which the Subaward was made:

7.1.1 Subrecipient DUNS Number;

7.1.2 Subrecipient DUNS Number + 4 if more than one electronic funds transfer (EFT) account;

7.1.3 Subrecipient Parent DUNS Number;

7.1.4 Subrecipient's address, including: Street Address, City, State, Country, Zip + 4, and Congressional District;

7.1.5 Subrecipient's top 5 most highly compensated Executives if the criteria in §4 above are met; and

7.1.6 Subrecipient's Total Compensation of top 5 most highly compensated Executives if criteria in §4 above met.

7.2 To Prime Recipient. A Subrecipient shall report to its Prime Recipient, upon the effective date of the Contract, the following dataelements:

7.2.1 Subrecipient's DUNS Number as registered in **SAM**.

7.2.2 Primary Place of Performance Information, including: Street Address, City, State, Country, Zip code + 4, and Congressional District.

8. Exemptions.

8.1. These Supplemental Provisions do not apply to an individual who receives an Award as a natural person, unrelated to any business or non-profit organization he or she may own or operate in his or her name.

8.2 A Contractor with gross income from all sources of less than $300,000 in the previous tax year is exempt from the requirements to report Subawards and the Total Compensation of its most highly compensated Executives.

8.3 Effective October 1, 2010, "Award" currently means a grant, cooperative agreement, or other arrangement as defined in Section 1.1 of these Special Provisions. On future dates "Award" may include other items to be specified by OMB in policy memoranda available at the OMB Web site; Award also will include other types of Awards subject to the Transparency Act.

8.4 There are no Transparency Act reporting requirements for Vendors.

Event of Default. Failure to comply with these Supplemental Provisions shall constitute an event of default under the Contract and the State of Colorado may terminate the Contract upon 30 days prior written notice if the default remains uncured five calendar days following the termination of the 30 day notice period. This remedy will be in addition to any other remedy available to the State of Colorado under the Contract, at law or in equity.

OMB UNIFORM GUIDANCE FOR FEDERAL AWARDS

Subject to
The Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and AuditRequirements for Federal Awards ("Uniform Guidance"),
Federal Register, Vol. 78, No. 248, 78590

The agreement to which these Uniform Guidance Supplemental Provisions are attached has been funded, in whole or in part, with an award of Federal funds. In the event of a conflict between the provisions of these Supplemental Provisions, the Special Provisions, the agreement or any attachments or exhibits incorporated into and made a part of the agreement, the provisions of these Uniform Guidance Supplemental Provisions shall control. In the event of a conflict between the provisions of these Supplemental Provisions and the FFATA Supplemental Provisions, the FFATA Supplemental Provisions shall control.

1. Definitions. For the purposes of these Supplemental Provisions, the following terms shall have the meaningsascribed to them below.

1.1. "Award" means an award by a Recipient to a Subrecipient funded in whole or in part by a Federal Award. The terms and conditions of the Federal Award flow down to the Award unless the terms and conditionsof the Federal Award specifically indicate otherwise. 2 CFR §200.38

1.2. "Federal Award" means an award of Federal financial assistance or a cost-reimbursement contract underthe Federal Acquisition Requirements by a Federal Awarding Agency to a Recipient. "Federal Award"also means an agreement setting forth the terms and conditions of the Federal Award. The term does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program.

1.3."Federal Awarding Agency" means a Federal agency providing a Federal Award to a Recipient. 2CFR §200.37

1.4. "FFATA" means the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), as amended by §6202 of Public Law 110-252.

1.5. "Grant" or "Grant Agreement" means an agreement setting forth the terms and conditions of an Award. The term does not include an agreement that provides only direct Federal cash assistance to an individual,a subsidy, a loan, a loan guarantee, insurance, or acquires property or services for the direct benefit of use of the Federal Awarding Agency or Recipient. 2 CFR§200.51.

1.6. "OMB" means the Executive Office of the President, Office of Management and Budget.

1.7. "Recipient" means a Colorado State department, agency or institution of higher education that receives a Federal Award from a Federal Awarding Agency to carry out an activity under a Federal program. The term does not include Subrecipients. 2 CFR §200.86

1.8. "State" means the State of Colorado, acting by and through its departments, agencies and institutions ofhigher education.

1.9. "Subrecipient" means a non-Federal entity receiving an Award from a Recipient to carry out part of aFederal program. The term does not include an individual who is a beneficiary of such program.

1.10. "Uniform Guidance" means the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, which supersedes requirements from OMB Circulars A-21, A-87, A-110, and A-122, OMB Circulars A-89, A-102, and A- 133, and the guidance in Circular A-50 on Single Audit Act follow-up. The terms and conditions of the Uniform Guidance flow down to Awards to Subrecipients unless the Uniform Guidance or the terms and conditions of the Federal Award specifically indicate otherwise.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

1.11. "Uniform Guidance Supplemental Provisions" means these Supplemental Provisions for Federal Awards subject to the OMB Uniform Guidance, as may be revised pursuant to ongoing guidance from relevant Federal agencies or the Colorado State Controller.

2. Compliance. Subrecipient shall comply with all applicable provisions of the Uniform Guidance, including but notlimited to these Uniform Guidance Supplemental Provisions. Any revisions to such provisions automatically shall become a part of these Supplemental Provisions, without the necessity of either partyexecuting any further instrument. The State of Colorado may provide written notification to Subrecipient of suchrevisions, but such notice shall not be a condition precedent to the effectiveness of such revisions.

3. Procurement Standards.

3.1 Procurement Procedures. Subrecipient shall use its own documented procurement procedures which reflect applicable State, local, and Tribal laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in the Uniform Guidance, including without limitation,

§§200.318 through 200.326 thereof.

3.2 Procurement of Recovered Materials. If Subrecipient is a State Agency or an agency of a politicalsubdivision of a state, its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in theEPA guidelines.

4. Access to Records. Subrecipient shall permit Recipient and auditors to have access to Subrecipient's records and financial statements as necessary for Recipient to meet the requirements of §200.331 (Requirements for pass through entities), §§200.300 (Statutory and national policy requirements) through 200.309 (Period of performance), and Subpart F-Audit Requirements of the Uniform Guidance. 2 CFR §200.331(a)(5).

5. Single Audit Requirements. If Subrecipient expends $750,000 or more in Federal Awards during Subrecipient's fiscal year, Subrecipient shall procure or arrange for a single or program-specific audit conducted for that year in accordance with the provisions of Subpart F-Audit Requirements of the Uniform Guidance, issued pursuant tothe Single Audit Act Amendments of 1996, (31 U.S.C. 7501-7507). 2 CFR §200.501.

5.1 Election. Subrecipient shall have a single audit conducted in accordance with Uniform Guidance §200.514(Scope of audit), except when it elects to have a program-specific audit conducted in accordance with §200.507 (Program-specific audits). Subrecipient may elect to have a program-specific audit if Subrecipient expends Federal Awards under only one Federal program (excluding research and development) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of Recipient. A program-specific audit may not be electedfor research and development unless all of the Federal Awards expended were received from Recipient and Recipient approves in advance a program-specific audit.

5.2 Exemption. If Subrecipient expends less than $750,000 in Federal Awards during its fiscal year, Subrecipient shall be exempt from Federal audit requirements for that year, except as noted in 2 CFR §200.503 (Relation to other audit requirements), but records shall be available for review or audit by appropriate officials of the Federal agency, the State, and the Government

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Accountability Office.

5.3 Subrecipient Compliance Responsibility. Subrecipient shall procure or otherwise arrange for the audit required by Part F of the Uniform Guidance and ensure it is properly performed and submitted when due in accordance with the Uniform Guidance. Subrecipient shall prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with Uniform Guidance §200.510 (Financial statements) and provide the auditor with access to personnel, accounts, books, records, supporting documentation, and other information as needed for the auditor to perform the audit required by UniformGuidance Part F-Audit Requirements.

6. Contract Provisions for Subrecipient Contracts. Subrecipient shall comply with and shall include all of thefollowing applicable provisions in all subcontracts entered into by it pursuant to this Grant Agreement.

6.1 Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 shall include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

"During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments

under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice inconspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965,and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuantthereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled,

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

terminated or suspendedin whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided bylaw.

(7) The contractor will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuantto section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontractor purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided, however,* that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction,the contractor may request the United States to enter into such litigation to protect the interests of the United States."

6.2 Davis-Bacon Act. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractorsmust be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination.The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40

U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or Subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is other wise entitled.

The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

6.3 Rights to Inventions Made Under a Contract or Agreement. If the Federal Award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and Subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," Subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

6.4 Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251- 1387), as amended. Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Actas amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

Agency (EPA).

6.5 Debarment and Suspension (Executive Orders 12549 and 12689). A contract award (see 2 CFR 180.220)must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAMExclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well asparties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

6.6 Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, oran employee of a member of Congress in connection with obtaining any Federal contract, grant or any otheraward covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non- Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

7. Certifications. Unless prohibited by Federal statutes or regulations, Recipient may require Subrecipient to submit certifications and representations required by Federal statutes or regulations on an annual basis. 2CFR §200.208.Submission may be required more frequently if Subrecipient fails to meet a requirement of the Federal award. Subrecipient shall certify in writing to the State at the end of the Award that the project or activity was completed or the level of effort was expended. 2 CFR §200.201(3). If the required level ofactivity or effort was not carried out, the amount of the Award must be adjusted.

7.1 Event of Default. Failure to comply with these Uniform Guidance Supplemental Provisions shall constitute anevent of default under the Grant Agreement (2 CFR §200.339) and the State may terminate the Grant upon 30 days prior written notice if the default remains uncured five calendar days following the termination of the 30 day notice period. This remedy will be in addition to any other remedy available to the State of Colorado under the Grant, at law or in equity.

8. Effective Date. The effective date of the Uniform Guidance is December 26, 2013. 2 CFR §200.110. The procurement standards set forth in Uniform Guidance §§200.317-200.326 are applicable to new Awards made by Recipient as of December 26, 2015. The standards set forth in Uniform Guidance Subpart F-Audit Requirements are applicable to audits of fiscal years beginning on or after December 26, 2014.

9. Performance Measurement. The Uniform Guidance requires completion of OMB-approved standard information collection forms (the PPR). The form focuses on outcomes, as related to the Federal Award Performance Goals that awarding Federal agencies are required to detail in the Awards.

Section 200.301 provides guidance to Federal agencies to measure performance in a way that will help theFederal awarding agency and other non-Federal entities to improve program outcomes.

The Federal awarding agency is required to provide recipients with clear performance goals, indicators, and milestones (200.210). Also, must require the recipient to relate financial data to performance accomplishments of the Federal award.

Exhibit N
Federal Treasury Provisions

1. APPLICABILITY OF PROVISIONS.

1.1. The Grant to which these Federal Provisions are attached has been funded, in whole or in part, with an Award of Federal funds. In the event of a conflict between the provisions of these Federal Provisions, the Special Provisions, the body of the Grant, or any attachments or exhibits incorporated into and made a part of the Grant, the provisions of these Federal Provisions shall control.

1.2. The State of Colorado is accountable to Treasury for oversight of their subrecipients, including ensuring their subrecipients comply with the SLFRF statute, SLFRF Award Terms and Conditions, Treasury's Final Rule, and reporting requirements, as applicable.

1.3. Additionally, any subrecipient that issues a subaward to another entity (2nd tier subrecipient), must hold the 2nd tier subrecipient accountable to these provisions and adhere to reporting requirements.

1.4. These Federal Provisions are subject to the Award as defined in §2 of these Federal Provisions, as may be revised pursuant to ongoing guidance from the relevant Federal or State of Colorado agency or institutions of higher education.

2. DEFINITIONS.

2.1. For the purposes of these Federal Provisions, the following terms shall have the meanings ascribed to them below.

2.1.1. "Award" means an award of Federal financial assistance, and the Grant setting forth the terms and conditions of that financial assistance, that a non-Federal Entity receives or administers.

2.1.2. "Entity" means:

2.1.2.1. a Non-Federal Entity;

2.1.2.2. a foreign public entity;

2.1.2.3. a foreign organization;

2.1.2.4. a non-profit organization;

2.1.2.5. a domestic for-profit organization (for 2 CFR parts 25 and 170 only);

2.1.2.6. a foreign non-profit organization (only for 2 CFR part 170) only);

2.1.2.7. a Federal agency, but only as a Subrecipient under an Award or Subaward to a non-Federal entity (or 2 CFR 200.1); or

2.1.2.8. a foreign for-profit organization (for 2 CFR part 170 only).

2.1.3. "Executive" means an officer, managing partner or any other employee in a management position.

2.1.4. "Expenditure Category (EC)" means the category of eligible uses as defined by the US Department of Treasury in "Appendix 1 of the Compliance and Reporting Guidance, State and Local Fiscal Recovery Funds" report available at www.treasury.gov.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

2.1.5. "Federal Awarding Agency" means a Federal agency providing a Federal Award to a Recipient as described in 2 CFR 200.1

2.1.6. "Grant" means the Grant to which these Federal Provisions are attached.

2.1.7. "Grantee" means the party or parties identified as such in the Grant to which these Federal Provisions are attached.

2.1.8. "Non-Federal Entity means a State, local government, Indian tribe, institution of higher education, or nonprofit organization that carries out a Federal Award as a Recipient or a Subrecipient.

2.1.9. "Nonprofit Organization" means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

2.1.9.1. Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

2.1.9.2. Is not organized primarily for profit; and

2.1.9.3. Uses net proceeds to maintain, improve, or expand the operations of the organization.

2.1.10. "OMB" means the Executive Office of the President, Office of Management and Budget.

2.1.11. "Pass-through Entity" means a non-Federal Entity that provides a Subaward to a Subrecipient to carry out part of a Federal program.

2.1.12. "Prime Recipient" means the Colorado State agency or institution of higher education identified as the Grantor in the Grant to which these Federal Provisions are attached.

2.1.13. "Subaward" means an award by a Prime Recipient to a Subrecipient funded in whole or in part by a Federal Award. The terms and conditions of the Federal Award flow down to the Subaward unless the terms and conditions of the Federal Award specifically indicate otherwise in accordance with 2 CFR 200.101. The term does not include payments to a Contractor or payments to an individual that is a beneficiary of a Federal program.

2.1.14. "Subrecipient" or "Subgrantee" means a non-Federal Entity (or a Federal agency under an Award or Subaward to a non-Federal Entity) receiving Federal funds through a Prime Recipient to support the performance of the Federal project or program for which the Federal funds were awarded. A Subrecipient is subject to the terms and conditions of the Federal Award to the Prime Recipient, including program compliance requirements. The term does not include an individual who is a beneficiary of a federal program.

2.1.15. "System for Award Management (SAM)" means the Federal repository into which an Entity must enter the information required under the Transparency Act, which may be found at http://www.sam.gov. "Total Compensation" means the cash and noncash dollar value earned by an Executive during the Prime Recipient's or Subrecipient's preceding fiscal year (see 48 CFR 52.204-10, as prescribed in 48 CFR 4.1403(a)) and includes the following:

2.1.15.1. Salary and bonus;

2.1.15.2. Awards of stock, stock options, and stock appreciation rights, using the dollar amount recognized for financial statement reporting purposes with respect to the

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2005) (FAS 123R), Shared Based Payments;

2.1.15.3. Earnings for services under non-equity incentive plans, not including group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of Executives and are available generally to all salaried employees;

2.1.15.4. Change in present value of defined benefit and actuarial pension plans;

2.1.15.5. Above-market earnings on deferred compensation which is not tax-qualified;

2.1.15.6. Other compensation, if the aggregate value of all such other compensation (e.g., severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the Executive exceeds $10,000.

2.1.16. "Transparency Act" means the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), as amended by §6202 of Public Law 110-252.

2.1.17. "Uniform Guidance" means the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The terms and conditions of the Uniform Guidance flow down to Awards to Subrecipients unless the Uniform Guidance or the terms and conditions of the Federal Award specifically indicate otherwise.

2.1.18. "Unique Entity ID" means the Unique Entity ID established by the federal government for a Grantee at https://sam.gov/content/home.

3. COMPLIANCE.

3.1. Grantee shall comply with all applicable provisions of the Transparency Act and the regulations issued pursuant thereto, all applicable provisions of the Uniform Guidance, and all applicable Federal Laws and regulations required by this Federal Award Any revisions to such provisions or regulations shall automatically become a part of these Federal Provisions, without the necessity of either party executing any further instrument. The State of Colorado, at its discretion, may provide written notification to Grantee of such revisions, but such notice shall not be a condition precedent to the effectiveness of such revisions.

3.2. Per US Treasury Final Award requirements, grantee programs or services must not include a term or conditions that undermines efforts to stop COVID-19 or discourages compliance with recommendations and CDC guidelines.

4. SYSTEM FOR AWARD MANAGEMENT (SAM) AND UNIQUE ENTITY ID (UEI) REQUIREMENTS.

4.1. SAM. Grantee shall maintain the currency of its information in SAM until the Grantee submits the final financial report required under the Award or receives final payment, whichever is later. Grantee shall review and update SAM information at least annually.

4.2. UEI. Grantee shall provide its Unique Entity ID to its Prime Recipient, and shall update Grantee's information in Sam.gov at least annually.

5. TOTAL COMPENSATION.

5.1. Grantee shall include Total Compensation in SAM for each of its five most highly compensated Executives for the preceding fiscal year if:

5.1.1. The total Federal funding authorized to date under the Award is $30,000 or more; and

5.1.2. In the preceding fiscal year, Grantee received:

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

5.1.2.1. 80% or more of its annual gross revenues from Federal procurement Agreements and Subcontractors and/or Federal financial assistance Awards or Subawards subject to the Transparency Act; and

5.1.2.2. $30,000,000 or more in annual gross revenues from Federal procurement Agreements and Subcontractors and/or Federal financial assistance Awards or Subawards subject to the Transparency Act; and

5.1.2.3. 5.1.2.3 The public does not have access to information about the compensation of such Executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d) or § 6104 of the Internal Revenue Code of 1986.

6. REPORTING.

6.1. If Grantee is a Subrecipient of the Award pursuant to the Transparency Act, Grantee shall report data elements to SAM and to the Prime Recipient as required in this Exhibit. No direct payment shall be made to Grantee for providing any reports required under these Federal Provisions and the cost of producing such reports shall be included in the Grant price. The reporting requirements in this Exhibit are based on guidance from the OMB, and as such are subject to change at any time by OMB. Any such changes shall be automatically incorporated into this Grant and shall become part of Grantee's obligations under this Grant.

7. EFFECTIVE DATE AND DOLLAR THRESHOLD FOR FEDERAL REPORTING.

7.1. Reporting requirements in §8 below apply to new Awards as of October 1, 2010, if the initial award is $30,000 or more. If the initial Award is below $30,000 but subsequent Award modifications result in a total Award of $30,000 or more, the Award is subject to the reporting requirements as of the date the Award exceeds $30,000. If the initial Award is $30,000 or more, but funding is subsequently de-obligated such that the total award amount falls below $30,000, the Award shall continue to be subject to the reporting requirements. If the total award is below $30,000 no reporting required; if more than $30,000 and less than $50,000 then FFATA reporting is required; and, $50,000 and above SLFRF reporting is required.

7.2. The procurement standards in §9 below are applicable to new Awards made by Prime Recipient as of December 26, 2015. The standards set forth in §11 below are applicable to audits of fiscal years beginning on or after December 26, 2014.

8. SUBRECIPIENT REPORTING REQUIREMENTS.

8.1. Grantee shall report as set forth below.

8.1.1. Grantee shall use the SLFRF Subrecipient Quarterly Report Workbook as referenced in Exhibit P to report to the State Agency within ten (10) days following each quarter ended September, December, March and June. Additional information on specific requirements are detailed in the SLFRF Subrecipient Quarterly Report Workbooks and "Compliance and Reporting Guidance, State and Local Fiscal Recovery Funds" report available at www.treasury.gov.

    v. Labor reporting

Household Assistance (2.1-2.8)

a) Number of households served

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

b) Number of people or households receiving eviction prevention services (2.2 & 2.5 only) *(Federal guidance may change this requirement in July 2022)*
c) Number of affordable housing units preserved or developed (2.2 & 2.5 only) *(Federal guidance may change this requirement in July 2022)*

Healthy Childhood Environments (2.11-2.13)

a) Number of children served by childcare and early learning *(Federal guidance may change this requirement in July 2022)*
b) Number of families served by home visiting *(Federal guidance may change this requirement in July 2022)*

Education Assistance (2.14, 2.24-2.27)

a) National Center for Education Statistics ("NCES") School ID or NCES District ID
b) Number of students participating in evidence-based programs *(Federal guidance may change this requirement in July 2022)*

Housing Support (2.15, 2.16, 2.18)

a) Number of people or households receiving eviction prevention services *(Federal guidance may change this requirement in July 2022)*
b) Number of affordable housing units preserved or developed *(Federal guidance may change this requirement in July 2022)*

Small Business Economic Assistance (2.29-2.33)

a) Number of small businesses served

Assistance to Non-Profits (2.34)

a) Number of non-profits served

Aid to Travel, Tourism, and Hospitality or Other Impacted Industries (2.35-2.36)

a) Sector of employer
b) Purpose of funds
c) If other than travel, tourism and hospitality (2.36) – description of hardship

EC 3 – Public Health – Negative Economic Impact: Public Sector Capacity

Payroll for Public Health and Safety Employees (EC 3.1)

a) Number of government FTEs responding to COVID-19

Rehiring Public Sector Staff (EC 3.2)

a) Number of FTEs rehired by governments

EC 4 – Premium Pay

All Premium Pay Projects

a) List of sectors designated as critical by the chief executive of the jurisdiction, if beyond those listed in the final rule
b) Numbers of workers served
c) Employer sector for all subawards to third-party employers
d) Written narrative justification of how premium pay is responsive to essential work during the public health emergency for non-exempt workers or those making over 150 percent of the state/county's average annual wage

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

e) Number of workers to be served with premium pay in K-12 schools

EC 5 – Infrastructure Projects

All Infrastructure Projects

a) Projected/actual construction start date (month/year)
b) Projected/actual initiation of operations date (month/year)
c) Location (for broadband, geospatial data of locations to be served)
d) Projects over $10 million
    i. Prevailing wage certification or detailed project employment and local impact report
    ii. Project labor agreement certification or project workforce continuity plan
    iii. Prioritization of local hires
    iv. Community benefit agreement description, if applicable

Water and sewer projects (EC 5.1-5.18)

a) National Pollutant Discharge Elimination System (NPDES) Permit Number (if applicable; for projects aligned with the Clean Water State Revolving Fund)
b) Public Water System (PWS) ID number (if applicable; for projects aligned with the Drinking Water State Revolving Fund)
c) Median Household Income of service area
d) Lowest Quintile Income of the service area

Broadband projects (EC 5.19-5.21)

a) Confirm that the project is designed to, upon completion, reliably meet or exceed symmetrical 100 Mbps download and upload speeds.
    i. If the project is not designed to reliably meet or exceed symmetrical 100 Mbps download and upload speeds, explain why not, and
    ii. Confirm that the project is designed to, upon completion, meet or exceed 100 Mbps download speed and between at least 20 Mbps and 100 Mbps upload speed, and be scalable to a minimum of 100 Mbps download speed and 100 Mbps upload speed.
b) Additional programmatic data will be required for broadband projects and will be defined in a subsequent version of the US Treasury Reporting Guidance, including, but not limited to *(Federal guidance may change this requirement in July 2022)*:
    i. Number of households (broken out by households on Tribal lands and those not on Tribal lands) that have gained increased access to broadband meeting the minimum speed standards in areas that previously lacked access to service of at least 25 Mbps download and 3 Mbps upload, with the number of households with access to minimum speed standard of reliable 100 Mbps symmetrical upload and download and number of households with access to minimum speed standard of reliable 100 Mbps download and 20 Mbps upload
    ii. Number of institutions and businesses (broken out by institutions on Tribal lands and those not on Tribal lands) that have projected increased access to broadband meeting the minimum speed standards in areas that previously

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

lacked access to service of at least 25 Mbps download and 3 Mbps upload, in each of the following categories: business, small business, elementary school, secondary school, higher education institution, library, healthcare facility, and public safety organization, with the number of each type of institution with access to the minimum speed standard of reliable 100 Mbps symmetrical upload and download; and number of each type of institution with access to the minimum speed standard of reliable 100 Mbps download and 20 Mbps upload.

iii. Narrative identifying speeds/pricing tiers to be offered, including the speed/pricing of its affordability offering, technology to be deployed, miles of fiber, cost per mile, cost per passing, number of households (broken out by households on Tribal lands and those not on Tribal lands) projected to have increased access to broadband meeting the minimum speed standards in areas that previously lacked access to service of at least 25 Mbps download and 3 Mbps upload, number of households with access to minimum speed standard of reliable 100 Mbps symmetrical upload and download, number of households with access to minimum speed standard of reliable 100 Mbps download and 20 Mbps upload, and number of institutions and businesses (broken out by institutions on Tribal lands and those not on Tribal lands) projected to have increased access to broadband meeting the minimum speed standards in areas that previously lacked access to service of at least 25 Mbps download and 3 Mbps upload, in each of the following categories: business, small business, elementary school, secondary school, higher education institution, library, healthcare facility, and public safety organization. Specify the number of each type of institution with access to the minimum speed standard of reliable 100 Mbps symmetrical upload and download; and the number of each type of institution with access to the minimum speed standard of reliable 100 Mbps download and 20 Mbps upload.

All Expenditure Categories

a) Program income earned and expended to cover eligible project costs

8.1.2. A Subrecipient shall report the following data elements to Prime Recipient no later than five days after the end of the month following the month in which the Subaward was made.

8.1.2.1. Subrecipient Unique Entity ID;

8.1.2.2. Subrecipient Unique Entity ID if more than one electronic funds transfer (EFT) account;

8.1.2.3. Subrecipient parent's organization Unique Entity ID;

8.1.2.4. Subrecipient's address, including: Street Address, City, State, Country, Zip + 4, and Congressional District;

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

8.1.2.5. Subrecipient's top 5 most highly compensated Executives if the criteria in §4 above are met; and

8.1.2.6. Subrecipient's Total Compensation of top 5 most highly compensated Executives if the criteria in §4 above met.

8.1.3. To Prime Recipient. A Subrecipient shall report to its Prime Recipient, the following data elements:

8.1.3.1. Subrecipient's Unique Entity ID as registered in SAM.

8.1.3.2. Primary Place of Performance Information, including: Street Address, City, State, Country, Zip code + 4, and Congressional District.

8.1.3.3. Narrative identifying methodology for serving disadvantaged communities. See the "Project Demographic Distribution" section in the "Compliance and Reporting Guidance, State and Local Fiscal Recovery Funds" report available at www.treasury.gov. This requirement is applicable to all projects in Expenditure Categories 1 and 2.

8.1.3.4. Narrative identifying funds allocated towards evidenced-based interventions and the evidence base. See the "Use of Evidence" section in the "Compliance and Reporting Guidance, State and Local Fiscal Recovery Funds" report available at www.treasury.gov. See section 8.1.1 for relevant Expenditure Categories.

8.1.3.5. Narrative describing the structure and objectives of the assistance program and in what manner the aid responds to the public health and negative economic impacts of COVID-19. This requirement is applicable to Expenditure Categories 1 and 2. For aid to travel, tourism, and hospitality or other impacted industries (EC 2.11-2.12), also provide the sector of employer, purpose of funds, and if not travel, tourism and hospitality a description of the pandemic impact on the industry.

8.1.3.6. Narrative identifying the sector served and designated as critical to the health and well-being of residents by the chief executive of the jurisdiction and the number of workers expected to be served. For groups of workers (e.g., an operating unit, a classification of worker, etc.) or, to the extent applicable, individual workers, other than those where the eligible worker receiving premium pay is earning (with the premium pay included) below 150 percent of their residing state or county's average annual wage for all occupations, as defined by the Bureau of Labor Statistics Occupational Employment and Wage Statistics, whichever is higher, OR the eligible worker receiving premium pay is not exempt from the Fair Labor Standards Act overtime provisions, include justification of how the premium pay or grant is responsive to workers performing essential work during the public health emergency. This could include a description of the essential workers' duties, health or financial risks faced due to COVID-19 but should not include personally identifiable information. This requirement applies to EC 4.1, and 4.2.

8.1.3.7. For infrastructure projects (EC 5), or capital expenditures in any expenditure category, narrative identifying the projected construction start date (month/year), projected initiation of operations date (month/year), and location (for broadband, geospatial location data). For projects over $10 million:

8.1.3.8. Certification that all laborers and mechanics employed by Contractors and Subcontractors in the performance of such project are paid wages at rates not less

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the "Davis-Bacon Act"), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the Agreement work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate State entity pursuant to a corollary State prevailing-wage-in-construction law (commonly known as "baby Davis-Bacon Acts"). If such certification is not provided, a recipient must provide a project employment and local impact report detailing (1) the number of employees of Contractors and sub-contractors working on the project; (2) the number of employees on the project hired directly and hired through a third party; (3) the wages and benefits of workers on the project by classification; and (4) whether those wages are at rates less than those prevailing. Recipients must maintain sufficient records to substantiate this information upon request.

8.1.3.8.1. A Subrecipient may provide a certification that a project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f)). If the recipient does not provide such certification, the recipient must provide a project workforce continuity plan, detailing: (1) how the Subrecipient will ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project; (2) how the Subrecipient will minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project; and (3) how the Subrecipient will provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities; (4) whether workers on the project will receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market; and (5) whether the project has completed a project labor agreement.

8.1.3.8.2. Whether the project prioritizes local hires.

8.1.3.8.3. Whether the project has a Community Benefit Agreement, with a description of any such agreement.

8.1.4. Subrecipient also agrees to comply with any reporting requirements established by the US Treasury, Governor's Office and Office of the State Controller. The State of Colorado may need additional reporting requirements after this agreement is executed. If there are additional reporting requirements, the State will provide notice of such additional reporting requirements via Exhibit Q – SLFRF Reporting Modification Form.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

9. PROCUREMENT STANDARDS.

9.1. Procurement Procedures. A Subrecipient shall use its own documented procurement procedures which reflect applicable State, local, and Tribal laws and applicable regulations, provided that the procurements conform to applicable Federal law and the standards identified in the Uniform Guidance, including without limitation, 2 CFR 200.318 through 200.327 thereof.

9.2. Domestic preference for procurements (2 CFR 200.322). As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all Agreements and purchase orders for work or products under this award.

9.3. Procurement of Recovered Materials. If a Subrecipient is a State Agency or an agency of a political subdivision of the State, its Contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247, that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

10. ACCESS TO RECORDS.

10.1. A Subrecipient shall permit Prime Recipient and its auditors to have access to Subrecipient's records and financial statements as necessary for Recipient to meet the requirements of 2 CFR 200.332 (Requirements for pass-through entities), 2 CFR 200.300 (Statutory and national policy requirements) through 2 CFR 200.309 (Period of performance), and Subpart F-Audit Requirements of the Uniform Guidance.

11. SINGLE AUDIT REQUIREMENTS.

11.1. If a Subrecipient expends $750,000 or more in Federal Awards during the Subrecipient's fiscal year, the Subrecipient shall procure or arrange for a single or program-specific audit conducted for that year in accordance with the provisions of Subpart F-Audit Requirements of the Uniform Guidance, issued pursuant to the Single Audit Act Amendments of 1996, (31 U.S.C. 7501-7507). 2 CFR 200.501.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

11.1.1. Election. A Subrecipient shall have a single audit conducted in accordance with Uniform Guidance 2 CFR 200.514 (Scope of audit), except when it elects to have a program-specific audit conducted in accordance with 2 CFR 200.507 (Program-specific audits). The Subrecipient may elect to have a program-specific audit if Subrecipient expends Federal Awards under only one Federal program (excluding research and development) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of Prime Recipient. A program-specific audit may not be elected for research and development unless all of the Federal Awards expended were received from Recipient and Recipient approves in advance a program-specific audit.

11.1.2. Exemption. If a Subrecipient expends less than $750,000 in Federal Awards during its fiscal year, the Subrecipient shall be exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 (Relation to other audit requirements), but records shall be available for review or audit by appropriate officials of the Federal agency, the State, and the Government Accountability Office.

11.1.3. Subrecipient Compliance Responsibility. A Subrecipient shall procure or otherwise arrange for the audit required by Subpart F of the Uniform Guidance and ensure it is properly performed and submitted when due in accordance with the Uniform Guidance. Subrecipient shall prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with 2 CFR 200.510 (Financial statements) and provide the auditor with access to personnel, accounts, books, records, supporting documentation, and other information as needed for the auditor to perform the audit required by Uniform Guidance Subpart F-Audit Requirements.

12. GRANT PROVISIONS FOR SUBRECIPIENT AGREEMENTS.

12.1. In addition to other provisions required by the Federal Awarding Agency or the Prime Recipient, Grantees that are Subrecipients shall comply with the following provisions. Subrecipients shall include all of the following applicable provisions in all Subcontractors entered into by it pursuant to this Grant.

12.1.1. [Applicable to federally assisted construction Agreements.] Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all Agreements that meet the definition of "federally assisted construction Agreement" in 41 CFR Part 60-1.3 shall include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, Office of Federal Agreement Compliance Programs, Equal Employment Opportunity, Department of Labor.

12.1.2. [Applicable to on-site employees working on government-funded construction, alteration and repair projects.] Davis-Bacon Act. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148).

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

12.1.3. Rights to Inventions Made Under a grant or agreement. If the Federal Award meets the definition of "funding agreement" under 37 CFR 401.2 (a) and the Prime Recipient or Subrecipient wishes to enter into an Agreement with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the Prime Recipient or Subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Agreements and Cooperative Agreements," and any implementing regulations issued by the Federal Awarding Agency.

12.1.4. Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended. Agreements and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal awardees to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal Awarding Agency and the Regional Office of the Environmental Protection Agency (EPA).

12.1.5. Debarment and Suspension (Executive Orders 12549 and 12689). A Agreement award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in SAM, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

12.1.6. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal Agreement, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

12.1.7. Never Contract with the Enemy (2 CFR 200.215). Federal awarding agencies and recipients are subject to the regulations implementing "Never Contract with the Enemy" in 2 CFR part 183. The regulations in 2 CFR part 183 affect covered Agreements, grants and cooperative agreements that are expected to exceed $50,000 within the period of performance, are performed outside the United States and its territories, and are in support of a contingency operation in which members of the Armed Forces are actively engaged in hostilities.

12.1.8. Prohibition on certain telecommunications and video surveillance services or equipment (2 CFR 200.216). Grantee is prohibited from obligating or expending loan or grant funds on certain telecommunications and video surveillance services or equipment pursuant to 2 CFR 200.216.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

12.1.9. Title VI of the Civil Rights Act. The Subgrantee, Contractor, Subcontractor, transferee, and assignee shall comply with Title VI of the Civil Rights Act of 1964, which prohibits recipients of federal financial assistance from excluding from a program or activity, denying benefits of, or otherwise discriminating against a person on the basis of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of Treasury's Title VI regulations, 31 CFR Part 22, which are herein incorporated by reference and made a part of this Agreement (or agreement). Title VI also includes protection to persons with "Limited English Proficiency" in any program or activity receiving federal financial assistance, 42 U.S. C. § 2000d et seq., as implemented by the Department of the Treasury's Title VI regulations, 31 CRF Part 22, and herein incorporated by reference and made part of this Agreement or agreement.

13. CERTIFICATIONS.

13.1. Subrecipient Certification. Subrecipient shall sign a "State of Colorado Agreement with Recipient of Federal Recovery Funds" Certification Form in Exhibit E and submit to State Agency with signed grant agreement.

13.2. Unless prohibited by Federal statutes or regulations, Prime Recipient may require Subrecipient to submit certifications and representations required by Federal statutes or regulations on an annual basis. 2 CFR 200.208. Submission may be required more frequently if Subrecipient fails to meet a requirement of the Federal award. Subrecipient shall certify in writing to the State at the end of the Award that the project or activity was completed or the level of effort was expended. 2 CFR 200.201(3). If the required level of activity or effort was not carried out, the amount of the Award must be adjusted.

14. EXEMPTIONS.

14.1. These Federal Provisions do not apply to an individual who receives an Award as a natural person, unrelated to any business or non-profit organization he or she may own or operate in his or her name.

14.2. A Grantee with gross income from all sources of less than $300,000 in the previous tax year is exempt from the requirements to report Subawards and the Total Compensation of its most highly compensated Executives.

15. EVENT OF DEFAULT AND TERMINATION.

15.1. Failure to comply with these Federal Provisions shall constitute an event of default under the Grant and the State of Colorado may terminate the Grant upon 30 days prior written notice if the default remains uncured five calendar days following the termination of the 30-day notice period. This remedy will be in addition to any other remedy available to the State of Colorado under the Grant, at law or in equity.

15.2. Termination (2 CFR 200.340). The Federal Award may be terminated in whole or in part as follows:

15.2.1. By the Federal Awarding Agency or Pass-through Entity, if a Non-Federal Entity fails to comply with the terms and conditions of a Federal Award;

15.2.2. By the Federal awarding agency or Pass-through Entity, to the greatest extent authorized by law, if an award no longer effectuates the program goals or agency priorities;

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

15.2.3. By the Federal awarding agency or Pass-through Entity with the consent of the Non-Federal Entity, in which case the two parties must agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated;

15.2.4. By the Non-Federal Entity upon sending to the Federal Awarding Agency or Pass-through Entity written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated. However, if the Federal Awarding Agency or Pass-through Entity determines in the case of partial termination that the reduced or modified portion of the Federal Award or Subaward will not accomplish the purposes for which the Federal Award was made, the Federal Awarding Agency or Pass-through Entity may terminate the Federal Award in its entirety; or

15.2.5. By the Federal Awarding Agency or Pass-through Entity pursuant to termination provisions included in the Federal Award.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

EXHIBIT O

AGREEMENT WITH SUBSUBRECIPIENT OF FEDERAL RECOVERY FUNDS

Section 602(b) of the Social Security Act (the Act), as added by section 9901 of the American Rescue Plan Act (ARPA), Pub. L. No. 117-2 (March 11, 2021), authorizes the Department of the Treasury (Treasury) to make payments to certain Subrecipients from the Coronavirus State Fiscal Recovery Fund. The State of Colorado has signed and certified a separate agreement with Treasury as a condition of receiving such payments from the Treasury. This agreement is between your organization and the State and your organization is signing and certifying the same terms and conditions included in the State's separate agreement with Treasury. Your organization is referred to as a Subrecipient.

As a condition of your organization receiving federal recovery funds from the State, the authorized representative below hereby (i) certifies that your organization will carry out the activities listed in section 602(c) of the Act and (ii) agrees to the terms attached hereto. Your organization also agrees to use the federal recovery funds as specified in bills passed by the General Assembly and signed by the Governor.

Under penalty of perjury, the undersigned official certifies that the authorized representative has read and understood the organization's obligations in the Assurances of Compliance and Civil Rights Requirements, that any information submitted in conjunction with this assurances document is accurate and complete, and that the organization is in compliance with the nondiscrimination requirements.

Subrecipient Name _____

Authorized Representative: _____

Title: _____

Signature: _____

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

AGREEMENT WITH SUBRECIPIENT OF FEDERAL RECOVERY FUNDS
TERMS AND CONDITIONS

1. Use of Funds.

   a. Subrecipient understands and agrees that the funds disbursed under this award may only be used in compliance with section 602(c) of the Social Security Act (the Act) and Treasury's regulations implementing that section and guidance.

   b. Subrecipient will determine prior to engaging in any project using this assistance that it has the institutional, managerial, and financial capability to ensure proper planning, management, and completion of such project.

2. Period of Performance. The period of performance for this award begins on the date hereof and ends on December 31, 2026. As set forth in Treasury's implementing regulations, Subrecipient may use award funds to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024.

3. Reporting. Subrecipient agrees to comply with any reporting obligations established by Treasury as they relate to this award. Subrecipient also agrees to comply with any reporting requirements established by the Governor's Office and Office of the State Controller.

4. Maintenance of and Access to Records
   a. Subrecipient shall maintain records and financial documents sufficient to evidence compliance with section 602(c), Treasury's regulations implementing that section, and guidance issued by Treasury regarding the foregoing.

   b. The Treasury Office of Inspector General and the Government Accountability Office, or their authorized representatives, shall have the right of access to records (electronic and otherwise) of Subrecipient in order to conduct audits or other investigations.

   c. Records shall be maintained by Subrecipient for a period of five (5) years after all funds have been expended or returned to Treasury, whichever is later.

5. Pre-award Costs. Pre-award costs, as defined in 2 C.F.R. § 200.458, may not be paid with funding from this award.

6. Administrative Costs. Subrecipient may use funds provided under this award to cover both direct and indirect costs. Subrecipient shall follow guidance on administrative costs issued by the Governor's Office and Office of the State Controller.

7. Cost Sharing. Cost sharing or matching funds are not required to be provided by Subrecipient.

8. Conflicts of Interest. The State of Colorado understands and agrees it must maintain a conflict of interest policy consistent with 2 C.F.R. § 200.318(c) and that such conflict of interest policy

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

is applicable to each activity funded under this award. Subrecipient and Contractors must disclose in writing to the Office of the State Controller or the pass-through entity, as appropriate, any potential conflict of interest affecting the awarded funds in accordance with 2 C.F.R. § 200.112. The Office of the State Controller shall disclose such conflict to Treasury.

9. Compliance with Applicable Law and Regulations.
   a. Subrecipient agrees to comply with the requirements of section 602 of the Act, regulations adopted by Treasury pursuant to section 602(f) of the Act, and guidance issued by Treasury regarding the foregoing. Subrecipient also agrees to comply with all other applicable federal statutes, regulations, and executive orders, and Subrecipient shall provide for such compliance by other parties in any agreements it enters into with other parties relating to this award.

   b. Federal regulations applicable to this award include, without limitation, the following:

      i. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 C.F.R. Part 200, other than such provisions as Treasury may determine are inapplicable to this Award and subject to such exceptions as may be otherwise provided by Treasury. Subpart F – Audit Requirements of the Uniform Guidance, implementing the Single Audit Act, shall apply to this award.

      ii. Universal Identifier and System for Award Management (SAM), 2 C.F.R. Part 25, pursuant to which the award term set forth in Appendix A to 2 C.F.R. Part 25 is hereby incorporated by reference.

      iii. Reporting Subaward and Executive Compensation Information, 2 C.F.R. Part 170, pursuant to which the award term set forth in Appendix A to 2 C.F.R. Part 170 is hereby incorporated by reference.

      iv. OMB Guidelines to Agencies on Government wide Debarment and Suspension (Nonprocurement), 2 C.F.R. Part 180, including the requirement to include a term or condition in all lower tier covered transactions (Agreements and Subcontractors described in 2 C.F.R. Part 180, subpart B) that the award is subject to 2 C.F.R. Part 180 and Treasury's implementing regulation at 31 C.F.R. Part 19.

      i. Subrecipient Integrity and Performance Matters, pursuant to which the award term set forth in 2 C.F.R. Part 200, Appendix XII to Part 200 is hereby incorporated by reference.

      ii. Government wide Requirements for Drug-Free Workplace, 31 C.F.R. Part 20.

      iii. New Restrictions on Lobbying, 31 C.F.R. Part 21.

      iv. Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (42 U.S.C. §§ 4601-4655) and implementing regulations.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

v. Generally applicable federal environmental laws and regulations.

c. Statutes and regulations prohibiting discrimination applicable to this award include, without limitation, the following:

i. Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d et seq.) and Treasury's implementing regulations at 31 C.F.R. Part 22, which prohibit discrimination on the basis of race, color, or national origin under programs or activities receiving federal financial assistance;

ii. The Fair Housing Act, Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§ 3601 et seq.), which prohibits discrimination in housing on the basis of race, color, religion, national origin, sex, familial status, or disability;

iii. Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of disability under any program or activity receiving federal financial assistance;

iv. The Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101 et seq.), and Treasury's implementing regulations at 31 C.F.R. Part 23, which prohibit discrimination on the basis of age in programs or activities receiving federal financial assistance; and

v. Title II of the Americans with Disabilities Act of 1990, as amended (42 U.S.C. §§ 12101 et seq.), which prohibits discrimination on the basis of disability under programs, activities, and services provided or made available by state and local governments or instrumentalities or agencies thereto.

10. Remedial Actions. In the event of Subrecipient's noncompliance with section 602 of the Act, other applicable laws, Treasury's implementing regulations, guidance, or any reporting or other program requirements, Treasury may impose additional conditions on the receipt of a subsequent tranche of future award funds, if any, or take other available remedies as set forth in 2 C.F.R. § 200.339. In the case of a violation of section 602(c) of the Act regarding the use of funds, previous payments shall be subject to recoupment as provided in section 602(e) of the Act and any additional payments may be subject to withholding as provided in sections 602(b)(6)(A)(ii)(III) of the Act, as applicable.

11. Hatch Act. Subrecipient agrees to comply, as applicable, with requirements of the Hatch Act (5 U.S.C.§§ 1501-1508 and 7324-7328), which limit certain political activities of State or local government employees whose principal employment is in connection with an activity financed in whole or in part by this federal assistance.

12. False Statements. Subrecipient understands that making false statements or claims in connection with this award is a violation of federal law and may result in criminal, civil, or administrative sanctions, including fines, imprisonment, civil damages and penalties, debarment from participating in federal awards or Agreements, and/or any other remedy available by law.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

13. Publications. Any publications produced with funds from this award must display the following language: "This project [is being] [was] supported, in whole or in part, by federal award number SLFRF0126 awarded to the State of Colorado by the U.S. Department of the Treasury."

14. Debts Owed the Federal Government.
    a. Any funds paid to the Subrecipient (1) in excess of the amount to which the Subrecipient is finally determined to be authorized to retain under the terms of this award; (2) that are determined by the Treasury Office of Inspector General to have been misused; or (3) that are determined by Treasury to be subject to a repayment obligation pursuant to sections 602(e) and 603(b)(2)(D) of the Act and have not been repaid by the Subrecipient shall constitute a debt to the federal government.

    b. Any debts determined to be owed to the federal government must be paid promptly by Subrecipient. A debt is delinquent if it has not been paid by the date specified in Treasury's initial written demand for payment, unless other satisfactory arrangements have been made or if the Subrecipient knowingly or improperly retains funds that are a debt as defined in paragraph 14(a). Treasury will take any actions available to it to collect such a debt.

15. Disclaimer.
    a. The United States expressly disclaims any and all responsibility or liability to Subrecipient or third persons for the actions of Subrecipient or third persons resulting in death, bodily injury, property damages, or any other losses resulting in any way from the performance of this award or any other losses resulting in any way from the performance of this award or any Agreement, or Subcontractor under this award.

    b. The acceptance of this award by Subrecipient does not in any way establish an agency relationship between the United States and Subrecipient.

16. Protections for Whistleblowers.
    a. In accordance with 41 U.S.C. § 4712, Subrecipient may not discharge, demote, or otherwise discriminate against an employee in reprisal for disclosing to any of the list of persons or entities provided below, information that the employee reasonably believes is evidence of gross mismanagement of a federal Agreement or grant, a gross waste of federal funds, an abuse of authority relating to a federal Agreement or grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal Agreement (including the competition for or negotiation of an Agreement) or grant.

    b. The list of persons and entities referenced in the paragraph above includes the following:
        i. A member of Congress or a representative of a committee of Congress;
        ii. An Inspector General;

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

iii. The Government Accountability Office;
iv. A Treasury employee responsible for Agreement or grant oversight or management;
v. An authorized official of the Department of Justice or other law enforcement agency;
vi. A court or grand jury; or
vii. A management official or other employee of Subrecipient, Contractor, or Subcontractor who has the responsibility to investigate, discover, or address misconduct.

c. Subrecipient shall inform its employees in writing of the rights and remedies provided under this section, in the predominant native language of the workforce.

17. Increasing Seat Belt Use in the United States. Pursuant to Executive Order 13043, 62 FR 19217 (Apr. 18, 1997), Subrecipient should encourage its Contractors to adopt and enforce on-the-job seat belt policies and programs for their employees when operating company-owned, rented or personally owned vehicles.

18. Reducing Text Messaging While Driving. Pursuant to Executive Order 13513, 74 FR 51225 (Oct. 6, 2009), Subrecipient should encourage its employees, Subrecipients, and Contractors to adopt and enforce policies that ban text messaging while driving, and Subrecipient should establish workplace safety policies to decrease accidents caused by distracted drivers.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

ASSURANCES OF COMPLIANCE WITH CIVIL RIGHTS REQUIREMENTS

ASSURANCES OF COMPLIANCE WITH TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

As a condition of receipt of federal financial assistance from the Department of theTreasury, the Subrecipient provides the assurances stated herein. The federal financial assistance may include federal grants, loans and Agreements to provide assistance to the Subrecipient's beneficiaries, the use or rent of Federal land or property at below market value, Federal training, aloan of Federal personnel, subsidies, and other arrangements with the intention of providing assistance. Federal financial assistance does not encompass Agreements of guarantee or insurance,regulated programs, licenses, procurement Agreements by the Federal government at market value,or programs that provide direct benefits.

The assurances apply to all federal financial assistance from or funds made available through the Department of the Treasury, including any assistance that the Subrecipient may request in the future.

The Civil Rights Restoration Act of 1987 provides that the provisions of the assurances apply to all of the operations of the Subrecipient's program(s) and activity(ies), so long as any portion of the Subrecipient's program(s) or activity(ies) is federally assisted in the manner prescribed above.

1. Subrecipient ensures its current and future compliance with Title VI of the Civil Rights Act of 1964, as amended, which prohibits exclusion from participation, denial of the benefits of, or subjection to discrimination under programs and activities receiving federal financial assistance, of any person in the United States on the ground of race, color, or national origin (42 U.S.C. § 2000d *et seq.*), as implemented by the Department of the Treasury Title VI regulations at 31 CFR Part 22 and other pertinent executive orders such as Executive Order 13166, directives, circulars, policies, memoranda, and/or guidance documents.
2. Subrecipient acknowledges that Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency," seeks to improve access to federally assisted programs and activities for individuals who, because of national origin, have Limited English proficiency (LEP). Subrecipient understands that denying a person access to its programs, services, and activities because of LEP is a form of national origin discrimination prohibited under Title VI of the Civil Rights Act of 1964 and the Department of the Treasury's implementing regulations. Accordingly, Subrecipient shall initiate reasonable steps, or comply with the Department of the Treasury's directives, to ensure that LEP persons have meaningful access to its programs, services, and activities. Subrecipient understands and agrees that meaningful access may entail providing language assistance services, including oral interpretation and written translation where necessary, to ensure effective communication in the Subrecipient's programs, services, and activities.
3. Subrecipient agrees to consider the need for language services for LEP persons when Subrecipient develops applicable budgets and conducts programs, services, and activities. As a resource, the Department of the Treasury has published its LEP guidance at 70 FR 6067. For more information on taking reasonable steps to provide meaningful access for LEP persons, please visit http://www.lep.gov.

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

4. Subrecipient acknowledges and agrees that compliance with the assurances constitutes a condition of continued receipt of federal financial assistance and is binding upon Subrecipient and Subrecipient's successors, transferees, and assignees for the period in which such assistance is provided.

5. Subrecipient acknowledges and agrees that it must require any sub-grantees, contractors, subcontractors, successors, transferees, and assignees to comply with assurances 1-4 above, and agrees to incorporate the following language in every Agreement or agreement subject to Title VI and its regulations between the Subrecipient and the Subrecipient's sub-grantees, Contractors, Subcontractors, successors, transferees, and assignees:

   The sub-grantee, Contractor, Subcontractor, successor, transferee, and assignee shall comply with Title VI of the Civil Rights Act of 1964, which prohibits Subrecipients of federal financial assistance from excluding from a program or activity, denying benefits of, or otherwise discriminating against a person on the basis of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, which are herein incorporated by reference and made a part of this Agreement (or agreement). Title VI also includes protection to persons with "Limited English Proficiency" in any program or activity receiving federal financial assistance, 42 U.S.C. § 2000d et seq., as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, and herein incorporated by reference and made a part of this Agreement or agreement.

6. Subrecipient understands and agrees that if any real property or structure is provided or improved with the aid of federal financial assistance by the Department of the Treasury, this assurance obligates the Subrecipient, or in the case of a subsequent transfer, the transferee, for the period during which the real property or structure is used for a purpose for which the federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. If any personal property is provided, this assurance obligates the Subrecipient for the period during which it retains ownership or possession of the property.

7. Subrecipient shall cooperate in any enforcement or compliance review activities by the Department of the Treasury of the aforementioned obligations. Enforcement may include investigation, arbitration, mediation, litigation, and monitoring of any settlement agreements that may result from these actions. The Subrecipient shall comply with information requests, on-site compliance reviews and reporting requirements.

8. Subrecipient shall maintain a complaint log and inform the Department of the Treasury of any complaints of discrimination on the grounds of race, color, or national origin, and limited English proficiency covered by Title VI of the Civil Rights Act of 1964 and implementing regulations and provide, upon request, a list of all such reviews or proceedings based on the complaint, pending or completed, including outcome. Subrecipient also must inform the Department of the Treasury if Subrecipient has received no complaints under Title VI.

9. Subrecipient must provide documentation of an administrative agency's or court's findings of non-compliance of Title VI and efforts to address the non-compliance, including any voluntary compliance or other agreements between the Subrecipient and the administrative agency that made the finding. If the Subrecipient settles a case or matter alleging such discrimination, the Subrecipient must provide documentation of the settlement. If Subrecipient has not been the subject of any court or administrative agency finding of

Docusign Envelope ID: A307D8F5-8FE5-4175-B6AE-D567B6DB966E

discrimination, please so state.

10. If the Subrecipient makes sub-awards to other agencies or other entities, the Subrecipient is responsible for ensuring that sub-Subrecipients also comply with Title VI and other applicable authorities covered in this document State agencies that make sub-awards must have in place standard grant assurances and review procedures to demonstrate that that they are effectively monitoring the civil rights compliance of sub- Subrecipients.

The United States of America has the right to seek judicial enforcement of the terms of this assurances document and nothing in this document alters or limits the federal enforcement measures that the United States may take in order to address violations of this document or applicable federal law.

RESOLUTION NO. R2026-_____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO, RESCINDING R2024-113 AND APPROVING THE INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF AURORA AND THE COLORADO DEPARTMENT OF TRANSPORTATION (CDOT) FOR THE AURORA TRAFFIC SIGNAL EQUIPMENT UPGRADE PROJECT

WHEREAS, the City of Aurora, Colorado (the "City"), and the State of Colorado Department of Transportation ("CDOT"), collectively "the Parties", as government agencies, are authorized by the provisions of Colo. Const., art. XIV, § 18(2)(a) and C.R.S. §§ 29 -1-201, et seq., to contract with one another to provide any function, service or facility lawfully authorized to each; and

WHEREAS, the City applied for three Denver Regional Council of Governments ("DRCOG") 2024-2027 Regional Transportation Operations and Technology (RTO&T) grants, administered by CDOT; and

WHEREAS, the Traffic Signal Equipment Upgrade grant application is one of the three grant projects and includes procurement of 42 multi-modal detection devices and uninterruptable power supplies at intersections along DRCOG eligible corridors ("the Project"); and

WHEREAS, the detection devices will continuously collect vehicular, pedestrian, bicycle, and truck data and they will allow staff to remotely monitor detection functionality; and

WHEREAS, the Project is funded with 100% grant funds and no local match; and

WHEREAS, DRCOG will contribute $1,021,000 to fully fund the Project; and

WHEREAS, City Council approved the City's participation in this Project on September 9, 2024, by Resolution No. R2024-113, and CDOT subsequently changed their grant process and requested that the IGA be replaced with this Agreement so their procurement team can manage the Project funding; and

WHEREAS, Section 10-12 of the City Charter authorizes City Council to approve, by resolution, the execution of contracts, and amendments thereto, with other governmental units for furnishing or receiving commodities or services; and

WHEREAS, the City Council of the City of Aurora finds and determines that it is in the best interests of the City and its citizens to authorize the execution of th e Intergovernmental Agreement between the City and CDOT for the Aurora Traffic Signal Upgrade Project.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO:

Section 1. Resolution No. R2024-113 is hereby rescinded and replaced with this Resolution approving the Intergovernmental Agreement between the City and CDOT for the Aurora Traffic Signal Equipment Upgrade Project is hereby approved.

Section 2. The Mayor and the City Clerk are hereby authorized to execute and deliver the intergovernmental agreement on behalf of the City in substantially the form presented at this meeting, with such technical additions, deletions, and variations as the City Attorney may deem necessary or appropriate and not inconsistent with this Resolution.

Section 3. All resolutions or parts of resolutions of the City in conflict herewith are hereby rescinded.

RESOLVED AND PASSED this ____day of _____, 2026.

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

The City of Aurora ("Aurora") is advancing with construction under the East Colfax Bus Rapid Transit Project ("Project") as depicted on the attached map labeled Exhibit A. Colfax Avenue, one of the area's most historic streets, is a key east-west transportation route and the backbone of a thriving and diverse community. With significant population and business growth expected in the coming years, now is the time to reimagine the Colfax experience with a focus on moving people more efficiently, safely and sustainably along the corridor. To safely construct this public-use project, acquisition of 16 property interests from 15 property owners is necessary.

In 2024, the Project land acquisition plans were approved by CDOT and Aurora's Real Property & Survey Services Division ("RPSS"), issued the requisite Notice of Intent to Acquire ("NOIA"), made offers and initiated negotiations with all effected property owners in accordance with C.R.S. Title 38, Article 1 (Section 38-1-101 et seq.). C.R.S. Title 38, Article 1 sets forth the uniform policy for fair and equitable treatment of property owners during the acquisition of real property interests and includes a provision of residential/business relocation assistance, if necessary. Appraisal reports have been completed by an independent state certified appraiser and were used as the basis for the fair market value offering to the property owner(s) of the specific land interests to be acquired. Aurora has also paid for landowner's independent appraisals in accordance with C.R.S. 38-1-121.

The Project requires the acquisition of temporary construction easements and 1 permanent easement from the 15 property owners. The properties are located along East Colfax Avenue, located in Adams & Arapahoe County as legally described and depicted on the attached legal descriptions and exhibits. Presently, the City has acquired the necessary property rights from the majority of the property owners. To avoid incurring additional construction costs due to acquisition delays, City staff is requesting Council authorize an ordinance allowing the use of eminent domain if it becomes necessary to meet the Project's schedule. The authorization of the use of eminent domain by Council will allow Aurora to obtain possession of the property interests needed and will ensure that property acquisitions do not delay the Project's schedule. Condemnation is always used as a last resort when negotiations between the condemning authority and the property owner regarding the value of the property to be taken have reached an impasse. As part of the condemnation process, in the event negotiations fail, a hearing for immediate possession will allow the Project to proceed on schedule. Attached is an overview of the eminent domain process, pursuant to C.R.S. 38-1-101.

City staff will continue using best efforts to amicably acquire the real property interests needed by further negotiating with the property owners. City staff recommends the passage of an ordinance authorizing the use of eminent domain for the acquisition of the necessary land interests to avoid delays in the Project schedule. If Council authorizes the ordinance and it becomes necessary to act beyond obtaining immediate possession, City staff will update Council with such litigation proceedings.

FISCAL IMPACT

Select all that apply. (If no fiscal impact, click that box and skip to "Questions for Council")

☐ Revenue Impact ☒ Budgeted Expenditure Impact ☐ Non-Budgeted Expenditure Impact
☐ Workload Impact ☐ No Fiscal Impact

REVENUE IMPACT
Provide the revenue impact or N/A if no impact. (What is the estimated impact on revenue? What funds would be impacted? Provide additional detail as necessary.)

N/A

BUDGETED EXPENDITURE IMPACT
Provide the budgeted expenditure impact or N/A if no impact. (List Org/Account # and fund. What is the amount of budget to be used? Does this shift existing budget away from existing programs/services? Provide additional detail as necessary.)

Funding will come from the Colfax BRT

The estimated cost for the Permanent & Temporary Easements = $39,130
Estimated Maximum Legal Fees = $25,000

Grand Total- $64,130

Org: 49702 (Misc Street Improvements)

NON-BUDGETED EXPENDITURE IMPACT
Provide the non-budgeted expenditure impact or N/A if no impact. (Provide information on non-budgeted costs. Include Personal Services, Supplies and Services, Interfund Charges, and Capital needs. Provide additional detail as necessary.)

N/A

WORKLOAD IMPACT
Provide the workload impact or N/A if no impact. (Will more staff be needed or is the change absorbable? If new FTE(s) are needed, provide numbers and types of positions, and a duty summary. Provide additional detail as necessary.)

N/A

QUESTIONS FOR COUNCIL

Does Council approve the ordinance authorizing the use of eminent domain, pursuant to Aurora City Code Section 12-12, in order to acquire the necessary property interests for the construction of the Colfax BRT Project?

LEGAL COMMENTS

Council has the legal authority and power to act by ordinance to use eminent domain pursuant to Section 10-10 of the Aurora Charter, Article XX Sections 1 and 6 of the State Constitution, C.R.S. Section 38-1-101 C.R.S., et seq. (M. Gardner)

ORDINANCE NO. 2026-

AN ORDINANCE AUTHORIZING THE CITY OF AURORA, COLORADO, TO EXERCISE THE POWER OF EMINENT DOMAIN FOR ACQUISITION OF CERTAIN REAL PROPERTY INTERESTS NECESSARY FOR THE COLFAX BUS RAPID TRANSIT (BRT) PROJECT

WHEREAS, the City of Aurora is a Colorado municipal corporation and home rule city ("City") of the Counties of Adams, Arapahoe, and Douglas of the State of Colorado and it has the legal authority and power of eminent domain per Article XX Sections I and 6 of the State Constitution, Section 10-10 of the City's Home Rule Charter, C.R.S. 38-1-101 et seq.; and

WHEREAS, the City of Aurora, Public Works Department, requires construction of the Colfax Bus Rapid Transit (BRT) Project ("Project"); and

WHEREAS, the primary objective of the Project is to improve the Colfax corridor with a focus on allowing people to utilize the sidewalks and bus stations more efficiently, safely and sustainably; and

WHEREAS, as part of the Project, acquisition of certain real property interests are needed to make the improvements; and

WHEREAS, the City has determined it is necessary to acquire certain easement interests identified in this Ordinance for the construction of the Project, and that acquisition of these easement interests serves the public purpose by providing greater health, safety, and welfare; and

WHEREAS, the City has determined that the easement interests are necessary for the Project and said interests and their purported landowners are as described in the attached Exhibit A and Exhibit B ("Properties").

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AURORA, COLORADO:

Section 1. That the City Council hereby finds and determines that it is in the interest of the health, safety, and general welfare of the public, and serves a necessary public purpose, to acquire real property interests in the Properties described in Exhibit A and Exhibit B for the construction of the Project and hereby declares a public need and necessity for the same.

Section 2. The Real Property Services Division, through its staff, agents, or consultants, is authorized to engage in good faith negotiations for acquisition of the interests in the Properties, as a precondition to initiating proceedings in eminent domain. Eminent domain will only be used if good faith negotiations are unsuccessful. If the interests in the Properties cannot be obtained voluntarily, the City is authorized to commence condemnation proceedings to acquire the Properties and prosecute the proceedings to their conclusion.

Section 3. The City Council hereby authorizes itself to exercise the power of eminent domain for the purpose of acquiring interests in the Properties. The City is authorized to exercise the power of eminent domain pursuant to Section 10-10 of the City Charter in the manner provided by Article I of Title 38, Colorado Revised Statutes. The City is authorized to employ all necessary persons for this purpose, including special condemnation counsel, if necessary, and appraisers, surveyors, engineers, and other experts.

Section 4. The City Council has determined there is an immediate public need and necessity to acquire the Properties in order to allow the City of Aurora to proceed with the Project. To ensure timely possession of or title to the Properties, it may be necessary for the City to obtain immediate possession of the Properties.

Section 5. That the City Council hereby authorizes the expenditure of that amount of money which is determined by an appropriate tribunal to constitute just compensation necessary for the acquisition of the interests in the Properties. The City Council hereby authorizes the City's Director of Finance to pay all awards, legal expenses, court costs, and any other expenses of eminent domain lawfully found to be just compensation, as determined by a court of competent jurisdiction.

Section 6. The City or its staff, designee, agents, or representatives shall have the authority to amend the legal descriptions of and the interests sought in the Properties or to add additional properties as deemed necessary in the course of acquiring the Properties for the Project, and any such amendments shall be included in the definition of the Properties contained herein.

Section 7. That, nothing contained in this ordinance shall be construed as precluding or preventing negotiations by the City Attorney, or duly authorized representatives, from purchasing interests in the Properties at private sale, nor shall anything herein be construed as preventing the City of Aurora, upon the acquisition of said interests in the Properties, from terminating the eminent domain proceedings.

Section 8. That, pursuant to Section 5-5 of the Charter of the City of Aurora, Colorado, the second publication of this ordinance shall be by reference, utilizing the ordinance title. Copies of this Ordinance are available at the office of the City Clerk.

A TEMPORARY CONSTRUCTION EASEMENT
SITUATED IN THE SE 1/4 OF SEC. 35, T3S, R67W,
6TH P.M., CITY OF AURORA, COUNTY OF ADAMS,
STATE OF COLORADO

LAND SURVEY & PROJECT CONTROL DIAGRAM

COLFAX BRT - YOSEMITE STREET TO COLFAX STATION: LOCATED IN SEC. 34, 35, & 36, T3S, R67W, SEC. 31, T3S, R66W, SEC. 1, 2, & 3, T4S, R67W, AND IN SEC. 6, T4S, R66W, 6TH P.M., CITY OF AURORA, COUNTIES OF ADAMS AND ARAPAHOE, STATE OF COLORADO

RESTORATION OF MONUMENTS:

PURSUANT TO SECTION 20.06.4.01 OF THE CITY OF AURORA ROADWAY MANUAL, AS WELL AS CHAPTER 18, ARTICLE 4, SECTION 508, AND CHAPTER 38, ARTICLE 53 OF THE COLORADO REVISED STATUTES, ANY PUBLIC LAND SURVEYING MONUMENTS (AS DEFINED BY SECTION 38-53-103(18), CRS), CONTROL CORNERS (AS DEFINED BY SECTION 38-53-103(6), CRS), OR ACCESSORIES (AS DEFINED BY SECTION 38-53-103(1), CRS) THAT WILL BE DISTURBED BY CONSTRUCTION ACTIVITIES MUST BE REFERENCED PRIOR TO, AND RESET UPON COMPLETION OF, SAID CONSTRUCTION ACTIVITIES BY A COLORADO PROFESSIONAL LAND SURVEYOR.

SURVEY NOTES:

BASIS OF BEARINGS: BEARINGS BASED ON THE NORTH LINE OF THE NW 1/4 OF SECTION 6, T4S, R66W, 6TH P.M., BEING N89°32'57"E, MONUMENTED ON EACH END OF SAID LINE BY A 3" BRASS CAP IN A RANGE BOX "CITY OF AURORA LS 16848 1987" (POINTS 74 & 75), SAID BEARING BEING A GRID BEARING OF THE NAD 1983(1992) STATE PLANE COORDINATE SYSTEM OF COLORADO, CENTRAL ZONE

THIS SURVEY DOES NOT REPRESENT A TITLE SEARCH BY THE CITY OF AURORA TO DETERMINE OWNERSHIP OR EASEMENTS OF RECORD, IT HAS BEEN PREPARED AS A SURVEY CONTROL DRAWING ONLY

PROJECT COORDINATES ARE MODIFIED NAD 1983(1992) STATE PLANE COORDINATE SYSTEM OF COLORADO, CENTRAL ZONE COORDINATES, AND ARE ARRIVED AT BY MULTIPLYING THE NORTHINGS AND EASTINGS BY AN INVERSE COMBINED SCALE FACTOR OF 1.000255856
THE FORMULAS ARE AS FOLLOWS:

PROJECT NORTHING = (STATE PLANE NORTHING X 1.000255856)
PROJECT EASTING = (STATE PLANE EASTING X 1.000255856)

COORDINATE VALUES AND LINEAR UNITS ARE IN U.S. SURVEY FEET

HORIZONTAL COORDINATES ON CONTROL POINTS ESTABLISHED BY GPS / RTK METHODS

NOT ALL EASEMENTS ARE SHOWN, ONLY THOSE IN THE GENERAL VICINITY OF THE PROJECT AREA

NOTICE: ACCORDING TO COLORADO LAW, YOU MUST COMMENCE ANY LEGAL ACTION BASED UPON ANY DEFECT IN THIS SURVEY WITHIN THREE YEARS AFTER YOU FIRST DISCOVER SUCH DEFECT. IN NO EVENT, MAY ANY ACTION BASED UPON ANY DEFECT IN THIS SURVEY BE COMMENCED MORE THAN TEN YEARS FROM THE DATE OF THE CERTIFICATION SHOWN

CONDEMNATION PROCEDURES

see C.R.S. Title 38, Article 1 (§ 38-1-101 et seq.)

I. PRE-PETITION STEPS

A. Obtain a Legal Description of the property, sufficiently clear and definite to enable the property to be located without difficulty, so that the landowner can assess the effects upon his/her/its property.

B. Pass a Legislative Declaration (an ordinance) identifying the condemnation project, declaring that the project is for a "public use", and finding that the acquisition of the property is necessary for the project.

C. Obtain an Appraisal from a licensed appraiser of the "reasonable market value" of the property to be condemned, and conduct a Title Search in order to identify all persons with record interests in the property.

D. Conduct Good Faith Negotiations with the Landowner, including, at a bare minimum, one reasonable offer to purchase, and allowing a reasonable period of time (e.g., two weeks) for the landowner to respond.

E. Obtain a Current Title Commitment, including the Legal Description and the Status of all Encumbrances on the property.

F. Send a formal Notice of Intent to Acquire the Property to every person with a record interest in the property.

[Note: If the value of the property to be condemned exceeds $5,000, the notice of intent to acquire must advise the landowner that the condemnor will pay for the reasonable cost of an appraisal for the landowner if the landowner provides a copy of such appraisal to the condemnor within ninety days after the notice of intent to acquire. The valuation trial may not take place until the ninety days have passed or the condemnor has received the landowner's appraisal, whichever occurs first. However, the condemnor may initiate condemnation proceedings (i.e., file suit) and may obtain possession of the property pursuant to a court order at an "immediate possession hearing" before the passage of the ninety days.]

II. FILING THE CONDEMNATION CASE

A. Summons

B. Petition in Condemnation

(1) Citation of Constitutional and Statutory Authority to Condemn

(2) Reference to Legislative Declaration that Project is for Public Use and that Acquisition of the Property is Necessary for the Project

(3) Legal Description of the Property to be Condemned, and the Nature of the Property Interests to be Acquired

(4) Identification of all Persons who have or may have an Interest in the Property

(5) Statement that Good Faith Negotiations have Failed

(6) Prayer for Immediate Possession

(7) Reminder of Landowner's Duty to Mitigate Damage Claims

C. Notice of Lis Pendens

D. Notice of Immediate Possession Hearing

III. POST-FILING PROCEDURES

A. Immediate Possession Hearing on Condemnor's Motion
-- takes place approximately 30-60 days after filing of petition
-- is often stipulated, leaving only "just compensation" to be determined
-- is accompanied by condemnor's deposit into court of funds equal to appraised value of property (according to condemnor's appraisal)

B. Trial to Determine the Value of the Property Interests Condemned
-- the date of valuation is usually the date when the condemnor is first authorized to take possession of the property; interest added therefrom
-- the burden of proving fair market value is on the landowner

C. Rule and Order Issued by the Court
-- this is the court's judgment, and has the same legal effect as a deed

D. Hearing on Landowner's Bill of Costs (if these cannot be stipulated)
-- the landowner's reasonable costs, appraisal fees, and expert witness fees (but not attorney fees) are recoverable, from the condemnor, as part of the landowner's "just compensation" for the taking

E. Hearing on Apportionment of Award among Condemned Landowners
-- a tenant, for example, is not entitled to a separate award from the condemnor for the value (if any) of the tenant's leasehold interest; rather, the tenant must seek recovery out of the landowner's award
-- the condemnor is not involved

CITY OF AURORA
Council Agenda Commentary

Item Title: Connecting Aurora – Aurora Citywide Multimodal Transportation Master Plan (Ordinance)
Item Initiator: Huiliang Liu, Principal Transportation Planner
Staff Source/Legal Source: Huiliang Liu, Principal Transportation Planner; Carlie Campuzano, Deputy Director of Transportation & Mobility / Lena McClelland, Senior Assistant City Attorney
Outside Speaker: Keith Borsheim, Project Manager, HDR
Strategic Outcome: Healthy: Connecting natural and built environments with multimodal networks, ensuring access to parks and recreation, and preserving sustainable water supplies.

COUNCIL MEETING DATES:

Study Session: 5/4/2026

Regular Meeting: 6/8/2026

2nd Regular Meeting (if applicable): 6/22/2026

Item requires a Public Hearing: ☒ Yes ☐ No

ITEM DETAILS *(Click in highlighted area below bullet point list to enter applicable information.)*

- Waiver of reconsideration requested, and if so, why
- Sponsor name
- Staff source name and title / Legal source name and title
- Outside speaker name and organization
- Estimated time: (For Study Session items only indicate combined time needed for presentation and discussion)

Huiliang Liu, Principal Transportation Planner, Planning and Business Development / Lena McClelland, Senior Assistant City Attorney
Outside Speaker: Keith Borsheim, Project Manager, HDR
Estimated time: 25 mins

HISTORY *(Dates reviewed by City council, Policy Committees, Boards and Commissions, or Staff. Summarize pertinent comments. ATTACH MINUTES OF COUNCIL MEETINGS, POLICY COMMITTEES AND BOARDS AND COMMISSIONS.)*

The project team presented information about Connecting Aurora, the city's first citywide multimodal transportation master plan, at the Council Study Session on September 23, 2024. The presentation included a project overview, state of the system analysis results, public engagement update, and the Vision, Mission, and Goals for the project.

The following project updates were provided to the Council TAPS committee:

March 23, 2026 – Adoption
February 24, 2026 – Project recap and overview
November 20, 2025 – Proposed Policies, programs and projects
May 15, 2025 – Milestone 3 Visionary Transportation Network
April 17, 2025 – Transit Opportunities
February 20, 2025 - Milestone 2 Engagement Summary - What Might Our Future Hold
June 26, 2024 – Vision, mission and goals
May 16, 2024 - State of the System and project engagement update
March 21, 2024 - Project process and project engagement plan
February 15, 2024 - Project overview

Staff presented to the TAPS committee on June 2, 2022, with a list of projects/applications to be submitted for the DRCOG Transportation Improvement Program (TIP) Call 2 grant application, which included the Citywide Multimodal Transportation Master Plan. The Committee supported Staff's proposed project application package.

Staff further updated the committee on October 27, 2022, with a list of City projects, including the Citywide Multimodal Transportation Master Plan, approved by the DRCOG Board to be included in the DRCOG FY 2022-2025 Transportation Improvement Program.

See attached TAPS Meeting notes from these meetings.

ITEM SUMMARY *(Brief description of item, discussion, key points, recommendations, etc.)*

Connecting Aurora is the City's first citywide multimodal transportation master plan. The project team has developed a draft final report which was published on the project website for public review and comments between February 11 and February 25, 2026.

The following items will be presented to the Council at the study session:
Project overview
Timeline
Vision and Goals
Community Engagement
Aurora: The Place-Oriented City Plan Recommendations
Plan Adoption by ordiance

FISCAL IMPACT

Select all that apply. (If no fiscal impact, click that box and skip to "Questions for Council")

☐ Revenue Impact ☐ Budgeted Expenditure Impact ☐ Non-Budgeted Expenditure Impact
☐ Workload Impact ☒ No Fiscal Impact

REVENUE IMPACT

Provide the revenue impact or N/A if no impact. (What is the estimated impact on revenue? What funds would be impacted? Provide additional detail as necessary.)

N/A

BUDGETED EXPENDITURE IMPACT

Provide the budgeted expenditure impact or N/A if no impact. (List Org/Account # and fund. What is the amount of budget to be used? Does this shift existing budget away from existing programs/services? Provide additional detail as necessary.)

N/A

NON-BUDGETED EXPENDITURE IMPACT

Provide the non-budgeted expenditure impact or N/A if no impact. (Provide information on non-budgeted costs. Include Personal Services, Supplies and Services, Interfund Charges, and Capital needs. Provide additional detail as necessary.)

N/A

WORKLOAD IMPACT

Provide the workload impact or N/A if no impact. (Will more staff be needed or is the change absorbable? If new FTE(s) are needed, provide numbers and types of positions, and a duty summary. Provide additional detail as necessary.)

N/A

QUESTIONS FOR COUNCIL

Does the Council choose to support moving forward the proposed comprehensive plan amendment to the next available regular meeting?

LEGAL COMMENTS

The City Council is the governing body of the City and has the authority to approve the Comprehensive Plan and amendments to the Comprehensive Plan. (UDO §146-5.1.1.E)
The City Council shall conduct a public hearing on the application. The City Council may approve amendments to the Comprehensive Plan by an ordinance approved by a vote of not less than two-thirds of the entire membership of City Council. (UDO §146-5.4.1.A.2.c)
A Comprehensive Plan amendment shall be approved only if it promotes the long term economic, social, and environmental health of the City and protects the public health, safety, and welfare of the citizens of Aurora. (UDO §146-5.4.1.A.3) (McClelland)

Connecting People. Connecting Places.

CONNECTING AURORA

OUR MULTIMODAL TRANSPORTATION MASTER PLAN

CITY COUNCIL STUDY SESSION

Plan Adoption

Presenters:

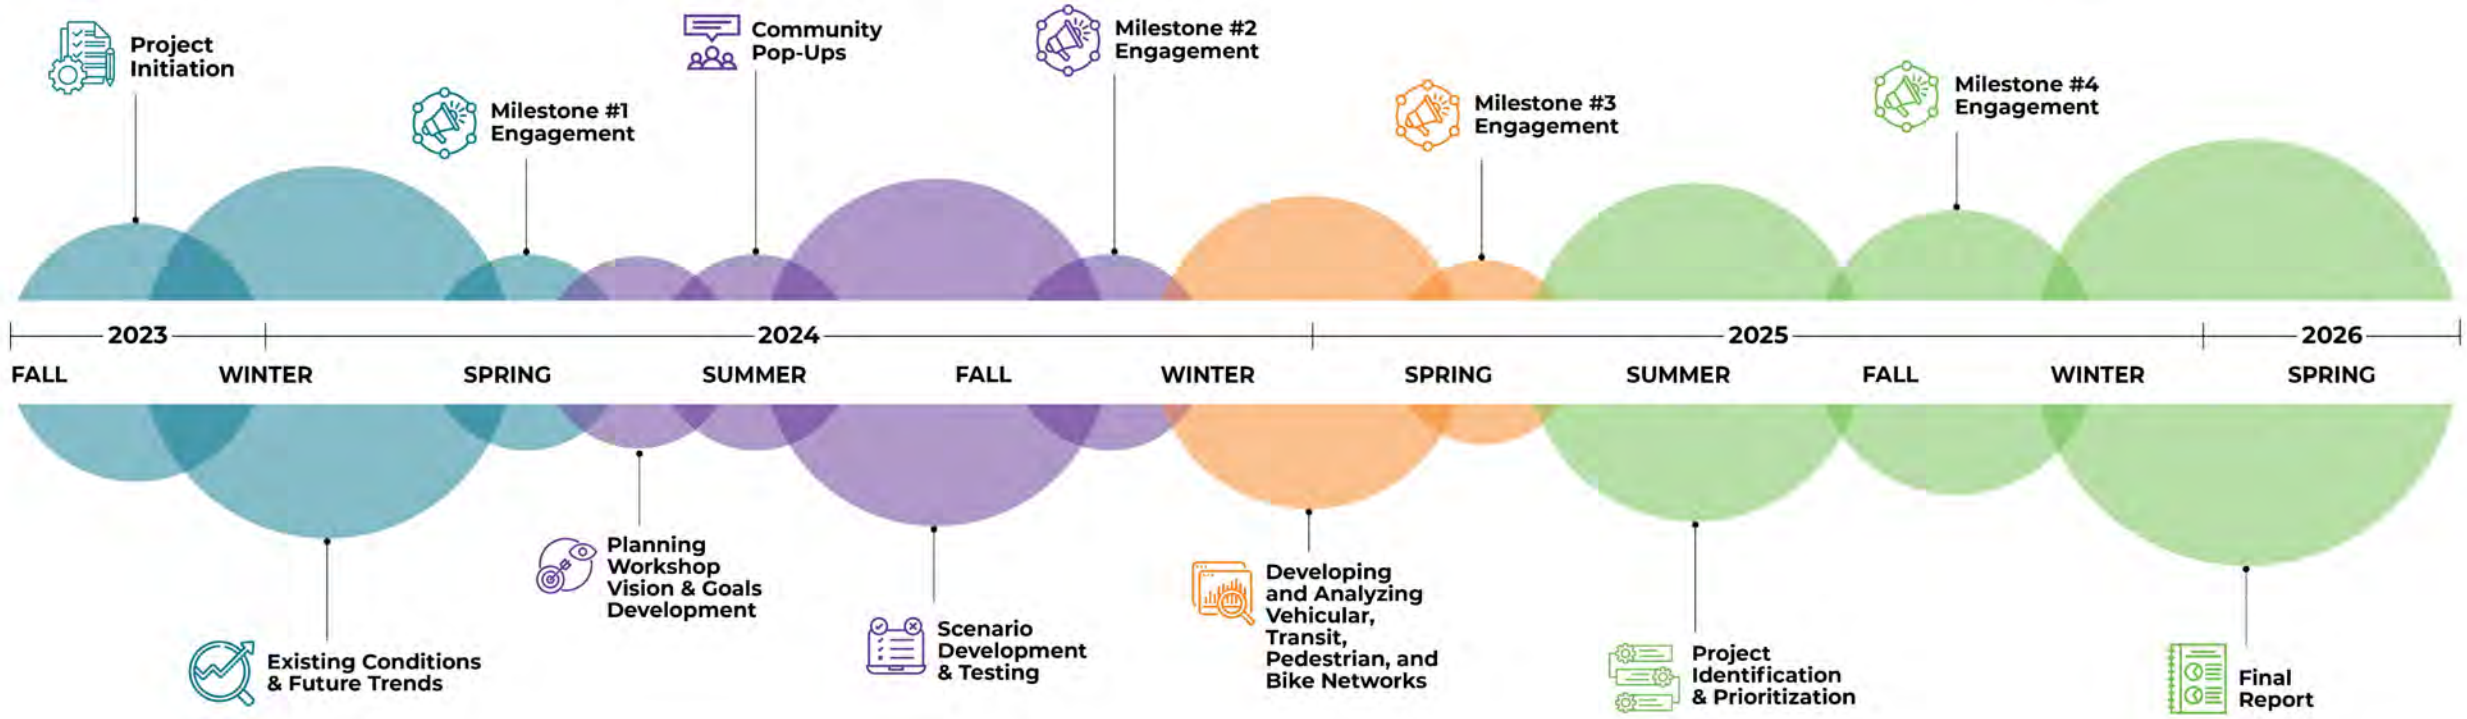
Carlie Campuzano, COA Project Manager
Keith Borsheim, HDR Project Manager

May 4, 2026

AGENDA

- Project Overview
- Timeline
- Vision and Goals
- Community Engagement
- Aurora: The Place-Oriented City
- Plan Recommendations
- Plan Adoption



WHAT IS CONNECTING AURORA?

- Citywide Multimodal Transportation Plan
- Would be adopted as part of Aurora's Comprehensive Plan "Aurora Places"
- Guides Aurora's transportation investments – policies, programs and projects - over the next 25+ years.
- Informs the public, development community, neighboring jurisdictions, funding partners, and future city council and staff
- Builds on recommendations from Aurora Places by establishing an integrated approach with land use.
- Creates a network of complete streets that serves all people, no matter their travel preference.

TIMELINE AND PROCESS

OUR SHARED VISION

OUR VISION

Aurora safely connects all people to our places for a healthy, sustainable, and economically strong community.

OUR MISSION

The city of Aurora will provide a complete transportation system to meet the needs of all people. The city will engage the public in the delivery of plans, programs, policies, standards, and projects.

OUR GOALS

Safe

People are safe and feel safe traveling in our city.

Reliable

People can depend on all forms of transportation.

Convenient

People can move around our city efficiently and easily.

Connected

People are well-connected to the places they want to go however they choose to move.

Sustainable

Infrastructure and services can be built, operated, and maintained at high levels, in a fiscally and environmentally sustainable way.

Economically Strong

The community's economic vitality is supported and enhanced by the transportation network.

Healthy

The community is served by transportation that supports a healthy lifestyle and environment.

Authentic

Infrastructure design contributes to the creation of great places and preservation of traditionally unique places.

Equitable

All people have viable transportation choices to meet their needs.

Integrated

People have easy access to a mix of places because land use and transportation are fully woven together.

WHAT WE HEARD

Over the last two years, we hosted engagement for each of the four milestones to collect feedback from the Aurora community to better understand the challenges people face traveling in Aurora and what they want for their future.

TOP TRANSPORTATION CONCERNS

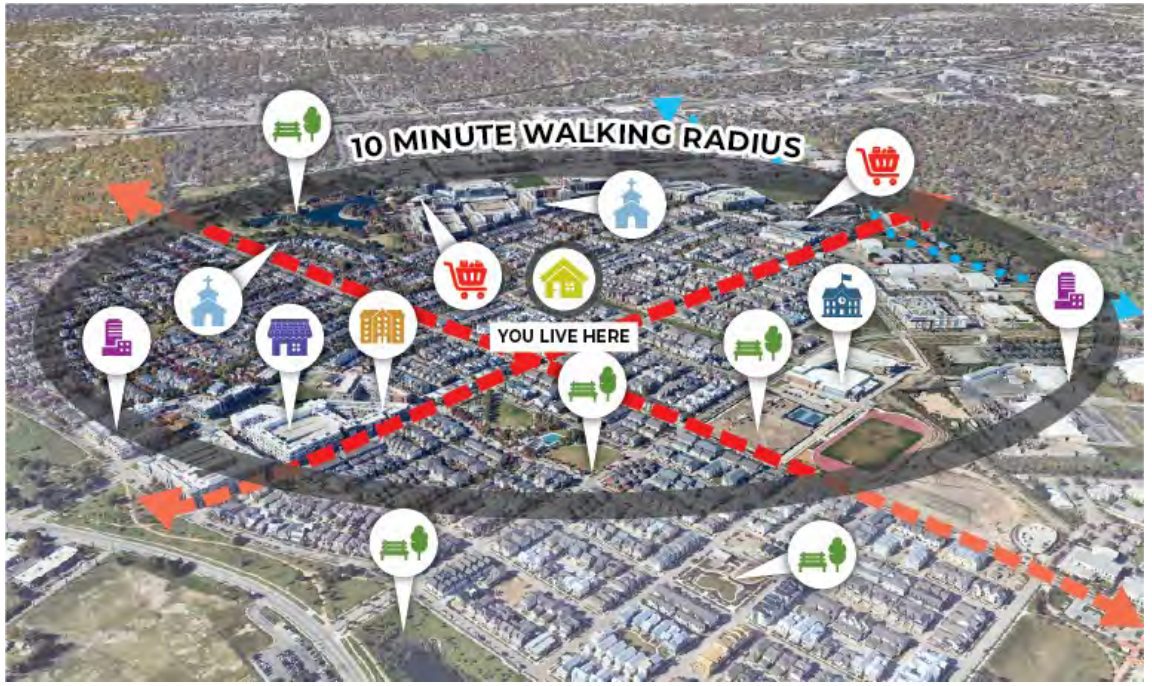
Unsafe to travel outside a car

Bottlenecks and dangerous driving behaviors.

Destinations too far to comfortably walk or bike.

Lack of connections to services and destinations.

Desire to have higher quality streets and places.



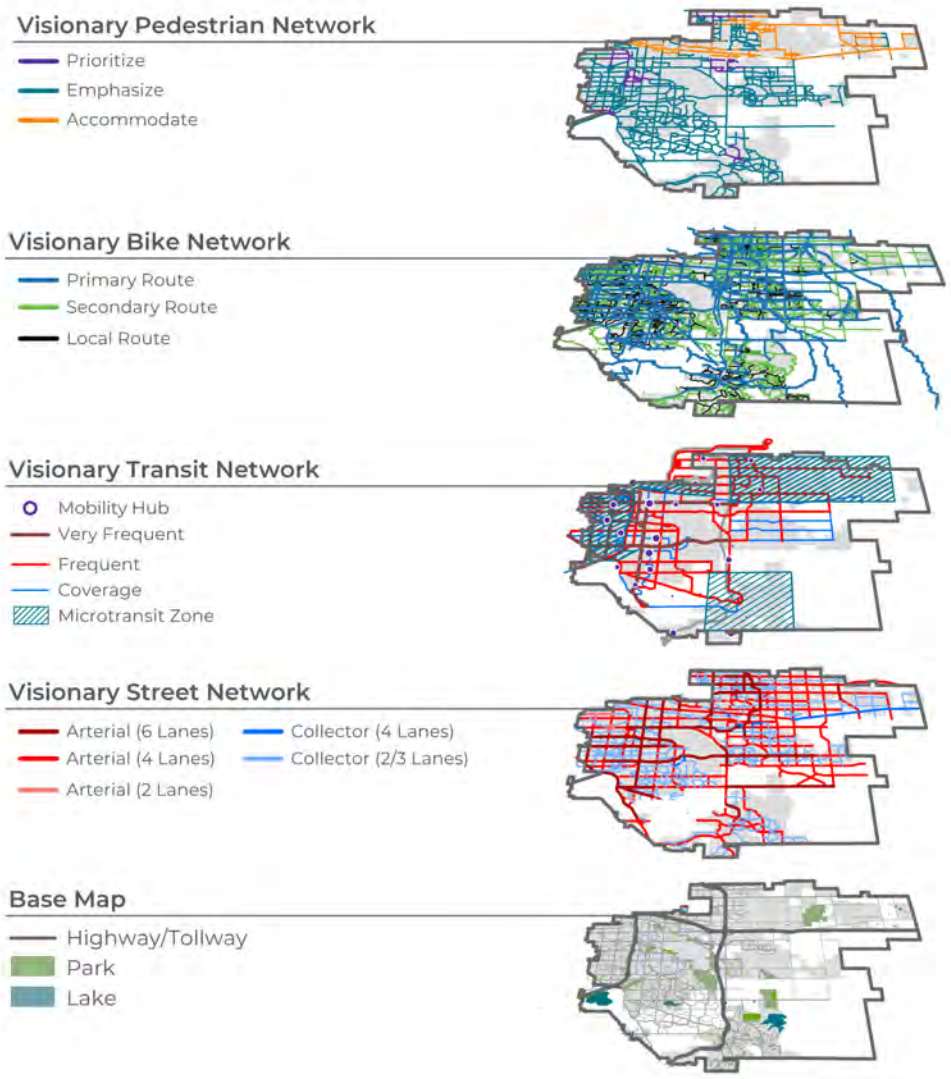
Transit is too slow, infrequent, unreliable, and feels unsafe.

AURORA: THE PLACE-ORIENTED CITY

The community showed a strong desire for a Place-Oriented City. The visionary networks and projects were developed in line with that desired future.

The Place-Oriented City:

- Increases the number of convenient, affordable and safe mobility options.
- Emphasizes the need to simultaneously concentrate the destinations within and near neighborhoods.
- Imagines investments in walking, biking and transit infrastructure with a focus on making these modes of transportation safer and more accessible.
- Uses land efficiently and productively.



VISIONARY NETWORK OVERVIEW

- Desired long-term network with complete streets
- Meets mobility needs today and tomorrow
- Drives network design and development
- Reflects Vision to safely connect all people to their destinations

VISIONARY PEDESTRIAN NETWORK

Every city street must **safely and comfortably accommodate pedestrian movement**, particularly near schools, transit stops, and commercial areas.

EXAMPLES OF POSSIBLE FUTURE IMPROVEMENTS

The images shown are for illustrative purposes only.

VISIONARY BIKEWAY NETWORK

Includes improvements such as **separated bike lanes, shared use paths, and new crossings** to make biking a safer, more viable and attractive transportation option, supporting a healthier and more sustainable community.

EXAMPLES OF POSSIBLE FUTURE IMPROVEMENTS

The images shown are for illustrative purposes only.

VISIONARY TRANSIT NETWORK

Prioritizes **service expansion, higher frequency, infrastructure improvements, and high-capacity transit investments** to create a more integrated and user-friendly system that supports economic development and improves the quality of life for all residents.

EXAMPLES OF POSSIBLE FUTURE IMPROVEMENTS

The images shown are for illustrative purposes only.

VISIONARY AUTO AND FREIGHT NETWORK

While Aurora is already well designed to support car and freight trips, there are areas across the city that would benefit from **capacity improvements and freight enhancements.**

EXAMPLES OF POSSIBLE FUTURE IMPROVEMENTS

The images shown are for illustrative purposes only.

REALIZING THE VISION

Policies

Programs

Capital Investments

Partnerships

POLICY SNAPSHOT

5

New or Updated Policies

- **Complete Streets Policy and Design Guidelines**
- **Designing Streets for Safer Speeds**
- **Update Transportation Impact Study Guidelines**
- **Requirements for New and Redevelopment**
- **High Frequency Transit Corridor Development**

PROGRAM SNAPSHOT

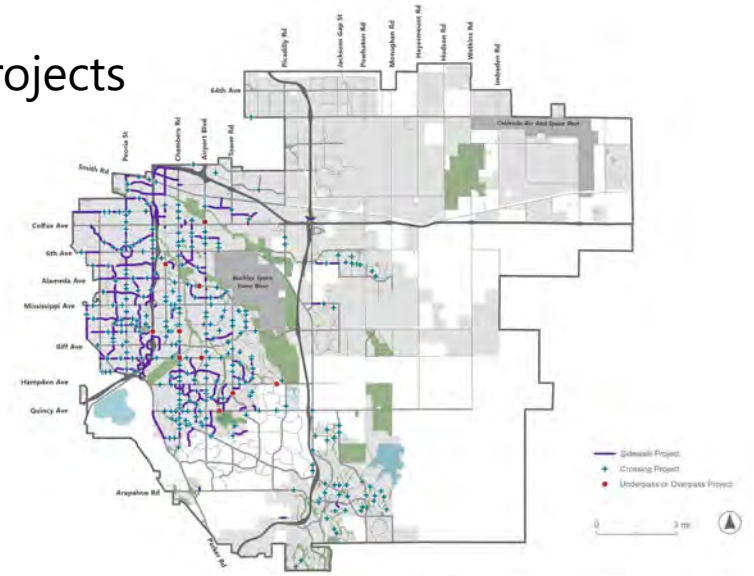
12

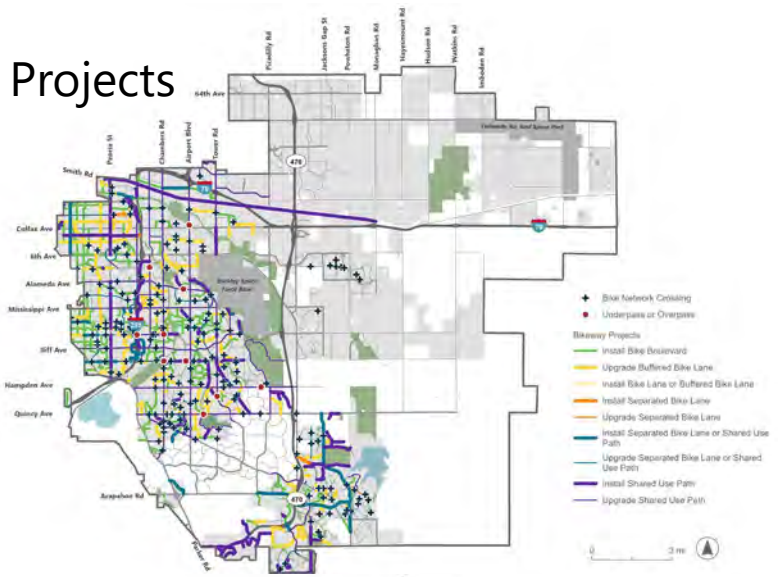
New or Updated Programs

- Safe Routes to School
- Neighborhood Sidewalk Retrofits
- Bicycle Friendly City
- Urban Area Shared Micromobility
- Transportation Demand Management
- Multimodal Counts
- Bus Priority
- Microtransit
- Bus Stop Improvements
- Maintenance Program
- Resurfacing Program Expansion
- GIS & Asset Management Data Updates

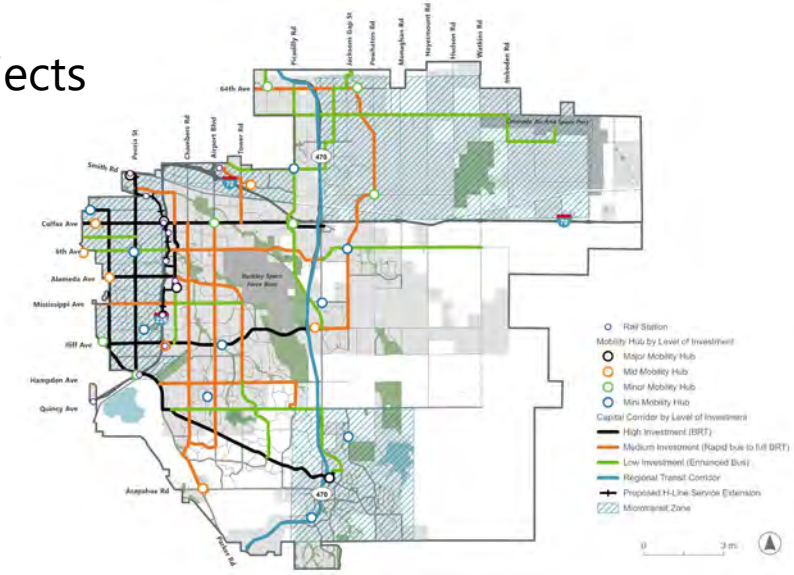
PROJECT SNAPSHOT

Nearly 900 Individual Project Elements

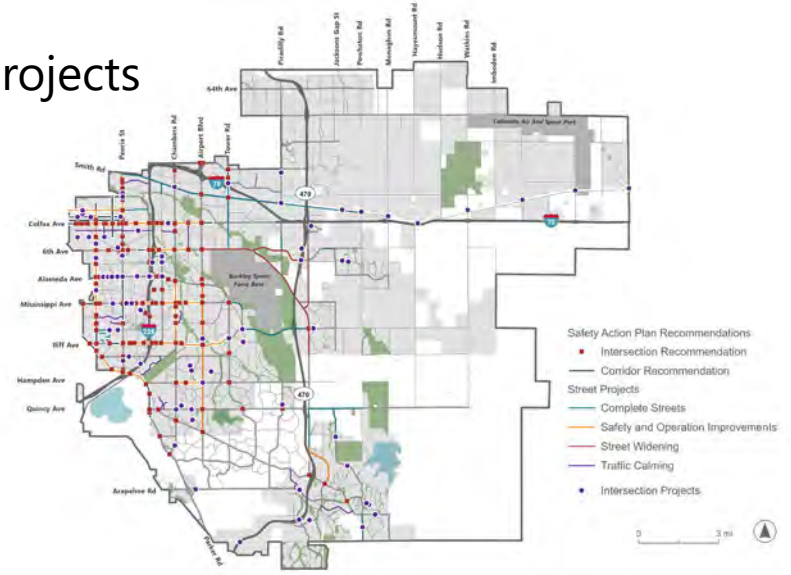




PROJECTS

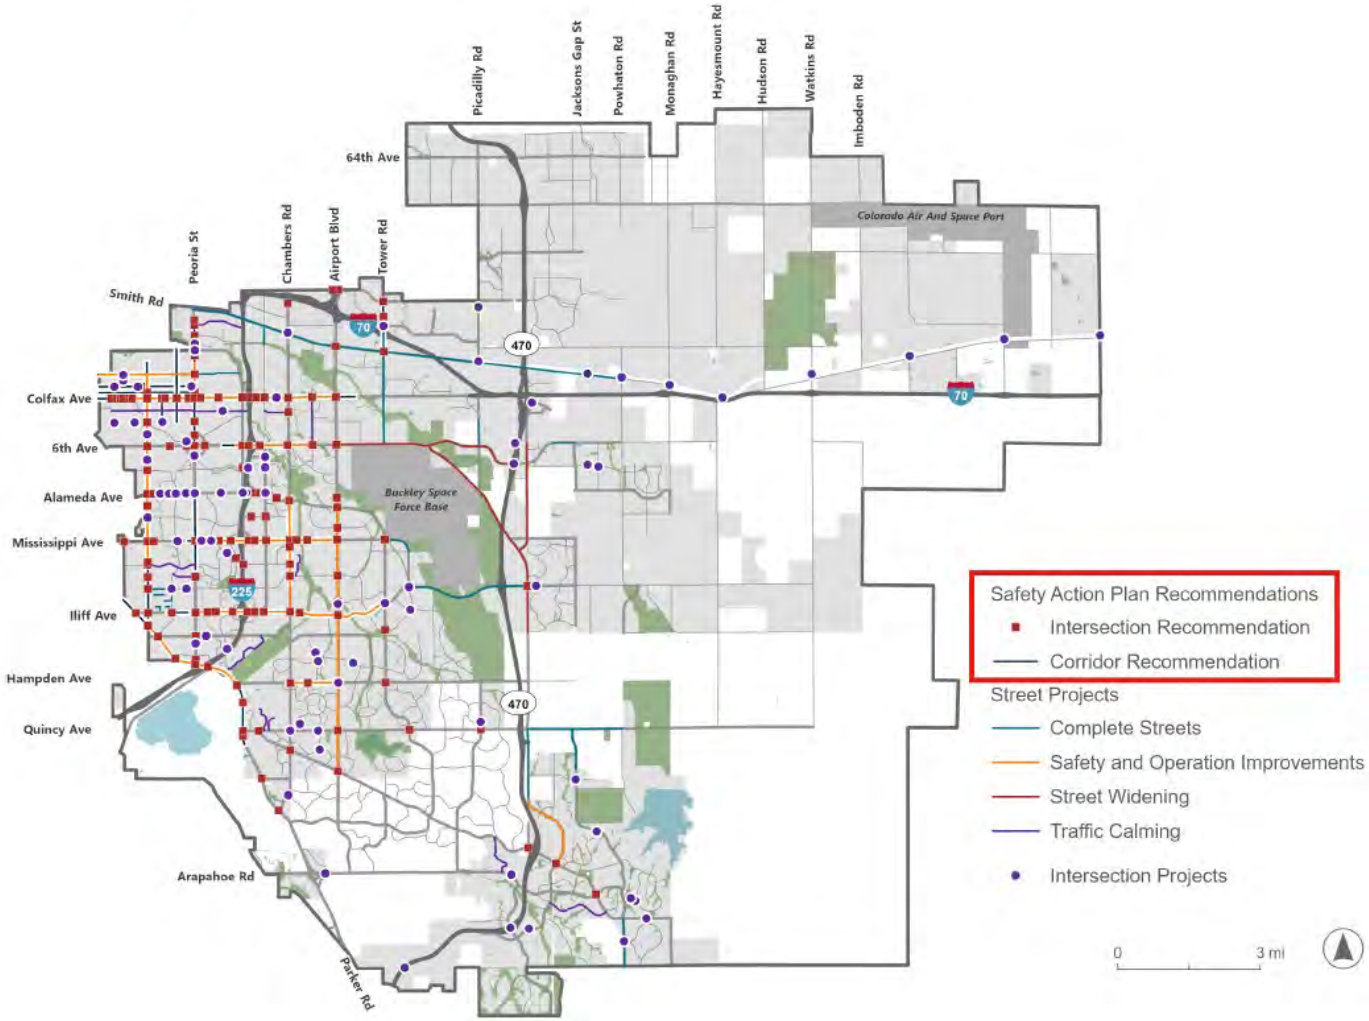


Sidewalk Projects



Bikeway Projects

Transit Projects

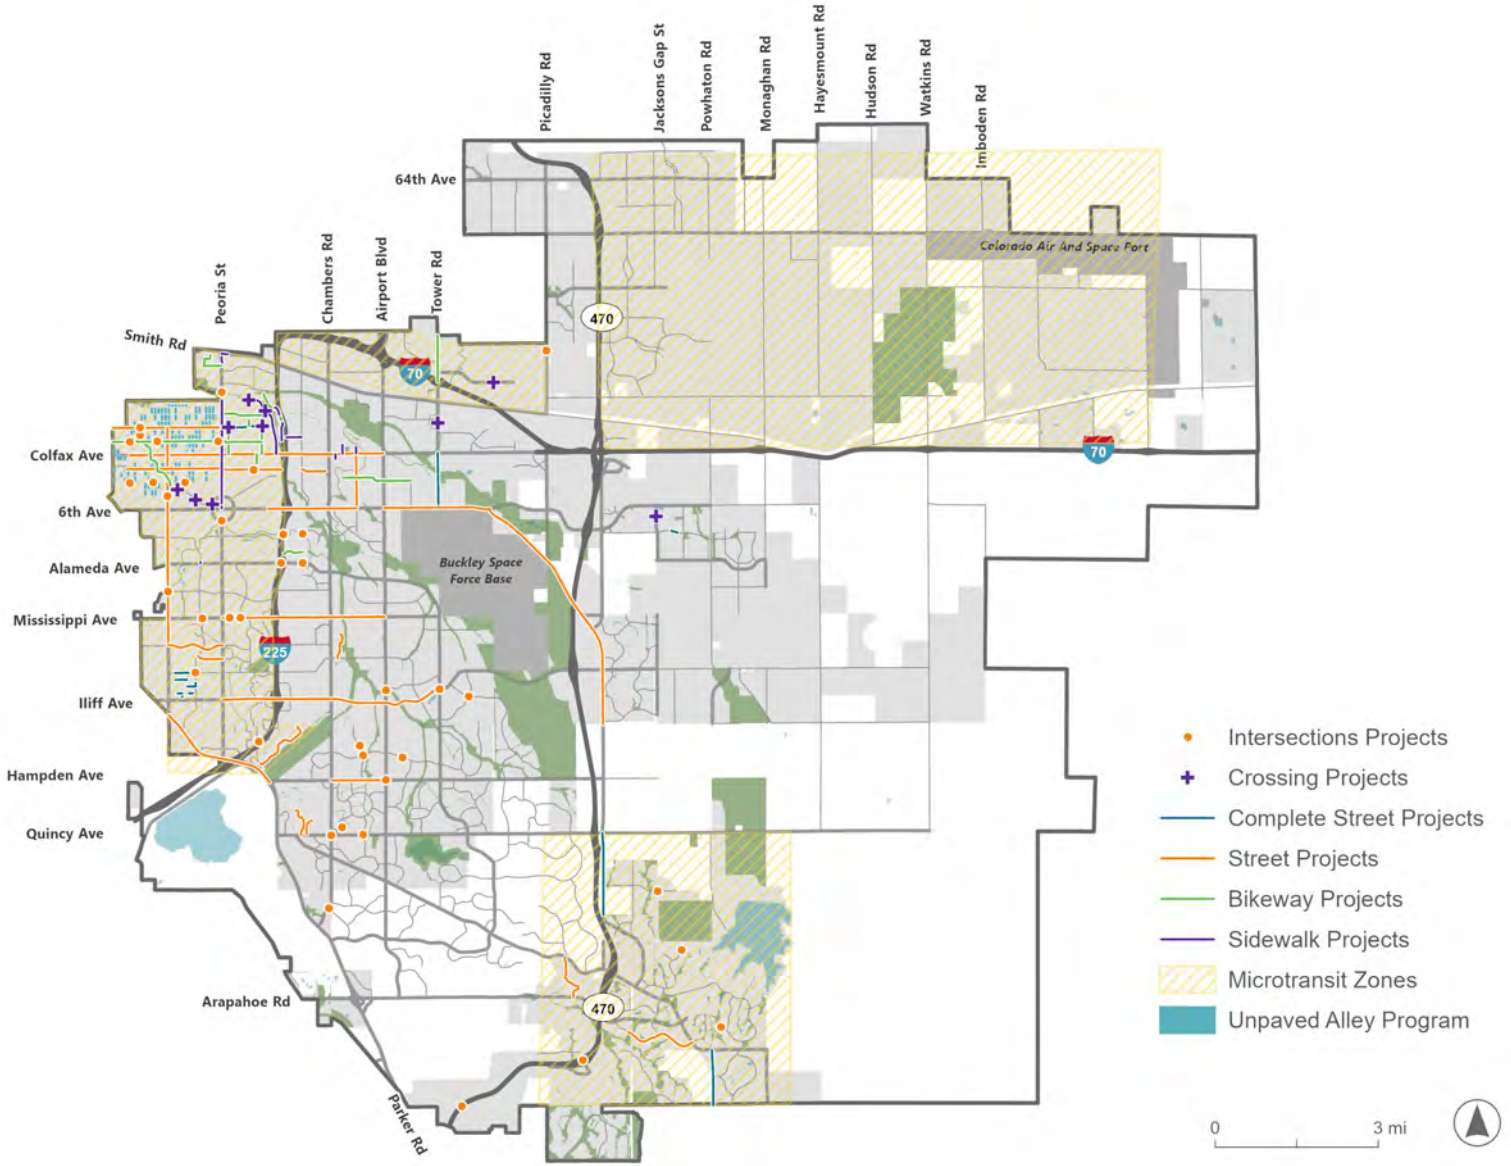


Street Projects

SAFETY PROJECTS

Ongoing Safety Initiatives

- **Adams County Safety Action Plan (Spring 2026)**
- **Existing Traffic Calming Program**



SHORT TERM PROJECTS

Projects Include:

- Intersection and Crossing Upgrades
- Complete Streets
- Street Projects:
  - Safety and Technology
  - Widening
- Bikeways
- Sidewalk Gaps
- Microtransit

Total investment is $45 to $65 million per year for next 10 years

Does not include maintenance

PLAN ADOPTION

- Planning Commission Public Hearing: March 25, 2026
- Transportation, Airports, and Public Works Meeting: March 26, 2026
- Council Study Session: May 4, 2026
- Regular Meeting: June 8, 2026
- 2nd Regular Meeting: June 22, 2026

QUESTION FOR THE CITY COUNCIL:

DOES THE COUNCIL CHOOSE TO SUPPORT MOVING FORWARD THE PROPOSED COMPREHENSIVE PLAN AMENDMENT TO THE NEXT AVAILABLE REGULAR MEETING?

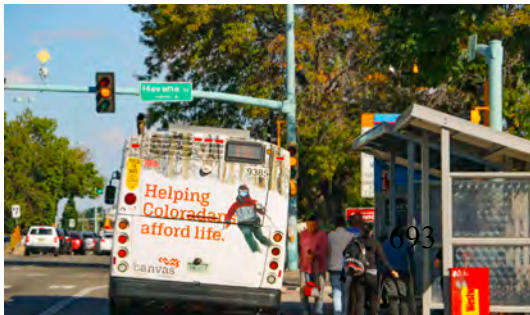
Connecting People. Connecting Places.

CONNECTING AURORA

OUR MULTIMODAL TRANSPORTATION MASTER PLAN

Building the future of Aurora transportation together!

City of Aurora's Multimodal Transportation Master Plan



Draft for City Council Adoption May 2026

Acknowledgments

Connecting Aurora would not have been made possible without generous participation from the Aurora community. The unprecedented diversity of community stakeholders were integral to developing the city's vision and planning for the future of transportation in Aurora. Additional information about public input into Connecting Aurora can be found in Chapter 4.

Executive Summary

About Connecting Aurora

The way we move shapes the way we live. Connecting Aurora is the city of Aurora's first multimodal transportation master plan—a bold, community-driven roadmap to create safe, connected and sustainable multi-modal options for everyone, no matter how they travel. The Aurora community articulated aspirations for the city's transportation system through extensive conversations, surveys and workshops.

Our Starting Point: Aurora Places Comprehensive Plan Principle

> "Easy Mobility & Active Transportation: An easy-to-use transportation network with multiple choices for travel supports a strong economy, healthy community and flourishing environment."

Executive Summary Highlights

ABOUT CONNECTING AURORA
Aurora's first-ever multimodal transportation master plan that guides future investments.

THE PLANS VISION
The vision sets the foundation for what Aurora wants to achieve and the goals to get it there.

CREATING A MULTIMODAL NETWORK
Aurora is building toward a safe, connected multimodal network.

ACHIEVING THE VISION
Aurora is turning the plan into action through a series of strategies and programs.

PROGRAMS, POLICIES AND PROJECTS
The plan identifies nearly 1,000 projects, programs and policies to reshape the city.

Our Vision

Aurora safely connects all people to our places for a healthy, sustainable and economically strong community.

Our Mission

The city of Aurora will provide a complete transportation system to meet the needs of all people. The city will engage the public in the delivery of plans, programs, policies, standards and projects.

Our Goals

Our goals represent specific and measurable outcomes for the transportation system, to help us stay focused on actions that help to achieve the vision.

A Transportation System Serving People

SAFE
People are safe and feel safe traveling in our city.

CONNECTED
People are well-connected to the places they want to go however they choose to move.

RELIABLE
People can depend on all forms of transportation.

CONVENIENT
People can move around Aurora efficiently and easily.

A Transportation System Supporting Overall City Aspirations

SUSTAINABLE
Infrastructure and services are built, operated and maintained at high levels, in a fiscally and environmentally sustainable way.

ECONOMICALLY STRONG
The community's economic vitality is supported and enhanced by the transportation network.

HEALTHY
The community is served by transportation that supports a healthy lifestyle and environment.

A Transportation System Strengthening Community

AUTHENTIC
Infrastructure design contributes to the creation of great places and preservation of traditionally unique places.

EQUITABLE
All people have viable transportation choices to meet their needs.

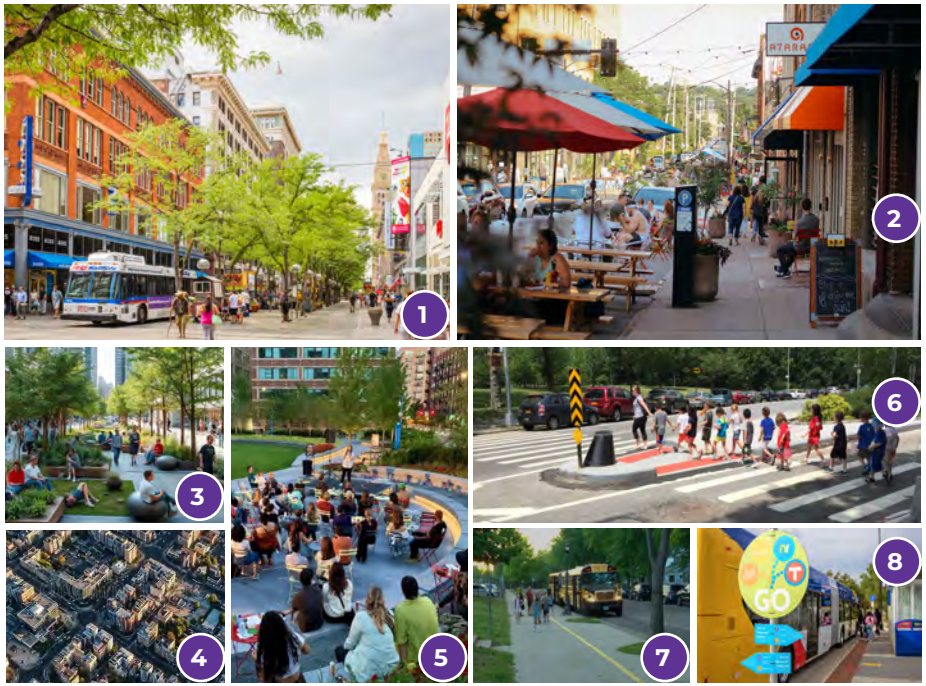
INTEGRATED
People have easy access to a mix of places because land use and transportation are fully woven together.

Creating a Multimodal Transportation Network

Establishing a Place-Oriented City

A complete network of streets and trails creates walkable blocks that provide easy, short pedestrian and bicycle connections to surrounding places and neighborhoods.

To help shape Aurora's long-term transportation vision, the city of Aurora explored different future scenarios. They ranged from a car-focused city to one built around walkable neighborhoods. Each scenario was tested against community goals like safety, connectivity, sustainability and reliability to understand its impacts. Through this process, which included community input, the Place-Oriented City emerged as the preferred future vision.



A Place-Oriented City represents "a balanced system that allows driving but makes walking, biking and riding transit safer, more reliable and more convenient, while supporting vibrant, people-centered neighborhoods." This imagined future is positioned to best help to achieve the mission, vision and goals of Connecting Aurora.

To actualize the Place-Oriented City, city streets and land development are designed to integrate everyday destinations like schools, shops and parks closer to where people live, reducing the reliance on car travel.

In this future, driving will still be an option, but it will not be the only one. Strong transit options, safe sidewalks and connected bike routes will make it easier for people who don't drive—whether by choice, age or circumstance—to move freely and independently. At the same time, better traffic management, curb space and new technologies will make driving more efficient where it is needed most.

Ultimately, the Place-Oriented City is about quality of life. With safe and convenient access to our daily destinations, cleaner air, less traffic stress and healthier travel options:

- Residents will enjoy neighborhoods that feel welcoming and vibrant.
- Families will have safe routes to schools and parks.
- Older adults will have reliable access to medical care and shopping.
- Workers will have better connections to jobs.

Place-Oriented City Features

1. Fully integrated transportation system, land uses and destinations

2. Activated streetscapes that engage the surrounding buildings

3. People-centered that foster a sense of belonging and community

4. Well-defined block systems and street network

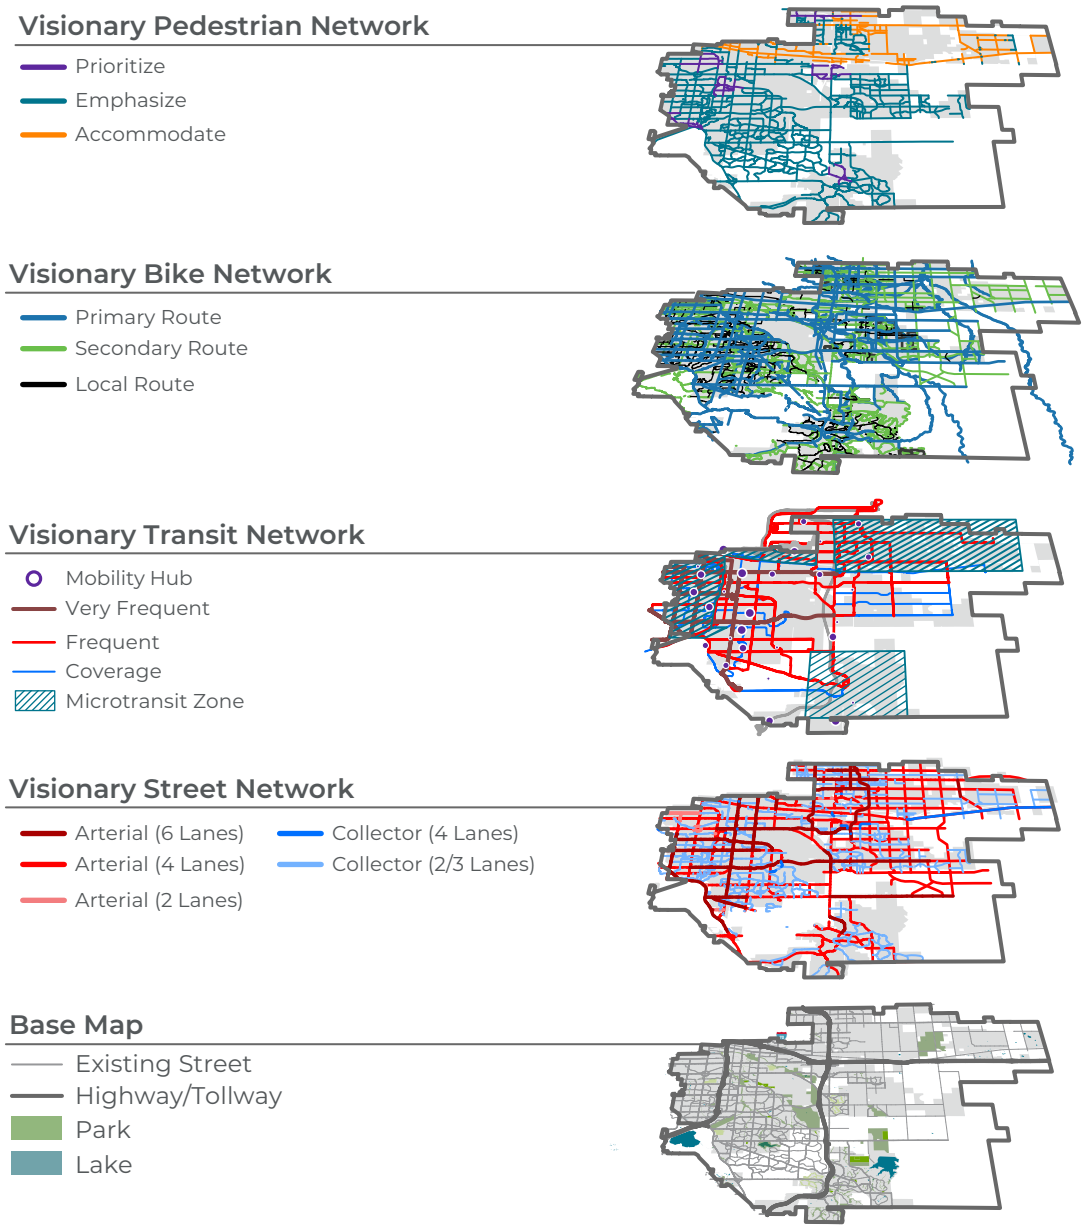
5. Parks, trails and outdoor gathering spaces

6. Easy crossings with separation of bikes and pedestrians from vehicular travel lanes

7. Walkable connections to schools, parks, surrounding neighborhoods, shopping and jobs

8. Mobility hubs with access to all travel modes

Designing Visionary Networks



Aurora's Place-Oriented future depends on a true multimodal network where walking, biking, rolling, riding transit, driving and moving goods work together in a safe, connected and efficient system.

Building this network requires more than just individual projects. It takes policies, design guides and implementation strategies that knit everything together. Through the Connecting Aurora planning process, Aurora developed a Complete Streets Framework to build a transportation system that serves all users and creates seamless travel experiences.

Advancing multimodal principles moves Aurora closer to achieving its vision for a Place-Oriented City. Multimodal investments create streets that are more than travel corridors. They transform into destinations in their own right, supporting vibrant neighborhoods, thriving businesses and healthier communities. In this way, the multimodal network is both the backbone of mobility and a catalyst for creating people-focused places envisioned in Connecting Aurora.

To support this vision, the plan identifies a set of visionary networks—aspirational, citywide networks for each travel mode that define the long-term structure of Aurora's transportation system. These networks illustrate how walking, biking, transit, driving and freight movement should connect across the city to create safe, comfortable and accessible options for people of all ages and abilities. The visionary networks provide a roadmap to guide future investments, align policies and design decisions and ensure that incremental improvements collectively build a connected multimodal system that advances Aurora's place-oriented goals.

A Multilayered Transportation Network

People Walking

Connecting Aurora supports complete pedestrian networks to link people to everyday destinations, including parks, schools, retail and transit stops.

Walking is the foundation of Aurora's transportation system. Whether people are shopping or just visiting neighbors, nearly every trip begins and ends with a walk.

However, missing and narrow sidewalks and unsafe crossings can make walking difficult in many of Aurora's neighborhoods. These gaps and deficiencies disproportionately affect vulnerable pedestrians, such as children, older adults and people who rely on mobility assistance devices.

Creating a complete pedestrian network means filling in gaps in the sidewalk system and upgrading sidewalks to current design standards. Retrofitting intersections and crossings with features, such as pedestrian signals and raised medians, will improve safety and accessibility. Adding street trees, lighting and appropriate seating will further improve comfort and safety.

People Biking

Connecting Aurora supports safe and comfortable network for cyclists of all ages and abilities.

Aurora has made significant progress building out its bike network, with 84 miles of bike lanes and 248 miles of paved trails across the city. However, narrow bike lanes, network gaps and busy intersections can make biking feel uncomfortable or unsafe for families and casual riders.

Planned improvements focus on adding more separated bike lanes, neighborhood bikeways and off-street trails that connect more seamlessly across the city. Additional priorities include completing key east-west and north-south routes; improving access to transit stations, schools, parks and employment hubs; and adding secure bike parking along with clear signage and markings. Together, these improvements will make biking a safer, more comfortable and more convenient option for both everyday trips and recreational riding.

People Riding Transit

Connecting Aurora supports a reliable transit network to safely and comfortable travel the city without a car.

For Aurora residents who rely on buses and light rail for everyday travel, transit is a lifeline. While the city is served by bus and light rail, service can be infrequent or unreliable, with long wait times and stops that lack shelter or seating. These conditions, along with perceptions of safety, can make transit harder to use and less comfortable.

Aurora's transit network is organized into three service levels: high-frequency routes (15-minutes or better), coverage and regional commuter. High-frequency corridors form the backbone of the system, providing reliable bus and rail service and supporting future Bus Rapid Transit (BRT) on key routes.

Enhancing transit stops with shelters, seating, lighting and real-time information, along with better first- and last-mile connections, will make transit more accessible, comfortable and convenient for all riders.

People Driving and Moving Goods

Connecting Aurora will create a safe and efficient street network that facilitates driving and freight movement alongside other modes of travel.

Driving is the most common way people travel in Aurora, but reliance on private vehicles, along with growing freight and delivery activity, creates challenges for safety, mobility and neighborhood livability. Congestion, high crash rates, outdated roadway designs and increased truck traffic can frustrate drivers and wear on local streets. Adding lanes is no longer a lasting solution.

Creating a safer, more efficient street network requires a balanced system that manages how people and goods move. Investments will focus on Complete Streets improvements, safety at high-crash locations, speed management, intersection upgrades and smart traffic technology. Freight strategies will direct trucks to designated routes, improve last-mile delivery, expand truck parking and reduce conflicts in residential areas, supporting a network that works safely and efficiently for all users.

Achieving the Vision

Connecting Aurora provides a vision for transportation that safely connects all people to our places for a healthy, sustainable and economically strong community.

Implementation will turn this vision into reality by focusing on clear priorities, measured outcomes and strategic investments. The plan stresses the importance of aligning transportation projects with land use and development decisions so that investments build stronger, more connected neighborhoods.

The focus is on moving from planning to strategies and actions that connect policies, programs and projects into a unified system. Ongoing community engagement will be vital to keep residents informed and involved in decision-making as implementation unfolds.

Implementation Strategies

The city will undertake the following implementation strategies and actions after the adoption of Connecting Aurora:

Strategy 1: Create and amend documents that support plan implementation to include: Unified Development Ordinance, Roadway Specification and Design Manual and a Complete Streets Design Guide.

Strategy 2: Create an online GIS system to map networks and projects by mode and utilize in association with development review process.

Strategy 3: Focus implementation efforts in strategic areas and critical corridors for meaningful impacts and ensure that undeserved neighborhoods benefit from early investments.

Strategy 4: Devise a system for ongoing community input and engagement in advancing our transportation system.

Strategy 5: Measure progress and create dashboard and conduct annual assessments.

Phasing and Prioritization

To effectively implement the Connecting Aurora plan the city will balance near-term actions with long-term strategies so that early projects deliver visible benefits while setting the stage for future improvements. Next steps are centered on developing clear priorities and sequencing projects, so the community sees meaningful progress. This includes advancing key Catalyst Corridors where multimodal upgrades can have the greatest impact, while funding smaller-scale improvements like crosswalks, sidewalks and bikeway connections and bus stop enhancements.

Complete Streets

Connecting Aurora will create "Complete Streets that safely support all modes of travel."

A Complete Streets Framework sets the tone for how the city of Aurora designs and builds its streets. Instead of prioritizing cars, the policy ensures that every project supports people walking, biking, rolling, riding transit and moving goods safely. This policy will result in consistency across the transportation network so that sidewalks, crosswalks, bikeways and transit stops are not "extras," but standard components of how streets are planned and built. By embedding Complete Streets principles into policy, the city of Aurora strengthens every part of the multimodal network.

Policies, Programs and Projects

With the development of new programs, policies and defined projects, Connecting Aurora becomes realized and begins to change lives!

The policies and programs identified in Connecting Aurora support overall implementation and project development. Specifically, with 12 new and updated programs, Aurora is setting the stage for integrating all modes, strategically leveraging resources and meaningful community outcomes.

Monitoring and Evaluation

Metrics and ongoing evaluation will play a central role in tracking progress. The city of Aurora will establish performance measures focused on safety, equity and access goals so that investments reflect community priorities. Regular reporting will help decision-makers and the public understand what is working, where challenges remain and how to adapt strategies over time. This transparency will build accountability and keep the focus on long-term results, not just short-term outputs.

Funding

Funding is both a challenge and an opportunity. While resources are limited, Connecting Aurora identifies multiple funding pathways: leveraging local dollars, pursuing state and federal grants and partnering with regional agencies and private developers. A key focus will be making strategic investments that attract outside funding, such as demonstrating readiness for federal programs through strong local match commitments and shovel-ready projects. Flexibility will be important, as the city may need to adapt to changing economic conditions and evolving funding sources.

Adaptability

Connecting Aurora highlights the importance of being adaptable, recognizing that emerging technologies, new travel behaviors and shifting economic conditions may shape future needs. Taking a phased approach allows the city to build momentum, adjust as needed and make progress toward a safer, more connected and more resilient transportation system.

5

NEW OR UPDATED POLICIES AND FRAMEWORKS

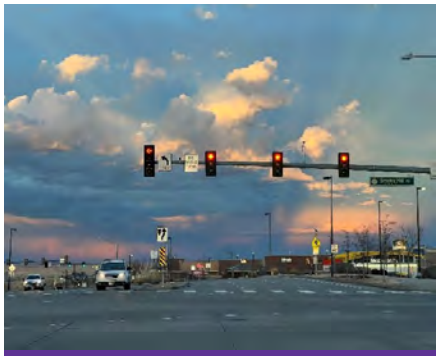
- Complete Streets Framework
- Designing Streets for Safer Speeds
- Update Transportation Impact Study Guidelines
- High Frequency Transit Corridor TOD
- Update Requirements for New Development and Redevelopment

12

NEW OR UPDATED PROGRAMS

- Safe Routes to School
- Neighborhood Sidewalk Retrofits
- Bicycle Friendly City
- Urban Area Shared Micromobility
- Transportation Demand Management
- Multimodal Counts
- Bus Priority
- Microtransit
- Bus Stop Improvements
- Maintenance Program
- Resurfacing Program Expansion
- GIS & Asset Management Data Updates

Connecting Aurora Project Snapshots



The projects identified in Connecting Aurora will transform the transportation network and provide meaningful options for people to get where they want to go in a variety of ways.

70+ Intersection Improvements

25+ Bridges + Interchanges

100+ New and Upgraded Signals

10+ Street Capacity Upgrades

300+ Miles of Bikeways

100+ Miles of Sidewalks + Enhancements

300+ Bike and Pedestrian Crossings

20+ Complete Street Transit Corridors

This page is left intentionally blank.

Introduction

Mobility for All: Connecting People, Connecting Places

Aurora is a city in motion. It is Colorado's third largest city and is one of Colorado's most dynamic and diverse communities. As Aurora's population and economy continue to grow, so do the demands on its transportation system.

Connecting Aurora is the city of Aurora's first citywide multimodal transportation master plan that looks comprehensively at all transportation needs throughout Aurora. As a new component of the city's comprehensive plan (Aurora Places), Connecting Aurora identifies ways to better connect our residents, employees and visitors to various destinations across the city.

Connecting Aurora creates a vision for the city's multimodal transportation system that serves pedestrians, people using mobility assistance devices, bikes, transit, cars and freight. This vision will guide the planning, design and delivery of future multimodal transportation policies, programs and projects that are based on community values and needs. The plan includes tools, implementation strategies and actions for achieving Aurora's vision to expand mobility choices for safe and seamless movement of people and goods throughout the city.

Connecting Aurora is forward thinking and innovative, and it is fundamentally focused on achieving the stated vision and goals for the city's multimodal transportation system. The plan supports an integrated multimodal transportation system that is safe, convenient, reliable, connected, efficient and sustainable for all. Walking, rolling and biking will be safer and more convenient, and transit will be an attractive way to travel for many more residents and visitors. The plan proposes a street network that preserves and creates unique places throughout Aurora, supporting economic vitality and a high quality of life for people of all backgrounds.

Connecting Aurora will guide the city's transportation investments and decisions that are crucial to actualize the plan's vision, mission and goals. Ultimately, Aurora's strengthened transportation system will support a thriving and competitive city for generations to come.

Chapter Overviews

1

Introduction

What is Connecting Aurora? The multimodal plan identifies projects, programs and policies to improve the city's transportation network for everyone. It builds on the goals of Aurora Places and frames new possibilities for the future of the community's mobility.

2

Shaping Our Future

What is the vision for Aurora's transportation network? The shared vision for Aurora's transportation network and supporting goals to achieve the vision were crafted by the community.

3

Aurora Today

How do Aurora's demographics, economics and development patterns affect how people move around the city today? The plan carefully considers how these characteristics and trends uniquely impact different communities within Aurora.

4

Community Conversation

What did we learn from the community? Diverse cities like Aurora require a transportation network that works for people of all backgrounds, no matter how they choose to move. Community conversations prompted residents, businesses and decision-makers to identify their ideal transportation preferences and priorities.

5

The Future of Mobility

What could the future of Aurora's transportation network look like? New transportation technologies like e-bikes and autonomous vehicles are an opportunity to expand mobility options in Aurora. The findings from the city's scenario planning illustrates the type of future Aurorans want and helps chart the steps needed to make that vision a reality.

6

Aurora's Future Multimodal Transportation System

How will people move around Aurora in the future? Connecting Aurora proposes visionary networks for pedestrians, bikes, transit, cars and freight based on data analysis and community input. They are designed to better serve the Aurora Places placetypes and guide future street design.

7

People Walking

How can Aurora become a more walkable and accessible city? Connecting Aurora documents barriers to pedestrian access like narrow, disconnected sidewalks and insufficient street crossings. It identifies ways to address these deficiencies, while improving the streetscape to enhance connectivity, improve pedestrian safety and support vibrant, walkable neighborhoods.

8

People Biking

How can Aurora create a bike network that is safe and comfortable for people of all ages and abilities? Connecting Aurora explores existing bicycle infrastructure and the programs and policies that support bicycling in the city. It identifies projects to build a complete bicycle network that improves connectivity, enhances safety and promotes biking as a viable transportation option for daily travel.

9

People Riding Transit

How can Aurora enhance its transit network to provide reliable, accessible options for all? Connecting Aurora considers how frequency of service, distance between stops, number of transfers, total travel time, safety and comfort impact rider satisfaction and choice. The plan proposes strategies to make transit a more competitive and accessible mode for travel in Aurora.

10

People Driving

How can Aurora's street network evolve to meet the growing needs of people driving today and in the future? Connecting Aurora describes current traffic conditions and policies to understand system gaps and opportunities. The plan identifies capital investment priorities to improve safety, mobility and connectivity for all.

11

Moving Goods

How are goods moved? This chapter examines the local freight networks, such as trucking and warehouse operations, that transport industrial essentials and consumer goods like groceries. The plan examines how freight currently moves goods through Aurora and proposes investments for improving efficiency and ensuring a balanced, sustainable transportation system.

12

Moving Forward

How will the plan achieve multimodal success? Connecting Aurora provides a strategic framework to make the community's short- and long-term visions a reality. It includes a list of policy recommendations, project costs, funding sources and potential partnerships to shape the future of transportation.

A

APPENDIX A

Project Maps and Tables

This appendix include detailed project maps and tables summarizing the capital investments planned to make improvements to the city's multimodal networks.

B

APPENDIX B

State of the System Report

Summary of existing conditions.

C

APPENDIX C

Community Conversation Summary Report

Summary of public engagement.

How Does Connecting Aurora Support the City?

Connecting Aurora is a detailed blueprint for delivering a safe, efficient and connected transportation system that also advances the broader goals of Aurora Places.

Connecting Aurora elaborates on the transportation goals outlined in the city's comprehensive plan (Aurora Places). Connecting Aurora identifies ways to better connect our residents, employees and visitors to destinations across the city. It presents a community-based vision for the city's multimodal transportation system that will guide the development, design and delivery of future transportation policies, programs and projects.

Using Connecting Aurora's tools and strategies, Aurora will build a future where people will have safe, high-quality mobility choices; and goods will move seamlessly throughout the city.

Connecting Aurora supports the city and the greater Aurora community in building a better transportation future in the following ways:

Presents a shared vision for the future

Through rigorous research and intentional outreach, this plan reflects the transportation needs and desires of Aurora's diverse communities. The plan provides residents, policymakers and others with a clear vision to work toward, and the tools needed to make the vision a reality.

Supports synergy between land use and transportation

Transportation and land use are inextricably linked. The way neighborhoods are built and laid out impacts the way people move through the city. This plan will guide and assist the evaluation of public and private development proposals and plans so that transportation and land use are considered in tandem.

Builds on strengths and improves on weaknesses

This plan identifies strengths and weaknesses of the city's current transportation system. The plan proposes improvements that will result in a more complete and useful system for all people.

Fosters departmental coordination

Because this plan strongly relates to other city of Aurora plans and policies, it will foster productive coordination across city departments like Planning and Business Development, Public Works, Housing and Community Services, Development Services, Water and Parks, Recreation and Open Space.

Coordinates local and regional initiatives

Decisions about transportation projects must be made with consideration of the broader transportation network. This plan will help coordinate local and regional transportation initiatives.

Informs the city's Capital Improvement Program and budgeting

The plan proposes and prioritizes transportation projects throughout the city. These priorities will align the city's Capital Improvement Program (CIP) with the goals of Connecting Aurora. It will also help guide future maintenance budgeting.

Increases funding competitiveness

A well-thought-out and widely supported plan makes Aurora more competitive for federal, state and regional grant funds and better positioned to advocate for funding opportunities.

Evaluates and tracks progress toward goals

The vision for the future of Aurora's transportation system cannot materialize without strategic efforts. This plan includes performance metrics to effectively track and monitor progress so that the work moves us closer to reaching the city's transportation goals.

Educates the community

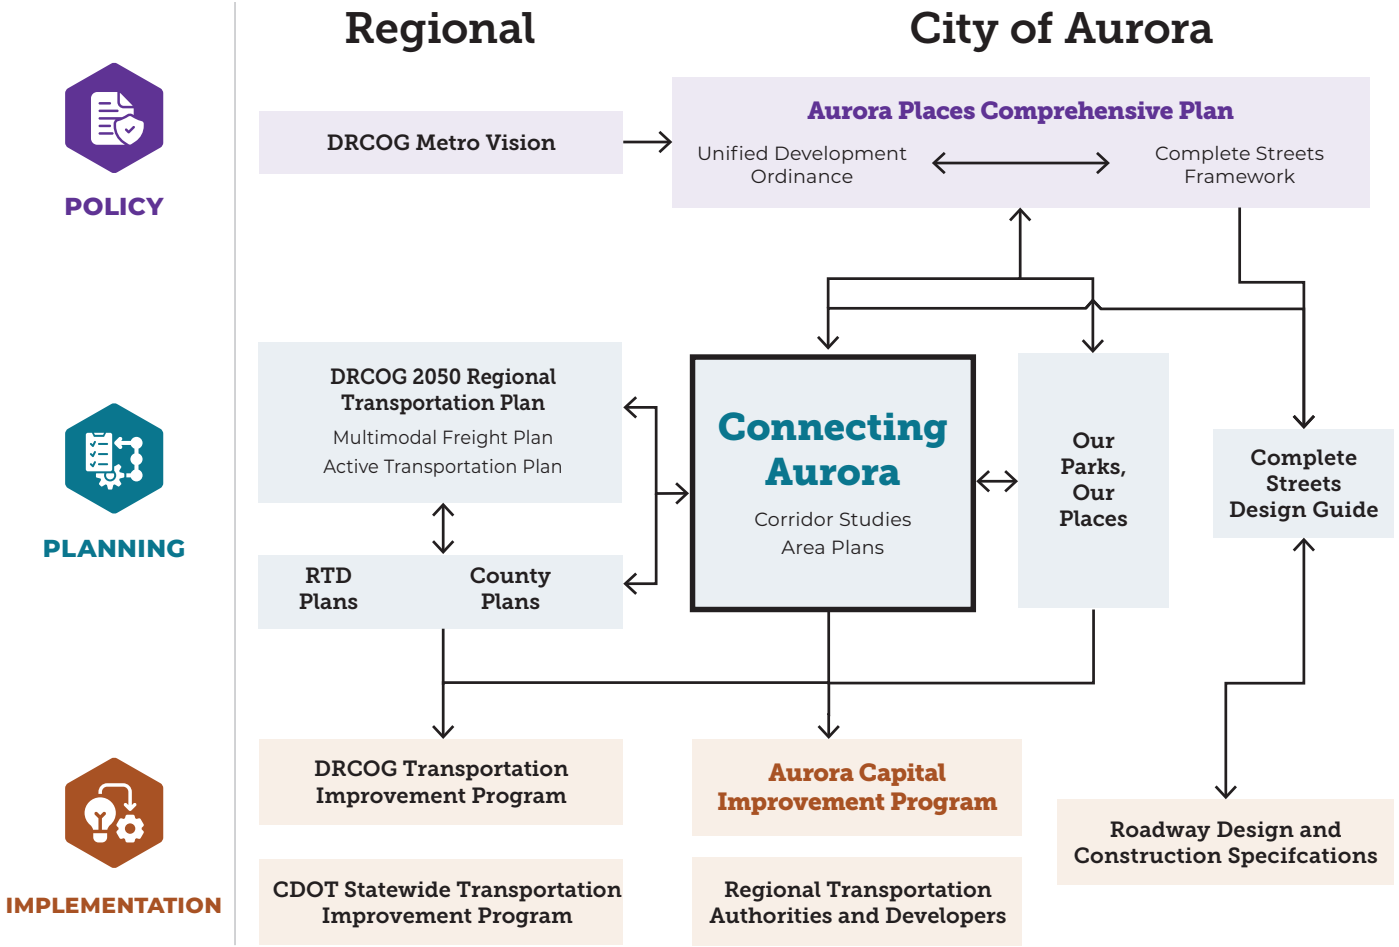
This plan is an educational tool for policymakers about the broader impact of transportation investments, and it empowers the community to actively participate in shaping the city's transportation future.

Learning from our peers

Cities all over the country and around the world are rising to the many challenges posed by changing behaviors, technologies and societal factors that can make moving around cities inconvenient and unsafe. This plan capitalizes on policy and project lessons learned to present feasible and implementable solutions that have a proven track record of success.

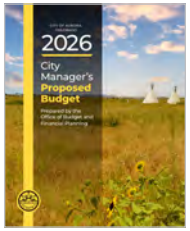
Building on Prior and Ongoing Planning Work

How do the city's plans work together?



Connecting Aurora is part of greater, longstanding city of Aurora and regional planning efforts focused on improving safety and mobility. Previous planning studies were the starting point for Connecting Aurora. These plans articulate past community goals and objectives, previously identified areas of opportunity and design guidelines that must be considered.

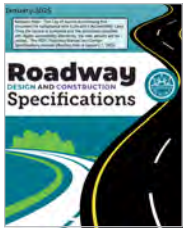
Just as past plans guided the creation of Connecting Aurora, the actions identified in this plan will inform the city's future planning work. Updates will be necessary to Aurora Places, Aurora's CIP, the Unified Development Code (UDO) and city criteria and specifications. Through the Connecting Aurora process, the city's planning and engineering design documents will come to reflect a cohesive and all-encompassing approach to achieving the future vision.



Connecting Aurora is designed to advance broader regional and local goals on transportation, land use, economic development, sustainability and community well-being to achieve a cohesive vision for the future. This plan is the framework for the city of Aurora to be a transportation leader in the region.

Existing Plans and Programs

The city of Aurora, adjacent counties and the Denver Regional Council of Governments (DRCOG) have completed a broad range of planning work that impacts Aurora's transportation system. The plans highlighted here represent a few of the many plans that were incorporated into the Connecting Aurora planning process and how this plan will influence ongoing and future planning efforts.



Key city and regional plans

2026

City of Aurora Operating and Capital Improvement Budget

Aurora's CIP provides funding over a five-year period for capital projects of $25,000 or more. It contains a list of funded projects that can help plan the sequence and funding availability for future transportation capital improvements.

2025

Roadway Design and Construction Specifications

Aurora's engineering standards are used by the city, developers, consultants and contractors so that design and construction projects meet the city's standards.

2021

2050 DRCOG Metro Vision Regional Transportation Plan

Metro Vision establishes a long-range vision and investment framework for the region's multimodal transportation system, including the city of Aurora.

2023

Our Parks, Our Places: Parks, Recreation and Open Space (PROS) Master Plan

The PROS Master Plan presents a community-guided vision for the future of the city's parks, recreational facilities and open spaces, including trails. Trails are critical mobility facilities, safely connecting people to nature and destinations throughout the city.

2020

DRCOG Multimodal Freight Plan

The Freight Plan establishes a vision, action plan and strategic guide to improve the movement of goods more efficiently throughout the region. Aurora has a large industrial presence, especially in the east, and it is important to the city's economy.

2019

DRCOG Regional Active Transportation Plan

The Regional Active Transportation Plan establishes a common vision for bicycling and walking for the Denver region. It provides inspiration and tools to local agencies like Aurora to implement projects.

2019

City of Aurora Unified Development Ordinance

Aurora's UDO presents regulations to ensure that all development in the city of Aurora is consistent with the plans and policies adopted by the Aurora City Council.

2012

City of Aurora Bicycle and Pedestrian Master Plan

The Bicycle and Pedestrian Master Plan is the original coordinated vision and roadmap for accommodating and encouraging bicycling and walking as a viable form of transportation in Aurora. Connecting Aurora continues to build on the plan's recommendations.

Other Notable Plans

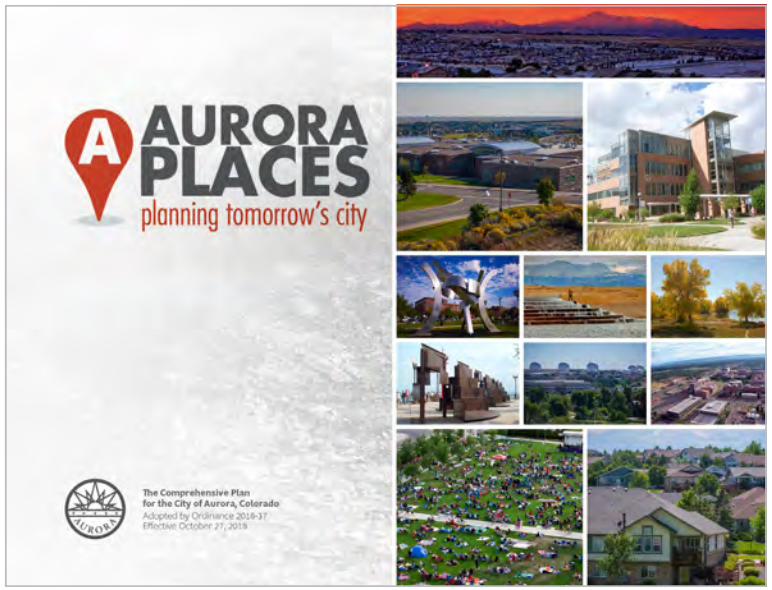
Other corridor and area plans that inform Connecting Aurora include:

- ADA Self Evaluation and Transition Plan Update (2026)
- Adam's County Safety Action Plan (2026)
- Colfax BRT Next (2026)
- Havana Street Corridor Study (2023)
- 13th Avenue Multimodal Corridor Study (2023)
- 64th Avenue Multimodal Transportation and Urban Design Study (2020)
- Northwest Aurora Mobility Study (2018)
- Northeast Area Transportation Study (2018)
- Southeast Area Transportation Study (2007)

Aligning with Aurora's Comprehensive Plan

Connecting Aurora is grounded in Aurora Places, the city's comprehensive plan, ensuring transportation investments advance the community's long-term vision.

Aurora Places, the city's comprehensive plan adopted in 2018, is the community's vision for how Aurora prepares for and adapts to growth and change in the coming years. The plan contains long-range goals, policies and practices to create a strong economy, foster diversity and equity, provide housing for all, support a thriving environment, build a healthy community and preserve an authentic city.

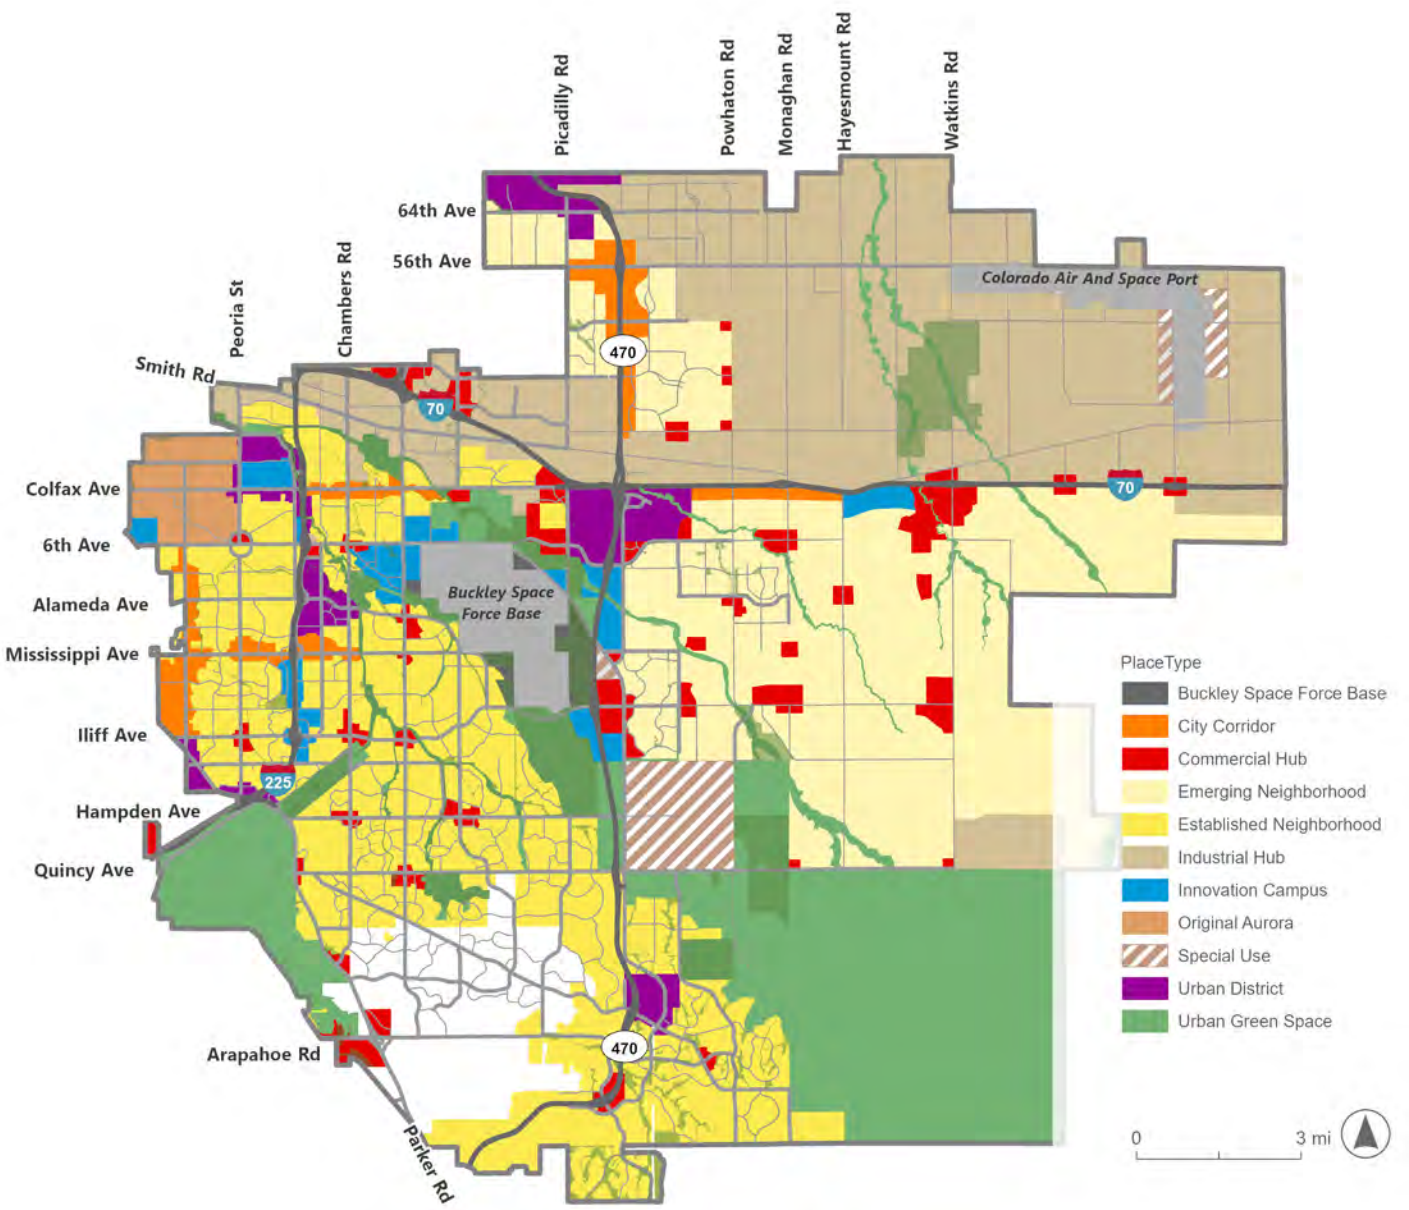


The plan also established a community vision and seven core principles. Each principle frames a core belief and area of focus for the city's planning work. The principle of "Easy Mobility and Active Transportation" and seven associated goals serve as the foundation for Connecting Aurora.

Aurora Places recommends three main practices to achieve the city's transportation goals. These practices include:

- Strategically linking transportation investments to placetypes.
- Creating easy connections between neighborhoods and major destinations.
- Investing in comfortable crossings, sidewalk improvements and bike facilities.

Aurora Places Mobility and Active Transportation Principle



"An easy-to-use transportation network with multiple choices for travel supports a strong economy, healthy community and flourishing environment."

Aurora Places Easy Mobility & Active Transportation Goals

- Establish and maintain an integrated, multimodal transportation system.
- Concentrate development in urban districts to connect them to neighborhoods and other nearby placetypes by public transit, bicycling and walking.
- Provide new street connections and alleviate the most critical points of congestion in developed areas.
- Provide completely connected street networks in developing areas to avoid excessive traffic congestion and maximize mobility choices.
- Develop and extend the local transit network, connecting concentrations of activity.
- Provide comfortable and safe walking and biking routes connected to key locations.
- Provide sidewalks and walking routes that meet the needs of senior and mobility challenged individuals and promote good access to a variety of transit services.

Aurora PlaceTypes

Source: City of Aurora

Placetypes describe different character areas across Aurora. Each placetype includes typical land use mixes, key urban design features and mobility network needs.

Great cities are composed of great places. Aurora Places frames future development and land use as "placetypes." Each of the city's 11 placetypes represent unique, well-defined and desirable places.

Placetypes were used to guide the types of transportation infrastructure, programming and services across the city. Aligning the future transportation network with desired land use optimizes investments and allows for cohesive growth and development. More information on each of Aurora's 11 placetypes can be found in Chapter 4 of Aurora Places.

Defining Key Terms

Transportation

Transportation refers to the movement of people, goods and services from one location to another by land, sea or air. Active transportation refers to travel by non-motorized means like walking, biking or rolling. E-bikes and e-scooters are considered active transportation. Transportation infrastructure includes streets, sidewalks, trails, transit routes and railways.

Connecting Aurora Approach

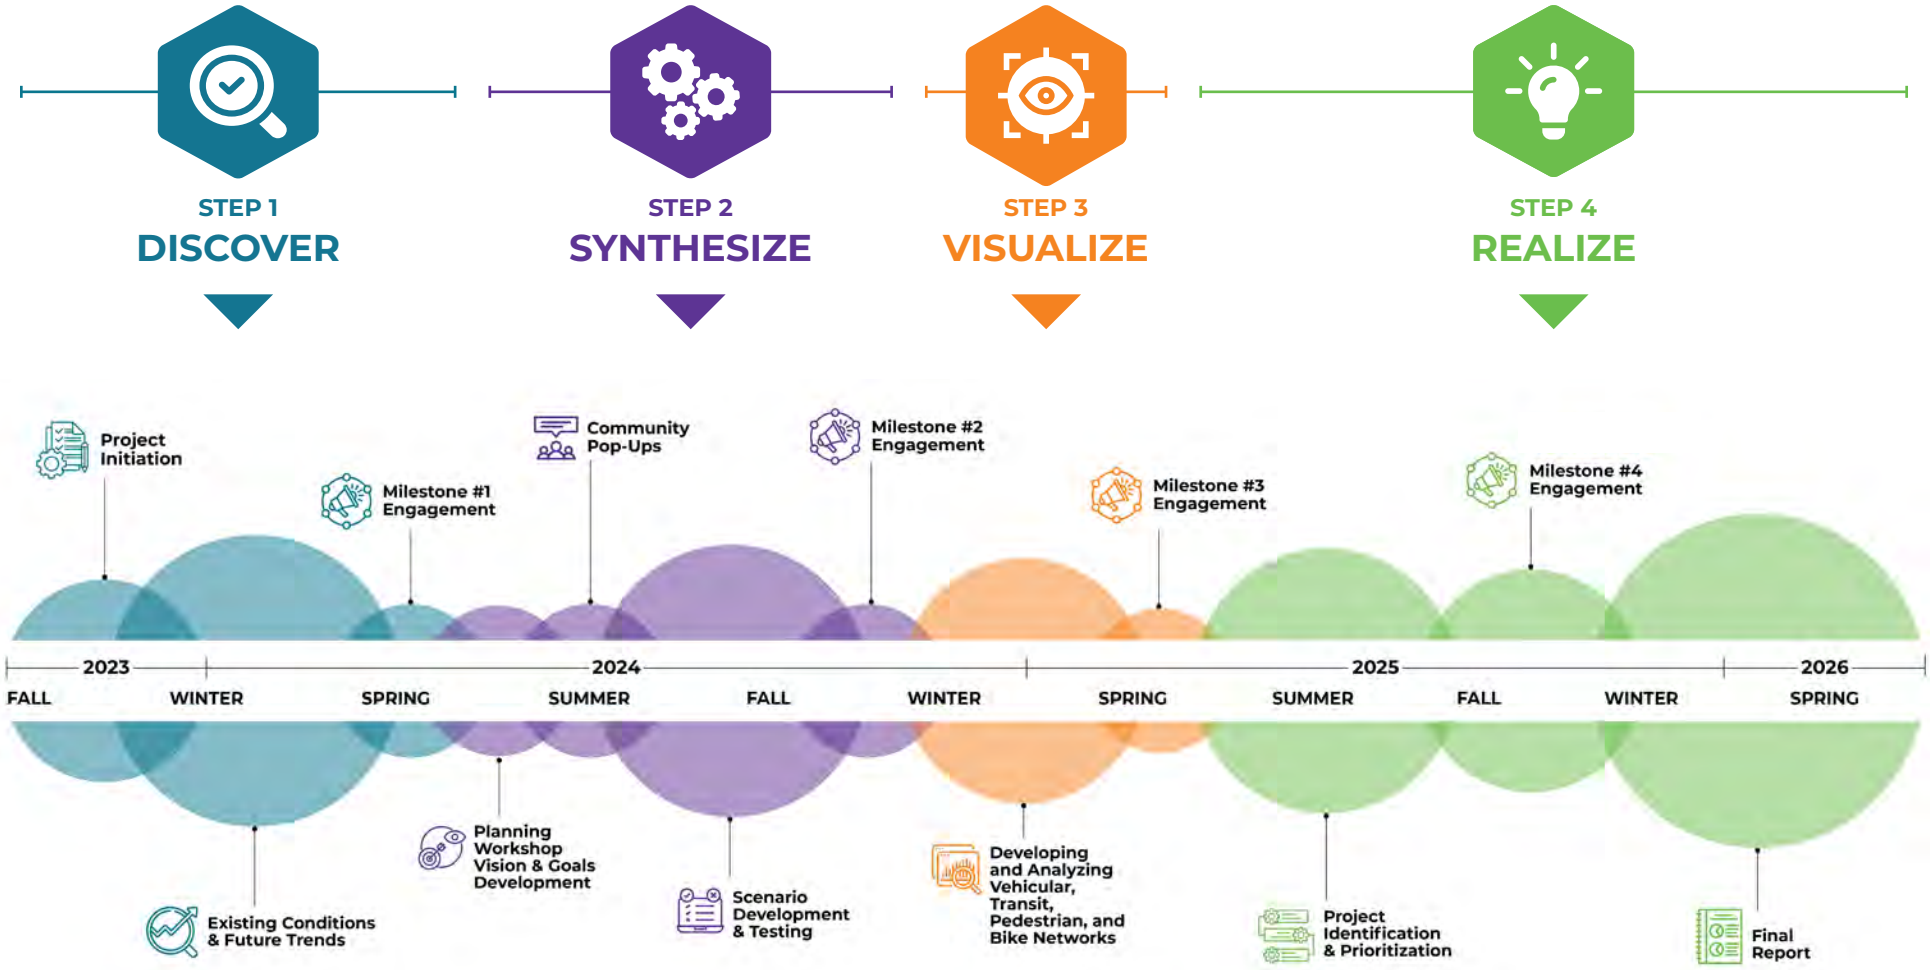
Connecting Aurora looks specifically at the movement of people, goods and services by walking, biking, rolling, riding transit and driving.

Multimodal

Multimodal refers to the different ways people and goods move through a community. Every day, people make choices on how they are going to get to where they need to go. Some drive, while others walk, scooter or take the train. A healthy transportation system provides people with multiple safe, convenient and efficient options to move.

Connecting Aurora Approach

Connecting Aurora considers all types of transportation modes and recognizes that people often use multiple modes of transportation to get to where they are going.



Mobility

Mobility is the ability to move freely and efficiently across the transportation network to access various destinations. It encompasses the availability of different transportation modes and the ease and accessibility of using them.

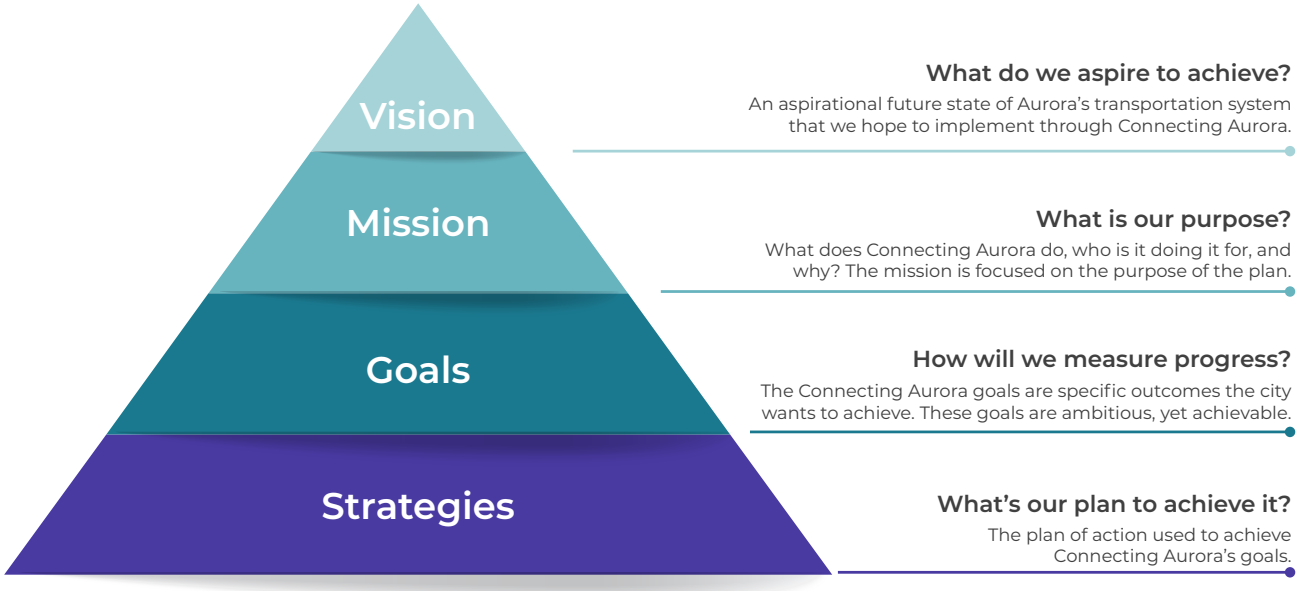
Connecting Aurora Approach

The transportation mobility options considered in Connecting Aurora are safe, reliable, affordable and convenient.

Planning Process and Timeline

Shaping Our Future

Our Shared Vision



Residents, business and community leaders, city staff and policymakers helped shape the vision and goals for Aurora's future transportation network.

Throughout 2024 and 2025, the greater Aurora community provided valuable input on their needs, concerns and aspirations for the transportation system. Their input is reflected in the vision, mission, bedrock practices and goals presented in Connecting Aurora.

The vision for Aurora's transportation future builds on the Aurora Places Comprehensive Plan's principle of "Easy Mobility and Active Transportation."

Definition of Terms

The vision, mission, goals and strategies are structured like a pyramid, with each level building on the layer above it. This hierarchy establishes a clear, logical connection between big-picture direction and on-the-ground implementation.

Our Vision

Aurora safely connects all people to our places for a healthy, sustainable and economically strong community.

Our Mission

The city of Aurora will provide a complete transportation system to meet the needs of all people. The city will engage the public in the delivery of plans, programs, policies, standards and projects.

Our Bedrock Practices

As new plans, programs, policies, standards and projects are successfully developed, city staff will commit to using these practices as the foundation for successful implementation.

- **Focus on People**
- **Modernize**
- **Collaborate**
- **Engage**
- **Be Inclusive**
- **Be Context-Sensitive**
- **Innovate**

Our Goals

Our goals represent specific and measurable outcomes for the transportation system to help us stay focused on actions that help to achieve the vision.

A Transportation System Serving People:

SAFE
People are safe and feel safe traveling in our city.

CONNECTED
People are well-connected to the places they want to go however they choose to move.

RELIABLE
People can depend on all forms of transportation.

CONVENIENT
People can move around our city efficiently and easily.

What this sounds like:

"It would be amazing to have a bus stop in our neighborhood so we could take transit to work."

SURVEY PARTICIPANT

A Transportation System Supporting Overall City Aspirations:

SUSTAINABLE
Infrastructure and services can be built, operated and maintained at high levels, in a fiscally and environmentally sustainable way.

ECONOMICALLY STRONG
The community's economic vitality is supported and enhanced by the transportation network.

HEALTHY
The community is served by transportation that supports a healthy lifestyle and environment.

What this sounds like:

"Lack of pedestrian access limits walkability and access to parks, retail, and recreational walking options."

SURVEY PARTICIPANT

A Transportation System Strengthening Community:

AUTHENTIC
Infrastructure design contributes to the creation of great places and preservation of traditionally unique places.

EQUITABLE
All people have viable transportation choices to meet their needs.

INTEGRATED
People have easy access to a mix of places because land use and transportation are fully woven together.

What this sounds like:

"For the disabled and elderly communities, please increase crosswalk time at all major intersections."

SURVEY PARTICIPANT

Aurora Today

A Diverse City Needs a Diverse Transportation System

Aurora's unique demographics, economics and development patterns play a crucial role in shaping how people move around the city. As a rapidly growing and vibrant community, the city's population includes a wide range of age groups, incomes and cultural backgrounds, each with distinct transportation needs and preferences.

The city's historical development and land use pattern have created challenges to how people can efficiently and comfortably move around. Suburban sprawl, separation of commercial uses and a curvilinear street network have resulted in most trips requiring a car.

This chapter explores how these factors intersect to create a complex transportation landscape and emphasizes the importance of designing a transportation system that can safely and comfortably accommodate the various needs of Aurora's residents, employees, businesses and visitors. By understanding these dynamics, we can build Aurora's future transportation network to be adaptable, accessible and efficient for all users, now and into the future.

Chapter 3 Highlights

TRANSPORTATION NETWORK
The network does not prioritize facilities for those walking, rolling, biking and riding transit.

PEOPLE
The population is growing in size, getting older and becoming more diverse.

ECONOMY
Although the economy is robust, a large portion of the workforce commutes out of Aurora.

DEVELOPMENT PATTERNS
Aurora has three distinct geographies that developed over the last 100 years.

SUSTAINABILITY
How people move through the city has environmental and public health impacts.

PEOPLE MOVEMENT
Most people drive to get around; other modes are used when necessary or convenient.

Notes: See Appendix B: State of the System Report and Chapters 7-11 for more information about existing conditions for each specific transportation mode.

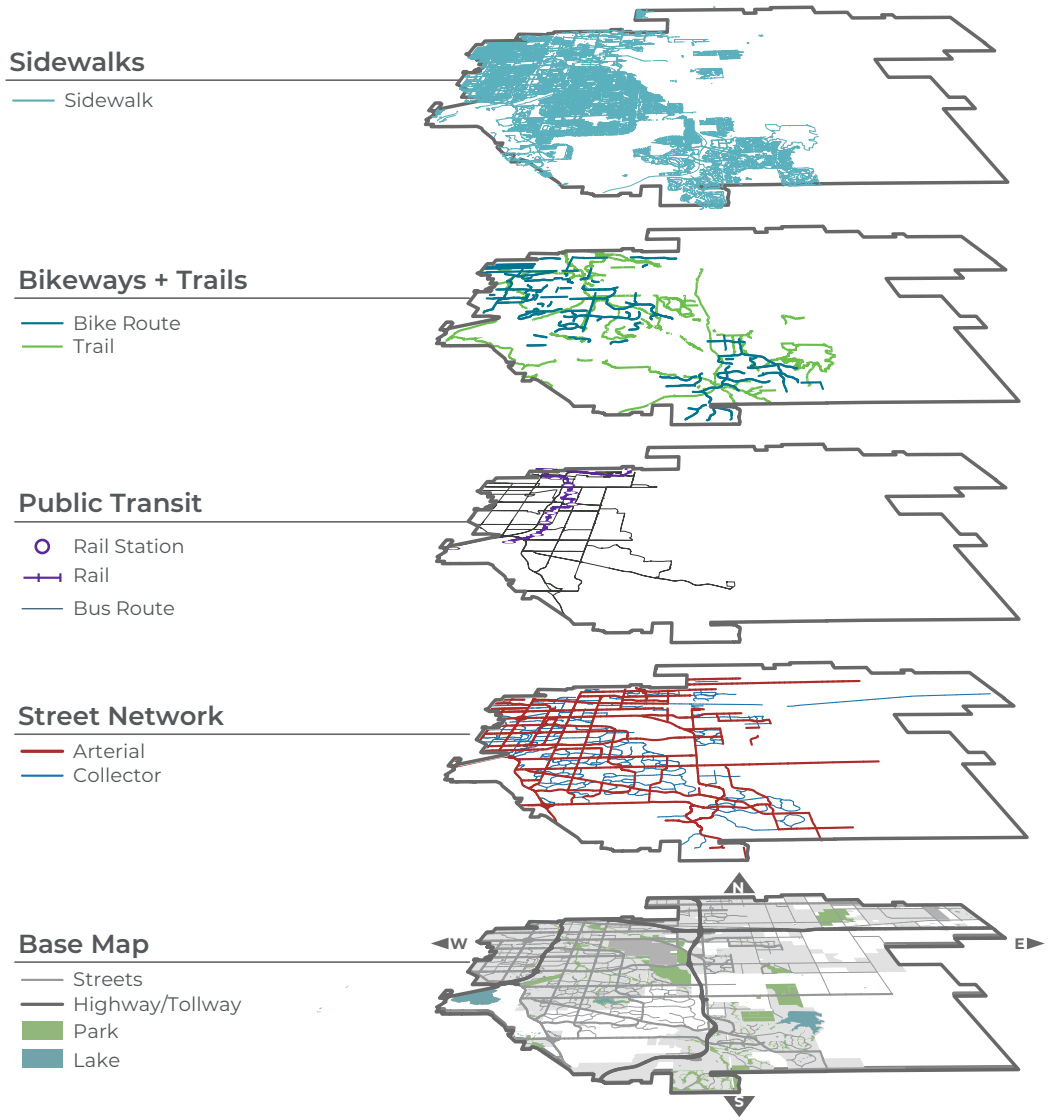
Transportation Serves Communities

Aurora's existing transportation network is multilayered.

Like many U.S. cities, Aurora's land use patterns led to a transportation network that favors efficiency for drivers at the expense of other modes.

Aurora strives to have a transportation system that offers a variety of travel options and convenience to connect all people with work, shopping, recreation and other essential destinations. Aurora must address congestion, pedestrian and bicyclist safety, transit accessibility and aging facilities as the city continues to grow.

Street Infrastructure



Aurora's street network is the backbone for how people move around the city today. The city maintains roughly 1,365 centerline miles of streets. These streets are organized into a network hierarchy that is designed to facilitate movement and access across the city and the greater region. The network includes the following road types:

- Local Streets: Provide access to and from properties.
- Collector Roads: Distribute traffic among neighborhoods and destinations spaced every half-mile.
- Arterial Roads: Serve longer-distance travel at higher speeds spaced every half- to one-mile.

The current street network's high- speed and high-volume arterials isolate neighborhoods from one another and other key destinations.

Aurora's public streets are maintained by Public Works, while medians and trails are typically owned and maintained by PROS, metro districts or homeowners associations.

Aurora's Layered Multimodal Network

More details about Aurora's existing transportation network can be found in Chapters 7-11.

Public Transportation

The public transit network in Aurora is operated by the Regional Transportation District (RTD). RTD provides bus and rail services, connecting residents to key destinations within the city and the greater Denver metropolitan area.

RTD has 24 bus routes that serve Aurora. These include local, limited, regional and airport routes. Service frequency, reliability and coverage remain challenges in established parts of the network, and these issues are even more pronounced in developing areas where transit options are more limited.

The R Line light rail runs along the I-225 corridor, linking key destinations, such as the Anschutz Medical Campus and Town Center at Aurora. RTD operates the A Line and H Line, which provide direct access to downtown Denver and the Denver International Airport.

Aurora has several high-performing routes; however, overall transit ridership tends to be low. This is due, in part, to low service frequency, reliability and coverage. RTD budget constraints have played a role in the location and availability of transit in Aurora. By partnering with RTD, the city can strengthen its understanding of the community's needs, which will lead to improved transit.

Active Transportation Infrastructure

Aurora's active transportation network includes a system of sidewalks, bikeways, shared use paths and trails that support walking, biking and other non-motorized travel.

The city's suburban layout and curvilinear street network have made it difficult to efficiently and safely get around by foot or bike. Missing and insufficient sidewalks, street crossings and bikeways on major streets create gaps in the network. People walking or biking must often take indirect routes on inconsistent active transportation facilities to reach their destination. These barriers create an environment that does not encourage the use of active transportation modes for daily trips.

Aurora boasts a robust off-street, multiuse trail network that supports residents' active lifestyles. Popular trails like the High Line Canal Trail and the Sand Creek Regional Greenway offer scenic and functional pathways that connect to regional trail systems. Most of the city's off-street trails are oriented from southeast to northwest, impacting people's ability to use trails to get around the disconnected parts of the city.

More details about Aurora's existing transportation network can be found in chapters 7-11.

Quick Look at Aurora's Transportation System

Aurora's current transportation system does not meet today's desired vision for the city. To achieve the goals, the city will need to shift how it prioritizes and accommodates all travel modes. In later chapters, you will see how today's transportation system can be reimagined to perform more effectively for all people.

Street Network

4,400 lane-miles of streets

394 signalized intersections

Public Transit

75% of population within half-mile of transit stop

8% of transit stops with shelters

Active Transportation

166 miles of missing sidewalks

82 miles of on-street bikeways

Safety (2018 to 2022)

56% increase in fatal crashes

48% of fatal crashes occurred at or near an intersection

Travel Patterns

Understanding how people move around Aurora, whether by car, transit, bike or on foot, can help the city better plan for a transportation system that meets the diverse needs of its residents and visitors.

Mode Share

Mode share depicts the percentage of people in Aurora who travel by foot, bike, transit and car. Commute patterns, although they only represent a small proportion of all trips made every day, are among the most predictable and concentrated travel type, as they have a clear morning and evening peak period. How people choose to commute to work has a significant influence on the city's traffic patterns.

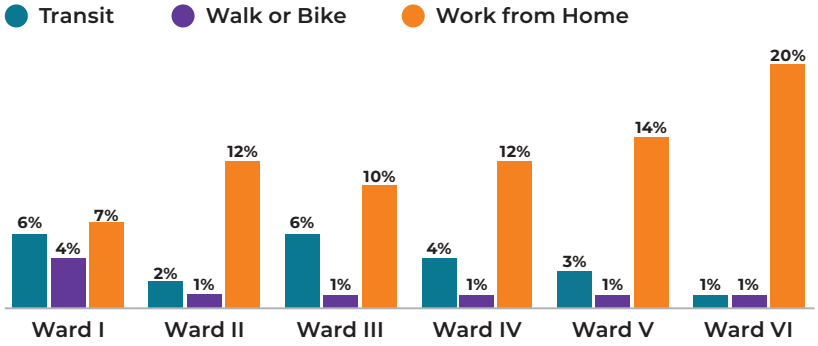
In Aurora, 81% of commute trips are made by car. This is 20% higher than the number of commute trips made by car in Denver. U.S. Census data shows that a higher percentage of people in Aurora ride transit than those in the Denver metropolitan area overall. However, a smaller proportion of Aurora's population walk, bike or work from home than the metropolitan area.

Mode share varies by ward. Among the city's six wards, Ward VI has the highest proportion (21%) of residents working from home. This ward also has the highest reliance on cars. Residentss ability to walk, bike and ride transit to destinations from their homes is constrained by the ward's suburban development pattern, limited multimodal infrastructure and varying levels of car ownership.

Wards I and III have the highest transit mode share (6 %). These wards are generally areas with high transit propensity and better access to bus and rail services. Ward I also has the most walking and bike trips (3.6%), likely due to its more compact, urban layout despite older, substandard facilities.

Trip Patterns

Most trips in Aurora begin and end within the same ward. This reflects the independence of each ward and the availability of local services and destinations.



Ward VI, which is larger and suburban in character, has the highest proportion of trips staying within the ward (71%). This is likely due to distance from other parts of the city and the availability of shopping and services within the ward. Ward III, by contrast, has the lowest proportion of trips that stay within the ward (51%), suggesting residents must travel outside the ward to access their daily needs.

Northwest Aurora, or Wards I, III and IV, have higher proportions of trips completed by people of color, people of lower income and/or those without access to a car. This demonstrates a need to invest in pedestrian, bicycle and transit infrastructure to improve trip quality, efficiency and access to key destinations within these wards.

Meanwhile, Ward V has a mix of characteristics related to the other wards, likely due to its position in the city and the timing of its development.

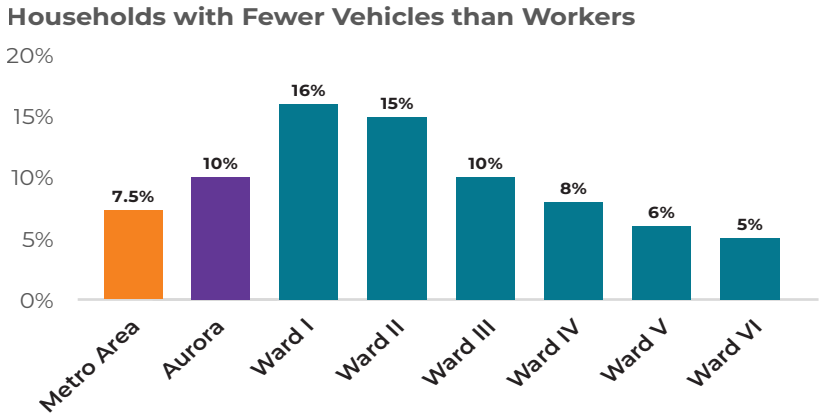
How are People Commuting?

Most residents commute by car. Wards I and III have a higher share of people commuting by transit or walking and biking.

Source: U.S. Census Bureau, American Community Survey, 2022

Average Daily Weekday Trips

For most Aurora residents, daily trips typically begin and end within the same ward, reflecting a tendency to stay close to home to access everyday goods and services.



From/ To	Ward 1	Ward II	Ward III	Ward IV	Ward V	Ward VI
Ward I	**96,000**	13,000	24,000	11,000	6,000	3,000
Ward II	15,000	**69,000**	19,000	11,000	14,000	10,000
Ward III	23,000	15,000	**88,000**	28,000	11,000	4,000
Ward IV	11,000	10,000	28,000	**85,000**	18,000	4,000
Ward V	6,000	11,000	11,000	18,000	**84,000**	13,000
Ward VI	2,000	6,000	4,000	4,000	14,000	**82,000**

Car Access

Households with access to more than one car have greater options and flexibility than those with limited access to or without a car. Households without a car may rely on transit, walking or biking to get around. Car availability can impact the opportunities, like jobs and education and essential services a person can access reliably.

On average, Aurora households have 1.9 cars, mirroring the average cars per household in the metropolitan area. As many as 10% of households in Aurora have fewer cars than workers. This is higher than the greater region's 7.5% of households with fewer cars than workers. Aurorans rely more heavily on alternative modes of transportation to get around. This disparity in car access is most pronounced in Ward I, II and III. These areas require focused multimodal investments, such as public transit service improvements and pedestrian and bicycle infrastructure, so they have equitable access to opportunities.

Traffic Safety

Threats, real and perceived, to personal safety can profoundly impact how people choose to travel. Between 2018 and 2022 Aurora experienced an increase in fatal crashes. Over one-third of those crashes involved a pedestrian or bicyclist. Most of the fatal and serious injury crashes occur on the city's arterials. Because of this, most of Aurora's arterials are identified in DRCOG's High Injury Network. Crashes and fatalities cannot be ignored as Aurora works to encourage walking and biking throughout the city.

Aurora is participating in the Adams County Comprehensive Safety Action Plan, which will identify multimodal safety improvement projects for both Adams County and the City of Aurora. A draft of the plan is anticipated to be released in 2026.

According to the CDOT 2022 Problem Identification Report, Adams and Arapahoe counties were within the top five counties for the highest number of fatalities and serious injuries from traffic crashes in Colorado.

Perceptions of safety also impact Aurorans' willingness to use transit to travel through the city. 10 percent of community members that responded to a Connecting Aurora engagement survey shared that they do not ride transit because they do not feel safe.

Transportation Supports City Aspirations

Economy

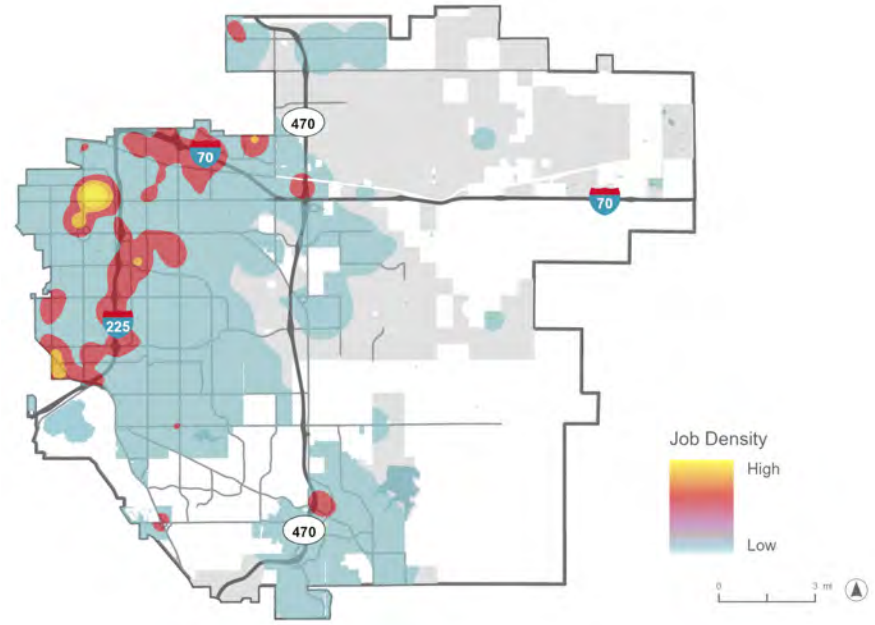
There are more Aurorans commuting out of the city for work than those who work within the city.

Aurora's economy is diverse and rapidly expanding. The largest drivers of economic growth are the Education, Health Care and Social Services sectors. The city attracts a dynamic workforce from across the region and the country. Major employers include Buckley Space Force Base, the University of Colorado Anschutz Medical Campus and a growing network of small businesses. The city's economic diversity generates a wide range of transportation needs. Workers need safe, reliable, convenient and efficient commute options; and freight must be able to move goods efficiently across the city and region.

There are about 165,000 jobs in Aurora. From 2010 to 2022, the number of jobs increased across all industries by 49%, amounting to annual growth rate in the number of jobs of 3.4%. This economic growth outpaced the Denver metropolitan area, which grew at 2.3% annually.

Similar to other cities in the metropolitan area, Aurora has more workers who commute out of the city for work than commute in. This is likely because Aurora's robust

Commuter Flows



More Aurora residents work elsewhere in the metropolitan area compared people who commute to Aurora for work.

Commuter Flow	Aurora	Thornton	Lakewood	Denver	Centennial
Inflow	123,000	32,000	**80,000**	**390,000**	**66,000**
Within	41,500	7,000	14,000	164,000	6,000
Outflow	**144,000**	**64,000**	65,000	194,000	50,000

Denver Metropolitan Area
$570,300

Source: U.S. Census Bureau, American Community Survey, 2022

affordable housing stock attracts workers from across the region. Roughly 25% of the workforce lives and works within Aurora.

Employment is concentrated in four key areas of the city: University of Colorado Anschutz Medical Campus, Nine Mile Station, the I-225 corridor between Yale Avenue and 6th Avenue and the I-70 corridor between Chambers Road and Tower Road. A high-quality transportation system connecting to these locations will bolster Aurora's economy.

About one-third of transit riders are in the service industry. As a population that does not have the option to work from home and often has rigid start times, dependable and consistent transit is necessary. Frequent, dependable transit is essential for supporting all people who rely on transit to get to work.

Aurora residents on average spend 15% of household income on transportation, a slightly higher percentage than Denver residents. This is likely due to Aurora's development patterns and car dependency. Combined, residents spend 38% of their income on transportation and housing a year. More than 17% of residents are considered "burdened" by their housing and transportation costs.

As Aurora continues to grow, aligning transportation investments with economic development priorities will foster long-term prosperity and improve the quality of life for residents, visitors, workers and businesses.

Fiscal Health

Aurora's transportation system is a complex mix of public and private facilities that require maintenance and upkeep, as well as continued investment, to maintain them in a state of good repair.

Aurora's population and employment growth and increasing infrastructure needs require a sustainable and diversified financial approach to support the city's long-term transportation goals. There are several challenges that threaten the long-term financial investment in the city's transportation infrastructure.

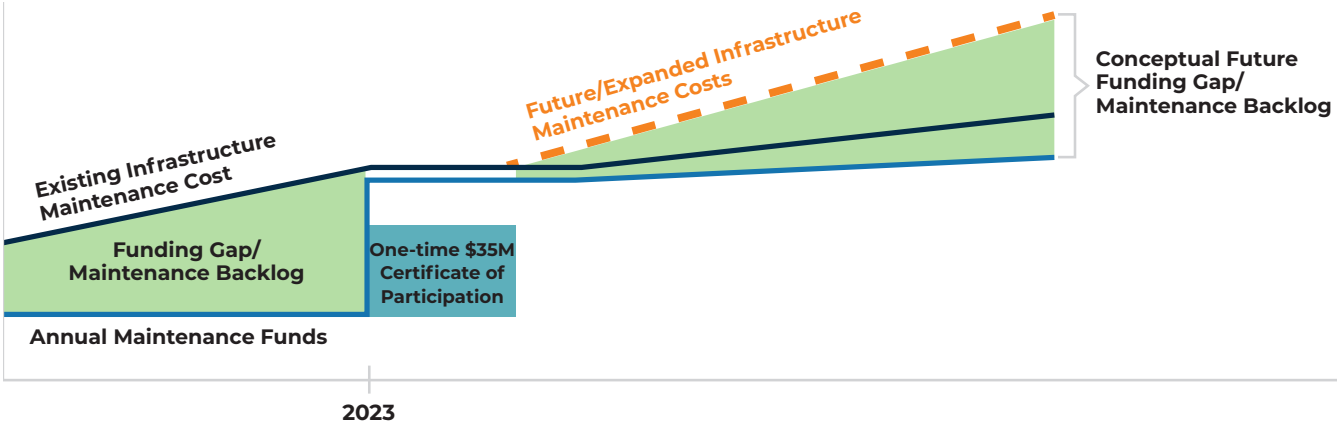
Mismatched Development Patterns

Suburban development patterns common across U.S. cities can complicate how transportation infrastructure is planned, delivered and maintained. Lower-density, car-oriented development often requires more infrastructure, increasing both the upfront construction costs and long term maintenance obligations. When development occurs, infrastructure investments may be fragmented, creating gaps in connectivity and limited multimodal options.

In Aurora, similar to other growing communities, transportation infrastructure is frequently delivered in response to development. This can create timing mismatches between when travel demand exists and where infrastructure is built. This can lead to incomplete networks, indirect travel routes and delayed improvements.

A variety of funding mechanisms are used to support infrastructure in developing

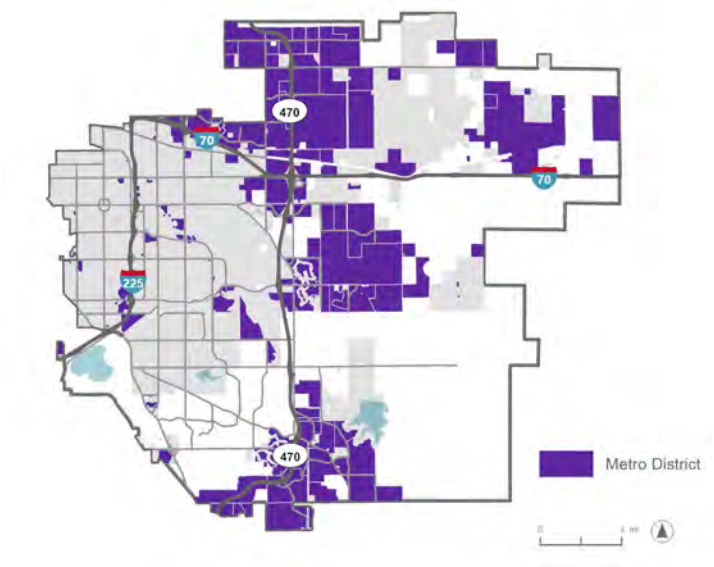
What Aurora Should Spend to Maintain Roadways



The estimated cost for Aurora to maintain its streets is higher per job and resident than in other cities in the metropolitan area. To maintain a lane-mile of roadway, a City should spend $24,000 per year on average (if the road is already in good condition), according to the American Society of Civil Engineers Infrastructure Report Card.

City	Population	Number of Jobs	Roadway Lane Miles	Total Annual Cost to Maintain	Population Density (People per Square Mile)	Annual Cost to Maintain per Job + Resident
Aurora	**395,000**	**165,000**	**4,400**	**$105,600,000**	**2,400**	**$187**
Thornton	145,000	38,000	1,300	$31,200,000	3,800	$171
Colorado Springs	488,000	367,000	5,700	$136,800,000	2,500	$160
Lakewood	156,000	80,000	1,400	$33,600,000	3,500	$142
Fort Collins	170,000	197,000	2,000	$48,600,000	2,900	$130
Denver	715,000	554,000	5,700	$136,800,000	4,600	$108

Source: Connecting Aurora analysis; data from year 2023



Aurora's Future Funding Gap

Without additional funding to maintain its streets, the city will need to continue finding new ways to keep its streets in a state of good repair.

Funding Eastern Aurora's Transportation System

As Aurora grows, metro district financing increases in importance.

Maintenance Funds

$35 M Certificate of Participation (COP) funds were approved by the Aurora City Council in 2023 to catch up on deferred street maintenance.

$4 M approximately per year in maintenance expenses for traffic signals, lighting, and signs and markings that are currently unprogrammed.

Project Funding

- Many new transportation projects in Aurora are funded through development.
- New transportation projects compete for funding with other city needs. Approximately $1.5 million per year is set aside for small transportation projects.

areas, including metropolitan districts and regional transportation authorities. Metropolitan districts are a financing tool used to fund the initial construction of roads, utilities and other infrastructure needed for new development. Transportation authorities, like the Aerotropolis Regional Transportation Authority plan, finance and deliver regionally significant transportation improvements in areas where growth outpaces available city funding. After construction, long-term maintenance is generally the city's responsibility.

Suburban development patterns can exacerbate challenges, such as roadways that exceed near-term demand, gaps between existing and new infrastructure and rising maintenance needs across an expanding network. These issues are compounded by fiscal constraints, annual budget variability and new development that may not immediately generate sufficient tax revenue to cover long-term maintenance costs. Addressing these challenges requires closer coordination between land use planning, infrastructure design and funding strategies so that future investments support a connected, multimodal transportation system and advance Aurora's place-oriented vision.

Limited Funding Dedicated to Transportation

Unlike peer Colorado cities like Colorado Springs or Denver, Aurora does not levy taxes specifically earmarked for transportation. Aurora primarily funds transportation infrastructure projects through general fund allocations, state Highway User Tax Fund (HUTF) distributions and limited impact fees. The city's reliance on general fund allocations makes the transportation budget vulnerable to economic fluctuations and changes in city priorities during the annual budgeting process.

The city has not yet been successful at getting voter approval for a general obligation bond. These bonds are useful for financing large transportation projects that strongly align with community values.

The city does, however, collect a transportation capital impact fee from new construction of single- and multi-family developments at the time of permit and is used to build regional transportation infrastructure.

While the city receives transportation funding through regional, state and federal grants, these contributions are relatively modest in comparison to the dollars needed for annual upkeep, capital improvements and future maintenance obligations. Aurora spends less per capita on transportation than its peers because of funding limitations.

Limited Capacity for Capital Projects

Aurora's capital program outlays for transportation are low compared to peer cities. Without additional funds, the city's CIP relies heavily on general funds and HUTF, both of which are subject to volatility. Outside of development, metropolitan districts and authorities, Aurora's reliance on general and formula funds limits the city's ability to finance large, multiyear projects essential to meet long-term demands. Other cities in Colorado have enacted policies that create supplemental revenue sources. These policies aid in closing transportation funding gaps.

Community Health

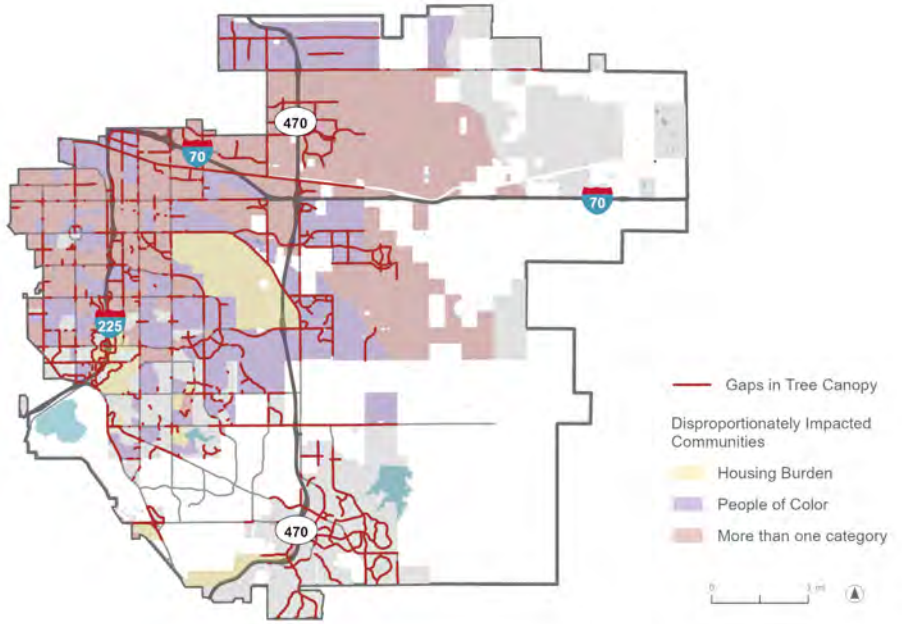
A transportation system can influence community health by providing access to parks and trails, encouraging physical activity, cooling off the streets and keeping the air clean.

Physical Health Impacts

People's health and wellness can be directly impacted by development patterns, mode choice and street design. While Colorado is considered to be among one of the most active states, ranking second in overall physical activity, about one-fifth of adults in Aurora are physically inactive in their leisure time. This number is higher than the Colorado average of about 18%.

Encouraging people to walk and bike to destinations around the city has positive public health impacts. Active transportation can improve physical fitness, reduce incidences of cardiovascular and respiratory disease and improve mental health.

Aurora has a robust trail and park system, with roughly 120 miles of trails and more than 100 parks. These facilities support an active lifestyle by providing residents and visitors with safe, dedicated places to walk, bike and exercise. Despite the number of trails and parks, many areas of the city lack connected active transportation facilities. Increasing the availability of sidewalks and bicycle facilities around parks and trails can help encourage residents to integrate movement into their daily lives. Walking and biking also have a positive impact on the environment, reducing greenhouse gas (GHG) emissions, noise pollution and energy dependence. Reducing dependence on cars can improve air quality and equitable transportation access throughout Aurora. The ability to comfortably and safely use active modes of transportation will depend on conditions in the natural and built environment.



Heat

Aurora is expected to experience higher instances of extreme heat, according to recent weather trends. Hotter temperatures can impact the modes people choose to get around. While some people may be able to opt out of walking, biking and waiting for transit on a hot day, there are many people in Aurora that may not have the choice to stay out of the heat to get to their daily destinations.

A "hot day" is any day with a high temperature "feels like" temperature of 91 degrees Fahrenheit (°F) or higher. The number of hot days is expected to more than double over the next 30 years, from 7 hot days in 2024 to 18 hot days in 2054.

Tree Canopy Gaps Through a Health Equity Lens

Most arterial and collectors without trees are in communities with poor Environmental Justice Index scores.

Urban Heat Island Severity

The areas with the highest urban heat island severity is concentrated around I-225, I-70 and along major corridors, such as Havana Street, Chambers Road, Mississippi Avenue and Hampden Avenue.

Source: Trust for Public Land, 2023

Heat

Increasing 'Hot Days'

The number of "hot days" is expected to more than double in Aurora over the next 30 years, from 7 hot days in 2024 to 18 hot days in 2054.

Source: National Climate Assessment Interactive Atlas Explorer

Intense heat also can negatively impact Aurora's street infrastructure. Heat can cause pavement and rail lines to buckle, increasing maintenance costs and potentially disrupting travel. Intense heat can exacerbate the urban heat island effect as hard infrastructure, such as asphalt roads, absorbs and re-emits heat into the environment. Residents who rely on walking, biking or riding transit to travel around the city are more likely to be harmed by extreme heat.

Air Quality

The transportation sector is the largest contributor of GHG emissions in Colorado, representing nearly one-quarter of the state's emissions. Driving accounts for a sizable portion of the sector's total emissions. Colorado is committed to reducing GHG pollution by 100% by 2050, compared to 2005 levels. Aurora has a role in helping the state achieve this ambitious goal.

Reducing transportation-related GHG emissions is, in part, linked to providing a well-designed public realm and active transportation system that entices people to walk, bike and ride transit instead of drive through Aurora.

Tree Canopy

Street trees are a critical part of Aurora's urban infrastructure, providing environmental, economic and public health benefits that support a safe and active city.

To maximize these benefits, trees should be placed where site conditions allow them to survive and thrive, taking into account available space, utilities, roadway design and long-term maintenance needs.

When appropriately located, such as in planting strips and medians, trees can provide shade and a buffer for people walking, biking and waiting for transit. A healthy tree canopy also helps reduce urban heat island effects and improves air quality, supporting to cooler, cleaner streets.

Tree canopy coverage is not evenly distributed across the city. Many main streets in central and original Aurora lack sufficient space or conditions for healthy tree growth and are therefore more vulnerable to extreme heat and air pollution.

Water Management

Water in Colorado is becoming more scarce due to the loss of annual snow pack and reduction in rainfall. Aurora is preparing for this new reality through public realm initiatives with water conservation benefits. For example, the city's commitment to encouraging compact development and restricting turf in new developments helps responsibly manage the city's water resources

Aurora's transportation system can play a role in water conservation. Streets account for a large share of the city's impervious surfaces, where water is prevented from soaking into the ground.

People

Aurora is the most diverse city in Colorado, with a population that spans multiple generations and cultural backgrounds, all with unique transportation needs and challenges.

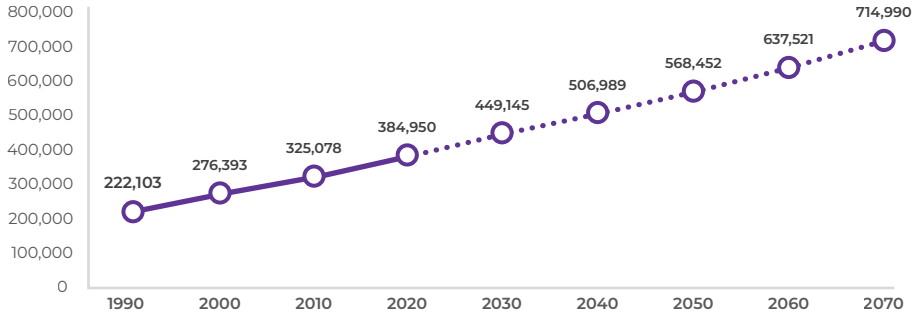
Understanding Aurora's demographic composition is essential to build a transportation system that works for everyone. Age, culture, race and other sociodemographic traits can influence where people go and what transportation mode they rely on most. Connecting Aurora recognizes and celebrates these differences by addressing service and infrastructure gaps, reducing barriers to safe and efficient travel and increasing mobility options.

Population Growth & Future Demand

Aurora's population has grown significantly in recent decades, and projections show continued growth into the future. Rapid growth has placed increasing pressure on the city's transportation system. This is especially true as Aurora continues to see an expansion in development in the easternmost areas of the city.

Meeting the needs of a growing population requires expanding the transportation choices and improving connections among residential areas, job centers, schools and commercial hubs. If Aurora hopes to attract and retain talent for local and prospective businesses, it must consider that this population prefers cities with high-quality multimodal options.

Age

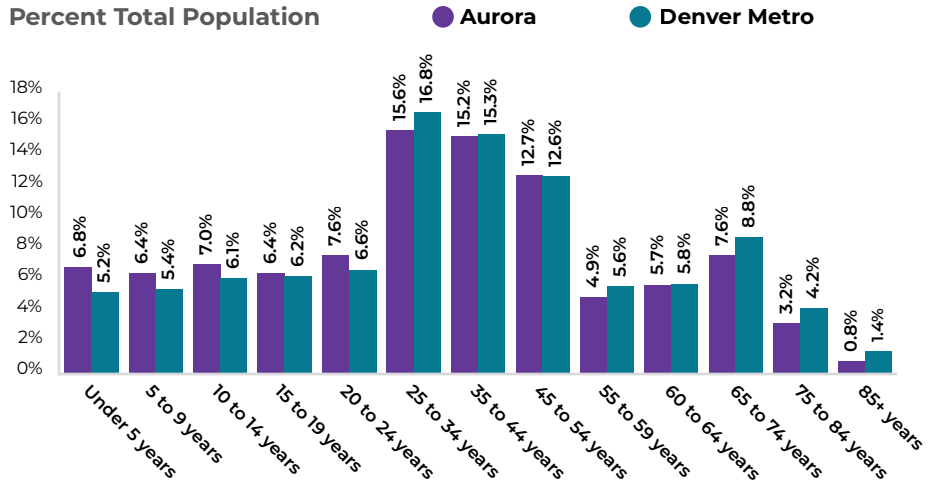


Aurora strives to be a city where people of all ages can safely travel to the places and the destinations they need and want to get to every day.

Roughly one-quarter of the population is under the age of 18, and a growing share of the population is over 60 years old. Aurora's population over age 65 increased from 28,000 in 2010 to 45,800 in 2022. Aging adults need accessible transit amenities and services, improved pedestrian infrastructure and easy-to-navigate transportation technology to maintain mobility and independence.

About 20% of the city's population is under the age of 15. Youths, especially those too young to drive but old enough to travel short distances independently, require safe routes for walking and biking to schools, parks, community centers and friends' homes. Youth-friendly transportation infrastructure gives parents peace of mind, knowing that their child has access to facilities that prioritize their safety.

Population Growth

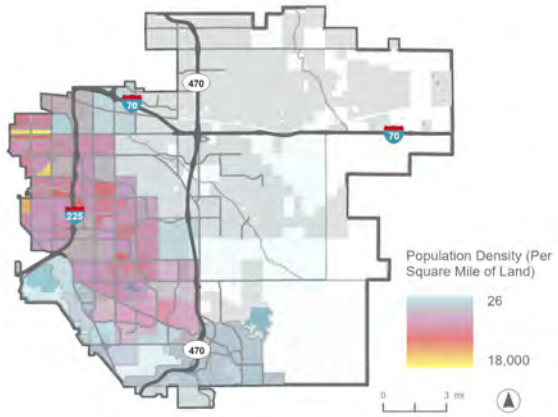


Aurora's population is rapidly growing and is projected to nearly double in 30 years. How Aurora chooses to grow to support the population will impact the transportation system.

Source: City of Aurora

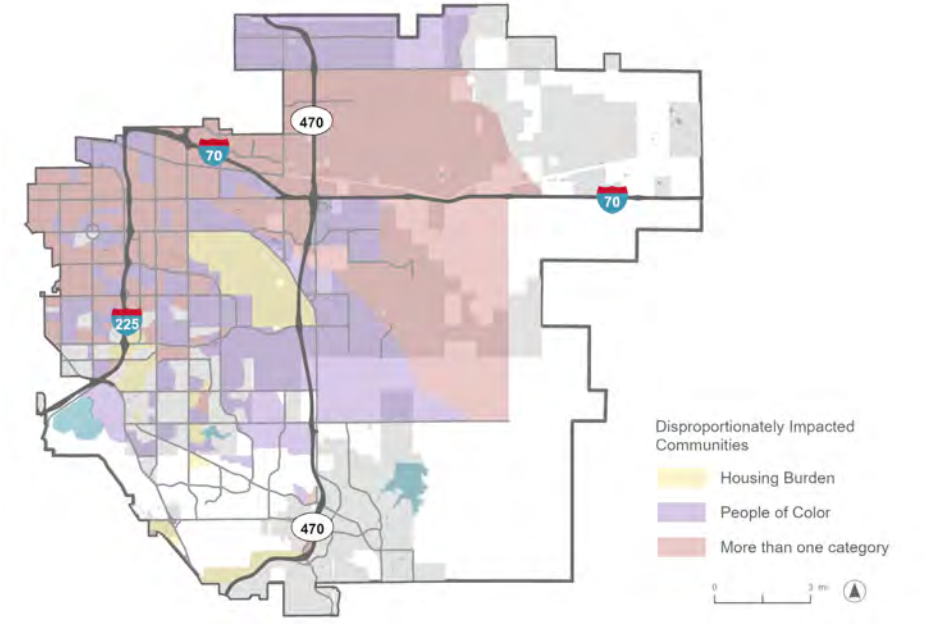
Age Distribution

Aurora's population tends to be younger than the metropolitan area. Children and young adults require safe pedestrian and bicycle infrastructure to move around independently.



Source: U.S. Census Bureau, American Community Survey, 2022

Population Density



The population is concentrated in western Aurora. High-density areas often have destinations that are closer together, making riding transit, walking, rolling or biking more viable options.

Source: U.S. Census Bureau, American Community Survey, 2022

Impacted Communities

Nearly 40% of Aurora residents fit more than one burden category. These populations are more likely to rely on alternative forms of transportation.

Source: Colorado Department of Public Health and Environment, 2024

Cultural & Racial Diversity

More than half of Aurora's population identify as people of color. The city has large Black, Hispanic and Asian communities. Aurora has welcomed immigrants and refugees from around the world, particularly from Africa, Central America and Asia. This diversity enriches the city but also presents unique transportation needs.

For many immigrant and refugee communities, language barriers, limited access to personal cars and economic constraints influence how they move around the city. Areas with high concentrations of diverse populations may require enhanced transit services, multilingual outreach and targeted infrastructure improvements so there is equitable access to the transportation network.

Disproportionately Impacted Communities

The state of Colorado defines Disproportionately Impacted Communities as those that may have one or more of the following characteristics:

- Low-income.
- Persons of color.
- Housing cost-burdened.
- Linguistically isolated.
- Highly impacted by environmental and/or health burdens.
- Comprised of mobile homes.
- On tribal lands.

Areas with higher concentrations of vulnerable people and communities require transportation investments that reduce barriers and increase access to transportation opportunities.

Race and Ethnicity

Aurora is a diverse community, with people of all races, ethnicities and nationalities. Multicultural areas likely require enhanced transit services and multilingual outreach to meet community needs.

Development Patterns

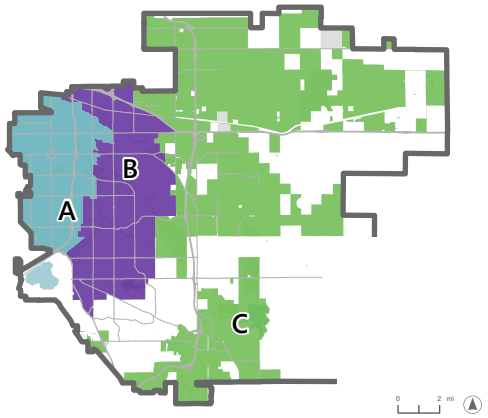
Aurora's past development patterns have created a car-centric transportation network; now the city requires multimodal solutions to meet growing social and economic demands.

Aurora has grown as three distinct regions, each with different development patterns and street configurations: West Aurora (Sub Area A), Central Aurora (Sub Area B) and East Aurora (Sub Area C).

West Aurora was platted in the 1950s and 1960s in a street grid layout. Homes lined local streets, while arterial and collector streets were designed for commercial and multifamily frontage. This area commonly has narrow sidewalks and large gaps in the sidewalk network.

Central Aurora was designed in a typical suburban pattern with large irregular lots that are oriented around curvilinear streets in the years following the late 1970s. Residential expansion and single-use zoning resulted in a car-centric transportation network with wide roads and limited connectivity to schools, parks and grocery stores, especially for pedestrians and bicyclists.

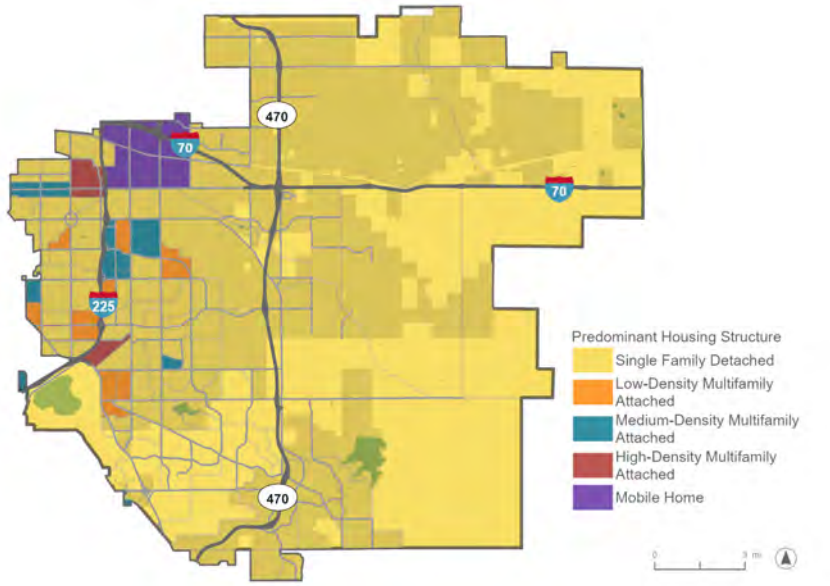
East Aurora is somewhat less developed than West and Central Aurora; however, the newer developments continue to reflect the suburban character, with limited transit options and longer travel distances among homes, jobs and daily needs.



This development approach has strained the transportation system, making it more expensive and difficult to properly maintain. As more planned developments are built, their network design should align with the vision and goals set out in Aurora Places and Connecting Aurora, along with other code, criteria and policies.

Overall, 52% of Aurora's neighborhoods are considered "location inefficient," meaning they are not close to jobs and services, and they lack transportation choices. Additional improvements, especially bicycle and pedestrian improvements, are needed to enhance connections to various destinations.

In recent years, Aurora's development patterns have evolved, with increased mixed-use development, urban centers and higher-density housing. Areas like the Anschutz Medical Campus and the Aurora City Center have become significant employment and commercial hubs, creating new demands on the transportation system. These centers of activity require multimodal solutions, such as enhanced public transit, bicycle infrastructure and pedestrian-friendly streetscapes that provide safe and efficient access for



Aurora Subareas

Aurora has developed over time with three distinct subareas - (A) West Aurora, (B) Central Aurora and (C) East Aurora.

Housing Density

High-density, multifamily housing is clustered in northwest Aurora near the Anschutz Medical Center and Colfax Avenue. Low-density single-family detached housing is common throughout West and Central Aurora.

Source: U.S. Census Bureau, American Community Survey, 2022

residents, workers and visitors. Eastern Aurora is largely a transit desert, meaning there are limited, if any, transit services in the area. This increases vehicle miles traveled (VMT) and GHG emissions by travelers reliant on cars for travel.

Residential

Housing types (single-family homes, apartments or mixed-use developments) directly influence people's travel behaviors and demand for transit services. In Aurora, the low-density neighborhoods in Central and East Aurora generate more car trips because there are greater distances between homes, jobs and services. Conversely, Aurora's denser neighborhoods in West Aurora support more trips by foot, bike or transit as they are closer to employers and services and can be more effectively served by public transit.

Construction of single-family and multifamily homes significantly increased over the last decade with new projects in northeast Aurora along E-470, such as The Aurora Highlands, High Point, Painted Prairie and Windler developments. There has also been infill development within Central and northwest Aurora.

Commercial & Retail

Compared to Aurora's healthcare and industrial markets, office space and retail remains relatively small with annual growth rates below 0.3%. Most of the recently developed office space has been on the Anschutz Medical Campus, while retail is clustered around major corridors, such as Colfax Avenue and Havana Street.

Historically, these commercial areas have been car-oriented, with expansive parking lots and direct access to major roadways for driver convenience. This car-centric design has influenced how people access these commercial areas and created barriers for those without cars.

As Aurora embraces more mixed-use, walkable development, street designs need to integrate multimodal infrastructure for safe and convenient access for people walking, biking or riding transit.

Industrial

Aurora has attracted 64% of the metropolitan area's industrial developments. Industrial development has grown over 5% annually since 2010. Industrial areas are concentrated in northeast Aurora along key corridors, such as I-70 and E-470. These industrial zones generate high volumes of truck traffic, placing pressure on major roadways and creating roadway design challenges. These areas also require reliable and safe multimodal transportation options for workers, many of whom in the warehouse and logistical industries rely on public transit or active transportation modes to reach jobs with nontraditional hours.

As Aurora's industrial base continues to grow, the network must carefully balance economic activity with safe and accessible routes for all modes.

Summary

Aurora's transportation infrastructure has not kept pace with the evolving needs of its diverse communities. To move around Aurora efficiently requires a car. People with limited access to cars, including low-income residents, immigrants, aging adults and those with disabilities, have limited mobility options to access essential services and employment. In turn, many businesses have trouble retaining employees due to limited transportation options. Overall, a lack of mobility choice hinders Aurora's transportation goals and economic vitality.

Community Conversation

Connecting Aurora Puts Community First

Throughout the two-year planning process, residents, businesses, community stakeholders and city decision-makers were invited to share their concerns about today's transportation system and their priorities for the future of mobility in Aurora.

Given Aurora's expansive and diverse population, conducting outreach to community members of all wards, ages, genders, economic backgrounds and cultures was tantamount to capturing a complete and accurate community vision.

The city collected feedback from a variety of groups, including:

- Aurora City Council.
- Residents and neighborhood organizations.
- Local school districts and higher education providers.
- Large employers and the business community at large
- Local advocacy, community and special interest groups.
- Local religious and cultural organizations, including non-English speakers.
- City boards and commissions.
- City administration and staff.

Chapter 4 Highlights

ENGAGEMENT PROCESS
About the expansive and inclusive outreach campaigns.

WHO WE HEARD FROM
Where most Connecting Aurora outreach participants were located.

WHERE WE WENT
Where project feedback was collected throughout the city.

ENGAGEMENT MILESTONES
How Aurora's transportation was discovered, synthesized, visualized and realized.

Notes: See Chapters 7-11 for more information about specific community feedback by mode. See Appendix C for each milestone's engagement summary.

Engagement Process

An expansive and inclusive outreach approach.

The Connecting Aurora planning process had four milestones, each representing a key point in the process where community feedback was needed to thoughtfully move the project forward.

Each milestone had a targeted outreach campaign with a specific purpose. A variety of engagement tools reached people of all backgrounds where they were. This process gave people the option to engage through their preferred method, whether that was in-person or online.

To encourage participation from Aurora's non-English speaking community, the planning team worked directly with community leaders and organizations that regularly engage these populations. Engagement materials were translated into Spanish and other commonly spoken languages to gather their feedback.

Community input shaped the final multimodal transportation network for Aurora. With the public's help, the planning team prioritized the street, bicycle, pedestrian, transit and freight projects, programs and policies for the years to come.

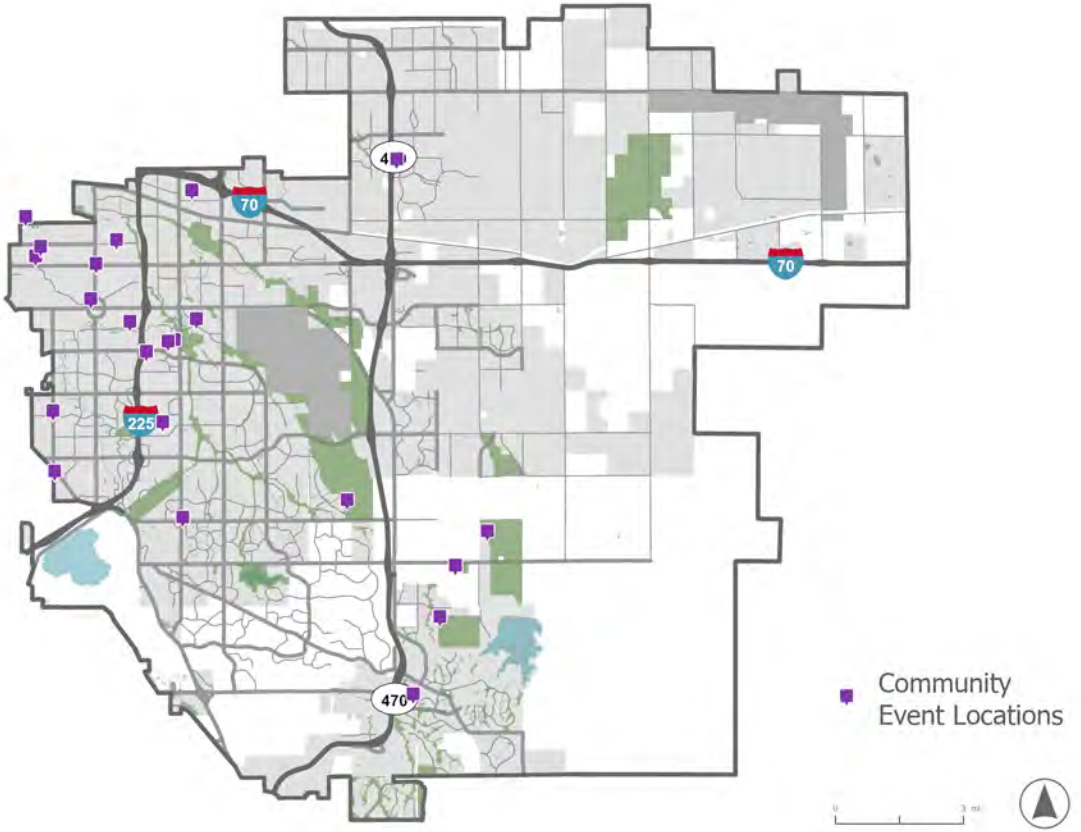
Engagement Methods

- Public Open Houses (In-Person and Virtual)
- Online Story Map
- Community Pop-Up Events
- Virtual Town Halls
- Stakeholder Meetings
- Focus Groups
- Surveys

Who we heard from

Participation in events and surveys was widespread throughout the city. We talked to and heard from an evenly distributed group of residents from each ward.

Survey Participation by Ward



**Based on the 1,484 individuals who disclosed their ward in the online surveys.*

Where we went

In-person outreach and engagement opportunities were strategically provided throughout the city to collect feedback from as many voices as possible.

Engagement Milestones

MILESTONE 1

DISCOVER

SPRING/SUMMER 2024

The community was asked to share how they move around the city today and their desired vision for Aurora's transportation system.

Engagement by the numbers

288,000
TOUCHPOINTS

1,490
SURVEYS

4,600
ONLINE VISITS

430
MAP PINS

3,200
ACTIVELY ENGAGED

What we heard

- Participants want the future transportation system to be safe.
- Top priorities are upgrading transit amenities, creating multimodal connections, maintaining streets, reducing congestion, improving safety and enhancing sidewalks.
- Cars are the dominant transportation mode, with most participants driving upwards of 30 minutes per trip.
- Most participants rarely walk or bike, sharing that they feel somewhat unsafe when traveling by these modes.

MILESTONE 2

SYNTHESIZE

WINTER 2024/25

The community was asked to imagine three potential extreme futures for Aurora—car-oriented (status quo), transit-oriented and neighborhood-oriented—and how these futures may impact their quality of life and the lives of others facing mobility challenges. More information about these scenarios is in Chapter 6.

Engagement by the numbers

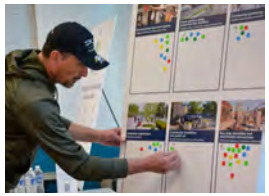
137
MAP PINS

1,300
ACTIVELY ENGAGED



What we heard

- The transit-oriented and neighborhood-oriented futures would improve or greatly improve participants quality of life.
- The car-oriented future would either have a neutral or negative impact on participants' quality of life.
- The transit-oriented and neighborhood-oriented futures are more likely to make transportation more accessible and safer, and the city more prosperous.

MILESTONE 3

VISUALIZE

SPRING 2025

The community was presented the visionary transportation networks that were created based on their input from the Discover and Synthesize campaigns. The final networks are described in Chapters 7 - 11. The community was asked about their level of support for each network—Street, Transit, Sidewalk and Bikeway—and how they would allocate funds to implement the network.

Engagement by the numbers

ONLINE VISITS

126
MAP PINS

1,600
ACTIVELY ENGAGED

What we heard

- The community is supportive of the improved networks shown in the visionary networks for each mode.
- Transit Service, Complete Streets, Bikeways and Pedestrian improvements scored the highest when people were asked where they would like to see the city invest in transportation.
- The community provided insight into specific project locations through the online and in-person map commenting exercises.

MILESTONE 4

REALIZE

FALL 2025

The community was asked to provide feedback on programs, policies and projects. In this phase, community members were asked to gauge their general support for the proposed programs, policies and projects; and they were encouraged to add any location-specific feedback to a comment map.

Engagement by the numbers

MAP PINS

600
ACTIVELY ENGAGED

What we heard

- A majority of participants thought that the policies, programs and projects reflect the needs and priorities of the community somewhat or very well.
- The community identified dozens of potential improvements to projects through the map commenting exercise.
- One participant said: “I appreciate the policies for multimodal being a priority and designing streets to be safer.”

The Future of Mobility

Preparing Aurora for a Changing World

This chapter describes the factors that are influencing travel behavior and reshaping how people move.

Demographic shifts and evolving travel behavior will alter Aurora's transportation landscape. As the population grows, so will the demand for transportation infrastructure. The rise of remote and hybrid work has changed commuting patterns and reduced transit ridership, impacting fares and revenues for traditional service models.

Changes in the environment put stress on transportation infrastructure. An increase in extreme weather, like severe heat, influences infrastructure maintenance and mode choice.

The cost to construct and maintain transportation infrastructure to meet the growing demand and environmental impacts has skyrocketed due to inflation and other market pressures.

As innovation accelerates, technological advances in electric and autonomous vehicles, shared mobility services and smart infrastructure create both opportunities and challenges for Aurora's transportation system.

While we do not know exactly what the future holds, proactively planning for these emerging trends allows Aurora to more readily embrace innovation and meet its communities' changing needs.

A crucial step for a proactive planning process is Scenario Planning. This chapter builds on our understanding of changing behaviors and technology trends to evaluate three different transportation futures and create a fourth and preferred future. These futures demonstrate the impact of the city's choices in investments and policies, as well as how factors outside the city's control can impact people's mobility.

The chapter concludes with a look at the preferred future, a Place-Oriented City, and how four personas would experience this version of Aurora's future.

Chapter 5 Highlights

EMERGING TRENDS
Local and nationwide trends will impact the future of mobility.

EMERGING TECHNOLOGY
Technology presents opportunity to address problems in a new way.

IMAGINING AURORA'S FUTURE
The community sees the future of Aurora as a Place-Oriented City.

FUTURE THROUGH COMMUNITY LENS
How might typical Aurorans experience moving around the city.

Emerging Trends

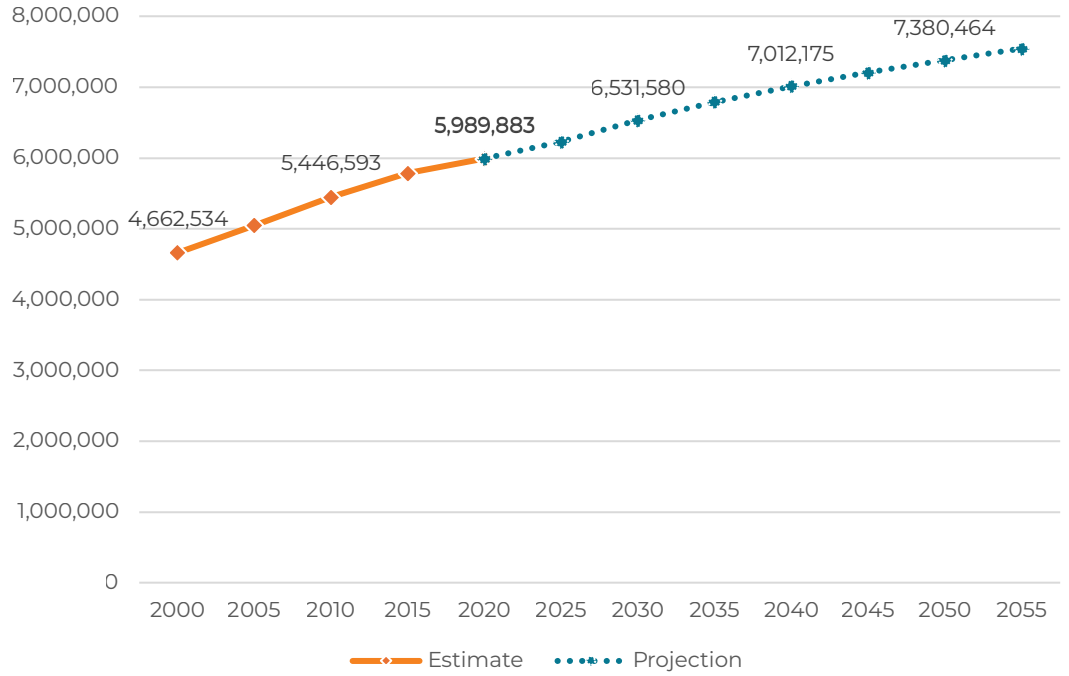
Key trends impact how people move around Aurora.

Trends such as population growth, rising costs, remote work and extreme weather, may impact the future of transportation in Aurora. Understanding the impact of these trends will result in an adaptable and sustainable transportation system.

Population Growth

Between 2010 and 2022, Aurora's average annual population growth rate was 1.5%, slightly higher than the Denver metropolitan area.

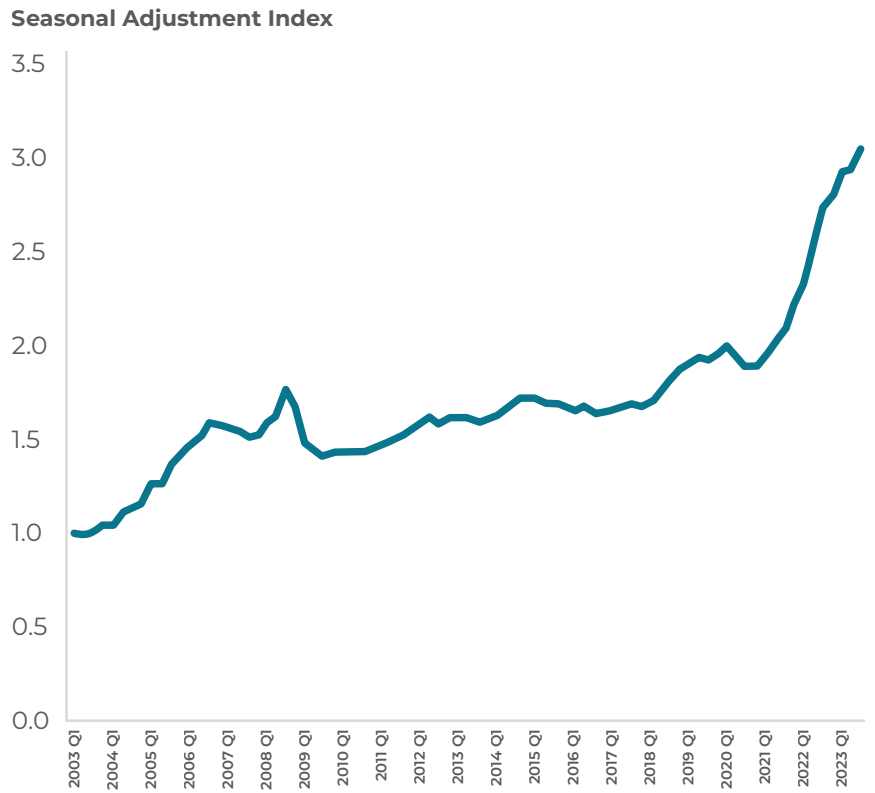
Population growth has a significant impact on the built environment, including the transportation system. In Aurora's case, growth has occurred outward rather than upward. The low-density, sprawling development pattern requires the city of Aurora to maintain an increasingly large roadway network, despite lacking dedicated funds to adequately support ongoing maintenance needs.



The low-density growth presents challenges for providing and funding high-quality transit. Frequent and reliable transit service is typically more affordable in areas with higher density and ridership demand is stronger.

Population growth impacts the movement of goods through Aurora. As population increases, the demand for goods is expected to rise. However, accessing those goods today often requires individuals driving or delivery services driving. Reliance on cars and the increase in deliveries to access basic goods will continue to strain the transportation network.

If current development trends continue without expanded mobility options, Aurora could face rising congestion and higher infrastructure costs in the future.



Colorado's Population is Growing

Source: Colorado Department of Local Affairs, State Demography Office

Construction Costs are Rising

Source: U.S. Department of Transportation, Federal Highway Administration National Highway Construction Cost Index.

13.5%

of Aurora's workforce works remotely.

Source: U.S. Census Bureau, American Community Survey, 2023

Rising Costs

Inflation and broader market dynamics have greatly increased transportation infrastructure and personal transportation costs.

As construction costs rise, Aurora faces an increasing challenge in delivering infrastructure on time and within budget. Over the last decade, the cost of materials that make up our transportation infrastructure (asphalt, concrete and steel) have been in flux. The cost of labor has risen, and it has become more difficult to retain skilled workers. These external pressures make it harder for Aurora to maintain its existing assets, let alone construct new ones.

A Seasonal Adjustment Index is commonly used to demonstrate how costs have changed over time, while removing the effects of recurring seasonal patterns from the data. When the seasonal adjustment index is above 1.0, it signals that costs are higher than the average. By the beginning of 2023, the seasonal adjustment index for construction costs increased to 3.0.

For residents, maintaining and operating a personal vehicle remains costly. Periods of high fuel costs may shift travel behavior; however, these shifts are unevenly distributed across income levels. Cost-burdened households are more likely to experience transportation insecurity and limited access to jobs, education and essential services.

Creating a system of affordable and reliable mobility options helps community members facing the greatest burdens.

Remote Work

Colorado has the highest proportion of remote workers in the United States. In Aurora, about 29,000 people or 13.5% of the workforce, work from home. Remote and hybrid work has reshaped daily travel and use of office space.

Return-to-office following the COVID-19 pandemic was slow. In the years immediately following 2020, traffic volumes dropped; and there are new, less predictable lower peak hour traffic volumes on Monday and Friday because employees work from home. Additionally, flexible work has generated more off-peak, non-work travel, with home-to-office trips decreasing while home-to-other trips have increased.

These changing travel patterns impact how travel demand is ultimately measured and forecast. Remote-work patterns remain variable, and traditional peak-hour analysis tools do not fully capture these emerging trends.

For Aurora, this change presents an opportunity to rethink how the transportation system is planned and managed. Rather than focusing solely on peak hour capacity and commuter services, the city can reallocate space for walking and biking, encouraging short neighborhood trips as residents spend more time locally.

Extreme Weather Impacts

Aurora is already experiencing more frequent extreme weather, including intense storms and flooding, excessive heat and long-term drought. These trends reflect broader climate shifts driven in part by GHG emissions.

In response, the State of Colorado has established targets to reduce GHG emissions and reverse these impacts.

Transportation is a significant contributor to these emissions. In 2020, transportation accounted for 22.1% of Colorado's total GHG emissions (CDPHE), primarily from gasoline and diesel combustion in passenger vehicles and trucks.

As discussed in Chapter 3, Aurora is projected to face increased risks from extreme heat, drought, flooding and wildfire. Extreme heat has been the deadliest weather-related hazard over the past 30 years, disproportionately affecting older adults, children and people with disabilities. Rising temperatures also strain transportation infrastructure; increase maintenance needs; intensify the urban heat island effect; and make walking, biking and using mobility devices less comfortable.

Sustainable transportation and public realm design can help reduce these impacts while improving air quality, public health, equity and energy independence.

Transportation Emissions Account for:

22.1%

of Colorado's GHG emissions.

Source: Colorado Department of Public Health and Environment

Impacts to Aurora's Infrastructure

An increase in severe storms in Aurora has placed transportation infrastructure at risk. Hudson Road and 56th Avenue washed out during a heavy rainfall event in June 2023 when Box Elder Creek jumped its banks and overwhelmed existing drainage infrastructure. Over three miles of road closures due to flood damage impacted access to critical destinations, such as the Denver International Airport and the Colorado Air and Space Port. The project to rebuild and upgrade these roadways to be more resilient to future storms will cost more than $14 million.

Emerging Technologies

Technology Changes How People Move

Over the past decade, innovative transportation technologies have changed how people travel and the tools available to improve transportation.

Electric Vehicles

Electric vehicles (EVs) are rising in popularity. As of November 2024, there were more than 156,000 EVs registered in Colorado, making the state a leader in EV adoption. Aurora's current EV infrastructure lags behind neighboring cities. Aurora has about 240 public charging station ports for EVs, or about one charger for every 1,650 people. This is substantially fewer chargers per capita than in Denver (1 charger for every 680 people) and Boulder (1 charger for every 255 people).

CONSIDERATIONS

- People renting, living in multifamily units or living in older homes may have less access to low-cost, reliable EV charging.
- EVs currently have higher upfront costs but lower operating and maintenance costs.

CURRENT APPROACH

- Limited electrification of the municipal vehicle fleet.
- Participation in Arapahoe County's Regional Electric Vehicle Action Draft Plan.

TACTICAL ACTIONS

- Aurora should consider developing an Electric Vehicle Readiness Plan and updating its UDO to identify upgrades to building requirements, utilities, EV support policies and steps to increase municipal fleet electrification.

Autonomous Vehicles

Autonomous vehicles (AVs) use radar, global positioning systems (GPS), cameras and light detection and ranging (LiDAR) to partially or fully replace the need for human drivers. The timeline for full AV adoption is unknown; however, some research predicts that by 2035, between 17% and 57% of new passenger cars sold will have some level of autonomy.

If deployed strategically, AVs are believed to drastically improve safety on roadways by eliminating human error and supporting vehicle-to-vehicle communication.

CONSIDERATIONS

- Lack of AV policy can lead to congestion, pollution and other transportation-related issues.
- Real and perceived safety of AVs must increase prior to citywide adoption and implementation.
- As of late 2025, Waymo AVs were being trialed in Denver.

CURRENT APPROACH

N/A

TACTICAL ACTION

- Explore opportunities to form public-private partnerships to pilot AV microtransit.
- Develop an AV Readiness Plan that considers policies, infrastructure and programs to encourage safe, equitable and coordinated use of AVs.
- Invest in citywide fiber-optic network to allow seamless vehicle-to-infrastructure communication in accordance to the Fiber Master Plan (2023).

Accessibili-D Shuttle provided older adults and people with disabilities with free rides to essential destinations across southeast Detroit.

CASE STUDY

Accessibili-D Autonomous Vehicle Pilot Program — Detroit, Michigan

In June 2024, the city of Detroit began piloting the Accessibili-D autonomous shuttle pilot aimed at closing transportation service gaps for older adults and people with disabilities. Over the 12-month pilot period, the shuttle completed more than 4,000 rides for more than 600 participants. The top destinations included trips to private residences, shopping centers and medical appointments. The pilot program was highly popular and is regarded as a huge success. This program demonstrates that through inclusive design, innovative partnerships and long-term community engagement, cities can be leaders in the use and delivery of AV shuttle services.

Electric Bicycles

Since 2019, there has been a surge in the sale and use of electric bicycles (e-bikes). E-bikes are bicycles with a small battery-operated motor that assists pedaling, allowing people to bike faster and for longer distances than they may be able to on a conventional bike. E-bikes allow people with various abilities to travel by bike.

Cargo e-bikes expand the use of e-bikes even further by allowing riders to move goods or people easily.

CONSIDERATIONS

- Planning for and maintaining safety on bikeways must consider the speed differential between e-bikes and other users.
- Secure storage for e-bikes is needed in public spaces to avoid theft.

CURRENT APPROACH

- N/A

TACTICAL ACTION

- Identify major transit hubs and commercial areas for secure bicycle parking or storage to incentivize people to bike to key locations.

Shared Mobility

Shared mobility refers to forms of transportation that are shared among users, such as transit,taxis, car-sharing and bike shares (USDOT).

Transportation network companies (TNCs) like Uber and Lyft have risen in popularity across the country. These services connect people to rides on demand. They can offer riders with greater convenience and coverage than traditional taxis. Rideshare models have been replicated by public transportation providers when providing service to people with disabilities and in areas with lower population density.

Micromobility, like shared bikes, e-bikes and scooters, can improve access to Aurora's greater transportation network by allowing people to more easily and make first-mile and last-mile connections. These mobility options are often low cost and can decrease GHG emissions if used in place of a car.

CONSIDERATIONS

- Most shared mobility operators, especially TNCs, are not required to serve specific geographical areas, which can impact the availability and predictability of service.
- Curbside and walkway management policies.
- Surge pricing, the need for a smartphone, cellular data, WiFi or a credit card may limit accessibility of shared mobility options for some people.

Micromobility Trips

Since 2018, shared micromobility trips in North America have increased by **40%**

CURRENT APPROACH

- Offering shared-mobility licensing program where service providers can apply to offer shared mobility services.
- Implement sidewalk right-of-way requirements and parking standards to accommodate micromobility.

TACTICAL ACTION

- Develop incentives to improve ride hailing and micromobility operations.
- Design multimodal facilities that comfortably allow people walking, biking and using micromobility to share space given speed differentials. This may require wider facilities, targeted signage and special striping to help facilitate safe movement.

Technology Changes How Goods are Delivered

As Aurora continues to evolve, the movement of goods is becoming an increasingly complex puzzle to solve. Driven by the surge in e-commerce, shifting consumer expectations and advances in logistics technology, new methods for delivering goods are needed to meet demand, while minimizing congestion and environmental impacts.

Curbside Management

The increasing use of TNCs like Uber and Lyft, e-commerce, AV self-parking and on-demand delivery is creating increased demand for temporary uses of curb space. Freight movement and the ability of trucks to park and easily deliver goods to businesses is an essential factor for the success of Aurora's economy. Freight movement must be balanced and prioritized among the competing curbside needs, especially in commercial and mixed-use areas of Aurora. Curbsides can be managed with static signing that designates uses by time of day and day of week; or it can be done dynamically via changeable message signs that define regulations based on various thresholds. While static signing is predictable for users, dynamic signing provides greater flexibility for agencies to manage curb space based on changing needs.

CONSIDERATIONS

- Curbside activities should not inhibit transit service.

CURRENT APPROACH

- Static signing and metered parking.

TACTICAL ACTIONS

- Conduct a curbside management study and establish best practices based on setting, demand for curb space and other factors.

Drones

Drone technology has the potential to address economic, logistical, emergency response and environmental considerations. Embracing drone technology can catalyze economic growth and innovation and attract technology enterprises and startups invested in drone research and development, thereby creating new job opportunities. Drones are being explored to revolutionize delivery services by enhancing efficiency, especially in addressing the last-mile delivery conundrum. Aurora's unique layout will benefit from quicker delivery times, reduced traffic congestion and a diminished carbon footprint from conventional delivery methods. Beyond logistics, drones offer transformative potential in emergency response, enabling rapid deployment in critical situations to deliver medical supplies or assist in search and rescue. Aurora cannot ignore the possibility of drones used for passenger movement. This technology is not currently in use; however, when it becomes a reality, it would change how people move through Aurora.

CONSIDERATIONS

- Regulatory concerns are paramount.
- Consider land use implications.

CURRENT APPROACH

- N/A

TACTICAL ACTION

- Work with the greater region and the Federal Aviation Administration to develop a clear regulatory framework for addressing safety, privacy and noise.
- Explore potential partnerships with companies experimenting with drone delivery.

Technology to Optimize Transportation Systems

Smart technologies can transform how Aurora's transportation network is managed and optimized. These new tools can enhance safety, efficiency and overall user experience across Aurora's streets. In Aurora, further integration of adaptive traffic signals, real-time travel time information sharing and connected vehicle infrastructure can help reduce congestion, improve travel reliability and support emergency response.

Intelligent Transportation Systems

Intelligent Transportation Systems (ITS) is a tool that integrates diverse datasets, such as real-time traffic data, public transit schedules and infrastructure conditions, to derive actionable insights that are used to optimize transportation operations. Advanced analytic techniques, such as machine learning and predictive modeling, enable the city to anticipate traffic patterns, identify congestion hot spots and make adjustments to signal operations to improve traffic flow.

CONSIDERATIONS

- May be susceptible to security breaches if not properly fortified.

CURRENT APPROACH

- Aurora's ITS Master Plan (2018) and a Fiber Master Plan (2023) represent crucial steps toward adopting the infrastructure necessary for widespread ITS adoption.
- Aurora received funding for a Transportation Management Center.

TACTICAL ACTIONS

- Maintain individual privacy and mitigate potential risks associated with data collected through ITS.

Predictive Analytics and Artificial Intelligence

Predictive analytics processes large quantities of data to forecast future outcomes. Predictive analytics algorithms can forecast traffic patterns, anticipate congestion and optimize transportation operations proactively by using vast amounts of historical and real-time data. Artificial intelligence (AI)-assisted decision support systems can aid the city in making data-driven decisions and prioritizing resource allocation.

CONSIDERATIONS

- Predictive models and AI may be susceptible to biases and require careful governance by experts.
- There may be some uncertainty about the effectiveness or implementation of new tools using predictive analytics and AI.

CURRENT APPROACH

- Conduct case studies on successful uses of predictive analytics and AI in cities.
- Predictive analytics and AI will be a fundamental capability of Aurora's future Transportation Management Center.

TACTICAL ACTIONS

- Explore passive pedestrian detection systems, a promising new technology that uses sensors and AI at crossings to identify pedestrians without push buttons or manual input.
- Implement Smart Work Zones that use sensors, real-time data analytics and communication systems to monitor traffic conditions, manage detours and speeds and provide real time updates to minimize congestion and danger around construction sites.

Imagining Aurora's Future

The actions we take today will determine how we move in the future.

The emerging trends and technologies previously discussed represent some of the conditions that will shape Aurora's future transportation system. These conditions will influence where, how and why certain transportation facilities will be constructed and certain services will be provided.

What is Scenario Planning?

Connecting Aurora used scenario planning to visualize different transportation and land use scenarios (or futures) for Aurora. Scenario planning allows the city to anticipate and prepare for the possible challenges and opportunities that come with each defined future. Transportation decisions, land use policy choices and investment priorities would be different for each future, influencing progress toward the goals set out in Connecting Aurora. Connecting Aurora makes recommendations to make the preferred future a reality.

Connecting Aurora explored three possible scenarios (or futures) for 2050: **car-oriented, transit-oriented and neighborhood-oriented.**

During Engagement Milestone 2, the city received feedback from the public on the transportation and land use futures. The community critically considered how each scenario would impact their quality of life in the long term. **The feedback was used to craft a preferred future: the Place-Oriented City.**

Engagement Takeaways

Survey results indicated that Transit-Oriented and Neighborhood-Oriented Cities are believed to make the following conditions "better" or "much better":

- Accessibility for older adults, youth and individuals with mobility challenges.
- Overall city prosperity.
- Ability to travel to the places people want to go.
- Personal safety and comfort while traveling.

The Car-Oriented City was perceived to make these conditions worse or keep them the same as today.

Residential | Apartments | Grocery Store | Office | Shopping/Dining | School | Place of Worship | Public Park

Aurora as a Car-Oriented City

The Car-Oriented City represents the status quo: what would Aurora's transportation system look like if the city's actions and investment priorities remain the same as today?

IN THIS FUTURE ...

The city invests very little in transit, resulting in poor ridership and the discontinuation of some routes. Safety on the city's sidewalks and bikeways is improved; however, improvements are not made to expand the connectivity of the active transportation network. As a result, walking and biking are not feasible modes of transportation for many people. Low-density residential neighborhoods continue to expand throughout Aurora, especially around the city's eastern edge. Car-centric activity centers are concentrated at major intersections and are fronted by large surface parking lots. Sprawling neighborhoods and spaced-out economic hubs further discourage walking, biking and riding transit as viable travel modes. Because of all of these conditions, most people must drive to get to most of their everyday destinations.

Aurora as a Transit-Oriented City

In the Transit-Oriented City, the city of Aurora acts to improve the transit network and promotes compact development around transit lines.

IN THIS FUTURE ...

The city invests heavily in bus and rail, making travel times competitive with the car. Buses are given dedicated lanes on the city's arterials, improving service reliability. The expansion of transit routes and services allows most residents to reach free or low-cost, frequent transit within a short five-minute walk or bike ride. The city improves sidewalk and bike network connectivity. Transit stop amenities allow people to comfortably wait for transit service despite the weather or time of day. New developments focus on increasing multifamily housing and commercial opportunities along transit corridors. Low-density development is limited to the city's edge.

Aurora as a Neighborhood-Oriented City

In the Neighborhood-Oriented City, the city of Aurora focuses investments on creating walkable and bikeable communities across the city. In walkable and bikeable communities, people can easily access most of their daily destinations needs within a 10-minute walk or bike ride.

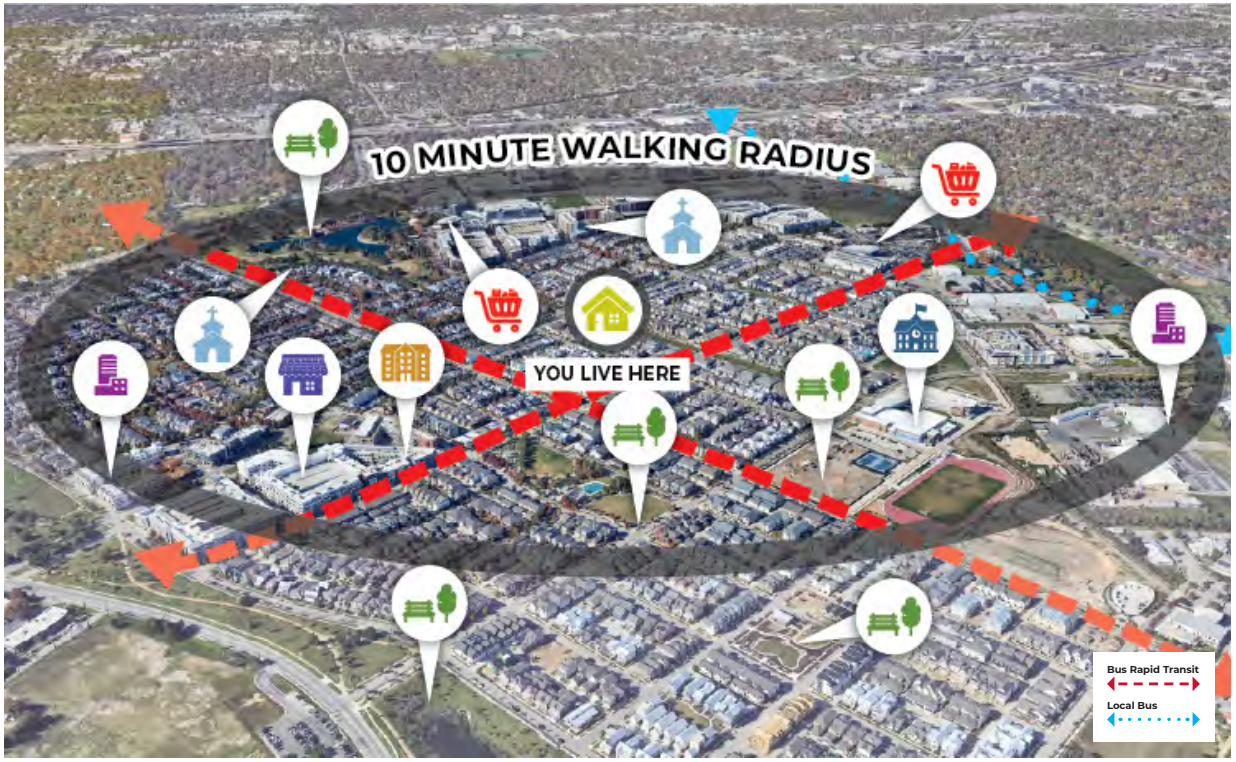
IN THIS FUTURE ...

Neighborhoods are designed around town centers with a mix of uses and daily services. There are frequent, reliable and convenient transit and microtransit connections throughout the city. Affordable housing and multifamily homes are concentrated around town centers. Driving is slightly less convenient during rush hour.

Aurora as a Place-Oriented City

The city used the feedback collected on the three distinct futures to design a preferred transportation and land use future. This fourth scenario was the basis for developing the visionary networks for each transportation mode and identifying corresponding projects.

IN THIS FUTURE ...



The Place-Oriented City improves the quality of life for Aurorans by increasing the number of convenient, affordable and safe mobility options. Choice is fundamental to this scenario.

Aurora Places serves as the foundation for this scenario as it emphasizes designing and building the transportation system around what best fits different placetypes.

In addition to making improvements to the city's transportation network, the Place-Oriented City emphasizes the need to simultaneously concentrate the destinations within and near neighborhoods so that people can access daily destinations within a short walk, bike ride, transit ride or car trip.

In this scenario the city of Aurora makes significant investments in walking, biking and transit infrastructure with a focus on making these modes of transportation safer and more accessible. The city builds on its robust trail network to provide additional opportunities for active transportation and recreation.

The Place-Oriented City uses land efficiently and productively. It balances providing opportunities for parking with opportunities for additional shops, services, parks and other land uses.

Residential | Apartments | Grocery Store | Office | Shopping/Dining | School | Place of Worship | Public Park

How the Connecting Aurora Goals Relate to the Imagined Future Outcomes

Scenario planning demonstrates that the Place-Oriented City out performs the Car-Oriented City on each Connecting Aurora goal. Pursuing programs and policies to make Aurora a Place-Oriented City will result in a better transportation system for everyone who lives, works and visits Aurora.

Connecting Aurora Goals	Car-Oriented City (Status Quo) Imagine Future Outcomes	Place-Oriented City Imagine Future Outcomes	
Safe	LESS SAFE — MORE SAFE	LESS SAFE — MORE SAFE	Less driving and lower speeds lead to a safer trip for everyone.
Connected	LESS CONNECTED — MORE CONNECTED	LESS CONNECTED — MORE CONNECTED	Destinations are better connected to the neighborhoods they serve, especially by biking and walking infrastructure.
Reliable	LESS RELIABLE — MORE RELIABLE	LESS RELIABLE — MORE RELIABLE	Everyone has access to multiple modes of travel, and they can count on completing their trip.
Convenient	LESS CONVENIENT — MORE CONVENIENT	LESS CONVENIENT — MORE CONVENIENT	Frequent buses and trains, nearby bikeways and multiple driving route options, make travel convenient for all.
Sustainable	LESS SUSTAINABLE — MORE SUSTAINABLE	LESS SUSTAINABLE — MORE SUSTAINABLE	Fewer VMT reduce the impact of transportation on our environment. VMT is 15% lower.
Economically Strong	LESS STRONG — MORE STRONG	LESS STRONG — MORE STRONG	More jobs in Aurora means that the city is more competitive in the region, and people spend less time commuting.
Healthy	LESS HEALTHY — MORE HEALTHY	LESS HEALTHY — MORE HEALTHY	Building active transportation into people's daily lives leads to healthier outcomes.
Authentic	LESS AUTHENTIC — MORE AUTHENTIC	LESS AUTHENTIC — MORE AUTHENTIC	The city is able to provide authentic experiences for many cultures and people from many backgrounds.
Equitable	LESS EQUITABLE — MORE EQUITABLE	LESS EQUITABLE — MORE EQUITABLE	Providing options for travel means everyone has access to opportunities, no matter their background.
Integrated	LESS INTEGRATED — MORE INTEGRATED	LESS INTEGRATED — MORE INTEGRATED	Neighborhoods have a greater mix of land uses and higher activity, meaning the diverse city has a place for everyone.

A Place-Oriented City Through a Community Lens

Every Auroran has unique transportation needs and daily travel preferences.

On the following pages, you will meet several individuals inspired by real Aurorans and the stories they shared with the city throughout the Connecting Aurora planning process.

These stories, while fictional, help illustrate how Aurora's built environment affects people across the community by inviting you to walk a mile in their shoes. **Here, you'll read about four imagined individuals facing transportation challenges, and how the preferred Place-Oriented City expands their transportation choices.**

These personas reflect the mindsets and attitudes, behaviors, lifestyles, values, motivations, needs and activities that relate to mobility across Aurora.

Each persona allows us to step into the multilayered daily lives of Aurora community members and understand how they would be impacted living in the Car-Oriented City and the Place-Oriented City.

A Note on Age

Age plays an important role in the way people move around the city. When driving is prioritized over all other modes and dominates the city's streets, those who are too young or too old to drive legally or safely are left with limited ways to get around. The personas described here capture some of the challenges faced by these people in particular. Between now and 2050, the number of people over 60 years old is expected to increase substantially. Having mobility options other than driving is vital to supporting Aurorans of all ages.

Travel Time Assumptions

CAR

A range based on typical traffic on an average weekday and a highly congested weekday.

BUS OR TRAIN

Car-Oriented City: Based on current RTD schedules and trip planner.

Place-Oriented City: Buses in dedicated bus lanes average 20 miles per hour, including stops; trains are based on RTD schedules, assuming a five-minute walk and five-minute transfers.

WALKING

4 miles per hour.

BIKING

10 miles per hour.

Cost Assumptions

CAR

Car operating costs based on U.S. Bureau of Transportation Statistics for 2023 total cost of ownership data: 81 cents per mile.

BUS OR TRAIN

RTD fares assumed to be $3 per ride for adults, $1.50 for seniors, free for children 18 and under.

WALKING AND BIKING

Free (acknowledging that bike ownership cost is negligible compared to car ownership).

Meet "Glenn"

Glenn is a 75-year-old, lifelong Auroran. He is retired and lives on Florida Avenue near Highland Hollows Park with his wife, Nancy.

Meet "Maya"

Maya is a 46-year old woman who lives near I-225 and Mississippi Avenue with her partner, their three children and Maya's mother. Maya works full-time as an accountant in the Denver Tech Center.

Meet "Anna"

Anna is a 26-year old single woman living in Original Aurora and working at the Amazon Distribution Center on E 19th Avenue. She mainly gets around Aurora by walking and biking.

Meet "Sophia and Caleb"

Sophia and Caleb, ages 12 and 9, are siblings who live in a brand new neighborhood in eastern Aurora. They are in 7th grade and 4th grade, and are active kids with many hobbies and interests.

"Glenn"

Glenn's typical transportation needs

Glenn used to have a car, but decided to sell it after his son moved back to Aurora with his family. On a weekly basis, Glenn makes trips out of the house to go to the grocery store, to visit his grandchildren and to meet up with his friends at the Central Recreation Center. Glenn primarily uses public transportation to get around, but sometimes he will ask his son for a ride when he is available.

Recently, Glenn's wife Nancy has been struggling with her health. Between the two of them, they have several appointments a month at the Anschutz Medical Campus. These appointments take place during the work day when Glenn's son cannot drive them. Glenn and Nancy don't have smart phones.

Frustrations

- Long bus rides to key destinations.
- Public transit dead zones.
- Feeling like he needs a smartphone to stay updated with schedule.

Needs

- Affordable transportation options as they live on a fixed income.
- Travel mode that can accommodate a walker or wheelchair.

Car-Oriented City (Status Quo)

In the Car-Oriented City, Glenn is challenged on how to safely and efficiently get himself and Nancy to doctor appointments without a car. Taking transit is affordable with the older adult discount fare. But, it takes over an hour to make the 7-mile journey if the buses are running when they need them and on time; and they have to transfer at least once depending on the time of day. Using a rideshare service is more convenient, but too expensive, costing at least four times as much as the bus.

Glenn decides that the best option for him is to buy a car that he and Nancy can share when going to medical appointments or running errands. **Car ownership stretches his budget, but saves them at least 90 minutes roundtrip.** With this decision, Glenn finds that he walks less, using the car for most daily errands.

While "Glen" is not a real individual, he was inspired by the feedback and stories of real people who participated during the Connecting Aurora Engagement Process.

Glenn's trip to the doctor with his wife Nancy

Place-Oriented City

In the Place-Oriented City, **Glenn and Nancy can access a fast and frequent bus close by to efficiently get to the hospital and back home.** The bus is reliable, and they haven't had to cancel an appointment last minute due to bus delays. The city's bus stops have shaded seating that allows Glenn and Nancy to comfortably wait for their bus.

Even as Glenn gets older, he is able to maintain a sense of autonomy with his travels through Aurora. Improvements to the city's sidewalks and tree cover have made even the short walks to the bus stop feel safer and more comfortable.

A new neighborhood grocery store closer to Glenn's home means he can walk to get groceries using a household cart that rolls on smooth and connected sidewalks with accessible curb ramps the whole way.

"Anna"

Anna's typical transportation needs

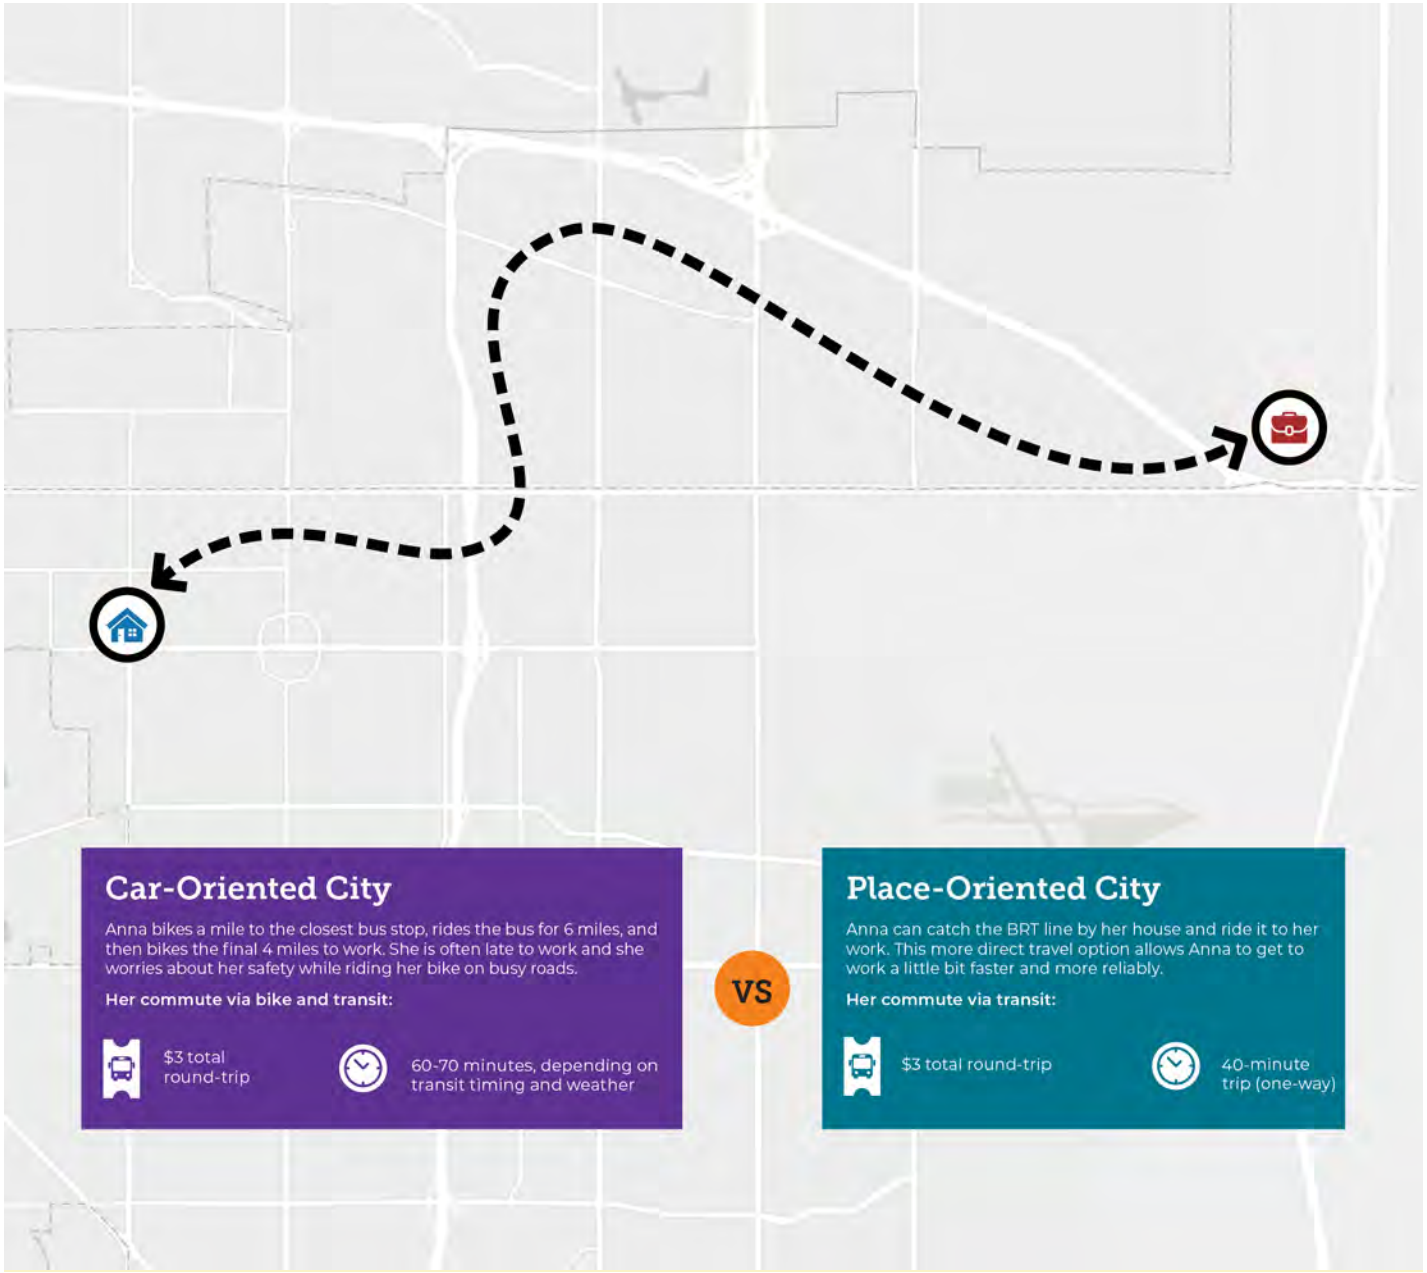
Anna is a young single woman who recently moved from Lakewood to Aurora to be closer to her new job at the Amazon Fulfillment Center on E 19th Avenue. Anna is renting a home in Original Aurora and prefers to get around by bike. When in a pinch, Anna will use rideshare for short, inexpensive trips. Anna does not want to buy a car because she is saving up to buy a home.

Frustrations

- Minimal and disconnected bikeways along roadways with high levels of freight traffic.
- Lack of secure bicycle parking at transit stops.
- Long bus rides.

Needs

- Modes that can transport Anna's bicycle.
- Modes that are available when Anna works nontraditional business hours.
- Reliable and efficient transit.



Car-Oriented City (Status Quo)

In the Car-Oriented City, although she feels able to bike around her neighborhood and access destinations close by, Anna has struggled to find a safe and reliable route to work. To take transit, Anna needs to load her bike on the bus bike rack and ride more than two miles on sidewalks or major arterials from the end of the bus line to her work site. She also needs to wait for the infrequent bus to arrive at the end of her shift, costing her valuable personal time.

Anna sometimes works very late shifts, and she does not feel comfortable waiting for the bus or riding her bike where there is no street lighting.
Anna will have to either buy a car or find a different, potentially lower-paying job closer to her neighborhood.

While "Anna" is not a real individual, she was inspired by the feedback and stories of real people who participated during the Connecting Aurora Engagement Process.

Anna's new route to work after moving into a new apartment

Place-Oriented City

In the Place-Oriented City, **Anna has more options.** If she wants to keep her job at the fulfillment center, the BRT line along Colfax Avenue provides fast, direct service nearly the entire way to her job. Once she gets off the bus at the new end-of-the-line mobility hub, she has several options to finish her commute—from bikeshare e-bikes to employer-sponsored shuttles. These are inexpensive, safe and convenient. If she chooses to bike the last mile to work, the separated bike lanes or sidepaths, street lighting and slower car speeds make that a much safer for her.

Anna can save money for a down payment on a new condo in her preferred neighborhood. Condos are more affordable and available, thanks to revised parking requirements in her transit-oriented community. Anna, living a car-free life, buys a condo without the need for a dedicated parking space, saving her more of her paycheck to cover other needs.

"Maya"

Maya's typical transportation needs

Maya lives a short walk from a transit stop but prefers to drive her car. She and her husband both own cars. Maya makes many trips in a day. She drops her kids off at school, goes to her job at an office in Denver and sometimes teaches English in northwest Aurora on weeknights.

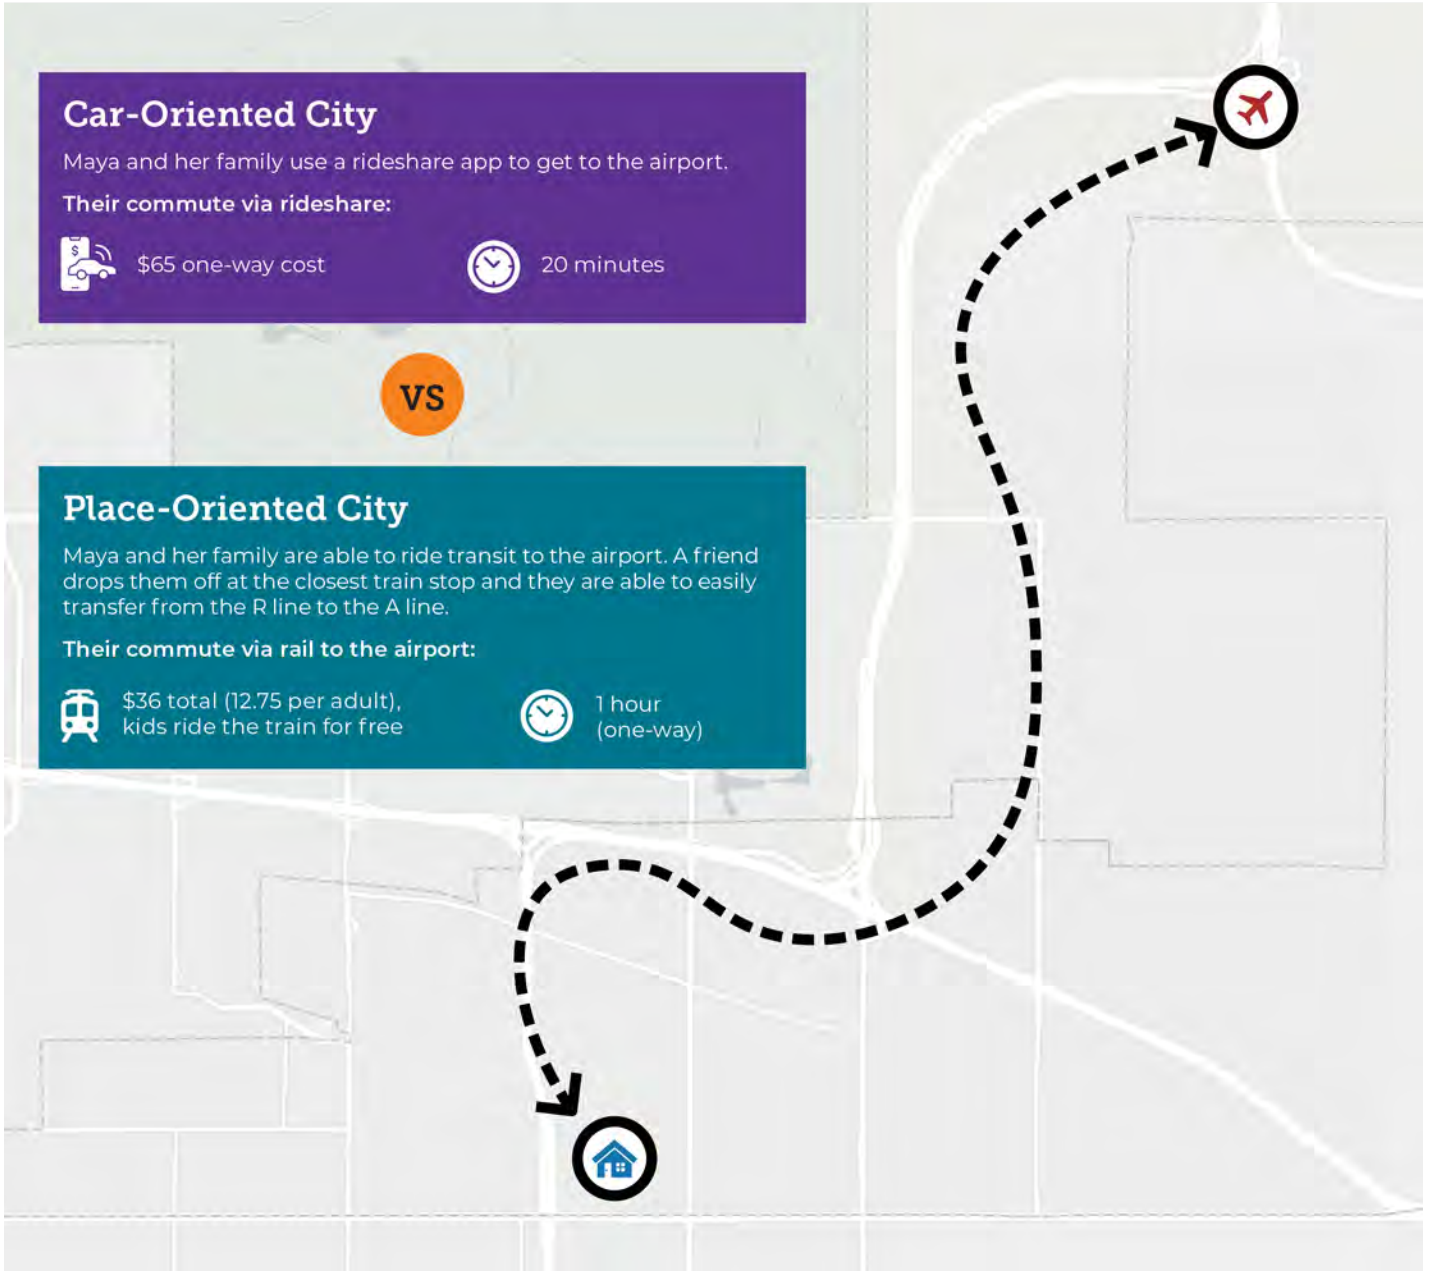
Maya's mother lives with the family. Her mother does not like riding transit, especially alone, because she worries it is not safe and that she will get lost. Maya sometimes uses rideshare services for shorter trips without her children. The family members all own and ride bikes but only use them on the city's trails for recreation on weekends.

Frustrations

- Parking the car at the airport feels unmanageable when traveling with luggage, children and an older adult.

Needs

- Transportation that reliably gets Maya and her family to the airport on time for their flight.
- A mode that can accommodate the whole family and their luggage.



Car-Oriented City (Status Quo)

Maya and her family are headed on vacation. In the Car-Oriented City, she decides that her best option is to schedule a rideshare to the airport. Because the train to the airport only runs every 30 minutes after 6:30 pm and the R Line near Maya's home has been unreliable, **she doesn't view transit as a viable option**. Since the family trip is more than a week long, parking at the airport would be expensive. So, Maya and her husband decide to use rideshare, which is still expensive but saves them money compared to driving themselves.

Maya does not use transit much even though she lives within an easy walk of the R Line, because it does not go where she needs to go and is too slow.

While "Maya" is not a real individual, she was inspired by the feedback and stories of real people who participated during the Connecting Aurora Engagement Process.

Maya and her family's route to the airport to visit relatives

Place-Oriented City

In the Place-Oriented City, Maya's neighborhood undergoes a major transformation. More services are built, and new families move in to the neighborhood because the city's updated zoning allows more uses and encourages TOD. More reliable and frequent R Line service means that Maya now finds taking the train easy and convenient. **She still drives to work because it's the most convenient option for her, but she uses the train frequently** to get to her English classes near the Colfax stop on the R Line. Because of her positive transit experiences, she now encourages her family to use the train to the airport, saving the family money on their trips.

"Sophia and Caleb"

Sophia and Caleb's typical transportation needs

Sophia and Caleb live active childhoods with school, play dates, soccer practice and music lessons to attend. They both have bikes and learned to ride at a young age. Their dad works full time at an office in central Aurora, and their mom works part-time at a nearby school. Both of the parents own cars.

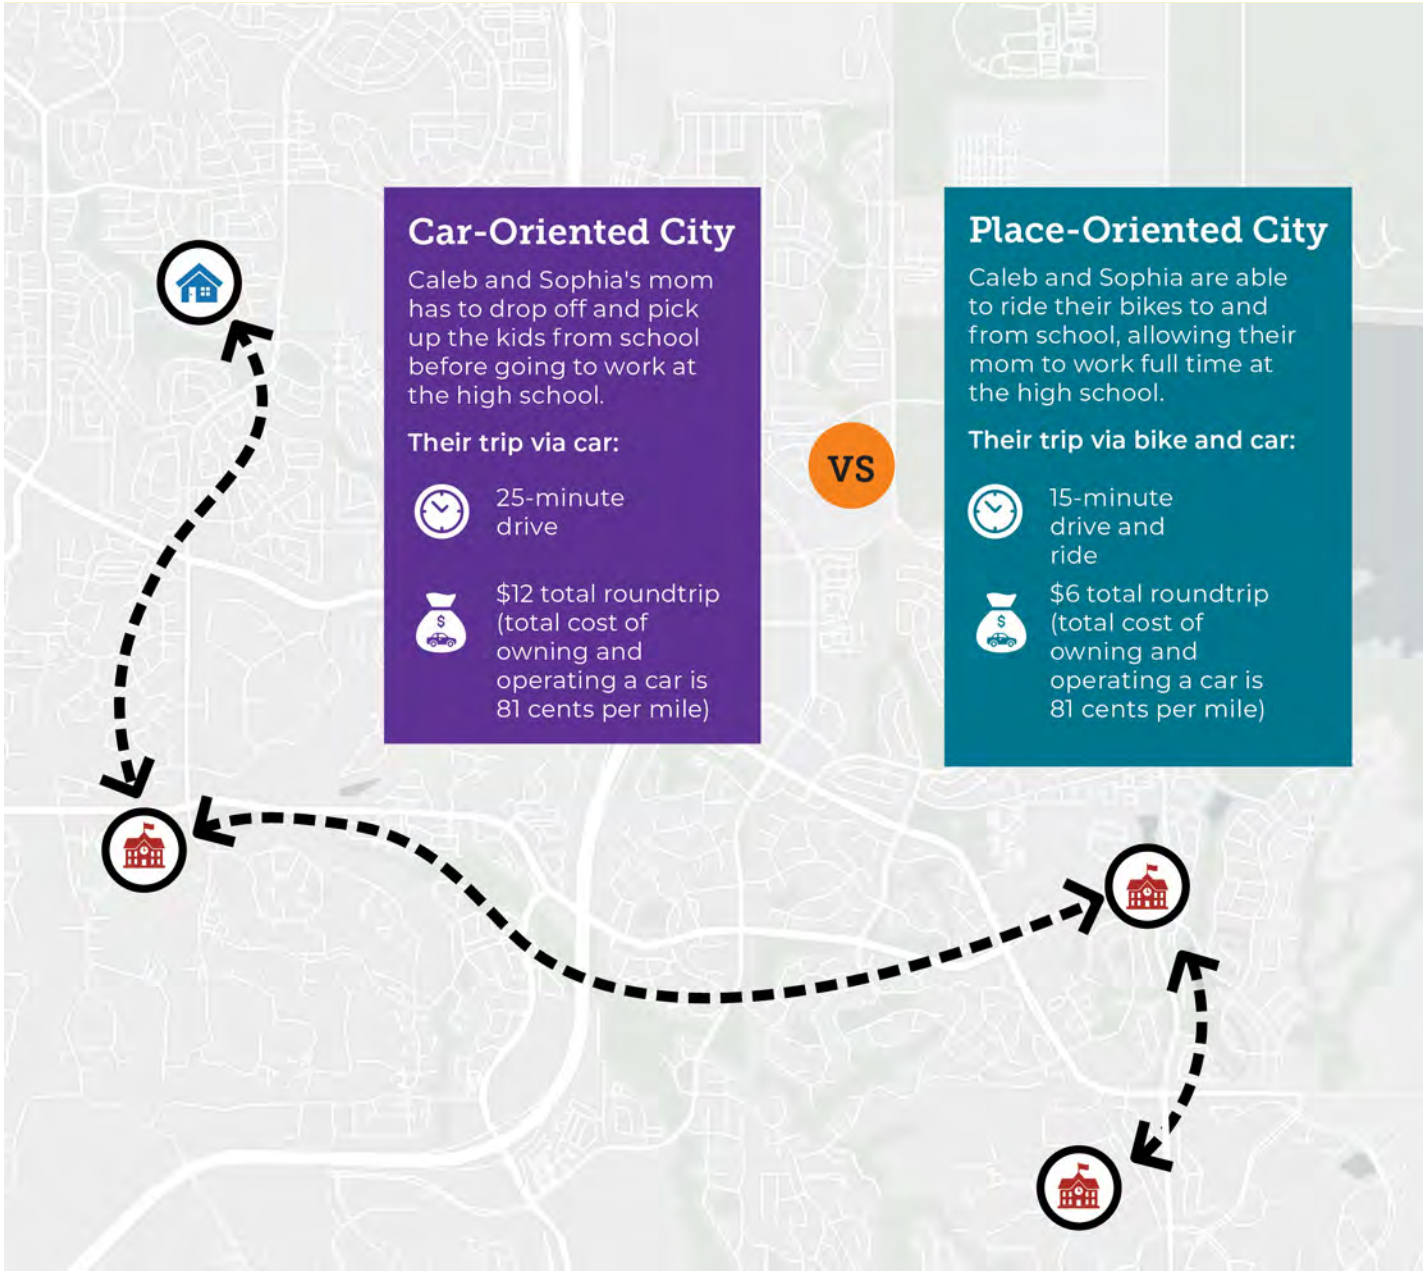
Frustrations

- There are limited options in their new neighborhood for after-school activities.
- Their parents are afraid to let them walk and bike to activities because the streets are wide and cars travel fast.

Needs

- Sophia and Caleb desire mobility independence and options that don't involve a car.
- Safe access to more destinations in their neighborhood.

Car-Oriented City (Status Quo)



In the Car-Oriented City, Sophia and Caleb mostly need their parents to drive them to and from their daily activities. Sometimes, if a friend lives close enough, they walk to their house for a play date. But a lot of times, even if the friend is technically close, the walk requires them to cross a busy street at an unsafe location or go way out of their way (which kids don't love to do).

Now that they are at different schools, their mom needs to take separate trips both in the morning and in the afternoon at different times to drop them off and pick them up. This limits her ability to find a full-time job, unless the parents want to pay for before-and after-school care.

After-school activities mean more trips in the car because these destinations aren't close enough for them to get to on foot or on their bikes.

While "Sophia" and "Caleb" are not a real individuals, they were inspired by the feedback and stories of real people who participated during the Connecting Aurora Engagement Process.

Sophia, Caleb and their mom's route to school each day

Place-Oriented City

In the Place-Oriented City, Caleb can walk on a safe route to his neighborhood elementary school, and Sophia is able to bike to her middle school on the local trail network. This means that their mom can take a full-time job at her school and still be active in their before- and after-school activities. Their neighborhood has a mixed-use town center at its core that offers parks and small businesses. A local resident opens a small music school that the kids join and bike to twice a week.

Both of their parents keep their cars, but they use them far less than in the Car-Oriented City, saving money on maintenance and fuel.

Sophia and Caleb live spontaneous, unplanned days where they are able to make their own plans with friends without having to rely on their parents for rides.

Multimodal Network

A Network that Works for Everyone

Multimodal networks integrate walking, bicycling, rolling, transit and driving into a cohesive and connected system that allows people to move safely and efficiently through a city. They provide a range of travel options to meet the diverse needs of residents, workers and visitors.

Multimodal networks provide greater flexibility, access and resiliency within the transportation system than a car-dependent network. By providing alternatives to driving, multimodal networks can support Aurora's goals to reduce congestion, lower GHG emissions, improve public health and offer cost-efficient travel options for people of all ages and abilities.

Within a multimodal network, streets serve different purposes and functions, but the safety and comfort of all users remains a priority.

Safe and direct connections, such as bicycle parking near transit stops or pedestrian facilities leading to park-and-rides, make it easier to transition between modes. Streets and supporting infrastructure design must minimize conflicts between modes while ensuring comfort and predictability.

Policies need to strengthen the relationship between land use and transportation, while programs should encourage multimodal travel. Together, they create a network where each mode reinforces and complements the others, resulting in a more accessible, sustainable and user-friendly transportation system.

This chapter focuses on how Aurora's Place-Oriented City will take shape through balanced modal design and supportive policies and programs.

Chapter 6 Highlights

FRAMEWORK FOR ACTION
Describes recommendations that are found in this plan.

POLICY & PROGRAM SUMMARY
Policies and programs to help the city achieve its vision.

COMPLETE STREETS FRAMEWORK
Summary of the policy that guides future street design.

MODAL PRIORITY
Establishing a system to prioritize multimodal travel.

Framework for Action

Aurora's action framework guides policies, programs, investments, and partnerships to deliver a safe, connected, and reliable transportation system for all.

Aurora will take action to provide safe, convenient, reliable and connected transportation options for all people. The framework for action will help the city realize its transportation vision for Aurora. City actions include creating policies to regulate, design, operate and prioritize transportation infrastructure; improving city transportation services and infrastructure programmatically; and making capital investments in transportation. Many of these actions will require or benefit from partnerships with other public agencies and private entities.

Policies

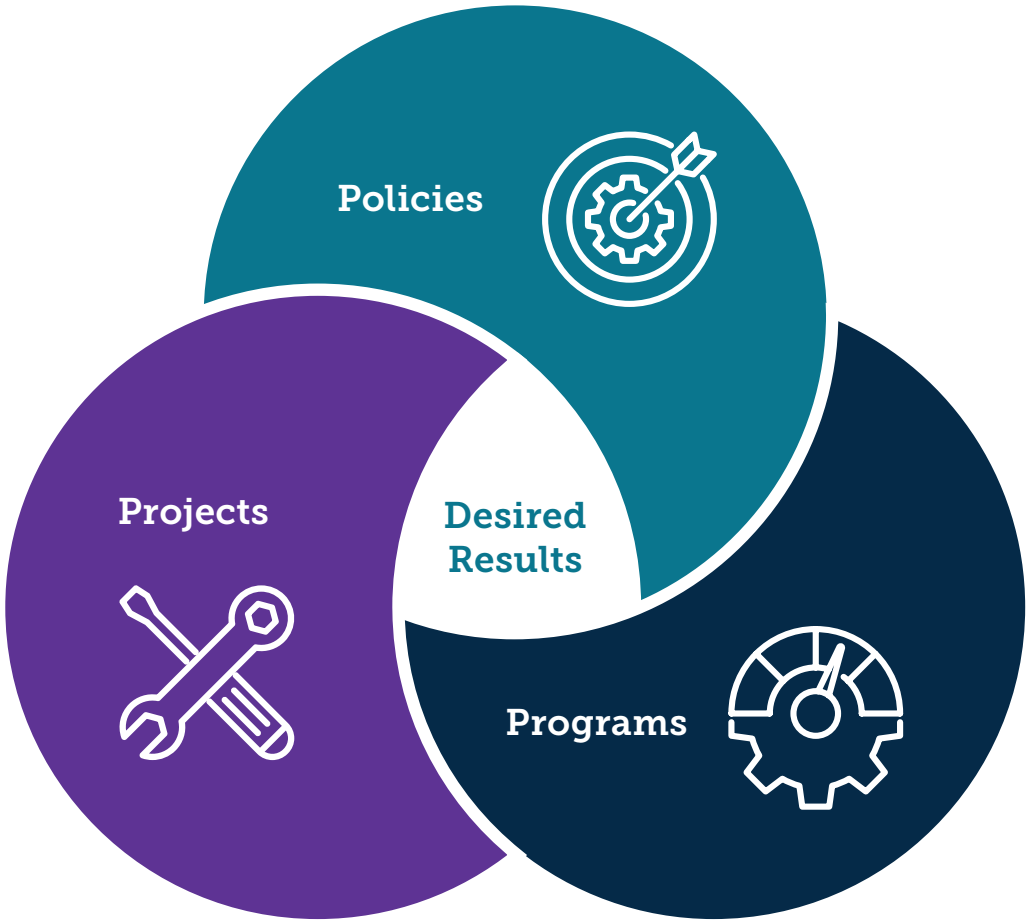
Several policies are included in this chapter and each mode chapter (Chapters 7 through 11) to establish guidance on transportation decision-making in the city. These policies, among others, will help city staff and other key decision-makers to better develop and implement the projects identified in Connecting Aurora. The implemented policies will form the foundation for future investment and guidance for building and maintaining the transportation system.

Programs

The programs in Connecting Aurora are focused on providing better overall service for Aurorans. They are intended to help the city establish methods to implement improvements and initiatives outside of the specific capital investment recommendations identified as stand-alone or packaged projects. These recommendations will allow the city to pursue quality of life enhancements in a regular and regimented manner, ideally with steady and predictable funding streams.

Capital Investments

Capital investments in transportation are focused on implementation of improvements in phases (short-, medium- and long-term implementation timelines). Capital investments are discussed in each mode chapter, and are summarized in the Moving Forward chapter (Chapter 12). Some of the projects will be funded with city funds, while others will be funded by others, such as private developers. Some larger projects and project packages will necessitate the pursuit of partnerships with federal and state governments and other local agencies.



Partnerships

Aurora's transportation systems are built, operated, maintained and used by a huge variety of partners. How the city of Aurora capitalizes on these partnerships matters. Key partners are highlighted throughout the framework for action in each mode chapter (Chapters 7 through 11).

Policies and Programs for Complete Streets

Policies and programs are an important component of Connecting Aurora as they work together with projects to achieve desired outcomes.

Policies, programs and projects are part of a holistic process to produce desired results. The policies and programs identified in this chapter are intended to support implementation of Connecting Aurora. Some of these policies and programs may relate to one specific mode, while others are relevant to multiple modes. Additional context, where appropriate, may be found in Chapters 7 through 11. For easy reference, policies are identified as PL and programs are identified as PR.

Policies

Policies are directives or guidelines that provide the foundation and structure to develop projects and programs and implement them in ways that advance the goals, inform city priorities on investments and set standards for implementation and evaluation.

Programs

Programs are activities or broad project efforts that encourage, educate and support mobility investments, including approaches for better data and information gathering to support decision-making related to future Projects and Policies. Programs may be implemented by or in partnership with other agencies and organizations.

Projects

Projects are specific infrastructure investments intended to improve access and mobility options. Projects represent the priorities of the plan and are implemented over time to complete the defined multimodal networks.

Recommended Policies and Programs

Policy/Program	Description	City Benefit	Community Benefit
PL 1: Complete Streets Framework	Adopt a Complete Streets Framework and create a complete streets design guide to prioritize safe, convenient and comfortable travel for all users—regardless of age, ability or mode of travel. This includes incorporating sidewalks, bicycle lanes, protected crossings, accessible transit stops and traffic calming measures in all projects to the extent feasible. The framework guides all phases of project delivery, including planning, design, construction and maintenance.	This helps the city build a safer, more balanced multimodal network by aligning internal departments and efforts for improved coordination and effectiveness.	As a community member, it means you can get around safely and comfortably no matter how you choose to travel.
PL 2: Transportation Impact Study (TIS) Guidelines	Update current TIS Guidelines to incorporate multimodal safety and convenience best practices. In the future, consider alternative methods for measuring multimodal level of service. The policy supports project evaluation across modes.	It ensures new projects consider walking, biking and transit so the transportation system keeps pace with the city's growth and aligns with the direction for mobility.	This means that new developments are planned with your daily experience in mind, including sidewalks, safe crosswalks, bike facilities and reduced congestion.
PL 3: Update Requirements for New Development and Re-Development	Update UDO and other city land use codes/relevant documents to ensure that new developments and redevelopments are designed to support multimodal transportation, connectivity and maximize transit investments. The policy includes context-sensitive design principles and supports complete neighborhoods.	It ensures that growth enhances and reinforces the city's mobility investments, rather than straining the transportation network.	It means that new housing or destinations will be easier to reach on foot, by bike or by bus—not just by car.
PL 4: Designing Streets for Safer Speeds	Where appropriate, use context-sensitive approaches and data to consider setting speed limits, particularly on pedestrian-priority-streets. It aims to reduce crash frequency and severity, particularly, but not only for, people walking and biking.	This reduces crashes and severity of impacts, creating more people-friendly places.	Slower speeds mean safer streets for walking, biking and driving—especially for kids and older adults.
PL 5: High Frequency Transit Corridors TOD	Encourages TOD along high frequency transit corridors, emphasizing walkability, mixed land uses and higher densities near stations. It aims to maximize the benefits of transit investments by increasing ridership and supporting economic development. Tools may include zoning changes and/or financial incentives.	It supports transit investments and promotes economic growth while enhancing transit efficiency and sustainability.	Living or working near transit makes it easier to get where you need to go without always relying on a car and provides additional options for employees to get to work.

PL = Policy PR = Program

Recommended Policies and Programs (cont'd)

Policy/Program	Description	City Benefit	Community Benefit
PR 1: GIS and Asset Management Data Updates	Expand Strategic Asset Management Plan to include multimodal infrastructure.	This makes sure decisions are based on accurate, up-to-date information, which helps with planning, budgeting and long-term maintenance.	These tools improve the public's ability to understand information and participate in the process, increasing transparency.
PR 2: Resurfacing Program Expansion	Continue and adequately fund the existing resurfacing program that systematically repairs or replaces roadway surfaces to maintain ride quality and extend pavement life. It integrates safety and multimodal improvements, such as striping bike lanes or curb ramp upgrades.	Well-maintained streets lower repair costs, extend the life of the transportation network and reduce emergency response delays. This also provides a lower-cost option to enhance streets.	Fresh pavement makes driving, biking and walking safer and more comfortable; and it saves you from wear and tear on your car.
PR 3: Maintenance Program	Develop a program for annual maintenance funding of new and existing city-owned transportation infrastructure, as well as replace cost funding.	Routine maintenance prevents costly repairs later and keeps the whole system running reliably.	It means fewer potholes, safer sidewalks, debris-free bike lanes and facilities that work the way you need them to.
PR 4: Bicycle Friendly City	Modeling after the League of American Bicyclists' framework, this encourages policies, programs and infrastructure investments that support safe and convenient bicycling. City certification and efforts can be supported by programs to encourage businesses to promote biking.	It supports healthier, more sustainable travel choices and helps the city gain recognition as a bicycle-friendly place.	It means safer facilities, education to build confidence and encouragement to ride—whether for fun, errands or commuting.
PR 5: Transportation Demand Management (TDM)	TDM programs use incentives, education and infrastructure to shift travel behavior away from single-occupancy vehicle use toward more sustainable modes, such as transit, biking, walking or carpooling. Common elements include commuter benefits, parking pricing and mobility apps. TDM supports reduced congestion, emissions and parking demand.	It reduces congestion, cuts emissions and makes better use of the transportation system the city already has.	It gives you more choices—like carpools, transit passes or flexible work options—that can save money and time.
PR 6: Microtransit	Provides on-demand, shared rides using small vehicles that can flexibly serve major employment areas and underserved areas. Services are typically app-based and may be operated by public agencies or through partnerships with private providers. Microtransit bridges gaps in the fixed-route network and supports first- and last-mile access.	It fills gaps where regular bus service isn't practical, helping more residents access jobs, schools and services.	It's like having a neighborhood shuttle you can call when you need it, making travel easier without relying on a car.

PL = Policy PR = Program

Recommended Policies and Programs (cont'd)

Policy/Program	Description	City Benefit	Community Benefit
PR 7: Bus Priority	In partnership with RTD, implement strategies to improve bus speed and reliability, such as dedicated lanes, queue jumps, signal priority and bus stop consolidation. It aims to make bus service more competitive with driving and improve rider experience. Programs may include planning, pilot testing and permanent implementation phases.	Faster buses improve transit service and attract more riders, reducing overall traffic and emissions.	It means buses that show up on time and get you where you're going quicker—even during rush hour.
PR 8: Bus Stop Improvements	Encourage transit providers and other partners to fund, install and maintain transit stop improvements and amenities. The program often includes coordination with accessibility upgrades and land use context.	Better stops can make transit a more attractive option that supports future investments and leverages access and maintenance partnership opportunities.	It means getting to and waiting for the bus is safer, more comfortable and more welcoming in all kinds of weather.
PR 9: Urban Area Shared Micromobility	Enables public or private providers to operate shared bicycles, e-bikes or scooters within a city. It establishes permitting, parking, access and data reporting requirements. Shared micromobility enhances short-trip connectivity and can reduce vehicle use for first- and last-mile travel. Consider this program in highly urbanized areas, such as the Anschutz Medical Campus.	Shared micromobility expands travel options, reduces short car trip and supports first- and last-mile connections to transit.	It gives you quick, flexible ways to get around without needing to own a bike or scooter yourself.
PR 10: Neighborhood Sidewalk Retrofits	Build on the existing program that fills gaps in the sidewalk network and upgrades substandard or inaccessible sidewalks in existing neighborhoods. Prioritization is based on safety, equity, proximity to schools or transit and community requests.	Completing the sidewalk network improves accessibility and safety for everyone, especially in neighborhoods that have been left behind.	It means safer, easier walks to school, the park or the bus stop—no more muddy paths or gaps in the sidewalk.
PR 11: Safe Routes to School (SRTS)	SRTS programs promote safe, convenient and fun walking and biking to school through infrastructure improvements, education and engagement activities. Projects may include crosswalks, signage, sidewalk repairs and school travel plans.	Investing in SRTS improves safety, reduces traffic around schools and encourages healthy, lifelong travel habits.	Parents get peace of mind knowing their kids can travel safely; and kids get more independence and fun on the way to school.
PR 12: Multimodal Counts	Collects data on non-motorized travel to measure usage trends and evaluate projects. Regular counts help inform planning, justify investments and track mode shift.	Good data helps the city make smarter investments and measure progress toward transportation goals.	It ensures your travel choices—whether walking, biking or riding transit—are counted and valued in city decisions.

PL = Policy PR = Program

Connecting Aurora Complete Streets Framework

The Connecting Aurora Complete Streets Framework establishes a bold, citywide approach to planning, designing, and maintaining streets that are safe, equitable, and accessible for all users.

Aurora will develop a Complete Streets framework to support Connecting Aurora's vision and reinforce the city's commitment to inclusive mobility, public health, sustainability and community vitality. It will help ensure that Aurora's transportation investments contribute to a connected, multimodal street network and enhance public space. The following are key components to be included in the framework:

Framework Purpose

At its core, the framework will integrate multimodal principles into the fabric of transportation decision-making—from initial planning to long-term maintenance. Its purpose is to safely connect all people, whether they walk, bike, roll, drive or ride transit, to the places they live, work and play.

Scope and Design Guidance

The framework will apply to all street projects—new construction, retrofits, operations and maintenance—so that all users are accommodated and prioritized accordingly. Aurora will develop design standards that follow best practices from federal guidelines like Federal Highway Administration (FHWA), American Association of State Highway and Transportation Officials (AASHTO) and National Association of City Transportation Officials (NACTO), while remaining flexible and context-sensitive to Aurora's local needs and land use patterns.

Land Use and Context Sensitivity

The framework will define modal priority and coordinate with street types and placetypes to account for the surrounding context, while maintaining consistency for users. This will allow the city to tailor multimodal features and curbside amenities according to corridor type and community input. This approach will ensure strategic trade-offs and investments align with corridor function and community goals.

Equity Integration

Transportation projects will be evaluated through an equity lens so that there is a fair distribution of investments across the city. Tools, such as the Vulnerable Population Index, will guide prioritization, alongside engagement efforts that reflect Aurora's demographics, such as car-light households and areas of persistent poverty.

Implementation and Oversight

A Complete Streets Implementation Team of city department staff and community representatives will guide inter-departmental coordination. Training for city staff, boards and commissions will institutionalize policy and improve understanding and consistency in project review.

Maintenance and Operations

Ongoing operations, such as snow removal, sweeping and repairs, must support all modes equitably. Routine maintenance will incorporate multimodal considerations where appropriate.

Project Prioritization

Projects will be selected based on how well they align with Connecting Aurora goals, close infrastructure gaps, improve safety and support multimodal access. A transparent, data-driven scoring system will be used to evaluate project readiness, cost-effectiveness, equitable impacts, and community engagement. Project reviews will align with the city's strategic planning efforts.

Measuring Progress

The city will track performance and engagement metrics to assess implementation success. Key indicators include car-light households, areas of concentrated poverty and age demographics. Regular reviews and updates to standards and policies will ensure alignment with evolving goals and technologies.

Complete Streets Design Guide

Complete Streets Design Guide will be a tool to provide a context-sensitive framework to plan, design and implement streets that reflect Aurora's goals and responds to its diverse land uses, mobility needs, community priorities and best practices.

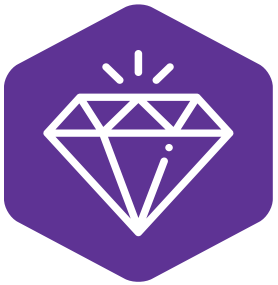
The Design Guide will be developed and implemented after the completion of Connecting Aurora and will be updated from time to time to keep up with industry standards. The guide will provide key street elements, design principles and modal priorities for each street type matched to place types.

The purpose of the guide will be to:

- Support complete streets.
- Align street design with land use context.

The Design Guide will support development of a connected, vibrant and resilient street network. More broadly, the Design Guide will provide guidance for:

- Strengthening the public realm. Consistent implementation for context-based design by leveraging place types and street types together, ensuring streets reflect the character and function of their surrounding environment.
- A functional framework to incorporate multimodal priority into planning and design for future investments.
- Ensuring access for people of all abilities to all modes in the transportation network.



The core philosophy behind the Design Guide will be to emphasize that streets serve many purposes, including

- Mobility – getting people to where they need to go in a manner that is safe and convenient.
- Placemaking and wellness – providing visual attraction as people travel to and through the city and, depending on placetype, streets may foster community gathering.
- Ecology and resilience – streets must address stormwater and major weather events
- Economic vitality – streets support economic development in a myriad of ways, including accommodating the movement of freight to provide access to local businesses.

Establishing Modal Priority

Modal priority is a framework used in transportation planning to guide how different travel modes—such as walking, biking, riding transit and driving—are treated within a given corridor or project.

The three modal priority levels for Connecting Aurora (from highest to lowest) are **Prioritize, Emphasize and Accommodate**. These priority levels help clarify the role of each mode in the design and operation of a street and allow for multiple modes at like priority levels where appropriate. This approach supports balanced, context-sensitive street design that reflects community goals and transportation needs. The table on the following page details each priority level and its relationship to the street types and placetypes, which are further described in Chapters 7 through 11.

Prioritize

Provides a high caliber of experience by the prioritized mode that receives the highest consideration and operational preference. Facility widths are ample for use and safety. Prioritizing a particular mode may compromise elements from other modes so there is space for a high-quality experience.

Emphasize

Elevates a particular travel mode through enhanced design and amenities. The user experience is comfortable and is connected to destinations and amenities. Design features or operational support to enhance comfort, efficiency or visibility for a given mode are expected.

Accommodate

Provides for basic provisions for a particular mode. Facilities may meet minimum functional standards or other design compromises may be pursued to provide space for other modes.

Modal Priority Definitions

Mode	Accommodate	Emphasize	Prioritize
 **Walking and Rolling** What this looks like	Provide access to local residences, commercial uses, parks or other destinations from transit stops and other higher order pedestrian routes.	Corridor facilities are enhanced to provide safe and convenient pedestrian access for moderate levels of pedestrian activity.	Corridor is intended to be a safe, attractive and convenient place for pedestrians. Design is for a high-level of pedestrian activity supporting current and future land use.
	City minimum width sidewalk and accessible curb ramps are present. Sidewalk is separated from the street if possible.	Increased sidewalk width and increased buffer space from the street are preferred, shared-use paths may be applicable.	Sidewalks may be widened further based on the surrounding context, a separated trail may be applicable, buffer is preferred and may be increased, wayfinding and amenities are included, raised crossings may be applicable.
 **Bicycling*** What this looks like	Bicycle access serves local circulation needs for bicyclists and provide access to adjacent properties.	Corridor facilities are intended to provide direct access to significant destinations or neighborhoods from the primary network.	Prioritized facilities comprise the backbone of the bikeway network and connect destinations and neighborhoods across Aurora. Facilities should support higher volumes of users, maximize comfort and minimize delay.
	Bicycle route signage or shared street, standard bike lane and shared use path.	Neighborhood bikeway treatments, buffered or separated bike lane, shared use path potentially wider and/or increased separation between users.	Wider and separated facilities appropriate to traffic and user context, off-street dedicated bikeway, separated on-street bike lane, separated trail, enhanced signage and wayfinding, bike parking and other amenities.
 **Transit*** What this looks like	Provides access for a standard bus or smaller vehicle, including paratransit, shuttles or on-demand transit.	Facility design provides more comfortable transit access to destinations and neighborhoods along the transit network.	Corridor supports frequent and reliable transit connecting major hubs and regional destinations and high-quality transit amenities and access for users.
	Appropriate street design for vehicle movements and turning, Americans with Disabilities Act (ADA) accessible bus stop.	ADA accessible bus stops with shelters and/ or other passenger amenities, coordinated pedestrian and bike access.	High-capacity transit routes with enhanced stop amenities and priority improvements.
 **Driving** What this looks like	Accommodations for driving are intended to provide access to local residences or commercial uses within a placetype.	Corridors are intended to distribute traffic to higher-level streets and support travel to and within placetypes.	Corridors are principal traffic routes serving most trips with at least one end within the city of Aurora. Safety countermeasures are a high priority on these corridors.
	Minimum street requirements, turn lanes where necessary, on-street parking	Enhanced signal timing for travel time reduction, potential additional turn lanes.	Additional travel lanes, prioritized signal timing, likely additional turn lanes for reliability.
 **Freight** What this looks like	Access provided to accommodating goods movement and last-mile delivery service to local residences or commercial districts.	Corridor-level goods movement intended to serve as primary routes within Industry Hub placetypes and connect major streets..	Prioritized facilities for access and circulation within and between freight districts, and serve intercity regional movement of freight.
	Vehicle access to destinations, on-street loading zones in high-demand areas, potential delivery lockers	Truck-designed turning lanes, mountable curbs and loading zones.	Wider lanes, larger turning radii, additional turning lanes and loading zones

** Applicable primarily along the bike or transit network, but may also apply to corridors that directly link to these facilities.*

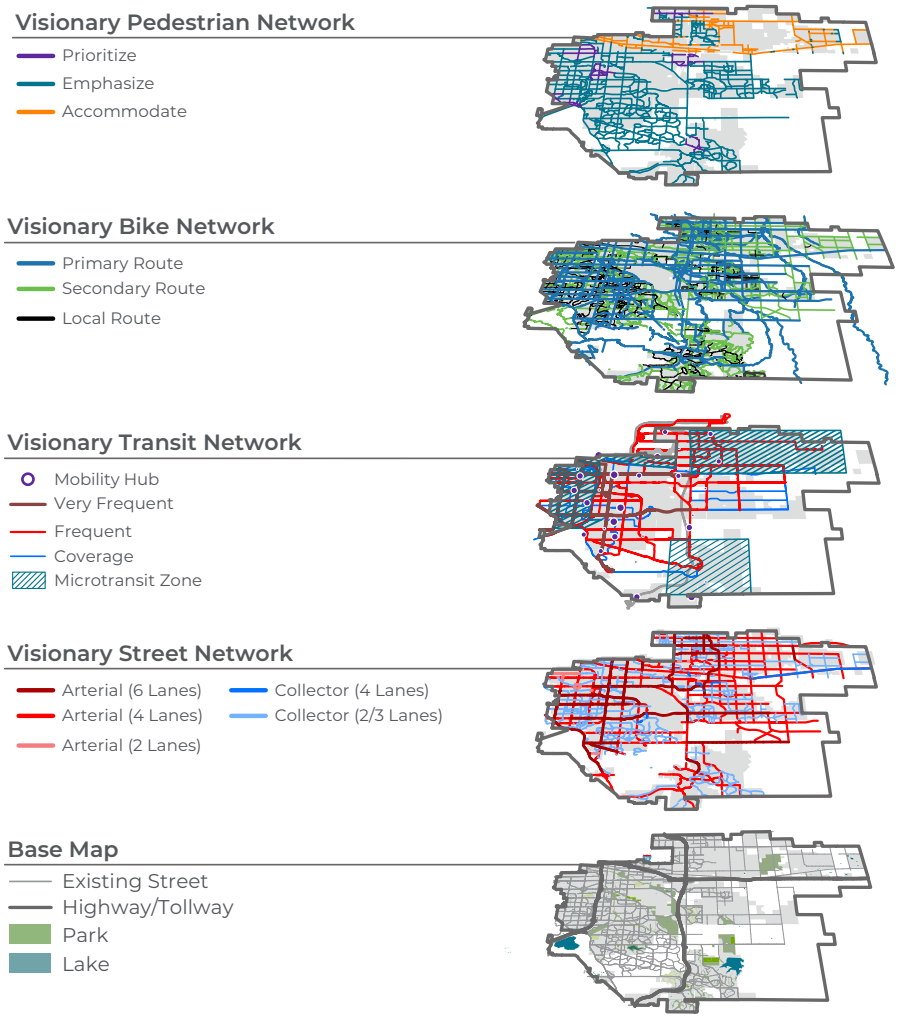
Creating a Multimodal Transportation Network

Designing Visionary Networks

Aurora's Place-Oriented future depends on a true multimodal network where walking, biking, rolling, riding transit, driving and moving goods work together in a safe, connected and efficient system.

Building the multimodal network requires more than just individual projects. It takes policies, design guides and implementation strategies that knit everything together. Through the Connecting Aurora planning process, Aurora developed the Complete Streets Framework to build a transportation system that serves all users and creates seamless travel experiences.

Advancing multimodal principles moves Aurora closer to achieving its vision for a Place-Oriented City. Multimodal investments create streets that are more than travel corridors. They transform into destinations in their own right, supporting vibrant neighborhoods, thriving businesses and healthier communities. In this way, the multimodal network is both the backbone of mobility and a catalyst for creating people-focused places envisioned in Connecting Aurora.



Modal Visionary Networks

To support this vision, the plan identifies a set of visionary networks—aspirational, citywide networks for each travel mode that define the long-term structure of Aurora's transportation system. These networks illustrate how walking, biking, transit, driving and freight movement should connect across the city to create safe, comfortable and accessible options for people of all ages and abilities. The visionary networks provide a roadmap to guide future investments, align policies and design decisions and ensure that incremental improvements collectively build a connected multimodal system that advances Aurora's place-oriented goals.

These networks overlay on each other to create the multimodal transportation system.

To build this system, the city will develop and maintain standard complete street cross-sections that incorporate design elements based on the modal priority for a given transportation corridor.

A brief description of these visionary networks and how they will be combined to form a

multimodal transportation network and complete streets follows.

Visionary Pedestrian Network

This network describes the appropriate modal priority for pedestrian facilities for a given street segment.

The width of the pedestrian facility and buffer between the sidewalk and other travelways will be dictated by this priority level.

Visionary Bike Network

Bikeway treatments will be defined for each street segment, including bikeway type, width, and buffer.

Visionary Transit Network

The transit network includes both frequency of service and type of guideway for transit. The guideways considered include rail corridors, dedicated transit lanes, and buses running in mixed traffic with cars and trucks.

Visionary Street Network

The visionary street network is focused on car and truck travel, and indicates the number of lanes and type of facility to provide for those specific modes of travel.

Complete Streets

In most cases a combination of street capacity (i.e. 4-lane arterial, 2-lane collector, etc.), transit capacity (i.e. bus rapid transit, medium capacity bus, etc.), bike capacity (i.e. shared use path, separated bikeway, etc.), and pedestrian capacity (i.e. 6-foot sidewalk, shared use path, etc.) will be necessary to provide the visionary multimodal network connectivity envisioned in this plan.

An example of what this might look like is shown below, a 2-lane arterial with dedicated bus rapid transit lanes, separated bikeway and comfortable buffered sidewalks.

People Walking

Making Our Future Walkable

In the past, Aurora has made planning decisions that supported car-centric land use patterns and infrastructure, resulting in a city that is not pedestrian-friendly. While there are sidewalks, street crossings and paved trails throughout the city, they are often outdated, inconsistently placed or uncomfortable for people traveling by foot.

To fulfill the vision of becoming Place-Oriented City, Aurora must improve walkability within and between communities.

Walkability refers to the extent to which people can get to services and amenities on foot within a reasonable time and distance. Highly walkable communities require well-designed and well-maintained pedestrian infrastructure and strategic land use decisions to bring everyday needs closer to where people live.

New programs, policies and infrastructure to improve walkability will make Aurora a safer, healthier and more connected community.

Strategic investments in a walkable community will:

- Improve safety for everyone on Aurora's streets.
- Minimize congestion caused by population growth by providing alternatives to driving.
- Provide a growing population of aging residents safe sidewalks so they can remain independent and age in place.
- Address deficiencies, such as the high number of substandard sidewalks and crossings in disproportionately impacted communities.
- Improve access to everyday destinations by closing gaps of missing and narrow sidewalks, infrequent crossings and car-centric land use.

Chapter 7 Highlights

TODAY'S CONTEXT
Aurora's sidewalks and trails are mostly complete, but the sidewalks are often uncomfortable.

PLANS, PROGRAMS AND INITIATIVES
Aurora is already developing plans and leading projects that address gaps in the network.

VISIONARY NETWORK
The future walking network will be built in a context-sensitive way.

ACHIEVING OUR GOALS
Better walking infrastructure will make Aurora a better place to live and work.

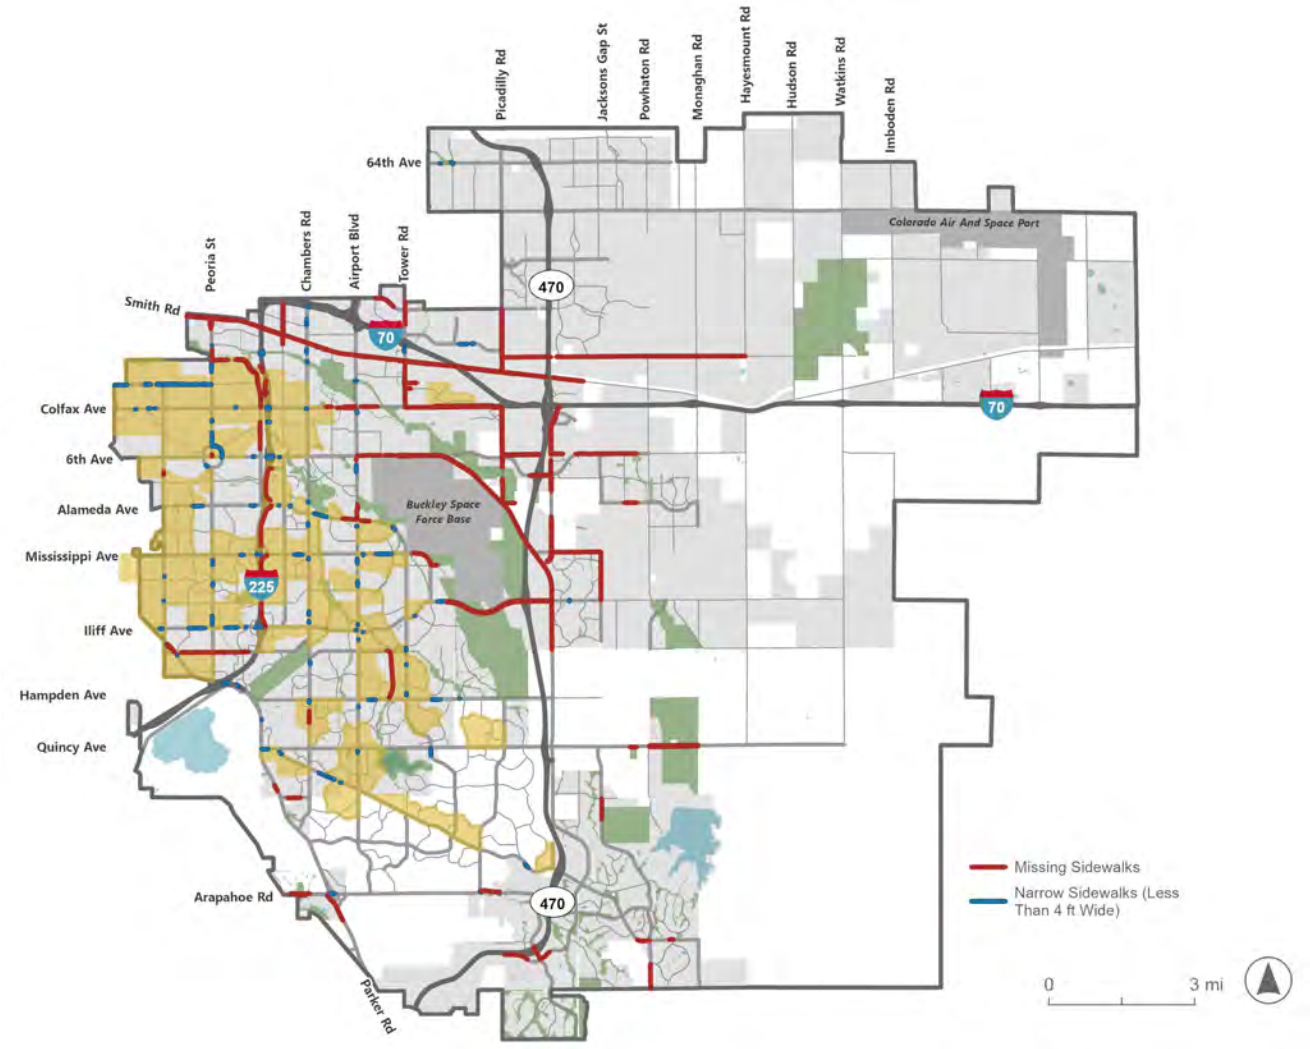
Today's Walking Context

Aurora's Pedestrian Network

Many areas of Aurora are difficult or uncomfortable to navigate on foot.

People who walk in Aurora rely on the existing network of sidewalks, crossings and trails. Despite the more than 2,000 miles of sidewalks and 248 miles of paved trails, walking to everyday destinations in Aurora can be difficult.

Aurora's sidewalk network does not consistently offer a safe and comfortable experience for people walking. In areas without sidewalks, people must often walk in a road, on a shoulder or on another unpaved surface. Around 22% of the city's sidewalks are considered narrow (4 feet or less). Narrow sidewalks are more difficult to navigate safely, especially for those using mobility assistance devices like walkers and wheelchairs.

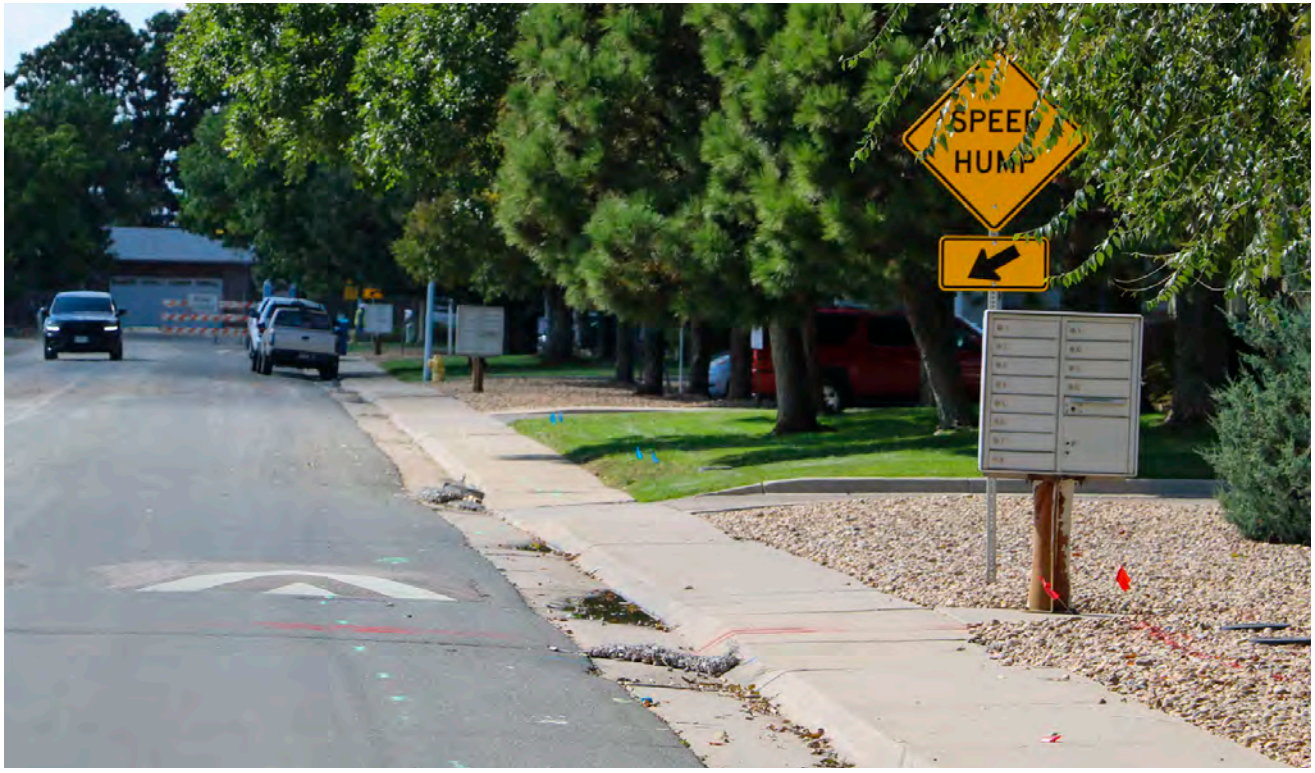


Aurora's pedestrian infrastructure by the Numbers

2,000 miles of sidewalks

248 miles of paved trails

Walking Infrastructure



This map shows missing and narrow sidewalks on arterials and collectors. Many of Aurora's local streets (not shown) also have missing and narrow sidewalks.

Source: City of Aurora

Sidewalk coverage is most complete in Central and South Aurora. Gaps in the sidewalk network are concentrated in northeast Aurora, many of which may be filled in as development occurs. Major streets with missing sidewalks include Smith Road, Colfax Avenue, 6th Avenue, Jewell Avenue and Picadilly Road. Narrow, substandard sidewalks are heavily concentrated in northwest Aurora, particularly in the neighborhoods surrounding Colfax Avenue and 6th Avenue west of I-225.

Key Challenges

UNSAFE AND UNCOMFORTABLE CONDITIONS

Across Aurora, but especially in Original Aurora and other parts of northwest Aurora, sidewalks are missing or do not meet ADA and Public Right-of-Way Accessibility Guidelines (PROWAG) accessibility standards. This creates unsafe and uncomfortable conditions, particularly for people with disabilities, older adults and families with children.

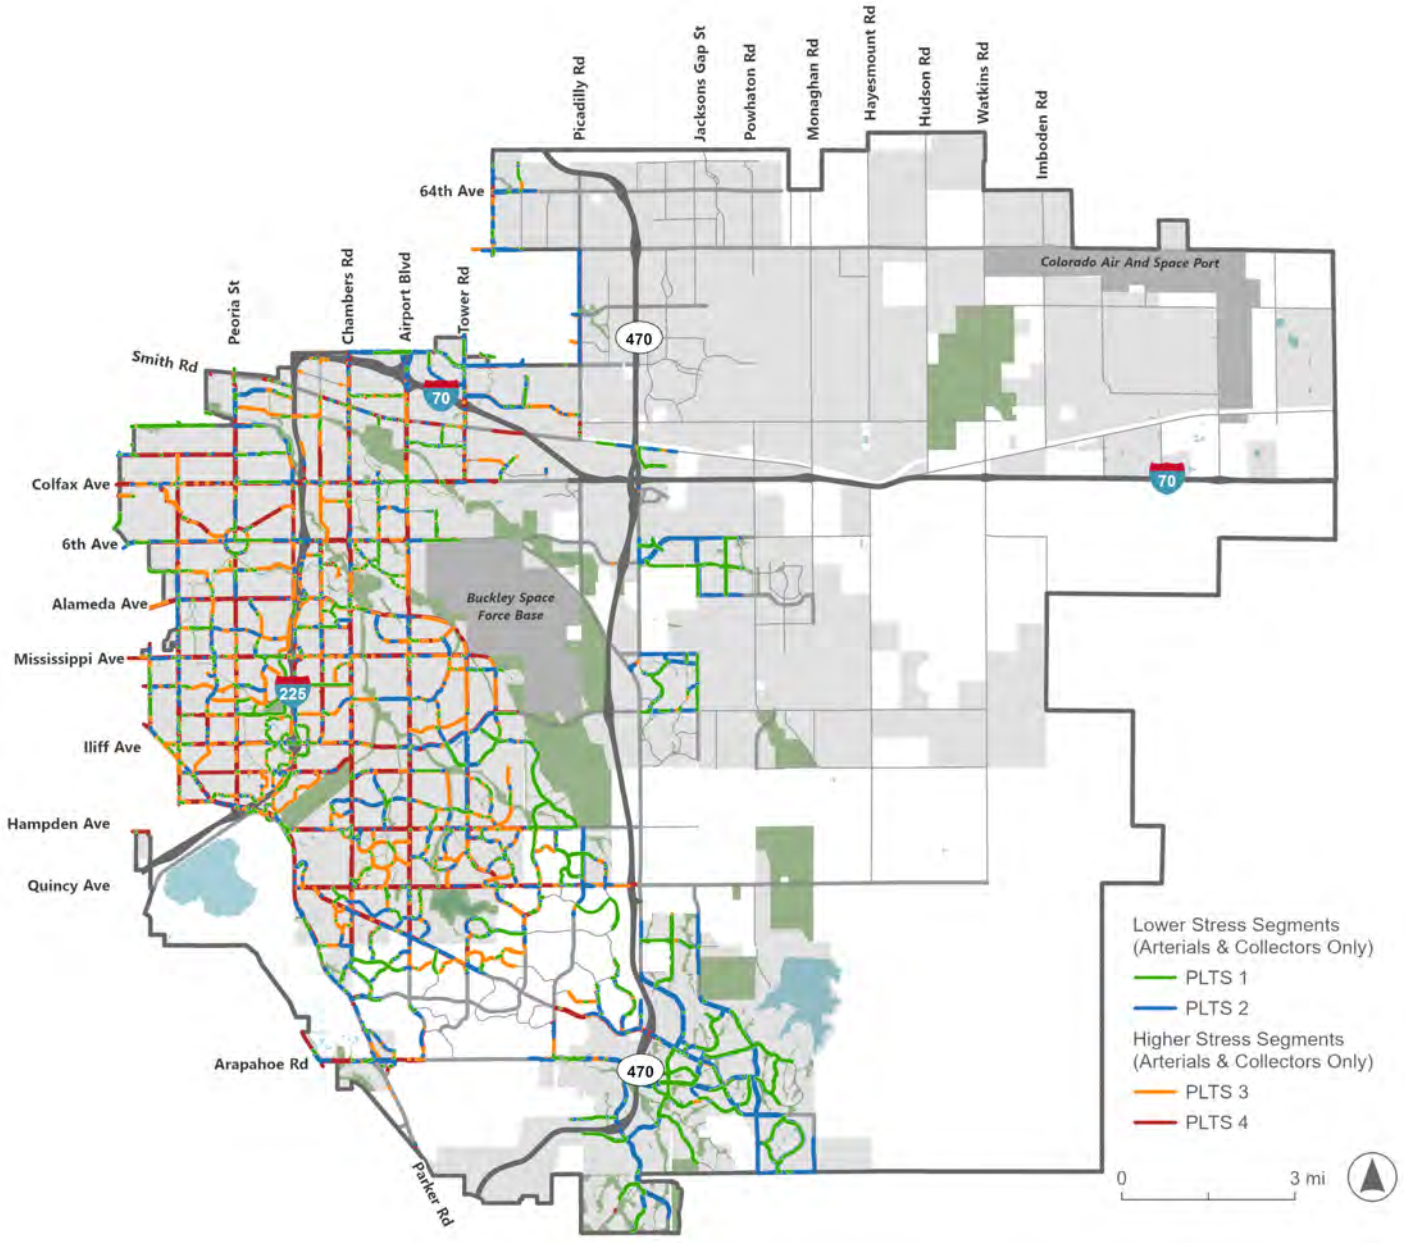
LIMITED PEDESTRIAN REALM

Often, even sidewalks that meet accessibility standards are narrow or without buffers from traffic. This is especially problematic for sidewalks on high-speed, high-traffic arterials like Peoria Street and Chambers Road. Limited or a lack of separation between people walking and people driving creates a pedestrian environment that feels unsafe and uncomfortable. A high Pedestrian Level of Traffic Stress (PLTS) may determine whether or not a person chooses to walk, when given the opportunity.

Pedestrian Level of Traffic Stress

Pedestrian comfort on Aurora's streets may vary dramatically across a single walking trip.

Pedestrian Level of Traffic Stress (PLTS) measures how comfortable it feels to walk along a road based on factors like speed limits, sidewalk width and level of separation from traffic. Roads are scored from PLTS 1 (low stress) to PLTS 4 (high stress). Lower scores mean safer, more comfortable environments for people of all ages and abilities.



Many arterials and collectors west of E-470 are high stress (PLTS 3 or PLTS 4), indicating uncomfortable and often unsafe conditions for people walking. These roads often have segments of narrow or missing sidewalks adjacent to high-speed traffic. In contrast, roads in East Aurora have lower stress PLTS scores because of the more pedestrian-friendly infrastructure.

Key Challenge

INCONSISTENT WALKING CONDITIONS

A person walking in Aurora comes across a range of pedestrian facilities. People can be dissuaded from walking if there are inconsistent, unsafe and poorly connected sidewalks.

Pedestrian Level of Traffic Stress (PLTS)

Pedestrian Crossings

Safe and frequently spaced crosswalks are essential to a well-functioning pedestrian network.

Currently, many of the crossings on busy roads feel unsafe, even when there are traffic signals, because people must cross several lanes of traffic or deal with turning vehicles. High-stress crossings make it harder for people to walk, bike or roll safely.

Highways and wide roads are major barriers to walking and rolling. Highways like I-70, I-225 and E-470 divide Aurora into distinct segments, with few opportunities to safely cross them by foot.

There are many mid-block crossings on busy, high-speed roads that feel unsafe for people walking and bicycling. The city of Aurora has enhanced several crossings by installing high intensity activated crosswalks (HAWKs) and rapid rectangular flashing beacons (RRFBs). HAWKs are a form of traffic control with red beacons that bring motor vehicles to a complete stop at pedestrian crossings. RRFBs are yellow flashing beacons that warn drivers that pedestrians are at the crosswalk so they stop and allow them to cross.

Many of the enhanced mid-block crossings are at trail connections and along arterials and collectors. For example, HAWK crossings along Fitzsimons Parkway connect the Sand Creek Trail and the Fitzsimons light rail station with the Anschutz Medical Campus.

Crossings with appropriate safety treatments placed at shorter distances and between major signals on major roads allow pedestrians and bicyclists to safely cross on the most direct walking or bicycling route to desired destinations.

Key Challenge

CROSSING GAPS

Many of Aurora's streets, especially wide arterials, have long distances between traffic signals or marked crossings. These large gaps force people walking to go far out of their way to safely cross the road at these marked locations or to make unsafe crossings at unmarked locations.

High Intensity Activated Crosswalk (HAWK) at Iliff and Vaughn

This HAWK brings vehicles to a stop so that pedestrians can cross safely.

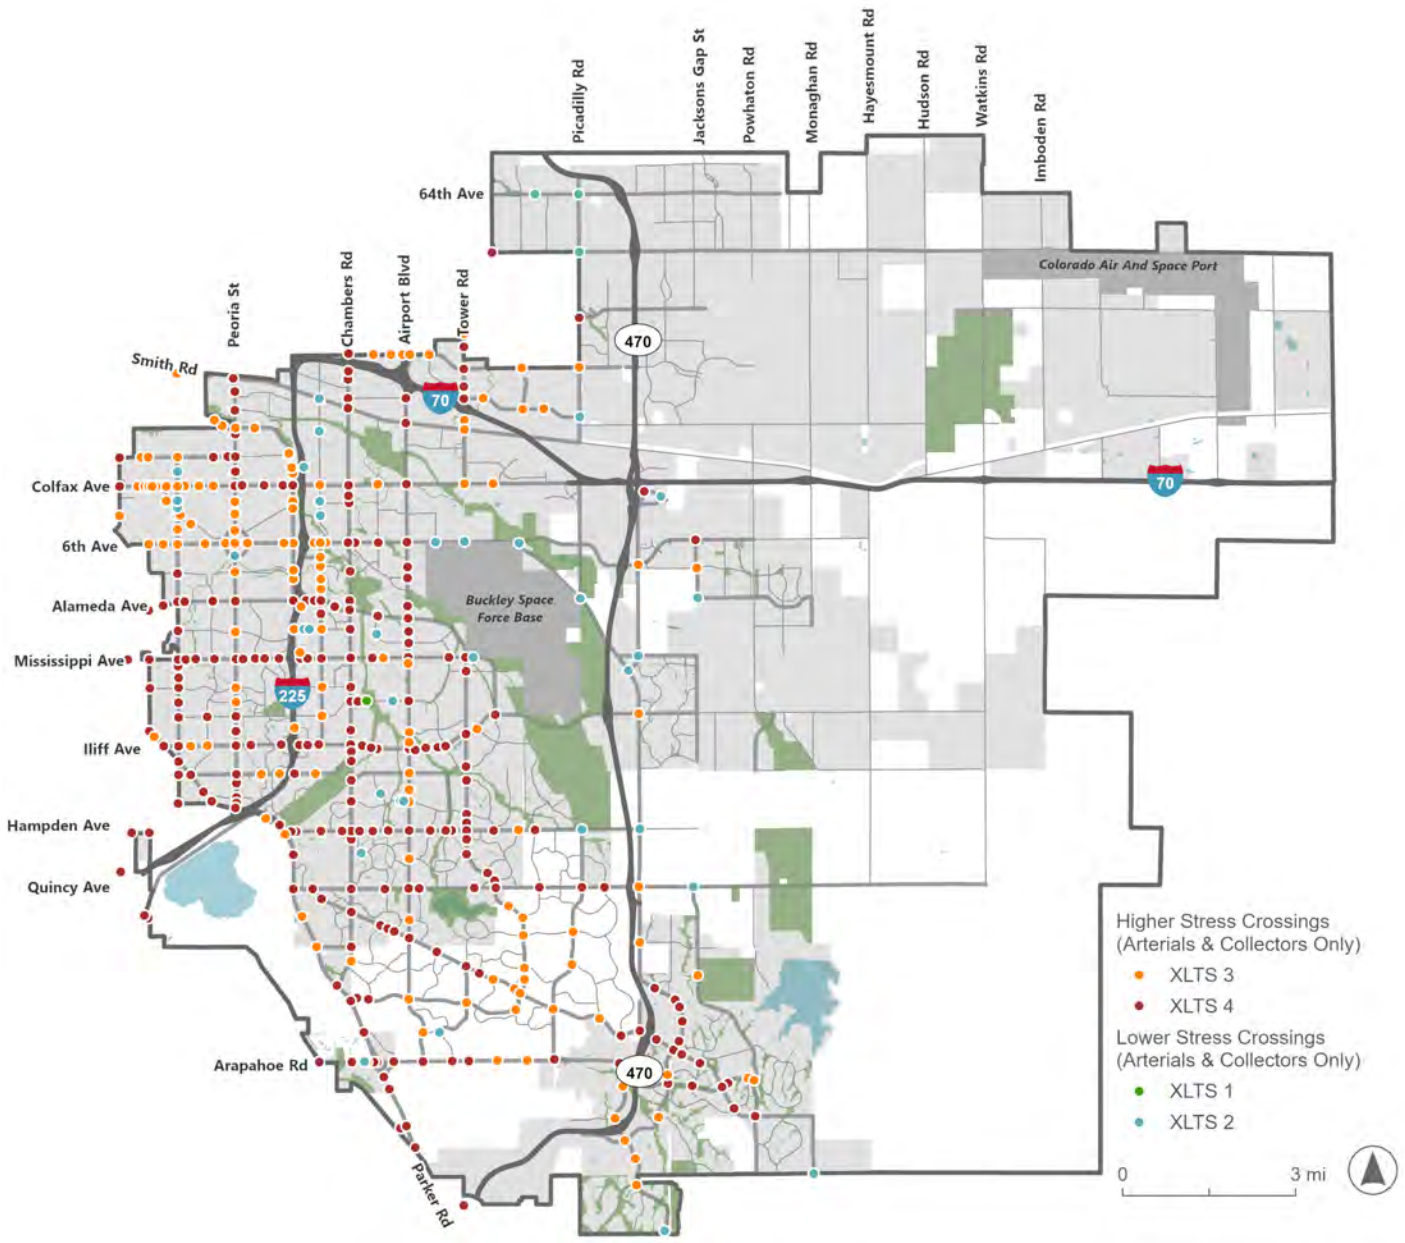
Rectangular Rapid Flashing Beacon (RRFB)

RRFBs enhance the visibility of pedestrians and alert drivers of their presence, increasing motorist yielding rates at crosswalks.

Crossing Level of Traffic Stress

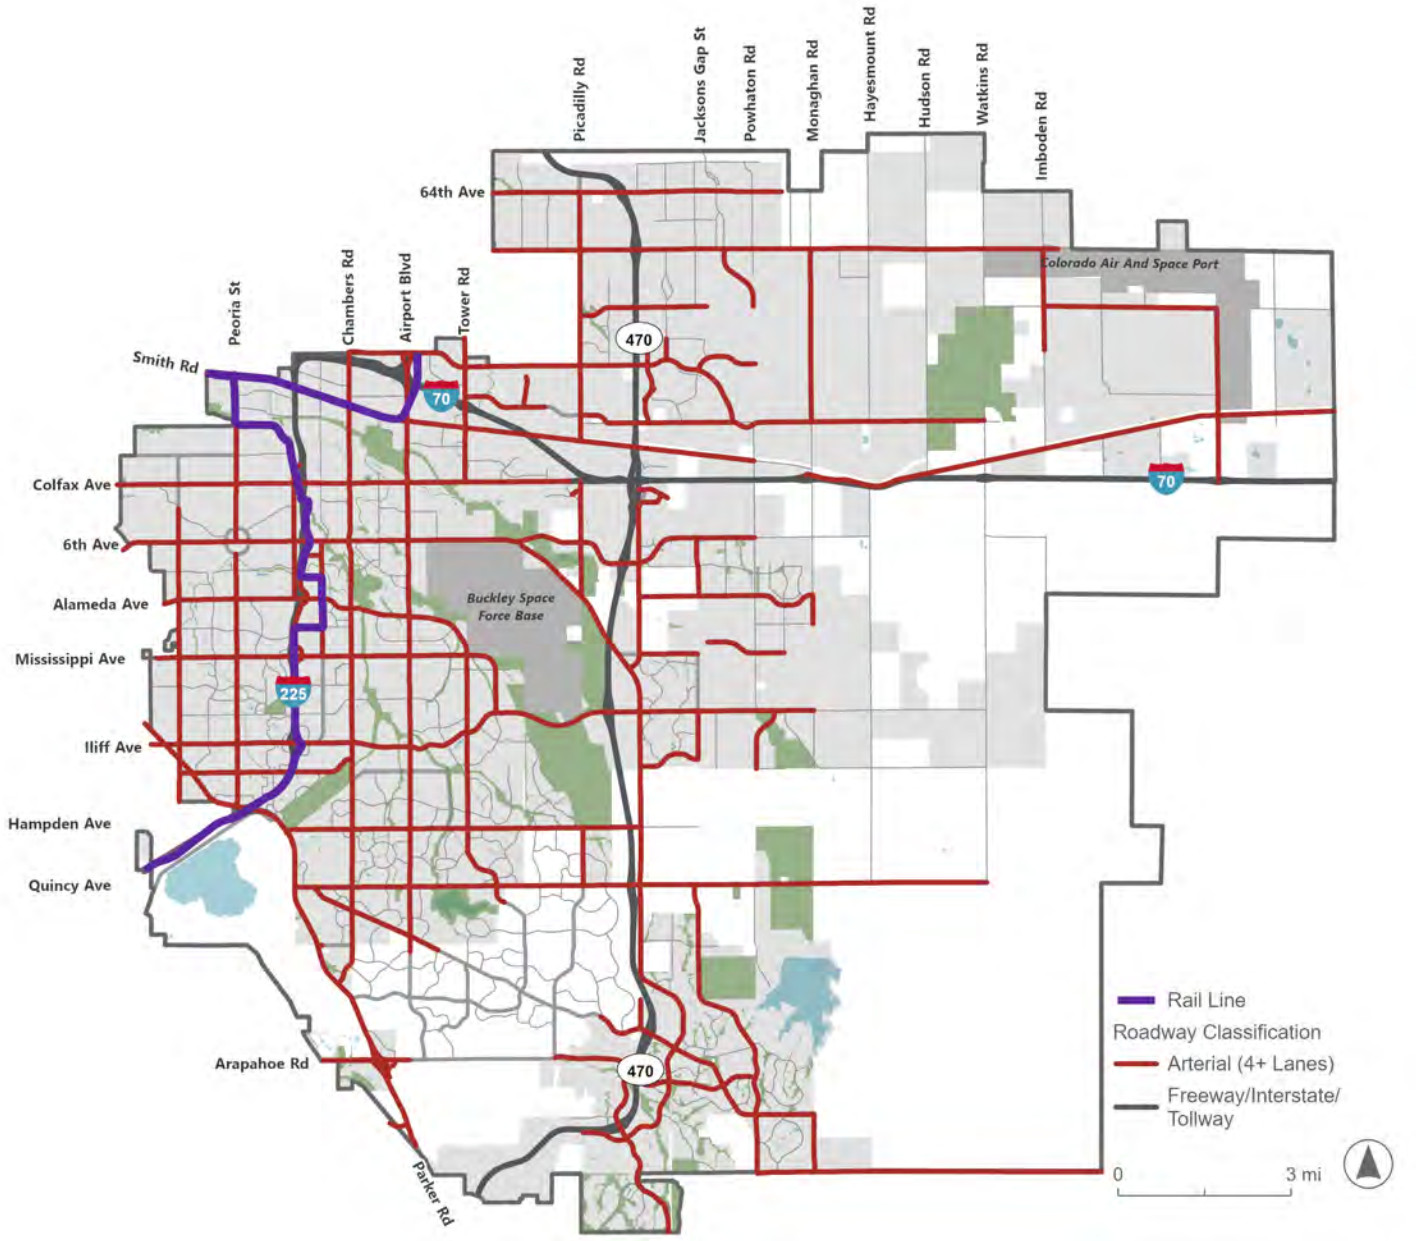
High stress crossings on Aurora's arterials may prevent people from choosing to walk to nearby locations.

Crossing Level of Traffic Stress (XLTS) measures how safe and comfortable it feels to cross major streets by foot or by bike. Pedestrian crossings with higher XLTS scores are more stressful for pedestrians and bicyclists, often due to fast-moving traffic, wide roads and few safety features.



Most arterial crossings in Aurora are high stress, with crossings rated as XLTS 3 or 4. These challenging crossings are especially prevalent along major arterials.

Key Challenge



HIGH STRESS CROSSINGS

Signalized intersections are not always comfortable for pedestrians. Long crossing distances and signal times create uncomfortable and high stress conditions, particularly for people with mobility challenges. These characteristics contribute to high levels of traffic stress for pedestrians.

High Stress Crossings on Aurora's Streets

Barriers to Connectivity

Barriers to Connectivity

Limited crossings, especially near major connectivity barriers, limit Aurora's walkability.

I-70, I-225, E-470 and the RTD A and R Lines divide Aurora into five distinct segments that concentrate vehicular, pedestrian and bike traffic together on limited streets and trail crossings. Many of these crossings are on busy, high-speed roads that feel unsafe for people walking and bicycling. Investing in safer, more comfortable crossings is key to improving citywide connectivity.

Key Challenge

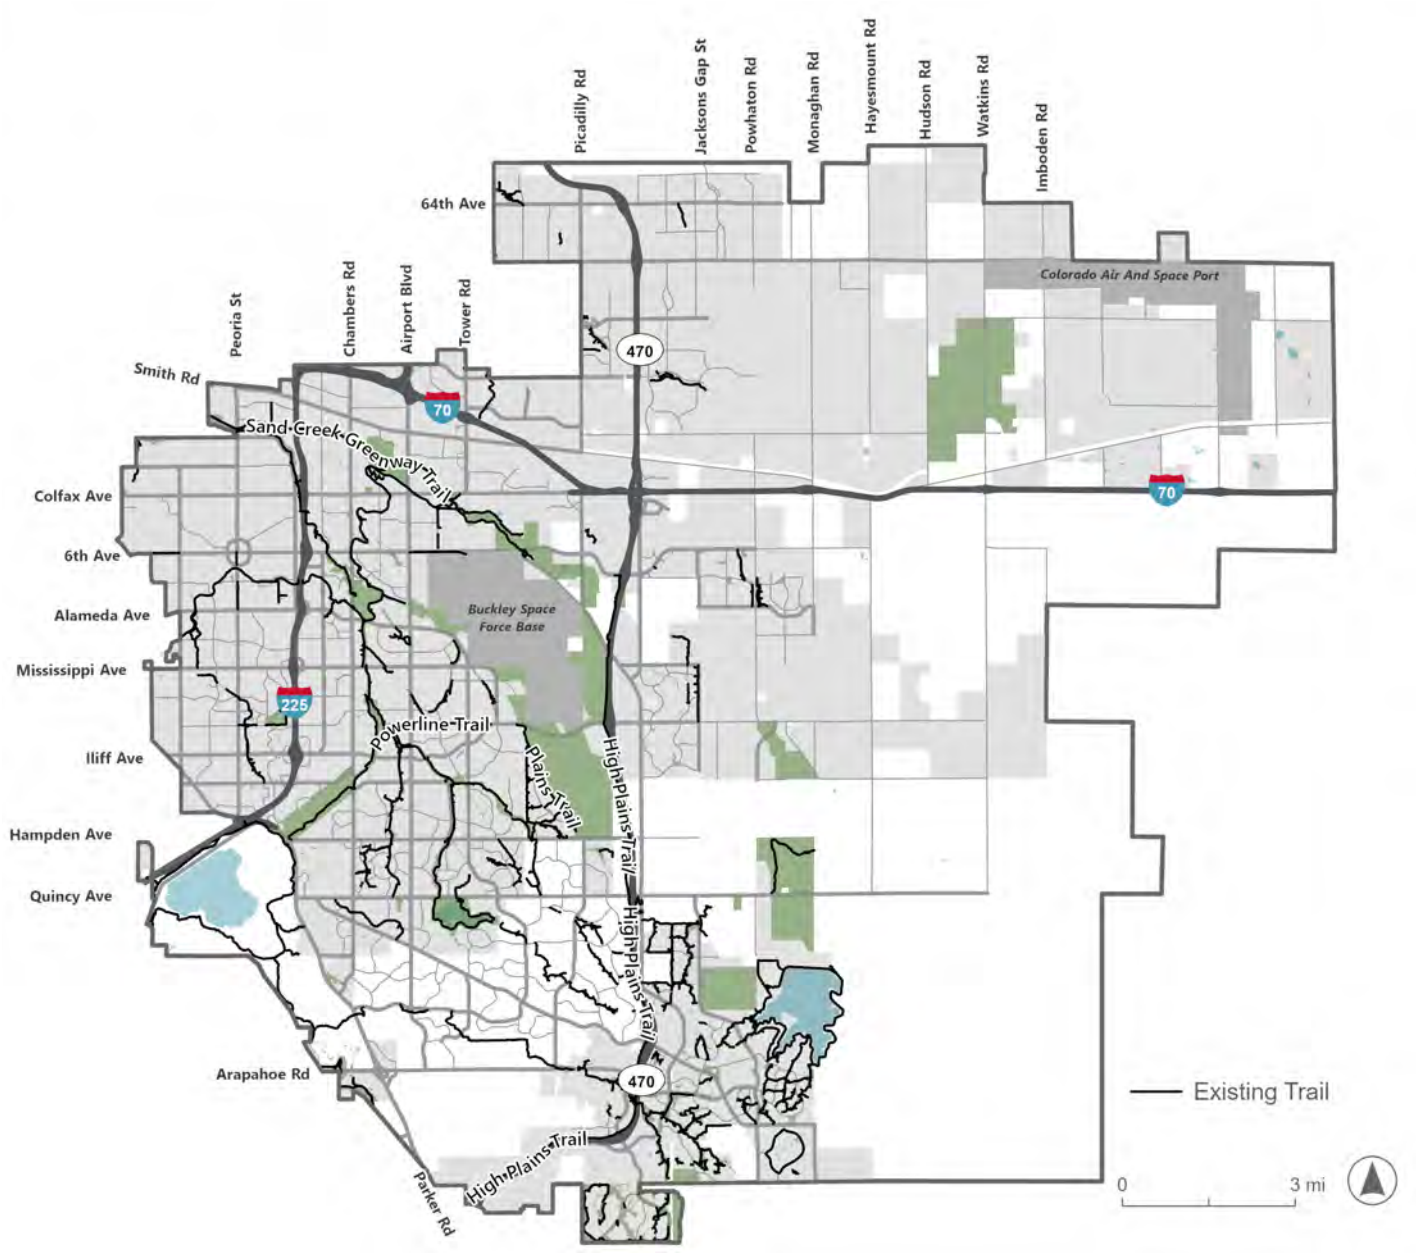
MAJOR BARRIERS

Highways, wide roads and rail lines create major barriers to walking and rolling in Aurora. Even where there are crossings, these are often on major arterials where fast-moving traffic can make crossings stressful.

Trail System

Aurora's trails support the existing on-street pedestrian and bike networks, with several notable trail connections.

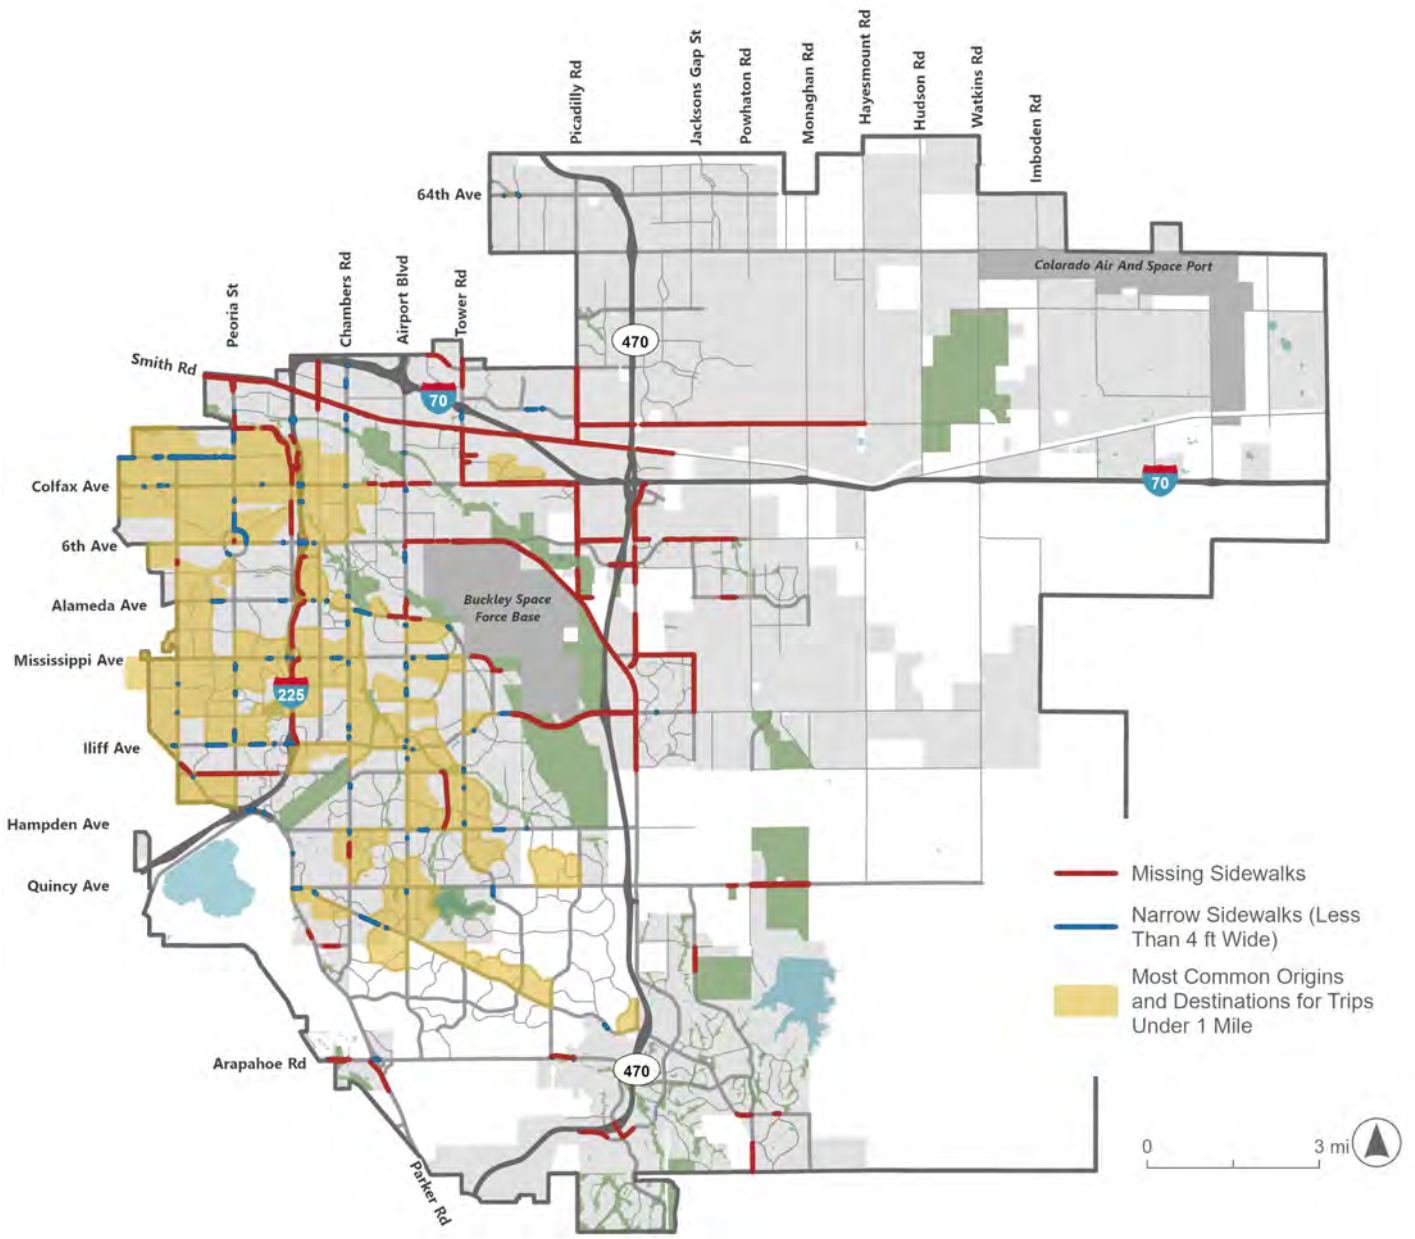
Aurora's trail system is the hallmark of the city's current active transportation network. It connects a wide variety of users to local and regional parks and open spaces, such as Cherry Creek State Park, Aurora Reservoir, Quincy Reservoir, Sand Creek Park and Star K Ranch.



Aurora's trails are managed by the city's PROS Department.

Key Challenge

CONNECTIVITY



More than 65 miles of Aurora's trail system are less than one mile long and are disconnected from the larger network. In its master plan, Our Parks, Our Places: A Plan for Aurora's Parks, Recreation and Open Space, PROS called attention to the need to expand connectivity of the trail system.

Aurora's Trail Network

Source: City of Aurora, Parks, Recreation and Open Space

Short Pedestrian Trip Opportunities

Source: Replica Data, 2023

Short Trip Opportunities

When walking, a "short trip" is one mile or less in length

Areas with high concentrations of short trips are prime locations where walking could replace driving if safe and comfortable pedestrian facilities exist.

Destinations, such as schools, light rail stations and high-ridership bus stops, cultural and recreational areas, grocery stores and parks, could encourage more walking trips when connected by safe and inviting routes.

In northwest Aurora, key destinations are concentrated, but many neighborhoods lack continuous or comfortable pedestrian routes. Investing in better sidewalks and crossings will make walking safer and more appealing, and may result in more people choosing walking or rolling over driving for short trips.

Key Challenge

DISCONNECT BETWEEN LAND USE AND TRANSPORTATION

Land uses in large sections of Aurora, specifically in the south and east, are not conducive to walking. Neighborhoods and key destinations are not co-located or close to one another, making walking a difficult mode to use.

Three Distinct Walking Geographies

The city's UDO delineates three distinct land use and development patterns that define areas of the city, including West Aurora (Sub Area A), Central Aurora (Sub Area B) and East Aurora (Sub Area C). Each Sub Area's unique land use and infrastructure influences what people experience when walking in Aurora.

West Aurora (Sub Area A)

West Aurora has a relatively well-built-out sidewalk network, and there are very few incomplete segments on the arterials and collectors. The pedestrian infrastructure in West Aurora is older than other areas of the city. Many sidewalks, especially those on local streets, are less than 4 feet wide. Many pedestrian crossings, especially those on Colfax Avenue, 6th Avenue, Alameda Avenue, Mississippi Avenue, Havana Street and Iliff Avenue are high stress crossings.

Although many of the daily trips in northwest Aurora are under one mile and there is a high concentration of schools, grocery stores and cultural institutions within close proximity to the surrounding neighborhoods, the current sidewalk network and pedestrian crossings do not adequately serve those walking.

Central Aurora (Sub Area B)

Central Aurora's pedestrian network is relatively complete. Many of the sidewalks on local streets are narrow. Some of the arterials running through Central Aurora have missing sidewalks or narrow sidewalks like Alameda Avenue, Mississippi Avenue, 6th Avenue, Chambers Road and Colfax Avenue. Many of the pedestrian crossings, especially those on Airport/Buckley Boulevard, Tower Road and Chambers Road are high stress.

There is a high concentration of short trip opportunities across Central Aurora, particularly in the neighborhoods just south of Buckley Space Force Base.

East Aurora (Sub Area C)

East Aurora has fewer destinations that are within walkable distances from the surrounding neighborhoods.

There are relatively few segments of narrow sidewalks. East Aurora has experienced a high level of growth and development in recent years, and sidewalks are likely relatively new.

High stress crossings are concentrated in the southern part of East Aurora near E-470, East Smoky Hill and East Arapahoe Road

Community Conversation

People want investment in pedestrian infrastructure.

Of those surveyed, 43% walk at least once or twice a week, and 45% never or almost never walk.

Survey participants shared their experience as a person walking in Aurora. They were asked what prevents or discourages them from walking or using a mobility device, and what would make them feel safer as a pedestrian.

Notable Locations

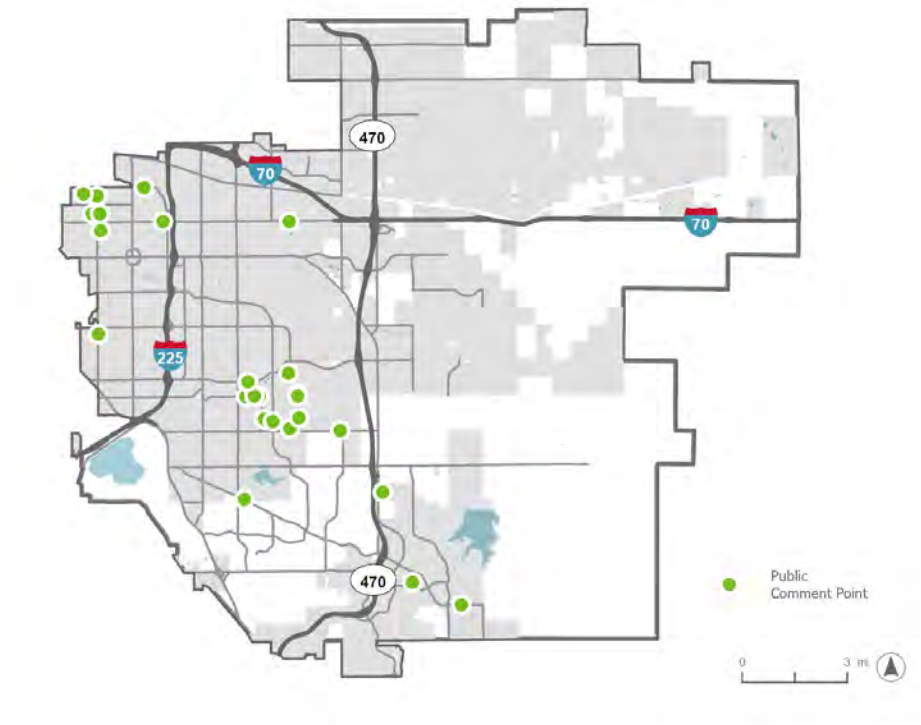
Survey participants added pins to a map of the city to note location-specific concerns. They flagged where sidewalks are too narrow or non-existent, crossings are dangerous or signal timing is inadequate to safely cross a road as a pedestrian.

Walking Challenges

People do not feel safe using designated street crossings. Pedestrian signal crossing times feel too short to safely cross wider roads.

There are unmanageable distances between neighborhoods and everyday locations so it is not convenient to walk.

There are gaps in the sidewalk network, particularly to access transit stops.

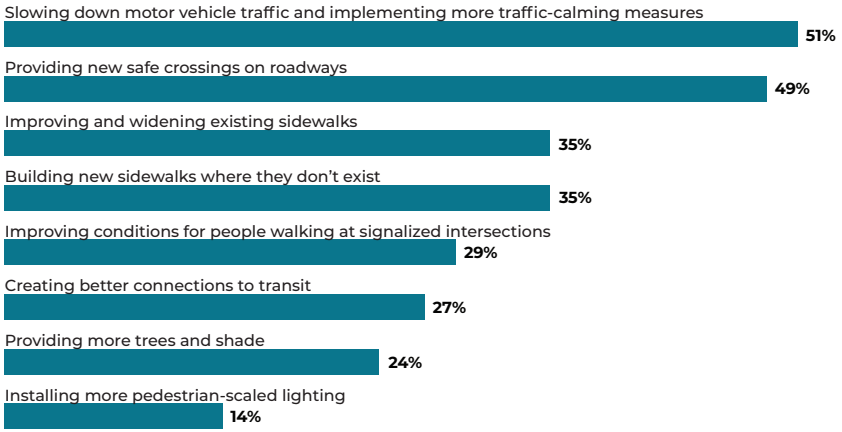


Opportunities to Improve Walking Conditions

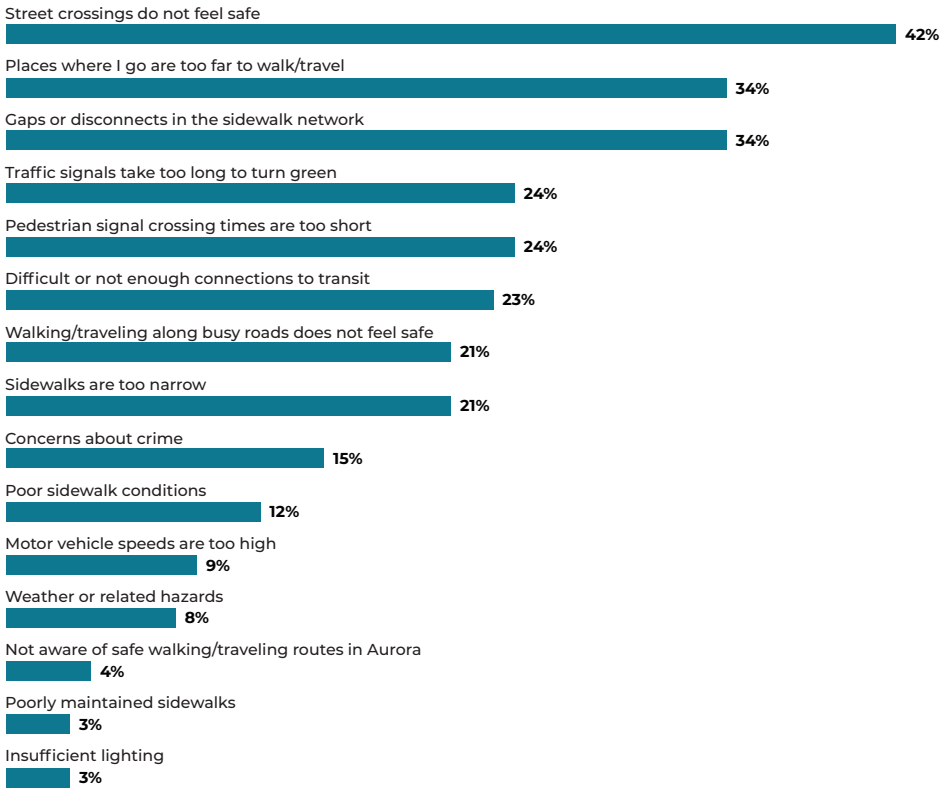
When asked what would make them feel safe walking or using a mobility device, nearly 70% of survey participants chose slowing down motor vehicle traffic and implementing more traffic calming measures. Almost as many indicated the need for more safe pedestrian crossings.

Both of these improvements indicate that there is a need to better balance pedestrian and traffic flow on roads.

Aurorans want more and safer pedestrian crossings, new sidewalks in areas where they are currently absent and ways to slow traffic to accommodate people walking.



Milestone 1 Walking-Specific Comments



“Being a pedestrian in most of Aurora is hard. The streets and development are all made for cars. Very uncomfortable for pedestrians. ”

SURVEY PARTICIPANT

What would make you feel safe walking or using a mobility device?*

What prevents or discourages you from walking or using mobility devices in Aurora?*

*Respondents were able to select more than one answer; totals do not sum to 100%.

Comment Summary

Survey participants identified several key challenges and important factors affecting Aurora's pedestrian infrastructure, as highlighted below.

Primary Challenges

- **Unsafe street crossings**
- **Gaps in the sidewalk network**
- **Destinations too far to walk**

Important Factors

- **Calming traffic**
- **New crossings**
- **Closing sidewalk gaps**

> "Volume of traffic mixing with infrequent pedestrian crossing make for a dangerous situation."
>
> **SURVEY PARTICIPANT**

Existing Plans, Programs and Initiatives

The city will leverage past efforts to build the future of walking.

There are multiple efforts underway aimed toward filling gaps in the sidewalk network, widening inadequate sidewalks and making crossings safer. Connecting Aurora pulls together all of these pieces to demonstrate the greater state and vision for the city's pedestrian network.

Walking-Related Plans

Improving Aurora's pedestrian network has been foundational to most of Aurora's previous planning efforts. In 2012, Aurora adopted a Bicycle and Pedestrian Master Plan, setting the groundwork for the city's vision and goals for a future active transportation network. Aurora Places, the city's 2018 comprehensive plan emphasizes the need for wide, well-connected sidewalks to support easy mobility for all residents, including older adults and people with disabilities.

The following more recent initiatives highlight how Aurora's aspirations for the pedestrian network are being designed and implemented into today's infrastructure.

13TH AVENUE MULTIMODAL MOBILITY STUDY

The 13th Avenue Multimodal Mobility Study (2023) identifies opportunities to make walking along and across 13th Avenue safer, more comfortable and convenient. The primary recommendation is to construct a shared-use path along 13th Avenue between Yosemite Road and Chambers Road. This would create a safe and accessible pedestrian route to the grade-separated crossing across I-225, improving walkability between neighborhoods and regional trails like the High Line Canal Trail. The study also highlights the opportunity to improve north-south pedestrian access to Colfax Avenue and local destinations by enhancing walking conditions on adjacent streets. 13th Avenue will provide an alternative for people who would otherwise walk or bike along Colfax.

HAVANA STREET CORRIDOR STUDY

The Havana Street Corridor Study (2023) identifies strategies to enhance safety, accessibility and mobility along the corridor, through pedestrian infrastructure upgrades. Key recommendations include widening sidewalks to a minimum of 10 feet along Havana Street between Montview Boulevard and Dartmouth Avenue and improving crossings between signalized intersections through new enhanced pedestrian crossings, such as Pedestrian Hybrid Beacons, near Kentucky Avenue, Arizona Drive/Garden Drive and Iowa Avenue.

MONTVIEW MOBILITY IMPROVEMENT PROJECT

This project will improve safety and comfort for people walking along Montview Boulevard through the heart of the Anschutz Medical Campus. In 2022, design work for the corridor between Oswego Street and Fitzsimons Parkway was completed, and the city is currently working to secure funding for construction. Improvements include widened sidewalks, enhanced landscaping and an expanded pedestrian realm. These features, once constructed, will enhance connections to Toll Gate Creek Trail and the Colfax and Fitzsimons light rail stations along Fitzsimons Parkway.

COLFAX BRT NEXT STUDY

A key component of the ongoing Colfax BRT Next study is improving access to transit through first- and last-mile enhancements, especially for people walking. The study has identified critical pedestrian infrastructure needs, including long distances between protected crossings, missing or substandard sidewalks (particularly east of Tower Road) and high-stress walking conditions near major intersections. As BRT station locations are finalized, the study may recommend improved sidewalk connectivity, added or upgraded pedestrian crossings with RRFBs or Pedestrian Hybrid Beacons (PHBs) and pedestrian-scale lighting.

ADA SELF-EVALUATION AND TRANSITION PLAN UPDATE

The city is currently updating its ADA Self-Evaluation and Transition Plan to improve access for individuals with disabilities across city infrastructure, services and programs. While the full plan will address parks, emergency services and public facilities, Phase One is focused on improvements to the public right-of-way, which includes pedestrian facilities.

Pedestrian-Related Initiatives

The city of Aurora has several initiatives in place to build, manage and maintain its pedestrian realm.

MAINTENANCE AND UPKEEP

In Aurora, property owners are responsible for clearing snow and other debris from the sidewalks adjacent to their property. To enforce this code requirement, the city sends out code enforcement officers to properties that receive complaints concerning a lack of or insufficient snow and ice removal.

UNCONTROLLED PEDESTRIAN CROSSING GUIDELINES

The city recently drafted its Uncontrolled Pedestrian Crossing Guidelines. This document will help the city determine appropriate pedestrian crossing treatments at uncontrolled pedestrian crossings that align with the goals and objectives of the city.

Visionary Walking Network

Creating a better-connected and safer pedestrian network.

The visionary walking network will create a safe, comfortable and connected environment for people walking in Aurora.

The visionary network will have a connected system of spacious sidewalks and safe crossings that advance the Connecting Aurora goals. It will include improvements to busier roads (collectors and arterials) and local streets with missing or narrow sidewalks that do not meet ADA standards. Options for improving conditions on local streets are presented in the policies and programs described later in this chapter.

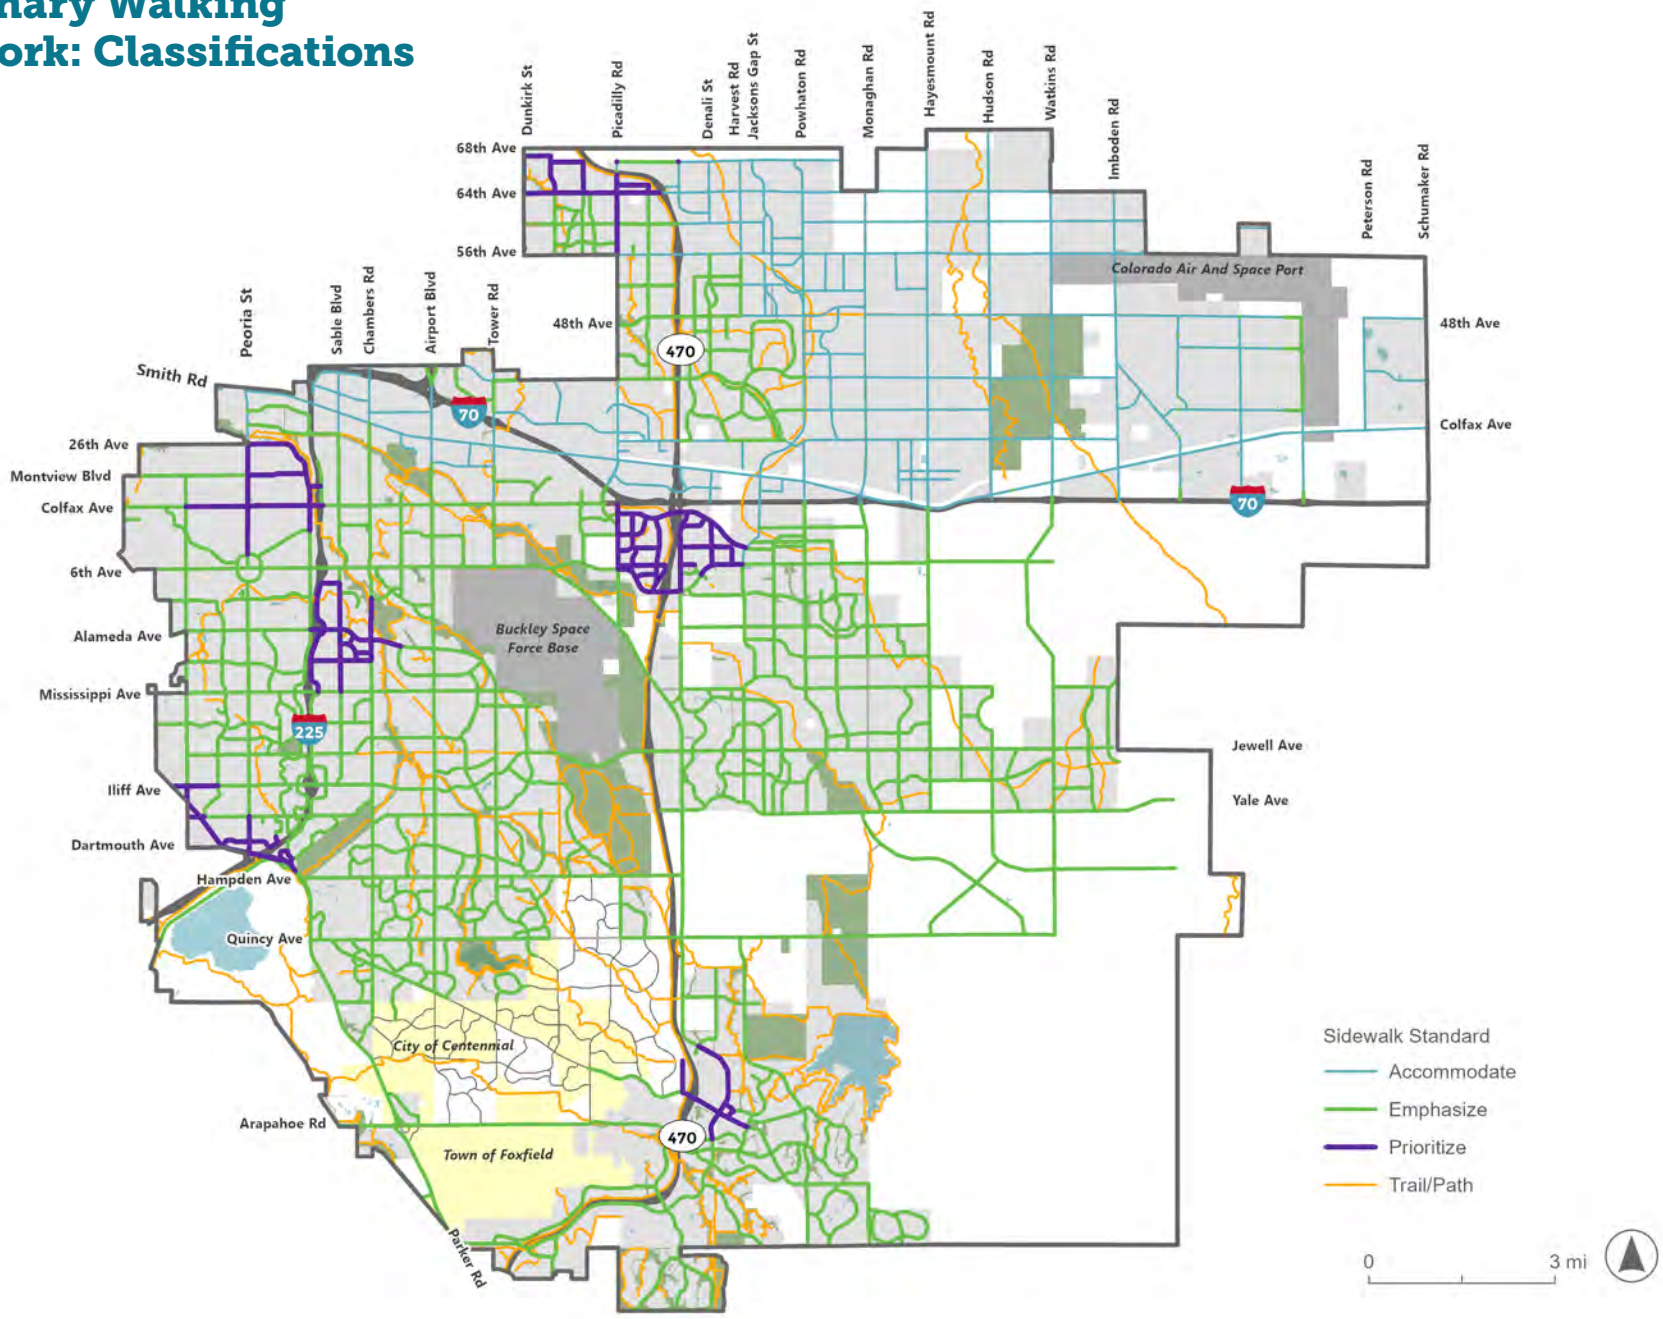
To guide the vision for Aurora's pedestrian network, the Complete Streets framework differentiates among three walking standards:

- Accommodate
- Emphasize
- Prioritize

These categories determine what kind of walking experience is expected based on street type and surrounding land uses. The tables to the right highlight the walking design standards and key design criteria for different placetypes and street types in Aurora.

Aurora's Walking Standards

Connecting Aurora applied the walking standards below to Aurora's arterial and collector streets. These standards will help the city determine the pedestrian need for each street and the type and level of facilities required.



Walking Standard	Intent	Key Design Guidance
Prioritize	Facilities are high quality, with ample width and supporting amenities. Primary links are safe, attractive and designed for high levels of pedestrian activity.	Refer to the city's Uncontrolled Pedestrian Crossing Guidelines and Street Design Guide.
Emphasize	Facilities are comfortable and an important link in the network. Secondary links prioritize safe and convenient pedestrian access at moderate pedestrian activity levels.	
Accommodate	Facilities meet basic standards, offering access to transit stops, nearby residences and businesses.	

Place-Specific Walking Standards

Aurora's walking standards are applied to specific placetypes in Aurora Places. These placetypes have unique pedestrian needs based on land use, activity levels, and desired character. Applying walking standards to these areas ensures pedestrian facilities are appropriately designed to support the local context.

Placetype	Arterial	Collector	Main Street	Local
Mixed Use	Prioritize	Prioritize	Prioritize	Prioritize
Neighborhood	Emphasize	Emphasize	Prioritize	Accommodate
Commercial	Emphasize	Emphasize	Prioritize	Emphasize
Industrial	Accommodate	Accommodate	*Not Applicable*	Accommodate

Visionary Walking Network: Classifications

Achieving Our Goals

What a better pedestrian network means for Aurorans.

Measures of success will track how well the visionary walking network is delivering on Connecting Aurora goals for how people walk in Aurora.

Low-Stress Network

Creating a low-stress pedestrian network in Aurora requires widening sidewalks, filling gaps, meeting ADA and PROWAG standards, installing crossings at needed locations and providing buffers that separate people walking from traffic. Aurora's local streets, with their lower speeds and volumes, play an important role in supporting a comfortable walking experience. However, many local sidewalks are too narrow or incomplete, resulting in a disconnected network. Expanding and enhancing the low-stress pedestrian network will make walking safer, more accessible and more enjoyable along both key corridors and local streets.

MEASURES OF SUCCESS

- Total miles of low-stress walking routes on arterial and collector streets.
- Share of arterial and collector streets that are low stress for walking.
- Percentage increase of low-stress routes over time.
- Reduction in the total miles of sidewalk gaps.
- Number of intersections with ADA-compliant curb ramps.
- Percentage of sidewalks that are ADA-compliant.

RELATED GOALS

Safe, Connected, Healthy

More Safe Crossing Opportunities

Long distances between safe crossings make it harder, more inconvenient and more dangerous for people to walk to their destinations or across busy roads.

MEASURES OF SUCCESS

- Reductions in average distance between safe crossings on arterial and collector streets at locations where warranted by additional analysis.
- The percentage decrease in pedestrian and vehicular crashes at intersections and other crossings.

RELATED GOALS

Safe, Connected, Healthy

Improved Destination Access for People Walking

People are most likely to walk to destinations in close proximity (about a 10-minute walk) when there are safe, comfortable and attractive pedestrian facilities. The maps and metrics that follow illustrate and quantify how the visionary network will improve pedestrian conditions within a 0.50 mile (about a 10-minute walk) of schools, grocery stores and parks.

MEASURES OF SUCCESS

- An increase in the percentage of residents within half-mile walk on high-comfort facilities of key destinations

RELATED GOALS

Connected, Convenient, Economically Strong, Equitable, Integrated

Recommended Strategies

Taking action to create a better pedestrian network.

Aurora's strategy for planning, building and maintaining pedestrian infrastructure will shape what people experience when they choose to walk in Aurora.

Target Outdated Pedestrian Facilities

Many neighborhoods in Aurora (especially those developed prior to current design standards) lack adequate sidewalk infrastructure. In northwest Aurora, sidewalks often have very narrow widths that fall well below ADA accessibility standards and do not meet city standards for local streets. These conditions compromise pedestrian safety, accessibility and comfort.

ACTIONS

- Implement strategies and priorities as outlined in the ADA Transition Plan.
- Determine a minimum acceptable PLTS score for streets based on placetype and prioritization level.
- Establish a Neighborhood Sidewalk Retrofit Program.

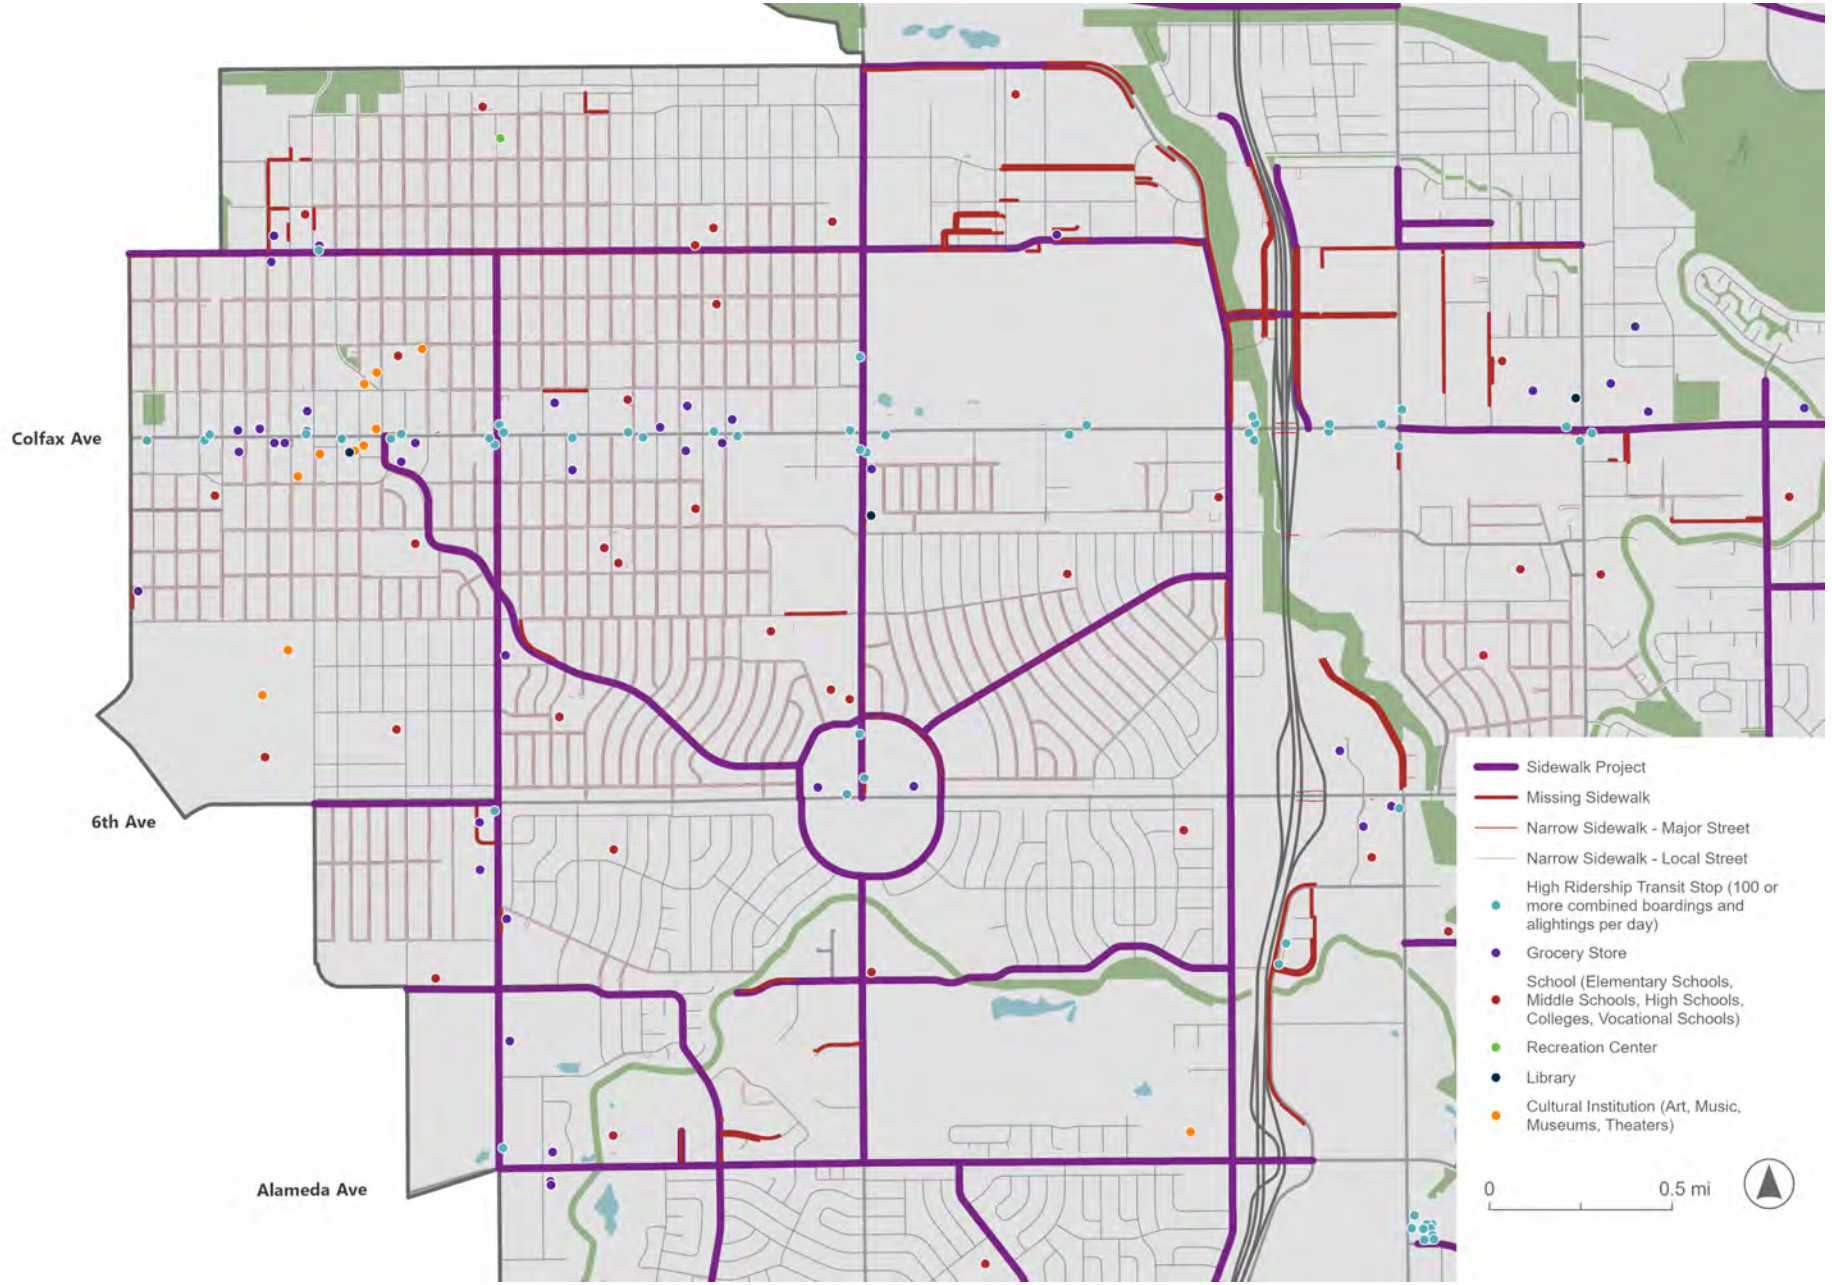
PROGRAM HIGHLIGHT

Neighborhood Sidewalk Retrofit

A Neighborhood Sidewalk Retrofit Program would identify existing substandard sidewalks in northwest Aurora, prioritize them for widening, fund their design and construction and monitor overall progress with the ultimate goal of a fully accessible and complete sidewalk network.

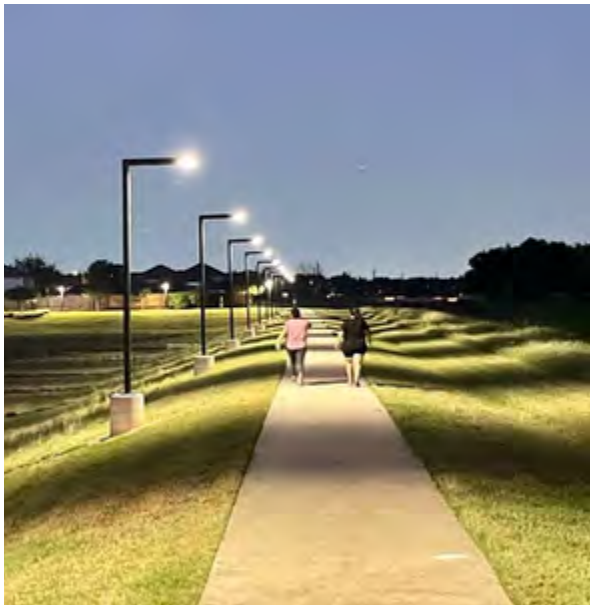
Implementation Considerations

Sidewalk Identification and Assessment: The city would conduct or reference existing surveys to identify substandard sidewalk segments and determine whether there is sufficient space behind the sidewalk within the public right-of-way to widen the sidewalk, even if it is obstructed by landscaping or fences, which would be a less costly widening option than moving the curb.



Prioritization: The city has an existing process to prioritize sidewalk projects that uses the following criteria: Environmental Justice Area, BRT corridor, High Injury Network, critical corridor, pedestrian focus area, short trip opportunity zone, congested corridors, active transportation corridors, truck routes and urban centers. The city will update the criteria and approach as needed.

Design: In some cases, achieving adequate sidewalk width may require shifting existing curb lines, which is expensive and disruptive, or acquiring additional right-of-way, which may be politically and legally challenging. The city can limit right-of-way acquisition by identifying locations with enough width between property lines and the backs of sidewalk. Where curb relocation and roadway space reallocation are necessary, the city can consider narrowing the curb-to-curb width and adjusting on-street parking.



Construction: Reconstruction would not occur one parcel at a time. Instead, projects would be bundled by logical units, such as full blocks or multiple blocks, for cohesive and efficient implementation. Phasing would depend on funding availability, readiness of right-of-way or utility coordination and alignment with other capital projects.

Funding: Funding could come from bonds, general fund allocations, grants or property owner contributions with waivers for low-income residents. To stretch limited resources, and in places where full reconstruction is not immediately feasible, the city could explore interim solutions, such as quick-build walkways that use low-cost curbs or edge treatments and the installation of signage and traffic calming devices.

Neighborhood Sidewalk Retrofit Program Opportunities

Respond to Pedestrian Trends

Collecting data on how many people are walking in Aurora and where helps the city understand where improvements may be working and where more may be needed. Additionally, using this information to identify supportive infrastructure can prioritize areas for additional amenities.

ACTIONS

- Implementing the Multimodal Counts Program will provide regular data on walking activity in Aurora. Over time, these counts will show whether the number of people walking in certain areas increased with improved infrastructure and support future decision-making for improvements. This can be useful in developing areas, where walking trends may change depending on new facilities, destinations and housing.

Provide Safe Routes to Key Destinations

Walking to nearby destinations in Aurora should be easy, enjoyable and safe. Children and older adults who are unable to drive should be able to freely move through out the city without concern. By focusing on key destinations and targeting demographic groups, the city ensures that vulnerable populations are afforded the highest quality infrastructure to support access to their daily needs.

ACTIONS

- Establish a formal SRTS program.

PARTNERSHIPS

Continue to collaborate with nearby municipalities and community partners to increase access to regional trails and improve connectivity.

PROGRAM HIGHLIGHT

Safe Routes to School Program

Over 90,000 K-12 students are enrolled in over 100 schools in Aurora. Travel activity around schools during first bell and dismissal creates unique challenges around schools and walking and bicycling can often feel unsafe, especially for younger children. Given the need to protect some of our most vulnerable travelers, to address motor vehicle congestion around schools and to serve the needs of students who must or who choose to walk or bike to school, the city of Aurora should consider establishing a formal SRTS program.

Often managed in partnership with public works departments, public health departments and school districts, SRTS programs promote safe, convenient and fun trips to and from school made by walking and biking. SRTS programs leverage various funding for infrastructure improvements, education and engagement activities. SRTS projects often include the installation of crosswalks and signage, sidewalk construction and repair and school travel plans.

In addition to making it safer to travel to school on foot or by bike, SRTS programs can improve individual and public health, make students more alert and ready-to-learn when they arrive at school and instill good habits for physical activity that can carry on into adulthood.

Program Components

Infrastructure: SRTS programs can identify, prioritize, fund and construct infrastructure improvements around schools to make walking and bicycling to school safer, more convenient and more comfortable by leveraging federal and state grants. Because of their size, cognitive abilities and walking and bicycling speeds, younger students often need better visibility at intersections and crosswalks, slower and more predictable driving behaviors and more time to cross streets. Infrastructure improvements around schools should focus on improving visibility, minimizing motorist speeds and providing clear connections. These improvements should include wide sidewalks and sidepaths, effective traffic calming and safe and frequent crossings. SRTS programs can also fund the installation of wayfinding signage to help students and their families navigate to and from school on foot or by bicycle.

Activities and Incentives: Encouragement and education can take various forms, including walking or bicycling buses, learn-how-to-bike classes, bike rodeos, Walk or Bike to School Days and incentives for walking and bicycling trips.

Enforcement: Enforcement can produce better safety outcomes if implemented in unbiased and fair ways. For example, speed feedback signs and speed cameras in school zones can greatly reduce speeding. Revenue from speeding citations can be used to fund both infrastructure and non-infrastructure projects.

Staffing and Partnerships: The city could consider identifying one or multiple existing city positions that can be responsible for managing the SRTS program. The person or people responsible for running Aurora's SRTS program would coordinate frequently with the school districts and the health department. They would also collaborate with the city staff responsible for street design, maintenance and traffic. Other partners include DRCOG, CDOT and community-based organizations.

Capital Investments

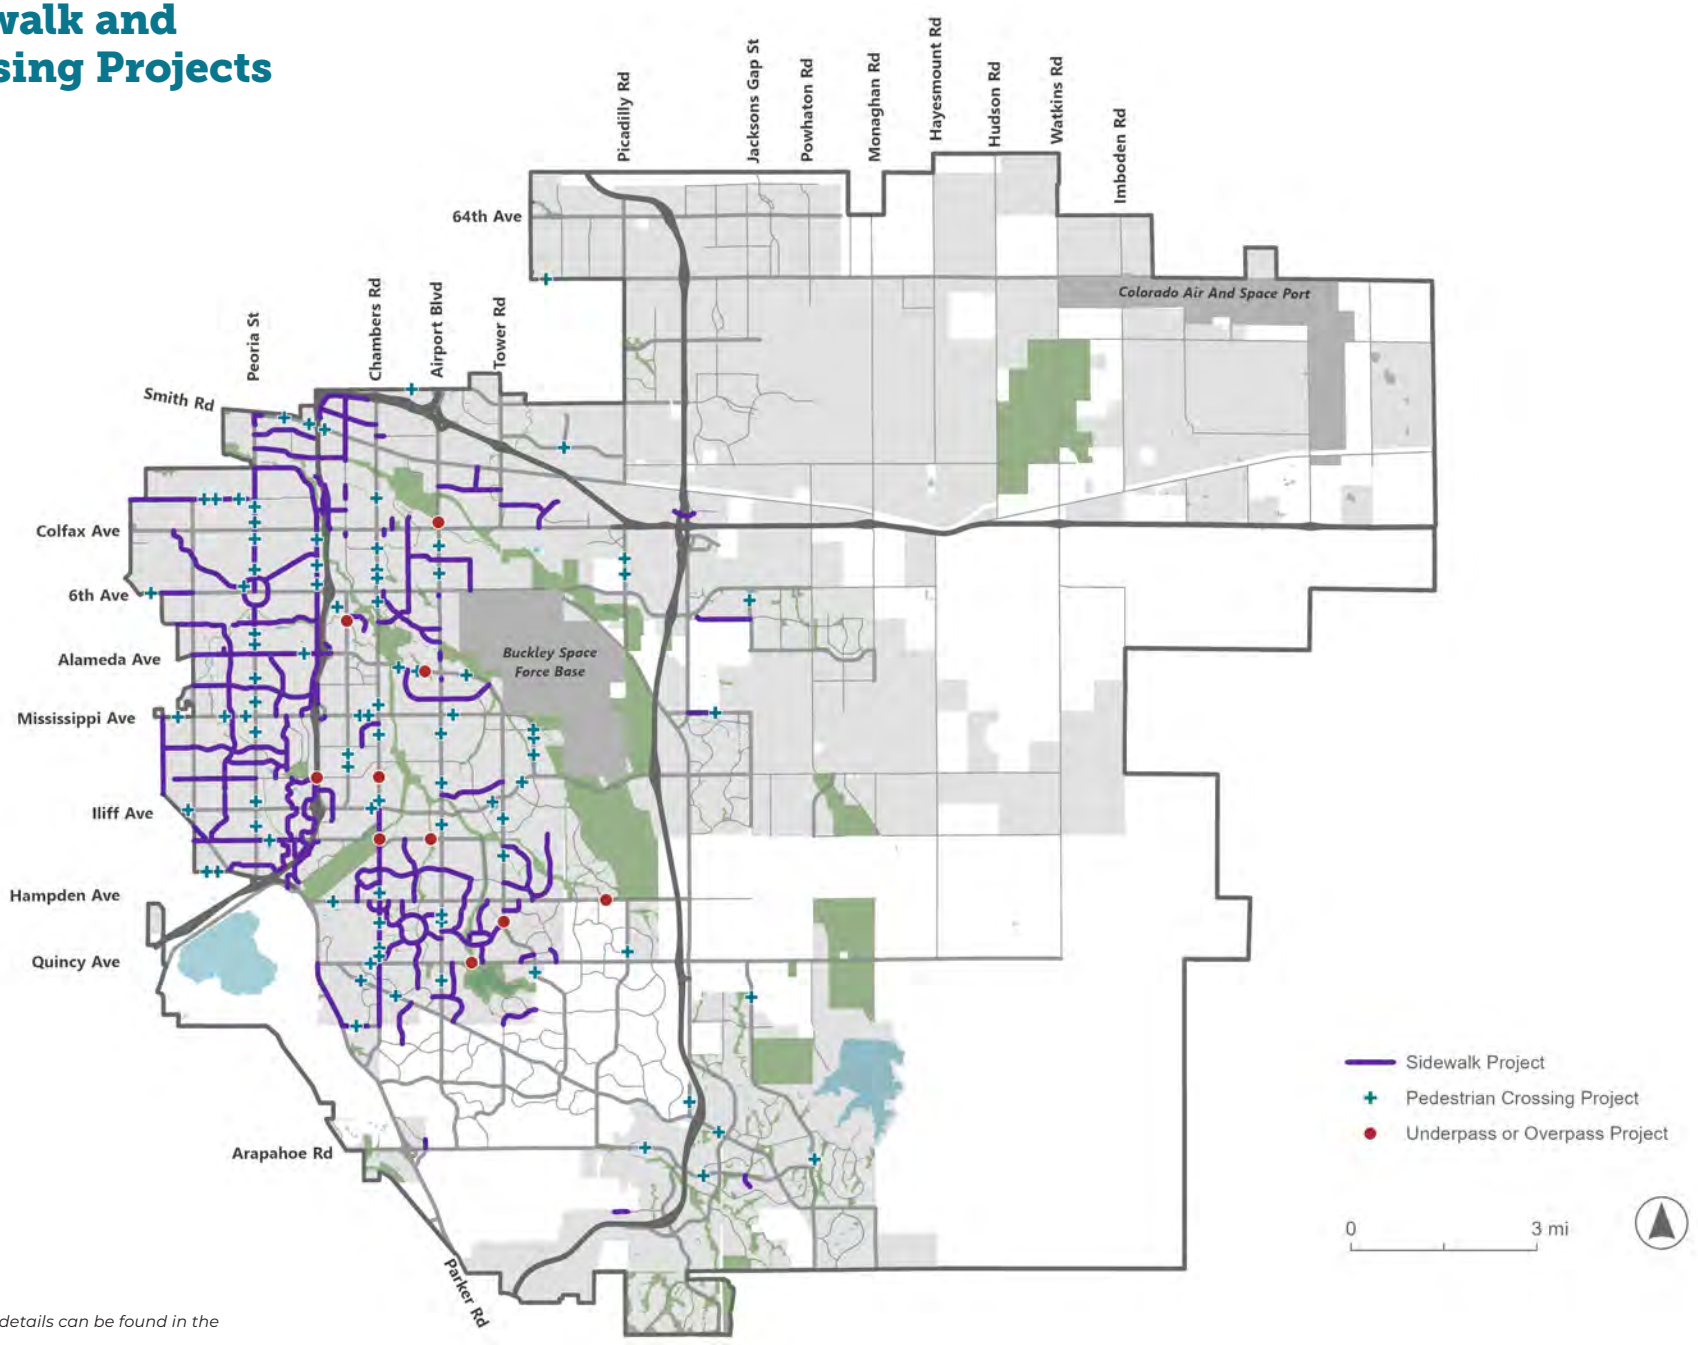
Connecting Aurora identifies sidewalk and crossing projects for the visionary network.

To guide the city's investment in improved infrastructure for people walking and rolling, the projects outlined here can improve safety, accessibility and connectivity in key locations in Aurora. Note that developers are responsible for improvements along their frontages, and these improvements are not included in the following section.

Sidewalk Projects

The sidewalk projects included in Connecting Aurora will address missing, narrow and inaccessible walking routes along arterials and collectors. Specifically, projects will fill gaps in the sidewalk network and upgrade narrow sidewalks in accordance with prioritization criteria.

Crossing Projects



The crossing projects will create safe opportunities for people walking and rolling to cross arterials at locations without traffic signals, all-way stops or roundabouts. Crossing projects will support safe walking access to key destinations and transit stops. Appropriate treatments for these crossings will vary depending on posted speed limits, motor vehicle volumes and roadway configurations. The city's Uncontrolled Pedestrian Crossing Guidelines provide more detailed guidance about the site-specific appropriate treatments. In general, bike crossing projects can often be designed to safely accommodate pedestrians

Multimodal Projects

Improvements from multimodal projects presented in other chapters will enhance the walking experience. For example, bikeway projects will include shared-use paths for pedestrians, along with traffic calming and enhanced crossings along bicycle boulevards. Major transit capital projects, such as light rail or BRT, will support walking through improved sidewalks, an enhanced pedestrian realm, and better first- and last-mile connections. This could include filling sidewalk gaps, installing wayfinding and lighting, and adding safer crossings near bus stops and stations. Similarly, roadway projects involving full reconstruction offer opportunities to upgrade the pedestrian environment with wider or buffered sidewalks, traffic calming, and improved crossings.

Sidewalk and Crossing Projects

Note: Project details can be found in the appendices.

People Biking

Making our Future Bikeable

Aurora maintains a robust recreational trail network that is enjoyed by residents and visitors alike. The current on-street biking network is limited and creates a fragmented system that discourages biking for commuting and everyday trips.

Most of Aurora's major roads are designed for high traffic volumes and fast-moving vehicles, and they are barriers for people on bikes. Even where there are bike lanes, they often feel unsafe and uncomfortable for the average rider. While neighborhood streets provide a more comfortable experience, their winding layouts and dead ends limit direct and convenient routes.

Aurora's future biking network will be a connected, citywide system that links neighborhoods, schools, parks and recreational areas, employment and commercial centers and mobility hubs with low-stress, high-comfort bikeways.

Arterials will have protected crossings and separated bike paths, making it comfortable for people of all ages and abilities to ride safely and confidently. Gaps in the existing network will be closed with new bike lanes, sidepaths and trail connections, creating seamless options for short trips and longer commutes. The improved bikeways will increase transportation safety for everyone, no matter how they choose to move.

Biking will become a practical, appealing and equitable transportation choice—not just for recreation, but for everyday travel.

Chapter 8 Highlights

TODAY'S CONTEXT
Overview of the city's existing bicycling network and services.

PLANS, POLICIES, PROGRAMS AND INITIATIVES
Aurora is advancing projects that grow its bike network and expand connectivity.

VISIONARY NETWORK
The future biking network will give people options to bike to the places they want to go.

ACHIEVING OUR GOALS
Better biking infrastructure will improve quality of life for people in Aurora.

Today's Biking Context

Aurora's Biking Network

With existing, established north-south bike routes, Aurora has the foundation to build a complete and comfortable biking network.

Aurora has approximately 82 miles of on-street bike lanes and 248 miles of paved shared-use trails. While these bikeways provide key connections to some parts of the city, the overall network is fragmented, with limited high comfort biking infrastructure on city streets. Barriers like highways, major streets and railways impede active transportation connectivity and safety.

Biking network connectivity is especially important as e-bikes become more common in Aurora. E-bikes allow people to bike longer distances they would not be willing or able to use a traditional bike.

Key Challenge

ISLANDS OF BIKEABILITY

Aurora's arterial streets are barriers between low-stress bikeways on neighborhood streets. Neighborhood streets in Aurora are a lower-stress environment for people to bike on because of low traffic speeds and volumes. However, the city's mile-grid of arterial streets divides neighborhoods from each other and creates barriers for bicyclists. Many of Aurora's arterials are high-stress corridors that are uncomfortable to bike along and are challenging to cross because of fast-moving traffic, high volumes and minimal separation between bicyclists and drivers. As a result, the arterial network creates islands of bikeability and inhibits connectivity between neighborhoods and across barriers like highways.

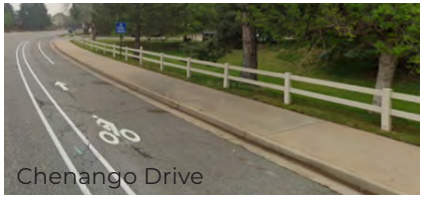
Facility Types

Aurora's biking network features a variety of bikeway types ranging from shared streets to high comfort bikeways.

Aurora's on-street bikeways include conventional, buffered and separated bike lanes.

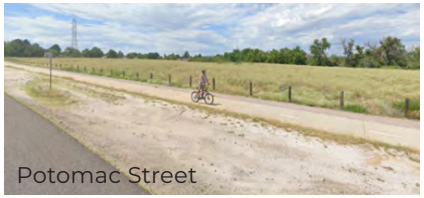
Aurora's separated bike lanes, such as those along Potomac Street, Florida Avenue and Mexico Avenue, are concentrated only in Central Aurora between Peoria Street and Airport Boulevard to the east and west, and between Mississippi Avenue and Iliff Avenue to the north and south. Buffered bike lanes are also present along a few corridors, such as Montview Boulevard and Chenango Drive.

Many streets have sidepaths. These are paved paths at least 8 feet wide and separated from traffic that are a higher comfort option for bicyclists. Sidepaths have enough space for pedestrians and bicyclists to comfortably travel away from moving vehicles.



Aurora's bikeways must safely accommodate people with differing skill levels and riding speeds at the same time.

Aurora's extensive and well-loved trail system complements the existing on-street biking network by offering additional off-street connections to neighborhoods, parks, schools and regional open space. This combination of trails and bikeways supports a wide range of users and trip types.



Shared Lane and Bike Route

Signage and pavement markings indicate that bicyclists and motorists share the same space.

Buffered Bike Lane

Has a striped buffer that delineates space between the bike lane and traffic lane.

Sidepath

A path shared with pedestrians, located within public right-of-way but separate from the street.

Separated Bike Lane

Has some form of vertical separation from motor vehicles like flexible delineators or medians.

Bike Boulevard

Shared lane with traffic calming and traffic diversion elements to reduce traffic volumes and speeds.

Dedicated Bike Lane

Uses striping and signage to delineate a dedicated space for people bicycling.

Paved Off-Street Trail

Located in a dedicated right-of-way and shared with pedestrians.

Raised Bike Lane

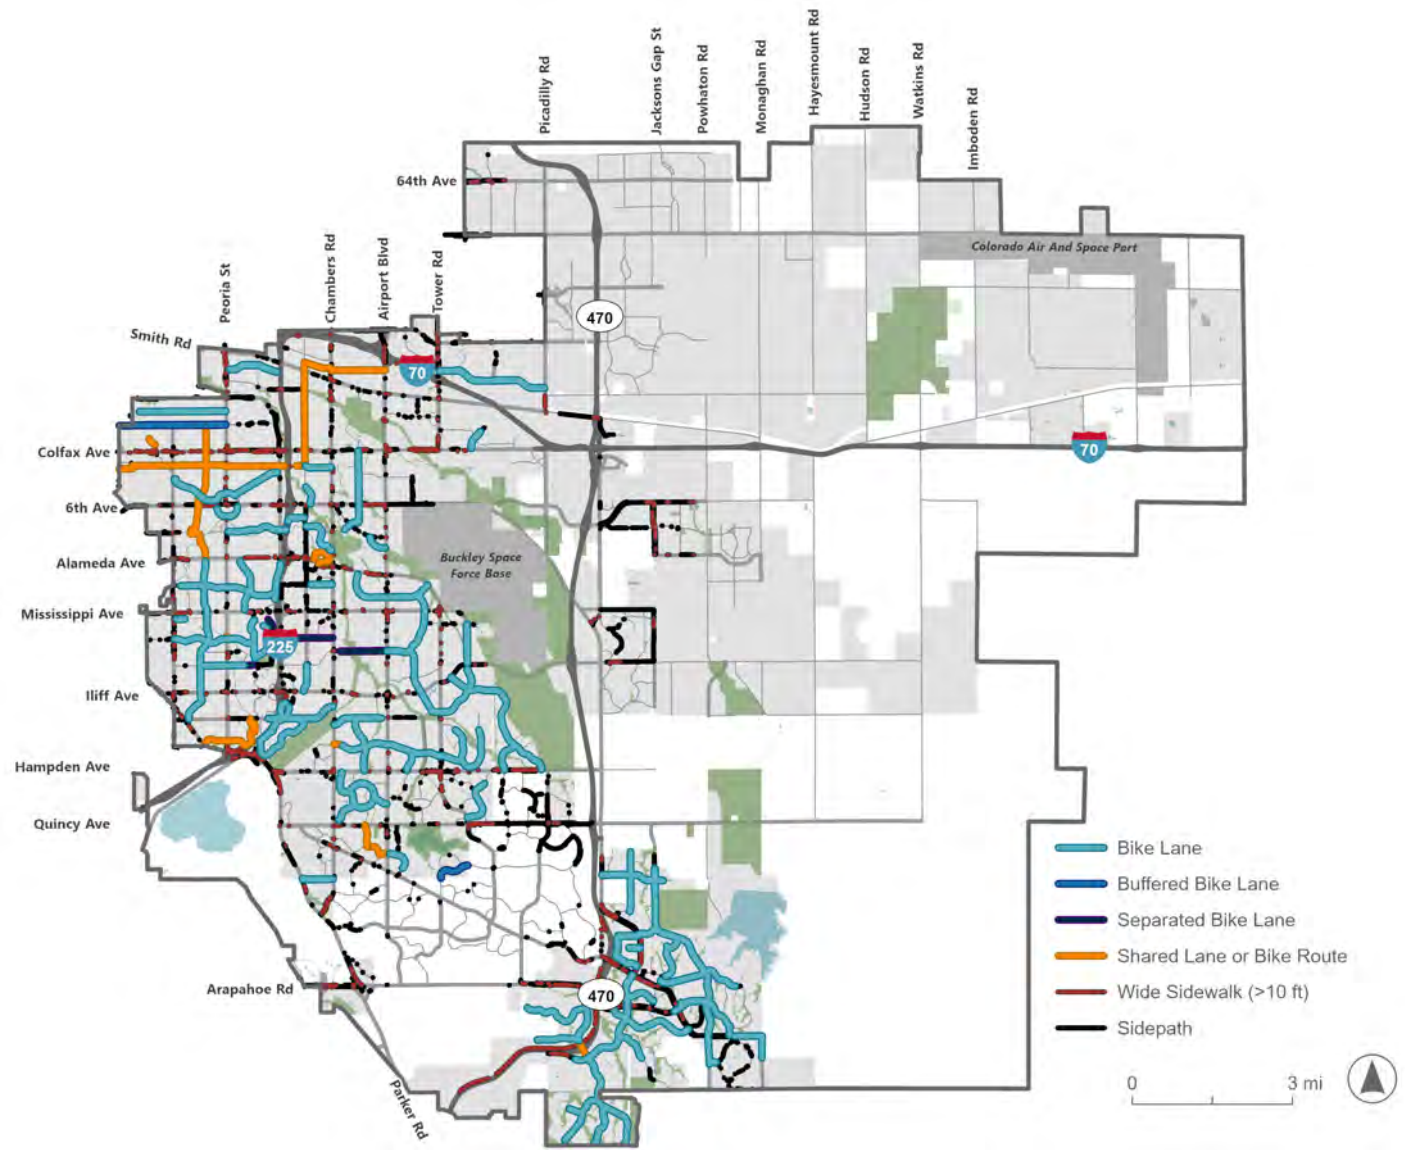
Lanes that are physically separated from traffic by elevating the bike lane to sidewalk level or to an intermediate level between the roadway and sidewalk buffer.

Biking Network Connectivity

People biking must rely on sidepaths or trails for bike-friendly routes.

There are several continuous north-south bike corridors in Aurora that accommodate trails, bike lanes and bike routes, such as Moline Street and the Toll Gate Creek Trail System. These bike corridors link neighborhoods between East Colfax Avenue and East Quincy Avenue in northwest and Central Aurora. However, the quality of these facilities varies, and they are not comfortable or accessible for all potential bicyclists. East-west connectivity is notably weaker, with many routes being discontinuous, indirect or difficult to navigate.

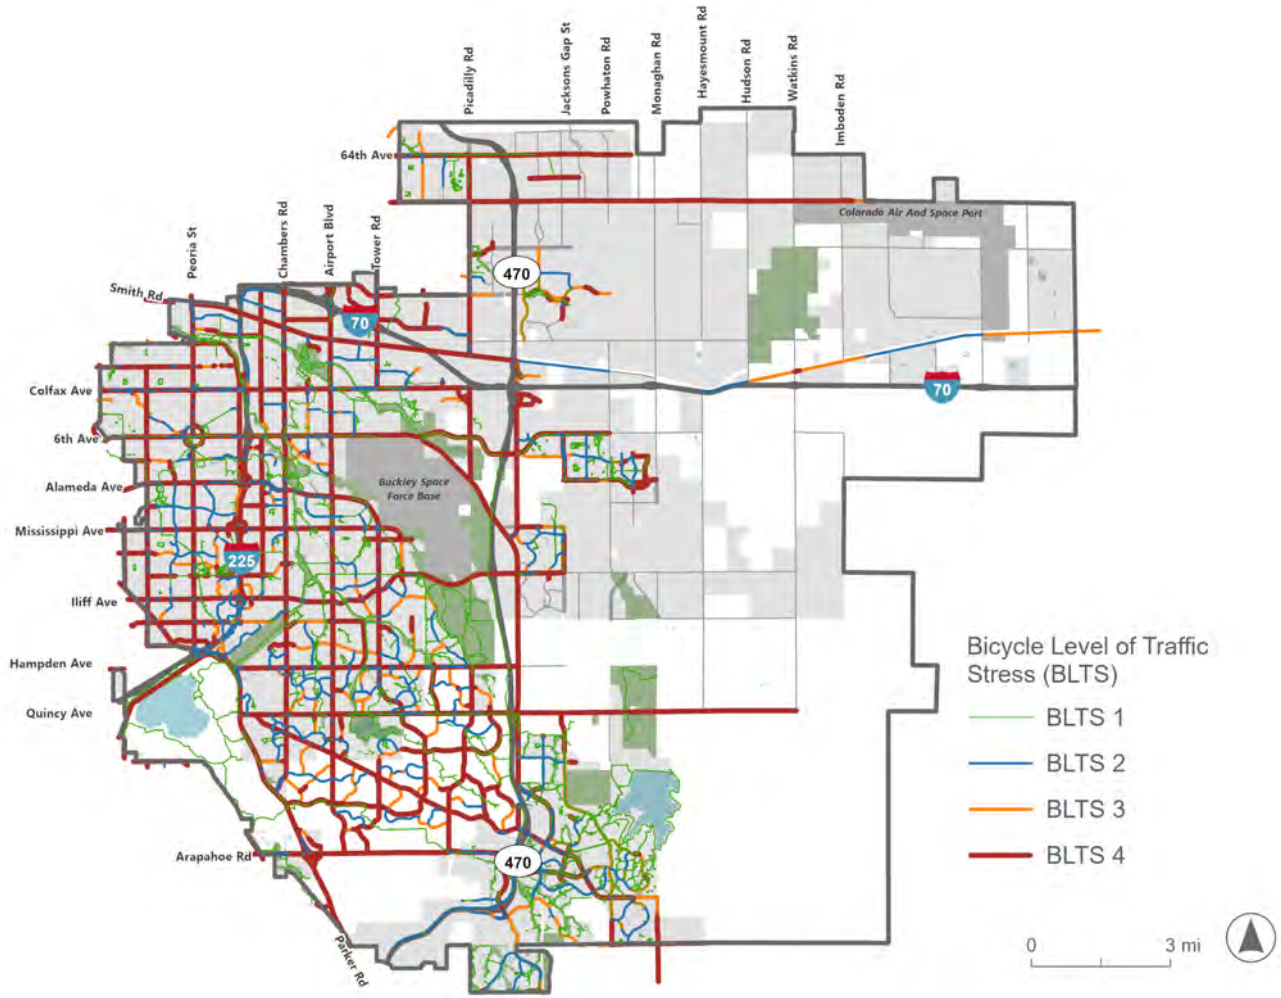
In contrast, southeast Aurora has a denser, better connected network of trails, bike lanes and sidepaths.



Key Challenges

HIGHWAY AND RAIL CORRIDORS DIVIDE THE BIKING NETWORK

Highways and arterials that are wider than four lanes and railways are barriers that impede safe and convenient biking. Several limited-access highways (I-70, I-225 and E-470) and passenger and freight rail corridors divide Aurora into distinct segments. Only a limited number of streets and trails cross



Existing Biking Infrastructure in Aurora

Sidepaths displayed on this map are at least 8 feet wide and separated from the adjacent roadway by at least 2 feet. Although it is legal for bicyclists to ride on sidewalks throughout Aurora, sidewalks that do not meet these criteria make it challenging for bicyclists and pedestrians to comfortably share space and do not meet minimum standards for shared use paths. As e-bikes become more prevalent, wider separation between bicyclists and pedestrians is more important than ever.

Bicycle Level of Traffic Stress

Level of Traffic Stress (LTS) scores help assess how safe and comfortable the street is for bicycling. The highest stress bicycling segments (LTS 4) are spread across the city.

BLTS	Definition
LTS 1	**All Ages & Abilities:** Comfortable for children and older adults.
LTS 2	**Interested but Concerned:** Suitable for most casual riders.
LTS 3	**Confident Riders Only:** Requires mixing with traffic or using bike lanes with little or no separation.
LTS 4	**Strong and Fearless:** Involves biking in high-speed, high-volume traffic with little or no separation.

these highways and rail lines; and many of the streets that do, are high-volume, high-speed arterials that are uncomfortable and unsafe for most bicyclists.

Bicycle Level of Traffic Stress

The Bicycle Level of Traffic Stress (BLTS) measures the quality of the bicycling experience across Aurora. Lower LTS scores (LTS 1 or 2) indicate more comfortable, less stressful facilities for people biking, while higher LTS scores (LTS 3 or 4) reflect streets with higher stress and safety concerns.

Many of Aurora's roads with existing bicycle infrastructure have high LTS scores because they have higher vehicle speeds and facilities are not separated from traffic, for example Montview Boulevard in northwest Aurora. While local streets were not included in this analysis, they typically have lower speeds and lower volumes of traffic; therefore, they have lower LTS scores. Crossings typically have higher LTS scores. Paved trails are low-stress spines and are generally in Aurora east of I-225.

Key Challenge

MANY OF AURORA'S STREETS ARE HAVE UNCOMFORTABLE OR MISSING BIKEWAYS

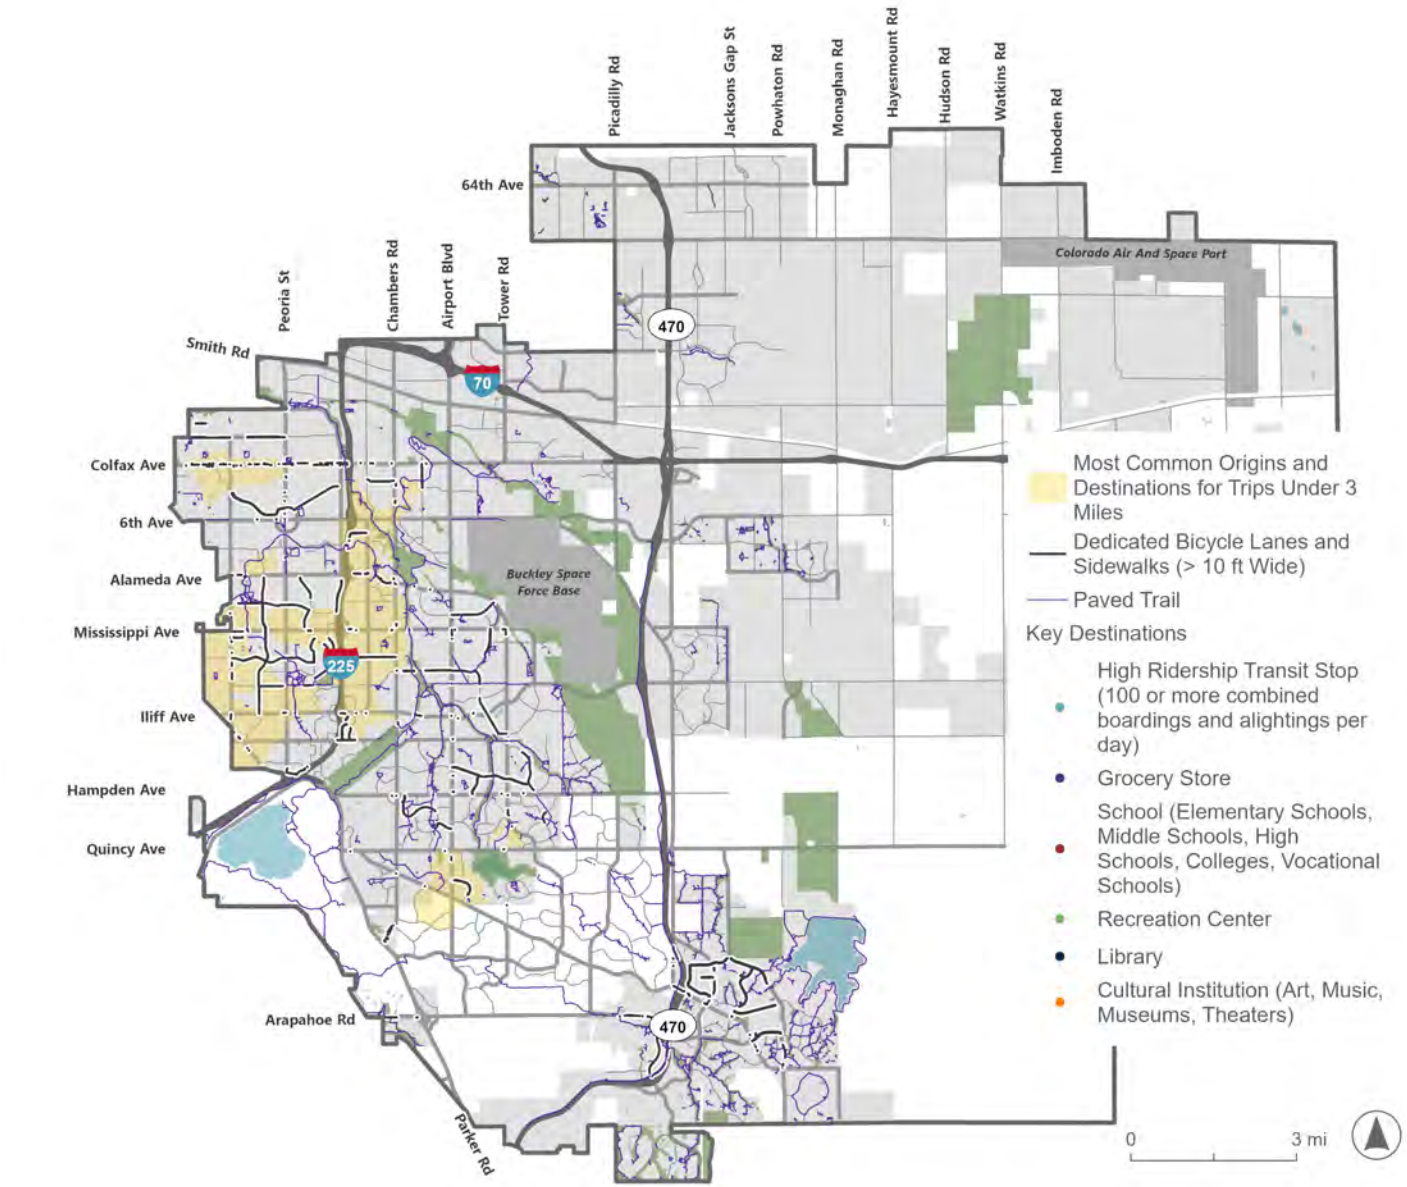
Aurora's on-street bikeway network falls short of supporting bicycling as a practical everyday option.

Short Trip Opportunities

People are willing to bike longer distances than walk, especially with e-bikes and scooters.

A "short trip" by bike is three miles or less. Analyzing short trip patterns identifies areas with high potential to increase the number and share of trips made by biking.

The map to the right illustrates where short trips under three miles originate and terminate. Many trips are a reasonable biking distance.



There several areas where there are short trips between neighborhoods and key destinations. However, these areas lack a robust network of dedicated bikeways to support the short trips.

Key Challenge

DESTINATIONS ARE HARD TO REACH BY BIKING

Aurora's biking network does not have continuous connections to important destinations, such as schools, employment hubs, grocery stores and shopping, transit and parks and recreation centers. In many cases, the existing trails and bikeways pass near these areas, but there is poor wayfinding and signage, making it unclear how to reach them.

Short Biking Trip Opportunities

Source: Replica, 2023

Three Distinct Biking Geographies

The city's UDO delineates three distinct land use and development patterns that define areas of the city: West Aurora (Sub Area A), Central Aurora (Sub Area B) and East Aurora (Sub Area C). Each Sub Area's unique land use and infrastructure influences what people experience when biking in Aurora.

West Aurora (Sub Area A)

West Aurora has a mixture of bike lanes, trails, sidepaths, bike boulevards and shared lanes. Bikeways are most prevalent on collector streets. West Aurora has some improved crossings for trails, including signals and RRFBs.

Most arterials in West Aurora represent barriers to bike travel, and they lack comfortable bikeways.

Short trip opportunities are available throughout West Aurora, meaning that improved bikeways and crossings could result in convenient access to destinations.

Central Aurora (Sub Area B)

Central Aurora's bike network is evolving, consisting mainly of trails and sidepaths. The city has invested in some upgraded facilities in this area.

Circuitous street networks in Central Aurora make biking less convenient and direct than in West Aurora. Like West Aurora, the arterial streets lack comfortable and safe biking facilities.

Short trip opportunities across Central Aurora are less prevalent than in West Aurora, but do exist today.

East Aurora (Sub Area C)

East Aurora features a robust trail network in the developed neighborhoods and wider sidepaths on newer arterials that provide a more comfortable biking experience.

This combination provides a backbone for a strong biking network, but arterials remain as major barriers to cross for people biking. High speeds tend to discourage biking in East Aurora as well.

Destinations are even more spread out in this area, meaning that it can be difficult to access needs within a reasonable biking distance.

Community Conversation

People want a connected and well-maintained biking network with safe bike crossings.

Of those surveyed, 4% use bikes, scooters, skateboards or other small devices daily; 18% use them once or twice a week and 19% use them once a month. Most (43%) never or almost never use them.

Survey participants shared their experience biking in Aurora. They were asked what would make them feel safe biking and what prevents or discourages them from biking or using a scooter in Aurora.

Notable Locations

Survey participants added pins to a map of the city to note location-specific concerns. They flagged where trails are disconnected, crossings are difficult and bike lanes are needed.

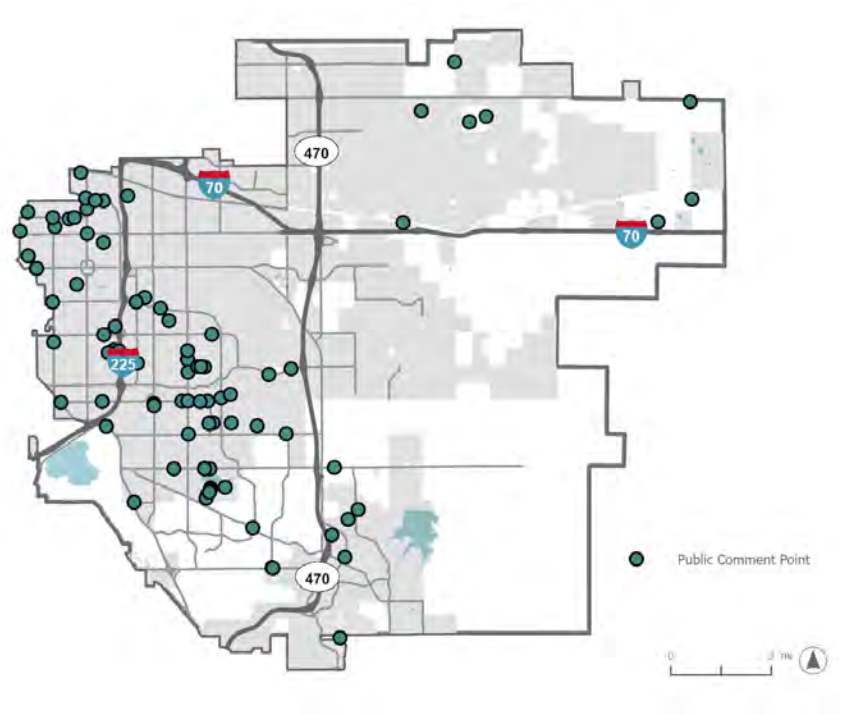
Biking Challenges

Survey participants chose the top three factors that prevent or discourage them from biking or using a scooter in Aurora.

The most noted concern was the perceived lack of safety at street crossings. This is similar to people's greatest concern while walking.

Many people noted that poorly maintained bikeways, including debris and inadequate upkeep, are barriers to biking.

A notable number of people expressed frustration with gaps in the biking network, making it difficult to travel seamlessly.



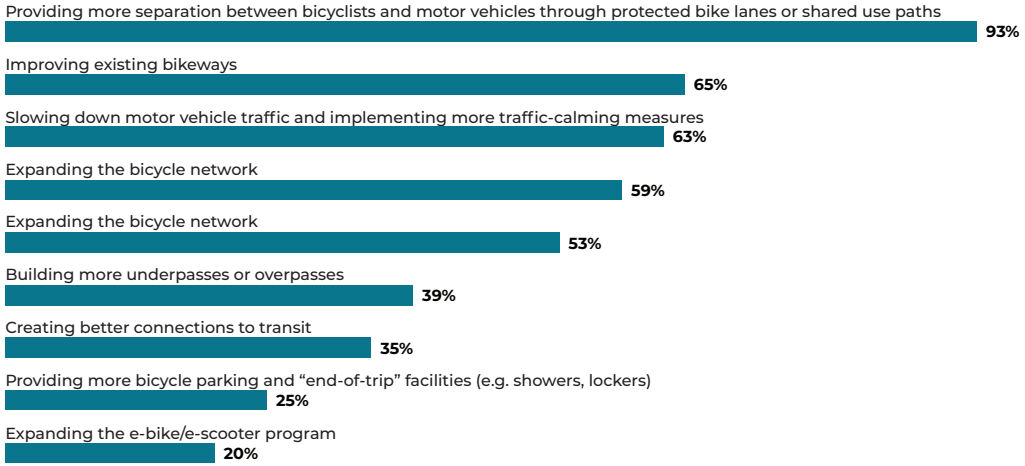
Opportunities to Improve Biking Conditions

Survey participants were asked to indicate what would make them feel safe biking in Aurora. The top three responses were:

- Greater separation between bicyclists and motor vehicles.
- Slowing down vehicular traffic.
- Improving Aurora's existing bikeways.

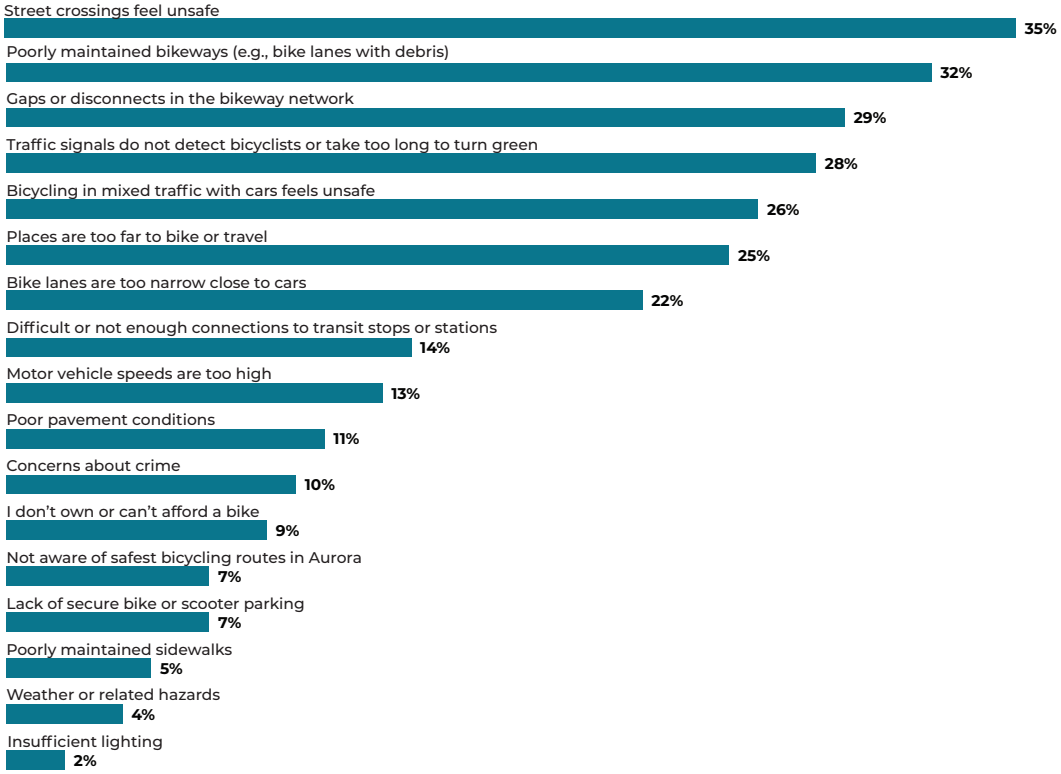
Aurorans want their biking experience to be comfortable and safe on improved bikeways.

Bike-Specific Public Comments



> "Given the amount of vehicle traffic, getting around by foot or bike feels very unsafe."
>
> **SURVEY PARTICIPANT**

Aurora by the Numbers



18%

of survey participants use bikes, scooters, skateboards or other small devices once or twice a week

What would make you feel safe biking?*

What prevents or discourages you from biking or using a scooter in Aurora?*

* Respondents were able to select more than one answer; totals do not sum to 100%.

Comment Summary

The following highlights summarize the primary challenges and key factors identified by survey participants related to biking in Aurora.

Primary Challenges

- **Unsafe street crossings**
- **Poorly maintained bikeways**
- **Gaps in the biking network**

Important Factors

- **Separating bikes from traffic**
- **Improving existing bikeways**
- **Slowing traffic**

> "Improving trail connection would be very helpful to allow pedestrians/bicycles access to the larger trail network."

SURVEY PARTICIPANT

Existing Plans, Programs and Initiatives

The city will leverage past efforts to build the future of the biking network.

There are multiple efforts underway to improve the biking network across Aurora. Recent transportation planning studies consider different types of bike facilities to incorporate into a corridor. Existing policies support bike safety on Aurora's streets.

Bicycle-Related Plans

Improving Aurora's bikeway network is a key component of many of the city's previous planning efforts. In 2012, Aurora adopted a Bicycle and Pedestrian Master Plan, setting the groundwork for the city's vision and goals for the future active transportation network. Aurora Places, the city's comprehensive plan adopted in 2018, also emphasizes the need for comfortable and safe biking routes that connect to everyday destinations. Several recent planning studies highlight how Aurora's aspirations for the bikeway network are being designed for and implemented into today's infrastructure.

13TH AVENUE MULTIMODAL MOBILITY STUDY

As part of the 2023 13th Avenue Multimodal Mobility Study, the city explored ways to make biking along and across 13th Avenue safer and more comfortable for all users. A top priority of the study is separating vehicle travel lanes and people biking. The study recommends constructing a shared-use path along 13th Avenue to the existing grade-separated bicycle and pedestrian crossing beneath I-225. This would create a safe and accessible bike route across I-225, improving connections between neighborhoods and regional trails like the High Line Canal Trail.

MONTVIEW BOULEVARD THROUGH ANSCHUTZ CAMPUS

The Montview Boulevard project will introduce the first raised bike lanes in Aurora. Raised bike lanes, located above roadway elevation, offer a high level of comfort and safety, appealing to a wide range of bicyclists and aligning with best practices in urban contexts. The corridor, stretching from Oswego Street to Fitzsimons Parkway, is fully designed as of 2022. The city is actively seeking construction funding to move the project forward.

HAVANA STREET CORRIDOR STUDY

The Havana Street Corridor Study was completed in 2023 and includes a focus on safety, accessibility and mobility for users along the corridor. A key recommendation is to widen sidewalks along the corridor. Wider sidewalks between Dartmouth Avenue and 6th Avenue will help accommodate bicyclists.

COLFAX BRT NEXT

The Colfax BRT Next study is expected to inform and recommend investments in biking infrastructure along and around east Colfax Avenue between the R Line Colfax Station at I-225 and Picadilly Road/E-470. The study has identified a lack of safe and low-stress bikeways along East Colfax Avenue and on the major north-south roadways that connect to it, such as Sable Boulevard, Chambers Road, Airport Boulevard and Tower Road. As part of the broader goal to enhance first- and last-mile access to BRT, the study may identify opportunities for protected bike lanes, shared-use paths and/or safe crossings, along East Colfax Avenue and/or on intersecting streets near station locations.

Bike-Related Programs

SHARED MOBILITY PROGRAM

Micromobility refers to a range of small, lightweight devices operating at speeds typically below 15 mph. Micromobility includes both human-powered and electric scooters, bikes, skateboards, one-wheels, hoverboards, cargo bikes, trikes and other similar devices. In 2017, Aurora was the first city in Colorado to host a dockless bike sharing program. The city has since adapted a shared mobility and micromobility approach to better address competing interests and meet the needs of residents. Companies interested in operating a shared mobility service in Aurora must apply for a license. These companies are then responsible for meeting city requirements for safety, operations, rider education and device parking. While there currently are no shared mobility operator, the city is open to applications from potential vendors.

PUBLIC HOURLY BIKE LOCKERS

Through a partnership with DRCOG and RTD, the city has installed bike parking lockers at RTD's Metro Center and Iliff Stations. Bike lockers are free for the first 18 hours and provide people with secure parking when taking transit to work, school or around the city.

Bike-Related Initiatives

MAINTENANCE AND UPKEEP

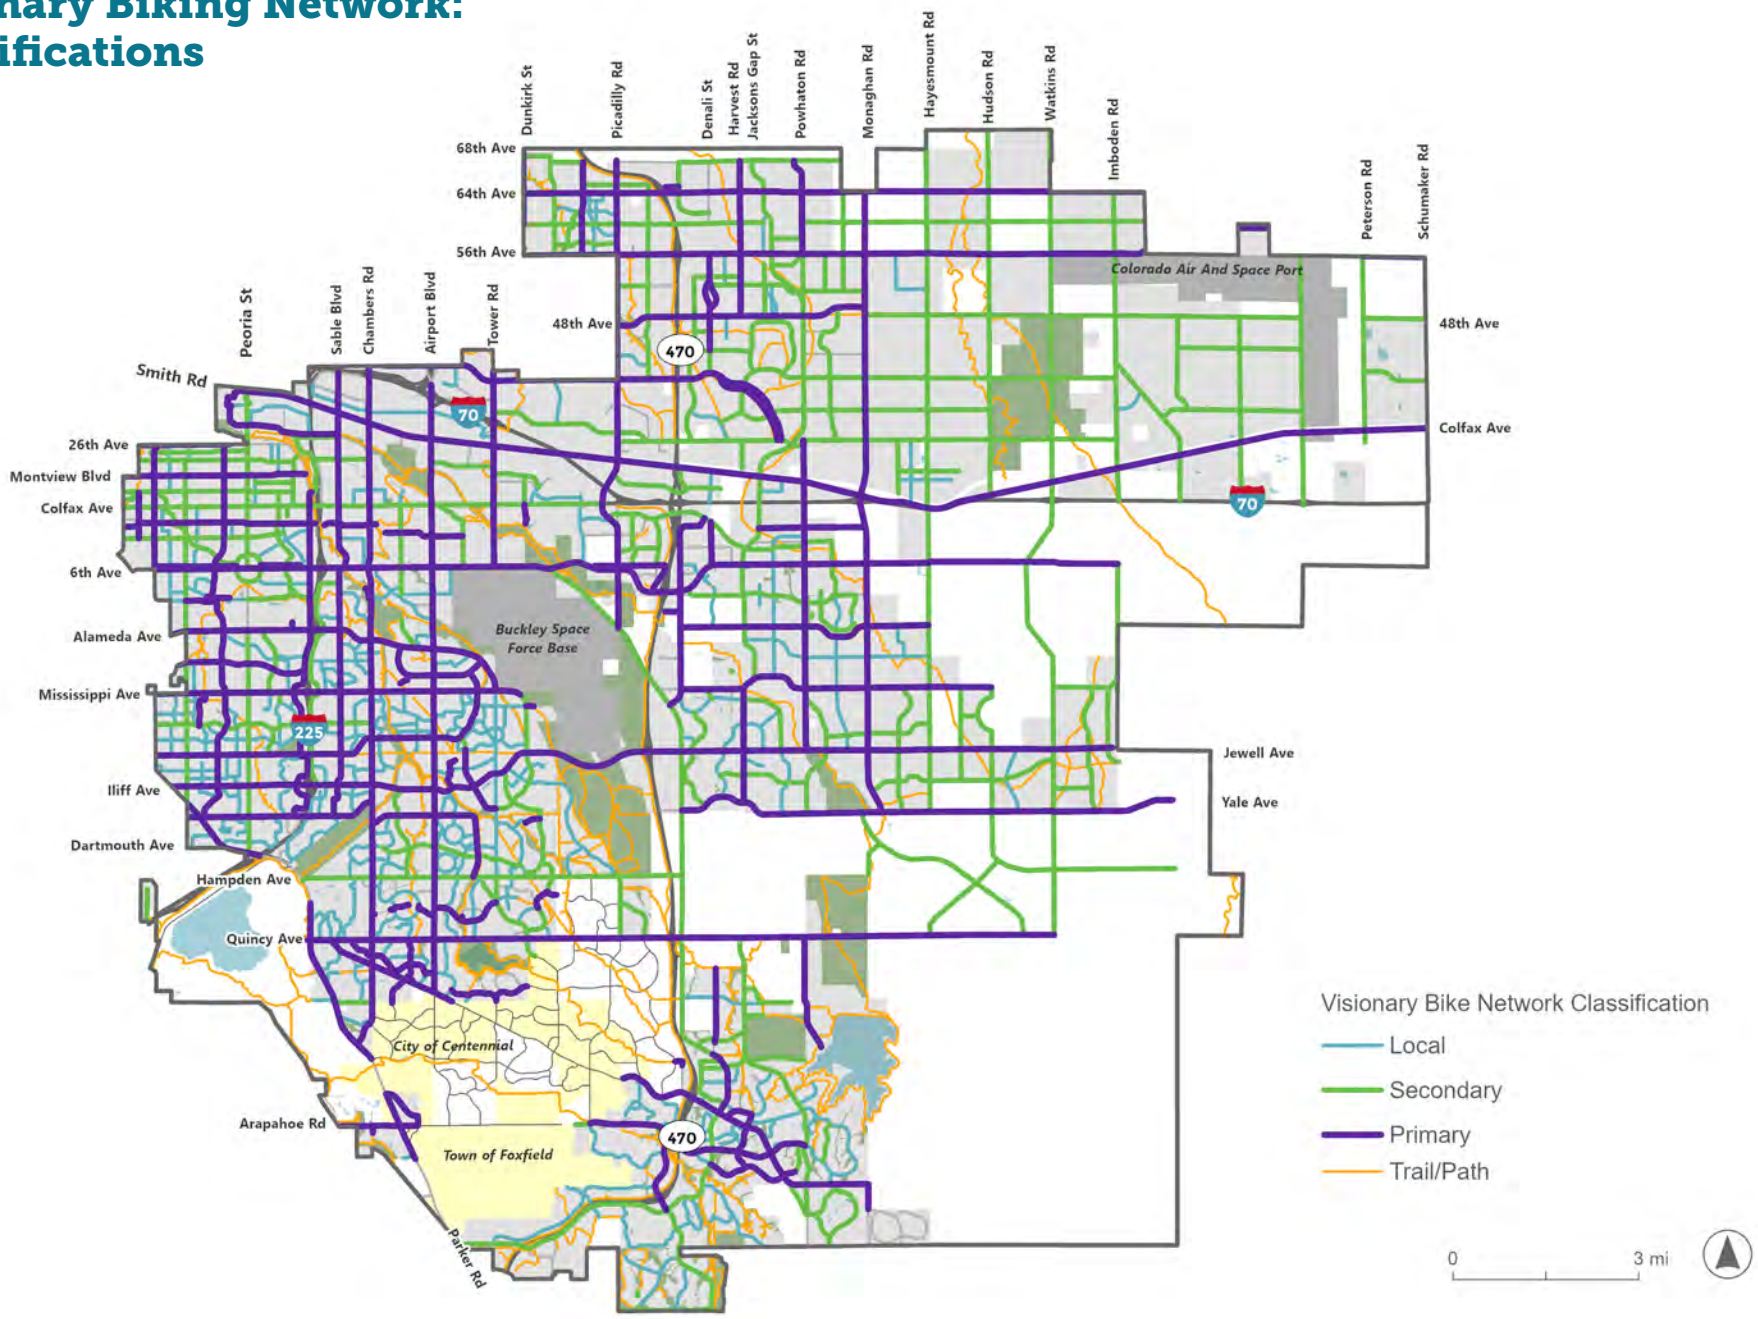
The city is responsible for plowing streets and bikeways. As Aurora expands their bicycle network, maintenance needs will likely increase. Maintenance considerations are a crucial element to determining the feasibility of certain bicycle facilities across the city.

Visionary Biking Network

Making biking a viable transportation option for people of all ages and abilities.

The visionary biking network will be a safe and low-stress connected network for Aurorans to use every day.

To fully realize the recognized benefits of biking and to achieve Connecting Aurora's vision, the city, the development community, special districts and others must work together to design, build, maintain and operate a bikeway network that is safe and connected. This bikeway network should attract bicyclists who are "interested, but concerned" when it comes to riding on Aurora's streets. This group makes up the vast majority of potential bicyclists; they are interested in biking but concerned about the real and perceived safety risks.



Biking Network Classifications

Connecting Aurora's biking classification organizes the bicycle network by function and trip length to guide planning, design, and investment decisions.

Route Type	Typical Length	Connection Type
Primary	5+ miles long	Connect across regional barriers (i.e., highways)
Secondary	2-5 miles long	Connect several neighborhoods and across major arterials
Local	Short connections to primary/secondary routes	Enable everyone to access a safe, connected route

Visionary Biking Network: Classifications

How the Visionary Biking Network Was Developed

Community input and national best practices shaped Aurora's visionary biking network.

The following were taken into consideration to define the visionary biking network:

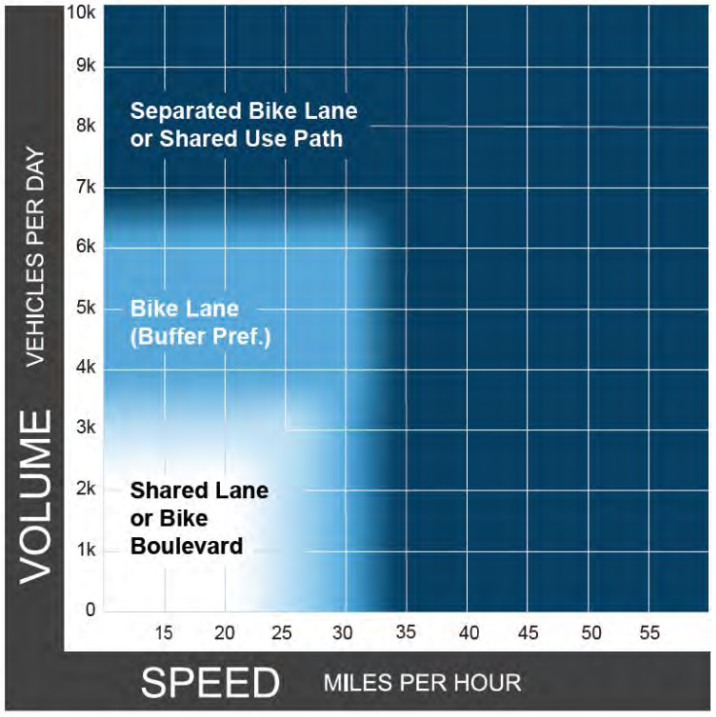
- Existing and planned bikeways and trails from prior planning efforts.
- Streets that connect key origins, such as neighborhoods and destinations like schools, transit hubs and commercial centers.
- Streets the community identified as places people want to bike.
- Critical locations to connect bikeways across major barriers like highways and railways, or where limited crossings exist.

A context-sensitive target spacing of 0.25 mile to 1.0 mile between bikeways was used to create equitable network coverage throughout the city, especially in areas with fewer existing bikeways.

A recommended bikeway type was identified for street, trail and corridor segments of the network. The bikeway types were chosen using speed and volume thresholds from national best practices outlined in the FHWA Bikeway Selection Guide and the AASHTO Bike Guide, 5th Edition.

Assumptions

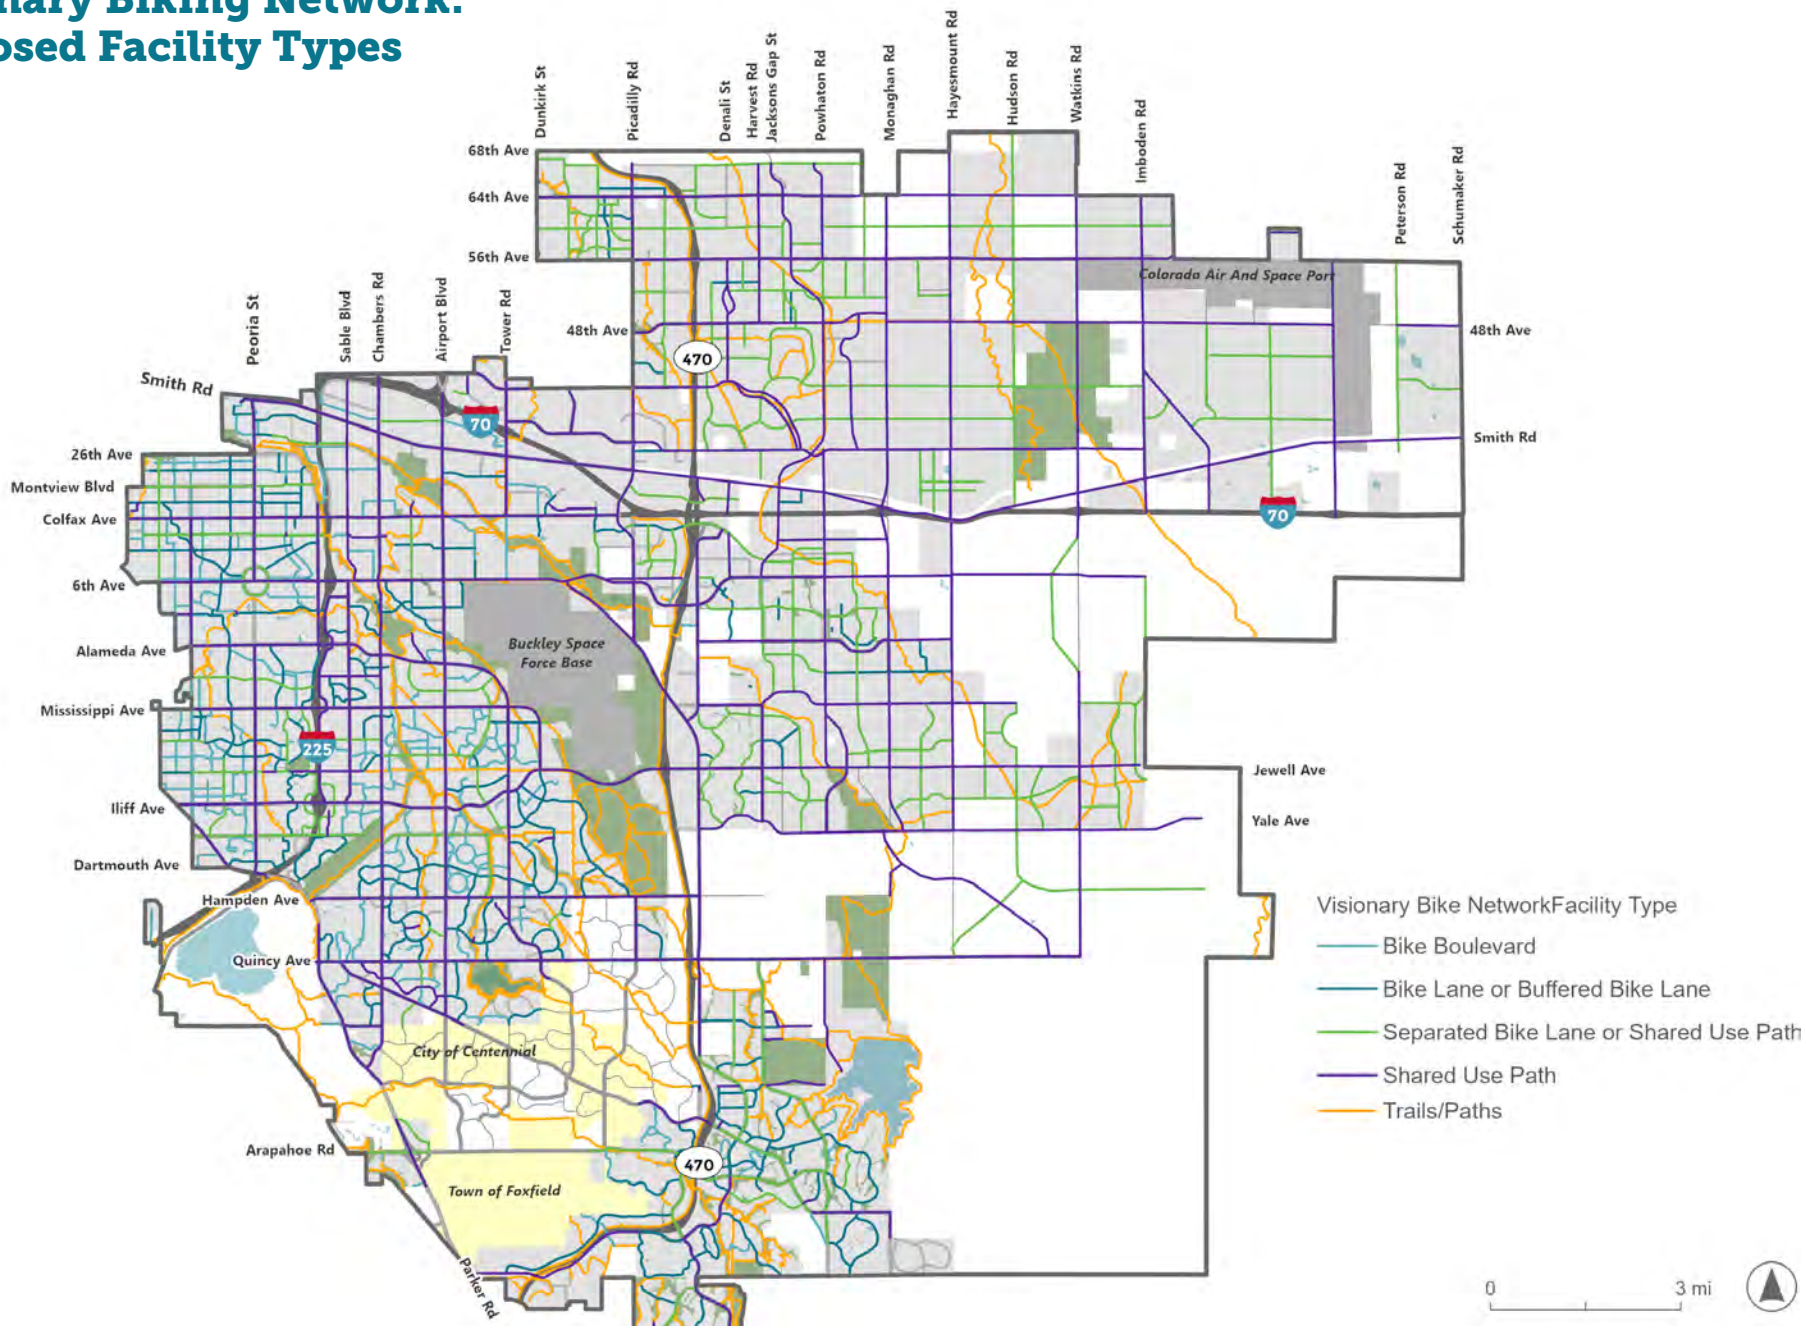
Where speed and volume data was unavailable, particularly for newer roadways or planned roadways in northeast Aurora, the following assumptions were applied:



- Arterials were assigned a shared use path with full separation between people biking and cars.
- Collectors were assigned a separated bike lane. However, if anticipated volumes are below 6,000 ADT, a buffered bike lane is acceptable.
- Select local roads in northeast Aurora were assigned bike lanes or buffered bike lanes based on anticipated context and connectivity needs.
- On low-volume, low-speed local streets, bikeways may require no improvements; and bikes can share the street with vehicles.

These recommendations establish a consistent and context-sensitive framework for bikeway design for a network that is both functional and inviting.

The visionary biking network supports Aurora's long-term vision of making biking a safe, convenient and reliable mode of transportation citywide.



Desired Bikeway Type

Bikeway facility types were selected using the FHWA Bikeway Selection Guide. FHWA criteria were applied to identify appropriate facilities for Local and Secondary routes. For Primary routes, more robust thresholds were used to reflect their role in serving higher volumes of trips, accommodating a wider range of riders and supporting passing and side-by-side riding. FHWA guidance may change over time, and Aurora will continue to follow best practices as they evolve.

Source: FHWA Bike Selection Guide, 2019

Visionary Biking Network: Proposed Facility Types

Achieving Our Goals

What a better biking network means for Aurorans.

Measures of success will track how well the visionary biking network is delivering on Connecting Aurora goals for how people bike in Aurora.

Low Stress Bikeway: Shared Use Path

Low Stress Bikeway: Raised Bike Lane

Key Destination: Parks

Key Destination: Schools

Low-Stress Network

A core goal of the visionary network is to create a low-stress network that encourages more people to ride bikes. Not all bikeways feel equally safe and comfortable. Missing on-street bikeways and insufficient separation between bicyclists and cars create stressful biking conditions.

MEASURES OF SUCCESS

- Total miles of low-stress biking routes and number of bicycle crossings.
- Share of streets that meet low-stress criteria.
- Year-over-year increases of low-stress network coverage.

RELATED GOALS

Safe, Connected, Healthy

Improved Access to Destinations

Biking is most useful when it connects people to where they need to go on a regular basis (schools, parks, grocery stores and transit). Measuring access to destinations helps evaluate how well the network supports short trips.

MEASURES OF SUCCESS

- Share of key destinations accessible within 1.5 miles via low-stress routes.
- Improvements in access after network expansions.
- Geographic equity in access across neighborhoods.

RELATED GOALS

Safe, Connected, Convenient, Economically Strong, Equitable, Integrated

Recommended Strategies

Taking action to improve and maintain Aurora's biking network.

Aurora's strategy for planning, building and maintaining bicycle infrastructure will shape what people experience when they choose to bike in Aurora.

Target Outdated Bikeway Facilities

Many bikeways in Aurora lack adequate bicycle infrastructure and are not comfortable for the variety of likely users. These conditions compromise bicyclist safety, accessibility and comfort.

ACTIONS

- Determine a minimum acceptable Level of Biking Comfort for streets based on placetype, street classification and prioritization level.
- Install consistent, visible wayfinding signage to help people navigate the biking network and highlight proximity to nearby destinations.

What is a high comfort bikeway?

A high comfort bikeway provides bicyclists of all ages and abilities a safe and enjoyable biking experience. High comfort bikeways are commonly wide enough to support multiple riders and have some form of separation between bicyclists and drivers. High stress bikeways, on the other hand, are often mismatched to their surroundings. A high stress bikeway may not offer bicyclists any separation from drivers. These facilities may be narrow or along high traffic roadways.

HIGH COMFORT BIKEWAY

HIGH STRESS BIKEWAY

Refresh Aurora's Micromobility Opportunities

Because micromobility programs depend on private operators, the programs must strike a balance between meeting the city's needs and requirements and making them attractive for micromobility companies to operate. This balance requires that enough residents, visitors,and workforce members consider shared micromobility as a viable option and that they exercise that option. Partnerships and coordination are helpful to identify next steps for Aurora in implementing a Shared Micromobility Program (PR 11 in Chapter 6).

ACTIONS

- Conduct interviews with peer cities to benefit from their lessons learned in operating their programs.
- Conduct interviews with shared micromobility vendors to better understand their needs and constraints.
- Coordinate with DRCOG's Micromobility Work Group.

Engage Partners to Encourage Biking

Community partners provide a meaningful way to educate the public, provide information from trusted sources and encourage biking for a variety of trip purposes and needs.

ACTIONS

- Install secure bike parking and other end-of-trip facilities at key destinations.
- Provide bike safety education for youth and adults, driver awareness campaigns and events like Bike to Work Day or community bike rides.

PARTNERSHIPS

- Collaborate with public health agencies to promote biking as a tool for maintaining a healthy lifestyle.
- Work with PROS to assist with bike skill education and experience building.
- Engage schools and universities to promote safe biking among students.
- Partner with local employers and developers to support bike infrastructure through site design and incentives.

Respond to Biking Trends

The accessibility of e-bikes and changing work schedules has influenced how and when people choose to bike. Aurora must remain responsive to biking trends so that people are able to access facilities that allow for safe travel. Additionally, understanding how and where many people are biking in Aurora will help the city measure the impact of its investments and identify areas in need of improvement.

ACTION

- Leverage the Multimodal Counts Program (PR 14 Chapter 6) to regularly collect data on biking activity across Aurora. Tracking these trends over time will help show whether the number of bicyclists in areas increased with better infrastructure. These insights help ensure that the network is being used and valued by the community and can help inform future decision-making.

Capital Investments

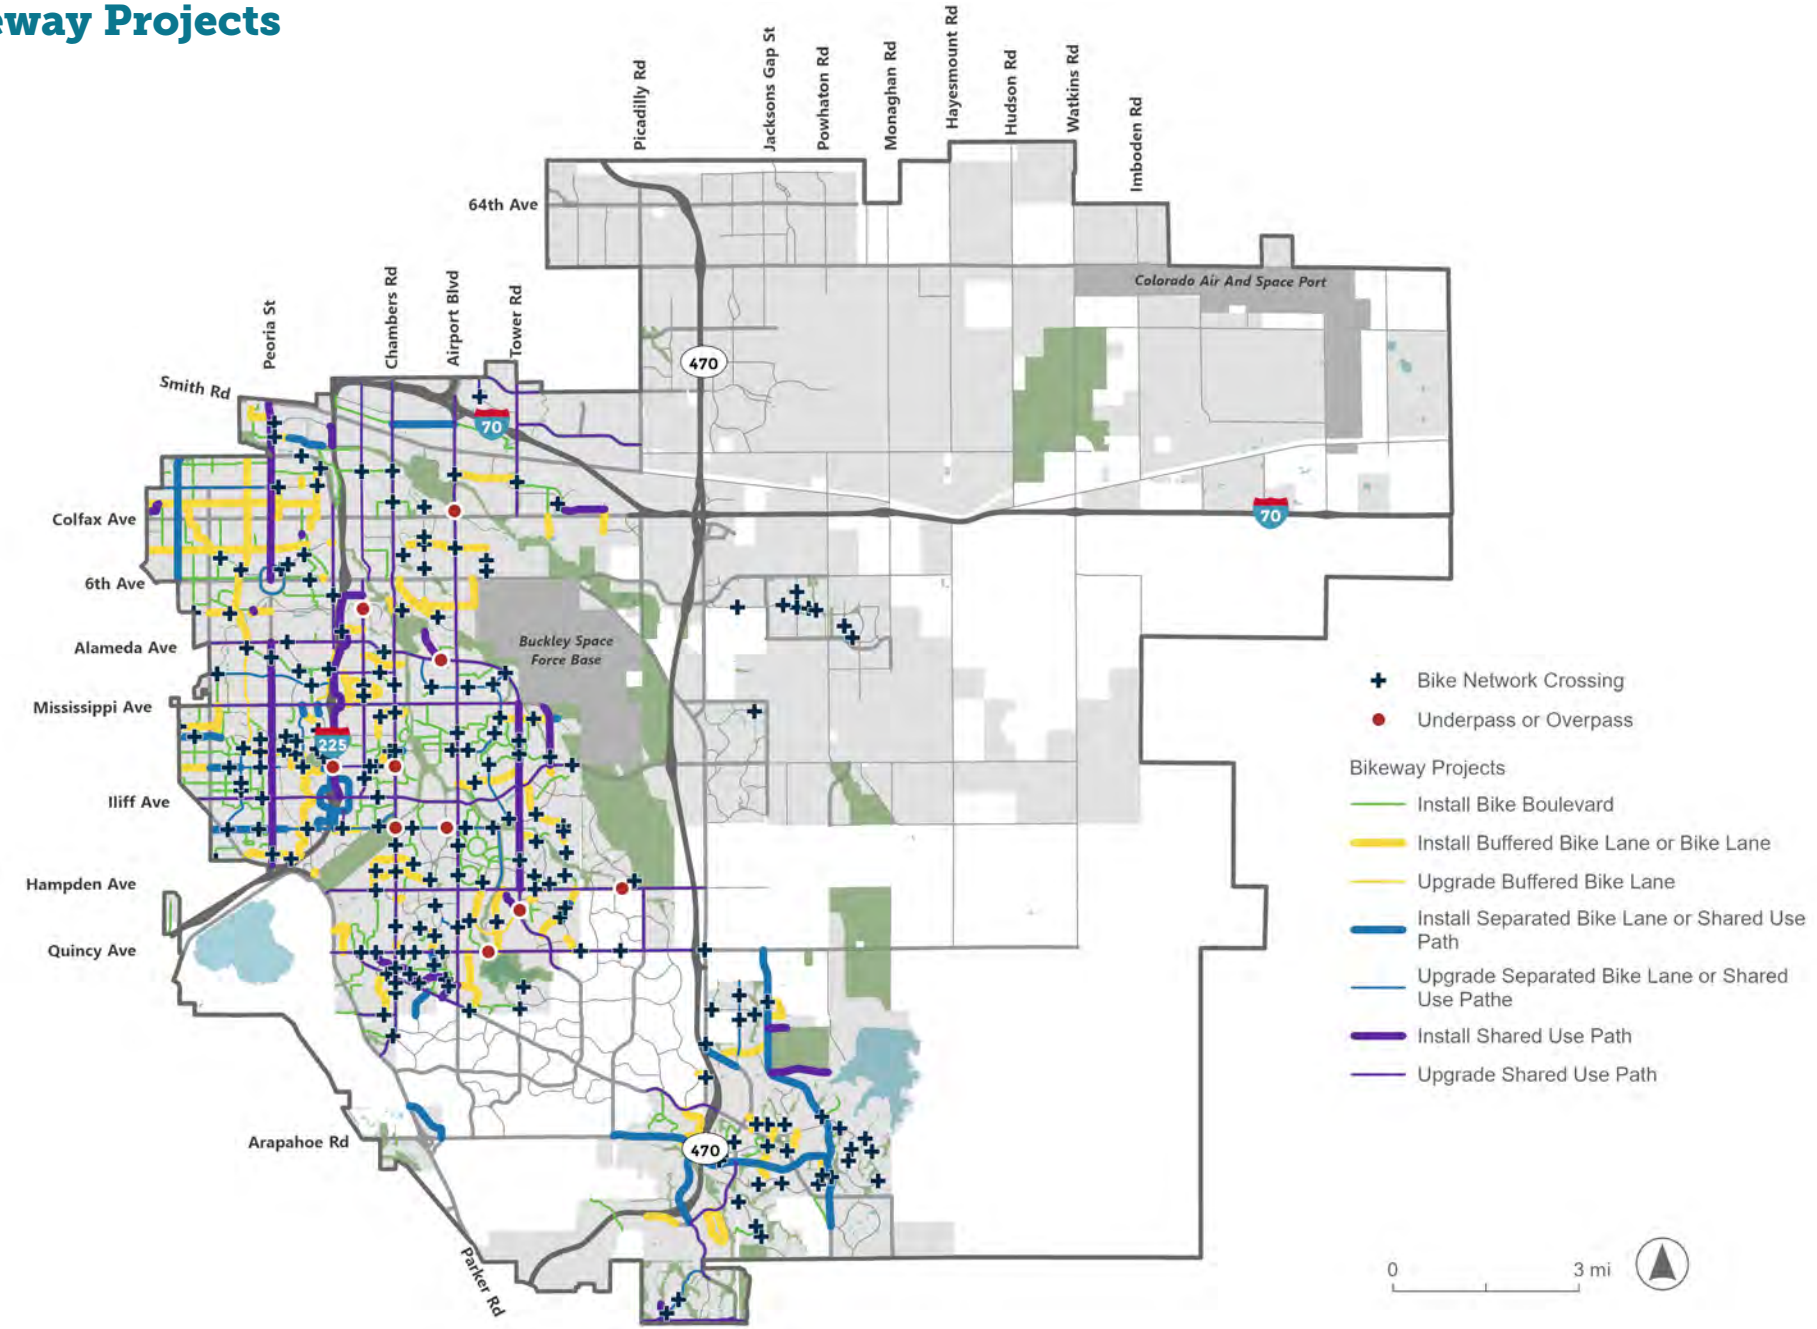
Connecting Aurora identifies bikeway and crossing projects for the visionary network.

To guide the city's investment in improved infrastructure for people biking, the projects outlined here can improve safety, accessibility and connectivity to Aurora's biking network. A more detailed project list can be found in the Appendix.

Bikeway Projects

Address missing bike connections and uncomfortable bikeways along city streets.

Crossing Projects



Focus on creating safe opportunities for bicyclists to cross arterials at locations currently without traffic signals, all-way stops or roundabouts that serve key destinations or provide important network connections. Crossing projects will require future study and evaluation prior to implementation.

Multimodal Opportunities

Multimodal roadway reconstruction projects present an opportunity to enhance bikeability through infrastructure upgrades like wider or more separated bike lanes, traffic calming measures and improved crossings.

Bikeway Projects

Note: Bikeways in northeast Aurora will be constructed as new development occurs.

People Riding Transit

Making Our Future Transit Friendly

With new development expanding across the city's eastern edge and major regional investments in transit underway, the city must work with regional partners to address the difficulties people currently face when traveling by transit. Aurora is growing fast, and now is the time to create a more efficient, connected and future-ready transit system.

This chapter outlines Aurora's first citywide transit vision, summarizing the existing state of the network, defining needed capital and service improvements and establishing a framework to guide policy and investment decisions. Recommendations are designed to make transit a more reliable, attractive option for more people—especially as the city works to support economic opportunity, maintain mobility and make better use of existing infrastructure.

Chapter 9 Highlights

TODAY'S CONTEXT
RTD currently operates Aurora's bus and rail service.

PLANS, PROGRAMS AND INITIATIVES
Aurora is working to expand transit options through microtransit service.

VISIONARY NETWORK
The future services and routes are designed to better serve the community.

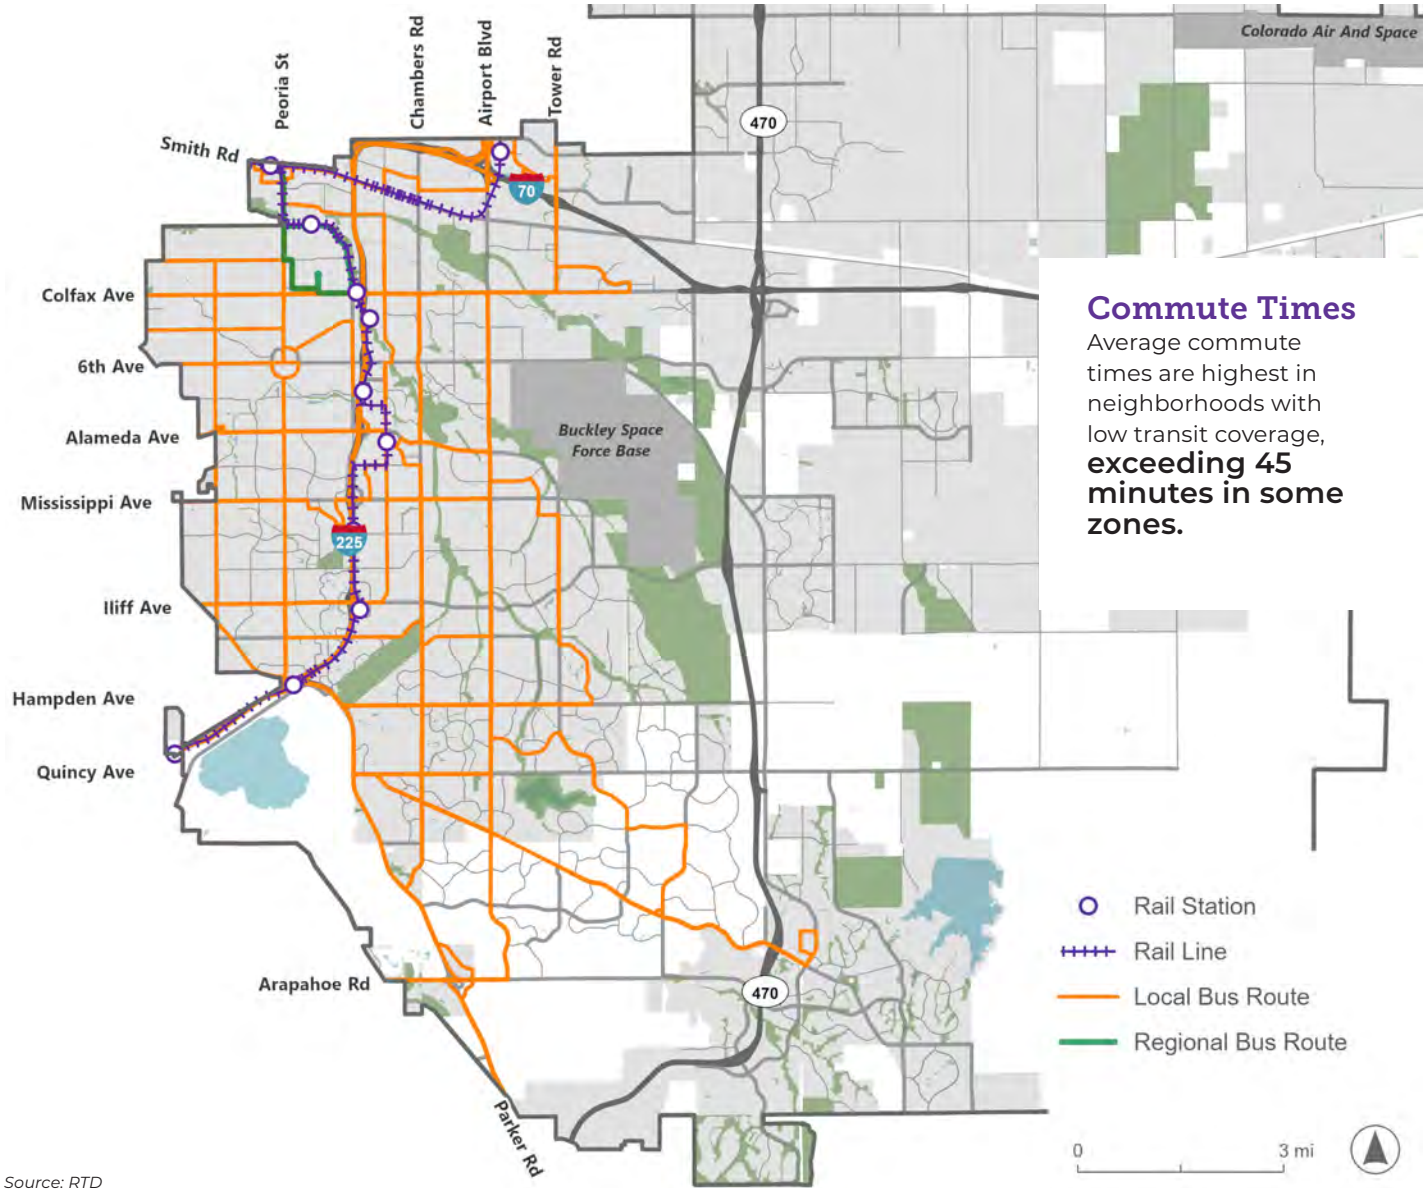
ACHIEVING OUR GOALS
A more robust transit network will provide residents more travel options.

Today's Transit Context

Aurora's Transit Network

Aurora's transit system is ready to take a leap forward.

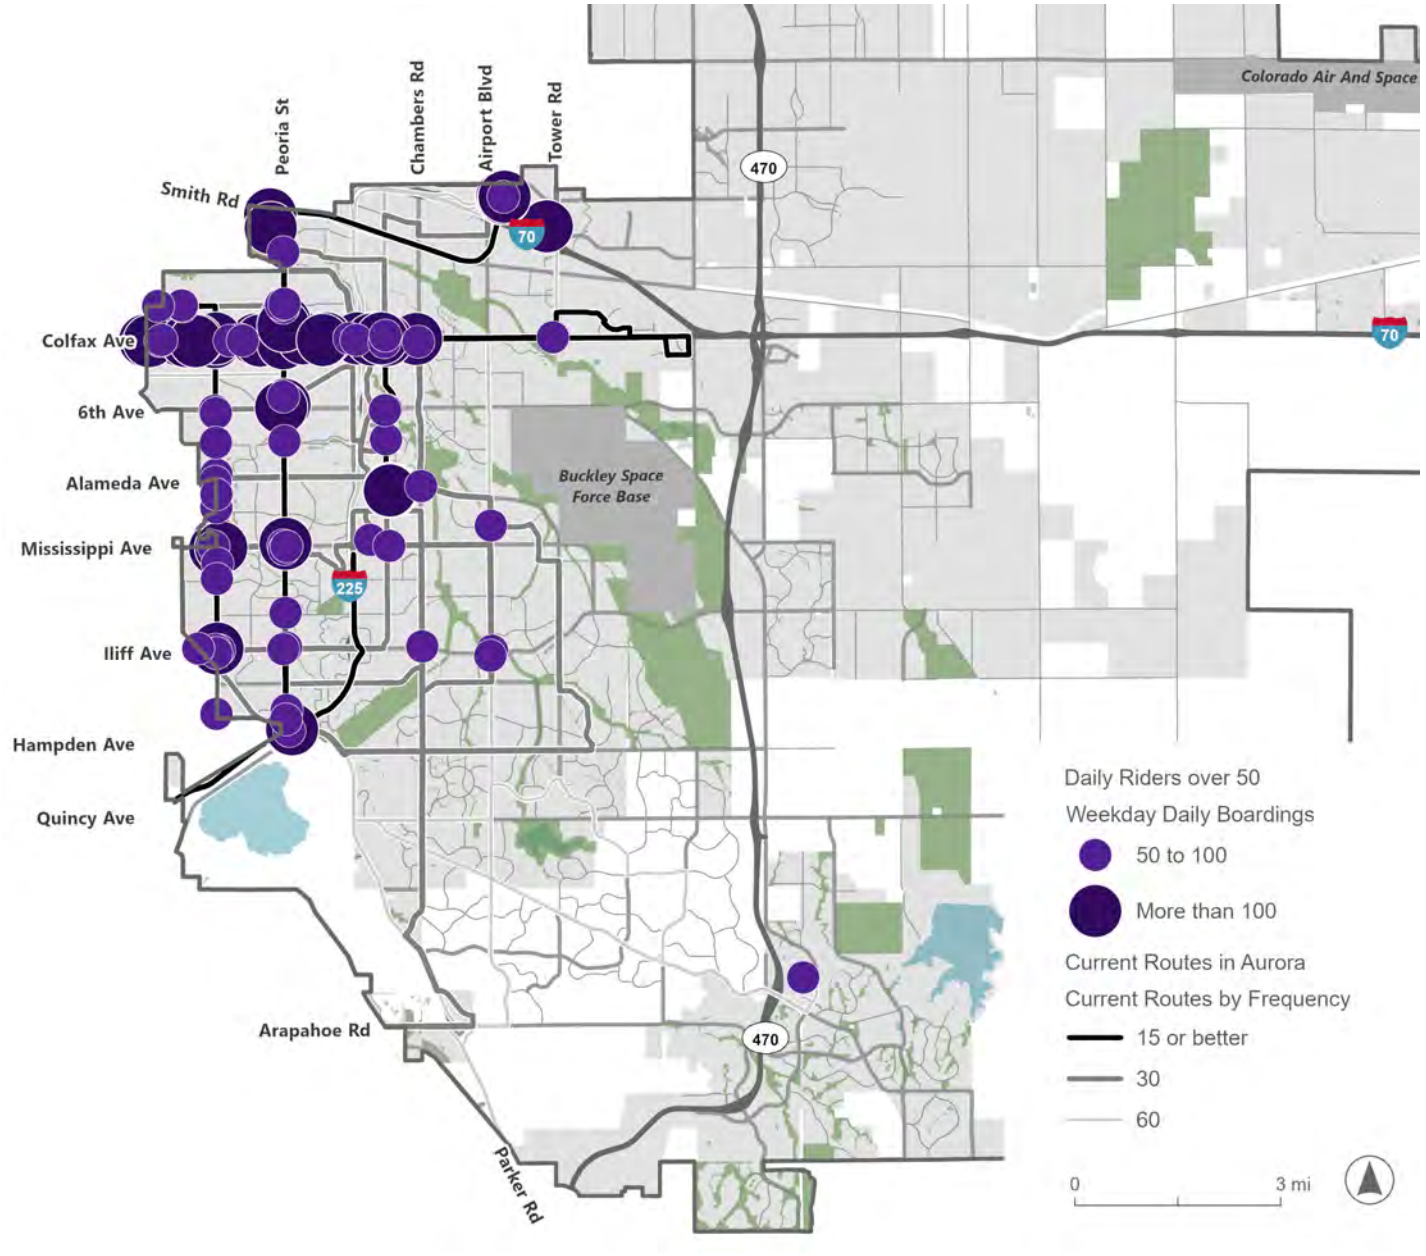
Transit is a critical function of Aurora's transportation system, connecting residents and employees within the city and across the Denver metropolitan area. RTD has provided public transit in Aurora since 1972. Around 13% of RTD's more than 3 million customers in the Denver metropolitan area live in Aurora.



Riders can use a variety of transit options to travel. Aurora is currently served by 30 RTD bus and rail routes, including 24 local bus routes, one regional Flatiron Flyer route, two light rail lines and one commuter rail line. These collectively comprise 20% of all RTD routes. A new BRT line is currently under construction on Colfax Avenue from Yosemite Street to I-225.

Key Challenge

SERVICE AVAILABILITY



Only one of RTD's bus routes extends east of E-470. The most used corridors—Colfax Avenue, Havana Street and Peoria Street—account for a large share of Aurora ridership. However, large parts of the city remain underserved or entirely unserved.

Transit Service in Aurora

Source: RTD

Transit Stops by Daily Ridership

Source: RTD

Major Transit Hubs

The most used transit stops in Aurora are found at major light rail transit hubs and along Colfax Avenue.

Aurora Metro Center Station, at over 2,000 boardings a day, is positioned between a large shopping complex anchored by the Town Center at Aurora to the west and several municipal service buildings to the northeast.

Nine Mile Station serves a diverse array of multifamily housing, commercial development, human services facilities and the Arizona College of Nursing. Peoria Station has a park-n-ride with transfers to the A Line, R Line and bus routes.

The other highest ridership stops are located along Colfax Avenue at Havana Street and Peoria Street. Colfax Avenue is the main thoroughfare for the city's highest ridership bus routes, the 15 and 15L, which provide access to apartment buildings, grocery stores, culturally diverse restaurants and food markets and the Anschutz Medical Campus. As such, this corridor is currently under construction to upgrade transit service to BRT.

Key Challenge

ACTIVITY CONCENTRATED IN WESTERN AURORA

Most transit activity occurs west of I-225. East of I-225, ridership is lower.

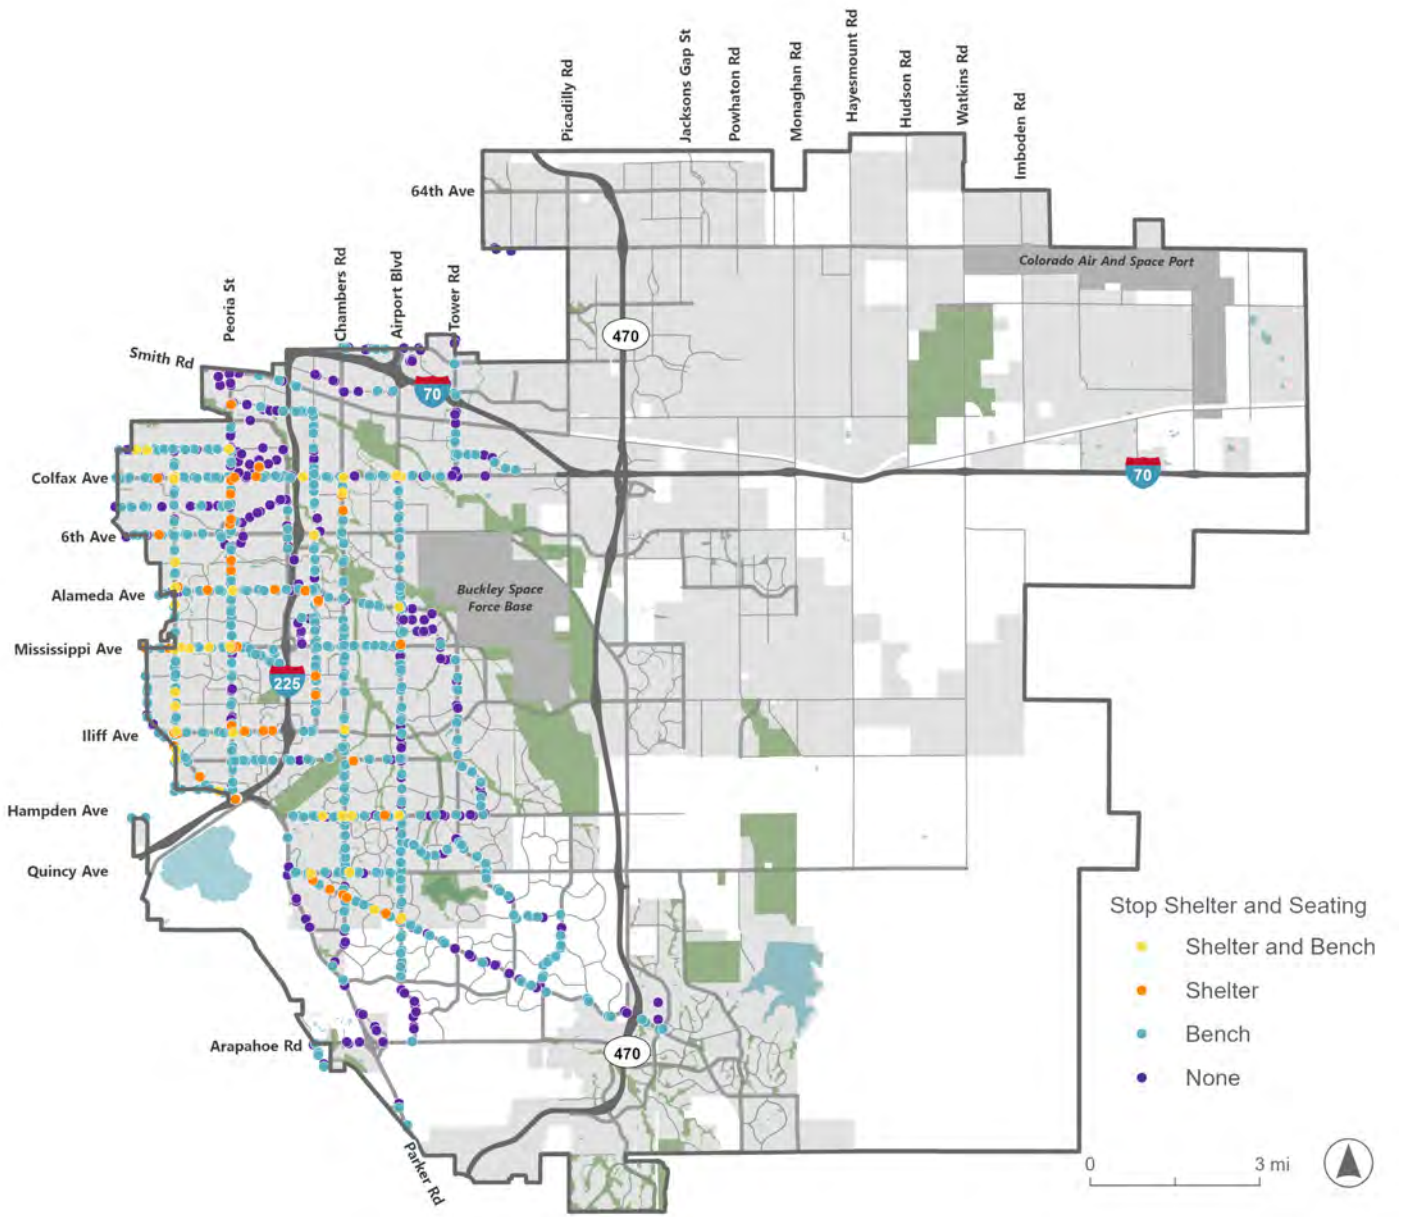
Service Frequency and Travel Times

Transit service frequency contributes to long transit travel times.

Most Aurora transit routes run every 30 to 60 minutes, with limited evening and weekend service hours. Only 9% of Aurora residents live within walking distance of transit that comes every 15 minutes or less. Of the 27 bus routes, only four operate at 15-minute or less headways. This makes the system difficult to use for non-commuting purposes, such as school, healthcare or shift work, particularly in populations with lower incomes or higher transit dependence. For example, northwest Aurora and Central Aurora are home to transit-reliant populations but there are no frequent, all-day connections to job centers across the metropolitan area.

Because of the infrequent service intervals, transit travel times on transit routes along Havana Street and Colfax Avenue are often two to three times longer than driving times, especially during peak periods. The average transit trip in Aurora takes 47 minutes, while the average car trip takes 21 minutes.

Key Challenge



INFREQUENT AND SLOW SERVICE

Bus riders must contend with infrequent service intervals, long wait times and slow average speeds, making it difficult to rely on transit for work or time-sensitive trips. Passenger delay across the city caused by slow loading, congestion and circuitous routing totals more than 1,800 hours per day.

Aurora Bus Stops and Rail Stations

Source: RTD

Transit Facilities

Only 8% of bus stops in Aurora have shelters.

Within the Aurora Planning Boundary area, there are 1,128 active bus stops, 11 rail stations and 12 park-n-ride facilities. Each of these facilities has various levels of amenities and supporting infrastructure to walk, bike or drive to the transit services.

Key Challenge

INADEQUATE STOP AMENITIES

Many bus stops lack shelters, lighting, ADA access or safe pedestrian connections. In fact, only 8% of Aurora's bus stops currently have shelters, and dozens are located along high-speed arterials with no sidewalk access. Only 47% of stops are ADA accessible.

These deficiencies reduce the visibility, safety and comfort of the transit system, particularly for seniors, youth and people with disabilities.

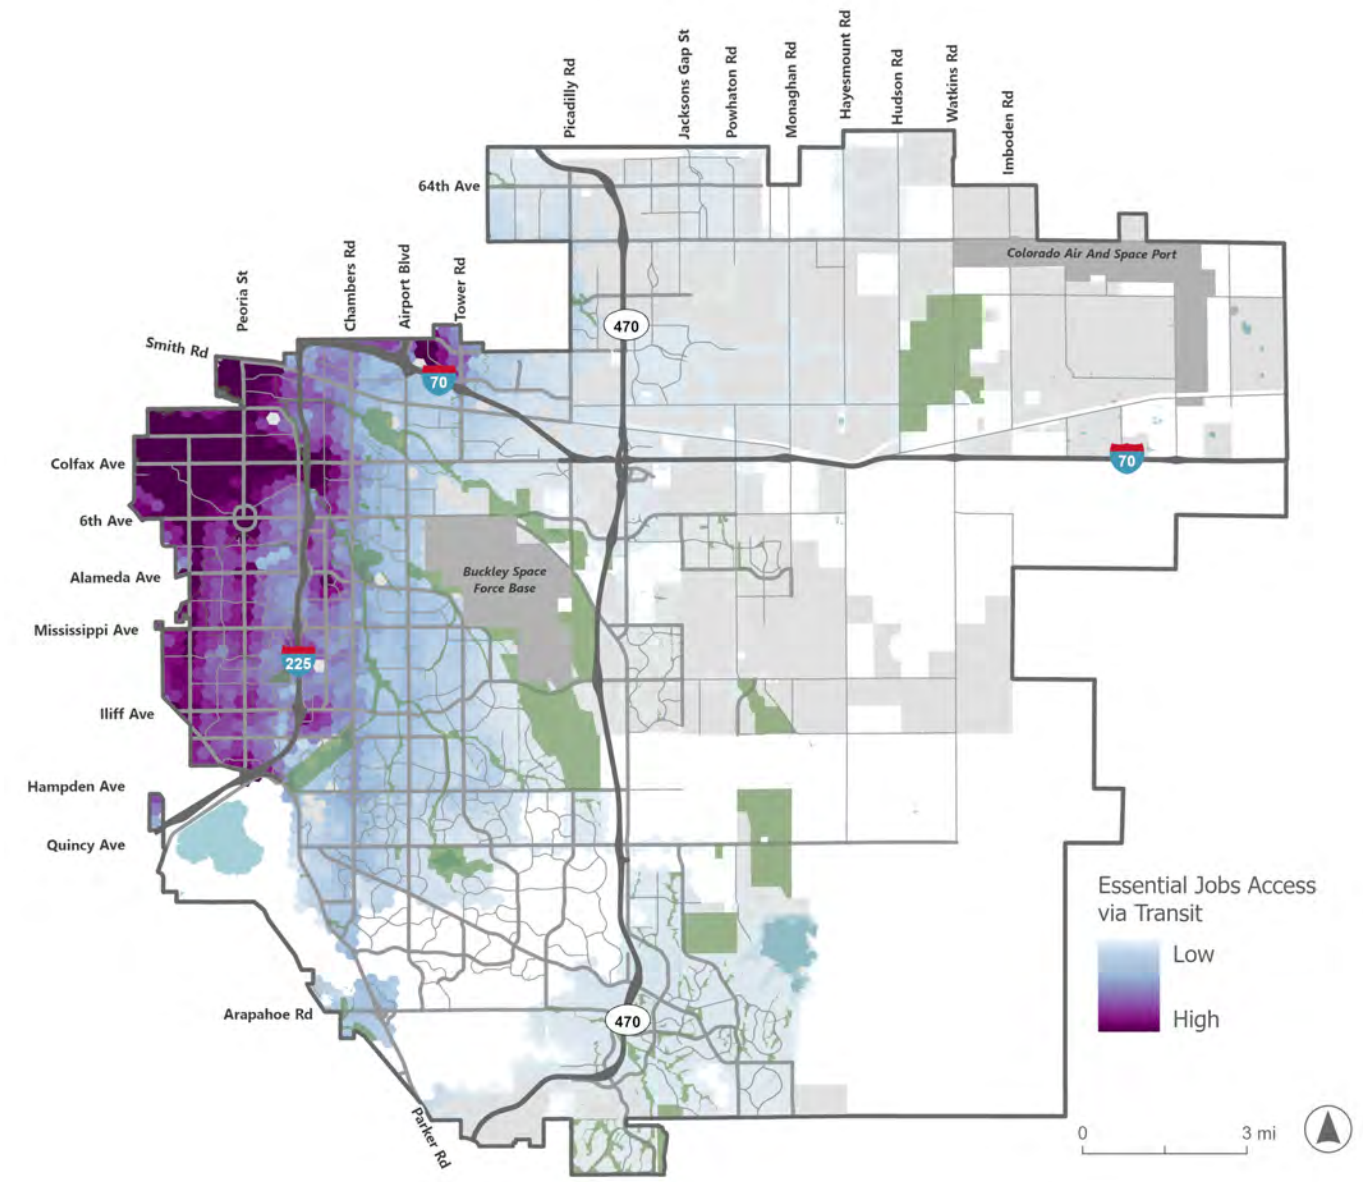
PERCEPTIONS OF PERSONAL SAFETY

Transit must feel safe for riders in order to expand ridership. Today, some Aurorans do not feel safe at current transit stops or while riding transit. This is a major barrier to having successful transit services in the city.

Transit Access

Transit service is needed to access job centers and in growing residential areas.

Aurora added over 55,000 jobs between 2010 and 2022, with the fastest growth in healthcare, logistics and industrial sectors. Many job centers like the Anschutz Medical Campus, logistics and distribution fulfillment centers and warehouses along I-70 are supported by a workforce that needs to get to work reliably, affordably and on time. Many of the job centers are not currently well-served by transit.



Areas experiencing residential growth have little or no fixed-route transit service, for example east of E-470 and along I-70. More than 60% of households in recent growth areas are more than 0.50 mile from any RTD fixed-route service.

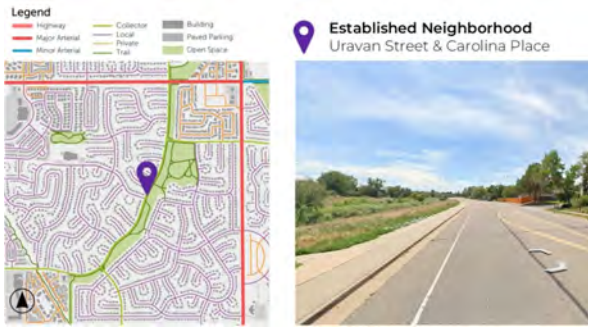
Key Challenge

LIMITED TRANSIT COMMUTING OPTIONS

Northwest and Original Aurora are home to lower-income communities that are transit-reliant and have limited frequent, all-day transit connections. Average commute times are longest in neighborhoods with low transit coverage, exceeding 45 minutes in some zones. Reaching a hospital by bus from some eastside neighborhoods can take 60 minutes or more, even for a relatively short-distance trip.

Access to Essential Jobs Via 60-Minute Transit Ride (Weekday)

Source: Replica Data, 2023



Three Distinct Transit Geographies

The city's UDO delineates three distinct land use and development patterns that define areas of the city West Aurora (Sub Area A), Central Aurora (Sub Area B) and East Aurora (Sub Area C). Each Sub Area's unique land use and infrastructure influences how people experience transit in the city.

West Aurora (Sub Area A)

West Aurora has the **highest concentrations of renters, zero-car households and lower-income residents**. The street grid supports walking, and transit ridership is strong, but the infrastructure is aging and deficient. Many of the sidewalks near transit stops are narrow, and most transit stops lack shelters or ADA access. Bus speeds are among the lowest in Aurora, and travel times are affected by congestion and frequent transit stops.

Central Aurora (Sub Area B)

The area between I-225 and E-470 features wide arterials and disconnected local streets, which limit direct transit routing and walkability. This area has a growing middle-income population, and many residents have long, indirect transit trips to reach everyday destinations. Bus speeds are among the lowest in Aurora, and travel times are affected by congestion and frequent transit stops.

Only ~47% of Aurora's 1,128 stops are ADA accessible; fewer than 100 have shelters.

East Aurora (Sub Area C)

The developments east of E-470 are still relatively new, and this area remains largely unserved by fixed-route transit. East Aurora is the fastest-growing area of the city, and residents and employees have few or no transit options, reinforcing car dependency.

Community Conversation

People want more transit options.

Of those surveyed, 45% never or almost never use transit, and only 3% use transit daily or most days.

Survey participants shared their experience as a person riding transit in Aurora. They were asked why they used transit and what prevents them from using it.

Among those who use transit, approximately 40% prefer it because it is more affordable, it is environmentally friendly, it is necessary for health or legal reasons or it is simply because they prefer not to drive.

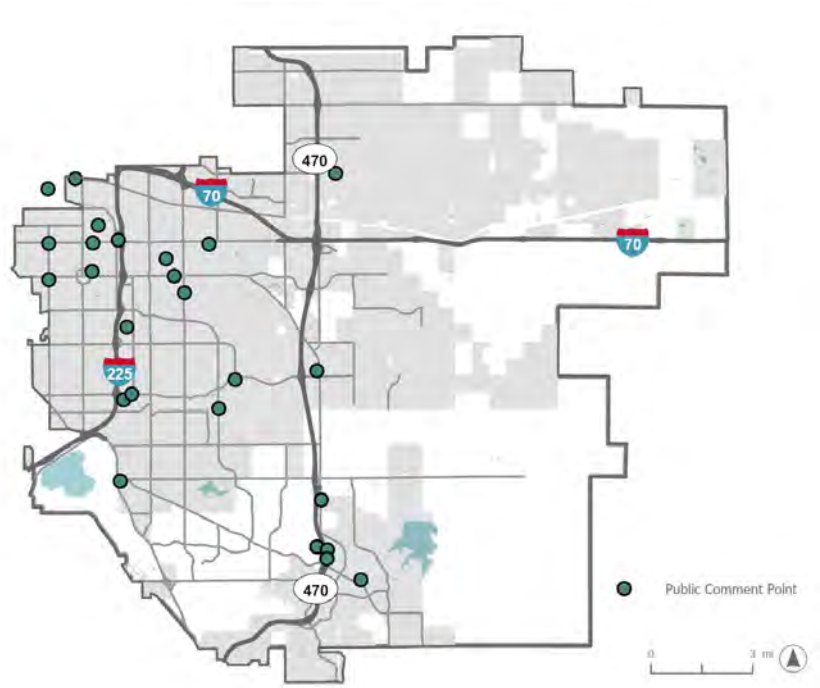
Notable Locations

Survey participants added pins to a map of the city to note location-specific concerns. The areas near Community College of Aurora, northwest Aurora (Stanley Marketplace) and Colfax Station had the highest number of pins.

Transit Challenges

Nearly 30% of survey participants indicated that the most common barrier to transit use was that services were not available where they need it. Around 27% of the participants noted that transit travel times were too long to get to desired destinations. Others noted safety concerns.

Opportunities to Improve Transit



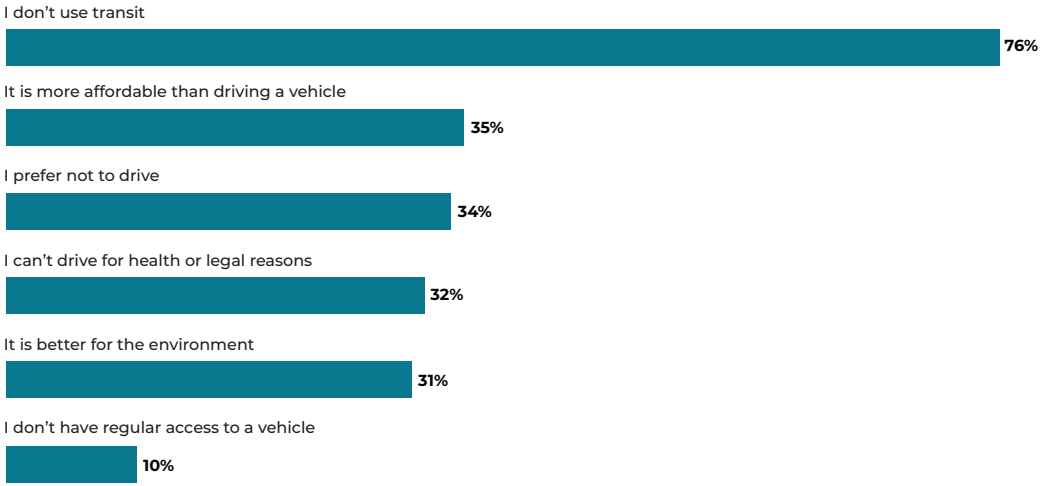
Survey participants were asked to indicate their top three transit improvements. The top three were:

- Improved security on buses and at bus stops to maintain safety and reduce crime.
- More frequent bus and train services so they are convenient and faster.
- Improved transit priority infrastructure like dedicated bus lanes and transit signal priority to increase the efficiency and reliability of transit services.

Additional improvements noted were “Improved bus stops and bus stop amenities” and “longer bus and train service hours, like early morning and late evening.”

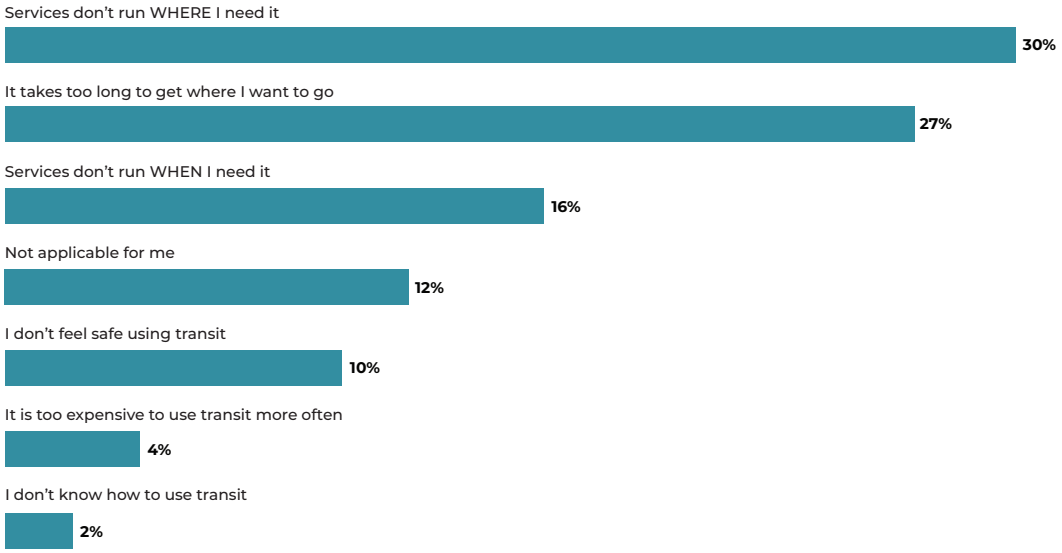
Aurorans want their transit experience to be safe, convenient and time-efficient.

Transit-Specific Public Comments



> “Would love more bus service to NW Aurora! Lots of folks ride the bus in this area, but buses can run at difficult times or not often enough.”
>
> **SURVEY PARTICIPANT**

Aurora by the Numbers



~30%

of survey participants indicated that the most common barrier to using transit was that services were not available where they need it

Why do you use public transit?*

What prevents you from riding transit?*

* Respondents were able to select more than one answer; totals do not sum to 100%.

Comment Summary

The highlights below summarizers the primary challenges and important factors identified by survey participants regarding Aurora's public transit.

Primary Challenges

- **Limited service schedule**
- **Long travel times**
- **Limited access to desired destinations**

Important Factors

- **Safety**
- **Frequency**
- **Improved operations**

Existing Plans, Programs and Initiatives

The city will leverage past efforts to build the future of riding transit.

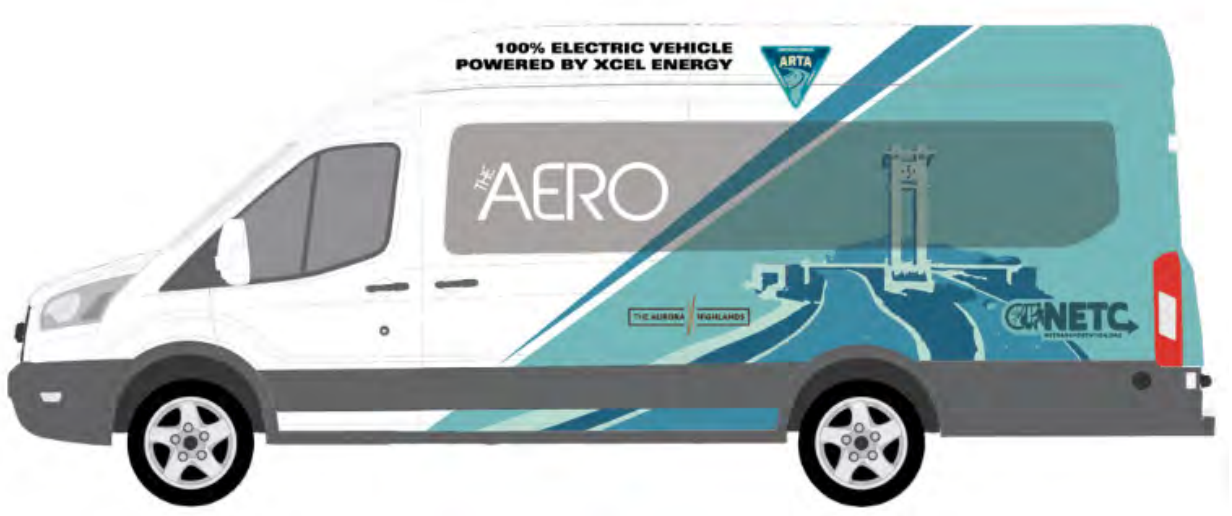
Aurora has a strong history and partnership with RTD in developing a transit system that serves its communities and supports the city's development patterns and economic goals.

Transit-Related Plans

Aurora's recent planning studies emphasize improved mobility, multimodal choice and transit-oriented development. They call for a connected, efficient and accessible transportation system.

AURORA PLACES

Aurora Places (2018) proposes several improvements to enhance transit operations and infrastructure in Aurora. These improvements include:



- Implementing first- and last-mile solutions like bicycle and pedestrian connections, park-and-ride facilities, bikeshare and rideshare to improve accessibility to transit stations.
- Establishing mobility hubs to support multimodal connections at major transit locations.
- Designating certain corridors as Priority Transit Corridors with high-frequency transit that may include dedicated right-of-way, extended hours of service and enhanced transit station amenities.

HAVANA STREET CORRIDOR STUDY

The Havana Street Corridor Study (2023) identifies strategies to improve transit along the corridor following the recommendations made in RTD's Transit Priority Analysis of Select Corridors in 2018. RTD's study proposed bus bypass lanes, bus bulb outs and queue jumps a bus stop accessibility upgrades and transit signal priority on Havana Street, which were constructed in 2020/2021.

EAST COLFAX AVENUE BRT AND COLFAX BRT NEXT STUDY

In 2012, planning began for the East Colfax Avenue BRT. The BRT Next Study builds on the current construction between Broadway Avenue and Yosemite Avenue. The study identifies future BRT options for East Colfax Avenue between the R Line's Colfax Station at I-225 and Picadilly/E-470. The selected improvements will enhance bus service and make transit a safer, more efficient and cost-effective mode of transportation for reaching jobs, essential services and other everyday destinations.

Northeast Transportation Connections microtransit service

NETC shuttle

Rendering of TOD development around Nine Mile Station

Transit-Related Programs

There are several programs that expand transit access for residents and employees across the city. They are public-private partnerships that fill gaps in the existing transit network.

AERO MICROTRANSIT SERVICE

Northeast Transportation Connections (NETC) operates the Aero microtransit service that provides free on-demand trips in the Aurora Highlands area, supporting travel in low-density new developments.

MAJESTIC COMMUTER

NETC operates the Majestic Commuter, a free shuttle from 40th and Airport Boulevard Gateway Station to nearby employment centers.

Transit-Related Initiatives

KEY PARTNERSHIPS

Aurora continues to work closely with:

- RTD to coordinate service planning and leverage regional funding.
- CDOT, DRCOG and RTD to deliver regional BRT routes and multimodal infrastructure.
- Local developers and advocacy groups to align private development with transit goals.

These partnerships are critical to achieving a cohesive and efficient regional transit system that reflects Aurora's unique context and growing needs.

LAND USE CHANGES TO SUPPORT TRANSIT

Transit-Oriented Development (TOD) has been advanced near the A Line commuter rail and H Line and R Line light rail stations through station area plans and zoning changes. The city has introduced TOD district zoning and is exploring updates to support compact, mixed-use development along transit priority corridors.

Visionary Transit Network

Making transit a real option for more people.

The visionary transit network will be a safe and efficient travel option for Aurorans commuting and traveling to everyday destinations.

Aurora is one of Colorado's fastest-growing cities. New homes, jobs and commercial hubs are transforming neighborhoods in the city's historic core and in the fast-developing eastern region. This growth brings new demands on the transportation system. Transit will play a central role in meeting them.

The visionary network for people riding transit includes widespread, convenient transit service for nearly everyone in the city. Infrastructure alone will not transform mobility in Aurora—service matters. How often buses run, how long they operate each day and how well they connect people to jobs and daily needs all play a defining role in transit's usefulness.

Connecting Aurora identifies a bold expansion of transit service that builds on RTD's System Optimization Plan and introduces a new vision for how Aurora can shape service delivery citywide.

DEFINING A CITYWIDE SERVICE FRAMEWORK

Aurora's future service strategy is built around a tiered service framework that matches frequency and coverage to community needs and development patterns. This structure helps target investments for the greatest impact and reflects best practices across the Denver metropolitan area.

Frequent Transit Network

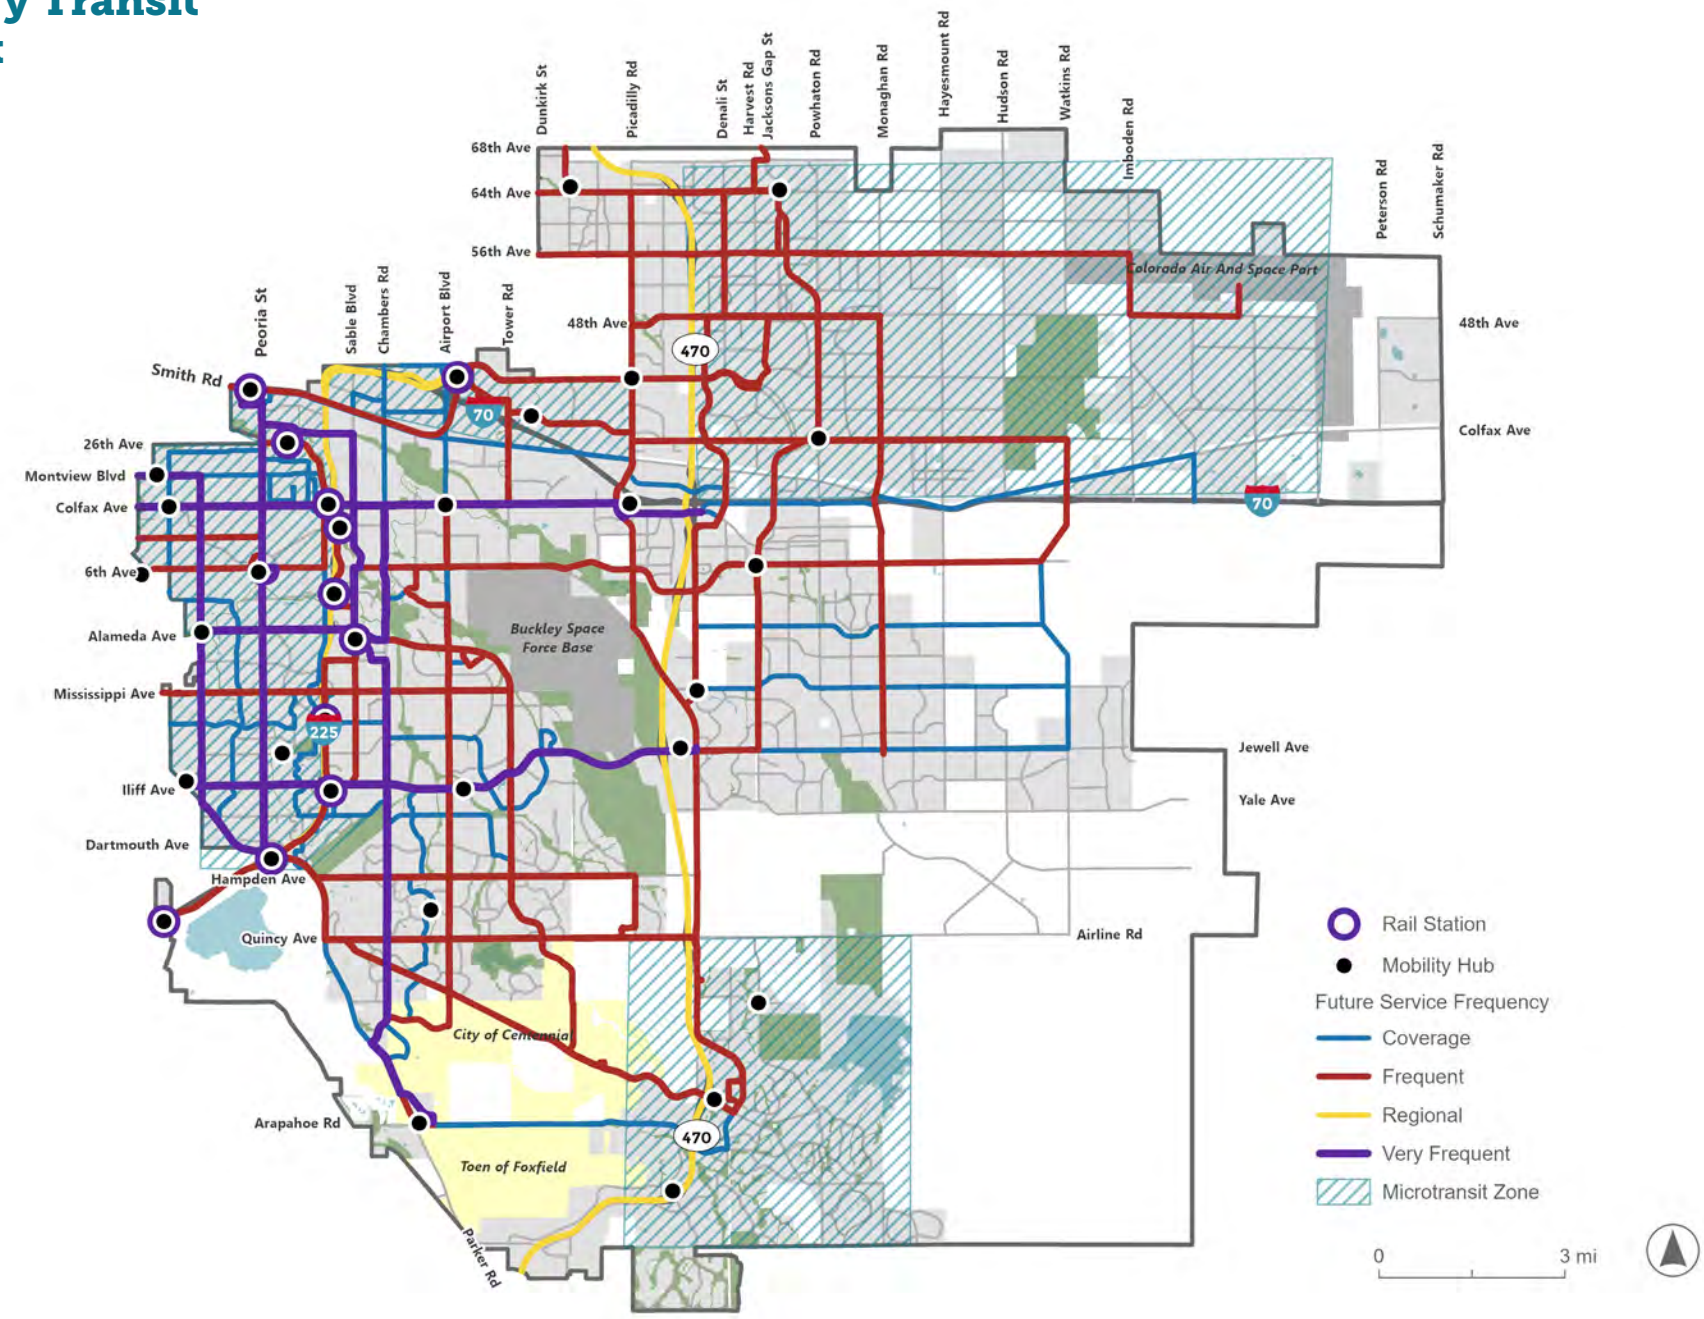
Frequent Transit Network (FTN) routes form the backbone of Aurora's future high-capacity transit system and are generally aligned with the **High and Medium Investment Corridors.** Frequent service makes transit a viable option for spontaneous, all-day travel.

- **Very Frequent Corridors:** 10-minute or better service, typically associated with BRT corridors or shared regional routes (e.g., Colfax Avenue, Alameda Avenue). These corridors require a high level of investment in capital infrastructure.
- **Frequent Corridors:** 15-minute service on corridors with strong existing ridership or land use support (e.g., Peoria Street, Havana Street). These corridors require some capital investment to increase service frequency.

Coverage Network

To ensure access across a growing city, the visionary transit network retains and enhances lower-frequency coverage routes:

- **Coverage Corridors:** 30-minute service in lower-density or industrial areas, often aligned with Low Investment Corridors.
- **New Infill Routes:** Local circulators or crosstown services in areas like Dayton/Moline, Potomac or Laredo.



Future Service Corridors

Some corridors, particularly in new developments east of E-470, are currently designated for **future regional service.** While current conditions may not support fixed-route transit, these areas will be monitored for development thresholds that could trigger route implementation.

Mixed Mobility Connectivity

Additional mobility hubs and park-n-rides at key locations complement the visionary transit network. The expansion of these programs and facilities will allow more seamless mixed-mobility trips from start to end.

Visionary Transit Network

Achieving Our Goals

What a better transit network means for Aurorans.

Measures of success will track how well the visionary transit network is delivering on Connecting Aurora goals for how people ride transit in Aurora.

Higher Ridership

Increasing the service frequency, simplifying the network and improving corridors with high travel delay times will attract more transit riders and increase transit ridership. The visionary transit network will increase the number of people using transit to access jobs, educational facilities and daily destinations, especially in areas where mobility options are limited.

MEASURES OF SUCCESS

- Annual system boardings.
- Transit commute mode share.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Faster, More Reliable Trips

Bus priority infrastructure, such as dedicated bus lanes, queue jumps and transit signal priority, reduce transit travel time delays and increase schedule reliability. These improvements make transit a viable alternative to driving; and they reduce time lost in road congestion, resulting in overall better service for residents and businesses.

MEASURES OF SUCCESS

- Hours of bus delay per weekday.
- Average corridor transit speed.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Stronger Economic Outcomes

The transit visionary network supports upward mobility for individuals and economic development citywide by improving access to employment centers, healthcare, schools and commercial areas. Coordinated regional transit allows Aurora's employers to access workers across the Denver metropolitan area, and Aurora workers to access employment opportunities in regional job centers. Frequent, reliable transit will expand access to opportunity across income levels.

MEASURES OF SUCCESS

- Low-income residents with access to 45-minute or less transit commute.
- Transit access to regional job centers.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

More Residents and Workers With Nearby and Frequent Transit Service

The visionary transit network will increase the percentage of Aurora residents and workers who live or work within a 10-minute walk of 10- to 15-minute service frequency. This will provide freedom to travel without planning around schedules, and it supports car-light lifestyles.

MEASURES OF SUCCESS

- Residents within a half-mile of frequent transit.
- Jobs within a half-mile of frequent transit.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Expanded High-Capacity Infrastructure

The visionary transit network will have more than 30 miles of upgraded BRT and bus priority corridors operating at 10- to 15-minute headways at full buildout. This high-capacity transit option will be the network backbone that makes transit a first-choice mode in Aurora's most highly traveled corridors.

Achieving this network will require close coordination with RTD and other partners, including CDOT. The map of expanded high-capacity infrastructure can be found further on in this chapter.

MEASURES OF SUCCESS

- Miles of bus priority infrastructure (BRT, queue jumps, transit signal priority).
- Percent increase in daily transit ridership.
- Corridors operating at 10- to 15-minute headways.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Recommended Strategies

Taking action to create a connected and reliable transit network.

Aurora's strategy for planning, building and maintaining a transit network will shape what people experience when they choose to ride transit in Aurora.

Delivering a successful transit system doesn't end with new buses or better infrastructure. The way Aurora plans, builds and maintains its streets, and how it guides land use and development, can support or hinder the effectiveness of transit service. Connecting Aurora identifies a range of strategies beyond capital projects and service enhancements to make transit a more viable and appealing choice for more people.

Upgrade and Maintain Bus Stops

Bus stops are the first impression many residents have of the city's transit system. Today, most lack basic amenities, and **fewer than half are ADA accessible.** Many are not routinely maintained or are located in areas without safe street crossings.

ACTIONS

- Formalize stop ownership and maintenance responsibilities.
- Coordinate with RTD to prioritize bus stops for upgrades based on ridership, access needs and safety as a part of a Bus Stop Improvement Program (PR 10 Chapter 6).
- Incorporate bus stop design into Aurora's street standards and capital project templates.
- In coordination with the Multimodal Streets Design Guide and PL 3 in Chapter 6, update guidance so new arterials and collectors are "transit-ready" from day one, including features like well-connected sidewalks.

PARTNERSHIPS

Coordinate with RTD to implement its upcoming Bus Stop Inventory and Amenity Program.

Improve First- and Last-Mile Access

Getting to and from the bus stop or rail station can be just as important as the ride itself. Many Aurora streets, especially in suburban and industrial areas, lack the sidewalks, crossings and lighting that make transit accessible, particularly for older adults, people with disabilities and families with children.

ACTIONS

- Prioritize pedestrian improvements on arterials and collectors near major transit stops and rail stations.
- Introduce protected mid-block crossings where bus stops are a long distance from signalized intersections, where warranted.
- Expand bicycle infrastructure to better connect neighborhoods to key bus routes and rail stations.

PARTNERSHIPS

Coordinate first- and last-mile projects with regional trail and bikeway networks.

Expand Transit-Supportive Land Use and Zoning

Transit works best when it serves places where more people live, work and shop close together. Aurora has already made progress through **TOD zoning districts**, particularly around the R Line and A Line rail stations. But much of the city's future transit success will depend on how it manages development along key corridors. These strategies will ensure that new housing developments, job centers and retail developments are planned and built in ways that support, not compete with, transit.

ACTIONS

- Update zoning to allow compact, mixed-use development near BRT and high-frequency bus corridors (e.g., Havana Street, Colfax Avenue, Peoria Street). Also, reduce or eliminate parking minimums in key transit zones, especially in compliance with state legislation (HB 24-1304 and HB 24-1313). Both of these actions support a Frequent Transit Corridor TOD policy (PL 5 Chapter 6).
- Identify and prioritize station access projects that support development near existing rail lines.
- Require new development to build direct and continuous collector networks to better support transit operations.

Capital Investments

Projects to build the visionary transit network.

The following projects guide the city's transit infrastructure investment and partnership needs from RTD, resulting in faster, more efficient and better connected service options to travel across Aurora.

Transit Investment Corridors

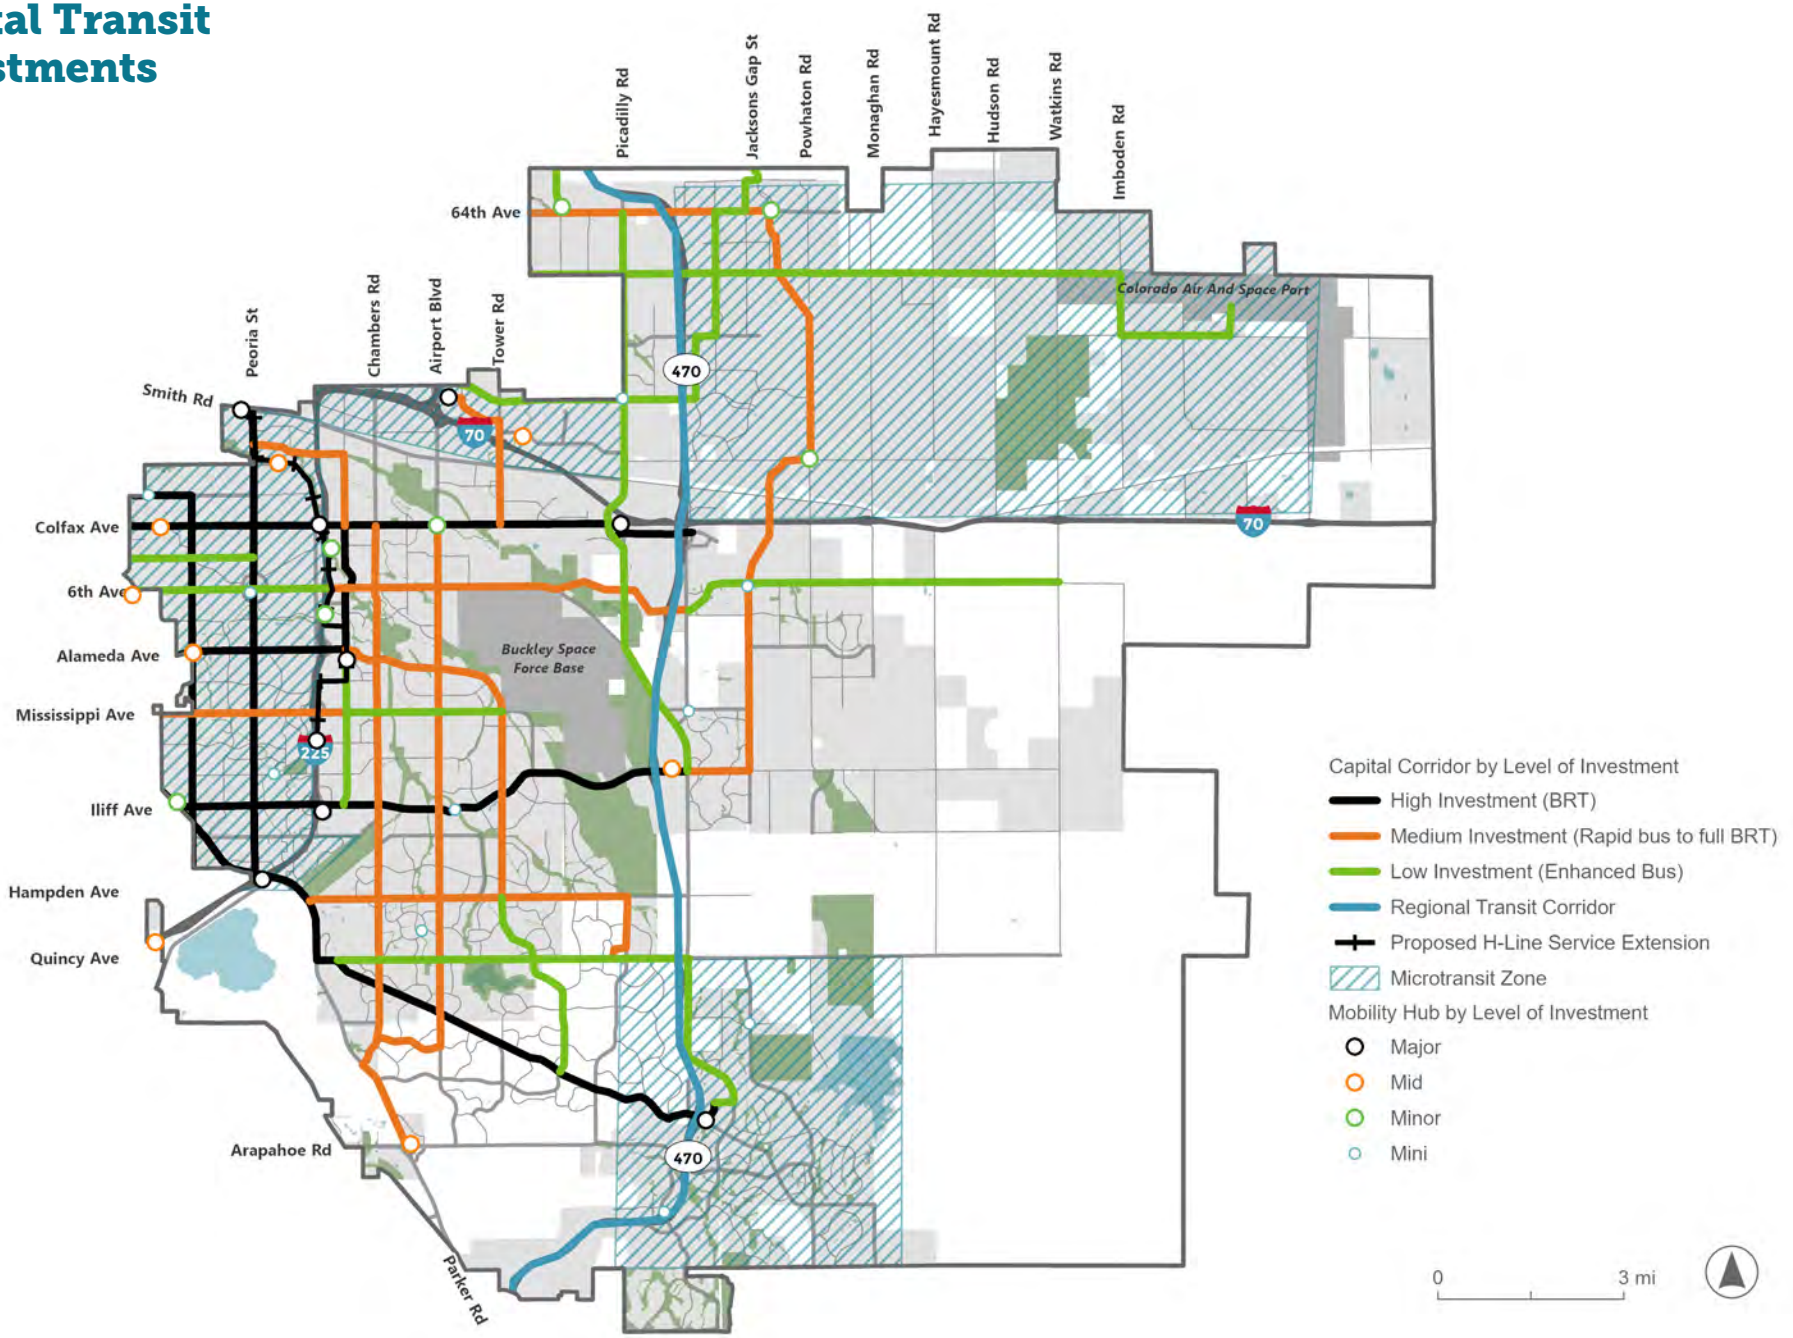
To support high-quality, high-ridership transit, Connecting Aurora has identified a network of Transit Investment Corridors—key corridors where Aurora will concentrate investments in speed, reliability and rider comfort. These corridors were selected through a combination of technical analysis and public feedback, based on:

- Ridership demand and delay hotspots.
- Land use patterns and future growth.
- Regional transit priorities (i.e., DRCOG's BRT corridors).
- Stakeholder input and citywide planning goals.

This corridor network is organized into three investment tiers, each aligned to the corridor's level of demand and implementation potential. An extension of H-Line service to the Peoria Station is also proposed.

Microtransit Zones

Microtransit is flexible, on-demand service that provides access to transit service in areas that are not currently well-suited to fixed route services.



Microtransit zones have been identified in areas of the city where destinations are more spread out.

Mobility Hubs

To provide convenient and safe transitions between modes, the city plans to invest in sites that provide access to and integrate various modes of travel. Mobility hubs are proposed throughout the city, in four levels of investment:

- Major Hubs anchor regional transit systems at key centers with multiple transit lines and high-capacity amenities.
- Mid-Sized Hubs link neighborhoods and major destinations, such as shopping centers and campuses.
- Minor Hubs serve local access near schools, parks and small commercial nodes.
- Mini Hubs act as hyper-local points, trailheads or small connectors for walking and biking.

Capital Transit Investments

High Investment Corridors

Full BRT

High-investment corridors will be the backbone of Aurora's visionary transit network. They currently have the highest ridership potential, the most severe delay and the strongest land use and redevelopment potential. Colfax Avenue and Havana Street alone account for more than 30% of total bus delay in Aurora. Proposed full BRT improvements include:

- Study opportunities for dedicated bus lanes.
- Transit signal priority (TSP).
- Enhanced stations with shelters, lighting, level-boarding and real-time information displays.
- High-frequency, all-day service (every 10 minutes).

EXAMPLE CORRIDORS

- Colfax Avenue from Downtown Denver to I-225.
- Havana Street.
- Iliff Avenue and Alameda Avenue (west of Sable Boulevard).
- Peoria Street and Sable Boulevard.
- H Line extension to Peoria Station.

Colfax BRT Havana Station rendering

Mill Plain BRT (Red Vine) Station in Vancouver

Colfax BRT

Havana Street signal priority improvements

Queue jump signal at Havana Street and Colfax Avenue

Bus lane on Blake Street at 17th Street

Medium Investment Corridors

Rapid Bus

These corridors have significant transit demand but may not justify full BRT infrastructure. These corridors often are regional connectors or emerging growth areas. Rapid bus investments will focus on:

- Transit signal upgrades and queue jumps.
- Intersection and stop improvements.
- Reduced stop spacing.
- Branding enhancements.
- Frequent service (every 15 minutes or better).

EXAMPLE CORRIDORS

- Alameda Avenue.
- Mississippi Avenue (west of Sable).
- 6th Avenue (east of I-225).
- Chambers Road, Tower Road and Airport Boulevard.

Low Investment Corridors

Speed and Reliability Improvements

These corridors support transit coverage and community-oriented service. While ridership may be lower or more dispersed, strategic upgrades can improve transit travel times and reliability. Speed and reliability improvements will include:

- Signal coordination and spot improvements.
- Basic bus stop amenities (benches, lighting).
- Safety and access upgrades.

EXAMPLE CORRIDORS

- Quincy Avenue.
- Mississippi Avenue (east of Sable).
- Sable Boulevard south of Aurora Metro Center.
- Tower Road south of Hampden.

Microtransit Zones

Expanding Coverage in a Growing City

While high-frequency corridors serve as the system's spine, much of Aurora's new growth is happening in places not easily served by traditional fixed-route buses. These include:

- Aurora Highlands and eastern residential developments of varying densities.
- Northeast industrial areas with low residential density and growing employment density.
- Retirement communities like Heather Gardens.

To serve these areas, the city is exploring microtransit zones—flexible, on-demand services that provide access to the fixed-route network. Aurora recently received a grant to pilot such a service west of I-225, while NETC's Aero already provides microtransit in Aurora Highlands.

EXAMPLE ZONE

- Montbello's microtransit pilot operates four vehicles over 6.5 square miles at more than $800,000 per year.

A Framework for Mobility Hubs

Mobility hubs are physical locations where multiple modes of transportation converge and integrate. Mobility hubs represent an important strategy to address Aurora's goals related to mobility, sustainability, equitable access and economic development. Benefits include enhanced access to jobs and destinations, a more integrated multimodal system, increased opportunities for underserved communities and support for economic development. Aurora's Mobility Hub Framework provides a typology of mobility hub scales and considers application across Aurora's diverse land use contexts.

Mobility Hub Types

Mobility hubs can serve multiple purposes at different scales. This tailored approach allows for flexibility to meet the community needs. The four types of mobility hubs (Major, Mid-size, Minor and Mini) are defined below and shown by application on the next page.

- Major Hubs anchor regional transit systems at key centers with multiple transit lines and high-capacity amenities.
- Mid-Sized Hubs link neighborhoods and major destinations, such as shopping centers and campuses.
- Minor Hubs serve local access near schools, parks and small commercial nodes.
- Mini Hubs act as hyper-local points, trailheads or small connectors for walking and biking.

Core Elements

While the scale and application of mobility hubs can vary, they typically include the following core elements, which may be organized into functional zones within the site:

- Transit and trip-making services, including bus, shuttle or rail stops; pick-up/drop-off zones for ridehailing and microtransit; real-time travel information displays; fare payment kiosks; and designated freight loading areas.
- Parking and charging services, which may incorporate short- and long-term bike parking, carshare access, EV charging for cars and micromobility and designated areas for bikeshare and scooter share parking.
- Priority pedestrian and bicycle access through ADA-compliant sidewalks, protected crossings and integrated bike/micromobility access to the surrounding street and trail network.
- Amenities, placemaking, business integration to elevate the public realm, which may include WiFi, seating, shade, phone charging, public art and adjacent retail or community space.

Case Studies and Lessons Learned

Examples from Portland, Minneapolis and Tempe illustrate how mobility hubs succeed through integrated design, community engagement and partnership:

- Portland's South Waterfront Hub connects multiple modes within a people-centered urban space.
- Minneapolis's Ambassador Pilot demonstrates how community staffing can enhance safety and cleanliness.
- Culdesac Tempe showcases how private development can embed car-free mobility into neighborhood design.

South Waterfront Hub in Portland, Oregon, links transit and biking

Visualization of multiple core elements in a mobility hub

Location and Siting

The figure below outlines the method used to identify and site mobility hubs across Aurora. Hub locations are mapped by matching the scale of the hub—Major, Mid-size, Minor or Mini—to the surrounding land use context, transit service and bike network connections. Primary application areas are where the hub type is most applicable, while secondary application areas are potential opportunities that may be applicable depending on the surrounding context or overall need. This allows for flexibility in determining which types of hubs can serve different areas.

Major hubs are best suited for mixed-use areas with high-frequency transit on the primary network while Mid-size hubs often serve commercial districts and commercial areas with a mix of high-frequency transit and local bus service.

Neighborhoods and green spaces are better served by Minor and Mini hubs, which provide local-scale amenities and short-trip connectivity along secondary bike corridors and on-demand transit routes. In green space settings, hubs function primarily as trailheads or transition points between street and trail networks.

The siting method ensures that hubs are located where they will best facilitate transfers between walking, biking and transit, while reflecting the surrounding context and scale of demand.

Governance and Implementation

Implementing mobility hubs requires cross-agency coordination and clear ownership of elements, such as land, transit shelters, bike parking, curb management and digital infrastructure. Roles may be shared among the city, RTD, CDOT, utility companies, private operators and business districts. Governance complexity increases with hub scale, emphasizing the need for:

- Defined maintenance and operations agreements.
- Phased deployment starting with city-led elements.
- Public-private partnerships to manage services and amenities.

Next Steps

Aurora and RTD can advance mobility hub implementation by:

- Piloting projects in diverse land use contexts to test design and operations.
- Aligning policies and codes to enable shared mobility and flexible curb uses.
- Coordinating with transit agencies and utility companies for power, data and service integration.
- Developing metrics to track ridership, mode shift, safety and satisfaction.
- Engaging communities, partners and the development community to co-design, fund and steward hubs in the long term.

Hub Types by Placetype Applicability

	Placetype					Transit Network			Bike Network

People Driving

Making Our Future Driveable

Aurora's development has long prioritized travel by car. Many areas of the city have low-density, single-family neighborhoods and car-oriented shopping centers set back from the street fronted with large parking lots. The historical layout of the streets is dominated by wide arterials spaced every mile that carry high traffic volumes. Sidewalks and bikeways along these streets are often uncomfortable and limited.

As Aurora transitions to a "Place-Oriented City," the city should support multiple ways of moving around on our streets. Recognizing that all streets have different modal priorities, depending on the context, streets must be designed for flexibility and modal balance. They must accommodate private cars while providing safe and welcoming facilities for pedestrians, bicyclists and transit riders.

By integrating land use and transportation, Aurora can become a place where people have real choices in how they travel, reducing dependence on cars while preserving the convenience and connectivity for those who choose drive.

Chapter 10 Highlights

TODAY'S CONTEXT
Aurora's streets form the backbone of transportation in the city.

PLANS, PROGRAMS AND INITIATIVES
Operations and maintenance of the driving network are a key focus of existing city policies and programs.

VISIONARY NETWORK
The visionary driving network will expand in the future, mostly in undeveloped areas.

ACHIEVING OUR GOALS
How the driving network is built and operated matters for achieving the city's vision.

Today's Driving Context

Aurora's Street Network

Aurora's street network performs well for most drivers today.

The city maintains approximately 4,400 lane-miles of streets that serve daily car travel for residents, workers and visitors. These streets fall into three main categories, based on function and design.

ARTERIAL STREETS

Arterials streets carry higher volumes of traffic over longer distances and typically allow for higher speeds. Major arterials often have between four and six travel lanes and connect key areas of the city. Arterials are often spaced about one mile apart.

COLLECTOR STREETS

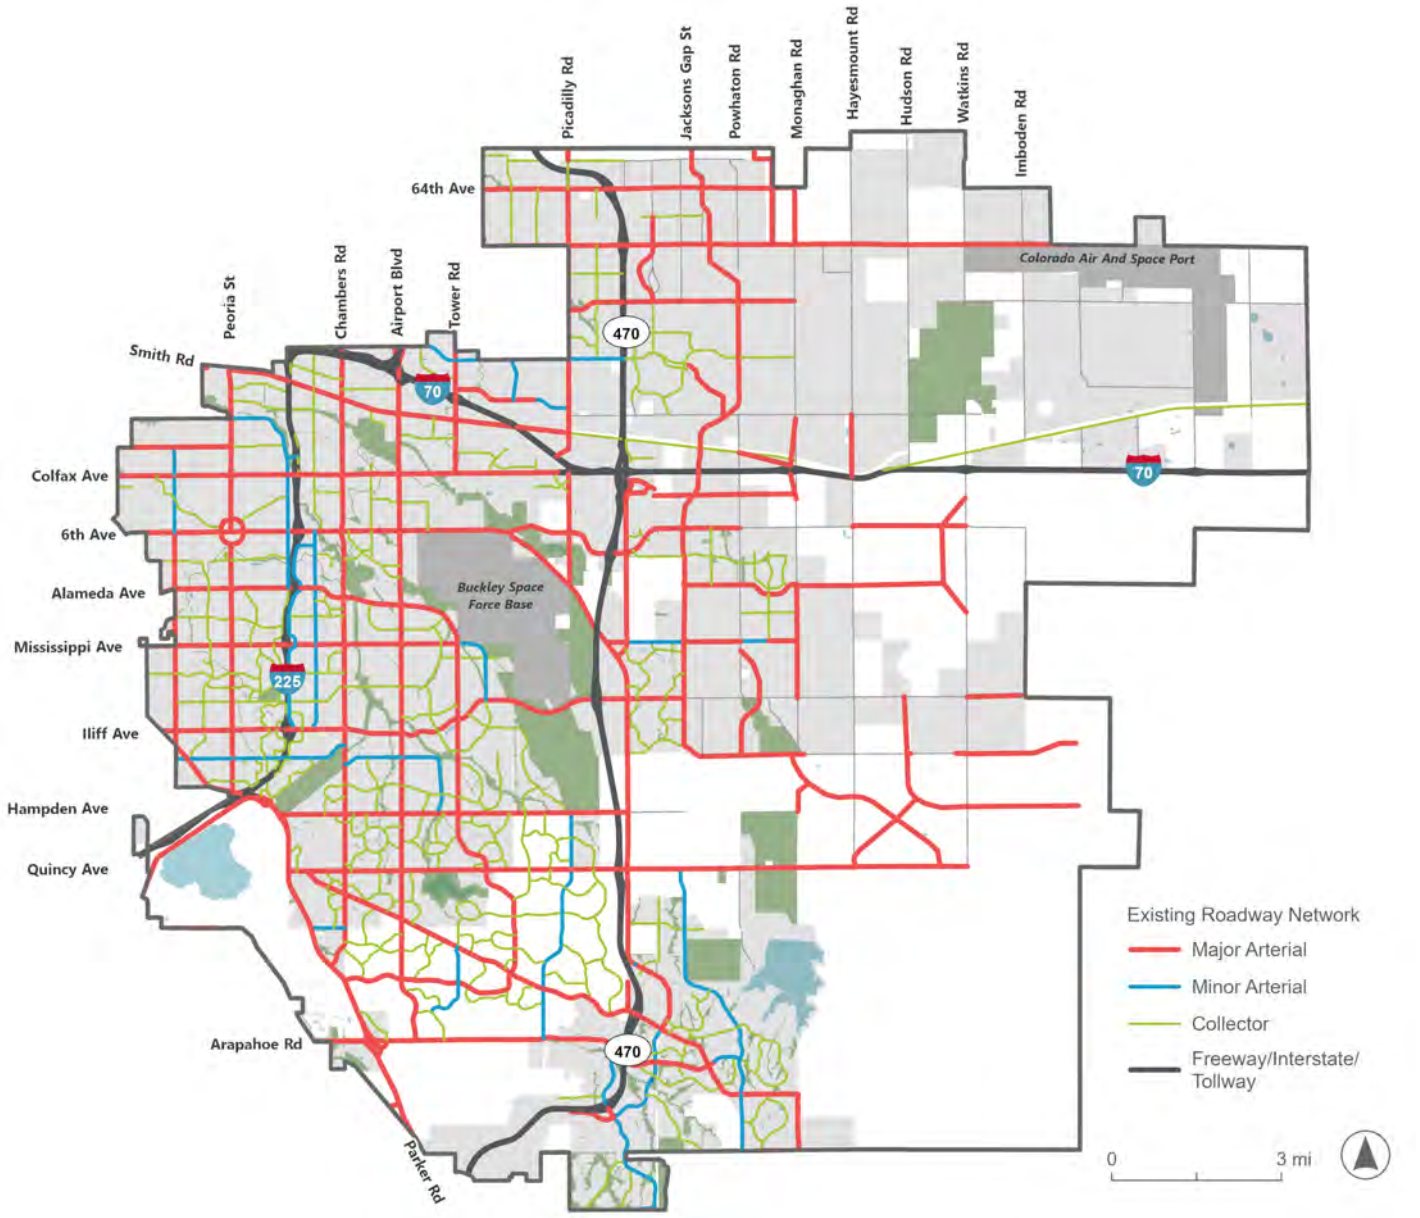
Collector streets connect local streets and neighborhoods to arterials and move fewer cars over shorter distances.

LOCAL STREETS

Local streets provide direct access to homes, schools, parks and businesses. They are designed for shorter, slower-speed trips within neighborhoods.

While Connecting Aurora examines the city's street network as a whole, analyses and recommendations are focused on arterial and collector streets.

Arterial street: Colfax Avenue



Local street: Virginia Place

Collector street: Laredo Street

Aurora's Existing Roadway Network

Key Challenge

A CIRCUITOUS NETWORK

In many parts of Aurora, people driving are forced to travel out of direction on winding streets and cul-de-sacs to get to their destinations. The lack of adequate collector streets, in combination with low connectivity and low network density, often results in too much traffic on both local streets and arterial streets.

These street network design deficiencies result in poor access to some destinations, driver frustration, additional traffic on local streets not designed to carry it and sometimes in unsafe driving behaviors like speeding.

Sometimes, map apps like Google Maps and Waze contribute to circuitous routing and/or neighborhood cut-through traffic by encouraging drivers to use routes that may be less direct to avoid congestion.

Car Traffic

Aurora's streets mostly service current traffic volumes at a reasonable level; however, congestion is increasing.

Congestion occurs when there are more cars than space available on the street. Factors that can contribute to the formation of congestion simultaneously include high travel demand during peak hours, streets that don't have adequate capacity for the demand, car crashes and construction. Congestion also forms at intersections.

A measure called level of service (LOS) indicates how efficiently traffic is moving. LOS refers to the relation between the number of cars that are using a specific roadway or intersection and the traffic-carrying capacity of those streets or intersections.

The LOS is assigned as a letter on a scale from A to F, where A represents free-flow traffic conditions with almost no delay, and LOS F represents gridlock or severe congestion with high levels of delay.

Under the city's current Traffic Impact Study Guidelines, LOS D is the minimum acceptable standard for signalized intersections. Currently, Aurora has 394 signalized intersections. This number continues to grow as the city expands east. Most of the city's intersections currently operate at an acceptable LOS during both AM and PM peak hours. How the city uses LOS for transportation planning and design can be found in the Existing Policies, Programs and Initiatives section of this chapter.

Level of Service and Car Delay

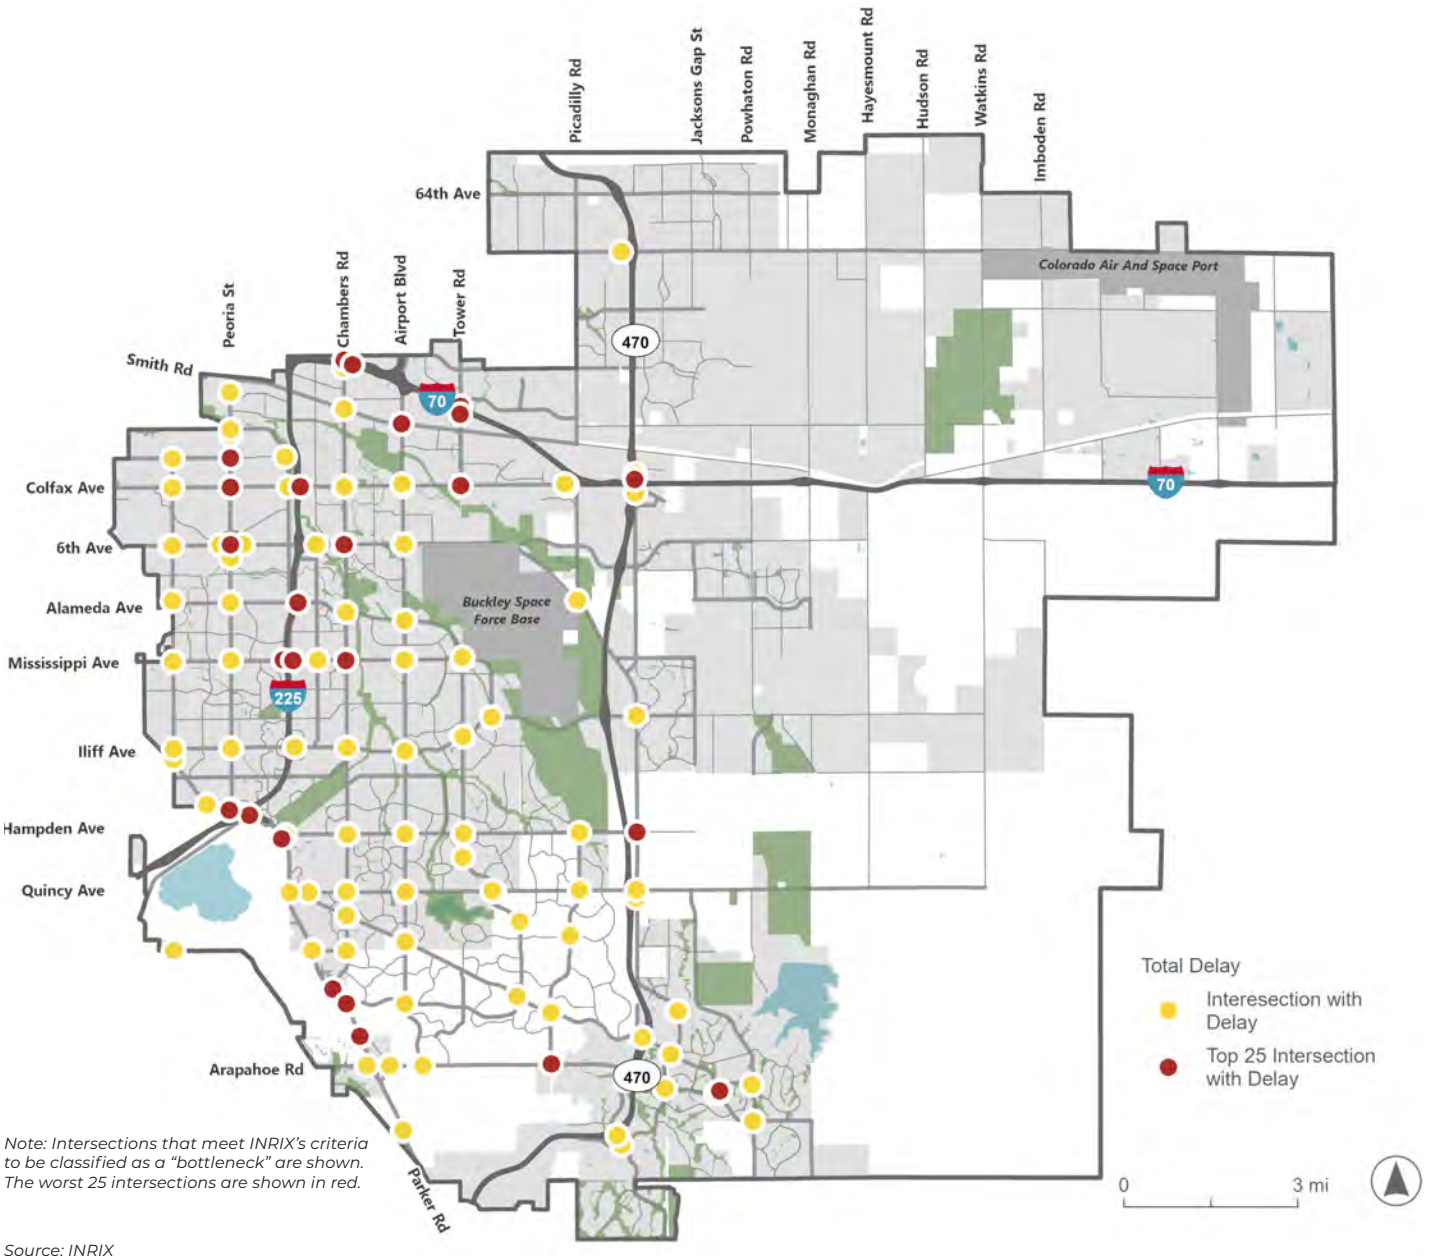
LOS	Signalized Intersection (average delay per car)
LOS A	Less than 10 seconds
LOS B	10 to 20 seconds
LOS C	20 to 35 seconds
LOS D	35 to 55 seconds
LOS E	55 to 80 seconds
LOS F	More than 80 seconds

Source: Highway Capacity Manual

Level of Service E or F Intersections

Intersections that operate with higher levels of delay during weekday peak hours are typically located where major arterials intersect.

LOS	Weekday Morning Peak	Weekday Evening Peak
LOS E	◆ Parker Road and Peoria Street ◆ Alameda Avenue and Chambers Road	◆ Arapahoe Road and Lewiston Way ◆ Parker Road and Iliff Avenue ◆ Iliff Ave and Havana St ◆ Alameda Avenue and Abilene Street ◆ 38th Avenue and Tower Road
LOS F	◆ Fitzsimons Parkway and Peoria Street ◆ Parker Road and Quincy Avenue ◆ 6th Parkway and Gun Club Road ◆ 38th Avenue and Tower Road	◆ Parker Road and Quincy Avenue ◆ Arapahoe Road and Liverpool Street ◆ Arapahoe Road and Wolves Way



Source: See State of the System Report, Appendix F

Signalized Intersections

There are 394 signalized intersections in Aurora.

Most of the city's intersections currently operate at an acceptable LOS during both AM and PM peak hours. But numerous intersections do not.

Currently Congested Intersections

Note: Intersections that meet INRIX's criteria to be classified as a "bottleneck" are shown. The worst 25 intersections are shown in red.

Source: INRIX

Key Challenge

WORSENING CONGESTION

People driving in Aurora experience traffic congestion at key locations during peak hours of travel, generally during morning and evening commute times. Traffic congestion mostly occurs at these locations because there are heavy traffic movements coming from multiple conflicting travel directions.

DRCOG's regional travel demand model that is used to forecast expected travel demand for the Denver metropolitan area, projects that, without major changes to the way the development occurs or how people move around the region, Aurora will experience significantly more traffic congestion in the future.

INTERCHANGES WITH POORLY PERFORMING INTERSECTIONS

Several intersections are under the city's purview. Many of the city's lowest-performing intersections are located at interchanges. Several interchanges are congested during both the morning and evening peak hours. These include:

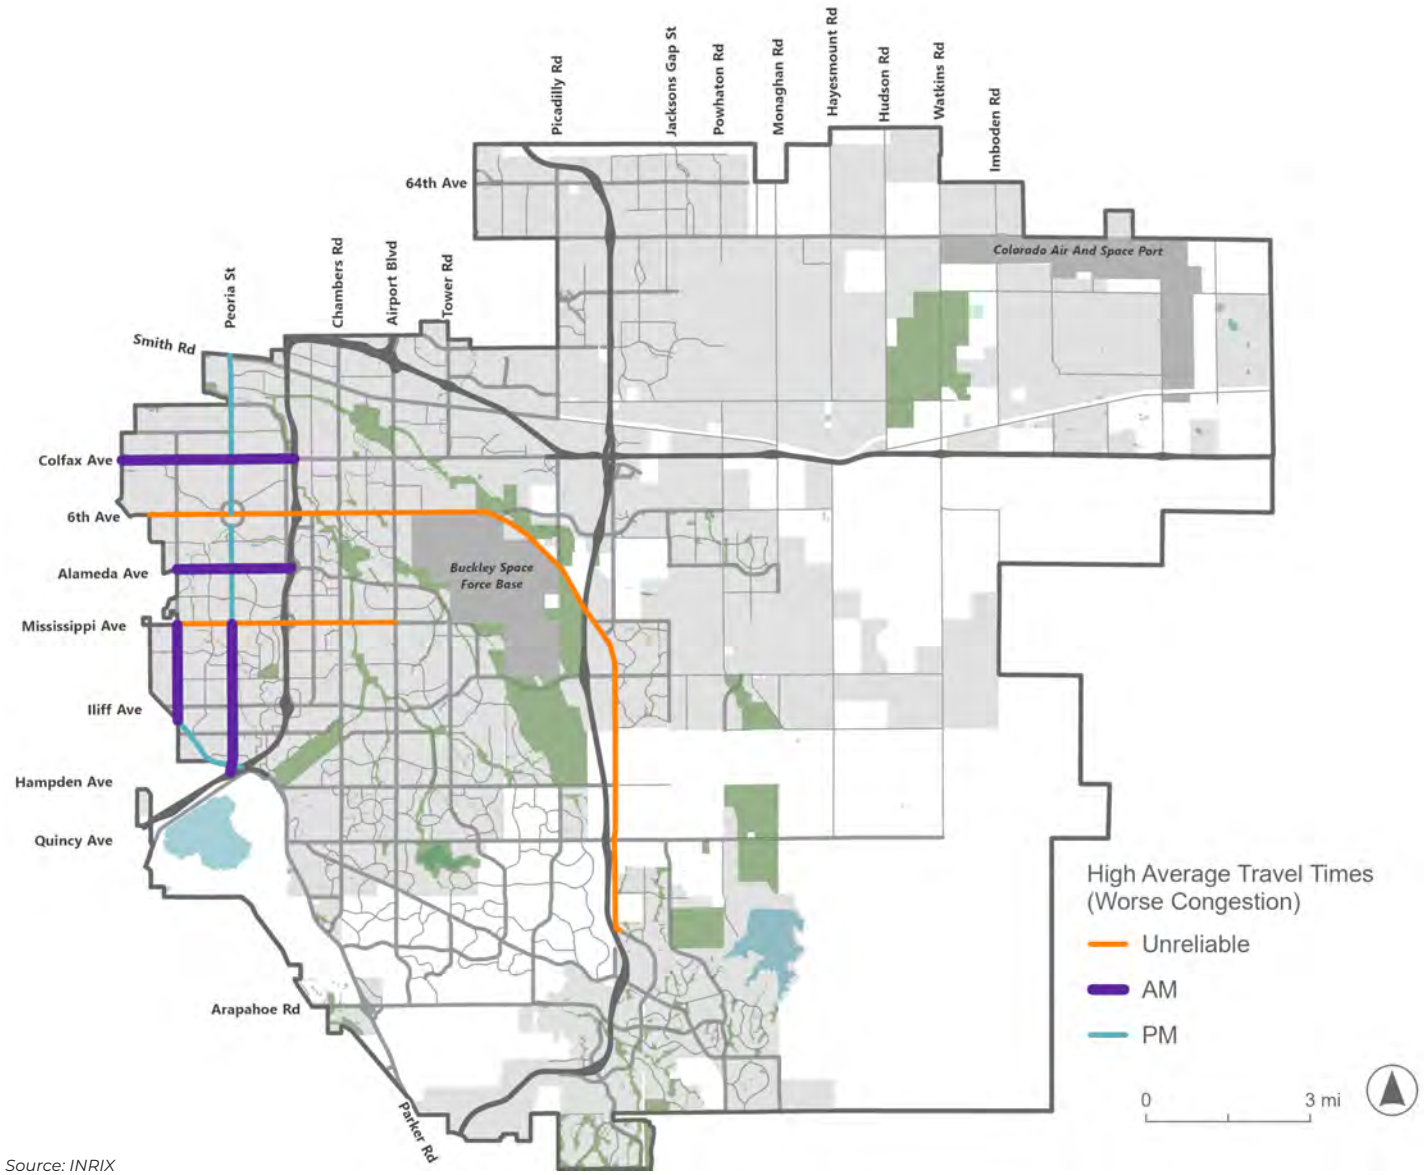
- I-225 and Parker Road
- I-225 and Iliff Avenue
- I-225 and Mississippi Avenue
- I-225 and Alameda Avenue
- I-225 and 6th Avenue
- I-225 and Colfax Avenue
- I-70 and Tower Road

Travel Time

The amount of time Aurorans spend getting from place to place has increased.

Key Challenge

LONG TRAVEL TIMES



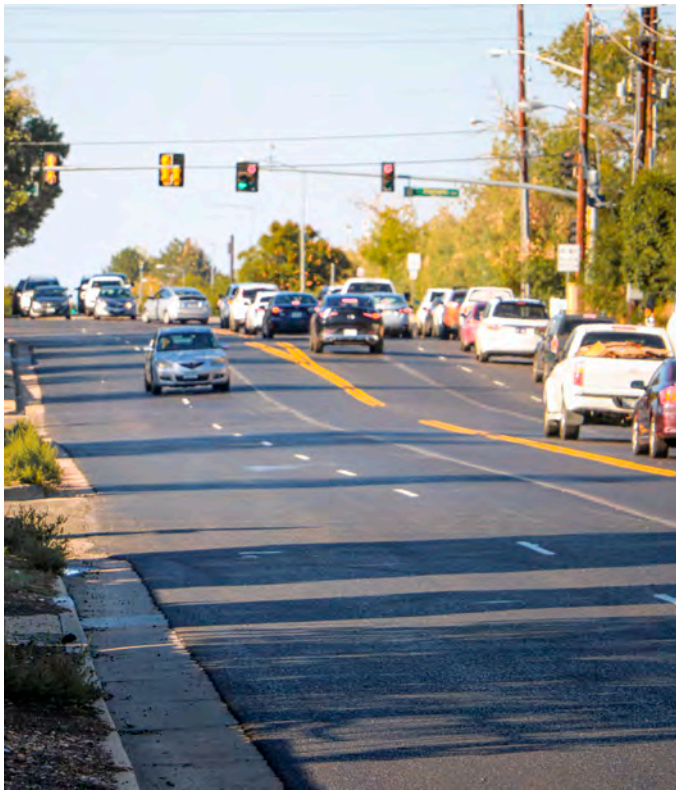
Travel time is the amount of time it takes to travel from one point to another along a corridor. It indicates how efficiently the transportation system is functioning, and it can indicate corridors where drivers experience inconsistent trip times.

Travel time is measured in minutes per mile so it can be compared consistently across corridors of varying lengths. There are three categories of travel time:

- **Free Flow:** Represents travel time on the best day of a typical month (5th percentile).
- **Average:** Represents typical travel conditions (50th percentile).
- **Planning:** Represents the worst-case, or most delayed day travel time, in a month (95th percentile). This is the time people will often account for when they are traveling to a location where they must arrive on time.

Corridors With High Average and/or Unreliable Travel Times

The highest average travel times are generally observed for westbound and southbound travel in the morning and eastbound and northbound travel in the evening. Colfax Avenue and Alameda Avenue are the only two corridors with high average travel time both westbound and eastbound during morning and evening peak hours.



Source: INRIX

Aurora Travel Time Trends - Minutes per Mile

Travel times were the longest in 2018, improving slightly by 2023. The travel times below are the citywide average for major arterials in minutes per mile. They include time spent stopped at traffic signals and in traffic.

Year	Morning Peak (Average Time)	Morning Peak (Worst Time)	Afternoon Peak (Average Time)	Afternoon Peak (Worst Time)
2013	1.5	2.0	1.6	2.0
2018	2.0	3.0	2.2	3.1
2023	2.0	2.6	2.1	2.7

Traffic at Peoria Street and Alameda Avenue

Typical of similar cities, many of Aurora streets have excess capacity throughout much of the day, but experience congestion during peak hours

Between 2013 and 2018, Aurora experienced a sharp increase in congestion levels. Average AM peak travel times increased from 1.5 minutes per mile in 2013 to 2.0 minutes per mile by 2018. Worst-case AM travel times rose from 2.0 to 3.0 minutes per mile over the same period. In 2023, conditions improved slightly, with worst-case travel times decreasing to 2.6 minutes per mile, although they remained above 2013 levels. Similar patterns were observed in the PM peak hour.

Travel times on some corridors are less reliable than on others. The least reliable corridors, or those with the highest planning travel times, are Colfax Avenue, 6th Avenue, Peoria Street, Mississippi Avenue, Parker Road, Gun Club Road and Havana Street. Congestion on these corridors causes travel time delays for cars and buses.

Average AM Peak Travel Times

2013 1.5 minutes per mile

2018 2.0 minutes per mile

2023 2.0 minutes per mile

Travel Demand

Demand on Aurora's streets is increasing as the population grows to an estimated 500,000 by 2050.

Demand on Aurora's streets is steadily increasing as the city's population grows and development patterns evolve. Aurora's population is expected to rise by approximately 160,000 residents between now and 2050, bringing the total population well over 500,000.

A significant share of the growth will occur on the city's eastern edge, where large undeveloped areas are slated for new housing and employment centers. At the same time, infill redevelopment in established neighborhoods and mixed-use centers will add more residents and jobs within the existing urbanized area. These trends will generate more daily trips, not only for commuting but also for shopping, school, recreation and freight movement.

There are limited arterial connections between the developing in Aurora east of E-470. The areas developing west of E-470 are more connected to the existing network.

Population Growth

160K new residents by 2050.

Key Challenge

INCREASING TRAFFIC VOLUMES

Population and employment growth will increase travel demand and put sustained pressure on Aurora's transportation network. Without strategic investment, the existing road infrastructure will face higher congestion, longer travel times and greater wear and tear.

Growth in suburban areas will create new corridors of demand and may require entirely new roadway connections, while infill areas will need multimodal upgrades to accommodate higher traffic volumes, transit service and safe walking and biking options.

Rising demand will also intersect with regional travel patterns, as Aurora serves as a critical connector between Denver, the eastern plains and the growing communities of the Front Range.

Meeting these challenges will require a balanced approach that combines roadway improvements, transit expansion and active transportation investments to maintain mobility and reliability as the city continues to grow.

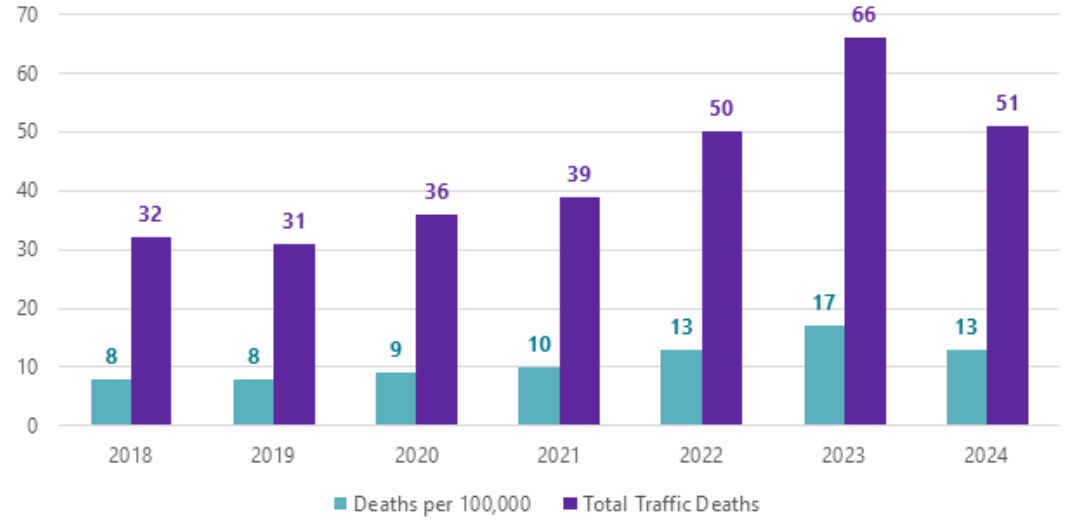
New developments in eastern Aurora require construction of new infrastructure to serve travel demand, like Stephen D. Hogan Parkway

Infill developments like the Gardens on Havana require less new infrastructure to serve new travel demand

Traffic Safety

Aurora streets encourage unsafe driving behaviors that lead to crashes.

Aurora's streets, while designed to move high volumes of vehicles efficiently, often create conditions that encourage unsafe driving behaviors. Wide travel lanes, long uninterrupted segments and complex or oversized intersections can send subtle signals to drivers that higher speeds are acceptable. Straight, expansive arterials, in particular, make speeding feel comfortable; complex intersections and inconsistent signage increase the likelihood of red-light running and failure to yield. These design characteristics, when combined with high traffic volumes, create an environment where serious and fatal crashes are more likely to occur.



Fatal Crashes

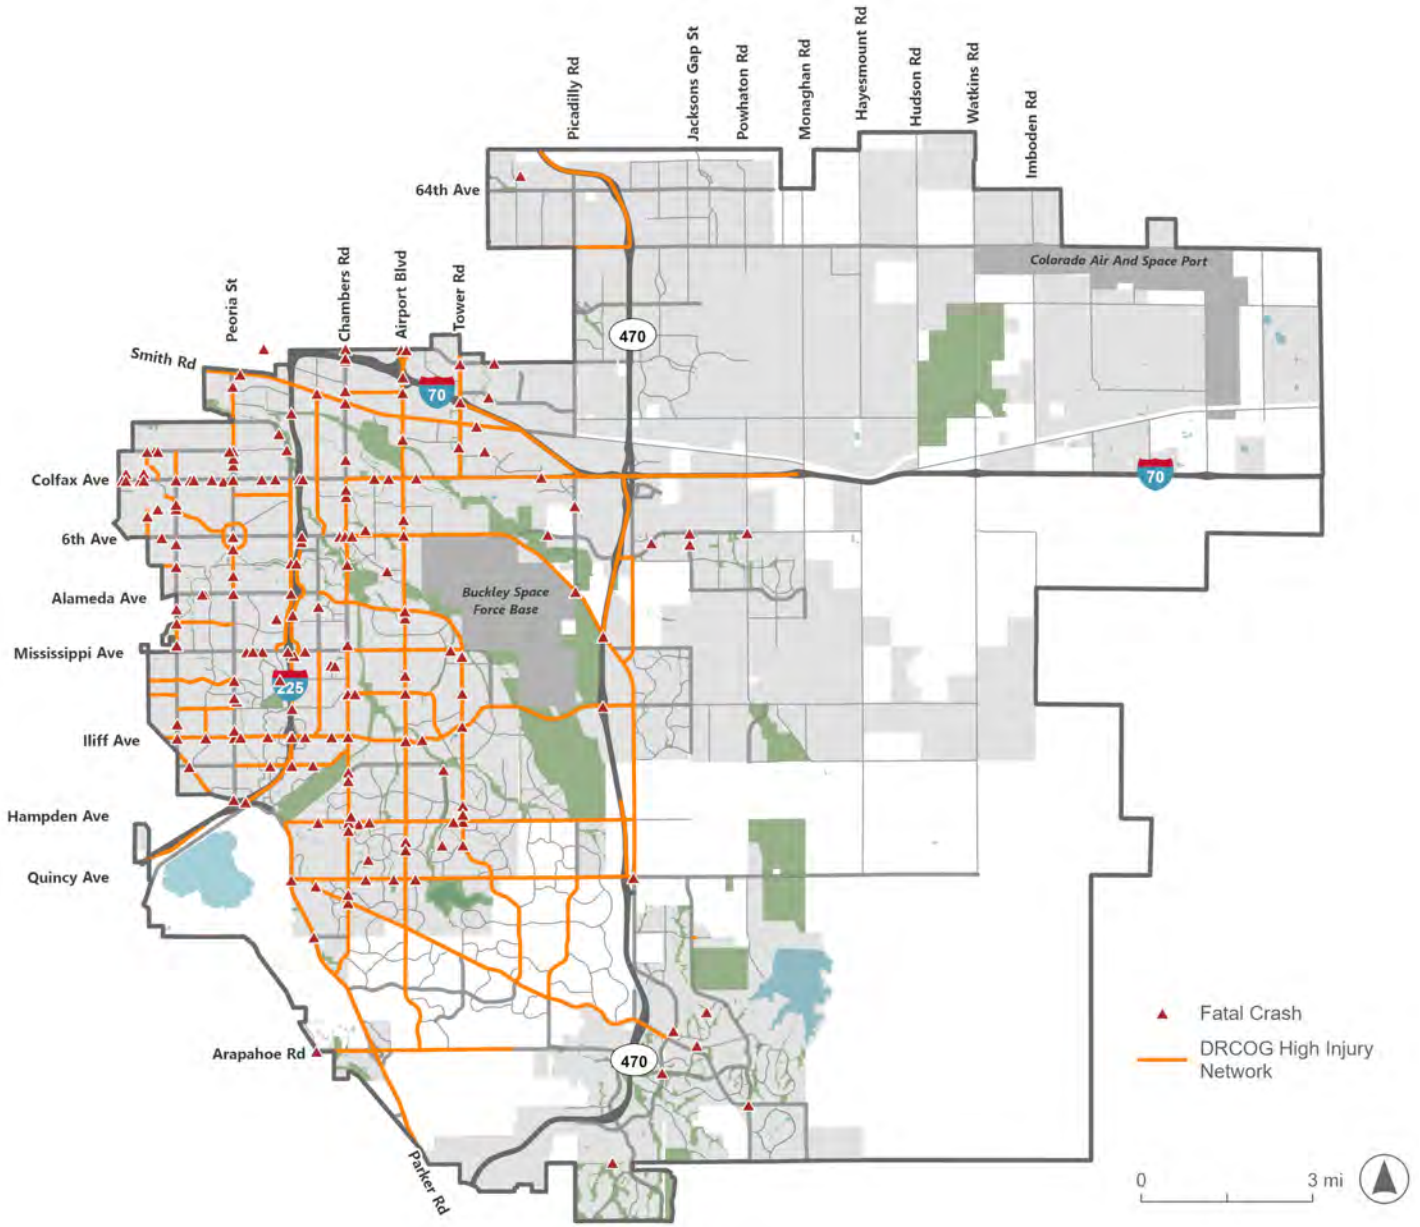
51

people died traveling on Aurora's streets in 2024.

Traffic Safety Trends

Traffic deaths increased steadily between 3018 and 2023. In 2024, the city saw a relatively significant drop in total traffic deaths.

Key Challenge



DESIGNING SAFER STREETS

The design of Aurora's current street system unintentionally fosters conditions that compromise safety for all users. The city's extensive arterial network, built primarily to prioritize vehicle throughput, presents the greatest concern.

Nearly the entire arterial grid is included on Aurora's High-Injury Network, meaning it accounts for a disproportionate share of the regions' severe and fatal crashes. Intersections where two arterials meet are especially problematic, consistently recording the highest crash numbers and representing the greatest risk to pedestrians, cyclists and motorists alike.

Regional analysis reinforces this problem. The Adams County Comprehensive Safety Action Plan identifies more than 160 intersections in and around Aurora as priorities for improvement. Addressing these issues will require coordinated action to slow speeds and create safer conditions for all travelers.

Aurora's High Injury Network

Source: DiExSys Vision Zero Suite, 2018-2022

Three Distinct Driving Geographies

The city's UDO delineates three distinct land use and development patterns that define areas of the city West Aurora (Sub Area A), Central Aurora (Sub Area B) and East Aurora (Sub Area C). Each Sub Area's unique land use and infrastructure influences how people experience driving on the roads in Aurora.

West Aurora (Sub Area A)

Many of the corridors with the highest travel times and worst congestion are in west Aurora. Peoria Street between Smith Road and Mississippi Avenue, Colfax Avenue between Yosemite Street and I-225 and Alameda Avenue between Yosemite and I-225 experience the worst congestion during morning and evening peak hours.

Central Aurora (Sub Area B)

Central Aurora experiences less congestion and lower travel times than West Aurora. The one street with poor travel time reliability is Parker Road between I-225 and Chambers Road.

There are 19 intersections that operate at an LOS of D or worse during the morning peak hour and 24 intersections that operate at an LOS of D or worse during the evening peak hour.

East Aurora (Sub Area C)

East Aurora is characterized by evolving streets. Many areas of East Aurora have been developed with a mixture of industrial and logistics warehousing and single family homes and townhomes/apartments.

These uses have typically meant the city has required developers to invest in wide arterials, which come with large intersections, making driving relatively easy and walking and biking uncomfortable.

Community Conversation

People want to drive on well-maintained roads without travel delays

Of those surveyed, the majority drive or ride most days, and they have an average commute time of 30 to 60 minutes.

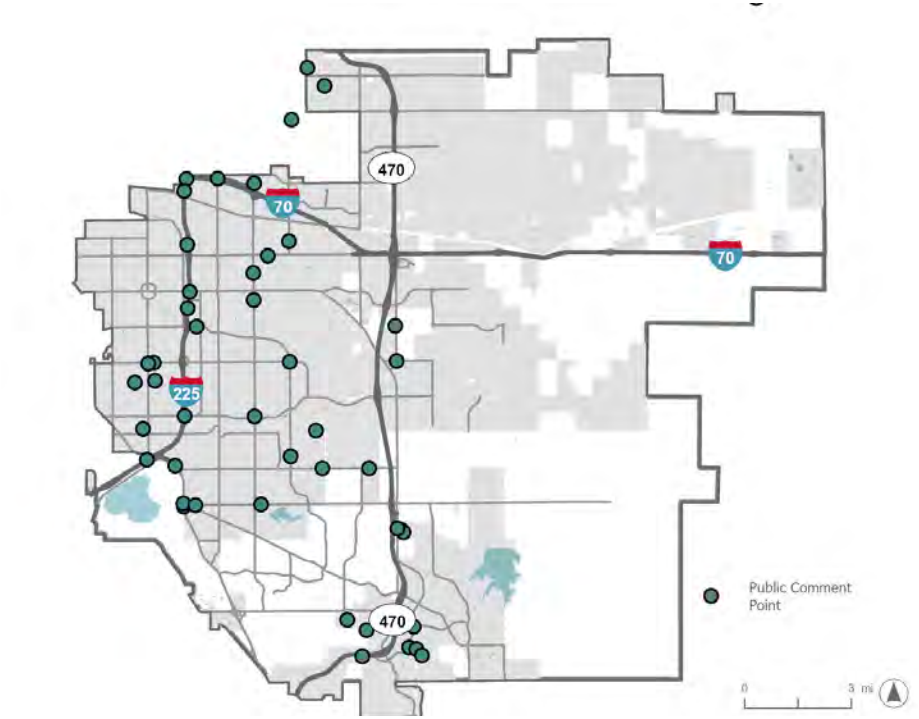
Survey participants shared their experience as a person driving in Aurora. They were asked what prevents or discourages them from driving and what was important to their driving experience.

Notable Locations

Survey participants added pins to a map of the city to note location-specific concerns. They flagged where there were road maintenance needs and traffic flow issues.

Driving Challenges

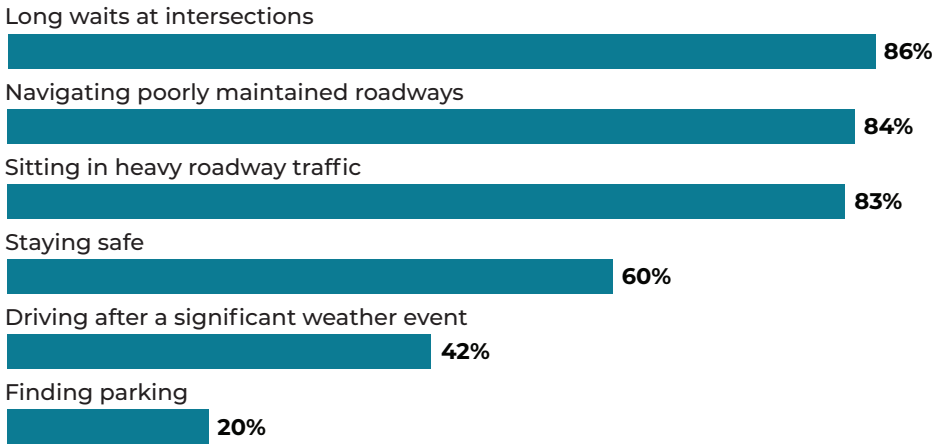
People find driving necessary but frustrating because of heavy traffic and long waits at intersections that lengthen commute times.



Navigating poorly maintained roads was ranked as the third highest driving challenge.

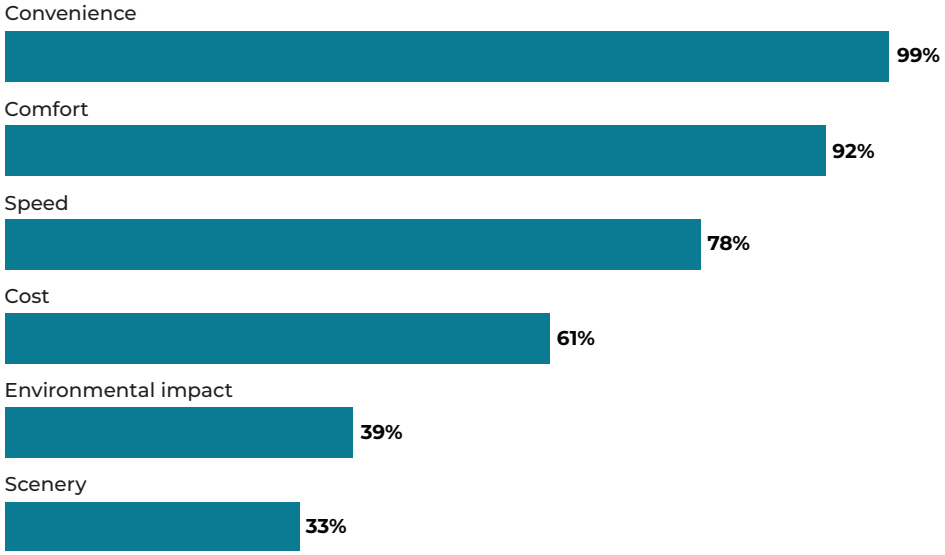
Opportunities to Improve Driving Conditions

Survey participants selected up to six of the most important factors they considered when deciding to travel by car. The most selected factors were convenience, comfort and speed. Nearly 500 participants indicated that cost was an important factor when traveling by car.



Aurorans want their driving experience to be comfortable and without delays.

Locations highlighted as areas of concern during engagement



> “Street networks and infrastructure is lacking east of E-470. Creating significant traffic issues, and limiting travel options for those that don’t want to use or can’t afford to use the tollway.”
>
> **SURVEY PARTICIPANT**

What are the most significant driving challenges in Aurora?*

What are the most important factors when driving?*

* Respondents were able to select more than one answer; totals do not sum to 100%.

Comment Summary

Below highlights the primary challenges and important factors noted by survey participants regarding driving in Aurora.

Primary Challenges

- **Long waits at intersections**
- **Poorly maintained roads**
- **Sitting in heavy traffic**

Important Factors

- **Convenience**
- **Comfort**
- **Speed**

Driving Experience

12% rated their driving experience in Aurora as “Good.”

Existing Plans, Policies, Programs and Initiatives

The city will leverage past planning and partnerships to build the future of driving.

There are numerous existing programs and policies that guide how Aurora plans and designs its streets. They will inform the implementation of transportation projects into the future.

Driving-Related Plans

The foundation for many of Aurora's multimodal policies, programs and initiatives can be found in the recent subarea and corridor studies conducted by the city. Studies like 13th Avenue Multimodal Study and Havana Street Corridor Study contain context-specific planning solutions for improving Aurora's streets.

Driving-Related Policies

INTERSECTION LEVEL OF SERVICE AND STREET CAPACITY

Today, **Aurora aims to provide LOS D or better** at its intersections and on its streets.

Driving-Related Programs

TRAFFIC CALMING PROGRAM

The city's Neighborhood Traffic Calming Program is a resident-requested system that aims to reduce speeding and cut-through traffic on residential streets using a set of traffic calming strategies. The primary focus of the program is to verify eligible projects that are well-supported by the community and that properly address identified safety criteria.

Strategies range from enforcement and educational actions to a more comprehensive, physical infrastructure approach.

Traffic calming tools include automated speed radar signs, curb extensions and neckdowns, speed cushions, mini roundabouts. These are applied based on the local road and land use context, as well as the specific project need.

Traffic Volume Thresholds

The city has standard thresholds for how many vehicles per day can reasonably be accommodated based on roadway classification and number of lanes.

Roadway Classification	Number of Lanes Each Direction	LOS C Vehicles Per Day	LOS D Vehicles Per Day	LOS E Vehicles Per Day
Collector	1	>9,500 to 10,500	> 10,500 to 12,000	> 12,000 to 13,500
Arterial	2	> 22,500 to 36,000	> 25,500 to 40,000	> 28,500 to 45,000
Arterial	3	> 36,000 to 53,000	> 40,000 to 60,000	> 45,000 to 67,000

Source: Northeast Aurora Transportation Study

Traffic Calming Success

70 traffic calming features have been installed as of August 2024.

BEFORE INSTALLATION

9.9 MPH
average speed over the posted speed limit.

AFTER INSTALLATION

3.5 MPH
average speed over the posted speed limit.

Build Up Aurora has been effective at rehabilitating the city's pavement.

The Pavement Condition Index (PCI) is used by cities to assess the general condition of roadway surfaces by rating it on a scale from 0 to 100 ("Failed" to "Good"). Since 2022, the Build Up Aurora Infrastructure Task Force has brought the average PCI in the city up from "Fair" to "Good."

PCI Score	Rating
85-100	Excellent
70-84	Good
60-69	Fair
< 60	Poor

Source: American Society for Testing Materials

2022 Average PCI

69

Aurora had an average PCI rating of "Fair."

2025 Average PCI

79

Aurora had an average PCI rating of "Good."

Driving-Related Initiatives

DEVELOPER-FUNDED INFRASTRUCTURE AND DEVELOPMENT IMPACT FEES

Most new street infrastructure in Aurora is funded and constructed by developers as development occurs.

For regional infrastructure, developers fund these investments through the creation of a metro districts or transportation authorities. Metro districts are quasi-governmental entities that levy taxes on new real estate developments to pay back the original capital expense of constructing the new infrastructure over time.

Aurora has more than 50 metro districts, each with its own financing structure and maintenance responsibilities. Typically, metro districts are required to turn over completed infrastructure to the city for ownership and maintenance once all warranty periods have lapsed and once the city has provided a final acceptance.

BUILD UP AURORA AND THE INFRASTRUCTURE TASK FORCE

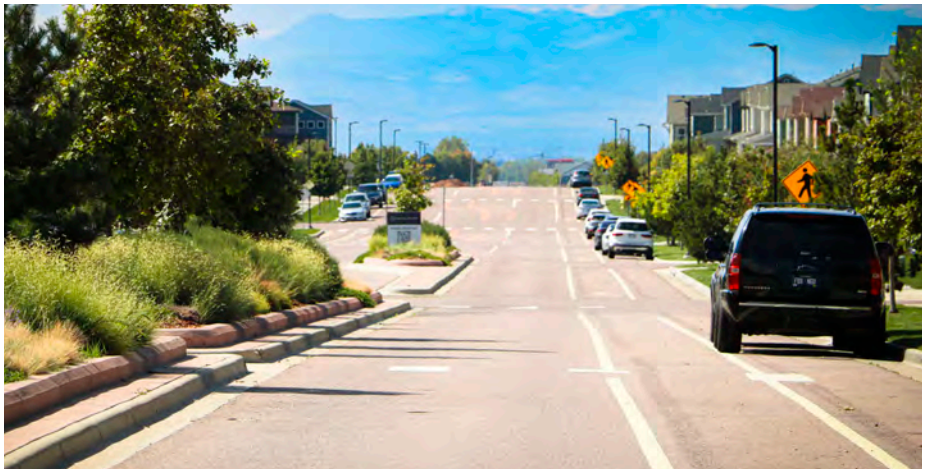
The Build Up Aurora Infrastructure Task Force was formed in 2025 to evaluate the city's infrastructure needs and develop a fiscally sustainable funding plan to address priority needs. The task force is developing a plan for allocating resources to support infrastructure needs, including creating a criteria for prioritizing those needs, engaging with the community to understand their needs and reviewing funding options for infrastructure.

As of 2025, the city has identified roughly $600 million in unmet high-priority transportation capital projects. These projects are needed to properly maintain the city's existing infrastructure and address near-term needs.

Visionary Driving Network

Creating a more connected street grid to safely and efficiently move people.

The visionary driving network will have streets that facilitate the movement of cars comfortably alongside people walking, biking and riding transit.



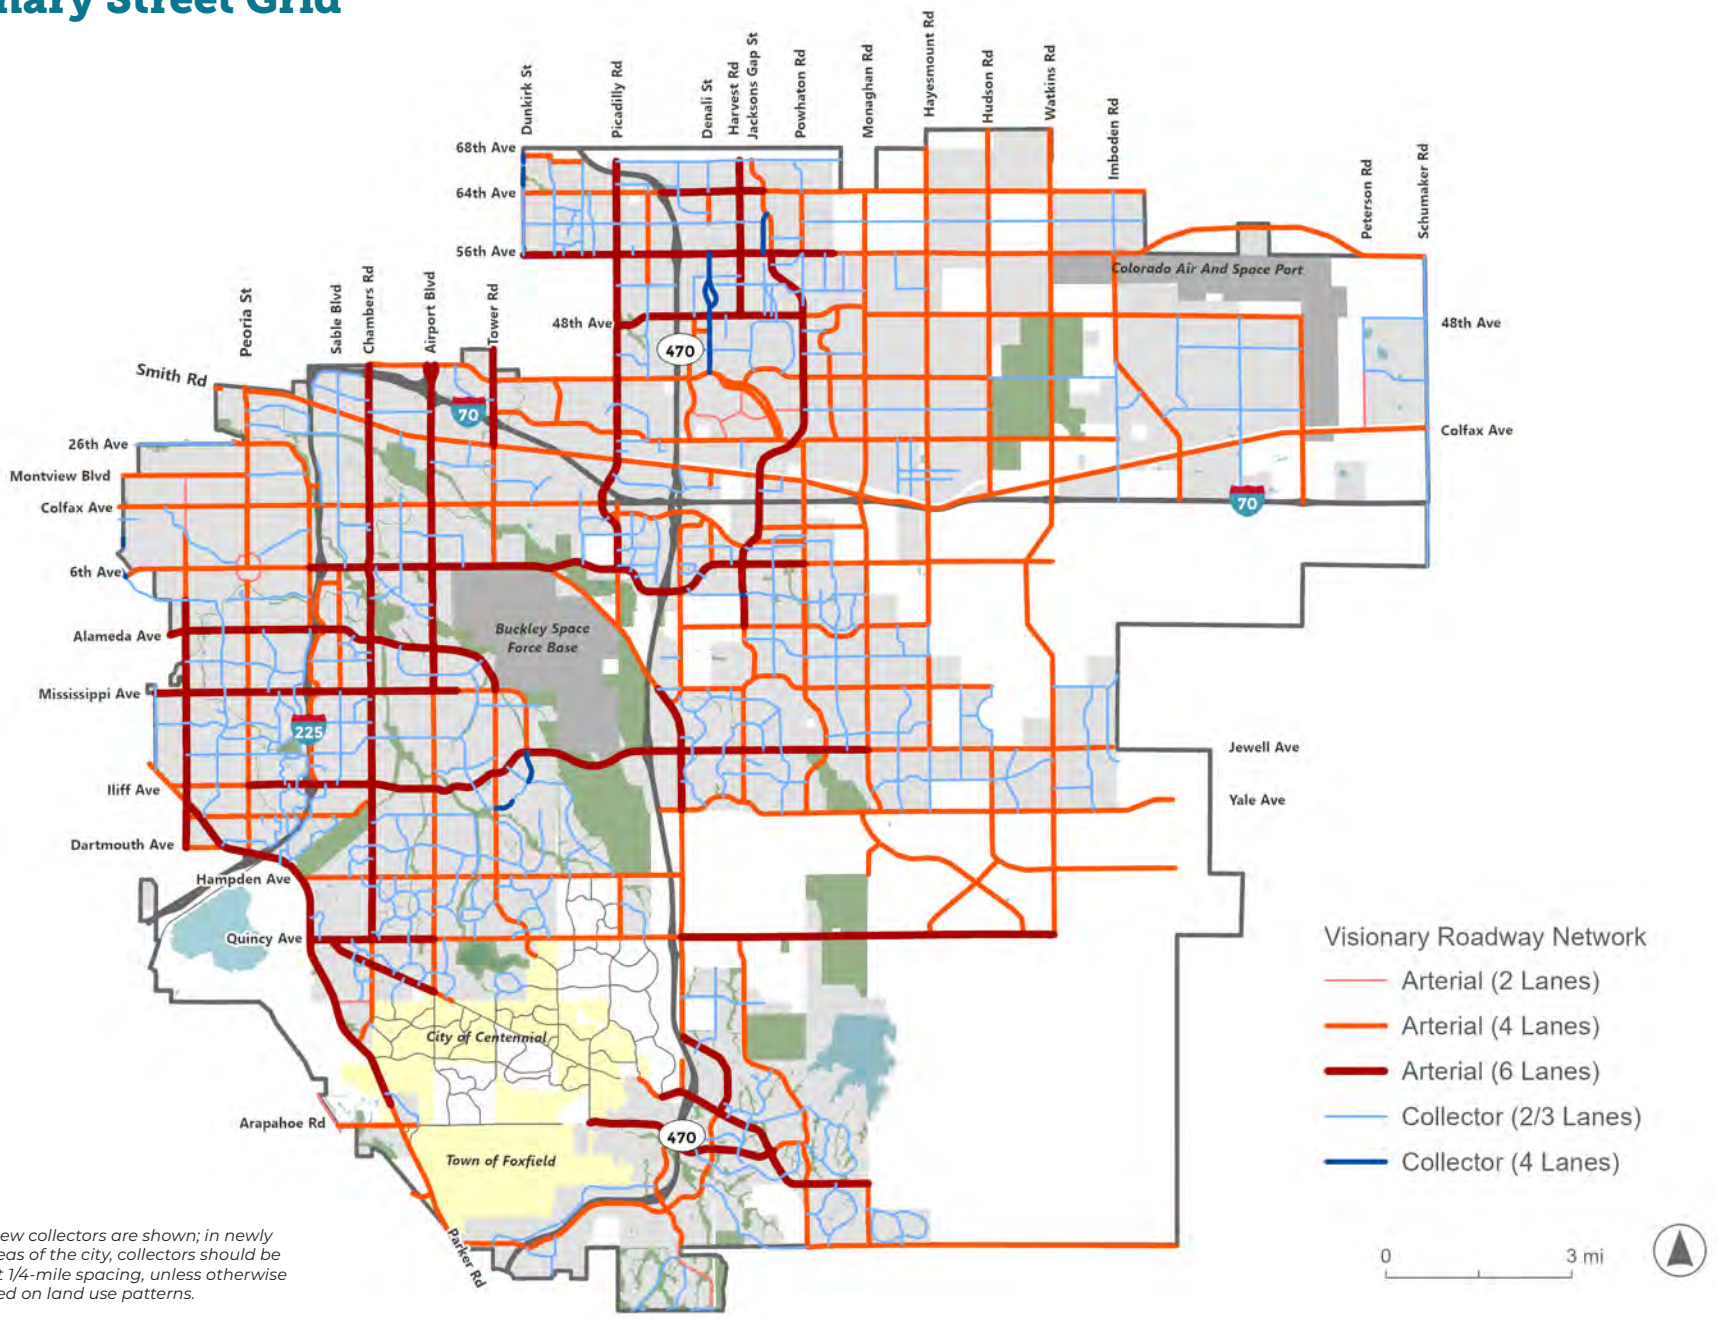
Maintaining acceptable travel times for drivers is important; however, speed and efficiency must be balanced with design features that make streets safer.

Connecting Aurora identifies a new vision for the city's street network hierarchy, with a focus on arterial and collector streets.

Arterials

Arterials in the visionary network will be spaced approximately 1.0 mile apart throughout Aurora. In the established areas of the city, most of these arterials will remain as six-lane streets to serve as high-capacity car corridors; however, in less developed areas, particularly to the east, there are opportunities to reimagine general-purpose travel lanes and enhance them with multimodal infrastructure.

In the city's growing eastern areas, future arterials should be designed as Complete Streets. They will have four travel lanes, where appropriate, along with dedicated space for transit, bikeways and wide, buffered sidewalks that reflect a shift toward more balanced, multimodal street design.



Collectors

Collectors in the visionary network will ideally be spaced 0.25 to as much as 0.50 mile apart. These streets will support local trips and connect neighborhoods to arterials. As the city grows, collectors will play an increasingly important role in car trips, while supporting multimodal connectivity.

Locals

Local streets in the visionary network will be spaced approximately 0.0625 (1/16th) to 0.125 (1/8th) miles apart. These streets serve primarily as access streets. The use of cul-de-sacs and curvilinear streets should be discouraged, but not prohibited.

Visionary Street Grid

Note: Not all new collectors are shown; in newly developing areas of the city, collectors should be constructed at 1/4-mile spacing, unless otherwise approved based on land use patterns.

Achieving Our Goals

What a better driving network means for Aurorans.

Measures of success will track how well the visionary driving network is delivering on Connecting Aurora goals for how people drive in Aurora.

Balanced Streets

The visionary network will have a more sustainable and resilient street system with a balance between arterials and collectors. This will reduce over-reliance on major corridors, distribute traffic more evenly across the system and create opportunities for a wider variety of street types. Streets will reflect and support the character and function of adjacent land uses, whether they are residential neighborhoods, employment centers or commercial districts.

MEASURES OF SUCCESS

- Percentage reduction in travel times.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Safer Streets

The visionary network and safety improvement projects identified in this plan and the Adams County Safety Action Plan will improve safety for drivers. Speed management, traffic calming and intersection redesign will reduce the number and severity of crashes, particularly those resulting in serious injuries or fatalities. Safe street design elements will protect people driving and benefit pedestrians, bicyclists and other road users.

MEASURES OF SUCCESS

- A reduction in annual number of fatal and serious injury crashes.
- A reduction in the crash rate per 100 million VMT.
- A reduction in mode-specific crash rates (pedestrian, bicycle, transit, car).

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Connected Streets

The visionary network will increase local and citywide connectivity by providing an alternative to the wide, high-capacity arterials on a more complete grid of evenly distributed two-lane or three-lane collectors (one-lane in each direction). This network will provide direct and convenient access to destinations, thereby relieving pressure on the city's arterials, which are better suited for longer-distance trips.

When shorter trips are made on the network of collector streets, arterial streets will function more efficiently with fewer delays at intersections, even with slower and safer target speeds. This will improve overall system performance and reduce congestion on major corridors. As the city makes investments in walking, biking and transit, more trips will shift from cars altogether to other modes, benefiting all users of the transportation system, including drivers.

MEASURES OF SUCCESS

- Increase in network density (lane miles of collector per square mile).
- Reduction in average arterial intersection delay (seconds of delay per vehicle).
- Percent of trips shifting to walking, biking or transit (mode share).

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Streets for Everyday Mobility

The visionary network will have well-designed streets that align with surrounding land uses and that are sized to integrate with the community. These streets will improve access and mobility to daily activity destinations like job centers, schools, shopping and recreation, supporting development of vibrant, people-focused places.

MEASURES OF SUCCESS

- Percent of households within 0.25-mile of sidewalks, bikeways or transit stops.
- Accessibility score: average number of jobs, schools and services reachable within 15 minutes by walking, bicycling and riding transit.

RELATED GOALS

Safe, Connected, Reliable, Convenient, Sustainable, Economically Strong, Healthy, Authentic, Equitable, Integrated

Recommended Strategies

Taking action to improve and maintain Aurora's street network.

Aurora's strategy for planning, building and maintaining streets will shape what people experience when they choose to drive in Aurora.

Update Outdated Design Practices, Guidelines and Metrics

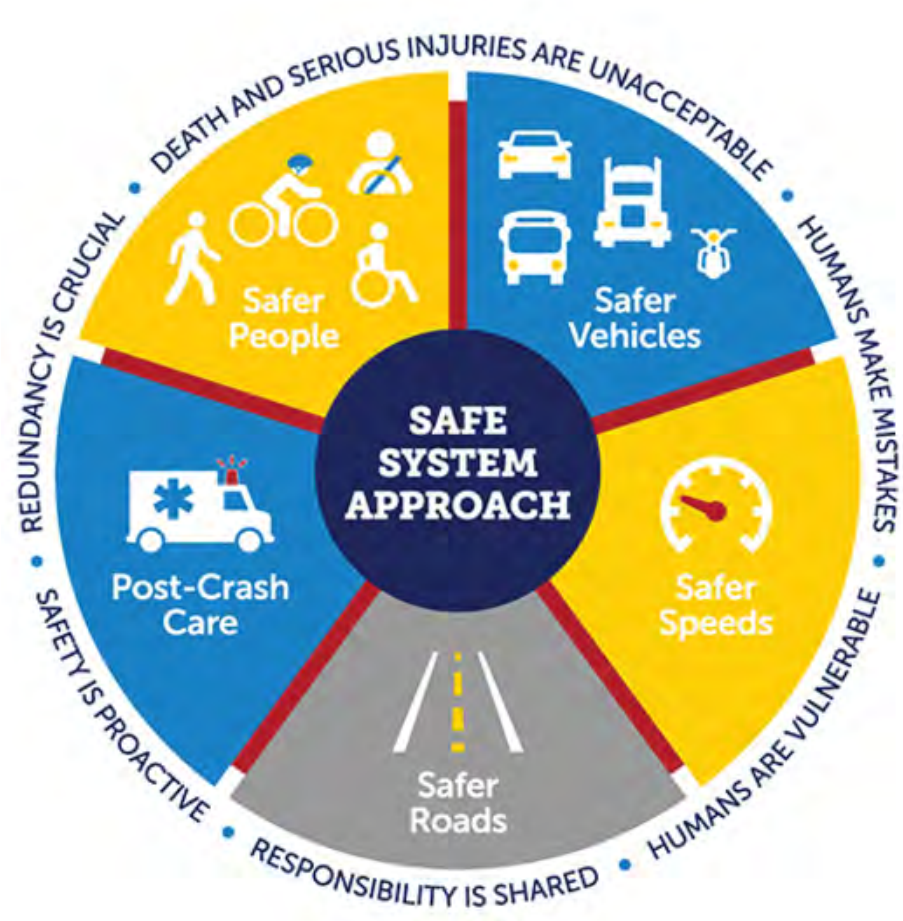
Some streets in Aurora that were designed prior to the development of current design standards no longer meet current and future needs. Streets must be constructed to move traffic through the city, while accommodating travel for people walking and biking. By updating outdated design practices, guidelines and metrics the city can ensure that streets are balanced to serve multiple modes without compromising accessibility or safety.

ACTIONS

Complete Streets Framework

Implementing the Complete Streets Framework and a coordinated Complete Streets Design Guide, as discussed in Chapter 6, will provide clear guidance for the design of Aurora's streets. The framework supports Aurora's commitment to designing transportation networks that prioritize safe, convenient and comfortable travel for all users—regardless of age, ability or mode of travel. The framework and guidelines should cover all phases of project delivery (planning, design, construction and maintenance) and incorporate equity and access in transportation decision-making. The framework also directs transportation investments to align with either current or targeted mode shares. Implementing the framework often requires updated mode share data and performance metrics.

Multimodal Design Approach



This approach incorporates all users into traffic and roadway considerations and analysis by using more comprehensive and multimodal performance measures in addition to traditional LOS methodology (PL 2 Chapter 6). These metrics will better reflect community goals for equity, sustainability and livability. This effort will also enable smarter, comprehensive project evaluation. It will also support traffic signal operations and phasing to improve safety for all users by reducing conflicts between modes, particularly at intersections, with features like protected left turns, leading pedestrian interval (LPI), longer pedestrian crossing times, no right turns on red, bike phases or signal prioritization for transit. The policy will also support data-driven updates and regular evaluations of signal performance.

Updated Development Requirements for Multimodal Travel

Updated requirements for development in the UDO and other relevant documents (PL 3 Chapter 6) ensure that new and redeveloped properties are designed to support multimodal transportation. The context-sensitive design principles can better support the city's desire to facilitate complete neighborhoods. Updates may include revised requirements for street connectivity, neighborhood connections or cut-throughs for bike and pedestrian access between cul-de-sacs. Parking requirements may be updated to provide bike parking and right-size car parking (time-restricted and paid parking and/or fee-in-lieu). Pedestrian-focused projects include sidewalk, trail and bikeway improvements, employing access management strategies, and the creation of a Pedestrian Circulation Plan requirement. Implementation may involve development review processes and coordination between Planning, Public Works and Development Offices.

Adams County Safety Action Plan

The Adams County Safety Action Plan is laying the groundwork for Aurora to implement a Safe Streets for All (SS4A) approach to traffic safety throughout the city. This approach holds that death and serious injuries from transportation are unacceptable. The city is committing to improving safety through strategies outlined in the Safety Action Plan and Connecting Aurora.

Source: FHWA

Capital Investments

Capital investments will address current and future needs in the street network.

To guide the city's investment in improved infrastructure for people driving, the projects outlined here can reduce congestion, update aging infrastructure and improve safety and traffic flow. The map to the right shows where these projects are recommended.

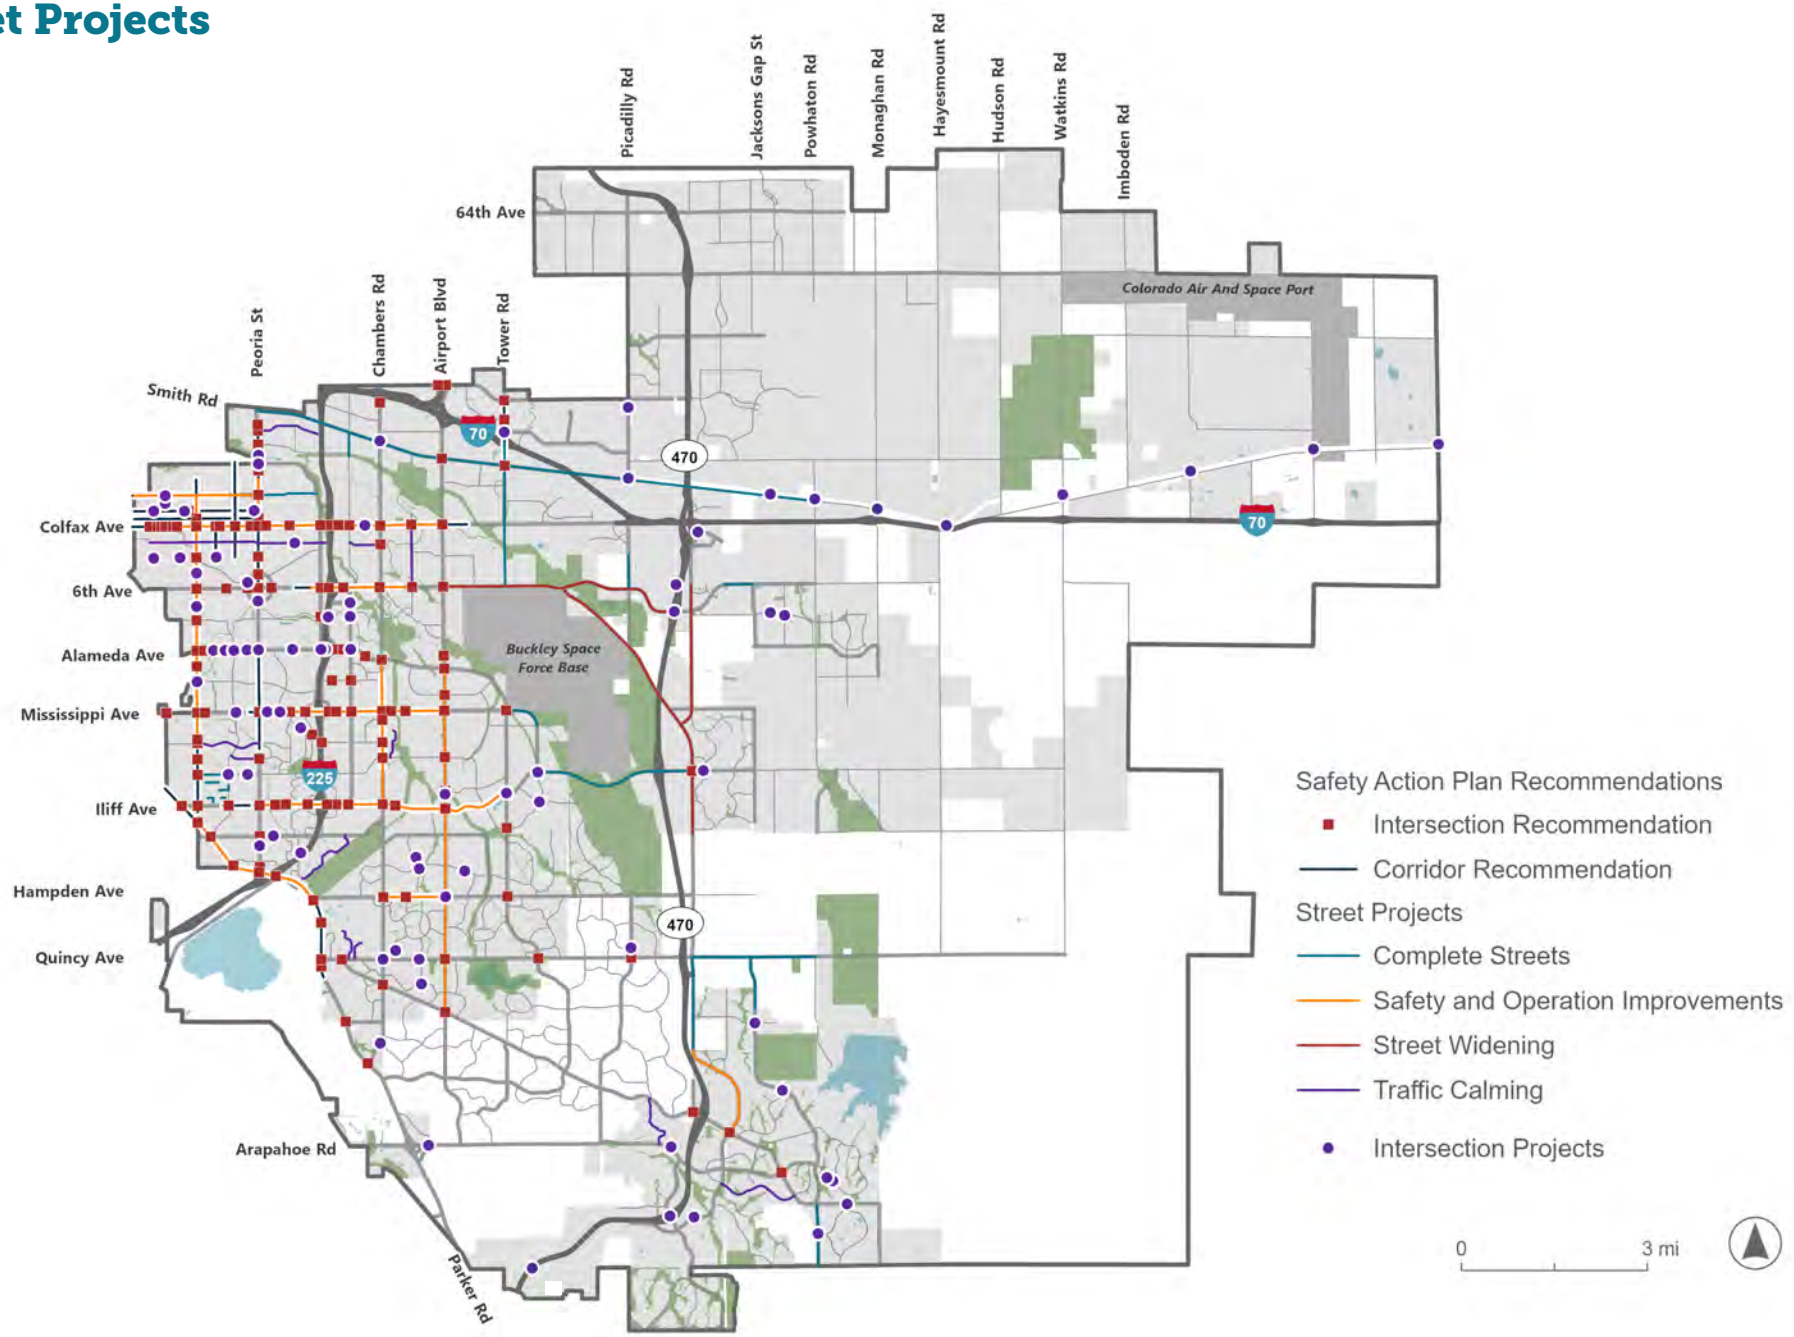
Corridor Projects

Corridor projects fall into two categories:

- **Capacity Improvements:** These are projects that address traffic congestion and improve multimodal connectivity and safety. Improvements will include adding travel lanes at select locations, extending roadways and enhancing intersections. Most of the project corridors will be concentrated in growing parts of the city, and will provide key connectivity to destinations in the rest of the Aurora.
- **Multimodal Improvements:** These are projects that address infrastructure needs for people driving, walking, biking and riding transit. Improvements may include reallocating existing right-of-way for people walking, bicycling or riding transit. Most of the project corridors will be concentrated in the city's developed areas, Some of them have been elevated to Opportunity Corridors, which are large-scale Complete Streets projects that accommodate multiple modes.

Stephen D. Hogan Parkway

Existing Peoria bridge over Sand Creek Bridge



Intersection and Bridge Projects

Intersection and bridge projects fall into three categories:

- **Capacity Enhancements:** These are projects that increase the capacity of the intersection or bridge so they can accommodate higher car volumes. Improvements may include new turn or through lanes, access management, bridge widening and upgrading stop-controlled intersections.
- **Operational Efficiency:** These are projects that improve traffic flow by improving existing infrastructure. Improvements may include installing or retiming traffic signals, access management and ITS upgrades.
- **Safety Improvements:** These are projects that reduce crash frequency or severity for road users. Improvements may include new signals at high crash locations, access management, reevaluation of existing striping, installation of roundabouts and redesigned skewed intersections. Additional safety projects are being developed as part of the Adams County Comprehensive Safety Action Plan.

In addition to the Connecting Aurora projects, there are many developer-led projects planned or underway that are not included in the Connecting Aurora project list. Many of these projects are located in eastern Aurora. While these projects will expand Aurora's roadway network, the city is not responsible for funding or completing them. However, the city will continue to work with developers so that new roadways align with the design guidance and goals of Connecting Aurora.

Street Projects

Moving Goods

Making Freight Movement Easy

Aurora has a concentration of industrial, manufacturing and warehousing facilities, especially along and north of the I-70 corridor. These areas serve as a gateway to major eastern U.S. markets. With strategic proximity to Denver International Airport, the Colorado Air and Space Port, Union Pacific Railroad and Buckley Space Force Base, Aurora is well-positioned to continue expanding its industrial sector.

Aurora's transportation system must be designed to safely and efficiently move goods from manufacturer to a distribution center and, ultimately, to the consumer. Not all roads are designed for or intended to support heavy freight activity.

To better align street design with freight needs, Connecting Aurora places streets into three categories:

- **Prioritize:** corridors that should be designed to support high levels of freight movement;
- **Emphasize:** corridors where freight movement is important but must be balanced with other functions
- **Accommodate:** corridors where freight access is needed, but is not the primary design driver.

This context-sensitive approach ensures that freight movement is supported where appropriate while preserving the character and function of surrounding neighborhoods and streets.

Chapter 11 Highlights

TODAY'S CONTEXT

Aurora has a robust freight network that serves its industrial areas to the east.

PLANS, PROGRAMS AND INITIATIVES

Aurora continues to expand its industrial uses, making a safe and efficient network critical.

VISIONARY NETWORK

Aurora's future freight network better supports the efficient and safe movement of goods.

ACHIEVING OUR GOALS

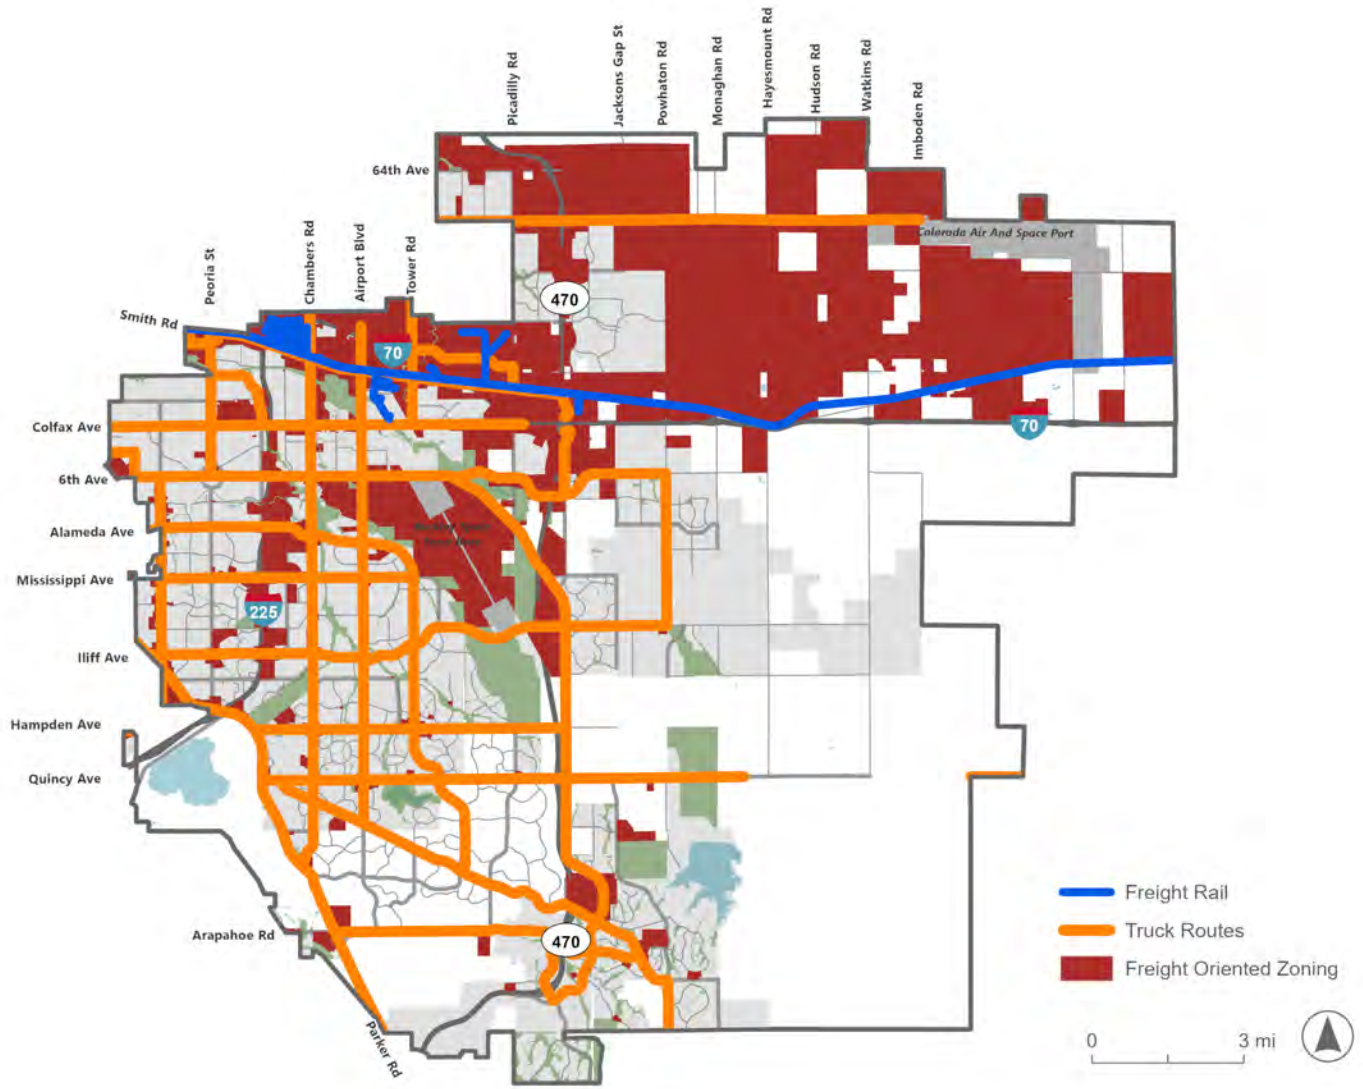
Aurora will achieve its freight goals through a context-sensitive network

Today's Freight Context

Freight Network

Aurora is an established regional freight hub.

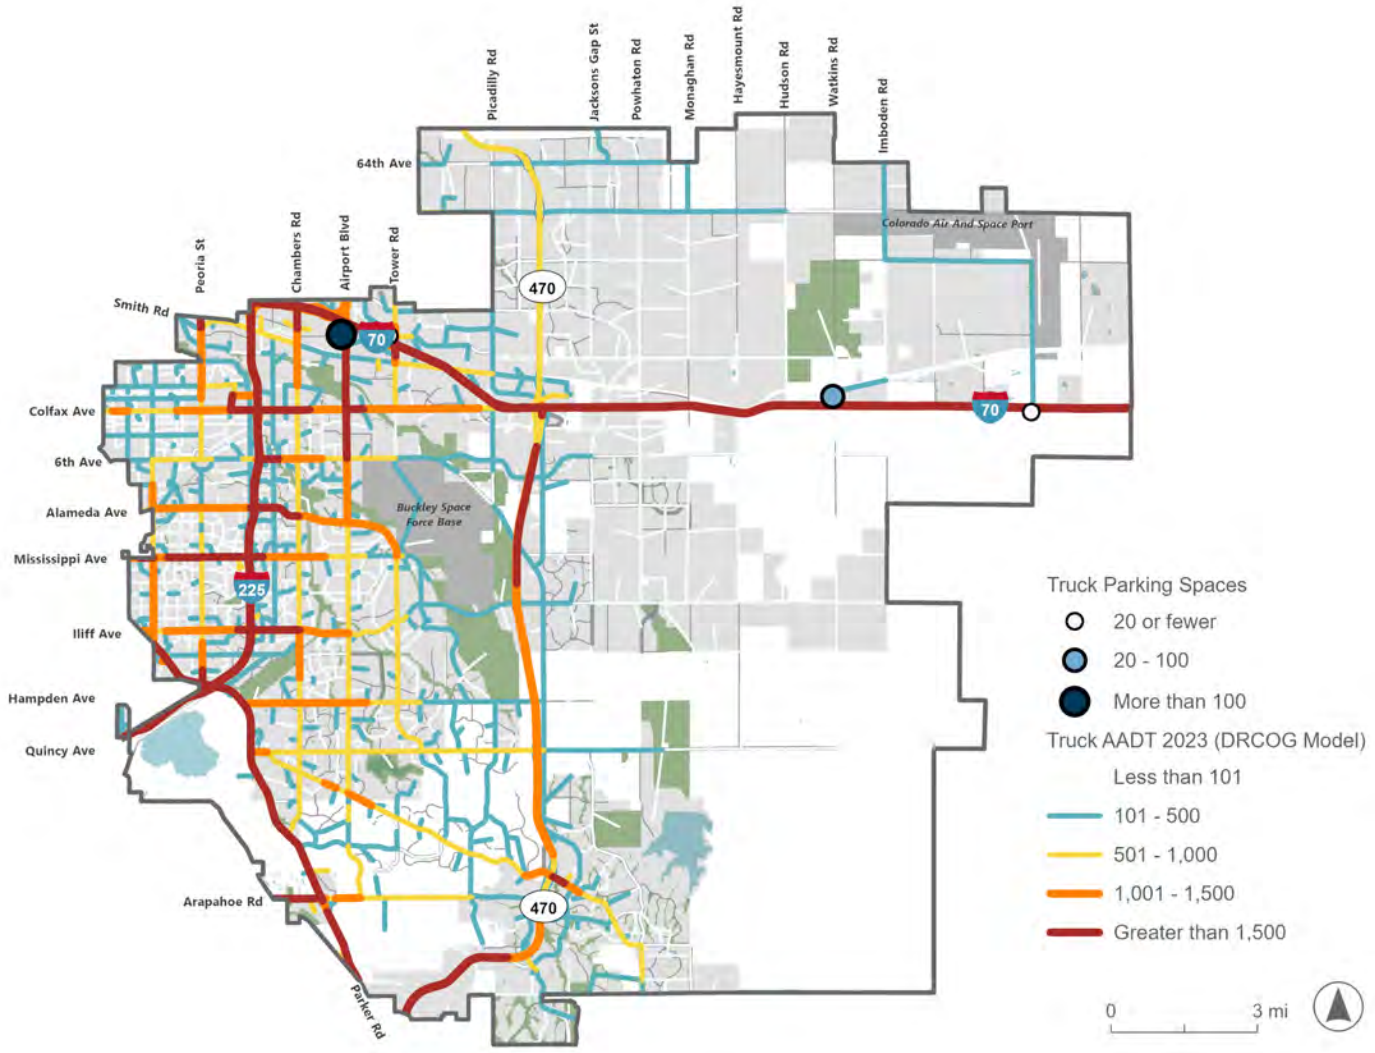
Aurora has a robust freight network that includes both highway and rail infrastructure. Key highways—I-70, I-225 and E-470—are essential freight routes connecting the region and beyond.



Northeast Aurora, particularly north of I-70, is the primary hub for freight activity. This area was identified in DRCOG's 2019 Regional Multimodal Freight Plan as a regional freight focus area because of its concentration of industrial land uses, availability of large undeveloped parcels and its future role in the Aerotropolis development vision.

There are approximately 37 miles of privately owned and operated freight rail lines in Aurora. Those that pass through Aurora are predominantly operated by Union Pacific Railroad. The railroad has very few local stops, and several rail spurs serve the industrial properties in northeast Aurora.

Connecting Aurora does not identify or recommend improvements to the rail system itself. However, the plan considers critical interactions between the rail network and the city's roadway system. There are 69 rail crossings in Aurora. Twenty-one are grade separated instead of at grade, with a mix of safety features, such as gates, flashing lights, bells, crossbucks and warning signs.



Designated Truck Routes and Freight Rail

Most of Aurora's designated truck routes are arterials streets. They are the preferred routes for trucks to follow through the city. Most freight activity and warehousing is concentrated in northeast Aurora.

Annual Average Daily Truck Volumes

Typically, there are higher truck volumes in less populated or rural areas where trucks are transporting agriculture, mining or manufacturing commodities to end markets. In Aurora, the truck routes in rural areas to the east have a higher share of truck traffic. Although I-70 through Aurora crosses an urban area, it carries a high volume of trucks, in addition to a high volume of cars.

Source: DRCOG Regional Travel Demand Model

Truck Volumes

Aurora's highest truck volumes are on I-70, I-225 and E-470.

Trucks carry more than 90% of all freight in Colorado, and they dominate freight activity in Aurora as well. Most of the city's arterial streets are designated truck routes, enabling trucks to efficiently travel between industrial areas and their final destinations.

Highway corridors like I-70, I-225 and E-470 are critical links between regional freight generators and major national routes. Higher truck volumes are especially concentrated near highways, where they connect to arterials serving commercial areas and industrial zones.

Other roadways that have relatively high truck traffic volumes include:

- East-west routes: Colfax Avenue, Alameda Avenue, Mississippi Avenue, Hampden Avenue and Iliff Avenue..
- North-south routes: Havana Street, Peoria Street, Chambers Road and Airport Boulevard.

Existing Plans, Programs and Initiatives

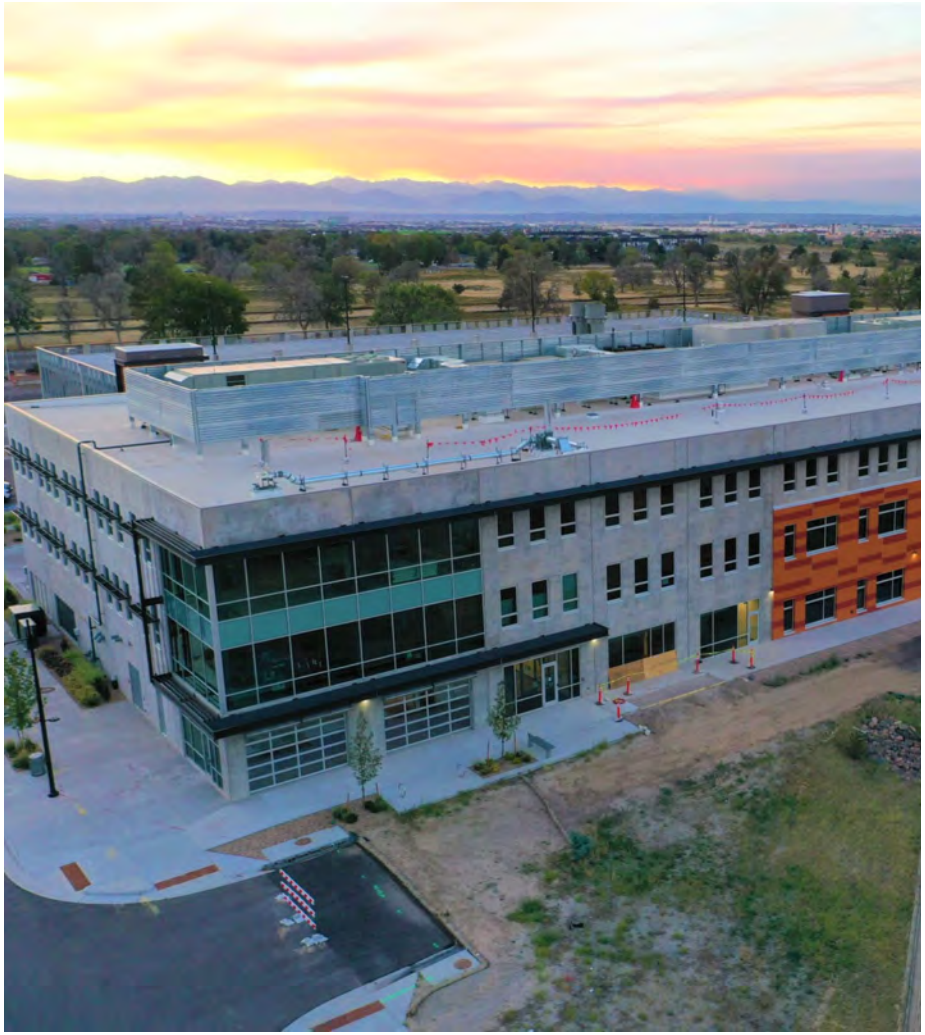
The city will leverage past planning and partnerships to build the future of freight.

Aurora's industrial-oriented placetypes and logistics centers, particularly in the northeast part of the city, encourage strong business activity and attract major employers. Freight-oriented zoning is a key aspect of Aurora Places and the UDO. The city's existing roadway design standards accommodate easy movement of freight through most parts of the city.

Freight-Related Plans

DRCOG REGIONAL MULTIMODAL FREIGHT PLAN

The Regional Multimodal Freight Plan presents overarching regional strategies focused on greater coordination and collaboration on freight issues at the local level. The plan emphasizes several best practices, regional corridors, regional strategies and future investment areas. Many of these overlap with Aurora's plans, so the city should continue to collaborate with regional partners to maintain and build relationships, and respond to the need to move goods efficiently.



Freight-Related Policies

UNIFIED DEVELOPMENT ORDINANCE

There are several freight-related policies within the Unified Development Ordinance that dictate freight behavior. Under Section 4.11.2, diesel-powered vehicles (including trucks) are forbidden from idling for more than 15 minutes per hour within city limits, with exceptions only for safety reasons, such as freight drivers sleeping in the vehicle cab. Under Section 134-356, commercial vehicles over 6,000 lbs empty weight or 22 feet in length are prohibited from operating, stopping, standing or parking on non-designated city streets except during specified times or to reach direct destinations — using only the shortest or designated through truck routes.

TRUCK ROUTES

The city of Aurora maintains a truck route map online. This map guides through trucks away from streets that are not intended to carry heavy volumes of truck traffic.

Freight-Related Initiatives

AEROTROPOLIS REGIONAL TRANSPORTATION AUTHORITY

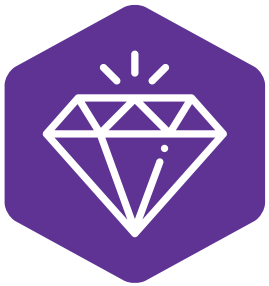
The Aerotropolis Regional Transportation Authority (ARTA) plans to make improvements to streets and interchanges in the northeast area of the city. These improvements spur additional investment in the area and are helping to realize the collaborative Aerotropolis vision developed with regional partners.

I-70/PICADILLY INTERCHANGE

The city has completed construction on a new diverging diamond interchange at I-70 and Picadilly Road. This investment will facilitate efficient freight movement and open new connections for employees to access key job centers in the adjacent industrial area.

BUCKLEY SPACE FORCE BASE AND COLORADO AIR AND SPACE PORT

Buckley Space Force Base and Colorado Air and Space Port are heavy vehicle generators. Buckley Space Force Base is surrounded by aerospace and defense and companies that employ talent vital to the region and Aurora. These facilities and associated companies are vital to the nation's defense. Aurora continues to partner with them to provide safe and convenient access to their facilities.



Visionary Freight Network

Designating freight routes that are compatible with adjacent land uses.

The visionary freight network will support safe and efficient movement of goods through the city on a hierarchy of designated truck routes.

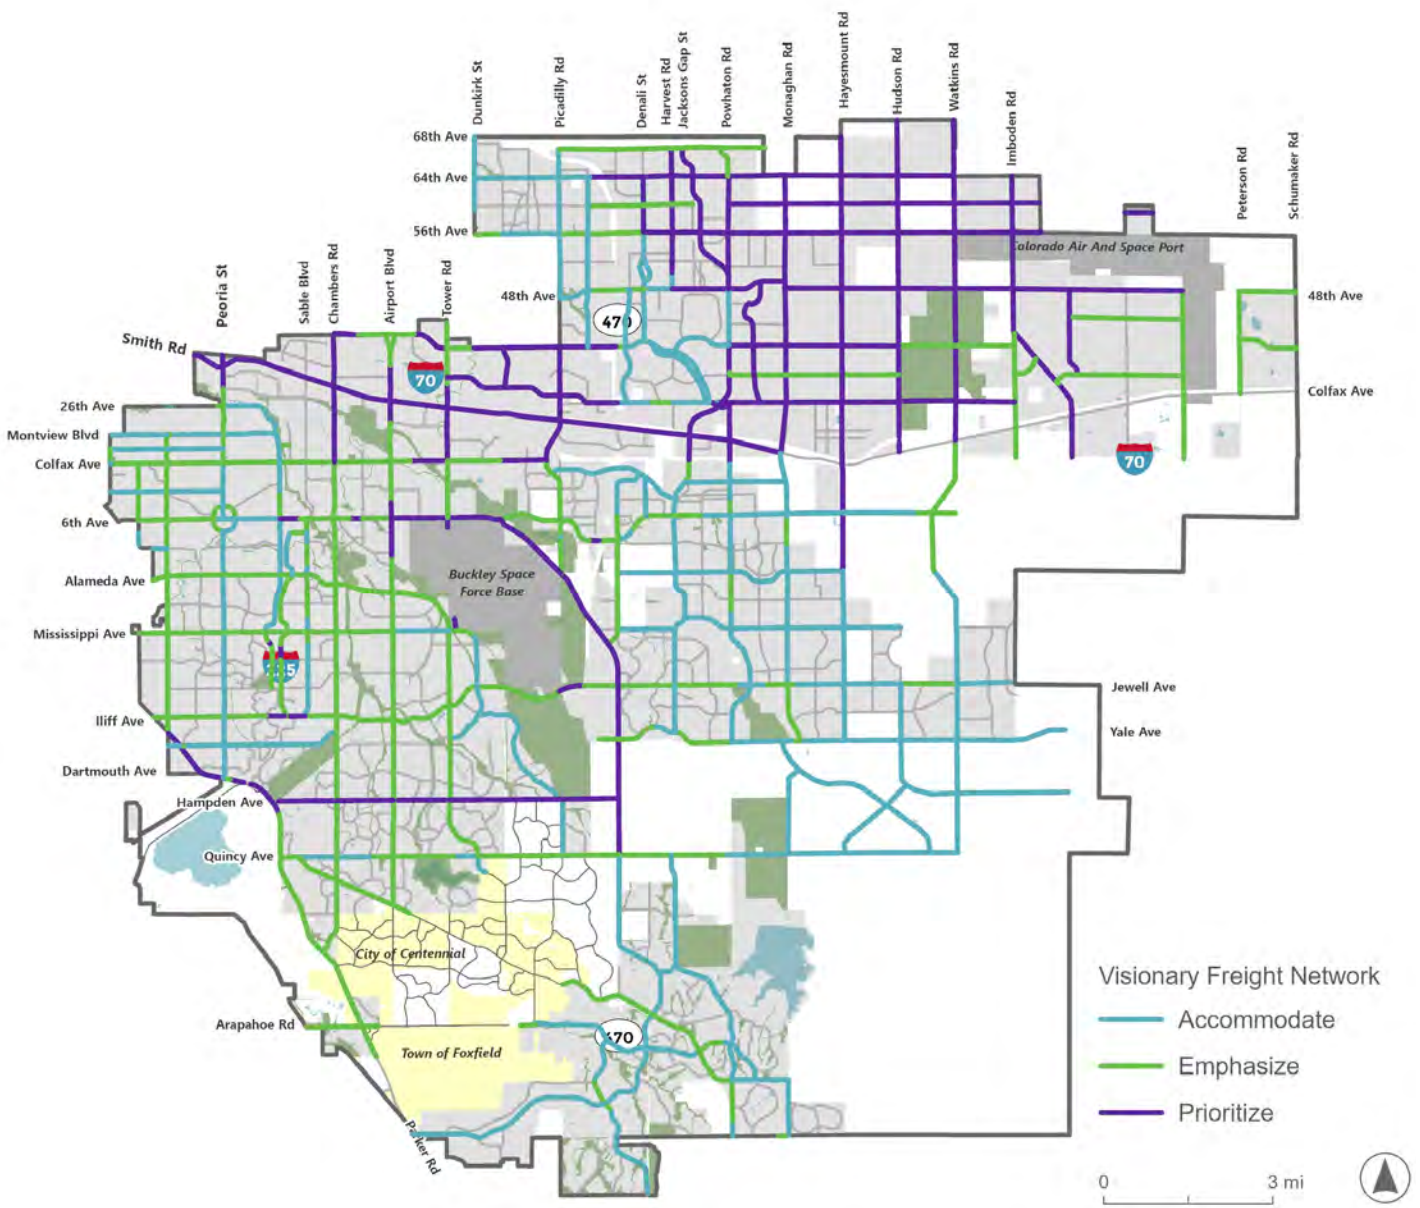
Freight routes will be categorized as: **Accommodate, Emphasize and Prioritize.**

These categories will define how goods movement is integrated into the broader multimodal network, while addressing safety, efficiency and land use compatibility. By clearly identifying where freight traffic should be directed and defining how it should interact with other transportation modes, Aurora can balance its economic development goals with quality of life goals in non-industrial areas of the city.

Prioritize

These routes are prioritized for freight movement. E-470, I-70, I-225 and selected major arterials are designed for high-volume, long-distance freight traffic. Investments in these corridors will improve safety, capacity and operational reliability. Grade-separated crossings, wider lane widths and ITS support can ensure these routes function smoothly even as demand grows. With the most intense freight activity traveling on these corridors, the more sensitive parts of the transportation network are protected from truck-related impacts.

Emphasize



These arterials are key connections between industrial areas and commercial zones. They will carry a higher share of trucks; however, they will not be designed for trucks at the expense of other transportation modes. Types of improvements will include wider turn radii at intersections, ITS to manage traffic flow for larger vehicles and design standards for truck access for deliveries. Coordination with regional partners and CDOT will be critical for these routes to complement state-level freight strategies and infrastructure investments.

Accommodate

These routes are arterials where truck traffic is permitted but not prioritized. They typically run through areas with greater land use sensitivity, such as neighborhoods, school zones or emerging mixed-use districts. In these locations, Aurora will focus on freight-supportive design elements and wayfinding while implementing traffic calming and time-of-day delivery restrictions to reduce community impacts. Planning for last-mile delivery, such as curbside loading and micro-distribution hubs, will ensure goods movement is integrated without overwhelming sensitive areas.

Visionary Freight Network

Defining Hierarchies

The hierarchies are defined based on the placetypes in Aurora Places and projected truck volumes

The categories for the truck routes were identified based on the existing high capacity and low capacity truck volumes as a percentage of total daily traffic volumes in relation to the adjacent placetype, as identified in Aurora Places.

Arterials that already had a high share of truck volumes and were located in industrial areas were designated as Prioritized truck routes. Corridors with lower existing share of truck volumes and more sensitive land uses, such as residential and mixed use, were designated as Accommodate truck routes.

These designations will help the city identify what improvements are needed to accommodate trucks and that are appropriate for the surrounding context and use of the street. The visionary network will align truck route designations with infrastructure investments, land use planning and operational policies.

It will provide clarity for private freight operators, developers and community stakeholders so that the benefits of freight movement are shared equitably while minimizing conflicts and environmental impacts.

Achieving Our Goals

What a better freight network means for Aurorans.

The visionary freight network will improve safety along a hierarchy of freight routes that serve freight hubs and distribution centers, aligning freight movement with the city's long-term transportation and land use goals.

Aurora's visionary freight network—organized around Accommodate, Emphasize and Prioritize routes—will tailor each freight corridor's role to its surrounding land use and transportation context.

This approach will reduce truck conflicts in sensitive areas while supporting local and regional goods movement. Safety will be improved by directing heavy vehicles to appropriate routes, designing intersections for large truck turning movements and enforcing policies like speed and idling limits in residential zones.

The visionary freight network will support a connected and convenient system to transport freight. The Emphasize routes will provide efficient truck access to Aurora's business districts. The Prioritize routes like I-70, E-470 and key arterials will carry high volumes of freight traffic to and from major hubs like the Denver International Airport and distribution centers. Clear signage, signal coordination and thoughtful curbside design will improve last-mile delivery and reduce congestion. Meanwhile, integration with transit, pedestrian and bike infrastructure will allow multiple modes to safely share the street, creating a more balanced and accessible network for everyone.

Freight planning is essential to keeping Aurora economically strong and sustainable. Reliable access to industrial zones and regional corridors supports job growth and attracts logistics and manufacturing businesses.

Recommended Strategies

Taking action to designate a hierarchy of truck routes and provide more driver services.

Aurora will continue to pursue partnerships with transportation authorities, DRCOG and CDOT to create a strong network for moving goods.

Complete Streets Framework

The city of Aurora is creating the Connecting Aurora Complete Streets Framework and Design Guidelines (see Chapter 6). These guidelines will establish clear direction on context-sensitive design for truck movement.

POLICY

Elements of street design for trucks include wider lanes on heavily traveled streets and turning radius accommodations, such as truck aprons and others.

Freight-Focused Mobility Hubs with Truck Parking and Services

Mobility hubs in industrial centers could provide short-term and long-term parking, services (restrooms, convenience and grocery store options) and access to shared mobility options for drivers.

Several potential locations for these hubs are shown in the visionary freight network map.

PARTNERSHIPS

The city needs to explore opportunities to partner with private enterprise to address gaps in truck parking and driver services. Potential design elements are further described in the Complete Streets Design Guidelines.

Coordination with Regional Agencies and Developers

As a regional freight hub, the visionary freight network designations connect to existing industrial areas and a larger, regional freight movement network.

PARTNERSHIPS

Aurora will continue to partner with the Aerotropolis Regional Transportation Authority, DRCOG CDOT and developers to create a strong network for moving goods through Aurora and across the region.

Industrial Development with Adequate Parking

Truck parking can be an issue when inadequate space is provided on-site for freight-focused land uses. Trucks need short-term and long-term parking options. The city should work with developers to ensure that truck parking does not spill over onto the adjacent street network, including local and collector streets in adjacent neighborhoods.

PARTNERSHIPS

Aurora will continue to partner with developers and employers to address these needs.

Moving Forward

Investing in Aurora's Place-Oriented Future

Connecting Aurora lays out a vision for Aurora's transportation future. To realize that vision, the city of Aurora needs to act wisely in developing, designing and delivering projects and programs that will benefit most.

This chapter summarizes the strategies developed throughout the Connecting Aurora planning process, building upon input from the community and based on the data-driven analysis presented in this plan.

Connecting Aurora allows the city's policy-makers to better understand the city's long-term needs and how best to allocate funding to help the city achieve its transportation vision and goals.

Chapter 12 Highlights

FUNDING NEEDS AND PRIORITIES
Summary of the city's greatest needs and priorities for investment.

IMPLEMENTATION CONSIDERATIONS
Challenges and opportunities when investing in transportation infrastructure.

FUNDING STRATEGIES
Options to consider for transportation funding.

CAPITAL INVESTMENTS
Summary of planned capital investments.

ACTION PLAN
Key next steps for implementation of this plan.

Summary of Funding Needs and Priorities

Aurora has a funding gap to meet its future transportation needs.

Aurora has invested an average of $18 million annually in the last five years on transportation capital projects.

Investments

To realize its transportation vision, the city of Aurora will need to invest approximately $65 to $119 million annually. This represents its current funding gap.

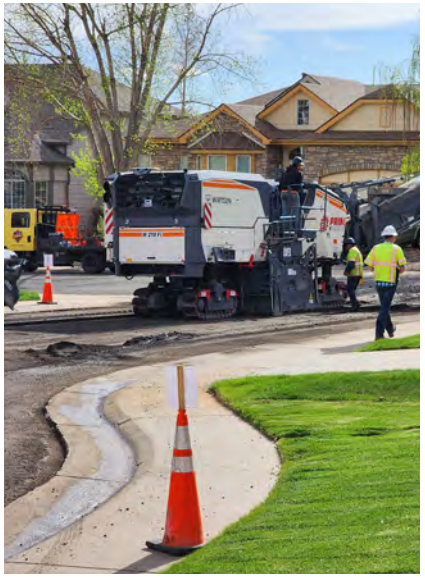
The city historically has used a variety of funding strategies to fund transportation projects, such as metro districts, grant programs and public-private partnerships. In this spirit, the city commits to addressing its funding gap through creative strategies.

The city's CIP will be updated annually as the city completes projects and identifies potential new funding sources.

Transportation investment needs include:

- Capital improvements: Upgrades to streets, intersections, sidewalks, bikeways, trails and bus and rail lines to better connect more places.
- Existing and future systems operations: The people and tools to keep the transportation system working, as well as programs to enhance peoples' daily transportation experience.
- Maintenance of infrastructure assets: Repair and replacement of transportation infrastructure to keep the system in good working order, including street pavement maintenance, snow removal and street sweeping.

Current Funding Sources



The city uses Transportation Capital Impact Fees, Transportation Maintenance Fund (TMF) and Capital Projects Fund (CPF) to fund transportation repairs and improvements. The annual TMF allocation has ranged from $25 million to $31 million in the last five years. The CPF allocation has ranged from $53 million to $61 million annually in the same time frame. The planned Public Works allocation for 2025 to 2029 ranges from $17 million to $25 million, annually.

The TMF does not include approximately $4 million in predictable annual maintenance obligations for traffic equipment, which has averaged the following amounts:

- Traffic Signals: $3.1 million.
- Street Lighting: $300,000.
- Signs and Markings: $400,000.

Generally, these maintenance activities are funded through general fund allocations.

Implementation Considerations

Taking a holistic approach to project implementation.

To sustainably build, operate and maintain the transportation system and to implement projects requires consideration of multiple factors beyond the stated project purpose.

Key Considerations

Key considerations for implementing the projects identified in Connecting Aurora include the right-of-way available for the improvement; project construction costs; city staff resources to manage and deliver a project; staff and budget for operations, maintenance, education, outreach; and key partnerships and intergovernmental coordination.

Working through these considerations will be part of conceptual project development for each project. Overall, the level of investment and types of investments that the city is planning will require additional resources to implement and maintain.

AVAILABLE RIGHT-OF-WAY

City streets are constructed generally within city-owned land, called right-of-way. This space has been set aside for streets, utilities and public amenities. Right-of-way widths for Aurora's streets vary from approximately 50 feet to 140 feet or more. In older parts of the city, the widths are narrower than in newer parts of the city. In most cases, additional right-of-way must be purchased from private land owners, which increases project costs significantly. In most cases, the city tries to avoid this additional cost and impact to the community.

PROJECT CONSTRUCTION COSTS

The need for and benefits of a project needs to be weighed against the costs to construct the project.

CITY STAFF RESOURCES

Aurora's transportation project delivery staff deliver projects working in concert with consultants, engineers and construction contractors. Every project requires some level of city staff time and effort. Delivering a program or project may require reallocation of resources within city departments or the addition of staff as needed.

OPERATIONS AND MAINTENANCE

Every new street, sidewalk, bikeway, intersection or other city asset requires operating and maintenance staff and budget for the life of the asset. This future need should be considered fully during project prioritization and development.

PARTNERSHIPS AND INTERGOVERNMENTAL COORDINATION

Opportunities to partner with adjacent or overlying agencies in project delivery, operations and maintenance may improve the city's ability to deliver a project and should be considered during project planning.

Funding Strategies

Funding transportation projects over the next 25 years to meet the city's goals will require a new approach.

Aurora's growing transportation infrastructure needs demand a sustainable and diversified financial strategy to support the city's long-term transportation objectives. The current method of funding transportation operations, maintenance and capital projects fails to address the long-term funding gap related to the scale and location of new projects or the ongoing financial responsibility to operate and maintain this new infrastructure. More information about Aurora's current funding challenges can be found in Chapter 3.

Peer cities across Colorado showcase for Aurora the innovative and diverse opportunities to enhance its long-term revenue sources for transportation infrastructure and programming.

Local Sales or Property Tax

Aurora could consider a voter-approved dedicated sales or property tax for transportation infrastructure. This option could give the city a steady revenue source for transportation that doesn't compete with other city priorities.

CITY OF COLORADO SPRINGS 2C2 ROAD TAX

When Colorado Springs voters renewed the dedicated road-repair sales tax at 0.57% (often called "2C2"), city estimates projected it would generate around $50 million annually for transportation improvements. This revenue has enabled the city to repave more than 1,600 lane miles, install over 9,400 new and retrofitted pedestrian ramps and replace nearly 306 miles of curb and gutter, along with 3.6 million square feet of sidewalk. In November 2024, residents voted to extend the tax for 10 years starting in 2026.

Expanded Impact Fees

Aurora's Transportation Capital Impact Fees are charged only on residential development projects. Aurora's impact fees are lower than surrounding areas and don't fully fund transportation expansion. Although impact fees can't cover maintenance, they would boost revenue for regional transportation capital projects, freeing other funds for upkeep. The city considered raising fees before. In 2021, Aurora estimated fees could generate around $10 million annually based on residential development trends.

CITY OF FORT COLLINS TRANSPORTATION CAPITAL EXPANSION FEE

The program, which typically raises several million dollars annually, offsets costs caused by additional traffic from new or redevelopment projects added to the existing transportation system. Fees vary by the type of development. The city revises its impact fees approximately every five years, with annual inflationary adjustments between major updates.

Transportation Utility Fees

Aurora could consider implementing a transportation utility fee to boost funding for maintenance. Transportation utility fees are usually added to city utility bills, such as water bills, and can serve as a valuable revenue source for maintenance.

CITY OF WESTMINSTER INFRASTRUCTURE CHARGE

Westminster collects a $6 per month infrastructure charge on all property in the city to pay for street lighting and sidewalk, curb and gutter replacement.

Bond Funding for Capital Projects

Aurora could issue additional certificates of participation or move forward a bond initiative to voters to fund infrastructure or rehabilitation. Bonds, which need voter approval, allow for quick funding and can bypass annual budget limits. The amount and frequency of bond issuance depend on Aurora's legal limits, tax base, political support and voter approval.

CITY OF DENVER RISE DENVER GO BOND

This $260 million bond approved by voters in 2021 funds projects in Denver, including facilities, housing, transportation and parks.

Comparative Look at Annual Revenue Versus Annual Transportation Capital Outlay and Maintenance

Aurora's transportation revenue per capita is the second lowest among peer cities, mainly due to low local revenue and fewer revenue sources.

Aurora had the lowest capital outlays and expenditures per capita and lane mile due to funding constraints and policies supporting suburban transit via metro districts. Conversely, Aurora invested most in maintenance per capita and lane mile, and second in total dollars, to address a growing backlog and a $35 million certificate of participation issued in 2023.

City	Average Annual Total Revenue	Average Annual Transportation Capital Outlay	Average Annual Transportation Maintenance
Aurora	$82,436,220	$18,822,881	$35,288,957
(Per Capita)	$213	$49	$91
(Per Lane Mile)	-	$7,356	$13,791
Colorado Springs	$187,127,830	$126,768,117	$24,080,566
(Per Capita)	$390.7	$265	$50
(Per Lane Mile)	-	$32,023	$6,083
Denver	$144,928,305	$141,348,022	$40,092,281
(Per Capita)	$202.5	$198	$56
(Per Lane Mile)	-	$33,396	$9,473
Fort Collins	$57,634,627	$30,642,092	$16,342,420
(Per Capita)	$339.4	$180	$96
(Per Lane Mile)	-	$23,644	$12,610
Thornton	$45,097,773	$25,606,929	$3,827,060
(Per Capita)	$317.9	$180	$27
(Per Lane Mile)	-	427,499	$4,110

Average annual total revenue represents a combination of each cities' local, state, federal and private revenue.

Capital Outlay are expenditures for new construction, major reconstruction and significant improvements that extend the service life or increase the capacity of the transportation network like constructing new roads or replacing bridges

Annual maintenance is routine or minor expenditures necessary to preserve existing transportation assets in serviceable condition like patching potholes.

Capital Investments

Aurora's ability to provide a transportation system that connects all people to the places they want to go depends on a continual investment in high-quality infrastructure and services.

Investment Categories

The city identified 10 key multimodal investment categories for consideration for future city funding. The categories are described below.

These investment categories were presented for public input during the spring of 2025. The city asked the community to prioritize the various types of investments it would like to see the city pursue, by asking the public to allocate a hypothetical $100 across the 10 categories.

The city used this input, as well as the existing and future conditions analyses presented in this plan, to prioritize the investments presented in this chapter.

The total estimated cost for projects and programs to realize the transportation vision is $XX billion. The short-term investment is estimated at $X billion.

Transit Service Expansion

Transit Service Expansion investments focus on increasing the reach, frequency and coverage of public transit services to improve access and connectivity for more users. These projects aim to enhance mobility options and reduce reliance on single-occupancy cars.

#1 Community Priority Ranking

$12 out of $100

PROJECT CATEGORIES

- Transit service and hubs, including microtransit zones.
- Other future service expansion will be explored through partnership with RTD.

Multimodal Corridors

Multimodal Corridors (Complete Streets) investments focus on streets that safely accommodate pedestrians, bicyclists, transit riders and drivers. These projects aim to expand multimodal facilities like transit infrastructure, new sidewalks and bikeways and streetscape improvements through innovative and creative designs.

#2 Community Priority Ranking

$12 out of $100

PROJECT CATEGORIES

- Multimodal Complete Streets .
- Bridges and interchanges.

Bikeways and Trails

Bikeway and trails investments focus on creating and improving infrastructure for bikes, e-bikes, scooters, etc. to enhance safety, connectivity and access to key destinations. These projects aim to support active transportation and recreational use.

#3 Community Priority Ranking

$11 out of $100

PROJECT CATEGORIES

- Bikeways and trails

High-Capacity Transit

High-Capacity Transit investments focus on developing and expanding transit services that can move large numbers of passengers efficiently and reliably, typically along regionally significant corridors. These projects aim to provide faster, more frequent and higher-volume transit options to reduce congestion and improve regional connectivity.

#4 Community Priority Ranking

$11 out of $100

PROJECT CATEGORIES:

- Multimodal transit corridors.

Pedestrian Improvements

Pedestrian Improvements investments focus on improving and expanding pedestrian infrastructure to enhance safety, accessibility and walkability. These projects aim to create a more connected and comfortable pedestrian network.

#5 Community Priority Ranking

$11 out of $100

PROJECT CATEGORIES

- Sidewalks.
- Bike and pedestrian crossings.
- Safety and operations improvements.

Street Capacity

Street Capacity investments focus on increasing the capacity of roadways to accommodate more cars and reduce congestion, improving overall traffic flow and shortening travel times. These projects aim to enhance the efficiency and capacity of existing streets or add new streets to support increased demand.

#6 Community Priority Ranking

$9 out of $100

PROJECT CATEGORIES

- Multimodal transit corridors.
- Street widening and traffic calming.
- Traffic signals and roundabouts.
- Bridges and interchanges

Transit Amenity Upgrades

Transit Amenity Upgrades and Personal Safety investments focus on improving the comfort, convenience and security of transit facilities and services to enhance the overall rider experience and encourage transit use. These projects aim to make transit more accessible, user-friendly and safe for all passengers.

#7 Community Priority Ranking

$9 out of $100

PROJECT CATEGORIES

- Multimodal transit corridors.
- Transit service, stops, stations and hubs.

Traffic Technology

Traffic Technology investments focus on using advanced technologies to improve traffic flow, safety and transportation network efficiency. These projects aim to optimize the performance of roadways and reduce congestion through real-time monitoring and control.

#8 Community Priority Ranking

$8 out of $100

PROJECT CATEGORIES

- Street widening and traffic calming.
- Safety and operation improvements.

Infrastructure Maintenance

Infrastructure Maintenance focuses on preserving and maintaining existing transportation infrastructure to extend its lifespan, improve safety and maintain functionality. These projects aim to prevent deterioration and reduce long-term repair costs.

Streetscape Enhancements

Streetscape Enhancements investments focus on improving the visual appeal, functionality and comfort of streets and public spaces to create more inviting and pedestrian-friendly environments. These projects aim to support vibrant, accessible and safe streetscapes.

#9 Community Priority Ranking

$8 out of $100

PROJECT CATEGORIES:

- Infrastructure maintenance.
- Bridges and interchanges.

#10 Community Priority Ranking

$7 out of $100

PROJECT CATEGORIES:

- Multimodal transit corridors.
- Sidewalks.

Strategic Investment Plan

Taking community priorities and identified transportation needs into consideration yields a strategic investment approach.

The Connecting Aurora planning process identified $1.5 billion to $2.9 billion in transportation project needs. Meeting existing and future transportation needs will require a strategic approach.

The city of Aurora plans to invest in lower-cost, higher-benefit projects to address existing needs, and to plan for higher levels of investment in higher-cost projects in the medium and long term to transform the city's transportation network.

Costs shown in this report are in 2025 dollars (not escalated for inflation).

While shown on the visionary networks, projects that will be the sole responsibility of others (agencies, developers, etc.) are not included in these projected investment timeframes. Aurora will pursue implementation of these projects through partnerships and coordination with these other entities.

Short-Term Investments (0-10 years)

Short-term investments will include continued focus on operating and maintaining the city's transportation infrastructure, addressing long-standing upgrade needs for streets that lack the multimodal capacity required to serve demand and key location improvements to the bikeway network and pedestrian network to fill critical gaps.

Summary:

- Years - 2026 through 2035.
- Capital Projects: $45 million to $65 million annually.
- Operations and Maintenance: $35-50 million annually.

Medium-Term Investments (10-15 years)

Medium-term investments will focus on enhanced multimodal access throughout the city. Adding bikeways and safer crossings, as well as investing in the most important transit corridors, will improve access to destinations. To implement these projects, the city must increase the scale of investment across most categories, leveraging partnerships and available regional, state and federal funding opportunities.

Summary:

- Years - 2036 through 2040.
- Capital Projects: $50 million to $100 million annually.
- Operations and Maintenance: $45-60 million annually.

Long-Term Investments (15-25 years)

Long-term investments will fully realize the plan's vision, and they will build upon the work from the first 15 years of implementation. These long-term investments will require continued dedication to capitalizing on partnerships and outside funding sources, but will likely also require increased local funding through bond packages, tax financing and enhanced regional authority financing.

Summary:

- Years - 2040 through 2050.
- Capital Projects: $85 million to $165 million annually.
- Operations and Maintenance: $75-100 million annually.

The city will strategically invest in its transportation networks over the next 25 years.

Project Category	Annual Investment Needed through 2050
Complete Streets	$12 million to $17 million
Safety and Operations Improvements	$2 million to $3 million
Street Widening and Traffic Calming	$6 million to $9 million
Bikeways and Trails	$14 million to $30 million
Bridges and Interchanges	$15 million to $24 million
Bike and Pedestrian Crossings	$5 million to $16 million
Sidewalks	$6 million to $11 million
Transit Service and Hubs	$4 million to $6 million
Signals and Roundabouts	$1 million to $3 million

Partnerships and cost-sharing will be pursued to deliver many of these projects.

Capital Improvement Projects

The Connecting Aurora projects are prioritized based on their ability to help Aurora achieve its transportation goals and overall vision. The projects are phased based on these needs, coupled with the city's ability to implement them within certain timeframes.

Priority

Project prioritization is based on each project's overall need. Each travel mode was evaluated using its own set of criteria aligned with Connecting Aurora's 10 goals. Projects were scored and ranked within each mode to reflect relative need and potential benefit.

Projects from different modes were not compared to one another to avoid assigning priority based solely on mode. The prioritization results were reviewed by the project team and the Technical Advisory Committee and refined to ensure consistency, accuracy, and reasonableness.

While evaluation criteria varied by travel mode, common factors included proximity to key destinations such as schools, parks, and businesses; existing infrastructure conditions; levels of traffic congestion; and transit ridership and propensity to use transit, among others.

Phasing

Each project was assigned a Planning and Design phase and a Construction phase based on the overall project priority and its implementation complexity.

- Short-term means projects start within 5 years of publication of this plan.
- Medium-term means projects start within 10 years of plan publication
- Long-term means projects start 10 years after plan publication.

Some important, high-priority projects may take a long time to plan and design, so they are on the short-term list for Planning and Design and the medium- or long-term lists for Construction.

Other projects may be high-priority and low-complexity, meaning they are on the short-term Planning and Design list and the short-term Construction list.

The maps and tables in this chapter show the short-term projects identified in Connecting Aurora. The rest of the projects can be found in Appendix A.

Action Plan

In addition to the projects listed in this plan, the city will take the following actions to turn this plan into reality

Strategy 1: Create and Amend Documents that Support Plan Implementation

Documents include: Unified Development Ordinance, Roadway Design and Construction Manual and a Complete Streets Design Guide.

Strategy 2: Create and Maintain an Online GIS System

Map networks and projects by mode and utilize in association with development proposals.

Strategy 3: Develop and Fund Multimodal Programs

The programs in this plan need consistent and reliable funding and maintenance for success.

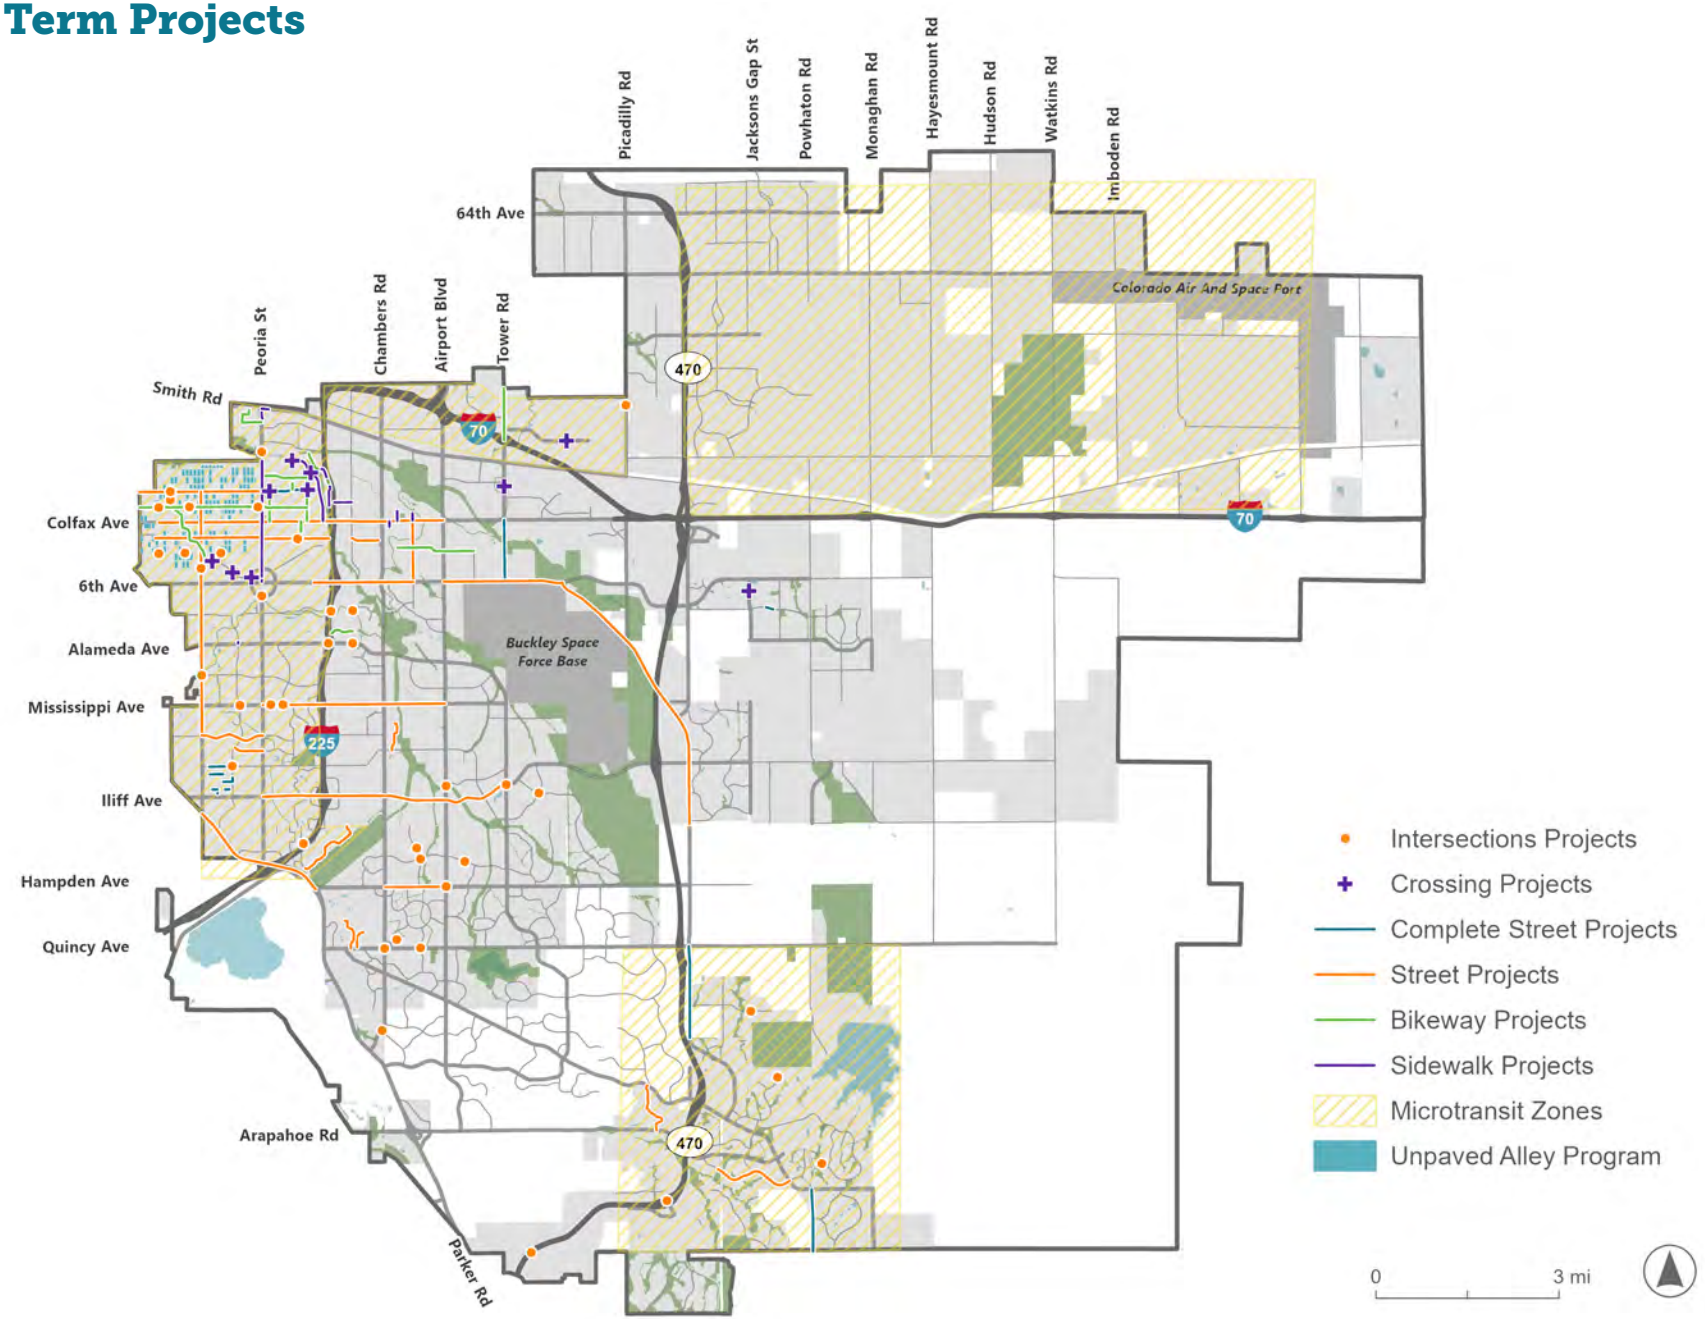
Strategy 4: Capital Program

Devise an Investment and Funding Strategy for focused critical corridor improvements

Strategy 5: Strengthen Partnerships

Continue to foster partnerships with RTD, CDOT, State and Federal Funding Partners and Neighboring Jurisdictions

Strategy 6: Devise a System for On-Going Community Input



Advance our transportation system improvements through transparent and responsive public engagement.

Strategy 7: Measure Progress

Track progress towards goals and create a dashboard to report progress through annual assessments.

Short Term Projects

Short Term Projects - Streets

ID	Project Name	Project Category	Recommendation	Location-Extent	Cost Range
RDWY-02	RDWY-02 Street- E Montview Blvd	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Yosemite to Peoria St	$1,200,000 to $1,800,000
RDWY-03	RDWY-03 Street- Colfax Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Chester St to Airport Blvd	$3,600,000 to $5,400,000
RDWY-04	RDWY-04 Street- Peoria St	Safety and Operation Improvements	Intersection Safety Technology Upgrades	23rd Ave to 6th Ave	$1,200,000 to $1,800,000
RDWY-05	RDWY-05 Street- Havana St	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Florida Ave to Montview Blvd	$1,800,000 to $2,700,000
RDWY-06	RDWY-06 Street- 6th Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Vaughn St to Laredo St	$1,600,000 to $2,400,000
RDWY-07	RDWY-07 Street- Mississippi Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Peoria St to Airport Blvd/Buckley Rd	$2,560,000 to $3,840,000
RDWY-08	RDWY-08 Street- Iliff Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Peoria St to Tower Rd	$3,440,000 to $5,160,000
RDWY-09	RDWY-09 Street- Hampden Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Chambers Rd to Airport Blvd/Buckley Rd	$400,000 to $550,000
RDWY-10	RDWY-10 Street- Parker Rd	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Havana St to Hampden Ave	$480,000 to $720,000
RDWY-14	RDWY-14 Street- E 1st Ave	Complete Streets	Widen to 2 lanes; Construct missing sidewalk segment and ADA ramps.	Jamestown Way to Kellerman St	$1,710,000 to $2,090,000
RDWY-15	RDWY-15 Street- Gun Club Rd/SH 30/6th Ave	Street Widening	Widen to 4 lanes	Yale Ave to Airport Blvd	$109,390,000 to $148,070,000
RDWY-17	RDWY-17 Street- Powhaton Rd	Complete Streets	Roadway reconstruction: Construct the missing sidewalk segment and ADA ramps.	Smoky Hill Rd to Sampson Gulch Way/ County Line Rd	$8,460,000 to $10,340,000
RDWY-19	RDWY-19 Street- N Tower Rd	Complete Streets	New 4 lane arterial; Construct shared use paths.	6th Ave to Colfax Ave	$56,000,000 to $84,000,000
RDWY-21	RDWY-21 Street- Laredo St	Traffic Calming	Median refuges, curb extensions, and ADA upgrades	Colfax Ave to 6th Ave	$600,000 to $900,000
RDWY-22	RDWY-22 Street- Glasgow Dr	Traffic Calming	Median refuges, curb extensions, and ADA upgrades	Aurora Pkwy to Smoky Hill Rd	$600,000 to $900,000
RDWY-28	RDWY-28 Street- Joliet St	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	South of Warren Ave	$900,000 to $1,100,000

Short Term Projects - Streets (cont'd)

ID	Project Name	Project Category	Recommendation	Location-Extent	Cost Range
RDWY-29	RDWY-29 Street- Asbury Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	Kenton Ct to Lima St	$765,000 to $935,000
RDWY-30	RDWY-30 Street- Evans Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	Kingston Ct to Lima St	$559,000 to $683,000
RDWY-34	RDWY-34 Street- Jewell Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps: Signal rebuild at Jewell Ave and Lima St.	Jewell Ave to Kingston St	$4,770,00 to $5,830,000
RDWY-35	RDWY-35 Street- Gun Club Rd	Complete Streets	Widen to 4 lanes; Signal rebuild and safey; Construct shared use paths.	Quincy Ave to Aurora Pkwy	$27,200,000 to $40,800,000
RDWY-40	RDWY-40 Street - Idalia St	Traffic Calming	Install speed cushions	Mexico Ave to Wyoming St	$40,000 to $80,000
RDWY-41	RDWY-41 Street - Mexico Ave	Traffic Calming	Install speed cushions	Moline St to Peoria St	$40,000 to $80,000
RDWY-42	RDWY-42 Street - Florida Ave	Traffic Calming	Median refuges, curb extensions, and ADA upgrades	Havana St to Peoria St	$100,000 to $150,000
RDWY-43	RDWY-43 Street - Heather Gardens Way	Traffic Calming	Install speed cushions	Marine Dr to Yale Ave	$40,000 to $80,000
RDWY-44	RDWY-44 Street - Dawson St/Navarro Pl	Traffic Calming	Install speed cushions	Purdue Pl to Eagle Ct	$40,000 to $80,000
RDWY-45	RDWY-45 Street - Dillon Way	Traffic Calming	Install speed cushions	Quincy Ave to Carson St	$56,000 to $84,000
RDWY-46	RDWY-46 Street - Peakview Dr	Traffic Calming	Install speed cushions	Arapahoe Rd to Smoky Hill Rd	$40,000 to $80,000
RDWY-47	RDWY-47 Street- Warren Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	West of Lima St	$2,840,000 to $3,470,000
RDWY-48	RDWY-48 Street - Montview Blvd	Complete Streets	Roadway reconstruction; Install wider sidewalks and bike lanes; Signal rebuild and safety.	Peoria St to Fitzimons Pkwy	$35,000,000 to $43,000,000
RDWY-50	RDWY-50 Street - 13th Ave	Traffic Calming	Traffic calming and safety improvements near schools.	Yosemite St to Highline Canal	$4,800,000 to $7,200,000

Short Term Projects - Intersections

ID	Project Name	Project Category	Recommendation	Location-Extent	Cost Range
INT-01	INT-01 Intersection- 11th Ave and Fulton St	Safety and Operation Improvements	Minor Intersection Improvements	11th Ave and Fulton St	$500,000 to $1,500,000
INT-02	INT-02 Intersection- 11th Ave and Chester St	Safety and Operation Improvements	Minor Intersection Improvements	11th Ave and Chester St	$500,000 to $1,500,000
INT-10	INT-10 Intersection- Alameda Ave and Sable Blvd.	Safety and Operation Improvements	Minor Intersection Improvements	Alameda Ave and Sable Blvd.	$500,000 to $1,500,000

Measuring Progress

To track the city's success in implementing this plan, it will measure progress toward achieving its goals through tracking key indicators.

A Transportation System Serving People

Safe

People are safe and feel safe traveling in our city.

- Percent of High Injury Network intersections improved.
- Number of Fatalities and Serious Injuries.
- Number of pedestrian and bicycle crashes.

Connected

People are well-connected to the places they want to go however they choose to move.

- Miles of new bikeways.
- Percent of schools within ¼ mile of bikeway or sidewalk.
- Percent of transit stops and stations with multimodal access upgrades.
- Percent of sidewalks meet ADA standards.

Convenient

People can move around our city efficiently and easily.

- Percent of gaps in sidewalk network filled.
- Percent of population within ½ mile of high-frequency transit service.
- Percent of population with a ½ mile of a high comfort bikeway
- Number of publicly available EV charging stations

Reliable

People can depend on all forms of transportation.

- Percent of transit routes with on-time performance.
- Percent of intersections with ITS-equipped signals
- Average citywide Pavement Condition Index.

A Transportation System Supporting Overall City Aspirations

Sustainable

Infrastructure and services can be built, operated and maintained at high levels, in a fiscally and environmentally sustainable way.

- Transit ridership per capita.
- Annual VMT per Capita.
- Percent of streetscaping with native and/or low-water plantings.

Economically Strong

The community's economic vitality is supported and enhanced by the transportation network.

- Percent of projects in economic centers or TOD areas.
- Percent of jobs within ½ mile of frequent transit service.
- Percent of jobs with ¼ mile of a bikeway.
- Average share of income spent on transportation in Aurora.

Healthy

The community is served by transportation that supports a healthy lifestyle and environment.

- Miles of off-street paths or trails built or upgraded.
- Percent of population has access to parks via walking or biking within 10 minutes.
- Percent of tree canopy coverage on arterials and collectors.
- GHG emissions per household in Aurora.
- Percent of population with an active lifestyle.

A Transportation System Strengthening Community

Authentic

Infrastructure design contributes to the creation of great places and preservation of traditionally unique places.

- Percent of active projects with placemaking elements.
- Number of traffic calming applications mitigated.

Equitable

All people have viable transportation choices to meet their needs.

- Percent of active or completed projects in areas of persistent poverty.
- Percent of bus stops with amenities in areas of persistent poverty.

Integrated

People have easy access to a mix of places because land use and transportation are fully woven together.

- Percent of active projects that improve access to short-trip opportunity zones.
- Percent of population within ½ mile of multimodal corridors
- Number of projects coordinated with land use or development applications.
- Number of housing units within ½ mile of mobility hub.

Connecting People. Connecting Places.

CONNECTING AURORA

OUR MULTIMODAL TRANSPORTATION MASTER PLAN

Building the future of
Aurora transportation together!

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
RDWY-01	RDWY-01 Street- E Smith Rd	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Peoria St to Powhaton Rd	$95,280,000 to $128,260,000	Long
RDWY-02	RDWY-02 Street- E Montview Blvd	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Yosemite to Peoria St	$1,200,000 to $1,800,000	Short
RDWY-03	RDWY-03 Street- Colfax Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Chester St to Airport Blvd	$3,600,000 to $5,400,000	Short
RDWY-04	RDWY-04 Street- Peoria St	Safety and Operation Improvements	Intersection Safety Technology Upgrades	23rd Ave to 6th Ave	$1,2000 to $1,800,000	Short
RDWY-05	RDWY-05 Street- Havana St	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Florida Ave to Montview Blvd	$1,800,000 to $2,700,000	Short
RDWY-06	RDWY-06 Street- 6th Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Vaughn St to Laredo St	$1,600,000 to $2,400,000	Short
RDWY-07	RDWY-07 Street- Mississippi Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Peoria St to Airport Blvd/Buckley Rd	$2,560,000 to $3,840,000	Short
RDWY-08	RDWY-08 Street- Iliff Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Peoria St to Tower Rd	$3,440,000 to $5,160,000	Short
RDWY-09	RDWY-09 Street- Hampden Ave	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Chambers Rd to Airport Blvd/Buckley Rd	$400,000 to $550,000	Short
RDWY-10	RDWY-10 Street- Parker Rd	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Havana St to Hampden Ave	$480,000 to $720,000	Short
RDWY-11	RDWY-11 Street- Chambers Rd	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Iliff Ave to Alameda Ave	$1,600,000 to $2,400,000	Medium
RDWY-12	RDWY-12 Street- Airport Blvd/Buckley Rd	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Smoky Hill Rd to Alameda Ave	$2,200,000 to $3,080,000	Medium
RDWY-13	RDWY-13 Street- Aurora Pkwy	Safety and Operation Improvements	Intersection Safety Technology Upgrades	Smoky Hill Rd to Gun Club Rd	$900,000 to $1,260,000	Medium
RDWY-14	RDWY-14 Street- E 1st Ave	Complete Streets	Widen to 2 lanes; Construct missing sidewalk segment and ADA ramps.	Jamestown Way to Kellerman St	$1,710,000 to $2,090,000	Short
RDWY-15	RDWY-15 Street- Gun Club Rd/SH 30/6th Ave	Street Widening	Widen to 4 lanes	Yale Ave to Airport Blvd	$109,390,000 to $148,070,000	Short
RDWY-16	RDWY-16 Street- S Harvest Rd	Complete Streets	New 4 lane arterial; Construct shared use paths.	Whitaker Dr to Quincy Ave	$8,830,000 to $11,890,000	Long
RDWY-17	RDWY-17 Street- Powhaton Rd	Complete Streets	Roadway reconstruction: Construct the missing sidewalk segment and ADA ramps.	Smoky Hill Rd to Sampson Gulch Way/County Line Rd	$8,460,000 to $10,340,000	Short
RDWY-18	RDWY-18 Street- E 6th Pkwy	Complete Streets	Widen westbound to 2 lanes; Construct shared use path.	Harvest Rd to 6th Ave	$4,800,000 to $6,470,000	Long
RDWY-19	RDWY-19 Street- N Tower Rd	Complete Streets	New 4 lane arterial; Construct shared use paths.	6th Ave to Colfax Ave	$56,000,000 to $84,000,000	Short
RDWY-20	RDWY-20 Street- Baranmor Pkwy	Traffic Calming	Install speed cushions	Peoria St to Xanadu St	$160,000 to $240,000	Long
RDWY-21	RDWY-21 Street- Laredo St	Traffic Calming	Median refuges, curb extensions, and ADA upgrades	Colfax Ave to 6th Ave	$600,000 to $900,000	Short
RDWY-22	RDWY-22 Street- Glasgow Dr	Traffic Calming	Median refuges, curb extensions, and ADA upgrades	Aurora Pkwy to Smoky Hill Rd	$600,000 to $900,000	Short
RDWY-23	RDWY-23 Street- Sable Blvd	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Smith Rd to 28th Ave	$4,680,000 to $5,720,000	Long
RDWY-24	RDWY-24 Street- Quincy Ave	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Gun Club Rd to Harvest Rd	$3,890,000 to $5,240,000	Long
RDWY-25	RDWY-25 Street- Quincy Ave	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Harvest Rd to Powhaton	$4,290,000 to $5,770,000	Long
RDWY-26	RDWY-26 Street- Picadilly Rd	Complete Streets	Widen to 4 lanes; Construct shared use paths.	11th Ave to Stephen D. Hogan	$3,660,000 to $4,930,000	Long
RDWY-27	RDWY-27 Street- Mississippi Ave	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Aspen St to Louisiana Ave	$880,000 to $1,180,000	Long
RDWY-28	RDWY-28 Street- Joliet St	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	South of Warren Ave	$900,000 to $1,100,000	Short
RDWY-29	RDWY-29 Street- Asbury Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	Kenton Ct to Lima St	$765,000 to $935,000	Short
RDWY-30	RDWY-30 Street- Evans Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	Kingston Ct to Lima St	$559,000 to $683,000	Short
RDWY-34	RDWY-34 Street- Jewell Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps: Signal rebuild at Jewell Ave and Lima St.	Jewell Ave to Kingston St	$4,770,00 to $5,830,000	Short

Street Projects (cont'd)

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
RDWY-35	RDWY-35 Street- Gun Club Rd	Complete Streets	Widen to 4 lanes; Signal rebuild and safey; Construct shared use paths.	Quincy Ave to Aurora Pkwy	$27,200,000 to $40,800,000	Short
RDWY-36	RDWY-36 Street- Gun Club Rd	Street Widening	Widen to 4 lanes	SH 30 to 6th Ave	$19,760,000 to $26,600,000	Long
RDWY-37	RDWY-37 Street- E Stephen D Hogan Pkwy	Street Widening	Widen to 4 lanes; Construct shared use paths.	Hwy 30 to E-470	$22,300,000 to $30,020,000	Medium
RDWY-38	RDWY-38 Street- E Jewell Ave	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Dunkirk St to Gun Club Rd	$26,910,000 to $36,220,000	Medium
RDWY-39	RDWY-39 Street- Tower Rd	Complete Streets	Widen to 4 lanes; Construct shared use paths.	Colfax Ave to I-70	$10,400,000 to $15,600,000	Long

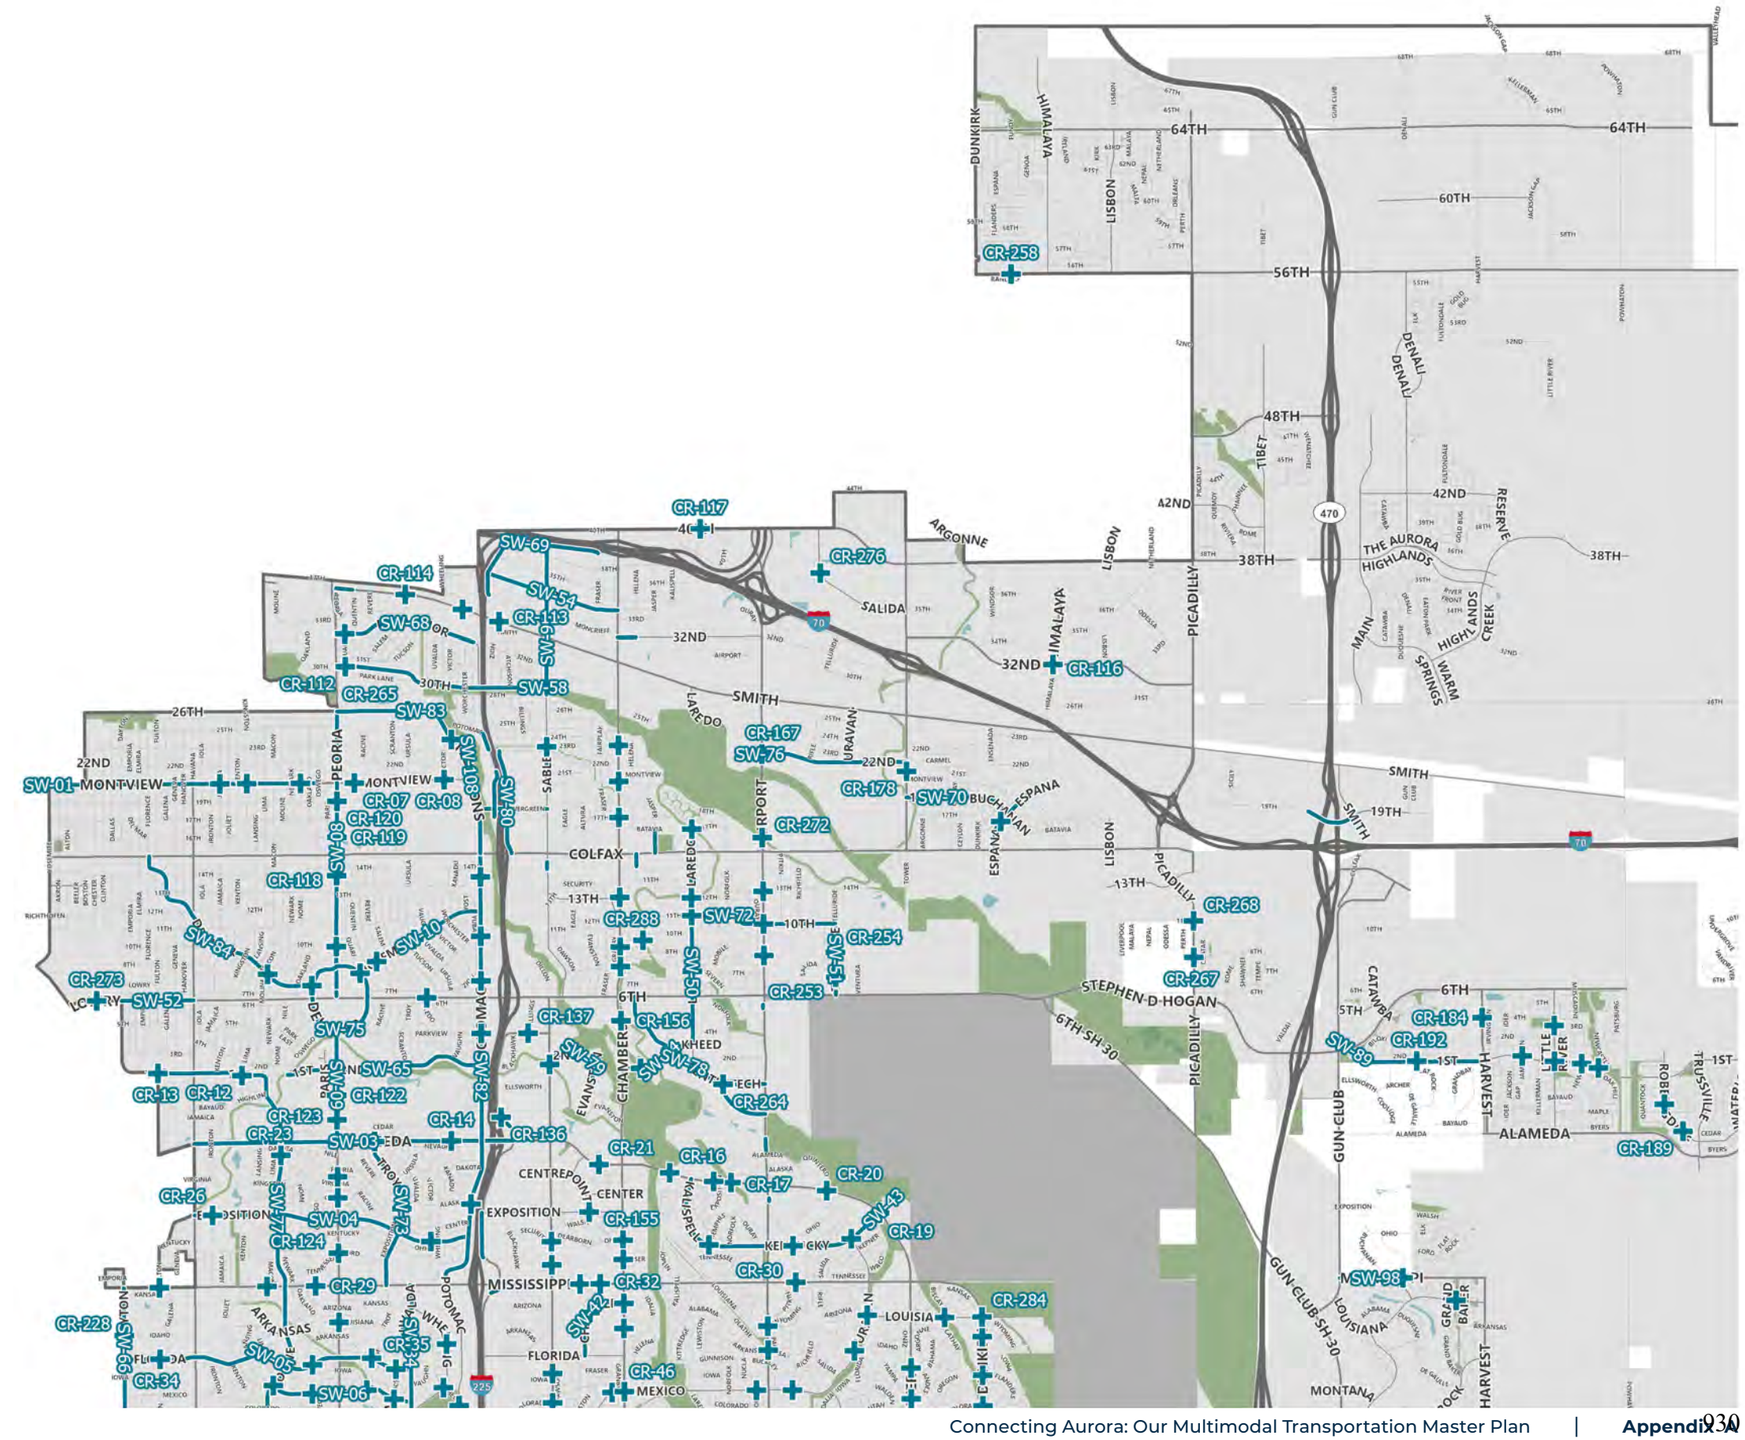
RDWY-42	RDWY-42 Street - Florida Ave	Traffic Calming	Median refuges, curb extensions, and ADA upgrades	Havana St to Peoria St	$100,000 to $150,000	Short
RDWY-43	RDWY-43 Street - Heather Gardens Way	Traffic Calming	Install speed cushions	Marine Dr to Yale Ave	$40,000 to $80,000	Short
RDWY-44	RDWY-44 Street - Dawson St/Navarro Pl	Traffic Calming	Install speed cushions	Purdue Pl to Eagle Ct	$40,000 to $80,000	Short
RDWY-45	RDWY-45 Street - Dillon Way	Traffic Calming	Install speed cushions	Quincy Ave to Carson St	$56,000 to $84,000	Short
RDWY-46	RDWY-46 Street - Peakview Dr	Traffic Calming	Install speed cushions	Arapahoe Rd to Smoky Hill Rd	$40,000 to $80,000	Short
RDWY-47	RDWY-47 Street- Warren Ave	Complete Streets	Roadway reconstruction; Construct missing sidewalk segment and ADA ramps.	West of Lima St	$2,840,000 to $3,470,000	Short
RDWY-48	RDWY-48 Street - Montview Blvd	Complete Streets	Roadway reconstruction; Install wider sidewalks and bike lanes; Signal rebuild and safety	Peoria St to Fitzimons Pkwy	$35,000,000 to $43,000,000	Short
RDWY-49	RDWY-49 Street - 13th Ave	Complete Streets	Roadway reconstruction; Install wider sidewalks and bike lanes; Signal rebuild and safety	Yosemite St to Highline Canal	$20,000,000 to $30,000,000	Medium
RDWY-50	RDWY-50 Street - 13th Ave	Traffic Calming	Traffic calming and safety improvements near schools.	Yosemite St to Highline Canal	$4,800,000 to $7,200,000	Short

Intersection Projects

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
INT-01	INT-01 Intersection- 11th Ave and Fulton St	Safety and Operation Improvements	Minor Intersection Improvements	11th Ave and Fulton St	$500,000 to $1,500,000	Short
INT-02	INT-02 Intersection- 11th Ave and Chester St	Safety and Operation Improvements	Minor Intersection Improvements	11th Ave and Chester St	$500,000 to $1,500,000	Short
INT-03	INT-03 Intersection- Alameda Ave and High Line Canal Trail	Bridges and Interchanges	Minor Bridge	Alameda Ave and High Line Canal Trail	$8,500,000 to $11,500,000	Long
INT-04	INT-04 Intersection- Alameda Ave and Lansing St	Signals and Roundabouts	New Signal	Alameda Ave and Lansing St	$800,000 to $1,200,000	Long
INT-05	INT-05 Intersection- Alameda Ave and Moline St	Safety and Operation Improvements	Signal Rebuild and Safety	Alameda Ave and Moline St	$500,000 to $1,500,000	Long
INT-06	INT-06 Intersection- Alameda Ave and Nome St	Signals and Roundabouts	New Signal	Alameda Ave and Nome St	$800,000 to $1,200,000	Long
INT-07	INT-07 Intersection- Alameda Ave and Peoria St	Safety and Operation Improvements	Signal Rebuild and Safety	Alameda Ave and Peoria St	$500,000 to $1,500,000	Long
INT-08	INT-08 Intersection- Alameda Ave and Ursula Way	Signals and Roundabouts	New Signal	Alameda Ave and Ursula Way	$800,000 to $1,200,000	Long
INT-09	INT-09 Intersection- Alameda Ave and Potomac St	Safety and Operation Improvements	Minor Intersection Improvements	Alameda Ave and Potomac St	$500,000 to $1,500,000	Long
INT-10	INT-10 Intersection- Alameda Ave and Sable Blvd.	Safety and Operation Improvements	Minor Intersection Improvements	Alameda Ave and Sable Blvd.	$500,000 to $1,500,000	Short
INT-11	INT-11 Intersection- Amherst Wy and S Peoria St	Signals and Roundabouts	Signal Rebuild and Safety	Amherst Wy and S Peoria St	$800,000 to $1,200,000	Long
INT-13	INT-13 Intersection- 17th Ave and Galena St	Signals and Roundabouts	Complete Streets	17th Ave and Galena St	$500,000 to $1,500,000	Short
INT-15	INT-15 Intersection- 19th Ave and Dayton St	Signals and Roundabouts	Complete Streets	19th Ave and Dayton St	$500,000 to $1,500,000	Short
INT-16	INT-16 Intersection- 17th Ave and Chester St	Signals and Roundabouts	Complete Streets	17th Ave and Chester St	$500,000 to $1,500,000	Short
INT-17	INT-17 Intersection- Del Mar Cir and Peoria St	Signals and Roundabouts	Signal Rebuild and Safety	Del Mar Cir and Peoria St	$800,000 to $1,200,000	Short
INT-18	INT-18 Intersection- Montview Blvd and Dayton St	Signals and Roundabouts	Signal Rebuild and Safety	Montview Blvd and Dayton St	$800,000 to $1,200,000	Short
INT-19	INT-19 Intersection- Powhaton Rd and Mineral Dr	Signals and Roundabouts	New Signal	Powhaton Rd and Mineral Dr	$800,000 to $1,200,000	Long
INT-20	INT-20 Intersection- Smoky Hill Pkwy and S Country Club Pkwy	Signals and Roundabouts	New Signal	Smoky Hill Pkwy and S Country Club Pkwy	$800,000 to $1,200,000	Long
INT-21	INT-21 Intersection- E 4th Ave and Sable Blvd	Signals and Roundabouts	New Signal	4th Ave and Sable Blvd	$800,000 to $1,200,000	Long
INT-22	INT-22 Intersection- 4th Way and Havana St	Signals and Roundabouts	New Signal	4th Way and Havana St	$800,000 to $1,200,000	Long
INT-23	INT-23 Intersection- Colfax Ave and Gun Club Rd	Signals and Roundabouts	New Signal	Colfax Ave and Gun Club Rd	$800,000 to $1,200,000	Long
INT-24	INT-24 Intersection- E Colfax Ave and Altura Blvd	Signals and Roundabouts	New Signal	E Colfax Ave and Altura Blvd	$800,000 to $1,200,000	Long
INT-25	INT-25 Intersection- Gartrell Rd and E-470	Bridges and Interchanges	Minor Bridge	Gartrell Rd	$8,500,000 to $11,500,000	Short
INT-26	INT-26 Intersection- Aurora Pkwy and E-470	Bridges and Interchanges	Major Bridge	Aurora Pkwy and E-470	$21,000,000 to $35,000,000	Short
INT-27	INT-27 Intersection- Peoria St and Sand Creek	Bridges and Interchanges	Major Bridge	Peoria St and Sand Creek	$28,000,000 to $42,000,000	Short
INT-28	INT-28 Intersection- Alameda Ave and I-225	Bridges and Interchanges	Interchange	Alameda Ave and I-225	$40,000,000 to $60,000,000	Short
INT-29	INT-29 Intersection- Chambers Rd north of Smith	Bridges and Interchanges	Major Bridge	Chambers Rd north of Smith	$21,000,000 to $35,000,000	Medium
INT-30	INT-30 Intersection- 6th Pkwy and E-470	Bridges and Interchanges	Minor Bridge	6th Pkwy and E-470	$8,500,000 to $11,500,000	Medium
INT-31	INT-31 Intersection- First Creek and Picadilly Rd	Bridges and Interchanges	Major Bridge	First Creek and Picadilly Rd	$21,000,000 to $35,000,000	Short
INT-32	INT-32 Intersection- Picadilly Rd and UPRR	Bridges and Interchanges	Major Bridge	Picadilly Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-33	INT-33 Intersection- Harvest Rd and Smith Rd and UPRR	Bridges and Interchanges	Major Bridge	Harvest Rd and Smith Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-34	INT-34 Intersection- Powhaton Rd and UPRR	Bridges and Interchanges	Major Bridge	Powhaton Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-35	INT-35 Intersection- Monaghan Rd and UPRR	Bridges and Interchanges	Major Bridge	Monaghan Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-36	INT-36 Intersection- Hayesmount Rd and UPRR	Bridges and Interchanges	Major Bridge	Hayesmount Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-37	INT-37 Intersection- Watkins and UPRR	Bridges and Interchanges	Major Bridge	Watkins and UPRR	$21,000,000 to $35,000,000	Long
INT-38	INT-38 Intersection- Quail Run Rd and UPRR	Bridges and Interchanges	Major Bridge	Quail Run Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-39	INT-39 Intersection- Manila Rd and UPRR	Bridges and Interchanges	Major Bridge	Manila Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-40	INT-40 Intersection- Schumaker Rd and UPRR	Bridges and Interchanges	Major Bridge	Schumaker Rd and UPRR	$21,000,000 to $35,000,000	Long
INT-41	INT-41 Intersection- Fitzsimons Pkwy and Peoria St	Safety and Operation Improvements	Minor Intersection Improvements	Fitzsimons Pkwy and Peoria St	$500,000 to $1,500,000	Medium
INT-42	INT-42 Intersection- Memphis St and Pheasant Run	Signals and Roundabouts	Roundabout	Memphis St and Pheasant Run	$1,600,000 to $4,000,000	Long
INT-43	INT-43 Intersection- Southside Dr and Shady Grove Way	Signals and Roundabouts	Roundabout	Southside Dr and Shady Grove Way	$1,600,000 to $4,000,000	Long
INT-44	INT-44 Intersection- Harvest Rd and E Belleview Ave	Signals and Roundabouts	Roundabout	Harvest Rd and E Belleview Ave	$1,600,000 to $4,000,000	Short
INT-45	INT-45 Intersection- Powhaton Rd and Wheatlands Pkwy	Signals and Roundabouts	Roundabout	Powhaton Rd and Wheatlands Pkwy	$1,600,000 to $4,000,000	Short
INT-46	INT-46 Intersection- Dunkirk St and Jewell Ave	Signals and Roundabouts	Signal Rebuild and Safety	Dunkirk St and Jewell Ave	$800,000 to $1,200,000	Long
INT-47	INT-47 Intersection- Wesley Dr and Dunkirk St	Signals and Roundabouts	Roundabout	Wesley Dr and Dunkirk St	$1,600,000 to $4,000,000	Short
INT-48	INT-48 Intersection- Mississippi Ave and Quentin St	Signals and Roundabouts	New Signal	Mississippi Ave and Quentin St	$1,600,000 to $4,000,000	Short
INT-49	INT-49 Intersection- Addison Ct and Aurora Pkwy	Signals and Roundabouts	New Signal	Addison Ct and Aurora Pkwy	$800,000 to $1,200,000	Medium
INT-50	INT-50 Intersection- Picadilly Road and Quemoy Way	Signals and Roundabouts	New Signal	Picadilly Road and Quemoy Way	$800,000 to $1,200,000	Medium
INT-51	INT-51 Intersection- Tower Rd and 32nd Pkwy	Safety and Operation Improvements	Minor Intersection Improvements	Tower Rd and 32nd Pkwy	$500,000 to $1,500,000	Medium
INT-52	INT-52 Intersection- Valdai Street and 6th Avenue	Signals and Roundabouts	New Signal	Valdai Street and 6th Avenue	$800,000 to $1,200,000	Long
INT-53	INT-53 Intersection- Jewell Ave and Oakland St	Signals and Roundabouts	Roundabout	Jewell Ave and Oakland St	$1,600,000 to $4,000,000	Long
INT-54	INT-54 Intersection- Yale Ave and Racine St	Signals and Roundabouts	Roundabout	Yale Ave and Racine St	$1,600,000 to $4,000,000	Long
INT-55	INT-55 Intersection- 1st Ave and Jamestown Wy	Signals and Roundabouts	Roundabout	1st Ave and Jamestown Wy	$1,600,000 to $4,000,000	Long
INT-56	INT-56 Intersection- 1st Ave and Little River St	Signals and Roundabouts	Roundabout	1st Ave and Little River St	$1,600,000 to $4,000,000	Long

Intersection Projects (cont'd)

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
INT-57	INT-57 Intersection- Del Mar Pkwy and Del Mar Cir	Signals and Roundabouts	New Signal	Del Mar Pkwy and Del Mar Cir	$800,000 to $1,200,000	Long
INT-58	INT-58 Intersection- Louisiana Ave and Wheeling Way	Signals and Roundabouts	Roundabout	Louisiana Ave and Wheeling Way	$1,600,000 to $4,000,000	Medium
INT-59	INT-59 Intersection- Buckley Rd and Toll Gate Creek	Bridges and Interchanges	Major Bridge	Buckley Rd and Toll Gate Creek	$21,000,000 to $35,000,000	Short
INT-60	INT-60 Intersection- E Arapahoe Rd and Ponderosa Trl	Signals and Roundabouts	Signal Rebuild and Safety	E Arapahoe Rd and Ponderosa Trl	$800,000 to $1,200,000	Medium
INT-61	INT-61 Intersection- Arapahoe Rd and Lewiston Wy	Safety and Operation Improvements	Minor Intersection Improvements	Arapahoe Rd and Lewiston Wy	$500,000 to $1,500,000	Medium
INT-62	INT-62 Intersection- Jewell Ave and S Old Tom Morris Rd	Signals and Roundabouts	New Signal	Jewell Ave and S Old Tom Morris Rd	$800,000 to $1,200,000	Short
INT-63	INT-63 Intersection- 2nd Ave and Abilene St	Signals and Roundabouts	New Signal	2nd Ave and Abilene St	$800,000 to $1,200,000	Short
INT-64	INT-64 Intersection - Chambers Rd and Quincy Ave	Safety and Operation Improvements	Signal Rebuild and Safety	Chambers Rd and Quincy Ave	$650,000 to $1,000,000	Short
INT-65	INT-65 Intersection - Mississippi Ave and Moline St	Safety and Operation Improvements	Signal Rebuild and Safety	Mississippi Ave and Moline St	$650,000 to $1,000,000	Short
INT-66	INT-66 Intersection - Iliff Ave and Tower Rd	Safety and Operation Improvements	Signal Rebuild and Safety	Iliff Ave and Tower Rd	$1,200,000 to $1,800,000	Short
INT-67	INT-67 Intersection - Quincy Ave and Memphis St	Safety and Operation Improvements	Signal Rebuild and Safety	Quincy Ave and Memphis St	$1,200,000 to $1,800,000	Short
INT-68	INT-68 Intersection - Sable Blvd and Highline Canal Trail	Safety and Operation Improvements	New Signal	Sable Blvd and Highline Canal Trail	$1,200,000 to $1,800,000	Short
INT-69	INT-69 Intersection -17th Ave and Paris St	Safety and Operation Improvements	Signal Rebuild and Safety	17th Ave and Paris St	$800,000 to $1,200,000	Short
INT-70	INT-70 Intersection - 13th Ave and Vaughn St	Safety and Operation Improvements	Signal Rebuild and Safety	13th Ave and Vaughn St	$800,000 to $1,200,000	Short
INT-71	INT-71 Intersection -11th and Kenton St	Safety and Operation Improvements	Signal Rebuild and Safety	11th and Kenton St	$800,000 to $1,200,000	Short
INT-72	INT-72 Intersection -Exposition and Highline Canal Trail	Safety and Operation Improvements	Signal Rebuild and Safety	Exposition and Highline Canal Trail	$800,000 to $1,200,000	Short
INT-73	INT-73 Intersection -Havana St and 8th Ave	Signals and Roundabouts	Signal Rebuild and Safety	Havana St and 8th Ave	$800,000 to $1,200,000	Short
INT-74	INT-74 Intersection - Princeton Ave and Perdue Dr	Traffic Calming	Install speed cushions	Princeton Ave and Perdue Dr	$20,000 to $30,000	Short
INT-75	INT-75 Intersection - Xanadu Way and Wheeling Way	Traffic Calming	Install speed cushions	Xanadu Way and Wheeling Way	$40,000 to $80,000	Short
INT-76	INT-76 Intersection - Dartmouth Ave and Laredo St	Traffic Calming	Install speed cushions	Dartmouth Ave and Laredo St	$40,000 to $80,000	Short
INT-77	INT-77 Intersection - Dartmouth Elementary School Crossing	Traffic Calming	Signal Rebuild and Safety	Dartmouth Elementary School	$800,000 to $1,200,000	Short
INT-78	INT-78 Intersection - Dartmouth and Dalton Elementary School Crossing	Traffic Calming	Signal Rebuild and Safety	Dartmouth Elementary School	$800,000 to $1,200,000	Short
INT-79	INT-79 Intersection - Southshore Dr and Regional Trail	Traffic Calming	Install speed cushions	Southshore Dr and Regional Trail	$160,000 to $240,000	Short
INT-80	INT-80 Intersection - Buckley Rd and Hampden Ave	Safety and Operation Improvements	Signal Rebuild and Safety	Buckley Rd and Hampden Ave	$650,000 to $1,000,000	Short
INT-81	INT-81 Intersection - Mississippi Ave and Troy St	Safety and Operation Improvements	Signal Rebuild and Safety	Mississippi Ave and Troy St	$1,200,000 to $1,800,000	Short
INT-82	INT-82 Intersection - Chambers Rd and Crestline Ave	Safety and Operation Improvements	Signal Rebuild and Safety	Chambers Rd and Crestline Ave	$800,000 to $1,200,000	Short
INT-83	INT-83 Intersection - Jewell Ave and Lima St	Signals and Roundabouts	Signal Rebuild and Safety	Jewell Ave and Lima St	$800,000 to $1,200,000	Short



Pedestrian Projects

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
CR-01	CR-01 Crossing - Del Mar Cir and Del Mar Pkwy	Bike and Pedestrian Crossings	Pedestrian Crossing	Del Mar Cir and Del Mar Pkwy	$30,000 to $600,000	Short
CR-04	CR-04 Crossing - Montview Blvd and Kingston St	Bike and Pedestrian Crossings	Pedestrian Crossing	Montview Blvd and Kingston St	$30,000 to $600,000	Medium
CR-05	CR-05 Crossing - Montview Blvd and Jamaica St	Bike and Pedestrian Crossings	Pedestrian Crossing	Montview Blvd and Jamaica St	$30,000 to $600,000	Medium
CR-06	CR-06 Crossing - Montview Blvd and Nome St	Bike and Pedestrian Crossings	Pedestrian Crossing	Montview Blvd and Nome St	$30,000 to $600,000	Medium
CR-14	CR-14 Crossing - Alameda Ave and Xapary St	Bike and Pedestrian Crossings	Pedestrian Crossing	Alameda Ave and Xapary St	$30,000 to $600,000	Long
CR-16	CR-16 Crossing - Alameda Pkwy and Joplin St	Bike and Pedestrian Crossings	Pedestrian Crossing	Alameda Pkwy and Joplin St	$30,000 to $600,000	Long
CR-17	CR-17 Crossing - Alameda Pkwy and Norfolk Way	Bike and Pedestrian Crossings	Underpass or Overpass	Alameda Pkwy and Norfolk Way	$9,600,000 to $20,000,000	Long
CR-18	CR-18 Crossing - Alameda Pkwy and Memphis Way	Bike and Pedestrian Crossings	Pedestrian Crossing	Alameda Pkwy and Memphis Way	$30,000 to $600,000	Long
CR-20	CR-20 Crossing - Alameda Pkwy and Quintero Way	Bike and Pedestrian Crossings	Pedestrian Crossing	Alameda Pkwy and Quintero Way	$30,000 to $600,000	Long
CR-28	CR-28 Crossing - Mississippi Ave and Elkhart St	Bike and Pedestrian Crossings	Pedestrian Crossing	Mississippi Ave and Elkhart St	$30,000 to $600,000	Long
CR-29	CR-29 Crossing - Mississippi Ave and Kansas Dr	Bike and Pedestrian Crossings	Pedestrian Crossing	Mississippi Ave and Kansas Dr	$30,000 to $600,000	Long
CR-30	CR-30 Crossing - Mississippi Ave and Quintero St	Bike and Pedestrian Crossings	Pedestrian Crossing	Mississippi Ave and Quintero St	$100,000 to $800,000	Long
CR-31	CR-31 Crossing - Mississippi Ave and Fulton St	Bike and Pedestrian Crossings	Pedestrian Crossing	Mississippi Ave and Fulton St	$30,000 to $600,000	Long
CR-32	CR-32 Crossing - Mississippi Ave and Elkhart St/Chambers Rd	Bike and Pedestrian Crossings	Pedestrian Crossing	Mississippi Ave and Elkhart St/Chambers Rd	$100,000 to $800,000	Long
CR-33	CR-33 Crossing - Mississippi Ave and Lima St	Bike and Pedestrian Crossings	Pedestrian Crossing	Mississippi Ave and Lima St	$30,000 to $600,000	Long
CR-49	CR-49 Crossing - Iliff Ave and Geneva St	Bike and Pedestrian Crossings	Pedestrian Crossing	Iliff Ave and Geneva St	$30,000 to $600,000	Medium
CR-50	CR-50 Crossing - Iliff Ave and Fraser St	Bike and Pedestrian Crossings	Pedestrian Crossing	Iliff Ave and Fraser St	$30,000 to $600,000	Long
CR-51	CR-51 Crossing - Iliff Ave and Waco St	Bike and Pedestrian Crossings	Pedestrian Crossing	Iliff Ave and Waco St	$30,000 to $600,000	Long
CR-53	CR-53 Crossing - Iliff Ave and Warren Dr	Bike and Pedestrian Crossings	Pedestrian Crossing	Iliff Ave and Warren Dr	$30,000 to $600,000	Long
CR-55	CR-55 Crossing - Yale Ave and Racine St	Bike and Pedestrian Crossings	Pedestrian Crossing	Yale Ave and Racine St	$30,000 to $600,000	Medium
CR-62	CR-62 Crossing - Yale Ave and West Toll Gate Creek Trail	Bike and Pedestrian Crossings	Underpass or Overpass	Yale Ave and West Toll Gate Creek Trail	$9,600,000 to $20,000,000	Long
CR-66	CR-66 Crossing - Dartmouth Ave and Kenton St	Bike and Pedestrian Crossings	Pedestrian Crossing	Dartmouth Ave and Kenton St	$30,000 to $600,000	Medium
CR-68	CR-68 Crossing - Dartmouth Ave and Jamaica Ct	Bike and Pedestrian Crossings	Pedestrian Crossing	Dartmouth Ave and Jamaica Ct	$30,000 to $600,000	Medium
CR-71	CR-71 Crossing - Quincy Ave and Fraser St	Bike and Pedestrian Crossings	Pedestrian Crossing	Quincy Ave and Fraser St	$30,000 to $600,000	Long
CR-92	CR-92 Crossing - Arapahoe Rd and Rome Ct	Bike and Pedestrian Crossings	Pedestrian Crossing	Arapahoe Rd and Rome Ct	$30,000 to $600,000	Long
CR-93	CR-93 Crossing - Arapahoe Rd and Glasgow Dr/Plymouth Dr	Bike and Pedestrian Crossings	Pedestrian Crossing	Arapahoe Rd and Glasgow Dr/Plymouth Dr	$30,000 to $600,000	Long
CR-99	CR-99 Crossing - Smoky Hill Rd and Smoky Hill Pkwy	Bike and Pedestrian Crossings	Pedestrian Crossing	Smoky Hill Rd and Smoky Hill Pkwy	$30,000 to $600,000	Long
CR-108	CR-108 Crossing - Harvest Rd and Layton Pl	Bike and Pedestrian Crossings	Pedestrian Crossing	Harvest Rd and Layton Pl	$30,000 to $600,000	Long
CR-109	CR-109 Crossing - Powhaton Rd and Oak Hill Way/Ontario Pl	Bike and Pedestrian Crossings	Pedestrian Crossing	Powhaton Rd and Oak Hill Way/Ontario Pl	$30,000 to $600,000	Long
CR-113	CR-113 Crossing - Smith Rd and Smith Dr	Bike and Pedestrian Crossings	Pedestrian Crossing	Smith Rd and Smith Dr	$30,000 to $600,000	Long
CR-114	CR-114 Crossing - Smith Rd and Scranton St	Bike and Pedestrian Crossings	Pedestrian Crossing	Smith Rd and Scranton St	$30,000 to $600,000	Long
CR-115	CR-115 Crossing - Smith Rd west of I-225	Bike and Pedestrian Crossings	Pedestrian Crossing	Smith Rd west of I-225	$30,000 to $600,000	Long
CR-116	CR-116 Crossing - 32nd Pkwy and Himalaya Rd	Bike and Pedestrian Crossings	Pedestrian Crossing	32nd Pkwy and Himalaya Rd	$30,000 to $600,000	Short
CR-117	CR-117 Crossing - 40th Ave and Lewiston St/Memphis Ct	Bike and Pedestrian Crossings	Pedestrian Crossing	40th Ave and Lewiston St/Memphis Ct	$30,000 to $600,000	Long
CR-118	CR-118 Crossing - Peoria St and 14th Ave/13th Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and 14th Ave/13th Ave	$30,000 to $600,000	Long
CR-119	CR-119 Crossing - Peoria St and 16th Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and 16th Ave	$30,000 to $600,000	Long
CR-120	CR-120 Crossing - Peoria St and 19th Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and 19th Ave	$30,000 to $600,000	Long
CR-121	CR-121 Crossing - Peoria St and Quari Ct	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Quari Ct	$30,000 to $600,000	Long
CR-122	CR-122 Crossing - Peoria St and Archer Pl	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Archer Pl	$30,000 to $600,000	Long
CR-123	CR-123 Crossing - Peoria St and Maple Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Maple Ave	$30,000 to $600,000	Long
CR-124	CR-124 Crossing - Peoria St and Ford Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Ford Ave	$30,000 to $600,000	Long
CR-125	CR-125 Crossing - Peoria St and Warren Pl	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Warren Pl	$30,000 to $600,000	Long
CR-126	CR-126 Crossing - Peoria St and Louisiana Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Louisiana Ave	$30,000 to $600,000	Long
CR-127	CR-127 Crossing - Peoria St and Center Ave	Bike and Pedestrian Crossings	Pedestrian Crossing	Peoria St and Center Ave	$30,000 to $600,000	Long

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
CR-02	CR-02 Crossing - Del Mar Pkwy and Moline St	Bike and Pedestrian Crossings	Bike Network Crossing	Del Mar Pkwy and Moline St	$100,000 to $800,000	Short
CR-03	CR-03 Crossing - Del Mar Pkwy and Jamaica St	Bike and Pedestrian Crossings	Bike Network Crossing	Del Mar Pkwy and Jamaica St	$100,000 to $800,000	Short
CR-07	CR-07 Crossing - Montview Blvd and Quentin St	Bike and Pedestrian Crossings	Bike Network Crossing	Montview Blvd and Quentin St	$100,000 to $800,000	Short
CR-08	CR-08 Crossing - Montview Blvd and Victor St	Bike and Pedestrian Crossings	Bike Network Crossing	Montview Blvd and Victor St	$100,000 to $800,000	Short
CR-09	CR-09 Crossing - Lima St and Warren Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Lima St and Warren Ave	$100,000 to $800,000	Medium
CR-10	CR-10 Crossing - Mexico Ave and Moline St	Bike and Pedestrian Crossings	Bike Network Crossing	Mexico Ave and Moline St	$100,000 to $800,000	Medium
CR-11	CR-11 Crossing - Lima St and Evans Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Lima St and Evans Ave	$100,000 to $800,000	Medium
CR-12	CR-12 Crossing - 1st Ave and Lima St	Bike and Pedestrian Crossings	Bike Network Crossing	1st Ave and Lima St	$100,000 to $800,000	Medium
CR-13	CR-13 Crossing - 1st Ave and Fulton St	Bike and Pedestrian Crossings	Bike Network Crossing	1st Ave and Fulton St	$100,000 to $800,000	Medium
CR-15	CR-15 Crossing - Alameda Ave and Troy St	Bike and Pedestrian Crossings	Bike Network Crossing	Alameda Ave and Troy St	$100,000 to $800,000	Long
CR-19	CR-19 Crossing - Alameda Pkwy and Kentucky Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Alameda Pkwy and Kentucky Ave	$100,000 to $800,000	Long
CR-21	CR-21 Crossing - Alameda Pkwy and Fraser Ct	Bike and Pedestrian Crossings	Bike Network Crossing	Alameda Pkwy and Fraser Ct	$100,000 to $800,000	Long
CR-22	CR-22 Crossing - Troy St and Alaska Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Troy St and Alaska Ave	$100,000 to $800,000	Medium
CR-23	CR-23 Crossing - Moline St and Alaska Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Moline St and Alaska Ave	$100,000 to $800,000	Medium
CR-24	CR-24 Crossing - Potomac St and Alaska Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Potomac St and Alaska Pl	$100,000 to $800,000	Medium
CR-25	CR-25 Crossing - Peoria St and Alaska Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Peoria St and Alaska Ave	$100,000 to $800,000	Medium
CR-26	CR-26 Crossing - Exposition Ave and Ironton St	Bike and Pedestrian Crossings	Bike Network Crossing	Exposition Ave and Ironton St	$100,000 to $800,000	Long
CR-27	CR-27 Crossing - Exposition Ave and Victor Way	Bike and Pedestrian Crossings	Bike Network Crossing	Exposition Ave and Victor Way	$100,000 to $800,000	Long
CR-34	CR-34 Crossing - Florida Ave and Fulton St	Bike and Pedestrian Crossings	Bike Network Crossing	Florida Ave and Fulton St	$100,000 to $800,000	Medium
CR-35	CR-35 Crossing - Florida Ave and Salem Cir/Salem Way	Bike and Pedestrian Crossings	Bike Network Crossing	Florida Ave and Salem Cir/Salem Way	$100,000 to $800,000	Medium
CR-36	CR-36 Crossing - Florida Ave and Oakland St	Bike and Pedestrian Crossings	Bike Network Crossing	Florida Ave and Oakland St	$100,000 to $800,000	Medium
CR-37	CR-37 Crossing - Florida Ave and Tucson St	Bike and Pedestrian Crossings	Bike Network Crossing	Florida Ave and Tucson St	$100,000 to $800,000	Medium
CR-38	CR-38 Crossing - Mexico Ave and Westerly Creek Trail	Bike and Pedestrian Crossings	Bike Network Crossing	Mexico Ave and Westerly Creek Trail	$100,000 to $800,000	Long
CR-39	CR-39 Crossing - Mexico Ave and Oakland St	Bike and Pedestrian Crossings	Bike Network Crossing	Mexico Ave and Oakland St	$100,000 to $800,000	Long
CR-40	CR-40 Crossing - Mexico Ave and Tucson St	Bike and Pedestrian Crossings	Bike Network Crossing	Mexico Ave and Tucson St	$100,000 to $800,000	Long
CR-41	CR-41 Crossing - Mexico Dr and Evanston St	Bike and Pedestrian Crossings	Bike Network Crossing	Mexico Dr and Evanston St	$100,000 to $800,000	Medium
CR-42	CR-42 Crossing - Mexico Dr and Oregon Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Mexico Dr and Oregon Dr	$100,000 to $800,000	Medium
CR-43	CR-43 Crossing - Jewell Ave and Sable Blvd/Evanston	Bike and Pedestrian Crossings	Bike Network Crossing	Jewell Ave and Sable Blvd/Evanston	$100,000 to $800,000	Medium
CR-44	CR-44 Crossing - Jewell Ave and Oakland St	Bike and Pedestrian Crossings	Bike Network Crossing	Jewell Ave and Oakland St	$100,000 to $800,000	Medium
CR-45	CR-45 Crossing - Jewell Ave and Tucson St/Vaughn Way	Bike and Pedestrian Crossings	Bike Network Crossing	Jewell Ave and Tucson St/Vaughn Way	$100,000 to $800,000	Medium
CR-46	CR-46 Crossing - Chambers Rd and Mexico Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Mexico Ave	$100,000 to $800,000	Medium
CR-47	CR-47 Crossing - Jewell Ave and Kenton St	Bike and Pedestrian Crossings	Bike Network Crossing	Jewell Ave and Kenton St	$100,000 to $800,000	Medium
CR-48	CR-48 Crossing - Iliff Ave and Oswego St	Bike and Pedestrian Crossings	Bike Network Crossing	Iliff Ave and Oswego St	$100,000 to $800,000	Medium
CR-52	CR-52 Crossing - Jewell Ave and Genoa St	Bike and Pedestrian Crossings	Bike Network Crossing	Jewell Ave and Genoa St	$100,000 to $800,000	Long
CR-54	CR-54 Crossing - Iliff Ave and Baltic Pl/Elkhart St	Bike and Pedestrian Crossings	Bike Network Crossing	Iliff Ave and Baltic Pl/Elkhart St	$100,000 to $800,000	Long
CR-56	CR-56 Crossing - Yale Ave and Anaheim St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Anaheim St	$100,000 to $800,000	Medium
CR-57	CR-57 Crossing - Yale Ave and Elkhart St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Elkhart St	$100,000 to $800,000	Medium
CR-58	CR-58 Crossing - Yale Ave and Nome St/Oakland St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Nome St/Oakland St	$100,000 to $800,000	Medium
CR-59	CR-59 Crossing - Yale Ave and Vaughn Way	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Vaughn Way	$100,000 to $800,000	Medium
CR-60	CR-60 Crossing - Yale Ave and Lima St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Lima St	$100,000 to $800,000	Medium
CR-61	CR-61 Crossing - Yale Ave and Truckee St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Truckee St	$100,000 to $800,000	Long
CR-63	CR-63 Crossing - Yale Ave and Pagosa St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Pagosa St	$100,000 to $800,000	Long
CR-64	CR-64 Crossing - Yale Ave and Jasper St	Bike and Pedestrian Crossings	Bike Network Crossing	Yale Ave and Jasper St	$100,000 to $800,000	Long
CR-65	CR-65 Crossing - Dartmouth Ave and Bethany Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Dartmouth Ave and Bethany Dr	$100,000 to $800,000	Medium
CR-67	CR-67 Crossing - Cornell Ave and Cornell Cir	Bike and Pedestrian Crossings	Bike Network Crossing	Cornell Ave and Cornell Cir	$100,000 to $800,000	Medium
CR-69	CR-69 Crossing - Quincy Ave and Halifax Way	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Halifax Way	$100,000 to $800,000	Long
CR-70	CR-70 Crossing - Quincy Ave and Jasper St	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Jasper St	$100,000 to $800,000	Long
CR-72	CR-72 Crossing - Quincy Ave and Eagle Ct/Pheasant Run Pkwy	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Eagle Ct/Pheasant Run Pkwy	$100,000 to $800,000	Long
CR-73	CR-73 Crossing - Quincy Ave and Nucla St	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Nucla St	$100,000 to $800,000	Long
CR-74	CR-74 Crossing - Quincy Ave and Malta St	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Malta St	$100,000 to $800,000	Long
CR-75	CR-75 Crossing - Quincy Ave and Chambers Way	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Chambers Way	$100,000 to $800,000	Long
CR-76	CR-76 Crossing - Quincy Ave/Airline Rd and Gun Club Rd	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave/Airline Rd and Gun Club Rd	$100,000 to $800,000	Long
CR-77	CR-77 Crossing - Quincy Ave and Dillon Way	Bike and Pedestrian Crossings	Bike Network Crossing	Quincy Ave and Dillon Way	$100,000 to $800,000	Long

CR-83	CR-83 Crossing - Southshore Dr and Ottawa Dr/Uriah St	Bike and Pedestrian Crossings	Bike Network Crossing	Southshore Dr and Ottawa Dr/Uriah St	$100,000 to $800,000	Long
CR-84	CR-84 Crossing - Southshore Dr and Costilla Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Southshore Dr and Costilla Dr	$100,000 to $800,000	Long
CR-85	CR-85 Crossing - Smoky Hill Rd and Ottawa Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Smoky Hill Rd and Ottawa Pl	$100,000 to $800,000	Long
CR-86	CR-86 Crossing - Shady Grove Way and Costilla Dr/Ottawa Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Shady Grove Way and Costilla Dr/Ottawa Dr	$100,000 to $800,000	Long
CR-87	CR-87 Crossing - Oak Hill Way and Millbrook Way/Old Hammer Way	Bike and Pedestrian Crossings	Bike Network Crossing	Oak Hill Way and Millbrook Way/Old Hammer Way	$100,000 to $800,000	Long
CR-88	CR-88 Crossing - Shady Grove Way and Quarto Ave/Davies Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Shady Grove Way and Quarto Ave/Davies Ave	$100,000 to $800,000	Long
CR-89	CR-89 Crossing - Southshore Pkwy and Quantock Way	Bike and Pedestrian Crossings	Bike Network Crossing	Southshore Pkwy and Quantock Way	$100,000 to $800,000	Long
CR-90	CR-90 Crossing - Oak Hill Way and Old Hammer Way/Oak Hill Cir	Bike and Pedestrian Crossings	Bike Network Crossing	Oak Hill Way and Old Hammer Way/Oak Hill Cir	$100,000 to $800,000	Long
CR-91	CR-91 Crossing - Southshore Dr and Glasgow Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Southshore Dr and Glasgow Pl	$100,000 to $800,000	Long
CR-94	CR-94 Crossing - Wheatlands Pkwy and Harvest St	Bike and Pedestrian Crossings	Bike Network Crossing	Wheatlands Pkwy and Harvest St	$100,000 to $800,000	Long
CR-95	CR-95 Crossing - Wheatlands Pkwy and Southlands Pkwy/Euclid Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Wheatlands Pkwy and Southlands Pkwy/Euclid Pl	$100,000 to $800,000	Long
CR-95	CR-95 Crossing - Wheatlands Pkwy and Southlands Pkwy/Euclid Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Wheatlands Pkwy and Southlands Pkwy/Euclid Pl	$100,000 to $800,000	Long
CR-96	CR-96 Crossing - Irish Dr and Coolidge Way/Elk Ct	Bike and Pedestrian Crossings	Bike Network Crossing	Irish Dr and Coolidge Way/Elk Ct	$100,000 to $800,000	Long
CR-97	CR-97 Crossing - Sampson Gulch Way and Haleyville Way	Bike and Pedestrian Crossings	Bike Network Crossing	Sampson Gulch Way and Haleyville Way	$100,000 to $800,000	Long
CR-98	CR-98 Crossing - Sampson Gulch Way and Haleyville Way/Mineral Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Sampson Gulch Way and Haleyville Way/Mineral Dr	$100,000 to $800,000	Long
CR-100	CR-100 Crossing - Tallyns Reach Pkwy and Ottawa Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Tallyns Reach Pkwy and Ottawa Dr	$100,000 to $800,000	Long
CR-101	CR-101 Crossing - Glasgow Dr and Jackson Gap Way/Park Crescent Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Glasgow Dr and Jackson Gap Way/Park Crescent Dr	$100,000 to $800,000	Long
CR-102	CR-102 Crossing - Glasgow Dr and Park Crescent Dr/Park Crescent Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Glasgow Dr and Park Crescent Dr/Park Crescent Pl	$100,000 to $800,000	Long
CR-103	CR-103 Crossing - Aurora Pkwy and Briarwood Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Aurora Pkwy and Briarwood Dr	$100,000 to $800,000	Long
CR-104	CR-104 Crossing - Plymouth Dr and Arapahoe Rd/Portland Way	Bike and Pedestrian Crossings	Bike Network Crossing	Plymouth Dr and Arapahoe Rd/Portland Way	$100,000 to $800,000	Long
CR-105	CR-105 Crossing - Plymouth Dr and Buchanan St/Portland Way	Bike and Pedestrian Crossings	Bike Network Crossing	Plymouth Dr and Buchanan St/Portland Way	$100,000 to $800,000	Long
CR-106	CR-106 Crossing - Powhaton Rd and Walker Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Powhaton Rd and Walker Dr	$100,000 to $800,000	Long
CR-107	CR-107 Crossing - Powhaton Rd and Glasgow Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Powhaton Rd and Glasgow Pl	$100,000 to $800,000	Long
CR-110	CR-110 Crossing - Harvest Rd and Whitaker Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Harvest Rd and Whitaker Dr	$100,000 to $800,000	Long
CR-111	CR-111 Crossing - Baranmor Pkwy and Quari St	Bike and Pedestrian Crossings	Bike Network Crossing	Baranmor Pkwy and Quari St	$100,000 to $800,000	Medium
CR-112	CR-112 Crossing - 30th Ave and Park Lane Dr/Quari St	Bike and Pedestrian Crossings	Bike Network Crossing	30th Ave and Park Lane Dr/Quari St	$100,000 to $800,000	Medium
CR-129	CR-129 Crossing - Potomac St and Parkview Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Potomac St and Parkview Dr	$100,000 to $800,000	Medium
CR-133	CR-133 Crossing - Hoffman Blvd and Ursula St	Bike and Pedestrian Crossings	Bike Network Crossing	Hoffman Blvd and Ursula St	$100,000 to $800,000	Long
CR-134	CR-134 Crossing - Del Mar Cir and Hoffman Blvd	Bike and Pedestrian Crossings	Bike Network Crossing	Del Mar Cir and Hoffman Blvd	$100,000 to $800,000	Long
CR-135	CR-135 Crossing - Hoffman Blvd and Racine St	Bike and Pedestrian Crossings	Bike Network Crossing	Hoffman Blvd and Racine St	$100,000 to $800,000	Long
CR-136	CR-136 Crossing - Abilene St and Bayaud Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Abilene St and Bayaud Ave	$100,000 to $800,000	Medium
CR-138	CR-138 Crossing - Sable Blvd and 23rd Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Sable Blvd and 23rd Ave	$100,000 to $800,000	Medium
CR-139	CR-139 Crossing - Sable Blvd and Evans Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Sable Blvd and Evans Ave	$100,000 to $800,000	Medium
CR-143	CR-143 Crossing - Sable Blvd and Kentucky Dr/Security Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Sable Blvd and Kentucky Dr/Security Dr	$100,000 to $800,000	Medium
CR-144	CR-144 Crossing - Sable Blvd and Tennessee Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Sable Blvd and Tennessee Dr	$100,000 to $800,000	Medium
CR-147	CR-147 Crossing - Chambers Rd and Layton Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Layton Pl	$100,000 to $800,000	Long
CR-148	CR-148 Crossing - Chambers Rd and Bates Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Bates Ave	$100,000 to $800,000	Long
CR-150	CR-150 Crossing - Chambers Rd and Floyd Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Floyd Ave	$100,000 to $800,000	Long
CR-151	CR-151 Crossing - Chambers Rd and Fraser Cir	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Fraser Cir	$100,000 to $800,000	Long
CR-152	CR-152 Crossing - Chambers Rd and Nassau Ave/Nassau Dr	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Nassau Ave/Nassau Dr	$100,000 to $800,000	Long
CR-155	CR-155 Crossing - Chambers Rd and Ohio Ave/Ada Pl	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Ohio Ave/Ada Pl	$100,000 to $800,000	Medium

Bikeway Projects (cont'd)

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
CR-159	CR-159 Crossing - Chambers Rd and Chambers Cir/Arizona Ave	Bike and Pedestrian Crossings	Bike Network Crossing	Chambers Rd and Chambers Cir/Arizona Ave	$100,000 to $800,000	Medium

Transit Projects

ID	Project Name	Project Category	Recommendation	Location-Extents	Cost Range	Construction Phase
MH-01	Mobility Hub Anschutz	Transit Service and Hubs	Major Mobility Hub	Anschutz Campus	$12,800,000 to $17,300,000	Long
MH-02	Mobility Hub Southlands	Transit Service and Hubs	Major Mobility Hub	Southlands	$12,800,000 to $17,300,000	Long
MH-03	Mobility Hub Town Center	Transit Service and Hubs	Major Mobility Hub	City Center	$12,800,000 to $17,300,000	Long
MH-04	Florida Station	Transit Service and Hubs	Major Mobility Hub	Florida Station	$12,800,000 to $17,300,000	Long
MH-05	Peoria Station	Transit Service and Hubs	Major Mobility Hub	Peoria Station	$12,800,000 to $17,300,000	Long
MH-06	Colfax/Dayton Station	Transit Service and Hubs	Mid Mobility Hub	Colfax/Dayton Station	$5,100,000 to $6,900,000	Long
MH-07	Aurora CC	Transit Service and Hubs	Mid Mobility Hub	Aurora Community College	$5,100,000 to $6,900,000	Long
MH-08	Iliff Station	Transit Service and Hubs	Mid Mobility Hub	Iliff Station	$5,100,000 to $6,900,000	Long
MH-09	Jewell/470	Transit Service and Hubs	Mid Mobility Hub	Jewell470	$5,100,000 to $6,900,000	Long
MH-10	Parker/Arapahoe	Transit Service and Hubs	Mid Mobility Hub	Parker/Arapahoe	$5,100,000 to $6,900,000	Long
MH-11	Havana/Alameda	Transit Service and Hubs	Mid Mobility Hub	Havana/Alameda	$5,100,000 to $6,900,000	Long
MH-12	Tower Industrial Area	Transit Service and Hubs	Mid Mobility Hub	Tower Industrial Area	$5,100,000 to $6,900,000	Long
MH-13	Nine Mile Station	Transit Service and Hubs	Minor Mobility Hub	Nine Mile Station	$1,300,000 to $1,700,000	Long
MH-14	Parker/Iliff/Havana	Transit Service and Hubs	Minor Mobility Hub	Parker/Iliff/Havana	$1,300,000 to $1,700,000	Long
MH-15	Gaylord Area	Transit Service and Hubs	Minor Mobility Hub	Gaylord Area	$1,300,000 to $1,700,000	Long
MH-18	Colfax/Airport	Transit Service and Hubs	Minor Mobility Hub	Colfax/Airport	$1,300,000 to $1,700,000	Long
MH-19	Colfax/Picadilly	Transit Service and Hubs	Minor Mobility Hub	Colfax/Picadilly	$1,300,000 to $1,700,000	Long
MH-20	Bellview/Harvest	Transit Service and Hubs	Mini Mobility Hub	Bellview/Harvest	$100,000 to $200,000	Long
MH-21	Mississippi/Gun Club	Transit Service and Hubs	Mini Mobility Hub	Mississippi/Gun Club	$100,000 to $200,000	Long
MH-22	6th/Harvest	Transit Service and Hubs	Mini Mobility Hub	6th/Harvest	$100,000 to $200,000	Long
MH-23	GVR/HLC	Transit Service and Hubs	Mini Mobility Hub	Green Valley Ranch/HLC	$100,000 to $200,000	Long
MH-24	Montview Plaza	Transit Service and Hubs	Mini Mobility Hub	Montview Plaza	$100,000 to $200,000	Long
MH-25	Del Mar Rec Center	Transit Service and Hubs	Mini Mobility Hub	Del Mar Rec Center	$100,000 to $200,000	Long
MH-26	Tucson/Jewell	Transit Service and Hubs	Mini Mobility Hub	Tucson/Jewell	$100,000 to $200,000	Long
MH-27	Mission Viejo Park	Transit Service and Hubs	Mini Mobility Hub	Mission Viejo Park	$100,000 to $200,000	Long
MH-28	Iliff/Buckley/Riffle	Transit Service and Hubs	Mini Mobility Hub	Iliff/Buckley/Riffle	$100,000 to $200,000	Long
MH-29	Eagle Bend	Transit Service and Hubs	Mini Mobility Hub	Eagle Bend	$100,000 to $200,000	Long
MT-01	Microtransit 1	Transit Service and Hubs	Microtransit	Northeast	$2,500,000 to $10,000,000	Short
MT-02	Microtransit 2	Transit Service and Hubs	Microtransit	North Central	$1,300,000 to $5,000,000	Short
MT-03	Microtransit 3	Transit Service and Hubs	Microtransit	Southeast	$2,500,000 to $10,000,000	Short
MT-04	Microtransit 4	Transit Service and Hubs	Microtransit	Northwest	$1,300,000 to $5,000,000	Short
TC-01	Transit- Peoria	Transit Service and Hubs	High Investment (BRT)	Parker Rd to Smith Rd	$182,900,000 to $274,400,000	Long
TC-02	Transit- Havana	Transit Service and Hubs	High Investment (BRT)	Dartmouth Ave to Montview Blvd	$169,000,000 to $253,500,000	Long
TC-03	Transit- Sable	Transit Service and Hubs	High Investment (BRT)	Mississippi Ave to Colfax Ave	$55,500,000 to $83,200,000	Long
TC-04	Transit- S Sable	Transit Service and Hubs	Low Investment (Enhanced Bus)	Iliff Ave to Mississippi Ave	$10,300,000 to $15,500,000	Long
TC-05	Transit- N Tower / Airport	Transit Service and Hubs	Medium Investment (Rapid bus to full BRT)	72nd Ave to 56th Ave	$211,500,000 to $317,200,000	Long
TC-06	Transit- Chambers	Transit Service and Hubs	Medium Investment (Rapid bus to full BRT)	Parker Rd to Colfax Ave	$215,000,000 to $322,500,000	Long
TC-07	Transit- Alameda Ave	Transit Service and Hubs	High Investment (BRT)	Havana St to Sable Blvd	$66,200,000 to $99,400,000	Long
TC-08	Transit- Mississippi Ave	Transit Service and Hubs	Low Investment (Enhanced Bus)	Sable Blvd to Tower Rd	$24,200,000 to $36,300,000	Long
TC-09	Transit- 6th	Transit Service and Hubs	Low Investment (Enhanced Bus)	I-225 to E-470	$39,800,000 to $59,700,000	Long
TC-10	Transit- Iliff	Transit Service and Hubs	High Investment (BRT)	Parker Rd to E-470	$205,300,000 to $307,900,000	Long
TC-11	Transit- E-470	Transit Service and Hubs	Future Transit Corridor	Citywide	$350,400,000 to $525,600,000	Long
